Tobacco Stocks Report

as of October 1, 1959

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

Washington, D. C.
November 17, 1959

CONTENTS

	Page
Discussion	3- 5
Conversion factors for adjusting for losses in weight	6
Stocks of leaf tobacco, by types, converted to a FARM-SALES-WEIGHT equivalent	7
Production, stocks, supply, disappearance, and price of specified types (FARM-SALES-WEIGHT)	8-11
Stocks of leaf tobacco, by types and groups of grades	12-15
Summary of tobacco leaf represented in inventories of tobacco sheet	16
Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers	17
Stocks of leaf tobacco, summary by types	18

EXPLANATION OF GROUP SYMBOLS BY TYPES OF TOBACCO
FOR PURPOSES OF THE TOBACCO STOCKS REPORT

GROUPS OF FLUE-CURED

TYPES 11, 12, 13, and 14:

- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

GROUPS OF FIRE-CURED

TYPES 21, 22, and 23:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-N-Scrap and nondescript

GROUPS OF BURLEY

TYPE 31:

- B-Leaf
- T-Tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

GROUPS OF SOUTHERN MARYLAND

TYPE 32:

- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF DARK AIR-CURED

TYPES 35, 36, and 37:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-N-Scrap and nondescript

GROUPS OF PENNSYLVANIA SEEDLEAF

TYPE 41:

- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF OHIO FILLER

TYPES 42-44:

- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF PUERTO RICAN

TYPE 46:

- C-Superior
- X-Inferior
- Y-Trashy (Rabia)
- S-Scrap (Picadura)

GROUPS OF CONNECTICUT VALLEY BROADLEAF
AND HAVANA SEED

TYPES 51 and 52:

- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- S-Scrap

GROUPS OF NEW YORK AND PENNSYLVANIA
HAVANA SEED

TYPE 53:

- B-Binders, seconds, and brokes
- X-Crop-run and stemming grades
- S-Scrap

GROUPS OF SOUTHERN AND NORTHERN WISCONSIN

TYPES 54 and 55:

- B-Binders
- C-Fillers
- X-Crop-run and stemming grades
- S-Scrap

GROUPS OF CONNECTICUT AND GEORGIA
AND FLORIDA SHADE

TYPES 61 and 62:

- A-Wrappers
- B-Stout wrappers and binders
- C-Fillers or tips
- S-Scrap

GROUPS OF FOREIGN-GROWN CIGAR-LEAF

TYPES 81, 82, and 83:

- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total Inventories of Leaf Tobacco Lower Than a Year Ago

Leaf tobacco inventories in the United States and Puerto Rico totaled 4,583 million pounds (farm-sales-weight) as of October 1, 1959, on the basis of the quarterly stocks reports of dealers 2/ and manufacturers. This is a decrease of 125 million pounds compared with a year earlier and 335 million below two years ago. This decrease was general, as inventories of most kinds of domestic-grown leaf were lower than on the previous October 1. These decreases in stocks reflect the smaller production of tobacco in the United States during the previous two years. Tobacco growers marketed 803 million pounds during the third quarter (July-September, 1959), consisting mostly of flue-cured but including some Maryland and cigar leaf. During the corresponding period last year 745 million pounds were marketed by growers.

The marketing year for all kinds of tobacco except flue-cured and cigar wrapper is on an October-September basis (table 3). The indicated total disappearance (exports plus domestic consumption) during the 1958-59 marketing year for all U.S. grown types combined for their respective periods was 1,949 million pounds compared with 1,944 million during the previous year. Domestic consumption of U.S. grown tobacco was 1,413 million pounds, slightly less than for the previous year. In addition to the U.S. grown tobacco, approximately 158 million pounds (unstemmed equivalent) of imported tobacco was used by domestic manufacturers during the past year. In turn, the U.S. exported approximately 536 million pounds during the 1958-59 marketing year (528 million during previous year).

Stocks as of October 1, 1959, included about 901 million pounds (farm-sales-weight) of leaf tobacco under Government loans (1,034 million pounds as of October 1, 1958). These loan stocks were divided as follows: flue-cured, 583 million pounds; Burley, 232 million; Maryland, 9.7 million; fire-cured, 45.5 million; dark air-cured, 18.1 million; and cigar-leaf, 12.9 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis).

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Flue-cured, Burley, and Maryland Stocks Show Decreases

Stocks of flue-cured tobacco on October 1, 1959, were 2,555 million pounds compared with 2,609 million reported on hand a year ago. Marketing of the 1959 crop, currently estimated at 1,080 million pounds, began in July and sales by growers totaled 789 million pounds by the end of September. This is above the rate of marketing of the 1958 crop, when 718 million pounds were sold during the corresponding quarter last year.

Burley stocks of 1,236 million pounds represented a decrease of about 49 million pounds compared with the previous October 1. Based on October 1 stocks, total disappearance of Burley tobacco during the marketing year just ended (October, 1958-September 1959) amounted to 515 million pounds compared with 503 million during the 1957-58 period. Indicated domestic consumption was 480 million pounds (up 5 million) and exports totaled 35 million (up 7 million).

Stocks of Maryland tobacco were 74.5 million pounds, a decrease of 5.8 million over holdings on the previous October 1. Sales of the relatively small 1958 crop on the auction markets were completed in August, 1959. Disappearance of Maryland leaf during the 1958-59 marketing year was 37.3 million pounds, about the same level as for previous year. Indicated domestic consumption was 22.0 million pounds (25.3 million in 1957-58) and exports of 15.3 million (11.7 million last year) were the highest in many years.

Foreign-grown cigarette and smoking tobacco stocks (Turkish and other) were 209.0 million pounds--about the same as on last October 1.

DARK TOBACCO STOCKS

Fire-cured and Dark Air-cured Stocks Lower Than on Last October 1

Fire-cured tobacco stocks, reported as 121.8 million pounds were smaller than a year ago (133.2 million), decreases occurring in all three types. Fire-cured stocks on October 1, 1959, were divided by types as follows: Virginia fire-cured 22.5 million, Eastern District Kentucky and Tennessee fire-cured 81.6 million, and Western District 17.6 million. Disappearance of fire-cured tobacco during the 1958-59 marketing year totaled 54.7 million pounds compared with 62.9 million during the previous year. Exports of 24.7 million pounds were 15 percent lower than during the previous marketing year. Domestic consumption was 30.0 million compared with 33.7 million for 1957-58.

Dark air-cured tobacco stocks on this October 1 were 68.6 million pounds, a decrease of 9.4 million pounds compared with holdings a year earlier. Stocks of all types were lower than on the previous October 1. Inventories on this October 1 of One Sucker were 42.8 million pounds, Green River 20.8 million, and Virginia sun-cured 4.9 million. Disappearance of dark air-cured tobacco during the 1958-59 marketing year was 27.5 million pounds, slightly above the figure for the previous year. Exports were 7.7 million--0.8 million more than for the year before, and domestic consumption was 19.7 million (20.5 million for 1957-58).

CIGAR LEAF STOCKS

Holdings of Domestic Cigar Leaf Lower Than a Year Ago
Stocks of Foreign-grown Cigar Leaf Larger

Cigar leaf stocks of all domestic types including Puerto Rican totaled 270.5 million pounds (farm-sales-weight) on October 1, 1959. This is a decrease of about 4 percent compared with total holdings on last October 1 (282.2 million). Stocks of foreign-grown cigar leaf totaled 43.8 million pounds (unstemmed equivalent) compared with 27.4 million reported the previous October 1.

Stocks of the cigar-filler types declined 10.0 million pounds compared with a year earlier, stocks this October 1 amounting to 163.9 million. Decreases were reported in holdings of all types except Type 41, which showed a slight increase over a year ago. Pennsylvania Seedleaf stocks this October 1 were 104.5 million pounds, Ohio Filler 17.1 million, and Puerto Rican Filler 42.3 million. Disappearance of the filler types for the 1958-59 marketing year totaled 89.0 million pounds--considerably higher than was indicated for the previous year (77.4 million). Indicated domestic consumption was 87.5 million (77.1 million in 1957-58), and exports of 1.5 million were 5 times the 1957-58 figure.

Cigar-binder stocks declined to 81.7 million pounds on October 1, 1959, a decrease of 3.0 million from a year earlier. Holdings of Type 54 were slightly above those of last year, but each of the other binder types were down from October 1 a year ago. Connecticut Valley Broadleaf stocks this October 1 were 20.2 million pounds, Connecticut Valley Havana Seed 15.3 million, Southern Wisconsin 20.9 million, and Northern Wisconsin 25.3 million. Disappearance of the cigar-binder types totaled 30.1 million pounds during the 1958-59 marketing year compared with 41.8 million in 1957-58. Exports were 3.6 million pounds (4.4 million last year), and domestic consumption dropped to 26.5 million (37.4 million in 1957-58).

Shade-grown cigar leaf stocks of 24.9 million pounds showed a 5 percent increase over those reported last October 1 (23.6 million). A considerable increase in stocks of Connecticut Shade more than offset lower holdings in the Georgia and Florida type. Holdings of Type 61 were 15.5 million and of Type 62, 9.4 million.

Stocks of Cuban leaf (Havana) reported at 29.0 million pounds showed an increase of more than 50 percent over those of a year earlier (18.8 million; and holdings of Philippine Islands (Manila) stocks at 9.3 million pounds were about a million higher than a year earlier (8.4 million). Stocks of Sumatra and Java leaf amounted to less than 0.1 million pounds.

TABLE 1.-Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

SOUTHERN TYPES (11-37)

Type	Yield realized from farm-sales-weight to --			Stemming			Factors used to multiply by to convert reported stocks of		
	Packed in domestic order			Yield from actual weight at time of operation			Stemmed stocks to unstemmed equivalent		
	Percent	One year in storage	Two years in storage	Percent	Percent	Percent	Factor	Factor	Factor
Flue-cured	90.0	89.1	88.7	78.0	69.0	1.282	1.12		
Virginia fire-cured	81.0	80.0	80.0	77.0	62.0	1.299	1.24

MISCELLANEOUS DOMESTIC AND FOREIGN GROWN TYPES (72-90)

Miscellaneous Domestic	--	--	--	--	--	1.333	1.09		
Foreign-grown cigar leaf	--	--	--	--	--	1.205	4/		
Foreign-grown cigarette and smoking tobacco	--	--	--	--	--	1.205	4/		

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, October 1, 1959, compared with other quarters 1/ 2/

FARM-SALES WEIGHT

Total All Types	11-90	4,582,563	4,707,511	4,917,602	4,449,163*	4,841,258	4,977,435

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for October 1, 1959 are as follows: Type 41, 107; Types 42-44, 112; Type 51, 106; Type 52, 106; Type 54, 104; Type 55, 105; Type 61, 109; Type 62, 109. October 1, 1959 figures subject to revision.

3/ For explanation of stocks included in this classification, see footnote 5 on page 15.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

* Revisions in July 1, 1959 report.

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.

2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in July 1, 1959 report.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

^{2/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

^{3/} This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

^{4/} Includes stocks on the Island of Puerto Rico.

^{5/} For explanation of stocks included in this classification see footnote 5 on page 15.

^{6/} Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types October 1, 1959 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1958, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 15.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in July 1, 1959 report.
