

My Hobbies During Lockdown.

Hi I'm Louise!

MY Hobbies during lock down are reading novels, swimming, archery, writing my own novels, playing games, listening to music and singing.

I mostly spend all my time on weekends doing my hobbies. But the most favorite thing I like to do on weekends is writing my own novels and stories. I like doing these because I can write about my imagination and fantasy in my story and I can let my friends read it!

About my archery hobby, I'm not skilled enough but I like playing it! And, swimming, too. But the most fun thing to do I think on a weekend is ... playing games and reading online novels! I know its not good for your eyes but I have a limit so I don't overdo playing games and reading online novels.

Also, some of my hobbies are singing and listening to music. I think these are my favorite things to do because music expresses so much feeling like it makes us sad, happy, scared and brave. Music is so beautiful that I love it!

I'll have to end my article here, until next time!
