## HERE NEEDS OF CANADA DEMAND CABINET ACTS

### Premier Speaks at Macleod and Lethbridge—Southern Alberta for Free Trade—American Settlers Present Address.

(Special to the Times.)  
Lethbridge, Sept. 1.—Sir Wilfrid Laurier arrived in southern Alberta yesterday morning for the opening of his tour of the province. His train lay over at Macleod last night. The Premier early to view the Crow's Nest mountain, and subsequently the stretch of boiler-covered country at Frank's nest. The Premier's industry, represented by a series of addresses in the mountains, was also felt.

Premier parties with Hon. Wm. Leman, Ralph Smith, M. P., and Mr. Bostock, who accompanied him on his tour. The Premier was joined by Hon. Frank Oliver, Premier of the province, and other members of the Alberta cabinet, on his travel with him through this section.

The Premier's schedule has been changed, and instead of proceeding to Calgary and Edmonton and travelling thence to Winnipeg over the Grand Trunk Pacific, his train will run to the Canadian Pacific from Medicine Hat to Winnipeg. It is possible that Hon. G. G. Graham will inspect the northern portion of the transcontinental route to Pasquia.

Macleod gave the Premier a cordial welcome. A procession with bands and decorated streets led to the city hall, where addresses were delivered from a platform to a gathering of three thousand. The civic address was made for a new and grander chapter in the history of the Indian settlement.

Repeating Sir Wilfrid Laurier, congratulated the Premier on his steps toward a new and grander chapter in the history of the Indian settlement. The Premier had a very good mental and physical.

"I left Ottawa optimistic," he stated. He referred to the problems of immigration and transportation, and those that demanded the attention of the government and people. The question of immigration and population was every where.

"The west had grown so fast that the department is not able to keep pace," was his comment. The matter would be handled by the turn of the "bestmaster-general."

He looked into the future, but nothing will be done in the future with the rights of the aboriginal.

Hon. Frank Oliver, dealing with the Indian reserve question, announced that an agreement had been reached between the transfer of the Indian lands to the Indians. Part of the reserve of the Indians had been given to the Indians, and in course of time the Indians thought that the question could be satisfactorily settled. Macleod has reserves on the subject.

Mr. Oliver added that he knew Macleod when it was a buffalo country, and when it was a cow country, and now it is a city.

ACCIDENT TO MEMBER OF ROYAL SHOOTING PARTY  
Possible That it May Have Been the King Who Inadvertently Wounded Friend.

(Times Leased Wire.)  
London, Sept. 1.—Although not positively established, it is the general belief that King George V. shot himself yesterday while hunting near the Royal Castle, and resulted in a serious injury to Lord Kilmarnock, a member of the party. Every effort has been made to keep the details of the affair quiet, but the suppression itself is accepted as fixing the responsibility for the accident upon the King.

TORONTONIANS OFFENDED.  
London, Sept. 1.—It is believed that arrangements will be made by which the Queen's Own Rifles may march through the city of London. The desire is more widely expressed every day. Complaints are made because Colonel Bell has been compelled to take out a license for his auto while the ordnance department is charging for blank ammunition.

A PLEASANT MEMORY.  
Sheffield, Eng., Sept. 1.—At the meeting of the British Association for the Advancement of Science the retiring president, Sir William Thomson, paid a tribute of thanks to the Winnipeg people for their hospitality. The tributes were warmly appreciated. The tributes identify a pleasant memory to all who went to Canada.

knew it as the centre of the wheat country. There had been a change of interests as these successive changes took place, but they had been made with a minimum of friction.

Sir Wilfrid Laurier referred humorously to the demands made upon him during his tour. When he refused requests he was said to be stingy; when granted them he was termed extravagant. In cases where the needs of the people and of a growing Canada warranted he would take his chance of being accused of extravagance (cheer).

Premier Sifton spoke briefly, and at a later stage in the programme, E. M. Macdonald stated that the time would come when the provincial premier would be called to serve the Dominion at Ottawa.

Lethbridge is en fete. Immense gatherings greeted the arrival of the Premier, and with bands and mounted police escort, the Premier was escorted to a be-docked platform adjoining the depot, where the citizens' addresses were presented. Expressions of free trade sentiment and anxiety for reciprocal trade relations with the United States were renewed. Sir Wilfrid made appreciative reference to the presence of John Heron and C. A. McGrath, Conservative members, at the Macleod and Lethbridge receptions.

Five thousand people assembled in the civic square in the afternoon, where H. A. Driggs on behalf of United States settlers in southern Alberta, presented an address setting forth their satisfaction and loyalty towards the country of their adoption.

In the course of his address Sir Wilfrid alluded to the fact that in spite of a hostile tariff Alberta had secured a large market for her coal in Montana.

"This," said he, "is sufficient of an advantage to be secured by the improvement of commercial relations. I do not think they are now of a character to do honor to either country."

Canada had done her part, and it was now for the United States to take the initiative. We had always been ready and prepared to negotiate a new treaty on equitable terms with our neighbors, Canada would welcome action, but she was content to go on and thrive if the United States was not prepared to take action. The Premier ridiculed the argument of the opposition that such action would disclose the British preference.

That Canada would never ask Britain to change her present free trade policy, he extended to the American settlers a Canadian welcome, expressing appreciation of their address. They would find here another land of freedom, of peace, of justice, and of progress. The United States had been removed and Canada enjoyed the full status of a nation within the empire.

Short addresses were also delivered by Premier Sifton, Hon. Frank Oliver, E. M. Macdonald and F. F. Pardee.

MEASLES CARRY OFF INDIANS.  
(Special to the Times.)  
Quebec, Sept. 1.—There is a serious outbreak of measles among the Indians in the vicinity of Natashquan, where some twelve or thirteen deaths are reported. Thirty or forty whites were also afflicted, but have since recovered.

BURDEN ON TOILER IN "EXTRA HAZARDOUS"  
Roosevelt Declares Himself in Favor of Compensation of Employees.

(Times Leased Wire.)  
Kansas City, Kan., Sept. 1.—In a speech made today here, Col. Roosevelt took up the burden of the man employed where there is an unusual risk of life and limb. He said: "I am a strong believer in the liability of employer, as it may be more aptly put, a compensation of employees. I feel that every industry, a heavy one, is a dangerous one. It should be the duty of the employer to determine what should be done and what weight should fall on the shoulders of the man who bears it. The burden should be distributed over the whole industry, making the employer automatically bound, even for the loss of life."

"It is unfair to the railroad," he said. "It is unfair to the railroad, to make him pay all by being crippled for life. It is no question as to whether the employee's companions have been careless. The amount of compensation should be fixed by the government, because then the government would see that it is paid."

FANATICS IN DIFFICULTY.  
(Special to the Times.)  
Yarmouth, N. S., Sept. 1.—The Yarmouth people are in a state of difficulty and are at the entrance of the harbor, the ship will be a ship for some time. The fanatics remain on the island in a state of difficulty. The fanatics remain on the island in a state of difficulty. The fanatics remain on the island in a state of difficulty.

## INTERCOLONIAL EXTENSION UP TORONTO AS WESTERN TERMINUS SUGGESTED

### Cabinet to Deal With the Matter When Ministers Return to Ottawa.

(Special to the Times.)  
Ottawa, Ont., Sept. 1.—When regular sittings of the cabinet are resumed, the subject which will have to be taken up is the extension of the intercolonial railway to Toronto.

The agitation has reached such proportions and such influence is moving in the matter that it is stated in government circles it will go beyond the stage of "careful consideration" is another matter.

To build the line to Toronto will involve, according to reliable and semi-official estimates, an expenditure of \$20,000,000. There would be no great construction difficulties in the way.

The board of management views favorably the extension idea, though they hesitate to be quoted about it at all to the public and operate the line, while it is for the government alone to determine matters of policy such as this.

AN ASYLUM SCANDAL.  
Quebec, Sept. 1.—Witnesses in the trial of two former guards at Beauport asylum testified that in the case of Bain, the inmate who died from injuries inflicted by guards, it is alleged, he had seven broken ribs, some in three places, and one rib had penetrated a lung.

REGRETS MAY BE TOO LATE IN HER CASE  
Vera Fitch Sees Mistake of Attempting Suicide Because of Literary Failure.

(Times Leased Wire.)  
New York, Sept. 1.—When you are loved it is beautiful to live. I realize I have made a terrible mistake. This Vera Fitch, who attempted to take her life Tuesday at the Hotel Astor, expressed her opinion of her mother, Mrs. Henry Fitch.

THAT MISS FITCH'S despairing fight for literary success has gained her a relief was shown to-day when her relatives learned that a man, unknown to them, had put her in the hospital. She had not yet recovered from the effects of the shock.

## HUGE BUILDING ENTERPRISE

The Times learns to-day an excellent authority that another huge building enterprise for Victoria is afoot, and that within a very short time a start will be made on the erection of a structure of large dimensions and imposing character.

The site of the structure is to be the corner of Fort and Government streets, where the Five Sisters block now stands, and its frontage on Fort street will extend much further than the Five Sisters building.

Negotiations in preparation for the building enterprise have been in progress for some time past, and an authoritative announcement respecting the details of the same may be anticipated in the course of the next few days.

## TRIED TO WRECK NEW BUILDING

### MIDNIGHT EXPLOSION ALARMS ALL SEATTLE

Six-Storey Lyons Block Shaken by Heavy Charge of Nitro-Glycerine.

(Times Leased Wire.)  
Seattle, Wash., Sept. 1.—The police are to-day making a rigid investigation into the mystery that envelops the attempt to blow up the Lyons office building, at Third avenue and James street, with dynamite at midnight.

As a result of the terrific explosion, which spread alarm throughout the city, hundreds of windows in stores and business offices were shattered, and the entire fire department of the city was called out on a general alarm.

A hurried investigation showed that the explosion was caused by nitro-glycerine thrown into the bottom of the elevator shaft of the Lyons building. The building was to be a six-storey structure with a 129-foot frontage on James street. It was valued at \$250,000. The police declared that the explosion was caused by disgruntled workmen.

SMALLPOX IN LISTOWEL.  
Listowel, Ont., Sept. 1.—Dr. Stevenson has died of smallpox, having contracted the disease from some lumberman on Lake Huron, whom he treated during his vacation.

## RAILWAY MEN VISIT VICTORIA

### GRAND TRUNK PARTY HERE LAST NIGHT

William Mackenzie Expected This Week to Make Final Arrangements for Railway.

Charles M. Hays, president of the Grand Trunk railway, and a distinguished party of officials and others, arrived last night on the steamer Prince Rupert, Capt. Robertson, from Prince Rupert and Stewart via Vancouver. Arriving at 8 o'clock they spent only a few hours in the city, and left for Seattle at midnight.

William Mackenzie, president of the Canadian Northern railway, is also expected this week, and on Monday next will interview the provincial government in connection with the Vancouver Island extension of their railway.

It is understood that some changes in the original plans have been made, and these will all be taken up and discussed in all probability some announcement in regard to the long-delayed commencement of the work will also be made next week.

## SHEPHERD'S BATTLE WITH BROWN BEARS

### While Protecting Sheep From Their Ravages He is Frightfully Injured

(Times Leased Wire.)  
Chelan, Wash., Sept. 1.—After being brought overland on horseback for 35 miles, Amiel Pellegrin, a young French shepherd, is receiving treatment here after a terrible battle for life with four ferocious brown bears.

The animals attacked a flock of sheep on Pellegrin's range, and when he shepherd attempted to frighten them away they attacked him. The sheep stampeded and six hundred of them were over a high cliff. Three hundred were killed. Pellegrin was frightfully torn and nearly died. He was two and one-half days without medical aid until discovered and brought here.

GROVER CLEVELAND'S ESTATE.  
New York, Sept. 1.—According to estimates of the state tax appraiser, the New York estate of the late Grover Cleveland was \$2,000,000. The net value of the estate was \$1,000,000.

## FIGURES TELL CITY'S GROWTH

### RECORD FOR AUGUST A GRATIFYING ONE

#### Bank Clearings and Building Permits Much in Excess of Last Year's Showing

Notwithstanding the fact that August is usually the one month of the year when there is a falling off in business activity, the record for the month just closed, as shown by official figures, is most gratifying. Particularly is this the case in respect to the bank clearings, which demonstrate most eloquently that the volume of business transacted in Victoria each month has not only assumed large proportions, but is ever on the increase.

Compared with the amount of business handled by the banks in August last year, this month shows the remarkable increase of \$1,157,679. August, 1910, is over \$4,000,000 better than August, 1909, and a correspondingly good showing is made if the record as far back as 1906 is examined.

The official statement of the total bank clearings for the past five years, as reported by the Victoria clearing house, is as follows:

Year	1910	1909	1908	1907	1906
August	\$1,157,679	\$4,718,680	\$4,259,231	\$5,026,571	\$2,791,456

During August a total of 66 building permits was issued, compared with 44 for the same month a year ago, and the number issued since the first of the year was 518, as compared with 409 for the same period a year ago.

The monthly returns for the year as compared with the same months a year ago were as follows:

Month	1910	1909
January	\$128,955	\$78,080
February	151,760	122,639
March	244,750	121,942
April	182,440	188,809
May	227,000	90,121
June	257,290	189,629
July	222,390	372,120
August	212,814	141,040
Total (8 mos.)	\$1,657,929	\$1,302,963

EXPORTS BUREAU'S WORK.  
New Branch of Trade and Commerce Department is Successful.

Ottawa, Sept. 1.—The Canadian bureau of exports, recently established by the department of trade and commerce, has proved to be a success. Already over five thousand firms engaged in manufacturing over 50,000 different commodities have inscribed their names. The bureau is greatly facilitating enquiries from foreign importers of Canadian products, and is contributing considerably to the trade developments of the Dominion.

## STRUCK GAS WELL

Estimated Flow of Three Million Feet An Hour.  
(Special to the Times.)  
Toronto, Sept. 1.—A tremendous gas well was struck near Port Burwell yesterday by the Dominion Gas Co. of Hamilton, which has been drilling in the neighborhood all summer. The well is thirteen hundred feet deep, and the estimated flow from a six-inch hole is three million feet of gas per hour.

## ORGANIZING RELIEF FOR FIRE SUFFERERS

Portland Chamber of Commerce Begins an Active Campaign This Morning.  
(Times Leased Wire.)  
Portland, Ore., Sept. 1.—The Portland Chamber of Commerce to-day inaugurated an active campaign to raise \$5,000 for the relief of the forest fire sufferers of the Northwest, especially those who lost by fire within a hundred-mile radius of Portland. This would include those who were burned out in southern Washington and in the Mount Hood district.

Coincident with the chamber of commerce campaign, Miss Valentine Pritchard, of the People's Institute, is actively engaged in procuring contributions of clothing and provisions for victims of the late conflagrations. According to Miss Pritchard, 30 children in southern Washington alone are in imperative need of clothing. Fully 60 families are penniless north of Vancouver, Wash., alone.

President Knapp of the chamber of commerce, said that he would appoint a committee to-day to canvass the Portland business houses for contributions to the relief fund.

SWORDS WITHOUT USE.  
Award Order Issued to Ex-Prisoner of Germany.  
Berlin, Sept. 1.—Another instance of the German's national passion, its comprehensive to foreigners, for assuming military accoutrements on the smallest occasion, occurs in a royal decree published today. The edict confers upon a 47-year-old man the right of wearing an officer's sash with a gold sword-belt, provided that during his military service he reached the rank of a sword-bearing non-commissioned officer. Though the officers of the corps being awarded military honors, already carry side-arms, the ordinary man must now be added to the ranks of sword-bearers.

GROPING IN FOG OFF PACHENA POINT

Japanese Liner Inbound Has Difficulty in Finding Entrance to Straits

Japanese liner Kamakura Maru, which was reported from Tatsush this morning as passing into the Straits, is still 80 miles from that point according to a wireless dispatch received this afternoon by the Dominion Wireless station at Pachena.

She is enveloped in thick fog and has been in practically the same position all day, looking for the entrance to the Straits.

GREAT INCREASE IN CUSTOMS RECEIPTS

Returns for Month Over Hundred Thousand Dollars in Excess of Last Year

Victoria's customs receipts for the month of August show a remarkable increase over the preceding month and a tremendous advance over the returns for the corresponding month of last year.

Duties collected during the month of August were \$1,128,716.66. Other Revenues \$149,811.00. Total \$1,278,527.66.

The largest increase is to be noticed in the Chinese returns, a large number of Orientals having passed through the city. The duties have also advanced considerably.

OWNER OF HORSE IS FINED FOR CRUELTY

Proprietor of Sooke Stage Drove Animal With Raw Shoulder Wounds to Victoria.

Eustice Arden, driver of the Sooke stage, was fined \$10 or five days' imprisonment in default of payment, on conviction in the police court this morning, of driving a horse in the stage from Sooke to Victoria on August 24th while the horse was suffering from wounds on the shoulder beneath the collar.

The prosecution was brought by J. J. Russell, inspector for the Society for the Prevention of Cruelty to Animals. He saw the horse on Government street on the date stated, with another, comprising a team drawing the Sooke mail. Beneath the collar was a sweat pad, and beneath the pad, he found a three-inch sore, bleeding and running matter. There was a smaller sore on the animal's shoulder, and both were raw wounds.

Dr. Richards, V. S., said on behalf of the defendant Arden, that the horse had, he saw it yesterday was fit for work, its shoulder had been treated, but despite this he held that on August 24th when the horse was suffering from the wounds, although he had not seen the animal on that occasion that it was just as capable of working without pain and suffering as a laborer who had blistered his hands.

The accused had the horse treated at Bray's stable after the inspector had spoken to him on Government street, and he had then taken the horse back to Sooke, where it remained unworked. Yesterday he brought it to the city and stabled it at Bray's stables for the benefit of the court. The horse has received treatment during the last week and the shoulder is now healing.

The magistrate said he could not agree with the veterinary surgeon that the horse was fit for work on the date

LARGE LOCAL REALTY DEALS

BLOCK OF SUBURBAN PROPERTY IS SOLD

Fifty Acres and 27 Lots South of Uplands Farm Gone to Calgary Man

Fifty acres and twenty-seven lots for a sum in the neighborhood of \$190,000 is one of the sales of suburban property just consummated. The property in question is situated in Oak Bay municipality, on the south side of the Uplands Farm. It is high and dry and overlooks the straits. The purchaser is a man from Calgary, and the seller is Robert Scott.

This deal is of great significance, in that it shows the attitude of the outside business man towards this city. It is understood that the property will be sub-divided and placed upon the market. Green & Burdick Bros., of this city, are said to have negotiated the sale.

The part of the Dean Farm, on which an option was recently taken by clients of the firm of Green & Burdick Bros., has been now definitely closed. The purchaser of this is a Winnipeg man, and this plot of 74 acres will be sub-divided and placed upon the market. The price given was \$1,850 an acre.

ALD. HUMBER WILL PRESS FOR ENQUIRY

Wants to Know Who is Responsible for Delays at the Creosoting Plant

Ald. Humber at to-morrow evening's meeting of the streets committee of the city council will press for a full enquiry into the causes of the vexatious delays which have occurred in the matter of effecting alterations and repairs to the creosoting plant at the foot of Telegraph street. The plant has been out of commission for a very long period, and it is charged by Ald. Humber and other members of the board that this is due entirely to incompetence on the part of those in charge of the work.

Ald. Humber resents a disposition on the part of the mayor to place the responsibility for the delays in completing the repairs on the city engineer, alleging that the fault is due almost entirely to the fact that a nominee of his worship was entrusted with the execution of a task, the nature of which he did not understand. The matter will now be ventilated, as it is proposed to ask the city engineer to submit a report to the committee in writing of what has occurred at the plant since he assumed his duties.

GLENN CURTISS ON HIS RETURN TRIP

(Times Leased Wire.)

Cedar Point, O., Sept. 1.—Glenn Curtiss announced to-day that he would attempt a return flight to Cleveland at 3 o'clock this afternoon unless high winds interfered with the plans. Curtiss will endeavor to break his own record of sixty miles over water in one hour and 18 minutes, made in his flight from Cleveland here yesterday.

DRAFT OF PLAYERS IN MAJOR LEAGUES

(Times Leased Wire.)

Cincinnati, Sept. 1.—Oscar Vitt of the San Francisco club, was claimed by draft to-day along with Waring of Los Angeles and Maggart of Oakland, all of the Pacific Coast league. Drafting was particularly heavy, more than \$125,000 being deposited with Secretary Bruce to cover claims.

NEW ALLAN LINE OFFICES

Company's Plans for Future—Finance Minister Sails for Home.

London, Sept. 1.—A very large number of people visited the sumptuous new offices of the Allan line, opened to-day in Cockspur street. At a luncheon given by the company Hugh Allan, president, and stated in the course of an interesting speech that designs for new steamers were being prepared and the directors hoped to call for tenders shortly. The steamers they proposed to build would be larger and faster than any at present plying between the Mother Country and Canada.

J. Obed Smith responded to the toast of emigration.

Her. W. Fielding sailed to-day by the Royal Edward. He said in an interview that the report of the West Indies commission was now in the first stages of printing. Summaries of its report had appeared in various newspapers, but these were unauthorized

WINNIPEG LARGEST WHEAT MARKET NOW

Easily Leads Minneapolis, Which Long Held the Proud Position

(Special to the Times.) Winnipeg, Sept. 1.—Figures of grain receipts at Winnipeg show this city is now the largest wheat market on the American continent, displacing Minneapolis, which has held the leadership for a long time.

For the crop year ending last night receipts were 88,269,530 bushels. The figures for the same period at Minneapolis are not available, but for the calendar year ending Dec. 31 last receipts there were \$1,111,410 bushels. During the past few months there has been a falling-off in receipts at Minneapolis, while deliveries at Winnipeg have continued to increase. Buffalo and Duluth still rank high in the list, but mid-tim grain centres like Chicago, Kansas City, and Milwaukee are dropping down.

In oak Winnipeg is easily the largest market outside of Chicago. Receipts were 20,829,900 bushels. New York came next with 23,717,562.

FIRST SHOOTING FATALITY

(Special to the Times.) Winnipeg, Sept. 1.—The first tragedy of the duck-shooting season, which opened in Manitoba to-day, is reported from Balduf, Man., when Allen Johnson, son of J. L. Johnson, aged 21, was fatally shot by a gun in the hands of a younger brother, the charge entering his stomach. The gun was supposed to be unloaded.

GOVERNMENT WILL LOSE

(Special to the Times.) Quebec, Sept. 1.—Upwards of 150,000 cords of pulpwood will be cut in Antioch by an American firm next winter, an agreement with Mr. Meulier, and, coming from private lands, will not be subject to the government export duty.

owing to the fact that most of the local yachtmen have decided to cruise during the extended holiday from Saturday till Tuesday the yacht race and club smoker arranged for the former day have been postponed for one week.

## HILL'S LINE CUTS INTO HARRIMAN'S ESTATE

Surveyors Stake Out a Route Across Grounds of Dead Financier's Late Home

(Times Leased Wire.)

Portland, Ore., Sept. 1.—The invasion of Harriman territory by Hill has never been brought more forcibly to the attention of the public than when, now, soon after the death of the great railroad financier, J. J. Hill, his greatest business rival, is having his surveyors stake out a line for tracks directly through the Pelican lodge estate of the dead magnate on Pelican Lake Bay, Oregon.

This comment was made to-day by C. E. Runyon, who has returned from Pelican Lodge with the news that on the day he visited the country home of the late E. H. Harriman the Hill surveyors were at work within the precincts of the estate. They surveyed a line directly through the estate, cutting it in half. The line is in addition to that of the Pacific and Eastern, running east from Medford, Ore., to connect with the Oregon Trunk line down the Des Chutes Canyon.

"I talked with the surveyors," said Mr. Runyon, "and they told me the cut through the estate could not be avoided. It was the only practicable route, they said, and if necessary the road would condemn the property. The line runs between the lodge proper and Pelican Bay, on the edge of which is the house."

## ARGUMENTS PROCEED IN LORIMER CASE

Acrimony Expected in the Final Stages of Famous Chicago Bribery Charge

Chicago, Sept. 1.—The defence in the trial of Lee O'Neill Browne rested its case yesterday. The state introduced minor rebuttal testimony during the afternoon. It is expected that the argument will begin to-day and that the case will be in the hands of the jury before the end of the week.

The arguments are expected to be acrimonious. Throughout the trial testimony has been offered to impeach not only witnesses but the attorneys themselves. Although this testimony has been barred, it has caused bitter feeling which, coupled with open charges by the court and the prosecutor and admissions by witnesses that attempts were made to reach the jury, is expected to make the speeches of the attorneys unusually heated.

This is the second trial of Browne for legislative bribery in connection with the election of William Lorimer to the United States Senate. The first trial resulted in a disagreement after the jury had broken the record for consideration of a case, being out 111 hours. The first trial was heard by Judge McSurely, the second before Judge Kerston. It is expected that the charge to the jury will be of unusual interest, many points having been raised by counsel which will have to be treated by the court.

The trial, it has been announced by States Attorney Wayman, will be followed by a probe into the alleged attempts to reach members of the jury.

## CHARGES NEGLIGENCE ON TRAINMEN'S PART

Farmer Says They Looked on While Pullman Passengers Slowly Roasted

Detroit, Mich., Sept. 1.—Charges of neglect of duty on the part of employees of the Grand Trunk railway were contained in the testimony of Alex. McAfee, a farmer who was a witness of the wreck a few days ago in which twelve Pullman car passengers were killed. McAfee said that Engineer Spencer and one passenger attempted to extinguish the fire burning in a sleeper in which passengers were caught. He alleged that the other members of the crews did nothing. McAfee said he saw a woman burning to death and attempted to aid her. He told the trainmen of the fact and they declared that the object burning was not a human form.

One ton of mechanical or half a ton of chemical pulp is the average yield of a cord of wood.

Torpid, lazy liver causes biliousness and headache—two common complaints.

## Nyals

### STOMACH AND LIVER PILLS

wake up the liver—arouse it to action, speedily restoring good health. A purely vegetable remedy that has a beneficial effect on stomach and bowels, as well. Because it's NYALS we know what's in it. 25 cents a box.

## RAILWAYS WOULD PUT SHIPPERS ON DEFENCE

Latest Move Made in the Interstate Commerce Freight Rate Inquiry

Chicago, Sept. 1.—Coincident with the closing of the testimony for the Santa Fe system before the special examiners for the interstate commerce commission, and the statement from the road's statistician that the increase in freight rates asked would net the Santa Fe only \$4,000,000 increase yearly in earnings, there came a suggestion yesterday that the railroads, now on the defensive in the fight, change their tactics and seek to compel the shippers who oppose the advance in the freight rates to declare how much they profit on the different commodities under consideration.

A request from Attorney F. J. Norton, counsel for the Santa Fe, for the names of the different associations of shippers represented at the hearing that he might question the shippers gave color to this report.

When the initial presentation of the contention of the Santa Fe system was concluded, the hearing was transferred to the Rock Island road. The first witness at the afternoon session was W. A. Potett, chairman of the trans-Missouri freight bureau. He presented a compilation of rates in effect in the territory west of the Missouri river. The tables showed both the class and commodity rates and included the years 1900 to 1910.

Attorney John Atwood questioned Mr. Potett concerning the methods by which the rates were raised and asked for the names of the different representatives of the railroads who were present when the order changing the rates was decided on.

Mr. Atwood also asked if the railroad representatives on that occasion considered an injunction issued by the federal supreme court in 1907 prohibiting any agreement on rates to be charged by the trans-Missouri roads. Witnesses answered that the injunction was not discussed or considered. Examiner Brown declared that the question was immaterial, and had nothing to do with the case.

## CHAMPAGNE VINTAGE DISASTROUS FAILURE

Four Bad Seasons—Reserve Stock Not More Than Three Years

Paris, Sept. 1.—The cold, wet weather, which has spoiled the wine harvest generally, was especially disastrous in the champagne district. For the fourth year in succession the champagne harvest has failed to cover the growers' expenses. The 1907 crop was exceedingly indifferent and in 1908 and 1909 it was insignificant.

The normal yield for the 135,000 hectares (about 330,000 acres) constituting the champagne district, as delimited in 1908, is 300,000 hectolitres (about 7,350,000 gallons). It will not reach 50,000 hectolitres (about 1,300,000 gallons) this year. The average yield ought to be over 20 hectolitres, or 53 gallons, a hectolitre. Five hundred hectares which have been most favored will yield six hectolitres.

The Henry district reaps 20 hectolitres for its 125 hectares. The Ay district averages one hectolitre a hectare. The Epernay district yields less than two hectolitres a hectare.

The Reims chamber of commerce's statistics show there is sufficient stock in the cellars to cover five years complete failure of the harvest, but dealers say this includes all vintages, some of which are unsuitable for making champagne. They place the stock at three years' supply.

The growers are facing a desperate situation. It is estimated that 40,000,000 francs, or about \$8,000,000, is needed to set the district in shape to continue champagne production properly. The growers are appealing to the government to provide them with the means to borrow this money on easy terms.

## OFFENDS OLD SOLDIERS

Vice-President Sherman Refuses to Address Military Veterans.

Joplin, Mo., Sept. 1.—Vice-President James F. Sherman, who is on his way to Oklahoma on a speaking tour under the auspices of the Republican congressional committee, is due to receive a letter when he opens a letter sent from here containing resolutions adopted by the Baxter Springs G. A. R. Reunion Association. Sherman was to speak before the veterans. The date was cancelled.

The soldiers' committee went to the vice-president and were told that the matter was in the hands of the congressional committee. The G. A. R. representatives wired the committee headquarters in Chicago and received a reply saying that the matter would be left entirely to Sherman's personal wishes. Sherman refused to speak. Then the G. A. R. Reunion Association held a meeting and adopted a resolution saying Sherman's action was "not only cavalier and unpatriotic toward the old soldiers of this vicinity and the entire country, but a deliberate insult directed at this organization."

## ENFORCE IMMIGRATION TEST.

Washington, Sept. 1.—Immigration stations of the south and southwest, where the department of commerce and labor has observed a lack of uniformity in enforcing the laws, are soon to be visited by officials of the immigration service. The idea is to see that practically uniform set of tests will be applied to immigrants at all points of entry.

## WORLD'S WHEAT SUPPLY.

Chicago, Sept. 1.—The world's available total wheat supply was computed as being 31,000,000 bushels greater at present than was the case twelve months previous.

## GETS LIFE IMPRISONMENT.

Tacoma, Sept. 1.—Fred Preston, known to the police of many cities as the Daylight Burglar, was sentenced to life imprisonment yesterday afternoon.

## FIRE IN STOCKTON.

Stockton, Cal., Sept. 1.—A business and residence block bounded by Lafayette, San Joaquin, Sonoma and Hunter streets was swept by fire Tuesday, with the loss aggregating about \$100,000.

## THE RESPONSIBILITY FOR TIRES.

There is no red tape about the Dunlop Company, it makes itself directly responsible for all Dunlop Automobile Tires, and invites direct communication with its customers on the score of tire satisfaction. That is one of the reasons why Dunlop Automobile Tires give a low average cost per mile. The other reason is quality.

## KILLED HIS EMPLOYEE.

Wibaux, Mont., Sept. 1.—Frank Nelson, an employee of a livery stable, was shot and instantly killed yesterday by Max M. Leakey, who is under arrest. Nelson was stabbing Leakey's horse which he found in the street when Leakey shot him.

is the representative of Victoria or of Yale. If his government were supported by a narrow majority we could understand his motives in retaining two seats, but he has at least a good working majority in the House, and there is no excuse for his violation of the principles of the constitution except fear of displeasing some of his supporters who are out of the House and insist upon an opportunity to get into it.

Then there is another matter to which the Premier might give his attention now that he may be presumed to have some leisure. His government is incomplete. What we have said in regard to the necessity of providing the number of members of the legislature required by the constitution may be repeated with emphasis in respect of the constitutional requirements governing the cabinet or executive. There is provision for a given number of ministers. There has been no Minister of Finance since the lamented death of the late Captain Tatlow. It is true Hon. W. J. Bowser is the titular head of the financial department, but every one knows the Attorney-General is merely Finance Minister in a Pickwickian sense. No one takes him seriously as Attorney-General, a position for which his training may be presumed to have given him some qualifications. But as Finance Minister he is a joke—and a joke should not be permitted to hold a position for an indefinite period simply because the leader of the government is embarrassed by the wealth of material thrust upon him for the portfolio. The interests of the province should not be permitted to suffer because Mr. McBride hopes that Death—sometimes the clever political manipulator's dearest friend—or some other agency may intervene and relieve him of his embarrassments. Therefore, as the constitution requires that the executive shall be composed of a given number of members, and as the Premier has had ample opportunity to comply with the provisions of the constitution, it is high time that some one should authoritatively call his attention to some of the acts of omission of which he has been guilty.

AN ANNOUNCEMENT EXPECTED.

We are pleased to see that the Colonist still manifests some interest in matters pertaining to the welfare of Victoria. Still we do not think it is of great importance whether the people of Vancouver, doubtless with malice aforethought, describe the Charmer or the Charlotte to travellers as the "Victoria boat." Such things ought to be too petty to be discussed in the columns of a newspaper of the pretensions of the Colonist. We can, however, tell our contemporary of one or two matters that are really worthy of its most serious consideration. One or two great railway magnates will presently discuss with the Premier their plans for railway extension within this province. Some six months ago members of the provincial government, of whom the Hon. Richard McBride is chief, stated that active work upon the Vancouver Island section of the Canadian Northern Railway would commence within ninety days of the ratification of the contract by the legislature. The stipulated period has long since passed. Will the Colonist, which knows all about the doings and the intentions of the corporations and the government, kindly inform us whether active construction work upon the island section of the Canadian Northern Railway has begun or will soon begin? It has already told us that construction is being prosecuted upon the mainland section and has expatiated at length on the great benefits the cities across the gulf are likely to experience therefrom. Now we are delighted to hear of the brilliant prospects of the neighboring cities, because we realize that their prosperity will react upon our business circumstances. But we are directly concerned in our own affairs, and it might prove reassuring if the Colonist, speaking as usual in the name of the Premier, who is our representative, would tell us something definite about the prospects for the commencement of the work of construction upon the Canadian Northern Railway on Vancouver Island. An assurance that the work of the surveyors is proceeding with all diligence and that the plans of the company contemplate a great deal more than is nominated in the bond will hardly be satisfactory. The people expect something more tangible than words at this stage.

SOMETHING MR. MCBRIDE SHOULD KNOW.

Now that Hon. Richard McBride has performed his part, with grace and courtesy, in welcoming Sir Wilfrid Laurier to the province of British Columbia and has completed another "semi-political" tour of a part of the province, there is a domestic matter of some importance to which we believe his attention ought to be directed. Mr. McBride represents two constituencies in the Legislature. He sits in one of the seats reserved for Victoria's quartette of representatives and he fills the place which ought to be occupied by a member for Yale. We do not suggest that either of the constituencies suffers severely because of the dual position of the Premier, but at the same time there must be a purpose in providing that constitutionally the legislature shall be composed of a given number of members and that the membership shall be apportioned to the province in a certain ratio. There is a principle at stake which cannot be violated without harmful results in some respects, surely. If the Premier is capable of discharging the duties of two members, as he did throughout the last session of the House, and as he appears to be inclined to do during the coming session, what is to prevent other members from doing the same thing and the legislature being reduced to twenty-one members where there are now forty-two? If twenty-one representatives can attend to the legislative business of the province, why incur the heavy expense of electing and paying salaries to forty-two? The Prime Minister of Canada, as all who follow the public affairs of the country will remember, was at one time elected to represent both Ottawa and Quebec East in the Dominion Parliament. Sir Wilfrid did not relinquish one of his seats as quickly as the opposition thought would have been right and seemly, and he was assailed quite fiercely by the leaders of that party for his alleged dilatoriness. In the Prime Minister's case there was an excuse. The machinery of Parliament did not provide for a specific course of action under such circumstances. But on the initiative of Sir Wilfrid all obstacles to immediate action have been removed. Now a member chosen by two constituencies must relinquish one of his seats within a reasonable time, probably not more than two months, after the date of his election. Mr. McBride may not be violating the letter of the constitution in spreading himself over two seats, but he is unquestionably contravening its spirit. He ought to immediately elect whether he

BRIGHTER DAYS FOR IRELAND.

A brighter day is dawning for Ireland, that dear, distressful, swate lade of the sea, and her no less attractive, and sometimes also considered distressful, people. It appears the tide has turned for this lately unhappy land. Her population is increasing. Although the gain is not such as would be received with a shout of exultation by the population of an American or a Canadian city with a rival not far distant, yet it proves that the lowest point has been touched, and it gives substantial ground for hope that henceforth a steady increase will be recorded in the numerical tables. Sixty-five years ago the population of Ireland

reached its highest point. In the year 1845, as every one interested in the history of the country knows, a terrible famine visited the land, due to the failure of the potato crop. As the facilities for communication and transportation were then not to be compared with what they are to-day and the means of production were limited compared with the population to be fed, the people suffered terribly. Death spent a busy and prolonged season. Then the eyes of the population were turned to America. In the year following the act of union, 1801, Ireland's population was 5,218,000, while that of England and Wales was only 8,893,000. Until the year of the famine Ireland continued to increase in population, but failed to increase in prosperity at the rate of the other divisions of the United Kingdom. In 1841, the year of the last decennial census of Great Britain before the Irish famine, the populations of the three countries were as follows: England and Wales, 16,088,000; Scotland, 2,620,000; Ireland, 8,195,000. It is believed that in 1845, when the Irish famine began, the population of Ireland was considerably above nine millions. The famine made awful ravages, but the loss of life was less than the loss of population through emigration. The famine ceased, but the emigration continued, and Ireland became, as Macaulay expressed it, "the withered arm of the Empire." In 1851 the population was 6,552,000; in 1861, 5,800,000; in 1871, 5,387,000; in 1881, 5,150,000, or less than at the beginning of the century. In 1901 it had shrunk to 4,458,755. Meanwhile the population of Scotland had risen to 4,472,103, and that of England and Wales to 32,537,843.

The soil of Ireland is fruitful. There is no reason in the world why it should not support a population much larger than lived within the boundaries of the country up to the year of the great famine. Liberal land laws have been enacted, which will enable the peasantry in the course of a short time, with patience and industry, to become the proprietors of the soil they cultivate. The incubus of absentee landlordism is gradually being removed. The people have not been slow in testifying in the most effective way their appreciation of what the government has done for them. One of their leaders, states that the idea of separation from Great Britain has been dispelled. Contentment and prosperity have succeeded gloom and discontent. The accumulated misunderstandings of a century are passing away. It is a long time since a more cheering message was flashed across the sea.

King George is reported to have inadvertently peppered a shooting companion with bird-shot during a shooting expedition. Accidents of that kind will occur. But no one need be surprised if some one of inferior rank to a lord should be shot during the coming hunting season as a result of Mr. Bowser's stupid interference with the game laws. With hundreds of hunters, many of them short of years of maturity and discretion, concentrated within a very limited area, he will be a wise sportsman who either goes as far away beyond the zone of fire as possible, or stays at home until the ardor of the army has somewhat abated.

The business men of Canada evidently do not anticipate that the prevailing good times will pass away. The customs revenue continues to increase.

What Other People Think

LABOR ON LABOR DAY.

To the Editor:—The laborer is given an enforced holiday that may be he does not require, as it reduces his much needed wage next pay day.

On Labor Day the city without the pay due, and to suit their own convenience, or idleness, leave it until after the holiday, which is detrimental to storekeepers and the city generally, as the worker is without the cash on the day most required. We have an Old Book in our midst—presumably not in the city hall—unless used for kissing purposes on the outside—which says "The laborer is worthy of his hire," and "Thou shalt not muzzle the ox that treadeth out the corn," etc., and many similar sayings. Now, seeing the staff get their salaries on the day due, and sometimes before, and also have their holidays paid for, don't you think they might practice some sort of honesty towards their inferiors (?) and make the larger part of the world somewhat the happier?

A WOULD BE CHRISTIAN.

TEMPERANCE AND WATER SUPPLY.

To the Editor:—Most people who discuss the water question seem to miss the main point. The Elk lake fluid may be healthy, although hundreds of people in the city, including the writer, think otherwise, but, even if it is healthy, it is beastly stuff to drink. Like a good many others, I have no taste for beer or alcoholic beverages of any kind. The water is not fit for a self-respecting pig to drink, and so I am thrown back on weak tea or "pop." Where are our temperance folk that they do not try to provide a substitute for the drinks they condemn? I understand that many of them oppose buying Goldstream water, and would have us wait until they bring us some from Sooke lake, by which time most of us will have developed into incorrigible drunks. What do you think, Mr. Editor?

ENTHUSED OVER MILL BAY ROAD

WORK ON HIGHWAY IS PROGRESSING FAST

A. E. Todd and Ernest McGaffey Make Inspection Trip and Are Highly Pleased

After going over eight miles of completed highway on the new Mill Bay road in company with A. E. Todd yesterday, Ernest McGaffey, secretary of the Vancouver Island Development League, is full of admiration of the manner in which the work on the ten-mile section from 19-Mile post is being carried out.

Describing his trip with Mr. Todd to the Times, he said: "We went by train to 19-Mile post and then followed the completed road, walking most of the way, until we reached the end, which is over the Summit. I was struck by the solid character of the construction, most of the road being blasted out of rock and very little cribbing being used. The Summit section of ten miles is now almost completed; the only important piece of work remaining being a bridge over a gorge separating 19-Mile post from the Goldstream district. There are two camps with over 100 men in them, and construction is being carried forward as rapidly as possible. I learned from the foreman, Mr. Moore, that he expects to finish his part of the highway in a little over a month.

"The road is a splendid one. The specifications called for a roadway 18 feet wide, but this width has been exceeded, and most of the way it is between 21 and 22 feet. Seven substantial bridges have been built, and innumerable culverts and box drains provide excellent drainage, three times as much, I am told, as on the E. & N. railway.

"There is no doubt that the road will be one of the most beautiful scenic highways of the world. I have now seen some of the best scenery on this continent, but nothing to compare with what I witnessed yesterday. From every point of the road the vista was enchanting. Unlike the Rockies, where grandeur is the chief charm, the country through which the road passes is varied and combines all the landscape features which are usually designated as beautiful scenery.

"I think a note of warning should be sounded for Nimrod's hunting near 19-Mile post while the road is under construction, as Mr. Moore has enough dynamite stowed in the cabins to blow the whole mountain side away."

DEPUTY MINISTER VISITING THE CITY

W. J. Gerald, I. S. O. Here Awaiting Arrival of Hon. William Templeman

W. J. Gerald, I. S. O., Deputy Minister of Inland Revenue, the department presided over by Hon. Wm. Templeman, and Mrs. Gerald arrived in the city yesterday afternoon and are registered at the Empress. They left the federal capital about two weeks ago, and stayed a few days at Winnipeg en route on a visit to their daughter.

Mr. Gerald is one of the busiest deputy heads in the Government service, which accounts for the infrequency of his visits to the west. He was last here eighteen years ago and is much impressed with the striking development which has taken place since that time from Port William to the Pacific seaboard. Victoria's progress is not the least feature of the record, the transportation of the approach to the city occasioned by the parliament buildings, Empress hotel, embankment improvements and new docks being astonishing. Mr. and Mrs. Gerald to-day are the guests of Inspector J. E. Miller and Collector Jones in an automobile tour of the city.

Mr. Gerald is one of the oldest officials on the federal staff in point of service. One would scarcely realize, casually meeting him that his appointment antedated confederation. He seems to be in the prime of life, is an active and vigorous as many officials many years his junior and daily polishes off a tremendous quantity of work. Deputy Ministers are the chief executive officers of the various departments. They are the men who direct the organization and operation of the various services, subject to the approval of the ministers in charge. They are the chiefs of staff, the departmental advisers of their heads. Their responsibility and work obviously are exceedingly heavy and most of the deputy ministers in the federal service have harder grinds than railway presidents. The Inland Revenue department, of which Mr. Gerald is deputy head, is one of the big collecting branches of the Government service, and in that function is a sort of twin to the department of Customs. Not only does it collect excise duties, but it also administers laws relating to patent medicines, weights and measures, adulteration of food, exportation of electric power and inspection of gas and electricity. These varied duties involve the employment of a large technical staff, which is increasing in proportion to the development of the country.

The machinery of the Inland Revenue department got into good working order many years ago and it has been maintained in that condition right up to date. It is Mr. Gerald's duty to see that such an important arm of the service suffers no dislocation, and in the discharge of that duty he has spared neither his time nor his energy. He entered the Inland Revenue service in April, 1867, when a youth, and has passed through the various divisions of collector, chief inspector and assistant commissioner up to his present post.

Mr. and Mrs. Gerald will remain in the city for a few days, as the deputy minister desires to confer with Hon. Wm. Templeman upon departmental matters as soon as the latter returns from the interior.

We Have Just Completed Our Greatest August House-Furnishing Sale, Having More Than Doubled Last Year's Returns in All the House Furnishing Sections. You will get a good idea of our September values by visiting the store on Friday or noting Government and Broad street windows.

FINDS THE CARIBOO LAND OF PROMISE

Premier McBride and Party Enthusiastic Over Prospects of New Country

Returning last evening from a trip to Cariboo conducted partly for recreation and partly for political purposes, Premier McBride found the visit a most intensely interesting one. The party with him consisted of Hon. F. Carter-Cotton, Lord Dufferin, Harry E. Brittain, J. Norton Griffiths, M. P., C. H. Lugin and Lawrence Macfarlane, and they were joined at 150 Mile House by J. A. Fraser, M. P. T., who left them at Quesnel on their return.

A banquet was tendered the party at Fort George in the canvas hotel. An inspection of the townsite showed that nearly one hundred miles of fine streets are already cleared and graded and provision made for parks and other breathing spaces.

All the inhabitants of Fort George, several hundred in number, turned out to a public meeting held under the auspices of the Conservative Association, and all the visitors made speeches. Another meeting was held at Quesnel, followed by a smoking concert given for the entertainment of the distinguished party.

Premier McBride is enthusiastic over the possibilities of the new country which is being opened up by the Grand Trunk Pacific Railway and part of which will be traversed by the Canadian Northern Railway.

Government's Vienna Exhibit Stimulates European Sportsmen to Visit Province. In readiness for the hunting season many wealthy sportsmen from eastern cities of the United States and Canada are now coming into the province and it seems probable that these visitors will be numerically greater this fall than in any previous year.

At the Royal Jubilee hospital last evening the death occurred of Thomas Anderson, a longshoreman. Deceased was 50 years of age, and was a native of England.

John Watson, of Maple Bay, Cowichan district, passed away on Tuesday morning at the family residence. Deceased had been farming at Maple Bay for many years, and was a pioneer of this province.

The funeral of the late Victoria Price took place this afternoon at 2 o'clock from the family residence, 251 Pleasant street, and proceeded to St. John's Centennial Methodist church.

One of the old-timers of the Sooke district died yesterday at the family residence in the person of A. J. White. He was a native of England and came to this country many years ago.

The remains of the late Alfred Laing were laid to rest in Ross Bay cemetery yesterday afternoon. The funeral took place at 2:30 o'clock from the Centennial Methodist church.

The funeral of the late Alfred Laing was held yesterday afternoon at 2 o'clock from the family residence, 251 Pleasant street, and proceeded to St. John's Centennial Methodist church.

### TWO NATATORIAL TEAMS WILL SWIM SATURDAY

Y. M. C. A. and J. B. A. A. Quartettes to Meet in Relay Races at Gorge

One of the most spirited swimming contests held at the Gorge for many years will take place on Saturday afternoon at 2.30 o'clock in connection with the J. B. A. A. regatta. Arrangements have just been completed for a relay race between the Y. M. C. A. and J. B. A. A. teams, and it is a foregone conclusion that this event will be the most strenuous struggle ever witnessed in local waters.

It will be remembered that in the Vancouver Island championship meet the teams representing these two associations in the relay race were very evenly matched and that this event proved to be most thrilling and exciting. The Y. M. C. A. quartette were winners but the Bays intend to turn the tables on Saturday.

Both teams are to be strengthened and when lined up these aggregations will represent the strongest fours that could be obtained in this city. The Y. M. C. A. will replace Carne with Muir, a husky lad who is reputed to be able to travel over the 50-yard course in record time, while the Bays are contemplating adding Herbert Boggs to their team and dropping McKinnon. With the addition of these two swimmers both teams will be materially strengthened.

The quartette to uphold the colors of the Young Men's Christian Association

HUNGARIAN PARTRIDGES. Fine game birds imported by A. E. Todd and Dr. Todd of this city.

will consist of Crompton (captain), Pomfret, Muir and Kiddle, while the Bays will be represented by L. Godfrey, H. Godfrey, McCarter and H. Boggs. The Y. M. C. A. supporters pin their hopes on Crompton and the rowing club look upon L. Godfrey to bring them through in triumph.

The James Bay Athletic Association issued the challenge to the Y. M. C. A. team and will present a cup and four medals to the winners.

### BURNS WILL BOX EXHIBITION MATCH

Vancouver Club Puts on Smoker to Raise Funds for Sending Team After Mann Trophy

In the laudable endeavor to raise funds to send the champion Vancouver amateur lacrosse team east after the Mann cup, the Vancouver-Athletic Club will hold a smoker at the club house on Thursday evening that should prove the banner event of the kind of the season and will certainly help along the fund. Physical Director McIntyre has a great bunch of boxers and wrestlers in line and he will put on an all-star programme which will be headed by a four-round exhibition boxing contest between Tommy Burns, the former heavyweight champion of the British Empire, and himself.

This bout will be the first in which Tommy has ever appeared in the ring in the province since he won championship honors. Burns is matched with Sam Langford, the Boston star baby, for London in December for the guarantee of \$15,000 for his end, but

### LAST LACROSSE GAME OF THE 1910 SERIES

Victoria and Westminster Amateurs Will Struggle for Second Place in B. C. League

What will be the final lacrosse match that local fans will have the pleasure of seeing will be played on the Royal Athletic grounds on the afternoon of Labor Day, when the Victoria team will play its final game against the amateur team of New Westminster. Sharp at three o'clock, rain or shine, the rubber sphere will be played between the sides and the two dozen athletes will play to the finish to see which is the second best amateur stick wielding twelve in the province. Victoria's chances are bright, as the locals have been practicing hard during the past weeks and are said to be in good shape to put up a fast game in the final of the season.

The lacrosse match is practically the only attraction here on Labor Day, and as it is a public holiday, there is every reason to believe that the Royal park will be taxed to its capacity. That they will see a good game of lacrosse should be a foregone conclusion, as the locals are evenly matched with the webbed stick wielders from the banks of the Fraser. This season they have met twice. Victoria downed the Royals at Westminster, and the latter defeated the local team on Victoria grounds. Now they decide which is the best team when they meet at Royal park on Monday afternoon in the last exhibition of the Canadian national game to be played in Victoria this season.

### EIGHT CLUBS IN FIRST DIVISION

AMATEUR UNION WILL NOT GET RECOGNITION

Referees' Association to be Formed—Next Meeting of Soccer League Wednesday

The first soccer football organization meeting for the year took place last night, and the forecast offered by the Times as to the formation of the senior division was carried out exactly, there being eight senior entries received. These are: Forsters, Victoria West, North Ward, James Bay, Garrison, Esquimalt, Empress and Cedar Hill.

Owing to some of the teams in the second and junior divisions not being ready, the rules made at the final meeting last year that all entries should be in at the first organization meeting this year, was set aside for one week. The delegates from all clubs will meet next Wednesday night, and entries for the senior, intermediate, and junior divisions of the league must be posted then without fail.

North Ward and Victoria West delegates last night announced that their clubs would be represented in the senior, intermediate and junior divisions, and Oak Bay club sent a delegate to enter the club team in the second division.

The league took the step, at its first meeting last night, of sustaining the action of the football league taken last year in withdrawing all connection from the British Columbia Amateur Athletic Union. The league has decided to carry out the adopted plan of last year, again this season, and play the schedules under the rules of the English association, with which the B. C. football leagues are affiliated. They will not recognize any jurisdiction of, or dictation from, the B. C. Amateur Association. In this the Victoria league is in line with the soccer union of the mainland.

The football association will allow, if necessary, the playing of amateurs with or against professionals. The fact that the Esquimalt club, Samuel Duff, of the Esquimalt club, was considered, and it was decided that Duff will be allowed to play soccer football with the Esquimalt club whether he applies for amateur reinstatement or not.

J. G. Brown, president of the soccer league, occupied the chair and the meeting was conducted with a speed and ability that promises well for the control of affairs this winter. Vice-President Hanson was present and every athletic club in Victoria sent its delegates. The room at the Y. M. C. A.

### PROGRAMME OF THE REGATTA AT GORGE

REGATTA AND SPORTS AT SHAWNIGAN LAKE

Special Trains on Labor Day Will Take up Crowds for the Big Dance in Evening

The full programme for the J. B. A. A. regatta has been issued. The regatta takes place on Saturday at the Gorge and there are fourteen events carded, the majority of which are open to post entries.

The boat races include the contests for the Flumeret and the Mallandine cups. The complete list of events is as follows:

- 14.—Tilting Match: Start 5.45 p. m.—16 ft. Canoes—Post entries.

The Amalgamated Development company has got producing oil wells—no prospects. To buy stock in the Amalgamated company is therefore an investment, not a speculation.

### DECIDING TIRE VALUE

The general utility of any make of Automobile Tires is not decided by the appearance of a sample tire after it has gone one or two thousand miles—the average cost per mile per tire is arrived at by running a car on a particular set of tires, and then making the comparisons of the cost of the tire upkeep. Dunlop Tires give a low average cost per mile, for besides the quality that goes with them, the Dunlop Company is ever anxious to thoroughly satisfy the users of Dunlop Automobile Tires.

### WELL KNOWN HORSEMAN DEAD

Butte, Mont., Sept. 1.—C. R. Jones, well known in California as a horseman, was found dead yesterday afternoon. Death was due to paralysis.

# We Never Bought So Heavy for Our Fall Trade

As we did this season. When we decided on closing out this stock and opening up in Ladies' Ready-to-Wear goods we did not put in a cancellation on any order.

There is no need using up newspaper space describing the high quality goods. But when we say we are going out of this business, it is proof that everything must be sold regardless of cost.

## FINCH & FINCH 1107 Gov't St.

### MISS RICKABY WINS THREE TENNIS MATCHES

Two Victories in Singles, and One in Doubles, With Miss Bell, in Club Tournament

The best performance yesterday at the tournament of the Victoria tennis club was that of Miss Rickaby, who won two matches, beating Mrs. Crow Baker and also Miss Bell, both in two straight sets. Miss Rickaby played from scratch. Mrs. Baker won on the same match, and Miss Bell owed 15. Playing with Miss Bell in the doubles, Miss Rickaby won from Mrs. Crow Baker and Miss Ellis. The results were: Ladies' Singles.

Miss Rickaby, scr., beat Mrs. Crow Baker, scr., 7-5, 6-3. Mrs. Holland, plus 3-6, beat Mrs. Dewar, plus 30, 9-7, 6-3. Mrs. Fitzgibbon, plus 15, beat Miss G. Pitts, scr., 4-6, 6-2, 6-3. Miss Rickaby, scr., beat Miss Bell, owe 15, 7-5, 6-3.

Ladies' Doubles. Miss Bell and Miss Rickaby, scr., beat Mrs. Crow Baker and Miss Ellis, plus 15, 6-2, 6-2. Miss M. Pitts and Mrs. Ritchie, scr., beat Mrs. George and Miss Pitts, scr., 6-4, 4-6, 6-4. Mrs. Sampson and Mrs. Holland, plus 15, 3-6, beat Miss Peckley and Miss Peters, scr., 2-7, 7-5, 6-2.

Men's Doubles. Dr. Nelson and G. R. Talbot, owe 15, beat L. D. Dewar and P. Baines, owe 15, 7-5, 6-4. Hart and Lawson, plus 15, beat Pollok and Keefe, owe 15, 3-6, 7-5, 6-2. Steadman and Williams, plus 3-6, beat James and Winsby, scr., 6-3, 6-3. Men's Singles. Galliber, plus 2-6, beat Peters, plus 30, 6-4, 5-7, 6-1. Eberts, scr., beat Futcher, scr., 6-0, 6-2. Dewar, owe 3-6, beat C. Schwengers, owe 30, by default. Hopgood, plus 15, beat Curtis, plus 15, 7-5, 6-0.

### OFFER TO BUY LAND.

Montreal, Sept. 1.—A group of New York and Philadelphia capitalists have offered two million dollars for Nun's Island, at the foot of the Lachine rapids. The island is owned by the Sisters of the Congregation, and they are considering the offer. The island is required for the rearing of kids, whose skin is used in the manufacture of gloves. The island is large, and is one of the beauty spots in the vicinity of the city.

Scientists have discovered that the memory is stronger in summer than in winter. Among the worst foes of the memory are too much food, too much physical exercise, and, strangely enough, too much education.

### McLAUGHLIN BUICK AUTOMOBILES

Are made to withstand the every day use expected of an all round car. Day to day and month to month improvements are made without adding to the cost.

McLAUGHLIN BUICK AUTOS are the latest and best production of the manufacturers' art, particularly adapted for the roads of the West. Better come in and let us talk matters over.

### NANAIMO TO STAY AT HOME ON MONDAY

Coal Miners Cancel Football Game With Foresters—Dance Will Take Place

The soccer game between the Foresters and the Nanaimo team which was to take place Monday afternoon, has been cancelled owing to the inability of Nanaimo to get a team together to oppose to Victoria.

The Nanaimo club has written to the Foresters' secretary that because the Nanaimo people have sports planned for the Labor Day holiday in which there is to be a five-a-side football competition, all the footballers are going in for that and a team cannot be got together to come to the Capital. The Foresters, however, will hold the dance that was planned for Monday night for the entertainment of the Nanaimo team and their friends. The dance will take place at the A. O. U. W. hall in accordance with the arrangement made in the first instance. The secretary of the Foresters club, on finding that Nanaimo could not come down Monday, tried to get Lady-smith team here, but the Islanders are going to Nanaimo to take part in the five-a-side games there. The Foresters will practice Sunday and Monday mornings at Beacon Hill. It will be the first line out of the jobmen this year and those who want places on the team will have to seek them on the practice dates. All players new to the city and not affiliated with any club who want to take part in the season are requested by the officers of the club to attend the Foresters practice on the days named.

### HONORED AT THE OTTAWA RIFLE MEET

Cadet Sergeant Bell-Irving Chosen in Match for the Lord Roberts Trophy

Cadet Sergeant Bell-Irving, of the University school, had the honor of being chosen on the team to represent Canada in the rifle match for the Lord Roberts trophy at Ottawa last week. The team consisted of eight boys under 18 years of age, and fired seven shots at 200 and the same at 300 yards, the possible score being 70. The team aggregate of 486 was better than that of last year.

Cadet Lieut. Gihault (Quebec) ..... 59  
Cadet Sergt. Bell-Irving (Victoria) ..... 58  
Cadet Kerr (Hamilton) ..... 58  
Cadet Landrigan (Charlottetown) ..... 57  
Cadet Sergt. Leslie (Hamilton) ..... 53  
Cadet Lieut. Heakes (Toronto) ..... 51  
Cadet Corp. Heakes (Toronto) ..... 50  
Cadet Huggins (Hamilton) ..... 49  
Concurrently with this match another competition was held between ten Canadian cadets and ten visiting cadets from England. Of the above team Bell-Irving, Landrigan, Eagle and Heakes also shot for the second match, the same scores being counted in both. The other Canadian cadets were as follows: Cadet Capt. Devitt (Toronto) ..... 61  
Cadet Liddy (Dundas) ..... 61  
Cadet Holder (Ottawa) ..... 61  
Cadet Lieut. Mallette (Dundas) ..... 58  
Cadet Gould (Toronto) ..... 57  
Cadet Lieut. Hughes (Toronto) ..... 52  
The team total was 528. Against this the English team scored 506, winning a handsome cup presented by the Canadian Rifle League. Their score was as follows: Cadet Sergt. Mackworth-Praed (Eton) ..... 62  
Cadet Corp. Behr (Winchester) ..... 62  
Cadet Knight (King's Royal Rifles) ..... 62  
Cadet Back (Norfolk) ..... 61  
Cadet Pixley (Eton) ..... 60  
Cadet Thompson (Winchester) ..... 59  
Cadet Sergt. Burgess (Eton) ..... 58  
Cadet Osborne (Church Ladies' Brigade) ..... 55  
Cadet Sergt. Candier (Surrey) ..... 53

The cadets were entertained to a banquet given by Colonel Davidson, vice-president of the league, and were addressed by Colonel Sam Hughes and other officers. Captain McCalmont, of the Irish Guards, in charge of the English cadets, thanked the league for the welcome they had been given, and announced that the English boys would give a cup to be competed for by Canadian cadets at future meetings.

Victorians will be interested to hear that in the recent cadet matches held at the local range in June last, the team of the University school won first place in Canada, and every boy who competed on a handsome marksman's certificate, together with a bronze badge of the Canadian Rifle League.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 1.—5 a. m.—An important high pressure area covers both the North Pacific slope and the Canadian provinces. Rain has fallen on the Coast, and thunderstorms occurred at Spokane and Walla Walla. East of the Rockies rain has fallen in the southern districts and cloudy weather is general.

Forecast. For 36 hours ending 5 p. m. Friday, Victoria and vicinity—Southernly winds, chiefly cloudy and cool.

Lower Mainland—Light to moderate winds, cloudy and cool, with showers tonight or Friday.

Observations at 5 a. m. Victoria—Barometer, 30.14; temperature, 45; minimum, 46; wind, 4 miles N. W.; rain, .03; weather, clear.

New Westminster—Barometer, 30.14; temperature, 52; minimum, 48; wind, calm; rain, .16; weather, cloudy, fog.

Nanaimo—Barometer, 30.14; temperature, 54; minimum, 52; wind, 4 miles W.; rain, .12; weather, cloudy.

Barkerville—Barometer, 30.22; temperature, 36; minimum, 24; wind, calm; weather, part cloudy.

### RECREATION OF KING GEORGE

A man's amusements are often a surer test of his character than his occupations. His amusements are his own, whereas his occupations are either shared or imposed by other people. This is a test that may be applied even to a king, and especially to a king who rules not by divine right but by a constitution. His duties are an inalienable part of his inheritance. He cannot divest himself of them or delegate them to others. There are furrows that even a monarch must plough with his own hands, and they are neither light nor few.

Those who imagine that the Court Circular is a complete record of the King's duties can have no conception of his position. The Court Circular may speak of visits made and returned, or public and private ceremonies performed, and of speeches delivered, of deputations received and councils attended, of a host of duties that would make an ordinary man feel, with the village blacksmith, that he had earned his night's repose. But the Court Circular does not tell half the story of a day's work in the palace. Let any one who thinks so turn over the pages of Queen Victoria's life and glance for a moment at her correspondence. He will see there the true record of a monarch's day—the intricate and important problems to be solved, the letters to be written and dictated, the consultations to be held, the instructions to be given, the documents to be signed, the personal attention that must be given to multitudinous details, both private and public.

No man can perform these tasks who has not industry and the habit of self-control. The business of a sovereign in a country like ours cannot wait on an inclination to work. It is insistent and demands for its performance strength, resolution, industry, punctuality—in short, all the qualities of a sound body. And no man has these qualities at the age of forty who has not created and confirmed them by his habits. If he has a flaw in his armor that is not perfect in temper and complete in every detail could bear the continuous strain. The armor of King George had been proved before he came to the throne. It was proved in the navy by comrades who judge a sailor's character and capacity not by the gold stripes on his sleeve. It was proved, too, by his journeys in India and the Dominions, where month after month, every hour had its appointed duty, and every duty was faithfully discharged.

As he works so he plays, with industry and conscientiousness, but the play is of his own choosing. And his choice lies in a field the most arduous and exacting in the world of sport. The stand at a race course and the deck of a yacht make little demand on physical energy. King George does not ignore their attractions, but he prefers a more energetic field. He is first and foremost a great game shot. A sportsman of sportsmen has placed him fourth after the Marquis of Ripon (better known, perhaps as Earl Grey), Lord Walsingham, and Mr. Headley Noble among the remarkable shots in this country. There are experts who would give him the second place. No one has devoted more effort to perfecting himself in this difficult art since he took his first lesson from the late Duke of Cambridge, who was himself at that time a clever marksman, and who declared that if his relative were not a prince he would have been famous as a shot. The art has been cultivated assiduously since boyhood, and its attractions are as strong to-day as ever. Except live pigeons from a trap—a sport of which his Majesty strongly disapproves—King George has shot almost every kind of game—from the partridge to the wild duck, from the pheasant to the quail, from the snipe to the grouse, from the woodcock to the quail, from the pheasant to the quail, from the snipe to the grouse, from the woodcock to the quail.

There is a story told of him at Windsor which confirms his reputation. Toward the close of the day the German Emperor himself devoted to field sports, and an excellent shot—and the Prince of Wales, as he then was, found themselves in a hollow between two coverts in the Great Park. The pheasants were flying high overhead at tremendous speed and were difficult marks in the fading light. The King and the Emperor agreed to take the birds alternately, with the result that his Majesty missed only one shot of fifty-four, while the Emperor failed to get his bird. The King has even performed the astounding feat of firing both barrels of two guns in such rapid succession that he has had four pheasants falling through the air at the same moment.

Now the indispensable qualifications of a good shot are sureness of eye, steadiness of nerve and hand, cool and prompt decision. Without these a man may be a sportsman, but he can never be an expert shot. He can never face with equal mind the tiger or the falcon, or even the pheasant and the snipe. Sureness of eye and steadiness of nerve and hand may be gifts of nature, but like all such gifts they require care and cultivation. No qualities of the body and mind are more sensitive to the conditions of a man's life; none deteriorate more rapidly from abuse, none respond more readily to self-control. To remain a good shot after forty is the best testimony any man can produce of temperance in all things, of a life so well ordered that its powers and perceptions are unimpaired. The people of this country, and least of all the people of the north, where sport is an instinct and an obsession—need no assurances on this point either from the press or the pulpit. They know what sports demands and what training insists upon.

There is another surer test of character. It is the estimation in which a man is held by friends and family. No King has friends more devoted than those of King George. Many of the members of his household have been his intimates from youth; some have served with him in the navy; all have watched his career at close quarters, and all are unanimous in praise of his character and capacity. This is the deliberate judgment also of many who have had opportunities of observing

and are not likely to be influenced by the hope of personal recognition or reward. Of the King's domestic life an idyll might be written—in an old-fashioned idyll such as the English people love. There is in this land, where family life is happily still more than a tradition, no more devoted husband and father—none who can look back upon the past with a clearer conscience. His life in this respect is absolutely void of offence. Upon this we have the testimony of the friends of his youth and the written word of his father, who, when Prince of Wales, thought it necessary to destroy one of these romances which morbid imaginations weave about a royal palace in the belief that the marriages only of commoners are made in heaven. Those who know King George and Queen Mary know better. There is no shadow over the past.—London Mail.

There is a reason why "Charley's Aunt" holds the record for long runs, both in London and New York, and that reason is, without a doubt, its infinite possibilities as a fun producer. From the rise till the fall of the curtain King Laughter reigns supreme, and it can be promised that when theatre-goers see Huron L. Blyden and his associate players at the Victoria to-night, to-morrow night, Saturday matinee or night, in this favorite of all comedies, they will have an evening full of enjoyment.

Huron L. Blyden will be at his best, for there is not another part in his repertoire that suits this clever comedian so admirably, and it is only the truth to state that as the "Aunt from Barzil," where the nuts come from, he will be one big scream.

### THE ADVANCE MAN

Charley's Aunt.

There is a reason why "Charley's Aunt" holds the record for long runs, both in London and New York, and that reason is, without a doubt, its infinite possibilities as a fun producer.

From the rise till the fall of the curtain King Laughter reigns supreme, and it can be promised that when theatre-goers see Huron L. Blyden and his associate players at the Victoria to-night, to-morrow night, Saturday matinee or night, in this favorite of all comedies, they will have an evening full of enjoyment.

Huron L. Blyden will be at his best, for there is not another part in his repertoire that suits this clever comedian so admirably, and it is only the truth to state that as the "Aunt from Barzil," where the nuts come from, he will be one big scream.

The production will be adequately staged, and every effort is being made to make it the best reproduction of the comedy ever produced in Victoria. Early application should be made for seats as a sharp demand is already the case.

Walker Whiteside in "The Melting Pot" The fine cast chosen to support Walker Whiteside in "The Melting Pot" at the Victoria theatre next Thursday, September 8, recalls the splendid company that appeared in Mr. Zangwill's first play. "The Children of the Ghettos" in that play—Wilton Lashay played the old rabbi, Blanche Bates the heroine, and Frank Worthington and Robert Edeson in turn played the hero. William Morris and Richard Carle shared a pair of congenial comedy roles, and Mabel Taliaferro made her first big hit in the part of Esther, the little mother. Ada Dwyer and Mme. Cottrelly were an inimitable pair of Jewish matrons, while a third was well played by Louise Muldener, who also has a good part in "The Melting Pot." Tommie Morrison, who last season starred in "Faust," and Adelpha Leitina, who played Jefferson's old role in

### DICKENS CENTENARY.

The use of conscience money to celebrate the approaching centenary of Charles Dickens is the suggestion of the editor of the Strand Magazine. To the great novelist's present day admirers it is pointed out that Dickens did not live to draw one-tenth of the profits from his books and received no royalties whatever from America, and besides all this, three of his children are in comparatively poor circumstances. Allowing for loss and the wear and tear on 24,000,000 copies of Dickens' works that have been issued at two cents royalty on each copy would realize a half million of dollars. But this is recognized as impossible and it is therefore suggested that every owner of Dickens' books buy a Dickens stamp for each volume, thus certifying that the royalty of two cents has been paid. The stamps will be put on sale throughout the world in 1911.

### New Move

We are now moving to our new location on Fisguard street, between Blanchard and Quadra, where we have more commodious quarters to handle our rapidly increasing business, embracing Plumbing, Heating, Roofing and Sine Gas Lighting and Cooking Installation.

WERE WEDDED AT ST. ANDREW'S ARMSTRONG-McKILLIGAN NUPTIALS LAST EVENING

Charming Event is Celebrated in Presence of Crowd of Interested Friends

A very picturesque and beautiful wedding was solemnized at 8.30 last evening in St. Andrew's Presbyterian church, when Miss Jessie Agnes McKilligan, only daughter of Mr. and Mrs. J. B. McKilligan, was united in marriage to Mr. Charles Leland Armstrong, Rev. Leslie Clay, M.A., officiating.

The church had been very lavishly and artistically decorated for the occasion by the bride's girl friends, under the capable supervision of Mrs. Andrew Grey and Mrs. David Miller, and the scheme carried out in white and pink was very beautiful. Arches formed of sweet peas, roses and white clematis, relieved by foliage, were placed on either side of the centre aisle, and three others extended from the top of the pulpit to the choir-railing, the centre one of the latter serving as a support for a large bell of white immortelles. The base of the pulpit platform, and choir stalls were draped in white and latticed with sword ferns, while the organ and choir railings were banked with shasta daisies, white clematis, chrysanthemums and ferns.

Seats reserved for invited guests were outlined with white streamers of white satin ribbon, and large bouquets of the same gave a dainty finish to the base of the different arches.

As the bridal party entered, Lohengrin's Wedding March was played by the church organist, Jesse Longfield. Six little bridesmaids, Betty Grey, Mona Miller, Margaret Campbell, Frances Norris, Helen Forman and Kathleen Gray, in charming Kate Greenway costumes, with pretty coiffures to match, entered first and walked in pairs down the aisle, carrying rustic baskets of sweet peas. On reaching the altar they formed themselves into two groups of pink and blue on either side of the space reserved for the bride.

Following them came the maid of honor, Miss Nellie Lovell, wearing an exquisite Paris gown of pink embroidered silk, and a most becoming picture hat, and carrying a bouquet of pink roses and sweet peas.

Then came the bride leaning on her father's arm, and looking very lovely in a rich ivory duchesse satin princess gown, en train. The yoke and under sleeves were of tucked Brussels net, and the bodice was ornamented with deep pearl garniture and surplice of duchesse lace. The skirt had a diamond front of duchesse lace, with pearl fringe to match the bodice. A veil of fine Brussels net held in place with pearl clasps and orange blossoms, and a bouquet of bride's roses with streamers tied in lover's knots completed an exquisite bridal toilette.

Mr. Gordon Jamieson supported the groom and Dr. Sinclair and Dr. Herbert Brown officiated as ushers.

While the register was being signed, Mrs. D. E. Campbell sang with great sweetness, "Beloved, It is Morn'g." The groom, who is well known in literary circles, is the eldest son of Mr. C. B. Armstrong, London, Ontario. He was educated at Mount Allison University, Sackville, N. B., and for some time was on the staff of the Boston Herald. He has been a staff writer on many of the principal papers from Halifax westwards, and for the past two years has been on the editorial staff of the Colonist.

The bride is one of the most popular and gifted young ladies of Victoria, and a special favorite in musical circles.

After the ceremony a reception was held at "Craigmore," Rockland avenue, the handsome home of the bride's parents. Here Miss Mary Campbell, a dainty little maid in white, and Master Fraser Williams, an attentive little page in a black velvet suit with collar and cuffs of Vandyke lace, and gold shoe buckles, did the honors.

A most effective and striking decorative scheme was carried out in the different rooms. The large reception hall was gay with the brilliant massed bloom of nasturtiums. The den was bright with crimson blossoms of different kinds. The refreshment room presented an exquisite picture in white, relieved by trails of smilax.

The large drawing room was very beautifully done in pink and white, sweet peas in great quantities being used with splendid effect. In the large

IDEAL BEDDING CO. MONTREAL - TORONTO - WINNIPEG

"Iced" Salada Tea prevents heat exhaustion. It raises the vitality while it lowers the temperature. Your Grocer has SALADA TEA

circular bay window of this room, which had been transformed into a veritable bower by festoons of flowers and foliage extending from the chandelier in the centre to the sides of the window, where they were met by a branching effect of corresponding flowers, the young couple received the congratulations and good wishes of their numerous friends which were showered upon them.

The groom's gift to his bride was a lovely brooch of chased gold, set with rubies and emeralds.

The bride's going away costume was a smartly tailored cloth suit, in the new blue shade, with which she wore a black picture hat with handsome plumes.

Mr. and Mrs. Armstrong expect to be absent from the city about a fortnight on the honeymoon trip. On their return they will take up their residence in their pretty new home "Lisnaska," Richmond avenue.

A great many handsome toilettes were in evidence.

The bride's mother looked her best in a very stylish champagne ottoman silk gown made with yoke and under-sleeves of cream embroidered chiffon, the bodice draped with duchesse lace, and the whole beautifully trimmed with bands of Grecian embroidery in self tones. With this she wore a becoming plumed toque en suite.

Mrs. Wm. McKilligan of St. Paul, Minn., the bride's aunt, who has been a guest at "Craigmore" for several weeks, was dressed in a rich white silk with black picture hat.

Mrs. Will Spencer, a very striking and beautiful Paris creation of palest salmon pink, with modish black velvet hat.

Mrs. Sinclair, a very dainty embroidered cream crepe de chene, with pale yellow bands and black hat.

Mrs. Meisner, a rich and becoming old rose satin, with Persian trimming and black picture hat.

The Misses Spencer, lovely Princess gowns of white Irish lace over taffeta and modish white moire silk picture hats with touches of black.

Miss McCullough, a pretty ecru lace dress with hat en suite, trimmed with pink roses.

Mrs. Hayward, cream crepe de chene, with blue bands and black picture hat.

Mrs. Wm. Gleason, a modish white silk with silver trimming and black hat.

Miss Watt, a most becoming pale blue satin with picture hat.

Mrs. A. Smith, a very striking old rose gown with Persian bands and net yoke. Toque en suite.

Miss Letich, cream crepe de chene with blue bands.

Mrs. McFarlane, a rich reseda green satin with jewelled trimming.

Mrs. Oscar McMicking, a dainty gown of ecru net, with pale blue lace with silver trimming.

Mrs. D. Miller, a most becoming gown of heavy silk lace over white taffeta.

The Misses McMicking, dainty white dresses and becoming picture hats.

Miss Bond, a pretty white silk with silver trimming and white lace veil.

OKANAGAN CROP WILL BE BIGGER THAN EVER

Hon. Price Ellison Back From Mainland Trip—Settles Trail Water Question

In the opinion of Hon. Price Ellison, provincial minister of lands, who has just returned from a visit to Vernon, Trail and Rosland, the Okanagan fruit crop will this year be of finer quality and more abundant than ever before. Fifty thousand boxes will be marketed from Coldstream estate alone, which fact gives some idea of the heavy production throughout the district. Better facilities for marketing the fruit in good condition are now available, the C. P. R. having erected cold storage warehouses at Vernon and Okanagan Landing, where the fruit will be cooled before shipment according to the most advanced methods.

Mr. Ellison, while at Trail, was instrumental in settling a long-standing difference between the corporation of that city and the Lake Power Company, respecting priority of water records in Cambridge creek and VIGOR lake. The matter had been argued before governmental bodies and the provincial executive had wrestled with it on several occasions. Mr. Ellison visited Trail on receipt of a telegram from Mr. Schofield, member for that constituency, and on arrival was successful in bringing the city and company together.

The basis of agreement is said to be in brief that the city's record of water is reduced from 200 miners' inches to one cubic foot per second flow, which is estimated to be sufficient for the requirements of a city of 7,000 inhabitants. If later on, Trail should happily grow phenomenally, achieving proportions demanding an ampler supply, it is quite possible for the supply to be augmented. At the same time the present record is more than adequate, and the interests of the city, consolidated smelter company, and power and milling company are fully satisfied, there really being an abundance of water for each and all.

The agreement was adopted subject to the abandonment of the opposition heretofore set up by the city of Trail to the approval of the company's record by the provincial executive. Before the energetic lands minister left for the capital, the temporary agreement had been signed and sealed by all the interested parties.

In visiting his home city of Vernon Mr. Ellison had a pleasant duty to perform as representative of the provincial government welcoming Sir Wilfrid Laurier to British Columbia. The great leader of the Dominion government was greeted in an enthusiastic fashion by the Vernontes, the city being gaily decorated and thronged with visitors. Three thousand people assembled in the skating rink to hear Sir Wilfrid speak and his reception was fully in keeping with the triumphal character of his trip through the west.

IMPORTANT DEVELOPMENT IN NORTHERN B. C.

Latest advices received from the north indicate great development work being done on the many coal and mineral prospects, also new finds that have come to light during the past month or so, the richness of which is hardly realized by the outside world.

Especially noteworthy is the new discovery of anthracite coal in the Grand Hog mountain district, a few miles north of Ellison. Experts who have just returned are unanimous in their opinion as to this new find of anthracite coal, being equal in quality to the famous Pittsburg product, new strikes of silver have also been made at Four and Nine Mile mountains, in the close vicinity of Hazelton, B. C.

Another important piece of development is that being carried on by the Grand Trunk Pacific railway, on their properties in the Telkwa River district, while another important seam of anthracite has been discovered in the Kispiox Valley.

With all this work being carried on in the north, we can look forward to there being a large influx of people during the next few months, and in the spring.

At the junction of the Skeena river and Bulkley valley, great progress is being made, buildings are going up, a new wharf is being built, while Messrs. Foley, Welch & Stewart have established themselves in permanent headquarters, making this point their chief distributing place for the whole of the interior section.

CIGARETTE DID IT. Stub Carelessly Thrown Landed in a Gasoline Tank.

Vancouver, Sept. 1.—Enveloped in a sheet of flame without a moment's warning, and having to leap from their boat into the waters of False creek to escape being burned to death, C. A. Jervis, of 1146 Howard street, and his son Leon, had an experience that nearly ended seriously for them both. As it is, however, both father and son are lying at the General hospital painfully burned.

Mr. Jervis and his son, who own a gasoline launch, were engaged in transferring gasoline from a tin into the tank of their yacht, when, without any warning whatever, the liquid exploded, and in a moment the craft was a mass of flames. Immediately realizing the serious predicament they were in, both men leaped into the waters of False creek.

B. C. ELECTRIC RY. DIRECTOR ON TOUR

Mr. Buntzen Will Report to the English Board on Their Enterprises

Vancouver, Sept. 1.—On an inspection trip which will occupy two or three months, J. Buntzen, a director and formerly manager of the B. C. Electric Railway Company, in Vancouver, has reached here from London, Eng. He is now two years since the last visit of Mr. Buntzen.

Mr. Buntzen will report to the board in regard to present and future extensions and improvements, including the project for the development of 100,000 horse-power at Chilliwack and Jones lakes at an estimated expenditure of \$10,000,000.

Of course our company has shared in the general prosperity which has prevailed on the coast for the past few years, but it had its dark days," said Mr. Buntzen. "From 1890 to 1899 the Vancouver city line did not pay one cent of dividend, and now after four years the North Vancouver line still fails to pay operating charges. But we are not discouraged, as the right side will place the account on the right side of the ledger. Our expenditures on improvements are now 300 per cent. larger than they were three years ago. There is ample capital available for legitimate propositions, but London bankers resent wildcats from afar. I really believe the success of our company has been very largely instrumental in securing British capital for many Canadian enterprises."

MARRYING JAPANESE

Daughter of New York Lawyer to Wed a Graduate of Yale.

New York, Sept. 1.—Zenaro Marikubo, a well-to-do Japanese, and Miss Madie Bagg, daughter of George J. Bagg, a New York lawyer, went to the city hall Monday and procured a marriage license. They will be married here on September 12th.

The bridegroom-to-be was born in Tokio 33 years ago, but came to this country when he was 18 years old. After residing in Los Angeles he graduated from Stanford University, then came east and took a masters' degree at Yale. He met Miss Bagg, who is 34 years old, at a summer resort several years ago and continued his attentions when she returned to the city. It is understood that her parents have no objection to the match. After the ceremony the couple will leave for Tokio, where they will make their home.

NORTH YAKIMA'S POPULATION.

Washington, Sept. 1.—The population of North Yakima, Wash., is 14,182, as compared with 3,154 in 1890.

The Dessert Problem Solved

That ever bothersome question, "What shall we have for dessert?" has been solved by Mooney's Sugar Wafers. This delightful confection is taking the country by storm. Mooney's Sugar Wafers are now served in thousands of homes in place of pastry and cake. At dinner, luncheon or tea—for picnics or the unexpected guest—with berries, fruits, ices or beverages there is nothing better.

Mooney's Sugar Wafers

The Dessert That Creates a Desire For More. Mooney's Sugar Wafers are made in the largest bakery in Canada. Hundreds of skilled employees—640 windows—3 miles of floor space. Here in this magnificent sunlit sanitary factory, where purity is paramount, we create Canada's most toothsome delicacy. Try a package today. You'll be glad you did so. At your grocer's in dairy, dust and damp-proof tins, 10 and 25 cents.

THE MOONEY BISCUIT AND CANDY CO., LTD., Stratford, Canada

WEEKLY WEATHER SYNOPSIS.

PRESBYTERIAN PASTOR.

Prince Rupert, Aug. 31.—Rev. F. W. Kerr, a native of Shakespeare, Ont., and for some time a resident of Field, B. C., and other British Columbia centres, has been appointed to the First Presbyterian church of Prince Rupert. Mr. Kerr has been very strongly recommended to the people of Prince Rupert and is spoken of as a man of broad and liberal views. A new church will shortly be under construction, and plans for development are under consideration.

DR. CHASE'S OINTMENT. PILES. Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. ### SOCIAL AND PERSONAL

James R. Motion has returned to Alberni.

Rev. Dr. Crews has left on his return trip to Toronto.

C. C. Michener has gone over to Vancouver on business.

J. P. Sylvester is spending a few days in Vancouver.

Samuel Watson, of Cumberland, is visiting Victoria friends.

A. Frohisher from London, Eng., is a recent arrival in Victoria.

M. A. Ward, Alberni, is paying a business visit to the Capital.

H. S. Griffiths went over to the mainland last night on a business trip.

Miss Tilton, of this city, is the guest of Mrs. J. G. Fordham, Vancouver.

Miss Margaret Murdock has returned from a visit to her parents in Nanaimo.

W. K. Houston left on the Princess Beatrice last night for the Terminal city.

J. L. Skeene arrived from Vancouver yesterday on the Princess Charlotte.

E. E. Dewdney and C. S. Baxter have returned from vacation trips to Alberni.

Mr. and Mrs. J. Hamilton Gray are spending a month in the Nechaco country.

A. E. Wilnot departed for the Terminal city last night on the Princess Beatrice.

W. L. Rhodes crossed over to the mainland last night on the Princess Beatrice.

Rev. A. Henderson was among the passengers on the Beatrice last night for Vancouver.

F. J. Fulton, K.C., was among the passengers on last night's Princess for the Terminal city.

Miss Ashton from Ganges is enjoying a visit to Victoria and is staying at the Balmoral.

J. H. Helliwell, who has been in this city for the past few days, returned to Vancouver last night.

Arthur Boggs left last night for Kingston to resume his studies at the military college there.

Mark Currie, Tacoma, Washington, is visiting in the city with Mrs. (Capt.) J. Whiteley for a few days.

Principal J. W. Spaulding of Wesley College, Winnipeg, left last night on his return to the prairie city.

C. W. Howard, superintendent of locomotive repairing work of the C. P. R., Calgary, is visiting in the city.

Mrs. Johann Wulffsohn, Esquimalt, has been entertaining Miss D. Campbell, Vancouver, for some time.

Mr. Wedgwood, the Alpinist, who has been spending a few days in Vancouver, is now visiting in Victoria.

Rev. T. Albert Moore, general secretary of the Methodist conference, left on his return to Toronto last night.

Mr. and Mrs. Pringle, of this city, are the guests of Mr. and Mrs. E. A. Thompson, 124 Sixth avenue, Vancouver.

Chancellor N. Burwash left via the C. P. R. last night on his return trip to Toronto, after attending the general conference here.

Miss Rosetta Stewart, of this city, has gone to Cumberland, where she has been appointed to a position on the public school staff.

Chas. H. Lugin was among the passengers on the Princess Charlotte, which arrived from the Terminal city yesterday afternoon.

Mrs. J. H. Freeman, accompanied by her daughter, Marjorie, returned yesterday afternoon from Vancouver, where they have been spending several weeks' visiting friends.

The marriage of Miss Ethel Guyer and Thomas McKinnon, both of Alberni, took place last week in St. Andrew's manse at the West Coast town. Rev. Mr. Carruthers officiated.

Fire Chief Davis, accompanied by Mrs. Davis, left today for Stockton, Cal., where they will attend the session of the Pacific Coast Fire Chiefs' Association, to be held there next week.

The delegates from Victoria to the provincial conference of Local Council of Women of British Columbia, which will take place in Vancouver, September 8 and 9, will include Mrs. C. E. Cooper, Mrs. Spofford, Mrs. Jenkins, Mrs. Hasell and Mrs. William Grant.

Mr. and Mrs. Love Hyde, Manchester, England, who have been spending six weeks in this city visiting their cousins, Mr. and Mrs. Jenkinson, Springfield avenue, left on Tuesday afternoon for Vancouver en route to their home in England. They are just completing a tour of the world, which has occupied nearly a year.

A pretty but quiet wedding took place on Tuesday evening, August 30th, at the home of Mr. and Mrs. R. W. Peters, Huron street, Willows Beach, when Rev. W. Stevenson united in marriage Mr. Frederick Arthur Saunders, Victoria, and Miss Ethel Pink, Pango, England. The bride, who was given away by Mr. Peters, was attended by Miss Hannah M. Peters, while Mr. E. A. Wallace supported the groom. A number of friends were present at the

## If You Intend Buying a Diamond

You will find that the Challoner & Mitchell establishment offers you the largest and choicest assortment in the West. Our supremacy in this particular line is beyond a doubt. Not only are you offered the largest variety to choose from, but we also offer them to you at the closest prices, for the simple reason that we buy direct from the cutters.

JEWELLERS.

1017 Government St., Victoria, B.C.

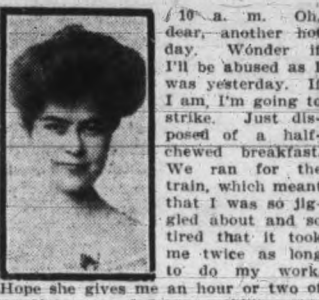

reception held afterwards at the invitation of Mr. and Mrs. Peters, and the house was prettily decorated for the occasion. The young couple are making their home in Victoria.

A pretty wedding was solemnized at 3 o'clock yesterday at the home of Mrs. George A. Porter, 1034 Pandora avenue, when Rev. A. N. Miller, assisted by Rev. A. J. Brace, united in marriage Mr. Thomas G. Gawley, son of Mr. and Mrs. G. Gawley, Quebec street, and Miss Daisy Nora Ware, daughter of Mr. and Mrs. Charles Ware, 525 Niagara street, and sister of Mrs. George Porter. The bride, who was charmingly gowned in white with brilliant veil and orange blossoms, was given away by her father, and attended by Miss Laura Gawley in a pretty bridesmaid's dress, and her two little nieces, Myrtle and Muriel King, as flower girls. Mr. A. Curran supported the groom, and Mrs. Langster played the wedding march. The ceremony was performed in the drawing room under a large bell of white chrysantheums lined with marguerites. Mrs. Porter's pretty rials led themselves admirably to a well carried out decorative scheme, and the effect was most artistic. Pink and green predominated in the drawing room and den, while the dining room carried out a color scheme of red with a profusion of sweet peas. Many beautiful and costly gifts were received by the couple, testifying to the high esteem in which they are held by their numerous friends. Mr. Brace tendered to the groom the greetings of the Y. M. C. A., of which Mr. Gawley has been for seven years a valued member, and from which he graduated into the physical directorate. The honeymoon will be spent in Seattle, and Mr. and Mrs. Gawley will make their home in Olympia, Washington, where Mr. Gawley has obtained a position of physical instructor of the Y. M. C. A.

## The Evening Chit-Chat

BY RUTH CAMERON

A FEW LEAVES FROM THE DIARY OF A STOMACH.

10 a. m. Oh, dear, another hot day. Wonder if I'll be abused as I was yesterday. If I am, I'm going to strike. Just disposed of a half-chewed breakfast. We ran for the train, which meant that I was so jiggled about and so tired that it took me twice as long to do my work.

Hope she gives me an hour or two of complete rest before anything more comes my way.

10.30 a. m. Two glasses of ice water have just arrived. It will take all the energy I can pump up in the next hour to warm me up to normal again.

10.50 a. m. Half-chewed breakfast didn't satisfy her and she has bought some peanuts and started eating them.

12 m. Peanuts have dribbled along steadily ever since last entry. Think she has finished them, though.

12.30. Decided she wasn't very hungry, and instead of a good solid dinner sent me down a cold egg nog. Heavy with chocolate. Could have managed it all right if it hadn't been so cold, but that makes it terribly hard to deal with.

1.10 p. m. More ice water!

1.40 p. m. Was mistaken about the peanuts. She found another handful in the bottom of the bag, and now I have them to fend for.

2.05 p. m. More ice water!

2.10 p. m. She has been lifting some heavy books, and, as usual, used my muscles instead of her arms muscles, as she should have done. Tired me more than digesting a six-course dinner.

2.30 p. m. Some one has brought us a box of caramels and she has started on that.

4.30 p. m. Have received something like half a pound of caramels since last entry. She just said, "Oh, dear, I don't feel a bit well. I know the milk in that egg nog must have been sour."

4.50 p. m. We were invited out to have a soda before going home. Had a lemon phosphate and then ran for the train.

6.30 p. m. We played a set of tennis before dinner, and here I am tired out and dinner to handle.

7 p. m. Fried potatoes, green corn, veal and blueberries. What do you know about that!!!

7.45. We are going down town for a chocolate walnut college ice!!!!

8.20 Got home and found some one had made some lemonade. She drank two glasses. That on top of the college ice settles it—I strike.

8.30 Have sent back the college ice and lemonade.

8.40. Spurned.

8.50. And the

9.10. She has it to the doctor. Says that college ice must have had something the matter with it. Her mother says it is probably the weak stomach she inherited from her father.

9.30 Doctor says it's just a little upset, due to the hot weather. Good-night!!!!

Ruth Cameron

### HINTS FOR THE HOME

**A Travelling Hint.**—When purchasing a new suitcase, I make two or three trays to fit it in the following manner: Cut pasteboard so that it slips easily into the case yet is not small enough to slide about. To the back of this paste one tape lengthways and two crossways, having the ends long enough to meet and tie generously on the opposite side. Where the tapes reach the edge of the board, punch a hole and sew the tape securely to prevent their pulling off. When wishing to carry gowns or waists in the suitcase, they are folded carefully, placed on the trays, and the tapes tied over them. In this way they may be carried for a week and removed from the case daily without serious damage to their appearance.

**For the Picnic Basket.**—When preparing a picnic basket there is an art in using as few dishes as possible; else it isn't a picnic. Here is a pretty and satisfactory way of carrying fruit salad, or, in fact, any fruit mixture. Take a small cap of an orange, leaving the opening with a diameter of an inch and a half. Remove the fruit so that the interior is smooth and clean. Fill the orange cup with any desired mixture, replace the cap, then seal by running paraffin around the division. This makes the orange perfectly firm and may be carried without leaking. When ready for use the paraffin is easily removed.

**To Keep Food Hot.**—When potatoes or other vegetables are cooked, drain and cover tightly, then wrap in newspaper securely and set in oven without fire. They will keep steaming hot for an hour or longer.

**When Flies Are About.**—Flies dislike the odor of oil of lavender. When dinner is ready take a small piece of linen, wet it with oil of lavender and touch the dishes and table linen with it. You will see the flies getting out of the way and you can sit down and eat without being molested. The odor is not objectionable.

**Something Worth Knowing.**—Every woman knows how easily a linen dress or suit falls into wrinkles. A way has been discovered to take the mout and make the garment look like new. Take common starch moistened with water and wring out a cloth and rub the garment on the wrong side and iron. This will be found excellent if a dress

CHIC BRAIDED SUIT.

White has been tremendously popular this summer, and especially so for young girls. We show to-day a model in white brilliant elaborately trimmed with narrow braid and pearl buttons. The little coat, with its bloused sides and draped belt, is very chic, and the wide sailor collar is both pretty and youthful.

is wrinkled by travelling or being packed in a trunk.

**To Improve Dahlias.**—If your dahlias do not thrive, punch a hole in the side of pound coffee cans, near the bottom. Fill with fertilizer from barn or chicken house and stick one in the earth beside each plant. Fill with water every day, which will both feed and water the roots, when the tops will take care of themselves.

**WASHING SWEATERS**

So often we see ill-fitting sweaters—sweaters that hang like a bag on the wearer and all because the garment has not been properly washed. A sweater once out of shape is hard to remedy, but when one has not been already spoiled there is no occasion for an all-wool sweater shrinking, nor pulling out of shape, if a little care is used in the washing.

First of all select a bright sunny day. It takes some time for the garment to dry on such a day, and if one attempts to wash it on a cloudy day the result will not be nearly as satisfactory.

Make a good suds of warm—not hot—soft water and any good white soap in a bowl or pail where there is no chance of getting iron rust on the garment.

If there are pockets in the sweater sew these up to keep them in shape. Put the sweater into the suds and

squeeze. Do not rub the soap on and do not rub the garment on a board or between the hands. Simply squeeze every part over and over again.

If the sweater is badly soiled it will be necessary to keep doing this for some time and even change to a second bath of suds if the water becomes very dirty.

If there are stains of any kind on the garment these should be taken out before it is put in the suds.

Which the sweater seems clean lift out, but do not wring it, and put it in clear luke-warm water to rinse.

Squeeze the suds out and then place in a dish or on a cloth and squeeze out all the water you can. It will not be possible to get it all out, but do not wring or twist the garment in the least.

When the water is about out lay on a cloth, spreading the sweater out in shape, and put in the sun.

Never hang a sweater up when wet. If there is danger of smoke or anything soiling the sweater while it is drying, it may be covered with another piece of cloth. It usually takes about six hours to dry thoroughly.

Of course it may be dried indoors by the stove if the weather will not permit of its being hung out, but sweaters, especially white ones, look much better when dried in the sun.

When washed in this way wool sweaters look like new and keep their original shape perfectly.

Better than any real estate investment on the market—Amalgamated Development company stock.

MARINE NOTES.

Steamer Belle of Scotland, which brought rolls from Cape Breton Island to Prince Rupert and afterwards loaded lumber at Astoria, passed up to Comox yesterday for coal.

An albatross strike was commenced among the longshoremen at Vancouver on Monday last. On Tuesday, however, the men were again at work. The men who struck were employed discharging the steamer Aymerie and were employed by the Victoria and Vancouver Stevedoring Company.

The Japanese steamer Kamakura Maru was delayed outside, so that instead of reaching this port this morning she is arriving this afternoon. She has passengers and freight for Victoria, and after leaving there here will proceed to Seattle, reaching Port Townsend early in the morning. This is one of the regular fortnightly steamships of the Nippon Yusen Kaisha.

**LEAVING TO ENGAGE IN FARMING ON SKEENA**

Local Men Interested in Establishment of Orchard, Nursery and Cattle Ranch in North

To-morrow morning a party of men will leave this city for the Skeena river on the G. T. P. steamer Prince George for the purpose of making arrangements for the establishment of a large stock farm, a big nursery and orchard, and general development work in the Skeena river country. These consist of C. Hanson, who, it is understood, is the principal in the business, and whose sons will be prominently identified with it; J. R. Anderson, formerly deputy minister of agriculture for this province; F. E. Mitchell and Mr. Carlton. The farm will be stocked at once and the orchards planted. This is one of the first definite projects for the development of the Skeena river country on a large scale.

A number of the members of the recent Methodist general conference are also making the trip to Northern British Columbia, among them being Rev. W. H. Emsley, of Nanaimo, Ont.; Rev. G. W. and Mrs. Henderson, of N. Burns, of Hamilton, Ont.; W. J. Waugh, and Rev. G. H. Raley, one of the pioneers of mission work in the North, who preached on Klen Island long before the Grand Trunk Railway ever was proposed. On that island the steamer on which he was traveling stranded in a fog at that place, and he went ashore and conducted a service there. There are also going North, Mrs. Raley, Mrs. D. H. and Miss McTavish, R. C. Pettigall and H. E. Newton.

**SHIPPING REPORT**

(By Dominion Wireless.)

September 1, 8 a. m.

**CONCENTRATOR WORKING SOON**

J. A. MARA RETURNS FROM VISITING MINES

Tells of Conditions as He Found Them at Stewart and Portland Canal Property

Manager Elmdorf, of the Portland Canal Mining Company, expects that the concentrator which is being erected for the purpose of reducing the ores from the Portland Canal mine, will be in operation by the fifteenth of this month. Then it will be known just how rich the ore is, and how much of it can be saved by concentration. It will also indicate to some extent what the future of Stewart and the whole country is likely to be. The officials of the company have great faith that the results of the work will show the ore to be capable of mining with profit, and there is a large body of ore which may be taken out as the concentrator is ready to receive it. This is the word brought by J. A. Mara, one of the directors of the company, who is heavily interested financially in the mine, but who is not at present putting his stock on the market.

Speaking of his visit Mr. Mara said: "The weather on the trip was ideal, it being somewhat similar to that experienced at this time of year in the interior of British Columbia. I found Stewart in a healthy state, the business men all sanguine as to the future prosperity of the place. MacKenzie & Mann have several parties prospecting for a railway route to extend the present line as far as Naas River, and it was reported that they had found a suitable route with very easy grades. The new addition to the line which has just been placed on the market and the lots are being sold with building restrictions. Nearly eight miles of the railway has already been graded. It is almost level with just the grade of Bear River. As it is being built on what was formerly a river bottom, gravel for ballast is being taken from the side of the track.

Speaking of the mines Mr. Mara continued: "The Portland Canal Company in its third tunnel at a distance of two hundred feet, have struck the high grade ore found in tunnels one and two. They are also uncovering a body of ore in a gulch 700 feet below this tunnel which is believed to be an extension of the vein struck in tunnels one, two and three.

"Mr. Elmdorf, the manager, expects the concentrator to be working by the fifteenth of the month. He has been handicapped considerably in procuring material for the work. For instance, cement orders on the 10th of July had not reached there on the 28th of August. At the mine and also at the concentrator, commodious mess houses are being erected for the men and their families. The concentrator, of which the plans have been ordered and the manager is preparing to prosecute the work energetically throughout the winter, as it is now realized that this is a developed mine and no longer a prospect. The concentrator is being erected alongside the railway and is three and a half miles from the mine with which it is connected by a team line capable of carrying 500 tons a day. This tramway is now in operation.

While in the district Mr. Mara interested himself in the other mines. He stated that at the Redcliffe mine they were expecting to strike ore in about two months. The air compressor which had been installed was doing good work and by its use they are able to run fifty feet a week. At the Stewart mine another strike of rich galena and native silver has been made.

At the Olga property the tunnel has been run about sixty feet and they have drifted forty feet. The manager thinks he is under the vein and will run twenty feet more before he strikes it.

At Stewart the difficulties of landing passengers and freight from the steamer to the town continues. At the present they have to transfer from the steamer to a boat, and then transfer to a wagon. This, however, will be obviated when the railway wharf is completed which will be in about two months' time. Freight will then be received from the steamers and carried on to the station, from which passengers will be distributed to the mines and to the town. In handling this the charges will be absorbed by the steamers so that in importing mine machinery they will know exactly how much they will have to pay for delivery at the town.

Mr. Mara says that Stewart is not a poor man's camp but that he considers the capital which is being invested should bring good dividends. He arrived home last night on the G. T. P. steamer Prince George.

**DELAY IN DISCHARGING FROM FRENCH BARQUE**

Cargo Sold Several Times Before Vessel Arrived Here, Necessitating Taking of Average

The French barque Notre Dame D'Armor, which arrived a day or two ago, has been lying idle at the outer wharf until some difficulty in regard to the cargo had been settled. It seems that the cement which has been a great part of the voyage from Antwerp has been sold three or four times since it left that port.

As the ship had been damaged since leaving, it was necessary to have a general average taken, so that if the cargo should be found to be damaged it would be easy to place the liability. It is expected that the work of discharging will commence this afternoon.

**CITY'S CASE AS PRESENTED**

(Continued from page 1.)

The said bridge is constructed of iron, and is of a total length of approximately 475 feet from shore to shore at highwater mark. The swing is pivoted on the central pier, and is of a length of 230 feet. The said railway company have not any by-laws, rules or regulations respecting the working of the railway on the said bridge, or of the mode, time, terms and conditions of opening the said swing. The said swing is operated by hand mechanism and is swung only to the half of its circuit. The time employed in opening the swing to permit of the passage of a vessel is usually twenty-two minutes. Vessels arriving desiring to go through the said swing signal their desire by four whistles. The said railway company have refused, and in fact do not open the said swing at any time within half an hour of the arrival of a scheduled train, nor do they open the bridge if and during the time a train is being made up, nor for some time before the arrival and departure of goods trains, and taking the period of the 24 hours during which the said swing is closed to navigation of masted vessels or steamers, it is estimated that for approximately four hours of each day the navigation of the said harbor is obstructed.

7. The corporation of the city of Victoria have wharfage rights in the said Inner Harbor and use wharves for public purposes, and it will benefit the said corporation to increase the facilities for the navigation of the said Inner Harbor. The said corporation and the merchants and owners of the several industries situate in the Inner Harbor have been, and are being, obstructed in the navigation of the waters of the said harbor, and delays causing pecuniary damages have been occasioned to certain of the said owners, and if the said obstruction continues the delays and consequent damages will become more serious.

8. For the reasons aforesaid the assessable value of water frontage lands on said Inner Harbor are depreciated.

The members of the commission who are sitting here are J. P. Mabee, K. C., chairman, and S. J. McLean.

**REGULARS WILL FIGHT ROOSEVELT ISSUE**

Temporary Chairmanship of Convention Will Cause a Struggle

New York, Sept. 1.—Following the conference of New York progressives who announced that Roosevelt's name would be presented as temporary chairman of the Saratoga convention, it was learned that the regulars are preparing to fight the issue to the end.

The announcement that Roosevelt will come into the open and fight in the convention, making the temporary chairmanship a direct issue with Vice-president Sherman, has caused activity among the regulars and they are lining up for the fight. At the city primaries where delegates to the convention will be named the Roosevelt forces and the machine will fight it out.

It was at first planned to call a special meeting in the state central committee to force through Roosevelt's name as chairman. Most of the Roosevelt leaders, however, did not favor the plan and instead the matter will go before the convention itself.

That the machine is expecting a hard fight is indicated by the preparations being made for the battle. The organization expects to put up its hardest fight in the capture of delegates there, every effort to capture delegates there, believing that unless they can control the city delegates the Roosevelt forces will be able to control the convention, securing the bigger part of the country vote.

LAWSON AGAIN AFTER SYSTEM

STANDARD OIL HEADS ARE HOTLY DENOUNCED

Charged With Wholesale Debauchery of Lawmakers and Officials Who Oppose Them

(Times Leased Wire.) New York, Sept. 1.—In a hot cannonade embodied in a telegram to the World, and printed over his signature, Thos. W. Lawson says that not only red-haired aliens, but black-haired and flaxen-haired ones as well, are employed by members of the "system" to debauch public and private individuals whom chance throws in the "system's" path.

PROPOSE REGULATIONS FOR SALE OF EGGS

B. C. Poultry Association Takes Steps to Protect Interests of Provincial Producers

Eastern eggs, which for so long a period have retailed in this province as "fresh" eggs, will in a very short time be sold at a price lower than the local product, if the British Columbia Poultry Association has its way.

It was claimed at the meeting in the Terminal City that the deficit of the poultry industry in this province amounts to \$2,000,000. The eastern eggs are now held at the same price as the local ones, and the provincial association has taken this question into consideration with the object of bringing about changed conditions.

UNION TO HELP CHURCH

Longbeach, Cal., Sept. 1.—Instead of taking advantage of Labor Day as a holiday, the Long Beach carpenters' union, No. 710, has offered the services of its members to the East Long Beach Christian church which expects to start and finish the building of a house of worship between sunrise and sundown of that day. The vote of the union to assist without pay was unanimous.

**ROOSEVELT VISITS JOHN BROWN'S CABIN**

Western Insurgents Look to Him for Leadership—New York Situation.

Oswattonie, Kas., Aug. 31.—Col. Theodore Roosevelt yesterday saw the scenes where the martyred John Brown lived and fought. The colonel was met at Osage City by Governor Stubbs and his staff and escorted to Oswattonie, where Congressmen Murdock, Madison, White and other insurgent leaders, greeted him.

Roosevelt was taken to the log cabin built by John Brown near Oswattonie, and later to the battlefield where the Kansas abolitionist, more than half a century ago, with a handful of men withstood ten times their number of pro-slavery foes.

Gifford Pinchot and former Secretary James R. Garfield have been in daily conference with the colonel and it is evident that the middle western insurgents expect Roosevelt to lead them. It was decided last night that Garfield and Pinchot should leave the train at Kansas City and go to Wisconsin to help Senator La Follette in his fight for re-election. It also was decided that Roosevelt's speech at Milwaukee should contain an endorsement of La Follette.

It became increasingly evident to-day that Roosevelt approves of the scheme of the New York progressives to oust Vice-President Sherman from the temporary chairmanship of the Saratoga convention and substitute Roosevelt. The colonel directed attention to-day to the various statements regarding the New York condition in which he declared he would not compromise on certain issues. There seems no doubt but that the colonel would accept the temporary chairmanship if it were offered him.

**CARPET OF FLOWERS.**

Streets of Montreal Will Be Stripped of Passage of Host.

Montreal, Sept. 1.—A carpet of natural flowers will make the path for the Holy Eucharist as it will be carried through the streets of Montreal at the procession during the Eucharist Congress. Not a square inch of pavement will be left bare, and tons of flowers will be used for the purpose, being spread on the ground all along the way a few yards in advance of the canopy covering the Papal Legate carrying the consecrated Host.

In anticipation of the event, the Sacred Heart League started a movement in April last for the raising of flowers, and thousands answered to the call from Nova Scotia, to the Rockies. Everywhere in North America where there is a Catholic centre a few families have raised flowers for the Eucharist Congress, the finest of which will be used to decorate the grounds and the balance to carpet the streets.

**MILES OF FIRE.**

A Big Force of Men Fighting It From Yellowstone Park.

Ogden, Utah, Sept. 1.—A high wind prevailed near Island park last yesterday. The fire line was 15 miles long in the largest forest near the entrance to Yellowstone park, and the men in charge of the fire fighters were exhausted. Such is the substance of a message received at the local forestry service headquarters. The appeal for aid has been answered by sending more men to help subdue the flames. There are 350 men fighting the larger fire and they are expected to gain control of the flames as soon as the heavy wind which has prevailed since last Saturday subsides.

**BURGLARS HOLD UP A TOWN.**

Springdale, Wash., Sept. 1.—This town is just recovering to-day from the shock of a wholesale hold-up, which began Tuesday when a party of burglars attempted to blow open the vaults of the Merchants Bank, and ended that night when they left town after having ransacked every business establishment in the town. Although the bank building was wrecked by heavy blasts of nitro-glycerine, the steel vault withstood the assault of the burglars. They then robbed the stores in town and broke open a sealed car at the station. The only loot they got away with, it is believed, was four bottles of liquor from the local saloon.

**RUSSIA WILL NOT INTERFERE.**

St. Petersburg, Sept. 1.—Declaring that the treaty by which Korea is annexed by Japan is an "historical example of shameless hypocrisy," the Novoe Vremya comments in a bitterly sarcastic tone on the annexation. The paper declares that only because Russian interests in the Hermit Kingdom are insignificant will her diplomat refrain from interference.

**SHOWED FIGHT PICTURES.**

Chicago, Sept. 1.—In spite of a police edict to the contrary, the Jeffries-Johnson pictures were shown Tuesday at a banquet given by the Dupont Powder Company at the Lake Superior Mining Institute. The display of the films was kept secret and the doors were barred while the reels were run. The authorities have refused to say what action would be taken.

**BLINDED BY ACID.**

Walla Walla, Wash., Sept. 1.—The police are to-day seeking to identify the assailant of Fred Cornelius, who was approached on the street Tuesday and a quantity of acid thrown in his face. The victim was blinded and cannot tell who his assailant was.

**AUTOMOBILE TIRE SERVICE.**

Not only in service, but in economy of service, Dunlop Tires give a low average cost per mile, because there is quality in the tire to begin with. That quality is in itself a guarantee of service, and it is backed up by the company's willingness of the Dunlop Company to thoroughly satisfy every user of Dunlop Automobile Tires.

**SEARCHING FOR CANCER REMEDY**

REMARKABLE SPEECH

BY A. J. BALFOUR

Whooping Cough, Alcohol and Pearls Traceable to a Common Cause

Extraordinary interest has been aroused in Great Britain by a remarkable speech made by A. J. Balfour, M. P., at the annual meeting of the general committee of the cancer research fund. Dealing with the progress made by modern science in combating this disease, he said:

"Whoever would have suspected, only a few years ago, that we should see some kind of common cause in such utterly different things as the production of alcohol, the production of whooping cough, and yet I suppose our knowledge of how all those very different results have come about is really due to investigations into the actions of microscopic organisms in various fields acting in very different ways.

"The public ought to remember that all that has been done in tropical medicine, in vaccine therapy, all the triumphs which are going to be won, are based upon this broad investigation into great scientific issues.

"Hereditary and Cancer. "But, accepting that fact, and admitting that the enormous progress of our knowledge with regard to bacteriology will give us but little direct assistance in dealing with the problem of tumors, surely it is true that already the investigations of the fund have given birth to great and important generalizations which may be the foundation of a somewhat hopeful outlook as to the future. I will only mention two, which appeal to me very greatly. One is the investigation of the fund with regard to the hereditary character of cancer.

"Now, let it be noticed that, without our being able to observe relatively short-lived animals, it is almost impossible, in fact it is quite impossible, to arrive at any conclusion as to the influence of heredity. The staff who carry out our investigations have set systematically to work to make these investigations into heredity in connection with short-lived animals, and the result, surely, is of the utmost importance, for I gather that they have arrived at the conclusion that the question of heredity in connection with cancer is almost negligible. I do not know that I may put it higher than that. At all events, nothing has so far clearly come out of experiments conducted on a large scale which should lead us to believe that heredity plays a large part.

**Due to Accidents.**

"If that statement is not unduly incautious, it points—it indicates, at all events—that it may prove that as these malignant tumors are not due mainly to hereditary influences, they are due to what we may very roughly, and sufficiently accurately for the purpose, describe as the accidents of life, or to causes which, at all events, are not inherent; and certainly the investigations of the fund go to show that there are causes which undoubtedly do produce cancer even in the best behaved tissues, even in tissues which in the case of people leading the ordinary normal life never show, or hardly ever show, any malignant growth at all. Well, that surely must be an indication that something can be done to prevent or to diminish cancerous growth. I do not wish in the least to put it too high. I know Dr. Bashford is listening to me with nervous anxiety lest I should give too sanguine a view of the conclusions he has arrived at, and I wish to cut down my statements to the narrowest limits and put them in the most cautious way. But I do not think that even Dr. Bashford, with all his caution, will deny that the investigations made by the fund into the manner in which chronic irritation unquestionably produces cancerous growth, or, more fully, to diminish our knowledge of the causes by which cancer is produced.

**Treatment of Malignant Growths.**

"If, then, we turn to the other, the more difficult, the more critical, and the more important problem of how malignant growths when they are present have to be dealt with, I think it would be a cruel kindness to suggest that we are even within sight of anything that can be called a new remedy for cancer. Yet surely we ought to draw encouragement from those remarkable series of investigations in which it has been shown that the cancer can be checked. It is quite true that no experiments hitherto made upon original tumors have given the same satisfactory results, but we cannot doubt—at least I should think it is difficult to doubt—that there must be a difference only of degree, not of kind, between the original growth and the implanted growth, and it is, therefore, surely not unduly sanguine to say that if in certain circumstances it has been found possible to deal successfully with the implanted growth, we need not abandon hope that by further extending our researches we may be able to deal also with the more virulent and refractory form of the original growth.

**Great Good for Humanity.**

"Now, surely, if I have not overstated the case, here are two great lines of investigation which have attained, or are within sight of, conclusions of the utmost value and importance. And let me think, let none of the lay observers and sympathizers with our work for one moment think, because that work is of great extent, because its foundation has to be laid on a broad basis of scientific experiment, and because the work of the fund does not merely consist of seeking up one or another particular suggestion which are thrown out, very often by quite competent people, in respect to special modes of dealing with cancer, let no man think that because that is not the main work of our fund, the

**CIVIC NOTICE.**

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

- To grade, drain and pave with asphalt Government street, from Belleville street to Michigan street, and to construct boulevards (including maintenance), curbs and gutters, on both sides of said street, between Belleville and Superior street, and the cost of lateral connections to sewers, surface drains and water mains, and moving poles, if necessary.
- To grade, drain and macadamize with bitumen Government street, between Niagara street and Dallas road, and to construct gutters on both sides of said street, including the cost of surface drains and sewer connections, and water main, and moving poles, if necessary.
- To widen sidewalks and to construct curbs and gutters on both sides of Yates street, between Douglas street and Blanchard avenue.
- To construct curbs and gutters on both sides of Quadra street from Blanchard avenue to Pandora street.
- To pave with asphalt Vancouver street (roadway 39 feet wide), and to construct curbs, gutters and boulevards on each side of Rockland avenue between Vancouver and Cook streets, including cost of sewer and surface drain laterals.
- To pave with asphalt Richardson street (roadway 35 feet wide) between Currier and Fairfield streets, and to construct curbs, gutters and boulevards on both sides of said street, including cost of sewer and surface drain laterals.
- To widen grade and rock road to Foul Bay road from Fairfield street to where Foul Bay road crosses Section 6, and that the said work shall be carried out in accordance with the provisions of the Local Improvement General By-Law and amendments thereto, and the City Engineer and City Assessor having reported to the council in accordance with the provisions of Section 4 of said by-law, upon each and every of said works a petition, containing giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the council.

NOTICE IS HEREBY GIVEN THAT the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition, in accordance with the provisions of the Local Improvement General By-Law, is presented to the council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by by-law in that behalf regulate and determine.

Full basement on cement foundation, piped for furnace, electric light and telephone. About 15 minutes walk from the Post Office.

**RAILWAY NEGLECT IS PRIME CAUSE OF FIRES**

Trail Board of Trade Passes a Strongly Worded Resolution on Matter

Trail, Aug. 31.—At a largely attended meeting of the Trail board of trade the following resolution was unanimously carried:

"Whereas along the line of the Castlegar-Trail branch of the C. P. R. numerous fires are caused daily by sparks from the C. P. R. engines, already resulting in considerable property loss and threatening much greater, and whereas the C. P. R. by their neglect to clear the right-of-way and their present continued neglect of proper precautions during the dry time, such as patrolling after trains, using more efficient screens on their engines, or running lighter freight trains in the day-time, as showing a complete indifference in the matter; Be it resolved that the Trail board of trade telegraph this resolution to the minister of lands asking him to take immediate steps to have this condition of affairs remedied."

The neglect of the C. P. R. management to use even the most ordinary precautions is keenly felt along the Columbia river, between Trail and Castlegar. The carelessness displayed in the matter has already caused considerable property loss, and the burning over of the areas along the creeks will have a bad effect on the water supply of the future. With the moss, and green foliage gone from the valleys the snow melts rapidly in the spring and the moisture that feeds the creeks during the summer is not retained. The power line that is one of the mainstays of this part is in constant danger, but perhaps the worst effect is the destruction of the timber.

A little care used in the running of the trains in the day time, and a few special patrols along the track during the dry weather, would prevent these fires. It is probably too much to expect the company to clear their right-of-way, but surely some little attention should be paid to the rights of others. To ranchers, who are properly restrained from setting fires to clear their land, the sight of the daily fires caused by the C. P. R. is certainly annoying, especially when they could be prevented at comparatively small cost to the railway.

**FIRE IN DWELLING.**

New Westminster, Sept. 1.—Fire broke out in the residence of Dr. Drew, on the corner of Carnarvon and Sixth streets, and did considerable damage before it was extinguished.

The fire was caused by some beeswax, which was being heated on a gas stove in the kitchen, boiling over and catching fire. W. Taylor, an employee of E. W. Cook, who was waxing the floors, grabbed the burning mass and attempted to carry it outside, but his hands were so badly burned before he reached the door that the pot dropped from his nerveless fingers.

The best rooms of the house were practically undamaged and only the furniture in the kitchen was burned up. The damage to the roof and the kitchen, together with damage from smoke and water in other parts of the house, will probably amount to over \$1,000, all covered by insurance.

Dr. Drew was well pleased with the work of the firemen, who did heroic work, and did remarkably little damage, considering the extent of the conflagration.

**CUTICURA TREATMENT**

**HEAVY FRUIT CROP IN DUNCAN DISTRICT**

Does Not Pay to Gather Cheaper Varieties—King's Daughters Meet

(Special Correspondence.)  
Duncan, Aug. 31.—A frost on two successive nights last week played havoc with the corn, tomatoes, melons and the more delicate crops growing in the lower-lying lands. The crops on the higher levels escaped. A number of the farmers who had rather poor hay crops owing to the unusual drought were depending on the corn for salvage and this frost, though slight, has destroyed the corn, in a few cases it will be necessary to sell some of the cattle. The rains of the past two days will do an immense amount of good to the crops untouched by the frost.

Throughout the whole district the fruit crop is very heavy, so heavy that prices are as low as they have ever been. For the cheaper varieties of plums and the non-keeping varieties of apples and pears it will scarcely pay to gather them in. In some farms they are allowed to fall to the ground and the pigs are turned in. During the past few years there has been an endeavor to get some plan to prevent this waste by combining to find markets for the best fruit and by establishing a cannery for the poorer sorts, and when the extensive young orchards, which have recently been planted, come into full bearing, something must be done. There is not some cheap way of getting this surplus fruit to some of the charitable institutions on the Island where large quantities could be used.

An important meeting of the local circles of the King's Daughters of Cowichan is to be held on Friday afternoon at the library for the purpose of electing the district secretary. This appointment carries with it the right to a seat on the provincial executive of the order. A report will be read by Mrs. Macdonald on the work during the last year and addresses by Mrs. Holmes and Miss Wilson will be given.

Mr. Cameron, who had been chosen as first assistant of the Duncan school, declined the appointment. The position will be taken by Harold Robinson, B.A.

The Cliff's boarding and day school for girls, and the Quamichan Lake boys' school will re-open on Tuesday, September 6.

Mrs. Bagshaw and her daughter, Mrs. Cowley, Victoria, are guests at the Tzouhalem.

Cuthbert Holmes, Victoria, who motored to Cowichan lake last week, met the stage at a narrow part of the road. The motor could not back so the stage tried with rather unfortunate results on the occupants. No-one was hurt and all took the upset pleasantly.

Fruit packers are at work on some of the farms on Quamichan and Somesnoe lake.

Mr. Hatfield, Shawanigan, who has been spending a year in Cowichan for his health, is taking Mr. Huntington's place at Somesnoe during the latter's absence in England for the winter.

Mrs. Hirsch is spending a few days in Victoria.

Mr. and Mrs. H. D. B. Holmes have returned from a week's visit to Victoria. They attended the garden party at Government House given in honor of Sir Wilfrid Laurier.

Col. and Mrs. Mollie spent a few days in Victoria at the end of the week. Forest fires in the neighborhood of Glenora, about four miles from Duncan, are causing some alarm. During the past two or three summers fires have started in this neighborhood and have often spread, doing more or less damage to adjoining farms. As this district is not near a railway line, the fires that are spreading so frequently in this neighborhood must either be caused by great carelessness or those who start them and do not sufficiently hold them in check, must have a complete disregard for their neighbors. The rains of the past two days have steadied the fires in the neighborhood.

**ROYAL CITY WILL CLOSE BARS AT 11**

New Westminster, Sept. 1.—Starting in about two weeks' time every bar room and every saloon in the city will close their doors at 11 o'clock every day of the week and may not open again till 6 o'clock in the morning. Formerly the bars in the city were allowed to remain open till 2 o'clock in the morning and the present regulation cuts off three working hours. There are several other changes in the liquor license by-law, but the hour change was the most important and aroused the most opposition.

On behalf of the liquor men of the city W. J. Whitehead last night addressed the council. He stated that there were no objections to any of the changes except the hour change, and asked that it be made 12 o'clock instead of 11. He explained that the railways brought passengers into the city up to midnight and it was fair to let the travellers have refreshment if they wanted it.

Ald. Welsh moved that the clause be amended to read 12 o'clock at night instead of 11, and at the suggestion of Ald. Jardine, who seconded the motion, that the clause be changed from 6 o'clock in the morning to 7 o'clock.

When the question went to a vote Ald. Welsh, Jardine and Gray voted for, and Ald. Johnston, Gilley, Bryson and Smith against. The motion to have the hour 11 o'clock carried by the same vote reversed.

Another important amendment inserted in the by-law is to the effect that all hotels over two stories in height be provided with proper fire escapes.

The proprietor of an hotel is made responsible for the goods supplied to the hotel dining room, whether he operates it or not.

**STEWART MERCHANTS CONDEMN GOVERNMENT REFUSAL TO IMPLEMENT SOLEMN PROMISE BY ADVANCE ANGRERS RESIDENTS**

Stewart, Aug. 31.—Action on the part of the provincial government was demanded at a meeting of the Citizens' Association held in the Empress theatre. It seems that Hon. Thomas Taylor, minister of works, pledged his word that the government would advance \$10,000 as a loan for street improvements and donate \$20,000 for sewers, but since that time he has suffered a lapse of memory and for some unaccountable reason the government does not now desire to advance this town a cent. Mr. Taylor has stated "he understood the citizens were to raise \$10,000 by public subscription." Not another person who attended the meeting understood it that way.

It was moved that a deputation composed of Wm. Pigott, Sam. Martin, J. W. Chew, D. J. Zimey, C. H. Dickie and Harry Smith, be requested to wait upon the government to make representations as to the necessity of streets and sewers, wagon roads, trails, and a school.

As the contract for the construction of an approach to the public wharf was let some weeks ago and nothing has yet started, dissatisfaction with the condition was expressed and Mr. McDonald, one of the contractors, stated that the contract called for completion of the work in 60 days from the start and there was no specification as to the time the work should start. He said he expected to begin work in time to have the approach completed by October 1. The executive committee is to scrutinize the contract.

—Once in a great while promoters make good. The Amalgamated Development company has done so.

1218 DOUGLAS STREET.

**ROYAL CITY WILL CLOSE BARS AT 11**

New Westminster, Sept. 1.—Starting in about two weeks' time every bar room and every saloon in the city will close their doors at 11 o'clock every day of the week and may not open again till 6 o'clock in the morning. Formerly the bars in the city were allowed to remain open till 2 o'clock in the morning and the present regulation cuts off three working hours. There are several other changes in the liquor license by-law, but the hour change was the most important and aroused the most opposition.

On behalf of the liquor men of the city W. J. Whitehead last night addressed the council. He stated that there were no objections to any of the changes except the hour change, and asked that it be made 12 o'clock instead of 11. He explained that the railways brought passengers into the city up to midnight and it was fair to let the travellers have refreshment if they wanted it.

Ald. Welsh moved that the clause be amended to read 12 o'clock at night instead of 11, and at the suggestion of Ald. Jardine, who seconded the motion, that the clause be changed from 6 o'clock in the morning to 7 o'clock.

When the question went to a vote Ald. Welsh, Jardine and Gray voted for, and Ald. Johnston, Gilley, Bryson and Smith against. The motion to have the hour 11 o'clock carried by the same vote reversed.

Another important amendment inserted in the by-law is to the effect that all hotels over two stories in height be provided with proper fire escapes.

The proprietor of an hotel is made responsible for the goods supplied to the hotel dining room, whether he operates it or not.

**STEWART MERCHANTS CONDEMN GOVERNMENT REFUSAL TO IMPLEMENT SOLEMN PROMISE BY ADVANCE ANGRERS RESIDENTS**

Stewart, Aug. 31.—Action on the part of the provincial government was demanded at a meeting of the Citizens' Association held in the Empress theatre. It seems that Hon. Thomas Taylor, minister of works, pledged his word that the government would advance \$10,000 as a loan for street improvements and donate \$20,000 for sewers, but since that time he has suffered a lapse of memory and for some unaccountable reason the government does not now desire to advance this town a cent. Mr. Taylor has stated "he understood the citizens were to raise \$10,000 by public subscription." Not another person who attended the meeting understood it that way.

It was moved that a deputation composed of Wm. Pigott, Sam. Martin, J. W. Chew, D. J. Zimey, C. H. Dickie and Harry Smith, be requested to wait upon the government to make representations as to the necessity of streets and sewers, wagon roads, trails, and a school.

As the contract for the construction of an approach to the public wharf was let some weeks ago and nothing has yet started, dissatisfaction with the condition was expressed and Mr. McDonald, one of the contractors, stated that the contract called for completion of the work in 60 days from the start and there was no specification as to the time the work should start. He said he expected to begin work in time to have the approach completed by October 1. The executive committee is to scrutinize the contract.

—Once in a great while promoters make good. The Amalgamated Development company has done so.

**UNCLE WALT THE POET PHILOSOPHER**

Much I admire the jaunty tribes of brilliant paragraphing scribbles who make the daily journals shine with effervescence, as of wine, and charm you with their graceful fun—unless they chance to dot you one. Too often has some brilliant thing a most unnecessary sting; too oft is thrown a shining lance that makes some harmless fellow prance, as though a bee, with weapon hot, had soaked him in a tender spot. Too often something lightly said has filled a heart with hate and dread, or queered some upright Injun's game, or bowed some woman's head in shame. I hold it good to roast the shams and gaily flay the human hams whose work is coarse and purpose vile—it's good to slay them with a smile. But when we, just to make a jest, bring sorrow to some pilgrim's breast, or do injustice to some man who's sawing wood the best he can, or wound with thoughtless words some heart, it seems a shame that we're so smart!

—Oak Mead

**BRITISH-AMERICAN TRUST CO., LTD.**  
Broad and View Streets.

**FOR SALE**  
ONE ACRE and large house with four bedrooms. This property is on slightly corner of Dominion Road, close to car and school. Price, on terms . . . . . \$5,500

MONTREAL STREET, large corner lot and 2 story house. Price \$6,000, on long terms.

We have several fine properties for sale in best part of Oak Bay, on terms of small payment down and balance monthly.

**A. M. GREGG**  
REAL ESTATE, INSURANCE, ETC.  
620 JOHNSON ST.

**SNAP!**  
HOUSE, 6 ROOMS, McCaskell street, Victoria West. Price \$1,450; \$450 cash. Balance in two years at 7 per cent. This home has just been handsomely painted inside and out. The walls, ceiling and floors have all been under the painter's brush. Not the old style kalsomine that peels off every time you close a door, but with first class enamel paint that will last for years. The lot is 55x110; highly situated, commanding a fine view of the surrounding country, and is close to the George car line. The price is within reach of the average workman. Hear is your chance now—Don't put it off. Act to-day.

**GORDON HEAD WILL BE SCENE OF PICNIC**

Farmers' Institute Hold One on Labor Day—Cedar Hill Football Club

(Special Correspondence.)  
A basket picnic under the auspices of the Victoria Farmers' Institute will be held at Cordova Bay (Todd's Beach), on Monday, September 5, at 2 p. m. The programme of sports, to commence at 3 o'clock, is as follows: 100 yards race, 50 yards race (boys under 12), 100 yards race (boys under 16), 440 yards race, 50 yards race (girls 12 and under), needle and thread race (ladies), sack race (boys under 16), the mile relay race (Royal Oak vs. Cedar Hill, in sets of three), egg and spoon race (ladies), running high jump, running long jump, tug-of-war (Royal Oak vs. Cedar Hill, 6 to a side), sack race (boys under 13), 50 yards race (girls under 16).

The annual meeting of the Cedar Hill Football Club was held in St. Luke's hall on Monday evening, August 23, with Watson Clark in the chair. The following officers were elected: President—Captain Cullin. Vice-President—Watson Clark. Hon. President—H. L. Toms. Hon. Vice-President—Reeve Nicholson.

Second Hon. Vice-President—C. E. Curry.  
Sec. Treasurer—C. E. King.  
Capt.—F. Dawson.  
Vice-Captain—Alec. Scott.  
Trainer—Captain Cullin.  
Delegates—W. Clark, F. Dawson, C. Campbell.  
Grounds Committee—Rev. H. A. Collier, W. Clark, C. E. King.  
Social Committee—B. Bradshaw, F. Dawson, C. Campbell.

It was decided to enter the Senior City League, and practices will commence immediately. A concert will be held at an early date to raise funds.

The monthly meeting of the Lake Hill Women's Institute will be held on Wednesday, 14th September, instead of the regular meeting on the 13th Wednesday of the month.

Miss Nancy Bradshaw spent the week end at Jordan river.

Albert Bradshaw has returned from a trip to Newfoundland.

**TO REALLY CURE SICK KIDNEYS**  
You Must Also Get the Liver and Bowels Right With DR. A. W. CHASE'S KIDNEY AND LIVER PILLS

Strange, isn't it, that the intimate relation of the liver and kidneys should have been so long overlooked? And yet Dr. A. W. Chase's Kidney and Liver Pills owe their wonderful success to the recognition of this most essential point.

They ensure regular, healthful action of the liver and bowels, and thereby once raise a burden from the kidneys and restore them to strength and vigor.

There is no way you can so quickly free yourself of backaches as by using Dr. A. W. Chase's Kidney and Liver Pills.

Headaches disappear, biliousness and constipation is overcome, digestion improves, and you feel fine in every way.

What's the use of experimenting with new-fangled medicines of uncertain and untried value, when you can be sure of splendid results by the use of Dr. A. W. Chase's Kidney and Liver Pills. One pill a dose, 25 cts. a box, all dealers, or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

**THE B. C. LAND & INVESTMENT AGENCY, LTD.**  
322 GOVERNMENT STREET.

**FOR SALE, CHEAP, ONE OF THE BEST KNOWN FARMS NEAR WEST HOLME.**

This most desirable property consists of 160 acres, of which 35 is good bottom land under cultivation and pasture, three small paddocks and orchard. The remainder is bush land, containing some timber, parts of which can easily be cleared. Creek runs through property. Bottom land stands dry summers and will grow anything.

WATER is obtained by gravitation from tank on property, and water rights are recorded. Water is laid on to house, garden, barn and stable yard; also well and pump in garden.

**FARM BUILDINGS**—One Barn, 11 cow and 2 cat stalls; 1 loose box, 2 stall stable; separator house; machine house, buggy house and granary with loft overhead; two pig-sties; three fowl houses and 4 enclosed runs; good 4-room cottage and wood shed.

**HOUSE**—The dwelling is a good, modern one, containing 2 sitting and 4 bed rooms, kitchen, pantry, larder, bathroom (h. and c.), W. C. connected with septic tank, linen room; woodshed and workshop behind house; verandah 3 sides of house; china, glass and kitchen utensils are included.

**STOCK**—Three horses, 8 cows (4 Holstein, 1 Jersey, 3 grades), 1 heifer (Holstein), 1 bull calf (pure bred Holstein), 4 pigs, 30 head of fine bred poultry.

**IMPLEMENTS**—All implements (space will not permit of enumeration) are included in the purchase price.

**SITUATION**—This farm lies in a sheltered position on trunk road 4 miles from Duncan, 1 1/2 miles from Westholme, P. O., and one mile from Tye Slides.

The house is in thoroughly good repair, and newly furnished throughout, including glass, china and kitchen utensils.

The reason that this property is up for sale is, that the owner has to leave to attend to urgent business in England.

PRICE IS \$14,000.  
Half cash, remainder at 6 per cent. for 6 years. This includes furniture, or if desired can be purchased without furniture.

**C. A. MCGREGOR**  
Has removed from Wharf street to No. 837 Caledonia avenue. Will still be pleased to attend to jobbing carpentering.

PHONE 1430.

**REMOVAL NOTICE.**  
The North Victoria branch of the Canadian Bank of Commerce are now occupying their new premises, corner Douglas and Bay Streets.  
A General Banking Business Conducted.  
H. R. BEAVEN, Manager.

**J. FOSTER**  
Has Purchased THE WINDSOR CIGAR STAND  
Government street, lately kept by Frank Le Roy, and will be pleased to see his friends and former customers. All first class brands of Tobacco and Cigars in stock.

**PUSHING ON THE STEEL.**  
Prince Rupert, Aug. 31.—Superintendent W. C. Mehan has returned to the city after going up the line to the end of steel with President Hays. Superintendent Mehan says that the line is making rapid progress eastward in spite of the shortage of labor.

"They were at mile post 18 when we arrived," he said. "We made the run in three hours, pretty good running over a new line, and found things well forward and going ahead fast on our arrival. I expect they are at mile 60 to-day."

"If men want to keep on progressing, we have a fair squad, but we can do with many more."

**SHIPPED FIR SEED.**  
Large Consignment Being Sent From Cariboo to Germany.  
Quesnel, Aug. 31.—The Hudson's Bay Company from Quesnel are shipping over two hundred pounds of fir seed to the German Forestry Association. These seeds are gathered in the shape of cones, then dried and threshed, and from about one hundred pounds of fir cones only one pound of seed is obtained. These seeds when planted in Germany grow rapidly, and in the course of a few years Canadians may visit a Canadian forest in Germany.

**LARGE FRUIT EXPORT.**  
Over Five Hundred Cases a Day Being Sent Out From Penticton.  
Penticton, Sept. 1.—From now on the fruit shipments for the remainder of the season out of Penticton will average over 500 boxes a day, or more than half a carload every twenty-four hours, according to statistics compiled from the reports of ranchers and fruit men.

Last week shipments took a big jump from about 150 to 300 boxes a day. This was caused by the arrival of St. John, Imperial and Carmen peaches and early apples.

—The refinery for the product of the oil wells of the Amalgamated Development company at the Katalia oil fields is already under construction. Invest

#### A COMEDY OF AVIATION.

A lady aviator, with the curious name of Mile. Abukala, is in constant conflict with the mayor of Etampes, in which town, or rather outside which town, she flies. Mr. Mayor is a stickler for what he considers propriety in dress. What may be suitable in the air does not befit the earth.

Every day Mile. Abukala puts on knickerbockers and overalls to fly. As long as she flies, well and good, and the mayor of Etampes has nought to object. But she must come to earth some time, and as there is no dressing accommodation on the aviation field just outside the town she has to go home still wearing knickerbockers. This, says the London Telegraph's Paris correspondent, shocks Mr. Mayor.

Every day, Mile. Abukala flies, and every day, as she re-enters the highly respectable city of Etampes in rational dress, an official deputized by Mr. Mayor at the boundary takes a summons out against her for being improperly clad.

### CASE PRESENTED TO COMMISSION

#### RAILWAY BOARD HEARS F. C. SORBY

Secretary of Inner Harbor Association Deals With Requirements of E. & N. Bridge

T. C. Sorby, secretary of the Inner Harbor Association, presented the following affidavit to the railway commission at the session held this afternoon:

1. That Thomas Charles Sorby, of the city of Victoria, province of British Columbia, architect and engineer, make oath and say as follows:

2. That I am secretary of the Inner Harbor Association of Victoria, B.C., and am well acquainted with the inner harbor, the map hereto attached marked T. C. S. 1, was prepared by me and approximately shows the course of navigation in the inner harbor.

3. That from my own personal knowledge I say that the swing bridge belonging to and operated by the Esquimalt & Nanaimo Railway Company is an impediment to the free navigation of the harbor of Victoria.

4. That I have noticed from my own observation and say that it takes from 15 to 20 minutes to open and close the swing bridge, that is to say that passenger and other traffic cross the bridge is interrupted for at least that length of time, and as a consequence the railway company will not open the bridge within half an hour of any train being due to cross the bridge whether the train be on time or late.

5. That there are six lumber mills and five ship-building plants amongst other industries above the railway swing bridge, and all these have greatly increased and in several cases doubled their capacity or output within the last three years as a direct consequence to the improvement of the harbor and in the near future these enterprises will be further increased.

6. That the work of deepening the entrance to the harbor from 16 to 20 feet at low water is steadily proceeding, and when this is completed by the federal government, ships drawing 26 feet will be able to load up at the mills and pass out to sea at high water. But unless these ships are secured free navigation at all available or suitable times they cannot use the upper harbor.

7. That the spring tides occur three and four days successively at new or full moon, rising from eight to eleven feet and dropping quickly, and a heavy laden vessel could only leave safely on the rising tides of these periods.

8. That the Elginshore, a four-masted barque, of the Michigan & Puget Sound Lumber Company's mills, in the upper harbor, fully laden, on the 30th of July, was the pioneer boat of the export lumber trade rendered possible by reason of the foresaid improvement of the harbor, and was laden with nearly two million feet of Delagosa Bay. She was 285 feet long, 40 feet beam, 24 feet 7 inches molded depth, 2,228 tons register, and loaded drew 21 feet 4 inches aft. High water was due at 8.32 on that evening, when there should be 24 feet in the channel at the entrance to the harbor, a position about 45 minutes distance from her starting point. She cast off her moorings and was ready to start at 6.50 and was in charge of Pilot Captain G. Bucknam; the tug-Lorne whistled for the bridge to open at 6.55; the expected train came in at 7.15; the bridge was not opened until 7.28 and the boat got away at 7.31, after a delay of 34 minutes, and further delay would have kept her in the harbor and she would have lost two or more tides. The distance from wharf to the bridge is about 500 yards. Vessels of this and larger tonnage are likely to enter the port in the immediate future.

9. That the development of the numerous industries in the upper harbor depends very largely upon the building up of an export trade, and the impediment to free navigation caused by the antiquated mode of operating the bridge is fatal to this legitimate expansion. A delay in the opening of the bridge might at any time lead up to the grounding of a ship, with the result that only small vessels of insufficient capacity would use the harbor.

10. Sworn at the city of Victoria, province of British Columbia, this 1st day of August, 1910, before me, R. B. McMicking, a commissioner for taking affidavits within British Columbia.

THOS. CHAS. SORBY.

#### CAPTAIN'S DEATH VIGIL

Pathetic regard for the last wishes of a wife who died at sea.

A touching story attaches to a strange funeral at Falmouth cemetery. The body of Mrs. Parker was consigned to its last resting place in a rough case measuring nearly 7 feet long and 2 feet 6 inches in breadth and depth. She was the wife of the captain of the barque Samaritan, and died from slow fever whilst on voyage from Australia.

As she had expressed the wish to be buried ashore the body was enclosed in a wooden case, made on board, and this was placed in the ship's lifeboat for twenty days and nights. The husband and a fifteen-year-old daughter kept watch over the coffin until the ship arrived at Falmouth.

The improvised coffin was covered with black cloth and a breastplate was attached, and over it the Union Jack was placed. All ships in port bore flag at halfmast during the funeral, and every captain attended the procession, which was headed by the bereaved husband and daughter, followed by the entire crew of the Samaritan.

## Solid Comfort Chairs

And Other Furniture in Leather—The Satisfactory Sort

"Solid Comfort Chairs"—that's a splendid name for those leather-upholstered chairs we are showing on our third floor. They are certainly built with a view to giving the maximum of comfort.

And being built in a substantial way, they'll be "solid comfort" chairs for many years. Come up to our third floor and see the striking designs we are showing—big, strong, stylish Morris chairs, arm chairs, arm rockers, settees, etc.

These furniture pieces are built from selected woods, finely finished, and upholstered in best manner with best leathers. With ordinary use they'll last a lifetime, and always be the "most sought" furniture items in the home.

MORRIS CHAIRS	ARM CHAIRS	ARM ROCKERS	SETTEES AND SUITES
In leather upholstered Morris Chairs we show a splendid range of styles and prices. The most popular chair made. You'll find some "classy" chairs in this collection. Prices start at	Some folks prefer an Arm Chair to either Rocker or Morris, and to those we commend this excellent showing of arm chairs in the leather upholstered section. Many styles and prices. Marked from	The Rocker seems to be the ideal chair for many, and those partial to this style of chair will find the choosing of a suitable rocker easy if they make their selection from this stock. Priced from	In Settees we have many luxurious styles, and in suites many of unusual merit in design and quality. If something in the settee line is desired, don't fail to see our offerings, and if you prefer to choose a suite to odd pieces, don't miss ours.
\$35	\$12	\$12	

### Here's Something For Your Bedroom

A "Four Poster" Bed of Unusually Stylish Design

If you want something specially stylish in the way of a bed for your "best" bedroom, by all means see this new "four-poster" we are showing on the third floor.

It is a genuinely handsome bed in the Colonial style. Made of mahogany and finely finished in that desirable wax finish. A well made, stylishly designed and finely finished bed that would improve the appearance of any bedroom. Priced at \$60.00.

We have a Costumer to match this, priced at \$12.

### See These New Table Cloths In Window

### IDAHO HAS JOINED INSURGENT COLUMN

Progressive Candidate Secures Republican Nomination Over the Regular

(Times Leased Wire.)  
Boise, Idaho, Sept. 1.—There is no doubt to-day but that Idaho has joined the insurgent column. Although all the returns from the state are not in, it is election within the state are not in, it is conceded that Burton L. French, progressive, is assured of the nomination over Thomas H. Hamer, regular, for congress. Hamer is the present incumbent.

French carried practically every county, running particularly well in the Idaho Pan-handle. In southeastern Idaho, Hamer's stronghold, the insurgent candidate continued his success over his "stalwart" opponent. The insurgents assert that French's victory is overwhelming, and is another indication that voters have tired of standard-pattern and organization rule.

Gov. Brady, who is up for renomination, probably will succeed in his quest. According to the returns to-day, he was leading Cragston, who is running second, by a comfortable plurality.

To-day the race for the Republican gubernatorial nomination was led by Cragston, with Cragston second, O'Neill

### ALASKA LAND FRAUDS

Washington, Sept. 1.—Attorney-General Wickersham and Secretary Nagel, who have been in Alaska all summer, will land at Seattle on September 6th. It is generally assumed that they have been in Alaska making a special investigation of conditions for President Taft. The Attorney-General probably will go to Beverly on his return.

HOAXED BY CHILDREN.  
New York, Sept. 1.—Ten Brooklyn firemen and policemen are under the care of surgeons after having nearly lost their lives as the result of being hoaxed by children. The firemen were told by children that one of their number, a little girl, had fallen through a manhole into a great sewer. The men organized a rescue expedition and went into the "big pipe" in search of the supposed missing child. They were overcome by the deadly sewer gases and were brought to the surface unconscious.

### POTATOES. POTATOES.

We have a carload of the best on the market and while they last we will sell at reasonable prices, 1.25 per 100 lbs.
