Subject: Request for Exemption of Machines from Reparation list
Through: Osaka liaison office
To : Ministry of Finance

1. Reference is made to your letter of 25 Sep 46, Copy of which is attached.

2. The presence of these machines in an arsenal and the use of them for war production renders them subject to reparations regardless of previous ownership.

3. The Toyo Rayon Company will be directed to return these machines to the custody and control of Sakurajima Branch plant of Uji Arsenal.

4. These machines will be cared for and inventoried in accordance with directives regarding machinery taken into custody and control for reparations.

5. Request for exemption of these machines from reparations list is denied.

Date: 23. Oct. 1946

SUBJECT: Request fot the change of location
of machineries of the reparations targets

THROUGH : Kyoto Liaison Office

T O: Kyoto Military Government Team

1. Request of exemption of the machineries in the Sakurajima Warehouse of Uji Powder Plant from the reparations list was denied by the direction of the letter of the Head Quarter of Osaka Military Government Team 3, October, 1946.

2. The machineries, which had been removed from the warehouse to the Y amashina Factory of the Toyo Rayon K.K, the previous owner of the mahhineries, was directed to be returned to the Sakurajima Warehouse of the Uji Powder Plant.

3. The location and circumstance of the warehouse are not faborable for the custody and maintenance, especially to safeguard them smuggling and I like to keep them in the Yamashina Factory of the ToyoRayon K.K. the present location of the machineries.

4. In case therequest be approved, the machineries will be cared for by Mr. Shigeki Hara, the director of the company, under the close supervision of Mr. Taro Kojima, the chief administrator of the Uji Powder Plant Administration.

5. The adress of the Yamashina Factory of the Toyo Rayon K.K. is;
The 16th of Jizodera-minamimachi, Yamashina-takebana,
Higashiyama-ku, Kyoto-prefecture.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Kyoto, Sep. 3, 1946

大 21.9.17 財務局

Military Government Team,

Kyoto.

Application for the use of the buildings and premises of the former Sakurajima Store House of the Uji Arms Manufactory belonging to the Tokyo 2nd Arsenal, Japanese Army.

1) The above mentioned buildings ~~are~~ 2nd premises were built as dye works in 1937 at Takeda-Ryuchicho 61, Fushimi-ku Kyoto (about 500 m. below Kanjin Bridge on the east bank of the Mamo River), and during the last war was purchased by the Japanese Army for accumulating several articles of goods, which have at present been completely removed.

2) The applicant, the Dai-ichi Mamo Joint Stock Co. desires to use the above mentioned buildings and premises as the works for tearing wild ramie into fibres by the process characteristic of our co.

3) Since 1941 our Co. have been conducting technical researches for turning into clothing material wild ramie that had been left quite useless, and having attained definitely successful results, are now ready for its mass production. We have in the city of Kyoto a stock of 83 tearing machines unique to our Co. including 70 newly made and several other requisite machinery and 15,000 piculs of raw material, all of which may prove sufficient to ensure its immediate production.

4) As the products of our Co. are generally utilized as farming clothes, sheetings and bags, and industry, we believe, is one of the most appropriate to the needs of present-day Japan, considering its economical and industrial situation.

5) The above mentioned Sakurajima Store House is very apt in the scale, equipment and situation to the enterprise of our Co., and we have gone through due formalities in connection with the Japanese Government, as is manifest in the annexed certificate. We now apply for the return of the above mentioned buildings and premises to the Japanese Government for the use of our Co. as works.

Enclosed, please find the ceritificate of the Japanese Government, the birds-eye-view of the buildings and premises, the conspectus of our business and the detailed plan for the use of the buildings and premises.

Yours truly Isamu Tanimura
Representating Director of
the DAI-ICHI MAMO JOINT STOCK CO.

Kyoto Prefectural Government
External Affairs Section.

September 17, 1946

To Major Harold C. Sheffield, Commanding Officer of Kyoto M.G. Team.

Subject: Report on Collodion cotten kept in Uji Gun-Powder Mill.

1. The collodion cotten kept in custody at Uji Gun-Powder Mill was recovered to Japane Government on March 28, this year, through 2nd Lt. Cambell, 35th Infantry Regiment, as mentioned in the annex.

2. With regard to the conversion of their use, they are going to be processed for utilization of Gun-Powder to be used for Japanese whdling-vessels now suffering shortage of Gun -Powder, as the SCAP has permitted the Japanese wholing.

3. The Kyoto Prefectural Office is going to sell them to Nippon Gun-Powder Control K.K., designated organ dealing with Gun-Powder transaction, and the said K.K. is now under way of transporting them through Nippon Chisso Hiryo K.K.(Japan Nitrogenious Fertilizers K.K.), to Taketoyo Plant of Nissan Kagaku K.K. (Nissan chemical Industry K.K.), in order to process them into whaling Gun-Powder.

4. In this connection, as the Bomb & Mine Disposal Unit of I Corps is now stationing at the said Uji Gun-Powder Mill for inspection of the Mill concerning its conversion, the carrying out of the Gun-Powder in general is being withheld for the time being.

83
movement of machinery

KYOTO MILITARY GOVERNMENT TEAM
APO 713 (Kyoto, Honshu)

14 Sept 1946

SUBJECT: Release of reparation machinery to fulfill procurement demand.

TO : Commanding General Hq I Corps, APO 301 (Kyoto, Honshu)
Attn: Mil. Govt Section, Res. & Ind. Officer

1. Transmitted herewith our letter copies from Hq I Corps, Eng. Section, dtd 22 Aug 46 and 11 Sept 46, requesting release of several pieces of reparation machinery at the Uji Arsenal. The original letter from Hq I Corps, Eng. Section, dtd 22 Aug 46 requested 13, 3 Phase Induction Voltage Regulators, 20 KVA with parts. This request was amended by a later letter, dtd 11 Sept 46, making the request for two (2), 3 Phase Induction Voltage Regulators 20 KVA with parts.

2. The Uji Arsenal has eleven (11) of the above mentioned requested machinery. This firm has only one (1) such machine in stock and has the other ten (10) in operation, furnishing the electrical power and the water supply for this firm. This factory states that if all of them were taken, they could not take proper care and custody of reparation machinery since they need water to remove small traces of powder on the machine and the floor of the buildings. By rearranging the power line six (6) of these machine could be removed without endangering proper custody and control of reparation machinery.

3. This headquarters recommends that release be granted for the machines stated in the letter dtd 11 Sept 46, Hq I Corps, Eng. Section. Release of these machines will in no way endanger reparation machinery.

SUBJECT: Reference to the removal of a voltage regulator from the Uji Powder Plant.

TO : Military Government Officer

Refering to the request from the Kyoto Prefectural Government as to the removal of 9-sets of 20 KVA voltage regulators from the Uji Powder Plant in order to be used in the lelctric distribution to the housing of the dependents of the Occupation Forces, I should advise that except 1 set which is in stock, others are being operated.

The operation is important for the maintenance of the reparation targets.

The removal of the 1 set is harmless because it is in stock and not operated.

I should beg your kind consideration and please advise, yesterday I advised Sergent Stahl that nothing could be removed and failed to explain in every detail.

Kyoto Liaison Office wishes to forward Kyoto Military Government Team the annexed petition presented by the director of Kyoto Custodian Office of Osaka Office of Finance Ministry, pertaining to removal and use of uninventoried machines located in Uji Powder Plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

OSAKA FINANCIAL BUREAU

KYOTO CUSTODIAN OFFICE

16 May 1947

SUBJECT; Application for removal and use of uninventoried machineries located in Uji Powder Plant.

TO ; Kyoto Military Government Team.

THRU ; Kyoto Liaison Office.

We respectfully beg you to grant attached Application of Daiichi Sangyo Co., Ltd.

Said company was engaging in baking operation. But owing to increase of powdered foodstuff of citizn and to supply large quantity of bread to the repatriator at the one time, cannot apply for these demand with the largest equipment of the company in Maizuru, so they project the extention of equipment.

Under the such circumstances, the company submit the Application on account of getting the baking equipment in Maizuru, and newly-made is very hard.

Encl. Application

Y.Zenki
Director,
Kyoto Custodian Office.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

DAIICHI SANGYO COMPANY
(Maizuru, Kyoto Prefecture.)

May 16 1947

SUBJECT; Earnest desire for getting your permission of removing to Maizuru for the use of the Company the following uninventoried articles and their accessories, now kept at the former Uji Powder Plant in Kyoto Prefecture.

TO ; Kyoto Military Government Team.

THRU ; Kyoto Liaison Office.

1. Electric baking oven with its accessories.

2. Flour-mixing apparatus.

In accordance with the orders of the Maizuru Food Distributing Corporation and of the Maizuru Repatriation Relief Bureau, our company is made responsible for baking 17,000 loaves of bread for a month, that is to say, 12,500 loaves for the inhabitants of Maizuru and 4,500 loaves for repatriates who are to be accommodated in the Maizuru Repatriation Bureau. But at present our factory can bake only 12,800 loaves of bread in a month, 35 bakers who are supposed to work for eight hours a day working for 25 days a month. If you let us have the articles mentioned above at a proper price, we shall be able to meet the demand not only of the people at Maizuru but also of the incoming repatriates.

K. L. O. No. /2

Kyoto Liaison Office wishes to forward to Kyoto Military Government Team the annexed petition presented by Chief Kyoto Agent Officer for Government's Properties of Osaka Office of Finance Ministry for permission to be given to removal and use of uninventoried machines and implements existing in the Uji Powder Plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

OSAKA FINANCIAL BUREAU
KYOTO CUSTODIAN OFFICE

18 April 1947.

Subject: Application for removal and use of uninventoried machines and implements existing in the Uji Powder Plant.

To : Kyoto Military Government Team.

Thru : Kyoto Liaison Office.

With regard to the application for subject item of Fukoku Ryoshoku (Foodstaff) Co., Ltd., we respectfully beg you to grant with your special cosideration.

(1) Said company is engaging to manufacture powdered foodstaff of citizen by the trust of Shokuryo Eidan of Kyoto Prefecture, and it is extending the manufacturing installation now.

We consider it contribute very much to the citizen, that the company uses the machines and implements, not only to make good the nutritive value of the citizen's food but also to spend economically.

(2) The all machines and implements which were applied are uninventried, and as we can supply other rail and transport car to the company. It is not abstacle to the shipment of reparation machineries.

After removal of machines, we order to repair of the subject machines and implements, and supervise directly them.

Y. Zenki

Chief
Kyoto Custodian Office

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Kyoto, March 28 1947.

Subject: Application for permission to remove and to use the machines and implements (not registered) existing in the ex-gun-powder factory at Uji.

To: Major Harold C. Sheffield,
Commanding Officer,
Kyoto Military Government Team.

Through: KYoto Branch of the Osaka Financial Office.

Dear Sir,

(1) We are engaging in manufacturing of feedstuffs for more than twenty years, and we began to make the powdered feedstuffs (so-called nutritious bread) since tew years ago, as we felt keenly the necessity to change grains into powder in Japanese foods.

Many people have become to be used to the powdered feedstuffs, for which the demands are increasing day by day. However, as our productive capacity is too poor to meet these increasing demands, we want to increase our equipment to manufacture the powdered feedstuff.

(2) The crisis in foods, the most important problem of the day in Japan, had been once overcome by the goodwill of the Allied Countries to release the feedstuffs imported from their countries, but we are facing again the critical moment in foods. We believe that it is our duty to use the imported feedstuffs most effectively and to reply to the kindness of the Allied Countries.

Under these circumstances, we intend to grind the grains into powder with its husks, keeping the albumin, the fatty substance and the vitamin in perfect condtion, to make the breads made of powdered feedstuffs, not only nutritious and digestible but also suitable to the taste of people, and to distribute them among the citizens as a staple feed.

As the first plan, we want to have the sufficient equipment to make 300,000 meals a day, of the breads made of powdered feedstuffs for 900,000 citizens in Kyoto, but it is quite difficult now to realize our plan owing to the deficiency of materials.

Therefor, we beg to get the permission to remove the machines and implements existing at present in the ex-gun-powder factory at Uji, to our Kyoto factory, near the Umekoji Station, the transport center of Kyoto city, in order to use them to make the breads made of powdered feedstuffs.

We shall be much obliged to you, if you would kindly permit us to remove and to use the machines and implements listed on the attached sheet.

(3) Our company are only making foods, so if it is allowed to use the machines and implements, we will pay our utmost attention to keep them always in the clean and sanitary conditions.

Yours sincerely,

Chief of
Fukeda Feedstuffs Co., Ltd.
No8 Minami Tsuchi Nishinokyo,
Shimogyo-ku, Kyoto.

POLICE DEPARTMENT KYOTOFU

July 15, 1946

SUBJECT: Report concerning arrest of criminals who have Stolen materials designated for Reparation.

TO : 103d Military Government Company Kyoto Office

We hasten to inform you that we arrested a part of offenders who have stolen 20 of electric motors which are designated for Reparation having been under the charge of Taro Kojima, Chief of Administration Department of Uji Plant of Osaka of Finance Affairs Bureau. These motors above mentioned had been in Sakurajima Plant of Former Toyo Rayon K.K. at Nagareike-cho, Fushimi-ku before they were stolen. As we are keeping on hunting the offenders of this burblary Case, we shall inform you more later but hereby we inform you a part of them arrested in the manner as follows.

I. The Criminal

a. Domicile: 48 Ichiman-cho Matsuyama City, Ehime Pref.

b. Present Address: 39 Mukaikawabara-cho, Fukakusa, Fushimiku, Kyoto City.

c. Name : Ritsu Ikeda

d. Occupation: Employee of Telephone Bureau.

e. Age : 39 Years old.

2. Out line of statement how the crime done.

The criminal had been given a certificate of the First Class Boiler Engineer and since about the year of 1938 he started to work as a boiler engineer at Kyoto Central Telephone Bureau Gion Branch. Lately he became hard to live as his income could not meet with the family expenses, then one day in February at about 2 p.m. he entered Toyo Rayon Plant and stole an electric motor (10 H.P.) from a store house of that Factory. He sold it at the free market near south exit of Kyoto Station to a passerby at the price of 3,000 Yen and spent it for his living.

Director of Police Dept.
Kyoto-Fu.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Petition
for the Use of the part of the Uji Factory
of the Ex-Tokyo Second Military Arsenal.

15 July, 1946.

To : The Commanding General, I Corps.

Thru : The Kyoto Office of the 103rd Military Government Co.

Contained herewith are the details of the plan of reconversion of a part of the Uji Factory of the Ex- Tokyo Second Military Arsenallinto the manufactory of the most needed drugs, by utilizing only some parts of factory lost and vacant buildings of the srsenal.

This company was newly founded with the purpose of producing the drugs, such as sulfaguanidine, Phenothiazine and sulfathiazol, which are essential to the public hygiene of Japan, Particulary to the lowest level of people's I ves under the present conditions; the work is also of great help to relieve the unemployed who have been engaged in the manufacture of those drugs in north Korea and who have recently repatriated.

The location of this factory is the ideal site in Japan for our plan in various conditions for drug manufacture, eapecially the water available there so abundantly is highly pure and the atmosphere is quite pure and clean as the climate is moderate and no heavy industry can be found nearby.

Moreover, we have many chemists and other engineers who have repatriated, Therefor it is our belief that we shall be able to begin production immediatly when the permit is granted.

This plan was approved by the Ministry of Public Welfare, the Ministry of Finance and the Home Ministry of the Japanese Government.

As to other details we beg you to refer the remarks in the application.

We hope your prompt consideration on this matter and acceptance of this petition.

G. Shiono

Gisaburo Shiono

Serial No. of Report

APPLICATION FOR OPERATION OF AND REPORT ON INDUSTRIAL FACILITIES

To : C.G., I Corps
Thru : C.O. 10zd M.G.Co.

Name and Address of Reporting Unit

15th July,1946
Date

1. Name of Facilities
   Head Office: Nippon Yakuhin Kasei K.K.
   (Japn Drugs Mfg. Co., Ltd.)
   Plant : Ex-Tokyo Daini Rikugun Zoheisho, Uji Seizosho.
   (The Uji Factory of the Ex-Tokyo Second Military Arsenal)

2. Location
   Head Office: c/o Osaka Building, 1, Sozecho, Kita-ku, Osaka.
   Plant : Higashi-Uji-cho, Uji-gun, Kyoto pref.

3. Name of President or Manager

   Gisaburo Shiono (President)
   Kenichiro Mayekawa (Managing Director)
   Kazuhiro Mayeda (Manager)

4. History
   i) Uji Factory (as a military arsenal)

      a) Date of construction : 1895
      b) Date of first operation : 1895
      c) 1935 - 1941 Production :
         Please see Table I.
      d) Present capitalization in Yen:
         unknown. All is national expenditure.
      e) Changes made in capital structure since 1935:
         None.
      f) Name and Address of parent company:
         None.
      g) Number of shares outstanding:
         None.
      h) Number of stockholders:
         None.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

i) Funds received from Government:
Uuknown. All is national expenditure.
j) Outline sketch of plant layout with approximate dimensions:
Please see Drawing I.

ii) Japan Drugs Mfg. Co., Ltd.
a) Date of foundation: 13th June, 1946.
b) Date of the first operation: Not yet.
c) 1935 - 1941 Production: None.
d) Present Capitalization in Yen:
Authorized ¥ 195,000.
Paid up ¥ 195,000.
e) Changes made in capital structure since 1935:
None.
f) Name or address of parent company :
None.
g) Number of shares outstanding:
3,900 shares.
h) Number of stockholders (Give name of those owing 10% or more of total)
40
1. There are none who own 10% or more stock of total.
2. Names of the leading stockholders are as follows.

Name	No.of Shares	%
Gisaburo Shiono	100	2.5%
Koji Takeoka	100	2.5%
Kenichiro Mayekawa	100	2.5%
Shu Furukawa	100	2.5%
Yutaka Yamada	100	2.5%

3. All of the above mentioned persons have no relations to the Japanese Government, and neither are they the former employees of the arsenal.
4. Most part of the stockholders are the unemployed who have repatricted from Korea recently.
i) Funds received from Government (Bounties, subsidies, etc.) None.

5. Description
a) Principal products
1. Wartime (as a military arsenal)
Please see Table II.
2. At Present
None.
3. Planned for 1946 - 1947
Sulfaguanidine
Phenothiazine (Thiodophenylamine)
Sulfathiazol

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b) Capacity
1. Wartime (as a military arsenal)
Please see Table II.

2 At Present
None.

3. 1946 - 47 (with unrestricted access to materials)

Name of commodities	Annual Quantity of production	Notes
Sulfaguanidine	12 tons	specially effective drug for intestines diseases
Phenothiazine	12 tone	effective insecticide for larvae of flies and mosquitoes
Sulfathiazol	6 tons	specially effective drug for pneumonia without reaction

c. Number of Employees
1. Wartime (as a military arsenal)
about 4,500.

2. At Present
None. (as a military arsenal)
(But at present, there are about 200 workers of Japanese Government to keep and maintain machineries for Reparation.)
20 (as this company)

3. 1946 - 47 (at maximum capacity)
Clerks and Engineers 60
Workers 270
330

6. Machinery and Equipment in Plant
As we shall utilize only some parts of factory lost and vacant buildings as shown in the annexed drawing, we shall keep intact the machines to be taken off for reparation. And even if there are some pieces of machines inside the buildings, they will be removed into the nearest warehouses which are controlled by the Japanese Government, and they will be preserved in good condition by their responsibility.

7. Present most stocks of Raw Materials, Supplies and Unfinished Goods.
i) Most stocks of raw materials, supplies and unfinished goods which were stored here, were returned back to the Home Ministry, and carried outside the factory.
ii) Some of them were allocated by the Japanese Government to this company.
iii) Beside that we have arranged raw materials needed for one or two months Production.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

8. Present Stocks of Finished Goods.
None.

9. Present Stocks of Fuel.
They have already been returned back to the Home Ministry and some of them have been allocated to this company.

10. Machinery and Equipment needed for maximum production 1946-47.
Please see Table III.

11. Raw Materials & supplies needed (monthly).
a) For Present Capacity
None.(as a military arsenal)
b) For Maximum
Please see Table IV.

12. Fuel needed (monthly)(Do not include present stocks)

Description	Quantity
Coal	30 tons
Coke	None.

13. Additional Personnel needed (Not locally available).
40 clerks and engineers needed.

14. Prices (Give current selling prices in Yen of Principal products)

Description	Unit	Prices
Sulfaguanidine	kg	¥1,299.40
Phenithiazine (pure)	kg	180.00
Sulfathiazol	kg	2,500.00

15. Remarks
Please see Annex I.

16. Certification by applicant.
I certify that the information contained herein is true to the best of my knowledge and belief.

Chlorine	4,000

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

ANNEX -- I

Remarks

1. The lots to be utilized by this company will be enclosed with walls, and separated distinctly from the other part of the arsenal.

2. The machines needed for our production are to be borrowed and moved in from outside.

3. We intend to rent the buildings and land from the Japanese Government for the time being, and the rate of the rent will be decided by them, so it is unknown to us now.

4. Even if there are any machines inside the buildings to be utilized, they shall be transferred into the warehouses of the other part of the arsenal(there are sufficient warehouses available for their storage purposes), and carefully preserved in good condition by the Japanese Government.

5. We are now negotiating with the Japanese Government concerning the permission of the increase of capital of this company.

6. Sulfaguanidine is an excellent remedy for intestines diseases, such as infant dysentery, dysentery, catarrh of the colon and typhoid fever. It is effective to shorten the time od recovery, when used for treatment of peritonitis and surgical operations. Many times sulfaguanidine has rescued patients of dysentery and infant dysentery who were given up by their doctors. Therefore it is indispensable for the peoples of villages without any doctors, or for the peoples of lower classes having no money to consult with doctors. While the demand of the people of this year amounts to about 80 tons, yet the output of this year is estimated to amount to only 30 or 35 tons, including the planned capacity of this company. Under the present nutritional and sanitary conditions of Japan, it is feared most deeply that typhoid fever, dysentery and some other colon diseases will, without doubt, rage in all parts of Japan. But it is a matter of great regret that there is no cheap remedy for them at present.

7. Phenothiazine (Thiodiphenylamine) is an excellent insectiside which is much more effective than Rotenon.
It is testified that one over ten million density of phenothiazine is enough to kill the larvae of mosquitos and flies. Since this insecticide is easily soluble in water, it will be very useful for the public by preventing the infectious diseases, and moreover for the agricultural production.

8. Sulfathiazol is a specially effective drug for pneumonia and infectious menigitis. This is one of the drugs which are needed urgently by people at present as well as sulfaguanidine.
It is a most superior characteristic that there is not any bad reaction to be seen after taking a lot of this drug or continuous use of it.

9. As stated above, all the drugs we are going to produce are essential to the national welfare and will contribute to securing the lowest demand of the public.

KYOTO MILITARY GOVERNMENT TEAM
APO713 (Kyoto, Honshu)

29 July, 1946

SUBJECT: Acceptance of the application for temporary Use of part of Uji Factory of Tokyo Second Military Arsenal

To : Kyoto Liaison Office.

The above-mentioned application , C. A. O. No.226(ECI-F) was submitted to this military Government Team for its consideration on July 29, 1946.

HAROLD C. SHEFFIELD
MAJOR, AGC.,
COMMANDING

Folder 31

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

IMPERIAL JAPANESE GOVERNMENT

CENTRAL LIAISON OFFICE

TO : HEADQUARTERS, 103RD MILITARY GOVERNMENT.

FROM : Central Liaison Office, Tokyo.

SUBJECT : Application for Temporary Use of Part of Uji Factory of Tokyo Second Military Arsenal.

C.L.O. No. 226(ECI-F) 20 July 1946

1. The Central Liaison Office hereby submits an application for use of a part of the land and buildings of the Uji Factory of the Tokyo Second Military Arsenal by the Nippon Yakuhin Kasei K.K. (Japan Drug Mfg. Co., Ltd.) for the purpose of manufacturing medical supplies, which are needed to insure the health of the people.

2. The reasons for this application are as follows:

a. As a number of drug factories were destroyed by air-raids during the war, it is of urgent necessity to replenish them to secure the public health and also to increase the production of agricultural medicines in view of the present food situation.

b. The Nippon Yakuhin Kasei K.K. proposes to manufacture sulfaguanidine, sulfathiazol and phenothiazine, which are specific remedies for epidemics, such as dysentery, typhoid fever, eruptive typhus, microbial intestinal diseases, pneumonia, infectious meningitis and other staphylococcies. The extremely meagre productive capacity for these drugs in this country makes the execution of the present plan all the more essential.

c. The present plan proposes to use a part of the land and buildings of the Uji Factory as stated above, and not the machinery located in a part of the buildings, which will be moved into another portion of the factory buildings to be placed under the control and custody of the Japanese Government so that no hindrance may be incurred to its protective maintenance.

d. The Uji Factory is located on the southern outskirts of Kyoto and is favored with ideal conditions for drug manufacture, that is, an abundant supply of pure water and clean air, there being no heavy industry works nearby.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

3. It may be added that an understanding has been obtained in this matter from the Ministries of Public Welfare, of Finance and of Home Affairs.

4. A petition of the Nippon Yakuhin Kasei K.K., stating the full particulars of the production plan, is forwarded herewith for your reference.

5. With the above circumstances in view, it is requested that your Headquarters be good enough to approve this application.

FOR THE PRESIDENT:

(T.Katsube)
Chief of Liaison Section,
Central Liaison Office.

29 July 1946

SUBJECT: Permission to use empty warehouses of the Uji Arsenal

TO : Commanding General, Hq I Corps, APO 301 (Kyoto, Honshu)
Attn: Mil Govt Section, Res. & Ind. Officer

1. Inspection and survey was made of subject area and found it to be represented as indicated on attached blueprints, Subject factory is listed on Incl. 2, OD #5 At the present, the Home Ministry is engaged in removing supplies located inside of the requested warehouses. This operation will be finished 30 Aug. 46.

2. Requested areas are dispersed from the main plant's area so the possibility of mistreatment and theft of reparation machinery, by the requestors of subject land, is slight.

3. This Hq recomends that permission be granted for the use of subject land and warehouse indicated on attached blueprints, after all supplies are legally returned to the Home Ministry and removed.

1. The Uji Factory of the 2nd Tokyo Military Arsenal is listed as Plant No. 23 in Kyoto Prefecture on Inclosure 1 of Operational Directive No. 5/2, Headquarters Eighth Army, 7 June 1946. The Higashi Uji Agricultural Industrial Association, and the 1st Agricultural Company are desirous of using the empty warehouses of this arsenal as sleeping quarters of their employees, who are engaged in agriculture, in the immediate area. The request is supported by the statement of the Governor of Kyoto Prefecture and the Chief of the local Administrative Section.

2. No problem of reconversion is involved in this application, and use of OD-No. 5 machinery is not requested. The local Military Government Officer, who has investigated the buildings in question, states that machinery designated for reparations will be adequately safe-guarded.

3. In view of the commendable purpose for which the buildings are to be used, it is the recommendation of this headquarters that temporary use of the buildings be allowed the organizations that have requested permission to use them.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

CERTIFICATE DATE: July 26th, 1946

All engineering materials of the inventory of the Uji Powder plant were returned th the Home Ministry on July 19th.
The Home Ministry is in charge to take them out of the plant.
I hereby permit the application made by the Home Ministry to the Uji Powder Plant Administration that

About 300 Japanese personnel, during about 3 monthes, work inside of the plant .

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

To : Commander of the 103d Military Government Company,
U.S.Army.
From : Kyoto Liaison Office.

Subject: Reconversion of the Uji Factory of the Ex-Tokyo Second Military Arsenal into the manufactory of drugs.

K.L.O. No. 89 Date 15 July, 1946.

Contained herewith is the plan of reconversion of the Uji Factory of the Ex-Tokyo Second Military Arsenal into the manufactory of drugs such as sulfaguanidine, phenothiazine and sulfathiazol, which are essential to the national welfare.

This company was newly founded and organized by the repatriators from north Korea, including experienced chemists and engineers, with the purpose of producing above mentioned drugs and of complying with the eager demand of the people at the lowest degree who are suffering from an acute shortage of the drugs.

Under the present nutritional and sanitary conditions of this country, it is our belief tha t the present conversion plan hereby submitted is of urgent necessity, because these drugs are indispensable for preventing many infectious diseases.

This factory is located in the most ideal site in Japan in various conditions for drug manufacture, especially the water is so abundant and very pure and the atomosphere is quite clean.

By this plan, this company is going to utilize only some parts of the factory lots and vacant buildings, and to keep intact any kinds of machines to be taken off for reparation. Therefore we are convinced that there will be nothing in this plan to conflict with the SCAP's directive of Jan. 20 concerning "Custody Control and Protective Maintenance of Japanese Aircraft Plant, Arsenals and Laboratories".

For the above reasons, we shall be much appreciated if you would be good enough to approve the application hereby submitted for the welfare and happiness of the public.

N. Yoshioka

Noritake Yoshioka
Chief of Kyoto Liaison Office.
