A BRAKE UPON PROGRESS.

It is indeed lamentable that no one in Parifament or in the provincial government will take up the eccentric ideas of the Colonist in regard to the mPeace River lands acquired by the Doninion government under contract

with the provincial government. Our contemporary's views are so eminently understand, Mark Twain has left an sane and practical, as usual, that we wonder at the obtuseness of our representatives, Conservative and Liberal, in neglecting to adopt them. No doubt lands in questions are worth many millions of dollars. If they are, they will be turned to good advantage by a government whose policy is to open up all lands free to actual settlers as soo as accessible. That is one of the ends for which the Grand Trunk Pacific Railway is being constructed. A hundred thousand or more of settlers will prove of vastly more value to British Columbia than the tying up of all the property in the hands of speculators, which is pretty sure to be what would have happened had the lands in question remained in possession of the provincial government. The prosperity of Canada to-day, as everybody knows, is due to the liberality the Dominion has displayed in according settlers free lands and in providing railway faciltics to the people in possession of the said lands. The crowding of people into the cities of British Columbia is directly traceable to the fact that no prohas been made by the gover ment for placing settlers upon agriultural lands. That is the reason why the growth of agricultural products has which said: not kept pace with demands and why we send seven or eight million dollars a year out of the province to buy neces-saries of life which ought to be produced within the province. Hence our development is lopsided.

HORSE "RACING."

We are glad to observe that the Colonist has experiencel a change of heart on the question of horse racing as con- 1 ducted by the clubs which were re- his newly acquired reputation. A Belated Shipment of Beautiful Costumes On Sale, Saturday, at **Half Price** Regular to \$35, Your Choice for \$17.50

Extraordinary bargains indeed are these. A finer collection of Ladies' Costumes at \$35.00 could hardly be found elsewhere. Yet we are offering them to you on Saturday for the modest sum of \$17.50. A great many will wonder how it is that we can offer such values. Well, here is the reason: When we ordered these suits we were given to understand that they would be in time for our March trade, but, instead, they were unfortunately delayed in getting here, owing, no doubt, to the many tie-ups along the railroads during the latter part of that month, and have accordingly only been received during the past day or so. This, of course, is rather late in the season, so in order not to have them left over we decided to put them at a price that means a sure clearance. They embrace the best of tailoring, are exceptionally smart, and include only the most favored materials of the season. The styles are such as will appeal to the most discriminating, coats being from 32 to 36 inches in length; skirts are the new pleated effect. See Government street windows. These are our regular \$35.00 line, but, to make a sure clearance, they are marked for Saturday's selling at

The Pacific Coast Fire Insurance Co., of Vancouver, B. C., was incor-orated by the Legislature of the Province of British Columbia in the year 1890, and about eight years ago eame under the present control. During this period steady progress has been made in laying the foundation for a large and successful Fire Insurance Company.

The paid up capital has increased from \$37,000.00 in 1904 to \$230,000.00.

The Company is acting under a Dominion Charter and has an active organization throughout the Dominion of Canada as well as strong connections in the United States and Great Britain.

REGULAR DIVIDENDS HAVE BEEN PAID TO SHAREHOLDERS, AND IN ADDITION TO THESE SUBSTANTIAL BONUSES HAVE BEEN CREDITED.

The Board of Directors of this Company is composed of eighteen of the leading business and professional men of the West, each of whom has

made a success in his own line. Up to the present, the stock of the Pacific Coast Fire Insurance Co. has never been offered to the general public, but has been confined to those in control. The Directors having, however, demonstrated that there is money to be made in the Fire Insurance business, are now convinced that a much greater success can be made with a larger capitalization and with the co-operation of the leading business men of the West. Having therefore in view the making of the Pacific Coast Fire Insur-

ance Co. one of the largest and strongest Fire Insurance companies in

Canada, the Directors recently decided to increase the capitalization from \$275,000.00 to \$500,000.00, and a considerable proportion of this new issue has already been taken up by leading business men of Vancouver and vi-cinity. The Directors of the Company have also recently subscribed for a large block of the stock. Only a limited amount of the balance of this stock will be offered in Victoria, as it has been decided to have business men of other sections of the Dominion participate where their influence will inure to the benefit of the Company.

That there is ample scope for the profitable investment in a strong Canadian Fire Insurance Company is shown from the fact that in the past ten years premiums amounting to about \$100,000,000,000 have been paid by Canadians to Companies incorporated outside of Canada. With sufficient capital invested in the business in Canada a great part of this money would have been kept in our own Dominion of Canada, and would have materially assisted in the developing of the resources of our own country.

THE PACIFIC COAST FIRE INSURANCE COMPANY HAS SEV. ERAL DISTINCT ADVANTAGES FOR EARNING A LARGER NET PROFIT THAN MANY OTHER FIRE INSURANCE COMPANIES AS SHOWN BY THE FOLLOWING FACTS:

Practically the same safe, careful and conservative management which has built up the British Columbia Permanent Loan Co. to its present com-manding position controls the Pacific Coast Fire Insurance Co. From the one Company, the very nature of its Loan business (acknowledged by Fire Insurance experts to be "The Cream of the Business") a large amount of premiums flow with an extremely low expense ratio to the latter Com-pany. Again, the interest upon investments of the capital, surplus and reserves, is very nearly double that obtained by other Companies located in the East.

THE PREMIUMS PAID BY BUSINESS MEN CREATE THE PRO-FITS OF FIRE INSURANCE COMPANIES.

The Company particularly desires the co-operation of business men, who can, by the dividends paid and increase of value of stock, reduce or entirely eliminate their Fire Insurance expense.

About 600 shares of stock are now held in Victoria, and stockholders ost unanimously have signified their intention to take up their rights to subscribe to the new issue.

Mr. J. Spencer Rogers, an Insurance expert who took a leading part in the organization of the People's National Fire Insurance Co., recently formed, has been secured to bring the capitalization of the Pacific Coast Fire Insurance Co. up to the \$500,000.00 mark.

Applications for stock will be filled in the order received, and in case of over-subscription stock will be alloted pro rata.

The Company reserves the right to reject wholly or in part any application for stock

"Your Humble Servant," judging from advance announcements, is a realistic ploture of stage life. This is a unique theme, and the authors have treated it in a daring and unconven-tional way. Mr. Skinner's role is that of a tragedian of the old school, one Lafayette Towers by name, a philos opher and optimist by nature. That Invite the Inspection

of Men of Critical Tastes

More men are coming to the Fit-Reform Wardrobe for their spring suits, than ever before.

And they are finding more than ever before

BETTER SUITS, for the constant aim Fit-Reform is improvement.

WIDER VARIETY, for nothing that is new and in good style is missing.

GREATER VALUE, for that is the goal of the whole Fit-Reform organization.

We are selling more Fit-Reform Suits this season, simply because men know that they get better suits for the money here. than they can possibly get anywhere else on the North American continent.

It's a big c aim for Fit-Reform -but Fit-Reform is doing big things these days.

Mail orders receive prompt attention. Samples sent on application.

GENERAL MANAGER **REACHES THE COAST** E. J. Chamberlin, of G. T. P., on Tour of Inspection of Company's Western Interests

Interviewed on his arrival at Vaniver on Wednesday night, E. J. Chamberlin, general manager of the Grand Trunk Pacific railway, who is on a tour of inspection of the com pany's western interests, said that the work of construction was progre work of construction was progressing satisfactorily, but that operations were greatly hampered by the scarcity of men for work on the line. Only about half of the men required for building the line could be secured. The line had been completed some 125 miles west of Edmonton, and is being con-tinued to Tete Jeune Cache as rapidly as possible. Twelve hundred teams hundred cars of supplies have been sent forward to the Cache. A through service between Port William and Ed-monton will be possible about Septem-ber. Work was proceeding from the coast eastward, and it was hoped to have the first one hundred miles in operation late this summer. Preliminary surveys, said Mr. Cham-berlin, would probably be commenc-ed on the Fort George-Vancourer branch of the company, it was stated that two of the company's new boats for this purpose, which were built in the British Isles, were now en route here, and according to schedule are timed to reach this coast the end of May. The Prince Supert, which was the larger of the two new boats and which will go on the Prince Rupert-Vancouver run, is expected on the Soth of the Queen Charlotte service one day later. satisfactorily, but that operations were
