

SCHOOL BIDS SHY

TRUSTEES OF CITY SCHOOLS REJECT ALL BIDS FOR LACK OF COMPETITION

Bids for buildings at Broadway and Intermediate school campuses were to be opened at the meeting of the Board of Trustees of City schools which took place Thursday evening. It developed, however, that there was but one bid for the Broadway school as a whole. One bid had been received on the Intermediate school. There were several bids for parts of the work at the Broadway grounds but not enough partial bids to cover the work. In view of that situation and the practical absence of competition, the Board decided to reject all bids without opening them, and as soon as possible it will re-advertise for bids on the work as a whole and will not call for any partial bids.

Several minor items of business were transacted. For instance, the Board instructed Superintendent White to get specifications and prices for two additional fire escapes at the Cerritos Avenue School.

Mrs. E. E. Harwood, who has been substituting at the Central Avenue School, was made a regular teacher for the same grade and same place. Miss Helen I. Miner of 119 East Palmer Avenue was appointed to take the place of Mrs. Norberg, who has resigned and who has had the third grade at Central Avenue.

WATER BONDS TO BE SOLD SOON

An ordinance providing for the issuing of bonds in the sum of \$260,000 for the extension of the Glendale water system and the providing of electrical energy, was presented to the City Trustees at Thursday night's meeting and had its first reading. It will be passed at the next meeting and as soon as it is in effect the bonds will be sold and work commenced. H. B. Lynch, engineer in charge, has the plans all prepared, and Willis Jones of Ontario, who has done a great deal of engineering work in San Gabriel Canyon and valley, will be associated with him in the work.

CLASS A 8 PARTY

STUDENTS GRADUATING FROM GRAMMAR SCHOOLS ENJOY JOOLY FUNCTION

A jolly party was enjoyed by members of the A. 8 Class who are being graduated from the Intermediate and Cerritos Schools Friday night at the Intermediate.

The reception committee was headed by Dunstan Cooper, the class president, and associated with him in the pleasant office were Cleo Redd, Sarah Allen and Olive Swenson.

Under the direction of Miss Midcalf, the class teacher, a very pleasant program of games was played, the evening opening with a "progressive conversation" game wherein guests were given two minutes in which to talk on a subject assigned. At the end of the two minutes they must seek another partner and talk on the next subject. The topics included: "Goodbye, Grammar School," "The Happiest Day of My Life," "My Favorite Sport," "Nursery Rhymes," "If I Were a Millionaire," and others equally suggestive. Another lively sport was an "indoor track meet."

As the close of the evening approached ice cream and cake were served by the refreshment committee: Georgina Donnecken, Nash Gilman, Harvey Gillette and John Simpson.

The guests of honor were the eight members of the graduating class of the Cerritos Avenue School and their teacher, Mrs. Curtiss. Oth. (Continued on Page 6)

LONDON EDITOR CALLS AMERICA THE "RICH MAN SPURNING POOR RELATIONS"

(Special Service to Glendale Evening News)

LONDON, Jan. 31.—"Europe is not going to submit to financial domination by the United States any more than she submitted to the Prussian military domination," Ralph Blumenfeld, editor of the London Express declared in an interview today.

"The letter of Secretary of the Treasury Glass to Homer Ferguson, president of the United States Chamber of Commerce, declaring that America cannot go further in her financial assistance to Europe, places America in the position of the rich man spurning poor relations from his door," Blumenfeld asserted.

The editor defended his scathing editorials on the international financial situation declaring that it has been necessary to "bring the situation to a head."

"The present situation," Blumenfeld said, "means first—ruin to Europe, then ruin to America, and eventually the ruin of civilization."

SMALLMAN RECITAL

G. U. H. STUDENTS DELIGHTED WITH LOVELY VOICE AND ARTISTIC WORK

The first of a series of high class entertainments for the pleasure of High School students which Mrs. Gibson, Miss Loomis and Mr. Ferguson of the G. U. H. S. faculty have undertaken to arrange, took place Friday afternoon at 2:45 o'clock under the auspices of the Music Department of which Mrs. Dora Gibson is the head. It was a recital by the delighted baritone singer, John Smallman, who was quite up to schedule and took his audience by storm. After every number there was a crash of applause from the appreciative students. The singer was sustained by the artistic work of his piano accompanist, Miss Lorna Gregg.

The program was arranged in four groups of widely varied songs. No one could be selected for special praise unless it might be Purcell's "Passing By," or Cadman's impressive and unusual "Requiescat." The Bainbridge-Crist "Mother Goose Rhymes" pleased greatly, as did the request numbers, "Old Madrid," and "The Heart Bowed Down." The artist was introduced by Leland Wise, president of the student body, and the program in detail was as follows:

- Et Tu ("Is It Thou")Verdi
- From Un Ballo in Maschera

MUTUAL BENEFIT READING CIRCLE GROWS

The Mutual Benefit Reading Circle held a large and enthusiastic meeting on Wednesday at the residence of Mrs. Charles Toll.

The article, "Patrons of Democracy," by Dallas Love Sharp in the "Atlantic Monthly," was reviewed by Mrs. H. V. Henry and was followed by much discussion. The article was particularly interesting because it upset so many of the "up-to-the-minute" ideas in our present educational system.

Through the able leadership of Mrs. Florence Kurtz the circle held a round table talk during the lunch hour on Thursday at the First District meeting in Los Angeles. By this means the circle idea was presented to every Parent-Teacher Federation in the district, and it is hoped that the seed fell on fertile soil.

ANAHEIM OFFICIALS VISIT GLENDALE

Two officials of the City of Anaheim, one the water superintendent, were in Glendale yesterday looking over this city's water and light system and getting pointers for home use. They said Anaheim had averaged one new water and light connection a day for months past and were considerably surprised when told that Glendale's average, as shown by the records of the Public Service Department, was more than two a day. They looked over Glendale's plans for extensions of the water system very carefully and thoroughly, as they are contemplating a similar work in their own city. They seemed much impressed with the evidences of Glendale's wonderful growth and frankly stated that it far exceeded in volume anything they had seen so far.

SILVER CUP FROM PASADENA

The trophy won by the City of Glendale for sending to the Pasadena Tournament of Roses the handsomest float, was received at the City Hall yesterday. It is a cup of hammered silver, simple and chaste in design, and lined with gold. It stands twelve and one-half inches high and measures six inches in diameter at the top. On one side is the following inscription: "Pasadena Tournament of Roses, January 1, 1920. First Prize Civic Bodies. Presented by Clements Friedel Art Silver Company. Awarded to the City of Glendale."

WINTER GRADUATION

ELEVEN STUDENTS TO BE GRADUATED FROM GLENDALE UNION HIGH

Eleven seniors of Glendale High are to graduate next week. The exercises are to take place in the High School auditorium. A portion of it will be reserved for families and friends of class members and the balance will be open to the general public which will be welcomed as long as seating accommodations hold out. Those who have the program in charge promise a big treat in the address to be made by Mr. Trefz, who has been doing big things for the government and who is the silver tongued orator and spokesman of a large commercial federation in Los Angeles. He recently took a trip up the valley and down the coast, speaking several times each day. A Glendale man who was in his party declares that in the course of those speeches he never repeated himself once. This was to him the best proof of the speaker's knowledge and resource.

The second semester will begin February 9th and it will bring a roster of sixty to seventy new students to take the places of the eleven who are being graduated and then some. One new teacher has already been engaged to help out in the instruction of these boys and girls, and more additions to the teaching staff may be necessary. Thirty-seven of the new pupils will come from Intermediate, seven or eight from Cerritos Avenue, three from Eagle Rock, and quite a list of students from the families of new residents.

The boys and girls who are being graduated are: Gerald S. Toll, Francis Bacon, Clarence E. Glaze, Walter W. Howland, Arthur Walter Higby, Murray Longley, Louise Stebbings, Elma Ruth Kennedy, Grace Aloysia Goudie, Jessie Louanna McNary and Harold Raymond Williams.

ELKS' QUARTETTE

BIBLE STUDENTS

WOMEN'S CLASS OF CHRISTIAN SUNDAY SCHOOL ENJOY SOCIAL AFTERNOON

Members of the Women's Class of the Central Christian Church were delightfully entertained Friday afternoon at the home of Dr. and Mrs. J. H. Daugherty, 700 East Harvard Street. Mrs. Musser, the former teacher of the class, who has recently moved to Los Angeles, was the guest of honor.

Following the usual business session a program was given which included recitations by Mrs. Daugherty and Miss Forrest, which were hugely enjoyed, and the reading of the Class Paper of which Mrs. Learned is the editor, which contained lively accounts of all the church doings, jokes, personals, etc. It was enthusiastically received, as it always is. This was followed by educational games invented by Mrs. Shropshire, which were played with great spirit, for the members of this class are a very live bunch. Mrs. C. S. Archer is the president of the class, Miss Forrest its secretary, and Miss Chester its treasurer. Mrs. Eva Hutton is the teacher. A partial list of the ladies present includes: Mesdames C. S. Archer, Thomas Archer, Scott, Rand, Jenkins, Berry, Lane, Merritt, Thompson, Daugherty, Musser, Durfee, Learned, Peters, Shropshire, Switzer, Clifford Cole, John Cole, Binns, Jodon, Stem, Weisling, Crawford, Wasson, Bennett, Coler, Hutton; Miss Hutton, Miss Forrest, Miss Merritt.

MANY ACCIDENTS

MOTORISTS MUST THINK IN TERMS OF TIME AS WELL AS DISTANCE

A passenger train approaching at full speed and still a quarter of a mile away will cover the remaining distance in 18 seconds; if half a mile away, it will flash past in 36 seconds.

These figures are offered by R. J. Clancy, safety specialist of the Southern Pacific, to impress upon motorists the significance of attempting to cross railroad tracks with a train in sight.

"Motorists should think in terms of time as well as distance. It requires a wait of only a fraction of a minute to permit a train to pass. On the other hand, 18 seconds; allows too small a margin to escape an accident if in shifting gears the engine stops or anything goes wrong.

"Forty-six people were killed, 173 people were injured and 512 automobiles were damaged or destroyed at grade crossings during the calendar year just closed. Of these, 73 stalled on the crossing and were struck by trains; 263 attempted to cross almost immediately in front of an approaching train; 137, or more than 25 per cent of the total, ran into trains instead of trains into them; 9 skidded into cars or trains in attempting to avoid collision after realizing the danger; 31 ran into and broke down crossing gates lowered to protect them from passing trains; 5 ran down and injured flagmen in warning position; 14 were due to miscellaneous causes."

Inexperience of drivers rather than deliberate recklessness is the principal cause of such accidents in Clancy's estimation.

\$70,000,000 FOR ROADS

CALIFORNIA HIGHWAY BUILDING PROGRAM FOR 1920 EXTENSIVE

In spite of the high cost of construction more roads will be built in California in 1920 than in any preceding year in the history of the state, says Touring Topics. The impressive total of \$60,000,000 of state and county highway bond issues is available, and, while this sum will be used over several years' program, the mileage that will be placed under construction before the first of next January will make a big dent in the funds that have been appropriated.

Present provisions for new highways to be constructed under the State Highway Commission call for approximately 2400 miles of additional roads,—1650 called for by the 1919 state highway Act and about 700 miles remaining to be improved under the former state program. In addition to this mileage various of the counties have passed bond issues that will increase the mileage of new roadways in process of building next year, or for which funds are provided, by another 1500 miles.

The total amount of highway funds that were made available through the passage of highway bond acts in 1919,—both state and county—is \$58,774,000. To this amount is to be added Federal Aid money and district road funds which will bring the total of moneys that California can spend on the extension of its road system to more than \$73,000,000.

seen on city streets no longer bring surprise. Horses were slowly decreasing before the war, and that world-upheaval speeded up their disappearance.

There is a little surprise, however, in the statement made by a Wisconsin small-town newspaper. "At a meeting of farmers held in this vicinity recently, reported the paper, 'there were but two horse-drawn vehicles as against nearly 200 automobiles.'

Who can doubt that the farmers of this and the coming generation are going to be just as interested in good roads, and as willing to pay for them, as their fellow-workers of the cities? The horse had many virtues, but he was patient to a fault. Dobbin made so little fuss about bad roads that nobody bothered much to fix them up for his greater comfort, safety and speed. The automobile does not show such patience, and the result will be improved highways all over the country, in the most remote rural community as well as in and around the great population centers.

A MAGIC WORD

MENTION OF TRUCKS BRINGS SMILES IN THE OFFICE OF THE FORD AGENCY

When you mention "trucks" at the Ford Agency a triple smile automatically registers itself upon the countenances of Jesse Smith, Norman Otis, and Edward S. Lawrence. They never brag at all but if pressed they confide that their sales of trucks during the past month have averaged one every two working days, which means to those who are good mathematicians about twelve. They say they are entirely satisfied with the interest which the public has displayed in their commercial Ford trucks both pneumatic and solid-tired. It is to them the best possible proof of the sterling worth of the Ford products. Mr. Smith says the only difficulty he is experiencing is in getting enough of them to go around.

WHIPPING POST FOR AUTO THIEVES

Years ago the whipping post as a means of punishment was discarded in most states. Today it is in use in very few places. If the writer is not mistaken it is still in operation for the punishment of certain offenses in Delaware and Ontario. It is at least still authorized in Delaware. And it is that state with which this article has to do. Judge H. C. Conrad, sitting in the Court of General Sessions at Wilmington, recently issued a warning. It was addressed to the automobile thieves operating within his jurisdiction. The judge has decreed that the next automobile thief and all like offenders who follow him into court will be sent to the county workhouse and whipped at the post. Our forefathers in other states did not foresee the coming of the motor car and the thief who follows in its wake.—Detroit Motor News.

THE LAST DAY

MOTORISTS MUST FILE APPLICATIONS FOR NEW LICENSES TODAY

This is the last day California motorists may renew their licenses and pay license fees.

"A month's extension was granted January first and all applications for new licenses must be filed today," said George S. Grant, manager of

the Touring Bureau of the California State Automobile Association.

He explained that under the new act operator's licenses issued to motorists will be good until revoked and it will not be necessary to renew each year as heretofore. All persons driving cars for compensation must have obtained a chauffeur's license costing \$2 per year. Under the former law this was required only where machines carried passengers.

Boston is the first American city to use the illuminated traffic officer to direct motor traffic at night.

DRIVE AGAINST THIEVES

AUTO CLUB CAUTIONS AGAINST HIRING CHAUFFEUR WITHOUT STRONG CREDENTIALS

"Don't change your chauffeur" is the sequel to "What is your Chauffeur Doing?" as announced by the Automobile Club of Southern California for its second possible film title in its drive against auto thieves here who are raiding private garages under the guise of professional drivers.

Or if you must change your chauffeur, look up the credentials of your new one with a microscope before you employ him, for fresh evidence accumulated since the first announcement was made by the Theft Bureau that Southern California is the mecca of the most dangerous type of thief to make his appearance in police records, shows that many local motorists have suffered losses here which have not been placed on the records.

According to the testimony of car owners here they have employed as drivers men who submitted what appeared to be worthy letters of recommendation, secured positions and then either stole the car they were employed to drive or turned it over to accomplices.

This is the logical outcome of the increase in auto thefts throughout Southern California at this time, say Auto Club detectives, and also of the necessity for thief-gangs to have "inside help" in their depredations.

"Auto thieves are now operating on much the same principle as house-breaking gangs," explains the club theft bureau. "Unable to evade the police net with ordinary thefts, they are now 'planting' spies in wealthy homes where several cars are owned, for the purpose of notifying confederates as to when is the best time to steal the high-priced machines."

It is stated that the same thing holds true in regard to men applying for "jobs" as night caretakers of public garages. Several instances are cited where "night men" have made off with expensive cars

Don't change a reliable chauffeur, warns the Auto Club, and don't hire a new man without looking him up to your satisfaction, for this practice on the part of the thieves is growing at an alarming rate throughout the Southern counties.

THE OLD ARM CHAIR

"The poor will meet the high cost of furniture with the paint brush and varnish pot," says a headline in a prominent eastern paper.

The poor always have met the high cost of furniture in just that way, unless they were the shiftless type of poor who just let the furniture tumble down beneath them. Just now, however, there is a greater need of this home aid for crippled tables and chairs than ever before; for the furniture stocks, like all others, are very low, and it will be a

long time before they are replenished. Even the rich are finding difficulty in getting the goods for which they are eminently able to pay.

This furniture shortage has its good side. It puts a check upon the frequent changing of solid and usable furniture to meet the changes of fashion in home decorations. Homes are beginning to take on more of the pleasing aspect of permanence and stability which once characterized them, and which made home dear to memory after the household had scattered.

One might recall that the living room was early Victorian in 1915, and Louis Fifteenth in 1917, and he might not, and it is certain that he would not care. But the man who can see his mother sitting in the sturdy old rocker from the time when he was five until he was fifty, or can remember just how his father's white head looked against the dark wood of the ancient sideboard, has something worth remembering. A shortage which carries people back to permanencies, which forces them to preserve what is worth preserving, is heaven-sent.

ALAMEDA TO GIVE LAND TO U. S.

ALAMEDA, Cal., Jan. 31.—(United Press).—Alameda voters will decide today whether waterfront lands estimated to be worth \$20,000,000, are to be given gratis to the United States. The site, consisting of 1450 acres, is capable of expansion to 8000 acres, and is designed for the biggest navy yard in America.

Predictions are that the vote will be unanimous for giving the site to the government. The election was called by the city council as a direct result of a recommendation to congress by Former Secretary of the Treasury Glass that \$10,000,000 be appropriated for the purpose of starting work on a navy yard on San Francisco bay. Such a yard is said by navy men to be urgently necessary for the Pacific fleet.

Navy experts have recommended an expenditure of \$51,000,000 on the proposed base. It would be completed in three years, with between 15,000 and 20,000 men employed.

Joshua Ratcliff of 320 East Lomita Avenue is now a regular reader of the Glendale Evening News. He and his family have been in Glendale twelve weeks and like it better every day. They will move into the new home at 207 West Lexington Drive April 1.

Miss Brown, who has been teaching in the University of Southern California during the past semester, has been engaged for the second semester of the High School to help with the extra work that will be brought to the school by the enrollment of new students from the grade schools.

Peter Thompson and wife of Luverne, Ia., who came out to Long Beach several days ago on account of his asthma trouble, removed to Glendale early this week thinking this altitude preferable. He notes a great improvement already and will stay here until April. They are at 127 South Kenwood.

Mrs. John Sharpe, who recently moved from 411 North Central Avenue to Lomita just west of Brand, who was called East by the illness of her husband at Indianapolis, writes that he is recovering from the paralysis which marked the attack and is now able to speak. She expects to be detained there for several weeks and will not return until Mr. Sharpe is able to accompany her.

Edward W. Cooper, wife and son moved yesterday into the home they bought at 445 West California Avenue. The Coopers came here from Vineland, New Jersey, 4200 miles, by auto, taking six weeks for the trip. They rented until they could find a place that suited them to buy. Mr. Cooper is an old-time friend of W. F. Tower and was in his employ as a decorator in Vineland.

Roy B. Markland and wife are moving into their new home at 1645 South Fernando Road, which they bought of Mrs. C. W. Kimberley. They came here from Colorado Springs, Colo., where Mr. Markland was in the auto business for three years. Mrs. Markland said they spent many weeks looking for a location and visited about every city within a radius of 50 miles around Los Angeles and Glendale suited them for the best of all.

Lynn R. Wood, who stole several suits of clothes from S. Berman a few weeks ago and a watch and some money from C. A. Valentine a few days before, plead guilty before Judge Willis Thursday and was at once sentenced to San Quentin for from one to ten years. He said he was safer in jail than at large and by his own request was taken at once to prison. Wood is only 25 years old, but has been a criminal for 14 years, commenting his evil career by stealing chickens. According to the Glendale officers who arrested him, he was a dope fiend.

THE BREAD LINE

Day and night they pass in endless procession! Widows whose husbands were so sure of life that they left the most important thing of all for a tomorrow that never came. Children whose fathers had such wonderful intentions about their future. And now these widows must work at what they can get, whether they are sick or whether they are well. These little children must stand back and watch clean dressed, bright eyed children pass them by. They are too underfed to feel the desire of play. These old folks must falter on. Every day brings them nearer.—WHAT? This is just one big lesson from our every day life and Reader, history does repeat itself! These very tragedies can just as easily come into YOUR home! But you can keep them out. There is one safe way. If you will follow it there will be no danger of your widow and your children being in the Bread Line of Life. There will be no danger of your being there when you reach old age. The Provident Way will make things sure for you and yours. Make an appointment with me by Glendale Phone 474-W. I'll be glad to tell you all about it and you'll be under no obligation. Yours for The Provident Way.

NEW BUILDING INSPECTOR

The unprecedented building activity in Glendale has so increased the work of L. W. Chobe, Building Inspector and Sanitary Officer, that the work of the latter department has had to be neglected entirely for two months past. Because of this Mr. Chobe's duties have been restricted to the latter department entirely and he will be known hereafter simply as Sanitary Inspector. E. E. Fairfield, Captain of Fire Department No. 2, was appointed at the last council meeting as Building Inspector, Plumbing Inspector and Inspector of Electrical Wiring, with the general title of Superintendent of Buildings. He held a similar position with the former city of Tropic for several years and was a cement worker previous to that. Mr. Chobe will assist him in his work for a month or two.

WEATHER FORECAST: Cloudy and unsettled weather tonight and Sunday.

SUDDEN DEATH OF MRS. ELY

The sudden death of Mrs. Edwena C. Ely, mother of Mrs. Ethel C. Green of 811 East Colorado, has shocked those of her friends here who have learned of the sad event. She passed away Friday, January 30, 1920, of heart trouble at 1:15 p.m. at the home of her sister, Mrs. Maria Warren on Watts. She was 69 years of age, and had been making her home with her son, Harry Ely, who resides in Watts. She was the aunt of Mrs. E. A. McGee, who formerly conducted the Newberry Store, in this city.

COMMUNITY SING

Miss Louise Hand, Glendale's popular young girl whistler, was the soloist at the Community Sing which took place Thursday evening as usual at the High School. The attendance was larger than at the previous meeting and a number of new faces were seen. The chorus under direction of Prof. Kirchoffer, gave its attention to songs on the new sheet issued by the government, and to the familiar songs in the collection it has been using.

Announcement was made that owing to the fact that the High School Auditorium will be in use next Thursday, the chorus will not meet again for three weeks or until Thursday evening, February 19th.

FIRE CALL ON WINDSOR

When firemen from Station No. 1 responded to an alarm turned in by Mrs. Whitaker of 210 East Windsor Road, they found no blaze, but on investigation discovered that an over-heated water heater from which steam was escaping through faucets in the bathroom had deceived Mrs. Whitaker into the belief that it was smoke. A few months ago at the same place she had a serious fire in which the rear part of the house was destroyed, and she has since been nervous about fire danger. The firemen made a tour of the house to assure themselves and her that everything was all right after opening the faucets to let out the accumulated steam which had worried Mrs. Whitaker.

BIRTHDAY DINNER

In celebration of his eleventh birthday, a group of school chums of Dewey McCourt was entertained from 4:30 to 7:30 p. m. and at dinner at his home at 336 North Central Avenue. A birthday cake was a conspicuous and beautiful feature of the feast and valentine decorations and favors made a gay setting for the function. Covers were laid for Kenneth White, Benjamin McLouth, James Pife, Robert Ayars, Frank Stanford, Allen Lovell, Graham Young, Nathan Finch, Charles Pratt and the young host.

TEACHERS' CLUB MEETS

The regular meeting of the Teachers' Club was held Tuesday evening at 4 o'clock at the Intermediate School with the president, Miss Midcall in the chair. Americanization was the topic and Mrs. C. H. Toll made the address of the afternoon under the title "In Wisdom's Way." It was along the line of a talk she had made before the Los Angeles Ebell Club, and made a great impression upon her audience of teachers.

Members of the club are arranging to give a certain proportion of their time to evening classes in furtherance of this Americanization work among the illiterate or foreign peoples of the city, to begin with the second semester. The Board of Trustees now has in hand the matter of arranging for night classes to meet the demand.

Announcement was made that arrangements have been perfected for the two concluding numbers of the teachers' entertainment course and that a harpist will furnish the February program and Prof. Blank of U. S. C. the march program.

The Texcal Oil & Refining Company

CALIFORNIA PERMIT 8466

Officered and Managed by Glendale and Los Angeles Men

Offers an Exceptionally Attractive Speculation

This company holds leases on 3653 acres of land in Gonzales County, Texas, believed by geologists and oil experts to be the coming oil field of Texas.

On this company's land oil was struck at 1128 feet and rose and filled the slush pit—oil worth \$3.00 per bbl. This well was accidentally spoiled, and in order to raise the necessary money to redrill and bring in the production shown in the spoiled well, estimated from 150 to 250 bbls. per day, a limited amount of stock is offered for sale at 20 cents per share, par value \$1.00, non-assessable.

Eight wells are being drilled in a semi-circle around Texcal Oil & Refining Co.'s property, and fourteen locations made and drilling to start as soon as possible. This means that half a million dollars is being spent in development of this field—showing what oil men think of it.

If you want to come in with us on this splendid speculation, mail check for stock or address for further information.
