PREFACE.

In bringing his pleasant labours to a close, the Editor desires to thank all those who have helped him by promptly sending him the information required, and especially those whose contributions appear in the pages of the work.

It was a great pleasure to receive so many kind and encouraging letters from O.D's in all parts of the world. Some of the writers were known to the Editor, many were not ; but all testified to the good feeling existing between the Old Boys and their affection for their old school. It is hoped that this record will have the effect of bringing back to the minds of all O.D's pleasant recollections of their school-days, and causing them to spread abroad the knowledge of their old school, so as to increase its prosperity and sphere of usefulness.

Only one letter of an unfriendly nature was received. The Editor hopes to make some comments on this and other amusing incidents of the compilation in some future number of the *Dovorian*.

In cases where no reply to his circulars (sent more than once) was received, the Editor has, as a rule, not recorded addresses which have not been verified by the O.D. addressed or his friends.

In view of bringing out new editions of the work, as occasion should arise, it may be mentioned :

(1) That, if practicable, the next edition will be accompanied by photographs of the buildings in their old and in their present state, and possibly some portraits.

(2) The Editor hopes that all O.D's will notify to him from time to time any change in their address, occupation, or profession, so that the labours of bringing out a new edition may be made as light as possible. Any suggestions intended to make the book more interesting or useful will be gladly received.

Communications of this nature should be addressed to the Editor, Dover College Register,

The College,
Dover.

Owing to various delays in the printing, the Editor fears that some of the details printed in the Register may be somewhat out of date. Where this is the case he would be glad to be informed as soon as possible; and if any general wish for it is expressed, would at once set about preparing for the issue of another edition in about a year's time.

An explanation of arrangement and abbreviations will be found on the next page. But the commonest abbreviations are for convenience explained at the foot of the pages of the Register.

EXPLANATION OF ARRANGEMENT AND ABBREVIATIONS.

The names are arranged in alphabetical order in the term of entrance into the College. To find out about any member of the College it is necessary therefore to look out the name in the Index (at the end of the volume), where year and term, *e.g.*, 1879 (*a*) (*b*) (*c*) *i.e.*, first, second and third term respectively, are given with each name, and then look in the body of the book for that year and term, which are indicated at the top of every page.

A separate index is given for the Masters.

‡ After name—School Præfect.

The date after the name is the date of birth.

Next comes the letter indicating house, in square brackets:

[D.]—Day Boy.

[Sch.]—School House.

[Sp.]—Sparke's House.

[St.]—Steedman's House.

[W.]—Walters' from 1881 to 1886, Williams' from 1890 (*b*) to 1892 (*c*).

[L.]—Littlewood's (the same house as Walters') 1886 (*c*) to 1890 (*a*).

At the beginning of Mr. Compton's term of office in 1892 (*c*) the names were changed so as to be permanent :

From that date [S.]—School House.

[P.]—(Priory House) takes place of Sparke's.

[M.]—(St. Martin's) takes place of Williams'.

[J.]—Junior School.

Next come distinctions gained in the school, exhibitions, etc., and athletic distinctions, *e.g.*, XI.—Cricket XI.; XV.—Football XV.; the years being given therewith. The only prizes noticed are the two principal ones, for Classics and Mathematics, *i.e.*, the Bodkin Prize and the Mayor's Medal.

Next comes date of leaving, where it was easily obtainable, (but the class lists used to be so arranged that finding this out for certain was in many cases so laborious that it had to be given up), (*a*), (*b*), (*c*), first, second and third term respectively. After 1887 it may be taken for granted that where a name is mentioned without any notice of date of leaving, or life since leaving, it is the name of a boy still in the school, *May, 1894*.

Then are recorded distinctions, etc., gained since leaving, the usual abbreviations being employed, *e.g.*, Pr.—Priest; R.M.C.—Royal Military College, Sandhurst; R.M.A.—Royal Military Academy, Woolwich, etc.

Last come the addresses, given throughout in italics, the second (if there are two) being the more permanent.

Perm. Add., or Per. Ad.—Permanent Address, *i.e.*, the address from which letters will always be forwarded if the addressee is not actually living there.

A SKETCH OF THE HISTORY OF DOVER COLLEGE.

When Dover College was opened in 1871, the place looked very different from what it does in 1894. The whole of the property belonging to the College at that time consisted of St. Martin's House, the College Hall, and the Gate House. From the North-West corner of the College Hall there ran a high wall to the Gate House, forming an arc of a circle. At the commencement of the first term the Hall was undergoing restoration and could not be used. The Gate House had a roof on, but was otherwise in a half-ruinous condition, and was, in appearance, very picturesque. The only inhabitants of it were owls, and it was possible to bring them out at any time of the night or day by jumping on the floor at a certain place. The ground on which the Priory House now stands was outside the boundary, and no houses stood between the College premises and the railway. What is now the Chapel was a picturesque old building, divided up by wooden partitions so as to form a stable, a cow-house, and a scullery for the farm-house which stood on part of the ground now occupied by the School-house. The farm-house was partly an old timbered house, and partly of brick. The whole place was extremely picturesque, and had been still more so in former years. The ground between the Hall and the farm-house was used as a potato garden, and between the potato patch and the farm-house there was a broad road, in continuation of the road which runs up from Effingham Crescent. The trees which are now in front of

the School-house, were standing inside the garden belonging to the farm. The gravel playground to the South of the Hall existed then as it does now.

Amid such surroundings, the College began its career on September 12th, 1871. The number of boys who appeared on that day was fifteen; there were, however, three more entered, and before the end of the term there were twenty-one in attendance. Of these twenty-one, fifteen were day-boys, and six were boarders.

The preparation-room at St. Martin's House, as it was then arranged, was the only school-room for the first term. The Staff consisted of the Head-Master, with the occasional help of M. Chambert, a Frenchman. This was not a very brilliant beginning, yet the first term was in many ways a very pleasant one, and left pleasant memories to all who were then in the College. The weather was exceedingly fine, and boarders and day-boys all appeared every half-holiday to play cricket or football.

Just as cricket was ending and football beginning, the quiet school-life was interrupted by an interesting ceremony, for it was decided that there should be a public opening of the College. The Hall was then finished, and perhaps no better room could be imagined for such a ceremony. If we were happy in having such a room, we were no less happy in having the late Earl Granville for our President, who was always peculiarly successful in presiding at such ceremonies. A procession was formed at the Town Hall, and marched through the gateway to the College. The principal feature of the proceedings was a speech by Earl Granville, which attracted considerable attention at the time. When the ceremony was over, the company returned to lunch at the Town Hall, where there were many more speeches, and many expressions of good-will towards the College. The day was bright and sunny, and, altogether, the opening of Dover College was an imposing

ceremony successfully carried out. So, after beginning very quietly, the College all at once woke up to fame. The next day, a full report of the opening appeared in all the daily papers, and the *Morning Post* went so far as to honour the young institution with a leading article. The event was annually commemorated by observing October 4th as a holiday.

After Christmas, there was a considerable increase in the number of boys, and a Mathematical Master was also added to the staff of teachers. During this term a field was rented or cricket and football, near Elms Vale Farm. It was held by the College for about two years, and would have been very useful if it had been nearer the College.

After Easter, the number of boys mounted up to a little over fifty. At this time a series of cricket matches were played with the Preparatory School, which is now at Castle Mount. Mr. Chignell was then Head Master, and the school was conducted at West Mount. Masters played on both sides, and the fortune of the matches generally turned upon the length of time Mr. Chignell kept up his wicket, as the little boys played well, but could not make much of a score. These matches took place in what is now the lower level of the Cricket Field, which was at that time rented by Mr. Chignell. As one looks back, it seems that the days then were all sunny, the players endued with a double portion of good humour, and the games more full of interest than games could have been where so little was at stake.

Any picture of life at Dover College during these early days would be wholly incomplete if it did not include some mention of Mrs. Bell. Perhaps there never was anyone who took such delight in the society of boys as she did, so long as she enjoyed even tolerable health. At that time she planned her whole life so as to be with them as much as possible. She took charge of all the boys' clothes during

those early years, and did most of the work which is commonly assigned to a matron; but she was so rapid in her work, that she could always keep free the hours that the boys were out of school. She might in years have been their elder sister. No elder sister could have been more interested in brothers than she was in the boys of Dover College. The elder boys were her friends and admirers, and some of them spent a large portion of their pocket-money in buying for her flowers or other little presents. The younger boys were in their way no less devoted to her, and one little boy was taken away from the College because he showed a marked preference to Mrs. Bell and the College as compared with his mother and his home. And she did not win their affections by indulgence; on the contrary, no one was more severe on idleness and breaches of discipline. She frequently sat with the boys when preparing their lessons, if Mr. Bell were otherwise engaged, and no master ever enforced better order.

In their games she took the most lively interest, sometimes keeping the score at cricket, and never being absent from a football match. Even on the most stormy day of winter she would take up her position at some place where she could see the game, and gathering round her the greatcoat of one of the biggest of the players, and attended by one or two boys who were as enthusiastic as herself, she would watch every point of the game from first to last. In time of sickness, too, she could be one of the kindest and firmest of nurses, and an attack of measles which broke out within the first two years proved rather a benefit than otherwise, as the boys gave such favourable accounts of the nursing and kindness which they received, that it gave parents increased confidence in the management of the School-house. Young and beautiful, and possessed of marvellous vivacity, and full of sympathy for others, she gave up her whole life and thought to the boys,

and received in return their devoted affection. Yet even then she had times of great suffering and depression, which were known to one only beside herself.

At the end of the first year the prizes were distributed by H. R. H. the Duke of Connaught, who was at that time quartered with his regiment in Dover. The reports of the Examiners were very favourable, considering that it was a new school, and His Royal Highness congratulated all connected with the College on the successful beginning which had been made. He ended his speech by requesting for the boys an extra week's holiday, which was granted with pleasure.

At the beginning of the second year Mr. C. E. Sparke joined the College. He was then a good all-round cricketer, but especially useful as a bowler. He also played football well. At that time, and for many years afterwards, all the masters spent their half-holidays at cricket and football. This had much to do with the success of the school. The masters and boys knew one another thoroughly, and this intimate knowledge only increased their mutual respect. At one time the masters could make up an eleven which could beat the boys,* and at football they were perhaps better still. It may be news to the younger generation that Rugby Union and Association Rules were then unknown. The first young master who came from Cambridge brought with him what were called the Cambridge University Rules, and these were adopted by the College for a time. When the first matches with the King's School, Canterbury, were played, the agreement was that the play should be in accordance with their rules on their ground, and in accordance with our rules on our ground. The result was profound dissatisfaction on both sides. After two years, we took over the present Cricket Field from Mr.

* The masters played the school at cricket in 1893, the first match of the kind for many years, and beat them. [Ed. D.C.R.]

Chignell, which we rented, as he had done, from a butcher. The lower part of the field was then much as it is now, but the upper part was very uneven, and fenced off for the use of fat bullocks. We had no professional, no ground man, and so had to prepare our pitch before we could play on it. Yet I am not sure that we were not in those days quite as contented as the present generation.

It may be asked what kind of fellows the early boys at Dover College were. Well, there are a good many alive to answer for themselves, and they are well able to do so. They were very much the same sort of boy as we have now, only they were younger. In any new school it is generally found that classics are a weak point at the start, and Dover College was no exception. There were a few who played cricket wonderfully well for their age, and they were all devoted to football, as Dover College boys always have been, perhaps because their first Head-Master set them the example. In intellectual power, perhaps the twenty that first entered would compare not unfavourably with any twenty which entered in any subsequent term. Some of them have done very good work already, and may be expected to do still better in the future. They all, without exception, at once attached themselves to the place and became, without hint or guidance of any kind, enthusiastically loyal and patriotic. It is also very wonderful, when one thinks of it, how well they got on together. I suppose that there were now and then jealousies and heartburning, but if there were any such, they were kept well under, for they never appeared on the surface; from all of which it will be understood that at its beginning Dover College was very much the same in tone and feeling as it has continued to be throughout its career.

It may seem to some that too much has been said of these early days, but it must not be forgotten that those early days had much to do with making Dover College what it is. When

it was started, no one expected that it would be much more than a local day school; many openly prophesied that it would be a failure. Its early success was entirely due to its staff and to its pupils. The pupils did well and expressed great affection for their school, and so an ever-increasing number of pupils kept flowing to the school. The Governing Body, for the first fifteen years of its existence, confined themselves almost entirely to providing additional accommodation as it was required, and left the management of the school in the hands of the Head-Master. Undoubtedly the Council did its part of the work well and helped forward the College by providing good buildings, but the motive power which pushed the College ahead was in the staff, as it is in every school which prospers.

It remains now to indicate the various stages of development as shortly as may be. The growth of the College was very rapid, considering that it had no endowments of any kind, and within about three years the Head-Master's house was filled with boarders, and he was urging the Council to extend the buildings of the College. It was not, however, before 1876 that anything was really done. In the meantime, the Head-Master had rented No. 2, Christ Church Villas, which was soon filled with boarders, and after this was accomplished, Mr. Sparke started his career as a House-Master, by renting No. 1, Christ Church Villas. In 1877, the new buildings were completed, which had been begun in 1876. These buildings consisted of Priory House and the Class Room attached to the Hall.

The boundary line of the College property was at that time extended to the road which then ran in front of the present School-house, and to the other road which still runs in front of the Priory House. Though so much had been done in a short time, the Head-Master had a desire to do more, and he remembers that about the time when these

buildings were completed, he one day offered to a Committee, who were inspecting them, that he would contribute £100 towards the restoration of the ancient Guest House for a College Chapel, if they could obtain it and carry out the restoration. The Head-Master took possession of Priory House after Easter, 1877, and found it very convenient and a pleasant house enough in fine weather, but it is no exaggeration to say that there was not a square yard in its walls which was proof against a shower of rain. In the course of time this was remedied and it is now as good a house as any one would wish to live in. Mr. Sparke then moved into St. Martin's House, and the two houses which had been rented were given up. The number of pupils in June, 1877, was one hundred and twenty, of whom fifty-four were boarders.

The growth of the College during this period was very rapid, and in June, 1879, the number of boarders had increased to ninety-four. The Head-Master's house and Mr. Sparke's house were both full, and another boarding-house had been commenced, of which a short account must be given.

The House-Master was the late Mr. C. E. Steedman, M.A., at that time the Principal Mathematical Master, a man of whom all who knew him have the most pleasant recollections. He was a successful teacher, and fond of games, but the great charm about him was his magnificent bass voice, and his great love of music. By that time we had come to have services in the College Hall, on Sunday evenings, instead of going to St. Mary's, and Mrs. Bell and Mr. Steedman, as organist and choir-master took the chief part in preparing the choir for the musical portion of the services. In addition to this, Mr. Steedman took a leading part in the concerts and other musical entertainments which were given. The house he occupied is now Christ Church Vicarage, and traces of its former occupation

by the College may still be seen in the bricked-up doorway leading from the College Close into the Vicarage garden. His career as a House-Master was, unhappily, a very short one. In August, 1879, he was married, and within a year he died at the College.

In the meantime, active steps had been taken to increase the accommodation for boarders once more. The Council had acquired the ancient Guest House, with the quaint farm-house attached to it; in 1879. It was found that the road which ran in front of it had never been made over to the public, so that the Council, on acquiring the land on both sides, closed up the road and gave the grounds the appearance which they now have. Before commencing the new house they determined to restore the Guest House for a chapel. A considerable sum, not less than £600, was raised by subscription to carry out the restoration, and the extra cost was met by the Council out of the funds of the College. This was finished some time before Mr. Steedman's death in July, 1880. The School-house was also completed in the year 1880, and the Head-Master began to occupy it in January, 1881. At the same time, Mr. Sparke left St. Martin's House and entered Priory House.

There was now ample accommodation for the boarders in the two houses, and the boarders who had been in Mr. Steedman's house were transferred to the School-house.

St. Martin's House stood empty for a little while, but, as the other houses were soon practically full, it was enlarged and opened by the Rev. F. B. Walters, (who is now Principal of King William's College, Isle of Man) in September, 1881.

St. Martin's House, as restored and enlarged, rapidly filled, and within three years, plans were entertained for building a new house on the hill behind the Chapel, but they were not carried out.

Meanwhile, improvements had been carried out in other

directions. The upper part of the Cricket Field had been levelled and brought into its present form in 1881, under the direction of Mr. Chignell. It was a work of great labour and expense, but when it was done, the College had at last a Cricket Field worthy of it. When this work was completed, the Head-Master set about raising money to build a cricket pavilion. A subscription list was opened, and a fair number of subscriptions came in from parents, but there was little response to the appeal from the proprietors. In the end, however, chiefly owing to the efforts of the late Mr. Striker Finnis, a member of the Council, and the Head-Master, the present pavilion was erected. The debt which was left on the building was cleared off by the Council shortly afterwards, when they took over the subscriptions to games.

In the same year, another great improvement was carried out at the College in the restoration of the gateway, by Sir Richard Dickeson. The people of Dover, who were desirous of showing their appreciation of Sir Richard Dickeson's liberality and public spirit, subscribed a considerable sum of money which was to be spent in raising some lasting memorial of their gratitude. As it was left to him to choose the form of the memorial, he decided to restore the ancient Gate-house of the College, that it might serve as a Library. When he had carried out the restoration, at a cost considerably beyond the amount contributed, he handed it over to Earl Granville, the President of the College, in October, 1881. It has proved to be one of the most useful, as it is acknowledged to be the most beautiful, of the College buildings.

It has been stated that the College Chapel was restored in 1880. It must be understood, however, that at that time only the necessary work was done to render it available for use as a College Chapel. Since that time many additions have been made to the building and the furniture, the effect of which has been to make it one of the most beautiful and

interesting of College Chapels. The east end was at the first a dead wall, and the College owes to Dr. Astley, Chairman of the Council of the College, the beautiful apse, which he added at his own cost, in 1886. To the same kind benefactor the College owes the charming organ, which he placed in the Chapel in 1882. Mr. Sparke was the donor of the eagle, and inscriptions indicate the donors of the numerous windows which have been given from time to time. The last addition was the clock which was placed in the turret at the south-west angle of the Chapel, as a memorial of Mrs. Bell, in the year 1892.

The last addition made to the buildings of the College in the time of its first Head-Master was the Gymnasium, which was built in 1886.

It would be interesting to many to have here some record of the development of the College as a place of education, but it would take up more space than can be spared, and it has been thought better on the whole to omit any such attempt for the present.

The growth of the College was, for the first sixteen years, very rapid, and was the subject of constant congratulation to all concerned.

It is full of promise for the future that the old Dovo-rians are so devoted to their school. The publication of the Record, in which this will appear, is an indication of the strength of the ties which bind the past to the present. The time will soon come when the second generation will be inhabiting the beautiful buildings where their fathers passed their school days. May they keep up the good traditions of the past, and improve upon their fathers, if they can, by feeling an even greater affection for a school which grows more and more in prosperity and fame.

W. B.

Mr. Bell's long and successful reign came to an end in July, 1892.

Since the appointment of his successor, a new venture has been started, which augurs well for the future of the College. In January, 1893, the Junior School, to act as a preparatory to the College, was opened at West Mount, the beautiful house formerly occupied by Mr. Chignell and by Mr. Jollye. Starting with fourteen boys, it now numbers 32, of whom about a dozen are boarders. The enthusiasm shown for football, under the guidance of the assistant master, shows that in that respect at any rate, the establishment at West Mount is "a chip of the old block." The Junior School forms an integral part of the College, the boys coming to Chapel on Sundays, and taking their places when required in the choir, and their names will be found in this Record, entered in alphabetical order, according to their term of entry, among the rest, but distinguished by the letter [J.]

An addition has been made to the Chapel during the last year, in the shape of a pulpit, kindly given by our constant benefactor, Dr. Astley.

Among the changes introduced since Mr. Compton's rule began, it may interest O.D's to know that the afternoon devoted to mathematics—and possibly slumbers—is a thing of the past; the mathematical and classical work, each in single hours, falling to the masters specially interested in each branch; and the hours are so changed that in the Winter time, instead of being indoors all the afternoon we get till half-past four for out-of-door recreation, and do our work from 4.30 till 6.30.

In the Summer term, the old arrangement, with slight modifications, has been retained, so that the evening can be devoted, as of old, to cricket.

Those who wish to witness the College Sports also would find a great change. They are now held at the usual time for such

festivities, in the Lent Term, and on the Cricket Field instead of in the Close. Thus we can get a lap of nearly a quarter of a mile, and the other events, *e.g.*, hurdles and 100 yards are more conveniently provided for. Neither can the visitors have any cause to regret the change. Instead of crowding up the library steps to get their tea, they are accommodated with a spacious tent, and as the weather has, on each of the last two Sports days, been quite as brilliant as we used to get nearly always in the end of May, we may presume that the change is as acceptable to the powers that control the skies as to the boys and visitors.

A detailed account of the history of the Priory buildings in old times, and a sketch of the present state of the College was published in *The St. James's Budget* of February 23rd, 1894.

POEM WHICH APPEARED IN "PUNCH."

The following appeared in the *Doverian*, No. 14, December, 1880 :—

Punch, in his playful way, has been poking fun at us. In his number of July 17th, he has the following verses, headed, "At the Door of Knowledge" :—

Ye parents that with anxious eyes
Scan rival school lists over,
Your troubles spare, and spare your sighs,
And take the train to Dover.

For lo! that city's classic gate
(No distance from the station)
Supplies you, wondrous to relate,
With every information.

Go when you will, by light, by dark,
You could not get it faster—
The Knocker is the College Clerk !
The Bell is the Head Master !

And if one says what is not true
Or contradicts the other,
It's plain to see what you may do
Without the slightest bother.

For you upon them both may frown,
And say that you are shocked, or
May knock the Secretary down,
And then ring up the Doctor.

The writer of these lines (as an old Dovorian lately found out) had nothing to do with the College, but holds a responsible position in the Church. He should have known also that at the same time the name of the French master was Doerr—whereof the pronounciation is obvious. The Editor received this latter piece of information from the "Knocker."

LIST OF COUNCIL.

PRESIDENT :

The Right Hon. the Marquess of Dufferin and Ava, Lord
Warden of the Cinque Ports, K.P., G.C.B., G.C.M.G.,

EARLY DAYS AT DOVER COLLEGE.

BY A BOARDER.

“WILL you give us your recollections of the early days of Dover College?” was the request made to me some weeks ago by the compiler of this book. I was for a short time in a state of uncertainty as to my fitness for such an undertaking, and recollecting the well-known principle that no defendant is under any compulsion to incriminate himself, my first impulse was to send a refusal to the Editor. But, on reflection, I remembered that although many of my experiences at Dover College in its early days consisted of misdemeanours which are still unpunished, there were other events with which I was connected, of a less compromising character, which redounded to the credit of the School and its masters, as well as in a kind of reflected way to my own honour.

Out of small beginnings most great enterprises have arisen. That is a platitude I am almost ashamed to see in print over my own signature, but I can think of no better way of explaining away the fact that, if I was not actually the first boy entered on the books of the College, I was very nearly the first, and that I was certainly the first boarder. If I have done nothing else in the world to benefit anybody or anything, it will be remembered to my merit, after the publication of this book, that I gave one thoroughly good institution a start.

Many institutions and schools have been obliged to begin their existences with dummy lists of members or of boys, but Dover College began with a real substantial individual.

Now let me gather up very briefly my recollections of the College in its first term. I remember everything so very vividly, partly because I had never left home before and partly because we, including both masters and boys, were all quite fresh to the place and to one another. We were all freshmen. And the little party of boarders, how vividly all their faces come back to me! We had all our meals with Mr. and Mrs. Bell, and Williams and Walker and I sat opposite the two Mortons and Duff. These meals were often extremely painful to me, because at home I had never been able to eat fat, or hot or cold mutton, but for fear of being laughed at by the boys, and of seeing Mr. and Mrs. Bell exchange glances with one another, I invariably bolted the unpalatable morsels and sowed the seeds of a dyspepsia which now occasionally visits me. - But the reward of my sufferings is that I lost my daintiness during that first term of Dover College, and I owe this to the Spartan treatment I then underwent. I have mentioned Mrs. Bell, and before I go further, I feel bound to speak of her very definitely, and to give her quite a distinct place in my recollections of the College. For my pleasant experiences were nearly all connected in some way or other with her. In after years she told me that she herself had more vivid recollections of that first term than of any other, and the fact is not surprising, for she too came quite fresh to her new duties. And to me she was certainly always the very personification of kindness. I had never been at school before ; I was a nervous, homesick, and extremely troublesome youth, and it is to Mrs. Bell I owe the fact that before I left the College a very large number of my angles were rubbed off. And she was able to achieve this result not only by acting a second mother's part to me, but also

by turning very delicately and very effectively a little mild satire and ridicule on my peculiarities. Her many little kindnesses must be remembered by my contemporaries as well as by myself. One instance, perhaps, I may be allowed to give, and it concerns an old schoolfellow, who, like Mrs. Bell, is no longer with us. Poor Duff was, I believe, caught one day in the act of bolstering somebody or something, and was sentenced to stay in the schoolroom one whole half-holiday while we other boys were at play, and he was ordered to occupy his time by writing out 300 lines from "The Student's Hume." He had struggled valiantly through 30 or 40 of these lines when the door opened, and he saw Mrs. Bell smiling and doing her best to look reproachful. She came in ostensibly to stir the fire, but the sight of a human creature in distress was too much for her. "Poor, unhappy looking boy," she said, "I know he is not going to do it again, and so I'm going to read out his lines to him." And she sat down and patiently waded through the Wars of the Roses, and when even she began to feel weary, she volunteered to see Mr. Bell and let him off the rest. He was then sent into the drawing room to look at her albums. This was the kind of action which would appeal to a schoolboy, and I have always associated it with my memory of Mrs. Bell, more especially as one or two of us openly wished at the time we had also been caught bolstering.

At St. Mary's Church, which we attended in those days, I was selected to sit next Mrs. Bell, because I was always the first boy to openly exhibit signs of exhaustion during the sermon, and she would every now and again whisper words of comfort to me that the Parson had arrived at the last page, or that he would finish in five minutes, or that if I really fidgeted so she would have to speak to Mr. Bell. Need I say how I tried to please her by sitting quiet and attentive under severe provocation to be otherwise? And when, after being at the school some six weeks, I was laid up with some slight

ailment, Mrs. Bell sent me to the best bedroom in the house, and she herself used to come and read to me and tell me all that was going on in the school. I began to disbelieve in what I had been told at home, that illness was a misfortune. For it was really very jolly being ill at Dover College, and I thoroughly enjoyed that illness as well as the measles, which I luckily caught in the second term. I have said this much in reference to Mrs. Bell because, looking back to those years and endeavouring to estimate how great is my indebtedness to the College and in what direction that indebtedness lies, I am conscious that the mere scholastic and academical benefits I received were of comparatively small importance beside the revolution which my school life made in all my habits and manners. I feared the ridicule of the boys, it is true, and that certainly helped me to mend my ways, but the strongest influence of all was my wish to please Mrs. Bell, and not to be in her bad books. And although I saw little of her in subsequent years, when I heard of her death, what she had been to me as a boy seemed to come back to me, and I even recollected with pleasure the many occasions when she patted me on the head and told me I was improving, "that the parting of my hair was straighter to-day, that my tie was better tied, that my fingers were less inky, or that I was getting to walk more like a gentleman and less like a plough-boy." At this late date I feel glad to have pleased her and to have done her training some slight credit, and it was with genuine and bitter regret that I heard of the death of her whom I may fairly call my old schoolmistress.

What are my recollections of the College in its scholastic and academical aspect? And here again the very idea of this paper compels me to strike a personal note. In later years when the College grew larger, Mr. Bell's labours became naturally more specialised. But in the first terms he taught us nearly everything, and his thoroughness and wide

reading and experience were especially noticeable in such circumstances. Moreover, he seemed inspired by the enthusiasm of the born teacher. Even we, dull ones, were partially transformed into painstaking students at the end of that first term. I remember that at the opening of the College, Earl Granville, who presided, happened to say in the course of his remarks that mathematics formed a most important branch of study, and that without some proficiency in them, success in life was barred to many men. It is the only sentence in his speech which I remember, because it plunged me into the deepest despair; and I labelled myself at once among the world's failures. Under my previous Master, who was a classical scholar and little else, I never obtained the least insight into mathematical mysteries, and it was owing to the patience, the long-suffering, and the lucid explanations of Mr. Bell that before Christmas I began to see a dim possibility of realising Lord Granville's ideal of an educated man. Even now, whenever I have to indulge in a computation which necessitates wandering beyond long-division sums, the why and the wherefore are recalled in Mr. Bell's words, and not in the less lucid language of Mr. Barnard Smith or Bishop Colenso.

I remember, too, Mr. Bell's way of interesting us in our English studies, such as geography, history, and English grammar, and how he made a special point of trying to awaken in us some enthusiasm for these studies. He did not neglect the classics, but in the year 1871 it was comparatively a new experience to find the Head-Master of a school such as Dover College, possessed by the conviction that, for an English boy, the knowledge of his own country, its history and literature, was of first-rate importance. I feel indebted to Dover College on this account, especially, because a great deal of the pleasure of my life has depended on the pursuing of studies, the first impulse towards which came from Mr. Bell.

The College in 1871 was a very small affair indeed, and it was not until January, 1872, that we moved into the large hall. Everything about the place has now either been restored or enlarged, and when I visit the grounds now I find a difficulty in tracing out the ancient landmarks. The old gateway is there, but it is no longer a picturesque ruin, providing the boys with endless opportunities for mischief. There may be others who recollect equally with me the 5th November, 1871, when Duff fired what he thought was a rocket, but which turned out to be an unpleasant kind of firework, which temporarily paralysed him and got us all into disgrace. Our cricket and football in those days were nothing to boast of, but we managed to do some very creditable things against a big school in the Folkestone Road. And the Duke of Connaught was learning to be a soldier in Dover at the time, and half-holidays were "by Royal request" obtained more frequently I think than they have been in these degenerate latter days.

Of the second term I have said little, because the school then took a tremendous stride, and it became more like the College as we know it now. We started a sixth form, and Walker and I were the first members of it, and we wore tassels on our mortar boards. Walker and I were rivals for pre-eminence at the College in both these terms, and apart from our studies, we were like David and Jonathan. In the nightly slipper fights in our long bedroom he always took my side, and only left me to my own resources when at the commencement of the second term I arrived with a pair of slippers which had substantial soles. But of even Walker I have quite lost touch. All my old schoolfellows in that first term are only recollections with me. For this, death is partly responsible, while the other causes are not far to seek. Like Charles Lamb—

" I have had playmates, I have had companions,
In my days of childhood, in my joyful school-days—
All, all are gone, the old familiar faces."

Owing to the death of my father and the consequent changes in my family's position, I left the School during the second year, and the College had little to thank the boy for, who, not content with starting her, was almost the first to set the example of leaving her prematurely. It has been the regret of my life that I left the School so soon, but while memory remains and while gratitude is still alive within me, the College will have a place in my heart. One special corner will, however, always be reserved for that glorious first term, when we lived like fighting cocks, before less well-behaved youths than ourselves had arrived, who necessitated the tightening of the bonds of discipline, and the withdrawal of the many luxuries and privileges which we, at any rate, never abused or presumed upon. Such are a few of my recollections of Dover College.

EDWARD BENNETT.

EARLY DAYS AT DOVER COLLEGE.

BY A DAY BOY.

SOME 22 years since, as a boy of between 11 and 12 years of age I was one of, I think, thirteen who came together in that class-room which almost faces Saxon Street.

This small number was the root, if it may be so called, of that now robust tree, Dover College.

We were very soon joined by the Head Master, Rev. Wm. Bell, who put us through our paces, and finding us all fairly equal, gave us certain necessary instructions as to our proposed course, and the books it was needful to obtain, and then started a class in Elementary Greek. I have a distinct remembrance of the great difficulty I individually had in mastering the alphabet, but others were quicker at this, and one triumphed greatly over the remainder, by reading his own name written in the strange characters.

Things soon went swimmingly and, as numbers increased, new classes were formed and fresh masters appeared.

It is needless to say that our great national sports were not forgotten at the College, and as soon as sufficient boys were available, clubs were formed. At first, however, our football was, though perhaps correct, not strictly confined as to the numbers of players, and a match on the lines of that memorable one at Rugby, when Tom Brown covered himself with

glory, was not uncommon. As time went on, however, proper teams were selected and matches played against others, or against scratch teams of the school. It may here, perhaps, be remarked that the majority, at first, and the whole, eventually, of the recognised College teams, consisted of boarders and masters, which was one of some few grievances which the day boys grumbled over.

It must not be supposed that our tasks and games occupied the whole of our time, for, thanks to the many friends in the town who supported the School and advanced its interests at every available occasion, there were various holidays granted for certain special causes which deserve to be specially noted. One of the first of these was the beating of the Borough Bounds of Dover in the Mayoralty of Mr. (now Sir Richard) Dickeson, who, as is well known, is not only one of our first, but one of our best friends.

On this occasion, the whole of the pupils were invited to attend, and having mustered in the play ground, marched through the town towards the Marine Parade, joining the Mayor, Corporation, and various officials, with a strong escort of police, on the way. The proceedings of the day started at Guilford Battery and we made our way from that point, through the various passages, into the Castle, climbing up breakneck ladders, and threading numerous dark and cobwebby galleries until we emerged into daylight over the Northfall meadow. We then went the proper round of all the boundary stones, many of us undergoing the old-fashioned ordeal of bumping at each; this ceremony being performed in most efficient style by the policemen in attendance. In this manner we reached that pleasant but breezy spot, on which stands Diggle's Folly, where we found elaborate preparations had been made for the comfort of the inner man and boy. Large marquees covered tables on which we discovered many delicacies dear to our hearts, and while the junior members of the pro-

cession devoured sandwiches, sausage rolls, jam tarts, and imbibed temperance beverages of a cooling but rather gassy description, the reverend leaders of the procession were satisfactorily occupied on other but equally delightful fare.

From this point a change came over us. Whether it was ginger-beer, or that our spirits, after temporary obscurity in the strangeness of our occupation, had recovered their tone, I cannot now say, but it is sufficient to say that we here changed places with the officials and performed the bumping ceremony on them instead. From the police, who tried to look as if they rather liked it, we went a little further, and laid hands on certain dignified members of the Town Council, and at length, watching our chance, we captured a master who had become unpopular, and paid off our old scores with interest. We then quieted down until the last mark on the top of Shakespeare's Cliff was reached, when a deputation of the boys requested that Mr. Mayor and the Head-Master would graciously submit to be bumped. They both agreed in most pleasant fashion, and our operating in these cases was done gently. We then passed along under the cliff towards the S.E.R. Station, and, crossing the Ferry, arrived at our starting point after a most enjoyable day.

On another occasion, the late Lord Granville, then President of the College, invited us to be present at the opening of the new Dock, which bears his name. We were taken on board one of the Harbour tugs and, after a short trip in the Bay, during which we were provided with refreshments, we entered the Harbour and joined other steamers which entered the Dock with the usual amount of cheering and general jollification.

The ceremony of laying the foundation stone of one of the new Houses was another chance which was not overlooked for giving us a little change from our books, but here there is nothing that is specially interesting beyond the fact that one of the pupils who had recently gained a medal for saving a life

from drowning was specially noticed by Earl Granville, who was present also on this occasion.

The first prize-giving at the New College was, of course, an event which even at this lapse of time causes others to take a lower place, as the presence of Prince Arthur with his Regiment in the town, enabled the authorities to approach him with a view to his presenting the prizes. This he most kindly agreed to do, and as one of the fortunate recipients, I have a vivid recollection of the many instructions given as to the necessary deportment before Royalty, and also of the wonderful amount of "side" we fortunate ones put on, all resplendent as we were in white ties, white gloves, and other articles of festive attire.

Of the actual presentation I cannot say much, beyond the fact that our lessons in deportment were all forgotten, and the Prince was treated quite like any other man, until the joyful moment when he requested Mr. Bell to give an extra week's holiday in honour of his visit. Had the roof then fallen, it would, I think, have surprised but few in the school.

One of the principal features of interest at the College in its early days was the great white owl, known as the Priory Owl, which had nested for many years in the roof of the old archway, not then restored. It was, of course, not often seen in daylight, but it did occasionally come out and fly across towards the Chapel, which was then a most dilapidated barn, and on one of these occasions it was wilfully shot by one of the boys, much to the indignation of every one, not only in the school, but in the town. I do not know what became of the body, but it may possibly have been preserved, in which case, the present owner would, I should suggest, be doing a graceful act in presenting it to the College, where a convenient space, say in the Library, could, I should think, be discovered to place it.

NOTES ON DOVER COLLEGE FOOTBALL.

It will be seen by reference to the lists of Football matches that at the College Football has been more uniformly successful than Cricket. The especially notable seasons are 1885-6 and 1888-9. The first of these teams, under the captaincy of C. D. Wetherall, won all its matches, only two points being scored by its opponents the whole season. The second invincible team, in 1888, under E. Crothers, and including H. S. Bush, A. N. D. Fagan, and C. E. Wilson, had the same number of points (two) scored against them, but two matches were drawn. Of these one was against a very strong team of O. D's, the other against Dulwich College vacation team, which meant their school team assisted by some distinguished old boys, among them W. R. M. Leake, of Cambridge University XV., and R. Easterbrook. If this match had been played on our ground the superior pace of our outsides would probably have won them the game, but the Dulwich ground was in a fearful state of mud, to which our team was not at all accustomed. As it was, the game was quite evenly contested, and resulted in a draw of one try on each side. The points scored by this team were 162 in 11 matches.

The two teams above mentioned are the only ones which have proved victorious over Tunbridge School; but it is encouraging to note that the team of 1893 did better against this most formidable rival than any since 1889.

With regard to the other schools with which we contend, particulars are given elsewhere. Let it suffice here to note that whereas we have been nearly always successful against King's School, we have lately failed to beat Sutton Valence. This shows that superior numbers are not sufficient to ensure a superior team, for the numbers at Sutton Valence are considerably less than our own, a fact which ought to spur us on to increased energy and determination.

NOTES ON DOVER COLLEGE CRICKET.

It may be interesting to make especial mention of occasions on which notable scores have been made for and against us.

In 1878, our match v. King's School produced some notable scoring. We made 26 in our first innings, our opponents 267, of which Blaxland contributed 129.

In the same year the Clergy Orphan School had a cricketer who afterwards became famous as the record long scorer, W. N. Roe. In that year he played three innings against us, scoring 58, 24 not out, and 114.

In 1884, Mr. G. L. Colbourne made 100 for Masters against School, and 129 not out v. the Royal Artillery.

In 1887, Mr. A. H. Coombes scored 125 not out v. St. Augustine's College, and H. S. Bush 122 v. East Surrey Regiment.

In 1888, H. S. Bush (who that year had an average of 45) made 132 against King's School, Canterbury, and 157 v. the Royal Artillery. In the latter match Mr. Coombes also made 107 (the first wicket falling at the remarkable score of 261). This match was thus a record in several ways for our ground, as producing the biggest individual score, two scores of over a hundred, and the highest number of runs for the first wicket.

In 1889 again, Bush, who was not playing regularly and is not counted in the team, played a splendid innings of 134 not out v. the Buffs, Mr. Coombes having made 64 and Fagan also 41 not out. This was the first occasion on which the new rule allowing "declaring" was used and was the second match of the season. Once more in this year Bush topped the 100, making 117 v. Dover Club.

In 1890, playing against the O.D.'s, H. B. Foster made 105.

In 1891, which was, on the whole, an unsuccessful season, the record for the ground in individual scores was made by Mr. A. E. Wynne, who scored 165 against the Royal Artillery, the innings being declared at an end with the score at 303 for 5 wickets (W. F. Hackman, 64).

This record was beaten in 1892 by one of our opponents, when in the match v. Dover Club. on our own ground, Mr. E. Hayward scored 172.

In the same year for C.O.S. Canterbury, F. Bell made 129 not out.

1893 also saw two scores of over 100 made by our opponents, for the Hon. G. Cadogan made 128 not out in the Shorncliffe match, which proved such a miserable show in Dover College cricket: and Mr. Enderby made 108 for the Northumberland Fusiliers:

THE OLD DOVORIAN CLUB.

BY AN O.D.

1887—On the occasion of the Annual Past and Present Football Match at Dover, on December 10th, 1887, there was a meeting of Old Boys to discuss the desirability of forming an Old Dovorian Club, with its headquarters in London, for the purpose of football, cricket, and social gatherings.

Richard Norris was the proposer of this scheme, which was received with general approbation.

A Committee was thereupon elected, which consisted of the following :—Rev. Wm. Bell, President ; C. E. Sparke, Esq., E. T. Littlewood, Esq., Vice-Presidents ; T. D. Bell, R. M. Bird, M. W. Dixon, B. Hunt, R. W. Hunt, F. H. Maugham, E. H. Plunkett, C. B. Pike, C. G. Wellesley, and E. B. Woodman, Committee ; with R. Norris, Hon. Secretary and Treasurer.

Previous

to

1887—Previous to this date, however, it should be stated that it had been a general custom to play an annual football and cricket match between the Old Boys and the Present, at Dover.

The earliest date of an Old Boys' visit to the College was for a football match which took place on February 8th, 1879. During the Summer of that year the first Cricket Team also visited the College.

Since 1879 annual visits have been paid for football matches (except season 1881-2) and cricket (except 1881) up to the time of the formation of the Old Dovorian Club.

1887—The meeting, besides electing a Committee for the management of the Club, decided to have a dinner at an early date in London, to which all O.D.'s were to be invited.

The Committee met for the first time on December 16th, and sent notices out to those whose addresses were known, acquainting them of the formation of the Club, asking for their support, and inviting them to the dinner.

The subscription was fixed at 10s. and 5s., for playing and non-playing members respectively.

1888—Mr. Bell presided at the first dinner, which was held at the First Avenue Hotel, on January 12th, 1888.

It may be of interest if the names of those present be added:—C. E. Sparke, Esq., E. T. Littlewood, Esq., Rev. F. B. Walters, A. E. Gibson, Esq., C. R. Haines, Esq., G. L. Colbourne, Esq., L. Happe, Esq., Rev. H. Garrett, F. Bampffield, C. Beadle, T. D. Bell, R. M. Bird, F. Bower, F. Bowes, F. R. Brown, M. W. Dixon, W. Emanuel, P. Evans, M. Greig, J. C. H. Greig, E. Hunt, B. Hunt, R. W. Hunt, W. Jacob, G. W. Keeling, C. Mason, H. N. Maugham, R. Norris, F. B. Norris, M. O'Brien, G. Osborn, R. Phipps, A. H. Raikes, W. Strachan, A. M. Talbot, H. A. Wellesley, and C. G. Wellesley.

The dinner was a decided success, and it was hoped by those present that it would become an annual affair.

The Old Dovorian Football Club, although not as yet properly organised, played a match at Dulwich, on January 28th, *v.* Kent Rovers, a team of some

standing. The O.D.'s won this, their first match, by 1 goal and 1 try to nil.

Unfortunately, no minutes were kept of the earlier meetings of the Committee, but the following were the cricket matches played by the Club that year:—*v.* Dover College and *v.* Dover Club.

R. Norris, who had been one of the founders and had piloted the Club as Hon. Secretary and Treasurer, left England before the Summer was over, to the regret of all O.D.'s.

Christopher B. Pike was elected by the Committee in his stead.

The first minutes of a Committee meeting are entered on October 8th, 1888. The Committee issued the Rules of the Club and the match list which had been arranged. T. D. Bell was elected Captain of the Football Team.

The O.D.C. won 4 (Middlesex Wanderers, Dover Garrison, Surrey Wanderers, Clapham Rovers), lost 5 (Kent Wanderers, Blackheath A., Kensington A., Royal School of Mines, Sydenham), and drew 3 (Dover College, Clapham Rovers, Marylebone) in the season 1888-89.

On December 16th, a general meeting was held at Dover, C. O. Maugham in the chair.

The report of the Club's progress was read and the balance sheet approved.

The following officers were elected for the ensuing season, 1889-90:—H. A. Wellesley, Captain; C. B. Pike, Hon. Secretary and Treasurer; T. D. Bell, R. M. Bird, S. B. Hulke, C. O. Maugham, C. G. Wellesley, Committee.

It was further decided that the Club be affiliated to the Rugby Union.

1889—The second annual dinner was held at the Holborn Restaurant, on January 14th. Mr. Bell presided, and there were 48 O.D.'s present.

At a Committee meeting held on March 3rd, it was decided to lease a football ground at Hyde Farm, Balham, for the season 1889-90.

The Club was unable to play any cricket matches, owing to the scarcity of playing members. They visited the College, however, but the match had to be abandoned, owing to inclement weather.

The football card of 1889-90 was a very full one. The result was fairly satisfactory. Fifteen matches were played; of these 7 were won, 7 lost, and 1 drawn.

A general meeting was held at Dover on December 8th, M. W. Dixon being in the chair. It was announced that the Right Hon. the Earl Granville, K.G., Lord Warden of the Cinque Ports, had kindly consented to become President of the Club; the Vice-Presidents being Rev. Wm. Bell, M.A.; C. E. Sparke, Esq., M.A.; E. T. Littlewood, Esq., M.A.; and E. F. Astley, Esq., M.D.

S. B. Hulke was elected Captain of the Football Club for the season 1890-91.

C. G. Wellesley and M. W. Dixon were elected Hon. Secretary and Hon. Treasurer, respectively, with R. M. Bird, P. Evans, W. R. Hunt, C. B. Pike and H. A. Wellesley as Committee.

At a subsequent Committee meeting, held on December 19th, both C. G. Wellesley and M. W. Dixon retired in favour of C. B. Pike, who was re-elected Hon. Secretary and Treasurer, C. G. Wellesley and M. W. Dixon being elected on to the Committee.

1890—The third annual dinner was held at the First Avenue Hotel on January 13th, Mr. Bell being in the chair, and there were 25 O.D's. present.

The Club only played one cricket match, and that against the College, on July 7th.

The Football Club played 14 matches; of these 8 were won, 5 lost, and 1 drawn. This was a very satisfactory season, as the opposing Clubs were of a better standing than in previous years.

On December 7th, a general meeting was held at Dover, C. B. Pike presiding. It was decided to join the Surrey County Rugby Union. C. E. Williams, Esq., M.A., was elected in the place of E. T. Littlewood, Esq., who had left the College.

W. R. Hunt was elected Captain of the Football Club for the season 1891-92. C. B. Pike was re-elected Hon. Secretary and Treasurer. The following were elected to form the Committee:—T. D. Bell, W. Bird, P. Evans, R. W. Hunt, S. B. Hulke, and C. F. Wilbe.

1891—The fourth annual dinner was held at the First Avenue Hotel, on January 12th, Mr. Bell being in the chair, and there were 32 O.D's. present.

The annual Cricket match was played at the College on July 11th, the O.D.C. winning by 75 runs.

On Advent Sunday, November 29th, 1891, Mrs. Bell died, regretted by all who knew her, especially by Old Dovorians, for whom she had always a most hearty welcome, when visiting their old school. She was buried at Dover on December 2nd, several representatives of the O.D.C. being present to testify their regard for her memory and sympathy with Mr. Bell, our headmaster, in his great bereavement.

On December 7th, a committee meeting was held, at

which it was decided that a notice be sent to all O.D's., asking for donations towards a memorial of Mrs. Bell, which should form part of a general fund with that of the College.

It was also arranged that the football match with the College be postponed.

1892—The fifth annual dinner was not postponed, at Mr. Bell's request, and was held at the First Avenue Hotel, on January 4th, C. E. Sparke, Esq. being in the chair, and there were 32 O.D's. present.

The Club visited Dover on January 30th, and played against the School.

The football season of 1891-2 resulted in the Club winning six and losing six matches, frost being the cause of eight fixtures being cancelled. In this season, the Club got together on two or three occasions the strongest teams it had ever put into the field, notably those against Blackheath A. (won by O.D.C. by three goals, two tries, to one goal, one try), and Marlborough Nomads (won by O.D.C. by one goal, one try, to *nil*).

But, at the same time, it must be mentioned that the support given the club by many of its best players was not very hearty, due to the fact that O.D's. found that their services were appreciated by first-class clubs, with whom they could always obtain a good game; also to the fact that the recruits from the School were few.

At a general meeting held on March 5th, at the Horse Shoe Hotel, London, presided over by C. B. Pike, the following officers were elected for 1892-3 :—T. D. Bell, Captain; B. G. Waller-Shepherd, Hon. Secretary; C. F. Wilbe, Hon. Treasurer; with W. Bird, P. Evans, H. B. Foster, R. W. Hunt, W. R. Hunt, and C. B.

Pike, Committee. C. B. Pike retired at this meeting from the post of Hon. Secretary and Treasurer to the Club, which he had held since 1888. Much is owed to him by all Old Dovorians, for the thorough success of the Club. He spared himself neither time nor trouble, and his services in the football field were of inestimable value.

It was further decided, that owing to O.D's. playing for other Clubs, the Club should not arrange more than eight fixtures; also that the ground should be given up at Balham, and that the subscription should be 5s. per annum.

The retirement of the Rev. William Bell from the position he had occupied as Head-Master of the College from 1871, was announced during the Summer. To enter into a history of the School, of which he was the Alpha, is not the object of this paper. Old Dovorians will always honour his name, and they can with pride point to Dover College during those twenty and one years and say of him, "Si monumentum requiris circumspice."

The memorial to Mrs. Bell took the form of a clock and bell, which were placed in the Chapel Tower, with a tablet in the Chapel itself.

The cricket match was played on July 9th, and was won by the College by 63 runs.

The general meeting was held on July 10th, at Dover, F. B. Norris presiding. It was decided that all Old Boys be communicated with for the object of presenting to Mr. Bell a testimonial, as a sign of their affection and esteem, on his resignation of the Head-Mastership.

F. B. Norris, W. R. Hunt, and C. F. Wilbe, with the Hon. Secretary of the Club, were appointed a com-

mittee to carry out all arrangements. The Rev. C. A. C. Bowlker left the College at the same time as Mr. Bell. Old Dovorians have much cause to be grateful to him for his untiring energy in making the Athletic Sports each year so successful, and for his enthusiastic support in all games, especially Football.

On December 10th, the Old Boys played the College at football and won by 3 goals and 1 try, to 1 goal.

This was the first visit of the O.D.C., after the appointment of the Rev. W. C. Compton to the Head-Mastership of the College.

A general meeting was held on December 11th, at Dover, T. D. Bell presiding. The Rev. Wm. Bell was elected President, and the Rev. W. C. Compton, C. E. Sparke, Esq., C. E. Williams, Esq., and Dr. E. F. Astley, Vice-Presidents. It was further decided that the election of officers of the club be postponed till the next annual dinner.

A committee was elected for the management of the dinner, as follows:—Rev. W. Compton, C. E. Sparke, Esq., C. R. Haines, Esq., W. H. Thomas, Esq., F. S. Bamfield, R. W. Hunt, C. B. Pike, B. G. Waller, and R. M. Bird (Hon. Secs.) The committee, however, never met.

1893—The sixth annual dinner took place at the First Avenue Hotel, on Tuesday, January 17th, the Rev. W. C. Compton presiding. There were 52 O.D.'s present.

At the meeting held that evening the following were elected on the committee, H. A. Wellesley presiding. T. D. Bell (Captain), R. M. Bird (Hon. Secretary and Treasurer), S. B. Hulke, R. W. Hunt, W. S. Lee, C. B. Pike, W. H. Thomas and H. A. Wellesley.

The Old Boys' Present, which had been subscribed for on Mr. Bell's resignation of the Head-Mastership,

was on view during the dinner. It consisted of a solid silver tea tray, silver tea kettle with spirit lamp, etc., which were inscribed as follows —“ Presented to the Rev. W. Bell, M.A., for twenty-one years Head-Master of Dover College, as a mark of sincere regard and esteem of his Old Boys, on his resignation, July, 1892.”

It was in response to sentiments expressed at this dinner, that it was decided to compile and start a Dover College Register. The announcement was made in the following March that A. H. Davis, Esq., had undertaken the Editorship of the Register, the O.D.C. subscribing towards the Guarantee Fund.

In the Summer, Old Boys visited the College in large numbers in response to invitations from the Head-Master. There was a two-days' cricket match (June 23rd and 24th) which the O.D.C. won by 5 wickets. A 2nd XI. of O.D.'s also beat the College 2nd XI.

Tennis tournaments between Old Boys and the Masters were played, and both the doubles and singles were won by the O.D.C.

A garden fête was given by Mr. and Mrs. Compton in honour of the Old Boys' visit, and was much enjoyed by all.

A general meeting was held on June 25th, at Dover, when the meeting discussed the ultimate destination of the St. Martin's Charity Fund, which the Head-Master had desired the O.D.C. to decide. It was agreed that the O.D.C. should obtain, by donations, a sum of £5 each year for the cot in the Dover Hospital, which would be founded by the school, and called “The Dovorian Cot.” Donations to be limited to 2s. 6d.

The annual football match was played on December 9th, and was won by the O.D.C., by 2 goals, 5 tries, to nil.

A general meeting was held on December 10th, C. B. Pike presiding. The following were elected officers of the Club for 1894. C. B. Pike, (Captain), R. M. Bird, (Hon. Secretary and Treasurer), P. C. De la Pryme, P. Evans, W. R. Hunt, B. G. Waller, C. Whyte, and C. F. Wilbe.

1894—The seventh annual dinner was held at the First Avenue Hotel, on Tuesday, January 16th. The Rev. William Bell, M.A., (President), was in the chair, and the dinner was attended by 42 O.D's.

INDEX OF BOYS.

To find the particulars of the name required, observe date of entrance—e.g. 79 (a), (b), (c), i.e., 1st, 2nd, or 3rd Term—and look it out in the body of the Book, where the date is given at the heading of each page.

The names of boys entered this Term (May, 1894) are not included.
