VICTORIA, B. C., TUESDAY, NOVEMBER 17, 1903.

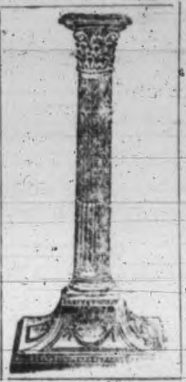

NO. 16.

## Silver Candle Sticks

A tasty housekeeper will delight in these, as they are very fashionable. They are very artistic and elegant things for the home without the usual taint of extravagance. Candlesticks as low as \$3. Candelabra as low as \$12.

### SHADES

For candlesticks and electric lights—very new. Imported direct from Paris. Made of silk in a variety of colors. Not costly either, only 30c. to \$1.25. We cannot adequately explain them here, but we invite you to see them in our window. A set of these would make a very handsome Xmas gift. Also see the new adjustable safety candle holders.

### Challoner & Mitchell,

47-49 Government Street.

## Defies Competition

Sold by All First-Class Grocers  
Hudson's Bay Co., Agents.

## Despite the Efforts

Of the combination to stop us getting our Xmas supplies we have received a finer and larger stock than ever. Just step right in and get your share of the holiday spread at this wonderful store.

- NEW WALNUTS, lb. 25c.
- NEW ALMONDS, lb. 25c.
- NEW MIXED NUTS, lb. 20c.
- NEW SEEDED RAISINS, 1 lb. package 10c.
- NEW MIXED PEEL, 2 1/2 lb. package 25c.

## DIXIE H. ROSS & CO.,

CASH GROCERS.

UNION STORE—The Only Store Not in the Combine.

## EXCELSIOR POULTRY SPICE

50 cts. per sack of 10 lbs. The greatest Egg Producer on the market

Sylvester Feed Co., 87-89 YATES STREET

PREFERENTIAL TRADE.  
Premier Seldon Submits Proposals to New Zealand Parliament.

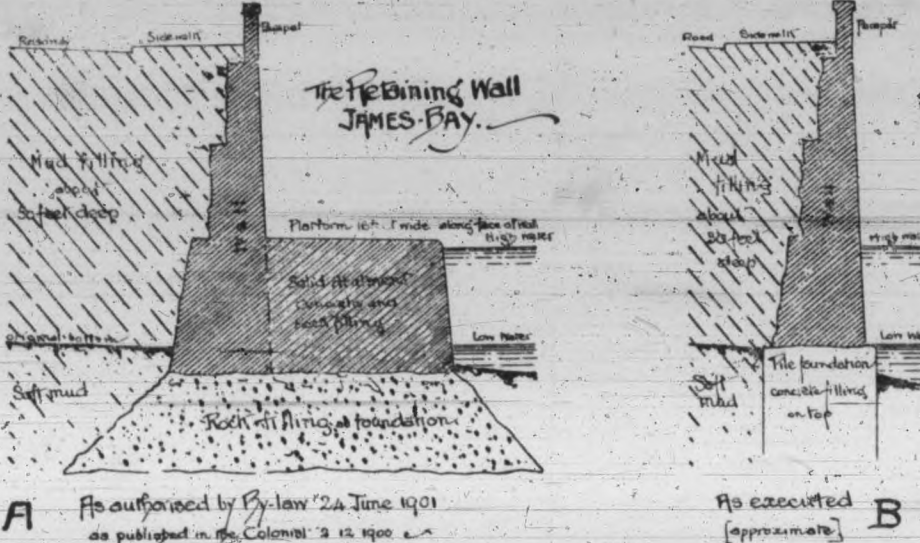

Wellington, N. Z., Nov. 16.—Premier Seldon today introduced in parliament his proposals for preferential trade between Great Britain and New Zealand. They provide for a tariff of 100 per cent. on the existing duties on specific articles not of British manufacture. The proposals include reciprocal arrangements with foreign countries.

Out of one pound of cotton, 4,770 miles of thread have been spun.

WILL VISIT STATES.  
King Leopold Decides to Make the Trip Next Spring.

London, Nov. 17.—A special dispatch from Brussels says it is finally decided that King Leopold will visit the United States in spring.

## JAMES BAY WALL AS PROJECTED, AND AS EXECUTED.

T. C. Sorby writes to the Times as follows: "I beg to submit for the information of your readers a rough sketch (marked 'A') showing a section of the wall as submitted to the ratepayers, copied from the Colonel's 2nd Description Map, and also a sketch (marked 'B') of the wall as actually executed. 'This proposition marked 'A' was put forward by Mr. Hayward as a bid for execution in 1901, and was laid before the council on the 10th December, 1900, accompanied by the plans before referred to, together with a detailed description by Mr. Topp, wherein he mentions the steps and waterside platform, as landing stage, as distinctive features in the scheme. After the election this proposition was referred to a special committee, consisting of Aldermen Cameron, Yates and Kinsman, and they reported to the council on the 4th February, 1901. Your committee approved of the plan for a permanent roadway, as submitted by the city engineer."

"On the 24th June, 1901, this proposition was laid before the ratepayers, and, of course, everyone was alive to the fact that one of its leading features was the broad steps and spacious waterside platform or landing along the whole end of the bay, which would form one of the most attractive places in the city, both for residents and visitors, and when they authorized the execution of this debt the authority was for the scheme as laid before them."

"The omission of the solid abutment of rock-filling and concrete, that we authorized for its obvious popular advantage, has taken from the wall its most vital element of stability, its power to resist the overturning force of a pond of liquid mud, the thrust of which is enormous. The engineer planned his work with judgment, but the Mayor and council of 1901 overruled his judgment and left the wall as shown in sketch B, vainly trying to stagger up against the forces piled against it. A schoolboy can see the silliness of the thing at a glance. The city engineer's professional reputation is imperilled by the needless and wasteful cleverness of his ignorant employer. We only ask, as ratepayers, to have your attention directed to the fact that we authorized as part of the original scheme, the cost is included already. I commend this to our present Mayor and his council."

## AT AN ADVANCED AGE.

Granduncle of Mayor McCandless, One of Four Nonagenarian Brothers.

Mayor McCandless has received news of the death of a granduncle in Philadelphia at the advanced age of 94 years. The following notice appears in the Philadelphia Ledger:

"Hutchinson McCandless, at his home, 2201 North Second street, at the age of 90. Mr. McCandless was born in County Down, Ireland, and came to Philadelphia in 1800. He resided in Kensington, where he resided until his death. He took a warm interest in the affairs of the Reformed Presbyterian church, and at the time of his death had been for some thirty years an elder of the Third Church of the Covenanters. On several occasions he was a delegate elder to the synod, and frequently was a delegate in Presbytery. In July of the present year Mr. McCandless celebrated the sixty-second anniversary of his marriage, and it was noted at the time that he had lost none of his immediate family by death. He is survived by a widow, four daughters, three sons, thirty-two grandchildren and eleven great-grandchildren." "It is a remarkable fact that the late Mr. McCandless was one of four brothers, each of whom lived longer than ninety years. One was ninety-four, and the direct cause of his death was a fall down stairs."

## WORK ON SIGNAL HILL.

New Road Being Built to the Summit—Buildings Constructed.

There are a considerable number of men working on Signal Hill these days. Preparations for the fort, which is to receive the big guns heretofore described, are in progress. Several brick buildings have been erected on the city side of the hill, while on the opposite side, facing the harbor, a magazine is in course of erection. A macadam road is being built on the north side circling around the hill at a considerable elevation, and following a gradual descent from the summit to the public roadway. It strikes the latter where the training line descends to the village. The track-laying in the way will be removed to the opposite side of the road all the way from the Canton grounds to the terminus. The making of the necessary roadbed for the rails is now in progress.

Still other work is under way about the Hill. The big gun carriages which are to be placed in a position on top are being taken on to the ground in sections, but it will not be some time before they have been installed. They will, it is said, be taken to the top of the hill over the new road now being built.

## MRS. ALLISON'S STATEMENT.

She Says There Was No Gasoline in the House—It Was Benzine.

Mrs. Allison, who was injured in the explosion which occurred on the other day at the Paisley Dye Works, are progressing splendidly. Inquiry at the hospital elicits the information that Mrs. Allison is now considered well out of danger. The prospect is that Mrs. Allison will also get over the effect of the explosion.

"On Sunday morning Mrs. Allison was sufficiently recovered to tell her story of the occurrence. She states that there was no gasoline in the house, and the report that this was what exploded was entirely correct. Benzine was the cause of all the trouble. She had been dipping some curtains into a boiler which was about a quart full with benzine. Having finished this work she was in the act of returning the benzine to the can when the explosion took place. What occurred after that she could not know. "The next thing I was aware of," she remarked, "was that I was in the doctor's office."

As to the cause of the accident Mrs. Allison does not seem to be able to offer any explanation. The room in which she was doing the cleaning had no fire in it, while the door leading to the adjoining room in which a fire was burning, was closed. She claims that while the first accident could have been averted, as it was caused by her apron catching fire, there was no apparent reason for this last one. A peculiar circumstance in connection with the accident is the fact that the three cans of benzine which were in the room when the explosion occurred are unharmed. They were found by those who removed the furniture and other household belongings in the ruins of the house. Two of the cans are open and one is half full of the fluid, while the other contains a very little. The third can is sealed and has not been opened.

Under these circumstances it would be hard to say what caused the explosion. Some think that the accumulation of fumes on account of lack of ventilation resulted in spontaneous combustion.

The Allison fund is being subscribed to very liberally. The Times list follows: Yesterday's total \$1,810 25  
E. W. M. 50  
San. Jones 1 00  
E. Campbell 1 00

A. H. Fath 1 00

The following has been collected by W. J. Hanna, total \$2,520: W. J. Hanna, \$5; T. M. Henderson, \$5; S. Leiser, \$5; M. Baker, \$1; W. McKee, \$1; Geo. S. Russell, \$1; Stetla's Restaurant, \$1; Hickman Tye Co., \$2.50; C. Brash, \$2.50; S. J. Piffis, \$2; J. Perry, \$2.50; S. Jackson, \$5; Watson & Hall, \$2; A. Holmes, \$1.50; F. Carmo, Jr., \$2.50; W. T. Hardaker, \$2; R. Porter, \$2; S. Jones, \$2.50; Mayor McCandless, \$5; C. Kent, \$2; W. S., \$5; A. Friend, \$1; R. McPhaden, \$1; Smith & Champion, \$2; R. Bray, \$2.50; Tolmie & Richards, \$2.50; J. A. McNeil, \$2; W. McDowell, \$1; R. Williams & Co., \$1; G. A. Richardson, \$2.50.

Sweden exported 20,000 tons of butter to England last year, and ate 12,000 tons of margarine at home.

## VISIT OF ITALY'S KING AND QUEEN

WERE RECEIVED BY THE PRINCE OF WALES

Received a Hearty Welcome on Their Arrival at Portsmouth—An Address From City.

(Associated Press.)  
London, Nov. 17.—King Victor Emmanuel and Queen Helena of Italy reached Portsmouth on the royal yacht Victoria and Albert shortly before 11 o'clock this morning, amidst a salute from the ship and land batteries in the harbor. Upon the arrival of the yacht at the jetty the Prince of Wales went aboard immediately and welcomed their Majesties in the name of the King, and of the nation.

A British fleet met the royal visitors and formed an escort for the royal yacht through the home fleet lying at Spithead. All the ships were dressed and manned, and the crews of the vessels mingled with reports of the guns in giving the Italian King and Queen a welcome to England. Great crowds lined every yachting point and blue-jackets and marines lined the jetty and a band played the Italian national anthem as the yachts steamed alongside.

The Prince of Wales was met at the top of the gangway by King Victor Emmanuel and Queen Helena. After greetings had been exchanged between the royal personages the naval and military commanders were introduced to the King and Queen, and the mayor of Portsmouth presented an address to King Victor Emmanuel, who briefly expressed his thanks for the message of goodwill from the citizens.

After lunch on board the yacht the King and Queen and the Prince of Wales disembarked and King Victor Emmanuel inspected the guards of honor and the naval cadets from the cottage at Osborne, after which the party entered a train and started for Windsor. It rained heavily as the royal party left Portsmouth.

## LEGAL NEWS.

It Will Be Impossible to Hold Sitting of County Court Until Dec. 3rd.

The County court, which was adjourned from a week ago until Thursday of this week, will again have to stand over. Owing to the absence of the judges of the Supreme court, it will be impossible to hold County court, and all business will have to stand over until December 3rd.

This morning in Chambers Mr. Justice Martin presided, and disposed of the following applications:

Davies Sayward Mill Co. vs. Brackman et al.—An application for further and better affidavits of documents was allowed to stand over.

Boundary & Beaverton Mining Co. vs. James—Application to proceed with winding-up. The order was made and 16th December fixed as day for appointment of official liquidator.

Dier vs. Matson et al.—Application made for trial by jury. Allowed to stand over to a day to be fixed.

Dier vs. Matson et al.—Another application to set aside notice of trial was withdrawn by consent.

Nisbet et al. vs. Creighton et al.—Application to examine judgment-debtor. Order was made.

Callaghan vs. Allen—An application to set aside judgment was allowed to stand over to 9th inst., defendant to be cross-examined on affidavit.

The next sittings of the Supreme court will commence on December 2nd.

In Chambers yesterday the following cases were disposed of:

Anderson vs. Sayward—An application for affidavits of documents was allowed, twelve days being allowed for affidavits. C. E. Foley for plaintiff; J. H. Lawson for defendant.

An application for letters of administration in the estate of Steingrimsson Berger, deceased, was made by J. P. White. The application was granted, and the official administrator was appointed.

Application for probate was made in the estate of Wm. Dennis, deceased, by A. F. Welch Salomon. It was granted to E. M. Haynes.

Guardians were appointed for Caldwell infants on application made by George Powell. The guardians appointed were C. E. Gorkley and C. J. Lott.

## HOPPER VS. DUNSMUIR.

Appeal Against an Order by Mr. Justice Drake Has Been Dismissed.

(Special to the Times.)  
Vancouver, Nov. 17.—The full court today dismissed the appeal in Hopper vs. Dunsmuir. The plaintiff appealed against the order of Mr. Justice Drake for particulars of undue influence alleged to have been exercised over Mrs. Jonesphine Dunsmuir to induce her to sign an agreement assigning to the right maker Alex. Dunsmuir's will to James Dunsmuir. She must furnish particulars before the trial next month.

The appeal in Stewart vs. Robin Dunsmuir was dismissed.

## THE COMMISSIONERS REACH NEW YORK

HAVE BEEN SENT BY THE NEW REPUBLIC

How United States Marines Prevented Colombian Troops Leaving Colon for Panama.

(Associated Press.)  
New York, Nov. 17.—From the foremost head of the steamer City of Washington, which arrived today from Colon, flew the flag of the Republic of Panama, and on board were the special commissioners sent by the new republic to the United States. The commissioners are Manuel E. Amador and Federico Boyd, and with them are Carlos Ariasman, secretary, and Archibald Boyd, attaché.

The City of Washington was in the centre of the trouble at Colon, and received on board a large number of women and children because of the general fear of a clash between the insurrectionists and the Colombian troops. There were 500 of these troops in Colon who demanded transportation by rail to Panama, but the railroad authorities refused to take them. They marched down to the railroad terminal and were stopped by the United States marines from the United States cruiser Nashville. The marines had run flat cars loaded with cotton bales in front of the depot and filled the windows with bales of cotton and other bales, forming barricades, which were manned by marines. After some parley the troops went down on the pier to the British royal mail steamer to embark for Cartagena. The commanding officers of the troops had in the meantime gone to Panama, and they were without commanders.

Col. Black, with the marines, taking advantage of the fact that the troops had all passed down the pier, changed the cotton bales into rifles and blocked the pier, and refused to allow the troops to come back to shore. A fund of \$8,000 was collected, and the troops were sent passage prepaid by the steamer Atrato to the port of Cartagena.

For two days, November 4th and 5th, great excitement prevailed in Cartagena, and many foreign residents sought shelter with their families on the City of Washington.

The commissioners on their arrival here did not know their exact status, and declined to talk until they had received the latest news from Washington. They could not say whether they would go direct to Washington or not. Dr.

## SHORT CAMPAIGN DRAWING TO CLOSE

ENTHUSIASTIC LIBERAL MEETING LAST NIGHT

Capt. J. Duff Stuart, the Candidate, Was Well Received—The Other Speakers.

(Special to the Times.)  
Vancouver, Nov. 17.—F. J. Deane was the opening speaker at an enthusiastic campaign meeting held in the Liberal interests last night. He was followed by the candidate, J. Duff Stuart. Capt. Stuart was heartily received, and his plea for support on the ground that the McBride government would have to resign, and in the general election which would follow the Liberals would be returned with a big majority, seemed to please the audience. It would be much better, he argued, to have another month of turmoil, strife and confusion than four years of the same. This was a crisis for British Columbia; the credit of the province must be restored, and Premier McBride had neither ability nor courage to do it.

H. B. Gilmore and Stuart went next spoke, followed by J. D. McNeill. The Victoria member declared that government members were not honest, they showed dishonesty in trying to bribe Liberals to enter the cabinet.

The Liberal leader, J. A. Macdonald, said he found the only issue here was brought by the Conservatives in their appeal to the selfishness of the city of Vancouver. They brought up the miserable jealousies between the Island and the Mainland.

At the Conservative meeting Premier McBride spoke at some length. He charged that Mr. Macdonald on Saturday night had made a statement which was deliberately untrue when he said the government had granted 60 licenses to the prospectors of coal lands in Southeast-Kootenay.

## A STREET BRAWL

Fight Between Japs and Koreans Has Caused Friction at Seoul.

(Associated Press.)  
Cologne, Nov. 17.—It appears that there is some friction at Seoul in consequence of a street brawl between Koreans and Japanese, according to a dispatch to the Cologne Gazette from Seoul. The Japanese commander threatened, in the event of their recurrence, to send Japanese guards to assist the police in maintaining order.

## ONE THIRSDAY ON DUTY.

Strong Police Force Protecting the Street Cars in Chicago.

(Associated Press.)  
Chicago, Nov. 17.—The Cottage Grove Ave. street railway line has been entirely tied up since the inception of the strike, except for the operation of the mail cars. The Westworth Ave. service was confined to day on practically the same scale as obtained yesterday. Twenty-five cars were operated on a five-minute schedule.

A number of pistol shots near the bars at 30th street and Cottage Grove Ave. startled the non-union men housed within. For a short time the men believed that an attempt was being made upon their stronghold. The shots proved to have been fired by men who brought two wagon loads of supplies. Within half a block of the bars pickets halted the drivers and demanded that they turn around and drive quickly back. The drivers immediately opened fire and drove quickly to the barn. After unloading the provisions they returned to the company's headquarters, followed by a brigade of union pickets.

Five trials left the bars near 9th street, on Cottage Grove Ave., for the 30th street depot at 9:45, a heavy police brigade attending each train. The gripmen were protected from possible injuries by heavy wire screens; while nearly 1,000 patrolmen guarded the line and kept the crowds moving. Wagons were hurried along and kept off the street as far as possible.

The initial cars on the Cottage Grove Ave. lines traversed the entire route to the centre of the city without serious difficulty. As a result, the street railway officials claim, practically to have mastered the strike of the second trunk-line. Supt. Weatherax announced that the regular service would be instituted to-day.

On the Westworth Ave. line to-day a heavy coach dropped in front of a swift moving car by two men almost caused a smash-up at West 41st street. The switches were spiked all the way from West 77th street to West 5th street, and it was necessary to make frequent stops at close intervals. A huge tree had to be removed from the track at 21st street, and occasionally a shot was fired as the car passed or a brick or piece of iron was sent flying through a window, but no one is known to have been injured.

HAVE YOU CATARRH

If so, let us show you the celebrated

German Medicator

For Catarrh, Cold in the Head, Sore Throat, Hoarseness, etc. Cures by Inhalation. The best remedy known. Will last for a lifetime. Extra liquid and cream for reconstituting may be obtained. We are sole agents for B. C.

Campbell's Prescription Store

COR. FORT AND DOUGLAS STS.

Send in Your Order for Electric Light

Now is the time to wire up your house, while our offer to assist stands good. We have done a larger business than ever this fall because everybody recognizes its merits. Safe, convenient, brilliant and economical. Throw out your coal oil lamps, and add your name to our consumer's list.

B. C. ELECTRIC RAILWAY CO., LD., 35 YATES STREET.

MONTREAL AND TRAM COMPANY

CITY COUNCIL HAS REJECTED ITS OFFER

Man Drowned by Breaking of Ice - Trouble With Machinists Leads to Closing of Factories.

Montreal, Nov. 16.—The city council threw out the street railway's offer to give ten tickets for a quarter during the rush hours of the day, to have a portion of the streets used by them, to clear snow from these streets during winter and to clean and water them during the summer in return for an extension of their contract for fifty years. The feeling of the council is that it is not worth while to consider the matter until the company is prepared to make the fare eight tickets for a quarter all day long. This the company is not prepared to do.

Charles H. Hines has been appointed electrical engineer of the Canadian Pacific railway with headquarters at Montreal, and jurisdiction over the system. The position is a new one.

Walters Strike. The waiters employed in St. Lawrence hall went out on strike at noon today because the management had made a change in lunch hours, which would mean an hour to the waiters were compelled to work. The men did not deem the added compensation sufficient. They were replaced by a staff made up of the hotel employees, and later in the day a new corps was secured.

Factories Closed.

Quebec, Nov. 16.—Twenty last and shoe factories in the city have closed. The shutdown is due to trouble with the machinists, who have refused to abide by an agreement made in 1901 creating a conciliation board. The specific complaint on which action was taken was that of four machinists who left the Marsh factory because they were refused an increase of wages without submitting the demand to the arbitration commission. The manufacturers will no longer recognize the Shoe Machinists' Union, but will insist upon individual contracts. Five thousand operatives are affected by the shut-down.

Drowned. Strathclair, Nov. 16.—A sad drowning accident occurred six miles north of here Saturday night. Stanley Haacke and James McCaw attempted to cross Beech lake on the ice when they broke through. Haacke was drowned and McCaw was rescued by two men from the shore.

CHICAGO STRIKE. Police Used Clubs to Clear Mob From Streets.

Chicago, Nov. 16.—Late today the police guarding the Westworth avenue cars were forced to charge a mob on Clark street. Many persons were clubbed and a few policemen were bruised by stones. The trouble occurred when a woman drove on the track, and refused to leave. When the police interfered the crowd grew ugly, but the police forming in line drove the rioters off and made a number of arrests. A lively fight took place just outside the barn at 79th and State streets tonight. A wagon-carrying provisions to the men living in the barn was stopped by strikers, who were charged by non-unionists and driven off. A number of revolvers were displayed, but no shots were fired. A number of persons were slightly injured.

The 77th annual report of the Baltimore & Ohio Railroad Company shows the largest gross and net earnings from operations in the history of the company. The gross earnings of the entire system, including the controlled or affiliated lines, were \$98,778,676.36 and the net earnings \$25,428,676.33. The percentage of expenses to earnings was 62.24.

STATES RESPONSIBLE.

Colombia Cables Protest to the British Government.

London, Nov. 16.—The Colombian authorities have called to London attention the protest against the United States action towards Panama, in which they claim that the "main responsibility for the seizure of Panama lies with the United States government, firstly by fomenting the separatist spirit, of which there seems to be clear evidence secondly, by hastily acknowledging the independence of the separatist provinces, and finally, by preventing the Colombian government from using proper means to repress the rebellion."

The cable message goes on to say that President Marroquin has energetically protested to the United States and wishes that his protests should be known throughout the civilized world. The President contends that the United States has infringed article thirty-five of the treaty of 1846, which he asserts applies the duty on the United States to help Colombia in maintaining her sovereignty over the Isthmus, and adds that the "Colombian government repudiates the assumption that they have barred the way to carrying out the canal," asserts that since 1835 they have granted canal privileges to different people no less than nine times, and claims that the treaty concluded with the late Colonel Hillman, which he says is the United States minister resident in Colombia, in July, 1870, has been ignored at Washington.

After giving the previously stated reasons for the Colombian senate's failure to approve the Hay-Herren treaty and asserting that the delay in the negotiation had not affected the ultimate issue of the canal project, the protest of President Marroquin points out that Colombia "has constantly endeavored to act in a friendly manner with the United States, even asking for the assistance of American marines to insure free transit across the Isthmus."

Protests to Senate. New York, Nov. 16.—The New York Evening Post today publishes the text of the Colombian protest. It is addressed to the United States senate, and is signed by President Marroquin. The Evening Post's dispatch is as follows: "The president of Colombia has today addressed the American senate in the following terms: 'To His Excellency, the President of the Senate, Washington: 'Excellency.—The government and people of Colombia have with profound surprise and indignation received the minister of the United States to the effect that the government of Washington has listened to recognize to government consequent on a barracks coup in the department of Panama.

"The bonds of sincere and uninterupted friendship which unite the two governments and which the people of the American Union in a public treaty to guarantee the sovereignty and property of Colombia in the Isthmus of Panama; the protection which the citizens of that country enjoy and will continue to enjoy among us; the traditional principles of the American government in opposition to secession movements; the good faith which has characterized that great people in its international relations; the manner in which the revolution was brought about and the helplessness of the revolution, make the government and people of Colombia hope that the senate of the people of the United States will admit their obligations to assist in maintaining the integrity of our territory and in repressing that insurrection, which is not even the result of a popular feeling.

"In thus demanding justice, Colombia appeals to the dignity and honor of the American state and people. "Signed 'MARRQUIN.' "It is to be hoped that the petition for justice which Colombia makes to the American people will be favorably received by a sound public opinion among the citizens of that country. "ESTEBAN JARAMILLO, "Minister of Government."

CANCER PARASITE. Treatment Goes a Long Way Towards Curing Disease—German Scientist's Discovery.

In a lecture before the Abernethian Society of London, Dr. Jesse Johnson gave the details of a cancer treatment discovered by Dr. Otto Schmidt, of Cologne, which Dr. Johnson has been investigating and proposes to try in England. Dr. Schmidt believes he has isolated the parasite, on the presence of which a sufferer he believes cancer to depend. Regarding the numerous parasites found by Dr. Gaylor, an American investigator, and others, Dr. Schmidt is convinced that they are identical, varying only in shape and appearance, under different conditions, and he claims that he has produced these variations in his parasite by subjecting it to such conditions. He claims that he has sterilized the parasite, and also that by injecting it into animals he has produced a serum which destroys cancer cells. One of the most impressive features of the treatment is that the presence of cancerous growths can be discovered through the reaction under infection by the serum. It appears, moreover, to reduce malignant tumors to the level of innocent growths, thereby limiting their spread and rendering their removal effective, but for a complete cure, Dr. Schmidt's treatment requires, first, the arrest of the process; second, the removal of the growth; and third, that not vital organs has been seriously injured. Dr. Johnson deprecated the acceptance of the treatment yet as a definite cure, but said he was convinced that it was worthy of experiment. A discussion followed, in which several eminent physicians took part. The consensus of opinion was that so many divergent opinions had followed previous methods that Dr. Schmidt's method should be treated with cautious reserve, but that it was worthy of a trial.

SEED CONTROL ACT. A copy of bulletin No. 15, entitled "Bill No. 200, Reprinted as Amended: An Act Respecting the Inspection and Sale of Seeds, with Explanations and Comments," has been received. This pamphlet is issued for general distribution for the purpose of giving a notice to the interested public, and also to provide means for closer study of the bill in its relations to the operations of seed producers, seed merchants and seed consumers. The bill, as amended by the committee of the whole during the recent session of the Dominion parliament provides that seeds of cereals, grasses, clovers or farnage plants which contain the seeds of certain noxious weeds named in the bill, will be prohibited from sale. It further provides for uniform methods of grading, according to fixed standards of purity and vitality, the timothy, rick and red clover seeds offered for sale in Canada. A copy of the pamphlet may be had

TRUSTEE CHOSEN BY THE CREDITORS

MR. HEISTERMAN IS SELECTED FOR POST

He is Appointed to Administer the Affairs of the Green-Worlock Estate.

The creditors of the Green-Worlock estate met yesterday afternoon in the board of trade building for the purpose of selecting a trustee to fill the vacancy created through the death of H. Macdonald Cleland.

C. E. Redfern was elected chairman, and before making the call for the meeting, he paid a tribute to the work done by the late trustee. By his business ability and the honesty and care exercised by the late Mr. Cleland, the affairs of the estate had been improved during the eighteen months while he was trustee. He knew that all they would extend to the widow of the late trustee their deepest sympathy. Chairman Redfern then announced that the business which had brought the creditors together was that of the election of a trustee, and that alone. He therefore wished them to refrain from discussing anything else in connection with the estate until that election was complete.

J. H. Lawson was elected secretary, and read the applications, numbering twenty-four.

These varied in the remuneration asked from 5 per cent. to 2 per cent. on the receipts. Mr. Gregory thought it would be useless to proceed at that meeting. The advisory committee had not made any recommendations, and he thought the applications should all be referred to a committee in order that the merits of each might be weighed. He therefore moved that the advisory committee and six creditors elected by the meeting should appoint a trustee at a remuneration of 2 1/2 per cent. on receipts.

Alex. Wilson objected, and said there was an advisory committee. D. Fraser, one of the applicants for the position, thought it unfair not to select a trustee at the meeting. The meeting had been called for that purpose.

Thomson-Fell, seconded by Jos. Peirson, moved that in order to expedite matters all applicants asking more than 3 per cent. should be dropped from the list to be balloted for.

Several objected to this. Chas. Hayward said it was not a question of getting the cheapest trustee, but of getting the one who would do the best for the creditors.

Others agreed that the question of remuneration was not as important as that of ability. The motion was therefore lost.

S. Perry Mills then moved that a committee along the lines proposed by Col. Gregory at the beginning of the meeting should consider the applications, and report back at another meeting.

This also was defeated. A. L. Ellis moved that the application be tabulated together with the remuneration asked by them, and that these lists either printed or typewritten be distributed at the adjourned meeting called to decide the matter.

This was discussed for some time, and finally voted down. Proceeding then to ballot according to statute, B. S. Heisterman, of Heisterman & Co., was selected. The remuneration asked for by Mr. Heisterman was 2 per cent. on all collections. The attendance was large yesterday afternoon, there being over 250 voters cast.

CATARHAL DEAFNESS IS CAUSED

By a thickening of the lining membrane of the middle ear owing to prolonged inflammation from catarrhal germs. The only cure which is carried by the air you breathe to the remotest parts of the throat and ear; it reaches the source of the trouble and cures deafness permanently. Every sufferer from impaired hearing should use Catarrhaze which has effected many wonderful cures. You simply breathe its healing medicated vapor—very easy and pleasant. Do this and your hearing will be restored. Catarrhaze never fails; it is guaranteed. Two months' treatment for \$1.00 at druggists.

Matrimony And The Future

London and Lancashire Life Ass. Co'y, of England,

For prospective bridegrooms, no better protection for the future is possible than a policy in the old established London and Lancashire Life Ass. Co'y, of England, (With a reputation of 65 years' establishment in England and 40 years in Canada), or double protection at a single rate. In other words, an inclusive policy. The double protection policy also assures men and women in middle life, who can thereby complete payment in 10 years, having meanwhile received protection, with the option of drawing out the lump sum with interest, at the 10th, 15th or 20th year. For particulars apply

GIRL IN MALE ATTIRE

Wedded four in a Box Car and How It Ended.

Nelle Nugent and Michael Singer, were married at Peterson, N. J., on Sept. 5th. Nelle was a clerk in a dry goods store in Brooklyn. Singer's home had been in Chicago, and so a few days after their marriage the couple started West.

Unfortunately their money ran out before the journey was completed, and they stopped at Wilkes-Barre, Pa., where they secured employment in a hotel for six weeks. They hoped to save enough to take them to Chicago, but because of the low wages they became discouraged and Singer proposed beating his way home on a freight. The wife declared her intention of going with him. She got a suit of man's attire, and with a cap pulled down over her ears and a pair of canvas leggings had no difficulty in passing for a boy.

At Wilkes-Barre they struck Toledo, Ohio. The railroad men had been good to the pair and considerably overlooked them, but they were pulled out of a freight car and locked up. Mrs. Singer told her story and the man took her in charge for the night. Suitable garments were secured for the girl and arrangements made for assisting the couple to reach Chicago.

DR. SHOOP'S Rheumatic Cure

Costs Nothing If It Fails

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly 20 years I worked to this end. At last, in Germany, my search was rewarded. I found a costly chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn heavy joints into lead. That is impossible. But it can drive from the blood the poison that causes pain and swelling, and then that is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot cure all cases within a month. It would be unreasonable to expect that. But most cases will yield within 30 days. This trial treatment will convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism—a potent force against disease that is irresistible.

My offer is made to convince you of my faith. My faith is but the outcome of experience of actual knowledge. I know what I can do—and I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month on trial. If it succeeds the cost to you is \$5.50. If it fails the loss is mine and mine alone. It will be left entirely to you. I mean that exactly. If you say the trial is not satisfactory I don't expect a penny from you.

I have no samples. Any more sample that can affect chronic Rheumatism must be dragged to the verge of danger. I use no such drugs for it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met, and in all of my experience, in all of my 2,000 tests, I never found another remedy that would cure one chronic case in ten.

Write me and I will send you the book. Try my remedy for a month, for it can't hurt you anyway. If it fails the loss is mine.

Address Dr. Shoop, Box 18, Racine, Wis. Mild cases not chronic are often cured by one or two bottles. All druggists.

FOR SALE.

FOR SALE—Five roomed cottage and lot 620, at a bargain. Apply 80 Pandora.

REMOVING—Everything must go at any price. Second-hand tools, furniture, stoves, heaters, beds, etc. Scrap iron and junk bought as usual, at Eden's Junk Store, 125 Fort street.

### ASKS FOR REMOVAL OF RESTRICTIONS

#### REQUEST OF ELECTRIC RAILWAY COMPANY

##### Other Matters Before the City Council in Regular Sess'on Last Night.

A letter from the management of the B. C. Electric Railway Company requesting that the restrictions governing Rock Bay bridge be removed was the only communication of special interest at last night's meeting of the city council.

The Deputy Provincial Secretary wrote acknowledging the receipt of a communication from the council respecting a letter received by the Electric Railway Company. Received and filed.

The B. C. Electric Railway Company wrote as follows:

Gentlemen—I beg respectfully to draw the attention of your honorable body to certain correspondence which has passed between our company and the city engineer relative to the traffic restrictions for Rock Bay bridge, and which somewhat covers the following:

When the arrangement as to our company's contribution to the Point Ellice bridge was being made, the question as to the limiting of the number of passengers on cars travelling over Rock Bay bridge was also taken under consideration. At that time an arrangement was in force between the city and the company by which the city had agreed to strengthen the Rock Bay bridge and make it strong enough for the passage of the large cars. As it appeared, however, that it would be some considerable time before the new Point Ellice bridge would be an accomplished fact, and as the service of large cars over Rock Bay bridge was necessary to carry the Point Ellice bridge, that is, that unless large cars could cross Point Ellice bridge, it was quite useless to take them over Rock Bay bridge. It was mutually agreed that the company should not ask for the cancelling of the restrictions governing traffic over Rock Bay bridge until such time as the new Point Ellice bridge was constructed and open to traffic. Covering this a letter was received by our company on November 22nd, 1902, which reads as follows:

"I have the honor to state that I have been authorized by the council to inform you that before the new Point Ellice bridge is opened to traffic the present Rock Bay bridge will be strengthened by the council under the advice of their engineer, to enable you with a reasonable margin of safety to run across it cars which, when loaded, will not weigh more than 30 tons, and the present restrictions as to the use of the bridge will be withdrawn. (Sgd.) Charles Hayward, Mayor."

I understand that the upper structure of the new Point Ellice bridge will reach Victoria in the course of a few days, and will immediately be put in position. I beg, therefore, respectfully to request that the city carry out their agreement with regard to Rock Bay bridge, so that this bridge will be in such a condition that the restrictions governing traffic can be withdrawn according to promise, at the time that the construction of the new Point Ellice bridge is finished and opened to traffic.

Referred to the streets, sewers and bridges committee for report.

J. Reynolds, in behalf of the B. C. Rifle Association, wrote acknowledging with thanks the receipt of the municipal cap. Received and filed.

The B. C. Outing Publishing Company are about to get out a special Christmas number and would like the city patronage. Received and filed. Aid Graham remarking that what money was available for such purpose should be given to the Victoria Tourist Association and not to a Vancouver house.

Otto Weller complained of rabbits running loose in the park, damaging his garden. Referred to the park committee with power to act.

Frank W. Grant called attention to damage done by his property being over-run by surface water from the Peace estate. As the water comes from private property the writer will be informed that the city is not responsible.

City Poundkeeper Curran reported having frequently visited the High school grounds and found no cows trespassing there. Received and filed.

City Clerk Doyle reported as follows:

Gentlemen—I have the honor to inform you that since the last meeting of the city council the following communications have been received and referred to the city engineer for report, viz:

D. W. Henshaw calling attention to the condition of the roadway in front of his premises, No. 37 Fort street.

J. E. Cowan, asking that a load of gravel be deposited on the crossing at the corner of Sylvester Road and Park street.

W. H. Church, complaining of the condition of Cadboro Bay road from the junction on Yates street and Cadboro Bay road to Belmont avenue.

J. F. Cole, calling attention to the necessity for a sidewalk on North road between Seward avenue and Clark street.

E. W. Vallis et al. re impassable condition of Superior street west of Menzies street.

E. E. Lesson et al. calling attention to the condition of Government street, between Johnson and Pandora streets.

W. H. Spurrer et al. petition for a sidewalk on Penwill street.

Ald. Grahame asked that the report be received and filed, and requested that the communications from James Manson and E. E. Lesson and others be read so as to show the aldermen the importance of the complaints. One referred to the bad condition of Government street between Johnson and Pandora since the building of the tram car line, and the

other to the need of a sidewalk on Cedar Hill road from Walnut street.

The letters were read and the city engineer will be instructed to report on the same by Wednesday.

The finance committee reported accounts totalling \$187, and a requisition from the school board for \$515.00. Adopted.

The streets, sewers and bridges committee reported as follows:

Gentlemen—Your streets, bridges and sewers committee having considered the subjects referred to hereunder beg to recommend the following for the adoption of the council, namely:

Resolved, That the matter of arranging with the B. C. Electric Railway Company as to the defacement of the coast of placing Cadboro Bay road, from its junction with Yates street, easterly, in a good condition, be left in the hands of His Worship the Mayor and the city engineer.

Re communication of E. Nicholas, desiring a sidewalk for the upper end of Johnson street. Recommended that the request be granted and the work done. Estimated cost, \$10.

Recommended that a sidewalk be laid down on the south side of David street, between Bridge and Turner streets. Estimated cost, \$64.

Recommended that a sidewalk be laid down on the west side of Dallas avenue. Estimated cost, \$78.

Recommended that Devonshire road be repaired. Estimated cost, \$180.

Received and adopted. The council then adjourned until Wednesday evening.

### AROUND BARKERVILLE.

#### A Successful Season—Miners Now Leaving For the Winter.

"The country is now covered with snow and the placer miners are all in town, some preparing to go south and others for the long winter," says the Ashcroft Journal. "The season seems to have been a fairly successful one, the excessive rain during the summer giving the placers a longer run than usual. And apart from this, many of the claims have struck it rich this year.

"The Deep Levels are waiting for the water to drain out of the ground a little more in the Willow river. Mr. Laird is pumping both day and night with his forty-foot water wheel, and Mr. Hoop at Slough Creek has a staff of men doing similar work. The plant of the Cariboo Consolidated, under Mr. Bailey, has done up in record time. The shaft is now 150 feet deep and in a few days the drive under the creek will be started. This is really a very fine camp, and we only want a few more like it to make Ontario a winter as well as a summer country. The Thistle Co. at Eight Mile lake had a record clean-up. The outfit came into town on Saturday and were all smiles.

"E. A. Lavelle, at China creek, has one of the best looking claims in the country. It has now closed its third season under his management. Another successful enterprise under the same manager is the Bear mine on Quinlingham creek. Mr. Lavelle is a successful mine manager who understands this class of mining. He has made claims pay for companies.

"The bucket elevator plant recently erected near Barkerville has turned out a complete success and proves that this style of elevator operates best when not working. The clean-up is not finished yet, but has fully repaid the anticipations of the miners. The company intends putting in an improvement on the present bucket elevator next spring, introduced by the present manager."

### ENGLISH BIRDS COMING.

#### Songsters Expected to Arrive on the Chatham This Afternoon.

The Natural History Society met last evening. While disappointment was felt at no paper being read as anticipated, the society took up various questions and transacted a good deal of business. Among the items discussed was the song birds, which are being imported into the province from England, and which will arrive today on the Chatham.

Dr. Hasell and Frank Sylvester, representing the National History Society, will be the wharf and will see that they are properly housed at Beacon Hill park. Half of them will be sent to Vancouver.

At the next meeting of the society Dr. Hasell will read a paper on "The Stalling." Later information will be given on the robin and goldfinch.

### PROVINCIAL NEWS.

#### PHOENIX.

Another innovation is about to take place at the Grand Canyon here in the shape of doing away with haulage of mine cars by horse or mule power. Last week the management of the company placed an order for two small steam locomotives. These locomotives are expected to be delivered in a few days and will haul from five to seven mine cars each, and will be used in the No. 1 and No. 2 tunnels of the mine. The length to which these tunnels have grown in late years makes it difficult to use some more expeditious method of haulage, in view of the increase of shipments.

#### GREENWOOD.

Late arrivals from Beaverdell on the west fork report the timber properties in that section as looking well. Where ever work has been done on Wallace mountain this year the results have been most gratifying. Messrs. Cummings and Scheick are down with very fine ore taken on a big lead on the Napanee.

Business is gradually improving, and more men are employed in the district than at any time since the period of railway construction.

Work progresses rapidly on the big brick stacks being erected by the B. C. Copper Company.

The electric power sub-station at the smelter is being pushed to completion before winter weather sets in.

#### ROSSLAND.

The school trustees have declared war against married women seeking positions in the public school teaching staff," says the Miner. "The fact has gone forth that hereafter no ladies who have departed from a state of single blessedness shall be permanently engaged on the staff. It is not absolutely clear on what grounds this stand is taken. However, the rule is now on the statute books of the school board and must be put into effect. Married women are therefore advised against applying for work in the city schools until the trustees come to view the matter in a different light. The trustees went at rule making in earnest at the regular monthly meeting of the board. In addition to the foregoing resolution another was passed to the effect that hereafter no teacher should be appointed to the staff unless equipped with a Normal school certificate or documents proving two years' actual teaching experience."

#### NANAIMO.

The Extension tunnel was opened on Sunday for the first time since the strike some months ago. This gives employment to at least 250 men.

A serious stabbing affray occurred at Shadle's saloon early on Monday morning. Tropp quarrelled with a number of miners over money matters, and pulling out a razor threatened to clear out the crowd. He was at once pounced upon and disarmed. A few minutes later Tropp fell upon Emmanuel Coudley with a razor, slashing him from ear to ear. Coudley was removed to the hospital, where his wounds, which required twenty-one stitches, were dressed. Tropp endeavored to escape, but was captured.

After having been lost in the bush in the neighborhood of Englishman's river for three nights and three days, during which time he encountered two heavy snowstorms, Frank Rogers, of Nanaimo, for whom search parties have been looking since Saturday morning, found his way home on Monday afternoon little the worse for his trying adventure. Rogers was out hunting deer when he got lost.

#### FERGUSON.

Berkley Crilly, assistant manager of the Great Northern Mines Limited, has returned from Vancouver, where he has been attending to the receipt of some 2,400 feet of iron conduit piping for the Oyster-Criterion 10-stamp mill. It has been up in milling operations for over six weeks, since which time the mill was completed. Mr. Crilly stated that the piping would be in place not later than the 20th inst., when crushing would be started. The ore has been filled to capacity at both the mill and upper terminal bunkers. At the Oyster-Criterion mine, everything has been got in readiness for winter operations. With the installation of the Road drills stopping will start. The new crosscut of main tunnel is in over 50 feet. It will be through this shaft after connections have been made with the upper workings, all the ore will be taken out to the terminal bins. The approximate distance to be run to tap the Rossland lead is 480 feet.

#### KAMLOOPS.

H. L. Gibbs, of Traverse City, Michigan, one of the shareholders of the Western Pulp & Lumber Company, has returned from a two months' visit inspecting the timber resources of the North Thompson river in the neighborhood of Mud Lake and the Upper Blue river, about 165 miles north of Kamloops. Mr. Gibbs was accompanied by Messrs. E. O. Patterson and H. Fuller, timber cruisers. During their trip they located 10,000 acres of timber lands in the above named sections of the North Thompson valley. Mr. Gibbs intention to return next spring and make a

S. C. WELLS & CO. Toronto, Can. - LeRoy, N.Y.

further examination of the timber limits. He is of opinion that there is an almost inexhaustible supply of first class timber to be obtained along the North Thompson, and the proof of his satisfaction in what he has seen is to be found in the fact that he has made extensive locations. The large portion of the timber lands selected so far carry cedar of excellent quality and size. Mr. Gibbs was not prepared to say whether a pulp mill would be put up by the company in addition to a sawmill, though both may eventuate. The sawmill will be of large capacity, and the company expect to give employment to at least 100 men. A committee appointed by the board of trade interviewed Mr. Gibbs and pressed on him the many advantages of locating their sawmill in the vicinity of Kamloops. Mr. Gibbs promised to place the whole matter before the company on his return to Traverse City.

The annual meeting of the shareholders of the Kamloops College Company was held last Tuesday evening at the college when directors were elected for the ensuing year. The treasurer of the old board, J. D. Swanson, reported that the finances of the college, considering all things, were in a very fair condition. The treasurer also reported that he had been in communication with J. S. Lohren, president of Toronto University, with the object of seeking affiliation with that university. Mr. Lohren had replied that the matter was under consideration of the Senate. The directors have elected the following officers: Honorary president, Hon. F. J. Fulton; president, J. R. Mitchell; vice-president, J. T. Robinson; secretary, A. S. Stevens; treasurer, J. D. Swanson.

Zero of above heights corresponds to 11 feet in the fallway of Victoria harbor. The time used is Pacific standard for the 120° Meridian west. It is counted from 0 to 24 hours from midnight to midnight. The height is in feet and tenths of a foot. For time of high water add 14 minutes to H. W. at Victoria.

Equipment (at Dry Dock)—From observations during six months, May to October, compared with simultaneous observations continued at Victoria by Mr. F. S. Deal, 800.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

The Daily Times.

Published every day (except Sunday) by the Times Printing & Publishing Co., JOHN NELSON MANAGER.

Offices: 20 Broad Street, Telephone No. 40. Daily, one month, by carrier, 70c. Daily, one week, by carrier, 10c.

All communications intended for publication should be addressed "Editor the Times," Victoria, B. C. Copy for change of advertisements must be handed in at the office not later than 5 o'clock p. m., if received later than that hour, will be changed the following day.

THE DAILY TIMES is on sale at the following places in Victoria: Cashmore's Book Exchange, 106 Douglas.

THAT MAJORITY OF ONE. The McBride government will have a majority of one if it succeeds in electing its Attorney-General in Vancouver and in placing the member for Nelson, Conservatives.

PURELY BENEVOLENT. Of course the motives of the United States in its dealings with the people of Colombia and the Isthmus of Panama are purely benevolent.

FIGHT TO A FINISH. All the Colonist demands is that the Liberal party shall abide by the decision of the electors of Vancouver.

generals of the case, the requirements of the constitution have been violated and the number of ministers reduced.

Premier McBride if he continues in office must pay the price demanded by the Socialists.

We hope the electors of Vancouver will rise superior to the sordid appeals that are being made to them by the Premier with his policy of railways without number to be built out of a worse than empty treasury.

The Times has more than once expressed the opinion that the real voice of Great Britain has not for some time been expressed by either diplomats or statesmen.

The New York Journal of Commerce says there is no disguising the fact that the great iron and steel industry of the United States has been undergoing a reaction and is threatened with a period of actual depression.

Oh, yes; Ontario politicians are a wicked, depraved lot, but they never penetrate anything quite so raw as the Fernie outrage.

To the Editor, "Epheus," in last night's Times, writes fondly against the "outrages" that are "rebounding to the fair name" of Victoria.

to obstruct the forces of progress and civilization, with the usual result. The Times does not venture to impugn the motives or the purposes of the United States in this Panama business.

We suppose if people of royal blood were perfect in disposition and in understanding, it would be a source of joy to be born in and of a royal house.

many good cities. Let it and dignity stand out of the way of Victoria's progress. COMMON SENSE. ASPIRATION. Frank Tooker in The Outlook. Give me the quiet of some-murdered glade.

## City News in Brief.

Go to Senate saloon for oyster cocktails.

The total clearings at the Victoria clearing house for the week ending 17th November were \$833,013.

John J. Wilson, secretary of the board of school trustees of Craigflower district, is inviting applications for the position of teacher in the school. Only male candidates need apply.

The regular meeting of the Mothers' Club will be held in Spring Ridge school tomorrow afternoon at 3 o'clock. Subject: "Children's Literature," by Mrs. Ewing. All interested are cordially invited to attend.

This evening the "measuring social" will be given by Baxter Hives. Ladies of the Macabos, in Scamlers Hill. Among those taking part are Mrs. Clyde, Mrs. Underhill, Mrs. Glendon, Mrs. Hardy, Rev. Dr. Cameron and H. A. McGiff, of H. M. S. Stratton. The ladies of Baxter Hives are requested to meet prior to the social at the hall. They will meet at 7.15.

Dr. Carter, the physician attending the man Nichols who was thrown out of a cart on Fort street some weeks ago, reports that the unfortunate fellow will soon be able to be around again. Nichols' cart, it will be remembered, was struck by a street car, and he was thrown out and severely injured, there being some doubt for a time as to whether he would recover.

At Christ Church Cathedral last evening Mr. Herbert Wilton and Miss Florence Drew were united in the holy bonds of matrimony by Rev. W. Bangh Allen. A number of relatives and friends of the contracting parties were present during the ceremony. Mr. Edward White, brother-in-law to the groom, gave the bride away. Mr. Fred White acted as best man. Upon returning from their honeymoon the newly married couple will take up their residence in Victoria.

Save money by patronizing home companies. It is a remarkable fact that with lower premium rates than those charged by the leading American companies, The Mutual Life of Canada has paid better results on its matured policies. A comparison of actual results of exactly similar policies for twenty or twenty-five years, or at maturity of endowment term, furnishes indisputable evidence in proof of this claim and is the most practical test that can be applied to any company. It will pay you to obtain the rates and plans of The Mutual Life of Canada before inquiring elsewhere. Apply to R. L. Drury, Provincial Manager, 34 Broad street.

Geo. N. Moring & Co., publishers, Toronto, are issuing an important series of volumes entitled "The Makers of Canada," which, making leading figures in Canadian life pivotal points for the treatment of certain formative periods in our history. The first volume, "Lord Elgin," by the late Sir John Bourne, has already appeared, and to commemorate the launching of the series a dinner was given in Toronto on Monday evening by Mr. Moring, Mr. Gosnell, of this city, who is contributing the volume on Sir James Douglas and the Pacific Coast, was invited to be present. Among the writers of the series are Sir Wilfrid Laurier, Hon. G. W. Ross, Dr. Parkin, Hon. J. W. Lamey and the late Principal Grant and Sir Geo. Bourne.

**LEFT FOR VALLEY.**  
Railway Men Have Gone to Similkameen to Inspect Route For Railway.  
Last evening President Jukes, Vice-President Bezy, Engineer Keefer and other members of the Nicola, Kamloops & Similkameen Coal & Railway Company left for a trip through the Similkameen valley. They will be absent about a week, and will then return to Victoria.  
President Jukes expects to bring his family out West, and will take up his residence in this city. Vice-President Bezy will likely move out in the spring.  
The intention of the company at present is to make Vancouver its headquarters. By going to the officials will be nearer the place of business of the new line.

**MILITARY MATTERS.**

Saturday.  
Band concert.

The regularly weekly whist tournament will be held in J. B. A. rooms on Thursday evening. All players are requested to attend promptly on time.  
Every dollar purchase entitles you to one guess how many yards of Ribbon? for the Solid Gold Watch, to be given by Santa Claus on January 1st, 1904. Ribbon displayed in our north window, The S. Red Co., Limited.

Mr. F. E. Clark, of this city, was united in marriage to Miss Margaret Dunbar, of Nanaimo, on Saturday evening. The ceremony was performed by Rev. Father Heynen. Mr. H. H. Clark, of Victoria, and Miss Kathleen Dunbar attended the bridal couple, and after the marriage ceremony a delectable supper party was held at the residence of Mr. and Mrs. Geo. Merrifield. Mr. and Mrs. Clark returned to Victoria yesterday.

On Thursday, November 26th, a thanksgiving ball will be held at Crofton hotel. The grand march will take place at 8.30 p. m., and supper will be served at 11.30 p. m. This entertainment has been arranged in celebration of the centennial of the Confederation of the United States. Thanksgiving day, there being a great many American miners at work at Crofton Mount Sicker and other neighboring points. M. J. Conlin, who will be the host, is making elaborate preparations, and all attending are assured a pleasant time.  
At Sample's hall, Victoria West, the Victoria West Juvenile Dramatic Society will present the drama "Borderland" on Wednesday and Thursday evenings. All the members of this splendidly trained company are under 14 years of age, and an entertainment is promised before the winter. The entertainment is given under the auspices of Victoria West Lodge, I. O. G. T., and the price of admission 25 cents.

**THE MASTER MECHANIC PURE**

**RETURNED FROM EAST.**  
Mr. and Mrs. W. McNeill Have Come Back From a Trip to New York.  
W. McNeill, of the department of lands and works, returned home on Saturday after a month's absence in the east. Mrs. McNeill accompanied her husband on the trip, which included New York, Philadelphia, Montreal and intervening cities.  
Mr. McNeill, like all visitors to the east, was struck by the marked evidence of prosperity in Eastern Canada. There was a much more decided tone on the part of Canadian than was manifested on the United States side of the line. Everything indicates stability on the part of Canadian business.  
On the way west Mr. McNeill stopped off at Winnipeg. That city he says is making phenomenal strides. It has since he visited it last become a great railway centre. During his short stay settlers were coming in steadily and leaving in various directions for the farming lands of the great Northwest. The city was literally booming. This progress was not confined to Winnipeg alone, but other places passed on the C. P. R. showed similar activity in point of business. Among these places Regina was making rapid extension.  
The country all along the C. P. R. shows the rapid growth which is being made in the farming population of the Northwest. What was a few years ago only a sparsely settled territory, is now literally filled with farmers. Not a mile was passed from Winnipeg to the mountains in which active farming operations could not be seen to be in progress.  
While in New York Mr. McNeill had the opportunity of witnessing the excitement attending the election of the Tammany candidate. He was in the city at the time of the election.

**SUDDEN DEATH.**  
Seattle Bride Dies at Spokane While on Her Wedding Trip.  
A Seattle dispatch says: "Mrs. H. T. Wills, formerly Miss Mary McElroy, wife of the manager of the Canadian Bank of Commerce at Dawson, died at Spokane Friday evening, less than twenty-four hours after the ceremony which united her in marriage. Miss McElroy was quietly married in this city at the home of her mother on Thursday evening to H. T. Wills, of Dawson, who arrived from the north on the last voyage of the steamship Humboldt. Only a few intimate friends of the contracting parties witnessed the ceremony, at the conclusion of which the bridal couple took an evening train, intending to cross the continent and make a tour of Europe. For several years Mrs. Wills had suffered from fainting spells, and she complained somewhat on the eve of her departure. Her condition was not considered at all alarming, however, and she left the city after bidding her mother and brothers an affectionate farewell, apparently in the best of spirits.  
"As the train which bore the bridal couple neared Spokane, Mrs. Wills grew alarmingly ill, and her husband was forced to leave the train, and summoned medical aid. She grew rapidly worse, and her brother, James F. McElroy, who was notified, he left on Friday night's train for Spokane, but when he arrived at Egeburg a telegram announcing his sister's death was handed him by the conductor.  
"H. T. Wills, who married Miss McElroy, is one of the best known business men in the Yukon territory. He went to Dawson shortly after the first gold discoveries, and established a branch of the Canadian Bank of Commerce. Mr. Wills' provincial home was in Toronto, and it was the intention of himself and bride to make a visit there upon their return from their continental tour."

**MESSAGE TO ALL CANADIANS**  
THAT DODD'S KIDNEY PILLS CURE ALL STAGES OF KIDNEY DISEASE.  
Emilien Cloutre had Backache, Head-ache and Could Not Sleep—Now He Can Sleep, Work and Enjoy Life—Dodd's Kidney Pills Did It.  
"St. Basile, Que., Nov. 16. (Special)—In these days when nearly every newspaper tells of deaths from Kidney Disease the case of Emilien Cloutre of this place comes as a message of hope to the Canadian people. He had Kidney Disease. Dodd's Kidney Pills cured him completely and permanently.  
"Mr. Cloutre is a witness—said to tell of his cure. He says: "I can not remember when I first had Dodd's Kidney Pills. They cured me of Kidney Disease.  
"I had pains in the back—and head-ache—and would not sleep at nights. I got up in the morning very fatigued and the light before me. I took nine boxes of Dodd's Kidney Pills and they cured me completely. Now I can sleep well and work well and my backache and headache are gone. I have had no trouble since I took Dodd's Kidney Pills."  
"Dodd's Kidney Pills never fail to cure Kidney Disease from Backache to Bright's Disease. They have an unbroken record of thirteen years in Canada."

### MOWAT & WALLACE,

The Leading Grocers Corner Yates and Douglas Sts.

#### THE RING, DECLARED OFF.

The boxing exhibition which was to have taken place at the Philharmonic hall to-morrow night between Jack Slavin and Jack Sullivan has been declared off.

#### CLASSES OF INSTRUCTION.

Members of the Victoria Fencing Club will meet at their rooms this afternoon to receive their first instruction. Capt. Davidson has kindly consented to act as honorary instructor for the present. Members will be divided into two classes, advanced and beginners, and classes will be held on Tuesday and Friday afternoons from 5 to 6:30 o'clock. At regular intervals club competitions will take place.

#### FOR STANLEY CUP.

Winipeg, Nov. 16.—At the annual meeting of the Western Canada Amateur Hockey League held tonight it was announced that the Winnipeg Rowing Club team had amicably arranged with the Ottawa Hockey Club for a series of matches for the Stanley cup to be played at Ottawa on December 30th; January 1st and January 4th, if the third game is required.

#### WRESTLING MATCH AT VANCOUVER.

Vancouver is to have a new sport, a wrestling contest. John Berg, who holds the professional Pacific Coast championship, was in the city yesterday, and on or about the 20th inst. will meet Tom Davis, of Nanaimo, who is middleweight champion of Canada. The contest will be for \$100 a side, and Davis will be granted a handicap.

Berg will weigh, when he steps on the mat, 168 pounds, while Davis tips the scales at about 145 pounds. The Pacific Coast champion will concede the victory to the Nanaimo man if the latter withstands the attack for an hour, or takes one fall out of Berg. Berg agrees also to make Davis's shoulders touch the mat twice before the hour, his falls to tell, or call himself defeated.

#### LACROSSE WISH TO COMPLETE.

There is a probability that next summer four teams will contest the British Columbia lacrosse league instead of the three—Vancouver, Nanaimo and Victoria—which played during the season just closed. The Seattle team is seriously considering the advisability of entering the league. The organization having expressed themselves favorable to the proposal in conversation with J. M. Mellis, secretary of the B. C. Association, on several occasions. It is also stated that Everett and Whistler will make applications to enter teams at the organization meeting of the association.

J. Mellis, in conversation the other day, stated that the probability of Seattle competing next season was strong. He did not think that any serious objection would be raised to team dilettante teams from the Sound competing. Of course, the constitution would have to be amended to allow of it. In this connection he pointed out that at the last meeting there had been some talk of Everett entering, and the general feeling of the meeting had been to allow the American team to compete. However, no application was received, and the question did not have to be faced.

#### RUGBY FOOTBALL GAME TO-DAY.

This afternoon at the Caledonia grounds a match is being played between the Victoria senior and United Service teams. The game commenced at 3:30 o'clock. The Victoria team follows: Full back, Patton; three-quarter backs, Bussay, Gillespie, BIRN, Schelohoff; half backs, Gillespie, Millard; forwards, Moray, McRae, Blandy, Grundy, Collins, Mitchell, Cornwall, Jamon.

#### THE FIRST SENIOR GAME.

Today's match between the Victoria senior and the United Service was arranged for the purpose of giving the locals some good practice in preparation for the league game to be played at the Terminal

#### Cook's Cotton Root Compound.

Ladies' Favorite. Is the only safe, reliable, and effective regulator which woman can depend on in the hour and time of need. It is the best of all medicines known. Treated in two degrees of strength. No. 1 and No. 2. No. 1.—For ordinary cases. No. 2.—For special cases—10 dollars stronger—three dollars per box. Ladies—ask your druggist for Cook's Cotton Root Compound. Take no other as all pills, mixtures and liniments are dangerous. No. 1 and No. 2 are sold and recommended by all druggists in the Dominion of Canada. Mailed to any address on receipt of price and four cent postage stamps. The Cook Company, Windsor, Ont.

No. 1 and 2 are sold in all Victoria drug stores.

on hand. The membership had increased materially, and in fact the association was flourishing. The report was received and adopted.

On motion it was decided that the club's gymnasium should be improved, and that baths and a shower bath be installed as soon as possible. The next business taken up was the election of officers, which resulted as follows: Honorary president, S. Matson; honorary vice-president, Leonard Tait; president, W. H. Dickson; secretary, H. Jacobsen; financial secretary, T. Hutchison; treasurer, G. A. O'Neil.

Committees were appointed as follows: Executive—All officers and Messrs. S. Lawrie and Colby. Sporting—C. Fairsall, W. H. Dickson, G. A. O'Neil and H. Montoth.

The meeting shortly after adjourned.

#### HE HAD A MATCH.

A gentleman was once travelling in a smoking carriage of an English railway when a German entered the compartment at one of the stopping places, and took the seat opposite. When the train had gone a little way, the German, noticing the other's cigar, leant forward, and asked if he could be obliged with a cigar. The Englishman was naturally taken aback at this colossal piece of impudence, but not being a hard-hearted fellow, he concluded that the German had made the request in ignorance of English manners, and he accordingly supplied the foreigner with one of his best Havanas. The German took it, and was soon puffing away with evident pleasure. In a moment or two later, he leant forward and explained: "I could not have doubted you, but I had a match in my pocket, and I did not know what to do with it."

### No More Pains in the Stomach

BECAUSE THE GREATEST OF STOMACH REMEDIES WAS USED

## Ferrozone.

Mr. R. Harris, of Rockwood, Ont., writes: "In regard to Ferrozone, I am glad to say it is the most excellent remedy for stomach trouble. Before using Ferrozone I was in a poor state of health, but after taking a few boxes I was cured of pains in the stomach and a soreness in the back. I am enjoying the best of health to-day, thanks to Ferrozone."

Mr. Ernest V. Jordan, of Trenton, writes: "I had a severe attack of stomach trouble and indigestion, which completely upset me. I was advised to try Ferrozone, and did so. Since using Ferrozone I have not had any further trouble, and can recommend it as a positive cure. My wife also found Ferrozone a good tonic and nerve strengthener."

Everybody that ever used Ferrozone speaks just as highly of it. It strengthens the stomach and digestive organs, and assists them in carrying on their work. Ferrozone purifies the blood and gives new energy to the nerves. It is the best tonic and restorer for young and old alike. Just try Ferrozone; results will astonish you. Price 50c. per box, or six boxes for \$2.50, at druggists, or The Ferrozone Company, Kingston, Ont. Don't delay. Get Ferrozone to-day.

## BRITAIN'S WORK IN THE TRANSVAAL

### HOW THE BURGHERS ARE BEING ASSISTED

#### Gigantic Task Undertaken by the Government - Work of Repatriation Department.

Sixteen months ago the Transvaal was a country in ruins. War had wrought devastation and desolation. Farms were deserted. Farm houses were destroyed. Land was losing traces of former cultivation. Of flocks there were none. The live stock had disappeared, and the people were glad of the shelter and the food obtainable in the concentration camps.

Today the country is blossoming out as never before. Farm houses have been restored. Roads have been repaired. Land has been brought under cultivation. Horses and cattle graze in the smiling fields. Towns have been rebuilt. Order and prosperity, in some measure, have been restored. This is the outcome of the repatriation work carried on by the British government.

#### Britain's Prompt Bounty.

Britain's bounty to her defeated foes has been both prompt and generous. The gift of \$15,000,000 has been only a small portion of the service rendered. The story of the restoration of the Boers to their farms has been told, so far as the Transvaal is concerned, in the London Times by a repatriation officer. It is a record of which the world has never before known the like. At the close of the war there were belonging to the Transvaal 65,000 persons in the burgher camps. There were besides 15,000 prisoners of war, and 10,000 of the last surrendered burghers. Practically the nation was in custody and in poverty. To return these people with food, furniture and live stock to their farms, rebuild their homes and start them again in life was a gigantic undertaking. Yet it was cheerfully and quickly accomplished. Besides the gift of \$15,000,000, the British government gave free food for a month and free transportation, loans of money for two years, without interest, and in many instances even ploughed the land and sowed the seed, so that when the Boers, and the loyalists as well, for the beneficence was not confined to the fallen foe, returned to their farms they found the crops nearly ready to be harvested.

#### Machinery of Distribution.

All this was done through the agency of the repatriation department, which had to be established and developed.

#### BABY IS HUNGRY

And Ringing the Bell for his meal of LACTATED FOOD on which he is thriving wonderfully fast. LACTATED FOOD makes baby strong and healthy. Ask your Druggist for it.

without loss of time. The headquarters of the machinery of distribution for the Transvaal were located at Pretoria. At the outset the department had to assemble an immense quantity of supplies and live stock from the four corners of the world. It had also to mature plans for an equitable and expeditious distribution. Various sub-departments were established at Pretoria. One took charge of the transportation, another managed the live stock, a third had control of supplies, a fourth looked after buildings and building material, and a fifth did the book-keeping for them all. Throughout the colony repatriation commissions, on which the Boers were represented, were established. These commissions reported the extent to which each family should be helped. Supply depots, 30 in all, were maintained in various parts of the country. To these depots the requisitions of the local commissions were forwarded, and by them all the pressing needs of the people were relieved. In all the vast country there was no reason for a single case of destitution, for 30 travelling officers went constantly from settlement to settlement, ascertaining the condition of the people and reporting to headquarters.

What the Boers Got. On leaving the concentration camps each family was supplied free of charge with a tent, bedding and month's food for all hands, and many of them had besides saved considerable flour out of their daily rations in the camps. Besides this, each family had such supplies as had been recommended by the local commissions. These included additional rations, sometimes for two or three months, implements, seeds and live stock. This additional supply the department either sold at cost, or charged to an account opened for the recipients. Two years are allowed for the repayment of this debt, without interest. Each family will be credited with its share of the \$15,000,000 gift, and will be expected to reimburse the government for the balance. The trek back to the farms, with the supplies, was a long and tedious affair. Great convoys were started out. Each family had its wagon drawn, perhaps, by sixteen oxen, or by ten mules. Some of these convoys covered long routes, or changed to the farms, and back again to the depots. Their progress averaged from sixteen to eighteen miles a day.

Ploughing the Land. But the triumph of the organization was the saving of the crops. When the Boers began to return to their homes the ploughing season was well advanced. It was found impossible to secure enough draught animals to enable each farmer to do his own ploughing. Hence there was a danger that the season would be lost. In this emergency the department adopted a novel idea. It sent through ploughing expeditions. Each ploughing column consisted of six ploughs, six teams of horses to draw them, and two natives to each plough. A list of farms to be ploughed was supplied to the conductor of each column. In order that the assistance should be as general as possible, it was ordered that not more than five acres should be ploughed on any one farm. Thus 30,000 acres were ploughed and seeded. When many of the late arrivals reached their farms they found crops of growing corn awaiting them. A small charge, not enough to pay for the cost, was made for this service.

Relief Works Started. When the issue of foodstuffs on credit ceased, as it did on the 31st of May last, it was feared that some burghers might not be in a position to supply the needs of their families. To meet this exigent relief works were started in various parts of the country. Burghers were paid \$1.25 per day, and were boarded at less than a shilling a day. Only a few hundred men were compelled to avail themselves of this assistance, and they have gradually diminished in number. Education was provided for the children in 874 government schools. The pupils, 25,274 in number, were fed at the government's expense. The cost of all the work, including the administration, had up to June last reached \$22,800,000. Part of this may in time be repaid, but the bulk of it is Britain's cheerful contribution towards helping the

Boers out of the dire distress which the folly of the dream of South African domination had brought upon them. Mail and Empire.

#### SPLENDID GOLDEN CHARIOT.

Of all the things connected with the Pope perhaps nothing has given rise to more speculation and romantic sentiment than the wonderful coach in which he rides on state occasions. New stories of this remarkable vehicle are always being manufactured. A recent instance of this is a story which gained circulation and credence, in which it was stated that somewhere in a mystic corner of the Papal palace was hidden away a coach of fabulous richness and glittering with precious jewels. The story intimated that this mythical coach was guarded night and day by gigantic Swiss guards. As a matter of fact, the Papal coach is of honest iron and wood, but notwithstanding that it is one of the most costly coaches in the world, costing no less than \$25,000. Nearly the whole of it is covered with a thick layer of gold leaf, and it has golden ornaments, but no jewels. In place of these it is ornamented with sculptures and carvings which are regarded as the most artistic in Italy. The interior is lined with bright red silk of extreme richness.

The history of the coach is very interesting. It was built in 1825 under the pontificate of Leo XII, and since then two other Popes, Gregory XVI and Pius IX, have sat in it, when they drove in state to take possession of St. John Lateran after their coronation. Exchange.

## A. BUDD Endured the Agonies of Dyspepsia for 35 Years

Mr. A. Budd, Shanty Bay, Ont., writes as follows about the efficacy of the medicine that cured him:

"After suffering from dyspepsia for thirty-five years, and meeting with many failures with other medicines, I decided to use Paine's Celery Compound, having heard of so many cures effected by it. The compound produced miraculous results and banished my troubles. From a condition of helplessness—being unable to sleep or eat—I now feel well and strong. I am astonished at the results, as my trouble was an old and chronic one. I have recommended Paine's Celery Compound to some of my neighbors, and in every case it has given satisfaction."

## PAINE'S Celery Compound Cured Him.

#### RECRUITING FOR THE NAVY.

Whitehall place, the recruiting headquarters for the Royal Navy and Royal Marines, has, during the current year, been a busier centre than St. George's barracks. Recruits of average good quality have come forward fairly well to supply vacancies in the service, and this material comes mainly from the counties fringing the Thames, in the shape of boys and young men possessing some knowledge of boats and ships. The medical examination is strict, and a twelve months' good character is absolutely essential in all branches and from all classes.

War vessels have now become huge mechanical ships, and in consequence of the constant demand for skilled artisans on ocean-going and coasting steamers at good rates of wages, the admiralty occasionally experiences some difficulty in obtaining men to fill vacancies in the highly technical departments of battleships, armored cruisers and torpedo boats, and in the stokeholes. In order to obtain a good supply of stokers a non-continuous service was established about three months ago, and on the whole it has worked with good results. Previous training is not necessary; recruits must be between the ages of 18 and 28; of good physique, and able to read and write fairly well. The rate of pay for a stoker is 12s. 3d. per week, with prospect of advancement. After three years' service a badge for good conduct may be obtained, which entitles the recipient to an extra 7d. per week. Additional pay is also given to men employed in torpedo boat work, and when in the tropics.

The duties of a stoker in a minor "inferno" are not agreeable, so the admiralty are sugaring the service pill by the allotment of extra pay and other advantages. For instance, the non-continuous service stokers may be trained to become skilled artisans—engine-fitters, millwrights, boiler-makers, blacksmiths, bricklayers for water-tube boiler furnaces, pattern-makers, and so on, without the intervention of the trade union, which would never permit an

"SEAL BRAND" In 1-lb. and 2-lb. Tin Cases (air tight). Other high grades in richly colored parchment bags (moisture proof).

## Pandora Range

Entirely New

Has been under construction for more than a year—six months were spent in testing and perfecting the range before it was offered for sale. Is built on entirely new and modern principles from entirely new designs—no old patterns were used to hamper the good working qualities of the new features.

Possesses labor and fuel-saving devices which are entirely new—triple, triangular grates, enameled steel reservoir and special flue construction, are not used in any other make of range. The fire-box, hot-air flues, body and oven linings, dampers, etc., are improved over old styles and all combine to make a perfect baking oven. Bold, rich carving extra highly polished nickeling, heavy leg base and sheet-steel warming closet give the "Pandora" a rich, elegant appearance not seen in old style ranges.

Sold by all enterprising dealers. Booklet free to any address.

# McClary's

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B.

CLARKE & PEARSON, AGENTS

Irish hodman to become a bricklayer. When the stokers have become qualified craftsmen they will receive extra pay at the rate of 1s. 9d. per week. A satisfactory supply is reported of smart boys for training in harbor ships, youths for sea-going training ships, and electricians, the terms offered being very encouraging. An electrician on joining receives 38s. 6d. per week and free rations; after three years' service, 40s. 3d.; after seven years, 42s., and after twelve, 45s. 6d.

Official advice received at the Santo Domingo consulate at San Juan, Porto Rico, says, General Deschamps, the vice-president of the Republic, is going to join Jimenez with the best of the supporters of President Wos y GE. The rebels are sweeping victoriously across the country, and will unite for the seizure of San Domingo city.

Windsor Grocery Company GOVERNMENT ST. OPPOSITE POST OFFICE.

TO SPEND FIFTEEN MONTHS IN JAIL

PENALTY INFLICTED ON ERRING JAPANESE

He Was Too Prodigal With Bad Cheques - An Ex-Pugilist Arrested Yesterday.

The Japanese who was somewhat prodigal with bogus cheques last week will spend the next fifteen months at the Chateau Topaz, whether he was conveyed this afternoon. He was convicted today of the third charge preferred against him, having pleaded guilty to the two others. He is certainly a smart Asiatic, but he did not altogether appreciate the genuine nature of his action not the gravity of his position when the consequences overtook him. Last Thursday night he entered the bank store of Burns & Adelson and procuring a cheque on the Royal Bank of Canada for \$200, asked for some goods. Mr. Adelson refused to accept the cheque, but the purchaser received it after satisfying himself as to the man's signature. The latter purchased some wax, handles, needles, etc., to the value of \$3.25, and got \$5 in change, undertaking to call next day for the remainder of the money. The following morning, however, when the cheque was presented at the bank it was dishonoured. The police were then informed, and the detectives started out to look for the wily Oriental.

The latter, delighted with the success that had attended his first venture, determined to repeat it. He went to Mr. Cookson's establishment and ordered goods, tendering a cheque for \$15 in payment. He also secured a gold watch from Mr. Aaronson on the same game. These little transactions were carried out after banking hours. Mr. Nonesuch is in pursuit of the erring Japanese, Detective Perdus and Constable O'Leary gathered him in not long after his last escapade, and invited him to the police station, where he was advised to make himself thoroughly at home. He pleaded guilty to two charges, but strenuously denied the Burns & Adelson transaction. In the court last morning he assumed an attitude of mischievous indifference. He subjected each witness to a gamut of questions, and failed to understand it when Messrs. Burns & Adelson identified him as the man who came to their store last Thursday. "It was very strange," very funny," he remarked, "entirely a case of mistaken identity. He pointed out that having already pleaded guilty to two charges he could have no object in denying the third, and therefore his denial should be worth something. The prosecution's witnesses, however, were equally positive, and their affirmations were substantiated by the striking resemblance between the signature on the cheque presented at Burns & Adelson's store and those tendered to Mr. Aaronson and Mr. Cookson. Detective Sergeant Palmer, who conducted the case, put in substance an array of evidence which, in the opinion of the magistrate, could not be controverted, so the Japanese a merry, debonaire rascal was convicted. For his successful frauds he was sentenced to six months' imprisonment with hard labor, and for the attempt on Cookson he got three months'—fifteen months in all.

The novel and rather demonstrative manner in which F. Bonson undid his revolver last night cost him \$20 in the police court today. He was summoned for disturbing the peace in the city limits. To the magistrate he explained that he was only adopting the normal method of discharging the weapon, pointed out that it was a rather remarkable way to do it, and fined him \$20. The defendant paid the fine.

Detective Perdus and Constable O'Leary yesterday evening arrested W. E. Savage, a former pugilist, on instructions from the chief of police of Vancouver. The man is to answer a charge of theft. He has been in the city for a couple of weeks, making his appearance about the time of the McCullagh fight at the Delmonico. An officer left the Terminal city this afternoon, and will return with the prisoner to-morrow morning.

John Christman was fined \$100 or three months' imprisonment in the police court today for supplying intoxicants to Peter, a West Coast Indian. The man was arrested by Constables Carson and Best. Peter was fined \$20 or one month for being in possession of intoxicants.

The Savoy and Delmonico, the two Government street theatres, have amalgamated, the combination to come into effect at the beginning of next month. The partition separating the two places will be removed and they will then be under one roof.

ALMOST EVERY WOMAN is afflicted to habitual constipation and should use Dr. Hamilton's Pills of Mandrake and Butter-milk, which cleanse the system and regulate the stomach and bowels. For mild and sure relief use only Dr. Hamilton's Pills. Price 25c.
