WMCZ's photo programmes

- Started in 2011 as *Mediagrant*
- Aimed to photograph villages, Jewish monuments, Natural reservations, Events etc.
- The goal was to illustrate Czech Wikipedia articles without any photos
- Participants got their travel expenses covered

2.

Czech Municipalities Photographs

- Largest and oldest photo programme

- Initially there were more than 15 000 municipalities without an image
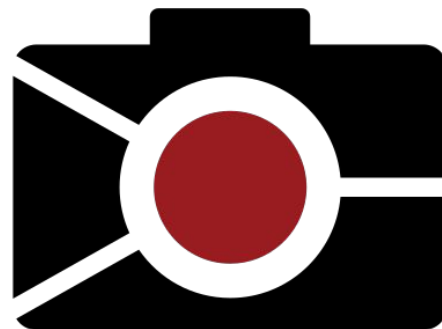

- Many of those were covered thanks to WMCZ's support

3.

We photograph Czechia

- Fusion of all former WMCZ's photo-programmes

- Aiming mainly on unphotographed Wikidata items

- Low-threshold access for newcomers' participation

- Easy to participate using eg. WikiShootMe

- Photo contest for engaging newcomers and expanding awareness of Wikimedia projects
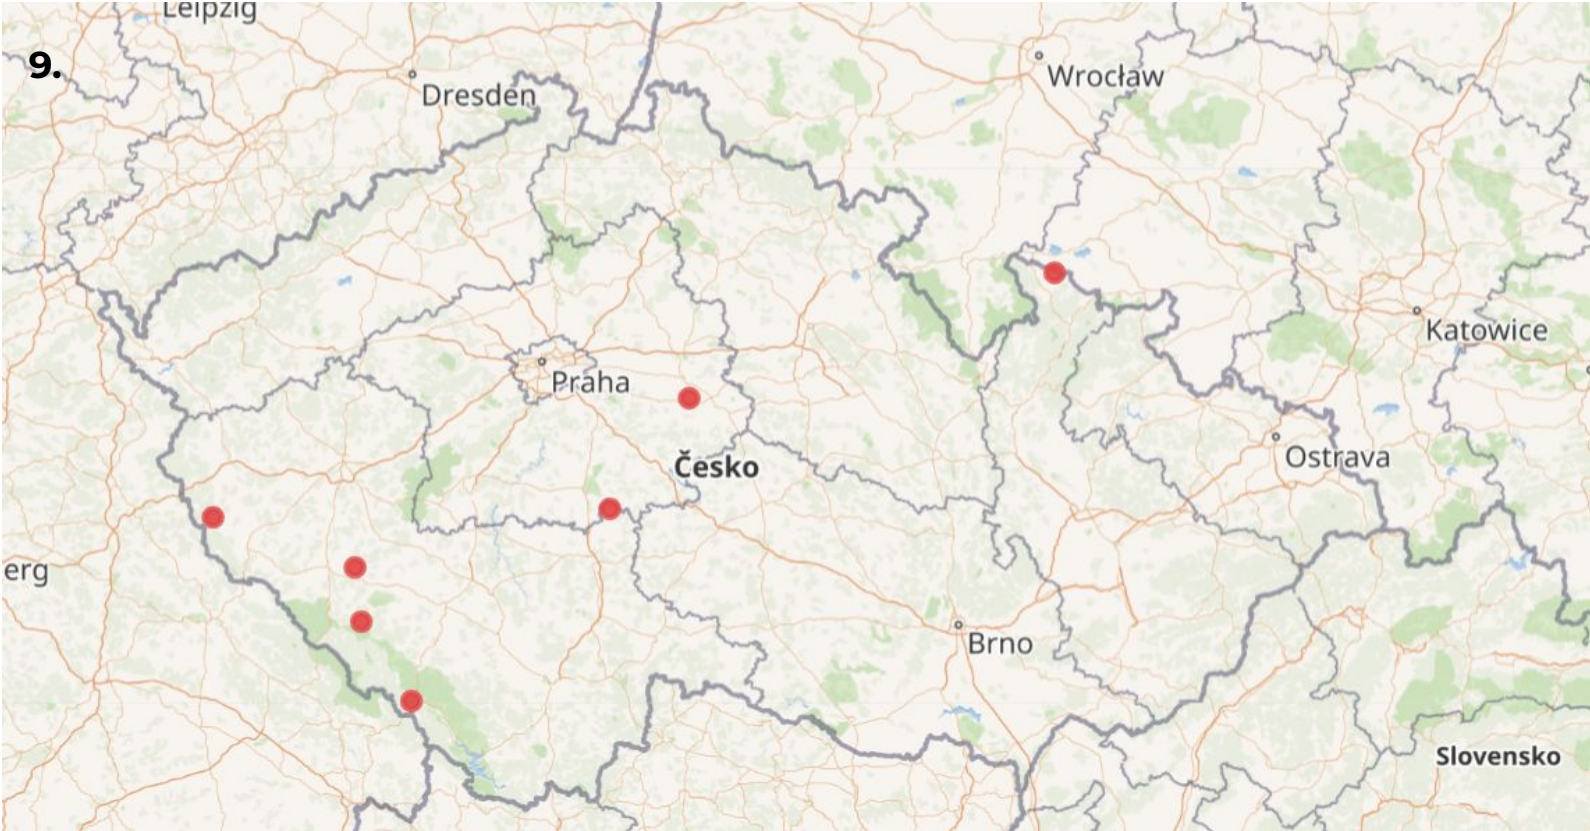

- More than 10 000 in 2022
