supporting the union. A women's Federation of the union has been formed by those who are dwelling in the firm house area and they are participating in the negotiation by the shop union coming up the plant every day.

h. Conference between the parties concerned and the Prefectural Authorities .

In view of the gravity of the current labor dispute of Hitachi Works and from an independent political standpoint, the prefectural authorities had a meeting with the representatives of the labor and the management to talk over the problem hearing from both opinion in order to make them settle the dispute peacefully as soon as possible.

i. Present status of the dispute:

The dispute is under negotiation at the central.

j. Present status of negotiations:

1. The above chapter enforced a nine minute suspention of the current for supply of the general use in Hitachi City from 20:00, 20:30 and 21:00 for 3 minutes each.

2. On May 24, each three minute current suspention is expected to be rendered from 20:00, 20:30 and 21:00 in Taga and Kuji counties for general consumer.

3. The company side says an answer to the union will be possible only after the decision of the central negotiation which is now under mediation by the Central Labor Relations Committee and the union's attitude of this time seems to show a struggling idea against the Company in harmony with the action of the Hitachi Works Labor Union.

h. The affective date of the dispute:

May 10, 1950.

i. Present status of the dispute:

The Federation of Hitachi Company Workers Union has been struggling with the company requesting the enforcement of 12.000 yen wage base in these days. Afterwards a collective bargaining had at the central on May 8 in order to get an answer of the management to the demand, however, the company notified a plan of 5,555 employees dicharge including 2,095 persons four plants with reasons of its business management difficulties without touching upon the union's request, for that, the union kept striking to ask for an answer to the demand generally rejecting the cut plan of the company until the negotiation came funally to rupture.

j. Present status of negotiations:

1. 13,000 members of the above four plants staged a 24 hour walkout on May 10, at 08:00 and a joint mass-meeting of the union was held at the Hitachi Kaigan plant on the demand of the new wage base and withdrawal of the personal cut plan of the company to discuss over measures for the future and after that they went out for a demonstration on the streets under the support of outside organizations (Hitachi free Workers union and the Korean League) inflicting a coercion upon the company.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

2. While the company is suggesting an attitude of enforcing decisively a personal cut in the course of May, therefore, the final settlement of the dispute seems to be a matter of far behind with its expectable protraction of entanglement.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

i. Present status of the dispute:

Afterwards the collective bargain has been had at the central between the labor and the management and the Mine Federation offered the union following wage plans.

1. Additional 500 yen average per capita, within 1,000 top limit, be paid when production is attained full to the extent of one person's daily efficiency average at each mine.

2. Besides the above incentive premium, more bonus within the top limit of 300 yen, if any mine can afford it and with agreement of both the management and the labor is reached on it.

3. Revision of the wage base can be made within the limit of the standard by such a mine where the pay has been under the nation-wide wage standard heretofore - 363 yen for underground workers and 216 for surface - and account improvement has been made since January.

j. Present status of negotiations:

The union issued a strike directive to the chapter in opposition to the above plan presented by the Federation on the ground that some 700-800 yen is being paid in advance by other mine company and that the wage plan of the management to the union means actual decrease of wage.

Accordingly the above said union (chapter) staged s 24 hour strike on March 20, at 7.00 by the central directive (However, by the first union only of Hitakata-tazuna, Akiyama, and Chiyoda Pits)

And about 40 persons of the second union of the Akiyama Pit is making absence tactic in harmony with the first union.

h. The effective date of the dispute:

Mar. 9, 1950.(strikes staged in turn from the first wave of strike of Mar. 9)
Mar. 30, 1950 (informal signing of the agreement made)

i. Present status of the dispute:

The Mitsukaido and other eight chapters of the union have beenstaging an indefinite period strike of suspending business liaison since Mar. 9 and, afterwards, the chapters enforced electricity supply supention for 4 hours for factories of large consumption, Gov't and public offices, and ordinary consumers up to Mar. 27 under the central directive.

j. Present status of negotiations:

Afterwards, negotiations on the demand had been had between labor and management through mediation of the Central Labor Relations Committee and the talks had kept a ruptured condition, however, the dispute came to an end with informal signing of the following agreement in the presence of Nakayama, chief of the Mediation Committee, on Mar. 30, at 5.00 in parallel with the settlement of the dispute of All Japan Electric Industry Workers Union which was an axis of the March labor offencive, thus ending strongly worked electricity suspension.

March 30, 1950.

SUBJECT: Report of Labor Dispute.

TO : Chief of Kanto Civil Affairs Region.
Attem: Chief of Labor Division.

This is the Labor situation in Hitachi Mine Co. Ltd.

a. Number of workers, name and location of plant:

1) Hitachi Mine of Nippon Mining Company
(Miyata, Hitachi City)

2) 145 workers.

b. The issue involved:

Payment of ¥ 3,000 as a temporary allowance.

c. Affection to Occupation Forces: None

d. Action taken: None

e. Type of industry involved: Mining.

f. Name of the union: Hitachi Mine Labor Union.

g. Union to which the union affiliated:

Federation of Nippon Mining Co. Workers Unions.

h. The effective date of the dispute:

March 28, 1950.

i. Present status of the dispute:

1) Although it came to an agreement to ask the management for a temporary allowance ranging from ¥ 500 to ¥ 2,000 in order to settle a dispute before March, some Business Offices can pay ¥ 2,000 but others cannot. The above Federation asked for ¥ 3,000, to this, an answer was made that ¥ 2,000 can be paid but includes ¥ 1,200 which had been promised to be paid before.

2) As for surface workers' wages from April to September, 1950, the Union asked for a ¥ 600 increase in a base pay per month. The management answered that ¥ 600 could be paid plus a total income but could not be added to a base pay.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

j. Present status of negotiations:

1) As bargainings about the above demand came to a rupture, the union at its Standing Executive Committee meeting decided on staging a 24-hour strike, but instructed a partial strike due to a change in the situation.

The above mentioned union went on an indefinite partial strike beginning at 8 a.m. March 28 in accordance with an instruction from the central committee.

2) Shipment of copper, sulphuric acid and other products is to be stopped.

3) There may occur a change in the said number of strikers because of the strike being a partial one.

（發展的に解消したものか又は消滅解散したものか何れか）

A 労働運動及労使関係の傾向

1　企業の經營難による賃金遅拂人員整理等の問題が目立ちそれによる紛爭議が壓倒的に多い又一方の組合に於ては労使間の紛爭議を極力さけて問題を圓滿に解決すべく努力しておる傾向も見られないでもないがこれも二三の例にすぎない又圓會共斗に呼號する3月攻勢は3月8日日本鑛業株式會社日立鑛業所（全鑛連要求8800圓）の無期限ストをトップにこれに對し歩調を合せるかの様に山一炭礦（多賀郡高萩町）は賃金遅拂問題で3月8日に72時間ストを決行し日本電氣産業労組に於ては中労委調停案8500圓ベースを不滿として3月9日水海道分會（結城郡水海道町）を皮切りに以下8分會は日を追つてストに突入し又3月16日18日20日の三段階を以て炭礦の11労組がストを行ひ電氣公労組の動きも活潑化してき圓鐵は3月11日違法斗爭を決定し全逓も近く大會に於て同調を決定する模様であり各組合の斗爭意識を益々固めておる現狀である。

LABOR POLICY SECTION
IBARAKI PREFECTURAL GOVERNMENT

March 27, 1950

SUBJECT: Monthly Labor Administration Activities Report.

TO : Chief of Kanto Civil Affairs Region.
Attn: Chief of Labor Division.

(1) Significant trends in the labor movement, in labor relations, in union organization or dissolution, with evidence of progress or retrogression.

A. Significant trends in the labor movement, in labor relations:

1. Most of labor disputes were those of unpaid wages and personal reduction due to difficulties in business management. There were a few of unions which are making efforts to get agreement with the management evading struggling between both.
Major labor movements which have been conducted during this month are as follows and showed a part of so called March labor offensive in concert with the Joint Diet struggle committee.

Mine Co. Ltd workers union.

Type of strike	Request	Date	Plant involved
Indefinit period strike	8,800 yen wage base	March 8	Hitachi Mine Office of Nippon Mine Co. Ltd. workers union.
72 hour strike	Payment of wages in deliquency	"	Yamaichi Coal Mine
Three stage strike	In opposition to 8,500 base of the central labor relations committee's mediation.	Mar.9	Mitsukaido chapter of the Electric Industry Labor Union.
Ditto	Ditto	March 9	8 chapters of the above same.
Ditto	Ditto	March 16, 18 and 20	11 labor unions of coal mines.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

Besides above, Gov't servants labor union has become active in its movement and the National Railways workers union decided on March 11 to make a legal struggle and the all Japan Communications workers union is expected to hold a mass meeting in concert with the labor movement, strengthening the trugling power of each union.

B. Number of unions organized: (3 cases)

1. Hitachi Free workers union.

2. Nazaki Tele- communication Service Station Workers Union. (Electric Communication Ministry)

3. New Japan Consolidated labor union.

This union is made, superceding the New Japan Food Industry Workers Union which was dissolved after its, division into four firms following to the personnel reduction.

C. Number of union dissolved: (1 case)

Motomura plant workers union.

The union had been established in order to settle the retirement allowance of the employee and was dissolved after settlement of the problem.

(2) Statement of current labor problems, together with a statement of the methods being used by labor officials to solve these problems and any request for assistance desired from Kanto Civil Affairs Region.

A. Labor Policy:

In view of the trend that recent labor disputes have been from such causes as deliquency in wage payment business re-adjustment and troubles of labor agreements, our labor policy has been conducted centeringupon.

1. Recommendation of early collective bargain between the labor and the management aiming at its peaceful settlement in co-operation with the mediation of the Local Labor Relations Committee by furnishing data on the labor agreement and wage standard and also giving advice to make them do efforts for independent settlement of the dispute, evading interference by the political party or other outsiders.

B. Employment Security Policy.

At this time when complete employment is an important subject against the increase of unemployment, we are making efforts to carry out proper plan by inspecting and guiding unemployment work field, and opened consultation office to make employees give more unemployed persons a job.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

(3) Type and trends of labor problem (statement of causes)

A. Demand of wage raise. 30 cases

B. Opposition to business re-adjustment. 3 cases

C. Demand of payment of thewages in delinquency. 3 cases

(4) Activities in the field of labor education:

1. Enforcement of the Labor Ministry's Program.

2. Labor education has been given with success by labor unions and the labor education officers.

(Example)

A. Enforcement of labor educat ion by the Labor Ministry Program.

The subject of labor education (On activities of each Dept) for the month has been given to respective labor union, especially putting weight on the subject ' Establishment of the Livelihood Committee of the grievance management committee.'

Method	Time	Attendance
Symposium	3 times	80 persons
Slide show and round table talk	12 "	415 "

B. Example of a successful labor education given by unions and by the labor education officer.

A district mass meeting of labor education was held on March 6 at Kabaho-mura, Makabe-gun. This district still has many laborers who have no organized union of their own and have little knowledge of labor union only thinking it dangerous, however, the meeting was a success to make them reconsider the matter to enter the labor union. Performance of the meeting is as follows:

1. lecture.

a. On promotion of labor union. By Shimodate Labor Police Office Chief.

b. How labor unions should be? Labor policy section Chief.

2. C.I.E. Film show

3. Attendance 720 persons

(5) Trends in collective bargaining.

As they have no sufficient experience of negotiation in making labor agreement with better conditions, on the union side, they are apt to resort to force in attaining their claim and thus let the management fall in difficulties to keep its management as planned, on the other hand,there were such cases as that some tactics which give trouble to the workers were taken to insist on its opinion by the management.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

There are trends in collective bargain of these days that somewhat hamper their feasible business operation which needs good understanding of mutual situation of each other between the labor and the management and, therefore, it is of urgent necessity to give them more education on the line.

(6) Degree of success in establishment of grievance machinery, seniority clauses, research and planning committees.

Generally it has not yet been established, however, there are some which are in the course of its establishment, showing trends of organization of such and some unions have their union rule in which such is stipulated, but none of them are making use of the machinery.

Following is the list of their organs within our jurisdiction.

Grievance machinery	23 cases
Research and Planning Committee	47 cases
Seniority clauses	None

(7) Employment and unemployment status:

Status of collection of unemployment insurance.

A. Employment and unemployment status:

1. Employment.

Full-time	Male 326	Female 342	Total 668	
Temporary or daily	34,641	9,797	44,438	
Total	34,967	10,139	45,106	

2. Unemployment.

Number of employment reported.

Male 11,472 Female 5,175 Total 16,647

B. Status of collection of unemployment insurance.

1. Status of collection.

a. Decided amount of money to be collected	¥ 99,810,516.87
b. Collected amount of money	¥ 93,972,807.59
c. Not yet collected amount of money	¥ 5,837,709.28
d. Percentage of collection	94.15 %

2. Status of payment.

a. Paid amount of money	¥ 15,190,167.
b. Number of person received payment	4,729 person s
c. Aggregate number of person paid	104,557 "

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

(8) Number and type of cases before the labor relations committee, together with statement of disposition of cases.

A. Number of cases and type taken before the labor relations committee in March.

1. Number of case 1

2. Type Recommendation —— Personal reduction Tokiwa Sangyo Co. Ltd.

B. Number of cases and type continued from February.

1. Number of case 4

2. Type Recommendation —— Mediation of unpaid wages, Takara Agricultural Implement Co. Ltd.

Recommendation —— Withdrawal of discharge, Mutsumi plant Co. Ltd.

Recommendation —— Illegal labor action, Hitachi Plant of the Hitachi works Co. Ltd.

Recommendation —— Illegal labor action, Ibaraki Teachers and staff union.

(9) Statements of opinions of labor officials regarding trends, problem, and activities will be welcome.

A. Current trends of labor situation show troubles in the problems of business readjustment, delinquency in wage payment and wage raise, and these are recurring endlessly. Especially, that of deliquency in wage payment of small enterprisers is entailed from managerial difficulties and it embraces much danger of ruining together, so it is a matter of priority to be considered that both labor and management make efforts for mutually co-operation for the re-establishment of the business.

B. Nipping disputes in the bud or early settlement of these needs to give security of daily life through substantial raising of wages for laborers.

C. As to two of education disks which are distributed to the Labor Policy Section by the Labor Ministry which have not yet been fully used owing to having had no gramophone on hand, your Recommendation of its purchase to the Ministry is very much desired.

D. More enforcement of inspection for workshops of the unemployed are being planned to increase much more employment.

E. As to trends of March offensive, general union members have not showed much active attitude, however, some chief members of unions seem to make decision to go on strikes by leading workers to it without their true understanding in accordance with the central directive, while in the case of the Yamaichi Mine workers union, member of business staff accused the attitude of the chief members.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

However, generally labor activities seem formally being carried out under the revised Labor Rule and we think this is fruits of our guidance and advice.

i. Present status of the dispute:

Federation of All Japan Metal Mine Workers' Unions demanded the company enforcement of a new wage pay of ¥ 8,800.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

Afterwards, the Central Labor Relations Committee showed a recommedating plan to the management and the union which was rejected by both, and an indefinite period of strike was staged March 8 by the above union to carry through its demand, in accordance with the central directive.

J. After that, the protracted dispute demanding a ¥ 8,800 basepay which has been keeping thorny passage was finally settled on March 15 with an agreement of both sides through mediation of the Labor Ministry and the contents of the agreement signed informally is as follows.

Agreement:

1. To increasethe pay for the surface workers by 300-600 yen per month per capita for the wage from April to September, 1950.
2. The method of payment will be decided by discussion considering the situations of each enterprise concerned and as to the standard of the pay, it will be studied for decision by the end of June.
3. A temporary allowance of 500-2,000 yen will be paid to the workers to make early settlement of the problem before March, however, the date of the payment is by the 15th of April.

Thus the dispute started on Aug. 5, 1949 came to an end for once.
