Office, 520 Conti St. Telephone Main 3487.

MOTHER'S JOB IS SAFE

Elvie Laddell, who makes sanitation especially expresses the fear that mother is about to lose her job through the employment of baby incubator methods. She says:

"This home has added to the hospital and mother's milk to infant foods."

Mother's cuddling has gone down before nurserymaids and mother's helpers in organized anti-incubator association. Mother's room is supplanted by a nursery, and mother's arms by an automatic cradle. Teething is produced by forced feeding, and a specialist writes a specific order for baby's feeding each month. Walking is taught by a self-walking apparatus. Talking is taught by a phonograph. Disobedience is permitted by indulgence and indifference of the mother, and extravagance is taught by continual indulgence.

We see no reason for Elvie to worry about mother's job. There are no specialists to keep little Johnson's neck and ears clean, nor to keep the buttons sewed on his apparel. There are no mother's helpers to specialize on providing three meals a day for a hungry family, nor to send to its lines the free use of its right of way for agricultural purposes.

The Iron Mountain is offering farmers adjoining meads a day for a hungry family, nor to send to its lines the free use of its right of way for agricultural purposes.

Silliman Collegiate Institute at Clinton will clothes in order and fresh ribbon for little close May 20.

The Caddo grand jury will hold a session this week to investigate the Shreveport police.

Governor Pleasant has had fifty invitations to speak at commencements and conventions during the coming month but will be able to accept very few.

The Great Southern Lumber Co. has offered and "mothers' helpers" on twenty four hour a day duty. It would take three shifts of them to take mother's job away from her, and then camp.

Dr. R. G. Hawkins of Palmetto has been re-elected president of the Louisiana postmasters association.

George, the little son of Walter Kennedy of Bogalusa, was scalded to death by falling in a tub of boiling water.

The work on Hammond's new \$50,000 post-office building is in progress.

EDUCATION COUNTS EVERYWHERE

A mistaken idea has prevailed that there are occupations in which education counts for little. In the war making trades, for instance, many imagine that all the soldier needs is a sound body and good legs. If there could be any trade where education would not count, the profession of soldier ought to fill the bill.

But education counts here, as in everything else. Who were the men accepted for the officer's training camp last week? Educated men every one of them, college graduates, high school graduates, college students and men trained in the professions. Neither wealth counts nor "pull" available to secure admission; the sole sorry dipping this year.

Oberlin had a flag raising last week, furnished seven recruits for the navy and organized a Ladies Military Aid society.

Sheep growers in western Louisiana have been offered fifty cents a pound for wool.

Bogalusa's Y. W. C. A. building, erected at a cost of \$30,000, will be formally opened May 25.

Vermilion parish will have a new map made to see that no guilty land owner escapes.

The Mitchell sawmill has been moved from Terry to Pioneer.

Five Opelousas young men have joined the navy.

The railroads' application for a fifteen percent advance in freight rates has been postponed till June 4.

Bogalusa high school will graduate a class of 21 on May 31.

John H. Cannon and wife have sued the city of Alexandria for \$50,000 damages for the death of their five year old son, who was killed by a trolley car.

St. James police jury has appropriated \$600 for a parish demonstration agent.

New Iberia will choose a new city commission of three from a field of eight on June 4.

Two murder cases will be tried at Vidalia this week; those of Tom L. Jackson, charged with the murder of Watson Monroe and Rudolph Entrekkin, accused of slaying John A. Wuster.

Alexandria held a patriotic parade Saturday to stimulate enlistments.

Negro ministers of the Lake Providence A. M. E. district have petitioned the governor to use his influence for better pay for negro school teachers.

Forty thousand men, more or less, began intensive training in the various officers training camps yesterday. Approximately two hundred thousand men applied for admission and enough more were probably thinking about it to make the total an even million. Enlistments in the regular army, the navy and the marine corps may slow up once in awhile, but the enthusiasm of the average man to serve his country in an official capacity never has abated. If the same patriotic impulse extended far enough to include service in the ranks and file "selective" subscription would never be heard of.

A North Dakota farmer, who had been indulged in dentition wine, attempted to get fire to his own house the other day. The action of the senate therefore has not stopped the drop hope future. That "Dantons" and not specially expresses the fear that mother is about to lose her job, through the employment of baby incubator methods. She says:

"This home has added to the hospital and mother's milk to infant foods."

Mother's cuddling has gone down before nurserymaids and mother's helpers in organized anti-incubator association.

Mother's room is supplanted by a nursery, and mother's arms by an automatic cradle. Teething is produced by forced feeding, and a specialist writes a specific order for baby's feeding each month. Walking is taught by a self-walking apparatus. Talking is taught by a phonograph. Disobedience is permitted by indulgence and indifference of the mother, and extravagance is taught by continual indulgence.

Some day a bunch of the Chicago wheat speculators will wake up and find themselves bankrupt and in jail.

The French and British are fighting as desperately for the coal mines as though they saw a hard, cold winter just ahead.

ARTILLERY ORDERED TO RECRUIT TO WAR STRENGTH

Orders from Major General Wood to the Washington Artillery to recruit to full war strength at once were received Sunday afternoon by the commander. This means that the regiment shortly will be mustered into federal service.

It is expected that the artillery will be ordered on an encampment within the next two weeks in order to get some target practice. There is no place in the vicinity of Camp Nichols at which the troops could get target practice and the commanders are anxious to give the men some field training in order that it might be in a condition so as to be among the first troops to be chosen to go to France when the American troops are ordered out.

C. S. Blakely has received his commission as colonel of the regiment. It is possible that next Saturday a band concert and regimental parade will be held.

NO RECEIVERSHIP FOR THE B. M. R. A.

## NEWCOMB GIRLS AID FLAG RAISING

Members of the Newcomb college co-eds rendered patriotic at a flag-raising at the house No. 23 opposite Newcomb college, and a number of the students participated in the exercises. Patriotic dresses were prepared by Senator E. M. Stanford, Edward Thouring and Miss Adele Pearson, of Newcomb college.

Captain G. H. Knob, of the engineering corps, presided as chairman, and introduced the speakers. Edward Blake, engineer for the company superintendent of pavements and alleys, presented a present with small flags. There was a good turnout and encouragement to grow profusely in the garden.

A Washington dispatch says the department of Justice has begun an investigation of the individual per cent increase in the price of United States flags. Meanwhile the more than hundred per cent increase in the price of United States food remains unprobed.

Y. M. C. OPENS TEN PIN TOURNAMENT

A. Lechner was high in an opening night of the ten pin tournament which is being conducted by the Young Men's Gymnastic club on Monday nights. In three games he piled up a score of 517, P. W. Reine with a score of 527, and M. C. Olson, with a score of 510, were close seconds and third respectively.

Tonight a Croquet Hot tournament will begin. Like the ten pin tournament, it will continue for three weeks and will be divided into two classes.

Last night's results follow: A. Lechner, 158, 182, 187, total 527; P. W. Reine, 167, 169, 191, total 525; M. C. Olson, 157, 194, 169, total 510; J. Benecky, 181, 146, 157, total 504; J. W. Vinken, 165, 149, 157, total 502; S. Bender, 125, 161, 149, total 431.

HAS GONE TO LOOK OVER SUSPECTED SAFE BLOWER

Assistant Bertillon Operator Ruthie Morris, of the New Orleans police department, left yesterday evening for Tchula, Miss., in response to a telegram from the sheriff there asking her to come and look over a suspected safe blower under arrest. None of the prisoners and details of the case are unknown to the local police, but it is believed his arrest is a "good catch."

LOCAL BREWERS ALARMED

Will Send Delegation to Washington to Fight Prohibition Measure

New Orleans will lose approximately \$800,000 should the proposition for prohibiting the manufacture of liquor from grain go into effect during the war, according to the city brewers who held a meeting yesterday to protest against the measure and try to prevent the House from ratifying the Senate movement. It is agreed to send a special delegation to Washington to appear before the committee and try to defeat the amendment.

The brewers pointed out that if the measure should become a law, it would mean that the brewers would be put out of business. They also called attention to the fact that it is contemplated to get an additional revenue of \$80,000,000 from this source, and if the breweries were prohibited from manufacturing additional liquor it would mean that the beer now in stock would be greatly taxed and that this commodity already is carrying a heavy tax.

New Orleans probably would be hit harder than any other city in the United States by the measure. In addition to the city losing \$600,000 in licenses the city would lose \$100,000 in taxes on the property of the breweries and also rentals would be decreased, as many brewer groceries in a great measure depend upon their beer trade to make a paying business. The annual revenue to the city of New Orleans which would be lost would total approximately \$800,000.

VACANT CITY LOTS TO BE CULTIVATED

Continued From Page One

W. Newlin, A. B. Grinnell, John Duval, Wm. Krebs, Mrs. Julia Truitt Bishop.

Finance Levering Moore, chairman; Sam Zemurray, R. H. Downman, A. C. Winneb, E. V. Benjamin, C. B. Fox, Frank B. Hayne, J. L. Wright, Pearl Wright, Capt. P. S. Morris.

Protective—Hon. Martin Behrman, Harold Newman, Representatives of all detective agencies.

SUCCESSION NOTICE

CHARLES DE LOUIS SCHWAB, FIFTH DISTRICT COURT FOR THE PARISH OF ORLEANS, ZADOKSON, No. 130,393.

Whereas CHARLES DE LOUIS SCHWAB has petitioned for letters of administration on the estate of the late Louis Schwan, deceased intestate.

Notice is hereby given to all whom it may concern to show cause within ten days why the grant of said petition should not be granted.

By order of THOMAS CONNELL, Clerk.

12, U. S. Courthouse.

## PROBABLY STARTS A LEGAL FIGHT

These trials started by the late Senator Linch Miller were adjourned to probate yesterday morning at 4 o'clock. Skinner, following a two weeks trial in the civil court, an estate valued at \$227,000 is still in the contest, which will probably be carried to the supreme court.

Miss Miller was close to 30 years of age when her father died in 1901, leaving her an estate valued at \$200,000. She then went to live with Mr. and Mrs. Frank Brinker, along with whom she resided until her death. The brothers produced three wills made by Miss Miller, the wills were contested by Miss Caroline Baumgard, who claimed

that two of them were forged, while the third was invalid for the reason that Miss Miller was not mentally responsible. On the first affidavit, all six witnesses were examined, the court will now proceed with the trial of the various affidavits, which the government will employ to raise sufficient money with which to carry on the war, the national funds already raised will be turned over to the various chamber of commerce associations throughout the country, so that the government may be able to raise the revenue. A free for all discussion will be held at the meeting tomorrow and the business men will determine how the proposed measure will affect their businesses.

TRAINING SCHOOL IS PLANNED

IMPORTANT WORK AHEAD OF BAPTIST CONVENTION HERE THIS WEEK

Plans for the establishment in New Orleans of a training school for home and foreign missionaries will be taken up at the Southern Baptist convention, which meets here Wednesday. Plans also will be discussed for the raising of \$25,000 per year for twenty-five years for conducting a great Baptist evangelistic and missionary campaign in this city.

The first day's session will be devoted in a large manner to the hearing of reports of the various boards. The convention sermon will be delivered by Rev. C. W. Duke of Tampa, Fla.

The training school proposition and the discussion of foreign missions will occupy the next day's session. Some mission discussion will occur the third day's discussion. On Sunday, Baptist ministers will occupy pulpits in the various churches of the city.

GROCERS HAVE ULAN TO AID IN WAR

Washington, May 14.—Nearly 500 grocers, from many states, attended the opening here to-day of the annual convention of the National Wholesale Grocers Association, the chief work of which will be to formulate plans to assist in food production, conservation and distribution.

Theodore E. Whitmarsh, president of the organization, and Alfred H. Beckmann, secretary, both advocated the acceptance of all who volunteered for military service, whether fit for active work in the field or not. He said being put in uniform and kept at home for industrial service.

MANY ATTEND FLAG FUNCTION

More than 500 persons attended the raising at St. Louis and Scott Streets yesterday by employees of the New Orleans Terminal company. W. O. Hart and W. F. Bender, vice-chairmen to the vice-president of the Southern railroad, delivered addresses, while a squad of infantrymen fired a salute when the flag was unfurled.

Music and dancing followed the flag raisings.

LEAVES ESTATE TO NIECE

The estate of the Leon Marthe, one of the best-known bartenders in New Orleans, is left to his niece, Mrs. Gertrude di Trapani, 700 North Claiborne street, in a will admitted to probate Monday. Marthe had made his home with his niece for some time before his death.

COTTON CRUSHERS URGE BEANS AND PEANUTS

By International News Service.

Dallas, Tex., May 14.—The Interstate Cotton Crushers' Association convened here to-day for its twenty-first annual convention. Every state in the south is represented.

Among the most important topics to be considered are encouraging war on the boll weevil and inducing farmers to raise soya beans, peanuts and other crops furnishing supplies to the mills.

THIEF STEALS \$200

Believed to have been the work of a thief who concealed himself in the place before closing time, \$200 was stolen from the United Cigar Store at Canal and Baronne Streets some time between 1 and 6 o'clock yesterday morning. Police said last night they had no definite clue, but were working along lines they hoped would bring results.
