TRANSLATION

4 April 1950

FROM : Chief, Tottori Branch, Hiroshima Finance Bureau

TO : Mr. Stradley, Chugoku Civil Affairs Region

SUBJECT: Code Numbers on Reparation Items Located at Miho Air Base

1. Location of the said reparation items.

Within compound of Miho Air Base at Oshinozu-Son, Seihaku-Gun, Tottori-Ken.

2. Name of items.

Oil Storage Tanks	10
Turbine Pump	1
Motor (15 HP)	1
Switch Panel	1

3. Particulars regarding the code numbering of above items.

a. The inspection report dated 27 May 1948 submitted by the Koa Oil Co. Ltd. (Evaluation Committee at that time) to Tottori M.G.Team states as follows:

Oil Storage Tanks	10
Turbine Pump	1
Motor	1
Switch Panel	1

b. Since then Mr. Yamamoto of our office inspected the oil tanks on 17 August 1948 and submitted a report and a map indicating the location of each reparation items to Tottori M.G.Team. This was reported with the same numbers as was reported by the Koa Oil Co. Ltd. (Only the tanks were code numbered by the U.S. Air Force at that time).

c. On September 1, 1948 inventory sheets were made and submitted to Tottori Civil Affairs with the following code numbers.

Oil Tanks.

10-1, 10-2, 10-3, 10-4, 10-5,
10-6, 10-7, 10-8, 10-9, 10-10

Turbine Pump. (Inclusive Motor)

10-11

Switch Panel

10-12

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

However at the time stated in paragraph 3b above our office was instructed by Capt Moxley, Chief of Economics Section, Tottori M.G.T. to take inventory of the above items and as a result it was reported that there are 13 items. Capt Moxley requested a detailed explanation of the items and therefore explained that the turbine pump and motor were installed on the same foundation.

Capt. Moxley then instructed us that both the pump and mortor be numbered 10-11 and to number the switch panel 10-12, therefore as stated in paragraph 3c the inventory sheets were made out as instructed.

We were furthermore informed that maintenance and custody of the reparation items will be executed by the Air Force, we have made no inspection since.

A discrepancy exists between the inventoried code numbers and the evaluation code number and we are waiting for your instruction so that we may determine which is the right number.

SUBJECT: Reparations Equipment In Use By Occupation Forces

TO : Commanding Officer
Miho Air Force Base
APO 75-1

1. Reference paragraph 3b (1), (2), (3), and (4), Operational Directive Number 11, General Headquarters, Supreme Commander for the Allied Powers, Civil Affairs Section, 10 April 1950, subject: "Industry".

2. A recent inspection of reparations equipment at Miho Air Force Base by a member of this headquarters revealed the lack of a code number on one of the reparations items in use by your organization.

3. The item referred to is a switch panel described as follows:

Manufacturer	-	Hitachi Co., Ltd.
Type	-	YC-12
HP	-	20
Serial No.	-	3.69178
Volt Capacity	-	600
AMP	-	60
Operating Voltage	-	200-220

4. Records of this headquarters show the reparations code number of the switch panel described above to be 41-10-13. It is therefore requested that the subject switch panel be so marked.

Total Capacity - 176,000 gallons

(80)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. In addition to the eight (8) tanks mentioned in 2a. above there are two (2) settling tanks each of 6,000 gallons capacity which are an integral part of the oil storage facility. These tanks were released from custody for reparations to the Tottori Prefectural Government by this headquarters on 23 April 1948 but continue to be held as former Japanese military property.

c. These tanks are presently being used by the 35th Fighter Squadron located at Miho Air Field, Koshinozu, Nakahama-Mura, Saihaku-gun, Tottori-ken and will be required for the storage of aviation gasoline necessary to the operation of this air field as long as it functions as an air field.

d. The eight (8) tanks mentioned in 2a. above have welded seams and cannot be dismantled for shipment but must be transported as units.

1. Reference is made to letter Headquarters Eighth Army, APO 343, file no. AGMGEM 386.3, subject: "Oil Storage Tanks Owned by the Japanese Army or Navy", dated 4 August 1948 and 1st Indorsement, Headquarters Chugoku Military Government Region, APO 317, CMGR 386.3 (D-No), dated 11 August 1948.

2. In compliance with above reference the following information is submitted on oil storage facilities being held for reparations in Tottori Prefecture:

a. Tanks Held for Reparations:

Code No.	Capacity
41-10-1	22,000 gal
41-10-2	22,000 gal
41-10-3	22,000 gal
41-10-4	22,000 gal
41-10-5	22,000 gal
41-10-6	22,000 gal
41-10-7	22,000 gal
41-10-8	22,000 gal

Total Capacity - 176,000 gallons

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. In addition to the eight (8) tanks mentioned in 2a. above there are two (2) settling tanks each of 6,000 gallons capacity which are an integral part of the oil storage facility. These tanks were released from custody for reparations to the Tottori Prefectural Government by this headquarters on 23 April 1948 but continue to be held as former Japanese military property.

c. These tanks are presently being used by the 35th Fighter Squadron located at Miho Air Field, Koshirazu, Nakahama-Mura, Saihaku-gun, Tottori-ken and will be required for the storage of aviation gasoline necessary to the operation of this air field as long as it functions as an air field.

d. The eight (8) tanks mentioned in 2a. above have welded seams and cannot be dismantled for shipment but must be transported as units.

FIELD TRIP REPORT

R. P. LORD

20 July 1950

1. Purpose:

Inspection of Oil Storage Tanks at Miho Air Force Base, Codo No. 41-10, Tottori Prefecture.

2. Background:

Surveillance in accordance with O.D. 11, 10 April 1950.

3. Discussion:

Thirteen (13) reparations items at this location consisting of ten (10) oil storage tanks and three (3) pieces of auxiliary equipment. All equipment is in use.

4. Conclusion:

Only two (2) items were assigned code number - these are 41-10-11 (turbine pump) 41-10-11 (15 HP motor). Reason given for lack of code numbers on storage tanks is that they were recently repainted and code number were painted out. A switch panel uncoded at time of March inspection remains uncoded although Miho Air Base was informed by letter this headquarters dated 25 April 1950 to assign this item code number 41-10-13.

MANUFACTURING AND INDUSTRY FILE 41-10 Doc. 11

5. Recommendations:

Advised officer in charge of this equipment to repaint proper code numbers on all equipment.

FIELD TRIP REPORT

R.G. STRADLEY

21 March 1950

1. Purpose:

Inspection of oil storage on reparation at Miho Air Base, 41-10.

2. Background:

Surveillance in accordance with C.C. 51.

3. Discussion:

Items on reparation are as described below:

Facility	Capacity	No. of Items	Code No.
Storage tanks	22,000 gallons	8	41-10-1 to 8
Storage tanks	6,000 gallons	2	41-10-9 and 10
Turbin Pump		1	41-10-11
Electric Motor		1	41-10-12
Switch Panel		1	No code number

The two 6,000 gallon storage tanks were marked EX while the switch panel had no code numbers showing no identification of it's status, which is contrary to the representative of Tottori Branch Hiroshima Finance Bureau's statement that all items including the switch panel were code numbered with the motor and pump having same code numbers.

4. Conclusion:

Although the switch panel did not have any code number on it, it apparently is part of the reparation facilities.

The basis of the two 6,000 gallon tanks being marked EX is unknown.

The descriptions on the switch panel are YC12 type, 20HP serial number 3.69178, August 1938, 600 Volt capacity, AC250V 60AMP. Operating voltage, 200-220 volt Maker Hidachi Co.Ltd.

5. Recommendation:

Finance Bureau was instructed to investigate the status of this switch panel and the two "EX" items and report to Chugoku Civil Affairs Region.
