forward red position light is displayed on the left side and the forward green position light on the right side, each showing unbroken light between two vertical planes whose dihedral angle is 110 degrees when measured to the left and right, respectively, of the airplane from dead ahead. Such forward position lights shall be spaced laterally as far apart as practicable. One rear position light shall be installed on the airplane at the rear and as far aft as possible and shall show a light visible aft throughout a dihedral angle of 140 degrees bisected by a vertical plane through the longitudinal axis of the airplane. Such light shall emit (a) in the case of a non-air carrier airplane, a continuous white light and (b) in the case of an air carrier airplane, alternate red and white flashes as specified in § 15.2015. In lieu of such single rear position light, an air carrier airplane may carry two rear position lights, one red and one white, spaced as closely as possible to each other with one unit above the other and in combination emitting the red and white flashes specified in § 15.2015.

A tolerance of plus or minus 10% will be allowed in the above figures. Both white and red lights

shall be fitted with 32 candlepower lamps. The red and white units of the light may be separate units spaced as closely as possible. Each color of light shall be completely visible in dihedral angle A. If separate red and white units are used, certificated white tail lights may be converted into such units as follows: (a) the candlepower of the lamps shall conform to the requirements of this section, (b) the clear cover glass for the intended red unit shall be replaced by a red cover glass of the same design. No photometric tests of such converted lights will be considered necessary when the above changes are made. PART 329—MINIMUM PRICE SCHEDULE,
DISTRICT No. 9

[Docket No. A-1031 Part II]

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 9 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF THE GREEN RIVER COAL MINE (MINE INDEX NO. 230) IN DISTRICT NO. 9 FOR SHIPMENTS ORIGINATING AT BEAVER DAM, KENTUCKY

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on August 28, 1941, by District Board 9, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requests that the classifications and minimum prices heretofore established for the coals of the Green River Coal Mine (Mine Index No. 230) be made effective for an additional shipping point.¹ The petition contained a prayer for temporary relief.

District Board 10 intervened, requesting that no relief be granted that would disturb the competitive opportunities of code members in District 10.

Pursuant to Orders duly issued, and after notice to interested persons, a hearing in this matter was held on December 18 and 19, 1941, before Floyd McGown, a duly designated Examiner of the Division, at a hearing room thereof, in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. The original petitioner and District Board 10 appeared. The preparation and filing of a report by the Examiner was waived and the matter thereupon was submitted to the undersigned who has considered the record of the proceeding.

District Board 9 requests that the price classifications and minimum prices heretofore established for the coals of the Green River Coal Mine, Mine Index No. 230, be made effective for shipments from Beaver Dam, Kentucky, over the Illinois Central Railroad, in addition to the present shipping points established for the mine at Drakesboro and Bowling Green, Kentucky, on the Louisville and Nashville Railroad. From the evidence, it appears that the mine is located approximately 22 miles from Bowling Green and some 40 miles from Drakesboro. Beaver Dam is about 23 miles from the mine; Beaver Dam is the nearest shipping point to the mine on the Illinois Central Railroad.

T. J. Hoffman, a member of District Board 9, testified that although certain destinations could be reached over the Illinois Central Railroad at lower freight rates than if shipments were made over the Louisville and Nashville Railroad, there were destinations which are served only by the Illinois Central Railroad.

¹ The petition herein, originally designated Docket No. A-1031, requested the establishment of price classifications and minimum prices for the coals of various other mines in District 9. By Order of the Director dated October 3, 1941, that part of the petition relating to the above-mentioned mine was severed from the remainder of Docket No. A-1031 and was designated Docket No. A-1031, Part II.

Since other producers in the District have been accorded a similar privilege of shipping over both railroads, the witness was of the opinion that in order for the operator of the Green River Coal Mine to compete with the other mines he should be granted an additional shipping point on the Illinois Central Railroad. The witness estimated that the mine produces only about 40 tons of coal per day during the winter months and that it closes down during the summer. He expressed the belief that only an occasional car of coal would be loaded at Beaver Dam. While the amount of coal which the producer has in the past shipped from Beaver Dam, or the destinations to which it was shipped, was not shown, the witness expressed the belief that the producer did ship some coal from this point prior to October 1, 1940.

There was no evidence offered in opposition to the relief requested, except that the testimony of W. Y. Wildman, a witness for District Board 10 in Docket No. A-1051, was incorporated in the record by reference. In Docket No. A-1051, witness Wildman opposed the granting of additional shipping points to certain code members in District 9, principally on the ground that the policy, if extended to District 10, would there lead to harmful results. It is sufficient to note that the requests in Docket No. A-1051 were

in many respects similar to the request made here, and the undersigned, after a consideration of the record, found that the additional shipping points therein requested should be granted.

Therefore, upon the basis of the evidence I find and conclude: (1) that in order to preserve fair competitive opportunities for the coals of the Green River Coal Mine, Mine Index No. 230, provision should be made for shipment of those coals from Beaver Dam, Kentucky over the Illinois Central Railroad at the prices heretofore established for said coals, and that the Schedule of Effective Minimum Prices for District 9 for All Shipments Except Truck should be amended accordingly; (2) that such amendment of the District 9 Price Schedule is required in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and to comply with the standards thereof.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof § 329.5 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: February 23, 1942.

PART 980—RAYON YARN

Supplementary Order M-37-c To Conserve the Supply and Direct the Distribution of Rayon Yarn

Whereas the national defense requirements have created a shortage of rayon yarn, as hereinafter defined, for defense, for private account, and for export, and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered, That:

§ 980.4 Supplementary order M-37-c—

(a) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

¹ 7 F.R. 29.

² 7 F.R. 514.

(b) *Additional definitions.* For the purposes of this Order:

(1) "Rayon yarn" means continuous filament rayon yarn made by the viscose, cuprammonium, or acetate process.

(2) "Fine rayon yarn" means rayon yarn of 300 deniers or finer.

(3) "Reserved domestic yarn" means fine rayon yarn set aside for domestic consumption pursuant to the provisions of this Order.

(4) "Yarn-dyed silk" means silk which was fast dyed before being woven or knitted.

(5) "Producer" means any person who produces rayon yarn.

(6) "Domestic manufacturer" means any person consuming silk, nylon, or rayon in the first six months of the year 1941.

(7) "Jobber" means any person purchasing and reselling silk, nylon or rayon yarns.

(8) "Merchant yarn converter" means any person who does merchant throwing, repackaging, waxing, dyeing or any similar converting function on yarn owned by him.

(9) "Fabric converter" means any person who prior to July 26, 1941, bought silk, nylon or rayon, and caused it to be woven or knit for him on commission.

(10) "Basic monthly poundage," for any month, means a poundage in terms of 100 denier rayon yarn equal to the monthly average number of pounds of raw silk (or its thrown silk equivalent) and/or nylon consumed by a person during the first six months of the year 1941, minus the poundage of raw silk and/or nylon scheduled to be consumed by such person during such month. In applying the above definition to a domestic manufacturer, the poundage consumed shall refer to the poundage consumed by such domestic manufacturer on his own machinery. In the case of a jobber or merchant yarn converter, it shall refer to the poundage sold by such jobber and, in the case of a fabric converter, it shall refer to the poundage knit or woven by others for his account.

(11) "The equivalent of the basic monthly poundage" means a poundage calculated as follows: divide the basic monthly poundage by 100 and multiply the result by the denier desired, but in no event by more than 200.

(12) "Foreign manufacturer" means any manufacturer resident outside of the jurisdiction of the United States.

(13) "Basic quarterly eligibility," for any quarter, means the poundage in terms of 150 denier rayon yarn which a foreign manufacturer shall be eligible to cause to be exported during each calendar quarter as determined by the Board of Economic Warfare.

(14) "The equivalent of the basic quarterly eligibility" means a poundage calculated as follows: divide the basic quarterly eligibility by 150 and multiply the result by the denier desired, but in no event by more than 200.

(15) "Export yarn" means fine rayon yarn set aside for export pursuant to the provisions of this Order.

(c) *Directions with respect to export orders.* (1) On and after April 1, 1942,

each producer of viscose or acetate yarn shall, notwithstanding any preference rating which may be served upon him, each day set aside, to the extent that he possesses active spindles capable of producing fine rayon yarn, an amount of such yarn equal to the production of 4% of the total number of his active spindles producing viscose and acetate rayon yarn, respectively. The yarn thus set aside shall be known as "export yarn," and shall be set aside, as nearly as practicable, in such denier sizes as will fill the producer's orders on hand for such yarn at the time the producer sets his production schedule.

(2) Export yarn shall be disposed of to or for the account of foreign manufacturers holding export licenses issued by the Board of Economic Warfare, showing their basic quarterly eligibility, and the amount thereof to be covered by the particular license.

(3) Each producer shall open his books for the booking of orders for export yarn for the quarter beginning April 1, 1942, on the effective date of this paragraph, and, thereafter, not less than 45 days prior to the commencement of each calendar quarter. Each producer shall continue to book orders for any unsold or unreleased export yarn until the close of the calendar quarter. Each foreign manufacturer placing an order with a particular producer shall exhibit to the producer an export license for at least the amount of the said order, and each producer accepting an order for all or a portion of the basic quarterly eligibility or for all or a portion of the equivalent of the basic quarterly eligibility shall endorse on the said license the following:

Orders placed pursuant to the within license have been accepted by the undersigned in the amount of _____ pounds of the basic quarterly eligibility shown thereon.

Name of producer

By-----
Authorized signer

Date-----

Each license may be successively endorsed until the total amount for which it was issued has been booked.

(4) No producer shall sell or deliver any export rayon yarn to or for the account of any foreign manufacturer in excess of the equivalent of the basic quarterly eligibility shown on such foreign manufacturer's export license, less the amounts thereof covered by any prior endorsements thereon by any rayon producer.

(5) All export yarn set aside from the production of any one month pursuant to the provisions of this Order, and which has not been delivered or booked prior to the end of the month succeeding such month, shall thereupon be immediately available for sale to any person without restriction hereunder, subject only to § 944.14 of Priorities Regulation No. 1.

(6) A foreign manufacturer may place orders for export yarn either directly or through an agent, but no foreign manufacturer shall resell any export yarn in yarn form, unless specifically authorized by the Director of Industry Operations.

(d) *Directions with respect to residual supply*—(1) *Viscose and cuprammonium yarn.*

(i) On and after April 1, 1942, each producer of viscose or cuprammonium yarn shall, after providing for defense and other rated orders in accordance with the provisions of Priorities Regulation No. 1, each day set aside, to the extent that he possesses spindles capable of producing fine viscose or cuprammonium rayon yarn, an amount of such yarn equal to the production of 17% of the total number of his remaining spindles producing viscose or cuprammonium yarn of any denier, excluding from such total the number of spindles the production from which is equivalent to that required for filling defense and other rated orders and for producing export yarn. The reserved domestic yarn thus set aside shall be selected in various denier sizes so as to yield an average denier equal to the average denier of the fine rayon yarn heretofore set aside by the producer for silk replacement. Nothing in the preceding sentence shall be deemed to prevent any producer from setting aside yarn so as to yield a finer average denier.

(ii) The reserved domestic yarn so set aside shall be disposed of as follows:

(a) An amount of reserved domestic yarn equal to the production of 1.0% of the total number of spindles referred to in paragraph (d) (1) (i) above, shall be reserved and held by the producer for disposition according to specific allocations to be issued by the Director of Industry Operations.

(b) An amount of reserved domestic yarn equal to the production of 1.0% of the total number of spindles referred to in paragraph (d) (1) (i) above, shall, subject to the limitations of paragraph (d) (4) of this Order, be made available, immediately and without further Governmental action, to domestic manufacturers for manufacture of products other than hosiery to replace their former consumption of yarn-dyed silk.

(c) An amount of reserved domestic yarn equal to the production of 15.0% of the total number of spindles referred to in paragraph (d) (1) (i) above, shall, subject to the limitations of paragraph (d) (4) of this Order, be made available, immediately and without further Governmental action, to domestic manufacturers for the manufacture of hosiery, to replace their former consumption of silk and nylon.

(2) *Acetate yarn.* (i) On and after April 1, 1942, each producer of acetate yarn shall, after providing for defense and other rated orders in accordance with the provisions of Priorities Regulation No. 1, each day set aside to the extent that he possesses spindles capable of producing fine acetate rayon yarn, an amount of such yarn equal to the production of 6% of the total number of his active spindles producing acetate yarn of any denier, excluding from such total the number of spindles the production from which is equivalent to that required for filling defense and other rated orders, and for producing export yarn.

The reserved domestic yarn thus set aside shall be selected in various denier sizes so as to yield an average denier equal to the average denier of the fine rayon yarn heretofore set aside by the producer for silk replacement. Nothing in the preceding sentence shall be deemed to prevent any producer from setting aside yarn so as to yield a finer average denier.

(i) The reserved domestic yarn so set aside shall be disposed of as follows:

(a) An amount of reserved domestic yarn equal to the production of 0.5% of the total number of spindles referred to in paragraph (d) (2) (i) above, shall be reserved and held by the producer for disposition according to specific allocations to be issued by the Director of Industry Operations.

(b) An amount of reserved domestic yarn equal to the production of 5.5% of the total number of spindles referred to in paragraph (d) (2) (i) above shall, subject to the limitations of subparagraph (d) (4) of this Order, be made available, immediately and without further Governmental action, to domestic manufacturers of any textile product to replace their former consumption of silk and nylon.

(3) Any allocation made by the Director of Industry Operations pursuant to paragraph (d) (1) (ii) (a) or (d) (2) (ii) (a) above will be evidenced by an order, the original and two signed duplicates of which will be forwarded to the purchaser applying for relief. The purchaser shall forward the two duplicates to the producer or jobber holding the yarn which has been allocated, together with the purchaser's order therefor. The purchaser's order shall be accepted except under circumstances in which defense orders may be rejected pursuant to § 944.2 of Priorities Regulation No. 1. If a purchaser's order is rejected, the provisions of § 944.3 of Priorities Regulation No. 1 shall apply as if such order were a defense order. If, for any reason, the producer or jobber is unwilling to sell and deliver the yarn pursuant to the allocation order, he shall immediately notify the Director of Industry Operations by letter, reference M-37-c, stating the reasons for his unwillingness.

(4) No producer, jobber, merchant yarn converter, or fabric converter shall deliver any reserved domestic yarn to or for the account of any domestic manufacturer, jobber, merchant yarn converter or fabric converter as the case may be, unless:

(i) Such delivery has been specifically authorized by the Director of Industry Operations; or

(ii) Such producer, jobber, merchant yarn converter or fabric converter delivering such reserved domestic yarn shall have first received from the domestic manufacturer, jobber, merchant yarn converter or fabric converter purchasing such reserved domestic yarn, a certificate in form to be prescribed by the Director of Industry Operations, accompanied by

such copies thereof as the Director of Industry Operations may prescribe. Each person shall file one set of such certificates for each of the following capacities in which reserved domestic yarn is to be received by him:

(a) As a domestic manufacturer replacing silk and nylon formerly consumed on his own machinery.

(b) To replace silk and nylon formerly sold by him as the jobber or merchant yarn converter.

(c) As a fabric converter to replace silk and nylon formerly sent out by him for commission weaving or knitting: *Provided, however,* That any such fabric converter shall attach to each set of such certificates filed by him the sets of the same certificate received by him from each commission weaver or knitter by whom such reserve yarn is to be woven or knit, as the case may be;

Provided, That deliveries shall not be made if the person delivering the reserved domestic yarn knows, or has reason to know that such yarn, if delivered, will result in the receipt by the domestic manufacturer, jobber, merchant yarn converter or fabric converter, as the case may be, of an amount of reserved domestic yarn in excess of such recipient's equivalent of the basic monthly poundage for that month or, together with stocks on hand, will increase such recipient's inventory of reserved domestic yarn in the aggregate to above such equivalent. The person delivering reserved domestic yarn shall be entitled to rely upon any facts stated in any certificate filed with him in the absence of actual knowledge or reason for knowledge to the contrary.

(5) In making sales or deliveries of any rayon yarn, no person shall make discriminatory cuts in amounts or quantities between former customers and new customers, or between new customers, who meet such person's regularly established prices and terms, and no person shall discriminate between such former customers, new customers and his own consumption of such rayon yarn in any capacity.

(6) After providing for all deliveries under defense and other rated orders and export orders, and after setting aside the amounts of fine rayon yarn specified in subparagraphs (1) and (2) above, each producer may sell and deliver rayon yarn without limitation, subject only to § 944.14 of Priorities Regulation No. 1.

(7) No domestic manufacturer, jobber, merchant yarn converter or fabric converter shall accept delivery of reserved yarn, unless such delivery is authorized as provided in subparagraph (4) above.

(8) No domestic manufacturer, jobber, merchant yarn converter or fabric converter shall order, purchase, or receive from all sources for delivery in any one calendar month an amount of reserved domestic yarn in excess of the equivalent of his basic monthly poundage for that month.

(9) No domestic manufacturer, jobber, merchant yarn converter or fabric converter shall own, control, or otherwise

hold as inventory at any time an amount of reserved domestic yarn in excess of the equivalent of his basic monthly poundage for that month. For the purpose of this provision, inventory shall include all reserved domestic rayon yarn owned, controlled, or otherwise held by the domestic manufacturer, jobber, merchant yarn converter or fabric converter up to the time that it is placed on the knitting machine, loom, or other similar fabricating machine.

(10) No reserved yarn shall be resold in yarn form by a domestic manufacturer, jobber, merchant yarn converter or fabric converter, except upon the specific authorization by the Director of Industry Operations. The exchanging of yarn by a domestic manufacturer, jobber, merchant yarn converter or fabric converter shall be deemed reselling. Notwithstanding the foregoing, a jobber may resell reserved yarn in yarn form or after converting by him as a merchant yarn converter, but with respect to such resale he shall, unless the Director of Industry Operations specifically authorizes otherwise, be subject to the restrictions of subparagraphs (4) and (5) above applicable to a producer, and resales shall be made for only the purposes for which such yarn was originally set aside by the producer.

(11) All reserved rayon yarn set aside from the production of any one month pursuant to the provisions of Supplementary Order M-37-a, as amended, and all reserved domestic yarn set aside from the production of any one month pursuant to the provisions of this Order, shall be distributed in accordance with the provisions of this Order or shall be held by the producer until disposed of, specifically allocated or released by the Director of Industry Operations.

(12) In the event that knitting machines, looms or similar fabricating machines which consumed the basic monthly poundage of the domestic manufacturer in the first half of 1941, are or have been moved from one location to another, scrapped, their operation discontinued, or their ownership or operation changed, the person or persons concerned shall immediately advise the Director of Industry Operations who shall thereupon take any necessary action in connection therewith, including any appropriate revisions of the basic monthly poundage, and the assignment of appropriate basic monthly poundages to any new owners or operators thereof.

(e) *Doubtful cases.* Whenever there is reasonable doubt as to the eligibility of any person to receive reserved yarn hereunder, the matter should be referred for determination to the Director of Industry Operations, by a letter addressed to the War Production Board, Reference M-37-c, stating all pertinent facts.

(f) *Appeals.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of rayon yarn conserved, or that compliance with this Order would disrupt or impair a pro-

gram of conversion from nondefense work to defense work, may appeal to the Director of Industry Operations, by letter or telegram, or on such forms as may be prescribed, setting forth the pertinent facts and the reasons he considers himself entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate, including the assignment, for such period or periods of time as he may determine, of basic monthly poundages or of increases in the basic monthly poundage, as the case may be.

(g) *Reports and records.* (1) Each producer and jobber shall file with the War Production Board, at the time to be specified thereon, reports on Forms to be prescribed by the Director of Industry Operations, setting forth the information called for therein.

(2) All persons operating under this Order shall keep and preserve such records for not less than two years, as will clearly and adequately show their methods and rates of operation hereunder. Such information shall include a complete file of invoices covering the delivery of any and all yarn under this Order.

(3) Each person shall promptly forward to the Allocation and Appeals Section, Textile Branch, War Production Board, Washington, D. C., one duplicate of every certificate furnished to him by a purchaser pursuant to paragraph (d)

(4) (ii) hereof and one duplicate of every allocation order furnished by a purchaser pursuant to paragraph (d) (3), endorsed as follows: "Supplied by our order No. _____" filling in the number of such supply order; together with a copy of the producer's or jobber's letter accepting the purchaser's order. He shall also preserve and keep available for inspection by the Government, during reasonable business hours, the original or a signed duplicate of every such certificate.

(h) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Reference, M-37-c.

(i) *Violations.* Any person who willfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, or who fails to endorse an export license when required by the terms hereof so to do, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(j) *Effective date.* This Supplementary Order shall take effect April 1, 1942, except that paragraph (c) (3) shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. IN THE MATTER OF THE OHIO PUBLIC SERVICE COMPANY AND OHIO RIVER POWER, INC.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 3d day of March, A. D. 1942.

Applications and declarations having been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The Ohio Public Service Company and Ohio River Power, Inc.; and

Such applications and declarations concerning the following:

The Ohio Public Service Company proposes to sell certain of its real estate known as the Dille's Bottom power site, located in the County of Belmont, Ohio, together with certain easements and rights-of-way at the value thereof as carried on the books of the Company on December 31, 1941, to wit, \$379,840.62, to a new Ohio company known as Ohio River Power, Inc., all of whose stock will be owned by The Ohio Public Service Company. The Property will be conveyed free and clear of all liens and the purchase price will be cash.

The Ohio Public Service Company proposes to acquire from the Power Company all of its common stock, to wit, 5,000 shares of the par value of \$100 per share, and to pay therefor the sum of \$500,000 in cash. The Power Company proposes to use the proceeds received from the said subscription to pay for the Property acquired, and the balance of approximately \$120,000 will be placed in the treasury of the Power Company.

The Ohio Public Service Company proposes to advance to the Power Company from time to time on open account and without interest, sums of money (not in excess, however, of \$250,000 in the aggregate) as the Power Company may from time to time require to pay capital expenses incurred subsequent to December 31, 1941 in the development of the Property and prior to the receipt of funds therefor from the Reconstruction Finance Corporation.

The Power Company is applying to Reconstruction Finance Corporation for a loan sufficient to enable the Power Company to complete a plant on the Property, and initially to install therein a 50,000 K. W. turbo-generating unit, two boilers with a capacity of 350,000 pounds of steam per hour for each unit,

together with auxiliaries for a pulverized coal-fired condensing steam electric plant, and to construct a transmission line from such plant to the transmission system of the Company at Alliance, Ohio. The terms and conditions of the loan to the Reconstruction Finance Corporation, the securities to be issued by Ohio River Power, Inc. and any guarantee thereof by The Ohio Public Service Company are to be supplied by amendment.

By an amendment to such applications and declarations The Ohio Public Service Company and Ohio River Power, Inc. have requested the Commission to issue an interim order permitting The Ohio Public Service Company to forthwith purchase and Ohio River Power, Inc. to sell 250 shares of common stock of the Ohio River Power, Inc. for a cash consideration of \$25,000 in order to facilitate Ohio River Power, Inc. in making application to the Reconstruction Finance Corporation for such loan.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to said declarations and applications, and that said declarations shall not become effective or said applications be granted except pursuant to further order of the Commission, and that at said hearing there be considered, among other things, the various matters hereinafter set forth:

It is ordered, That a hearing on such matter under the applicable provisions of said Act and the Rules of the Commission thereunder be held on March 19, 1942 at 10 o'clock A. M. at the offices of the Securities and Exchange Commission, Penn Athletic Club Building, corner 18th and Locust Streets, Philadelphia, Pa. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. At such hearing cause shall be shown why the declarations as filed shall become effective;

It is further ordered, That James G. Ewell, or any other officer or officers of the Commission designated by it for that purpose, shall preside in the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice;

It is further ordered, That, without limiting the scope of issues presented by said applications and declarations as filed or as amended, particular attention will be directed at said hearing to the following matters and questions:

1. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the Public Utility Holding Company Act of 1935 or any rules, regulations or orders thereunder, to impose any conditions regarding the consideration to be received for such sale, the maintenance of competitive conditions, fees and commissions, accounts, disclosure of interest, and similar matters

with respect to the (1) sale by The Ohio Public Service Company to Ohio River Power, Inc. of such assets of The Ohio Public Service Company and (2) the issue and sale to The Ohio Public Service Company of the securities to be issued by Ohio River Power, Inc.

2. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the Public Utility Holding Company Act of 1935 or any rules, regulations or orders thereunder, to impose any conditions regarding the proposed advances to Ohio River Power, Inc. by The Ohio Public Service Company.

3. Whether the issue and sale of common stock and the issue of securities by Ohio River Power, Inc. in connection with the loan from the Reconstruction Finance Corporation and any guarantee thereof by The Ohio Public Service Company are solely for the purpose of financing the business of such companies and have been expressly authorized by the Public Utilities Commission of Ohio, and whether any terms or conditions with respect thereto should be imposed.

4. Whether the accounting entries to be made in connection with any or all of such proposed transactions comply with the requirements of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

5. Whether the terms and conditions of any or all of the proposed transactions are detrimental to the public interest or the interest of investors or consumers.

6. Whether all actions proposed to be taken comply with the requirements and standards of such Act and rules, regulations or orders promulgated thereunder and whether terms and conditions are necessary to be imposed to insure such compliance.

7. Whether the proposed acquisition of assets by Ohio River Power, Inc. has been expressly authorized by the Public Utilities Commission of Ohio and whether the proposed acquisition of the common stock of Ohio River Power, Inc., by The Ohio Public Service Company will unduly complicate the capital structure of the holding company system of which such companies are a part or will be detrimental to the public interest or the interest of investors or consumers or the

proper functioning of such holding company system.

Notice of such hearing is hereby given to such declarants or applicants and to any other person whose participation in such proceeding may be in the public interest and for the protection of investors and consumers.

It is further ordered, That such notice shall be given further by general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935. Further notice shall be given to all persons by publication in the FEDERAL REGISTER, not later than two weeks prior to the date hereinbefore fixed for the hearing, of a copy of this Notice of and Order for Hearing.

It is requested that any person desiring to be heard or to be admitted as a party to such proceeding shall file a notice to that effect to the Commission on or before the sixteenth day of March 1942.

By the Commission.

IN THE MATTER OF NORTHERN STATES
POWER COMPANY (DELAWARE)

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C. on the 4th day of March, A. D. 1942.

Notice is hereby given that a declaration or application (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by the above-named party;

Notice is further given that any interested person may, not later than March 13, 1942, at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration or

application, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt the transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C.

All interested persons are referred to said declaration or application, which is on file in the office of said Commission, for a statement of the transaction therein proposed, which is summarized below:

Northern States Power Company (Delaware), a registered holding company, proposes to solicit proxies to secure a quorum necessary to conduct the annual stockholders' meeting held on May 13, 1942, and in connection therewith said company proposes, in addition to bearing the cost of preparing, assembling and mailing proxies, proxy statements, and accompanying data, to expend the estimated amount of \$6,000, \$5,000 for telephone tolls and fees or salaries and out-of-pocket expenses of specially engaged employees to solicit proxies by personal interview or by telephone, and \$1,000 for the services of experts to be used in the solicitation of the proxies.

Northern States Power Company (Delaware) states in its declaration that (a) it is expected that eleven directors will be elected for the ensuing year at the above referred to annual meeting and that it does not know of any other matter that may be presented at the meeting; (b) because of the diversity of holdings of its stock, it is necessary for it to solicit proxies to secure a quorum necessary to conduct the meeting; (c) the solicitation of proxies during the year 1941 indicates that the actual expenses may be substantially less than the estimated sum of \$6,000; and (d) that it does not, at this time, know of any contest which has arisen or may arise with respect to the subject matter of such solicitation.
