Standards and Guidelines

A special supplement to this issue of **Highlights** contains the eagerly awaited "Proposed Standards and Guidelines." There are three parts: (1) Proposed Minimum Standards for the Depository Library System; (2) Proposed Guidelines for the Depository Library System; and (3) Proposed Changes to the Minimum Standards and Guidelines for the Depository Library System Which

Require Legislative and Administrative Action.

These "Proposed Standards and Guidelines" have grown out of the research and discussions of the librarians who make up the Depository Library Council to the Public Printer. Your comments and suggestions on the "Proposals" are invited by the Council. You can help to shape the final version. Send communications to: Editor, Public Documents Highlights, Library and Statutory Distribution Service, Government Printing Office, Washington, D.C. 20401.

Easy Ordering From GPO

For the quickest response or turn-around time in a mail order to GPO:

- (1) Use the Superintendent of Documents order form available free from:
Superintendent of Documents
U.S. Government Printing
Office
Washington, D.C. 20402
Include a self-addressed mailing label.
- (2) Open a Deposit Account, minimum \$50; send to same address. The older system of purchasing coupons of various denominations from GPO is in the process of being phased out, so avoid writing for these.
- (3) Use the **single item** technique—that is, request only one item per order form and provide a mailing label for each order.
- (4) Include Superintendent of Documents catalog number and stock number if available for each title ordered. Try to get correct title if possible.

Utilize the Philadelphia and Pueblo Distribution Centers by:

- (1) Getting on the mailing list for the monthly periodical, **Selected U.S. Government Publications**, same address as above.
- (2) Use this as an announcement/selection tool. Order publications from the **Selected List** on the order form provided in each issue. Mail the order to the address

on the form. (In the eastern geographic area, **Selected List** orders are filled by the Public Documents Distribution Center in Philadelphia, Pennsylvania. In the western area, orders are filled by the Pueblo Distribution Center in Pueblo, Colorado.)

- (3) Honor the cut-off date in each issue. The documents mentioned in the **Selected List** will be kept in stock at the Distribution Centers for one year after the **List** is issued. Complete the mailing label provided on the order form.
- (4) Turn-around time for these orders ranges from 7 to 10 working days.
- (5) Titles on the **Selected List** are stocked and filled from Washington, D.C., after the cut-off or expiration date.

Bookstores.

- (1) GPO bookstores stock approximately 2000 of the most popular titles selected specifically for the area in which the store is located.
- (2) Bookstores do not usually handle mail orders unless the order has been checked with the store ahead of time. It is most important to call first because if the bookstore doesn't have a document, they have to send the order on to Washington after spending time processing the order in the store. The end result of this is a waste of time on your part in having the order filled. Also remember, they do not fill

large quantity orders.

Inquiries (Order Desk).

- (1) The Inquiries Section mans a bank of telephones to answer questions on what is available and provides complete ordering information for each title, i.e.: complete title, Superintendent of Documents catalog number, etc. Telephone orders will be accepted if the items will be picked up at the main GPO Bookstore. If the orderer has a Deposit Account, the order will be accepted for mailing or for pick-up. The number to call is 202-783-3238 and it has 18 connecting lines.
- (2) The subject price lists that were available free in the Bookstores or by letter request are no longer available. A subscription-type service of subject bibliographies, each revised annually, is now ready at \$100.00 per year, with no single copies being sold. This is intended to cover bibliographies in over 300 subject areas.
- (3) The Inquiries Section of the Order Division now uses these subject bibliographies in replying to a customer who asks, "What do you have about _____?" These list selected publications on a narrow or very specific subject area.

Customer Service.

- (1) The Service Section of the Order Division handles complaints or problems that require adjustments. They accept mail or phone contacts.
- (2) They will try to trace an order; but remember, there are approximately 250,000 of these in various stages of being filled at the

Washington, D.C. office at any given moment.

- (3) Don't contact them until after 21 work days (30 calendar days) have elapsed on mail orders. This is the normal time it takes to process an order.

The telephone number for problems with publications and subscriptions is: 202-275-3050.

General Information.

The Public Documents area of the Government Printing Office consists of three services: Documents Sales Service, Library and Statutory Distribution Service (including the Depository Library Program), and the Documents Support Service.

The Documents Sales Service offers approximately 23,000 titles for sale. This represents about one-sixth of the titles printed by or through the Government Printing Office and subsequently listed in the **Monthly Catalog**. Titles not selected as sales items may or may not be included in the Depository Library Program. Many are available (usually free) from the issuing agency or have been designated as classified or for restricted distribution by that source.

Titles may be out-of-stock permanently in the Documents Sales Service, but still available from the issuing agency.

All reprints must be approved by the issuing agency.

Termination Notice!

What should the documents librarian do if the depository library receives a "termination notice" for a periodical, such as **Children Today**? First, check to make sure it is an item selected. If so, inquire to see if any other area of the library maintains a separate subscription. Knowing you have an active item, and there is no separate subscription, ignore the "termination notice." Your depository library will continue to receive the periodical. As GPO moves to agency distribution of some depository items, computer gremlins are at work. But so is the Library and Statutory Distribution Service. Call or write us when in need.

Special Needs

If your depository library has some special needs of a general or a specific nature, let us know. Below are some examples. If you can help fill the needs of these libraries, write them a letter (sending a copy to your regional). A depository library accepting material agrees to pay any postage and packing costs necessary.

Claims

The Library Division works on 900 to 1,000 claims each day. The staff handling claims would like to remind depository libraries of the importance of carefully filling out the claim form. For prompt service, be sure to include shipping list number and date, date list was received, depository library number, and date being sent. Also, include the item number (at the left on your shipping list), and **full classification number** (at the right on your shipping list), and **full title** of the publication as it

appears on the shipping list. Do remember to fill out the label! One item per claim form only! An added help if you return shipping lists is to place your library number on each one. All this attention to detail will insure that your claim is quickly and accurately handled by the cheerful claims crew of the Library Division.

Public Documents Highlights is circulated bi-monthly by the Superintendent of Documents, Washington, D.C. 20402, and is mailed at first class postage rates. **Public Documents Highlights** is intended primarily for librarians of the Federal Depository Library Program. Material proposed for circulation may be

submitted to the **Editor, Public Documents Highlights, Library and Statutory Distribution Service, Government Printing Office, Washington, D.C. 20401**. The Superintendent of Documents, however, retains the right to accept such material, to edit it, and to assign priorities of circulation.

Proposed Changes to the Minimum Standards and Guidelines for the Depository Library System Which Require Legislative and Administrative Action. (Numbers correspond to standards numbers.)

1. Distribution of Documents

- a) The number of copies of GPO imprints purchased for distribution to depository libraries is equal to the

number of libraries which select that Item from the List of Classes . . . (44 U.S. Code 1903). Most regional depositories are large libraries serving large numbers of library users on-site as well as providing interlibrary loan service to selective depositories within the region. **It is recommended that regional depositories be entitled to a second copy, either in microform or paper copy, if desired.**

b) The cost of printing and binding of non-GPO publications is borne by the components responsible for their issuance (44 U.S. Code 1903). The Committee feels this restricts their availability to the depository program. **It is recommended that appropriations be provided to enable the Superintendent of Documents to obtain non-GPO government publications.**

c) The Superintendent of Documents is charged with the responsibility of investigating depositories. (44 U.S. Code 1909.) **It is recommended that the Superintendent of Documents should receive adequate funding to conduct an inspection program of depository libraries biennially.**

2. Catalogs, bibliographies and indexes to U.S. Government Publications

a) Bibliographic tools cited in Title 44 include a Comprehensive Index (44 U.S. Code 1710), a Consolidated Index to congressional publications (44 U.S. Code 1710), a Catalog of Government Publications (44 U.S. Code 1711), and a Classified List (44 U.S. Code 1904).

b) The comprehensive index referred to in section 1710 was the **Document Catalog** which ceased with the 1940 coverage, and to some extent was replaced by the reorganized **Monthly Catalog**. It is recommended that **financial support be given to the Superintendent of Documents to increase the coverage in the Monthly Catalog, improve the indexing, provide periodic cumulations and speed up publication, thereof.**

3. Designation of Depository Libraries

a) It is possible for a new depository to be designated by a Congressman or Senator without the knowledge of the regional depository, which may be in the best position to know if there is a need for an additional depository and where it should be located. **It is recommended that 44 U.S. Code 1905 include the words and head of the library authority of the state and the heads of the regional depositories, if any.**

b) The law specifies that a library must contain 10,000 books other than government publications to be a depository library. The Committee considers a library of this size to have insufficient resources to support a depository library. The term "book" is misleading, since it could indicate multiple copies of the same book. The Committee recommends 25,000 titles other than government publications as the basic minimum size to be

eligible to become a depository library.

Collections

a) Appropriations may not be used to supply depository libraries documents, books, or other items not requested by them (44 U.S. Code 1913). This restriction tends to nullify the intent of the depository law which is to make government publications available to the public. The law implies needs beyond those of the individual institution which serves as the depository. For example, a law library occupying a depository designation may be interested in acquiring only legal materials. Library users in the area may need access to other materials, such as the Census.

b) The present law makes no requirements as to number or type of document selected by the individual depository. While recognizing that to receive all depository items would place an undue burden on the small library, the Committee believes that it is reasonable to require a depository to accept a minimum of the selections available to depositories. This would include a basic list, revised annually, recommended by the committee of depository librarians and additional titles selected by the depository to satisfy the needs of the community. 5-10. These standards refer to custody and serve for depository materials. They are covered in general terms in 44 U.S. Code 1909 and specifically in **Instructions to Depositories** (July 1, 1974).

11. National System

At present this system consists of selective depositories and regional depositories. *It is recommended that provision should be made for a National Depository Library at the head of the system.* In the January 22, 1974, report of the ALA Ad Hoc Committee on the Depository Library System, 8 of 9 recommendations refer to a National Depository Library.

12. Regional Depositories

a) Only 38 States are served by one or more regional depositories. Regional status is voluntary. Selective depositories not served by a regional depository are unable to discard unwanted documents, or to depend on a regional for reference questions, interlibrary loan, photoduplication or assistance in the organization of their collections. The Superintendent of Documents lacks the assistance of the regional librarian for information about conditions of local depositories or for participating in inspections and their followup.

b) To assure the regional depositories are better able to serve selective depositories, **it is recommended that limited financial support be sought to defray direct costs incurred by a regional depository for responsibility beyond those of a selective depository.**
