This sweep flew first to Miyazaki led by Lt. Denoff, each division making two runs through intense and accurate medium A/A. Six F/S planes on the East side of the runway were strafed and hit with fragmentation bombs. They did not burn and appeared already damaged. Ten S/S planes on the runways were observed to be already inoperational. Rocket and strafing runs were made in revetted areas where 5 or 6 S/S planes were seen. Results unobserved...an unprofitable and dangerous target as were most of the A/F's covered by this AG. Observations of field 335 showed same negative results as day before. One engine was definitely blown up and left steaming on the railroad track.
