ROSES FOR 1936

BETTER TIMES

The Jos. H. Hill Co.

Plant Patent No. 23, August 23, 1932

1934

"A cerise pink sport of Briarcliff found on The Joseph H. Hill Company range in January, 1931. It is thought so well of that nearly one hundred thousand were planted here last spring. . . . the fact that it is such an easy doer and is so resistant to the common diseases, *we predict that Better Times will replace all dark pink varieties now being grown.*" From our 1934 catalog.

1935

"One of the finest tributes to Better Times is that no adverse criticism has been heard from growers or retailers who have handled it. It is our policy now and will be for some time to come to maintain a higher purchasing price for this rose than for more standard varieties and *to protect the purchasers of this rose to the best of our ability.*" From our 1935 catalog.

1936

Better Times is now established. The variety has proved to be all that was ever said of it. If you have not yet planted it, plan to this spring; if you have some growing, it has surely convinced you that you need more.

BETTER TIMES MARCHES ON!

MRS. FRANKLIN D. ROOSEVELT

Traendly & Schenk
Plant Patent No. 80, November 7, 1933

Mrs. Franklin D. Roosevelt is among the best sports of Talisman yet produced. The bud is pointed and the color a golden yellow, with slight shadings of delicate apricot; open flowers a lasting yellow, intense in coloring. It is borne on a strong stem and the plant is a free bloomer, producing good salable flowers singularly free from any tendency to produce bull-heads or malformed buds.

RESTRICTED AREA New York, Pennsylvania, New Jersey, New Hampshire, Massachusetts, and Connecticut.

TOKEN

The Montgomery Co.
Plant Patent No. 95, April 24, 1934

Two years ago when this rose was introduced, not many plants were purchased by the trade. Last year we sold fifteen times as many Token plants as we did in 1934. Florists saw it growing, watched the market returns and then showed their favorable reactions by heavy purchases. Token is a seedling resulting from Premier Supreme x Mme. Butterfly. It has a distinctive orange buff to peach red color with buds somewhat urn-shaped in form when ready to open. We believe that there will again be an increase in sales and are grafting accordingly.

Prices same as Mrs. Roosevelt

Purchasers must sign agreement not to propagate stock of this variety except for their own use on a royalty basis.

AMERICAN PRIDE

N. Grillo

Plant Patent No. 49, December 20, 1932

After carefully watching the results obtained from half a house of American Pride, we unhesitatingly offer this rose to the trade this year. Stems of American Pride do not stretch to the length reached by other varieties but in white this is not necessary and the plant is so prolific that the gross income per square foot is well above the average. While on the plant American Pride is suffused at times with a slight pink blush. By the time the flowers reach the markets and have opened more, this tinge disappears, making the rose in great demand for white.

GRAFTED PLANTS		PRICES	SCIONS	
\$30.00 per 100	\$250.00 per 1000		\$12.00 per 100	\$100.00 per 1000

Purchasers must sign agreement not to propagate stock of this variety except under special license from originator.

SENIOR

Frank Spanbauer

Plant Patent No. 2, October 13, 1931

Senior was the first forcing rose to secure a plant patent and has been the most widely grown red rose since. It is a seedling of Gen. Jacqueminot x Richmond. Senior is not only a seasonal producer when reds are in demand but will bear well throughout the year.

MARY HART

George B. Hart, Inc.

Plant Patent No. 8, February 23, 1932

STERLING

E. G. Hill Co.

GOLDEN CHARM

(Groshens & Morrison)

This is a recent yellow sport of Talisman, not patented, that appeared two years ago in the greenhouses of Groshens & Morrison, Roslyn, Penna. It has a well-shaped bud, is clear yellow, and has pleased all who bought the few thousand plants that were disseminated last season. There are no patent restrictions and the purchaser may propagate an unlimited quantity of this variety for his own use but is asked not to propagate it for resale.

\$ 27.50 per 100		\$80.00 per 1,000
250.00 per 1,000		75.00 per 1,000 in lots of 5,000 or over

MRS. FINCH

This is the only Sweetheart variety that we are now growing in Richmond. It has well earned this distinction. Mrs. Finch has well-flowered shoots of light pink buds. The buds are a little larger than other types of Sweetheart roses and are carried on straighter, better stems. It is especially useful in corsage and other make-up work and is a valuable rose for the retail grower as well as the wholesaler.

PRICES—GRAFTED PLANTS
\$25.00 per 100 in all quantities

STANDARD VARIETIES

The following varieties are so well known that no detailed descriptions need be given. We wish only to say that when purchasing any of these seven good varieties in HILL'S QUALITY GRAFTED PLANTS, you secure the best.

BRIARCLIFF—A brilliant pink, the best in its field.

DOUBLE WHITE KILLARNEY—Still the favorite white of many growers.

HOLLYWOOD—Dark pink sport of Premier Supreme.

JOANNA HILL—Has given universal satisfaction as a yellow rose.

PREMIER SUPREME—Another Premier sport; color deep rose.

SUNKIST—A little deeper yellow than Joanna Hill from which it sported.

TALISMAN—Scarlet, gold and old rose; fine novelty.

CHRYSANTHEMUMS

FOR 1936

GOOD NEWS

A golden yellow sport of Detroit News. Its every characteristic is identical with Detroit News except its color. Good News has excellent substance, is a good keeper and we highly recommend it for a late October commercial.

Choice Exhibition Varieties

(Please refer to alphabetical list for prices. See pages 19 and 20)

Alice Benson. A big, splendid, incurving white flower of satiny texture. Stiff stem; perfect foliage. A number of growers now prefer it to William Turner. Take second crown-bud. Blooms Nov. 1.

Dr. J. M. Inglis. Rich wine-purple-amaranth with silver reverse. The petals are loosely incurved. Nov. 1.

Golden Majestic. Sport of Majestic. A huge sphere of shining gold without a trace of bronze. Perfect in form and unsurpassed by any variety of its type. A real beauty. Take bud Aug. 15. Blooms Nov. 1.

Louisa Pockett. Pure white; enormous. One of the largest varieties. A sure winner. Take bud Aug. 30. Blooms Nov. 5.

Majestic. Enormous, rounded bloom of perfect form and shining golden orange color, shading to rosy bronze. Easy grower. One of the finest exhibition sorts. Also a good commercial. Take bud Aug. 15. Blooms Nov. 1.

Marian H. Uffinger. The bloom is reflexed in appearance but the tips of the individual petals are incurved, showing the gold reverse in a very distinctive manner. Colors, dazzling bronze, crimson, and gold. A splendid variety. Take bud Aug. 20 to 25. Blooms Nov. 10.

Mrs. B. D. Spillman. An apricot-orange variety that is accepted by all as a first-class exhibition flower. The rich color and graceful, reflexing petals are very impressive. Height 4 to 5 ft. Take bud Aug. 20. Blooms Nov. 1.

Mrs. E. Kershaw. Golden bronze, with light lining to the petals, which are of great breadth. Perfect in form. Tremendous growth of foliage and stem. A stunning, showy variety. Take bud Aug. 15. Blooms Nov. 1.

Nellie Mitchell. A tousled-headed giant running 5 to 6 ft. in height. Yellow suffused with bronze in color; best results come from buds taken the last days in August as the earlier buds are not nearly so large or of such fine color. Nov. 1 on.

Red Majestic. A bronzy red sport of the popular Majestic which comes to us from England highly recommended. It resembles the parent plant in all respects except color. Take first bud after Aug. 25. Blooms Nov. 1.

The Melba. A lemon-yellow sport from Louisa Pockett, and greatly resembling Yellow Pockett in all respects except that it is lighter in color and much dwarfer in habit. Take bud Aug. 20. Blooms Nov. 1.

Thomas W. Pockett. The name "Pockett" assures the quality. A lovely clear pink with tips of petals incurved; growth, foliage and stem are the best of the "Pockett" type. Of enormous size. Take bud late August. Blooms Nov. 5.

Vermont. Magnificent pink of a lovely bright shade. Enormous flowers of incurved type. One of the best pinks for exhibition purposes. A tall grower. Take bud Aug. 1 to 15. Blooms early November.

- MINONG.** Large Pompon. Pure white. Short.
- MRS. NELLIE KLERIS IMP.** Large Pompon. A good second-early pink. Darker than Mrs. Nellie Kleris.

- NEW YORK.** Button type. Handsome golden bronze. One of the best.
- NUBIAN.** Large Pompon. Beautiful bronzy-red. Include this one. Tall.
- PINK DOT.** Large Pompon. Wonderful color combination—white with deep pink center.
- RODELL.** Button type. Very useful as an early yellow.
- ROSE CHARM.** Large Pompon. Should be grown in quantity and disbudded. Lovely in form and color. Stiff stems.

- SILVER TIPS.** Large Pompon. One of our best bright pinks. Makes fine sprays.
- UNALGA.** Large Pompon. An intense yellow, brighter than Christmas Gold. May be grown naturally to sprays or disbudded.
- USONA.** Large Pompon. Bright pink blooms 2½ inches in diameter. Very productive.
- UVALDA.** Large Pompon. Extra-fine very early white.
- VARSITY.** Small button type. Yellow. A good producer.
- WHITE DOTY.** Large Pompon. Pure white sport from Lillian Doty and identical in every respect except color. Generally disbudded but does equally as well as a spray.
- YELLOW DOTY.** Large Pompon. Another that is generally disbudded but also is fine grown as a spray. Similar in every way except color to the other Dotys.

SINGLES AND ANEMONES

Will add interest and variety to your collection.

SINGLES

MRS. WILLIAM BUCKINGHAM. This variety has been tried for years and, in our opinion, remains today the peer of all the single pinks. It is a lovely shade of rosy pink, and the retailer will find it most valuable. It flowers around the first week in November.

BRONZE BUCKINGHAM. A beautiful bronze sport of Mrs. William Buckingham. Its habit of growth and blooming period are similar to its parent. We recommend it highly. A variety usually in heavy demand for baskets and vase arrangements.

ANEMONES

BETTY ROSE. A large-flowered Anemone suitable for disbudding, maturing October 25. Color an even shade of deep lavender-pink throughout, with full rounded cushion.

CRIMSON GLOW. Late crimson-maroon which should be disbudded for best results. Easily grown variety with excellent stem and foliage. Matures November 20th.

GARZA SUPREME. This improved form of Garza is a valuable addition to the list of Anemones. It is pure white, graceful in habit, but, most important, it comes into bloom in December and can be held over into January. Exceedingly valuable for the retail grower. A wonderful keeper.

SUSANNE MILLER. Golden yellow sport of Norma and similar to its parent in every other way.

MRS. ALFRED G. WILSON. A pure white, very free in growth and bloom. Requires very little disbudding. Blooms November 5.

NORMA. Large-flowering, orchid-pink Anemone with golden pink cushion, making a very striking combination. Individual flowers average 4 to 5 inches across. Matures November 20th.

PURPLE QUEEN. An aster-purple Anemone with a lighter reverse and with cushion florets tipped with gold. Flowers about 3 inches in diameter. Ready November 10th to 15th.

ROLINDA. A new bronzy Anemone introduced by DePetris. Not a large flower, but very prolific. Can be grown in nicely arranged sprays without disbudding. Matures November 20th.

GOOD POT PLANTS

BUTLER'S CAPRICE. Deep pink.

CRIMSON GLOW. Crimson-maroon.

GOLD LODGE. Golden yellow.

KATHLEEN THOMPSON. Crimson.

LILAC CAPRICE. Deep violet.

OHIO STATE. Clear yellow, Dwarf Anemone.

PURPLE CAPRICE. Royal purple.

ROLINDA. Bronze-orange.

SOURCE D'OR (Lizzie Adcock). Tawney bronze.

THANKSGIVING PINK. Pink.

YELLOW CAPRICE. Golden yellow.
