Coal Deliveries by Germans Discussed at Spa Conference

Allied and German Representatives Met Again This Forenoon; Stinness, German Coal Magnate, Inclined to Be Outspoken; Attitude of Berliners.

Spa, Belgium, July 10.—The Allied and German conference in session here met at 11 o'clock this morning and resumed the discussion of the coal question.

Before entering the conference room, Hugo Stinness, the steel and coal magnate, who is sitting with the German delegation, said he had come here to take part in what he supposed would be a technical discussion over the German coal deliveries to the Allies, and that he was disposed to express his mind frankly upon what he considered the unreasonable course of the Allies yesterday in simply announcing their will without giving opportunity for full discussion by the technical experts of the various countries, who know so much about the coal question that it is impossible for one to deceive another.

M. Hillgard, the Swedish authority on coal, is here in connection with the conference and Dr. Walter Rathenau, president of the German General Electric Company, has arrived to take part in the reparations discussion, with Dr. Theodor Meißner, the German financial expert.

Berliners' Attitude. London, July 10.—News that the German delegation at Spa had signed the agreement to accept the Allied demands regarding disarmament was received quietly in Berlin yesterday afternoon, says a dispatch to The Times, filed in Berlin late yesterday. The people, the message says, generally recognized Germany must accept the Allied terms, although there was much activity in political circles and some popular feeling against the disbanding of the Security Police.

Wissat Course. "The impression was general here," says the dispatch, "that it was useless to trifle any longer with the Entente, and that it was best for the Germans to make terms with their adversaries quickly, lest worse things befall. The public has shown no sign that it was particularly interested in the decision at Spa."

TWO RESERVATIONS MENTIONED BY COX

The Democratic Presidential Nominee Wants States a Member of League

Dayton, Ohio, July 10.—Governor James M. Cox, Democratic nominee for the United States Presidency, is in favor of ratification of the Treaty of Versailles and the League of Nations with two reservations, according to his campaign manager, and they will form the keynote appeal to the people of the United States in his forthcoming campaign.

These proposed reservations on the League would provide as follows: 1.—That the United States signs with the agreement and understanding that all the signatories are bound together for only one reason—to keep the peace in the world.

2.—That without any suggestion that the United States seeks to shirk its obligations, the League participants should clearly understand that the war-making power is vested in Congress and that the United States could not act except in harmony with any League discussion.

Will Fight. In speaking of the League issue his campaign managers pointed out that in a recent speech Governor Cox declared that the League was imperative and that it was his intention to fight for it to keep faith with the boys who went overseas.

His advisers say there has been no change in his views. Their interpretation of the Governor's position was that he would insist in his campaign upon such a ratification of the treaty as a League as would not trespass on the principles of the document and he would fight for Article Ten without weakening reservations.

To Have Discussion. Dayton, Ohio, July 10.—Governor James M. Cox and Franklin D. Roosevelt are expected to have a discussion on the League of Nations question at the latter's home in Hyde Park, N. Y., on Sunday.

Commission Will Find Facts For Leipzig Trials

Spa, July 10.—German contentions that the list of Germans accused of violations of the laws of war must be reduced if the collapse of the Berlin Government were to be avoided were discussed by a commission which met here yesterday afternoon, according to an official announcement.

NEW CUSTOMS AIR HARBOR PLANNED AT VIRDEN, MAN.

Ottawa, July 10.—(Canadian Press) On the first notice of permission to establish a public Customs air harbor appears in this week's issue of The Canada Gazette, and covers land at Virden, Man. The site of the harbor is 800 yards in diameter.

Railways Ask Commission to Raise Freight Rates

Montreal, July 10.—(Canadian Press)—The Canadian Railway Association, representing all the lines in the Dominion, announced to-day that an application had been filed this morning with the Railway Commission at Ottawa for a thirty per cent. increase in freight rates.

The Railway Association, in the course of its announcement, stated that the application is based entirely upon present costs of railway operation, including cost of labor and cost of materials. The increases in these costs to date, according to the application, exceeds by enormous sums the increased revenue obtained from the advance in rates granted in August, 1918. At that time wage increases were promised and given to the railway employees based on the increases given, or to be given, in the United States under the so-called Meadlow Award, although these increases were accompanied by rate changes calculated to offset the added wage expense, the effect of the new rates being to add \$12,000,000 to the gross revenues against \$80,000,000 additional wage costs, thus creating a discrepancy of \$70,000,000 for the first year following the introduction of the new rates of wages and tolls. This discrepancy, instead of shrinking, is daily growing greater, say the railway officials.

The prices of coal, rails, engines and other principal needs of the roads have risen, they claim, by more than 100 per cent. since the beginning of the war period.

CELEBRATION AT BELFAST MONDAY

Battle of Boyne to Be Commemorated; Good Order Is Anticipated

Belfast, July 10.—It is announced that delegates from Canada are to take part in the big parade of Orange men which is to be the feature of the celebration of the anniversary of the Battle of the Boyne on Monday.

Notwithstanding the sensitive condition of public feeling, confidence that order will not be disturbed is expressed by officials here. Elaborate preparations are being made for the celebration.

At Park. Demonstrations have been forbidden in the city itself, but arrangements have been made for a great military meeting at a park four miles distant, to which all processions will lead. It is expected that 20,000 persons will march in the parade. In addition to the Canadian delegates there will be representatives of Orange societies in Australia, New Zealand, South Africa and the United States.

Sir Edward Carson, the Unionist leader of Ulster, will be the chief speaker and will propose a resolution appealing to the Government "to deal resolutely with the cruel and treacherous warfare being carried on in Ireland," and pledging Ulstermen "to ever do their duty as loyal British citizens, if called upon."

Resolution. Among the other resolutions will be one expressing the determination of Orangemen "to defend the civil and religious liberty for which their ancestors fought at the Boyne River."

Several detachments of soldiers in full equipment were detained at suburban stations yesterday and marched into the city.

The City Council at a meeting yesterday defeated a proposal to close the saloons on Monday, the vote being twenty-eight to twenty-seven.

Public meetings on Monday have been forbidden in Londonderry.

UNABLE TO COME. Guelph, Ont., July 10.—Major Westoby, of this city, has received a letter stating that it is feared that Premier Lloyd George will not be able to visit either Canada or the United States this year. An invitation to Guelph had been extended.

SIR T. WHITE AND W. H. TAFT AS TWO G.T.R. ARBITRATORS

Toronto, July 10.—Hon. J. D. Reid, who was in this city to-day, secured the acceptance by Sir Thomas White of the position of arbitrator for the Dominion Government in the taking over of the Grand Trunk Railway. Mr. Reid said he thought that W. H. Taft, former President of the United States, might be the Grand Trunk arbitrator.

LORD FISHER DIED IN LONDON TO-DAY

First Sea Lord of Admiralty October, 1914, to May, 1915

Famous Official Who Developed Dreadnought Type of Warship

London, July 10.—Admiral of the Fleet, Baron Fisher, of Kilverstone, former First Lord of the Admiralty died this morning.

Lord Fisher underwent a serious operation yesterday and failed to rally. He had been ill since May. Lord Fisher began his naval career in 1864 and while on active service took part in the Crimean, Chinese and Egyptian wars.

In 1897 he was appointed Commander-in-Chief of the North American and West Indies Station, choosing as his flagship H. M. S. Renown. The comparative leisure of the post enabled him to devote serious thought to the future manning (officers) of the navy.

On July 1, 1898, he became Commander-in-Chief of the Mediterranean Station, the Renown following him and still remaining his flagship. On May 1, 1902, he relinquished his command, and in May, 1904, Second Sea Lord. On August 31, 1903, he became Commander-in-Chief at Portsmouth, and on October 20, 1904, he returned to the Admiralty, this time as First Sea Lord. That post he held for six years.

War Leader. He emerged from retirement in October, 1914, to resume his post as First Sea Lord of the Admiralty and direct the naval warfare against Germany. His vigorous policy caused him to be termed the Kitchener of the navy, and chief credit has been claimed for him in the bottling up of the German navy. Cabinet disputes led to his resigning in May, 1915, but he continued to serve the British Government in various capacities throughout the war, and was a prominent naval critic.

He was born on the island of Ceylon, January 25, 1841, and was the son of Captain William Fisher, of a Highland Regiment stationed in Ceylon at that time. He entered the navy when only thirteen years old and was commissioned a lieutenant in 1860. From that time on his rise in the service was continuous. He was married in 1866 to Miss Frances Broughton, who died in 1918. He is survived by one son and three daughters.

Popular. Lord Fisher was for many years a popular idol in Great Britain, enjoying the affection and confidence of every rank of the people. He was known as the "Father of the Dreadnought," because he was the first to realize the vast power of this type of warship. During his term as First Sea Lord of the Admiralty, from 1904 to 1915, he virtually revolutionized the navy, entirely changing the old established and outworn strategic

operation was EXTRAORDINARY ONE

Chicago, Surgeon Removed Skin From Own Leg and Grafted It on Wife

Chicago, July 10.—Details of an extraordinary surgical operation were made public yesterday with a double operation performed by Dr. Orlando F. Scott on himself and his wife yesterday.

To prevent amputation of his wife's right leg, Dr. Scott sliced twelve inches of skin from one of his own legs and grafted it on the injured member of his wife.

Throughout the operation, which lasted an hour, Dr. Scott talked with internes and students, explaining each step as it was taken and what steps were to follow. He took no anesthetic and despite the pain showed no outward signs of suffering.

New Brunswick Votes On the Liquor Question

St. John, N.B., July 10.—The province of New Brunswick is voting to-day on a referendum which will empower the Government, first, to retain the present bone dry prohibition law passed during the war, or second, to introduce wine and beer licenses, or third, permit the sale of all spirituous liquors under license.

Bright sunshine favored the voters to-day. The early vote here was only in fair volume but a great effort was made to increase the vote. The prohibition adherents were particularly well equipped and said that the early voting appeared to be much in their favor.

Mr. Meighen Sworn In To-day as Prime Minister of Canada

Hon. C. C. Ballantyne Sworn In as Minister of Marine and Fisheries and the Naval Service; Borden Bade Farewell to Colleagues at Cabinet Meeting.

Ottawa, July 10.—(Canadian Press)—A few minutes before 11 o'clock this forenoon Sir Robert Borden bade farewell to his last meeting of the Cabinet Council. He bade farewell to his colleagues. Then, accompanied by his successor, Hon. Arthur Meighen, and Hon. C. C. Ballantyne, he left for the office of the Governor-General, where Mr. Meighen and Mr. Ballantyne were sworn in as the first members of the new administration.

Mr. Meighen took the office of Prime Minister; Mr. Ballantyne resumed his old portfolio of Marine and Fisheries and the Naval Service.

Mr. Meighen is the first to be sworn in as Prime Minister. In previous administrations there was technically no distinct office of Prime Minister. The Prime Minister was first Minister, but held another office in addition, such as Secretary of State for External Affairs (as was the case with Sir Robert Borden), for which he received a salary. Under legislation passed last session, however, there was made a distinct office of Prime Minister and it was to this office that Mr. Meighen took oath this morning.

Health Department. Ottawa, July 10.—(Canadian Press)—There is considerable speculation over the fate of the newly-created Department of Health. Since the Department came into being it has been administered by Hon. N. W. Rowell, President of the Privy Council. With the resignation of Mr. Rowell, however, and the probable merging of the Presidency of the Privy Council with the Department of External Affairs, it is expected that the Department of Health will be placed in the hands of a Minister holding some other portfolio, possibly Hon. J. A. Calder.

White's Attitude. Toronto, July 10.—Sir Thomas White said in an interview here last evening that he had nothing to add to a statement which he gave the press on Tuesday evening. He was well satisfied with the political situation at Ottawa, and expressed an affectionate personal regard for Hon. Arthur Meighen. He stated that he was in harmonious accord as to the choice of the new leader, and that he looked with confidence to a continuation of stable government in Canada.

MEDICAL COURSES AT QUEEN'S CHANGEL

Kingston, Ont., July 10.—The medical faculty of Queen's University has adopted the six-year course to apply first to matriculants of September, 1920. At the same time there will come into effect a seven-year course in arts and medicine, the degree of B. A. to be granted at the end of five years and the degree of M. D. at the end of seven years.

CITIZENS WORK AT ROAD-MAKING

Port Arthur and Fort William People Want Summer Resort Link

Port Arthur, July 10.—At 2 o'clock this afternoon between 500 and 700 Port Arthur and Fort William citizens, including doctors, lawyers, merchants, civic officials, aldermen and members of the Rotary and Kiwanis Clubs, embarked on a road-making bee four miles east of Port Arthur. Requests had been made in the past to the Ontario Government for road-making over a stretch of two miles to link up the cities with Wild Goose Point, a popular summer resort. The road was passable for light horse-drawn vehicles, but not in shape to handle automobile traffic, so the local citizens took the matter in their own hands and are constructing the road themselves.

Fort William, Ont., July 10.—Miss E. Dickson, of Toronto, was to-day elected president of the Canadian Association of Trained Nurses, in convention here. Miss Jean Browne, Regina, and Miss Ethel John, Vancouver, were elected first vice-president and second vice-president, respectively.

Miss K. Davidson, Montreal, and Miss McMillan, Edmonton, were elected treasurer and secretary respectively. Councillors elected were: British Columbia, Miss H. Randall and Miss J. F. McKenzie; Saskatchewan, Miss J. Urquhart and Miss Jean Wilson; Alberta, Miss L. M. Eddy and Miss Winslow.

Quebec was chosen as the place for the 1921 meeting of the Association.

A. Moore Superintendent of Roads in the Ontario Government, is watching the operations.

Polish Troops Fall Back to Their Own Frontier

Paris, July 10.—Polish forces are withdrawing from Brest-Litovsk, Vilna and Pinsk, as a result of the great Russian Bolshevik offensive, according to a telegram received by the newspaper L'Information this morning.

47,354,000,000 FRANCS IS TOTAL OF FRENCH BUDGET

Paris, July 10.—The Chamber of Deputies last evening adopted finally the 1920 budget, comprising 18,815,000,000 francs for ordinary expenses, 7,531,000,000 francs for extraordinary expenses and 21,008,000,000 francs for expenditures recoverable from Germany, making the total budget 47,354,000,000 francs. The budget now goes to the Senate. The Chamber of Deputies adjourned till July 20.

SOLD MORE SUGAR AT BIGGER PROFIT

Head of Retail Grocers' Association Says He Had Good Year

Ottawa, July 10.—That he had sold more sugar during the last year, had made a bigger profit on this commodity than ever before, and that he was entirely satisfied with the present restrictive regulations of the Board of Commerce with regard to the sale of sugar, which he thought were quite fair, was the outspoken and most unexpected statement made by B. G. Crabtree, president of the Retail Grocers' Association, at a conference between the newly-constituted Board of Commerce and a delegation representative of the different retail trades. Mr. Crabtree's remarks were in direct opposition to those of other members of the association.

RAISE BRIDGE BOND INTEREST

City Must Pay Higher Interest on Johnson Street Bridge Debentures

Changed conditions on the money market have decided city financial heads to raise from five and one-half per cent. to six per cent. the interest on the \$25,000 bond issue to be floated to pay for the installation of the new Johnson Street bridge.

Alderman W. J. Sargent, Chairman of the Civic Finance Committee, to-day posted notice that he would introduce at Monday night's meeting of the City Council a by-law to authorize the increase in interest on the bridge debentures. The by-law which will authorize this change will be called the Johnson Street Bridge By-law Amendment By-law, and probably will be put through its first two readings immediately after introduction.

When the Johnson Street Bridge By-law was placed before the electors it provided the \$25,000 should be borrowed with interest at five and one-half per cent. Since the electors endorsed the by-law, however, the money market has so changed that it has become impossible to issue bonds at that rate of interest and sell them at a sufficiently high figure. The civic authorities found it necessary to make a similar increase of one-half per cent. on bonds issued to pay for paving on Fairfield Road. Consent for the change will be required from the Lieut.-Governor-in-Council.

An increase of one-half per cent. on the bonds results in an increase in the annual interest payments which the city must meet of about \$2,000.

NO RECEPTION FOR GOVERNOR-GENERAL

Glace Bay Town Council Refuses, But Mayor Organizes Committee

Glace Bay, N. S., July 10.—Following the refusal of the Town Council to take any action regarding the Governor-General of Canada and party, the Mayor has announced that he will form a citizens' committee and give the visitors a reception befitting the occasion.

Councillor Bagnell was the spokesman of those opposed to a civic reception. He stated that he had seen His Excellency from a distance at Truro. He appeared to have a good pair of legs and should be able to come in and out of town without any assistance from the Council. He would not sanction the Council spending "one red cent" on the Vice-Regal party.

BOLSHEVIKI ARE SAID TO HAVE PUT TROOPS IN PERSIA

London, July 10.—A new Bolshevik invasion of Persia is reported in a dispatch to The Daily Mail from Téhéran. The dispatch quotes a Téhéran newspaper of Wednesday as saying that four Bolshevik warships had arrived at Meshher-Iss on the Caspian Sea, eleven miles northwest of Baruzza) and landed troops.

so important railroad junction. Pinsk is located on the Tripet River about ninety-five miles east of Brest-Litovsk. Pinsk is the principal city in the Lublin district, 22 miles northwest of Warsaw.

CAMP BORDEN AS AIR FORCE CENTRE

Ottawa, July 10.—With a civilian force at present hard at work, preparations for the opening of Camp Borden as the chief training centre of the air force are going on apace.

When completed Camp Borden will be the main stores depot and repair shop of the Air Board of Canada, and the camp also will be the chief training centre.

The camp, which cost \$1,500,000 to build several years ago, contains 121 principal buildings. Eighteen of the hangars are completed, and there are also ready workshops and offices and men's quarters. The main aerodrome covers a space one by one and a half miles.

There are at the camp over 100 of the latest type British land machines, and also a considerable number of "boats" with a complete outfit of instruments and equipment for photography, wireless and gunnery work.

Seventy-five per cent of the gift work done and equipment given by the British Government to Canada are now on the ground. Officers state that at present prices the gift would cost between \$5,000,000 and \$6,000,000, while at replacement prices the cost would be increased by at least fifty per cent, and some of the material could hardly be secured anywhere.

Training is expected to begin in three weeks.

SINN FEIN COURTS OPERATE IN IRELAND

London, July 10.—A dispatch from Dublin says that evidence is piling up there which seemingly would indicate that the newly-organized Sinn Fein courts in parts of Ireland rapidly are superseding in power the Crown tribunals. A great number of cases on appeal are being withdrawn from the Crown Supreme Court because it is stated that the tribunals have little confidence in the power of that Court. For the same reason it is alleged that Unionists are appealing to the Sinn Fein lower courts.

One Unionist attorney is credited with saying that it was useless to take a case before the Crown court, and that, as his client desired quick action, he had taken the case to a Sinn Fein tribunal.

In many parts of the provinces Sinn Feiners have taken over control of liquor selling, and have issued orders to saloons regarding the hours of closing. Sinn Fein pickets have been effective in stopping Sunday drinking by checking up bona-fide travellers, who are entitled under the law to drink. The policy of serving drinks on Sunday hitherto has been spasmodic. Now it has been made regular by a code issued to licensed holders by which they may be open only from 8 a. m. until 9 p. m., and which prohibits the selling of liquor on Sunday or church holidays.

REPRESENTATIVE OF S.C.R. DEPARTMENT

Ottawa, July 10.—Major C. G. Arthur, for the last two years chief inspector under the Soldiers' Civil Re-establishment Department, has been appointed overseas representative and will leave immediately for London, Eng. He will be succeeded in Ottawa by Major C. N. Marriott, of Toronto.

BIG GRAIN CROPS IN UNITED STATES

Washington, July 10.—An increase of 28,000,000 bushels in the country's wheat crop, as compared with last month, with a total forecast of 805,000,000 bushels, a prospective corn crop larger than last year's, and larger crops of oats, barley, white potatoes, tobacco, flax and rice than were grown a year ago, were the features of the Government's July crop report issued yesterday by the Department of Agriculture.

BIG PAPER MERGER NOW IS REPORTED

Montreal, July 10.—In many of the leading stock brokers' offices here yesterday there was a persistent report that a gigantic paper and pulp merger of several of the leading paper industries in Canada was being quietly consummated. It was understood that capitalization would be at least \$100,000,000—if not more—and full details of the big undertaking were expected on the street before long.

AMUNDSEN PLANS NORTH POLE TRIP

Seattle, July 10.—Captain Roald Amundsen, the noted Norwegian explorer, now in Northern Siberia, is planning a new attempt to reach the North Pole and will start his expedition as soon as he can reach Nome, Alaska, to load supplies, according to the American party, who was ber of the Amundsen party, who was in Seattle yesterday on his way to New York. Captain Amundsen said he did not know the exact location of the explorer at present, but was satisfied he was safe.

Captain Amundsen is the first member of the party to return from the Far North since the expedition started from Norway more than two years ago. With Captain Hansen, Maud, and another member of the crew, he left the vessel at East Cape, on the Arctic Ocean, on an overland trip to Anadyr, Siberia, 1,300 miles distant, with dispatches for Norway. During the trip his feet were frozen, and although he received medical attention at the Siberian village, he decided to return to Norway by way of Nome.

Amundsen plans to call at Nome at the earliest possible date for supplies, Captain Tonnese said.

JAMAICA ISLAND'S LIQUOR QUESTION

Kingston, Jamaica, July 9.—Thousands of residents of this island, the home of Jamaica rum, have united in a protest to the Government and Legislative Council against prohibition, state control of the liquor trade or alteration of the present licensing system.

A measure has been introduced in the Legislature by the Government providing for state control of the trade after the Legislative Council has been asked to consider also the questions of prohibition and licensing.

Those opposed argued in a memorial to the Government that the manufacture of rum, as a by-product of sugar, had been carried on in the island for hundreds of years, and formed a very important industry which would be seriously affected if prohibition were imposed. They objected also to state control chiefly on the ground of expense and risk involved.

ITALIANS RECOVER OLD MANUSCRIPT

London, July 10.—A dispatch from Vienna says: The original manuscript of Tasso's "Jerusalem Delivered" is among a vast quantity of art objects and other treasures just turned over to the Italians under the treaty terms. It is said to have been plundered of early wars.

Torquato Tasso, author of "Jerusalem Delivered," was a celebrated Italian poet of the latter part of the 16th century and a protégé of Cardinal Luigi d'Este. The poem was published first at Venice, and subsequently at Palma. It was translated into many languages.

The manuscript was for many years kept in more or less seclusion, but partly recovering was summoned by Pope Clement to Rome to be crowned as poet laureate, but he died in that city in 1595 before the ceremony was performed.

W. D. HINES IS AT WORK IN PARIS

Paris, July 10.—W. D. Hines, former Director-General of Railroads in the United States, is in Paris arbitrating the question of river shipping under the German, Austrian and Bulgarian treaties. Mr. Hines was appointed arbitrator for all this work and expects to be in Paris several months. He is accompanied by two secretaries and an assistant, M. Brice Clagett.

Mr. Hines soon will call together the delegates from the various interested countries to discuss the procedure of disposing of the shipping on the Danube, Rhine, Elbe and Oder rivers. Mr. Hines will determine under the German, Austrian and Bulgarian treaties just what shipping shall be taken from these countries in part payment for reparations, and will also distribute the shipping among the Allied powers.

Every Wage Earner Should Answer Question Himself or Herself

WHAT DOES THE FUTURE HOLD FOR YOU IF HEALTH GIVES WAY?

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one-half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself run down, you reduce your chances for success in life — if helplessness come you score lower still—should appetite or digestion fail, you are stared in the face by physical bankruptcy.

Don't let it go so far, take Ferrozone. It has cured thousands and it will cure you; it builds up bodily strength, makes you feel like steel, renews and new life. Ferrozone rebuilds sick folks because it contains the strengthening elements that every run-down system needs.

Especially before the hot weather comes, everyone needs a purifying tonic. Ferrozone fits the bill exactly. Nothing known that juvenates and uplifts so fast.

At once the appetite improves. You rest well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way to the vigor that only Ferrozone can supply. Try it, rest assured, it's guaranteed. One box or six for \$2.50 at all dealers or by mail to any address if price is remitted to the Catheriscope Co., Kingston, Ontario.

CANADA SOON TO HAVE SAINT

Venerable Marguerite Bourgeoys Founded Great Teaching Order

Montreal, July 10.—Canada and the American continent will soon have its first saint, the preliminaries necessary for the elevation of the Venerable Marguerite Bourgeoys, founder of Canada's great teaching order, the Ladies of Congregation of Notre Dame, having been practically completed.

The preliminary steps have been taken both here and in Rome and when they are completed she will be known as Ste. Marguerite of Canada. More than 150 religious houses in the United States and Canada, with an enrollment of 41,000 pupils, already bear her name. No case for canonization has ever been so rigidly examined, obstinately contested, clearly proven or impartially decided.

Born at Noyes, France, on April 17, 1620, Marguerite Bourgeoys came to Canada with the Sieur de Maisonneuve, founder of Montreal, his niece and other celebrated figures of the early days of that colony, and during most of the eighty years of her life she struggled against adversity in the form of Indian raids, fire, famine and pestilence, to maintain a high standard of education and religious devotion among the Indians as well as the children of her fellow-colonists.

She died at the old convent which she founded on St. Lidier Street on January 12, 1700, and the first step toward her canonization was taken half a century later. Four preliminary decrees have been issued from the Vatican, in 1822, 1847 and 1910, the verification of her remains having been made in the last-named year by Cardinal Vincenzo Vannutelli.

The first ceremony, the "Introduction process," took place under Pope Pius IX. What is known as the "Non Cult" proceedings began in Rome in June, 1870, under Pope Leo XIII, ending in April, 1880, with the late Archbishop Fabre of Montreal, acting as presiding judge, with a council of leading prelates and priests. Three nun of the convent, one priest and one layman testified to the virtues of the proposed saint and certified her relics said to have followed her intercession.

SAY SOLDIERS ON TRAINS DANGEROUS

London, July 10.—A dispatch from Dublin says that railwaymen in Ireland who have been dismissed for refusing to move trains carrying police soldiers have put forward a new plea. They contend that they are acting within the Board of Trade regulations in refusing to work because of restrictions against the carrying of dangerous objects. They threaten action against the railways for wrongful dismissal.

The railway company officials, however, say that the dismissals were inevitable when men refused to obey orders, and they repudiate the statement that the men were dismissed on Government orders.

Mail trains and cars continue to be held up. A letter recently received by the authorities was from a woman to the military officials. It requested that troops be sent to protect loyalists. The woman was named before a Sinn Féin court and fined £150. This she paid.

HONOR MEMORY OF GORGAS IN LONDON

London, July 10.—Honour notable in the history of the ancient cathedral was paid to the memory of Major-General William C. Gorgas in St. Paul's yesterday, when the funeral services for the former Surgeon-General of the American army were held.

In the procession through the streets the military escort was composed of the Second Grenadiers and staff, mounted on black horses; three squadrons of the Life Guards, a battalion of the Coldstream Guards and a battalion of the Irish Guards. The flag-draped coffin was borne on a gun carriage, with a wreath of lilies the only floral decoration.

The crowds which lined the two-mile route of the funeral procession to the cathedral stood with bared heads as the column filed past.

At the Cathedral steps the casket was met by a distinguished party of pallbearers.

Dean Inge and Sub-Dean Bliley, of St. Paul's, officiated. No eulogy was spoken.

The hearse returned to the Alexandra Hospital, where the body of General Gorgas will lie awaiting transfer to Southampton, and thence to New York on board an American ship.

The New and Desirable at Mallek's July Clearance

Every woman in Victoria who is interested in correct and becoming dress, and to whom the securing of value is of importance, owes it to herself to investigate our special July Clearance offerings. NOMINATIONS MADE IN NOVA SCOTIA

Halifax, July 10.—Dr. John Ball, of New Glasgow, was nominated yesterday by Pictou County Conservatives to contest the seat in the Legislature.

In Annapolis County, C. F. Coucher has been nominated by the Conservatives and Edgar Shaffner by the United Farmers.

In Queen's County, R. Hilliard, of Liverpool, who was nominated by the Conservatives, has declined to contest the county.

Halifax, July 10.—The Conservatives of Halifax County and City at their convention last night nominated Alderman Frank Gillis, Edward F. Power, druggist; R. A. Benton, real estate agent; E. F. Stevens, dentist, Dartmouth; and John Archibald, farmer, of Middle Musquodoboit, to contest the county in the coming provincial general election. They are all new men in the political field.

THIRTY AUTOMOBILES BURNED IN VANCOUVER

Vancouver, July 10.—Thirty automobiles were destroyed and property damaged by a fire which occurred here last evening at a Granville Street garage, the loss being estimated at \$75,000.

Sour Stomach Made Sweet

Gas Belching, Bad Breath and Digestive Troubles Helped Quickest by Dr. Hamilton's Pills

Better patch up the weak spots. Give to the stomach the assistance it requires—in other words, try Dr. Hamilton's Pills, which cure more weak stomachs than any other medicine.

Dr. Hamilton's Pills put the kind of life into a weak stomach that enables it to digest and assimilate all kinds of food.

It's the people who feel half-sick—sort of tired and depressed—for those who have any ailment of the stomach, kidneys, or liver, that Dr. Hamilton's Pills are sure to benefit at once. Try them. 25c a box at all dealers, and insist on having only Dr. Hamilton's Pills. In yellow boxes only.

GERMAN MOVIES SEEN IN BRAZIL

Rio de Janeiro, July 9.—North American moving pictures, which during the war period enjoyed a virtual monopoly in the Brazilian field, are now encountering competition of German-made films. For the first time since 1914, German films are being used in local theatres.

We have them in stock in four designs and all sizes; bring in your measure. Cash price, all sizes, from..... \$2.70

Mrs. L. J. P. Surprised Her Guests

Her name is withheld at her request.

Mrs. P. had guests for supper on Tuesday. They had a vegetable salad.

On Wednesday two of the ladies called up for her salad dressing recipe.

Mrs. P. gave it, of course. She says the only secret is that she uses Pacific Milk in an otherwise very ordinary dressing—and gets a delightful flavor.

PACIFIC MILK CO. LIMITED

328 Drake St., Vancouver, B. C. Factory at Ladner, B. C.

WASTED STRATEGY

Lady—I've just met your little boy and girl, Mr. Brown. What charming, intelligent little dears they are. Mr. Brown (the grocer)—Thank you, ma'am—pause—but I can't say you have more than your ration sugar.—Pearson's Weekly.

DRIVING HOOKWORM FROM JAMAICA

New York, July 10.—Advices from Kingston, Jamaica, state that effects of the campaign against the hookworm in Jamaica, conducted by the Government and an expert for the Rockefeller Foundation already are felt. In Verge, one of the largest sugar centres of the colony, the laborers now work six days a week, whereas formerly they were able to work but three.

On account of their improved physical condition large numbers of these workers are leaving Jamaica to work in the cane fields in Cuba. Governor Probyn is sanguine that with the assistance of the Rockefeller Commission the hookworm will be eradicated from the island.

FLOATING FAIR IS ITALIAN SCHEME

Rome, July 10.—A floating fair has been organized by the Italian Government and will visit Tunis, Algiers, Tangier, Lisbon, Barcelona, Marseilles and Genoa. It will carry samples of all the products Italy can export and will remain open for four to seven days at each port. Orders will be dispatched to producers by wireless, thus enabling the buyers to receive an answer the same day.

If the undertaking is successful, as it is confidently expected it will be, another floating fair will be sent to North America, another to Brazil, Uruguay and Argentina and a third one to Antilles, Venezuela, Peru and Chile.

Helps a Weak Throat Strengthens the Voice Cures Bronchitis

By Breathing the Healing Balsams of Catarrhose You Are Cured Without Using Drugs. You breathe through the Catarrhose ozone inhaler medicated air that is full of healing, soothing balsams that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvellous action on weak throats. It brings strength and health to the bronchitic, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarrhose. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarrhose, which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, cost \$1.00, medium size 50c; sample size, 25c. All storekeepers and druggists or the Catarrhose Co., Kingston, Canada

AMERICAN FARMERS TO VISIT CANADA

Will Attend Meeting in Winnipeg and Study Co-operative Marketing

Chicago, July 10.—(Canadian Press)—A delegation of United States farmers is arranging to go to Canada July 13 to study Canadian systems of co-operation in marketing crops. So far as is known at the general office of the Farm Bureau Federation here, this is the first trip of the kind.

The farmers from this side of the line will attend the meeting of the Canadian Council of Agriculture in Winnipeg, July 13. After that the party expects to spend some days in Canada studying co-operative methods.

FRUIT PACKING MUST BE PROPERLY DONE

Vancouver, July 10.—The Department is determined to put down the practice of false packing in the fruit trade, said T. H. Bain, Dominion Fruit Inspector, yesterday, "and as a result of some of the samples I have obtained to-day prosecutions will follow."

Mr. Bain, who has just returned from an inspection trip to Vancouver Island, said he had secured samples in Vancouver, and that they were very bad samples of false packing. He produced a few boxes of berries in which the top layer was composed of very fine berries, but those beneath were of very inferior quality, as well as being exceedingly small.

FOREIGNERS BEING MULCTED IN GERMANY

Berlin, July 9.—Via London, July 10.—As a result of the steady rise of the German mark, foreigners are discovering that for them Germany is now perhaps the dearest country in Europe. And as the mark strengthens prices continue to rise. For several months German hotels have been forcing foreigners to pay from 100 to 200 per cent. more than natives are charged. Many shops also make a practice of mulcting foreigners, sometimes in Berlin charging 60 cents American for an ordinary white collar.

Newspapers, learning of the great influx of American tourists to England and France, are beginning to wonder if the extortions of shops and hotels will have the effect of keeping the Americans and other foreigners out of Germany.

HOW TO OVERCOME NERVOUS TROUBLES

A Returned Soldier Tells How He Regained Health and Strength

Nervous troubles of all kinds, particularly nervous debility, work a remarkable transformation in the patient. The change is both physical and mental. The sufferer loses weight and strength, and frequently becomes irritable and fastidious. Troubles that were once thrown off without any difficulty assume exaggerated proportions. Other symptoms of this nervous condition are poor appetite, headaches, exhaustion after little effort, and frequently distress after meals.

The cause of this debility is generally starved nerves. The blood, which gives the nervous system its food and power to work efficiently, has become thin and weak, and until the blood regains its tone and strength there can be no improvement in the condition of the nerves. In cases of this kind Dr. Williams' Pink Pills will be found the very best medicine. They make rich, red blood which feeds and strengthens the starved nerves, and in this way restores the sufferer to full health and strength. Proof of this is found in the case of Mr. Fred Sander, London, Ont., who says: "While on service with the Imperial Forces in Africa I completely lost my health through continual hardship and shock. I was sent back to the base hospital suffering, so the doctor said, from nervous debility. After spending some time in the hospital I was invalided back to England as unfit for further service. After spending a long time in Netley Hospital, I was given my discharge, but was still weak and nervous wreck, absolutely unfit for work. I had neither the strength nor ambition to do anything. In London I doctored for three or four months with a civilian doctor, who finally advised a change of climate. I was terribly nervous, suffered from sleeplessness, smothering and sinking spells, and pains in the heart; my hands and feet were always cold and clammy. At this time I decided to come to Canada, and shortly after reaching this country was advised to try Dr. Williams' Pink Pills. After I had taken the pills for some weeks I found myself improving, and continued taking the pills for several months with the result that they fully restored my health. My nerves are now as steady as a rock; my appetite the best and my eyes and skin, which had turned yellowish, are clear and healthy looking. I feel like a new man in every way, and fit for anything. I have since recommended the pills to several friends, and know of several cases where they were beneficial in the influenza epidemic. I am of the opinion that should any of my returned soldier comrades use Dr. Williams' Pink Pills for shell shock, they would be a great help to them."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CONSTIPATION AND HEADACHES

Completely Relieved by This Grand Fruit Medicine, "FRUIT-A-TIVES"

MR. ALFRED DUBOISSEAU

482 St. Catherine St. E., Montreal. "For three years, I was a terrible sufferer from indigestion, constant headaches and constipation. I took various medicines for the trouble, but nothing seemed to do me any good."

Then, a friend advised me to try 'Fruit-a-tives'. Now I am free of indigestion and headaches, the constipation is cured, and I have gained considerable weight; and my general health is fine. 'Fruit-a-tives' is a grand medicine and I cannot say enough in its favor."

ALFRED DUBOISSEAU. 'Fruit-a-tives' are made from fruit juices and valuable tonics—and are pleasant to take, their action being gentle and mild, yet always most effective.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa, Ont.

ROUMANIAN QUEEN TELLS EXPERIENCES

Received Joyfully by Turkish Women in Area Now Roumanian

London, July 9.—Roumania, with the addition of the provinces of Bessarabia, Bukovina, Transylvania, the Banat and Dobruja, is now a country of at least ten distinct nationalities says a Bucharest paper, a copy of which has been received here. In its Parliament are seen peasants with white kirtles and embroidered vests and leggings reminding of the red Indian, sitting together with red furred Turan.

Queen interviewed. "It is especially in the Dobruja that these different nationalities jostle together," said Queen Marie, of Roumania, in an interview. "Together with Roumanians, live peacefully side by side, Bulgarians, Turks, Tartars, Russians, and in places even Germans."

"I have been to a village in the Dobruja which was part Roumanian, part Russian, part German and part Turkish. I went from one side to another, visiting many a cottage, entering each church, ending my round in the tiny mosque hung with faded carpets, and there in a crowd of lowly Turks, I listened to their curious service, of which I understood naught. A woman who is not veiled has no right to enter the holy precinct; but a royal name opens many a door, and many a severe rule is broken in the joy of receiving so unusual a guest."

"On a burning Summer's day I came to a tiny town almost entirely inhabited by Turks. I was distributing money among the poor and forsaken, and had been moving from place to place. Now it was the turn of the Mussulman population. Therefore, I visited the most wretched quarters, my hands filled with many a coin."

Excited Crowd. "Such was their joy at my coming that the real object of my visit was almost forgotten. I found myself surrounded by a swarm of excited women in strange attire, prattling a language I could not understand. They called me Sultana, and each one wanted to touch me. They fingered my clothes, patted me on the back, and one who had even chunked me under the chin. They drew me with them from hut to hut, from court to court. I found myself separated from my companions, wandering in a world I had never known. In a labyrinth of tiny mud-built huts, of ridiculously small gardens, of hidden little courts, they dragged me with them, making me enter their hovels, put my hand on their children and sit down."

The Poor. "The poorer Mussulman women are not really veiled. They wear wide cotton trousers, and over these a sort of mantle which they hold together under the nose. The shape of these mantles gives them that indescribable line, so agreeable to the eye, and which alone belongs to the East. Also, their colors, they choose are always harmonious; they are toned down to their surroundings by sun and dust. They wear strange blue blouses and mauve—even their blacks are not really black, but have taken rusty tints that mingle pleasingly with the mud-colored environment in which they dwell."

"When, attired for longer excursions, their garb is generally black, with a snow-white cloth on their heads, wrapped in such manner that it conceals the entire face, except the eyes. Indescribably picturesque and mysterious are these dusky figures, generally carrying a heavy staff in their hands. There is something biblical about them, something that takes one back to far away times."

The July Clearance Sale of Children's Wash Frocks

At \$1.50 to \$7.00

ALL HE WANTED.

It was an exceptionally rough crossing. An icy wind was also blowing, and the steward was much surprised, therefore, to find anyone on deck. Here Mr. Youngbird leaned across a rail, desperate in attitude and expression. "Is there anything I can get you, sir?" inquired the steward sympathetically. "Oh!" groaned the passenger, "get me a small island, will you?"—Pearson's Weekly.

ALL'S FARE IN—

His cup of joy was full. It was more than full. It was running over into the saucer. It was missing the tablecloth. There had been moments of pleasure in his life before, but this was a perpetual flood of sunshine. The humming of the wheels of the motor-bus was as the music of delicate instruments wafted afar over fragrant meadows or across rippling summer lakes. The chauffeur's warning! That was the blare of trumpets of triumph. The murmur of the streets was as a low, sweet melody. Nothing was discordant; all was harmonious. For he had ridden half a mile beyond the stage purchased on this ticket, and the conductor had, as usual, to come up for the extra fare.—The Sun.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment. It relieves at once and gradually heals the skin. Sample box, Dr. Chase's Ointment free if you enclose this paper and send 5c. stamp for postage. 5c. a box; all dealers of Eskinsons, Bates & Co. Limited, Toronto.

LORD FISHER DEAD.

In the death of Lord Fisher of Kilverstone, Britain has lost a great sailor and one of the most striking and original personalities of the day. He has been described as the father of the British Navy, as it was when it took its station in the North Sea when the Empire drew the sword against Germany, and that description is entirely apt and fair. During his term as First Sea Lord of the Admiralty the navy had been completely overhauled and reorganized, the changes introduced extending from naval policy and strategy to the construction and mechanism of ships.

Appreciating early the significance of Germany's bid for seapower as prescribed by the various laws initiated by von Tirpitz, Fisher developed the policy of concentrating the bulk of Britain's naval strength in home waters, withdrawing the costly but ineffective units which had been maintained at overseas bases largely because of sentiment, tradition and custom. Prominent among the stations which figured in this reform of policy were Esquimaux and Halifax. He then turned his attention to increasing the efficiency of the navy. The dreadnought and battle-cruiser were among the products of his fertile mind. In fact, Fisher undoubtedly revolutionized naval development and in that sense might be considered the father of most of the modern navies of the world, since his policy and methods were adopted by practically all the other countries.

His ruthlessness in carrying out his plans for high naval efficiency created many opponents, prominent among whom was Lord Beresford, and for years controversy raged in Great Britain between the "Fisher school" and the "Beresford school" in the navy. Lord Fisher's association with the Admiralty in the early days of the war and his difficulties with the impossible Churchill when the latter was First Lord of the Admiralty will be generally remembered.

During the last year the old admiral has contributed numerous articles to the press, demanding, with characteristic vigor and directness, the scrapping of dreadnoughts which, he declared, the submarine and aerial navigation had made obsolete, and insisting upon economy in naval administration. The world owes much to this very able and sagacious man and will not be grudging in the tribute it will pay to his memory.

GENERAL DYER CENSURED.

After having considered a report of the Hunter investigation committee, together with a long statement from the officer himself, the Army Council has decided to uphold the commander-in-chief in India in his action in removing Brigadier-General Dyer from the position of commander in the Punjab and in debarring him from holding any further army position in India. This is the substance of an announcement made to the British House of Commons by Mr. Winston Churchill on Wednesday last.

In view of the large amount of publicity to which the Amritsar incident has been treated, the strong sympathy which has sprung up for General Dyer, it is more than likely that the last has not yet been heard of the proceedings which led up to the appointment of the commission. After all the truth must be faced. Some parts of India have been in a state of incipient mutiny for a considerable time past. German and Bolshevik propaganda dispensed during the war undoubtedly has long since begun to make itself felt and in April of last year—the time of the Amritsar incident—matters had well nigh reached a crisis. Natives were being exhorted by proclamation to kill Europeans; white women went abroad in fear of molestation; banks were ransacked and their managers done to death—no European was safe.

In a letter to The National News the Archbishop of Simla paints a graphic picture of conditions as he knew them. He says in part: "Can the public imagine what my thoughts were when late at night before going to bed I felt it my duty to visit the adjacent schools, where there were nearly three hundred girls, whose parents were hundreds and thousands of miles away, to see that all was well under the quiet watchfulness of a few British soldiers!" Many other instances have been quoted in the British press all of which, without the use of extravagant language, indicate a serious state of affairs at the time General Dyer ordered his men to fire into the crowd which had gathered for seditious purposes in open defiance of his proclamation.

In the face of this there are praise and blame with a travesty of impartiality running through the Hunter report. Yet it recognizes that "however injurious in its ultimate effect General Dyer's action may have been, it resulted in an immediate discouragement of the forces of disorder." And again the Commissioners find that "it is more than probable that General Dyer's action so intimidated the lawless element in the population of Amritsar as to prevent further manifestations of disorder," but "the Government of India cannot accept this as justification of the continued firing, which greatly exceeded the necessities of the occasion."

Here appears to be the rub. Dyer's action was right up to a point, according to the men

who were not there; who knew nothing of actual conditions, and who have failed to take into appropriate consideration the various phases of incipient revolt which are smouldering in many parts of India. The Amritsar incident may yet have more influence upon British rule in India than appears to be the case at the moment.

NOVA SCOTIA ELECTION.

On July 27 Hon. G. H. Murray will make his sixth appeal to the electors of Nova Scotia as head of an Administration. It is now nearly twenty-five years since Mr. Murray succeeded the Hon. W. S. Fielding as Premier, and while in that period other capitals have seen many Premiers come and go, he has remained at the head of Nova Scotia's Government without his position being even seriously challenged. The central significance of this, of course, is that the Murray Administration has been successful and satisfactory.

No serious charges ever have been made against it even by bitter opponents. Although in the approaching election it is anticipated, that there will be some independent candidates, a few representing the United Farmers and perhaps a larger number representing Labor, in the main the contest will follow the old party lines. Friends of the Administration confidently expect that the Government's sound record will result in its return to power by a comfortable majority.

BERNHARDI AT IT AGAIN.

General Bernhardt's new book is full of threats and hatred. In "The War of the Future" this fire-eating Teuton unblushingly—if unwittingly—seeks to impress upon the peoples of the world the fact that his countrymen, like the Bourbons of old, have learned nothing and forgotten nothing. Indeed, it would be well for the Allied delegates to the conference at Spa to mark the impudent declaration that, "notwithstanding the peace conditions, the U-boat should be developed as opportunity offers."

And Bernhardt experiences no poverty in comparison; he points out that Prussia trained 200,000 men—instead of the 42,000 she was permitted to retain—right under the noses of the French after the Napoleonic conquest. But Bernhardt has not profited by the result of his own direction. While he urges Germany to equip herself with all the impediments prohibited by the Treaty of Versailles, he advises the statesmen of the Fatherland always to take the German General staff's advice, in spite of the fact that it was the dominant militancy of Germany which led her to the greatest catastrophe which has ever befallen any people in history.

General Bernhardt has reckoned without his host. The spirit of his new epistle is the spirit of 1914. Since then many things have happened. The military machine and the spirit militant have been scrapped by the very people who had been nourished in the lap of Mars. The fact remains, however, that Junkerdom is but badly wounded; it is by no means dead. That is the reason why Allied determination has not wavered at Spa; it is the reason why the League of Nations is absolutely necessary for the peace of the world.

NOTE AND COMMENT

Great Britain's terms upon which a trade agreement between herself and Soviet Russia could be established have been accepted by the authorities at Moscow according to a dispatch to The London Daily Herald. This is the first real step towards the moral and material rehabilitation of Russia.

In its note of acceptance of Great Britain's trade agreement the Soviet Government protests against affirmations, contrary to the facts, relative to presumed attacks by Soviet Russia upon the British Empire. The protest is noted; but the Bolshevik agent with Lenin-Trotsky funds may yet be found dispensing propaganda for the undermining of British influence in the Near East.

It is to be hoped that the British Government will not carry out its proposal to sell Captain Fryatt's ship, the Brussels, after Belgium at great cost raised the vessel and handed it over to Britain. Surely there is no necessity to allow this particular craft to be vandalized.

OTHER NEWSPAPERS' VIEWS

HAPPY QUEBEC

The Hon. Mr. David is to be congratulated upon the clever speech made by him in welcoming the labor congress to Montreal. Recognizing fully the importance of the declared aims of the convention, the talented young minister told the delegation that for the past fifty years the Government of this province had understood not the strength, but the rights of the workmen, and had labored to give the workmen a legislation of which they had every reason to be proud. Long ago a law was passed exempting from seizure tools and other necessities of work of the workman. We in this province, he said, were the first legislature that introduced a Workmen's Compensation Act, but, above all, what we are proud of is that we stand before the world and say that Quebec does not know disorder between employers and employees, because employers and employees know that real peace and real harmony can only be found in the mutual respect of rights. Wise words indeed are these and well and wisely spoken. Of the facts which they unfold the province is, as it has every reason to be, justly proud.

BEAUTY AND A RIVER

There are a thousand things to remember and to say about the river, which seems to be of little use in the half-dozen miles I know best, after it has made itself of great consequence by serving to carry perhaps a dozen or twenty mills, of one kind and another. Between its dams it has a civilized and subjected look, but below the last falls, at the landing, it apparently feels itself to be its own master, and serves in no public capacity except to carry a boat now and then. I think its chief use is its beauty, and that has never been as widely appreciated as it ought to be.

LORD FISHER DIED IN LONDON TO-DAY

(Continued from page 1.)
 disposition of the fleet, and threw no fewer than 150 warships, from immense iron-clads to light cruisers, into the scrap heap as obsolete and out of date. Being a reformer by nature, Lord Fisher's attack on the British naval administration in September, 1910, in which he denounced the expenditures being made as "ruinous," might have been expected, but it caused a great sensation throughout the Empire. Later Lord Fisher declared that in the submarine he saw the future sea fighter, and that the development of aviation had made invasion of Great Britain practicable.

Essence of Progress.
 Lord Fisher was the very essence of progress, not a passive but vigorously active progressivism, as witness what was his favorite aphorism: "The true secret of successful administration is intelligent anticipation of agitation. Don't wait for agitation! Things have got to come—do them yourself, and don't let them be forced on you." That was the policy backed up by an inexhaustible energy and irresistible will that created the storms which ever hovered round his head.

COMMISSION WILL FIND FACTS FOR LEIPZIG TRIALS

(Continued from page 1.)
 General and court had been given a very difficult task, assuming that a bona fide effort would be made to arrive at the truth.

Negotiations.
 For this reason Baron Birkenhead asserted German authorities should be entrusted with the information regarding charges made against Germans, and also the nature and effect of the evidence to be adduced, although he thought responsibility must rest with the Supreme Court. Negotiations therefore should begin not through diplomatic channels but through the German Attorney-General and the corresponding legal officers of the Allied countries.

Germany Responsible.
 M. Cambon said Germany must be responsible for the institution of proceedings, the collection of evidence and the conduct of the trial and asserted if the Germans would take the initiative at every stage, French law officers would give them all the assistance in their power.

In Form Only.
 Sir Gordon Hewart, British delegate, said that whatever differences that might seem to be between the Germans and the Allies, it would be in form and not in substance. He said all the Allies recognized the hands of the German Attorney-General and make it as easy as they could for him to get justice done. Dr. Heinze, speaking in the name of the German Government, expressed the opinion that all communications should be between the law officers of the different countries; the names of whom were given him.

Buring the discussion at the session of the conference of Allied and German representatives yesterday, Carl Heinze, the German Vice-Chancellor and Minister of Justice, told how he had begun preparations for the prosecutions, but had encountered legal difficulties and no arrangements had been made.

Some of the accused had left Germany. Heinze thought reduction in the list by the Allies showed what the difficulties were.

Balking Treaty.
 Premier Lloyd George denied the accuracy of the German Minister's deductions. He said it was evident Germany did not want to carry out the treaty in its respect.

Dr. Simons, German Foreign Minister, then interjected: "We have every intention of carrying out the obligations. What we want is evidence. The courts can-

Fuel Oil is just about unobtainable, which in turn draws terribly heavy on the Coal mined on Vancouver Island.

Victoria is faced with a serious Coal shortage next Fall and Winter, and the man who stocks Coal now will not only save a good deal of money, but will have the satisfaction of knowing that, no matter how serious the Coal shortage is; he is prepared.

not convict without it, and we want the Allies to help us to get it."
 Mr. Lloyd George asked: "Have any arrests been made?"
 Dr. Simons answered: "No."
 "Is not there sufficient evidence for arrests?" then asked Premier Lloyd George.
 "The Allies are seeking punishment for breaches of the laws of war, and want to bring to justice persons punishable in Germany or other civilized States," said Dr. Simons. "It is in Germany's interest to justify herself in the eyes of the world by prosecuting her criminals."
 Will Furnish Evidence.
 Mr. Lloyd George added: "The Allied commission will furnish all the evidence in its possession, and I hope the Leipzig court will do its duty."
 "The Germans will be glad to at-

You are invited to inspect this Splendid Display of Chesterfields and Easy Chairs

You will probably express astonishment that so many beautiful styles have been gathered together in one display. The reason is that it is the "Weiler Way" to present the utmost variety in every type of furniture so that this store's position may be maintained as Victoria's premier home-furnishing establishment.

Nor is the assembly of Chesterfield Couches and Chairs presented in our third floor showroom the complete choice that we can offer you. We can build these pieces in our own local factory, design them according to your own ideas, and have them covered with materials of your own selection.

attended a conference to that end," replied Dr. Simons. "I am satisfied that the list furnished by the Allies contains only the names of criminals, but there must be evidence, or the high court will not convict. Cases of this character generally are tried by court-martial immediately after the event. In this instance the proceeding is novel. Much of the evidence must come from foreign countries. The Germans are unable to rely upon their own organizations and must have help from the Allies."

POLISH TROOPS FALL BACK TO THEIR OWN FRONTIER

(Continued from page 1.)
Diplomatic Support.
 Spa, July 10.—The Polish question was the subject of a conversation yesterday between Premier Lloyd George of Great Britain and Premier Millerand of France, the two Premiers considering what, if anything, could be done to help the Poles in their present military difficulty.

Premier Lloyd George is understood to have said that in view of the agreement just concluded between Great Britain and the Russian Soviet he did not feel disposed to do anything more than give diplomatic support to the Poles. Premier Millerand is reported as having said that, this being the case, France could not go further.

TWO RESERVATIONS MENTIONED BY COX

(Continued from page 1.)
 Roosevelt, the Democratic standard-bearer, will have their first meeting since the San Francisco convention next Monday afternoon.
 The Governor received a telegram from Mr. Roosevelt to-day stating that he will leave St. Louis to-morrow evening, and will arrive in Columbus about noon Monday. He will go direct to the executive office at the Capitol.
 Governor Cox will motor to Columbus either Sunday evening or early Monday morning.

CAR SHORTAGE MAY CAUSE STEEL PLANTS IN U. S. TO CLOSE

Washington, July 10.—Suspension of work in many steel plants, throwing thousands of workmen out of employment, is threatened because of the present car shortage, the Interstate Commerce Commission was told to-day by J. P. Townsend, representing more than a score of steel manufacturers in Pennsylvania and Ohio.

Constantinople, July 9.—Via London, July 10.—Troops of General Wrangel, the anti-Bolshevik commander, have landed at Perlanek, on the north shore of the Sea of Azov.

TWO WERE KILLED.

Prescott, Ariz., July 10.—Two persons were killed and sixteen injured, three seriously, when a Santa Fe, Prescott and Phoenix passenger train struck a train of cantaloupe cars between Kirkland and Hillside.

ATTEMPTED TO SELL MILITARY MAPS

T. Oyama Arrested in Tokio; 200 Maps of Siberia Were Valueless

Tokio, July 9.—(Associated Press.)—In connection with the case of T. Oyama, arrested late in June charged with attempting to sell military maps, the American Embassy to-day turned over to a representative of Oyama some 200 maps of Siberia which Oyama had left temporarily in the office of Colonel Charles Burnett, the American Military Attaché, saying he wanted to sell them. Before being able to regain possession of the maps, which Colonel Burnett decided were of no value, Oyama was arrested.
 Edward Bell, American Charge d'Affaires, told the Foreign Minister that Oyama, describing himself as a merchant of Khabarovsk, Siberia, called at the Embassy, accompanied by another Japanese and offered to sell the Siberian maps, an examination of which showed them to have been formerly the property of the Russian General Staff.

UNVEILS TABLET

AT ST. MARY'S

Lieut.-Governor Performs Impressive Ceremony at Oak Bay

Unveiling of a memorial tablet, to commemorate the sacrifices which men of the parish made in the Great War, took place in St. Mary's Hall, Oak Bay, yesterday afternoon before a large number of distinguished guests.

Peculiarly fitting the text chosen for the accompanying service by the rector, Rev. G. H. Andrews, the King's message, "Let those who come after see that their names be not forgotten." The people of the parish, in erecting the tablet, he said, were but carrying out the wish of His Majesty. The hall, itself, he observed, would be used as a social centre and for all parish activities, especially those in which the young people took part, as many of the brave men who died had been best known in their youth. During social gatherings in years to come the memorial would be a witness of brave lives and would be a silent incentive to the boys and girls to do their duty as the soldiers had done.

The rector also expressed appreciation for the splendid work of the ladies of the parish. The erection of the hall and of the memorial, he observed, had been made possible by their fine efforts.

Keep Their Memory Green.
The tablet, which was wreathed in flags during Mr. Andrews' address, was formally unveiled by His Honor the Lieutenant Governor, who addressed the gathering briefly. The relatives and friends, and we others who knew of these splendid men, who laid down their lives for us and for their country, do not need any memorial of their services," said Colonel Prior. "But the coming generations we want to bring up should remember the deeds that these men have done. We must do our best to see that their memory is kept green."

Colonel Prior observed that in the Old Country many beautiful memorials had been erected to famous soldiers and sailors; but, he felt, these more celebrated figures of history actually deserved the nation's thanks no more than did the brave lads whose deeds the tablet commemorated.

The Dedication.
The dedication, read by Colonel Andrews, was as follows:
"We dedicate this tablet in loving memory of those who from this place, following the call of duty, went forth counting their lives dear to them, and were found faithful unto death, who through death entered into life everlasting."

A beautiful setting by Douglas Macey, organist of St. Mary's, of Lieut.-Colonel John McCrea's "O Guns, Fall Silent," was sung by a quartette composed of Mrs. Downe and Mrs. Jesse Longfield, Capt. F. W. Hanning and James Hunter.

After the service the guests viewed the memorial tablet with great interest. The tablet is of oak, measuring eighteen feet in length and about twelve feet in height. The central panel, on which the forty-two names are inscribed, fills the space between the two doors at the end of the hall, the memorial lines being as follows:

"In loving memory of those who from this place gave their lives in the Great War that others might live in freedom," followed by the quotation: "At the going down of the sun and in the morning we will remember them."

The design of the tablet, though severely simple, reflects the utmost credit upon Mrs. Curtis Sampson, Mrs. Crease and Mrs. Shallcross, who carried it out.

HIS PUNISHMENT

For a week the guilty wretch had possessed his secret in silence, starting at every shadow, and catching his breath at every shadow. Yet he told himself that he was quite safe, and that no one knew of his guilt but himself.

He had thought it all out—how he would act and what he would say. Yet when the first breath of suspicion was directed towards him he started and turned pale, and all the defence which he had so elaborately constructed fell to the ground when his wife turned her questioning eyes upon him and said:

"John, did you post that letter to mother, that I gave you last week?"

"Yes."

"Well, she never received it."

"Yes, I mean—dash it—I—"

"John, don't swear!"

"Yes—er—perhaps it was lost in the post."

"That must be it," mused his wife. "I wrote mother to postpone her visit for a few months, and I have just received a letter saying that we might expect her to-day!"

Once alone, the wretched man prayed that the gate-stone house might fall upon him and crush him.

CONSERVATORY BLOWN UP. The Duke of Devonshire's conservatory at Chatsworth - the largest hot-house in England, designed by Sir Joseph Paxton - has been blown up by gun-cotton. Labor conditions and the high price of coal made its upkeep too expensive, and experts decided that its 40,000 panes of glass and thousands of tons of ironwork could best be brought down by explosives. The wreckage will be salvaged and sold as scrap. The conservatory was one of the famous sights of Chatsworth, and the number of visitors who have passed through it run well into millions.

Good News

The Connaught Institute, Superior Street, was the scene of a most enjoyable party Friday evening, when and congratulations to the Agent of the Canadian National Railways of this city, acted as host to about thirty-five or forty friends. From 8:30 o'clock till the small hours of Saturday morning the hall was gay with dancers, who enjoyed to the full the alluring music provided by "Wicky" Newell's orchestra. Quantities of highly-hued "serpentine" lent a vivid color to the gay scene. A delightful buffet supper was served midway through the evening, after which dancing to the accompaniment of much singing was resumed till 1:30 a. m., when the party dispersed.

Edmonton was represented on the Dominion Hotel register yesterday by J. Hutcheon, Wm. Henshall, J. Knott, S. Raith and Gordon B. Thurston.

Brigadier-General Spaight and Mrs. Spaight are in the city from Tsouhulen, Duncun, and are registered at the Dominion Hotel.

Mr. and Mrs. Wm. Harper, of Victoria, spend a pleasant vacation in Vancouver, visiting their daughter, Mrs. Simpson.

Mr. and Mrs. J. W. Clements and Mr. and Mrs. Henderson, from Toronto, are new arrivals at the Strathcona Hotel.

Mr. and Mrs. Albert S. Cook, of Hartford, Connecticut, are staying at the Empress Hotel.

Commander and Mrs. R. V. Kinacote, of Shawinigan, are registered at the Empress Hotel.

Mr. and Mrs. F. W. Allott and child, of Seattle, are registered at the Empress Hotel.

Mr. and Mrs. Henry Hellbrunn, of New York, are registered at the Empress Hotel.

Mr. and Mrs. H. W. Hazelton, of New York, are staying at the Empress Hotel.

St. Paul's Church, Vancouver, was the scene of a quiet wedding on Thursday when Miss Kathleen Mary (Mollie) only daughter of Mr. and Mrs. W. Brodie Burdury of London, England, and granddaughter of the late General A. C. Bunbury, Bengal Staff Corps, and Mrs. Bunbury of "Queen Mary's," St. Andrew's, Edinburgh, were married to Major J. A. Briggs, M. C., of Victoria, son of Captain and Mrs. Briggs, of New Westminster. Rev. Harold King officiated. The bride was attended by Miss Cicely Lyons, and Captain M. N. Garland supported the groom. After the ceremony the bridal party was entertained by Captain and Mrs. M. N. Garland at the Jericho Country Club.

Among the guests at the Brentwood Hotel are Mrs. Cornelius Coughlin and Miss Coughlin, of Calgary, Alberta; Mr. and Mrs. H. E. Anderson, of Winnipeg; Mr. and Mrs. H. G. Fowall, of Montreal; Mr. W. H. MacConnell, of Hellenburgh, Scotland; Miss MacConnell, of Hellenburgh, Scotland; Miss Mackay, of Hellenburgh, Scotland; Mr. and Mrs. J. Stewart, of Victoria; Miss Elma D. Pierson, of Calgary; Miss E. Brown, of Minneapolis.

About thirty members of the King's Daughters met at the home of Mrs. L. H. Hardie, Oak Bay Avenue, yesterday afternoon to sew in preparation for the garden party to be held under their auspices at the home of Mrs. Rattenbury, Beach Drive, on July 21. Much work was accomplished during the afternoon, and tea was served by the hostess.

Lady Cynthia Colville, daughter of the Earl of Crewe, and her sister-in-law, the Hon. Mrs. Britten, widow of the late Rear-Admiral Richard Britten, who have been the guests for some time of the Hon. Margaret Colville at Saanichton, have left for Lake Louise, and will later resume their journey to England.

St. Paul's Ladies' Aid will hold a strawberry and ice cream social at the home of Mrs. R. Wemyss, corner of Mount Baker Avenue and Third Street, Sidney, on Wednesday, July 14, at 3 p.m. There will be the usual work for sale - home cooking, fancy work, plain clothes for children and aprons.

Mrs. Bennett, of this city, is visiting her brother and sister-in-law, Mr. and Mrs. J. A. Russell in Vancouver for a few days, and on Thursday afternoon was among the guests at a delightful tea given by Mrs. A. L. Cootie, Bronson Street.

In Vancouver on Wednesday evening Miss Helen Solloway entertained the graduates of the 1917 class of the Vancouver General Hospital at a linen shower in honor of Mrs. John Briggs (nee Mollie Bunbury) of Victoria.

and Miss Gladys Marchant of Fort Street, are visiting Mr. and Mrs. J. H. Tarrant, of Glen Drive, Vancouver.

Mrs. A. M. Freeman and her daughter Kathleen, of 1142 North Park Street, will leave to-night for Clo-oose on a few weeks' vacation.

C. G. L. Reid and Captain H. J. Paton, of Vancouver, and Mr. and Mrs. George E. Weiss, of Seattle, are registered at the Strathcona Hotel.

Garland supported the groom. After the ceremony the bridal party was entertained by Captain and Mrs. M. N. Garland at the Jericho Country Club.

Among the guests at the Brentwood Hotel are Mrs. Cornelius Coughlin and Miss Coughlin, of Calgary, Alberta; Mr. and Mrs. H. E. Anderson, of Winnipeg; Mr. and Mrs. H. G. Fowall, of Montreal; Mr. W. H. MacConnell, of Hellenburgh, Scotland; Miss MacConnell, of Hellenburgh, Scotland; Miss Mackay, of Hellenburgh, Scotland; Mr. and Mrs. J. Stewart, of Victoria; Miss Elma D. Pierson, of Calgary; Miss E. Brown, of Minneapolis.

About thirty members of the King's Daughters met at the home of Mrs. L. H. Hardie, Oak Bay Avenue, yesterday afternoon to sew in preparation for the garden party to be held under their auspices at the home of Mrs. Rattenbury, Beach Drive, on July 21. Much work was accomplished during the afternoon, and tea was served by the hostess.

Lady Cynthia Colville, daughter of the Earl of Crewe, and her sister-in-law, the Hon. Mrs. Britten, widow of the late Rear-Admiral Richard Britten, who have been the guests for some time of the Hon. Margaret Colville at Saanichton, have left for Lake Louise, and will later resume their journey to England.

St. Paul's Ladies' Aid will hold a strawberry and ice cream social at the home of Mrs. R. Wemyss, corner of Mount Baker Avenue and Third Street, Sidney, on Wednesday, July 14, at 3 p.m. There will be the usual work for sale - home cooking, fancy work, plain clothes for children and aprons.

New York, are staying at the Empress Hotel.

Mr. and Mrs. J. Oliver Beebe, of Boston, are guests at the Empress Hotel.

S. G. Hyams, of Toronto, is a guest at the Empress Hotel.

Joseph Martin, M.P.P., is in the city from Vancouver.

CHARMING WEDDING AT OAK BAY TO-DAY

Nuptials of Miss M. Frances Hewett and F. Ashley Sparkes at St. Mary's

Brilliant sunshine lent its welcome radiance to one of the prettiest weddings of the season. Miss M. Frances Hewett, daughter of Mr. and Mrs. H. F. Hewett, of Beach Drive, and the bride of Francis Ashley Sparkes, youngest son of the late John Ashley Sparkes, of Surrey, England, and headmaster of St. Aidan's School for boys, was married at St. Mary's Church, Oak Bay, when Margaret Frances, only daughter of Mr. and Mrs. H. F. Hewett, of Beach Drive, became the bride of Francis Ashley Sparkes, youngest son of the late John Ashley Sparkes, of Surrey, England, and headmaster of St. Aidan's School for boys. The ceremony was performed by the rector, the Rev. C. H. Andrews, in the presence of a big congregation of relatives and friends. A guard of honor composed of Boy Scouts and Wolf Cubs from St. Aidan's School saluted the bride as she entered the church on her father's arm. The bride wore a dainty girlish in her beautiful gown of ivory tulle, trimmed with georgette and pearls, made with a short train. Her hair was styled in the latest fashion, caught to the coiffure with pearls and orange blossoms. Her bouquet was composed of pale pink roses, and sweet peas.

Miss Biddy Floyd, cousin of the bride, was the maid of honor, and Miss Violet Gulliford, of Seattle, and Miss Margaret Haynes, of Seattle, were bridesmaids, all three being gowned alike in adorable frocks of pale mauve organdie trimmed with pale pink roses and sweet peas. The bride wore a dainty girlish in her beautiful gown of ivory tulle, trimmed with georgette and pearls, made with a short train. Her hair was styled in the latest fashion, caught to the coiffure with pearls and orange blossoms. Her bouquet was composed of pale pink roses, and sweet peas.

The bridegroom was supported by H. H. Allan, while G. W. Liston, of this city, and Carl Luck, of Seattle, officiated as ushers.

The service was fully choral and during the signing of the register the choir sang the anthem "O Perfect Love." The bridal party passed down the aisle after the ceremony to the strains of the Mendelssohn Wedding March and as they left the church the wedding cake and W.C. Cubes formed an archway with their staves, a picturesque culmination to a pretty ceremony.

After the ceremony a reception was held at the home of the bride's parents, Beach Drive, at which the many guests extended their felicitations and good wishes to the young people. The reception rooms, together with the dining room in which the buffet luncheon was served, were charmingly decorated in a color scheme of pale pink and mauve, and with blue duvetyne, and a chic hat blue and grey. They will later take up their residence at Oak Bay.

NEXT-OF-KIN WILL HOLD GARDEN FETE

At Residence of President, Mrs. R. S. Day, Wednesday Next

The Great War Next-of-Kin Association will hold a garden fete at the home of the president, Mrs. R. S. Day, 1808 Rockland Avenue, on Wednesday next from 3 to 7 o'clock, to which all members, past and present, with their families and friends, and all those interested, have been invited.

Preparations are under way by a very active refreshment committee for serving an exceptionally good afternoon tea. In addition there will be an ice cream booth, market stall home cooking stall, apron and "useful articles" stall, while the large tennis lawn is to be devoted to games and sports for the children, under the management of "a lover of children." Musical numbers will be contributed.

The Joy Of A Perfect Skin Know the joy and happiness that comes to one thru possessing a skin of purity and softness. The skin disinfecting appearance it renders brings out your natural beauty to its fullest in use over 70 years.

Seabrook Young Ladies' and Children's Outfitter Corner Broad and Johnson Sts. Phone 4740.

and many "surprises" are being planned for the amusement and enjoyment of the guests.

The work of the Association is being carried on quietly and unobtrusively, but none so effectively, by means of various committees and consists of providing a comfortable home at a moderate cost, in charge of a competent matron, for those men who have returned, but are still suffering from the effects of the late war, or those who are taking vocational training in order to re-establish themselves speedily and efficiently in civil life. It also welcomes within its walls members of the Amputation Club, resident or non-resident and affords them a convenient meeting place.

The work of one committee is to visit men in the hospital, supply them with reading matter, candles and cigarettes regularly and minister to their comfort in every possible way.

The members of another committee visit the home of families in case of illness or distress and undertake to make out-of-pocket expenses for those children in need of them, and from the reports received at the meetings it is evident that the work of all committees is being faithfully carried on. It is hoped that all those interested in the Next-of-Kin of returned men as well as of those who will patronize the garden party and extend their sympathy and help to the worthy objects of the Association.

MRS. PRIOR TO OPEN CHAPTER FETE

At "Shuhum," Rockland Avenue, Wednesday; Many Attractions

Mrs. Prior, the wife of the Lieutenant-Governor, has kindly consented to open the garden fete to be held at "Shuhum," Rockland Avenue, the residence of Mr. and Miss Agnew, under the auspices of the Robert Valentine Harvey Chapter, I.O.D.E., on Wednesday next. The exceptionally attractive arrangements will include many side-shows, new lawn games, croquet, tennis, guessing competitions as well as attractive stalls.

There will be about nine stalls, one of the most interesting being that of Mrs. Tyrell Godman, an exhibition of handicrafts made by members of Women's Institutes in England and Wales. Most of the articles form part of a presentation made to Mrs. Alfred Watt, M.B.E., founder of the Women's Institute in the British Isles, on her departure for Canada.

Mrs. Godman will explain the samples of industries, and will have lists for distribution of the rich as well as less fortunate villages in England, where similar articles may be procured. The I. O. D. E. being an order devoted to the upbuilding of Empire, was thought that the opportunity of inspecting the work of English village women would be welcome.

The exhibition consists of toys, baskets, lace, needlework, etc., sent by institutes in Sussex, Essex, Dorset, Cornwall, Wales and many others.

Other stalls are: Home cooking, Mrs. Hodson; needlework, Mrs. Lyson; and the Misses Finlayson and Innes; ice cream, the Misses Bradshaw; flowers, Mrs. Wason and Mrs. R. Bates; candy and guessing, the Misses Sayer-Jones; competitions, Summerhill and Harvey (Mrs. Barnacle has given a very handsome basket filled with chocolates and other prizes for the guessing); generous goose, Miss Kelly and Miss W. Frampton; palmistry, Miss Thurburn and Miss Vandright; Aunt Sally, Mrs. T. Wright Hill; tennis, Mrs. A. Parker (phone 6034L2 for tournament or sets); tea convener, Mrs. W. R. Sayer, assisted by Madames C. B. Jones, Summerhill, Madam and Miss Innes, and the Misses Peggy McBride, Mona Finlayson, Doris Reid, Monica Davis and Mary Jameson; gate, Rockland Avenue, Miss Beedham.

Visitors should arrive any Fort Street and to Moss Street.

ALLURING AND USEFUL NOVELTIES SEEN IN THE SHOPS

As the season advances women's sweaters, both the beautiful, as well as the practical types, become more numerous. In looking about at the big assortment in the various shops it is easily seen that even the most "snicky" will find it hard to resist some of these temptations.

One of the newest and prettiest models seen recently was of heavy white silk Roman striped, in red, gold, green and dark blue. It was a "tuexdo" model. There was another, the same style, and same heavy quality white silk, but instead of the Roman stripes were various width black stripes. This, too, was exceedingly smart.

For the woman possessing more extreme taste, an oyster colored silk sweater, with hand painted collar and cuffs, godenrod designs, no doubt, would appeal. Besides being unusual this sweater is the personification of daintiness.

The Latest Pockets. The very latest in concealed pockets for money and jewelry, can you guess where they would be? No, I don't believe you can, so let it be told right here that they are now firmly attached to the side front, lower part of girle corsets. These pockets are large enough to hold plenty of money and plenty of jewelry. They are made of the same pink material as the corsets, and are finished with secure clasps. These days when looting seems to have become an epidemic, such pockets are of the greatest value. For the summer months they are pretty as well as decorative necessity is a crumb tray, white enamel on tin, yellow nasturtiums gracefully adorning it, bright touches here and there in the smallest and most unpretentious bungalow adds greatly to the attractiveness of it.

HALLIDAY'S JULY ECONOMY SALE

Dependable housewares—the sort that are instantly appreciated by the most critical—are now on sale here at money-saving prices.

MEDIATION SAVED PUBLIC DISCOMFORT

Hon. J. W. de B. Farris Sent Representative to Gas Co. Negotiations

On receiving the news on Thursday afternoon that a strike of the gas workers in Victoria and Vancouver was timed to commence at noon on Friday, the Hon. J. W. de B. Farris, Minister of Labor, took the great amount of hardship and inconvenience that would fall upon the general public if the strike occurred into consideration. He immediately instructed Deputy Minister J. D. McNiven to act promptly in the matter. Mr. McNiven at once got in touch with the company and the men's union in Victoria. He found, however, that the dispute was chiefly centered in Vancouver, where efforts were being made to negotiate a joint agreement, and that representatives of the men from Victoria had already left for the mainland on this business. As it was apparent that nothing could be done in Victoria at the moment, Mr. McNiven, of the Department of Labor, was instructed to proceed to Vancouver by the night boat.

Interviewed Parties.
Early yesterday morning Mr. McCallum saw Mr. Kidd, general manager of the operating company, and also interviewed a committee representing the employees of Vancouver and Victoria. The situation had by this time reached a deadlock, as both sides had reconciled themselves to allowing matters to take their course. Mr. McCallum, however, urged them to bear in mind that the dispute was not one that affected them alone, but that the results, in the event of a prolonged stoppage, would be felt severely by the general public.

A Conference.
After a series of interviews between Mr. McCallum and the representatives of the men and the company, respectively, a conference was arranged and the main issues of the dispute were taken up and discussed. It was apparent that there had been a certain amount of misunderstanding on some of the issues raised, and these were found to be susceptible of easy adjustment.

The dispute then narrowed itself down to two main points. The first was the request that time and a half pay should be made for Sunday work in regard to the second point, it may be explained that there has been an arrangement in force, whereby the men's wages were regulated every three months so as to conform to changes in the cost of living. Such an adjustment was due at the beginning of the present month, but the company had suggested that in view of the concessions which had been made, the adjustment should be deferred until October.

It was found impossible to bring the two sides to an immediate agreement on these points, but, after further negotiation, they accepted a suggestion in favor of these matters being submitted to arbitration. When this discussion was going on, the hour arrived at which the men had decided to cease work. Before the committee could get in touch with them to report that negotiations were progressing favorably, a number of the men had left, but steps were at once taken to get them together. At one o'clock a meeting was held; the whole situation was explained to them and they decided to return to work at three o'clock, and to carry on as before, pending a settlement by arbitration.

GET AGED MEN READY TO VOTE

Registering on Voters' Lists by Telephone Not Allowed, Officials Announce

Attempts to register on the new voters' list by telephone are being prohibited by local registration officials, it was announced today. Although persons can register in shops and other places while they are shopping or transacting business, the privilege of registering by sitting at home and calling up a telephone number cannot be granted, registration officials announced today. This is because each person who registers must sign his own name, as when voting day comes around each voter must prove that his signature is the same as that on the register before he will be given a vote.

Persons who are preparing to register are being advised to remember the style of signature that they use now so that they can use the same style of signature on election day.

Register All the Aged.
Inmates of the Old Men's Home and of the Home for the Aged and the Aged Women are all being put in a position to vote at the next elections. Commissioners are being sent to both these institutions with instructions to see that every aged man and woman is put on the list.

Must Turn in Names.
Orders are being sent out to all commissioners that they must turn in registrations and not keep them at their homes. Some men, it was explained today, have been keeping at their homes forms that have been properly filled in. Some of these forms date back to the opening of the registration.

Registrar Mabon said that he had no evidence that people were taking names for the lists, and then culling out those names of persons of the opposite party and failing to turn them in. He said that charges of such things happening were being made, but there is no indication of their truth.

A number of persons have been diligent, however, about turning in the registrations. One registration made six weeks ago was turned in only today.

Registration will close on Thursday. All registration booths will be open until 9 o'clock to-night and from 9 a. m. to 9 p. m. every night next week.

Yesterday 474 persons registered in Victoria, and 43 in Esquimalt. This brings the Victoria total up to 13,657 and the Esquimalt total to 1,336. Saanich passed the 4,000 mark on Thursday night.

DECISION LIKELY TO DEPEND UPON RAILWAY BOARD NEW ROUNDHOUSES FOR C. N. R. HERE

Transportation Problem Probably Will Be Settled in That Way

While neither side has decided definitely on its intentions, developments during the last few days have made it almost certain that the negotiations between the B. C. electric Railway Company and the civic authorities over the transportation problem will be referred to the Board of Railway Commissioners for settlement.

Negotiations between the city and the company have not been broken off, it is true, and, indeed, will be resumed next week, but little hope is promised of a settlement being reached as a result. The company's request for a seven cent fare lately has blocked the progress of the negotiations. The company claims that it must have such a fare if it is to operate profitably. Members of the Legislative Committee of the City Council, which is dealing with the matter, are understood to agree that such a fare may be necessary. Before such a fare could be allowed, however, it would have to be authorized by the electors, and both sides recognize the probability—which they feel, amounts to a certainty—that the electors would decide an increase in the fare to seven cents. This circumstance prompts both sides to allow the Railway Commission to decide the issue and grant the increase or not as it sees fit.

Lighting Rates.
Again, aldermen are informed, the company does not feel that a reduction of the present lighting rates is fair, in view of the losses which it has been suffering for months past. While they are reticent on the subject, there is little possibility that a majority of aldermen would agree to any arrangement that did not include a reduction in the lighting rate. As a matter of fact, it is understood that, under present conditions, it would be rather a loss to the company to close up its street car system altogether and operate the lighting system alone, than to continue its street operations. In other words, the losses of the street car system eat into the profits of the power system.

The aldermen are well aware of the latter fact, and, generally speaking, are prepared to grant the company terms which will make the operation of the street cars profitable and, moreover, make the continual efficient operation possible.

Besides the dispute over these matters, a number of minor questions also stand between the city and the company. It is felt, however, that these could be reached should a settlement on the more important issues be achieved.

To Railway Commission.
If the company, however, continues to press for a seven cent fare it is altogether likely that the city would rather see this matter settled by the Railway Commission than by an expensive referendum. And, on the other hand, failing a settlement, the company could, at any time, ask the Commission to take the problem under consideration.

At present A. T. Goward, local manager of the company, is preparing a written statement of the company's case and the arrangements which it desires to see in force. This probably will be laid before the civic authorities almost immediately, but as it will not differ much from the previous requests of the company, the prospects of an agreement do not appear very bright.

BOYS' NAVAL BRIGADE

Weekly Orders, July 9.

1. All parades and band practices are hereby cancelled after the above date until the end of Summer holidays.
2. The second cutter and gig will be available during the Summer holidays for the use of ratings. These parties must always be in charge of a petty officer, who must obtain permission from the ship's office, and be responsible that all ratings are in uniform.
3. All band instruments should be returned to the ship's office before Wednesday the 14th inst.
4. It has been arranged that the Victoria Film Company will stage a film of the Boys' Naval Brigade. Due notice will be given in the papers of the date and time, which will be considered a parade that all ratings must be certain to attend.
5. Those ratings who can obtain their parents' permission to proceed to sea at short notice should see to it that the ship's office is supplied with the telephone number and address.
6. A. B. Cochrane No. 2, A. B. Tall No. 241, are being drafted to S.S. Canadian Inventor, A. B. Davenport No. 275, is being drafted to S.S. Mont-eagle to relieve Newell, who has been appointed as cadet on the Canadian Inventor.

(Signed) W. M. HOTHAM,
Lieut. R.N.V.R., C.O., B.N.A., V.D.

THOSE MEN!

When a girl turns a young man's proposal down he is apt to take it to heart because he feels sorry for her.

New permanent roundhouses for locomotives of the Canadian National Railways are to be built at once north of Point Ellice bridge at the side of the railway's present freight yards. Work will start next week.

The contract for the work has been let to Robertson Partners, of Vancouver, for \$50,000. The buildings will be of cement and brick and will replace the temporary roundhouses now there.

In connection with the roundhouses for five locomotives, machine shops are to be put up for repairing and rebuilding locomotives used on the Island lines.

From to-day began the construction of a new home. The house, which is of special design, is being erected on his property on Burton Avenue.

Thomas Iebster, of 626 Burnside Avenue, and Mrs. F. Pitts, of 415 Sumas Street, have decided to greatly enlarge the capacity of their houses. Builders are now busy adding additional rooms and verandas to these houses. The work is being speeded up so that the enlarged houses will be ready for occupancy before the wet weather begins.

Building operations are also being carried on by W. J. Hartnell at 1219 Rudin Avenue and by G. R. Richardson on Cambridge Street.

JUDGE SETTLES MOTOR CASES

Decides Those Who Are Guilty in Smash-ups and Awards Damages

Two automobile smash-ups which have been puzzling lawyers and the court to settle, have been unravelled by Judge Lampman.

In the Levings against Colville case, which had to do with the piling up of three automobiles on the Saanich Road, near Saanichton, the judge has ordered Colville to pay Levings \$156.85 damages, to which other expenses of \$13.50 in connection with the accident are added.

Levings and one Mitchell were each driving a motor car towards Saanichton on March 8 last, the plaintiff being ahead, the judge says. "Coming towards them were the defendant and one Wise, also each driving a motor car, with Wise leading."

"Mitchell drew out to pass the plaintiff, but before he could do so Wise came up and the cars driven by Wise and Mitchell collided. The defendant saw trouble ahead of him and put on his brakes, but his car skidded, and when he got up to the plaintiff's car, which was on its proper side of the road, he crashed into it and passed it and stopped with the front wheel of his car running into the westerly bank about thirty feet behind the plaintiff's car.

Took Wrong Side.
"The defendant swerved over to his wrong side of the road and there hit the plaintiff. On his showing he ran about 130 feet after he put his brakes on before he crashed into the plaintiff's car, which would likely check him somewhat, and the wheel running into the bank eventually stopped him.

"The contention that there was no negligence on his part in view of these circumstances seems to me difficult to accept."

In the Rylands-Boulton motor collision at Pandora, Saanichton, the judge orders Boulton to pay \$160.55 for repairs to Rylands's car and give him \$5 for the depreciation in the value of the car because of the accident. The counter-claim of Boulton is dismissed.

Failed to Obey Rule.
"At the point where the collision took place, the plaintiff had the right-of-way," states the judge. "I think the accident occurred by reason of the driver of the defendant's car failing to observe the rule. The plaintiff is very illiterate and a poor witness, but I think he looked down Pandora before entering into that street."

"The driver of the defendant's car said it was a very dangerous corner, but at the view, I could see nothing to make it a particularly difficult matter for two cars to escape each other. The position of the plaintiff's car when it was hit and the fact that the defendant's car hit the back door of the plaintiff's car indicate that the plaintiff's contention is correct."

In another case the judge awarded Seidelhuber, of Seattle, \$442.45 of the \$458.42 asked for against McDonald & Nicol for the building of their new gas furnace. The McDonald & Nicol counter-claim was dismissed.

SOME OVERPLUS

An eight-year-old boy who went to a school treat, being a favorite with the ladies, had been liberally supplied with good things. Later in the day one of the ladies noticed the boy sitting under a stream with a woe-begone expression on his face and his hands clasped over his bosom.

"Why, what's the matter, Willie?" she kindly asked, "haven't you had enough to eat?"

"Oh, yes'm," said the boy; "I've had enough. I feel as though I don't want all I've got."

Genius is invariably absent-minded. A famous Scotch professor was no exception in the rule. He had returned from a long walk, and his feet were very sore and tired. He was told the best thing to do was to bathe them in hot water.

This he promptly did. In the ordinary course of events he proceeded to dry his feet. He dried one foot, and then, without the slightest regard as to what he was doing, he put it back in the basin. Then he dried the other foot, which he also redipped in the basin. This went on for some time. Then he began to get nervous.

PROTECT YOURSELF

Against a coal shortage. Order to-day.

The remains of the late Mrs. Mary Florida Hope were laid to rest in Ross Bay Cemetery yesterday afternoon. The cortege left the B. C. Funeral Chapel at 3.45 o'clock and proceeded to Christ Church Cathedral, where service was conducted by Rev. Dean Gwynne, assisted by Rev. Mr. Hughes. Two hymns were sung, "Lead, Kindly Light" and "Abide With Me." Many floral tributes covered the casket.

Mackay & Gillespie Limited

Phones 149 and 622

The funeral of the late Thomas Charles Nelson took place from the B. C. Funeral Chapel yesterday afternoon, where service was conducted by Rev. Mr. McGivillivray, of St. Andrew's Presbyterian Church, at 2.30 o'clock. There was a large attendance of friends and the casket was covered with floral offerings. The following acted as pallbearers: Fred Popham, W. H. Price, P. J. Davies, Chas. Phillips, J. T. Henley and J. E. Curtis.

VIE-DE-PEAU

is a scalp tonic. It does NOT contain oil, alcohol or perfume. Do not use alcohol solutions, as alcohol burns out the natural scalp oil. Your hair will then comb out. To be real sure, ask for Vie-de-Peau.

BRIEF LOCALS

Ex-Gunners' Dinner Postponed.—The ex-gunners' dinner, which was to have been held on Monday, has been postponed indefinitely.

Married at Ottawa.—The marriage has taken place at Ottawa of Miss Rose Lillian Lawless, daughter of Mr. and Mrs. M. Lawless, of 1621 Chambers Street, and J. M. Haley, of Toronto. The young couple have left on a wedding trip to Niagara Falls, New York, Buffalo and other eastern points.

Grand Army of United Veterans.—A meeting of the Grand Army of United Veterans will be held in the Knights of Pythias Hall, North Park Street, on Monday night, July 12 at 8 o'clock. All members are earnestly requested to attend, and to bring with them at least one friend eligible for membership.

G.O.C. Inspects Cadets.—Brigadier-General J. M. Ross, G.O.C., arrived in Vancouver yesterday to inspect the school cadets of that city in camp at Point Grey. He was accompanied by his personal staff, and inspected the assembly corps with their own officers in his retinue. The Vancouver cadet camp is proving a distinct success, with several hundreds of cadets in training.

Building Society Meets.—The half yearly meeting of the Greater Victoria Building Society took place yesterday at the office in the Windsor Building, with William Marchant in the chair. The auditors report and financial statement showed a satisfactory state of affairs. John Green, of 72 Strickland Street, Nanaimo, won the seventh drawing for a building appropriation with ticket number 5442, while Mrs. G. W. Emery, also of Nanaimo, secured the right to loans totalling \$3,000 on tickets 54B and 54C, conjointly.

In Police Court.—Reginald Meighen, 403 Garbally Road, charged with assaulting his wife, Mary Meighen, and doing her actual bodily harm, was arraigned in the police court this morning to answer the charge. Mrs. Meighen testified to the occurrences that had led up to the assault, and stated that she was in actual fear for her life, on account of the jealous disposition of the accused. Accused pleaded not guilty to the charge, and in a statement made to the court said that the fault did not lie on the one side. Application for bail was refused by Magistrate Jay, who reminded the accused that he had threatened to shoot his wife. The case was remanded for further hearing on Monday morning. Arar Bennett, and "Mike" Hudson were fined \$5 each for drunkenness.

OBITUARY RECORD

At St. Joseph's Hospital this morning the death occurred of Douglas-Moore Thomson, the two-month-old son of Mr. and Mrs. R. A. G. Thomson, of 2802 Douglas Street. The funeral will be held from the B. C. Funeral Chapel on Monday at 2 o'clock. Interment will be made at Ross Bay cemetery.

The funeral of the late Private Peter Trent, whose death occurred last Tuesday, was held yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. Many friends attended and the casket was covered by beautiful floral offerings. The Rev. W. Stevenson officiated at the chapel and graveside. The following acted as pallbearers: Walter Day, J. C. Smith, H. Herberston and R. A. McIntyre, all comrades of the Great War. Interment was made in Ross Bay cemetery.

The usual meetings of the Pack on Friday evenings are being continued for the benefit of those not at the Summer camp. Three boys of nine or over will be accepted to fill vacancies in the Pack. Applications may be made on Friday evenings at 7 o'clock.

A Cubmaster and two Assistant Cubmasters are urgently needed for this Pack, experience not necessary if a lover of boys, and willing to learn the details of the Wolf Cub programme. It is a pity that the work among boys of Japan should be limited because three gentlemen will not volunteer to give up a few hours a week for the welfare of the coming generation. Those who are willing to serve in any capacity please get in touch with any member of the James Bay Troop Committee, or the Organizing Scoutmaster, Phone 5543R.

Maclean Troop.
Headquarters at Railway Crossing, Esquimaux Road. Meet Fridays at 7.30 p.m. Wolf Cub Pack, Thursdays at 7.30 p.m. Organizers—P. A. Trowsdale and A. MacArthur.

This pack are displaying considerable energy in working for their first stars as the time limit draws near. They are also coming on well with signal practice in preparation for camp. They expect to go into camp about July 17, and six others have already attended a preliminary camp in order to learn the ropes, as most of the pack have never been under canvas before.

THE SILVER LINING

Cheer up! Just think of all the money you can save on those things you can't afford to buy.

Appetite Keen and Bowels Relieved

11TH MACHINE GUN BRIGADE

There will be no parades during the week ending July 17. The next shooting practice will be held at Clover Point ranges at 7 p.m. Thursday, July 22, 1920.

All ranks who have not yet completed the new attestations forms will please arrange to call at brigade headquarters and do so within the next two weeks.

J. M. CUMMING,
Captain-Adjutant.

TO GO NORTH

Hon. T. D. Pattullo Will Pay Special Visit to Queen Charlotte Islands.

Hon. T. D. Pattullo, Minister of Lands, will leave to-morrow for the north, and such attention will be paid to the Queen Charlotte Islands.

The spruce of the Queen Charlotte Islands is the finest spruce in the world, and such attention was riveted on the islands during the period of aeroplane spruce production that a number of enterprises then started are still continuing, with the result that the population has increased five times.

The islands also have splendid mineral possibilities. There are also indications of coal, while actual operations are being carried on for discovery of oil. There are also large areas of good agricultural land particularly suitable for cattle raising.

SAWMILL FIRE AT DALLES, OREGON

Dalles, Ore., July 10.—Eight hundred men are furiously fighting a \$200,000 fire which broke out in the Willamette Valley Lumber Company's sawmill here at 10 o'clock this morning. With the heat so intense that it is impossible to get within 450 yards of the blaze, trainmen for hours have risked their lives in making rushes for trainloads of logs.

The cause of the fire is unknown. Nearly 3,000,000 feet of logs are endangered by the conflagration. Every effort is being made to save the loading docks and planing mill, which are in danger.

More than 150 men will be thrown out of employment as a result of the disaster.

Look For Ten Teams in Island Lacrosse League

J. J. Grant, of Nanaimo, Presenting Handsome Cup to Restore Lacrosse to its Former Popularity; Nanaimo to Enter League This Year With Sidney and Victoria

Lacrosse, Canada's great national game, is not to be allowed to take the count on Vancouver Island if the plans formulated by J. J. Grant, of Nanaimo, are carried out.

CANADIAN WINS PRIZE ON WEIRD SHOOT-OFF

Bisley, Eng., July 10.—(Canadian Associated Press)—Conditions were less treacherous to-day when the newspaper match was taken.

Lieut. J. O. Nix, of Winnipeg, won the first prize in the Birmingham Small Arms competition, after a peculiar shoot-off with a South African.

The total entries for to-day's matches were: Daily Graphic, 562; Graphic, 559; Telegraph, 554; Stock Exchange, 541; and Wimbledon Cup, 252.

Must Rally Now. It has been realized that of the national game is to be saved from a hearse a rally must be started immediately.

Next year it is expected that an Island League will be formed. It is also the desire of lacrosse fans to see the former School League re-established so that the youngsters may learn how to handle a stick.

The little town of Sidney is doing its part to keep lacrosse from dying out. It has one of the fastest senior teams on the island and is developing a junior team, under 16 years of age, which issues a challenge to any other junior team on the island.

Must Rally Now. It has been realized that of the national game is to be saved from a hearse a rally must be started immediately.

MORTON ONCE AGAIN BEATS FAMOUS COLE

Harry Let Tigers Down With Seven Hits, and Held Them Scoreless

Another entry has been made by the J. B. A. A. for the N. P. A. A. O. regatta to be held next Friday and Saturday at Shawnigan Lake.

Victoria 3—Tacoma 0. For a long time King Cole has looked upon as the best bat in the Pacific International League, and there has been a lot of talk about him being on his way to bigger leagues, but he has had to bow twice this week to the new pitching star who has loomed in the baseball heaven.

Yesterday Morton mixed it with Cole and the count was in his favor. He twirled the Capitals to a beautiful win. The Tigers collected seven hits off his delivery and got five runners to first by walks, but in the pinch Morton had so much on the ball that the opposing hitters could do nothing with him.

Victoria Hit Well. The Capitals did not leave their bats behind when they faced Cole yesterday. In the game Cole pitched here the Caps only garnered three hits. Toots Brown continued his slashing work with the bat and laced out a pair of singles, Elliott and Cy. Neighbors also connected safely twice.

Grover Land got a hit and his throwing arm was in fine shape. Two Tigers were nipped trying to pilfer second.

Victoria got to Cole for two runs in the fourth and chased in one more in the sixth.

The Box Score. Victoria: AR. R. H. PO. A. E. Elliott, ss. 5 1 1 3 0 0 Church 3 b. 5 1 1 13 0 0 Leard 2 b. 3 0 1 14 4 0 Brown 1 f. 4 2 2 23 0 0 Carmichael 4 f. 0 0 0 0 0 0 Dempsey 1 b. 4 0 1 10 0 0 Neighbour c. f. 4 2 2 20 0 0 Land c. 4 0 1 14 2 0 Morton p. 4 0 0 4 0 0 Totals 37 3 11 27 16 0

Tacoma: AR. R. H. PO. A. E. Davis, 1 f. 4 0 0 10 0 0 Vaughn 2 b. 2 0 0 3 5 0 Gammes c. f. 2 0 1 11 0 0 Graham 1 b. 4 0 2 13 0 0 Anfinsen c. 4 0 0 3 0 1 Peppin 3 b. 2 0 1 11 1 0 Brown 1 f. 4 0 0 11 0 0 Grantham a. c. 2 0 1 12 2 0 Cole p. 4 0 0 13 0 0 Stevens 1 0 0 0 0 0 Totals 32 0 7 27 14 2

FRENCH TEAMS ARE ELIMINATED BY U.S.

Eastbourne, England, July 10.—(Associated Press)—As a result of to-day's play in the matches between the French and the American teams in the Davis Cup elimination contest, the French team was eliminated, the Americans remaining in the race for the trophy. This was accomplished by the American doubles pair, William Johnston, of California, and William T.ilden, of Philadelphia, defeating Alfred H. Gobert and William H. Laufenz, the French representatives.

ESQUIMALT GUN CLUB. The Esquimalt Gun Club will hold a shooting meet at the Admirals' Road ground to-morrow at 10 o'clock.

Odds on Shamrock Are Beginning to Shorten

Challenger's Backers Still Looking For Odds at 2-1, But There Were Lot of Takers Yesterday at 8-5; Big Job Adjusting Time Allowances.

New York, July 10.—(Canadian Press)—Betting odds on the international cup race shortened yesterday and there were plenty of takers at 8 to 5 against the British challenger. Generally speaking, backers of the Shamrock are asking odds of 2 to 1.

The question of time allowance is attracting much attention. Yesterday a wager of \$250 even was made that Shamrock will not have to give the defender more than seven minutes.

A Big Task. The measuring of the yachts is a big task and is occasioning some difficulty. For the first time the big race will be sailed under the Universal Rule of Measurement. The rule reads as follows: "The square root of the sail area, divided by cube root of displacement."

This is an exceptionally complicated rule, and one that only yachtmen understand. For the past thirty years in all of America's cup races the measurement of a boat for time allowance has been one-half of the sum of the load water line length and the square root of sail area.

The Old Way. In 1903 and previous years Messrs. Mower and Hyslop simply measured the deck length of a boat, dropped a plumb line from the end into the water, floated a batten in under the bow and under the stern, measured on the batten the distance from the plumb line to the end of the water-line, forward and aft, and subtracted the sum of these two measurements from the deck length. This gave them the load water-line length. The sail area was measured according to arbitrary methods, but it was assumed to be and very nearly was the measurement of the square root of the area was a simple matter, and one sum in addition, and one in division determined the rating of the boat.

This was the formula even in 1903, although the measurements of boats for other races of the New York Yacht Club of that year were made under a rule similar to the one now in force, but the latter has been adopted early in 1903, and the challenge for the cup races of 1903 having been accepted in the fall of 1903, the old rule of measurement prevailed in the last cup race.

This year, however, the measuring of the yachts will be more complicated involving a lot of calculation. The heretofore and the quarter-length beam length will be measured as before, and the dimension used as a corrective of the load-water line, and it must not without penalty be more than a certain percentage of the load-water line length, for a boat of seventy-five feet water line, the dimension fixed by the challenger, this percentage will be slightly over ninety-one per cent.

Other leading batters: Weaver, Chicago, 35; Rice, Washington, 37; Milan, Washington, 34; Johnston, Cleveland, 34; E. Collins, Chicago, 34; Hendrix, Boston, 33; Felsch, Chicago, 32.

Hornsby Real Leader. Eyras, of Boston, pitcher, outfielder and pinch hitter, passed Roger Hornsby as leader among the National League batters, who have participated in forty or more games. He is sitting 403 for forty-seven games in which he cracked out twenty-nine hits in seventy-two times at bat.

Other leading hitters: E. Smith, New York, 35; Konechey, Brooklyn, 32; Nicholson, Pittsburgh, 32; Rousch, Cincinnati, 32; Williams, Philadelphia, 32; Hollocher, Chicago, 32; Gray, Cincinnati, 31; Young, New York, 31; Robertson, Chicago, 31.

SIDNEY IS SPORTING MECCA THESE DAYS

Sidney, July 10.—Sidney has certainly been a sporting mecca the last few days.

On Monday the lacrosse team went to Friday Harbor, Wash., and played in an exhibition game at the July 5 sports held there.

On Tuesday the local football team met Patricia Bay in an exhibition football match, winning out by 1-0.

On Wednesday the societies tackled James Island football club at Sidney, and lost by 2-1.

On Friday the local baseball team stacked up against Saanichton mitt artists.

To-day Sidney is to play a return game of football at James Island and also take part in the big sport days to be held at the home of the "Pawder Puffs."

On Monday Geo. Sutherland's "Terrible Terrys" tackle the Island cricket team in the latter's jungle, completing a week of excitement in sporting circles of the metropolis of North Saanich.

The junior lacrosse club of Sidney, challenge any team in Victoria under 16 years, to home or home games. Dates are to be arranged.

LOCAL BOWLERS GOING AFTER B. C. HONORS

Skips have been chosen for the rinks which will represent the Victoria Lawn Bowling Club in the B. C. Championships, which will be held in Vancouver on July 21.

The skips will be as follows: W. H. Cullin, R. Dodwell, A. McKechnie and H. Webster.

The doubles will be J. Raeside and

RECEIVES GIFT AND THEN HITS HOME RUN

Babe Ruth Did Things Up in Style Yesterday; Indians Win and Reds Lose

AMERICAN LEAGUE.

New York, July 10.—New York defeated Detroit yesterday, 3 to 3. The Yankees resumed their hard hitting, while Quinn proved a puzzle to the Tigers. Babe Ruth was presented with a diamond-studded K. of C. by local Knights of Columbus, and in the fifth inning hit his twenty-fifth home run of the season.

Score—R. H. E.
Detroit..... 3 5 0
New York..... 3 13 4
Batteries: Oldham and Almsmith; Quinn and Hannah, Hoffman.

Washington, July 10.—Cleveland took another game from Washington yesterday, 4 to 4. The Washington defence crumbled behind Zachary in the seventh and eighth innings, when the visitors made all their runs. Speaker, of the Cleveland club, injured his leg.

Score—R. H. E.
Cleveland..... 8 12 1
Washington..... 4 13 4
Batteries: Caldwell, Niehaus, Bagby and O'Neill; Zachary and Ghar- rity.

Chicago, July 10.—Barber's single ended a thirteen-inning game which Chicago won from New York, 3 to 2. The winning hit followed Twombly's single, Follocher's sacrifice, Terry's out and an intentional pass to Robertson. Alexander and Barnes worked all the way, and it would have been Alexander's game in nine innings, but for Follocher's error in the seventh.

Score—R. H. E.
Chicago..... 3 12 3
Philadelphia..... 2 9 1
Batteries: Williams and Schalk; Harris, Perry and Perkins.

St. Louis, July 10.—Cleveland took another game from Washington yesterday, 4 to 4. The Washington defence crumbled behind Zachary in the seventh and eighth innings, when the visitors made all their runs. Speaker, of the Cleveland club, injured his leg.

Score—R. H. E.
St. Louis..... 1 10 0
Boston..... 4 14 1
Batteries: Davis and Severoid; Bush and Walters.

NATIONAL LEAGUE.

St. Louis, July 10.—Brooklyn and St. Louis divided a double-header yesterday, the locals pounding two pitchers for an easy 7 to 2 victory in the first game and losing the second 5 to 6. Brooklyn could do nothing with Schupp in the first contest, but in the second Marmox held the locals helpless, but one man reaching third. The Dodgers are now in the lead.

First game—R. H. E.
Brooklyn..... 7 2 0
St. Louis..... 5 6 2
Batteries: Cadore, Miljus and Krueger; Schupp and Clemons.

Second game—R. H. E.
Brooklyn..... 2 7 0
St. Louis..... 5 6 2
Batteries: Marmox and Miller; Elliott, Haines, Kime and Clemons.

Philadelphia, July 10.—Boston won from Cincinnati yesterday, 3 to 1, and bumped the leaders into second place by bunting two singles and a double, with a base on balls in the seventh. The Reds escaped a shutout in the fourth when Daubert doubled and scored on a single by Rousch.

Score—R. H. E.
Boston..... 3 9 0
Cincinnati..... 1 9 2
Batteries: McQuillan and Gowdy; Ruether and Wingo.

Giants Lose Out.
Chicago, July 10.—Barber's single ended a thirteen-inning game which Chicago won from New York, 3 to 2. The winning hit followed Twombly's single, Follocher's sacrifice, Terry's out and an intentional pass to Robertson. Alexander and Barnes worked all the way, and it would have been Alexander's game in nine innings, but for Follocher's error in the seventh.

Score—R. H. E.
Chicago..... 3 12 3
Philadelphia..... 2 9 1
Batteries: Barnes and Smith, Snyder, Alexander and Killefer.

SCOTLAND WINS SHOOT AFTER CLOSE CONTEST

Bisley Camp, England, July 10.—The Elcho Shield match between England, Scotland and Ireland furnished one of the best contests for this trophy of recent years, yesterday.

England, which had such noted shooters on the team as Major P. C. Mack, led by three points in the first stage, half way through the match Scotland led by three points. The final result was:

Scotland, 1,582; England, 1,553; Ireland, 1,472.

The highest score was made by Lieut. A. W. Martin, nephew of Capt. F. B. Martin, of Calgary, who scored 207 for Scotland, his father, in the same team, scoring 195. The highest score for England was 201 by Mack of North London.

Additional Canadian winners in the sweepstakes were:

Private George Weir, of Toronto; Capt. F. B. Martin, of Calgary; Lt. J. C. Nix, Winnipeg; Capt. C. R. Crews, of Guelph; Sergt. James Boia, of Montreal; Major Utton, Toronto, and Sergt.-Major F. Goodhouse, Ottawa.

THE FORTUNE TELLER

"You will marry the one you love," said the fortune teller.

"Has he dark hair?" asked Miss Gush.

"Yes."
"Has he a cute little moustache?"

"Yes."
"Is his name George?"

"Yes."
"Is he an automobile salesman?"

"Yes."
"Does he live on Blank Street?"

"Yes."
"Has he given me an engagement ring set with a diamond and two pearls?"

"Yes."
"Will he be twenty-four in August?"

"Yes."
"My," said Miss Gush, as she turned to her companion, "Isn't it perfectly wonderful how a fortune teller can know all these things! And they are all true, too! I can't understand it!"

CALL IT QUITS

Stern Parent-Edwin, didn't you promise me not to play marbles again?"

Little Edwin—Yes, sir.

Stern Parent—And didn't I promise to whip you if you did?"

Little Edwin—Yes, sir; but I forgot to keep my promise, so I won't hold you to yours.

WILL STAGE PINERO COMEDY FOR HOSPITAL

Dramatic Society to Produce "Dandy Dick" Under the Kiwanis Club Auspices

Under the aegis of the Kiwanis Club, and in aid of that very deserving cause the Provincial Jubilee Hospital new building fund, the Victoria Operatic and Dramatic Society, which was, as the Princess Dramatic Society some two years ago by Mr. R. N. Hines, will make its reappearance at the Fantages Theatre on Monday and Tuesday, July 19 and 20.

The vehicle chosen is Sir A. W. Pinero's well-known comedy, "Dandy Dick," a play that has been hailed as the best of the theatre-going public wherever the English language is spoken.

The production is in the capable hands of Major P. E. Frideaux, a comparatively recent addition to Victoria's dramatic circle. Major Frideaux has produced this particular play on several previous occasions in Eastern Canada in addition to many other well-known comedies, and the Victoria public may be well assured that under his direction the production will leave little to be desired.

The cast has been chosen from amongst those participating will be Major and Mrs. Frideaux, Major Hendy, Herbert Kent, Stewart G. Clark, R. R. Webb, R. Ward, Master Chambers and the Messrs. "Bobbie" Stephens, Margaret Butler and Hickman.

It is the aim of the society members to carry on the work in which they have been engaged for several years and in the hope that to produce plays of the same high order as in the past, and it is to be hoped that the public will by its support of the forthcoming production of "Dandy Dick," encourage them to so continue.

To Banish Wrinkles and Freshen Up Quickly

After a strenuous day outdoors, when winds, heat and exhaustion have combined to take away one's freshness and caused the skin to wrinkle and sag—or after a tedious or frosty day indoors—one often has urgent need for some rejuvenator. Maybe there's a dance on for the evening, or some other social affair, in which you can't afford to be unattractive, looking as she does?

It's quite easy, once of powdered azaxite and a half pint witch hazel at the nearest drug store, mix the two and bathe the face with the solution for two or three minutes. The look into your mirror and behold the wonderful transformation! Wrinkles have vanished, tired muscles have been relaxed and "firmness up" marks of fatigue have gone, and you look so much brighter and younger you can hardly believe your eyes. No one need hesitate to try this, the witch hazel and azaxite being so perfectly harmless.

PAVLOWA WILL TOUR IN AMERICA

Famous Russian Dancer Will Return to United States in October

Anna Pavlova, the famous Russian dancer, who has been absent from America for nearly four years, winning a tremendous success in Europe and South America, will return to this country in October for a limited tour of the United States and Canada under the management of the principal American and Canadian cities.

Ms. Pavlova and her Ballet Russe left the United States late in 1916 for a tour of South America, where she was so warmly welcomed that she extended her tour for nearly two years of continued popularity. The famous ballerina then toured the West Indies, and at the close of hostilities in the world war she returned with her company to Europe, where she has remained ever since. She recently finished a long season at the Drury Lane Theatre in London, in which she is said to have surpassed all her former successes in the British capital, many of them being under royal patronage. She made her home in London for a considerable time before the terms of Fortune Gallo's offer tempted her to visit America; the scene of her earlier triumphs.

In New Programme
Mr. Gallo is arranging to present Ms. Pavlova, her Ballet Russe and symphony orchestra in a series of new ballets and diversions for a week in New York before taking them on tour. In response to a popular demand the chief engagement will probably be placed at the Manhattan Opera House following the season of grand opera which Mr. Gallo's San Carlo Company will give there in the Fall. Chiefly the ballets and diversions produced for the first time in the present London season will be presented in the New York engagement with entirely new scenery and costumes. Several favorite numbers among Ms. Pavlova's former dance creations will also be revived, including "The Swan," "The Dances of the Sirens," "Chopiniana" and other happily remembered examples of the best classic and modern dance compositions. The greater part of Ms. Pavlova's programme will thus be composed of accepted favorite offerings, and of dances produced for the first time in America and Canada.

GASOLINE

The price of gasoline per drop goes on, our chief sinning. We wish that we could call a cop and hold it up for speeding.

DOMINION

Local screen lovers who remember the thrilling entertainment that was provided by Wallace Reid in "The Roaring Road" will be pleased at the news that a sequel to that story has been made into a picture, with Mr. Reid in the stellar role, and is now being shown at Dominion Theatre. It is called "Excuse My Dust."

Like its predecessor, the new photoplay was adapted from a magazine story by Byron Morgan, and is about automobile racing. Mr. Reid is the hero in a thrilling road race, thwarting his rivals and paving the way to victory.

VARIETY

The infinite power of chance that operates in everyday life to control the destinies of human beings finds fine visualization in Vitagraph's new picture, "The Bramble Bush." Corinne Griffith is the star. The picture will be screened at the Variety Theatre daily, except on Wednesdays, in the case of "The Bramble Bush" the freak of chance has its occurrence in the meeting of the heroine, an unsophisticated girl from Tennessee, who finds herself alone in Washington and a prominent clubman. The meeting occurs in the vestibule of the club. From this casual contact the lives of the two persons are influenced and directed into new channels. The man has found another object for his fickle, unworthy desires. The girl has found an entrancing love. Through many a situation fraught with emotional appeal the two characters are carried finally to a surprising climax.

COLUMBIA

To screen the great scenes in his new production, "Victory," showing at the Columbia, made from Joseph Tourneur made full use of California's natural beauties. Several episodes were filmed on the rugged coast of Catalina Island. To reproduce as nearly as possible the verdure of the South Sea, where the story is laid, the tropical luxuriance of Palm Springs was used. For the sea scenes the broad expanse of the Pacific in both calm and storm served admirably. A Chinese junk, and a stout whaleboat add to the faithfulness of the background.

PANTAGES

There is promise of exceptional entertainment at Pantages Theatre next Monday and Tuesday when Elaine Hammerstein in "The Woman Game" will be offered as the featured attraction. The engagement is for two days only beginning Monday matinee.

From a story of Leighton Osmun and Frank Dasey, G. Marion Burton, one of the school of present day writers for the motion picture screen, has provided a scenario said to possess unusual strength. The authors have gone into the minutest detail of life for typical incidents about which to weave some real drama, powerful in its appeal but portraying in the most unobtrusive way imaginable—without crime, cheap sensation, or startling action.

"The Woman Game"—of the title is merely the game as life itself, which women are always playing in their own behalf or in behalf of those they love. The big interest in the picture lies in its showing up this game so that all those who are playing it unconsciously are able to understand it—and its complete justification.

"LADIES MUST LIVE" BY ONE WHO KNOWS

Alice Duer Miller, who writes fiction for The Saturday Evening Post and The Ladies' Home Journal, is the author of "Ladies Must Live," a George Loane Tucker production to be presented by Mayflower.

"HIDDEN DANGERS"

"Hidden Dangers," Vitagraph's new sensational scientific serial co-starring Joe Ryan and Jean Paige, will be released next month. The serial, written by Albert E. Smith, president of Vitagraph, and Cleveland Moffett, is being made on the West coast and is more than two-thirds completed.

The twins got mosquito bitten

They got it bad. Johnny scratched and Jennie scraped, but the itch kept on. Pretty soon the skin was broken—and sleep, too. The druggist advised Mother to use

Mentholatum

Always made under the supervision of Dr. J. C. Ayer & Co., Lowell, Mass.

She tried it—with delightful results. The itching was cooled and stopped and the broken skin was healed gently and antiseptically.

Now they are happy again. Use Mentholatum for sunburn, too—it cools the pain and heals the burn. Keep it handy for cuts, bruises, nervous headaches and other "little ills."

Mentholatum is sold everywhere in 25c. and 50c. tins.

ORPHEUM BILL IS ONE LONG LAUGH

Closing Programme Out-classes Entire Season in Comedy and Action

As if to remind the theatre-going public that they are soon to miss the weekly advent of vaudeville at the Royal Victoria, the Orpheum bill this week is by far the best in aggregate that has been seen here for some considerable time. The programme presents a balanced symposium of comedy, farce, music and dancing, set to a complement of scenery that leaves nothing undone to make the whole a complete success. Comedy perhaps, is the strongest element in the bill, and several acts take the audience into the realms of laughter there to remain for minutes on end.

Frank Hobson, with a bevy of exceptionally capable chorus ladies lifts the old type of "Girl and Music" act out of the ruck of age-old trassities, and gives a half-hour of the liveliest kind, in which his representations approach nearer to the musical comedy of the standard stage than vaudeville acting.

There are several outstanding features in the Hobson act, chief perhaps being the spontaneous hilarity of all concerned, while the spoken phrase is often exceptionally witty and original. Hobson, in person, is the centre-piece of every act, and takes a very heavy part with tremendous vigor and aptitude. He portrays the character of an irrepressible young man, whose sense of humor is a little above the average of the curious collection of guests at his house party. His devotion to the "Old Fashioned Lady" being more comical than vital, provokes much merriment, albeit to the hopeless confusion of his aggravated fiancée.

The staging and whose management of the act is far above the average and a distinct pleasure to witness on local boards. The dresses worn by the ladies of the chorus are as beautiful as they are ever changing and varied. For the gentler members of the audience, the fashion creations remain on the stage all too short to be satisfying to the inquisitive turn of mind of the average woman, who would like the chorus to have remained in full view until all details had been noted or criticized.

A farcical comedy, "Mrs. Wellington's Surprise," ably bears up the excellent standard of this final programme at the Orpheum. The playlet is simple in cast and action, but every word is worth hearing, and as most of them carry double meanings, every word brings a laugh. The action gets the participants into a very tangled skein of domestic misunderstanding, to extricate them finally with all honors even. Jean Barbara as "Titters," the maid, supplies much excellent comedy with her propensity for investigating the doings of the occupants of the rooms at the hotel of which she is an energetic employee. Miss Pearl Hight as Mrs. Wellington who is mainly responsible for the trouble, takes a "funny" part with much realism, and adds a distinct quota of genuineness to the action of the farce. Granville Bates and Frederic Sumner, as the visiting physician and husband, respectively, take farcical parts with becoming energy and action.

In "Why Be Serious" Will Mahoney gathers the audience into his congenial act once with his genial and good humored representation. He might with all truth be termed the "Back-to-front" man, as most of the articles that comprise his habitments are capable of being reversed with startling rapidity and frequency. His dialogue with the Orpheum drummer whom he takes to explain one of his "best" jokes is one of the most screamingly comical successes of this season. It was not only the drummer that was repeating the answers to the joke for Mahoney last night, but the entire audience. On entry he explained that he belonged to the Army of Nuts and just "back from the front."

Mahoney captured all hearts, and it was with extreme reluctance that the house last night parted with this genial artist.

His turn was novel and worldly attractive from the first appearance, and his brand of foolishness so contagious that he kept the audience in an uncomfortable state of shaking hilarity.

Ralph Bevan and Beatrice Flint, presented a more standard type of comedy act, but one that was both engagingly undertaken, and charmingly carried out. Costume and dialogue pleased, while the action of the act was continuous and merry.

Jerome and Newell in a "Chinese Circus" presented a novel type of tumbling act that was stirring at all times. The blindfolded hand-balances of the duo at the latter end of their sketch have not been seen here before, and must have represented much hard training and nerve-racking uncertainty of continuance of life for the practitioners.

Edna Showalter, in a singing act, lends the charm in an engaging manner to a very attractive voice, and secured several merited encores.

Reo and Helmar present the classical figure type of sketch, but in a novel and attractive way, which added to their genuine cleverness makes a decided impression on the audience.

Altogether the closing bill at the

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in Summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Victoria Will Be Port of Call For Six Admiral Liners

Vice-President Haines Makes Announcement Regarding New Pacific Service; Wenatchee and Keystone State First Ships Slated For Route.

In one of the most important and far-reaching announcements that has been made in Victoria in many years, A. F. Haines, vice-president and general manager of the Pacific Steamship Company, through R. P. Rithet & Co., local agents, states that definite arrangements have been made with the United States Shipping Board for the assignment to the Admiral Line of the S.S. Wenatchee and S.S. Keystone State, the first two of the Shipping Board passenger and freight steamships allocated to the Pacific Coast to be completed for operation in the trans-Pacific service between Seattle, Victoria, B.C., and ports in the Orient. The S.S. Wenatchee will be ready for delivery to the Admiral Line early in November. The next two vessels to be completed will be allotted to the Pacific Mail Steamship Company and the balance of shipping distributed between the two transportation companies as fast as the ships are completed.

Six in Fleet. According to Mr. Haines' announcement, which was made to the local office of the company after several conferences with officials of the United States Shipping Board in Washington, the Admiral Line will secure a total of six vessels. Four will be operated from Seattle and Victoria to Yokohama, Kobe, Nagasaki, Shanghai and Manila, returning via Hongkong, Shanghai, Nagasaki, Kobe and Yokohama. The other two will be operated from Seattle and Victoria to Vladivostok, Shanghai, Dairen and Tsingtau, returning via the same route.

Type of Ships. The steamship, Wenatchee and Keystone State are two of what are generally known as the S2Es, which figures represent their length in feet, are of 12,600 deadweight tons; are of the flush deck type with a beam of 72 feet and depth to shade deck of 50 feet. They will have a cargo capacity of 11,000 tons deadweight. Eight hatches have been provided, permitting a quick turnover of cargo.

Fuel oil-burning watertube boilers and turbines give a total shaft horsepower of 12,000. The fuel oil tanks have a capacity of 2,200 tons, which gives a steaming radius of 11,700 miles at 17 knots. The vessels are provided with accommodations for 249 first-class passengers, these quarters comprising two suites on the bridge deck, thirty-one rooms on the shade deck and sixty-one on the shelter deck. The suites and single rooms are large, well-ventilated and most comfortably and attractively furnished.

Three hundred third-class passengers can be carried in quarters that are unusually comfortable and well-equipped.

CANADIAN IMPORTER IS NOW IN DRYDOCK

Government Steamship Overhauling at Esquimalt; Will Be Floated To-morrow

The Canadian Importer, of the Canadian Government Merchant Marine Fleet, which recently completed her first round voyage to Australasia reached Esquimalt from Vancouver this morning and entered drydock. The work of overhauling the vessel is being done by Yarrows, Ltd. It is expected that the Canadian Importer will be floated out of the dock to-morrow morning and return to the Mainland to load cargo for Australia.

The Canadian Importer is expected here next week to enter drydock preparator to going on berth for her maiden voyage to Australia. No word has been received of the American barquentine Conqueror which is due to be hauled out at Yarrows on her arrival here from the Hawaiian Islands.

The steamship Quadra, which has been overhauling and undergoing minor repairs at Esquimalt, has been floated from the ways at Yarrows, and will return to the ore-carrying trade between Britannia Beach and Tacoma.

WANTED

Teacher for Esquimalt High School. Applications to be addressed Alex. Wilson, Secretary to Box 88 Thornburn P. O., Esquimalt.

BRENTA LODGE

NO MAIL WILL BE TAKEN BY MONTEAGLE LONGSHOREMEN WANT INCREASED SCALE

Protestants, of Blue Funnel Fleet, Will Carry Shipment From Seattle. Customary Thirty-Day Notice Given to Terminate Agreement.

No mail will be carried by the Canadian Pacific Ocean Services liner Monteagle when she sails from the Outer Docks to-morrow morning on her return voyage to the Far East. The Oriental mail will be loaded aboard the Blue Funnel liner Proteus, at Seattle and will be delivered in Japan about the same time as if forwarded by the Monteagle.

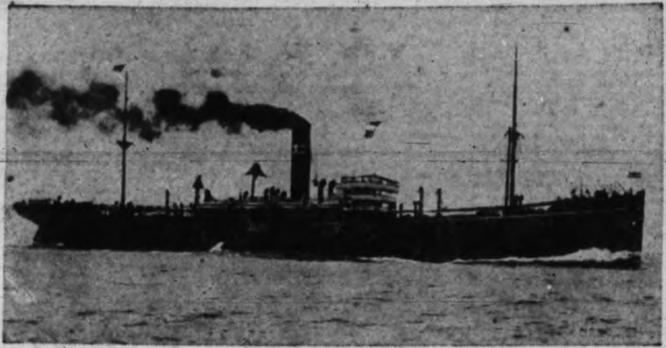

The Monteagle is scheduled to leave Vancouver to-night and will make this port about 7 o'clock to-morrow morning, sailing shortly afterwards for Yokohama and Hongkong via ports. The C.P.O.S. liner will have a full cabin list of passengers and is taking out a capacity cargo.

Vancouver, July 10.—The local branch of the International Longshoremen's Association have given notice to the coast steamship companies of the abrogation of the present agreement on wages and conditions of work in handling local freight. The notice is for 30 days, as provided for in the agreement under which the longshoremen are working.

The present rate is 50 cents and \$1.10 per hour, straight time and overtime, and the men ask for 90 cents and \$1.25, or practically the same terms as the Prince Rupert dockers are striking for at present. The northern longshoremen, however, struck without giving due notice of their intention to abrogate the agreement.

It is probable that the matter will come before a board of arbitration in the case of the present session presided over by Mr. Justice Murphy.

BACK IN TRANSPACIFIC SERVICE

O. S. K. LINER HAWAII MARU

Returning to this port after several years' absence the Hawaii Maru is expected to arrive July 16. She will be withdrawn from this trade to ply in the Yokohama-South American service. The Hawaii Maru, according to the local agents, has 570 tons of freight for British Columbia. One cabin and 11 stowage passengers are booked to this port, while 14 cabin and 155 stowage are routed to Seattle.

Had Adventurous Trip to Shores of France

Captain H. A. Lund, Who Left Here as Mate of General Pau, Returns Home With Bride; Ship Had Many Experiences.

After an adventurous voyage to France on the wooden steamship General Pau, Captain H. A. Lund, well-known mariner of Victoria, who left here as mate of the French craft, has just returned to the city accompanied by his bride.

Captain Lund has had some varied experiences on the ocean lanes of commerce. He has now launched out on the sea of matrimony and is satisfied that his mate is the best ever.

Captain Lund went overseas in 1914 and returned from war service in August, 1919. For two years he was in Mesopotamia in command of river boats in the advance on Kut-el-Amara and Bagdad.

Sailed in December. On December 27, 1919, four months following his return from Mesopotamia, Captain Lund left Victoria as mate of the General Pau, built on the American side, and laden with a cargo of heavy machinery consigned from the Foundation Company's plants here to France. The General Pau was dogged by misfortune throughout her voyage, but, in the words of her mate, "She floated across."

Steering Gear Broke. On December 30 the steam steering gear of the General Pau went out of commission, and she was steered by hand gear until Balboa was reached. Repairs to the steam steering gear were effected at the Canal Company's repair shops at Balboa. The Panama pilot refused to handle the ship without tugs so she was towed to the repair basin. On the completion of repairs the General Pau passed through the Panama Canal, and coasted at Colon for Norfolk, Va. At the last minute the captain received orders to proceed to Havre instead of Brest. When thirty-six hours out from Colon the steam steering gear again broke down, and the hand gear was again resorted to for the navigation of the craft to Norfolk.

Rudder Stock Split. On January 31 heavy weather was encountered in Florida Straits. In a strong N. N. W. gale and while running in a high sea the upper portion of the oak rudder stock started to split badly. The rudder stock was reinforced by heavy wire lashings at equal distances apart, and wedged with hardwood wedges. Two days later the ship sprung a leak. The vessel finally reached Norfolk, Feb. 1, with considerable water in her hold. A new rudder stock was fitted at Norfolk, and the ship was drydocked at Newport News without discharging her cargo, composed of heavy machinery, a special cradle being built in the drydock to receive her. On March 13 the General Pau proceeded, and reached Havre Roads on Easter Sunday. A southern route was taken across the Atlantic.

Pumps Kept Going. Much heavy weather was experienced, and the pumps were kept going to keep the vessel free. The ship was equipped with wireless apparatus and carried an operator, but owing to some misunderstanding the certificate necessary for using wireless was not obtained. The General Pau's operator was able to "listen in," but, Gale, Honolulu.

C.P.O.S. BOATS TO LEAVE MONTREAL WITH FULL CABINS

Montreal, July 10.—Two Canadian Pacific liners will sail Sunday for the United Kingdom, carrying between them nearly 2,300 passengers, the Metagama and the Tulucaan. Both the Corsican and the Saturnia are due at Quebec Sunday.

VESSEL MOVEMENTS

Cretic, at Boston, from Naples. Mauretania, at Southampton, from New York. Seattle, July 9.—Arrived: Effingham, London, via Portland; J. A. Moffet, San Pedro; Westham, Vancouver, B. C. CANADIAN-AUSTRALIAN MANAGER IS MARRIED WHILE IN SCOTLAND

A cablegram from Scotland announces the marriage on July 6 of J. C. Irons, British Columbia agent for the Canadian Australasian Line.

GERMAN PILOT CUTTER FAVORED BY ALLIED SHIPS

London, June 16.—(By Mail)—In spite of the publicity given to her in press and Parliament the obnoxious German pilot cutter continues to patrol and tout off Dungeness, and there seems to be no way of getting rid of her, says The Evening News. The pilotage fees quoted are high in marks, but very low in real money, the paper adds. The result is that practically all the neutral and American ships bound for the continent take a pilot from her instead of from the British Trinity cutter, which patrols alongside her. Many of the American shippers who were at sea during the German submarine campaign are very outspoken on the subject, but they have their direct orders.

But in blaming others for having short memories it is as well to mention that certain British companies are also ordering their masters to patronize her on the score of economy, with the result that practically the whole of the temporary Trinity pilots are receiving their notices. They were allowed to run the risks during the war, but now it is only a

FOREIGN CROPS

A dispatch received June 26 by the United States Department of Agriculture from the International Institute of Agriculture at Rome gives the 1920 production of wheat in India as 376,884,000 bushels, or 124.4 per cent. of the 1919 crop. The 1920 production of flax seed in India is given as 17,329,000 bushels, or 184.3 per cent. of the 1919 crop. The condition on June 4 of cereal crops was good in England, Wales, Ireland and Canada, average in Scotland, Italy and Switzerland, and poor in Hungary.

WITH RETURN OF SUMMER CAMPING BECOMES SEASONABLE IN NEIGHBORHOOD OF CITY

THERE'S NO NEED TO FEAR FREQUENT SHIFTING OF GEARS

Yet That Is One Thing Novice Motorist Dislikes; How to Avoid Clashes

It does not always pay to be shiftily, but it certainly does when driving the old boat. If one is not very shiftily at times, especially when driving in heavy traffic, there is a trouble. "Shiftily" just about describes the operation of the gear lever, for it is shift, shift, shift, all the way along some of the crowded streets.

Gear shifting probably is the greatest bugaboo of the novice, and illustrates well the truth of the old saw: "Haste makes waste." It sounds like a paradox, but the fact is that when one wants to speed up it does not mean to speed up the process of shifting. The tendency of the novice is either to hesitate too much or to go at it slap-dash, slam-bang. Then there is a variety of sounds from beneath the floor boards, and a grind which bodes evil for the transmission gears, besides making everybody along the highway wonder "what sort of a boob is running that car."

Learn Noiseless Change.
Because gear shifting is such a bugaboo a great many beginners will do most anything rather than change speeds, even running the risk of stalling traffic or running around a block to avoid turning. Now, it is not necessary to avoid shifting gears because of any inherent difficulty, or to allow the engine to labor in high instead of shifting to second or first speed in stopping, simply because one is afraid of alarming the neighborhood when starting up again. The wiser way would be to learn how to change speeds noiselessly.

Manufacturers, realizing the reluctance of drivers to change gears, have designed the transmission so that gear shifting is not necessary so often; but when it is necessary to shift it is much more difficult because of this change in design.

How the Gears Work.
The novice who has examined the inside of the change-speed gear case, commonly called the transmission, has seen several sets of wheels therein, running on parallel shafts, and that the meshing together of the several sets makes the difference in speeds. If these gears which engage had the same number of teeth and revolved at the same rate of speed, they would mesh noiselessly at instantly, but they are of varying sizes and have different numbers of teeth, and they do not run at the same rate of speed. The sole trick in shifting gears is to make them revolve at approximately the same speed.

Of course, if one is driving a Ford there is a planetary gear set. There is also the magnetic transmission. With these there is no shifting lever nor meshing of gears. But the majority of change speed gears are of the three-speed sliding gear type, thus far conceded the best system devised because of cheapness, strength, easy repair and slight care needed. It requires, however, some study and much practice to manipulate it noiselessly. One cannot expect to step into a strange car and make a satisfactory shift right off, but there is no reason why the novice should not learn his car's whims quickly and have confidence in handling the levers.

Always
When the car is standing the transmission shaft is at rest and the gear shaft is revolving at about half the engine shaft's speed. Now, if you should try to throw in the first speed gear with the clutch engaged, it would make a fine mix-up. The clutch should always be released, and the gear shaft allowed to stop before meshing is attempted, then the clutch is engaged slowly until the car is underway.

The increase of the speed the engine shaft will be thrown to bring gear shaft and transmission shaft to about the same speed, hesitating in neutral for a few seconds to permit this. And now going to tell you how you can know when the speeds are the same. You must find this out by experiment. No two cars are quite alike.

Going Through the Train.
Shifting from second speed to highest speed requires a closed throttle

and a longer hesitation in neutral. No gears are to be meshed, but teeth must be engaged to connect engine shaft and transmission shaft, and these must approximate in speed. The teeth are built to stand mighty rough use, but a "big noise" and a jump follow when the speed is unequal as they are engaged.
To get into reverse the car must be stopped completely, with clutch released and lever in neutral. Reverse gears cannot be engaged successfully except when motionless.

In Heavy Traffic.
If the gears do not mesh in engaging for first speed or reverse with the lever in neutral, engage the clutch gear teeth and try again. Try several times if necessary, for the gear teeth must be in line.

If you are going down the street in heavy traffic and don't want the cop to haul you out while others scoff, shift to first speed gear every time you have to stop. Some multi-cylinder cars will pick up the load on second, or even on high. A little practice will make you shift so easily that you will not mind having to do it frequently.

If you have not seen the inside of the transmission gear case, seek an opportunity to examine just how it works. You can do this at an automobile school, at the show, or at a garage. An examination of the case will give you a better idea of the operation than is otherwise possible, but it is practice which will make perfect, and practice robs the gear shifting of all its terror.

NEWS AND NOTES OF THE MINES

Premier Mine
Operations on the Premier Mine, Salmon River, during the past Winter have disclosed that the Premier is everything its wonderful first development has promised, says The Prince Rupert News. Information in regard to it is meagre, but the facts publicly known prove that it is already one of the greatest mines on the continent, both in the extent of its ore bodies and in the value of their metal content.
During the past Winter the Premier ore shipments totalled 1,500 tons, averaging \$300 a ton. Besides these shipments of high-grade a great deal of milling ore has been mined and on the dump, including the shipments of high-grade, probably \$1,000,000 worth of ore has been extracted from the Premier during the past Winter. The value of the new ore developed can only be guessed at.

The first unit of a thousand-ton concentrator is rapidly nearing completion and it is expected the first run will be made some time in August. About seventy men are now employed at the Premier.
Fuller's Earth
Fuller's earth obtains its name from its original use in fulling cloth, but only a little domestic earth is now used in this country for that purpose. It is used principally in bleaching and in clarifying or filtering fats, greases and oils. It is also used in the manufacture of pigments for printing wall papers, in detecting certain coloring matters in some food products, and as a substitute for talcum powder. About 75,000 tons of fuller's earth are produced annually in the United States, according to the Geological Survey.

INSCRUTABLE ORIENT.
The difficulties met by the Muenster commission in Egypt were not confined to the more or less enlightened political opposition of the Egyptian Nationalist party, led by Mr. Zalgoul, says Munsey's Magazine. It had also to contend with the ancient and age-old tradition of Egypt itself. The native official, like the Arab and the Turk, knows not haste and rejects Western methods.
Some years ago, when an effort was being made to improve the hygienic and educational facilities of Damascus, certain data were sought from the Government, with the following result:
Question—What is the death rate per 1,000 in your city?
Answer—In Damascus it is the will of Allah that all must die; some die old, some die young.
Question—What is the annual number of births?
Answer—We don't know; Allah alone can say.
And the Governor appended as a foot note to his questionnaire:
And now my lamb of the West, cease your questioning, which can do no good either to you or any one else. Man should not bother himself about matters which concern only God.

BRINGS FUR SEALS FROM WEST COAST

James Sloan Has Purchased Consignment From Indians For London

It is so long since the public of Victoria heard anything with regard to fur sealing off the island, that it will come with some surprise to learn that some seals are still captured off the West Coast.

James Sloan, merchant of Tofino, in Victoria now with 425 seal skins which he has purchased from the Indians of Clayoquot Sound locally. Under the international treaty Indians are allowed to take seals in open boats for individual use, but must not be engaged on contract, so that Mr. Sloan has had to purchase the skins from the aborigines in their individual capacities.

The skins, which have a minimum value of \$15,000 at current market prices, represent a substantial consignment for the London market, whence they will be forwarded.

Mr. Sloan stated to The Times that fishing is exceedingly good at the present time off Clayoquot Sound. About 250 boats are engaged, and the earnings may be estimated at about \$150 per month for each boat in the season from February to the early part of next month. Sixty per cent. of the operators, he states, are Japanese, the remainder whites of various nationalities.

The run of Spring Salmon and pilchards has been good, and the season has just opened for sockeye. On the whole the fishing season may be considered satisfactory, Mr. Sloan states.

Sentenced to Immediate Death.

MEASURING THE WORLD: A GREAT ENTERPRISE

The Government Astronomer of South Australia, (Mr. G. F. Dodwell B.A., F.R.A.S.), returned to Adelaide recently from a visit to Sydney where he was associated with Professor W. E. Wilson, Government Astronomer of New South Wales) in taking astronomical observations in connection with the reception of trial longitude signals transmitted by radiotelegraph, connecting England directly with Australia.

Signals from Annapolis, the American high power wireless station at Washington, which were sent by the courtesy of the United States Government, were received at the Sydney Observatory. They were not on the present occasion sufficiently strong for the purpose of the accurate measurements necessary, but special clock signals from Lyons, in France, which are still in progress, are quite successful, and are being clearly received at the Sydney Observatory. In the final work very exact astronomical observations in England and Australia will determine the part of the sky on the meridian at both places at the moment of the simultaneous reception of the wireless signals, and thence the difference of longitude between these two points on opposite sides of the globe.

The Astronomer Royal (Sir Frank Dyson) is co-operating in the preliminary work at the Royal Observatory Greenwich, and the Presidents of the International Commission on Longitude and Latitude by wireless telegraphy (Professor R. A. Sampson, Astronomer Royal for Scotland, and General Ferris, Director of the French Radio Service) are also rendering assistance in regard to the wireless time signals, which are being arranged through the Imperial and French Governments. The work in Australia is in charge of a committee.

The work proposed includes the direct measurement of longitude from Greenwich of a prime station in Australia by simultaneous reception at both ends of wireless signals transmitted from an intermediate station. The secondary determination therefrom of the longitudes of the other Australian capital cities, and the fixation of a point on the 12th meridian where it crosses the East-West railway line, as a starting point for the demarcation of the interstate boundary line between South Australia and Western Australia, also a point near Wyndham at the northern termination of the boundary between the

Commonwealth Northern Territory and Western Australia, besides providing a reliable basis for our year-end boundary, the work is considered of great value also in connection with the Admiralty survey of the Australian coast and as a basis for unifying the various Australian surveys by the provision of more satisfactory values of the longitudes of reference points used in the construction of maps and charts.

It is anticipated that the Commonwealth Government will take a leading part in co-operating in and contributing towards the expense of this important and interesting work, and that several of the State Governments will also assist. The proposal met with the support of Mr. Glynn when Federal Minister for Home and Territories, and it is due to his support that the preliminary work was undertaken and has now been successful. His successor, Mr. Poynton now has the matter in hand. It is anticipated that it will be possible shortly to take further steps to carry out the undertaking, and bring it to a successful issue.

LETTERS

Letters addressed to the Editor and intended for publication must be legible and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes the publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

THERE IS YET TIME.

To the Editor—The news has gone forth, action at last, the Council are going to tax awnings, signboards, etc. Why the haste?

Before doing so they should remember that there are a number of businesses in town that do not need awnings, etc. why discriminate?

Did they kill the bill owing to the fact that only the big interest, viz., the real estate agents and property owners were against it?

If the areas are not an asset, why are they being put in the stores now under construction?

Last January a petition, signed by the small soft drink stand, was put up to the Council, to readjust the taxes within the space of six months. A reply was sent to the effect that a new schedule was being prepared. As it is now, every soft drink store handles two per cent. beer as a side line. Therefore, being a miniature sloop, to help pay the \$20 tax every six months.

It is now almost the 15th, when the renewals have to be met, which fact may help the city fathers—I almost said grandfathers—to remember that there is yet time to consider the small store-keeper.

ONE OF THEM.

ESQUIMALT WANTS SMOKE STACKS.

To the Editor—As the residents of Victoria do not want smoke stacks, and are not able to comprehend the value of dinner pails and smoke stacks, why not let Esquimalt have the smoke stacks?

I am sure the thinking residents of Esquimalt would be immensely pleased to see men going along their streets with dinner pails knowing that those same pails represented prosperity for the township.

Might I suggest the Members of the Municipal Council, individually and collectively, give this matter some consideration. As most of the Councillors are what is ordinarily known as working men, and they have shown wise management of the municipal affairs during the last few strenuous years, possibly they can put this over and give the township another advance forward.

If the Council members, in their private capacity, or any seven, with others interested in Esquimalt's industrial progress, could get together and start a movement in this direction, Esquimalt would ultimately have a pay-roll with considerable increase of population which would make pessimistic Victorians sit up and take notice of the dinner pails and SMOKE STACKS.

RE SMOKE NUISANCE BYLAW.

To the Editor—I wish to preface my remarks by stating that I am in no way interested in the north and northeast in the City of Victoria, other than as a man who is interested in the upbuilding of the City and Province for the good of all the people, and for a great many years I worked in the sawmill industry.

The present C. P. S. Mill site was the site of the first mill built by W. P. Hayward, one of the most enterprising citizens Victoria ever had, in the year 1877. Mr. Hayward built the first mill on the Island at Mill Bay, mouth of Shawnigan River, in 1858, and afterwards moved the same, in 1877, to the C. P. S. site. At that time the refuse from the mill was burned in an open fire, but on account of the great fire hazard he experimented and investigated different types of burners, and decided that a burner of a similar type as used by the C. P. S. Mill at present, was the safest and least damaging.

At that time there were only three or four residences to the north and northeast of this plant, namely, R. Finlayson's, Judge Drake's and Judge O'Reilly's. Those people who have built in this district since that date have done so knowing the condition and should not complain to the detriment of all the rest of the City, laboring men, real estate holders and timber owners in the surrounding country.

Some years ago the City also passed a bylaw defining the factory district, which is all that territory to the east of Government Street to the Selkirk water. I understand the City gave permits for the building of the present burners that now exist at the different sawmills, and I think that the mills in this City have done as much to try to avoid trouble as any place in North America.

We are all crying for industries and progress, and now a few short-sighted people—some for selfish motives—are advocating the destruction of this industry which means more to this City and Province than any other industry.

Every city or village that has a lumbering industry has to put up with the same condition or worse—Ottawa, all the Fraser River Valley, Vancouver, Everett, Tacoma, Ballard and many others—for the simple reason, as the Fire Prevention Officer of this Province swore at the recent trial, there is no known method of destroying the refuse without some of the stuff passing off into the air in the draft caused by the heat. He stated that not only the Provincial Government authorities, as well as the B. C. University, were all working upon the problem, but had been unable to give any remedy to date.

You cannot have a city without some nuisance. For instance, noise. At times, noise is a nuisance, but it is a necessary one. You must have evil smells and smoke, and danger to pedestrians from motor cars. These are nuisances, but who advocates discarding them. To have manufacturing we must have smoke and noise, for without industry we cannot expect laboring men and progress.

I will close with the following question: "Which is and has been worth most to humanity and progress, W. P. Hayward and his original enterprise and the enterprising citizens who have followed him in this line of industry, or those members of our City Council, who are trying to block enterprise and fix the City so it will be impossible for any of us to pay our taxes?"

TO EXTEND SERVICE FOR NEW ARRIVALS

F. M. Rattenbury Has Left For England on Colonization Mission

Before leaving Vancouver yesterday, F. M. Rattenbury, made a statement of the reasons for his visit to England. He stated to the Province: "If we are to really colonize British Columbia we must look after the incoming settlers from the time he first makes enquiries until he is actually settled on the land. It is my plan to arrange for competent advisers in different parts of the Old Country, to discuss with those seeking an outlet for their energies in the colonies, the advantages of coming to different parts of the Old Country, to be quite frank with the Old Countrymen, and tell them whether they have sufficient experience and determination to make a success of their new undertaking. If we find that applicants are suitable we will tell them so, because a discouraged settler is not wanted."

"When once an applicant has been passed by the representatives, we will 'mother' him until he arrives at his destination. We will by the time this scheme is in operation have a number of prepared farms waiting new owners. Too many colonizing schemes have fallen down because the new settlers were not properly taken care of."

"I also hope to be able to interest the Old Country associations having been subscribed to Earl Haig's fund. From this advances are made to discharge officers to enable them to travel to any part of the Empire which they have chosen, but then nothing more is done. This is a mistake in my mind. A man with a sum of money such as is given or loaned to him by these associations should be really 'mothered' until he is placed on his own farm, wherever it may be."

Have Finished Contract.

Sidney, Messrs. McDonald, Watson & Withers, the well-known pile-driving firm, have finished their contract with the Sidney mill, where they put in a wharf 60x12 feet, which the Sidney mill had built in order to facilitate loading of scows. From Sidney the pile-driving outfit were towed to Cuchoon Cove by the gasoline launch Wabash, which Messrs. McDonald, Watson & Withers have recently purchased from McFarlane Bros.

WARNED AGAINST FIGHTING IN PEKING

Government Told by Diplomats Factions Must Avoid Disturbing City

Peking, July 9.—(Associated Press)—Warning has been given the Government by the diplomatic corps that in case of an uprising there must be no fighting in this city, and that Peking must not be subjected to bombardment. Forces commanded by Tuan Chi Jul, former Premier and General of War, are surrounding Peking.

General Wu Pei Fu, who has been relieved of the command of the Government troops in Chih Li, is near here, but whether fighting occurs there will depend, it is said, upon the acceptance by Wu Pei Fu of his dismissal.

General Tuan Jul's threatening attitude is a result of the Government's dismissal of General Hsu Shu Cheng, as Resident Commissioner for Inner Mongolia. He is a leader of the Anfu faction, which received a defeat when the appointment of Chow Shumu to the Premiership was announced.

VANCOUVER ISLAND NEWS.

Board of Trade

Sidney—The regular monthly meeting of the Council of the Sidney Board of Trade will be held next Tuesday evening at 8 o'clock. It is hoped that all members of the council will be on hand.

Tenders For New School.

Courtenay—Although at the time of going to press there is no official news of the awarding of the contract for the new school at Courtenay it is known that there are quite a number of tenders and that several are below the estimated price of \$50,000.

Among those putting in tenders are the E. J. Ryan Contracting Co., of Vancouver, Messrs. Parfitt Bros. Limited, of Victoria, R. Moncrieff, of Vancouver, and others. Representatives of all the above named firms have been in Courtenay looking over the situation.

Lieut.-Colonel E. J. Ryan, D.S.O., was in the district representing the E. J. Ryan Contracting Company.

Mr Bateman Killed.

Nanaimo—The funeral of the late Francis Richard Bateman, son of James Bateman, of South Wellington, who died from injuries received in the South Wellington mine of the Canadian Collieries, took place Thursday afternoon.

Services were conducted by the Rev. Mr. Vance, the pallbearers being William, Steve, George, Steve, William, Fielding, Henry Brown, C. Brown and F. Dunn.

For Hospital.

Courtenay—It is now announced that after all accounts have been paid the building fund of the Hospital Auxiliary was richer by \$549.86 as the result of the activities that culminated in the garden fete and carnival on June 19. The total proceeds of the garden fete, the drawing and the carnival amounted to no less

AT THE GAME

"I think it's a perfect shame to let that man take his base when he never even tried to strike the ball when it was thrown four times. The man before him hit at it three times and they counted him out."

You're right, Harold; it was a girl.

Cornell Widow.

This Makes the Curl Stay In Your Hair

The simerine method is unusually popular just now, according to the druggists. This is largely due to the warm weather and because women are now spending so much of their time out of doors. This simple method not only produces the loveliest, natural looking curls and waves, but it keeps the hair in curl no matter how hot or how moist the day, or how hard the wind blows.

All one needs is to wet a clean tooth brush with liquid simerine, draw this through the hair before doing it up, and the hair will dry in just the sweetest waves and curls. This will also keep the hair beautifully soft, silky and lustrous. A few ounces of liquid simerine will last for months.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength.

This preparation for the removal of freckles is usually successful in removing freckles and giving a clear, beautiful complexion that is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

U.S. RAILWAY BORROWINGS

Borrowing operations by American railroad and industrial corporations during June indicated a total of \$256,354,200. This compares with \$222,058,000 in the corresponding month a year ago, or a decrease of \$34,296,200. However, the total for the past month shows an increase over the output of new securities in May, when the figures were \$245,353,200.

F. M. Rattenbury Has Left For England on Colonization Mission

Before leaving Vancouver yesterday, F. M. Rattenbury, made a statement of the reasons for his visit to England. He stated to the Province: "If we are to really colonize British Columbia we must look after the incoming settler from the time he first makes enquiries until he is actually settled on the land. It is my plan to arrange for competent advisers in different parts of the Old Country, to discuss with those seeking an outlet for their energies in the colonies, the advantages of coming to a new country. These advisers will be quite frank with the Old Countrymen, and tell them whether they have sufficient experience and determination to make a success of their new undertaking. If we find that applicants are suitable we will tell them so, because a discouraged settler is not wanted."

"When once an applicant has been passed by the representatives, we will 'mother' him until he arrives at his destination. We will by the time of his departure have a number of prepared farms waiting new owners. Too many colonizing schemes have fallen down because the new settlers were not properly taken care of."

"I also hope to be able to interest the Old Country associations having to do with the establishment of ex-officers on the land, such as the Hodge scheme. I understand that something like two million pounds have been subscribed to Earl Haig's fund. From this advance are made to discharge officers to enable them to travel to any part of the Empire which they have chosen, but then nothing more is done. This is a mistake in my mind. A man with a sum of money such as is given or loaned to him by these associations should be really 'mothered' until he is placed on his own farm, wherever it may be."

The WEATHER
 Daily Bulletin Published by the Geological Department

Victoria, July 10—5 a. m.—The barometer is rising over this Province and fine, warmer weather may become general. Showers have occurred in Southern Alberta, and fine moderately warm weather extends to Manitoba.

Have Finished Contract.

Sidney. Messrs. McDonald, Watson & Withers, the well-known piling driving firm, have finished their contract with the Sidney mill, where they put in a wharf 60x42 feet, which the Sidney mill had built in order to facilitate loading of saws. From Sidney the piling outfit were towed to Cuchoon Cove by the gasoline launch Wabash, which Messrs. McDonald, Watson & Withers have recently purchased from McFarlane Bros.

WARNED AGAINST FIGHTING IN PEKING

Government Told by Diplomats Factions Must Avoid Disturbing City

Peking, July 9.—(Associated Press)—Warning has been given the Government by the diplomatic corps that in case of an uprising there must be no fighting in this city, and that Peking must not be subjected to bombardment. Forces commanded by Tuan Chi Ju, former Premier and Minister of War, are surrounding Peking.

General Wu Pei Fu, who has been relieved of the command of the Government troops in Chih Li, is near Pao Ting Fu, thirty miles south of here, but whether fighting occurs there will depend, it is said, upon the acceptance by Wu Pei Fu of his dismissal.

General Tuan Ju's threatening attitude is a result of the Government's dismissal of General Hsu Shu Cheng, as Resident Commissioner for Inner Mongolia. He is a leader of the Anfu element, which received a defeat when the appointment of Chow Shumu to the Premiership was announced.

AT THE GAME

"I think it's a perfect shame to let that man take his base when he never even tried to strike the ball when it was thrown four times. The man before him hit at it three times and they counted him out."

The total proceeds of the garden fête, the drawing and the carnival amounted to no less

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

THERE IS YET TIME.

To the Editor—The news has gone forth, that last the Council are going to tax awnings, signboards, etc. Why the haste? Before doing so they should remember that there are a number of businesses in town that do not need awnings, etc. why discriminate? Did they kill the area by-law owing to the fact that only the big interest, viz. the real estate agents and property owners were against it? If the area are not an asset, why are they being put in the stores now under construction? Last January a petition, signed by the small soft drink stands, was put up to the Council, to readjust the taxes within the space of six months. A reply was sent to the effect that a new schedule was being prepared. As it is now, every soft drink store handles two per cent. bear as a side line. Therefore, being a miniature saloon, to help pay the \$20 tax every six months.

It is now almost the 15th, when the renewals have to be met, which fact may help the city fathers—I almost said grandfathers—to remember that there is yet time to consider the small store-keeper.

ONE OF THEM.

ESQUIMALT WANTS SMOKE STACKS.

To the Editor—As the residents of Victoria do not want smoke stacks, and are not able to comprehend the value of dinner pails and smoke stacks, why not let Esquimalt have the smoke stacks? I am sure the thinking residents of Esquimalt would be immensely pleased to see them going along their streets with dinner pails knowing that those same pails represented prosperity for the township.

Might I suggest the members of the Municipal Council, individually and collectively, give this matter some consideration. As most of the Councilors are what is ordinarily known as working men, they would have shown wise management of the municipal affairs during the last few strenuous years, possibly they can put this over and give the township another advance forward.

If the Council members, in their private capacity or otherwise, with others interested in the industrial progress, could get together and start a movement in this direction, Esquimalt would ultimately have a pay-roll with considerable increase of population which would make pessimistic Victorians sit up and take notice of the dinner pails and SMOKE STACKS.

RE SMOKE NUISANCE BYLAW.

To the Editor.—I wish to preface my remarks by stating that I am in no way interested in any sawmill enterprise in the City of Victoria, other than as a man who is interested in the upbuilding of the City and Province for the good of all the people, and for a great many years I worked in the sawmill industry.

The present C. P. S. Mill site was the site of the first mill built by W. F. Sayward, one of the most enterprising citizens Victoria ever had, in the year 1877. Mr. Sayward built the first mill on the Island at Mill Bay, mouth of Shawnigan River, in 1858, and afterwards moved the same, in 1877, to the C. P. S. site. At that time the refuse from the mill was burned in an open fire, but on account of the great fire hazard he experimented and investigated different types of burners, and decided that a burner of a similar type as used by the C. P. S. Mill at present, was the safest and least damaging.

At that time there were only three or four residences to the north and north-west of the mill, namely, R. Finlayson's, Judge Drake's, and Judge O'Reilly's. Those people who have built in this district since that date have done so knowing the condition and about the best of the City. The detriment of all the rest of the City, laboring men, real estate holders and timber owners in the surrounding country.

Some years ago the City also passed a bylaw defining the factory district, which is all that territory to the left of Government Street to the Selkirk waters. I understand the City gave permit for the building of the present burners that now exist at the different sawmills, and I think that the mills in this City have done as much to try to avoid trouble as any place in North America.

We are all crying for industries and progress, and now a few short-sighted people—are advocating the destruction of this industry which means more to this City and Province than any other industry.

Every city or village that has a lumbering industry has to put up with the same condition or worse—Ottawa, all the Fraser River Valley, Vancouver, Everett, Tacoma, Ballard and many others—for the simple reason, as the Fire Prevention Officer of this Province swore at the recent trial, there is no known method of destroying the refuse without some of the stuff passing off into the air in the draft caused by the heat. He stated that not only the Provincial Government authorities, but the Dominion Government authorities, as well, and the B. C. University, were all working upon the problem, but had been unable to give any remedy to date.

You cannot have a city without some nuisance. For instance, noise. At times, noise is a nuisance, but it is a necessary one. You must have evil smells and smoke, and danger to pedestrians from motor cars. These are nuisances, but who advocates discarding them. To have manufacturing we must have smoke and noise; for without industry we cannot expect laboring men and progress.

I will close with the following question: "Which is and has been worth most to humanity and progress, W. F. Sayward and his original enterprise and the enterprising citizens who have followed him in this line of industry, or those members of our City Council, who are trying to block enterprise and fix the City so it will be impossible for any of us to pay our taxes?"

Dance to-night, Caledonia Hall, View Street, 8.30. Wallace's Orchestra.

Dance—Alexandra ballroom, Saturday, July 9. Grand orchestra.

100 LOST LIVES AT SEOUL, KOREA; RIVER FLOODED

Tokyo, July 10.—(Associated Press)—One hundred persons are thought to have been drowned and 4,500 houses flooded in Seoul, Korea, by the overflowing of the River Han, according to advices from Seoul to-day. Considerable other damage was caused and troops have been called out to protect the city, the advices say.

BOOTLEGGERS ARE SOUGHT BY POLICE

Toronto, July 10.—A complete "clean-up" of bootlegging business in the border district in and around Windsor, Ont., will be pursued to the bitter end, Attorney-General Raney announced to-day.

A License Commission has decided to seize all shipment of liquor seized at the border points. Attorney-General Raney has been advised by Chairman Flavell.

\$200,000 FIRE AT ST. STEPHEN, N.B.

Calais, Maine, July 10.—The factory of the Mann Axe & Tool Company Ltd., at St. Stephen, N.B., was burned to-day. The loss is estimated at \$200,000, principally on machinery and stock.

A MARPOLE DEATH.

Vancouver, July 10.—The death of B. W. Garrett at Marpole on Friday removed one of the best known and most highly respected residents in the Richmond and Marpole districts in his seventy-fourth year.

The late Mr. Garrett came to Lulu Island over thirty years ago from Eastern Canada. Mr. Garrett served on Richmond Council both as Councilor and Reeve, and as a Dyking Commissioner.

PEAK PRICE PASSED, RESERVE BANK SAYS

At Same Time Comes Marked Increase in Productiveness of Labor

Cleveland, July 10.—"The peak in high prices has been reached and passed and the opinion is general that prices in many lines will be somewhat lower in the fall."

That optimistic view of business conditions is taken by the Cleveland District Federal Reserve Bank in its current report just made public.

"The textile business is perhaps the first big industry in the United States to feel the pressure of deflated prices, and it seems as though the others must follow slowly but surely," the report says. "Throughout almost the entire manufacturing field, however, is found a marked increase in the productiveness of labor—one of the most hopeful signs we have seen for months."

"The price-cutting epidemic has had a somewhat unsettling influence upon both the wholesale and retail trade. There has been a noticeable decrease in building operations."

"The Federal Reserve deflation policy has begun to bear fruit. The demand for new loans has materially lessened. Customers at banks are realizing more and more that they must not lean to any greater extent upon floating credit facilities. Bankers are fully convinced of the vital necessity for conservation of credit and are restricting loans, for the greater part, to essential industry."

The report concludes: "The clouds of uncertainty and doubt are dissipating before the sun of conservative optimism. An orderly deflation of prices is proceeding and many of the unfavorable influences of the last few months are apparently passing. An especially gratifying feature of the situation is the acceptance by business generally of the opinion that credit restriction is a wholesome rather than an unwholesome act and will result in a better economic position and a safer foundation upon which to build future business."

STOCKS NOW LUXURY

Canadian Buyers Must Pay Taxes on All Foreign Securities; Local Brokers' Business Hit.

Persons buying foreign stocks including British as well as American must now pay a luxury tax of two cents on each \$100 or fraction of \$100 of the value of the stock.

This order has just been issued by Ottawa through Richard Jones, Victoria collector of inland revenue. The other reads this way:

"Tax of two cents is to be collected on every \$100 or fraction thereof in Canadian money. Stamp is to be affixed on document received by broker to purchaser evidencing sale."

Local brokers up until the time this order came out thought that they were safe from any injury in the transactions of their customers. Some of them are quite alarmed as they say it will wipe all the big stock business to Seattle, where buyers and sellers will not have to pay Canadian luxury taxes.

To-day Canadians have to pay three separate taxes of two cents on each \$100 on New York stocks. They are the New York State tax, United Federal tax and the Canadian luxury tax.

MANITOBA CABINET WILL CARRY ON

Winnipeg, July 10.—The present administration is confident of sufficient support to secure a good working majority in the Legislature at the next session, and rumors that the Government intends to relinquish control are without foundation," declared Premier T. C. Norris to-day.

A conference of Government members will be held next week, following which a statement of the Government's policy with regard to the recent election will follow.

It is rumored that the Government will appoint an independent to the vacancy caused by the death of Hon. Valentine Winkler, Minister of Agriculture, George Little, Independent-Farmer, is prominently mentioned for this position.

TWO WERE KILLED BY GAS IN MINE

Seattle, July 10.—Five men forming the rescue team of the Pacific Coal Company's mine at Black Diamond were overcome by gas to-day during a practice drill. Two probably lost their lives and the other three rescued in serious condition, will likely recover, according to advices received in Seattle, shortly after noon.

The men entered an abandoned mine for practice and when they did not return rescue parties were found and three of the original party were found overcome by gas. The other two were still in the mine at 11 a. m. and it is feared that they have succumbed.

EGAN LEADS IN VANCOUVER GOLF

Vancouver, July 10.—H. Chandler Egan, Portland, playing in the final for the Pacific Northwest Amateur Golf championship against Rudolph Wilhelm, also of Portland, was 2 up on the 13th hole early this afternoon. The 26-hole course will not be concluded until late this afternoon.

For the ladies' championship, Mrs. Sweeney, Vancouver, was 5 up and 2 to play on the 16th hole over Miss Piepoe, also Vancouver.

BODY FOUND.

Toronto, July 10.—The badly decomposed body of an unknown man was found washed on the shore of Lake Ontario near the Kingston Road yesterday, and it was supposed to have been the body of Ambrose Small, the theatrical magnate of this city, who has been missing since December 2, 1919.

The deceased was proved to be a collector, evidently, from papers in his pockets, but by whom employed is not known.

Lithon, July 10.—The Cabinet formed June 29 by Antonio Maria da Silva resigned yesterday because of lack of sufficient parliamentary support.

News of Markets and Finance

TO-DAY'S EXCHANGE

REDUCING THE COST of Your EUROPEAN TRIP by ONE HALF

For the benefit of those who purpose making a trip to Great Britain, France, Belgium and Italy, or other European countries, within the next few years, we have prepared a Circular Letter showing that, by investing in European Bonds now, the expenses for your trip may be reduced from 25% to 50%.

We advocate only the purchase of such securities, which may be converted into the currency of the countries concerned, immediately the money is required.

This opportunity for making very large profits from European investments is not confined solely to tourists, but is particularly favorable to those who wish, at some future date, to return to Europe to live permanently, or to any investor who desires a secure, high interest yielding investment, with possibilities of from 25% to 500% increase in Principal invested.

Copies mailed to any address, free of charge.

Let Your Dainty Things Be Your Everyday Things

You'd like to wear that daintyorgette or crepe-de-chine blouse every afternoon, wouldn't you? Well it's all a matter of knowing how to wash them properly and safely.

Lux will clean blouses beautifully, and after being washed and ironed—they will look even better than when new.

Lux will not harm any garment, however delicate or dainty, that pure water itself will not injure.

Lux is manufactured in a very special manner, and is absolutely pure; in fact, no form of soap essence can be made in a purer form.

There is no substitute for Lux. There is nothing like Lux. Lux is in a class by itself.

You can wash any garment with Lux without fear of having it spoiled. The whole secret lies in the matchless purity of the little satiny Lux flakes.

Lux is on sale at all Grocers, Departmental Stores, etc.

A handy little recipe booklet, entitled, "The Care of Dainty Clothings" will be gladly sent from our request.

GIVE THEIR MITE TO SWELL RELIEF FUND
Fine Example Set by Children For Jewish Relief Effort

The Canadian Jewish Relief Committee is becoming popular with outside residents, for this morning a Vancouver man presented Mrs. Levy, one of the most energetic canvassers, with a cheque for \$50 and exchange, while two little children, Stanley Guile, aged nine and his sister, Blanche, aged six, children of Mr. and Mrs. Arthur Guile, of Toronto, walked into the office and donated a dollar apiece, their own holiday spending money.

In reading the reports as to the progress of the Relief Campaign throughout the United States, one is struck by the wonderful work which is being accomplished by the various collecting Committees in that country. The Press is rising magnificently to the occasion in the same manner as it is doing in Victoria, in one instance, that of the Milwaukee Journal, the entire front page of the paper was devoted exclusively to the Jewish Relief Campaign, and this was most remarkable, and is probably unique in the history of journalism, that this sacrifice was made by The Journal on the day that the Republican Convention nominated Senator Harding for President. This important domestic news was relegated to the second page of the paper.

Messrs. Grossman and Gintzburger, of the Provincial Committee visited Victoria recently, and expressed themselves as highly pleased with the way the campaign has been carried on, and while they would have liked to have been able to report a much larger total, they consider that under the circumstances Victoria has done well.

By the way donations are being brought in, there should be a very appreciable increase by the end of next week, when it is proposed to virtually end the campaign, but undoubtedly money will come in for some time after that, as such is the experience in Vancouver.

The total collected in Victoria is \$10,592.88. And Mr. Ansell, the Campaign Director expects to swell that figure considerably from the up-Island campaign which he is now organizing.

The Jewish Relief Committee have reached the \$300 mark set for the North Saanich district. Collections are still being made, but the committee hope to finish the campaign at the end of the week. The Allies Chapter of the I.O.O.F. made a donation of \$10 to the fund.

Old Dutch Cleanser

—Is great for cleaning plain or painted wooden floors, oil-cloth or linoleum. It is more economical than anything else and does better work. Use Old Dutch for cleaning everything throughout the house.

HONEY AT HIGH LEVEL RECENTLY

Comparison of Prices and Examination of Export Business

The value of honey to bakers and confectioners as a result of the shortage of sugar has raised the price during 1918 and 1919 to the highest figures of recent years, says the United States Department of Agriculture. The total production of honey is now estimated to be 250,000,000 pounds. Recent prices would place the value of this crop at fully \$50,000,000.

The more commonly recognized grades of extracted honey are water white, white, light amber, amber and dark. Quotations are frequently seen on extra light amber.

For a few months after the United States entered the war the jobbing price of light amber extracted continued low, dropping to 9c per pound in cans, in St. Louis, during July, 1917. Values increased rapidly that Autumn and Winter, reaching 18c to 19c per pound in central and middle western cities. The 1918 season opened strongly at 18c to 23c per pound, in the Summer and since August has had a steady rise until December, when light amber sold at 27c to 28c per pound in St. Louis and New York, with high as 29c to 30c in Cincinnati.

The past season has been characterized by wide irregularity of price ranges. St. Louis held to 18c to 20c per pound for honey in cans until April, sagged gradually to 13c to 15c in the Summer and since August has had a steady level of 15c to 16c per pound. The market for light amber in New York City broke sharply in the Spring, striking low point of 13c in May, and the light amber market in that city has not since risen above 19c per pound.

Export Trade

Reports from the Bureau of Foreign and Domestic Commerce indicate that during the twelve months ending July 1, 1919, the United States exported 10,468,342 pounds of honey to foreign countries. Of this large amount, 6,177,817 pounds went to the United Kingdom alone, 1,355,250 pounds to France, 1,046,335 pounds to Sweden and 781,348 pounds to Canada and Newfoundland. The last six months of 1919, however, showed a decrease in the exports of honey, as only 2,710,590 pounds were reported during that period. Of this amount the United Kingdom received 251,465 pounds, France 236,747 pounds, and Canada 112,692 pounds. The bulk of exported honey is in the extracted state.

Great Britain has a sweet tooth, if her increased imports of honey during the past five years can be taken as a criterion, reports Edward A. Foley, the American Agricultural Trade Commissioner at London. The increased consumption of American honey by the British public is one of the most interesting developments in the importation into England of American agricultural products. The shortage of sugar has directed the attention of the English people to honey, and they have taken so readily to its use that apparently the demand has been established and will continue even after sugar is again plentiful. It is found in the better class stores of the West End of London and in the select grocery stores throughout the country. The clear strained honey in glass has the best sale, the preference being for California honeys. In 1914 the total importation of honey into England was only 2,617,664 pounds. The importations were in small lots from Cuba, Chile, France, the United States and from the British colonies of Australia and the West Indies. There has been a remarkable growth in the importation of all honey, but that from

HE'D HAD A WARM TIME

the United States has quite outshouted at him a second time. "Have you ever been a boy?" was the pitiful answer. "Why, yes," said Jones. "Did you have a father?" "Yes," returned Jones. "Did your father have a strap?" asked the boy. Then the light of understanding came to Jones, so he replied softly: "Stay there, my lad, stay there." "Get off! You will be frozen," roared Jones. The boy did not get off, so Jones

SELFISH

The Mother of Professional Footballer—Och! Here's a wire frae Sandy. He's broke his leg and his collar-bone in the cup tie! The Father—An' the score? What about the score? The Mother—Och, there's naething about the score! The Father—That's Sandy all over! He thinks about 'nobody but himself!—The Edinburgh Scotsman.
