

Wikidata Lexemes: What, Why and How?

Leon Liesener

What are Wikidata lexemes?

- Lexicographical data model in Wikidata
- Entity types
 - Lexemes (L): ex. *foot*
 - Forms (F): ex. *feet*
 - Senses (S): ex. *unit of length*

Why should I care?

- Tool for language acquisition
- Way to document a language
- Tool for research
- Benefit for translation tools and AI
- Abstract Wikipedia

How can I contribute?

- Join the [Telegram chat](#)
- Visit the [project page](#)
- Attend the editing workshop tomorrow
