REPORT ON RESCISSION OF AUTHORIZED USE EQUIPMENT.

DATE: 17 Mar. 1950.

PLANT NAME: Steam Power Plant, Kure Naval Arsenal . (Nippon Hassoden K.K.)

LOCATION (CODE NO.): Miyabara-deri, Kure-city . (II-5(I4))

USER: Chugoku Haiden K.K.

REASON OF RESCISSION: For the purpose of supplying power to Occupation Forces in the compound of Dock Area this plant had received II KV. power from Nippon Hassoden Source through Miyabara Substation, since April I 1946 and sending it to Miyabara-deri Substation in charge of Chugoku Haiden K.K. after transforming it to 2.2 KV. by means of switch gears and a transformer which were dictated as Authorized Use of Rep. Machinery listed as follows . Meanwhile in the consequence of the Allocation Notice of 15,000 KW. New Plant was promulgated by SCAP and Japanese Government eventually began dismantling and packing. Then this plant had lost all above mentioned capability from the date of Mar. 1949. Prior to shutting down this plant, Chugoku Haiden K.K. took a immediate step to receive 2.2 KV. power from the Power House of Harima Ship Yard instead of Kure Thermal Plant . This power circuit now under operation being not out of order. We therefore, request to have your permission for release of Authorized Use of Rep. Machinery from the date of Mar. 16 1949.

(2) Use authorized by Hiroshima CAT pending the formal approval of "Authorized use", which are composed of 2 groups as follows.	<u>3841</u>	
1st group: The 3723 machineries under TU of Hiroshima CAT which have been mostly used by us since our foundation here, had not been listed in the initial inventory, and later suspension of any more AU autho- rization did not allow us any time to apply for AU for them, and thus these machineries, remaining without AU, though it should have been properly been applied for, have been in use actually under TU of Hiroshima CAT. It is understood that Hiroshima CAT forwarded the list of these machineries to GHQ for formal approval of AU.		
2nd group: The 118 machineries whose application for AU was made on 8 July 1949 in the hope of substituting for the 289 machin- eries under TU of Hiroshima CAT, recent- ly assigned for reparation removal. These machineries were recommended approval of Authorized use by Hiroshima CAT with a letter, File HCAT 386.3 D/SRS/mn, dated 12 July 1949.		
b. Being used by Occupation Forces	<u>87</u>
