MEMORANDUM FOR: Ministry of International Trade and Industry, Iron and Steel Bureau, No. 1 Sannen-cho, Chiyodaku, Tokyo

SUBJECT: Allocation of Imported Fuel Oil

1. Reference is memorandum from the Director, Iron and Steel Bureau, Ministry of International Trade and Industry, 15 February 1950, subject: Imported Fuel Oil for the Iron and Steel Industry.

2. Careful study of this problem indicates the feasibility of reducing the allocation of imported fuel oil to a figure of 14,000 kiloliters per month. It is considered that by following the recommendations and suggestions made by the various visiting expert consultants the integrated plants should be able to not only maintain present output but increase production without using any imported fuel oil. The study further indicates that the use of oil for practically all reheating furnaces is not only unnecessary but also undesirable for technical reasons and that in many cases change-over to coal and producer gas can be made with a minimum expenditure of funds. Domestic coal supply is considered adequate to provide for fuel requirements and should be used in preference to fuel oil which requires an unnecessary expenditure of foreign exchange.

3. In view of the foregoing, it has been decided that the overall allocation for subject oil for the month of March should remain at 15,500 kiloliters, for April 15,500 kiloliters, for May 15,000 kiloliters, and 14,000 kiloliters for June and thereafter.

NATIONAL RURAL POLICE
OKAYAMA PREFECTURAL HEADQUARTERS
Okayama, Japan.

21 November 1949

SUBJECT : Report of police investigation of the circumstances which were reported in an anonymous letter
TO : HQ Chugoku Civil Affairs Region/ Kure

Attached is an anonymous letter written to the Okayama Civil Affairs Team, and the same was refered to this office some time ago for full investigation of the circumstances.
The circumstances were thoroughly investigated by the Yorishimacho MP of the jurisdictional area, which revealed as follows:-

1. It is considered that the oil storage in questionwas requiring some measures to be taken in consideration of the circumstances of the surrounding, as pointed out in the anonymous letter.

2. Therefore, the following steps and measures were taken:-

(a) All the oils on hand have immediately been distributed among the members of the Association.

(b) A plan is now under way to use a concrete warehouse which is located at the sea shore about 100 meters east of the present storage as a "temporary storage" for time being and then to constract a new oil storage in accordance with the regulations.

There is no building around the "temporary oil storage".

(c) The TwonAssembly is now working to introduce and enact the new "Fire Prevention Act".

(d) In the anonymous letter it was mentioned that the citizens had passed a resolution and demanded [redacted] the Association to remove the storage to some other place, but this information could not be proved to be true.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77-0-19

YAMAGUCHI PREFECTURAL GOVERNMENT

November 14, 1949

SUBJECT: Monthly (October) Report on Progress of Salvage Work of Cargo on Board the Former War-ship "Mutsu".

TO: Commanding Officer,
Chugoku Civil Affairs Region.

We hereby beg leave to apprise you of the progress of salvage work of cargo on board "Mutsu", a former war-ship, being conducted by the Nishi Nippon Marine Industry K.K. in the month of October as follows: -

R E P O R T

1. Number of working days on the spot. 16 days

2. Outline of the work done:

A. Up to the middle of the month they were successful enough to salvage only a small quantity of such things as canned goods, bottles of Japanese wine, etc. mentioned under through the openings (made by blasting) in the side of the crew's quarteres, the hold of the paymaster's dept., the hold of the engineering dept., the canteen, etc. at the bow, contrary to expectation.

B. As for the much-looked-for heavy oil, they had completed their investigation and arrangements to salvage the oil on October 15 when an opening was made by air-drilling in the side of the heavy oil hold at the starboard bulge and it was ascertained that the heavy oil is stored in the hold. Thus the work was commenced on October 26 and 12 metric tons of oil was salvaged by the end of the month as follows. The heavy oil (presumably 200 metric tons) in the hold at the starboard bulge will be salvaged without delay.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77012

Technically speaking, it is no hard work to salvage the heavy oil and so a considerable quantity of oil will be salvaged, if the weather be fine. Moreover, the heavy oil salvaged so far is of good quantity and available for instant use.

3. Goods salvaged:

Canned goods (beef, fish and bamboo-shoot)	11 boxes (contents rotten and uneatable).
Wine (1-sho bottle of Japanese wine)	22 bottles
(do.)	
Winter clothes and rain-coats	8 suits
(decayed)	
Shoes	4 pairs
(decayed)	
Heavy oil	12.9 metric tons (good)
Bones	Four men.

4. Divers, boats and machine used.

Divers	2 teams	(four men)
Depot-boats	2	
Working boats	2	
Air compressors	2	

Yours respectfully,

Tadashi Hagenji

For. Tatsuo Tanaka
Governor of Yamaguchi Prefecture.

Dear Sir:

The Hiroshima Jo Gakuin would like to have permission to buy one hundred and fifty gallons of gasoline and four quarts of oil a month for a school bus. Perhaps more oil will be needed.

It is a Nissan Go bus made in Japan with a fifty gallon capacity. The chassis is A. I. Gata, but no license number has yet been secured.

We would appreciate your kind consideration of this matter.

Very truly yours,

/s/ Martha Jewell Thomas, Secretary

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Transfer of Proceeds of Imported Petroleum Products to the Counterpart Fund

1. References:

a. Ministry of International Trade and Industry L.O. No. 4 to General Headquarters, Supreme Commander for the Allied Powers, 7 June 1949, subject: Transfer of Proceeds of Imported Petroleum Products to the Counterpart Fund.

b. Ministry of Foreign Affairs F.O.M. No. 52 (TIH) to General Headquarters, Supreme Commander for the Allied Powers, 8 June 1949, subject: Transfer of Proceeds of Imported Petroleum Products to the Counterpart Fund.

2. With regard to the request contained in paragraph 3 of letter referred to in paragraph 1a above, the following instructions apply:

a. The Japanese Government will be furnished an estimate of proposed imports of petroleum products considered necessary to sustain the approved economic programs. As requested, this estimate will be furnished quarterly for the quarter of year commencing with January, April, June and September of each year. It is expressly stipulated that the information as to quantity and type of any petroleum product included in this quarterly estimate is furnished to the Japanese Government for planning purposes only, and is subject to change without notice at the discretion of the Supreme Commander for the Allied Powers.

b. It is not considered necessary to issue to the Japanese Government a delivery order for each specific delivery of petroleum products. However, arrangements have been made for advance notice on individual imports of petroleum products to be furnished by the Sub-Area Petroleum Officer, Japan, Headquarters, Eighth Army, or his representative at ports of discharge to the Japanese Government

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 770012

representative at the port of discharge. This advance notice will specify name of the vessel, expected time of arrival, type and quantity of products aboard, and port of discharge. Further, the Japanese Government representative at port of discharge will be advised of any changes in advance notices subsequent to their issuance. It must be clearly understood that this advance notice does not constitute authority for representatives of the Japanese Government to make any arrangements for discharge of cargoes with the ship's captain or chief mate. Such arrangements will be made with the appropriate United States Army representative at each port of discharge.

c. The request that the Japanese Government be furnished a copy of the ship's manifest or similar document has been evaluated and is approved in principle. The Japanese Government will be furnished, within ten (10) days after completion of discharging cargo, an authenticated copy of a "shipping document" covering the products discharged from each individual vessel. The appropriate agency of the Japanese Government will contact the Sub-Area Petroleum Officer, Japan, Headquarters, Eighth Army, for coordination of this matter.

d. It is considered that the procedure outlined above will preclude the necessity for the submission of any claim as distinguished from adjustment. It is recognized that, for cogent reasons, adjustments will have to be made between the records of the Japanese Government and those of the United States Government. It is expressly stipulated that any adjustment of records will normally be limited to changes in nomenclature only. Any reconciliation of records must be accomplished between the Japanese Government and the Sub-Area Petroleum Officer, Japan, Headquarters, Eighth Army.. In the event of failure to arrive at a mutual reconciliation, the decision of the Sub-Area Petroleum Officer, Japan, will be final.

3. With reference to paragraph 3e of reference 1a, under present pricing criteria as established by the Japanese Government Price Board, allowance is made to cover landing costs of petroleum products. Therefore, the International Trade Bureau of the Japanese Government will be

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 770012

responsible for payment of all expenses incurred in landing imported petroleum products consigned to the Japanese civil economy.

FOR THE SUPREME COMMANDER:

for R. M. LEVY
Colonel, AGD
Adjutant General

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 770018

Price list furnished in accordance with paragraph 3, WD Letter (AGAM-PM) 400.1912 (16 July 47) QMGKE) 21 July 47, Subject: "Price Lists of Petroleum Products Transferred by QM Overseas."

BULK PRICES - PETROLEUM PRODUCTS - FAR EAST COMMAND

Effective 1 July 1949

(IN U. S. DOLLARS PER 42 GAL. BARREL)

PRODUCT	ORIGINAL PRICE	LIST PRICE	CIF PRICE
Gasoline, White, USA 2-116A (U. S. Gulf)	$ 3.78	$ 4.16	$ 5.93

Motor Fuel, All Purpose, 80 Octane, Type A (U. S. Gulf)	4.73	5.20	6.97
Kerosene, USA 2-125 (U. S. Gulf)	3.78	4.16	6.12
Navy Special	1.16	1.28	2.81
Navy Diesel	1.83	2.01	3.35

ECONOMICS SIGS NARS QMT ARMY COMM

The above bulk price list applies to products which are centrally procured and should only be utilized as a basis for accomplishing settlement for issues for resales or reimbursables. Does not include prices employed in Marbo Command; for this area use Navy stock ledger prices. The ORIGINAL price is the f.o.b. cost at point of loading for overseas shipment; LIST price is the original price, plus a 10% Administrative charge, as prescribed in AR 35-6660, paragraphs 6 to 18 inclusive, and Change No. 2 thereto; CIF price is the list price, plus the cost of freight and insurance to port of entry and includes all Federal taxes where applicable.

When sales are made to individuals or other Government agencies as prescribed in SB 10-389, dated 4 June 1947, the sale price will be the CIF price plus the theater handling charge or service charge where applicable as prescribed by the theater Commander. This method of pricing does not include Navy or GARIOA which are listed as exceptions to CIF prices in SB 10-389. This price list does not apply to items procured locally. The sale price of locally procured items will be the local price of the product plus 3% charge to cover overhead costs, plus any applicable incoming transportation.

Reproduced by Hq Eighth Army, 25 Jun 49.

SUBJECT: Recovery of Waste Petroleum Products

1. Rescissions:

a. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file AG 463.7 (25 Nov 47) GD, SCAPIN 1827, 25 November 1947, subject: Disposition of Waste Petroleum Products.

b. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file AG 463.7 (5 Apr 47)GD, SCAPIN 1602, 5 April 1947, subject: Sale of Waste Petroleum Products to the Japanese Government.

c. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file AG 463.7 (20 Jun 46) GD, SCAPIN 1514-A, 20 June 1946, subject: Petroleum Importation for the Japanese Government, Third Quarter 1946.

2. References:

a. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, file AG 463.7 (2 Sep 48) GD, SCAPIN 1930/2, 5 April 1949, subject: Petroleum Distribution, Reports Required.

Memorandum from the Japanese Government, (C.L.C.O. 900 (2P)) 2 April 1949, subject: Application for Permission to Handle Waste Oil.

3. The plan for the handling of waste oils submitted as an inclosure to reference 2 b above is approved, effective 1 April 1949, subject to the provisions of paragraphs 4, 5 and 6 below.

4. The Japanese Government is responsible for the promulgation and enforcement of regulations governing the collection, processing, sale and distribution of all types of waste petroleum referred to herein. The practice of deviating from standard nomenclature of petroleum products for the purpose of evading the provision of such regulations is prohibited.

5. Waste petroleum products will be classified as "Domestic" and "Imported." These classes are defined as follows:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 770012

a. "Domestic" waste petroleum will include:

(1) All petroleum products produced in Japan which cannot be utilized for their original purpose, or as an acceptable substitute for any other refined product. Included in this category are such common products as tank bottom oils, contaminated stocks, and sub-specification products produced by Japanese refineries.

(2) All petroleum products sold to the Japanese Government by privately owned petroleum industries as tank bottom oils and/or contaminated stocks.

b. "Imported" waste petroleum will include all petroleum products, except aircraft engine oils, procured by the United States Government which have been used and which cannot be utilized for their original purpose or as an acceptable substitute for any other refined petroleum product.

6. The Japanese Government will submit monthly to General Headquarters, Supreme Commander for the Allied Powers, a report covering the activities of each waste oil collector and/or refiner, which will reflect the quantity on hand, received, disposed of, and balance on hand for the period covered in the report. This report will be submitted on or before the 10th day of the month succeeding the month covered by the report. The initial report will cover the month of April 1949, due in General Headquarters, Supreme Commander for the Allied Powers, not later than 10 May 1949.

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS
APO 500

AG 463.7 (2 Sep 48) GD
SCAPIN 1930/2

5 April 1949

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Petroleum Distribution - Reports Required

1. Rescission: Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, File AG 463.7 (10 Jun 46) GD, SCAPIN 1688-A, 10 July 1946, subject: Common Terminology, is rescinded.

2. References:

a. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 463.7 (2 Sep 48) GD, SCAPIN 1930, 2 September 1948, subject: Restoration to Private Enterprise of the Operation of Petroleum Main Terminal Facilities.

b. Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 463.7 (2 Sep 48) GD, SCAPIN 1930/1, 10 January 1949, subject: Restoration to Private Enterprise of the Operation of Petroleum Secondary Distributing Facilities.

3. The restoration to private enterprise of the petroleum distribution system in Japan necessitates a revision of the current procedure for reporting statistical data pertaining to the petroleum industry to General Headquarters, Supreme Commander for the Allied Powers.

4. The Japanese Government will, as of 1 April 1949, assume full responsibility for submission to General Headquarters, Supreme Commander for the Allied Powers, at the time and in the form prescribed, the summaries and/or reports relative to the petroleum industry described herein. Initial reports will cover the month of April 1949.

5. The following summaries and/or reports are required:

a. (1) Title: Summary of Proposed Petroleum Releases to the Civilian Market.

(2) Format: See Form "A" attached.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78018

(3) Number of copies: Duplicate.

(4) Date Due: On or before the 10th of the second month preceding the month covered by the summary. First report will cover June, 1949, and is due by 10 April 1949.

(5) Frequency: Monthly.

b. (1) Title: Proposed Allocations by Detailed "End Uses," by SCAP sections.

(2) Format: See Form "A-1" attached.

(3) Number of copies: Duplicate.

(4) Date Due: On or before the 10th of the second month preceding the month covered by the report. First report will cover June, 1949, and is due by 10 April 1949.

(5) Frequency: Monthly.

c. (1) Title: Summary of Petroleum Receipts, Issues and Balance on Hand.

(2) Format: See Form "B" attached.

(3) Number of copies: Duplicate.

(4) Date Due: On or before the end of the month following the month covered by the report. First report will cover April, 1949, and is due by 31 May 1949.

(5) Frequency: Monthly.

d. (1) Title: Summary of Consumption by Categories and "End Uses."

(2) Format: See Form "C" attached.

(3) Number of copies: Duplicate.

(4) Date Due: On or before the end of the month following the month in which the products were consumed. First report will cover April 1949 and is due by 31 May 1949.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78018

(5) Frequency: Monthly.

e. (1) Title: Tri-Monthly Report of Petroleum Imports.

(2) Format: See Form "D" attached.

(3) Number of copies: Duplicate.

(4) Dates Due: 7th, 17th and 27th of each month. First report will cover period from 25 March to include 5 April, and is due 7 April 1949.

(5) Frequency: To cover the periods ending on the 5th, 15th and 25th of the month.

f. (1) Title: Summary of Bulk Storage Facilities.

(2) Format: See Form "E" attached.

(3) Number of copies: Duplicate.

(4) Date Due: 20th day of the month.

(5) Frequency: Monthly. To cover the period from the 15th of preceding month to the 15th of current month. First report will cover period 15 March 1949 to 15 April 1949 and is due by 20 April 1949.

g. (1) Title: Report of Bulk Stock and Ullage.

(2) Format: See Form "F" attached.

(3) Number of copies: Triplicate.

(4) Date Due: 7th, 17th and 27th of the current month. First report will cover period from 25 March 1949 to 5 April 1949 and is due by 7 April 1949.

(5) Frequency: To cover the period ending the 5th, 15th and 25th of the current month.

Form "A":

1. This summary to be submitted to General Headquarters, Supreme Commander for the Allied Powers, on or before the 10th of the 2nd preceding month for the period covered. The summary will be submitted in duplicate.

2. Details for using this form:

a. Column (1) reflects the "End use by Category." "Category" meaning the appropriate SCAP section which is further broken down to show the specific quantities required by each "end use" thereof.

b. Columns (2) through (7) reflect the quantity of types of petroleum allocated to each "end use."

c. Column (8) reflects the total of liquid petroleum allocated by "end use."

d. Columns (9) and (10) reflect the quantity of types of solid petroleum products allocated to each "end use."

e. Column 11 shows the total of solid petroleum products allocated. (Except asphalt).

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78018

Form "A-1":

1. This report is to be submitted monthly in duplicate to General Headquarters, Supreme Commander for the Allied Powers, on or before the 10th of the 2nd preceding month for the period covered.

2. Details for using this form:

a. Column (1) "End Use by Category."

(1) Definitions:

(a) "Category" refers to requirements of all activities under the sponsorship of the appropriate SCAP Section. Viz: Civil Transportation, Natural Resources, Economic and Scientific Section, etc., etc.

(b) By "End Use" is meant the quantity required by each specific segment of the program sponsored by SCAP section. Viz: Within Civil Transportation category, the following end use might apply: Automobile, shipping, railway, auto repair, etc., etc.

(c) There are a total of nine categories and currently about 100 "end uses." The number of "end uses" will fluctuate.

b. Columns (2) through (7) cover types of liquid petroleum products. The report will reflect the quantity of type consumed during the period for each "end use." Unit is kiloliters.

c. Column (8) will reflect the total of all liquid fuels consumed by "end use", expressed in kiloliters.

d. Columns (9) and (10) cover types of solid petroleum fuels (except asphalt) consumed by "end use" during the period covered, expressed in metric tons.

e. Column (11) is the total of (9) and (10).

Form "B"

1. This summary will be submitted monthly on or before the end of the succeeding month following the period covered.

2. It will be submitted in duplicate to General Headquarters, Supreme Commander for the Allied Powers, (G-4 Petroleum) by Petroleum Section, Ministry of Commerce and Industry of the Japanese Government.

3. Details for using this form:

a. Column (1) will reflect the stock position as of the beginning and end of the period covered, together with other pertinent data relating to the receipts, issues, losses, etc., etc., for each type of petroleum involved.

b. Columns (2) through (7) reflect the quantity by type of petroleum included in the report.

c. Column (8) reflects the total of liquid petroleum involved.

d. Columns (9) and (10) reflects the quantity by types of solid petroleum products involved.

e. Column (11) is the total of all solid petroleum products.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 78018

Form "D":

1. To be submitted in duplicate on or before the 7th, 17th and 27th of each month. The report will cover the periods ending the 5th, 15th and 25th days of each month.

2. This report will be prepared and submitted by Boechi Cho to General Headquarters, Supreme Commander for the Allied Powers, (G-4 Petroleum).

3. Details for using this form:

a. Column (1) will reflect the actual date the Japanese Government receipts for the product.

b. Column (2) indicates by type and grade all petroleum products imported into Japan. Nomenclature to be used should be exactly as shown on ship's manifest and/or shipping document.

c. Column (3) indicates the designated port of entry of the vessel carrying the product.

d. Column (4) shows the source, e.g., name of vessel and/or Army installation responsible for turning products over to the Japanese Government.

e. Column (5) indicates the destination within Japan to which the products are consigned by Japanese Government.

f. Column (6) indicates type of container used.

g. Column (7) reflects the total of each quantity by product, imported, expressed by barrels and kiloliters, and unit of measure.
