Strawberries

*fresh from your own
Garden*

Plant **BURNETT'S** *Pot-Grown Plants*

Potgrown strawberry plants are much superior to the ordinary ground layers usually sold, as there is no loss of fine roots in taking them up. They can be transplanted at any season with scarcely any check to their growth. The sooner pot-grown plants can be set out after June 1st, the larger they will grow and the more they will produce the following spring.

Those marked (P) have pistillate or imperfect flowers and must be planted near perfect-flowering kinds, in order that the flowers may fertilize. The varieties not so marked are bi-sexual, or perfect-flowering, and can be planted alone. When properly pollinized the pistillate varieties are the most prolific.

Our list includes all the newest and best standard varieties, extra strong, healthy plants. We exercise the utmost care in packing for shipment, which is of great importance to the purchaser.

How to Grow

Strawberries require rich, well-tilled soil. The plants should be set 15 inches apart, in rows 2 ft. apart. 100 plants will plant 4 rows 30 ft. long, if set above distance apart. For horse cultivation, set plants 2 ft. apart in rows 3 ft. apart. 7,260 plants at this distance will plant an acre. Firm the plants well in the soil, keeping them thoroughly cultivated and cut off all runners. About the middle of December, cover the bed with salt meadow hay, straw or leaves. In April, as soon as the plants show indications of growth, push the covering away from the plants to allow them to come through. This mulching protects the plants from cold in the winter and heat in the summer, keeps the fruit clean and prevents the growth of weeds.

General List of Summer Varieties

	Per 100	Per 1000
BARRYMORE. A fine midseason to late variety for growing where soil and climatic conditions are inclined to be cool. Its beautiful large firm berries are bluntly conical and of superb quality.	\$7.00	\$65.00
BIG JOE. Late, ripening at the same time as the Chesapeake. Very large and productive. In flavor it is one of the best; firm and a good shipper. Succeeds upon almost all soils and under all conditions. . .	7.00	65.00
BRANDYWINE. Berries are large, firm and solid, excellent in quality, with fine aromatic flavor. A vigorous grower. Midseason to late. .	6.50	60.00
BUSHEL BASKET (New). Winner of the Barry Gold Medal. A giant in growth. Vigorous and healthy. It is enormously prolific and the fruit is of high quality. Mid-season.	8.00	75.00
CAMPBELL'S EARLY. Very early. A strong grower and very productive. Berries large, bright red, of very high quality.	7.00	65.00
CHESAPEAKE. One of the best strawberries grown. It is very large, of fine form, as late as Gandy and in flavor ranks with "Marshall". .	7.50	70.00
EARLY JERSEY GIANT. Extra early. Berries very large, scarlet-crimson color, has mild, wild strawberry flavor. Large and of vigorous growth	8.00	75.00

	Per 100	Per 1000
EDMUND WILSON. Enormously prolific. The berries are very large, globular-shaped of deep maroon color, with smooth surface and quite firm		
GANDY. The standard late variety by which all other late varieties are compared. A strong compact grower with large, firm berries of finest flavor	\$8.00	\$75.00
GLEN MARY. A superb variety of large size, great productiveness and good quality	6.50	60.00
HUNDRED DOLLAR. A very valuable midseason variety. A strong, vigorous grower and among the most prolific. Berries large, color is bright scarlet and the quality mild, sweet and luscious.	7.00	65.00
JOHN H. COOK. This is the finest of all the wonderful Van Fleet Hybrids. It is an enormous cropper, ripening with the second early varieties. The berries are of exquisite quality, blood red in color and very firm	8.00	75.00
LUPTON. One of the most productive and largest berries. Considered the very best of the late fruiting varieties. Berries are large, bluntly conical, bright flame colored.	7.00	65.00
McKINLEY. For large size, beauty, great productiveness and high quality, it stands high among strawberries, ripening in mid-season. .	7.00	65.00
MARSHALL. One of the richest flavored strawberries grown. Always the leader. Dark crimson when fully ripe, and of large size. Mid-season	6.50	60.00
NEW YORK. Berries are very large, some rather pointed while others are thick and broad; dark scarlet with no green sides or tips. Mid-season	7.00	65.00
NICK OHMER. A superb variety for the home table, free from rust and bears heavy crops of large, dark, glossy red berries, highly colored all the way through and of superior flavor. Medium late.	6.50	60.00
ROYAL SOVEREIGN (True Stock). A splendid variety of English origin. Berries are of large size, color rich crimson. Royal Sovereign is the king of all forcing strawberries. Stock limited.	12.00	
SHARPLESS. Berries are very large, irregular in shape and of good quality. One of the best for table use. Mid-season.	6.50	60.00
STEVEN'S LATE CHAMPION. A grand variety, fruiting very late in the season, yielding large crops of fine berries.	7.00	65.00
SUCCESS. It is the best of the large, early varieties that we have fruited. The plant is exceptionally vigorous and prolific. Berries bright crimson	6.50	60.00
WM. BELT. Berries of large size and good quality; flesh solid, meaty, deep crimson in color. It begins to ripen quite early, continuing until almost the close of the season.	7.00	65.00

Everbearing Strawberries

or Fall-Fruiting Varieties

CHAMPION EVERBEARING. A seedling of Superb, and, like it in many respects, though it is much more productive and the fruit is larger	\$10.00	\$95.00
LOVETT'S ALL SEASON (New). The perfect berry for the home garden. This variety was produced by a cross with one of the famous Van Fleet hybrids and the Everbearing variety, Progressive. It begins bearing in June and continues right through the Summer and Fall, the Fall crop being greater by far than that of any of the other everbearing varieties. The berries are large and will at any time compare favorably in size and quality to the best of the June varieties. Order early. Stock limited.	25.00	
LUCKY BOY. Claimed to be "the biggest, sweetest and most productive everbearing variety as yet produced"	10.00	95.00
PROGRESSIVE. One of the best fall-bearing sorts; strong grower; berries round, deep crimson. It begins to ripen with second earlies, bearing fruit until late fall.	8.00	75.00
SUPERB. A healthy grower. The berries are a rich blood red from surface to center. Aromatic and of excellent quality.	8.00	75.00

NOTE: Varieties not mentioned in this list, we can supply at advertised prices.

Bird Netting

For Protecting Strawberry Beds.

This we can supply in 20 and 30-foot widths, 2-inch mesh. Price \$3.00 per lb. (One lb. contains 200 square feet.) One lb. of 20-foot width will cover a bed of 20x10 feet. Three lbs. of 30-foot width will cover a bed of 30x20 feet.
