Township of

Norton.

Has justly acquired the reputation of a Fruit growing Township. The geographical situation of this township is worthy of a more extended notice than this space will allow. Located four miles from Muskegon City, and eight miles from Grand Haven, by water; with Lake Michigan on the south west and west. Lake Harbor extends nearly across the township, from east to west; deep and clear, with slightly elevated banks forming splendid location for all kinds of Fruit that can be grown in Michigan. The Lake is inexhaustibly supplied with Fish, having an open channel into Lake Michigan. A daily boat takes the Fruit to the great markets during the Fruit season. The soil is peculiarly adapted to Fruit growing, being stronger than most of the Michigan Lake Shore land, and of such a nature as to be easily worked when either wet or dry, retaining moisture better than pure sand, and never baking like clay. The health of this country is undisputed, and is destined to be a vicinity much sought for by the invalid who looks for fresh, pure lake breezes. Fine Bathing, and splendid Fishing, with plenty of fresh Fruits. The Lake is bordered with fine flowing springs of pure, clear Water. The vicinity of LAKE HARBOR is also supplied with a Fruit Package Factory, (a necessary adjunct of a Fruit country) There is already about 200 acres of small Fruit in bearing, which furnished for market during the season of 1876, about 3000 bushels of Fruit; one days shipping amounting to 636 bushels. Here is a splendid opportunity for men of moderate means to begin Fruit growing in a healthy climate and a good community, with all the advantages of old Fruit growing districts
 Antisdale J. O..Extensively engaged in Fruit growing and Prop of Dock at the mouth of Lake Harbor, sec 14
 Bidwell John W..Fruit grower, sec 7
