Want Hearing Before Commission at Once - Apply for \$2 to \$4 Per Day

Foronto, Nov. 23.—The traffic expert of the Toronto Board of Trade yesterday handed out a copy of an application made to the Dominion railway commission by the railways of Canada for an order fixing the following rates for demurrage on cars retained by shippers or consignees for loading and unloading beyond the free time allowed by the commission's rule.

The rates asked for by the railroads are:

The rates asked for by the railroads are:

For the first 24 hours after the free time, \$2; for the second 24 hours, \$3, and for the third and every succeeding 24 hours, \$4.

The railroads cite the following reasons for their application:
That the existing car shortage is largely due to unreasonable detention of the cars; that the present demurrage charges offer no inducement to users to load or unload quickly; that it is now often cheaper for users to pay demurrage than to provide adequate warehouse facilities, and that the abuse is most prevalent at large terminals.

Melbourne, Aust., Nov. 23.—Sensational disclosures made by the attorney-general, Hon. William Hughes, have materially strengthened the government's proposals for the passing occunstitutional amendments giving the federation greater power to deal with trusts and monopolies.

The attorney-general instanced the treatment meted out to the Commonwealth by the steel trusts last July. At that time, declared the minister, the government was forced to reject all tenders submitted for transcontinental railway material, simply because the trusts had gained control of the market, and the tenders made were most excessive.

**RUSSIA AND AUSTRIA** STANDING TOGETHER

London, Nov. 23.—Europe's nerves will soon be opened on the Turkish were racked to-day as war clouds lowered over the continent. A stream of rumors, pointing to the apparent fact that both Russia and Austria are gird-the Dardaneiles whose fail would permit the Greek feet to be beginning the ing for a conflict which may involve mit the Greek fleet to bombard the more than half the civilized world, Turkish capital.

Turks at Silivri. more than half the civilized world, flowed from various sources, and as the Austrian government ordered a strict censorship on telegraphic communication, though the rumors could not be denied, and though their confirmation was unobtainable.

Prague sent word that Germany had ordered the preparation of 130,000 army reservists to be ready in case the Empire is drawn into the great war that diplomats fear may grow from the struggle in the Balkan Peninsula.

The rumors accord badly with Premier Asquith's statement last night as to the prevailing harmony among the European powers. Official statements of the Sixth Turkish army corps at fail to dissipate the general anxiety as Monastir, was found by the Servians made representations to the Russian government is discredited here. On the contrary the relations between Vienna and St. Petersburg are understood to have improved since Russia gave Servia to understand that she cannot have Russian support in her demand for a port on the Adriatic Sea. The reported tension between Rousian that would be defined and that behind Servia there stands the grim figure of Russia. This trouble between Servia and ustria would be the immediate cause of a great European war.

With Austria are the other two nations in the Triple Alliance, Germany arrangement. With Russia there would be drawn into a general conflict France and, very likely, Great Britain, the partners to the Triple Russia.

In a semi-official statement to-day the visit of Field Marshal Blasius Schemua, chief of staff of the Austro-Hungarian army is declared to be merely one of the customary exchanges of courtesies between officials of to the prevailing harmony among the corporate former furkish and to the situation.

Nothing has developed within the last twelve hours to show whether the Turks will find the proposed modifications in the terms offered by the allied Balkan nations sufficient to induce them to agree to an armistice preparatory to a definite peace. The plenipotentiaries now on their way to Tchatalja on behalf of the allies are reported to be carrying with them fresh terms of peace in a form that may open the door which still is regarded as standing alar for their reception. The Ottoman government points out that it still has a million soldiers to draw from while the Bulgarians have none.

The allied Balkan nations, however, retort that they are now in a position to march 150,000 troops which have heretofore been engaged elsewhere, to swell the besieging force in front of the Turkish lines at Tchatalja.

Should the war continue it is assumded in military circles that an attack in the surface of the fortress after a battle which lasted throughout the morning. Sir Lomer, in answering the accusation, said that the article in question had been written by the Abbe Damours. This article was but the centification of a series of many that were quite as treacnerous and sland-crous. Some of them had been published during the last provincial elections, when their author trusted that there would be not time for the finding of an antidote to the polson which he was distributing, and that the party of his affections would triumph. In this connection he might remark that the Liberal party had obtained the greatest evidences of its popularity in the Very field of the writer's labors. Sir Lomer said he did not wish to not tack a priest, but for the honor of the Liberal majority in the House and of the majority of electors in the province, he denounced the article in question—as a dishorset calumny, especially where it asked if the government, in order to cater to a radical Free Mason group, whose opinions as to instruction it shared in substance, was not intending to commence an interminable struggle with the Catholic church through the instrumentality of the schools.

The Quebec premier made it clear that his party would continue its work of educational improvement whatever the clerical organ might say. He described the charges of Abbe Damours as a direct invitation to a religious war, but said that the laberal party was not going to enterinto such a conflict, and he would not have referred to the article were it not such a conflict, and he would not have referred to the article were it not such a conflict, and he would not have referred to the article were it not such a conflict, and he would not have referred to the article were it not such a conflict, and he would not have referred to the article were it not for the possibility that 'some might interpret silence as a tacit admission that there was some foundation for such charges.

Montreal Fire Chief Says Carelessness Causing Fire Should Be Criminal Offence

Montreal, Nov. 22.—Chief Tremblay, of the Montreal fire brigade, issued a report to-day on the appalling fire loss in Canada as compared with the United States. He blames speculation in insurance leading to arson as the chief cause for fire losses in Montreal and other Canadian cities. In Montreal he says in 60 per cent of the fires there has been over insurance. In 40 per cent, of the cases, the fires are of suspicious origin. He declares that carelesaness in causing an outbreak of fire should be made a crime under the status of Canada.

# ACETYLENE

Don't let anyone frighten you out of enjoying the advantages of Acetylene by telling you it's dangerous. Compared with other lighting systems it is SAFE, for it is responsible for fewer fires than any other illuminant.

Kerosene and gasoline cause the most fires; next in order comes electric light, caused by bad wiring; then coal gas; then candles, while Acetylene causes fewest.

Don't let any misplaced caution prevent you from putting in this whitest, softest, most agreeable of all forms of lighting, for the danger from Acetylene is, as you see, much smaller than that from the coal oil lamps you are now using.

Wednesday—One Boat Returning to Discharge

Another busy week is looked for in the shipping of this port, as during the coming seven days three steamships will clear outward bound, three are coming in and one is returning from the Sound to discharge cargo. On Wednesday all the outgoing boats will leave, which will mean another very busy day. Although the vessels going out will take on very little cargo here the three deep-see craft due in are bringing 4,000 tons of general merothandise.

The Kosmos liner Sakkarah, which was expected to come to this port from Hamburg via Chilean ports, passed in at Tatoosh this morning and is proceeding to Seattle. It was formerly stated that the steamship would be here early next week with nitrate for the chemical works. The Victoria cargo is to be residued from Seattle.

the International Association of Bridge and Structural Ironworkers, of which most of the 45 defendants, accused of complicity in the McNamara dynamite plots, are officials.

In one article as read to the jury, the government's prosecution is referred to as follows: "On the 5th of October these 45 defendants walked into court and pleaded 'not guilty' to the charges of the 'steel trust.' Then began the farce of trial, a trial in which money, prestige, power, was the prosecutor of want and obscurity, a trial in which the steel trust masquerades as the government.

An engineer of the interior department, Ottawa, will be sent out to locate the area which Mr. Foster describes as typical Abjine scenery, embracing a level plateau at an elevation of 6,709 feet surrounded by glaciers, and embracing lakes, snowfields and grassy piots covered with wild flowers. day contributed this observation on the high cost of living:

"When the possibilities of mixed farming are realized by the Canadian farmer, and, at being realized, are put into practice, then such problems as the high cost of living, the scarcity of beef, mutton, port, poultry, butter and eggs, the difficulties of transportation and other allied questions will either be solved, or in any case, the conditions will be ameliorated.

"At the present time we import beef, mutton, poultry, butter and eggs from Australia and New Zealand. A customer at Péace Rivèr was astounded when told that butter and eggs which he was buying at a local store had been imported from those distant parts of the British Empire. We import more beef and dairy products from the United States than is at present raised in Western Canada. Why cannot these commodities be raised at home and the money kept at home? Ranches are surely and steadily growing fewer in number, and farmers in the mad rush to get rich are adopting the mistaken policy of concentrating their efforts on grain-growing. The Canadian farmer in thus limiting his activities is, to use a homely phrase, 'putting all his eggs in one basket."

# HARVARD BEAT YALE BY ENORMOUS SCORE

Has Made Touchdown -Crimson Got Two To-day

New Haven, Conn., Nov. 23.-The alertness of Harvard in taking advantage of Yale's errors and field kickvictory over the Blue to-day by a score

Two touchdowns, one by Storey and the other by Brickley, were scored in the first and third periods, principally due to muffed punts in the Yale backfield. Brickley kicked one goal from the field from the thirty-five-yard line and another from the nineteen-yard line. Yale was never dangerous until the final period, when the Blue's offence carried the ball sixty yards down the field to Harvard's eight-yard line. There it was lost on downs. A few minutes later Pumpelly was about to try to kick a field goal when the game was ended.

try to kick a field goal when the game was ended.

Harvard made comparatively few consistent marches into Yale's territory by the rushing game, and kicking was adopted as the best means of offence against an uncertain Blue backfield. Eight bad muffs showed the wisdom of this line of attack. Harvard had no call to uncover any intricate plays and relied almost entirely on line plunges by Wendell and Brickley. The Yale offence did not show strong until the last few minutes of play, when Harvard's first string of players were supplemented by substitutes.

Contract jumping may appeal to hat style of athlete who is fond of having his name displayed type, regardless of the fact that his name eventually becomes dragged in the mud, but Micky Ions, the Vancouver defence star, believes rightly that it is a proceeding to which no professional athlete who has any sense of honor should resort. Ions, who is now engaged in business at Vancouver, has definitely made up his mind to remain on the Coast. He was regarded as the cleverest defence fielder in the East and he has certainly sustained his reputation as a lacrosse player since his entry into the British, Columbia Lacrosse Association. Tail and rangy, with a good burst of speed, he is the ideal defence fielder and one of the most valued exponents of lacrosse on the Coast.

Refused to Go East,

When the Big Four and Coust Lacrosse Leagues were at "war" last spring, Micky was one of the Coast stars whom R. J. Fleming, the Tostars whom R. J. Fleming, the Toronto mogul, attempted to wean away from the green and red. Ions was offered a contract calling for several hundred dollars in excess of the salary which Jones was paying him, yet he refused to budge. "I have given Jones my word," said lons to the Eastern scout, "and I'm going to play on the Coast for the summer of 1912." Entreaties were useless and Micky won a host of friends by his decision.

Should Victoria be successful in securing a professional team for next summer, an effort will be made to secure Ions for the Senators. As Con. Jones is ready and willing to help in the formation of a team in this city, it is just possible that the "Pride of Brantford" will be seen wearing the red, white and blue of Victoria upon the lacrosse sward next summer.

Poor Frankie Conley is licked again.
His defeat at the hands of Johnny Dundes the other day put Frankie out of the limelight. Promably the reason for Frankie's defeat is the way in which he had to train down to make the weight for Johnny Coulon and then coming west and fighting Joe Rivers shortly afterwards, where he received a sound thrashing. The little Italian is not himself at all, for when he defeated Monte Attell in Los Angeles in 42 rounds he was then at the top of the ladder, but defeats by Coulon, Rivers, Conter, Kilbahe, Thomas and Dundee soon brought him down the ladder.

It Sure Was Some "Raid" on N. H. A. Players.

When the full result of the raid that the Patrick boys put over on the Eastern hockey clubs becomes known, there will be wailing and guashing of teeth by the N. H. A. teams. Little did Sammy Lichtenhein imagine what would happen when he made his declaration that the Patricks were afraid of him and other Eastern magnates. It will be a sad awakening for the Wanderer magnate to find that he has a team of high priced men in an organization which boasts of three poor clubs and a couple of fairly strong teams. Ottawa, Canadians and Wanderers will be the class, while Quebec, now that Prodgers and Oatman have decided to come to the Coast, will be down and out. The Toronto teams are jokes in the real sense of the word, while eyen Canadians will find it hard work gathering a team together if they lose Pitre and Laviolette. The only solution will be the release of several players that Lichtenhein has signed up to the Toronto clubs, and when this takes place, the public will commence to think of syndicate hockey, and refuse to patronize the league fixtures. It would have been better by far, had Lichtenhein kept his hands off Ernie Johnson and Harry Hyland and the N. H. A. would have been farther ahead had it not failen for the "salve" that Lichtenhein spread so smoothly, and voted for a hockey commission.

Victoria Representative Team Has Been Strengthened.

To those who have the interest of Rugby at heart and who were keenly disappointed at the outcome of the McKechnie Cup struggle, two weeks ago, the published line-up of the Victoria All-Stars who will meet the Australians at Oak Bay next Wednesday, the changes in the team will be read with pleasure. Victoria undoubtedly looked bad against the Vancouver fifteen and it was then that the Rugby Union decided on several changes. The addition of Dai Thomas and Boss Johnson to the back division will add kicking ability and speed to that department of the team. Johnson is the best fullback in the city, and his form against the Wanderers last Saturday was a revelation. Thomas can be depended upon to gain a lot of ground for the Victoria fifteen, while on the line, Scott and Watkins should both prove valuable acquisitions. This afternoon Vancouver and Victoria, combined, should be able to win over the Australians, if past performances count for anything, and it will then be up to Victoria to make a clean sweep against the famous Waratahs.

The defeat of the Central School last Saturday by South Park came as a surprise. It was thought that South Park would be easy pickings, but that is where the mistake came in, as the boys from the South End simply outplayed their opponents from first to last. There is talk of Central protesting the me, as they claim the goals scored by South Park were from off-side, alough the referee says they were not so, and his decisions should go.

# **AMERICA'S BEST** RUGBY FULLBACK

Stanford University, Nov. 21.—Benjamin E. Erb, of Chemalnus, B. C., has been granted the "four stars" in honor of his four years of football on the Stanford team. The ex-captain was the only man on the 1912 team to complete his fourth year in intercollegiate football, and he capped his final appearance by being conceded the best Rugby fullback in America. Erb captained his freshman team of 1912 in the fall of 1908, and then finished the season by playing scrum half on the varsity that year. After an absence of one year he returned in the fall of 1910 to his old place behind the scrum. Last year he was playing at wing three-quarter, when an eleventh-hour injury to halfback Cass forced him back to his old place. This year he found his real berth at fullback.

A motor car being driven at what he thought was 25 miles an hour stirred Sergeant Wright to action. He concentrated his gaze on the number and found it to be 2,810. This brought H. J. Knott, holder of that number, to police court this morning. Mr. Knott said he could not recollect being in his car on Yates street or Cook street about noon on Thursday. He usually went to lunch about that time and so the thing was possible. Anyway he would not quarrel with the officer about it. He admitted that if he were there he was doubtless going at a greater speed than the eminently respectable ten miles an hour as he certainly never went at less. The sergeant said that there were many school children about when Mr. Knott drove past a team, shot ahead of another automobile and rushed by a corner without even giving a tiny squeak on his horn. To the supper particularly the hosts directed their greatest palns. It was not only the outstanding part of this dance but was one of the best suppers ever served at such an event in this city. The fest-ons of the table were composed of smilax and there were vases of red cornations. The whole was under the supervision of M. Rosshirt, who founded the local association.

Telegrams expressing regret at inatifility to attend were received from
the administration of America, New

Needless to say his mother also declared that whatever the world might think of her son, she still loved him and believed in him, and would always do all she could for him during his prison term and afterwards.

In one of the yellow newspapers a picture of these two was published, and a query as to which would be true to him the longest. That question is now answered for the other day I read this item in my paper, "Miss Mamie Hightower, of Kansas City, the girl who stood by George W. Coleman, the young Cambridge bank wrecker, so staunchly when he was sent to Greenfield jail two years ago, now neither writes to him nor calls on him, according to dispatches received from Greenfield." And a week or two later I read another dispatch chronicling Miss Hightower's marriage to another man.

That is what two years have done for a sweetheart's love.

But the little mother is still true.

for a sweetheart's love.

But the little mother is still true

But the little mother is still true to her boy.

The superintendent of another big prison was telling about the prisoners' relationship with their friends in the outside world. "The wives and sweethearts are very affectionate at first," he said. "They write and visit the prison as often as the rules allow. But it doesn't usually take more than a year or two for their fervor to cool and bye-and-bye they don't come at all. In almost every case the only person who still waits for a man after a long term is his mother."

a long term is his mother."

Don't things like that make you do some thinking about the infinite miracle of a mother's love?

acle of a mother's love?

Fil tell you what I thought of when I saw that item. I remembered a little story I read years ago. Once upon a time there was a man who was insancy in love with a very beautiful but very wicked and jealous woman. This vampire declared that she would not believe he loved her more than anyone cise in the world un'il he should bring his mother's heart to her. The criminally infatuated world. should fring his mother's heart to her. The criminally infatuated roan finally did this, and, as he was bring-ing it he stumbled and fell, where-upon the mother's bleeding heart cried out, "Didst hurt thyself, son?"

There are many beautiful things in this beautiful world of ours, but do you think that in all the height and breadth of it there is anything more eautiful eautiful or wonderful nother's love?

However, having been in Formosa, in the northern part of the island during the earlier days of the Japanese occupation, he did not object to saying something about that little known land. In his official capasity there he had a good opportunity of seeing the actual condition of the country.

He pointed out it had been necessary for the Japanese in their warfs fare against the aborigines, to fell the forests in order to provide against the aborigines, by extending the line of defence, and dealing with savage murderers they had been compelled not to be too scrupulous in their methods. The reason for this cease-less warfare against the savage was largely a commercial one. The camless warfare against the savage was largely a commercial one. The cam-phor tree was the principal product of these interior districts, and with su-gar, largely cultivated in some dis-tricts now, formed the principal ob-jects of export from the island. He feared, with others, that if the forests

was completed, and when that was borning the aborigines on settlers. Some steps must be adopted by the government to check head hunters, and yet develop the industries of the country. There was cops by inundations, the rivers of the sland, largely being ieft in their primitive condition, overflowed their banks after a heavy rainfall. Took Early to Diplomacy.

It becomes thus very plain that Sir Cecil, so to say, had it in his blood to follow a diplomatic career. After leaving Eton and Balliol (Oxford) as an honor man in the final classical school, he entered the British war office as clerk, being, after the lapse of a year, transferred to the Foreign Office. We next hear of him—then, of course, still plain "Mr." Cecil Arthur Spring-Rice—as assistant private secretary to the Earl of Granville and confidential man to the Earl of Rosebery.

His first mission abroad was as secretary of the British Delegation to the International Maritime Conference, when he had his first connection with official Washington. A Growing Reputation.

By this time Hon. Ceell had begun to make a name for himself in the British diplomatic world and Downing Street accredited him at Teheran in 1900 as charge d'affaires. The following year he was given the responsible post in Cairo of Commissioner of the Expytian Public Debt. The Barony of Monteagle, the Spring-Rice, peerage, is of comparatively modern creation. The founder of the family was Stephen Edward Rice, of Mont Trenchard, County Limerick, son of Thomas Rice and his wife, Mary, stiter of Robert Fitz-Geraid, the famous "Knight of Kerry." This Stephen Edward Rice married Catherine, the heiress of Thomas Spring, of Castleman, Kerry, in 1785. The only son of this union, Thomas Spring-Rice, was raised to the Irish peerage in September, 1839, as Lord Monteagle of Branton. He adopted as his motto "Fides non Timet" (The faithful need not fear). His first wife, the Lady Theodosia Perry, who died in December, 1839, left four sons, among whom were Sir Cecil's father, and one daughter. His lordship married again. He held a number of positions under the government. He was an Assistant Home Secretary, Secretary, Chancellor of the Exchequer and Comptroller General of the Exchequer.

The head of her house is the fifth Earl of Harewood (Sir Henry Ulrick Lascelles, Knight Commander of the Victoria Order), Viscount Lascelles and Baron Harewood of County York, Lord Lieutenant and Custoc Rotulorum, Aid-de-camp to the King of England, whose wife is the Lady Florence Katherine Bridgeman, daughter of the third Earl of Bradford. Roger de Lascelles, mentioned above as the First Lord of that name, died without male issue in 1297, in consequence of which the newly created Barony of Lascelles at once fell into abeyance. It is dormant to this date. But through the first Lord's four daughters the Lascelles family was continued in 1790. SAANICH MUNICIPAL COUNCIL. Paving of Two Principal Roads.

At the meeting of the Saanich municipal council this afternoon, more will probably be heard of the proposal to pave permanently the main roads out of the municipality to which Reeve Nicholson made reference at the meeting of the council two weeks ago. Since that time a petition has been circulated among the landowners of the East and West Saanich roads, asking for asphalt paving on the two main roads out of the city.

The only hope of dealing with the subject of such importance is by way of a loan for a large sum of money spread over ten years, and covering the trunk thoroughfares of the district. The cost would be too great to deal with it out of current revenue.

The important action of the municipality against French, which was dismissed in the Supreme court this week, will certainly be the subject of reference, as the judge finds the municipality was "not acting bona fide" in the matter.

THE BOARD OF TRADE'S REPORT ON FORESHORE

Regarding Application of Graham Lumber Co. - Hon. Mr. Hazen Investigating

At a recent meeting of the Council of the Board of Trade the appended report relative to the dispute over the foreshore lease in Esquimait harbor was presented by the committee on harbors and navigation. The committee was composed of Messrs. F. A. Pauline, C. H. Lugrin, Beaumont Boggs and H. G. Wilson.

The report was unanimously approved by the Council of the Board of Trade and they decided to follow up the recommendations contained therein as might appear desirable.

The President and Council, Victoria, British Columbia, Board of Trade:
Gentlemen: Your committee on harbors and navigation beg to report that they have under consideration some difficulty experienced by the present holders of a foreshore lease in Esquimait harbor granted to the B. F. Graham Lumber Company.

The B. F. Graham Lumber Company purchased property having a frontage on Thetis Cove and about four and a

The B. F. Graham Lumber Company purchased property having a frontage on Thetis Cove and about four and a half years ago obtained a foreshore lease, it being the intention of the company to erect a sawmill there. The financial depression of 1907-8 frustrated those plans and they subsequently transferred the property and rights under the lease. We are informed that the present holders have available the sum of three-quarters of a million dollars to carry out the mill project.

The Canadian Pacific Railway Company own the land adjoining the mill company's property and, without per-

mpany's property and, without pernission from the Dominion govern-nent, have built a wharf which over-aps the frontage whereon the B. F. Graham Lumber Company obtained a case to construct a wharf, as will be seen from an examination of the plan erewith attached. The Canadian Pacific Railway Com-

pany are now applying for a cancella-tion of the lease granted the B. F. Graham Lumber Company, on the grounds that the time limit for operatig under it has expired. Your committee have conferred with

resentatives of the new mill company, Mr. H. E. Beasley and Messrs. F. H. Shepherd and G. H. Barnard, M.P.'s. The Hon. Mr. Hazen is now investigating the case and we have communicated with him by wire the wish of this Board of Trade that he will take no action that will prevent or delay the development of the undertaking projected by the present holders of the B. F. Graham Lumber Company's lease in Esquimalt harbor.

There are numerous depressions in the top of the mountain, and I figure out that the water in the lakes comes from melting snow, rains and perhaps some springs on the bottoms. There seems a probability that the volcanic ash came from Paik-tu-san, though the latter is sixty-five miles distant. The ash along the shores of the lakes is loose, and you sink into it up to your shee tops. The trees thereabouts are only about thirty feet tall.

Why are the sidewalks in Victoria (suburban especially) so much dirtier than the streets?

Why has the early summer promise of a polo club in your daily contemporary not been carried out?

Why? Because the "horsemen" at the first meeting could not countenance the English mistake in holding of the reins (riding or driving) in the left hand instead of separately, and in both hands, two feet above the pummil of the saddle. Why should polo (the king of games) be allowed to fall through for such a paltry objection? Why not

To the Editor.—My attention having been drawn to the letter in to-night's issue of your paper, signed "Claude D'Albert, late of the war office," regarding the disgraceful way the kids around his restdence ridicule him for wearing his monocle, I wish at this time to thank you for about the largest lauph I have ever had, and will ask you to publish this letter, which I hope will catch the eye of Mr. Claude D'Albert look at himself in the glass and see himself as the sephears to the world at large, and he will perceive what the kids laugh at. I have seen it running round myself, and would have laughed same as the kids were it not for the pathetic side of the question.

If Mr. Claude D'Albert will discard this automobile headlight in his eye the kids won't laugh any more if they can help it.

I would remind "Mr. Claude D'Albert, late of the war office," that he is in Canada now, and that if he starts beating up the school kids, somebody else is liable to beat him up, and then the war office will look like two cents.

Let him throw away the headlight and get some sense, tell us why he got let out of the war office and why he does not get a pair of spectacles, same as anybody else, and quit writing nonsense like this to the press, making himself more judicrous, if possible, with a mighty big "If."

You see, therefore, by clear Scripture that we are obliged under pain of eternal damnation to hear and obey those pastors who are lawfully sent and we are under no less obligation to beware of false teachers, for Christ speaks thus of them:

"Beware of false prophets who come to you in sheep's clothing, but inwardly they are ravening wolves. Ye shall know them by their fruits." (Matt., e. 7, v. 15.)

The writer, Claude D'Albert, drew attention to the training of the small boys, which he claims is a disgrace to the city of Victoria. Now, sir, this is going a little too far. Just because some mischievous boys—they were nothing else—liked to have a bit of fun. he casts reflection on the training of our schools, which I claim beats any he was trained at. I have had experience in schools in Emgland, some of the best schools at that, and all over the Dominion of Canada, also Australia, and can safely say that the system of training we have here in Victoria beats them all, and I cannot see a newcomer, just because he was late of the war office, cast his reflections on the training of our schools. By the tone of his letter he was seeking trouble, and if ever he catches the "brats," as he calls them (note his training), take care that they don't give him a thorough trouncing, which I would say he deserves.

Murderous Attack on Sweede in Vancouver Chinatown Stopped by Police in Riot

THAT IS THE POSITION OF CANADA TO-DAY

Vancouver, Nov. 23.—Oscar Andersen yesterday won 8900 in the lottery conducted by Hong Sing in the latter's gambling house at 231 Columbia avenue. Andersen's luck angered Sing, and when he saw the winning teket he attacked the Swedish player with a club. The gambling room was filled withmen and a riot ensued.

Only the alertness and agility of Police Constable Daniel J. Rose prevented Andersen being clubbed to death. Rose went through doors and sidestepped enough traps to put a regiment of police out of business. He found Andersen in a pool of blood on the floor with Hong Sing pounding him with a club. At the police emergency hospital nine stitches were put by the surgeon in a cut across Andersen's head. Andersen, who will recover, will be a witness when the Chinese is tried for assault, as will also John Graham, the only other white man found in the place. Hong Sing is in jail.

This is the third of such assaults which have taken place in Chinatown during the last two weeks. It is now the custom among the gambling proprictors in the Oriental section to refuse payment on large tlekets. When the police reach these places the Celestials usually succeed in getting away through secret doors.

MAKES STRONG PLEA

FOR BIBLE IN SCHOOLS

Large Audience Hears Principal of Queen's University on Religious Teaching

cipal of Queen's University on Religious Teaching self. That is the net result of over a year of vaciliating and dispute by Mr. Borden and his coalition cabinet.

Ottawa, Nov. 22.—"We have suffered much as a people, from denominational divisions, and we have allowed these to prevent the teaching of religion in our schools. In the very mame of religion we have crippled religion."

In these words Rev. Principal D. M. Gordon, of Queen's University, before a large audience in the normal school, summarized a strong plea for religion in the eachings of religion in the eachings of religion in the latter. Dr. Gordon's address caused much in treesting comment.

"Religion and education must go together," he sald. "The moral and of this, he or she has no place in our schools."

It was most important that some place should be found for Bible instruction in school life. The day in the public school should start with a recital of the Lord's Prayer, and there should be Bible reading and the memorization of passages from the Scriptures. Of the educational value of Scripture reading there was no better example than Sir Wilfrid Laurier, with his apt use of Biblical quotations.

the British Admiralty quite inemicent. Thirteen months have passed and the only benefit that the naval dispute has been to the country is that it forced. Hon. Mr. Monk to resign and exposed to the obloquy of the nation the discreditable alliance by which the

the discreditable alliance by which the Nationalist - Conservative government was formed.

That is the net result of over a year. Canada is lagging behind the rest of the Empire, far outdistanced by Australia and New Zealand, whose governments have never made such frantic boasting of hysterical loyalty, but were able to give tangible proof of it. The record of the Borden government on the navy question is equal to their efforts on the marriage question, infinite noise and bombast, infinite lack of action.

A Last Emergency.

A Last Emergency.

Signs are multiplying through the government organs that yet another twist has been given to the Borden kaleldoscope on the naval question. It has been discovered that the only emergency in existence is that in the coalition cabinet, and that this is beyond the help of any contribution. The Nationalist lion refused to eat grass with the jingo-Conservative lamb. It is really improper, not to say inconvenient, for British statesmen to so frankly take the public into their con-

is really improper, not to say inconvenient, for British statesmen to so frankly take the public into their confidence, just when the Borden collection of opposites were getting the Canadian people accustomed to a policy of silent inaction. Impetuous young fellows like Asquith and Churchill have a lot to learn from Canada in the way of government of the people by government for the government. Just when the emergency solatium was being worked to its best the British prime minister bobs up and not only says that there is no emergency, but shows that there is none.

"It is a satisfaction," he said, "to be able to assure you that so far as this country is concerned its relations with the other powers, without a single exception, were never more friendly and cordial. The great powers are working together with a closeness of touch and a frankness and freedom of communication which are remarkable." And on top of this comes the First Lord of the Admiralty, who canually mentions that the British fleet has been reorganized, an entire squadron of powerful ships placed in full commission, that the largest number of satiors on record have been recruited, the sixth battle squadron in-

# The Pleasant Task of -"Making Good"

# About a year ago we announced that we had deliberately entered into the task of building a

city at Coquitlam and proposed to carry that task through to success if we did not make a cent.

So, now that we have lately been calling your attention to the splendid manner in which COQUITLAM is making good, you will doubtless pardon us if we briefly emphasize the fact that the COQUITLAM TERMINAL COMPANY is making good, too, in a straightforward, faithful, solid and substantial

ALTHOUGH IT IS GENERALLY RECOGNIZED THAT, PURELY AS A LOT SELLING UNDERTAKING, OUR TOWNSITE HAS BEEN THE MOST SUCCESSFUL ONE IN THE HISTORY OF BRITISH COLUMBIA, WE HAVE PUT ALL OUR CASH PROFITS BACK INTO TOWN SITE IMPROVEMENTS.

We paid about one-quarter of all the taxes in the whole Municipality of Coquitlam this year, some \$22,000, and on top of that expended directly on street improvements about \$15,000.

We have built, are building, or are about to build, a total of fifty houses and stores at Coquitlam.

We have built between four and five miles of streets and sidewalks.

We have built a large number of ditches and bridges.

We are now building an industrial railway that will cost about thirty

We have put ten thousand dollars into a hydrographic survey of the Pitt and Fraser Rivers in order to establish data for a harbor survey and supply the government with much needed information concerning se rivers.

We have been the means of organizing or locating at Coquitlam several manufacturing concerns, the farthest advanced of the larger of which is the Coquitlam Shipbuilding & Marine Railway Company, which is spending thousands of dollars weekly on the great plant at Coquitlam, preparatory to building of ships.

lam, preparatory to building of sings.

We have embarked upon a very costly campaign for the industrial promotion of Coquitlam and have not asked a single corporation or individual that has interests there to contribute a cent.

Without being accused of unduly "blowing our horn," may we not submit that the foregoing proves that the Coquitlam Terminal Company, as well as Coquitlam, is making good?

We cannot give you all the details of the great forward movement at Cocannot give you all the details of the great forward movement at Co-quitlam during the last year in the limited space at our command here, but if you get our beautiful new booklet, now in preparation, "Coquitlam, the Industrial City," as well as our other literature re-garding the achievements in the past year, you will probably agree with us that it is easy to understand the high respect in which Co-quitlam is now held by the more conservative investing public.

Homesite seeker-don't wait until all the choice building sites in Henley, Cadboro Bay are gone before purchasing the site for that

home.

When the rush for Cadboro Bay property (due to the recent announcements concerning this district) is at its height and some of the beautiful homes planned for this exclusive property are in course of erection, don't expect to find choice one-third acre building sites at the present prices \$1300 to \$1700 and on these terms 1-3, 1-4 or 1-5 cash, balance over three years-"They won't be there."

Our Autos and a polite staff of salesmen are at your service.
