INTRODUCTORY.

Herewith is presented to our patrons and the general public the Thirty-second consecutive volume of the Indianapolis city directory.

The edition for 1885 had a total of 740 pages; the volume preceding the present one showed a gain of 100 pages over that of 1885, while this edition has 930 pages—a gain of ninety pages over the 1886 edition.

The directory for last year contained the names of 45,012 persons. In this volume there are a total of 48,375 names—a gain during the last directory year of 3,363 names.

While these figures show that the city of Indianapolis is having a steady yearly growth in population, the classified directory presents the fact that almost every trade, profession and manufacturing enterprise known to the leading metropolitan cities of the country, is fully represented in the capital city of Indiana. The information contained in the miscellaneous directory has been carefully revised and many important additions made, until it now is a true reflex of the religious, educational and social interests of the city.

The excuse made by some business men for not ordering the directory when the canvasser is obtaining information, is, that in a city like Indianapolis no necessity exists for its annual publication. As evidence to the contrary, the statement is made that during the canvass for this volume, which was made mostly in the last six weeks of 1886, no less than 1,310 vacant dwellings, stores, offices, etc., were found. The latter part of January, 1887, these vacant premises were again visited, when 574 were found occupied. This shows that there are between five hundred and six hundred changes in location of places of business, residences, etc., every month. These changes and the influx of new residents seem to make the annual publication of the city directory an imperative necessity.

All that years of experience, a liberal outlay of money and the aid of a corps of trained canvassers could do to make the present edition entirely reliable and correct has been done. To the business men who have given the publication their support in the way of subscriptions and advertising favors our thanks are extended, and to those who never buy a directory, we would say that in the future, as in the past, we shall use our best endeavors to have their information accurately and briefly inserted.

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequalled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and—between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

D. H. BALDWIN & CO., PIANOS AND ORGANS

AT WHOLESALE AND RETAIL.

SPECIAL ATTRACTIONS.

95, 97 and 99 North Pennsylvania Street, Indianapolis,

236 Fourth Avenue, Louisville,

158 West Fourth St., Cincinnati.

Our stock, which is always, without exception, the largest, finest and best assorted carried in this State, comprises those makes which for a generation or more have been recognized as the best in this country.

Steinway & Sons, Decker Bros., Haines Bros., J. & C. Fischer, and
D. H. Baldwin & Co.'s Pianos.

The business of our House is more than ten times that of any other dealer in this State, and enables us to give to our customers inducements in price and terms. We purchase all of our instruments for CASH—this, coupled with the very large number purchased for our three stores in CINCINNATI, INDIANAPOLIS and LOUISVILLE, enables us to sell Reliable Instruments at PRICES WHICH DEFY COMPETITION. We warrant every instrument to be just as represented, and guarantee satisfaction to our customers. We take pride in the fact that "it is safe to buy a Piano or Organ from D. H. BALDWIN & CO." Whether you wish to invest \$50 or \$500, you can depend upon careful attention and full value for your money.

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, North, East and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE GREAT ROCK ISLAND ROUTE

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE

Is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

RECREATION is a cessation of work, and a diversion of the mind into new and pleasant channels.

While it may seem like idleness to loll around at the seashore, the country farm or among the mountains, it is a repairing and oiling of the machinery, necessary to the better accomplishment of work. If you can find rest and recreation during the sultry months, you gain thereby. A water trip best quiets the nerves, diverts the mind. We leave carping cares behind as soon as and drift away from worries and anxieties of office, study, work-shop and household, are interested in the changing scenes and in the enjoyment of solid comfort, float lazily and dream. We revel in the freedom, the *dolce far niente*, the pure, bracing air, the beauties of sky and sea, watch with fascination the leaping spray at the steamer's bow, fall to noting the ever-changing billows, and enter into projects for amusement started by others, or, originate them ourselves with the zest of a child.

On board a steamer we live a new, novel and fresh life, such as is never experienced on land. To those who enjoy great Nature's work, we would say:

Mackinac Island is among the grandest and most romantic of spots. Visitors are voluble with story and legend of every bold cliff and cave and fallen rock around the island, and many a pencil, brush and camera are brought to bear on the wonders found. Every section of the country sends visitors annually. The invalid is attracted by the wonderful purity of the atmosphere, the climate being noted as a sanitarium for hay fever and bronchial affections. Great numbers visit this region to escape from or get relief of these maladies; many experience an improvement on entering Lake Huron. No other resort possesses such entertaining features. The surrounding country offers endless attractions to the adventurous. Gamey fish lurk in all the inland lakes and rivers with which the State of Michigan abounds. Its forests are the hiding places of furred and feathered creatures, which afford fine sport.

Mackinac Island is reached by the Detroit and Cleveland Steam Navigation Company, by the pleasant lake route, with a splendid line of palatial iron steamers, the largest, swiftest and most luxurious on fresh water, forming the only comfortable route to this island resort. These floating palaces were recently built especially for the summer tourists' travel. The forward and after saloons, in mahogany and walnut respectively, are magnificently appointed and tastefully decorated, and their elegant rooms and parlors are replete with modern improvements. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main saloons, a desirable feature only possible on these large side-wheel steamers. Their bill of fare, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. Berths are in rooms, an upper, single width, and a lower, double width, in each, are furnished with wire and hair mattresses and Pullman blankets. These steamers have water tight compartments, and their feathering paddles give unusual speed, without jar or noise. This water trip cannot be excelled anywhere, and the round trip affords a daylight view of all the route. No more comfortable place can be found outside of one's own home in which to spend the sultry days, than on board these splendidly appointed steamers. The changing scenes and fresh, bracing air, will benefit many who vainly seek relief at physicians' hands, and physicians urgently recommend this particular trip.

You will make no mistake if you go a little out of your way in order to reach

ACKINAC ISLAND, the rock girt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises gradually and majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing, and seem incessantly tossing balls at each other. They no sooner cease blowing from Lake Michigan than they come from Lake Huron, and Lake Superior is never behind in the contest. Mackinac Island contains two thousand two hundred and twenty-one acres, of which the national park comprises eight hundred and twenty-one, and the military reservation one hundred and three acres. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow

wearry of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha" has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. Hiawatha is the Mena-bosho of the Algonquins, and the Island of Mackinac was considered his birthplace.

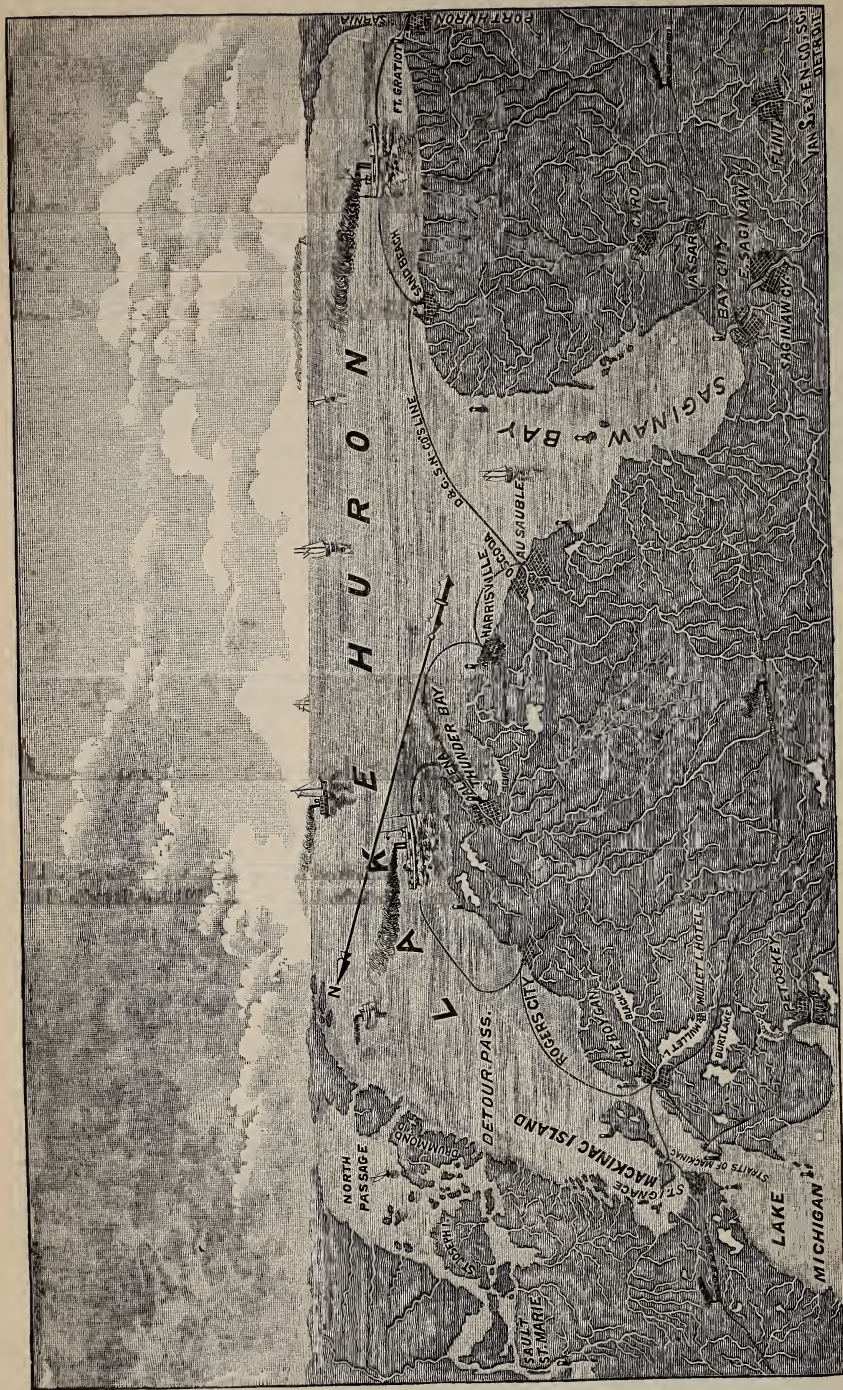

If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, dryest, clearest and most healthful of atmospheres. The Island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has, from some cause, been lifted up. Springs of water, clear and cold, may be found at the base of the high cliffs, and scattered through other localities.

Mackinac village is a perfect curiosity in itself. Situated at the foot of the bluff, upon the brow of which stands the fort, it extends for a distance of a mile along the beach. The buildings are a mixture of the modern and antique, some of which were brought from Old Mackinaw when the town and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style.

Schoolcraft, who visited it in 1820, says: "Nothing can exceed the beauty of this island." It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. It is cavernous in some places, and in these caverns the ancient Indians were wont to place their dead. Portions of the beach are level, and well adapted to landing from boats. The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it, the little old fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The soil, though rough, is fertile. The Island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent.

Map Lake Huron.

Commercial Travelers can for once avoid the hot, dusty, noisy rail car, and avail

The late Dr. Drake says: "The island is the last, and, of the whole, the most important summer resort to which we can direct the attention of the infirm or the fashionable. The living streams of pure water, cooled down to the temperature of 44°, gush from the lime rock precipices, and an atmosphere never sultry or malarious, supersedes all necessity for nauseating iron, sulphur and epsom salts. As a health resort it is unsurpassed. Its cool air and pure water are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system with youthful vigor." Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. In Mackinac you eat with a new relish, and sleep like a child. You row, or ramble, scarceely able to keep your buoyancy within bounds. Dr. Mills, once post surgeon at Mackinac, says: "No better place can be found for sickly girls and puny boys, for worn out men and women, whether from overworked brain or muscle, or for those inclined to hypochondria. A change from the tiresome sameness of home scenes cannot fail to benefit all. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten. In the celebrated white fish (classical name, coregonus albus, signifying food of the nymphs), is found a native whose acquaintance is liable to but one objection, that of destroying the taste for any other fish, and which, with the trout and potatoes of the island render all foreign delicacies superfluous." We would caution the gourmand, however, against an excessive use of trout, which are said to produce drowsiness, for those who visit Mackinac should be wide awake, lest some scene of interest should pass unobserved.

Besides the agreeable change of climate on reaching Mackinac, there is the new sensation to one who has not before enjoyed the novelty of an insular life, of having found an island retreat. To his jaded sensibilities all around him is fresh, a feeling of security comes over him, and when, from the rocky battlements of the fort, he looks down on the surrounding waters, they seem a bulwark of defense against the host of annoyances from which he has sought a refuge. Thus the curative state of mind begins to act on the body from the first moment, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it, and to make the invalid forget his ailments. Dr. Mann says, "A few whiffs of the air would make your lungs give a hygienic laugh. This air must have been left clear out of Eden, and did not get cursed. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no doubt meet with a hearty response from thousands who have visited Mackinac.

At watering-places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. The attractions of the surrounding region are of a different and more wholesome kind, and draw to them those who seek health and recreation, and offer a delightful hot weather asylum to all who need to escape from crowded cities or a sultry climate. Besides this, the voyage imparts a pleasing excitement to the faculty of observation, curiosity is stirred up to the highest pitch, and pleasantly gratified by the hourly unfolding of fresh scenes of nature, some new blending of land and water, a group of islands different from the last, or a shifting series of painted clouds seen in the kaleidoscope of heaven afford constant variety, while the frequent trips of the Detroit and Cleveland Steam Navigation Company's steamers enable you to return as soon as desired.

Constance Fennimore Woolson knew the charm of the place when she made it the scene of so many romances, among them being the novel "Anne," and the short sketches,

Themselves of the charming quiet, and the luxury of a delightful full night's rest.

This Night Line by water is a Short Cut between the Cities of Cleveland and Detroit.

Miss Woolson's writings have thrown a wierd witchery about Mackinac, and it has been to her a favorite spot for the locale of her romances. In answer to a letter asking for information, as to the number of times she had written of this place, Miss Woolson says: "I have often alluded to Mackinac in my sketches and stories. The second sketch I wrote (then beginning) was about Mackinac, it was called "Fairy Island," and was purely descriptive. There was, later, a short story of mine in the "Galaxy," called "Flower of the Snow," whose scene was Mackinac. But these were tentative merely. The first real description I gave of the island in print were two short stories, one called "The Old Agency," the other "Jeanette," both published in "Scribner's Magazines," now the "Century." Twice then, in my novel "Anne" the island appears again; it is the scene of the first quarter of that story."

Indeed, Mackinac might well be the scene of romances yet unwritten, not only on account of its unique and beautiful situation, but because of its native inhabitants, in whose strongly marked characteristics there is yet unmined material for the book-makers. Here are to be found people who were born on the island, have seen their three score and ten, and never yet stepped foot upon the mainland, those who taught the Indians in the old days of the mission, and the fashionable lounge of to-day. It is full of contrasts and surprises, and has long been called the "Wonderful Isle", from the fascination it seems to hold for all who have ever lived on its shores. One of the most enthusiastic admirers of the place whom we ever met, is an old gentleman now living in Chicago, who was a resident of Mackinac in the old mission days. Since that time he has seen the vast west grow from a wilderness to a mighty empire; he has seen Chicago spring from a smaller post than Mackinac now is, to the proud proportions of the western metropolis; he has been a potent factor in its growth, but he has never lost his affection for Mackinac, nor his desire to visit it often. He could not be persuaded to part with a portion of the land which he owns there, were it not to share the happiness of its possession with others. The Island is as important from a sanitary point of view, as it is attractive and beautiful from the aesthetic.

Happily Disappointed.—Grandma's advice to lone females. An old lady from Cleveland relates her experience of a trip up the lakes, through the columns of the Leader.

"I may not be telling your readers anything new in relating some of the incidents of my trip to Mackinac, but there are too few Cleveland people who seem to have found out what an elegant place we have in this beautiful island to which we may flee for comfort and recreation. I must plead guilty to my own ignorance until unexpectedly, (for I had started Tuesday evening with the intention of going in a different direction), I found myself safely on board the steamer City of Detroit, together with two young lady friends, who had hardly recovered from the "set back" to our original plans. We had every attention from the officers of this magnificent steamer, and in the morning at 10 o'clock (Wednesday) we left Detroit, passing up the river with its beautiful scenery, across Lake St. Clair and through the canal into St. Clair river to Port Huron, where we launched out on the broad bosom of Lake Huron, and as there was nothing to be seen from the decks but unlimited green waters, on one hand, and a faint suggestion of land on the other, I gave some attention to the internal arrangements of the floating palace, on which it was our good fortune to find ourselves, and I have no apology to make for thus designating our good boat. It is no stretch of fancy, but a veritable fact, as your readers who have seen it will testify. There is nothing to be desired, or even remotely wished for, in the elegant appointments, and as regards the table, it is fully up to the standard of any first-class city hotel. As night comes on, we retire to the cozy state rooms; there is every inducement to enjoy a grateful rest and balmy sleep. Among my fellow voyagers were a party of over forty gentlemen and ladies, from Pittsburg, on a camping trip to Alpena, also a party of twenty or more young people from Bucyrus, O., intending to camp on the island. The grand old island is full of interest, but in our short stay only a hurried glance over the whole could be made. Our government has indeed chosen a lovely spot for a national park. Our three days' stay was soon over, and again the City of Mackinac steamed up to the dock, and we bade farewell to the island and soon found ourselves back in Cleveland. I hope that any lone females who may be at a loss where to go for a pleasant trip, will trust themselves to do likewise, and, in the care of Captain McKay and Steward Thorn, of the City of Mackinac, will derive as much pleasure as our little party, and in so doing, remember
GRANDMA."

The Charm of a Trip to Mackinac, and the benefits of Fresh Air begin to tell

Notes from my Scrap Book.—"A straight trip to the Strait, where I pined for more pine," wrote the man of the 'Hoosier,' forced to retreat from the merciless rays of a hoosier sun, which cooked his brain and dulled his faculties. He thanked his lucky stars that he came via Detroit, that he was permitted such comfort as was afforded by the City of Mackinac. No dust, no noise, no rattle or jar, no cramping seats, and no brakeman calling stations in unintelligible Greek; only a smooth, yet perceptible gliding onward of a huge floating palace; his delight was unbounded. He finally solved the Mackinac resort problem, as did his hoosier friends who read the front page of his well written sheets. Another scribe from Hoosierdom, he of the 'Wasp,' followed closely with his head lines very black and well displayed and his piracy on Mackinac had its desired effect: 'MACK-IN-AWE, or the Wasp man talks a little about MACK- and how he came to be IN-AWE.' His talk was, about Mack's big reputation, Mack's historical scenes, the wonderful events which had taken place on Mack. His pen pictures of panoramic scenes were vivid, for illustrations he referred to 'Picturesque Mackinac,' and finally, becoming weary of so much sight seeing, retired to the cabins, and fell to studying the characteristics of others. He found the usual variety viz: the real or pretended family of wealth, who held themselves aloof and managed to have things a little better than others. There was the old man whose love for travel and feminine society had not yet abated; the commercial man, the solidest man on board, dreadful flow of spirits, led conversation, told great yarns, knew more * * luggage? reduced to the vanishing point, eat? tells people 'its a cold day when he gets left,' violates all laws, last to retire, never ill, he was there. So was the young man, hail-fellow-well-met, among the roughs on the lower deck, maintained his standing with the aristocracy in the cabin, great favorite, clothes for every occasion, chums with a fellow equipped as if going to a lawn tennis party, who talks in a loud and familiar way about the ins and outs of water travel, etc. There was the vulgar woman, who dresses up on Sunday, and the man who comes on deck with embroidered slippers, and, as usual, the one who by carelessness lost his baggage, flies at everybody and fails to describe the property, or explain the circumstances which will lead to its quick recovery."

This Island Summer Resort is made famous from the magnificence of its scenery, its historic and military associations and Indian legends, while its grand and massive rocks, its smooth beaches of glittering sands, washed by the waves of the great unsalted seas, afford never-ending objects of interest. There are natural drives to many historic spots which teem with story of Indian and British warfare. Among the scenes of beauty and grandeur are Lover's Leap, Arch Rock, Sugar Loaf, Devil's Kitchen, etc.; and from the summit of the Island the eye rests with pleasure upon the fairest expanse of forest, fort, village and wave. Living streams of pure, cold water gush from the rocky precipices, and to those desiring grand scenery, pure air, abundance of simple, health-giving pleasures, and with mind refreshed and body invigorated, to return to the daily pursuits of business life, with pleasant recollections of a summer well spent, the Island of Mackinac pre-eminently offers special inducements. The great Straits of Mackinac, attractive in themselves are dotted with islands, and stretch their glittering waters into the dim distance. Many short excursions to other interesting spots help to make one's stay delightful. The longer and most attractive of these is up the Soo river to Sault Ste. Marie, on the morning steamers. By taking the Detroit and Cleveland Steam Navigation Company's steamers from Cleveland, Tuesday or Thursday evenings, and from Detroit Wednesday or Friday mornings, passengers for Sault Ste. Marie have the advantage of a daylight trip through river St. Clair to Port Huron the first day, also over the picturesque portion of the route from Alpena to Mackinac Island the second day, a shorter or longer visit to the island as desired, then a daylight trip up Soo river, leaving the island at a seasonable hour in the morning. This is a pleasant combination not afforded by any other line. There is much to interest at Sault Ste. Marie; old Fort Brady, the famous ship canal, and shooting the rapids in an Indian canoe are exciting experiences. Steamers of both American and Canadian lines pass through this canal en route to Lake Superior, which afford a choice of routes, via either the north or south shore.

These steamers stop at the island both ways, giving those who wish to return on the same trip, from four to six hours in which to view the curiosities and wonders, or, you can return by one of them every thirty-six hours. Tickets for transportation can be procured from any ticket agent. Round trip tickets are good for the season. The round trip occupies four and one-half days from Cleveland, or two and three-quarters days from Detroit. The few landings made en route are just sufficient to interest without being tedious. Some of our neighbors have certainly made this trip. Enquire about it.

The Cost from Cleveland—This item has received our thoughtful consideration, and is the least possible to insure complete comfort, tickets covering transportation being only \$4.50 one way, or \$7.00 round trip; (half fare for children between five and twelve years of age.) Meals are 50 cents each; the same for children over three years old; under that age 25 cents, and for the first table. The running time, Cleveland to Mackinac, includes five meals at 50 cents each, or \$2.50 each way. Some passengers bring their own lunch. An upper berth of single width is \$2.00, a lower berth of double width \$3.00. Each room will accommodate three persons, by two occupying the lower berth. Put the items together, say for

This delightful trip by water of 940 miles in the round trip, occupies 4½ days, costing only \$16.00 to \$18.00, or about \$3.75 per day. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. By rail, you reach Mackinac a few hours earlier possibly, which is all that can be said in its favor, and is of the least consequence when seeking pleasure, rest and recreation. It is certainly hot and dusty, you are cramped for room, and the little strength you start with is likely to be used up, especially is this the case with ladies and children. A summer trip should be planned to get all the quiet and fresh air possible. Why do you leave home at all? Simply to reverse the excitement of business cares, the bustle, hurry and rush. Such complete relief is only found by taking a water trip, the scenery is varied and attractive, and there is ample time for a good look at every interesting object. One way by steamer would be better than all rail. The outside expenses by rail will pay the cost by water. Have you taken this view of the matter?

Steamers City of Cleveland and City of Detroit, which form the Lake Erie Division with a nightly service (Sundays excepted) leave Cleveland at 8.30 P. M., arrive at Detroit the following morning at 5.30 o'clock. Returning, leave Detroit at 10.00 P. M., arrive Cleveland 5.30 o'clock, standard time. The fare between the two cities is \$2.25 single trip, which is one-half of rail fare, or \$4.00 round trip. Upper berths are \$1.00, lower berths, \$1.50. Among the advanced steps taken by this Company is that of not including the cost of berths in the ticket fare, which happily disposes of the vexatious question, how to best care for the comfort of our patrons. Commercial travelers, usually confined to the hot, dusty, noisy rail car, avail themselves of the charming quiet, cool fresh air and the luxury of a full night's rest afforded by this night line by water.

Passengers can time it to make close connections at Detroit with steamers City of Mackinac and City of Alpena, which form the Lake Huron Division, and leave every Wednesday and Friday mornings at 10 o'clock, Monday and Saturday nights at 10.00 o'clock for Mackinac and principal Lake Huron ports. The quickest trip and closest connection is made by taking Lake Erie steamers Tuesday or Thursday evening from Cleveland. Breakfast on board before reaching the Company's wharf.

The elegance and comfort of the Det. & Clev. St. Nav. Co's steamers are all without a rival.

DETROIT, with a population of 220,000, is the oldest city of the west, and the commercial metropolis of Michigan. It is essentially a manufacturing city, and its peculiar advantages will eventually render it the Birmingham of the Northwest. It challenges comparison as being the handsomest city in the Union. In addition to its acquired beauties, it is extravagantly favored by Nature. The dwellings are mostly detached, with plenty of intervening space, the broad streets and prevalence of shade trees give the place a village air, and contribute much to its attractiveness for residences. As a healthful city it is without a peer. The beautiful river, $\frac{1}{4}$ of a mile wide, affords the city a water front miles in extent, gives

immediate escape from heat, dust and noise, and time need not hang heavy as there are a dozen popular, healthful and beautiful resorts within one to three hours' ride by steamer. There are eighteen islands, many of which are attractive for excursion parties and residences.

Just above the city, Belle Isle park, containing 700 acres, is a favorite resort. Detroit is a complete and most desirable summer resort, combining all the requirements of a popular watering place, and the luxuries of a city home. The river is the pride of its residents, and the surprise and delight of tourists, who pronounce it the most beautiful stream in the world. Through it passes the vast tonnage of the lakes, which exceeds that of our foreign commerce. Our artist cleverly illustrates the character and activity of its shipping. Early settlers found on its shores homes more attractive than their wildest dreams had pictured.

The Cost from Detroit—Transportation is \$3.00 single, or \$5.00 round trip. The running time includes four meals at 50 cents, or \$2.00 each way. An upper berth of single width is \$1.00, a lower berth of double width is \$1.50 for the trip.

This delightful trip from Detroit to Mackinac by water, a distance of 740 miles in the round trip, occupying 2 $\frac{1}{2}$ days, costing only \$11.00 or \$12.00, or about \$4.00 per day, is within the reach of a large number who make a practice of leaving home for a short time during the summer months.

Patents.

Believing myself qualified, by a long and varied experience, to properly attend to any of the various branches of my profession, I respectfully invite those who desire to procure Letters Patent, which will fully protect their inventions, to investigate my ability to satisfy their wants.

Reissues.

Since the late decisions of the Supreme Court, virtually rendering invalid a large proportion of Reissued Patents, it is more than ever important that original applications be prepared, with the utmost care, as Reissues can not now be relied on to protect Patent property.

PATENT BUSINESS EXCLUSIVELY.

ALL MATTERS STRICTLY CONFIDENTIAL.

REFERENCES FURNISHED, IF DESIRED.

MECHANICAL KNOWLEDGE.

For nearly ten years, previous to entering my present profession, I devoted my attention mostly to mechanical and kindred subjects, having been engaged for a considerable portion of that time in setting up and running machinery. I have therefore a good knowledge of MECHANICS, as well as Patent Law, and that knowledge is practical, as well as theoretical. This enables me to thoroughly understand and appreciate new inventions when laid before me.

Miscellaneous.

Investigations made to determine the advisability of contemplated litigation of Patent Claims, and advice given in relation thereto. Will appear as Expert in suits for infringement of Patent rights, Assignments, Licenses and Contracts relating to Patents prepared and recorded. Rejected and forfeited cases taken up and prosecuted to final result, and business generally, relating to Patents, given careful attention.
