BOLTON ORCHARD HEATER

The Bolton Orchard Heater is the result of many years of experiment and experience. Today it stands without a peer. It pioneered and blazed the way to fortune for many a disheartened grower. With its simple devices for perfecting and regulating combustion, for deflecting the flame and for the gathering and burning of soot, it has reached the highest state of efficiency and practicability.

The Bolton Orchard Heater has an almost perfect combustion, and on a filling of oil will generate as great a heat as is possible in an open burning pot. Many authorities contend that smoke is of benefit, and we agree inasmuch as the smoke acts as a blanket and retains the heat, and at sunrise prevents immediate thaw. No oil-consuming device of the open type can be operated without creating ample smoke for the purpose necessary, but the vital element is the heat immediately generated to hold the temperature at the point of safety against a sudden fall.

We have a large supply of these Heaters on hand. Our prices are Factory Prices.

Campbell Celebrates Pioneers' Day Saturday

Let Everyone Who Has a Flag Fly It on the Day We Celebrate

Old Settlers' Day, to be celebrated on Saturday, February 21, promises to lack nothing of the spirit and interest of former occasions of the same sort. All the committees are attentive to their duties, and the home-coming visitors as well as home folks, will find everything ready and flags flying at an early hour. The school auditorium will be full, of course. But if every body is quiet there will be no difficulty in hearing anywhere in the court. And everyone will want to hear every note of the music by such artists as those whose names appear on the program, as well as every word of the masterly address which may be expected from the coadjutor of Bishop Nicholls, of the Episcopal church, of San Francisco. And the service of demobilizing the community service flag, with firing of salute for those who will never come back, is one in which we all will want to share, with hats off.

In the afternoon there will be music and elocution, and Mr. Righter will relate some of the pleasant memories of

the beginnings of Old Settlers' Day, and of course none but the deaf and blind would miss those base ball and basket ball games which are to finish the afternoon program.

But all this feast of good things might leave stomachs empty, if this were all. But hot dinner will be ready at noon for 200 or more, at the Methodist church. The Ladies' Aid Society gives assurance that they can take care of that number by setting the table twice, which they will do with neatness and dispatch, and the quality of their dinners is too well known to need advertisement. They promise a hot, substantial and appetizing meal, for 50 cents.

Those who bring basket lunch will find everything for their convenience at the Odd Fellows hall, where baskets may be left in the morning in care of a member of the hall and tables committee, who will be on duty to see that everything is safe and the room comfortable, and to have coffee ready at noon. Bring your own sugar and cream.

Sgt. Doc Wells and Players At Campbell Saturday Evening

Sergeant Doc Wells, of Liberty Loan fame thruout Santa Clara county, has again taken to his "stage whisper," and with a troupe of his "comrades in arms" will give a performance at the Campbell auditorium as a finale to the Old Settlers' Day celebration, Saturday evening.

Miss Irma Mitchell, daughter of Nurse "Jack" Mitchell, well known in our midst, is leading lady. Miss Mitchell is no novice at the footlights, having done her bit on the Australian stage, and while a volunteer nurse in England, entertained thousands of wounded soldiers with parts.

Miss Helen Stagg, of San Jose, is a very clever performer, and with her winning style is sure to make a hit.

Mr. Frank Lannan, also of San Jose, will play as Capt. Peerless, in a gripping and dramatic military playlet, and as Frank Rivers in a comic tabloid.

Sam McAbee, who is almost a Campbellite, one of the famous Canadian Scot-

tish fighters in France, and was severely wounded at Vimy Ridge, is one of the "Wells fighting troupe."

Mr. Fred Orner, of the 411th Telegraph Battalion, was with the A. E. F. through the fighting in the Argonne, Chateau Thierry and San Mihel.

Mr. Keho, another Canadian, was wounded three times during the fighting on the Western front.

Sergeant Thomas M. Fordyce was with the American forces in the hardest fighting, was wounded, taken prisoner by the Germans, only having been released after the armistice was signed.

The Wells Players will present three bills, "The Fascinating Princess" (comedy), "The Soldier's Dream" (comedy-drama), and "The Crime of a Soldier" (drama); also a number of vaudeville specialties, including "Tommy" and "Una" Fordyce, late of the Summer Gardens, New York, in the latest New York society dancing hits.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

PERSHING WRITES TO SCOUTS

General John J. Pershing has always been a strong friend of the Boy Scouts of America.

He knows to the full the value of the many-sided service they gave in the war.

He knows the value of scout training in producing a well-equipped manhood, for there were a hundred thousand former scouts in the army in France.

General Pershing has sent this letter to the president of the Boy Scouts of America, urging them "to remember":

"On July 25th, last year, while we were in the midst of the desperate battle of the Marne, I sent a greeting to the Boy Scouts of America from our soldiers in France, and urged them to keep faith with the scout laws.

"Those were days when old and young realized the necessity for every one to serve the country.

"Today, without the pressure of a great war to hold our attention upon the necessity of good citizenship, it is important that the lessons of the war in patriotism and devotion be always borne in mind, as the obligations in peace time are as urgent as in war. Let there be no relaxation in your efforts."

HOW SCOUTING AIDS PARENTS.

Here are two simple remarks made by a Boy Scout and by his father, each without the knowledge of the other, after a father and son hike. The scout said:

"I never knew what a darned good fellow my father was till he came here and camped with me. He always seemed like a stern man, whose big idea was to punish me when I was not good, and then I did not want to be good. But now he has been here, and we have been fishing together, and he has shown me a lot of interesting things that I never knew before, and that I never would suppose he knew. Now all of a sudden he seems like a chum of mine. I hope he'll keep right on coming up."

Within an hour the father of the same boy had said: "I've just realized my boy for the first time. Say, he isn't a baby any more, and I've been handling him like one. I'm going to change my tactics and keep on knowing him better."

On these hikes the boy entertains his father at the camp and at the other dolings. He prepares the tent for him, sharing his own, which no other may share but his father.

HE CAN TALK FOR MILES.

The Scout Who Knows the Code Can Easily Semaphore a Message.

BOY SCOUT TROOPS IN MILL.

One of the most interesting letters that have ever come to the national headquarters of the Boy Scouts of America contained the applications of five troops of boys employed in cotton mills in Georgia.

Southwest LaGrange is the post office center for the four communities where these great mills are located. There is one troop each in the Unity Cotton mills, the Unity Spinning mills and the Elm City mills and two troops for the Hillside Cotton mills.

These lads who would be scouts have a vision of the future good citizenship upon which America must rely. The Fuller E. Callaway company has provided an auditorium, to be arranged in five separate compartments, one for each troop. About 20 of the men in the mills will give time to helping the boy scouts in the program.

Genuine Success
"Was your fishing trip a success?"
"Great success," replied the eminent statesman. "I didn't catch any fish, but I found a place away off on the water where interviewers couldn't reach me even by telephone."—Washington Star.

GIRL WAR BRIDE ATTEMPTS SUICIDE

English Wife of U. S. Soldier Takes Poison in San Francisco

San Francisco.—After a fruitless six-weeks' search for her husband, an American soldier, who told her to meet him in San Francisco after they were separated in England, Mrs. Gladys Copeland, pretty 20-year-old English girl, attempted to commit suicide by swallowing poison.

The girl took the poison in the home of Mrs. Marshal Offenbach, 171 Delmar street, where she has been employed as a domestic since her arrival in San Francisco six weeks ago.

Convinced that her husband, Chas. Copeland, had proved a rogue and had never intended meeting her in this city, Mrs. Copeland went to her room and drained the contents of a bottle of poison.

Her screams of agony attracted Mrs. Offenbach and the girl was taken to the Park Emergency Hospital, where every attempt was made to save her life. Mrs. Copeland was reported to be in a critical condition.

"I am so despondent," the girl cried at the hospital. "He promised to meet me in San Francisco. I am convinced he was lying all the time."

Mrs. Copeland said she was married to Copeland, who was in the uniform of an American soldier, in London, just before the armistice was signed. They lived together in London for several weeks and he was finally ordered back to the United States.

Mrs. Copeland said her husband told her to come to San Francisco and meet him when she secured enough money for her transportation. She said she arrived in New York on December 3 last and came immediately to San Francisco.

After securing a position as domestic, she searched the city in vain for Copeland for the last six weeks and decided then to end her life.

INVENTOR OF BARBED WIRE FENCE DIES AT HAYWARD

Hayward.—John Calvin Merrill, inventor of the barbed-wire fence that revolutionized the stock ranches of the old West and to a great extent modern warfare, died at the home of his daughter, Mrs. Hattie Pimental, here February 8.

Merrill won two historic suits in the State courts of Iowa fifty years ago, based upon his claims as inventor of the fence which rapidly supplanted the old rail and board fences of the Middle West, and later was used to mark the boundaries of vast expanses of land of Western cattle ranches.

Merrill said that he hit upon his discovery when he found difficulty in keeping the pigs on his ranch near Dubuque, Iowa, within bounds, and finally hit upon the idea of putting barbs in wire fences.

He came to California in 1901 and settled with his family at San Martin, Santa Clara county. He lived there until two years ago, when he came to Hayward to live with his daughter.

Merrill was 84 years old and is survived by his widow, four children and one grandson.

SEVEN MORE VICTIMS OF THE HARMLESS MUSHROOM

San Francisco.—Seven persons—four adults and three children—were poisoned at their home at 1239 Thirty-seventh avenue, from eating mushrooms and were taken to the Park Emergency Hospital in a serious condition.

Those Poisoned

Edward J. Nolan, former Assemblyman; Mrs. Nolan; Dorothy Nolan, 11 years old; Mrs. Mable Erickson and daughter; Mrs. Joseph B. Duggan and child. Nolan told the hospital attaches that the mushrooms were purchased from a nearby store. He said that the mushrooms were cooked and a few moments after eating them, the entire party was taken ill. With the exception of the Duggan and Erickson children, the poisoned persons were taken to the Park Emergency Hospital. After receiving emergency treatment they were moved to the Central Emergency Hospital. It is believed they will all recover.

R. I. BANK WRECKER IS SENTENCED TO 5 YEARS

Providence, R. I.—Henry E. de Kay of Ashbourn, Va., uncle of Jeanne de Kay, the young woman who mysteriously disappeared from Hull House, Chicago, recently, was sentenced in the Federal Court to five years in State Prison for participation in the wrecking of the Atlantic National Bank of this city in 1914. He was liberated on \$15,000 bail pending an appeal.

BAD CHECK INDORSED "LORD WILL PROTECT"

Memphis.—A worthless check for \$400, bearing the inscription, "Blessed is he that considereth the poor. The Lord will protect him in time of trouble," is all that Mrs. Mary J. Sims, 84 years old, has to show for property valued at \$3,500 and \$900 in cash given the Rev. E. A. McGee, pastor of the Apostolic Faith Mission Home in Fourth avenue, according to her suit filed in court here.

Sunnyvale.—Voters of this community will decide for or against an issue of \$70,000 worth of bonds for school purposes on Thursday, March 4. New grounds, a new building and the rehabilitation of the present structure are included in the plans. Rev. J. H. Roberts, Nellie Wahl and Gertrude Cornell will compose the election board.

A charter for the organization has been approved and temporary officers elected as follows: President, Thomas Perry; vice-president, H. Anzini; secretary-treasurer, W. R. Whitaker; historian, J. Brown; sergeant-at-arms, Milton F. Lorenz.

San Jose.—The police are looking for a man with a habit of turning in false fire alarms. The bell-ringer has been selecting 1:30 in the morning as the time for getting the entire fire department out of bed. He will probably get off much easier if the police find him than if he falls into the clutches of the firemen first, according to members of that department.

Nevada City.—Silas Liggins, colored, and a former slave in Tennessee, died at the County Hospital here at the age of nearly 90. Liggins was born in Tennessee, and lived in slavery until freed. Leggins came to the mountain region and worked as a ditch-tender, later engaging in the work of making shakes. Last December he was found helpless in his cabin and brought to the County Hospital.

San Rafael.—Fred Suhling bought a prize-winning gander for his flock of geese at the Pacific Hog Ranch near Las Gallinas. On his way to the ranch with the gander he stopped to shake hands with his friends in the court-house. His greetings completed, he returned to his truck. The gander was gone. He then called on District Attorney Henry Greer and demanded a search warrant, with permission to ransack the court-house offices. This was denied, and Suhling drove away muttering, "They're a bunch of thieves."

San Francisco.—William Francis Cody and Miss Lucille Hawley Gignoux stole a march on their many friends Saturday night, February 7, and were quietly married at the Parish House of St. Mary's Cathedral by Rev. Daniel J. Kelly. Miss Gignoux is the daughter of Claud Gignoux, 73 Tunnel road, Berkeley, and is very popular in Berkeley and University of California social circles. She is a member of the Chi Omega Sorority and has been a student at the University for the past two years.

Redwood City.—The San Mateo county Supervisors directed County Clerk Elizabeth M. Nash to invite the architects of the county to submit plans for the new \$125,000 county hospital which will be built on the site at Beresford recently purchased by the county. The following prizes were posted: First prize, 6 per cent of cost; second, \$500; third, \$400, and fourth, \$300.

Redding.—The lattice bridge across Trinity river at the Sturdevant ranch, near the Humboldt county line, went out one day recently. At the time it commenced to give way two men and an ox team were crossing. The teamster had barely time to unhitch the forward yoke of oxen when the bridge went down, carrying with it the other oxen, the wagon and a load of merchandise. The men and one span of oxen escaped. The bridge was new.

San Jose.—Checks bringing the total paid California apricot growers for dried apricots this season up to \$2,697,000 has been mailed to orchardists in all parts of the State by the California prune and Apricot Growers Association, Inc., it was announced at the headquarters here. It was also announced that this brings the total paid prune and apricot growers to date for their 1919 crops up to \$24,000,000. The final settlement for the prune crop will be made shortly, it was stated.

San Francisco.—Fire, which early Monday morning, February 9, gutted the Berkshire Apartments at 729 Jones street, burned Mrs. Mary E. Donoho to death and caused injury to thirty others, originated from spontaneous combustion in a paint closet adjoining gas meters in the basement, according to Fire Marshal James F. Layden. Mrs. Donoho, the only victim to lose her life, was trapped on the fourth floor of the building, and her body was found by firemen in a hallway where she had fallen while groping her way to an exit.

Los Angeles.—One man was killed and twenty were injured, five of them seriously, when a heavy truck returning from field maneuvers to the Army Balloon School at Ross field, near here, overturned on a grade near Mount Wilson. Ambulances with surgeons went to the scene after carrier pigeons, released from the truck by a soldier, arrived at Ross field with the news of the accident. Private William F. Maginnis of Indianapolis, who was acting as chauffeur, was killed. The seriously injured were Sergeant Virgil C. Lightfoot, Privates Amos M. Albertson, Robert Baldock, Joseph D. Brown and Isaac H. Heathcote. All in the machine were members of the First Balloon Company, stationed at Ross field.

CHURCH CINEMA WINS APPROVAL

General Adoption of Motion Pictures Expected to Stimulate Interest

London.—One of the developments of the future will be the church cinema. The experiment has already been tried with success at the Stepeny Central Hall. Now comes the news from Birmingham that the Rev. C. B. Code, with the sanction of the Bishop of Birmingham, has decided to establish a cinema in St. Bartholomew's Church, of which he is the vicar.

St. Bartholomew's stands within a stone's throw of the heart of the city, dominating the Italian quarter and in the fringe of what is known as "Parker Birmingham"—the local slumland.

The church attendance has dwindled until there are only about twenty present at a service. Outside the main arteries of the city are thronged every Sunday night with crowds of young people of both sexes, whose well being has exercised the minds of many of those who hold themselves responsible for the moral progress of Birmingham.

Subject to the approval of the licensing justices—which is hardly likely to be withheld—Mr. Code intends to make a big effort to attract young people and others by installing a cinematograph by means of which pictures of a religious and semi-religious character will be shown.

GIRL DRINKS POISON AT FIANCE'S FUNERAL

Suicide Attempt Made in Carriage at Cemetery

San Francisco.—Overcome with grief during the funeral of her fiance, Miss Bessie Green, 16 years old and living at Ashland station, near Elmhurst, Sunday, February 8, attempted to end her life by drinking poison in a carriage at Evergreen Cemetery.

The girl's screams attracted relatives and friends, who rushed her to the Emergency Hospital.

Herman Deworak, the girl's fiance, was instantly killed when he fell from a scaffold at the Shredded Wheat plant, where he was employed. The couple were to have been married February 9.

When revived at the hospital the girl said she wanted to follow her fiance. She said she had been planning for weeks for their wedding.

The girl's father, William G. Green, is connected with the Metropolitan Insurance Company in this city and is well known in insurance circles.

It is expected the girl will recover.

TWO ALAMEDA GIRLS DISAPPEAR FROM HOMES

Alameda.—The police departments of the bay region have been unable to find trace of Mildred Thorp, 12 years old, and Jeannette Thompson, 16 years old, who disappeared from their homes Saturday, February 7. Mildred is the daughter of Mrs. Margaret Thorp, 802 Pacific avenue, and Jeannette is the daughter of C. J. Thompson, 1313 Ninth street.

At first the parents thought that the girls had left for Los Angeles in an automobile. But it developed later that they had gone for a ride with a friend, Ray Bocard of Oakland. Bocard, who is a friend of both the families, called to take the girls out for another ride. He told the families that he had brought the girls home about 9:30 o'clock on Saturday night, and told them he would call for them on Sunday afternoon.

According to the families of the missing girls, they had very little money between them. Both girls are wearing their older sisters' wearing apparel in order to pass for older girls.

MADE LATE FOR CHURCH SO HE SPANKS WIFE

Winnipeg, Man.—A queer excuse for wife-beating was recorded in police court here at the trial of Rudolph Botcher. Botcher declared he "spanked" his wife because she made him miss church for the first time in fourteen years.

Mrs. Botcher admitted that she was half an hour late for divine service and that her husband hit her over the head as a consequence. Magistrate McDonald bound Botcher over to keep the peace and suggested to Mrs. Botcher that she try to be punctual for the next fourteen years.

JOHNSON IMPROVED, PHYSICIAN REPORTS

Washington.—Continued improvement in the condition of Senator Johnson, Republican, California, who is confined to his home here with an attack of influenza, has been reported, but he is not expected to return to work for several days.

San Francisco.—Mrs. Irene Jones Hoerber, wife of Harold H. Hoerber, president of the Francis Valentine Printing Company, died at her home, 1159 Clay street, February 9, of pneumonia, after an illness of five days. Mrs. Hoerber was 26 years old.

Fighting the Prairie Dog

(Prepared by the U. S. Department of Agriculture.)

Pile of Prairie Dogs. Evidence of Work by Representatives of the Biological Survey of the United States Department of Agriculture.

Prairie dogs occupy more than 100,000,000 acres of public and private lands, and wherever they occur in abundance they are exceedingly destructive to cultivated crops and to forage on the open range. In co-operation with the extension services of the agricultural colleges in Arizona, Colorado, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Utah and Wyoming the campaign against these animals has been pushed aggressively by the biological survey, which recently issued its annual report from which the following facts are taken:

In Arizona and New Mexico the state councils of defense joined actively in the work and contributed funds for the purpose. The participation of farmers and stockmen has been fuller than ever before, and the saving of crops and forage has been correspondingly great. During the year from 75 to 85 per cent of the prairie dogs were destroyed on nearly 2,000,000 acres of privately owned crop and forage lands and on more than 200,000 acres of public domain, the latter making more than 3,700,000 acres of public lands which have been largely freed from these pests. In many places private landowners were so interested that they volunteered their services to clear adjacent government lands, the bureau supplying the poison to be used in the work. With co-operation of this character it will be possible to clear large areas of the public domain at almost a nominal cost to the government.

The Bible, Agent of Civilization

As Powerful as Ever in Uplift of Humanity.

More and more it is realized that the Bible is the only book in the world which can be applied to all classes, all conditions and all times. Written and compiled thousands of years ago, when the world was in its infancy and when humanity was groping its way out of the darkness into the light, its wonderful images, its inspiring stories and its uplifting spirituality make it as valuable an agent of civilization and as powerful a factor in the uplift of humanity as ever it was. In fact, the Bible is found to be the best known guide for social progress, for political construction and for industrial peace. Its usefulness does not stop there. It is now employed to teach the lessons of patriotism and to inculcate the spirit of Americanism.—New York Herald.

RIGHT TO THE POINT

Love and wine get credit for making fools of some men who were born fools.

It's the easiest thing in the world for a man to forget the mean advantage he took of another.

Always listen carefully to the opinions of others; the chances are you will derive no benefit therefrom, but it will please them.

"Smile when you can," says a poet. That's all right, but why didn't he confer an everlasting favor on humanity by telling us how to smile when we can't.

Paraffin Good Cleanser Aid to Housekeeper

Paraffin is very useful, and does wonders for the housekeeper, though some people look upon it as a greasy liquid unfit for cleansing purposes. A soft cloth moistened with it and used on the furniture in regular dustings will brighten the wood. Many laundresses put a little into the water in which soiled clothes are soaked, and a little added to the starch will keep the irons from sticking. Paraffin is also good for cleaning enameled bedsteads, bathtubs, sinks, etc. Paint is greatly improved if cleaned with a soft cloth and paraffin, the dirt coming away without injuring the surface or spoiling the luster.

Today

Today is yours and mine; the only day we have; the day in which we play our part. What our part may signify in the great whole we may not understand; but we are here to play it, and now is our time. This we know: It is a part of action, not of whining. It is a part of love, not cynicism. It is for use to express love in terms of human helpfulness.—David Starr Jordan.

Sleighs Used in Land of No Snow—They Are Drawn By the Slow, Clumsy Ox

The Island of Madeira, which lies off the west coast of Morocco, naturally never sees any snow. Nevertheless, sleighs are to be found there, and in place of the swift and graceful reindeer they are drawn by the slow, clumsy ox.

The streets of Madeira are paved with smooth round stones, and over these stones the runners of the sleighs travel quite freely. In fact, the motion of the sleigh is much smoother than would be that of a wheeled vehicle, because the runners readily pass over small depressions in the pavement without jar.

The passenger sleigh has upholstered seats and figured curtains to protect the occupants from the weather as well as from the gaze of the curious. The body is mounted on springs and it is said that riding in one of these primitive vehicles is very pleasant, although rather slow.

BEST LITTER FOR POULTRY HOUSE

Litter for the poultry house floor is not only necessary in plentiful quantities, but it should also be of satisfactory quality. The two main points are to have a material that will not break up into chaff or powder too quickly, and which will not be inclined to absorb moisture. Litter that breaks up quickly makes the house overly dusty and often causes disease of the nose or throat or sore eyes by fine particles being thrown into the hen's eyes when scratching. Litter that absorbs moisture quickly is especially bad in the winter months, when sunshine is scarce and has little drying power. Damp or filthy litter often makes a good breeding place for disease germs. Litter should always be a material that is digestible if eaten by the hens, for a certain amount is invariably consumed.

Wheat or rye straw is one of the best materials for the litter, as it is tough and lasts well, although at the same time light enough in weight that the hens can easily kick it around. These straws also have the desirable quality of being slow to absorb moisture. Oat straw does not make quite such good litter, as it is heavy, powders quickly and in damp weather absorbs moisture readily, becoming soggy even from the damp air in the house. Of course, this is somewhat offset by the fact that the chickens will eat off the leaves of the hay, which is good for them.

For the floor of brooders or colony coops, short-cut hay is one of the best materials that can be used when cut in two or three-inch lengths and spread on the floor to the depth of about an inch. Leaves of various kinds (such as fall from the trees in the autumn) can be stored and used for litter.

CALOMEL TODAY, SICK TOMORROW

Dose of nasty calomel makes you sick and you lose a day's work.

Calomel salivates! It's mercury Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start you; liver and straighten you up better and quicker than nasty calomel and without making you sick, you just get back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.

Labor-Saving in Literature

Her Father's Generosity

"How did you get on?"

The sweet young maiden breathed the words into her lover's manly ear as she met him at the passage.

He had been "seeing father," and she wanted to know the result.

"Yes, yes," impatiently said the girl. "What did he say?"

"He merely offered to pay my funeral expenses."—London Ideas.

Gallery Wit

An old-timer was reminiscing at the club. "Speaking of famous singers," he said, "I remember being present at a concert at which Madam Nilsson was to sing, but she was indisposed. The foreigner who announced the fact said: 'Madam Nilsson sees a leetle horse.'"

"Noticing a ripple of laughter run through the audience, he repeated in some confusion, 'a leetle horse, a leetle horse, a leetle colt.'"

"Whereupon a facetious occupant of the gallery brought down the house by asking, 'Well, then, why don't you trot her out?'"

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezezone, and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezezone doesn't eat out the corns of calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist doesn't have freezezone have him order it for you.—Adv.

To Our Old Settlers.

Hail! All hail to the Pioneers,
The men who have made our state,
Who traveled from far off countries,
With the key to the Golden Gate.

The Pioneer Mothers! God bless them
For the part they took in the fray!
The Native Sons and Daughters
Shall arise and bless them today.

With their oxen and prairie schooners,
Putting their trust in God,
Bravely they traversed the barren wastes
O'er leagues of land untrod.

Now cars for sleeping, cars for smoking,
Cars where one may dine,
Flash swiftly over the oxen trail
They blazed in forty-nine.

They have made our land a garden,
Those pioneer men of old,
Who answered from round the planet
To the call of the garrulous gold.

Our harbors teem with commerce,
Our tows are marts of trade;
For they founded wealth compellers
Outside the pick and spade.

Hail! All hail to the pioneers,
God bless their silvery hair!
They have made for us our Golden State,
By their courage to do and dare.

Hail! All hail to the pioneers,
To the fathers and mothers, too,
Who, risking all, with faith in God,
Budded better than they knew.
Clara Beebe Baldwin.

Second Conference of Group Leaders

The second conference of Group Leaders of the Santa Clara County Y. M. C. A. met at dinner Friday evening, February 13, at 6:30, at the Y. M. C. A. Dr. W. B. Gillispie had charge of the devotional. The next place of meeting was decided upon as Morgan Hill, and the time set is March 12, at 7:00 p. m. The Group Leaders voted to send delegations of their boys to as many places as desired them, on the night of February 22, to take part in the regular church and young people's meetings; this is the beginning of a definite and intensive endeavor to make the boys of the county Y. M. C. A. groups more vital in their relationship to the church.

Mr. T. D. Dollings, of Palo Alto, and Dr. W. B. Gillispie, of Morgan Hill were elected to have charge of discussion and devotional periods of subsequent meetings of the group leaders. This group of leaders must become more and more an "inner circle" from which inspiration and incentive may be derived for the proper advancement of the cause.

Mr. Neil Locke, Associate State County Secretary of the Y. M. C. A., followed with a presentation of the Christian Citizenship Training Program—commonly known as the C. C. T. P. Mr. Locke's presentation was exceedingly forceful and convincing. The C. C. T. P. introduces nothing new; it is a compilation, gradation and scientific arrangement of facts already learned by men who are, and have been, giving their whole time to Boyology. The C. C. T. P. is scientific; furthermore, it follows the demonstrated theory which is so well recognized in the psychology of youth, that for the development of the finest character, the Christian ideal must permeate the whole program from start to finish.

Mr. Locke pointed out that the boys appreciate and respond to the kind of idealism here set forth: "Cut out the rough stuff," is a common statement heard from the lips of Y. M. C. A. boys wherever this type of work is properly conducted. Y. M. C. A. boys see the desirability of being men, and are proud to let their fellows see that they are men.

The aim of the C. C. T. P. is three-fold:

1. To show the boy what he is. This is done by the charting system.
2. To give the boy a goal.
3. To provide a program.

Individual interview between the leader and the boy, forms the context of the method of the C. C. T. P.; thus the leader helps the boy to grade himself, and later to realize himself. The C. C. T. P. is not monopolized by the Y. M. C. A. It is intended for, and adapted to, use broadcast in Sunday Schools. Further information in regard to it may be had from the county secretary, Charles R. Hicks, Los Gatos.

"We are developing character—not running a side show," was a statement made by Mr. Locke, which indicated very well the tone of this meeting of group leaders. Those present were:

D. Robertson, Palo Alto.
T. D. Dollings, Palo Alto.
A. R. Taylor, Palo Alto.
Raymond Allison, Los Gatos.
Earl Allison, Los Gatos.
W. B. Gillispie, Morgan Hill.
M. Bennett, Sunnyvale.
Fred Bohman, Campbell.
K. C. Bayless, Saratoga.
Chas. Moore, Mountain View.
Jas. M. Graham, Mountain View.
Neil Locke, San Francisco.
C. R. Hicks, Co. Secretary, Los Gatos.

Chautauqua For Campbell

Campbell will have a Chautauqua entertainment in the early summer or as soon as the circuit can be arranged to bring it here. The Radcliffe Company of Washington, D. C., has completed arrangements with a number of our progressive townspeople whereby they have signed as guarantors for a specified amount of receipts.

The guaranteed amount is \$500 and all seat sales over that amount is the property of the promoters. It has been suggested that the surplus be turned over to the Campbell library. The expense of site, tickets and advertising will be that of the local sponsors. There will be no war-tax charged, as this is of sufficient educational value as to be exempt from the amusement tax. The season tickets for the three days will be \$2.00.

Valuable Daughters.

A daughter is of considerably more value to the Kaffir than a son. Up to the age of ten, a Kaffir girl is kept at home; then she has to earn her own living, either as a servant at a white lady's house, or by assisting her father in hoeing the meadow and corn patch. As soon as she reaches a marriageable age suitors arrive. Beauty is a small attraction in the eyes of the Kaffir lady-killer. The father bargains with the suitor. A very fair price for a good girl is eight oxen.

What Would You Do?

What would you do, dear friends, if some morning a neighbor should come to your door and tell you that the house at the next corner had been robbed and burned in the night, the father and mother of the family murdered, and the two little children and the old grandfather left destitute? Would you contribute to the relief of these people, or would you say, "No, I can't give anything. I once knew a man who came from the same town as the old gentleman, and he was the meanest man I ever knew."

Or would you say, "I think the county police officers ought to see that such things can not occur. I can't give anything."

Or would you say, "Let the people next door help them. I live a block and a half away."

Or would you say, "I'm tired of giving. I gave a dollar to the Red Cross, two months ago."

Or would you say, "The weather looks bad. I'm afraid the crop won't be very good this year. I don't think I'll be able to buy a new machine or any more land. I can't give anything."

Would you say any of these things, or would you do as the people of this district have always done—give heartily and generously. We, who know the folks around here, know the answer. Then surely we are not so provincial that we will not recognize the needs of the neighbor across the seas.

It has seemed best to postpone the canvass for the Near East Relief fund on account of the prevailing bad health, but when the solicitor does come, let's greet him or her with the same generous response we have given in the past, and trust that before another seed time in Armenia, the Christian nations will have found some means whereby, without stepping on each other's diplomatic toes, they may protect their suffering brethren from the ravages of the "unspeakable Turk."

To Save a Dollar a Day Will Pay.

YOUNG HEROES AT OXFORD

Many Customs and Traditions of the University Are Likely to Seem Tame to Them.

The returning hero, fresh from battle fields, will no longer rush to the cricket fields and the river at Oxford with the zest of young barbarians at their play, observes a writer in the Nation (London). To one who may wear the ribbon of the Military Cross or the D. S. O., the position of his college boat in the eights can no longer seem the one matter of life and death, and even the halo of a goal shines with diminished glory.

So, too, in lesser pursuits. How shall he dwell upon the squabbles of compartments in ancient Greece, when he himself has motored from Saloniki to Athens in a day, and on to Sparta in the next? Or what will he feel when questioned on his fading memories of the irregular verbs? Probably most public school boys are haunted to old age by a dream—a terrible nightmare—of being "put on" by the old headmaster when they have not taken the trouble to prepare a line of the passage. It makes no difference that they are more than 50 and the headmaster has long been dead. The horror of the situation remains appalling, and the dream is far more frequent than any of Freud's imaginary perversions.

The feeling of the soldier returning to the class and lecture room will be much the same, with a sense of futility added. For, indeed, it is impossible to go back in life and second childhood is not like the first. Little victims play regardless of their doom, but not men who have known what doom can do.

The Grouch

The grouch is a growler,
A calamity howler,
A pessimist gone to seed,
A dyspeptic, a coward,
On everything soured,
Of whom the world has no need.

The grouch is a groaner,
A manifest owner
Of a face as long as a rail,
A chronic fault finder,
A constant reminder
That everything's certain to fail.

The grouch is a scolder
And no one is bolder,
To snarling addicted
He is sorely afflicted
With a lasting attack of the blues.

The grouch is a warning,
An object for scorning,
A something no one wants to see,
A man who, in living,
Is no happiness giving,
Such a man as no one should be.
