SUNNY WEATHER BRINGS RENEWAL OF SHANGHAI BATTLE

FOUR MEN LOST LIVES AND TOWN OF MONTEREY, CAL., IS MENACED BY GREAT FIRE

Blaze Started When Lightning Struck 55,000-barrel Tank of Oil; Early Estimate of Damage \$3,000,000; Four Soldiers Burned to Death While Trying to Save Army Property; Explosions Spread Flames.

Monterey, Sept. 15.—Monterey, storied old Spanish settlement, seat of the first Government of California and in inspiration point for noted artists and writers, to-day was in the path of a devastating \$3,000,000 conflagration which started yesterday when a bolt of lightning struck a 55,000-barrel tank of crude oil. After a wild night during which four soldiers from the Monterey Presidio were burned to death, the fire spread to eight other oil tanks in the vicinity and sent more than thirty injured to hospitals suffering from burns.

The soldiers were caught in the fire when the first tank caved in from the heat and sent a flame of fire and oil in the path of the fire fighters who were attempting to save army property at the Presidio of Monterey.

SOLICITOR-GENERAL PAYS CITY VISIT

Hon. E. J. McMurray, K.C., Completes Coast Visit

Hon. E. J. McMurray, K.C., made a brief visit to the city during the week-end. The Solicitor-General of Canada has been staying in the cities of the Coast for several days, and like Hon. Dr. King, paid a visit to the New Westminster exhibition last week.

Hon. J. H. King received deputations, and discussed public business this morning at a sitting at the post office, the chief deputation being that from the Victoria Chamber of Commerce.

At 2 o'clock this morning a fourth major explosion sent the fire into New Monterey, where five homes were destroyed. The local authorities early to-day surrendered leadership in the fight against the flames to the military men at the Presidio.

MacLean and Sutherland go to Okanagan For By-election Campaign

Opposition to Liberal at This Stage an Outrage, MacLean Asserts

The Oliver Government prepared to-day to throw its whole weight into North-Okanagan by-election, in which Hon. K. C. MacDonald, Provincial Secretary, is being opposed by Arthur Cochrane, a straight Conservative candidate.

Hon. J. D. MacLean, Acting Premier, and Hon. W. H. Sutherland, Minister of Public Works, left for Vernon, centre of the North Okanagan constituency, on this afternoon's boat. They will probably remain in the interior until election day, September 24, speaking on Dr. MacDonald's behalf.

Harvesting Operations on Prairies Resumed After Days of Dull Weather

Winnipeg, Man., Sept. 15.—A week of dull, wet weather suspended harvesting operations in many sections of the three prairie provinces and the general situation to-day is about as it was last Monday. The skies now have cleared, however, and beneath a warm, bright sun the grain is at once a chance to dry out and the uncut fields an opportunity to ripen.

Wrangell, Alaska, Sept. 15.—Carrying a full equipment for placer mining, a party of twenty left here yesterday for a gold strike reported on Eagle Creek, in the Cassiar district of British Columbia.

In the party are Hugh R. Chiberg of Ketchikan, Alaska, and Seattle; L. Gernantes of San Francisco; W. J. Harblke, of Portland, Ore.; Angus Morrison of the Yukon Territory and sixteen men of Wrangell. They have saddle packs, slinging hose and gold pans.

Many Conventions Will Come to City in Summer of 1925

Wonderful as has been this year from the standpoint of conventions, next year will be still more remarkable, to judge from the list which is steadily increasing.

Some steps will have to be taken to encourage the conventions to leave free the months of July and August, as there is not the facility to handle them to the maximum of comfort in those months when hotelmen are distracted with the flood of tourists.

QUEBEC GETS BACK ITS LOST CITIZENS

Average of Canadians Returning From United States Is Maintained

According to a report on immigration received by the Victoria Chamber of Commerce from the middle of March to the end of June the Immigration Department's records show that the total number of Canadians to return from the United States was 13,874, keeping up the average of roughly 4,000 a month. These figures take cognizance only of resident Canadians who had gone to the United States with the intention of residing there and who had been absent from the Dominion for more than six months. Of the number noted, 11,869 were born in Canada, 1,151 were British subjects who had acquired Canadian domicile and 763 were naturalized Canadians. There would appear to be a decided movement back to Canada, especially to Quebec, where the exodus has been most marked.

TIDE TURNS
 The exodus from the eastern townships of Quebec, and from the province at large, which reached serious proportions a year ago, seems to have ceased, according to all reports, the tide showing a perceptible movement in the other direction. Many who left Quebec a year ago are now returning home, together with those whose absence has been a matter of years. A report from Boston states that 159 French Canadian families a week are returning to Canada each week from the New England states and the majority settling in the province of Quebec.

CANADA'S RECOVERY
 A report on the same subject published in Industrial Progress in Canada states the return of Canadians from the United States is a most pleasing trend and one which has probably only commenced with Canada's emergence from post-war depression. Canada has never ceased to mourn over her lost sons and hopes for the return of many of them under brighter conditions. The new movement gratifyingly supplements the stimulation effected to emigration

AMERICAN LEGION'S WORK IS REVIEWED

Legislation For Disabled a Great Gain, J. R. Quinn Tells Annual Convention

St. Paul, Sept. 15.—Passage by Congress of legislation for the disabled, and the enactment into law of the adjusted compensation bill, were two triumphs for the American Legion which has doubled its prestige and made the organization more cohesive for service to the nation in the years before it. John R. Quinn, retiring commander, said in his address before the national convention here to-day.

"The American Legion has answered any doubts, fears, hopes, or suspicions of the nation," Quinn asserted. "It begins a career which past accomplishments indicate will be a proven quantity. Where there was doubt, now repose confidence. Where there was hope, there is now assurance. Instead of fear, the Legion has inspired trust. We are respected for our ideals, admired for our stamina, loved for our unselfish service."

Seattle, Sept. 15.—Harold Sparks, twenty-four, a student at the University of Washington and executive of Boy Scout work, was killed to-day when he fell while climbing Mount Kaletan, in the Cascade Range near North Bend, Washington, according to a report from the Denay ranger station. The young man's parents, Mr. and Mrs. William A. Sparks, live in Seattle.

NEW ORLEANS-CUBA AEROPLANE SERVICE

Plans Discussed Also Include New Orleans-Mexico City Flights

New Orleans, Sept. 15.—Aeroplane passenger and mail services between New Orleans and Cuba and Mexican Gulf ports as a private enterprise is a subject of discussion here, with predictions that it is likely to become an accomplished fact in the not distant future.

Suggested terminals would be Tampico, Mexico City via Vera Cruz, Merida, Yucatan via Progreso, and Havana. The type of aeroplane believed suitable for the lines—air cruisers such as are used between Florida and Cuba and the Bahamas but equipped with a least two motors—could make the hop from New Orleans to Tampico, 710 miles, in about nine hours. The 900-mile jump to Mexico City via Vera Cruz would require about fourteen hours. The Yucatan run of 540 miles would be completed in about eight hours while the 550 miles to Havana could be covered in approximately the same length of time. One of the suggestions in connection with the Tampico and Vera Cruz service involves a relay at Brownsville, Texas, with planes operating between New Orleans and Brownsville and Brownsville and the South.

PROVED STRENGTH

"The other outstanding achievement was the enactment into law of the adjusted compensation bill. Not so important from our viewpoint as the Reed-Johnson Bill, or as vital as the adjusted compensation bill nevertheless, took on added importance in the public eye because of the enemies it made. The opponents of this bill, using it as a wedge for their attack, had an ulterior object in view. Fearing us, because we were the open spokesman for those who could not speak for themselves, the opposition wished utterly to destroy the Legion. They failed. Instead of crushing our organization, our enemies proved our inherent strength. Instead of destroying us, they made us more cohesive."

IMMIGRATION REFORM
 Passing over other work done this year, Mr. Quinn said that if in immigration "we did not achieve total suspension, there has at least been immigration reform, generally the thought of your resolution of 1923."

The Legion's Americanism policies have been closely followed, the speaker said, by most of the other organizations which have obtained the adjusted compensation bill. "The Legion's essay contest participated in by most of these organizations at the conference to combat filletry and the creation of a code of flag ethics in many states."

MAJORITY MEN AND BOYS
 The outstanding facts of the report are that eighty-five per cent of the victims of eye accidents are men and boys, only 604 out of the 4,456 victims being women and girls; that industrial accidents constitute the most serious single group of accidents resulting in eye injuries; that almost twenty-five per cent of the victims of eye accidents are children; that next to children's play accidents, automobile accidents are the most serious non-industrial

EYE ACCIDENTS IN U.S. 4,456 IN YEAR

Report Issued by National Committee For Prevention of Blindness

New York, Sept. 15.—The sight of at least 4,456 men, women and children in the United States has been destroyed or seriously impaired by accidents during the past twelve months, according to a report issued by the National Committee for the Prevention of Blindness of this city.

A year ago the committee began an investigation to discover the nature, causes and relative importance of the accidents which each year add several thousands to the blind population of the country, and the report made public to-day is an analysis of the first year's findings in this investigation.

BASEBALL ACCIDENTS

Baseball accidents brought serious injuries to sixty-five persons; the drinking of wood alcohol destroyed or impaired the sight of thirty-five persons; thirty-one women burned their eyes with hot curling irons while standing before mirrors because of their failure to recognize that in the reflection of the mirror the movements of the hand are reversed.

INDUSTRIAL ACCIDENTS CAUSE GREATEST NUMBER OF CASES OF INJURY
 The committee received reports of 166 persons whose eyes were pierced by metal shot from air rifles; ninety-nine eye accidents were due to the use of chemicals outside of industry; ninety-six occurred during the chopping of fire wood; eighty-nine were hunting accidents, and eighty-four persons may lose their sight or have already been blinded as the result of brawls during the past year.

NEW YORK HAD MOST
 New York State reported 668 cases; Pennsylvania 475 cases, and Illinois 373 cases. The committee points out, however, that this is not unusual because these states rank first, second and third respectively, in point of population. Indiana, though ranking eleventh in population, is fourth among the states in number of serious eye injuries reported; Iowa, which is sixteenth in point of population, ranked seventh; Nebraska, though thirty-first in population, ranked tenth; and Washington, thirtieth in point of population, ranked fifteenth. On the other hand, Texas, though fifth in population, stood fourteenth in number of serious eye injuries; Massachusetts, sixth in population, was thirteenth in the severity of its eye accidents; and Michigan, seventh in population, was sixteenth in the list of eye injuries.

In most other states the number of eye accidents followed closely the population of the state.

VEGETABLE GROWERS MEET IN LOUISVILLE
 Gardeners' Problems in U.S. Are Discussed at Annual Convention

Louisville, Ky., Sept. 15.—Vegetable growers from every state are meeting here at the annual convention of the Vegetable Growers' Association of America to-day. Ways and means to combat the injury of the Japanese beetle, Mexican bean beetle, European corn borer and other insect pests, and action on proposals for better marketing facilities, standardization of methods and production of quality crops from pedigreed seed are among the subjects listed for discussion during the three-day meeting.

Many unique and entertaining features are scheduled, among them being an international contest for the "king of the United States," a junior gardeners' national contest, tractor demonstration, choice of the "champion" boy or girl gardener of America, and demonstrations of vegetable growing features by junior gardeners.

NORTH OKANAGAN

THERE is nothing surprising in the decision of the Conservatives of the North Okanagan constituency to contest the seat at the byelection which has become necessary through the elevation of the sitting member to Cabinet rank.

There will no doubt be a spirited campaign and the general public will be further enlightened on the conduct of their affairs as a consequence.

The constituency of North Okanagan is an extremely important one.

The Government is heavily interested in a number of projects in that section of the dry belt and their efficient management is therefore of prime concern to the voters who will either confirm Dr. MacDonald in the position to which he has just been called or select another representative who naturally asserts a similar ability to look after their interests.

The people saw no reason why the present member should not continue to represent them among the rank and file of the Government's supporters on the floor of the Legislature when they were asked to express their wishes in June last; why should there be any change of view under what may now be rightly regarded as more favorable circumstances?

THE ISLAND ROADS

THAT section of the Island Highway which has been oiled has demonstrated how the Malahat and the road to the north can be put in a condition capable of successfully withstanding the effect of dry Summer months.

Owners of expensive cars very naturally hesitate to take a road which presents risks of damage and promises little comfort in travel. They prefer to keep to the paved highway and forego scenic attraction for fairly certain immunity from unpleasantness.

When the Legislature is discussing roads in general at its forthcoming session we shall hope that the question of the trans-provincial highway will not overshadow the importance of carrying out improvements on this Island which, as road construction and maintenance go, would not be a very costly matter.

FACTS FROM SASKATCHEWAN

CANADA'S prospect of increasing her population by the addition of stock of the right kind has been considerably damaged by the roseate recitals of certain Canadian agencies.

One of the more recent specimens of immigration literature which more closely follows the policy which the Federal Minister of Immigration insists is absolutely necessary is a brochure recently published by the Saskatchewan Government for distribution in Great Britain and Ireland.

they have been accustomed to in the Old Country; and against expecting large returns from farming at a time when Saskatchewan is suffering in common with other countries from a world-wide depression of agricultural prices.

WARNING MEDDLERS

SOME people in the neighboring republic were rather alarmed at the idea which they considered "defence day" might convey to the outside world.

Defence day was one purely of organization and inquiry: It was not a battleship review or a parade of soldiers and canon. It was merely a practical answer to a practical question which the nation directed to its people.

In this demonstration of a willingness to take up arms if the circumstances demanded there is a very useful warning to possible enemies of the United States which will not pass unnoticed by Canada.

Who was responsible for starting the war still seems to be a question of vital importance to the restoration of economic stability in Europe.

Having just arrived in the Province fresh from two important defeats in Quebec, Dr. Tolmie will hurry to the aid of the Conservative candidate in North Okanagan!

Mr. Pooley and the morning paper say that Conservatives and Provincials will line up behind the candidate who is opposing Dr. MacDonald in North Okanagan. They followed this course in Nelson.

Dr. King was a very successful Minister in the Oliver Government; he is successful at Ottawa; the fact that he is not garrulous need alarm nobody; Hansard proves that his actions provoke little criticism.

Victoria's weather records ought to be attractive to people with holiday money in Great Britain. After the "worst Spring and Summer on record"—and Europe has escaped but little of the contrariness of the elements—many ought to be ready to spend some money within the Empire instead of throwing it into the tills of Continental hotelkeepers.

Professor Caldwell told an audience of workmen at Croydon, England, the other day that if the workmen in Canadian shops worked as slowly as the workmen in the Old Country they would be discharged.

READY TO GO

"I wonder how our candidate will pan out as campaigner."

ONE HITCH From Everybody's Magazine "Dinah," said the mistress, "I hear you are married."

WEALTH AT HOME

And while reassuring reports of the Western crop are received, let's not forget the grape crop in this peninsula, on an increased acreage and sustained at the price of fifty-three dollars per ton.

LEARNING FROM COMPETITION

We are now finding out that in competition with other countries we must get all their is in the plant out of it to make ends meet.

AND THERE AN ELFIN BOUND HIM

From The Ottawa Citizen He mocked at hard and dreamer, His passion was for deeds, To him the rose and orchid, Were ultra hourished weeds.

Dr. Frank Crane "Education"

(Copyright)

ACCORDING to Dr. A. Duncan Yokum, Professor of Educational Research of the University of Pennsylvania, the radio, the motion picture and the automobile have turned educational methods upside down.

"The average child," says Dr. Yokum, "who has a radio is gaining more of a knowledge of the world he lives in than was possessed by the well-educated man of fifty years ago.

Dr. Yokum recommended the "project method" to teachers, which consists in training the pupils to put into actual practice the scientific theories that have been explained to them.

Twenty-five years ago Dr. Yokum said, the phrases which were used by educational writers were "training the mind," "mental discipline," and "strengthening the faculties."

Education, however, that is designed to secure mental discipline, according to the doctor should take but slight account of the usefulness of any subject in dealing with which the discipline is to be gained.

Pepperrell's Attack on Louisbourg

AFTER terrific effort on the part of Governor Shirley of Massachusetts, a raw militia expedition of 4,000 men, 1,000 from Massachusetts, 500 from New Hampshire, 500 from Connecticut, all placed under the command of a civilian Major-General, Sir William Pepperrell, was gotten away in the Summer of 1745 against the great French fortress of Louisbourg in Cape Breton.

The colonies were unable to finance the expedition, and the British Government, which were afterward honored by the British Government to the tune of 250,000 pounds sterling.

Excusable He was a new member of the Harbor Board in a northern seaside town, and was attending his first meeting.

The board was discussing a proposal to place two buoys at the entrance to the harbor for the guidance of mariners.

"I beg to propose an amendment," said the new member, "that one man should be placed there instead of two boys, as the latter are too young for such a responsible position."

FIRST AND PARAMOUNT, ABSOLUTE SECURITY TO POLICYHOLDERS

I had to hustle—let my children do the same," you say.

But do you really mean it? Recall the struggle you had getting a start in the world!

What would a little money and a better education have meant to you?

Don't force your children to face the hardships you went through! Remember, "getting a start" to-day is more difficult than it was when you were young.

Provide your children with the money for this purpose by purchasing an Imperial Endowment now—while you are in good health and can spare the money.

Write to-day for a copy of our free booklet, entitled "Penniless Old Men." To-morrow you may be uninsured.

Large Number of Hunters Were Out During Week-end

Small Bags of Birds Brought in on Account of Dryness; Deer Are Plentiful

Blue Grouse Found in Largest Numbers Around Malahat District

Guns were popping all over the island during the week-end heralding the opening of the hunting season. The number of hunters who went to the woods to pursue their elusive game was one of the largest in recent years.

PLENTIFUL ON MALAHAT

According to reports the birds were most plentiful along the Malahat, while quite a few were killed in the Sooke district. Dogs were of little use on account of the dryness which made it practically impossible to pick up a scent.

TOURISTS OUT

Quite a number of American tourists were out trying their luck and they were well pleased with their results. One of the visitors was successful in knocking down a big buck near Goldstream while others secured a few birds.

British Poloists Badly Beaten in Opening Fixture

Visiting Team Overwhelmed By 16-5; Stevenson, of U.S. Team, Badly Hurt

Capt. Lacey Rearranges the British Team For Second Game; Three New Faces

Westbury, R.I., Sept. 15.—Britain is mobilizing her forces for one final thrust at the international polo title. The 16-to-5 defeat suffered by the English horsemen on Saturday so upset the invading mallet wielders that a new British lineup will be presented to spectators to-morrow when the second game of the international series is played at Meadowbrook.

HE LIKED THE RALLY

When the British rally began in the seventh period, instead of clapping his hands as he had done before, he stood up, pulled off his hat, grinned broadly and applauded with vigor for a number of minutes.

Germantown Cricket Club, Philadelphia, Sept. 15.—America's supremacy in the lawn tennis world was clearly demonstrated on Saturday as the United States team made a clean sweep of the five-game series for the Davis Cup against the Australians.

Canadian Net Star Defeats Frenchman

Toronto, Ont., Sept. 15.—In the first of the exhibition matches between members after the French and Canadian Davis Cup teams here on Saturday, Jack Wright, McGill University, defeated Pat O'Hara Wood in the first match by scores of 6-2, 6-1, 6-1.

ONE OF REASONS FOR WASHINGTON'S SUCCESS

Muddy Ruel

No team ever won a championship without a great catcher behind the bat. Washington has one of the greatest catchers in baseball in the person of Muddy Ruel. Indeed some experts call him the outstanding catcher of the year, now that Schalk, Perkins, O'Neill and other veterans have slipped materially. Ruel, quite naturally, has been an important factor in the Washingtons' sensational stand.

Nanaimo Golfers Victorious Over Colwood's Team

F. Thomas, City Champ, Met Defeat at Hands of N. McFarlane; Good Match

Members of the Colwood Golf Club who journeyed to Nanaimo over the week-end for a golf match discovered that besides being good hosts the golfers there know the game inside out and backwards.

THE SCORES

In the four-ball matches in the afternoon Nanaimo pushed farther into the lead and scored 12½ points to Colwood's 8½. The total score was Nanaimo 33, Colwood 27.

UNITED ARTISTS ATTRACTION "DOROTHY VERNON OF HADDON HALL" SHOWING HERE ALL WEEK

Fine Elizabethan Picture Which Opens To-day at the Dominion Theatre is one of the Outstanding Cinema Events of the Year

Mary Pickford in "Dorothy Vernon of Haddon Hall," her latest United Artists attraction is at the Dominion Theatre.

Picturizing "Dorothy Vernon of Haddon Hall," the most famous of the Charles Major novels, stands out as one of the cinema events of the year, presenting Mary Pickford in her greatest role.

A most capable cast of players will be seen in her support. Allan Forrest is the lover, Sir John Manners, and Marc MacDermott is the villainous cousin, Malcolm Vernon. Anders Randolph makes an ideal father for Dorothy Vernon, and Wilfred Lucas is the Earl of Rutland.

AT THE THEATRES

Capitol—"The Man Who Came Back."
Dominion—"Dorothy Vernon of Haddon Hall."
Playhouse—"The French Doll."
Pantages—"It Is the Law."
Columbia—"If Winter Comes."

Music Lovers' Night at Pantages Set For To-night

William Tickle, leader of the orchestra at the Pantages Theatre, is keeping up his high standard of music, judging by the programme selected for to-night's performance.

AT PANTAGES THEATRE THIS WEEK

FLORENCE DIXON & MIMI PALMERI
IN THE WILLIAM FOX SPECIAL PRODUCTION "IT IS THE LAW"

FOX SCREEN VERSION OF "THE MAN WHO CAME BACK" DRAMA OF HUMAN EMOTION

Production at Capitol From the Famous Novel by John Fleming Wilson, Claimed to be Emotional Masterpiece; Now at Capitol Theatre

Cruel as the cynics say the world actually is, there occurs every now and then some incident to reverse the opinion.

But when a movie comes along with a story so natural and easy going that you live it as the film unfolds, you are more likely to fall in with its idea and to rejoice in the perfection of the picture.

The world was never more cruel to man than it was to young Henry Potter, "The Man Who Came Back," in the picture of that name showing at the Capitol Theatre.

This picture is one of the greatest emotional masterpieces of the year. George O'Brien in the title role, is the equal of Henry Hull who created the part in the William A. Brady stage play in 1916.

The story reveals the early life of a millionaire's son. His downfall is so natural and the causes so obvious that sympathy is mingled with the condemnation which always follows a man on the down grade.

The story reveals the early life of a millionaire's son. His downfall is so natural and the causes so obvious that sympathy is mingled with the condemnation which always follows a man on the down grade.

That's the big thing about the picture—the sympathy, the humanness of it.

Dorothy Mackall fairly lives her role and you find yourself understanding why young Henry Potter loves her and why he "comes back" from the depths to claim her.

With great difficulty he climbed the post, struck a match, and read "Wet Paint."

GREEN ROOM NOTES

Sir John Martin-Harvey opened his Fall tour of England and Scotland on August 21. He is to present "The Corsican Brothers," "Richard III," and "The Only Way," three of the plays in which he will appear on his next Canadian tour during the season of 1925-6.

Hugh Savon, one of the hundred or more persons who make up the players in "Cheap Kisses," C. Gardner Sullivan's production for F.B.O., holds the record for versatility in pictures.

Formerly a newspaper man and magazine writer and a veteran "trouper" of the road, Saxton plays the butler in "Cheap Kisses." Just previous to assuming this part, however, and in the space of one week, he did "bits" in five different pictures, playing a drunken rose, a miner, a cowboy, a butler and a traveling salesman.

Edgar and Archibald Selwyn will henceforth produce for the theatre individually and separately. In pursuance of this new policy Edgar Selwyn has just made his first independent production in New York with "Dancing Mothers," a scintillating comedy of modern society written by himself in collaboration with Edmund Goulding, and produced under Mr. Selwyn's personal direction.

"Dancing Mothers" has made the first sensational hit of the new dramatic year in New York at the Booth Theatre, where it is being presented by an exceptionally fine cast of nineteen players headed by Mary Young, Helen Hayes, John Halliday and Henry Stephenson.

Fercy Hutchison is taking no chances of running short of leading ladies during his forthcoming Canadian tour under the direction of Theatrical Enterprises Limited, as he has engaged on less than four of the most popular on the English stage.

Picture producers are loath to allow Elliott Dexter to desert the firm even for a short stage tour. The star intended to open his Pacific coast tour in "The Havoc," Henry Miller's stage success, September 1, but owing to the decision of the Warner Brothers to film "The Age of Innocence" immediately, Dexter is forced to postpone his plans until a month later, as he was under contract for this production.

mother, and Alan Roscoe, who plays the part of the sweetheart, played these respective parts together in "The Chorus Lady" on the stage.

The coming of Fall finds production at the Thomas H. Ince Studios, Los Angeles, unabated. No less than six companies are working, with a new picture going into production as fast as another is finished.

Two Thomas H. Ince pictures for First National are completed, in so far as actual "shooting" is concerned, and Mr. Ince is now cutting and titling them. They are "Idle Tongues," from Joseph C. Lincoln's novel, "Doctor Nye," which Lambert Hillier directed, with Percy Marmont, Doris Kenyon, Claude Gillingwater, Lucille Ricken, Malcolm MacGregor and David Torrence in the leading roles.

The other is "Christine of The Hungry Heart," from the novel by Kathleen Norris, directed by George Archainbaud with Florence Vidor, Clive Brook, Ian Keith, Warner Baxter and Walter Hiers featured.

A master melodrama minus the mystery. That will be the fate of "The Monster" when it reaches the screen.

Very seldom does a movie producer announce how, or why he has changed a book or a play, but when Willard Mack, the author, and Roland West, the producer, adapted the photoplay version of "The Monster," the stage play mystery by Crane Wilbur—they removed all traces of the mystery. The essentials of the drama have been retained and the story elaborated upon—combining romance and adventure interjected by comedy—unfolded in a novel manner, with the guesswork superseded by suspense and thrills.

NEEDED IT

The soldiers marched to the church and halted in the square outside. One wing of the edifice was undergoing repairs, so there was room for only half the regiment.

"Sergeant," ordered the major, "tell the men who don't want to go to church to fall out."

A large number quickly availed themselves of the opportunity.

"Now, sergeant," said the major, "dismiss all the men who did not fall out and march the others in—they need it most."

Seven Deadly Sins of Screen Players Listed by Directors

J. Gordon Edwards Posted List of Don'ts for "It is the Law"

J. Gordon Edwards, one of the veterans among motion picture directors, who has just completed a screen version of the successful New York play, "It is the Law," for William Fox, posted the following list of "Don'ts" for the guidance of his players on the walls of the Fox New York Studio during the making of the picture.

Don't wear real flowers as bouquets unless ordered. It may cost you money to replace them for succeeding scenes.

Don't use diction or elocution for screen acting. The camera does not register vowels. Use your face more than your mouth to speak.

Don't hide your light under a bushel of grease paint and rouge.

Don't call a grouch "Klieg eyes," Mr. Klieg already has enough victims to answer for.

Don't forget to remember that you signed as an actor and not a photographic subject.

Don't forget that a grain of imagination in acting is worth a pound of makeup.

Don't waste your time or mine telling fellow actors how good you are. The Fox company pays publicity men to do that.

"It is the Law," made into a big special screen production, is showing at the Pantages Theatre.

Beauty Then Brains Sort of Women Men Like Best

Ma Murray Gives Her Views; Now at Playhouse Screen

What sort of a man do women like best?
What sort of a woman do men like best?
These two questions were asked of

Mae Murray, famous screen comedienne, by a prominent English writer on the occasion of a private showing in New York recently of Mae Murray's latest picture, "The French Doll." This picture was made from the sensational Broadway success of last season, starred in by Irene Bordoni and adapted from a celebrated French play.

The question was pertinent, as the story of "The French Doll" to some extent hinges on the choice which she heroine makes among several suitors. "The French Doll" is at the Playhouse Theatre.

"I think the type of women men like best of all," Miss Murray said, "is the petite charmer, the sort of woman to whom life is romance and to whom luxury, wealth, beauty and love are necessary to make life bearable. It isn't a platitude to say that empires have risen and fallen because men have fought for a woman's

COMMENCEMENT EXERCISES AT NORTH WARD

Commencement exercises were held in North Ward Schools on Friday afternoon last at 1:30 o'clock. G. R. Naden, Deputy Minister of Lands, presented to Miss Ina Wallace

a bronze medal and to Master James Gibson a diploma, for essays written on forest fire prevention. James Gibson was also presented with a \$50 prize for his essay describing what he observed on a visit to the Victoria Steam Laundry.

Forty-four High School entrance certificates and a number of manual training and domestic science diplomas were presented to last year's entrance class.

The senior girls' basketball cup, won for the third consecutive year, was presented to last year's team.

A very interesting and appropriate address to the pupils was given by the Rev. R. W. Hibbert of Centennial Church.

The singing of the pupils led by supervisor H. J. Follard was much admired by all the visitors present.

Before the singing of the National Anthem cheers were given for Mr. Naden and Mr. Hibbert.

Fox Screen Version of "If Winter Comes" Faithful to Story

Columbia's Pictorial Presentation of Popular Novel True to Author

"Do not deviate one iota from the story." This was the order issued by William Fox to his production staff following his purchase of the screen rights to "If Winter Comes," A. S. M. Hutchinson's great novel, for which he paid the highest price on record. So, in accordance with this ruling, the chief scenario writer of the Fox Eastern Studios went to work to adapt the theme without the introduction of a solitary character or action not mentioned by the author. But, how faithfully and artistically every detail contained in the book was reproduced upon the screen

was revealed when the screen version opened an engagement at the Columbia Theatre to-day.

A notable cast of screen artists portray the various familiar parts in the picture including Percy Marmont as Mark Sabre; Ann Forrest as Lady Tybar; Arthur Metcalfe as Haggood; Sydney Herbert as Twynning; Walter Kolb as Harold Twynning; William Elley Hatch as the Rev. Sebastian Fortune; Raymond Bloomer as Lord Tybar; Virginia Lee as Miss Winfred; Leslie King as "Humpho"; George Pelzer as Old Bright; James Ten Brook as the coroner; Margaret Fielding as Mabel; Gladys Leslie as Effie; Dorothy Allen as High Hinks; Eleanor Daniels as Lew Jinks; Eugene Woodward as Mrs. Perch and Russell Sedwick as Young Perch.

BELIED HER LOOKS

"What's the fare?" inquired the woman of the taxidriver, as the conveyance stopped at her destination.

"Half a crown, mum," was the prompt reply.

"Well, here's one-and-six, my man—
I'm not such a fool as I look."

"No," said cabby, "I wish you were, mum!"

"To-night's the Night," Staged for Week's Run; Snappy Revue, Songs and Dances

To-night's the night to see "To-night's the Night" at the Royal Theatre where the Hincks Company will open its initial performance under a new contract with the owners of the theatre. They have banded every effort to make this show an outstanding success and from reports there will be no doubt on that score.

Scenery, costumes, lighting effects as well as the dialogue, music and dancing are of the highest class and will be helped by the big Royal Orchestra. A large and carefully picked chorus of very beautiful and clever girls has been added to the strong cast of principals and all the old favorites will be there in roles which are made to suit each individual. The music is of the snappiest variety with some of the most popular song hits of the minute added. There has been a healthy demand for seats and patrons are

University Man
Drowned in Sea

San Francisco, Sept. 15.—Dr. Wallace Harold Barnes, clinical instructor in the Medical Department at Leland Stanford University, was drowned yesterday in the surf at Bolinas, north of here. Dr. Barnes was overcome, probably by heart failure, while swimming.

SENDS PHOTO BY WIRE—Capt. Wm. Stephenson, formerly of Winnipeg, who has invented what he claims is a new method of transmitting photo by wireless telegraph and radio. He is employed as a wireless engineer in London, Eng.

CHINESE GIRDLED FOR WAR—Martial scenes from China are displayed in the above photographs, which just arrived from the Orient. Upper left, a gun crew in the Chibli army working a modern eighteen-pounder. Upper right, a Chinese general has inscribed on a scroll—written across his headquarters the motto, "Fen Doh," which being interpreted, means "Fight the Good Fight." Left of these bold ideographs may be seen a smaller panel portraying an ornamented pastoral scene. Below, two staff officers of the Chibli army.

AUTHORESS—To be sixteen and beautiful and famous is the triple good fortune of Mollie Panter-Downes, the English school girl who wrote a novel, "The Shoreless Sea," that is attracting universal attention. Now she's working on another.

AIDS ITS FIGHT—Dr. A. Grant Fleming, assistant officer of public health for Toronto, who has resigned that post to take up anti-tuberculosis research work in Montreal.

PRINCE A HARD PLAYER—The Prince of Wales is seen above on the left, riding his favorite black mare, Kitty, and defending the goal of his side in a hard-fought polo game, which was played on a private Long Island field during a downpour of rain. Right, America's royal guest is shown at the Belmont Park race track. Below, the Prince is displaying his favorite maroon-colored bandanna handkerchief.

ITALIAN DUKE COMING—The Duke of Alba, Spanish nobleman who also holds the Scottish title of Duke of Berwick. He is a direct descendant of James II. of England, and also of Christopher Columbus, discoverer of America. He came to the United States to view the international polo games at Meadowbrook and will come on out to the Pacific Coast.

DOLLED UP—Carl Byberg, member of the crew of the old coast guard cutter Bear, is all dressed up. His outfit is to northern Alaskan natives what the dress suit is to the men in this country. Byberg obtained it from a native woman in exchange for a bowl of "sluggullion" stew. Byberg was wearing it when the historic mercy ship was caught in the ice-jam in the Arctic.

IRISH HONOR MICHAEL COLLINS—Many prominent persons attended the unveiling of the memorial to Michael Collins, the late Irish leader, erected at Ballinacorney on the spot where he was ambushed and killed. President Cosgrave eulogized the martyred patriot.

GOLDEN TRESSES LATEST FASHION—The girls are gliding their locks in Paris now. In the theatres, in the cabarets, at all sorts of parties, they are wearing golden and silver wigs. They just slip them on over their bobbed locks. Desfosse, the designer, originated the fad.

KLANSMEN AT FUNERAL OF HERRIN VICTIM—Brother members of the Ku Klux Klan turned out in full regalia, hoods and everything, for the funeral of Charles Willard, one of the men killed in the gun battle in Herrin, Ill., between forces of Sheriff George Galligan and assorted klansmen. Here the klansmen are seen entering the cemetery.

PAINTS WITHOUT ARMS—Quite unmindful of the fact, visitors to the art gallery at the C.N.E. Exhibition this year were admiring two striking pictures which were painted by an "armless artist," E. Marie Bailey is his name and the picturesque Nova Scotia fishing village of Lunenburg is where he does his work. His latest two paintings were listed as "Lunenburg Harbor" and "Autumn." Above, the courageous artist is shown at work.

WHAT REAL SHEKAS LOOK LIKE—Slaves from Araby arrive to show folks why shekash stay home. There has been a lot of talk the last few years about the shekash. Little, though, has been said about the shekash. Well, here are two of the genuine. They are Linda Loredo (left) and her sister, Maria. From Araby they've just come.
