

EDUCATION & INNOVATION HUB

Annual Plan 2022

Education 100'000 CHF
Innovation 104'000 CHF

SCHOOLS

Laboratories and Wikicamps

Following the traditional approach to education, we will continue to propose laboratories and Wikicamps in collaboration with partners such as faculties of pedagogy.

Building schools 2.0

The project is focused on proposing to schools new models of learning and new tools for teachers. Innovating schools is the main goal for the following years.

Budget: 10'000 CHF

UNIVERSITIES AND HIGH SCHOOLS

Hackathons and Wikicamps

In this specific area, WMCH will continue the successful activities of the last years in partnership with universities and associations.

Open science

WMCH will move forward in the area of Science and the improvement of scientific articles. This project is a continuation of already successful initiatives.

Budget: 20'000 CHF

LIFELONG TRAINING

Trainers

The education program needs trainers having a professional background, able to motivate and to mentor. Lifelong training will become a strategic area and a resource for other projects.

Training

WMCH will propose a system of training to release certifications. Following the planning undertaken in 2021, 2022 will see the implementation.

Budget: 35'000 CHF

REORGANISATION AND PARTNERSHIPS

Partnerships

Partnerships are crucial. The creation of strong and reliable partnerships will be a key item for 2022 to improve and to boost the other activities.

New Strategy

Following the new 5-year strategy of WMCH, 2022 will also see a new strategy for education, adapting the existing one to the overall outlook as well as to the ever-changing education field.

Budget: 35'000 CHF

INNOVATION HUB (NEW IMPLEMENTATION)

Setup

The first year will be dedicated to setting up the hub which is a new program even in the Wikiverse.

Climate change

This project will embrace dedicated projects taking the peculiarity and the impact on the society into account.

Tools for education

This specific set of projects is focused to boost the education program and to provide new tools for schools.

Incubator

Experimental space to test and try new models or tools. The incubator will support ideas and new concepts.

Support to other programs

The innovation hub will support other programs providing knowledge and experimentation.

Budget:
104'000 CHF
