

WM. D. HAYWOOD NOT GUILTY. JURY'S VERDICT IN IDAHO MURDER CASE. On First Vote Eight of the Jurors Were in Favor of Acquittal.

(Associated Press). Boise, July 28.—Wm. D. Haywood, secretary-treasurer of the Western Federation of Miners, is not guilty of the murder of Former Governor Steuneger. The verdict of the jury was rendered at 7:58 a. m. to-day, after an all night session. The first intimation that the verdict had been reached came shortly after 7 o'clock and word was immediately sent to the attorneys and newspaper correspondents that the jury was about to come in. Judge Wood was the first to reach the courtroom and he was followed quickly by the attorneys. At 7:4 a. m. Haywood was brought in and took his seat by the side of his counsel. A minute later the jury filed in and a few minutes later the verdict was rendered. It was announced that on the first ballot after the jury retired the vote stood eight for acquittal and four guilty of some degree of murder. The members of the minority were won over one by one before daylight this morning. The court proceedings were very brief. After he had taken his seat on the bench, Judge Wood said: "Gentlemen of the jury, have you agreed on a verdict?" "We have," said Thomas B. Gess, juror No. 1, who had been selected foreman. He handed an envelope to the judge who handed it to the clerk, who read: "State of Idaho against Wm. D. Haywood. We, the jury in the above entitled case find the defendant, Wm. D. Haywood, not guilty." The prisoner's attorneys jumped to their feet and slapped Haywood on the back, and all tried to grasp his hands at once. Judge Wood ordered Haywood's discharge, and said that at 10 a. m. tomorrow he would fix the time for the trials of Moyer and Pettibone. The jury stood dead-locked at 10 to 2 most of the night and ballots were taken at frequent intervals. On the very first ballot taken after the jury retired, the vote was eight for "not guilty," three for murder, and one undecided. Then the undecided man went over to the majority. One by one the members of the minority were won over, until just after daylight an agreement was reached. Governor Goheen was in the courtroom when the verdict was rendered. He had nothing to say and left in company with Jas. W. Hawley, leading counsel of the state. Haywood thanked each one of the jurors in turn and told them if they ever came to Denver there would be a free reception for them at the Haywood home. E. F. Richardson, counsel for the defence, said: "We have had a fair trial. Idaho may indeed be proud of herself."

NEGRO KILLED BY A PREACHER. WHILE TRYING TO ESCAPE AFTER BURGLARY. Rev. S. L. Couch, Who Did the Shooting, Acted in Self Defence.

(Associated Press). Chattanooga, Tenn., July 28.—For the second time within a period of three months Rev. S. L. Couch, Methodist preacher, yesterday shot and killed a negro. The shooting three months ago was in defence of his wife, while the killing of Bud Wiley yesterday was in defence of his life. Couch is employed as a watchman at a large lumber mill. While making his rounds it was reported to him that two negroes had broken into a store nearby. He captured one. The negro struck Couch in the face and attempted escape. Couch then fired a bullet into the negro's head. NEGRO ELECTROCUTED. Put to Death in Electric Chair at Sing Sing for the Murder of a Woman.

New York, July 28.—Wm. Nelson, a negro, was executed in the electric chair at Sing Sing prison at Ossining early to-day for the murder of Lizzie Norman, with whom he lived. Nelson was given two shocks. It was the first execution at which Jesse Frost, the new warden of the prison, officiated. The crime for which Nelson paid the death penalty was committed in December, 1905, in this city and was the result of a drinking affair.

RIOTING ON KOREA. Number of Japanese Houses Destroyed—Guards Placed Along Railways.

Seoul, July 28.—Guards have been placed among the railways in the country to-day and regular bodies of troops are patrolling all parts of Seoul. Korean troops and rioters in Kyong-sung province have attacked the police, destroying seven Japanese dwellings, injuring six persons and driving the Japanese to their boats. Two of Marquis Ito's new appointees, the minister of the household and keeper of the seals, both in the cabinet, have been ordered to reform the court and warned that if this is not accomplished within three months their appointment will be revoked. This means putting a quietus on the activity of the former Emperor, who as late as July 23rd, it is said, intrigued to send a commissioner to Germany.

LOOKING GOOD AT MT. SICKER. WORK COMMENCING ON THE LENORA MINE. Will Soon Be Shipping Ore—Prospects Excellent at Tye and Richard III.

The Mount Sicker mining camp is again taking on more of its old time activity and there is every prospect that it will become an important mining centre. Work has begun on the Lenora again where London capital has become interested, and within a few weeks' time ore will be shipped from the works by the railway line to the Crofton smelter. Henry Croft, who spent some months in London in the interests of the mine, has put a staff of men to work on the Lenora preparatory to beginning the active mining again. Inside of three weeks it is more than likely that shipments will commence. Mr. Croft says there is abundance of money back of the project, and all that is needed is to prove that the ore is there and the finances will be available for all kinds of development in the province. The Tye Company is reported to be working at a fine body of ore higher up the mountain, and a year's work in splendid ore is in sight. Adjoining the Tye the Richard III. is turning out well, shipping over the Tye aerial tramway. The prospects at Mount Sicker are thus better than they have been for years and the camp should yet make a record for Vancouver Island.

KILLE ON RAILWAY. Athlete, Who Insulted Women, Either Fell or Was Thrown From Train.

(Associated Press). New York, July 28.—The Herald this morning says: "After repeatedly using insulting language to women passengers and challenging their male escorts to fight, Wm. P. McKee, 28 years of age, an amateur athlete living in Long Island, either fell or was thrown from a Long Island Railroad train while it was running at a speed of nearly forty miles an hour near Hammatt's last night and was killed. His body was found lying across the third rail, but it is believed death was caused instantly by falling off." "Leaving Rockaway Park the train was so crowded with returning excursionists that every platform was filled. McKee got aboard at Hammatt's. Evidently he had been drinking and began to use offensive language to the women. Several men threatened to punish him if he did not keep quiet, but this seemed to inflame him more, and, defying them to touch him, he burst into another torrent of bad language. It was then, according to Mrs. Baily, a passenger, that one of the men who was accompanied by his wife and two children, sprang from his seat, dealt McKee a heavy blow in the face, dragged him to the platform and lunged him from the rapidly moving train. "Another version is that McKee, in angrily alighting a blow at a passenger who remonstrated with him, lost his balance and fell from the train."

GRANT MADE TO EXHIBITION. THE SOUTH SAANICH COUNCIL VOTE SUM.

The municipal council of South Saanich met on Saturday evening at eight o'clock in the council chamber at South Saanich. The new rate by-law passed its third reading and was formally adopted. The rate for general purposes is four mills and for school purposes one mill. The assessor gave the total assessable property in South Saanich as \$3,908,136, divided as follows: For land, \$3,414,433; for property improvements, \$488,700. This is higher than last year on account of the great increase in the land values of properties in the municipality. The British Columbia Agricultural Society was voted a sum of \$200 for their approaching exhibition. The balance sheet of the municipality, as audited by the official auditor, was submitted to the council. The accounts having been certified to be correct the balance sheet was approved and passed. The other matters before the council were of a routine nature. The meeting was called to order by Reeve Brydon, who occupied the chair. Councillors Moore, Pointer, Grant, Quick, Durance and Puckle were also present. The newly-elected clerk to the municipality, J. R. Carmichael, was present in an unofficial capacity previous to taking up his duties in the regular manner. Permission was granted, after a formal application had been made to the municipality, to Lieut.-Col. Roycroft of Maywood, to have the city water laid to his house from the city's mains near Mr. Holme's house on Quadra street. J. E. Smart, of the B. C. Agricultural Association, drew the attention of the council to the fact that \$100 had been granted to the South Saanich Agricultural Association, and to the common interest which the ratepayers of the municipality of South Saanich had in any agricultural exhibition in Victoria. This was unanimously adopted. A letter from a Winnipeg firm in reference to a road along their property on the line of Victoria & Sidney railway, received the due consideration of the council. Seymour de Trafford Cunningham wrote to the council asking for permission that the road might be lowered on the knoll near his place on the Gorge road. The chairman explained that the property was situated on the Yates estate, and that Mr. Cunningham had built up a nice estate. His objection was to lower the road so that the water would not run onto his land. He stated a large amount of money would have to be expended. In fact he even thought that the whole hill face on Harriet road might have to be removed. Councillor Pointer remarked that part of the road was within the city limits. After a short discussion the matter was referred to the road superintendent to report upon. A communication was received regarding the clerk of the Court of Revision. The revee said he understood that Mr. Edwards left it to the council to say what the fee was to be. Ten dollars was voted, and this amount was ordered to be paid to Mr. Edwards. The account of William Grim, blacksmith to the municipality, amounting to \$27.25 was duly passed. A communication was received from the road superintendent requesting the council to purchase a heavy plow for grading, because the farmers' plows were not suitable for the work. The road superintendent was granted leave to purchase a plow suitable for road work. It was stated that the plow would cost about \$40. The question again came before the council as to their justification in granting a stated donation a month to an aged lady who was between 60 and 70 years of age. The matter was finally left to the constable for investigation, and the council will consider his report at the next meeting. The road superintendent sent in an estimate for the cost of work on a bridge with a wood covering for \$221. A short discussion followed on the lasting durability of concrete arching in lieu of temporary character of wood topped bridges. It was pointed out that there would be a great saving in using concrete for the future provided these took steps to ensure good workmanship in the erection of culverts or bridges. The question of contracting for work of this nature was considered. The revee very forcibly pointed out that contract work involved a far greater outlay in capital than piece work in a municipality like South Saanich. He stated that raw material like cement could be purchased by the municipality as cheap as, or even cheaper than, by a contractor, and that they could haul their own gravel and broken rocks at a less price than a contractor could. It was only right that the terms of their own farmers should be employed in any hauling work in the municipality. They had their own laborers whom they were training for more advanced work. A contractor would have to pay for outside labor and would have to add to the cost of the work a percentage on each item as his own commission. Moreover in order to see that a contractor carried out his agreement according to specification a man would have to be superintending in the interest of the municipality the work being carried out under contract. After discussion it seemed to be the general opinion that all work within the power of the road superintendent and his men to execute should be carried out by the municipality and not under contract. It was in consequence resolved that the work should be done on with by the road superintendent according to the estimated cost of \$221. Wootton & Goward, solicitors, acting on behalf of W. Thompson, wrote to the council regarding the sub-division of the land belonging to their client at the same time enclosing a map plan of the estate. (Continued on page 1.)

FIRE CLAIMED TWENTY VICTIMS. FLAMES DESTROYED NEW YORK TENEMENT. Majority of Those Who Perished Believed to Have Been Women and Children.

(Associated Press). New York, July 28.—After an all night search of the ruins of a six story tenement at No. 222 Christie street, which was burned shortly after midnight, the police announced that there were twenty victims of the fire. The bodies of the dead were found in all sorts of unexpected places, in which persons had fled when the fire broke out. Almost all of the bodies were burned beyond recognition, many to such an extent that it was impossible to distinguish the sex. A majority of the victims, the police believe, were women and children. Only five of the victims had been identified up to an early hour to-day. They were Maritje Di Dolio, his wife and their two infant children, and Frank Shields, a bed-ridden cripple, who was carried out alive by the firemen, but who succumbed to his injuries soon after his rescue. The burned building was one of the old-fashioned tenements common to the East Side, with a store on the ground floor and the apartments upstairs crowded with tenants, mainly Italian. The fire started in the store and swept through the building with such rapidity that a fifth of the 100 tenants in the place met a horrible death.

AUTO CRASHED INTO IRON BRIDGE. One of the Occupants Instantly Killed and Another Seriously Injured.

(Associated Press). North Attleboro, Mass., July 28.—An auto owned and driven by Louis D. Barrows and containing also Mrs. Florence Murray, D. R. Thomas Ford, a dentist, and Mrs. Howard Black, all of North Attleboro, crashed into iron bridge at Arnold's mill, R. I. last Saturday night, instantly killing Mrs. Murray and seriously injuring Dr. Ford, Barrows and Mrs. Black, suffered from the shock, but otherwise escaped unhurt except for bruises.

EXCEPTION TO JUDGE'S ACTION. J. A. AIKMAN GIVES HIS VIEWS IN COURT. He Severely Criticises Course Taken By Mr. Justice Martin Few Days Ago.

Before Mr. Justice Irving this morning J. A. Aikman made another unsuccessful attempt to secure the release of Peter Hansen, who was sentenced several weeks ago to a year's imprisonment on a charge of breaking and entering the Royal Arms restaurant and stealing four dollars. The conviction was secured in the city police court before Magistrate Hall. Mr. Aikman to-day applied for a writ of habeas corpus, it being his second application, but Mr. Justice Martin held that it was not within his jurisdiction to grant the writ. Mr. Aikman read correspondence connected with the refusal of Mr. Justice Martin to sit at a special sitting of the court of appeal called by Chief Justice Hunter on Monday, July 22nd. He said, upon Mr. Justice Martin taking that course his only legal remedy was to petition the Minister of Justice for executive clemency in the case. Mr. Aikman stated that he had, upon finding his appeal against Magistrate Hall's decision, sent copies of his letter to Mr. Justice Martin, the attorney-general of the province and Chief Justice Hunter. The correspondence was then read in the court. The letter with which Mr. Aikman supplemented the writ to the minister of justice contains, at the opening of a copy of the telegram. The letter in full was as follows: "The Honorable the Minister of Justice, Ottawa: "Sir—I to-day wired you herein as follows 'This day against Hansen appeal court set this day at eleven, adjourned till two, then sine die owing to Judge Martin's refusal to make up quorum because Justice refused to notify me in writing, although verbal notice was given by Chief Justice. Hansen in jail, no other remedy. Wire Judge Martin to sit.' "I now beg to confirm, and also to complain of the action of Mr. Justice Martin in refusing to sit upon the case in the court of appeal simply because the Chief Justice sends word to him through the registrar of the court instead of formally notifying him in person or in writing of such sitting. "The assizes are now sitting in Vancouver and Mr. Justice Clement is busy attending them. Mr. Justice Morrison is absent in the east and there are only three judges available here for appeal work, and simply because Mr. Justice Martin has a bug in his ear as to what he is entitled to in the way of a notification as to the sitting of the court of appeal, persons deprived of their liberty are to be kept in Durand's Ville until Mr. Justice Martin has the question decided as to whether he is entitled to be notified by the Chief Justice in writing or by the Chief Justice in person, and not whether an accused is entitled to be released or otherwise. "It does seem to me that such quibbling on the part of a judge is beneath the dignity of a person holding an office which ordinarily is entitled to the respect of the whole community, consequently I trust that you will see your way clear to bring Mr. Justice Martin to his senses. "I am sending a copy of this letter to the Chief Justice and Mr. Justice Martin. "Yours respectfully, "J. A. AIKMAN, "Counsel for Hansen."

JURY IN BRIBERY CASE DISAGREED. FIRE AT SUMMER RESORT. Long Beach Scene of Big Blaze—Assistance Has Been Asked.

(Associated Press). San Francisco, July 28.—The jury in the case of Louis Glass, vice-president of the Pacific States Phone & Telegraph Co., charged with bribing Supervisor Boxton, was unable to reach an agreement and was discharged yesterday. "The Honorable the Minister of Justice, Ottawa: "Sir—I am in receipt of your telegram and duplicate of yesterday's date in which you say: 'Not within province of Justice to give directions to judges in such matters. Upon receipt of this wire, Mr. Aikman said he, again communicated with the office of the Minister of Justice, his letter being as follows: "The Honorable the Minister of Justice, Ottawa: "Sir—I am in receipt of your telegram and duplicate of yesterday's date in which you say: 'Not within province of Justice to give directions to judges in such matters. Upon receipt of this wire, Mr. Aikman said he, again communicated with the office of the Minister of Justice, his letter being as follows: "The Honorable the Minister of Justice, Ottawa: "Sir—I am in receipt of your telegram and duplicate of yesterday's date in which you say: 'Not within province of Justice to give directions to judges in such matters. Upon receipt of this wire, Mr. Aikman said he, again communicated with the office of the Minister of Justice, his letter being as follows: "The Honorable the Minister of Justice, Ottawa: "Sir—I am in receipt of your telegram and duplicate of yesterday's date in which you say: 'Not within province of Justice to give directions to judges in such matters. FIRST VISIT TO THE PACIFIC
SIR MONTAGU ALLAN IS NOW IN THE CITY
Inspecting Branches of Merchants Bank—Steamship Company's Plans Not Decided

Sir H. Montagu Allan, of Montreal, so prominently identified with the Allan Steamship Company, is in the city, a guest at the Oak Bay hotel. Sir Montagu has come west to inspect the various branches of the Merchants Bank of Canada, of which he is the president. It is his first trip to the west, and he is delighted with the country. Sir Montagu has been impressed with the fact that those living in the west are so well satisfied with the country and have no desire to return to the east.

JAPANESE AGENT TAKES ACTION
Advices That No More Emigrants Be Sent to Province From Honolulu.

(Special to the Times)
Vancouver, July 29.—A Japanese boarding house keeper named Orito today announced that Maryama, the Japanese agent of the Honolulu Boarding House Association, in charge of the recent immigration of Japanese, had cabled to Honolulu advising that no more Japanese be sent to British Columbia.

SCHOONER WINSLOW IS IN DISTRESS
NEW EXPERIMENT
London, July 29.—The White Star line announced that a new principle will be added in the 2,000-ton steamer which is being built by Harland & Wolff for that company's Dominion service to Canada, a combination of turbines with reciprocating engines.

MEETS BAD ACCIDENT.
Among the passengers who were brought to Vancouver by the Queen City, Capt. Gunn, on her return from the Rivers Inlet run, was W. Purkis, a timber cruiser, who met with a bad accident which will probably result in the loss of his hand.

He was out shooting in the vicinity of Rock Bay when his gun went off and a quantity of shot was lodged in his hand. It was two days before he could get it attended to, and by that time he was in a very weak condition from loss of blood. He was removed to the hospital at Rock Bay and subsequently took passage to Vancouver, where he will undergo special treatment. It is thought likely that he will lose his hand, as it is in a terribly mangled condition.

The Queen City which arrived in Victoria this morning reports that several bush fires are raging in the different logging camps along the coast. The catches at Rivers Inlet canneries have not been good up to the present, and operations were almost entirely suspended at the time the Queen City was there owing to dull weather. Prior to that time the boats had been averaging from 60 to 70.

The Queen City has as much business as she can handle, and she reports that there is sufficient offering to ensure the success of the route throughout the winter months. The C. P. R. Coast S.S. Company has not yet decided whether the vessel will remain on the route all the year round. She leaves again tomorrow night, sailing from Vancouver at 9 a.m. on Wednesday.

SATISFACTORY MAIDEN TRIP.
Her maiden trip has been satisfactory in every way and we have great reason to be pleased with her performance. So spoke Captain J. W. Troup, general superintendent of the C. P. R. Coast Steamship Service, alluding to the new steamer Princess Royal which returned to port early this morning. Although she experienced some rough weather during the voyage the Princess Royal behaved splendidly and maintained an average speed of between 14 and 14-1/2 knots an hour.

Speaking of her performance in a general manner, Captain Troup said that she had performed the trip in every way, as well as the Princess May, which is recognized to be the fastest boat at present plying to ports in northern British Columbia. The Princess Royal is recognized on every hand as a notable addition to the C. P. R. coasting fleet and to her luxurious furnishings in many respects surpasses the other vessels.

When upward bound, the steamer carried a full passenger list from Victoria and Vancouver and about 600 tons of general merchandise. On the return voyage she brought 125 passengers, the majority of whom were landed at Vancouver. The vessel will sail again for Skagway and way ports on the 1st inst.

TO CALL FOR ANCHOR.
It is expected that the steamer M. S. Dollar, of the Dollar line, will make a call at Victoria this week for an anchor which she lost some months ago in the Royal Roads. The anchor was fished up by the steamer Maude, of the B. C. Salvage Company, and now lies awaiting the M. S. Dollar at the outer wharf. The steamer has just completed discharging a cargo of 4,000 tons at San Francisco and is expected to come here from that port.

TEES IN PORT.
Some 70 passengers arrived on Saturday by the steamer Tees, Capt. Townsley. The vessel passed through fine weather during her trip when she went as far north as Cape Scott. Among her passengers were J. A. Moore, who has properties at Quatsino Sound; J. A. Lindeman, the iron expert who has been examining mining properties on the coast; and J. A. Bentley, of the Bugabo, and Conqueror iron mines on Gordon river; Colonel Remington, who had been visiting copper mines at Quatsino; P. M. Kelly, C. H. Smith, provincial lands surveyor; Roy Price and G. O. Buchanan. The steamer Tees is scheduled to sail again on the 1st inst.

MARINE NOTES.
The steamer Tremont, of the Boston Towboat Company's fleet, sailed from Tacoma on Saturday on her way to Manila and Oriental ports. The British steamship Forcic, which will be the first vessel to sail on the Australia Mail line, left San Francisco on Friday bound for Vancouver, where she will take on freight for the Antipodes. It is expected that she will sail on the new route on September 6th from Seattle.

RIFLE RANGE FOR DOMINION MEET
SIX VICTORIANS WILL TAKE PART
Letting, of This City, Won the All-Corners Aggregate at Richmond Range

At the annual meeting of the British Columbia Rifle Association, which closed at the Richmond range on Saturday, Lettice, Fifth Regiment, Victoria, won the all corners aggregate, the governor-general's silver medal and the B. C. R. A. gold badge, also the London Merchants' and one bar and the Vancouver Bankers' match, which carries with it the Cornwall cup. The cup now becomes the property of Lettice, who has won it twice in succession.

Richardson, of the Fifth, won the B. C. R. A. bronze medal, the London Merchants' medal and three bars, also the Westminster cup, which he has now won twice. Lettice's score in the all-corners aggregate was 448, Chamberlain, of Westminster, being second with 436.

Leut. C. Milne, of the 6th regiment, Vancouver, carried off the Lieutenant-Governor's cup. His score was two points better than the nearest runner up, Lettice, of Victoria. In the Vancouver corporation match Keith won with 47. Lettice was third with 46.

The Nainalmo cup was won by Mr. Lehman of Ashcroft, with a score of 64. Richardson, with 60, won \$2; Lettice, 56; \$2; Sgt. Collins, Esquimaux, 58, \$2.50; Tyras Nell, Victoria, 49, \$1; Martin, Esquimaux, 49, \$1; Parker, Victoria, 48, \$1. The Ottawa team was selected as follows: 1, Lettice, Victoria; 2, Chamberlain, Westminster; 3, Turnbull, Westminster; 4, Sclater, Vancouver; 5, Studd, Westminster; 6, Cunningham, Westminster; 7, Richardson, Victoria; 8, Perry, Vancouver; 9, Winsby, Victoria.

Lettice, Richardson and Winsby will meet Cairns, Carr and Fisher, who shot at Bisleigh, and make up the Victoria team. Victoria last year won all the important cups—Lanesdowne, Kirkpatrick, Gard and Borden. Sgt. Collins, of Work Point, ran well up in trip aggregate, taking fifth place.

NEW ADVERTISEMENTS.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Cumberland, B. C.," will be received at this office until Monday, August 13th, 1907, in reply for the construction of a Public Building, Cumberland, B. C. Plans and specification can be seen and forms of tender obtained at this Department and on application to the Postmaster at Cumberland. Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned. The Department does not hold itself to accept the lowest or any tender. By order, FRED GELINAS, Secretary, Department of Public Works, Ottawa, July 19th, 1907. Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DIED.
M. LAMAN—At Vancouver, on July 27th, Mrs. H. McLaman, aged 24 years.
CITTYCH—At Vancouver, on July 27th, Mrs. Elizabeth Chittich, aged 77 years.

ALBERNI LAND DISTRICT.
DISTRICT OF RUPERT.
Take notice that William Bulman, of Salt Spring Island, B. C., lumberman, intends to apply for a special timber license over the following described lands:
1. Commencing at a post at the southwest corner of Lot 15, marked N. W. corner, thence 80 chains east, thence 40 chains south, thence 40 chains east, thence 40 chains north, thence 40 chains west, thence 40 chains north to point of commencement.
2. Commencing at a post planted about 1 1/2 miles east from J. J. Skinner's southeast corner on the shore of the Goulatos Channel, marked N. E. corner, thence 40 chains south, thence 40 chains west, thence 40 chains north, thence 40 chains east to point of commencement.
3. Commencing at a post 250 yards south of a post on Shushartie River, being one mile east of the east line of W. Bulman's No. 1 claim, marked S. E. corner, thence west 80 chains, thence north 80 chains to point of commencement.
4. Commencing at a post planted 400 yards south of the southeast corner of No. 3 claim, marked S. W. corner, thence east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to point of commencement.
5. Commencing at a post planted 300 yards south of Shushartie River, being one mile east of the east line of W. Bulman's No. 3 claim, marked S. E. corner, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to point of commencement.
6. Commencing at a post planted at the southeast corner of W. Bulman's claim No. 6, marked S. W. corner, thence east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to point of commencement.
Per J. A. Coates, Agent.
Dated 25th June, 1907.

ALBERNI LAND DISTRICT.
CLAYOQUET DISTRICT.
Take notice that Joseph A. Drinkwater, of Alberni, B. C., miner, intends to apply for a special license to cut timber over 60 acres of land, described as follows:
Commencing at a post planted on the S. side of Bear River, about 16 miles from its mouth, at the S. E. angle of J. A. Drinkwater's No. 16 location, thence 40 chains E., thence 80 chains N., thence 40 chains W., thence 40 chains S., thence 40 chains N. to point of commencement. Containing 60 acres more or less.
JOSEPH A. DRINKWATER.
Notice is hereby given that, 30 days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands:
Location No. 2—Commencing at a post planted about one mile below South Fork of the Copper River, initial corner, northeast corner, thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to the place of beginning, and containing 60 acres.

JUDGE WOOD'S CHARGE TO JURY

REGARDED AS SLIGHTLY IN FAVOR OF HAYWOOD

Mother of the Prisoner Collapsed Under Strain and is Now in Hospital.

Boise, July 27.—The fate of William D. Haywood, secretary-treasurer of the Western Federation of Miners, now in the keeping of the jury. With their verdict will come the end of one of the most remarkable criminal trials in the history of the country.

To-day there remained only the charge to the jury by Judge Wood. His presentation of the case was regarded by both sides as eminently fair. "It is my opinion," it was the opinion that the court leaned to the defence.

The courtroom was but half-filled when the jury filed in shortly before 10 o'clock. Haywood came in smiling and bowed a salutation to his wife, his mother, his two daughters and sister, the entire family being present. As Judge Wood took the bench the 12 jurors, who sat directly in front of him, wheeled in their chairs, turned their backs upon the defendant and his attorneys and listened attentively to the Lengthy Charge.

The judge finished at 10:59 a. m., a minute later the courtroom was cleared and at 11:04 the jury retired behind closed doors, which will open again only when the jurors desire to communicate with the court.

Judge Wood's charges and instructions were lengthy, making about 1,200 words. After thanking the jury for the attention they had given as jurors and giving the customary instructions as to the general duties of the jurors as to the law and evidence, Judge Wood instructed them in accordance with his ruling made some days ago, after argument by counsel on the admissibility of the evidence bearing on the connection of Steve Adams with crimes committed in northern Idaho. This evidence and also that introduced by the defence.

Regarding Deportation in Colorado and the employment of Pinkerton detectives by the mine owners, Judge Woods instructed the jury not to consider on the ground that no prior connection had been shown in either case.

Instructions as to the necessity for clear and conclusive proof beyond any reasonable doubt of every material act were followed by the quoting of the indictment on which Haywood, together with Moyer and Pettibone, was arrested. On this subject Judge Wood said: "There are three counts in the indictment, but the substance of each of them is unlawful, wilful, deliberate, premeditated and felonious killing of the said Frank Steunenberg, with malice aforethought. The essential elements of the offence charged in each indictment counts are the following: First, there must have been a killing; second, that killing must have been unlawful; third, it must have been wilful; fourth, it must have been deliberate; fifth, it must have been premeditated; sixth, it must have been accompanied by malice in the mind of the person or persons doing the killing; and unless these features, and each and every one of them, are proven to your satisfaction.

Beyond a Reasonable Doubt, then the defendant cannot in any event be convicted of murder in the first degree."

Continuing, Judge Wood said: "The court instructs the jury that if it is possible for you to reconcile the facts in this case upon any reasonable theory consistent with the innocence of the defendant, William D. Haywood, it is your duty to do so and find the defendant not guilty. I further instruct you, gentlemen of the jury, that while it has been admitted of the conspiracy of other crimes by the defendant and his associates, and tending to prove the commission of such other crimes by them, it has only been admitted for the purpose of showing the existence of a conspiracy, that accomplice certain objects and that while crimes resulted in the death of ex-governor Frank Steunenberg. But you are privileged to take such other matters into consideration as part of the evidence in the case, and as incidents and circumstances bearing upon the question of his guilt upon the charge of the murder of Steunenberg."

"It makes no difference, however, in this case, what crimes have been committed in Colorado, in the State of Alaska or elsewhere, or who is responsible for the commission of such crimes, if any there be. The defendant cannot be convicted unless the state has established beyond a reasonable doubt that he is guilty of the felony of killing Frank Steunenberg."

Judge Wood explained at length the term "conspiracy" within the meaning of the criminal law, and to what extent it would be necessary for the state to go to prove that Haywood was a party to the conspiracy.

In the present case, "if the prosecution has failed to prove these facts beyond a reasonable doubt," he continued, "you should find the defendant not guilty. If, however, you believe in this case from the evidence beyond a reasonable doubt, that the defendant, Wm. D. Haywood, aided, abetted, advised

STEAMER AHHORE.
Passengers Landed—Crew Remains on the Ship.

Halifax, July 27.—In a heavy fog the steamer Orinoco, of Pickford & Black's West India line, ran ashore this evening on Seal Island, near Cape Sable. All her passengers had been landed at St. John, where she had touched on her way from the Barbadoes to Halifax. She is about half a mile from land, and has from four to six feet of water in her hold. The crew is still on board but in no danger.

GENERAL PUNISHED.
St. Petersburg, July 27.—General Schilder, who was in command of the review in Krasnoi Selo last Wednesday, when the Semenovskiy regiment refused to participate in the manoeuvres and broke up the order of parade, has been relieved of his command and has been given a minor appointment in the provinces. He has been succeeded by Gen. Zubov, formerly attached to the general staff.

and encouraged the killing of Steunenberg, then the defendant is guilty, and it would be immaterial whether he was actually present at the time of the killing or not.

"The jury is instructed that the witness, Harry Orchard, claims that he was an accomplice in the commission of the offence charged in the indictment. Under the statutes of this state, a person charged with the commission of a crime upon the testimony of an accomplice unless such accomplice is corroborated by other evidence, which, of itself, and without the aid of the testimony of accomplices, tends to connect the defendant with the commission of the offence charged; and the corroboration is not sufficient if it merely shows the commission of the offence or the circumstances thereof.

"By corroboration evidence is meant additional evidence of a different character to the same point. The law views with distrust the testimony of an Accomplice.

on account of the motive he may have for laying the responsibility of his crime upon another when by so doing he may secure immunity for his own participation in the crime committed. For this reason the law exacts such corroboration, and although the jury may believe that the testimony of an accomplice is true, still the jury could not convict the defendant upon such testimony unless they further find that the testimony of the accomplice is corroborated by other and independent evidence.

"If you believe from the evidence that the witness, Harry Orchard, was induced or influenced to become a witness and to testify in this case by any promise of immunity from the prosecution, or by any hope held out to him that if he testified against the defendant he would not be prosecuted or punished, the jury should take such facts into consideration in determining the weight which ought to be given to the testimony so obtained. Such testimony should be received by the jury with caution and scrutiny.

"And if from the evidence it appears that any favor have been extended by the authorities of the state of Idaho to the witness, Harry Orchard, and there is any promise, either expressed or implied, relating to further favors to be received by him on account of his testimony in this case then these are proper.

Matters for the Consideration of the jury as affecting the credibility of his testimony.

"The jury is further instructed that by statutory provisions the defendant in a criminal case is made a competent witness in his own behalf, and where he testifies, as in this case, he comes the same in all respects as any other witness, and his testimony must be tested by the same rules or tests that are applied to other witnesses, and the jury may take into consideration the interest that he may have in the case in determining the weight to be given to his testimony.

"Under the indictment in this case the defendant, may, if the evidence warrants it, be convicted of murder in the first degree, murder in the second degree, or manslaughter."

Mrs. Emma Carruthers, of Salt Lake City, mother of Wm. D. Haywood collapsed this afternoon, and is now in Luke's hospital suffering from nervous prostration. Mrs. Carruthers has felt the strain of the trial more keenly than any other member of the prisoner's family. To-day, as the jury went out and her son went back to his cell she sprang up, threw her arms around his neck and kissed him goodbye.

Shortly before 4 o'clock this afternoon the Haywood jury sent a written request to Judge Wood for

Some of the Exhibits

in the case. They were immediately taken to the jury room. The discussion of the case was going on quietly, a glimpse of the room showing the jurors lounging about in comfortable attitudes.

Later it was announced that the exhibits furnished the jury included the telegram sent by Attorney Miller of Spokane to Orchard at Caldwell, the telegram sent by Jack Simpkins to Haywood, saying he could not get a lawyer to defend Orchard, the Pettibone letter to Orchard at Caldwell and the six drafts sent by Haywood to Simpkins in December, 1905. All of these exhibits bear directly on the Steunenberg murder, and are a part of the evidence of the conspiracy alleged by the state.

Judge Wood returned to the courtroom at 2 o'clock but there was no sign from the jury room. Judge Wood will keep the session open and there will be no adjournment or recess until a verdict is reached. There is no allowed in the courtroom except the court officers and counsel, and only a few people on the lawn near the doors of the courtroom.

Judge Wood at 10 o'clock to-night went to his home leaving instructions to be called on the telephone in case the jury should arrive at a verdict.

NINE YOUNG MEN DROWNED

BY CAPSIZING OF GASOLINE LAUNCH

Ten Left Toronto Junction on Pleasure Cruise But Only One Returned

Toronto, July 27.—An appalling accident which has shocked the entire community occurred during a sharp thunderstorm. A party of ten young men from Toronto Junction left Sunday night about 9 o'clock for a pleasure trip in a gasoline launch, the Danline, a home made craft.

Of the entire party one is alive and he is so bruised and dazed from the awful experience that he can tell little of how the accident happened.

George Shields, 19 years old, crawled home and told his friends that the launch had upset, but how many were drowned he did not know.

When a search party got to work it was apparent that Shields was the sole survivor and that nine young lives had been snuffed out in the accident.

Following were the victims: Joseph Irwin, aged 20, bricklayer, Quebec avenue; John Irvine, aged 20, 75 Clendale avenue; Walter Dundin, aged 20, Quebec avenue; Frank Kyle, aged 18, 19 Union street; Glen Daley, aged 19, and Frank Daley, aged 20, 49 Ontario street; Dawson, Nebraska, C. P. R. switchman; Gordon Leroc, trainer for the Shamrock lacrosse team; Reg. Miller, aged 19.

Saved—George Shields, aged 20.

The bodies of Walter Dundin and John Irvine are the only ones recovered.

ROSSLAND CAMP.
The Developments of the Idaho-Week's Shipments of Ore.

Rossland, July 27.—The shortage of cars kept the shipments of ore down during the week. The development of the Idaho is progressing satisfactorily, and it promises to be one of the best levels of the Consolidated Company, this being developed from several assets of the Centre Star, and by a shaft which is being sunk near its centre. The Centre Star is shipping a number of carloads of ore each week from Centre Star gulch. This ore was taken out by the older Durant ten years ago, but it had not been easy to get it until the development of the Idaho was commenced, which necessitated the construction of tramways. This made the ore available. It is of good grade, notwithstanding its long exposure to the elements.

Following are the shipments for the week: Centre Star, 2,420 tons; Le Roi, 1,562 tons; Le Roi No. 2, 285 tons; White Bear, 193 tons; total for week, 5,335 tons, and for year, 158,277 tons.

At Trail smelter 6,917 tons were received during the week. In the same period the Le Roi smelter at Northport received 1,325 tons.

PRECIOUS METALS AND COAL IN BRITISH COLUMBIA.
In our issue of Friday, 26th, a statement was made by Mr. Gavin Hamilton that gold was first discovered in 1858 on the Thompson river. Various dates have been assigned to that important event, and the old familiar story, common to the whole coast from Mexico to the Yukon, is oft repeated about the Indian bringing golden bullets to the fur traders. But we find the matter has been carefully investigated by Mr. Justice Martin in his "mining cases," vol. 1, in the historical preface to that volume, wherein it is to be found an authentic account of the earliest discoveries in what is now British Columbia of the precious metals and coal. As the matter is of general interest and this official account does not seem to be very generally known, we give the following extracts from it, by which it will be seen that gold was first discovered in 1850, silver in 1858, and coal in 1835.
"Gold, so far as officially known, was first discovered within what is now British Columbia by the Indians in Queen Charlotte's Island in 1850, and the fact was reported to the Secretary of State for the Colonies by Governor Blanchard, of Vancouver Island, in his dispatch of August 18th of that year. The results of expeditions fitted out by the Hudson's Bay Company, and later by others, to work the vein so discovered on Mitchell Harbor are given in the succeeding dispatches in the same blue book.
"Mr. Matthew MacFie, F. R. G. S., writing in 1865, states that the existence of gold in Vancouver Island has been known since 1850, and Mr. J. D. Pemberton, Surveyor-General of Vancouver Island, says that in 1852 he broke off almost at random pieces of gold-bearing rock in various places within a walk of Victoria, and the report (at page 160) on them by Mr. James Tennant, of the Strand, will be read with interest, enumerating as it does the geological formations usually met with in the south-eastern portion of the island, and showing that it is extremely probable that Vancouver Island, when properly explored, will be found to be a gold-producing country. Recent events have fully justified this opinion.
"So far as gold on the mainland of British Columbia is concerned, the first official notice thereof is contained in the dispatch of Governor Douglas to the Secretary of State for the Colonies, dated April 16, 1856, wherein he states that Angus McDonald, clerk in charge of Fort Colville, a Hudson's Bay post in the Upper Columbia District, had reported to him in a letter dated the 1st of March, that gold had been found in considerable quantities within the British territory on the Upper Columbia, and that he is moreover of the opinion that valuable deposits of gold will be found in many other parts of that country, etc. These gold fields, which were at first called by the governor the 'Coteau Mines,' (so called after the tribe of Indians inhabiting that part of the country) on further exploration were found to extend to the Fraser River, and the further discoveries thereon led to the great rush of 1858 to that region. Rapidly the miners in that year continued their prospecting up the Fraser River from Fort Yale to Lytton, from Lytton to Cayoosh (Lillooet), Bridge River and the Fountain (Paylton), from the Fountain to Fort Alexandria, and thence next year, 1859, to the Quatzen River and Cariboo, properly so called, where

to quote Governor Douglas, 'alluvial diggings of extraordinary value' were discovered on Horsefly and Antler Creeks, and, later, (1860-62) on Kettle's, Lightning, Williams and other creeks, resulting in the great rush to Cariboo in these and other years.
"On Vancouver Island gold was first obtained to any considerable extent from Leech River, discovered in 1854 by an expedition organized by Governor Kennedy under the command of Dr. Robert Brown, and stimulated by the prospect of a reward of £1,000 offered for the discovery of paying gold fields; and earnings as high as \$36 per day to the rocker were obtained.
"By the previous year, 1853, at Goldstream, near Victoria, several companies had engaged in working quartz veins with indifferent success. With this exception, however, is of comparative recent date, Dr. Dawson notices the 'premature quartz excitement of 1877 and 1878' in Cariboo, yet, as he states, it was not until 1886, after the discovery in Kootenay of a group of mineral deposits on Toad Mountain, near Nelson, that the development of lode mining, as it is present exists, began. But so small was the industry that the total value of its output so late as 1892 only amounted to \$297,400. After that date, however, it rapidly increased, and last year (Martin's Mining Cases was published in 1903) amounted to \$13,683,044.
"Silver was first officially reported as existing in Lillooet by Mr. J. W. MacKay in his report of October 2nd, 1858, to Governor Douglas, and was also mentioned by Lieut. Richard C. Mayne, R. N., in May, 1859; but its existence was first authentically established by Charles Forbes, M. D., of H. M. S. Topaze, who, by direction of Governor Douglas, reported in October, 1860, on the minerals of the country bordering upon Harrison Lake and Lillooet, and found and examined many argentiferous veins, as shown on the map and geological sections accompanying his report.
"Coal was first discovered in 1835 on the north-east coast of Vancouver Island, doubtless at Squash, specimens being brought in that year by the Indians to Dr. W. F. Tolmie, then stationed at the Hudson's Bay Company's post, Fort McLoughlin, on Mitlenak Sound, and used in the following year by the first steamer on the coast, the Beaver.
"The coal at Nanaimo was first discovered by Mr. Joseph W. McKay (then in the Hudson's Bay Company's service) in May, 1850, who was directed to it by the Indians in the neighborhood.
"The development of the industry is traced by Dawson and the annual reports of the British Columbia Minister of Mines, to which authorities reference should also be made, and also for information and statistics relating to the other minerals of the province."
COUNCIL AND WATER SUPPLY.
It has been suggested that as the city council evidently cannot agree, and just as evidently is never likely to reach an agreement, upon the subject of the steps necessary to be taken in order to secure an adequate supply of water for the city at the earliest possible date, that a commission should be appointed to take the matter entirely out of aldermanic pretence hands, gather data and report. If the council has not all the data it requires, then a great deal of money has been wasted in paying for the opinions of experts. The root of all the trouble and confusion, it appears to us, lies in the lack of harmony in the advice of experts. Mr. Adams came to Victoria with a reputation as one of the foremost hydraulic engineers in California. After a personal inspection of the country surrounding Victoria and an examination of the data gathered by presumably competent surveyors, he recommended certain measures. Possibly if the way had been clear and no law suits impending, Mr. Adams's recommendations might have been carried out. The people at the time Mr. Adams's advice was given were in a frame of mind to look with favor upon almost any action endorsed by a competent authority that promised relief from a water famine. But apparently we have reverted to the old condition, to which it must be confessed Victorians appear to be constitutionally prone, of next to hopeless division of opinion. We have forgotten the counsel of the very last of our experts. Mr. Adams suggested a reservoir as one thing necessary to insure a satisfactory pressure of water under all circumstances. Another gentleman of considerable engineering experience tells us that anyone who would suggest a reservoir in connection with Goldstream or the Highland districts as a source of supply must be an "inspired idiot." When professional opinion is so widely asunder, it were next to hopeless to expect laymen to be in complete harmony. We do not expect unanimity on the part of the council. It is seldom indeed that there is absolute unity of thought upon any subject among any considerable company of individuals. But we have no doubt the majority of the members of the council will reach a conclusion in accord with the expert advice at their disposition. They have not only written opinions; they have advisers in the city hall. If the people have no confidence in either the council or the council's advisers, we do not know what the next tribunal of resort must be—possibly a commission. In the meantime give the aldermen a chance. Do not endeavor to unnecessarily pre-

Justice public opinion against them. In any event, if a commission be appointed, who is to make the appointment, unless it be the council; and what reason is there to suppose that a creation of the council would be a more competent body than the majority of the council?
SIR WILFRID'S TRIUMPH.
The press of Canada, irrespective of political leanings (with the possible exception of the Toronto Mail and Empire) is unanimously of the opinion that Sir Wilfrid Laurier has returned to Canada from attendance at the Imperial Conference with a large addition to his already lustrous reputation and that the reception he has met with in the course of his journey to the capital of the Dominion indicates there is yet but one political leader of the first class in the country at the present time. The Toronto World, one of the leading Conservative newspapers of Ontario, describes the trip of Sir Wilfrid up the St. Lawrence River from Quebec as a "triumphal tour, attended by unbounded enthusiasm." There were what appeared to be "acres of faces" illumined by minds intent upon despoiling every word that fell from the lips of the "uncrowned king of Canada." Jacques Cartier Market and all surrounding streets in Montreal were packed with a multitude numbering not less than fifteen thousand people endeavoring to hear the message the Premier had to deliver. The line of march was thronged throughout. "The crowds," we are told, "were fully as large in the English portion as in the French quarter of the city," and at Dominion Square more than ten thousand people were waiting for a glimpse of Sir Wilfrid as he entered the Windsor Hotel.
The World candidly admits editorially that the course of the Premier at the Conference meets with its entire approval. It has not a single word of criticism to speak—not one of the acts performed would it attempt to undo if endowed with the power of veto. Its comments are worthy of reproduction as expressing the views of Canadians, the overwhelming majority of whom are more deeply concerned about the future of their country and her relations with the Mother Country than they are about the political success of political leaders or political parties. It says:
"During the session of the Imperial Conference the World on more than one occasion expressed its conviction that the Premier of Canada had acquired by virtue of his clear appreciation of the Imperial situation, the leading place in this important council. Towards the British government, or rather its permanent officialdom, still tinged as it is with the notion, inherited from earlier days, that it retains some intangible but none the less real predominance, Sir Wilfrid Laurier, in his own words, felt his first duty was to fix the character of the conference by declaring it to be a conference between government and government, and that all the representatives met on terms of perfect equality with the Imperial government. No doubt that assumption underlay the transactions of the previous conference and in theory it has been recognized and accepted by representatives of the outer Britains and by many individual statesmen of the Motherland. But for the first time in history the Canadian Premier seems to have prefaced the deliberations of the conference by an express claim for perfect equality of position on the part of the federal and self-governing communities. While the admission is only a declaration of a place already won, it is of historic significance as marking the completion of an evolutionary movement which the World believes places the self-governing states of the Empire on the only possible basis of relationship consonant at once with individual independence and united action.
"But this was not all that Sir Wilfrid Laurier accomplished. His second and equally valuable contribution to higher Imperial politics was his determined opposition to any course that laid the conference open to the charge of attempting to influence the domestic policy of any of the Imperial states. What rendered his attitude in this regard all the more praiseworthy was the fact that the point arose over the matter of inter-Imperial preferential trade—an issue due in its origin to the action of his own government. But Sir Wilfrid Laurier saw, what some of his more enthusiastic friends in the conference failed to appreciate, that to establish a precedent of this nature was not only fraught with danger, but struck at the very root of an Imperial partnership. The conference was within its right in expressing the belief of the great majority of its members, that the establishment of a preferential arrangement would tend to strengthen the Empire, but anything beyond this, and particularly any endeavor to force the hand of the British public, would at once have involved the conference in the party politics of the United Kingdom. The outer Britains have been insistent in their demand that there must be no interference by the British government or people in their domestic affairs, and it is their duty to be as careful not to encroach upon the equal right of the electors of the Mother Land.
"The last contribution made by Sir Wilfrid Laurier to the cause of Imperial union was his advocacy of the allied line—a proposal which virtually makes Canada the main link of a great Imperial line of communication. It is now under consideration, but whether immediately accepted or not, the idea is pregnant with large possibilities which must sooner or later become actualities.

MUMM'S
FOR PURITY

It has been frequently asserted
by eminent authorities that
nearly two-thirds of the crime
and poverty of the world was
directly traceable to intemper-
ance. These wisecracks should
have stated that these evils are
due to the immoderate use of
wines and liquors of question-
able quality, for it is a well-
known fact that intemperance
is practically unknown in the
wine-producing countries of the
world where the inhabitants
drink moderately of good, pure
wines. You'll be all right if you
stick to

CITY NEWS IN BRIEF

Next Sunday the steamer Iroquois
will make another of those delightful
trips via the picturesque Iroquois
channel and the Pender Island canal,
with the usual stop at Mayne. Train
leaves V. & S. station at 9:45 a. m.

Excellent bargains Dress muslins
and gingham in dainty designs and
of good, durable quality, marked away
below their usual selling prices. Special
price 12 1/2c. Robinson's cash store, 28
Yates street.

Prof. E. G. Wikens will resume
lessons on and after August 1st, at his
studio, 97 Fort street. Prospective
pupils should apply early as there are
but a few vacancies.

The members of the Victoria Lib-
eral Association are reminded of the
quarterly meeting which will be held
in St. William Wallace hall to-morrow
evening at 8 o'clock. A large attend-
ance is expected.

D. H. Hale, contractor, has been
awarded the contract for a modern
residence for Mr. Robert E. Edge,
Richmond avenue, also contract for a
handsome bungalow for Mrs. H. T.
Frank, to be erected on Davies street.

An excursion bringing 800 Wood-
men of the World from Everett arrived
by the specially chartered steamer
Santa Rosa from Seattle, at the outer
wharf this morning. The excursionists
are thoroughly enjoying the sights of
Victoria and neighborhood.

A picnic has been arranged by the
members of the Baxter Hive, No. 8,
Ladies of the Maccabees, to take place
to-morrow afternoon at Fisher's Land-
ing, Esquimalt. The members of
other local hives are invited to take
part in the outing.

A number of painters employed by
the Westcoast Paint Company are
at work on the swing bridge of the E.
& N. railway. The paint used on the
bridge is the special composition called
na-iron which is manufactured by the
Newton-Greer Paint Company.

The fire brigade on Saturday evening
turned out to extinguish a small
blaze at the old Davies residence on
Douglas street, now occupied by J.
Read. The blaze was caught before it
had done much damage and gave the
firemen little trouble. It was caused
by a child throwing a lighted match
on the dry grass outside the building.

There will be a rally of the Young
Peoples' Societies of the city this evening
at the Congregational church, com-
mencing at 8 o'clock. Addresses will
be given by Rev. H. A. Carson, Rev. S.
J. Thomson, Mr. Thompson and Miss
Seweroff. Reports of the recent con-
vention held in Seattle will also be
given.

The funeral of the late Robert M.
Higham took place yesterday after-
noon from the parlors of the K. C. F. G.
Furnishing Company at half-past
seven. Rev. Dr. Campbell conducted ser-
vices at the parlors and at the grave-
side. There was a large attendance of
friends, among whom were many em-
ployees of the C. F. R. A. delegation
from the Knights of Pythias lodge was
also present. A large number of floral
tributes were bestowed. The following
acted as pallbearers: J. Key, I. H. Grif-
fiths, G. A. Shade, G. H. Wolfe, J. W.
Stewart and E. P. Burch.

This evening at the A. O. U. W.
hall the popular musical Watson family
will inaugurate a series of concerts
and dances which they contemplate
carrying out during the coming fall. In
these entertainments they will be as-
sisted by the best talent available, and
patrons can be assured of spending a
pleasant evening. They have been for-
tunate in securing the services for this
evening of John E. Drew, a well known
vaudeville and dramatic man, who has
decided to locate here, and who is at
present building a home in the city. He
has undertaken to coach the local
favorites for a tour, they contemplate
making in the near future, having re-
ceived a flattering offer to go on a con-
cert engagement. The proceeds of these
concerts will be used to procure equip-
ment and costumes. The Kiddies will
also provide a concert programme at
the Y. W. C. A. garden party, to be
held at Mrs. Forman's on Wednesday.

you will be delighted. Excursion rates
Wednesdays and Saturdays.

The many friends of Sergt. Red-
grave will be pleased to hear that he
is progressing favorably, having under-
gone a critical operation at the Jubilee
hospital on Saturday, the 27th.

McPherson & Fullerton Bros.,
brokers for the Portland Canal Milling
& Development Company, announce
that the management of the above
company, owing to late reports and as-
says, have decided on and after August
1st next, to advance the price of nota-
tion stock from 12 1/2c. to 25c. per share.

W. Beecher Smith, the English Y.
M. C. A. immigration secretary, is in
the city a guest at the Dominion. This
evening at 8 o'clock Mr. Beecher
Smith will address a meeting in the Y.
M. C. A. hall, Broad street. He is in
the city in connection with a coloniza-
tion scheme for this province, and
will confer with Premier McBride on
the subject.

Snowy white linen does more to-
wards beautifying a table than silver
and cut glass. If you appreciate this
fact come in and look at our offerings
in line table Damasks. Prices 4c. and
up. Robinson's cash store, 28 Yates
street.

The bartenders of the city held a
most enjoyable outing at Colwood yes-
terday. A baseball match with Scotty
Paterson as referee, in which he inter-
preted the rules of the game in a most
original manner, was one of the fea-
tures of the picnic. A tug-of-war and
various other sports made the day pass
in the most pleasant manner. The
committee in charge was cordially
thanked, and it was decided to repeat
the event next year.

NO ORDER GRANTED.

Mr. Justice Irving Did Not Accede to
Request in Arbitration Difficulty.

Mr. Justice Irving this morning re-
fused to grant the application made by City
Solicitor Dubois Mason on behalf of the
arbitrator in the Victoria West arbitra-
tion matter for a judicial opinion under
the provisions of the act upon which the
arbitrator could fix a basis of compensa-
tion for the property owners affected by
the validation of the Ralph map in that
district. The case stated was based on
Mrs. Mary Patton's property in Block Q.
R. T. Elliott appeared for Capt. Grant,
and H. Dallas Helmesken, K. C., appeared
on behalf of other property owners. It
was contended by counsel that the city
should have approached the property own-
ers and offered compensation before pro-
ceeding. It was further pointed out that
a decision by His Lordship might be in
the hands of the arbitrator. No two cases
were alike, and therefore it was impos-
sible to settle it in this way.
Mr. Justice Irving said that Mr. Harris,
the arbitrator, should be represented by
outside counsel and not by the city sol-
licitor. He decided, after hearing counsel,
that he could not make an order as asked
for in the application.

Excursion rates now on to Nanaimo
and return, via the thousand islands
of the Gulf. Fare \$5. For informa-
tion, telephone 511.

Cipriotes are usually supposed to be of
Egyptian origin, but as a matter of fact
they probably came originally from In-
dia, and reached Europe about the begin-
ning of the fifteenth century.

SOAP MAN STILL
ON THE ROUNDS

Another Distribution Made on Sat-
urday Night Among the Ladies
of the City.

Mrs. Billingsley, Pandora street, \$3.00
on the Standard Stationery Company.
Mrs. Gallagher, 75 Blanchard street,
\$4.00 on Henry Young & Co.
Mrs. J. Youlden, \$5.00 on Christie's
Shoe Emporium and \$3.00 on Terry &
Maret's Drug Store.

The above were the lucky ones who
received prizes in Saturday's distribu-
tion. Every house visited had the
favorite soap and powder, consequently
she received two prizes.

The men should know where the
soap is kept in the houses. Great was
the disappointment of one who had
bought the soap himself and brought
it home, as he stated, but could not
locate it for the Golden West soap man
and consequently lost his chance of a
prize, it being the rule not to deliver a
prize unless the Golden West soap
is produced. Wives should not go out
without instructing their husbands
where to find the soap, for the Golden
West man is likely to call upon you
any evening, and unless the soap can
be seen "it is all up." The man re-
ferred to as having bought the soap
and brought it home, a fact which he
was prepared to swear to by the deep-
est hue of blue, could not prevail upon
the Golden West soap man to part
with the prize, so it is wise to have
the articles at hand in your home and
be ready for the Golden West soap
man at all times. He is certainly on
the war path.

EARTH TREMOR WAS
FELT IN THE CITY

Shock Occurred Early Yesterday
But Local Seismograph Does
Not Record It.

A slight earth tremor, which can hardly
be accorded the dignity of an earth-
quake shock, was experienced by the in-
habitants of Victoria early yesterday
morning. It occurred about 2 1/2 a. m., and
seemed to be most pronounced in the
vicinity of James Bay. It was felt in
Spring Ridge and on the Gorge also. The
duration of the shock was one second and
the movement of the earth was from east
to west.

There is no record of the tremor on the
seismograph at the local meteorological
office. This, however, may be accounted
for by the fact that it lasted only one
second. The pendulum fitted on the local
instrument has a fifteen-second vibration,
and this is the usual vibration allowed in
the seismographic stations in different
parts of the world. In a one second
shock it is hardly likely that the tremor
would be recorded.

Many people in the city felt the tremor.
Perhaps the most notable instance was
that of a lady who resides in the neigh-
borhood of James Bay. Lying awake at
the time when it occurred she first heard
the jug which stood in the wash stand
distinctly oscillate from side to side just
one time, and immediately following this
movement the bed in which she lay seem-
ed to rise with an undulating motion from
the floor. She was terribly frightened by
the movement, although she had sufficient
presence of mind to remember that it
lasted only a second.

Others in the city state that they felt
the houses in which they were awake,
while in many cases the windows rattled
and the furniture was thrown about. It
is difficult to say how many people were
awakened by the fact that it was probably
due to a collapse of some substratum in
the earth's crust, and that it is quite possible
that it may have been only of a local
nature.

The records of the local seismograph
are forwarded to Professor Milne at the
University of Cambridge, and he makes an ex-
haustive inspection of them. The most care-
ful inspection of the local record, how-
ever, cannot discover any trace of a shock
having taken place in the vicinity during
the early hours of yesterday morning.

PERSONAL.

Duncan Macintyre, of the Pacific cable
board, is spending a few days in town.
Mr. Macintyre is a Quebeclander, and a
nephew of the late Sir Hugh Nelson, for-
merly premier of Queensland.

Capt. E. H. Fletcher, inspector of post
offices, returned last evening from his
regular inspection trip to the Yukon, go-
ing as far down as Eagle River.

VICTORY FOR LOCAL PLAYERS

VICTORIA CRICKET CLUB WINS EASILY

Tennis Tournament Opens This Afternoon—J. S. Bowker Defeated at Croquet.

The Tacoma Cricket Club paid a visit to Victoria on Saturday and met with an overwhelming defeat at the hands of the Victoria club.

The visitors won the toss, and although the weather conditions were perfect, elected to send in the locals first.

Baker was the next to join Barnacle, and scoring came at a lively pace. At this time Barnacle, with the prospect of making a full score, grew careful and runs came slowly from his end.

When only six runs short of his century, Barnacle had the misfortune to be bowled by a yorker. His total of 94 was made in a little over two hours, and during the time he gave the chance, an easy catch early in the game.

Among the rest of the Victorians Irving and Williams played good cricket, the former making 47, and the latter 23. Irving is only a schoolboy, and this was his second appearance in senior company.

The following are the scores of the match: Victoria—First Innings. Q. D. H. Warden, b. Clarke, 9; F. B. Tye, b. Cameron, 10; J. B. Barnacle, b. Cameron, 94; Capt. H. J. Rous, b. Clarke, 13; Baker, run out, 32; W. P. Gooch, b. Lyons, 20; A. B. Irving, b. Dow, 47; W. T. Williams, b. Saulez, 23; W. G. Grayson, not out, 5; S. G. Bowley, not out, 4; E. H. Johnson, b. Dow, 26.

Table with 2 columns: Player Name and Score. Includes Tacoma—First Innings and Tacoma—Second Innings.

MONEY BEGETS MONEY, and its offspring can beget more; and so on. The more there is of it, the more it produces, so that the profits rise quicker and quicker.

VICTORIA CRICKET CLUB WINS EASILY

Tennis Tournament Opens This Afternoon—J. S. Bowker Defeated at Croquet.

The Tacoma Cricket Club paid a visit to Victoria on Saturday and met with an overwhelming defeat at the hands of the Victoria club.

The visitors won the toss, and although the weather conditions were perfect, elected to send in the locals first.

Baker was the next to join Barnacle, and scoring came at a lively pace. At this time Barnacle, with the prospect of making a full score, grew careful and runs came slowly from his end.

When only six runs short of his century, Barnacle had the misfortune to be bowled by a yorker. His total of 94 was made in a little over two hours, and during the time he gave the chance, an easy catch early in the game.

Among the rest of the Victorians Irving and Williams played good cricket, the former making 47, and the latter 23. Irving is only a schoolboy, and this was his second appearance in senior company.

The following are the scores of the match: Victoria—First Innings. Q. D. H. Warden, b. Clarke, 9; F. B. Tye, b. Cameron, 10; J. B. Barnacle, b. Cameron, 94; Capt. H. J. Rous, b. Clarke, 13; Baker, run out, 32; W. P. Gooch, b. Lyons, 20; A. B. Irving, b. Dow, 47; W. T. Williams, b. Saulez, 23; W. G. Grayson, not out, 5; S. G. Bowley, not out, 4; E. H. Johnson, b. Dow, 26.

Table with 2 columns: Player Name and Score. Includes Tacoma—First Innings and Tacoma—Second Innings.

MONEY BEGETS MONEY, and its offspring can beget more; and so on. The more there is of it, the more it produces, so that the profits rise quicker and quicker.

A WOMAN'S ORDEAL
DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free.

There can be no more terrible ordeal than to be obliged to answer certain questions in order to private life, even when those questions are asked by her family, physician, and many

continue to suffer rather than to submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female diseases.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician.

Read how Mrs. Pinkham helped Della E. Montreuil, of 111 Latourville St., Quebec, Que.
Dear Mrs. Pinkham:—

I suffered for eight months with what the doctors called prostrations, which caused great weakness all over my system, with faint dizzy spells. I kept growing weaker and weaker until I had several medicines which they claimed would cure my ailment, but nothing was of the least benefit until I tried Lydia E. Pinkham's Vegetable Compound, and this helped me so rapidly that I could hardly believe my good fortune. I would gladly have paid \$25.00 for that first bottle, for it started me on the road to health, and the bottles cure me in a most grateful way for my splendid, robust health, and I should certainly recommend the Vegetable Compound in glowing terms to all my friends and acquaintances, for it is deserving of all the praise I can give it.

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

NOTICE

NEW TEACHERS
FOR PROVINCE

A VICTORIA PUPIL
AT HEAD OF LIST

Successful Candidates Who Competed at the Recent Departmental Examinations

The results of the teachers' examinations were announced Saturday night at the office of the superintendent of education.

Victoria again has carried off the highest honors in the High School examinations—junior grade. Jean Robinson, daughter of Alex. Robinson, superintendent of education for the province, passed with 1283 marks. Miss Robinson has had a splendid record in her school course and the latest honor, that of heading the list for the whole province, brings credit to herself, and the Victoria college.

The next pupils in the Junior grade to her wrote at Vancouver. They were Daniel M. Gordon, from Kootenay, and W. E. G. Murray, of the Maple Ridge school. These each won 1155 marks. The next in order was a pupil of the Victoria college, May W. Hamilton, of Pender Island, with 1147 marks.

The Junior grade gives the holders third class non-professional standing in the department and qualifies them for entrance into the class at the High School, taking university matriculation work.

The senior grade answers to the first class non-professional, and the intermediate to second class non-professional.

The annual examination of candidates for certificates of qualification to teach in the public schools of the province began on July 2nd, 1907, and was held simultaneously in Armstrong, Chilliwack, Campbellland, Grand Forks, Kamloops, Kaslo, Nanaimo, Nelson, New Westminster, Revelstoke, Rossland, Vancouver, Vernon and Victoria.

The examiners appointed to act with the superintendent of education were: W. P. Angus, B. A., J. W. Church, M. A., F. H. Eaton, M. A., D. C. L. Edwards, B. A., James C. Shaw, M. A., and David Wilson, B. A. By the lamented death of Mr. Shaw in April last, the board of examiners was deprived of a very scholarly member, and the province of its most prominent and able teacher.

Academic Certificates: Frederick R. Anderson, B. A., Mt. Allison university, New Brunswick; John Barker, B. A., Queen's university, Kingston; Alfred Buckley, M. A., University of Manchester; Louise H. Chalmers, B. A., McGill University, Montreal; James O. Cloughier, B. A., Queen's university, Kingston; Isaac Crombie, B. A., University of Acadia college, Nova Scotia; Charles J. Davie, B. A., Dalhousie University, Halifax; Robert N. Davy, M. A., University of Toronto; John Dunsmuir, B. A., University of Toronto; Charles E. Falkner, B. A., University of Oxford; Joseph A. Fraser, B. A., University of Toronto; Lorne C. Fraser, M. A., McMaster university, Toronto; William R. Fraser, B. A., Dalhousie university, Halifax; Roy D. Fullerton, B. A., Mt. Allison university, New Brunswick; William O. Goulet, B. A., University of Manitoba; Gordon H. Gower, B. A., University of Acadia college, Nova Scotia; Hugh D. K. Grimson, B. A., Cambridge university; Josephine M. Heales, B. A., Dalhousie university, Halifax; Alice O. E. Henry, M. A., McGill university, Montreal; Annie B. Jamieson, B. A., University of Manitoba; Francis P. H. Layton, B. A., Dalhousie university, Halifax; Allan F. Matthews, B. A., Dalhousie university, Halifax; Male I. Messenger, B. A., University of Acadia college, Nova Scotia; William R. Macdonald, M. A., University of Edinburgh; Mary L. MacKenzie, B. A., Dalhousie university, Halifax; Anthony J. McKenna, B. A., Ottawa university; Florence A. MacKinnlay, B. A., University of Acadia college, Nova Scotia; Geo. W. MacKinnon, B. A., Queen's university, Kingston; Elsie McNeil, B. A., University of Acadia college, Nova Scotia; Hanna E. McNeely, M. A., Trinity college, Toronto; Mary M. McPhalen; Mabel M. Pearson, Madeline Poirer, B. A., Royal University of Ireland; Jessie M. Shampier, B. A., University of Acadia college, Nova Scotia; Mary S. Siddals, B. A., University of Manitoba; Edna P. Sisson, B. A., Dalhousie university, Halifax; Alexander Smith, M. A., University of Aberdeen; John Stafford, B. A., University of Toronto.

First Class Certificates: Margaret I. Anderson, Wilhelmina Baxter, Ethel Hodgson, Alwin Holliday, Eliza C. Stott.

Second Class Certificates: Agnes N. Anderson, Mabel C. Astle, Evelyn B. Bate, Ethel D. Bryant, Marion S. Butler, Fanny E. Hulman, Norma Campbell, Isabella M. Carro, Samuel J. Clarke, Doña L. Cook, Alice Cooper, Margaret Boykin, Margaret K. Dodd, Sarah Donald, Margaret I. Driver, Mrs. Edith S. Fee, Agnes E. Gammon, James F. Grant, Helens Hanzer, Coral L. Harris, William H. Harrison, Nora J. Hill, Henrietta B. Hutchison, Katharine W. Johnston, Edna E. Knight, Flora M. MacLennan, Edith Manifold, Flora M. MacLennan, Olive C. Morrison, Katharine B. McArdle, Catherine F. SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.
Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 36, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.
Application for homestead entry must

be made in person by the applicant at the office of the local Agent or Sub-Agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-Agent's office may be filed to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "pre-emption" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.
An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, or voluntarily abandoned, subsequent to the institution of cancellation proceedings, is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.
COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty of \$1 per acre per ton shall be collected on the merchantable coal mined. QUARTZ.—A person who has discovered a vein, or over, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 25 per cent. on the sales. Pinger mining claims generally are 100 feet square; entry fee \$5, renewable yearly.
An applicant may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. The leasee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 25 per cent. collected on the output after it exceeds \$10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

FAT FOLKS

ONE DOLLAR

Invested in a bottle of these wonderful, harmless fat reducing tablets and in 30 DAYS you will be a normal, well-formed person again. Don't carry around your ugly bulk, your ungainly superfluous flesh. It makes you miserable, ridiculous, and what is more important, it subjects you to fatal consequences. Sudden death from Fatty Degeneration, Heart Disease, Kidney Trouble, Apoplexy and Muscular Rheumatism—all come from OVER-FATNESS.

THOUSANDS OF TESTIMONIALS FROM GRATEFUL PERSONS PROVE THIS YOUR MONEY BACK IF IT FAILS

ANTI-CORPUS is absolutely the greatest discovery in medicine for reducing FAT. It is made in the form of a little tablet, out of VEGETABLE matter, and is easy and pleasant to take. It is endorsed by every reputable Physician and College of Medicine. Ask your own doctor.

ANTI-CORPUS is absolutely harmless. The formula used in making this preparation is on file in the Bureau of Chemistry in Washington, which is proof that it is PURE and HARMLESS.

ANTI-CORPUS reduces FAT from 3 to 2 pounds a week. It reduces Double Chin, Fat Hips and Flabby Cheeks. No wrinkles result from this reduction, for it makes the skin close-fitting and smooth.

ANTI-CORPUS strengthens WEAK HEART, cures PALPITATION, SHORT BREATH, and acts like magic in MUSCULAR RHEUMATISM and GOUT.

PRICE \$1.00 per bottle. Money back if it doesn't do all we claim. If your druggist does not keep it, show him this advertisement and make him get it for you, or you can send for it DIRECT to us. We pay postage and send it in plain wrapper.

30 Days Treatment in Every Bottle

FREE! We will send you a sample of this wonderful fat reducing remedy on receipt of 10 cents to pay for postage and packing. The sample itself may be sufficient to reduce to the desired weight. Mention this paper.

THE BIALYSTOK OUTRAGES.
Man Who Murdered Several Jews Gets Off With Sentence of Eight Years.

Bialystok, Russia, July 27.—The District court to-day handed down sentences in the cases of the men placed on trial for complicity in the anti-Jewish attacks here during the month of June, 1906. The trial of these individuals has been postponed many times. The court sentenced a man named Demietovitch to eight years' hard labor in the mines and four other men were given life terms of imprisonment. Demietovitch is the notorious leader of a gang which attacked a number of Jews who had taken refuge in a railroad station outside the town, killing, seriously wounding and mutilating many of them. Witnesses examined by the court established the fact that Demietovitch had murdered several Jews with his own hands, beating out their brains against a rock.
Certain government officials accused of complicity in the organization of the attacks on the Jews have not yet been indicted.
The highest inhabited place in the world in the Buddhist monastery of Ilaine, in Tibet, which is situated about seven thousand feet above sea level.

CONVENTION IN LABOR INTERESTS

Call Issued for the Next Meeting of Trades and Labor Congress

The call for the next convention of the Trades and Labor Congress of Canada, has been issued from the secretary's office at Ottawa. The convention which was held in Victoria last year will be in Winnipeg this time. The call is as follows:
To the Officers and Members of Trades and Labor Councils, National Trade Unions, Federal Labor Unions and International Local Trade Unions in the Dominion of Canada.—
Fellow Labor Unionists and Brothers—The twenty-third annual session of the Trades and Labor Congress of Canada will convene in the legislative council chamber, Broadway, city of Winnipeg, province of Manitoba, beginning at 10 o'clock, Monday morning, September 16th, 1907, and will continue in session from day to day until the business of the convention has been completed.

Last year, notwithstanding the fact that the convention was held in the extreme west of Canada, namely at Victoria, the convention, both in point of numbers and enthusiasm, exceeded anything in the history of organized labor in Canada.

With the convention in Winnipeg, the future capital of the British Empire, and fairly accessible, both as to cost of transportation and time, all past records should be broken. The approaching convention is expected to be a climax of the great work of organization for the past twenty-five years in Canada. Your body cannot afford to be unrepresented.

While the organization of the workers has gone on more successfully, the efforts of our opponents have never been greater or more pronounced, and the necessity for close touch amongst all branches of labor in every part of Canada has never been more marked. Matters affecting the every-day life of the toiler will be the subject of discussion on each day of the convention, and the importance of your organization entitles it to be heard in the consideration of all these great questions.

The laws passed during the last session of the Dominion parliament, as well as those enacted by the various provincial legislatures, will afford room for discussion, and will require the exercise of the best thought in the world of labor. See to it, therefore, that your delegates are on hand.

One of the most important questions to come before the convention will be the policy of the congress towards immigration. The advent of thousands more, have brought the immigration question to the forefront, and to-day it ranks as one of the most difficult problems confronting organized labor, affecting, as it does, our wages and hours of labor. The condition that surrounds us in the sale of our labor. As every province has its own problems in this regard, every province should be well represented at the convention.

So too, the reports of the provincial executives as to the progress of the political action, determined upon at the Victoria convention, will be of great and enduring interest. The movements and utterances of the representatives of the Liberal and Conservative parties indicate very clearly that we will have a general election for the Dominion parliament in 1908. This makes it the Winnipeg convention of the annual parliament of labor will be the only chance that the representatives of labor, through their Dominion legislative labor body, will have of reviewing the work done by the provincial executives with respect to independent political action and taking such steps as they deem necessary to complete this work. Therefore, it is of paramount importance that at least every Trades and Labor Council, from Halifax in the east to Victoria in the west, should be represented by the very best men.

Don't be content to say that there will be enough there without you. Have your own delegates present. This is the growing time, and organized labor must keep up with the procession. It is useless for you to inveigh against unjust laws or the methods of the employers, unless you do your part in passing upon the ways and means to better yourself. Isolation from the general labor movement not only weakens your own organization, but helps to destroy the movement itself.

ALPHONSE VERVILLE, M. P.
JAMES SIMPSON,
Vice President, Toronto.
P. M. DRAPER,
Secretary-Treasurer, Ottawa.
THE PRICE OF BEEF.

Winnipeg, July 27.—Mayor Ashdown was asked his opinion on the by-law to provide \$50,000 for a public abattoir. In reply he stated that the price of beef at the present time was outrageous. He could not see any reason why the price of beef in Winnipeg should be higher than in the city of London. He did not believe that the conditions warranted the exorbitant price, and would favor any scheme that would tend to the reduction in the price of beef.

AN OLD OFFENDER CAUGHT.
For years he has caused endless trouble, but when Putnam's Corn Extractor has been applied he came out roots and all. Any corn cured in twenty-four hours by Putnam's.

STILL AT LARGE.

Berlin Police Are Unable to Trace Criminal Who Stabbed Five Little Girls.

Berlin, July 27.—The criminal who yesterday stabbed five little girls on the streets of this city, is still at large. The theory that finds most favor among medical men is that the man is an epileptic who has probably recovered his normal condition now and who does not know what he did yesterday, that his attitude towards these dreadful acts is that of the complete stranger. He will not be heard of when in another seizure he kills another child.
The newspapers still publish warnings to parents, not only in the neighborhood of yesterday's attacks, but in all sections of the city. Children today are being kept indoors.
After a conference of the heads of the police department held this afternoon, all policemen, whether they were on duty last night or not, were at once ordered out on patrol duty. Some of them are in uniform, while others are in plain clothes. Between seven and eight thousand guardians of the peace are thus doing patrol service.
Five men were arrested during the night, but were released this morning. The police have been supplied with many so-called clues to the criminal, but not one has proved genuine or helped to locate him.

BRIEF TELEGRAMS.
A Winnipeg dispatch says: Baccart, the Italian who shot Angus Cameron on Dominion Day has been released on \$12,000 bail to appear at the next assizes.
The excursion steamer Otomabee was leaving the wharf at Lady Wyld, Rice Lake, Friday evening, when two globe valves on the water feed pipe blew out, flooding that part of the boat with steam.

GILLETT'S PERFUMED EYE LYE

CAUTION

Like all good articles, which are extensively advertised, Gillett's Lye is frequently and very closely imitated. In some instances these imitators have copied our directions and other printed matter word for word.

Be wise, and refuse to purchase these imitation articles, which are never satisfactory.

Insist On Getting GILLETT'S LYE and decline to accept anything that looks to be an imitation or that is represented to be "just as good." In our experience we have never known an imitation article that has been a success or been on the market any length of time.

THE Larder Lake Exploration & Development COMPANY

CAPITAL, 500,000 SHARES—PAR VALUE \$1.00 PER SHARE
FULLY PAID AND NON-ASSESSABLE

15c. First Allotment of 50,000 Shares at Fifteen Cents per Share **15c.**

Our Option on this small block of Underwriters' Stock expires August 10th—Subscriptions Postmarked at later date will be returned

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smile; they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago? Then it was a "vision," it was a "dream," it was a "bubble," somebody was "crazy"; but now it is different. These crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are the facts.

In presenting this investment for subscription we appeal to the good judgment of sensible persons as to its merit.

It embodies, we believe, a correct method for developing and establishing successful and paying mining enterprises.

We desire to conduct, first of all, a successful Mine Development. We intend this to be done in a way that will be absolutely fair and honest, and bring the largest profit possible to those who co-operate with us.

We therefore, desire this proposition to be well understood by investors. We wish it to be a well known fact that we propose to develop, establish and operate dividend paying Mining Companies by and through this investment.

THE PLAN.—The plan involved in this proposition is that of uniting or consolidating the investments of a limited number of persons into one sum, and under one management, to be used in acquiring and developing Mining Properties in this wonderful region.

THE PRINCIPLE involved in this investment, we believe, is one of absolute fairness to all interested. The "promotion interest" common in all mining companies, and which is the great unfair feature to investors who put their stocks of these companies, and whose money develops and makes the mine, if a mine is developed—does not exist in this proposition. There is no "promotion interest" set aside, and against the interest bought and paid for by the investors.

In this proposition the investors, and all the investors, become promoters. They take the "promotion interest" and all the interest. They own the whole enterprise. No matter how large or small the investment—all stand on an equal basis. Our field of operation is probably one of the greatest, and without doubt the richest, mineralized regions in the world.

For its base, upon which we will establish and build up several great producing, paying mining companies, we will exploit and develop in a mining-like and careful manner extensive mining properties now known to us, and other properties which we may acquire for the mutual benefit of all investors in this Company.

SUBSIDIARY COMPANIES.—The Larder Lake Exploration & Development Company will incorporate a series, not to exceed five, of subsidiary Mining Companies upon only the real proven properties acquired.

In each and every Subsidiary Company incorporated, whether Mining, Milling, Smelting, Water Power or Electric Light, the Exploration Company will take 90 per cent. of the capital stock of each Company so incorporated, and will put 10 per cent. in its treasury. It will probably never become necessary to sell any of this Treasury Stock.

Out of the total Capital Stock of each Subsidiary Company, the Exploration Company will retain 60 per cent. as its "Holding Stock." This will always control the Company. It will take and hold 40 per cent. for the mutual benefit of all stockholders in the Exploration Company. This 40 per cent. will be known as "Selling Stock," and as a market is created it will be sold, and the proceeds received will be distributed pro rata to the stockholders in the Exploration Company, as their interests may appear.

The stock of the Subsidiary Companies will be listed on the New York Curb and Mining Exchanges of the country, and started at 50 cents a share, where it can be bought and sold according to the daily market quotations. This will afford a channel by which stockholders can sell the 40 per cent. "Selling Stock" from time to time, if they wish.

PROPERTIES.—Many different mining properties will be acquired and developed as stock in the Exploration Company is subscribed for. All properties will be described, and reports submitted regarding same, as soon and as often as they can be examined by the engineers.

The mining properties that will be acquired for this proposition will be located in the gold and silver belt, extending from the Montreal River through Northern Ontario, eastward into Quebec, and will include properties in the Lady Evelyn District, the new Montreal River Silver District, Cobalt District, and the gold districts around Round Lake, Larder Lake, Lake Abitibi, and in the great undeveloped mineralized section of Quebec lying just east of Larder Lake and extending northward to Lake Abitibi.

We shall try and make every dollar count, and make as few mistakes as possible. We hope to create such an interest in this enterprise with investors, that will result in extensive and widespread co-operation.

Under this plan no one can truthfully say that it is not a great mining investment. We want every investor to feel a personal interest in this Mine Development. The investors in this Company will own this enterprise, and we want them to co-operate with us and our associates to make it a great success.

We are now organizing The Larder Lake Exploration & Development Company with what we consider sufficient capital (\$500,000). We now have options on, and propose to acquire five distinct and separate properties which will be incorporated at \$100,000 each (100,000 shares—par value \$1.00). The Exploration Company will at all times hold a controlling interest in each of these companies, so that 60 per cent. of the dividends earned and declared will be paid into the treasury of the parent company, and the other 40 per cent. distributed among the stockholders as received. This in our opinion will enable us to pay dividends and large ones in the very near future.

The Board of Directors of the Larder Lake Exploration & Development Company will be composed only of engineers of national repute, setting a precedent in this line—Mr. Robert Morton will be president, which fact in itself guarantees conservative and able management.

Investors have been pouring their money into over-capitalized mining companies, they have been plunging about wildly in the hope of some day "striking it rich" never stopping to think for one instant that the greater part of their money never reaches the ground, as a rule 75 per cent. of the money invested in stock schemes goes into the broker's hands. He says his salesmen 25 to 50 per cent. on every dollar turned in, he must get his own commission and engineers must be paid.

We never have had associated with us a stock salesman, we require no commission and our engineers will be directors, so that every dollar invested with us on this proposition will be honestly used in the purchasing and development of the different properties.

We are now offering for subscription the first allotment of mining The Larder Lake Exploration & Development Company—every one hundred shares entitles the holder to forty shares of stock in each of the subsidiary companies to be incorporated, making in all 200 shares of stock in five separate companies, which, as soon as the development work is started and dividends announced, will make the stock of the Larder Lake Exploration & Development Company almost invaluable. This first allotment of only 50,000 shares (\$1 par value) will probably be largely over-subscribed in a few days.

The next allotment will be put out September 25th, 1907, at 75c. per share or higher.

This price (15c.) will positively be withdrawn August 10th, 1907. If this allotment is over-subscribed remittances will be promptly returned. Checks, drafts and money orders must accompany all applications and be made payable to the financial agents. Interim certificates will be promptly returned to subscribers. The stock certificates of the Company representing the shares purchased will be issued and delivered as soon as allotment can be made, after the 10th of August, to all subscribers who purchase at the first under-writing price prior to that date.

Are you going to get in now, in time, at Larder Lake; you can now get at ground floor prices on inside properties, making big profits and lots of money; or will you wait three or four months or a year, and then fall all over yourself in an irresistible desire to get in anywhere or at any price?

COLLISION

By Commander E. Hamilton
Curry, R. N.

The evening closed in with a drenching rain-squall, which, as it passed, left an aperture in the cloud banks through which a wicked red-hot sun glared like a streaked and bloodshot eye. All day the wind had been rising, following on a pouring wet night, which had left behind it a fine drenching drizzle of that description which, as the sailor says, "feeds the wind." All day the eastward-bound schooner had been gradually snugging down her canvas, and her skipper had been consulting the glass with keen anxiety; the fall had been steady, slow and gradual, but it had now reached a reading which had caused the harassed mariner to remark to the mate that he was "bleased if he didn't think the bottom had dropped out of the blamed thing"; and now, with a close-reefed mainsail and storm-staysail showing, his craft was hove to, and mortal man could do no more than keep his lights burning, maintain a sharp lookout, and wait till it was over. She was a sturdy little craft and rode fairly dry, but with her helm lashed aye she hove herself to, as vessels are apt to do in such weather, more as she pleased than those on board of her. She was in the track of the outward-bound liners, a comparatively helpless waif in such weather as prevailed. The sun disappeared, after its momentary gleam of defiance, as if some unseen hand had dropped a black veil curtain athwart its track; and as the interminable hours of darkness crept leaden-footedly along the helpless waif in such a thickly until at midnight it had attained to something very like hurricane force, in front of it now swept great hills of water in what was really ordered and rhythmic succession, but which presented themselves in nothing like such an aspect to those on board the schooner.

Those who have ridden out a really and gate at sea in a small craft, help-

WAR DECLARED ON THE CAMORRA

The Italian Government is Determined to Exterminate Ancient and Formidable Society

A gratifying sign of the times is the determination of the Italian government to exterminate the Camorra, the most powerful of the secret societies of the world. The disreputable to which members of these bands operating abroad, particularly in the United States, have brought their countrymen is no doubt one of the main reasons for the praiseworthy activity of the Italian minister of the interior, says the Toronto Mail and Empire. The Black Hand Society, whose murders in New York have attained almost world-wide notoriety, has been a curse to the Italian race, and has caused thousands of them to be regarded with unjust suspicion by native-born Americans and foreigners from other countries.

The Camorra Case. A little more than a year ago occurred the event that precipitated the war upon the Camorra. A man named Cuculo was found dead, his body covered with stabs and gashes, as happens to victims of the society's vengeance. Soon after the body of his wife was found, mutilated in the same horrible way, and an investigation showed that the murders had been simultaneous. There was the usual half-hearted search for the murderers, and some over-zealous young policemen went so far as to arrest a number of suspected persons. They were discharged in due course, as everyone expected, and the matter dropped.

After an interval of some months, it was vigorously revived by the minister of the interior, who proceeded to hold an investigation, not into the crime itself, but into the conduct of the police. As a result, the questor, or chief of police, of Naples was dismissed, with several other officials, and the investigating judge was retired. Then the minister placed the case in the hands of the carabinieri, a body half police and half soldiers, that corresponds roughly to our Northwest mounted police, not only in organization, but in the courage and "high spirit" of its members, shamefully underpaid as they are, the carabinieri are a loyal and conscientious body of men, who form about the only real protection the country enjoys against the Camorra. They entered in the work with enthusiasm, ten of them being assigned to the Cuculo case, and have arrested some hundreds of persons, all members of the Camorra, and all accused of participation or guilty knowledge of the double murder. In Naples this is taken as an intimation that the government has declared war to the knife on the Camorristi.

Some interesting facts concerning this ancient and formidable society are given in the New York Sun, which thinks the Italian government has undertaken a task as herculean as Prometheus in determining to crush it out. There are two divisions of the order, the alta or high, and the bassa or low, the former containing one head chief, twelve chiefs of the second grade, and the Camorristi or full members. The lower section is for the "honored" and "noble" men, those who are too young for full membership, and the recruits to the order. They do not steal, but they are expected to give some signal proof of their courage and depravity before graduating to full membership. According to the Sun's information, members of the Camorra can be identified by tattoo marks drawn on some visible part of the person, but lightly marked, so as to be noticeable only on a close look. The would-be assassin is marked with a straight dotted line at first, and when he has won his spurs another dot is placed above the line. Therefore, promotion depends upon the heights of villainy to which he can attain. Arrest and imprisonment mean advancement in the order. If they are freed, the order supplies the funds.

It lives on Blackmail. It is said that every farmer, every cab-driver, every wine shop, every money-lender doing business in Naples is subjected to a tax. If it is not paid, the calligrapher finds some misfortune overtake him, varying from the stabbing of his mule or ox to the cutting off of his ears. Complaint to the local police is worse than useless, for not only is no help given, but the society learns of the appeal, and another outrage follows. It is openly charged that the civil police are either afraid of the Camorristi or in league with them, and this is the reason why the carabinieri have superseded them in the war upon the terrible society. In at least one case a priest was found to be a member of the order, and his communications penetrate to high officials. Now, however, the King has personally intervened, and the word has gone forth that Italy means to rid herself of the greatest reproach to her civilization.

INDIAN WOMAN DISMISSED. The trial of Lucy Gordon, a half-breed woman, charged with stabbing an Indian at Shoal Bay about a month ago, was heard before His Honor Judge Cane in Vancouver Friday. Osborne Plunkett appeared for the crown, and A. D. Taylor for the prisoner. The evidence showed that the stabbing had occurred in a drunken row at Shoal Bay, but the court decided that it was not, as contended by the woman, the offender, and dismissed the case.

A tombstone to be erected in a Bath (England) cemetery to the memory of an English driver who was an expert polo player. It is to be composed of the fossil he collected in his rambles.

Full size lot, all in A1 condition and within 10 minutes walk of Post Office. Full particulars to intending purchasers, on application.

NEW BRITISH BATTLESHIP

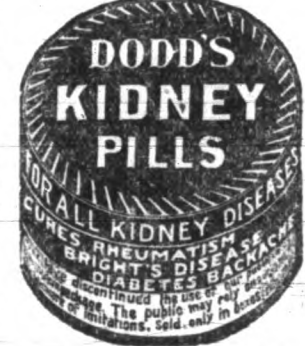

Hellephron Launched at Portsmouth—Has Greater Tonnage Than the Dreadnaught.

Portsmouth, July 27.—The battleship Hellephron, another Dreadnaught, was launched here this afternoon by Princess Henry of Battenburg. The warship has a tonnage of 18,600, which is 700 tons more than the Dreadnaught, and she embodies a number of improvements as a result of the Dreadnaught's trials. The Temeraire, the third ship of this class, will be launched the latter part of August.

ELECTROCUTED

Man Instantly Killed While Engaged Washing Bottles.

Ottawa, Ont., July 28.—Phillip O'Meara, foreman at John Labatt's bottling establishment, this city, was electrocuted this afternoon while engaged in washing bottles by a machine run by electricity.

Stocks and Bonds bought and sold for cash and on margin. All accurate Mining Stocks dealt in. Connection with market quotations.

A BROKEN-DOWN SYSTEM. This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, the more prominent being apoplexy, sense of prostration, or weakness, depression of spirits and loss of energy for all the ordinary duties of life. How, what alone is absolutely essential in all such cases is increased vitality—energy.

VITAL STRENGTH & ENERGY. We show of these morbid feelings, and experience proves that as night succeeds the day this may be a negative remedy, which is designed to raise the life-resisting tonic.

THERAPION No. 3. This is a new and powerful combination. So sure as it is taken in accordance with the printed directions accompanying it, will the distressed health be restored.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH. This is a new and powerful combination. So sure as it is taken in accordance with the printed directions accompanying it, will the distressed health be restored.

THERAPION. This is a new and powerful combination. So sure as it is taken in accordance with the printed directions accompanying it, will the distressed health be restored.
