## Explanation of the Articles in the Calendar.

Standard times\* are given in all columns headed Toronto, Quebec, and Winnipeg.  
 The times\* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.  
 The standard times\* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.  
 The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.  
 MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.  
 The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time\* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 14th.  
 The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.  
 The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the TRUE SUN'S centre is on the meridian of longitude 4h. 46m. W. (71° 30'). For any other meridian interpolation of these quantities is necessary. For example, on Sept. 7th, 1911, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 11h. 0m. 47s., and on the 8th, 11h. 4m. 23s., giving an increase of 216 secs. which, multiplied by 10.5 and divided by 360, gives 6 secs. corr. to be added to 11h. 0m. 47 secs.  
 GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 33 and 34.)  
 From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 50' 5". The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and proportionately less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)\* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

\* In the present Almanac the hours are numbered from 0 (midnight) to 23.  
 † Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

**STAR TABLE.**

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result subtract the constant quantity 1h. 26m.

To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting, add the same number to the time of its meridian passage. Those stars marked (...) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

*Example.*—Find the times of culmination, rising and setting of a Tauri (*Aldebaran*), January 2nd, 1911.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the tabular refraction, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become subtractive. When great accuracy is required, 0.003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

**GRAVING DOCKS IN CANADA.**—There are four graving docks in Canada, three belonging to the Federal Government and one owned by a company. For 20 years from the completion the company has subsidies from the Imperial and Canadian Governments and from the city of Halifax, where it is located, amounting in all to about \$30,000 (£6,180), of which the Canadian Government pays \$10,000 a year. The following statement shows the dimensions of these graving docks:—

# TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1911

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal and Current Survey, in the Department of Marine and Fisheries. They are based upon observations obtained by means of self-registering tide gauges, kept in continuous operation throughout the year. The records are reduced by the latest methods of analysis, and the principal tide tables are computed in the Nautical Almanac office, London.

The Tide Tables are based upon the analysis of the following tidal record:—Halifax, upon record obtained during the years 1851, 1852, 1860 and 1861, together with nine complete years between October 1895 and July 1906. Quebec, upon thirteen complete years, between November 1893, and April 1903. Father Point, upon nine complete years, between January 1897 and October 1907. St. John, N.B., upon ten complete years, between April 1894 and June 1905.

WM. P. ANDERSON,  
Chief Engineer.

W. BELL DAWSON,  
Superintendent.

Victoria, Vancouver, Prince Rupert and Port Simpson; with full tidal information for British Columbia. INVESTIGATION OF CURRENTS.—The currents in the Gulf of St. Lawrence, Belle Isle Strait, the Bay of Fundy, and off the coast of Newfoundland, are also being investigated by the Tidal and Current Survey. The TIME used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Halifax Harbour.

THE DRY DOCK.—To find the depth of water on the sill of this dock at any tide, add 23.4 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Halifax, are given on page 39.

The TIME used is Eastern Standard, for the 75th Meridian, which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides; that is, from the same Datum to which the soundings are referred, on the Admiralty Chart of Quebec Harbour.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide add 7.7 feet to the height of High Water as above given. The TIDAL DIFFERENCES referred to Quebec, are given on page 39.

## LEGAL WEIGHTS AND MEASURES IN CANADA.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Sec. 337 of Chap. 85 of Revised Statutes of Canada, 1906, it is provided: That in contracts for sale and delivery of any of the undermentioned articles, the bushel should be determined by weighing, unless a bushel by measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat, 60 lbs. Indian Corn, 56 lbs. Rye, 56 lbs. Pease, 60 lbs. Barley, 48 lbs. Malt, 36 lbs. Oats, 34 lbs. Beans, 60 lbs. Flax seed, 56 lbs. Hemp, 44 lbs. Blue grass seed, 14 lbs. Lime, 70 lbs. Castor beans, 40 lbs.

Potatoes, 60 lbs. Turnips, 60 lbs. Carrots, 60 lbs. Parsnips, 60 lbs. Beets, 60 lbs. Onions, 50 lbs. Bituminous coal, 70 lbs. Clover seed, 60 lbs. Timothy, 48 lbs. Buckwheat, 48 lbs.

By Sec. 19, Chap. 52 of the Revised Statutes of Canada, 1906, the British hundredweight of 112 pounds, and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds, and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

By recent Acts it is ordered that for apples the barrel shall be 96 quarts. Size, length, 26½ inches between head (inside measure); diameter (head) 17 inches; middle diameter, 18½ inches. Boxes, 11x10x20 inches containing 2,200 cubic inches.

## SQUARE, SURFACE, OR LAND MEASURE.

The square foot contains 144 square inches.  
Yard = 9 feet = 1,296 inches.  
Rod, pole, or perch = 30½ yards = 272½ feet.  
Chain = 16 rods = 434 yards = 4,356 feet.  
Rood = 40 yards = 1,210 yards = 10,890 feet.

The astronomical day commences at noon, and is computed from 1 to 24 hours.

In 400 years 97 are leap years and 303 common, leap year being omitted every 100 year, but *not* omitted every 400th. (1900 was not a leap year.)

## ANGULAR MEASURE.

60 seconds" = 1 minute.	90 degrees° = 1 quadrant.
60 minutes' = 1 degree.	4 quadrants, or 360° = 1 cir-
30 degrees° = 1 sign.	cumference or circle.

The earth rotates at a velocity of 15 degrees an hour (about 17.366 miles a minute at the equator); 1° is therefore equal to 4 minutes.

## CIRCULAR MEASURE.

Diameter of a circle  $\times$  3.1416 gives circumference.  
Diameter squared  $\times$  .7854 gives area of circle.  
Diameter squared  $\times$  3.1416 gives surface of sphere.  
Diameter cubed  $\times$  .5236 gives solidity of sphere.  
One degree of circumference  $\times$  57.3 gives radius.  
Diameter of cylinder  $\times$  3.1416, and product by its length, gives the surface.  
Diameter squared  $\times$  .7854, and product by the length, gives solid contents.  
A circular acre is 235.504 feet, a circular rood 117.752 feet in diameter. The circumference of the globe is about 24,855 miles, and the diameter about 7,900 miles.

## DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

## SURTAX

Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A." such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

## COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

## CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem*, except when otherwise specified.

\* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

Rates that have been lowered from the General to the Intermediate Tariff according to the terms of the agreement with the United States of America that came in force on March 31st, 1910, are printed in brackets [ ].

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

METRICAL WEIGHTS AND MEASURES.

The French metrical system is based upon the (assumed) length of the fourth part of a terrestrial meridian. The ten-millionth part of this arc was chosen as the unit of measures of length, and called a *Metre*. The cube of the tenth part of the metre was adopted as the unit of capacity, and denominated a *Litre*. The weight of a litre of distilled water at its greatest density was called a *Kilogramme*, of which the thousandth part, or *Gramme*, was adopted as the unit of weight. The multiples of these, proceeding in decimal progression, are distinguished by the employment of the prefixes *deca*, *hecto*, *kilo* and *myria*, from the Greek, and the subdivisions by *deci*, *centi* and *milli*, from the Latin:—

## THE KING'S CIVIL LIST.

Consequent upon the death of His Majesty King Edward VII., and the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 what is known as the Civil List Act, the Act by which is determined what charges shall be made on the consolidated fund for the maintenance of the King and his family.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the Accession of the late King Edward VII., the income from the Crown Lands has very greatly increased.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £300,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Duchess of Fife), Princess Victoria and Princess Maud (Princess Charles of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of \$70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to \$30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of \$10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List).....	£470,000
Queen Alexandra.....	70,000
Pensions transferred to Consolidated Fund.....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein.....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg)....	6,000
Duchess of Mecklinburg-Strelitz.....	3,000
Duchess of Edinburgh.....	6,000
Duchess of Albany.....	6,000
Total.....	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

## THE BRITISH ARMY IN 1910-II.

The Army Estimates for the financial year 1910-11, which were submitted to Parliament by Mr. R. D. Haldane, Secretary of State for War, on the 3rd of March, 1910, showed an increase of £325,000 over the figures for 1909-10. The total expenditure on the army for the current year will be £27,760,000, an amount higher than in any year since 1906-7, the first year of Mr. Haldane's tenure of office. The figures for the five years of the Liberal Administration are:—

1906-7.....	£27,764,900
1907-8.....	27,141,642
1908-9.....	27,459,000
1909-10.....	27,435,000
1910-11.....	27,760,000

These figures, however, compare favorably with the last two years of the late Conservative Administration, when there were extraordinary expenses still to be defrayed as a result of the Boer War. The figures for 1904-5 were £38,830,000, and for 1905-6 £29,813,000.

The accompanying table gives particulars of expenditure on effective and non-effective services, and also the increase or decrease in expenditure in 1910-11 over 1909-10.

Net Increase, £325,000.			

The increase in 1910-11 is chiefly due to the success of the County Associations throughout Great Britain in filling up the ranks of the Territorial Army; but there is also an increase in the number of men serving in the Home and Colonial establishments of the regular army, the number of which, exclusive of those serving in India, being 184,200, or 1,000 more than in 1909-10. In India, the British Army consists of 5,000 cavalry soldiers, 53,000 infantry, and 15,000 artillery, besides the British officers of the Indian Army. These forces are carefully selected, and are among the best of the British Army. The cost of maintenance of these 75,000 men falls upon the Indian Exchequer.

### INCREASES IN EXPENDITURE.

In presenting the estimates for 1910-11, Mr. Haldane pointed out that there had been some necessary additions to the regular establishment, half of which represented the strengthening of certain weak points in the field army, and half temporary additions to cover the special needs of certain infantry regiments. Another increase in expense was due to the exhaustion of surplus stocks of clothing, which added £141,000 to the cost of this item; and to the continued growth of the pension votes for officers and men, which accounted for £49,000. Sufficient savings had, however, been secured in other directions to cover the cost of this increase, and, I may further observe, added Mr. Haldane, that the year 1911-12 will see a diminution of charge by the extinction of the Barrack Loan Annuities of £304,000.

### THE ARTILLERY.

With regard to the artillery Mr. Haldane announced that for the first time he was in a position to state that the whole of the personnel required for the artillery was trained and available. The fully trained medical personnel required was also available, together with a large proportion of the partly trained men. In the Army Service Corps there was still a deficiency in the personnel of one division, but it was anticipated that this would to a large extent disappear by the end of the year.

### CAVALRY AND HORSES.

The reorganization of the cavalry establishments, carried out in 1909, will now, Mr. Haldane announced, place the cavalry for the first time on a sound footing in such matters as the training of recruits, the storing of reservists' kits, and mobilization arrangements generally. The cavalry manœuvres of last autumn, Mr. Haldane continued, showed that the regiments at home as they stand in peace are considerably below the war establishment in fully trained men and horses, and an addition of 28 men and 36 horses is to be made to the peace establishment of each regiment in the cavalry of the line. Further progress was also announced in the scheme successfully initiated in 1909 by which a certain number of horses, after training in the ranks of the cavalry, are boarded out with farmers and others who undertake to produce them in good condition when required for manœuvres or for war.

Regarding the supply of horses to meet the needs of both the regular and the territorial forces in time of war, Mr. Haldane said that the police authorities had

almost finished a complete census of the horses of Great Britain. Under the proposed scheme the War Office will assign to each county the quotas to be provided at once on mobilization, and the County Association will be asked to inspect and classify a sufficient proportion of the horses to provide the requisite quotas, and at the same time to organize the necessary machinery for immediate collection on the order to mobilize.

#### AERONAUTICS.

A good deal of progress was made in 1909-10 in aeronautics. The balloon factory at Aldershot was placed under the management of a specially selected expert and staff, and systematic investigations relating to the design and manufacture of dirigibles were being carried out. The design of a dirigible balloon to be manufactured at the factory, Mr. Haldane told the House of Commons, was then under consideration, and a new shed, capable of holding a large airship, was nearing completion at Aldershot. In the near future two dirigibles—the *Clement* and that purchased from M. Lebaudy—should be available for the army, provided they fulfil the conditions laid down.

#### DISPOSITION OF THE REGULAR ARMY.

The duties of 184,000 troops which constitute the regular army include the protection of the great naval stations which form a chain of posts around the world, and also the protection of Egypt and of the colonial possessions of Great Britain. The two colonial stations with the most important garrisons are Egypt and South Africa. The military occupation of each was originally justified "to keep open the road to India." Egypt had one regiment of cavalry and five of infantry. South Africa in 1910 held four regiments of cavalry and six of infantry. In China there were three regiments of infantry; Gibraltar had two, Malta five, Mauritius and Bermuda one each.

The army left in the British Islands consisted of 10,000 cavalry in seventeen regiments, 76,000 infantry in eighty-two regiments, and 21,000 artillery. These troops furnish seven divisions, fully organized, for despatch abroad in case of emergency, leaving ten regiments of foot and five of horse still available.

#### THE RECRUITING PROBLEM.

In 1909-10 there was no difficulty in securing all the recruits needed for the regular forces. In fact, Mr. Haldane stated in the House of Commons on March 16 that his chief difficulty as regarded recruiting in the past year was to avoid an excess on the numbers of men voted by Parliament. The number of recruits who joined the regular army during the year 1909-10 was 33,837, a decrease of 3,388 as compared with the preceding twelve months. This decrease is attributed solely to fewer recruits being required to maintain the army at its establishment. Nearly thirty per cent. of the recruits who presented themselves for enlistment were rejected as the result of the medical examination, but the prevailing opinion amongst those who are in close touch with the men is that the quality of recruits for the regular army is improving, and that the men enlisted in 1910 were above the average in physique, education and character. From almost every part of Great Britain rural and industrial, it was reported that defective teeth caused the rejection of a large proportion of the men who offered themselves.

#### THE TERRITORIAL FORCE.

The year 1909-10 witnessed a most satisfactory progress in the organization, numbers and efficiency of the Territorial Force. In presenting the Army Estimates, Mr. Haldane reviewed this progress and attributed much of it to the admirable work performed by the County Associations. "Out of an establishment of 11,218 officers and 301,272 non-commissioned officers and men," he said, "the Territorial Force on the first of January, 1910, had reached a strength of 9,701 officers and 262,036 non-commissioned officers and men, which was an increase of 64,105 of all the ranks over the strength of the Force on the first of January, 1909. Of the 892 units of which the Territorial Force is composed, all except three had then secured the strength—a minimum of 30 per cent. of the Establishment—entitling them to official recognition." "Considerable progress has been made," Mr. Haldane continued, "with the arming and equipping of the force. The whole of the horse and field artillery, with the exception of the Howitzer Brigades, has now been equipped with the 15-pounder gun. In the case of the Horse Artillery this gun is about to be replaced by the Ehrhardt 15-pounder quick firing gun which is considerably lighter and better adapted for the Horse Artillery. The armament of the Howitzer Brigades can not be completed until the new pattern Howitzers now under manufacture have been issued to the regulars; but in the meanwhile a certain number of Howitzers have been issued to every Territorial Howitzer Brigade. The re-arming of the Infantry with the charger-loading rifle was commenced in September, 1909, and will be completed during the financial year 1909-10."

The accompanying table gives the strength and establishment of the Territorial Force on April 1st, 1910:—

	Establishment.	Strength.

Adding officers the figures are:—

#### THE WAR DEPARTMENT AS AN EMPLOYER.

On the discussion of the motion that the House go into Committee on the Army Estimates, Mr. Ramsay Macdonald, a member of the Labor party, moved as an amendment "that in the opinion of this House the conditions of service of Government employees should be in every respect at least equal to those observed by the best private employers, or by local authorities doing similar work, and that in interpreting the fair wage clause, in assigning contracts, responsible officers should be instructed to see that the spirit of the clause is properly carried out when the actual wording gives room for doubt."

In supporting this amendment, Mr. Barnes, chairman of the Labor party asserted that the women in the Government factory at Pimlico were earning 12s. and 13s. a week, and that at Weedon a large number of the men were earning only 19s. a week. No adult man, he said, ought to be paid less than 6d. an hour, and even this was far too little in the London district. In the London area men were receiving 23s. a week ought to be raised to 30s., and men in the country ought to be raised to 24s."

Replying for the Government, Mr. Haldane said that the War Department was bound by promises and by consideration of principles to aim at being a model employer. With this purpose in view the old fair wages resolution, too technical in its terms, had been altered in March, 1909. Not only was the resolution now wider in its scope, but an Advisory Committee had been appointed to see that it was properly carried out. It was an Advisory Committee on which the Board of Trade was represented, and it would be admitted that the Board of Trade was the body best fitted to undertake the task. This assurance from Mr. Haldane was accepted by the Labor party, and although the amendment was pressed to a vote by the Conservatives, the Labor party voted against it and so prevented a defeat of the Government.

#### THE QUEEN'S OWN IN ENGLAND.

An event in the British military history of 1910 was the visit of the Queen's Own Rifles to England. Describing the arrival at Aldershot a military correspondent

of the London *Times* wrote (September 2nd, Weekly Edition):—"For the first time in the history of the Empire a regiment, complete in all its parts, and an organized unit of one of the armies of the Dominions beyond the seas, arrives to take part in the final period of military instruction at Aldershot. It would be difficult to overestimate the importance of the step thus taken in the evolution of the world-wide scheme of co-operative defence which has developed with such rapid strides during the last 15 years."

Describing the visitors from the Dominion, the correspondent continues:—"Only seven or eight of the 620 who arrived in England on Saturday took part in the campaign of '85; but the regiment is composed of the same stuff that "made good" then in Saskatchewan and 15 years later in South Africa. The majority are clerks; but there is a considerable proportion of mechanics and professional men. Half a dozen are teachers and more than 30 undergraduates of Toronto University. They are a well-set-up lot of men, the Queen's Own averaging 5 ft. 9½ in. in height and about 24 years in age."

The correspondent also paid a well deserved tribute to Sir Henry Pellatt to whom so much of the success of the expedition was due. "The whole expense of the present journey," he added, "is borne by Colonel Sir Henry Pellatt, who is not only the commanding officer, but has the longest, or almost the longest, record as a member of the corps. The Canadian Government, however, has given large assistance, spending probably £8,000 in outfitting for the occasion."

## THE BRITISH NAVY IN 1910-II.

### VAST INCREASES IN THE COST OF NAVAL DEFENCE.

The outstanding feature of the naval programme for 1910-11, submitted to the House of Commons on March 9th, 1910, by Mr. Reginald McKenna, First Lord of the Admiralty, is the enormous increase in the vote for naval construction. This increase is, however, due not so much to new work commenced in 1910, as to the continuation of the work necessitated by the ship-building programme approved by Parliament in 1909. So far as regards absolutely new work, in spite of the enormous vote of £13,279,830 for construction of ships, the chief criticism levelled against the First Lord of the Admiralty was that the programme for the year 1910-11 was unduly small. "New construction for the year" explained Mr. McKenna in the statement which accompanied the Naval Estimates, "will cost £13,279,830, as against £8,885,194 for 1909-10." Of this amount £11,850,790 will be spent on the continuation of work already under construction, and £1,429,000 for beginning work on ships of the new programme.

The total amount asked from Parliament for the Navy for 1910-11 was £40,603,700, as compared with £35,142,700 for 1909-10. The amounts voted by Parliament for the Navy in the five years of the Liberal Government are given in the accompanying table:—

1906-7.....	£33,573,302
1907-8.....	32,238,590
1908-9.....	31,789,860
1909-10.....	35,142,700
1910-11.....	40,603,700

The cost of the Navy for the last two years of the Conservative Government was as follows:—

1904-5.....	£36,889,000
1905-6.....	33,389,000

#### PERSONNEL OF THE FLEET.

An increase of 3,000 in the number of men and boys, required for manning the fleet, was asked from Parliament. This number brings the total up to 131,000 of all ranks and ratings. The increase was explained by Mr. McKenna as due in part to a revision of the scheme of the complements of ships-of-war, in order to fit them for the needs of modern warfare; and in part to the requirements of new ships now being placed in commission and under construction.

The accompanying table gives in detail the allotment of the £40,603,700, asked from Parliament, and also the increases and decreases in expense as compared with the previous year:—

In addition to the cash expenditure, there will be an indirect increase in cost through the use of stocks of stores, purchased in previous years, without replacement. This item of expense will amount to £20,800. Of other minor increases, £120,000 is needed for the pay of the additional men and boys, and £83,500 for their food and clothing.

#### NEW SHIPS AND SHIPS IN BUILDING.

As will be seen from the table, it was the construction work which called for the greater part of the phenomenally large increase in naval expenditure in 1910-11. The new ships to be commenced in 1910-11 include five large armoured ships, five protected cruisers, twenty destroyers, and a number of submarine boats, estimated to cost a sum of three-quarters of a million pounds in all.

Between April 1st, 1909, and March 31st, 1910, the following ships were completed and became available for service :—

Five battleships—Temeraire, Collingwood, St. Vincent, Superb, Vanguard.

Two unarmoured cruisers—Boadicea, Bellona.

Nine destroyers—Six ocean-going vessels of the Tribal class, the large experimental ship Swift, and the two River class vessels purchased from Messrs. Cammell, Laird and Co.

Six first-class torpedo boats (coastal destroyer type).

Sixteen submarines.

On April 1st, 1910, there were under construction :— seven battleships, three armoured cruisers, nine protected cruisers, two unarmoured cruisers, thirty-seven torpedo boat destroyers, nine submarines.

Of these the following are expected to be completed by the end of the financial year 1910-11 :—A battleship, an armoured cruiser and an unarmoured cruiser, five protected cruisers, twenty destroyers and four submarines.

#### PREPARATION FOR WAR.

In development of the arrangements for preparation for war, there was in 1910 a reorganization of the Naval Intelligence Department. This reorganization involved the creation of a new department, the Naval Mobilization Department, and the establishment of a permanent body at the Admiralty—the Navy War Council. This Council consists of the First Sea Lord as President, the Director of Naval Intelligence, the Director of Naval Mobilization, and the Assistant Secretary of the Admiralty, the last serving also as Secretary of the Council. Other responsible advice will be had when required.

#### WHERE THE SHIPS ARE BUILT.

The new programme calls for five large armoured ships. On the first of these, to be laid down at Portsmouth, the estimated expenditure to March 31st, 1911, is £96,723. On the second, to be laid down at Devonport, the corresponding expenditure will be £96,723. The remaining three will be built by contract, and are to be ordered in 1910-11.

In October, 1910, the fleet of Great Britain included sixteen vessels of the Dreadnought type, five of which were armoured cruisers and eleven battleships. Nine of these sixteen have been built in royal dockyards—five at Portsmouth and four at Devonport—and seven at private yards—three on the Clyde, three on the Tyne, and one at Barrow. The turbines for the nine ships built in the royal dockyards were provided by contractors. The distribution of the work is shown in the following table :—

GREAT BRITAIN AND GERMANY.

On July 14, when the House of Commons was in Committee of Supply on the Naval Estimates, Mr. Asquith made a speech in defence of the shipbuilding policy of

the Government. The Premier asserted that the Government had no belief in any hostile purpose on the part of Germany, and that the British naval policy was in no way directed against Germany. "Germany," he said, "had her own policy to pursue, and her own interests to safeguard. She is a great world power with outlying dependencies, and she is constantly sending her sons and daughters to the uttermost parts of the world. Her trade is increasing in every direction, and German statesmen honestly and legitimately believe that they cannot look after their position as a great world power unless they increase their naval strength.

"Our position," continued Mr. Asquith, "is this—that we are responsible, not so much for looking after an increasing and newly developed Empire, as for the defence and security of an Empire already in existence. We should be false to the trust which the nation and the Empire reposes in this House and the Government of the day unless we maintained that ample margin of security which is the only insurance which a nation such as ours possesses. Ours is an insular country, with forty million people dependent upon foreign supplies of food and raw material. We are responsible for the protection and defence of dependencies and dominions in every part of the world, and we must maintain ample margin of security. It is in no sense in hostility to Germany that we have had to look to Germany's shipbuilding, to a large extent in late years, as the governing factor in how that margin is to be secured."

THE COLONIES AND THE NAVY.

In February, 1910, there was a debate in the House of Lords on the question of the share of the Colonies in naval defence. The opinion was freely expressed that several of the great Colonies were not yet taking their full share of the burden of the Navy. Replying to these criticisms for the Admiralty, the Earl of Granard made a statement as to the position of the self-governing colonies. So far as could then be seen, he said, although the different colonies had been discussing the question of naval defence, they had not come to any definite conclusion. "In response to a request from New Zealand," he continued, "the Admiralty had expressed their willingness to lend that colony any available vessels, such as one of the Apollo class, but they could not fairly regard such ships as suitable for the purpose required. No reply had yet been received to the offer. Apart from these vessels they had none to lend or give. According to the agreement of 1905 we were bound to keep in Australian waters a certain number of ships for which the Australian Government paid us \$200,000 a year. He understood that this contribution to our funds was not favourably regarded on the other side, for the reason that the Colonies would like to see their own ships flying the Australian flag. New Zealand had been most patriotic, and had increased the contribution to us from £60,000 to £100,000, and that contribution was made without reservation. The Admiralty viewed with great satisfaction any efforts our Colonies might make towards the establishment of a Navy, or of a certain number of vessels for their own protection, and they would give careful consideration to any scheme which might be submitted to them." In this debate no allusion was made to the Canadian Navy bill which was then under consideration at Ottawa.

# THE CANADIAN NAVY.

## THE NAVAL SERVICE ACT.

The passage of the Naval Service Act (1 George V., c. 43) on April 20th, 1910, marked the inauguration of the new naval policy of Canada, and on the 30th of April, Parliament voted \$3,000,000 for the construction and support of the new navy, the maintenance and upkeep of dockyards at Esquimault and Halifax, and the establishment and maintenance of training schools.

Under the terms of the Naval Service Act the "Command in Chief of the Naval Forces is declared to continue and be vested in the King, and shall be exercised and administered by His Majesty, or by the Governor-General as his representative."

Service;" and also including "the construction, purchase, maintenance and repair of naval establishments, and of ships and other vessels for the Naval Service."

### PERSONNEL OF THE NAVY.

The creation and maintenance of the permanent naval force is by section 11 to be at the will of the Governor-in-Council, who is also empowered to authorize the engagement of officers and seamen in the Naval Service, "upon such terms and conditions as may be prescribed." To the Governor-in-Council is given the power to fix the maximum number that may be so engaged.

THE PROTECTED CRUISER "NIOBE."

The Act provides for the creation of a new Department of the Government of Canada "which shall be called the Department of the Naval Service, over which the Minister of Marine and Fisheries, for the time being, shall preside, and he shall be the Minister of the Naval Service." An officer to be called the Deputy Minister of the Naval Service, who shall be deputy head of the Department, is also to be appointed by the Governor-in-Council.

The administration of all naval affairs is put under the control of the new Department. Sections 7 and 8 of the Act provide that "the Minister shall have the control and management of all naval affairs, including the purchase, maintenance and repair of the ordnance, ammunition, arms, armories, stores, munitions and habiliments of war intended for the use of the Naval

The commissions of officers in the Navy are to be granted by His Majesty during pleasure, and no term of service for the enlisted men is fixed in the Act. It is, however, provided that "any person who has voluntarily engaged in the Naval Service shall be entitled to be discharged at the expiration of the time of service for which he engaged, unless such expiration occurs in time of emergency, in which case he will be liable to serve for a further period of not more than twelve months, and for such further service he shall not be entitled to any increase of pay unless, in the opinion of the Governor-in-Council, the circumstances of the case and the conduct of the person concerned merits it."

### THE NAVAL RESERVE AND THE VOLUNTEER FORCE.

In addition to the regular Naval Service, the Act also provides for a Naval Reserve and a Naval Volunteer

Force. The Naval Reserve is to consist of "such persons as join the said Reserve after naval service, or after undergoing such training as may be prescribed. All members of the said Reserve shall be liable to active service upon an emergency." The term of service for officers and seamen in the Naval Reserve in time of war is limited to one year, except in cases of unavoidable necessity, when any officer or seaman may be called upon to serve six months longer.

The Naval Volunteer Force is to consist of officers and seamen raised by voluntary engagement from among seafaring men and others who may be deemed suitable for the service in which the volunteers are to be employed. Every naval volunteer must engage for three years, and, provided his conduct and qualifications are satisfactory, he will be eligible for re-engagement for further periods of three years up to the age of forty-five years. The training and remuneration of the volunteers are not prescribed in the Act. It is open to the Governor-in-Council, in an emergency, to order and direct that the Naval Volunteer Force be called into active service, and volunteers, whose term of service expires when on active service, are liable to serve for another six months.

THE NAVAL COLLEGE.

The Act also provides for the establishment of an institution to be known as the Naval College of Canada, and to be conducted "under the superintendence of a naval officer who has special qualifications with regard to discipline and to the instruction to be given, and such professors, instructors and assistants as are found necessary, and as are authorized by Parliament." The candidates for admission to the Naval College are required "to pass a medical examination, and such qualifying examination as may be prescribed."

PENSIONS FOR THE NAVY.

A pension system for the navy is instituted under the Naval Service Act. It is provided that "when any officer or seaman is killed on active service, or dies from wounds, or disease, contracted on active service, drill or training, or on duty, provision shall be made for his widow and family out of the public funds;" and that "every case of permanent disability arising from

injuries received, or illness contracted on active service, drill or training, or on duty, shall be reported on by a medical board, and compensation awarded."

The Imperial position of the new Navy is provided for in section 23 of the Act, which reads:—"In case of an emergency the Governor-in-Council may place at the disposal of His Majesty for general service in the Royal Navy, the Naval Service, or any part thereof, any ships or vessels of the Naval Service, and the officers and seamen serving in such ships or vessels, or any officers or seamen belonging to the Naval Service."

THE NAVAL ESTIMATES.

On April 30th, after the passage of the Naval Service Act, Parliament was asked to vote \$3,000,000 for the new navy. In explaining the estimate, Sir Wilfrid Laurier stated that it was the purpose of the Government to ask for tenders for the ten ships with which it was proposed to begin the new navy. No money, however, was required in 1910 for the ship-building programme. "Tenders will be called for," said the Premier, "and the first thing the successful tenderer will have to do will be to put up a plant. We have no plant at present which is prepared to go into the construction of ships." The policy of building the ships in Canada which had been adopted by the Government would, it was estimated, cost from 15 to 35 per cent. more than it would cost to have them built in Great Britain.

In addition to the payment of officers and men, Sir Wilfrid Laurier in his speech on the naval estimates outlined the following expenditures:—

Purchase price of the Niobe.....	\$1,075,000
Maintenance and upkeep, victualling, clothing, medicine, &c., and for alterations on Niobe to fit her for a training ship.....	413,000

In addition to above, men in United States navy receive \$6.36 a month extra on first re-enlistment, and \$4.36 a month extra on each subsequent re-enlistment. It is proposed to grant men in the naval service of Canada an allowance of \$1.50 per month for each re-enlistment if the term of service is five years, or proportionate rates if enlisted for a longer period.

The two vessels now constituting the Canadian Navy—the Rainbow and the Niobe—are both to be used as training ships. They are protected cruisers. The Rainbow, which left England for Canada on August 18th, has a displacement of 3,600 tons, and carries two 6-inch guns and six 4.7-inch guns, eight 6-pounders and one 3-pounder. The Niobe, which is a very much larger boat, has a displacement of 11,000 tons, and can steam up to 21 knots. She was built ten years ago at the yard of Messrs. Vickers, Son and Maxim. She carries 1,900 tons of armor, and her armament consists of twelve

6-inch guns, four 3-pounders and two 2-pounders, as well as three torpedo tubes. She used to be considered one of the most comfortable warships in the British Navy, so much so that she acquired the name of "The Grand Hotel." She has the drawback, however, of being extravagant of coal, especially at full speed, when she burns from fifteen to seventeen tons of coal an hour. Her full complement of officers and men is 677, though as a training ship she could doubtless accommodate a larger number. The Niobe arrived in Canada in October, 1910.

## MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes :—

- (a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.
- (b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than \$1 each member.

7. A member may resign on three months' notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The District Officer Commanding is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at head-

quarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle*.—The arm used is the '303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note*.—Each rifle is valued at \$25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition*.—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows :—

Lec-Enfield, per 1,000 . . . . .	\$15.00
Miniature Cartridges, per 1,000 . . . . .	3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

## CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1910.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won twice by a Canadian: Pte. T. H. Hayhurst, 13th Regiment, Hamilton, Ont., in 1895, and Pte. J. S. Perry, 6th Regiment, D. C. O. R., Vancouver, B.C., in 1904. Many other important prizes have also been captured by our countrymen. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, 1905, 1906, and 1909. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

The first twenty on the list for the meeting of 1911 are:—

## THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:—

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series as follows:

THE CANADIAN RIFLE LEAGUE—Continued.

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is \$10. Fees for additional teams from the same organization, \$5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

# POSTAL INFORMATION.

For List of Officials of Post Office Department, see *Dominion Government*, page 309.

## Letter Rates, &c.

**Canada.**—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

**Post Cards.**—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

**Private Post Cards.**—The face of a Private Post Card may be used for advertisements, illustrations, etc., provided that a clear space of at least  $\frac{1}{4}$  inch is left along each of the four sides of the postage stamp, and a clear space  $3\frac{1}{2}$  inches long and  $1\frac{1}{2}$  inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards for delivery in Canada, U.S. and Mexico, must not exceed a size of 6 inches in length by  $3\frac{1}{2}$  inches in width, nor be less than  $3\frac{1}{2}$  inches in length by  $2\frac{1}{2}$  inches in width. Cards for other countries must not exceed  $5\frac{1}{2}$  inches in length by  $3\frac{1}{2}$  inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

**Pictorial Private Post Cards which have communications on address side.**—Cards which have the back covered by a picture, and one-half of the front to the left of the address space reserved for written communications, are admitted as post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

**United Kingdom, Egypt, and British Possessions and Protectorates.**—Postage on Letters, 2 cts. per oz.

**Foreign Countries, except United States and Mexico.**—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

**United States and Mexico.**—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries.

**Express or Special Delivery Letters.**—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Chatham, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières and Quebec; in New Brunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax; in Manitoba—Winnipeg and Brandon; in Saskatchewan—Regina; in Alberta—Calgary and Edmonton; in British Columbia—Victoria, New Westminster and Vancouver; in P. Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

## Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

## Indemnity for Registered Articles.

(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

## Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for foreign post, 4 lbs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth; foreign: two feet in length, by one foot in width or depth.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

## Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries by Book Post:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass

official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

The following articles are subject to the rate of 2 cents for the first 4 ozs. or fraction thereof, and one cent for each additional 4 ozs.:—Seeds, cuttings (but not cut flowers), roots, bedding plants, scions or grafts.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 30 inches in length or 12 inches in width or depth, nor may the combined length and girth of any packet exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on 3rd and 4th class matter, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

### Newspapers and Periodicals.

The general postage rate on newspapers and periodicals published in Canada not less frequently than once a month, and addressed to regular subscribers in Canada, Mexico, the United Kingdom, the Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands, Zanzibar, and Newfoundland, and to newsdealers in Canada, is fixed by law at  $\frac{1}{4}$  cent per pound. The following exception, however, is to be noted: Newspapers and periodicals published not more frequently than once a week and not less frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion or Mexico, and on newspapers and periodicals published in Canada and posted for delivery in the United Kingdom, or the British Possessions mentioned above, other than those addressed to regular subscribers or news agents from office of publication, the rate is *one cent per lb. oz.*, to be invariably prepaid by Postage Stamp.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp  $\frac{1}{2}$  cent each.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

British and foreign publications may be posted by newsdealers in Canada to subscribers in Canada at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service.

### Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Newfoundland, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands or Zanzibar, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

### Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 3 lbs. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

### United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

### Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County and Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

### Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.
2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to any country other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.
4. All Parcels must be securely and substantially packed and closed.
5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.
6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.
7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom

duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed*.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

### Fourth Class Matter.

Postage rate 1 cent per ounce or fraction thereof, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, nor entitled to pass as 3rd class matter, may pass as 4th class when addressed to any destination within the Dominion or the United States. Fourth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 lbs. in weight. The limit of size is 30 inches in length by 1 foot in width or depth, but the combined length and girth of any packet must in no case exceed 6 feet. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 4th class matter is 5 cents in addition to postage.

A packet of 4th class matter may contain invoices and accounts, provided they relate exclusively to the contents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of 4th class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and the sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of 4th class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

### Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

### Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 2 feet in length or 1 foot in width or depth, unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs.

# STEAMSHIP AND STEAMBOAT LINES

The thanks of the publishers are due to E. W. Bullinger, Esq., for his kind permission to use “*Bullinger's Postal and Shippers' Guide for the United States and Canada*” in the preparation of the following list:—

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." Barons Aylmer and de Blaquière are of the peerage of Ireland and not members of the House of Lords. The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty, Sir Wilfrid Laurier, Sir Richard Cartwright, Sir Charles Tupper, Sir H. E. Taschereau and Sir Charles Fitzpatrick

are styled Right Honourable as members of the English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a † and are also by courtesy or custom Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial bench, and the Attorney and Solicitor-Generals. \*\*\* Senator; hence, honourable.

For list of Companions of the Imperial Service order, see page 341.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., V.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.; The Hon. Sir C. Tupper, Bart, G.C.M.G., C.B.

# THE BRITISH GOVERNMENT.

## THE ASQUITH ADMINISTRATION.

After the General Election of January, 1910, there was a reorganization of the Asquith Ministry. The most important changes were those at the Home Office and the Board of Trade due to the appointment of Viscount Gladstone to the Governor-Generalship of the new Union of South Africa. There was, however, much less change in the personnel of the Cabinet after the General Election, than there was in that of the House of Commons, where the Liberal majority over the Unionists alone had sunk to two.

### THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Rosebery the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

## THE GOVERNMENT DEPARTMENTS.

### THE TREASURY.

*Chancellor of the Exchequer*—Rt. Hon. D. Lloyd-George.  
*First Lord of the Treasury*—Rt. Hon. Herbert Asquith.  
*Financial Secretary to the Treasury*—Rt. Hon. C. E. Hobhouse.  
*Patronage Secretary to the Treasury*—Master of Elibank.  
*Junior Lords of the Treasury*—Mr. O. Partington, Mr. W. Wedgwood Benn, Mr. Ernest J. Soares.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

## THE FOREIGN OFFICE.

*Secretary of State for Foreign Affairs*—Sir Edward Grey.  
*Under Secretary*—Mr. Thomas McKinnon Wood.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

## THE COLONIAL OFFICE.

*Secretary of State for the Colonies*—Rt. Hon. Lewis Harcourt.

*Under Secretary*—Colonel Seely.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 19 7, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

## THE INDIA OFFICE.

*Secretary of State for India*—Earl of Crewe.

*Under Secretary*—Mr. E. S. Montagu.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

## THE HOME OFFICE.

*Secretary of State for Home Affairs*—Rt. Hon. W. S. Churchill.

*Under Secretary*—Mr. C. F. G. Masterman.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

## THE WAR OFFICE.

*Secretary of State for War*—Rt. Hon. R. B. Haldane, K.C.

*Under Secretary*—Lord Lucas.

*Financial Secretary to the War Office*—Mr. F. D. Acland.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

## THE ADMIRALTY.

*First Lord of the Admiralty*—Rt. Hon. Reginald McKenna.

*Secretary to the Admiralty*—Dr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

## THE BOARD OF EDUCATION.

*President*—Rt. Hon. Walter Runciman.

*Secretary*—Mr. C. P. Trevelyan.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

## THE LOCAL GOVERNMENT BOARD.

*President of the Local Government Board*—Rt. Hon. John Burns.

*Parliamentary Secretary to the Local Government Board*—Mr. J. H. Lewis.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

## THE BOARD OF TRADE.

*President of the Board of Trade*—Rt. Hon. Sydney Buxton.

*Parliamentary Secretary to the Board of Trade*—Mr. H. J. Tennant.

United Typewriter Co., Ltd.

In all Canadian Cities.

Head Office at Toronto.

**Underwood**  
Typewriter

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

*Postmaster-General*—Rt. Hon. H. L. Samuel.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

THE BOARD OF AGRICULTURE.

*President of the Board of Agriculture*—Earl Carrington.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

*First Commissioner of Works*—Lord Beauchamp.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

*Lord Chamberlain*—Viscount Althorp.

*Comptroller of the Household*—Sir Edward Strachey.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the

Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

*Chief Secretary for Ireland*—Rt. Hon. Augustinc Birrell.  
*Secretary for Scotland*—Mr. John Sinclair.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. Alfred Emmott remains Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert remains Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord Cross, since 1887, and Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin, Sir John Gorst, Lord Balfour of Burleigh, and Mr. Gerald Balfour in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905, when room was made in the second class of pensioners for Mr. Gerald Balfour, by the promotion of Sir Michael Hicks-Beach, who had previously drawn a pension, to the peerage. There can be only four pensioners in any of the three classes.

THE BRITISH PARLIAMENT.

NOTE.—Owing to the refusal of the Lords to accept the Veto Bill, the House of Commons was dissolved on November 28th, 1910. The new House, which is to be elected at once, is called to meet on January 31st, 1911.

The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England .....	465
London .....	61
Boroughs .....	165
Counties .....	234
Universities .....	5
Wales .....	30
Boroughs .....	11

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be claimed every year. A recent decision in the law courts, *Kent v. Tital*, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the same basis as the householder. Tens of thousands of

working men voters were added to the electoral lists in 1906 as a result of this decision.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchisees are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

At the general election in January, 1910, out of the 7,705,717 voters on the new register, 6,592,271 went to the polls; 3,540,324 voting for Liberal, Labor and Nationalist candidates, and 3,051,947 for Conservatives and Unionists. The increase in the number of voters recorded in England, Wales and Scotland was 618,500. Only in London was the Liberal vote smaller than in 1906. In the English boroughs, in the counties, and in Scotland

and Wales, the actual popular Liberal vote was larger, but the greater part of the increase in the number of voters went to the Conservatives and Unionists. In the English counties, out of 328,500 added votes, 273,000 went to the Conservatives and only 75,500 to the Liberals. In Wales, out of 35,000 additional votes, all but 214 went to the Liberals. In Scotland, the increase of the total poll of 58,000 was almost equally divided between Conservative and Liberal candidates.

Members of the House of Commons receive neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

The chief issue in the election of January, 1910, was the veto power of the House of Lords. This question had been precipitated by the action of the Lords in rejecting the Finance Bill and thus forcing a general election upon the country. The Finance Bill passed its third reading in the House of Commons after debates and discussions of a most exhaustive character on November 4th, 1909, by a majority of 230—379 to 149 votes. It was rejected on the second reading in the House of Lords by a majority of 275—75 to 350 votes. The chief objection of the Lords was to the new taxes on land. A tax of 20 per cent. on unearned increment in the value of urban land, a tax of 15 per cent. on increased value at the renewal of land leases, and a tax of halfpenny in the pound of capital value—a trifle over two mills on the dollar—on undeveloped land, *i.e.*, land held for a rise in value whose present value as building land exceeds its value as agricultural land. These new taxes, and the scheme of land valuation which necessarily accompanied them, were obnoxious to the great landowners of the House of Lords. Other questions injected into the general election were protection or tariff reform, as it is termed in England, a larger navy, social reform, and women's suffrage.

On December 3rd, 1909, the last day of the fourth and last session of the Parliament which was elected in January, 1906, the political constitution of the House of Commons stood as follows:—

Liberals.....	373	}	502
Labour.....	46		
Nationalists.....	33	}	168
Conservatives.....	140		
Liberal-Unionists.....	23		
Total.....	670		

Majority of the Liberal Government 334, or 153 over Conservatives and Nationalists combined.

As the result of the General Election in January, 1910, the Asquith Government was continued in office, but with a greatly reduced majority in the House of Commons.

Mr. Speaker Lowther was of the Tory Party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the new Parliament in 1906 and again in 1910. Counting the Speaker as still of the Tory party, the political constitution of the House of Commons at the beginning of the session of 1910 was made up thus:—

Liberals.....	275	}	397
Labor.....	40		
Nationalists.....	32	}	273
Conservatives.....	129		
Liberal Unionists.....	44		
Total.....	670		

The Labor party, although it came back to the House of Commons after the general election with only forty

members instead of the forty-six who were counted as belonging to it before the dissolution, is in several respects in a stronger position than it was after the election of 1906. Along with the Nationalists, it holds the balance of power between the Conservatives and the Liberals. If the Irish refrained from voting, the Labor party could at any moment turn out the Ministry. It is also stronger because, instead of being composed of three distinct groups—miners' representatives, Liberal Labor members and Independent Labor members, it is now organized as one party, and all its members receive the Labor party whips. The Rt. Hon. John Burns, the Rt. Hon. Thomas Burt, and two or three other members, who were first elected to Parliament as Labor representatives, did not accept the new conditions of the Labor party and are now counted as Liberals.

In the present Parliament, the Labor party sits on the Government side of the House of Commons. Through the Parliament of 1906-10 it sat with the Nationalists on the Opposition benches; but in February, 1910, owing to the even division of the great parties, and the crowded condition of the Conservatives and Nationalists, the Speaker appealed to the Labor members to cross the House and take their seats with the Liberals. The new seating does not, however, imply any closer alliance with the Liberals than has existed since the Independent Labor party was organized in 1901.

A serious set-back to the Parliamentary representation of organized labor was experienced in December, 1909, when judgment was rendered in the House of Lords in the Osborne case. The decision made illegal the practice of the trade unions of paying election expenses and salaries to labor members out of their union funds. The immediate result of this decision was to hamper greatly the political activity of the trade unions. A further result has been to bring the question of payment of salaries to members of Parliament and of official election expenses out of the national treasury into practical politics. The Liberal party has long included this reform in its programme, and after the Osborne decision it was also endorsed by prominent members of the Conservative party. The demand of the Labor party, however, as voiced at the trades council in Sheffield, in September, 1910, was for a reversal of the Osborne judgment for a law making it legal for trade unions to continue to use their funds for political purposes.

#### THE HOUSE OF LORDS.

On the opening day of the first session of the Parliament of 1910, the number of members of the House of Lords was 619, made up as follows:—544 hereditary peers of the United Kingdom, 5 life peers, 26 archbishops and bishops, 16 Scottish representative peers and 28 Irish representative peers. Of the 544 hereditary peers, 11 were minors, and there was one case of disputed succession, the total voting strength of the House of Lords being thus 607.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election on the 28th of January, 1910, at which the Duke of Montrose (Lord Clerk) presided, the following Peers were chosen:—

Earl of Mar.	Baron Saltoun.
Earl of Morton.	Baron Sinclair.
Earl of Mar and Kellie	Baron Balfour of Bur-
Earl of Haddington.	leigh.
Earl of Lauderdale.	Baron Belhaven and
Earl of Carnwarth.	Stenton.
Earl of Northesk.	Baron Borthwick.
Earl of Dundonald.	Earl of Rothes.
Viscount Falkland.	Lord Sempill.

All these Peers are Conservatives, and the only change was the substitution of Lord Rothes and Lord Sempill for the Earl of Leven and Lord Torpichen, who were of the last Parliament. The Irish Peers, who number twenty-eight, are elected for life. They are all Conservatives.

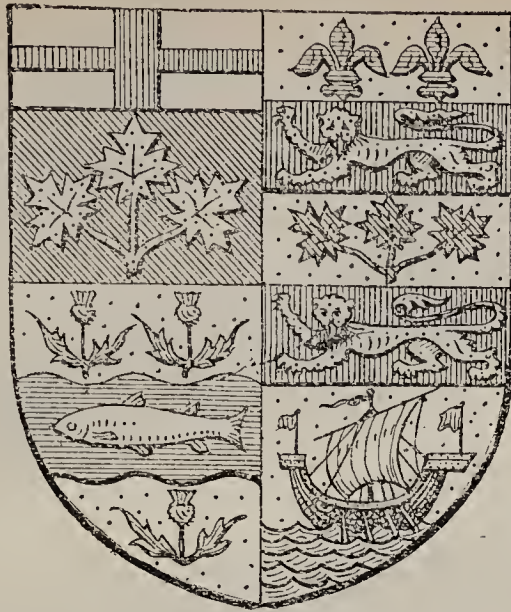

Since the incoming of the Liberal Government in December, 1905, forty-two new peerages have been created. Of these the late Sir Henry Campbell-Bannerman was responsible for twenty, and twenty-two men have been promoted to the peerage by Mr. Asquith. The full strength of the Liberal peers in the vote for the Budget on November 30th, 1909, was 75.

## BRITISH IMPORT DUTIES, 1910-11.

There were increases in the Budget of 1909 on tobacco, spirits and collodion, besides the new duty on gasoline for motor cars. By the rejection of the Finance Bill in the House of Lords, on November 30th, 1909, the collection of these duties, which had been begun on the introduction of the Budget resolutions on April 29th, 1909, was thrown into disorder. In most cases, however, the increased duties were paid by importers, under a pledge from the Government to return the amount should the Finance Bill fail to become law in 1910. The Act received the Royal Assent on April 29th, 1910, and the work of collecting the arrears was at once commenced. Duties were unchanged in the Budget of 1910.

## COPYRIGHT IN CANADA.

NOTE.—It is expected that legislation will be introduced into the Dominion Parliament at its next session completely changing the law of Copyright in Canada. In the meantime the following article gives a summary of the law as it exists at present.—Ed.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright \$1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment \$1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any

copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published

such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

## PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same he applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of

his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, \$60.00; partial fee for 12 years, \$40.00; partial fee for 6 years, \$20.00; for further term of 12 years, \$40.00; for further term of 6 years, \$20.00; on filing caveat, \$5.00; on registering assignment patent, \$2.00; for copy of patent, with specification, \$4.00.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Australia, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are \$5.00 on filing of the application, \$10.00 on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

CANADIAN ARCTIC EXPEDITION, 1908-09.

On July 28, 1908, the Canadian Government steamer *Arctic*, commanded by Captain J. E. Bernier, left Quebec and proceeded to Etah, in Greenland, where supplies were left for Dr. Cook. The *Arctic* then proceeded to Smith Sound, lat. 78° 30' N., long. 74° W., and sailed south to Lancaster Sound and along Barrow Strait to Erebus Bay, Beechey Island, where Sir John Franklin wintered in 1845-6. From Erebus Bay the steamer sailed to Winter Harbour, Melville Island, and from Winter Harbour the vessel went some distance in McClure Strait and returned to Winter Harbour, arriving there on August 28, and anchored in the harbour. This place was made the winter quarters of the expedition.

The *Arctic* left Winter Harbour, August 12, 1909, went up Byam Martin Channel and returned by Austin Channel to Barrow Strait and Lancaster Sound, and thence proceeded through Navy Board Inlet, calling at Ponds Inlet on the way along the coast of Baffin Land. The *Arctic* visited Cumberland Gulf, then Port Burwell, and finally returned, arriving at Quebec, October 5, 1909. During the voyage Commander Bernier annexed to Canada a large territory and territorial waters. Banksland and Victoria Island were added to the lands annexed in 1906-7. Stores were left in cairns to assist vessels in distress, and fishery regulations were enforced by issuing licenses to whalers.

# THE LAW OF INTESTATES ESTATES.

## DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable according to their respective value to the payment of the debts.

## THE SUCCESSION DUTY ACT.

R.S.O. (1897), CHAP. 24 AND AMENDMENTS THERETO.

This Act applies to the Estates of all persons dying after 1st July, 1892.

The word "property" includes real and personal property of every description and every estate or interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs or personal representatives.

The word "child" shall be deemed to include any lawful child of the deceased or any lineal descendant of such child or any person or persons adopted before the age of twelve years by the deceased as his child or children or any infant to whom the deceased for not less than ten years immediately prior to his death stood in the acknowledged relationship of a parent or any lineal descendant of such adopted child as aforesaid born in lawful wedlock.

The phrase "aggregate value" means the value of the property after the debts, encumbrances or other allowances (set out in the act) are deducted therefrom and shall include property situate outside of the Province as well as within.

"Dutiable value" means the value of the property after the debts, encumbrances or other allowances are deducted therefrom.

In determining the dutiable value of any property the value shall be taken as at the date of the death of the deceased, and allowance shall be made for reasonable funeral expenses and for his debts and encumbrances, but an allowance shall not be made (a) for debts incurred by the deceased or encumbrances created by a disposition made by the deceased unless such debts or encumbrances were incurred or created *bona fide* for full consideration in money or money's worth wholly for the deceased's own use and benefit and take effect out of his interest. (b) For any debt in respect whereof there is a right to reimbursement from any other estate or person. (c) More than once for the same debt or encumbrance charged upon different portions of the estate.

No duty shall be leviable:—

(1) On any estate the aggregate value of which does not exceed \$10,000. (2) On property devised or bequeathed for religious, charitable or educational purposes to be carried on by a corporation or persons domiciled within the Province of Ontario. (3) On property passing under a will intestacy or otherwise to or for the use of a father, mother, husband, wife, child, daughter-in-law or son-in-law of the deceased, where the aggregate value of the property as defined by this Act passing to the persons mentioned does not exceed \$50,000.

Save as aforesaid the following property shall be subject to a succession duty:—

(a) All property situate within this Province and any interest therein or income therefrom, whether the deceased person owning or entitled thereto was domiciled in Ontario at the time of his death or was domiciled elsewhere, and all moveable or personal property locally situate out of this Province and any interest therein where the owner was domiciled in this Province at the time of his death, whether such property passes by will or intestacy.

(b) All property situate as aforesaid or any interest therein or income therefrom, which shall be voluntarily transferred by deed, grant, bargain, sale or gift made in contemplation of the death of the grantor, bargainor, vendor or donor, or made or intended to take effect in possession or enjoyment after such death to any person in trust or otherwise or by reason whereof any person shall become beneficially entitled in possession or expectancy to any property or the income thereof.

(c) Any property taken as a *donatio mortis causa* made by any person dying, on or after the 7th April, 1896, or taken under a disposition made by any person so dying purporting to operate as an immediate gift, during life, whether by transfer, delivery, declaration of trust, or otherwise which shall not have been *bona fide* made twelve months before death of deceased.

(d) Any property which a person dying on or after the 7th day of April, 1896, having been absolutely entitled thereto has caused or may cause to be transferred to or vested in himself, and any other person jointly whether by disposition or otherwise so that the beneficial interest therein or in some part thereof passes or accrues by survivorship on his death to such other person, including also any purchase or investment effected by the person who was absolutely entitled to the property either by himself alone or in concert or by arrangement with any other person.

(e) Any property passing under any past or future settlement including any trust whether in writing or otherwise, and whether for valuable consideration or not made by any person dying on or after 7th April, 1896, by deed or other instrument not taking effect as a will whereby any interest in such property or the proceeds thereof for life or any other period is reserved to the settlor, or whereby the settlor may have reserved the right to exercise any power to restore to himself the absolute interest in such property.

(f) Any annuity or other interest purchased or provided by any person dying on or after 7th April, 1896, either by himself alone or in concert with any other person to the extent of the beneficial interest arising by survivorship or otherwise on the death of the deceased.

(g) Any interest in dower or by the courtesy in any land of the person so dying to which the wife or husband of the deceased becomes entitled on the decease of such person.

Where the aggregate value of the deceased's property exceeds \$50,000, and passes in manner aforesaid either in whole or in part to or for the benefit of the father, mother, husband, wife, child, son-in-law or daughter-in-law of the deceased, the same or so much thereof as so passes (as the case may be) shall be subject to a duty at the rate and on the scale as follows:—

(a) Where the said aggregate value exceeds \$50,000 and does not exceed \$75,000, 1 per cent.

(b) Exceeds \$75,000 and does not exceed \$100,000, 2 per cent.

(c) Exceeds \$100,000 and does not exceed \$150,000, 3 per cent.

(d) Exceeds \$150,000 and does not exceed \$200,000, 4 per cent.

(e) Exceeds \$200,000, 5 per cent.

Provided where the value of any dutiable property exceeds \$100,000 and the amount passing in manner aforesaid to any one person exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the foregoing paragraph mentioned as follows:—

(a) Where the whole amount so passing to one person exceeds \$100,000 and does not exceed \$200,000, 1 per cent.

(b) Exceeds \$200,000 and does not exceed \$400,000, 1½ per cent.

(c) Exceeds \$400,000 and does not exceed \$600,000, 2 per cent.

(d) Exceeds \$600,000 and does not exceed \$800,000, 2½ per cent.

(e) Exceeds \$800,000, 3 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, so much thereof as passes to or for the benefit of the grandfather or grandmother or any other lineal ancestor of the deceased, except the father and mother, or to any brother or sister of the deceased, or to any descendant of such brother or sister, or to a brother or sister of the father or mother of the deceased, or to any descendant of such last mentioned brother or sister shall be subject to a duty of \$5 for every \$100 of the value.

Provided that where the value of any dutiable property exceeds \$50,000, and the amount passing in manner aforesaid to any one person mentioned in the next preceding subsection, except the father and mother, exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

(a) Where the whole amount so passing to one person exceeds \$50,000 and does not exceed \$100,000, 1 per cent.

(b) Exceeds \$100,000 and does not exceed \$150,000, 1½ per cent.

(c) Exceeds \$150,000 and does not exceed \$200,000, 2 per cent.

(e) Exceeds \$250,000 and does not exceed \$300,000, 3 per cent.

(f) Exceeds \$300,000 and does not exceed \$350,000, 3½ per cent.

(g) Exceeds \$350,000 and does not exceed \$400,000, 4 per cent.

(h) Exceeds \$400,000 and does not exceed \$450,000, 4½ per cent.

(i) Exceeds \$450,000, 5 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above described, or to or for the benefit of any stranger in blood to the deceased, save as hereinbefore provided for the same, shall be subject to a duty of \$10 for every \$100 of the value.

Any portion of an estate where the deceased at time of death is domiciled in Ontario, and which is brought into Ontario by executors or administrators to administer shall be liable to duty, but if any succession duty or tax has been paid thereon elsewhere than in Ontario, and such duty or tax so collected is greater than the duty payable in this Province no duty shall be payable thereon; but if the duty so paid elsewhere is less than the Ontario duty then the difference must be paid.

Where any duty or tax shall have been paid by the estate upon any moveable or personal property locally situate outside of Ontario or any interest therein, an allowance shall be made for any outside duty paid thereon; the difference, if any, between the outside and Ontario duty shall be likewise paid. Provided the above allowances and differences are only made with

respect to any country, state or British Province or possession where a similar allowance is made for the duty or tax paid under this Act on property in Ontario passing on the death of any person domiciled in any such outside country.

Should an executor or administrator, in order to escape payment of Succession Duty, distribute any part of said estate without bringing the same into Ontario, such executor or administrator shall be liable, personally, to pay His Majesty the amount of duty as if such assets had been brought within Ontario, provided that this shall not apply to payments made to persons domiciled out of Ontario from assets situate without the Province.

No foreign executor or administrator shall assign or transfer any stocks or shares in Ontario standing in the name of a deceased person, or in trust for him, which are liable to pay Succession Duty until such duty is paid or security given therefore as provided, and any corporation allowing a transfer of any stocks or shares contrary to this provision shall be liable to pay the duty.

An executor or administrator applying for letters probate or administration to the estate of a deceased person shall, before the issue of such letters to him, make and file with the Surrogate Registrar a full and correct statement under oath, giving (a) full itemized inventory of all the property of the deceased and the market value thereof. (b) The several persons to whom the same will pass under the will or intestacy and the degree of relationship in which they stand to the deceased; and such executor or administrator shall, before the issue of such letters probate, deliver to the Surrogate Registrar a bond, in a penal sum equal to ten per cent. of the sworn value of such property liable to Succession Duty, executed by himself and two sureties to be approved of by the Registrar conditioned for the due payment of any duty to which the property may be found liable.

Should the Treasurer of Ontario be not satisfied with the value so sworn to or with the correctness of the Inventory, he shall direct the Sheriff of the County or City to make a valuation and appraise the said property, and provision is made for an appeal from such appraisement to the Surrogate Judge of the County within thirty days after making and filing such assessment. The duties imposed by the Act unless otherwise provided for shall be due and payable at the death of the deceased or within eighteen months thereafter. Should they not then be paid interest at 5 per cent. per annum from death of deceased shall be charged and collected, and same shall be a lien upon the property in respect to which they are payable until fully paid. Provision is made however as regards postponement of the duty payable on any future or contingent estates, income or interest, with the consent of the Provincial Treasurer in writing, until such estate, income or interest comes into possession. The Treasurer of the Province, on being satisfied that the full amount of Succession Duty has been or will be paid, in respect of an estate or in part thereof shall, if required, give to the person accounting for the duty a certificate which shall discharge from any further claim the property shown by the certificate to form the estate.

An administrator, executor or trustee having in charge or trust any estate, legacy or property subject to duty shall deduct same therefrom or collect the duty thereon from the person entitled to such property, and shall not deliver any property subject to duty to any person until he has collected the duty thereon.

The jurisdiction of this Court extends to all manner of actions and causes, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may and shall hear and determine all issues of law, and also (with or without a jury as provided by law) determine all issues of fact, and give judgment, and award execution thereon, as might on the 5th day of December, 1895, be done in His Majesty's Court of King's Bench, Common Bench or in matters which relate to the King's Revenue (including the condemnation of contraband or smuggled goods) as may be done by His Majesty's Court of Exchequer in England, and also the like jurisdiction as the Court of Chancery in England, on the 4th day of March, 1837, in cases of fraud, accident, trusts, executors, administrators,

co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possessed on the 10th day of June, 1857, to administer justice in all cases in which there is no adequate remedy at law.

Divisional Court sittings are held on the first Monday of each month (except vacation) to dispose of such matters as may properly be brought before a Divisional Court.

**LAW CIRCUITS.—Sittings for Hearing of Actions.**—In the Counties of York, Wentworth, Carleton and Middlesex, there is held an additional such Court every winter; and in the County of York there is held another such Court before the first day of July. Whenever in any year the Judges may determine that it is not necessary to hold the latter such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery. In the City of Toronto the sittings for trial of actions without a jury are now practically continuous from 15th September to the 1st of next July, excepting Christmas vacation, and actions can be set down as soon as ready for trial.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of His Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

**WEEKLY SITTINGS.**—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Tuesdays and Fridays. Court business on Mondays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

**CHAMBERS.**—Chambers are held each day for such business relating to actions as may be transacted by a single judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

**LONG VACATION** extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

**COURTS FOR THE TRIAL OF CONTESTED ELECTIONS.**—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the day next preceding the Christmas Vacation, and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

**COURTS OF REVISION.**—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections.

**SURROGATE COURTS.**—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts.

**DIVISION COURTS** are held for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over \$100 and under \$200 and the original amount was ascertained by the signature of the defendant, subject in some cases to an appeal to a Divisional Court, and to \$100 in other cases of debt; but the sum of the account to be gone into cannot exceed \$400; injuries or torts to personal chattels amounting to \$60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land,

P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. ## TUBERCULOSIS IN CANADA.

According to the Census of 1901 the Canadian death rate from tuberculosis in that year was 18 per 10,000 of the population living. The total number of deaths from all causes in 1901 was 81,201, and of these 9,709 were registered as due to tuberculosis. This is to say that in every 1,000 deaths from all causes, 119.56 were due to tuberculosis, a percentage of 12, or one death in every 8.36 deaths. Should this ratio remain constant then of 7,184,744, the estimated population of Canada on March 31st, 1909, no less than 859,000 will die of the disease. In 1901 the death rate per 1,000 from tuberculosis in some of the larger Canadian cities was, Montreal 2.10, Toronto 2.0, Halifax 2.80, Quebec 2.50 and Ottawa 2.30. The Census records show that in Ontario over 10 per cent. of the deaths from all causes are due to tuberculosis.

Happily, however, there are indications that the census of 1911 will show a considerable diminution of mortality from tuberculosis, owing to the active efforts that have been made to combat this disease during the last decade.

Thus, to quote the most recent figures available, out of 1,360 deaths which occurred during 1909 in the city of Ottawa (population 83,600) 137 were caused by tuberculosis. This is a ratio per 1,000 of 1.65, a marked improvement over the 1901 census figure of 2.30 per 1,000 as quoted above. Moreover the total number of deaths from tuberculosis in the Province of Ontario has, with an increasing population, fallen from 3,284 in 1901 to 2,530 in 1907, the latter figure being in the ratio of less than 1 per 1,000 of the estimated population. In 1899 was formed the Canadian Association for the Prevention of Tuberculosis, which, with the aid of an annual grant from the Dominion Government amounting to \$1,000 in 1902, \$2,000 from 1903 to 1907, and \$5,000 in 1908 and 1909, has done a large amount of useful propagandist work of a national character. Hospitals for the treatment of advanced cases of tuberculosis and sanatoria for incipient cases have been or are being erected under provincial authority in various parts of the Dominion.

## Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In Cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each school receives a fixed amount of \$375, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation to the Universities. There were 43 Collegiate Institutes, 102 High Schools, and 138 Continuation Schools doing the same grade of teaching in connection with the Public and Separate Schools in Ontario in 1910.

**Public Schools.**—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

**Educational Museum.**—Connected with the Department of Education is a Museum, containing specimens of school apparatus, etc., a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts; an art gallery of paintings by Canadian artists. Here also is the largest collection of archaeological material in the Dominion, chiefly illustrative of Ontario, and of North America. David Boyle, Curator of Museum. The Museum is open to the public from 9 a.m. to 5 p.m.

# LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1909, was conducted by 40 active companies—23 Canadian, 6 British, and 11 American.

## NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$131,739,078, an increase over those taken out in the preceding year of \$31,842,872. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$79,121,977, or 60% of the whole.  
 British " 3,930,230, " 3% " "  
 United States " 48,686,871, " 37% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by over \$26,500,000. The expansion of the business is attested by the fact that twice as much life assurance was effected in 1909 as there was in the year previous thereto.

## TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1909, amounted to \$780,356,980, an increase over that of the previous year of no less than \$60,840,966. The distribution is shown as follows:

	Amount in Force.	Increase.
	\$	\$
Canadian Companies.....	515,415,437	35,148,506
British " .....	46,985,192	823,235
United States " .....	217,956,351	24,869,225
<b>Total.....</b>	<b>\$780,356,980</b>	<b>\$60,840,966</b>

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

## AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	\$	\$	\$	\$
1879	33,246,543	33,616,330	19,410,829	86,273,702
1889	125,125,692	76,348,392	30,488,618	231,963,702
1899	252,201,516	113,943,209	38,025,948	404,170,673
1909	515,415,437	217,956,351	46,985,192	780,356,980

From \$86,000,000 in 1879 to \$780,000,000 in 1909, represents the large increase of over 800% in thirty years.

## DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1909 was 10·260 per 1,000, a rate higher than that experienced in any one of the preceding four years. The following table gives the rate for each of the years 1905-6-7-8-9:

	1909.	1908.	1907.	1906.	1905.
Active Companies (ordinary)	8·231	8·375	8·617	8·232	8·568
Active Companies (industrial)	12·086	11·935	12·054	12·044	12·406
Assessment and Fraternal Societies	9·089	8·683	8·946	8·557	7·321
Non-active and retired companies..	36·766	52·643	46·440	43·884	39·128
<b>Total.....</b>	<b>10·260</b>	<b>10·154</b>	<b>10·239</b>	<b>9·985</b>	<b>9·863</b>

## BENEFITS TO POLICYHOLDERS.

During 1909 a larger amount was disbursed on behalf of policyholders by way of death claims, endowments, dividends, etc., than in any previous year, the whole aggregating \$16,382,136. The details are as follows:

For Death Claims.....	\$8,076,954.52
For Matured Endowments....	3,279,675.90
For Annuities.....	382,789.91
For Cash Surrender Values....	3,010,104.51
For Dividends and Profits.....	1,632,610.74

\$16,382,135.56

## ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1909:

#### PREMIUM RATES.

On the following page there are given the premiums of the principal companies transacting business in Canada for those systems of assurance which are chiefly desired by the insuring public. It will be observed that there are but slight variations in the rates of the different companies, and this is mainly due to the fact that all companies have to maintain minimum reserves on the basis of the British Offices Life Tables Om(5) 1893 and  $3\frac{1}{2}$  interest.

#### ASSESSMENT LIFE INSURANCE.

From the following statement taken from the last Report of the Superintendent of Insurance for the Dominion, it is evident that this class of business is not finding favour with the Canadian insuring public:—

“The total amount of policies taken in Canada during the year 1909 by the four Canadian associations above referred to was \$7,677,750, which is less than the amount of assessment policies of these associations taken in 1908 by \$272,600, and the net amount in force at the end of the year was \$130,854,810, which is less than the amount in force at the end of 1908 by \$5,270,074. The amount of the insurance terminated by death was \$1,362,321, and by surrender and lapse, \$13,850,457. The total terminations amount to 198'14 per cent. of the amount of new policies.”

#### NEW INSURANCE ACT.

The new Insurance Act which had been before Parliament in the session, 1907-8, 1908-9, and 1909-10, became law on the 4th May, 1910. Important improvements have been made in the law, and although the new Act cannot be claimed to be perfection it is believed that the general conduct of life assurance will be much improved thereunder. Some of the principal alterations and additions are as follows:—

(1) A license may be granted for a portion of the Dominion and subject to any condition deemed necessary, and may be renewed for any term less than a year. (Sec. 7.)

(2) A Canadian trust company may be appointed sole trustee for an insurance company, other than a Canadian company, in whom may be vested securities to cover the Canadian liabilities of such insurance company, instead of placing them with the Receiver General. Only such trust companies are now eligible as trustees. (Sec. 20.)

(3) In addition to the annual statements heretofore required from life companies, half-yearly statements showing the securities purchased and loans made, and in like manner the securities sold and loans paid off, are required under the new Act. (Sec. 31.)

(4) When a license has been suspended by the Governor-in-Council in consequence of deficiency of assets, such modified or conditional license may be issued as may be necessary for the protection of policy-holders. (Sec. 41, sub-sec. 3.)

(5) The basis of valuation of the policies of life insurance companies under the old Act was the Hm Table of the Institute of Actuaries of Great Britain. The Hm tables were published in 1872, having been compiled from the experience of twenty offices, and at the time the Consolidated Insurance Act of 1877 was passed were the most up-to-date standard tables of mortality in existence. Since that time, however, an investigation has been made by a committee of British actuaries into the mortality experience of sixty life insurance offices, covering a period of thirty years, from 1863 to 1893. The result of the labours of the committee was the issue in 1902 of the British Offices Life Tables, 1893 Om (5), which tables have been substituted for future use in departmental valuations for the tables which formed the standard under the old Act. It is almost universally agreed that the new table which has been adopted more accurately represents the present day mortality than the former table which has been superseded. (Sec. 42.)

(6) For any violation of the provisions of the new Act or failure by any Canadian company to comply with the provisions of its Charter, or Act of Incorporation, the license may in either case be withdrawn or suspended, or renewal thereof refused. This right of withdrawal or suspension or refusal to renew under the circumstances above mentioned, which was denied under the old Act, is now made quite clear by the new. (Sec. 45.)

(7) The date of holding a company's annual general meeting may be changed by by-law. (Sec. 51.)

(8) Provision is made for the amalgamation in certain cases of life insurance companies or for taking over the assets and reinsuring the policies of one life insurance company by another. The English legislation upon the same subject has been closely followed, with the difference that the Treasury Board takes the place in the Canadian Act which the court holds under the English Act. (Sec. 52.)

(9) No life company is to be permitted to pay any commission or other compensation except such as has been determined in advance. (Sec. 53.)

(10) Advances to agents are not to be allowed as assets in the Superintendent's annual report. (Sec. 54.)

(11) Compensation to the directors of a Canadian life company for their services must be authorized by a vote of the members. No salary can be paid to an officer of such a company unless authorized by a vote of the directors. No salary or compensation, etc., amounting in any year to more than \$5,000 can be paid to any agent unless the contract under which the payment is made has been approved by the directors. (Sec. 55.)

(12) A company cannot make an agreement for payment for services with any officer or trustee extending over a longer period than five years. (Sec. 56.)

(13) Agents only are to receive commissions, with, however, an exception in favor of employees or servants of a company who personally solicit insurance outside office hours. (Sec. 57, sub-sec. 1.)

(14) Staff pension funds may be established by a by-law approved at an annual meeting, or at a special general meeting of the members, notice of the intention to consider such by-law having been given. (Sec. 57, sub-sec. 2.)

- (15) The powers of investment of companies within the legislative power of the Parliament of Canada have been very materially changed. While, on the one hand, the field for investment has been greatly widened, territorially and otherwise, the classes of securities which are eligible as investments are more restricted than under the old Act. It would not, however, serve any useful purpose to endeavor to summarize the differences, and for accurate knowledge on the subject a careful perusal of the statute will be found necessary. (Secs. 58, 59, 60, 63, 64, 65 and 66.)
- (16) The formation of subsidiary companies for the transaction of business other than insurance controlled or operated by life insurance companies is prohibited, and underwriting by such companies is restricted. (Secs. 61 and 62.)
- (17) A company may hold such real estate as is required for its actual use and occupation, or such as may reasonably be required for the natural expansion of its business. In the past, Acts of Incorporation have usually contained provisions limiting the real estate which might be held to a specified annual value in each province of the Dominion. (Sec. 67.)
- (18) Authority is conferred on the Superintendent to cause an appraisal of the value of the real estate owned by or mortgaged to a company to be made, and to correct the company's annual statement in accordance with such appraisal. The Superintendent may also order a special audit of the books of a company under certain circumstances. (Sec. 68.)
- (19) Unauthorized investments are not to be allowed as assets in the report of the Superintendent, who may make all necessary corrections in the annual statements made by the companies and increase or diminish the liabilities to the correct amounts, subject to an appeal to the Exchequer Court. (Sec. 77.)
- (20) A short or model form of Act of incorporation is provided for in the new Act. (See Sec. 82, form F, in the schedule to the Act and Part V thereof.)
- (21) After January 1, 1911, every policy of life insurance and the endorsements thereon shall be deemed to contain the whole contract between the policyholder and the company. (Sec. 84.)
- (22) An agent or other person soliciting insurance for a life company is not to be considered for any purpose the agent of the insured. (Sec. 85.)
- (23) After January 1, 1911, estimates as to dividends or shares of surplus expected to be paid are wholly forbidden. (Sec. 86.)
- (24) Each life company is required to keep on deposit with the Superintendent a copy of its fixed rates in the ordinary branch, such rates being based upon an insurance of \$1,000, applicable to insurance for that amount and pro rata for greater amounts. Rebating and discrimination in favour of individuals between the insured of the same class and equal expectation of life are forbidden under heavy penalties. A summary of the provisions relating to these subjects is not deemed necessary; it would be difficult if not impossible to condense them. (Secs. 87 and 88.)
- (25) Policies may be issued with quinquennial distribution of profits without restriction; and also policies with longer dividend periods provided that the amount of profits accruing to the policyholders is apportioned quinquennially and carried as an absolute liability in the company's accounts. This latter provision will prevent a dividend once apportioned from being diverted from the use of the policyholders to any other purpose whatever. (Secs. 89 and 90.)
- (26) Options are given to the policyholder as to the manner in which his profits are payable, and provision is made for the application of surplus for his benefit in case he fails to make his election. (Secs. 91 and 92.)
- (27) Surplus on deferred dividend policies already issued awaiting distribution among policyholders entitled thereto should be apportioned at least quinquennially, and the amount so apportioned treated as a contingent liability only and not as a present liability of the company. (Sec. 93.)
- (28) Authority is given for the institution of a suit against a company or the directors or other officers thereof in the name of the Attorney General, on behalf of the policyholders of such company or of any class of such policyholders where a cause of action exists.
- (29) Proceedings may also be taken up by the Attorney-General at the request of the Superintendent for the winding-up of a Canadian company or for the winding-up of the Canadian affairs of a company other than Canadian, and for the distribution of its Canadian assets. (Sec. 94.)
- (30) All policies issued in Canada by life companies after the first day of January, 1911, are required to contain in substance certain provisions which are specified in Sec. 95, which also provides that forms of all such policies shall be filed with the Superintendent. (Sec. 95.)
- (31) Companies are required after January 1, 1911, to keep separate accounts of participating and non-participating business. (Sec. 96.)
- (32) Life companies other than Canadian are required to insert in each of their Canadian policies a provision to the effect that an action to enforce the obligations, thereof may be taken in a court in the Province where the policyholder resides or last resided before his death (Sec. 97.) A similar provision, applicable only to assessment companies, was contained in the old Act.
- (33) Sec. 98 requires that all life insurance companies having a capital stock within the legislative power of the Canadian Parliament shall have two classes of directors, viz., shareholders' directors and policyholders' directors, the latter to be at least one-third of the total number of directors. The policyholders' directors must be policyholders who are not shareholders, and are to be elected by the participating policyholders who must, however, vote in person and not by proxy. The section fixes the qualification for the classes of directors. Paid officers of the company, with certain specified exceptions, are not eligible as directors.
- (34) Provision is made by which a provincial company, which has been licensed to transact business throughout the Dominion, desiring to confine its business to the province by the legislation of which it was incorporated, may withdraw its deposit from the Receiver-General and have it transferred to the treasurer of such province, and thereafter cease to transact business outside said province. (Sec. 108.)
- (35) A clause has been inserted in Section 109 to the effect that in the event of its appearing that the net premium calculated on the basis of the British Offices Life Tables, 1893, O<sup>m</sup>(6) and a rate of interest of 3½ per cent. together with 2½ per cent. loading for expenses, is in excess of the premiums receivable in respect of any policies issued after January 1, 1911, the company must be charged as a separate liability with the value of an annuity, the amount of which shall be equal to such excess.
- (36) Section 110 fixes and defines the relative and respective rights of shareholders and policyholders in the distribution of the profits of life companies within the legislative power of the Parliament of Canada. It gives legislative sanction to the method which in the past has been followed by Canadian companies generally and by the best English companies.
- (37) Section 134 fixes the basis of the computation of the reserve liability of fire insurance companies for the purposes of the annual statement required to be furnished to the Superintendent and for calculating the reinsurance value of the unmaturing Canadian policies of a company other than Canadian for the purpose of ascertaining the deposit to be made by such companies with the Receiver-General.

#### Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 172 (1897), the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the

Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.

## THE ROYAL MILITARY COLLEGE

**T**HERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.
