12th December, 1922.

Dear Sir,

You will not remember as I do, that I once had the pleasure of meeting you at Jeiden on the occasion of a Congress at the University some years ago. I have been reading with interest your pamphlet containing photographs of the city of Mecca and I send you a copy of the Journal "Garden Cities and Town Planning" in which we endeavour to give from time to time historical accounts of the great cities. My purpose in writing to you is to ask if you possess a plan of the City of Mecca. This would be of great interest to our readers, and I should, of course, take care to acknowledge its source if you were able to supply one.

I see that Burton published a rough plan of Medina, but of Mecca apparently he did not make one.

Thanking you in anticipation,

Yours faithfully, William Lytur Hare

Joint Editor.

Dr. Snouk Hurgronje, The University, Leiden, Holland.
