PRINCE'S
SELECT CATALOGUE
OF
Fruit & Ornamental Trees,
&c., &c.,

EXTRACTED FROM THEIR
GENERAL CATALOGUES,
OF WHICH COPIES EXIST IN ALMOST EVERY TOWN OF THE UNION, AND WHICH CAN BE
REFERRED TO BY THOSE WHO DESIRE MORE EXTENSIVE ASSORTMENTS.

LINNEAN
Botanic Garden and Nurseries,

FLUSHING, NEAR NEW-YORK.

WM. R. PRINCE & CO., Sole Proprietors.

N. B.—Orders must be sent direct to us, or to our City Office, 205 BROADWAY, NEW-YORK,
CLARK, AUSTIN & Co., AGENTS.—No Orders for the rare and estimable varieties of Fruits,
which we have obtained at great expense, and which are in our possession exclusively, will be
executed if sent through any other Nursery in this vicinity.

CAUTION.—No other person in this vicinity is authorized to use the name of this Establishment, or to
receive orders therefor, and no person in New-York is authorized to receive orders for us, except at
our City Office above named. We particularly caution the Public against a spurious Catalogue, and
all deceptive Advertisements, in which our title and name are used without any authority by an
Attorney at Law named Winter, who issues Advertisements, &c., in the name of Winter & Co., and
we refer to our exposure already published in regard to the character of that concern, which is now
breaking up.

THIRTY-SEVENTH EDITION.

NEW-YORK:
PRINTED BY H. LUDWIG & CO.,
No. 70 VESEY-STREET.

1849.

A P P L E S .

P E A R S .

ORDINARY SIZE, 50 CENTS.

The entire Collection of Pears exceeds 500 varieties, of which the following are the best known and esteemed. All these, as well as every other European and American variety, can be supplied on the Pear stock, two and three years grown.

Standard Trees of above 200 varieties, of extra size, 6 to 9 feet in height, the largest of which are in a bearing state, at 75 cents to \$1 50.

Pyramid or Quenouille trees on the Angers and Portugal Quince, 2 years' growth, 50 to 75 cents; 3 years, \$1 00; 4 years, \$1 25; 5 years, \$1 50.

Dwarfs for Walls or Espaliers, 50 to 75 cents.

The varieties with an asterisk can be supplied on the Quince; and the figures 1, 2, 3, 4 and 5 attached, denotes the ages; and S designates the kinds of which we can supply Extra Large Standards, 7 to 9 feet, with heads 3 to 5 years grafted.

GRAPES.—Vignes.

Our collection of foreign Table Grapes is remarkably select, and comprises only the best and most approved varieties. The mass of French Grapes imported and offered for sale, are no better than our cider apples, when contrasted with the best table fruit. Those noted thus † are 37½ cents; thus ‡ 50; thus ¶ 75 cents; and those not noted are \$1. When 25 or more Grape Vines are ordered, a discount of 25 per cent. will be allowed. Grape Vines in pots will be supplied at reasonable rates. N. B. The prices will in all cases be as low or lower than any other Nursery.

12 Blue do.	20	\$5	
		24 Cranberry tree	25

FIGS.—*Figuiers.*

The culture of this delicious fruit has recently become an object of particular attention, and the trees require no more care as to covering in winter than the delicate kinds of grapes.

Those marked † 50 cents; †† 75 cents. Those not marked are \$1. By the hundred, a discount of one-third in price will be made; and where 25 are taken, 25 per cent. discount.

†1 Angelique	†2 Datte, or Quotidienne	†23 Napolitaine, twice bearing—Naples	†35 Servantine, twice bearing

7 Double crimson	37 to 50	15 Desfontaines, large fruit	1 00
8 Royal double crimson	1 00	16 Chinese double variegated	1 50

STRAWBERRIES.—*Fraisiers.*

The collection far surpasses any other in Europe or America, and comprises a large number of new varieties originated by ourselves, and not obtainable from any other source. We have rejected the bad and unproductive varieties, and the public will recall to mind the *Caution* we gave them against being imposed upon by the "*Aberdeen Beehive.*"

P. denotes pistillate, and H. hermaphrodite varieties.

Prices. These will at all times be as low or lower than any other establishment, and will be reduced annually; and if any variety is priced lower elsewhere than by us, the applicant shall by referring thereto, be supplied at the same rate.

NOTE.—No less than a dozen are sold of any variety, except those priced per pair. When two dozen are ordered, the price will not be varied, but 30 plants will be sent; and where 50 are ordered, they will be charged at two-thirds the price named for a hundred. Not less than \$5 worth can be supplied, and for all small orders the cash should be enclosed.

CLASS 1.—SCARLET AND PINE STRAWBERRIES.

	Size.	Price, per doz.	Price, per 100.		Size.	Price, per doz.	Price, per 100.
1 Abyssinian Prince, conical very dark, P.	1	\$2 00	\$8 00	17 Burr's Scarlet Melting, P.	1	1 00	5 00
3 American Scarlet, conical, sweet, late, very productive, P.	2	50	2 00	18 ——— Scioto, oval, dark scarlet, very productive, P.	1	1 00	5 00
4 ——— Prolific, very early, moderate size, profuse bearer, high flavor, H. (per 1000 \$15.)	2	50	2 00	NOTE.—Mr. Burr's new varieties are mostly large, but with two or three exceptions, coarser and less flavored than other varieties from different parentage.			
5 Bishop's Globe, (true) early, light scarlet, short cone or rounded, very productive, P. per 1000 \$15.)	2	50	2 00	19 Charlotte, dark scarlet, extra, P.	1	3 00	10 00
6 Bishop's Seedling, orange scarlet, beautiful, profuse bearer, P. (per 1000 \$15.)	2	50	2 00	<i>This estimable variety combines large size, sweet delicious sprightly flavor, with great productiveness.</i>			
<i>Bishop's Orange, true</i>				20 Chili, monstrous fruit, H.	1	3 00	10 00
<i>There is a spurious crimson variety usually cultivated, the genuine is quite rare.</i>				21 Cluster Hudson, large, conical, scarlet, very productive, P.	1	1 00	5 00
7 Black Prince, large clusters, very showy, excellent, P.	1	50	2 00	22 Cornucopia, magnificent, very large, scarlet, conical, good flavor, very productive, fine for market, a Seedling of the Hudson, P.	1	3 00	10 00
8 Boston Pine, scarlet, splendid, requires strong soil for a fair crop, H.	1	50	1 50	23 Crimson Cone, bright crimson, very beautiful, good flavor, and fragrant, very prolific, keeps remarkably well, of extraordinary vigor, P.	1	50	2 00
<i>Ditto, per 1000 \$10</i>				<i>Ditto per \$1000 \$15</i>			
9 Brilliant, conical, deep crimson, beautiful, excellent flavor, productive, a Seedling of Crimson Cone, H.	1	2 00	8 00	24 Crimson Pine, deep scarlet or crimson, conical, very productive, H. and P.	1	1 50	6 00
10 Burr's Seedling, large, productive, H.	1	37	2 00	<i>Ditto per 1000 \$20</i>			
11 ——— Columbus, dark scarlet, same quality as Methven, very productive, P.	1	60	3 00	25 Cushing, light scarlet, obtuse cone, good flavor, productive, H.	1	50	2 00
12 ——— Late Prolific, crimson, rounded or ovate, very productive, P.	1	1 50	8 00	26 Eberlein, early, conical, dark scarlet, remarkably productive, averages larger than No. 34, H.	2	1 50	6 00
13 Burr's Mammoth, monstrous, very pale scarlet, obtuse cone, moderate bearer, H.	1	1 00	5 00	<i>Ditto per 1000 \$30</i>			
14 ——— New Pine, very large, short cone or rounded, light crimson, beautiful, very sweet and fine flavor, very productive, P.	1	1 00	5 00	27 Eustatia, ovate, bright scarlet, fine flavor, exceedingly productive, P.	2	2 00	10 00
15 ——— Profusion, P.	2	75	3 00	28 Globose Swainstone, roundish, dark scarlet, very large, fine flavor, productive, H.	1	2 00	10 00
16 ——— Rival Hudson, conical, dark scarlet, large and showy, very productive, P.	1	60	3 00	29 Hovey's Seedling, P.	1	37	1 50
				<i>Ditto per 1000 \$10</i>			

	Size	Price,			Size	Price,	
		per doz.	per 100.			per doz.	per 100.
30 Hudson, H. and P. (per 1000 \$10 Hudson of Cincinnati)	1	\$0 25	1 50	42 Primordiau, long conical, deep scarlet, beautiful, very productive, early, P.	1	2 00	10 00
31 Illinois, conical, deep scarlet, fine flavor, P.	2	50	2 00	Ditto, per 1000 \$50			
Although found wild in Illinois, it is probably a variety of <i>F. Virginica</i> .				43 Profuse Scarlet, a Seedling of Large Early Scarlet, rather larger than the parent, same form, color, and flavor, early and very productive, an important acquisition, P.	2	3 00	10 00
32 Jenney's Seedling, obovate or rounded, crimson, rather acid until fully ripe, then sweet and good flavor, very productive, P.	1	50	2 00	44 Prolific Hudson, conical, crimson, very productive, good flavor, ripens gradually, don't rot, P.	2	1 00	5 00
33 Ladies' Finger, remarkable melon flavor, moderate bearer, H.	2	1 00	3 50	45 Prolific Swainstone, a new Seedling, fine flavor, scarlet, productive, H.	1	2 00	8 00
34 Large Early Scarlet, H. (per 1000 \$8 00.) Early Virginian	2	25	1 00	46 Refulgent, peculiar form, beautiful scarlet, fine flavor, highly productive, estimable, P. (per 1000 \$30.)	2	2 00	8 00
35 Le Baron, dark crimson, conical, sweet, fine flavor, productive, H.	1	2 00	8 00	47 Round White Carolina, pale pink, roundish, high flavor, distinct, moderate bearer, H.	1	2 00	8 00
36 Lizzie Randolph, averages larger than Hovey, round, very productive, P.	1	2 00	10 00	48 Screna, large, scarlet, ovate, fine flavor, productive, a Seedling of the Swainstone, H.	1	2 50	10 00
37 Magnate, monstrous, splendid scarlet cone, very productive, extra, P.	1	3 00	15 00	49 Theresa, scarlet, very large, conical, fine flavor, productive, Seedling of Swainstone, H.	1	2 00	8 00
38 Magnifique, orange scarlet, very large, splendid, rounded, very productive, P.	1	3 00	15 00	50 Tivoli Scarlet, very large, beautiful, long pointed cone, very productive, estimable	1	2 50	10 00
39 Methven Scarlet, or Victoria, P. (per 1000 \$10.)	1	25	1 50	51 Unique Scarlet, purse shaped, light scarlet, sweet rich delicious flavor, H. (per 1000 \$30)	1	1 00	5 00
40 Monstrous Swainstone, very large obtuse cone, splendid, scarlet, fine flavor, productive, H.	1	2 00	10 00				
41 Primate, conical, large, deep scarlet, splendid, very productive, keeps well, an extraordinary fruit, fine for market, Seedling of Prince Albert, H.	1	3 00	10 00				
Ditto, per \$1000 \$50							

CLASS II.—PRAIRIE STRAWBERRIES.

These are natives of the Western States and constitute a new race with distinct and peculiar foliage, and yield abundant crops.

52 Camak's Scarlet, late, H.	2	50	2 00	55 Taylor's Seedling, orange scarlet, long obtuse cone, good flavor, P.	1	50	2 00
53 Iowa, early, light orange scarlet, beautiful, broad rounded, H.	1	50	1 50	56 Unique Prairie, peculiar form, light scarlet, rather acid, P.	1	50	
54 Prairie Cluster, bright scarlet, round or obovate, tolerable flavor, P.	2	50	2 00	Necked Pine, of Ohio			
Pistillate Keen, of Ohio				57 Willey, sessile, rounded, deep scarlet, acid, late, P.	1	50	2 00

CLASS III.—HAUTBOIS STRAWBERRIES.

58 Green, high musk flavor, S.	50	2 50	60 Prolific or Conical Hautbois, productive, S.	37	1 50
59 Large flat Hautbois, very productive, very rare, S.	50	2 50			

CLASS IV.—ALPINE AND WOOD STRAWBERRIES.

All are Staminate and all very productive: The Alpine varieties produce fruit until winter.

61 Besancon Alpine, white, oval	75	3 00	N. B.—It is doubtful whether the preceding rare variety can be obtained elsewhere, as No. 63 is usually substituted for it.		
62 Red Wood (English)	25	1 00	66 Red Bush Alpine, no runners	50	2 00
63 White Wood (English)	25	1 00	67 White do. do. do.	50	3 00
White Hautbois.					
64 Red Alpine, with runners	25	1 00			
65 White do. do.	50	2 00			

CLASS V.—MONTEVIDEO PINE STRAWBERRIES.

The varieties of this class surpass all others in the enormous size of their fruits, which are of a high Pine Apple flavor, their blossoms often the size of a dollar. They commence ripening with the latest of the other large varieties and continue for ten or twelve days afterwards, and are the latest of all Strawberries except Alpines.

No Seedlings of this rare species exist in Europe, and the following are the only ones in America. They require a strong rich soil and to be kept free from runners. All are Staminate. Price, \$5 per dozen.

Note. We are prepared to supply Rhubarb Plants by the thousand.

SCIONS AND CUTTINGS.

Scions of all kinds of Fruit Trees, enumerated in this Catalogue, as well as of others not enumerated herein, suitable for grafting, will be supplied when 40 or more kinds are ordered, more or less of each, as convenient to us, at 25 cents per parcel, or at 50 cents per dozen of each variety, where the price of a tree does not exceed that sum (50 cents); but where it does, the same price will be charged for the dozenscions, or for a parcel where the kind is very rare, as for a tree of the same kind. Of all the varieties of Apples generally in cultivation, the parcels at 25 cents will each contain a dozen scions. When an order is sent for a small assortment of rare kinds only, no charge will be made under 50 cents per parcel. When a large number of scions are wanted of the more plentiful sorts of Fruits, they will be supplied by the 100 or 1000 at reduced rates. It is better that such orders be sent in the fall or winter, and the Scions can be forwarded by express if so ordered.

Our specimen Orchards are the only very extensive ones on this island, and the trees are mostly of large size, and have borne fruit for years, by which their accuracy is rendered certain.

Scions of Grapes of a number of the finest kinds, can be supplied if applied for in season, at from \$3 to \$10 per 100, or in less quantities, but in no case will scions of any variety be sent to a less amount than the price of a vine; and of the very rare varieties, three scions, and of others six scions of any one variety will be considered equivalent in value to a vine. Scions of Isabella, Catawba, Alexander, and several other varieties of Grapes, \$10 to \$20 per 1000.

Scions of Currants, Gooseberries, Raspberries, Berberies, Mulberries, Quinces, Figs, Poplars, Willows, and of all other trees and shrubs that can be grown from cuttings, will be supplied at prices in proportion to their respective value; but no charge is made of a less sum than the price of a tree or a shrub of the same kind.

Scions of the fine species of Osiers, or Willows, most celebrated for basket-making, can be supplied, suitable for planting hedge-rows, at from \$2 50 per 100, or \$20 per 1000. Especial pains have been taken during several years past, to obtain the very best varieties of Osiers from England, France, and Germany, in order to supersede by home production the great importation of this article, for which our wet lands (now almost useless) are particularly appropriate.

CATALOGUES AND BOOKS.

No. 1. Descriptive Catalogue of Fruit Trees, Shrubs and Plants—No. 2. Hardy Ornamental Trees, Shrubs and Plants. (The two preceding are now united.) No. 3. Bulbous and Tuberos-rooted Flowering Plants, Dahlias, &c.—No. 4. Green-house Plants—No. 5. American Indigenous Trees, Plants and Seeds.—No. 6. Garden, Agricultural, and Flower Seeds.—No. 7. Do. do. do. in French.—No. 10. Descriptive Catalogue of Roses, comprising 1600 varieties.—No. 12. New Wholesale Catalogue for Nurseries of Fruit and Ornamental Trees, Shrubs, Plants, &c.—No. 13. Catalogue of Pears, of all sizes, on the Angers and Portugal Quince.—No. 14.—Supplement Catalogue of Roses, with reduced prices for all kinds—No. 15. Herbaceous Flowering Plants, Carnations, &c.—No. 16. New Catalogue of Strawberries, for 1848 and 1849. The Descriptive Catalogue of Fruits in addition to the Size, Color, Maturity, &c., comprises the *Glands* and *Blossoms* of every Peach. These Catalogues, (36th Edition,) when applied for, *post paid*, are sent to purchasers of trees *gratis*, and to others at \$1 per set.

BOOKS.—Prince's Treatise on Horticulture, 75 cents; Treatise on the Vine, \$1 50; Treatise on Fruits, or Pomological Manual, containing descriptions of 800 varieties of Fruits, \$2; Prince's Manual of Roses, cloth bound, 75 cents;

DECIDUOUS ORNAMENTAL TREES.

The following comprise a *Select Assortment* of the most beautiful and estimable species, which our long experience has enabled us to arrange with precision. The inferior species are omitted.

We have divided them into four classes. The first class comprises those of majestic growth, which attain great stature and ample development; the second class, those which attain a medium size; the third class, those of low stature; and the fourth class, such as are comparatively of slow growth, requiring a long period before they attain the size of a small tree, and which it would, therefore, be more appropriate in ornamenting grounds to rank among large shrubs.

The prices stated are for trees of fair size; but where extra large sized trees are desired for streets, avenues, &c, in order to impart immediate ornament, such can be supplied at proportionate rates, and varying in height from ten to twenty feet, of many of the most estimable species, such as Nos. 2, 8, 14, 23, 25, 41, 42, 44, 57, 78, 79, 88, 96, 99, 102, 111, 118, 123, 124, 126, 127, 129, 130, 133, 134, 147, 148, 165, 170, 171, 172, 174, 177, 178, 179, 180, 182, 188, 189, 190, and 191, of the following list.

Common Name.	Class.	Price.	Common Name.	Class.	Price.

DECIDUOUS ORNAMENTAL SHRUBS.

The following comprise a *Select Assortment* of the most beautiful and estimable species. The inferior species are omitted. We have arranged the shrubs under three classes. The first class comprises those which attain the largest size; the second class, those of medium stature; and the third class, those of low dwarf habit, suitable for flower-borders, &c.

N. B. For a number of other Ornamental Shrubs, see those designated as such among Fruit Trees, &c.

EVERGREEN ORNAMENTAL TREES.

We have classed them under three heads as to size: the first comprising the largest; second, those of medium size; and third, those of humble growth; and in making this arrangement, we have paid no regard to extreme cases as to height, but have adopted the medium size to which each species attains. The inferior varieties we have omitted.

Common Name.	Class.	Price.	Common Name.	Class.	Price.

EVERGREEN ORNAMENTAL SHRUBS.

We have divided these in like manner as the Deciduous Shrubs, into three classes; the first class comprising those of largest growth; the second class those of medium stature; and the third class those of low dwarf habit. Many of the latter form dense tufts of only a foot to eighteen inches in height, but are highly ornamental in flower borders, &c.

HARDY AZALEAS.

This beautiful class of shrubs occupies an important rank on account of their various hues, the fragrance of most of the varieties, and the long succession of their flowers. Their growth is tardy, but they commence flowering when small, increasing annually in size and beauty. The Pontic varieties are the most vigorous, and thrive in any good soil. For the other varieties a peat soil, or a mixture of peat, is most appropriate, and a half-shaded location suits best.

Our collection comprises above 80 splendid varieties, of every hue, as enumerated in our previous Catalogues at 37 cents to \$1 50 each.

CHINESE AZALEAS.

This splendid class of winter-flowering shrubs comprises almost every shade and variation of colors: and, next to the Camellia, may be ranked as the most brilliant appendage of the Greenhouse and parlor from January to March, during which period they are literally clad with flowers. They possess the advantage of flourishing under the simplest culture, and slight frosts nowise affect them. The Chinese yellow varieties will even withstand our ordinary winters in the open ground. The Double Purple has also withstood the winter in some situations, and the White or Lily-flowered sustains the climate of England, where it forms a beautiful evergreen shrub, and is covered in May with its large snowy flowers. All the varieties will succeed under a frame of ordinary construction. Our collection comprises above 70 varieties, at from 30 cents to \$1 each, according to the size and rarity of the respective varieties; a Catalogue of which will be sent to all applicants. A liberal discount where a considerable number are ordered.

HERBACEOUS FLOWERING PLANTS.

Of this class of plants our Collection is so rich and extensive, and the new acquisitions so frequent and numerous, that we shall now publish them in a distinct Catalogue. A very large assortment was comprised in the 34th edition of our General Catalogue, to which amateurs can refer. Our present collection comprises not only all those usually found in other Catalogues, but several hundred rare varieties which are not in any other American collection. The prices are about 25 per cent. less than are usually charged, and comprise the following—and they will always be charged as low or lower than procurable elsewhere.

Herbaceous Pæonies, above 100 splendid varieties, some from 37 to 50 cents each, and others 75 cents to \$1 and over.

Tree or Shrubby Pæonies, above 40 splendid varieties; the Banksii at \$1 to \$1 50; Papaveracea, \$1 to \$2; and Rosea, \$2 to \$3, and others at higher rates.—N. B. Some extra large Plants of the Banksii and Papaveracea Pæonies at \$3 to \$4 each.

Carnations and Picotees, 150 beautiful varieties at 25 to 50 cents each, and \$2 to \$3 per dozen.

Pinks, 50 varieties 10 to 20 cents each, and \$1 to \$1 50 per dozen.

Chinese Chrysanthemums of above 100 select and beautiful varieties, mostly at 20 to 25 cents, and \$2 25 per dozen. A few most rare, \$4 50 per dozen.

Iris, or Fleur de Lis, 70 beautiful varieties, including 20 new varieties of *Iris germanica*, at 25 cents each, and \$2 25 per dozen; and Mixed sorts \$1 per dozen, and \$6 per 100.

Phlox, 80 beautiful varieties, mostly at 12 to 25 cents, and others 37 to 50 cents.

Hemerocallis or Day Lily, 14 varieties at 12 to 37 cents each.

Primroses, Poleanthus, Cowslips, Auriculas, and Violets in great variety.

Herbaceous Flowering Plants generally of all the other estimable species at 12 to 37 cents, or in Assortments selected by us \$15, per 100.

Medicinal and Culinary Plants, a great variety at 10 to 20 cents each.

SPLENDID ROSES.

The Catalogue of these comprises by far the finest collection in the Union, and the prices are reduced in proportion to their increase, and will be at all times lower than elsewhere obtainable.

GREENHOUSE PLANTS.

Assortments of the *Camellia Japonica*, Chinese Azalea, Fuchsia, Geranium, Achimenes, Nerium, Myrtle, Orange, Lemon, Citron, Acacia, Calceolaria, Passiflora, Gloxinia, Gladiolus, Amaryllis, Cactus, Erica, and of all other desirable Genera, will be supplied at the lowest rates.

DAHLIAS.

A very select collection of 200 varieties, comprising the most splendid and rare, will be supplied at moderate rates as per Catalogue No. 3.

BULBOUS FLOWER ROOTS.

The collection is very large, and comprises all the choice varieties of Hyacinths, Tulips, Crown Imperials, Fritillaries, Japan and other Lilies, Polyanthus Narcissus, Double and Single Narcissus, Crocus, Gladiolus, Snowdrop, Snowflake, Iris, Ornithogalum, Scilla, Allium, Ranunculus, Anemone, Cyclamen, Amaryllis, Ixia, Lachenalia, Zephyranthes, Oxalis, Ant'olyza, Alstræmeria, Arum, Colchicum, Brunsvigia, Crinum, Dens Canis, Feraria, Hæmanthus, Pancratium, Tuberose, &c., &c.

Every class will be supplied at very moderate rates, with a large discount to vendors. All the details as to prices, descriptions, and directions for their culture, will be found in Catalogue No. 3.

GARDEN AND FLOWER SEEDS.

The Catalogue of this department is very extensive, and we announce to all vendors of Seeds, that we will supply every variety desired at very low wholesale rates, our prices being from 25 to 50 per cent. less than are usually charged, our desire being to present great inducements to those who will make prompt or sure arrangements for payment. We also supply them put up in retail parcels at \$30 per 1000 parcels.

GENERAL REMARKS.

Persons who may not have our whole set of Catalogues, or those of the latest edition, may from not seeing some articles enumerated therein, infer that we cannot supply them. We have therefore to state, that we obtain all desirable new Fruit and Ornamental Trees, Shrubs and Plants, with the greatest despatch, and are always among the first to have them for sale, whether announced in our Catalogues or not.
