“Importations from JAPAN.”

LILY BULBS.

Special Notice.

We have found it of the greatest value, especially with retail customers, to have pictures of the divers flowers, bulbs, or roots, which we offer for sale. Many sales are made by showing the purchaser a CORRECT painted picture representing the flower which the bulb, root, or plant will produce. To this end we show pictures of almost all articles offered in this list. We guarantee these pictures in every instance “true to nature.”

*Tree Paeonias.

These beautiful shrubs are growing yearly more in favor. They adapt themselves especially for forcing for **Easter Pot Plants**. For that purpose we would recommend them "SPECIALLY." The prices realized from them at Easter guarantee the buyer a GOOD profit. They are easily cultivated, and we will, with every purchase send special **Cultural Directions** and forcing methods used in Japan whereby the LARGEST flowers will be obtained.

To have them in flower for Easter give your order not later than September—October. We will deliver the plants during November—December, when they are entirely dormant, and SAFEST to import.
