TORNADOES CLAIM FORTY-TWO LIVES LATER REPORTS MAY INCREASE DEATH ROLL Village in Texas Wiped Out—Property Loss Exceeds \$1,000,000.

(Times Leased Wire.) Brownwood, Texas, May 31.—Thirty-two lives were lost in the tornado that wiped out the little village of Zephyr, in Brown county, yesterday. The number of seriously or fatally injured will reach nearly a hundred.

The storm, which was one of unusual violence, cut a swath through the town and left a path of death and destruction in its wake. More than fifty homes were demolished, and many of these were destroyed by a fire which was started by lightning. That the list of casualties was not much larger is attributed to the fact that hundreds of persons, receiving warning of the coming of the tornado, took refuge in storm cellars.

The fury of the elements is unparalleled. The hillsides of the little village are covered with debris, carcasses of animals and fowls. Bodies were carried for long distances, and many were found twisted about trees and bent and broken in a fearful way.

Relief trains were hurriedly dispatched from Brownwood, and to-day the homeless and injured inhabitants are receiving every care.

Among the dead in County Clerk T. T. Cahler, of Brownwood, his wife and two children. Thirty-eight Bodies Recovered. Brownwood, Texas, May 31.—Officials of the Santa Fe railroad announced this afternoon that 38 bodies had been recovered from the ruins of Zephyr, which was wrecked by a tornado early yesterday.

FLIES 900 MILES THROUGH AIR ALL RECORDS BROKEN BY COUNT ZEPPLIN Collision With Tree Ends Flight Which Lasted Over 40 Hours.

(Times Leased Wire.) Goppingen, Germany, May 31.—Having broken all aeronautic records by remaining aloft 40 hours and 15 minutes and covering approximately 1,000 miles, Count Zeppelin's wonderful voyage through the air came to an end here to-day when his great airship Zeppelin II, collided with a tree and stove in its bow. It is not known how seriously the airship is damaged.

The count made a landing earlier in the day at Unterturkheim, a suburb of Stuttgart, to take on a fresh supply of petrol. He immediately reascended and started in the direction of Friederichshafen, where he ascended Saturday night.

Making his way over Necker Valley he passed Esalingen at 9.45 a.m., Plochingen at 10 o'clock and Kirchheim at 10.45.

The flight was over a zigzag course, and it is impossible to determine its exact length.

Will Repair Airship. Stuttgart, Germany, May 31.—Count Zeppelin and his companions on his record-breaking airship voyage were not injured when their machine was

wrecked by striking a tree near here early to-day. The machine was so badly damaged, however, that the aviator will not attempt to continue the return journey to Friederichshafen, at which point the ship ascended Saturday.

Mechanics from Zeppelin's shops at Friederichshafen are on their way here and will commence work on repairing the airship without delay.

In a statement issued here Count Zeppelin declared that the mishap proved nothing with regard to feasibility of aerial navigation and that it merely taught him a lesson which would be of profit to him in the future.

The count estimates that in the forty hours and fifteen minutes his ship was aloft it was travelling at an average rate of 2 1/2 miles an hour, making the entire voyage approximately 900 miles in length.

There will be time for quite a number of these impromptu speeches, and they ought to be quite interesting.

## SEAMEN COMPLAIN OF CAPTAIN'S HABITS

Charge Brought Against Men by Master of Ship is Dismissed.

"The accused are acquitted," said Magistrate Jay at the close of two hours and a half hearing into the charge brought by Captain Hans Wagner, of the German ship Eliza Lihn against nine of his crew named Joe McAlpine, an American, John Sells, Sam Colban, W. J. Holmes, James Dempsey and George Ward, British, and Olaf Nord, H. Meier and Arturo Ferraro. The case was heard in the provincial court this morning, where the men were arraigned for wilfully disobeying the lawful commands of the captain.

The charge from the evidence of several of the seamen is the result of disgraceful scenes on the ship while on the way up the coast from Astoria. The climax was reached when the captain celebrated his birthday dressed only in a bottle of rum. On arrival in port Thursday the men made a demand to be let ashore to get legal advice. The captain refused the request and after an investigation had been held by the German consul into the conduct of the crew, the captain, Wagner asked all who had grievances to go aft. They were arrested on Saturday afternoon for refusing duty. No command had been given, the men said.

Five of the nine accused men gave evidence of what took place on the way up the coast. Their story was that the ship was not to live upon. The men were afraid of the captain, who, according to the evidence, had fourteen distinct drunks on the way up. He had also stood round the poop with a shot gun and when the dead body was recovered from the hold and lay on the hatch, the captain, in the words of witness McAlpine, "got heated." Five of the men admitted they were drunk but had counted fourteen drunks against the captain himself. He considered it a dangerous ship for the lives of the crew.

W. J. Holmes, a Scotch engineer who shipped as seaman, said in his evidence: "I have never been in jail in my life, sir, and I don't want to go to jail, but I will before I will risk my life by going aboard that ship again." George Ward, cook, said he had been twenty years at sea, and had never seen such a ship in all his experience. When drunk the captain was mad, he said. He desired to get some satisfaction regarding the mysterious death of the boy, but since coming to port had been unable to get satisfaction from the German consul. In cross-examination he said "The boy was a British subject and I want his death investigated. The circumstances of his death are very mysterious. I consider the inquiry made a regular farce. The captain is mostly drunk at sea, and uses the crew in every way, shape and form. The second mate helped get the men drunk and on one occasion the captain while drunk knocked out five men."

All the witnesses agreed that no order had been given them Saturday afternoon to take their things and go to the dinner hour, but they had been told to take their things and go to the dinner hour. The captain had also shown animosity to the first mate so that the which had formed a body secretly to watch over him and see that no harm was done him. When the enquiry took place before the German consul the witness, Sells, said the consul had refused to place the mate on oath. The captain had refused them shore leave.

In his evidence Captain Wagner swore he had never been drunk on the voyage. Richard Lowe, appeared for the men and C. J. Prior for the captain of the ship. At the conclusion the men were told they would have to go back to work, otherwise a charge might be laid against them.

The Rev. the Hon. Thomas R. Henegge has been gazetted as chaplain of the Fifth Regiment with the honorary rank of captain, vice Rev. H. St. J. Payne.

The mission band of St. Columba Presbyterian church, at Oak Bay, held the last social evening of the season on Friday night. A splendid programme was given.

Inspector-General Lake, of the Canadian militia, will be in Victoria next week. He will inspect the permanent and militia forces here. The Fifth Regiment will be inspected June 11th.

The death occurred yesterday at the Royal Jubilee hospital of Mrs. Mabel Sears. Deceased was born in the United States and was 28 years of age. The remains have been removed to the Hanna parlors. The funeral arrangements will be announced later.

The report that the steamers Georgia and Lonsdale will be withdrawn from the Canadian-Mexican service at Victoria is denied by the officials of the company at Vancouver. It is understood that they are to be kept on the run until the end of the year.

## FIRE BRIGADE RECRUITS.

Chief Davis Put New Men Through Test Before Accepting Them Provisionally.

Twenty-eight applicants for admission to places on the fire brigade were on Saturday afternoon put through a preliminary test by Fire Chief Davis in the presence of the fire wardens and members of the city council, and the following were placed on the force on probation prior to the appointments being made to the force: Sidney Rodman, R. S. Daykin, W. H. Richard, J. E. Eves, Alfred Eves, Theodore Tomerson, J. Barton, D. McKenzie, Alex. Munroe, E. Murrant and A. H. C. Phipps.

The men were put through various tests. First a jump was made from the top of the B. C. Pottery Works to the life-saving net. Ladder drill was tried and many other tests, and the chief expressed himself well satisfied with the exhibition given by the recruits, naming them a smart lot of men.

The men when appointed to the force will be given regular drills and undergo manual training, besides regular lectures on routine works of the department.

The onlookers were given a chance to witness the men training the aerial ladder, which was accomplished in a few seconds over one minute. The truss ladder was raised in 17 seconds.

A large red motor car turned turtle in the neighborhood of Parsons' bridge yesterday afternoon. None of the occupants of the machine was seriously hurt. A broken steering bar caused the trouble.

A shower will be held in the James Bay Methodist church on Wednesday evening next, under the auspices of the Epworth League. The young people are doing their utmost to make this a huge success and it is hoped that a good number will turn out and bring something to help furnish out new parsonage. A splendid programme has been provided and a good time is assured all those who attend.

### DEPEW OBJECTS TO GERMAN INFLUENCE

Says Document Regarding the Tariff is Attempt to influence Congress.

Washington, D. C., May 31.—In discussing whether or not the communication from the German government regarding the tariff transmitted to the finance committee by the state department, should be accepted as accurate testimony, Senator Depew of New York on Saturday declared that the document was an evident attempt on the part of Germany to influence the senate of the United States.

The report from the German government, which aroused the discussion, contained many anonymous statements. Depew ridiculed the spectacle of the senate of the United States, supposedly constructing a tariff to meet the requirements and necessities affecting domestic industries, yet finding a foreign government entering through a senate committee to assist or obstruct the consideration of a measure.

"If Germany were preparing a tariff bill," he declared, "an American manufacturer's competitors should appeal to President Taft to send statements and figures to the German government having a bearing on the legislation, it would lead to consequences more serious than any international difficulty that has ever arisen between the United States and a European power."

Depew then referred to the evident effort of Chancellor von Buelow to influence congress by forwarding a statement so far-reaching in effect and particular in detail, that it even entered into a discussion of a tax on razors.

"The spectacle," he declared, "is simply that of the German government sending here to tell the congress of the United States what it must do."

Depew's arraignment of the German communication and the motives behind its presentation was the result of a request by Senator Nelson, of Minnesota, that the report of the German government to the state department be printed as a document.

Senator Aldrich objected, contending that the communication was in the nature of diplomatic information and hence confidential.

### INDICTMENT OF MAYOR OF TACOMA QUASHED

Prosecuting Attorney Will Not Appeal From Superior Court Decision.

Tacoma, Wash., May 31.—The indictment recently returned by the grand jury against Mayor John W. Linck fell flat under a decision rendered by Judge Easterday of the superior court. The case against the mayor is ended, for the court quashed the indictment and the prosecution states that no appeal will be taken.

The indictment charged Mayor Linck with having failed to enforce a city ordinance against the operation of a restricted district. Bond was given upon the day in indictment was returned and the case came up upon a demurrer, to the indictment. City Attorney T. L. Stiles, who argued upon the demurrer, stated that sufficient facts were not set forth in the indictment to constitute an offence, and that four separate alleged offences were improperly joined in the indictment.

The court ruled that the mayor is an executive officer and is entitled to use his discretion upon matters similar to that in question. The court also held that the indictment failed to describe in manner or place of the alleged offence. It is required by section 7213 of Ballinger's code, upon which the indictment was based.

City Attorney Stiles argued only upon the first point of the demurrer because of the court's ruling relative to the mayor's attitude of discretion. Prosecuting Attorney John L. McMurray appeared for the state and announced that the court's ruling was final and that the matter would not be taken on appeal to the higher court. Under a subsequent order from the court the indictment was dismissed, the mayor's bail exonerated and the case thrown out of court.

### MYSTERY SURROUNDS DUEL AT VIENNA

Statesman Reported to Have Wounded Himself in the Head.

Vienna, May 31.—Friends of the two statesmen who engaged in a duel over "Une Affaire Politique," are laughingly differing over the details of the meeting of the fire-eaters.

Some detractors of Herr Malik declare that gentleman became so nervous when he faced Baron von Lollberg that he shot himself slightly in the forehead. Others aver that neither desired to have the blood of a fellow-creature upon his hands, so after a toss of a coin, the loser shot himself slightly and honor was satisfied. One thing is certain, however, that is that Herr Malik has a flesh wound in the head, and the statesman and nobleman are now the best of friends.

### THIEVES DIG TUNNEL UNDER JEWELRY STORE

Remove Window Flooring and Escape With Diamonds Valued at \$1,500.

Ely, Nev., May 31.—After digging a tunnel twelve feet long from the basement of Tex Rickard's saloon to a spot directly beneath a show window of the Clark and Lindskog jewelry store in this city, thieves removed a portion of the window flooring and secured diamonds valued at \$1,500 that were on exhibition. The robbery happened while Lindskog, one of the proprietors, stood within twelve feet of the window.

The basement in Rickard's saloon, from which the operations were based, is used only by a Chinese porter, and the thieves were able to work upon their tunnel without fear of detection. It is thought that the excavations beneath the show window required several days' work.

Between the time of the robbery and the discovery that the gems were missing, the thieves had ample time to escape. Lindskog said that he heard peculiar noises near the window, but thinking they came from the street, paid no attention to them. A passerby on the opposite side of the street stated to-day that he saw a hand groping about the window, but believing it to be a shadow, gave it no further thought.

Police officers and detectives employed by the jewelry firm are at work on the case. The robbers did their job in a workmanlike manner and left no clue. The whole case is surrounded by mystery and the officers are at a loss to know where they will begin their investigation.

### WAR CONDEMNED BY PRESBYTERIANS

Resolution is Unanimously Adopted by the General Assembly.

Denver, Colo., May 31.—Atlantic City was on Saturday chosen as the next meeting place of the Presbyterian General Assembly. After a spirited debate lasting two days, the question of representation in the assembly by synods instead of by presbyteries, as is now the custom, was referred to the presbyteries for decision.

A resolution condemning war in all its phases and branding it as an unqualified evil, was adopted almost unanimously.

Bishop Perrin absolved the Colonist from criminal responsibility for the utterance of that forged telegram. The Times has never gone so far as that in its comments upon this notorious case, condemned by the church courts of all denominations, denounced by the press of all Canada irrespective of political leanings, and discountenanced by the leader of the party who gained a following as a result of it. We doubt not that Dr. Perrin, after the manner of all men who take an intelligent interest in public affairs, has his political opinions, but we should hesitate to do him the injustice of supposing that he would rejoice in the triumph of his political party, or the candidate of his party, by such methods as were adopted by the organ of the Conservative party in this city during the late election campaign. Holding such views of the Bishop's character, we must confess it was a shock to us, as it must have been to all lovers of truth, justice and honorable dealing, even in politics, when the announcement was made by the Colonist that it had received Episcopal absolution from the moral consequences of its crime.

If Bishop Perrin had been a man of the world, when the penitent whose sin was greater than he could bear alone expressed a desire to confess the thought would at once have occurred to His Lordship, "there is a new and more reprehensible phase of that forged telegram matter." On the alleged culprit pleading that his confession should be made public for the benefit of the injured and innocent Colonist, the Bishop's natural suspicions about the forgery have been confirmed. The various lies and innuendoes of them more heinous than the forgery itself, which had been appearing in the Colonist from day to day during the campaign, which Bishop Perrin, being a politician, had doubtless read, there had added conviction had there been any doubt. But the Episcopal heart was free from guile. In this case the snare was not vainly set within sight of the bird. Hence—all this political ecclesiastical scandal and turmoil, which the Times regards possibly just as deeply as the Bishop and his chivalrous defenders.

There is just one way to bring the scandal to an end and to finally clear up the matter. His Lordship now knows as well as any one that he was made a dupe and partner in one of the most disgraceful affairs in the political history of Canada. He knows as well as we know, as well as every one knows, who the real criminal is. Having been led into trap by his own hurt and to the grievous injury of the church of which he is the honored head—having been deceived, any honorable obligation to shield the culprit has been lifted. Will Bishop Perrin do his duty?

as the public to guard against accidents. If the rules and regulations designed to insure the safety of passengers were invariably observed, and if the public using the streets were not sometimes absent-minded and failed to notice approaching cars, there would be few accidents save such as human foresight could not avoid. While deploring the untimely fate of the Cameron boy and sympathizing deeply with the mourning relatives, we do not see that any good purpose can be served by further discussion of the case.

The deplorable feature of the case of His Lordship Bishop Perrin is that as the head of the Anglican Church in British Columbia he (the Bishop) has, innocently as we believe, identified himself not only with an offence against sound morals and the statutory law, but with all the iniquities of which the Colonist was guilty during the late election campaign. It is unfortunate for the Bishop and the church that he should have been inveigled into even an appearance of condoning and approving such a series of dirty transactions.

**AUTOMOBILE EXPERIMENTS.**

(Montreal Star.)  
The American Automobile Association, co-operating with the United States Office of Public Roads, will hold a series of tests in June to discover the effect on road surfaces of cars of different weights run at different speeds. The tests will be made on ordinary macadam roads, and then will be repeated on a road especially prepared to resist the wear of the machines. The idea is to discover and demonstrate the sort of road which will best stand the wear and tear of automobilizing. What has especially stirred the motorists up to this course is the policy of American State Legislatures in taxing motor cars in proportion as they damage roads.

That would be a fairly good plan to adopt in Canada. If automobile owners were taxed with a view to using the money thus raised to repair the damages they inflict on the roads, we would interest them in agitating for roads which will stand the pressure and would also get a fund for giving the provinces good roads. Motorists should be foremost in desiring roads which will carry their machines with comfort.

**What Other People Think**

REV. C. E. COOPER'S RED HER-  
RING.

To the Editor: Your correspondent, Charles E. Cooper, has been "dragging a red herring across the scene" in the shape of an "ex-priest" and his (the ex-priest's) unsavory personalities, which no one believes. Still, even this nasty "pick of chaff" might be blown away and disclose "a few grains of wheat" to his credit, his original offence of the Colonist and all the trouble and disgrace it involved.

Your correspondent has evidently written under excitement, when he represents all your anonymous correspondents (in an admitted case of forgery) as "scurrilous" and only worthy of "silent contempt," although merely stating facts and asking why the law has stagnated. There has been lots of plain speaking in the Times by your correspondent, but I deny the right of Charles E. Cooper to accuse them as a body of scurrilosity or to treat them with "silent contempt," thanks to your strict supervision. That I say advisedly, as I remember a letter in the Times from which you eliminated an objectionable sentence of some kind, with apologies for so doing, which saved the situation.

Far and near the press has agreed with the Times and its anonymous correspondents, and within a similar range condemned the Colonist and everything connected with this distasteful case, and met with "silent contempt" from your contemporary. It is rather late in the day for a sentimental cry of sympathy, when

nothing of the kind was wanting. Or to snub anonymous correspondence which has of late years become customary by all newspapers, at home and abroad, except the Colonist.

**CITY AND ESQUIMALT CO.**

To the Editor: Your editorial on the water question, in Friday's issue, was read with a great deal of satisfaction. It is satisfactory to learn that the purchase of the property of the Esquimalt Water Company cannot be completed without a vote of the people, as a rumor was in circulation that under the legislation made before the Mayor and council had been given the power to complete the deal without consulting the voters of the city.

There is another question upon which the Times might throw a little light. In the event of the council rushing into an arbitration over the matter, as you state it is very likely to do, and in case after such proceedings take place, the public vote the money for the purchase of the property, as they are almost sure to do, who is to pay the cost of the arbitration? We have been assured by one amount to \$25,000. If the Mayor and aldermen are bull-headed over the matter and are determined to rush into an arbitration without first testing the feeling of the people, is there any way they can be made to pay the expense of the arbitration proceedings out of their own pockets?

It was amusing to read in the report of a late council meeting, where one of the aldermen from Ward One solemnly declared that it was necessary now to proceed to arbitration regarding the matter, otherwise people might think that public money was being expended for no purpose. It is interesting to note that the alderman who said this, an arbitration costing the city \$25,000 is now necessary to save the official dignity of certain of our aldermen. Alderman dignity evidently comes high, but we must have it, according to this gentleman's idea.

The position taken by Aldermen Stewards and Fullerton when this franchise was granted to the council, upon the ground that it was a monopoly and a violation of the public rights, is a position which is well known to all. People who go stealthily to the legislature and secure franchises giving them a monopoly of certain necessities of life, and then seek to unload that franchise upon the public, are a class of men who should be looked upon with justly deserved contempt. Where the public rights had been infringed by such franchises and where public interest demanded it, it would be legislative enactment to cancel all such monopolies as readily as I would strip of my plunder the creature caught robbing my hen-roost. Justice no doubt demands that a such persons be paid the amount of actual injury done, together with reasonable interest, but justice does not require us to pay any fancy price for a franchise or monopoly which cost the present holders nothing, and which was granted either by a mistake or through the carelessness of a former legislature.

The value of any franchise is created by the people who patronize the enterprise. Why then should we pay a price for a franchise or right which was originally ours, which was taken from us without compensation and without our consent, and which had no value except as we create it by our patronage? Again, it would seem as if there should be no private ownership in water running to waste. It is a part of nature's free gifts to man. When such water is needed for man's use he should have the right to take it without money and without price. All laws which prevent the exercise of this right, together with those which protect monopolies, and permit a hold-up of any people, are unjust and need amending. If the present legislature will not amend them in the interest of the general public, let us elect one that will.

**BISHOP PERRIN AND THE FORGED TELEGRAM.**

Rev. C. E. Cooper's chivalry in entering the lists as champion of the cause of Bishop Perrin is worthy of admiration, and will be admired none the less because the case of His Lordship, so far as it has to do with the notorious forged telegram, is quite indefensible. It is quite true that many of the communications the Times has received dealing with the subject have travelled somewhat wide of the mark—have said things which it would have been well to leave unsaid. Many more have been rejected entirely because the writers appeared to be moved by a desire rather to stab a Churchman than to condemn a criminal act and accessories in that act. But the fact of the forgery itself and the circumstances which followed that crime indicate how completely men—sometimes even saintly men and Bishops—may be carried away and led to forget their duty to themselves, to their fellow-men and their church, by political bias.

The Colonist says the root of this matter is all political spite. This is an unfortunate admission, because it brings His Lordship Bishop Perrin directly into the political arena and indicates the nature of his political sympathies. It gives his connection with the forged telegram incident a more serious aspect than that connection were previously. It implies that because of his political inclinations

WOMEN'S COUNCIL.

Special Meeting Was Held to Consider Entertainment of Visitors This Summer.

A special meeting of the Women's Council was held on Saturday afternoon to consider the best way of entertaining the delegates from the National Council of Women who will be in Victoria on the thirteenth and fourteenth of July.

Among those present at the meeting were: Mrs. Croft, Mrs. Grave, Mrs. Hay, Mrs. Gavin Burns, Mrs. Van Sant, Mrs. Whittier, Mrs. Mary, Mrs. Fitzgibbon, Mrs. Stuart, Mrs. Robertson, Mrs. Gould, Mrs. Spofford, Miss Crease, Mrs. Hasell, Mrs. Cooper, Mrs. Reid, Mrs. Spofford, Mrs. Pickard, Mrs. Levy and Mrs. Lewis.

Mrs. Gould reported that the finance committee had interviewed the mayor and secretary of the Island Development Association. The mayor had promised a civic reception and Mr. McGaffey had promised an answer in a few days.

Mrs. Hasell urged that Victoria should not be behind other cities in entertaining the distinguished visitors.

Mrs. Fitzgibbon spoke of the great influence which the visit of women as prominent in other countries would have on the future of the province of British Columbia. Nothing should be left undone that would create a favorable impression.

Mrs. Fitzgibbon and Miss Mara were appointed a committee to write letters to those whose co-operation was desired, showing why their coming was of such great importance.

It was also decided that letters of invitation should be sent at once to individuals or bodies asking them to take part in the formal reception of the delegates on their arrival.

Mrs. Henry Croft was appointed convener of the entertainment committee.

Mrs. Cooper, Mrs. Gavin Burns and Miss Crease were appointed to act in conjunction with the executive of the Alexandra Club for the entertainment of the delegates from Australia, if they should remain in Victoria. The Australian boat is due to arrive on June 2nd, but may be in port to-morrow.

—A dance will be held on Wednesday evening in the A.O.U.W. hall by the Pythian Sisters. An orchestra of four pieces has been engaged to furnish the music and a good programme of dances has been prepared by the Sisters.

FEW ERRORS BY LOCAL NINE

SCORE TWELVE TO OPPONENTS THREE

Players Bat Six Runs in the Eighth Against Knights of Columbus.

Twelve to three with Victoria on the long end of the score was the result of the ball game Saturday when Victoria nine recovered their reverses by high grade ball against the Knights of Columbus from Seattle at the Royal Park diamond.

The story was one of victory with the climax of six runs in the eighth, when twelve men went in to bat for Victoria and batted Codd all over the lot. In the fifth innings four home runs were rung up at the finish. Seven of the nine men in the team scored, Plummer with four, Wattleit and Matthews with two each, and Klopff, Moore, Northcott and Pegen with one apiece. Wattleit retired five men with catches at left field. Burns was responsible for three, Moore for two, and Robertson, Surplice, Plummer, Klopff and Northcott caught one each.

Victoria went through the game with but two errors, the worst of which was in the fourth, when Fredell lined into the left field and got first and stole second, Kelly walked when Sexton bunted, and advanced the other two, while making first, Murphy struck out when Lawless bunted, and Surplice threw to Robertson, who passed, letting in Fredell and Kelly. Sexton fell trying to get home on Carrigan's bunt, and Burns caught McCarthy centre field. In Victoria's fifth Peden bunted and forced Burns to second, where he died. Wattleit bunted to first and got there, rolling over Fredell and the ball, while Peden made third, Wattleit stole second and Plummer walked, filling the bases. Matthews hit to short, while Wattleit and Plummer advanced and Peden came home, leaving the bases still full. Klopff hit a three-bagger, which passed left field and brought in Wattleit and Plummer and Matthews. Klopff tried to steal and died, and Robertson fell at first. This made four runs in the most eventful innings, except the eighth. With the score six to two in their favor Moore went to bat

LOW SCORES MADE AT CRICKET MATCHES

Victoria Club Teams Win Both Games From the Albions.

Victoria Cricket Club scored its first win Saturday from the Albion eleven at the hospital ground. The Albion eleven was beaten by five wickets and 148 runs. The grass was long and the wicket in poor condition. Albion went first to bat and was disposed of for 25 runs. Broadfoot with 9 runs being top score. Gooch secured eight wickets. Victoria, at a loss of five wickets hit up 173, L. York with 52 being top score. Gillespie 9, Martin 42 and Benson 23, were the other double figure scores.

Albions Second Besten. Poor bowling and worse batting were shown at the second eleven match on Saturday between Albion and Victoria second teams, played at Beacon Hill, where the scores for two Albion innings and one Victoria innings combined only totalled 111 runs. Only three men of thirty-three batting got into double figures. Heycock for Victoria made 25 not out; Gregson for Albion carried his bat through the innings and made only 14 and Grimmon for the Albions scored 10. Victoria won the game on the first innings, scoring 45 against 29. In the second innings Albion hit 39.

NANAIMO WILL TRY FOR TROPHY Citizens to Subscribe to Send Football Team to Calgary.

Nanaimo football team determined to have a deciding match with Calgary for the People's Shield. Business men of the city have organized for the purpose of soliciting subscriptions and it is suggested that \$1,000 be raised for the purpose. Meantime the secretary of the Nanaimo club will challenge Calgary for the shield, and obtain whatever information is necessary concerning the rules governing the competition.

Referring to the recent decision of the B. C. F. A., the Nanaimo Free Press says: "The more one looks into the action of the B. C. F. A., the more absurd it appears. The only proper thing to do is to ignore it altogether. What Nanaimo club needs to do and do at once, is to get from some reliable authority the history of the two associations. It is all very well for the mainland people to arrogate to themselves the rights of a senior body. It is just what might be expected of them. The point is where is their authority?"

"Nanaimo United is absolutely safe in referring their case to the Vancouver Island Football Association. They are playing in the league of that association for that association's trophy, under the association's rules and laws. What has the B. C. F. A. to do with the Island association, its league, its cup, its rules and constitution? Nothing.

"All that the B. C. F. A. does possess is a cup. Where did it get the cup? Purchase it? No. The Garrison club, which swept everything before it, both on the mainland and the Island, put up the cup to commemorate its connection with football in the province. With the beginning in charity, this association now claims seniority and arrogates to itself the right of saying how the Island association shall play for its own league trophy. And this would-be all-powerful organization is sufficiently assinine to declare a league competition and a cup competition one and the same competition."

SHERRING DEFEATED BY SHRUBB AT 15 MILES

Svanberg, Swedish Champion, Wins Marathon Race at Chicago.

Buffalo, May 28.—Alfred Shrub, the English distance runner, easily defeated William Sherring, of Hamilton, Ont., winner of the Athens Marathon, in a fifteen mile race at Baseball park this afternoon. The race was run on a six-lap track on the turn. Shrub won by a little over three laps, or half a mile in 1:25:08.

Sherring finished the first and second mile a yard or two in front of the Englishman, but after that never looked dangerous. There was a game struggle for supremacy in the third mile, when Shrub went out to get a lead. Sherring followed in every sprint, but the fleet-footed Englishman steadily drew away, finishing the third mile 20 yards in the lead. The time for this mile, 5 minutes 3 seconds, was the fastest of the race. Shrub made it a full lap in the third round of the fourth mile, and added another in the ninth. In the fourteenth mile gained a third lap, and finished with a sprint a little over half a mile ahead of Sherring.

Svanberg's Victory. Chicago, May 28.—John Svanberg, the Swedish champion, won the International Marathon Derby, 26 miles 385 yards, to-day against a field of eight of the world's best long distance runners. The champion's time was 2 hours 45 minutes and 11.5 seconds, more than 3 minutes slower than Henri St. Yves' time in the New York Marathon.

St. Yves led until the fifteenth mile was passed, when he was forced to drop out because of a blistered foot. He was fifty seconds ahead of Svanberg. The Swede passed him in a sprint and St. Yves fell. It looked as though Svanberg had tripped the Frenchman, but St. Yves explained that he had tripped on the track, that he could not have run any further anyway.

Johnny Hayes finished second in 2:57:25, and Fred Appleby, the Englishman, third in 3:01:25. After the accident to St. Yves, Svanberg kept the lead until the end. Tom Lombard, the Canadian Indian, dropped out of the race after the fourteenth mile. He explained that he felt the effects of an old sunstroke, and did not dare run any more. The others who finished in order were: Matt Maloney, fourth; Simpson, the Ojibway Indian, fifth; Alex. Thibau, the Chicago amateur, who turned professional for this race, last.

CRICKET. NANAIMO ORGANIZES. A well-attended meeting of the Nanaimo Cricket Club was held recently, when arrangements were completed for the opening game of the season which will be played in that city on Saturday, June 12th, with the Vancouver Cricket Club. BATTLING NELSON RETAINS TITLE

Defeats Dick Hyland in Fight Which Lasted Twenty-three Rounds.

San Francisco, Cal., May 29.—Batting Nelson, of Hesperwich, Ill., champion lightweight of the world, retained his title by defeating "Fighting Dick" Hyland, of Grass Valley, Cal., in the twenty-third round at the Colma arena this afternoon. Nelson scored his victory after his supremacy had been seriously questioned by his opponent, who was not knocked out until he had lost all his force and vitality through punishment of the most severe character. Throughout a dozen rounds Hyland and the champion hammered each other with vicious swings and uppercuts that cut short all promise of a forty-five-round contest. In the early stages Hyland was the master, although it could not be said whether or not Nelson was extending himself. During the last three rounds, however, the Dane, disregarding all Hyland's efforts, went after his opponent without an instant's rest, knocking Hyland down three times after time and between times staggering the game Californian with blinding volleys of right and left hooks to the head, varied by an occasional crushing straight left to the stomach.

In the final round Hyland was almost at the champion's mercy, although he continued to offer all the resistance he possessed. He was in sore need of his seconds' assistance, when Nelson finally sent a crushing left hook to the pit of his stomach, ending the fight. Nelson frequently offered his face as a target while he tried for body blows, but only after the fight was half over, and after he had been subjected to every form of punishment that Hyland could administer. Until the climax the Grass Valley fighter had confidence in himself, meeting rush with rush, clinch with clinch, and generally carrying the fight to his opponent. Nelson was hissed continually for his attempts to rough it, and throughout the men exchanged unfriendly comment.

The moving picture machine suspended operations for a considerable period, resuming a few rounds before the finish. The attendance was estimated at 9,000. The receipts were \$18,000, of which Nelson received \$6,500 and Hyland \$1,500.

Nelson and Wolgast. San Francisco, Cal., May 31.—Batting Nelson announced to-day that his manager, Willis Britt, had signed him to fight Ed Wolgast before McCarey's club at Los Angeles during Elks week, July 12th to 19th. It is understood that the Los Angeles fight will be worth more financially to the Battler than his 23 round go with Dick Hyland here Saturday.

It is probable that after meeting Wolgast Nelson will go to Oklahoma where he has a \$5,000 pick-up awaiting him. Following his fight with Thompson here on September 9th Nelson may go to Australia. He has heard that the promoters are waiting over there with hands full of money, and feels that it would be an injustice not to relieve them of their burden.

Middleweight Championship. (Times Leased Wire.) San Francisco, Cal., May 21.—Stanley Ketchel and Billy Papke will settle their long standing dispute over the middleweight championship of the world in a twenty round fight at Cofroth's Mission Arena here on July 5th, according to an announcement made to-day by the promoter. The articles were signed last night by Willis Britt and Ed. Papke, managers for the fighters. The purse is to be \$25,000, of which

**FENCES IN DISTRICT TO BE PUT RIGHT**

**Saanich Council Will Enforce Its Resolutions on Subject.**  
 Saanich council is still agitated over the question of property owners encroaching upon the roads. Some of those who were offending on Cook street have complied with the request of the council to move it back. At the meeting of the council on Saturday night the matter came up again.  
 Councillor Sewall wanted to know if anything had been done in the matter of having the fences moved back on the Cook street fences.  
 The reeve said he had noticed some were moved back. Others were not.  
 Councillor Sewall suggested that as attention had not been paid to the resolutions passed by the council there should be steps taken to enforce them.  
 Councillor Nicholson did not favor resolutions of the council being ignored. It made the council a laughing stock.  
 Councillor Jones advised caution until it was proved that the road highway was in such shape as to give the council power to act.  
 Other councillors pointed out there was no question as to the right of the council.  
 It was finally decided that the road superintendent should see Mrs. French with reference to moving the fence back.

**HARRIMAN'S OPEN-AIR OFFICE.**

**Workmen Busy on Roof of Railway Man's New York Home.**  
 New York, May 31.—Workmen are busy transforming the mansard roof of E. H. Harriman's Fifth avenue home into a complete outdoor office. During the coming summer months anyone wishing to do business with the railroad wizard will be compelled to ascend to the roof and await his turn among the sparrows.  
 Harriman's decision to construct an open-air office is the result of an experiment in outdoor living, tried at the order of his physician. Several months ago while in Texas he lived in a tent and spent much of his time out of doors. His health was benefited greatly. The cost of the alterations necessary to construct the roof office will be about \$30,000.

**CONVICTS ESCAPE.**

**Marysville, Cal., May 31.—Four prisoners escaped from the Yuba county jail on Saturday by breaking through the ceiling of their cells and digging their way through a solid brick wall which surrounds the prison yard. Sixteen other prisoners confined in the jail had an opportunity to make a break for freedom, but refused to leave their cells.**

**JAPAN AND STATES.**

**Admiral Uriu Again Scouts the Idea of War.**  
 Washington, D. C., May 31.—Predicting that the United States, England and Japan would be lined up in opposition to the other powers in the event of war, Admiral Uriu, Saturday, again scouted the idea of a clash between the Mikado's forces and those of this country.  
 The admiral went to Annapolis in the afternoon. He will return to Washington this week and will be tendered a reception at the White House.

**BRITISH MEMBERS FAVOR INDEMNITY**

**By Large Majority Commons Votes in Support of Principle.**

By a majority of 152 in the House of Commons a resolution was passed, in favor of payment of members, says the London Chronicle. J. S. Higham (Liberal) called attention to the question, and moved a resolution to the effect that any measure of general electoral reform should be accompanied by arrangements for the payment of members, and that the treasury should be responsible for the expenses of the returning officers.  
 Mr. Fenwick (Labor), seconded the motion.  
 Mr. Lewis Harcourt said this was a matter which the government were willing should be left to the discretion of the House. Most of them on that side were pledged to the payment of returning officers' expenses, and many of them were also pledged to the policy of the payment of members. But he would not say this he was not prepared to pledge the government as to whether the funds for such official expenses should come from local or imperial resources, or as to the making of provision for the payment of members under present circumstances. They would require, roughly speaking, £200,000 a year, and that was a material consideration in the view of the chancellor of the exchequer. But the material point was not an argument against the policy, which had his warm approval. He saw no degradation in a man being paid for important public services, and it would not make him corrupt by giving him a fair wage for honest work. He should have pleasure in voting for the resolution.  
 Arthur Henderson (Labor), regretted that the government had not made a definite statement on the subject.  
 Sir Wm. Bull (Conservative), held that all the best work in the world was done for love. (Laughter.) While returning officers' expenses should be paid, if they paid members of parliament, they must, if consistent, pay members of local bodies.  
 W. H. Lever (Liberal), contended that the time was never more opportune than the present for giving effect to this proposal. The reform was beyond the zone of debatable argument, and ought to be carried into effect.  
 Swift MacNeill stated that according to history when members were paid parliamentary life was the purest.  
 Hamar Greenwood repudiated the suggestion that the payment of members led to corruption, and said that without the corrupting influence of the drink traffic no one in fifty of the members of the opposition side of the House would be in parliament at all.  
 In the end the resolution in favor of the payment of members was carried by 242 against 92, a majority of 152.

### SEPTIC TANKS GIVE TROUBLE SAANICH COUNCIL CONSIDERS QUESTION

#### Matters Disposed of at Meeting Held on Saturday Night.

The municipality of Saanich is having trouble with the ditches from septic tanks opening on the roads. A report received from the constable complained of sewers on the street causing a nuisance.

Councillor Sewall favored condemning septic tanks, which he held were responsible for the nuisance created. Councillor Nicholson agreed with this. The creamery he said had two septic tanks and found them no good. They were forced by the municipality to cut them off. Others should be treated in the same way.

Councillor Mannix suggested that the council might do as the city did and have the garbage collected and removed to sea.

It was decided to inform those complained of to abate the nuisance. Councillor Mannix called attention to the fact that there had been shooting at Cordova Bay on May 24th. He thought steps might be taken to prevent shooting there.

Councillor Mannix also wanted to know if a foreman had been appointed for Ward 5, as one was necessary.

The reeve said this was left in the hands of the road superintendent.

T. H. Kingscote, as secretary of the Prospect Lake Branch of the Saanich Municipal Development Association, wrote stating that a resolution had been passed by that body asking for an appropriation in removing the dangerous trees and logs from the roadside between points known as Loveland's Crossing and Heals post office.

Councillor Mannix thought the letter was altogether unnecessary. Had those interested seen fit to ask for the work, being done it would have been attended to without all this preamble.

Councillor Nicholson suggested that a body of such importance as this should receive attention.

Councillor Mannix said he felt as the representative of the ward he had been treated with scant courtesy. When anything was referred to him he had always been agreeable to having it done so long as it was in reason.

Councillor Nicholson thought the writer might be informed that the matter would be taken up. It was suggested that probably there was no intention to slight Councillor Mannix.

This course was agreed to. A letter from Mussen with respect to the purchase of a road grader, was received and filed.

E. Nicholson was granted permission to lay a one-inch pipe on the Cedar Hill cross road so as to connect with the city water pipe.

James L. Raymur wrote stating that the city was ready to put in some second-hand five-inch pipe on Tomlie avenue if the Saanich council would pay half.

Councillor Sewall explained the situation. He said that the city had expressed a willingness to pay half the cost of a man-along Tomlie avenue. He believed that it would not be well to stand on dignity because the Saanich municipality was not approached first. It would cost about \$1,000 altogether. The residents had expressed a willingness to do the work under the local improvement system. He thought it would be well to inform the water commissioner of Victoria that the matter would be taken up in a week's time.

Councillor Nicholson expressed the view that the city of Victoria was dealing very generously.

On motion of Councillor Sewall it was decided to lay this over until the next meeting when a petition would be received from the ratepayers.

Luna Bros. wrote requesting that Admiral's road, where it crosses the Colquitz to where it joins Burnside road, be gravelled. The owner of property, Mr. Blackwood, had graded the road, it was stated.

Councillor Jones urged that if the regulations in the way of grading had been carried out the matter should be looked into by the road superintendent. Councillor Hadden said there was no use considering this. There would not be the money to do it.

The road superintendent expressed the opinion that the road graded was not wide enough.

Some criticism of an adverse nature has been heard of the decisions of the referee in the boxing bouts, and the Spokane Athletic Club last night withdrew from the contest because of a decision on Thursday night which gave McVeigh of Seattle a victory over T. McFarland, of Spokane, in the 125-pound class. It was claimed that McFarland out-boxed McVeigh and was entitled to the decision.

### WONDROUS WATERFALLS.

The Victoria Falls of the Zambesi River are graphically described by Lord Curzon of Kedleston in a recent article in the London Times.

The edge once passed, the falls, says Lord Curzon, appear to him "to excel in grandeur any spectacle of the same kind in the world. The cliff-wall-down which they are hurled in sheer-frenzy from top to bottom, 350 feet to 400 feet of perpendicular descent, uninterrupted save where in some places gigantic masses of basalt, split off or eroded by the same process as has formed the chasm itself, lie at the base and shat-

ter the descending columns into a tempest of foam.

"Conceive a black wall, as high as Shakespeare's Cliff at Dover, nearly as high as the Cross of St. Paul's, and over a mile in length, and over the top of this tremendous precipice a continuous cataract of water toppling down from the sky, save in all the three places where larger islands, carrying their growth of jungle right to the edge of the abyss, have protected a section of the cliff and interposed a gleaming surface of ebony rock between the snowy fleeces of the falls on either side.

"In scenery, the surroundings of the Victoria Falls greatly surpass their American rival (Niagara). For every pinnacle and rocky buttress is clothed from top to bottom, at least in the

### CHILDREN ON APPROVAL.

Inauguration of Novel Scheme by Board of Guardians.

A novel system by which children may be adopted on trial has been inaugurated by the Lambeth Board of Guardians. A pretty Swiss girl, called Rosie, was sent from the guardians' schools at Norwood to a would-be father and mother—"on approval."

Rosie is three years old, and is a good-looking child, with black curling hair and dark eyes and very winning ways. Her new home has been inspected by the Adoptions committee and found quite satisfactory.

The new departure is part of an experimental scheme for placing poor

Law children in homes where they will be brought up as members of the family. A short time ago Mr. Burns made the suggestion that "there was scope for an enormous number of people who were comfortably off but who had no children of their own to adopt poor children."

At Lambeth a sub-committee of the School Committee, with three lady members, has recently been formed to take in hand the question of the adoption of children. The new system is one of the first practical results of its working.—London Daily Mail.

The real or Oriental turquoise is only found in mountainous parts of Persia, and owes its name to the fact that it was introduced into Europe via Turkey.

**NATURALISTS HAD ENJOYABLE TRIP**  
**Members of Local Society Made Visit to Woods on Saturday.**  
 The members of the Natural History Society made a very interesting trip on Saturday afternoon around the head waters of Esquimaux harbor. That is one of the most picturesque spots in the neighborhood of Victoria and the "jaunt proved" wholly enjoyable. Hardly any two of the party were on the same purpose bent, while the antiquary investigated the old Indian canoes which are found in that neighborhood, others could see nothing but trees and their peculiarities. Of course there were botanists present who instructed the party in the mysteries of the various families of plants while others collected the plants for use in their gardens. Those who were interested in bird life were rather disappointed as only a few of the feathered kind were to be seen, but there was plenty to engage the attention. The camera man, too, was everywhere photographing most unheard of things. The society meets to-night in the rooms in the Carnegie Library to compare notes and examine some of the specimens collected.

**NEW GRAND THEATRE.**  
 Programme for the Week is a Most Entertaining One.  
 At a cost of over a thousand dollars, the management of the New Grand theatre will this week put on one of the best of the Sullivan & Conside engagements, with five big attractions, the headline of which is the famous Billy Wilden, who will be seen as the colored nurse girl and the bride elect, in which characters he has made more people laugh on the American continent than any single man or woman.  
 Virginia Grant, the lady dainty of the vaudeville stage, will make her first appearance in Victoria with some quick changes in a new kinging specialty. The act is dressed to the best, and aside from the personal appearance of the artist, will be prominent from the costumes.  
 Hormann, magician and entertainer of Royal European courts, is a support of the headlines on his first American engagement.  
 Kelly & Reno are coming with an acrobatic and bumping act that is full of amusement and cleverness. It is novel and something that will be sure to prove a draw in Victoria and the fifth importation is the Faust Brothers, who have travelled the circuit, getting fine notices all over. Their act is a pantomime of comedy.  
 Thomas J. Price will sing "O'Brien Has No Place to Go," which will be accompanied with illustrated slides of the funniest kind. The motion pictures are the newest got out in Paris, where all the good foreign ones come from. They are sensational and comic. Herr Nagel's orchestra has some bright selections to complete the bill. There will be two shows every night and the usual afternoon matinee.

**PANTAGES THEATRE.**  
 Direct from Italy, that land of melody, the Naples Quartette of instrumentalists, have not had time to keep any of the Italian musical atmosphere. Their programme at Pantages theatre this week is composed completely of classics of the most difficult execution and pleasing in sound. Their appearance here will be a treat to all music lovers and should pack the theatre.  
 "Maye, the Wizard," does a most everything known in the line of magic and also introduces the great trunk mystery.  
 Roney & Richards, in a domestic comedy called "The First Quarrel"; Dainty Irene, a pretty little singing soubrette; James Dixon in a new picture song, "If Every Girl Was a Girl Like You," and a double set of funny moving pictures, will all contribute to the new Pantages show.

**TIMELY RECIPES.**  
 Baked Macaroni.—Break into half-inch pieces enough macaroni to fill a coffee cup. Put it into rapidly boiling salted water and cook twenty minutes, or until a piece can easily be cut against the side of the kettle. Turn into a strainer and let cold water run through it to rinse it (this firms it and keeps the tubes from sticking together). Place in a greased baking dish or on a fireproof platter and pour over one coffee cupful of cream sauce. Cover the top with a mixture of fine bread crumbs and cracker crumbs (one-half cupful), dot plentifully with bits of butter and bake in a hot oven until the crumbs are brown. The sauce is made by the rich cream sauce recipe, in which one-quarter cupful of grated cheese may be stirred.  
 Corn Soup.—One can corn, one pint water, one quart milk, one-fourth cup butter, one tablespoon chopped onion, one-fourth cup flour, two tablespoons salt, one-fourth teaspoon white pepper, yolks of two eggs. Cook the corn with the cold water twenty minutes; cook the onion in the melted butter until light brown, add flour, seasoning, and the milk gradually, then add the corn; strain and reheat. Beat the yolks of the eggs, put them into the soup tureen, pour the soup slowly over them, mix well, and serve immediately.  
 Germantown Puffs.—Beat together the whites of six eggs until they stand alone, and the yolks thoroughly. Cream in by degrees nine tablespoonfuls of flour. Put a tablespoonful of melted butter and a teaspoonful of salt; make into a batter with one pint of sweet milk. Bake in little patty pans.

**REV. DR. DENNY VISITED CITY**  
 IMPRESSIVE SERMONS  
 PREACHED BY HIM  
 Well Known Divine Occupied Presbyterian Pulpits Yesterday.

The Rev. Dr. Denny, of the United Free Church college, Glasgow, Scotland, who is at present engaged in giving a series of lectures to the students at Westminster hall, Vancouver, was in the city yesterday. He occupied the pulpit of the First Presbyterian church in the morning and St. Andrew's in the evening.  
 Dr. Denny ranks high in his native land, and his sermons yesterday were very much enjoyed. There was no attempt at oratorical display, no weaving of fanciful imagery, no appeal to the emotions, no thundering denunciations. His addresses were plain, practical, forceful. His text in the morning was from Matthew 22: "Then cometh Jesus from Galilee to Jordan, unto John to be baptised of him."  
 The speaker began his discourse by saying that the long interval of 100 years of silence had been broken by John the Baptist, and the Jews, thankful that God was again speaking to them by an audible voice, gladly flocked to hear Him.  
 The first occasion on which they saw Christ after He entered upon His public ministry, is not, as would be supposed, standing by the side of John teaching and exhorting the people, but making Himself as one of the sinners seeking baptism although He never at any time knew sin. From the first of His ministry He bears the sinner's weight of sorrow, refusing to be separated from them. Love was His only motive for so doing, and this thought pervades all new testament teaching. He sorrowed for sin and felt the weight of it as man never can. Yet He stood side by side with sinners and drew them to the Father, making their sins His, and thus opening a way of reconciliation.  
 Some people do not like the idea of the atonement, but would anyone truly penitent rather go alone than be led by a loving hand? The guilt which separates the sinner from God has been bridged on Christ's side by the coming of His Son who knew no sin. All the sinner has to do is make use of the bridge thus provided.  
 Christ is not only a great hope but a great example of how they can help others. Instinct leads us to let evil alone, but Christ did not pass by on the other side; or instinct inclines us to stamp on people who do wrong; Christ lifted them up. He came to seek and to save that which was lost, not to trample it deeper into the mire.  
 The only way to do good to our fellows is by loving them, by sympathizing with them as brothers. Unless that could be done—real service failed.  
 Christ, when once He ceased to be the carpenter at Nazareth, never went back there in the same capacity. He consecrated Himself to the Father and set about the work He had given Him to do. A new life began for Him at His baptism and He looked forward, saying: "Lo I come to do Thy will, O God."  
 In the career of every human being there comes a similar crisis, and hosts of lives are ruined by not making a definite decision. Time slips by like a knotless thread, and they have not made anything out of life in the sight of God because they have not acknowledged that man's chief end is to glorify God. Mere want of will wastes more lives than all the vice put together. For some people there is only one choice—to identify themselves boldly and undiscouraged on the side of Christ. Any half course is worse than useless and leads only to all around failure and disappointment.  
 There is nothing in the gospels which can be said to nothing to us. Everything which is Christ's is ours. As Christ was baptised, He prayed, and the Holy Ghost descended. The reason the Holy Ghost does not descend on us is that we do not pray enough. We need to be in constant communication with the Father through Christ.  
 Ministers fall not from want of culture or oratorical powers, or because they do not visit the sick; but because they do not pray enough. They rely too much on themselves and do not seek guidance and help as often and as persistently as they ought. They underestimate the power of prayer and without it failure is certain. One great condition of prayer is, however, absolute sincerity. They must not make or try to make any mental reservations.

# A COMPREHENSIVE SERVICE

## All the News of Canada, of the Coast, of the World.

Intelligence Dragnet Gathers All the Important Happenings for this Paper.  
The Different Sources From Which The Times Obtains Its Splendid  
News Service Are as Follows :

### EUROPEAN SERVICE

**T**HE EUROPEAN MANAGER of the United Press is Mr. Chas. Stewart, one of the best known of news gatherers in the world. While he is located at London, he keeps an alert eye on all European points, and he has that swift intuition, that "nose for news," which means "scoops."

Early in the spring the president of the United Press received the following dispatch from Stewart: "Gone to Constantinople." No Explanation was given, but subsequent events showed that Stewart had anticipated the cataclysm there, had hurried to the scene, organized his news syndicate, with reporters all through the affected districts, and had installed an experienced Turkish newspaper man as staff correspondent. Stewart was back in London before the crash came, but so perfect was his organization and so accurately had he anticipated the movement of events there that the United Press hopelessly distanced all competitors, and gave its papers the news of the deposition of the Sultan, Abdul Hamid, and the name of his successor while papers served by more ancient systems were telling of the retention of Abdul as a constitutional sovereign.

This is but a sample of the prompt and efficient way in which the news of the Old World is handled

### CANADIAN EVENTS

*Dominion News, Covered by  
Special Correspondents  
of "The Times"*

**C**ANADA IS RAPIDLY coming into its own, not only as to natural wealth and growth but as a source of important happenings. To specially provide for this the Times has its own representatives in Ottawa and Winnipeg, who compile for this paper the news of the east and the Canadian middle west, respectively. Many events in these districts which in a general way are of minor importance are of special interest to residents of Victoria because of the number of easterners and plains people who have settled on Vancouver Island. This service is being steadily expanded and assures Times readers of the news, not only of the world at large, but the particular news of their own land.

In this way it rounds out the splendid service which the Times is giving its readers.

### COAST AND AMERICAN NEWS

**T**HE LEASED WIRE which runs into the Times office has its northern extremity in Vancouver, and its southern terminus in San Diego. It runs northward from the latter point through the cities of San Francisco, Portland, Tacoma, Seattle and Bellingham. By this means, and owing to the fact that every paper taking the United Press service is a co-operative member of the organization and furnishes to the association the news of its own district, an almost instant report on all important news on the coast is obtained without having to filter out by the circuitous and slow methods which prevail unless up-to-date is used.

Eastward from San Francisco and Portland the other leased wires of the United Press connect the coast line with all the important eastern and middle west centres and by cable with the European office in London. A perfect news dragnet is spread in which not only ALL the news is obtained, but its delivery while it is still NEWS is assured.

## A GREAT COAST TELEGRAPH SERVICE

**FROM CALIFORNIA  
TO ALASKA**

People like to hear, first, about themselves, and then about their sisters, their cousins and their aunts. This is the basic principle of news. A big gooseberry in your neighbor's garden is of more importance as a news item than a new volcano in Japan.

—Sir Edwin Arnold.

**FROM CALIFORNIA  
TO ALASKA**

If Sir Edwin Arnold was right, the news of the Coast, from California to Alaska, is of more vital interest to the people of Vancouver Island than important happenings in Georgia or in New Jersey.

The Times' leased wire, next to its efficiency and promptness in handling world events, is principally noteworthy for its ample Coast service. In this it has no peer. Thousands of words daily are delivered to this paper relating to Coast happenings.

Coast residents, therefore, can get the news of the Coast satisfactorily only by reading The Times.

This full and up-to-date compendium of news appears every night in The Times. It costs the reader no more than a paper with a weak service.

GREAT BRITAIN'S LATEST BATTLESHIP Secondary Batteries Have Been Abolished in the Temeraire.

Captain Alexander Ludens Duff, lately assistant to the controller of the navy, is commander of the new battleship Temeraire, which was recently commissioned at Devonport. By an interesting coincidence Captain Duff, as a midshipman, commissioned in the last Temeraire when she hoisted her pennant for the first time in 1878.

Access to the fire-control stations aloft is through the interiors of the tripod masts. It is a weird climb from the lower deck up through 140 feet of slantwise steel tunneling, lit at intervals by arc lamps. One great advantage to these tripod masts is that all rigging is abolished, enabling a wider radius of gunfire to be attained.

On her recent gunnery trials the Temeraire fired eight of her ten 12-inch guns en broadside at one discharge, and the observation party in the control station could follow the flight of the projectiles through glasses for fifteen miles by the spurting of columns of spray five and six hundred feet high to every ricochet.

The main gun turrets, each weighing 400 tons, with its twin pair of 12-inch weapons, and 12-inch armored water-cooled gun, are operated by hydraulic power, the pressure being 1,000 lbs. on the square inch.

The abolition of secondary batteries has reduced the number of fighting stations, and the adoption of turbines has greatly simplified engine-room work, hence the Dreadnoughts carry smaller complements than their predecessors.

The magazines of the Temeraire store 242 tons of 12-inch projectiles and 120 tons of M. D. cordite charges for these main weapons. The coal bunkers will store 2,400 tons. At full power, the Babcock and Wilcox boilers, working at 235 lbs. pressure, consume 500 tons every twenty-four hours.

HOW BILLIARDS ORIGINATED. London Pawnbroker Invented the Game in His Leisure Hours. It is a fact not generally known that the game of billiards was invented by a pawnbroker, William Kew by name, who flourished in London some time in the sixteenth century.

TO-DAY'S GAMES IN BASEBALL LEAGUES

(Times Leased Wire.) Seattle, Wash., May 31.—The morning game here was characterized by heavy hitting and base running, although the play was rather slow because of yesterday's heavy downpour of rain. The contest was notable for the number of injuries sustained by players, three men being laid out. Capron, playing left field for Seattle, severely strained a tendon in his leg in trying for a long hit by Streib and will be out of the game for some time.

Portland, May 31.—The morning game here was a three-week series of baseball this morning by taking the first of a double-header with Vancouver. Hickey was hit freely, and a couple of passes in the first inning, with three hits, gave the Tigers a start of four runs. The grounds were soft from the rains, and many Texas leaguers figured in the hit column on both sides. Score: R. H. E. Seattle..... 11 15 2

BISHOP MEETS HIS NEW FLOCK

ADDRESSES MADE AT PUBLIC RECEPTION

Will Co-operate With All Churches in Defence of Christian Faith.

A public reception was tendered to Rt. Rev. Alexander McDonald in the Institute hall last evening by the Roman Catholic societies of the diocese. In this the Knights of Columbus, the Catholic Mutual Benefit Association and the Young Men's Institute. Addresses of welcome were presented and the sentiments expressed in them were pain to the feelings of the bishop, who, having spent practically all his life in and about his native diocese, very naturally feels the pain of a break in middle age with old friends and places and translation to an entirely new field of activity. As he pathetically says of himself, he still feels the soreness of the transplanting process. The chair was occupied by H. J. O'Leary, grand knight of Victoria Council, No. 1256, Knights of Columbus, and on the platform, in addition to Bishop McDonald and the clergy, were the officers of Seghers Council, Y. M. C. and Branch 376 of the C. M. B. A., and the Knights of Columbus in a body.

The chairman, after a few words in explanation of the occasion, called on Father Cairne, chaplain of the council, who assured his lordship of the zeal and devotion of the young men of the various societies and their earnest desire to be set to work as his lordship might think best.
