

# **UNFORGETTABLE EXPERIENCE**

There are kinds of memories that cannot be forgotten easily. One of these memories is my birthday party which is impossible me to forget. This memory has been unforgettable for me till now and it will be unforgettable till the end of my life

My unforgettable experience when I celebrate my 6<sup>th</sup> birthday last March 10, 2006. Two of my classmates are also celebrating their birthday that month, we are in the same month. Birthdays are a lot of fun. Your friends come together to celebrate your life and have a great time together. We celebrate together with our parents and teachers, they agreed that they bring and share some foods together, send out the invitations to our classmates and teachers. Our classmates dress up and come at the appointed hour; we eat a lot of food, play a lot of games and have a lot of fun. I surprised that time, because I can't believe that my father did amazing thing for me, he brought pork roasted in my school. I felt amaze, special and blessed that time. My parents so really love me do their best for my happiness. Birthdays are always special for all of us. This is one day when we are the centred of everyone's attention. This is a day when your loved one will leave no stone unturned to make us feel special and blessed. I hope that our love will only multiply with time and we celebrate more birthdays together. I again felt the joy we had as a kid when our birthdays were celebrated with friends, family and neighbours at home. I felt nostalgic by the ambience of my birthday.

At the end, I was very happy and I enjoyed very much with my family, teachers and classmates. Whenever I'm required to write an unforgettable celebration, I always write this as at first this memory comes to my mind.
