GOVERNMENT PRINTING AGENCY — ENGLISH EDITION — 昭和二十一年十一月三十日　第三種郵便物認可

No. 1422　THURSDAY, DECEMBER 21, 1950　Price 28.00 *yen*

LAW

I hereby promulgate the Law concerning the Transfer from the General Account for the Purpose to Increase the Capital of the Foreign Exchange Special Account.

Signed: HIROHITO, Seal of the Emperor

This twenty-first day of the twelfth month of the twenty-fifth year of Showa (December 21, 1950)

Prime Minister
YOSHIDA Shigeru

Law No. 293

Law concerning the Transfer from the General Account for the Purpose to Increase the Capital of the Foreign Exchange Special Account

The Government is authorized to transfer, in the Fiscal Year 1950-51, an amount not exceeding 10,000,000,000 *yen*, from the General Account to the Foreign Exchange Special Account for the purpose to increase the Capital of the same Account.

Supplementary Provisions:

1. This Law shall come into force as from the day of its promulgation.
2. The Foreign Exchange Special Account Law (Law No. 227 of 1949) shall be partially amended as follows:

In Article 4, "Article 5, and the amount" shall be amended as "Article 5, the amount", and next to "the Supplementary Provisions", "and the amount transferred from the General Account in accordance with the provisions of the Law concerning the Transfer from the General Account for the Purpose to increase the Capital of the Foreign Exchange Special Account (Law No. 293 of 1950)" shall be added.

Prime Minister
YOSHIDA Shigeru
Minister of Finance
IKEDA Hayato

I hereby promulgate the Law for Partial Amendment to the Horse-Racing Law.

Signed: HIROHITO, Seal of the Emperor

This twenty-first day of the twelfth month of the twenty-fifth year of Showa (December 21, 1950)

Prime Minister
YOSHIDA Shigeru

Law No. 294

Law for Partial Amendment to the Horse-Racing Law

The Horse-Racing Law (Law No. 158 of 1948) shall be partially amended as follows:

In Article 2, "Chukyo" shall be added next to "Yokohama" and "eleven" shall be amended as "twelve."

Supplementary Provision:

This Law shall come into force as from the day of its promulgation.

Minister of Agriculture
and Forestry
HIROKAWA Kozen
Prime Minister
YOSHIDA Shigeru

CABINET ORDERS

I hereby promulgate the Cabinet Order for Partial Amendment to the Cabinet Order for Partial Amendments to the Enforcement Ordinance of the Agricultural Land Adjustment Law.

Signed: HIROHITO, Seal of the Emperor

This twenty-first day of the twelfth month of the twenty-fifth year of Showa (December 21, 1950)

Prime Minister
YOSHIDA Shigeru

Cabinet Order No. 361

Cabinet Order for Partial Amendment to the Cabinet Order for Partial Amendments to the Enforcement Ordinance of the Agricultural Land Adjustment Law

In accordance with the provision of Article 6 of the Supplementary Provisions of the Law for Partial Amendments to the Agricultural Land

Adjustment Law (Law No. 240 of 1947), the Cabinet establishes this Cabinet Order.

The Cabinet Order for Partial Amendments to the Enforcement Ordinance of the Agricultural Land Adjustment Law (Cabinet Order No. 35 of 1948) shall be amended as follows:

In Article 2 of the Supplementary Provisions, "December 31, 1950" shall be amended as "December 31, 1951".

Supplementary Provision:

This Cabinet Order shall come into force as from the day of its promulgation.

Minister of Agriculture
and Forestry
HIROKAWA Kozen
Prime Minister
YOSHIDA Shigeru

I hereby promulgate the Cabinet Order for Determination of the Method of Payment of the Compensation as Prescribed in Article 4 of the Law for Prevention of Exhaustion of Marine Resources.

Signed: HIROHITO, Seal of the Emperor

This twenty-first day of the twelfth month of the twenty-fifth year of Showa (December 21, 1950)

Prime Minister
YOSHIDA Shigeru

Cabinet Order No. 362

Cabinet Order for Determination of the Method of Payment of the Compensation as Prescribed in Article 4 of the Law for Prevention of Exhaustion of Marine Resources

In accordance with the provision of Article 4 of the Law for Prevention of Exhaustion of Marine Resources (Law No. 171 of 1950), the Cabinet establishes this Cabinet Order.

Article 1. The amount of compensation for the persons whose licenses of fisheries have been cancelled by the Ministry of Agriculture and Forestry Notification No. 197 of 1950 shall be paid in full in the fiscal year 1950-51.

Article 2. Any person who intends to receive the payment of compensation shall file an application for such payment with the Minister of Agriculture and Forestry as determined by the Minister of Agriculture and Forestry.

Supplementary Provision:

This Cabinet Order shall come into force as from the day of its promulgation.

Minister of Agriculture
and Forestry
HIROKAWA Kozen
Prime Minister
YOSHIDA Shigeru

MINISTERIAL ORDINANCE

Ministry of Transportation Ordinance No. 95

December 21, 1950

The Ministerial Ordinance for Partial Amendment to the Ministerial Ordinance to designate Personnel in connection with the Entrusting of the Registration of Immovables shall be established as follows:

Minister of Transportation
YAMAZAKI Takeshi

Ministerial Ordinance for Partial Amendment to the Ministerial Ordinance to designate Personnel in connection with the Entrusting of the Registration of Immovables

The Ministerial Ordinance to designate Personnel in connection with the Entrusting of the Registration of Immovables (Ministry of Transportation Ordinance No. 15 of 1950) shall be partially amended as follows:

"Director of the Civil Aeronautics Agency shall be added next to "Director of the High Marine Accidents Inquiry Agency."

Supplementary Provision:

This Ministerial Ordinance shall come into force as from the day of its promulgation and shall apply as from December 12, 1950.

RULES AND REGULATIONS

Radio Regulatory Commission Regulation No. 22

For the enforcement of the Radio Law (Law No. 131 of 1950), the Regulations for Partial Amendments to the Radio Station Licensing Procedure Regulations shall be established on December 14, 1950, as follows in accordance with the provision of Article 17 of the Radio Regulatory Commission Establishment Law (Law No. 133 of 1950); and shall hereby be promulgated:

Chairman of Radio
Regulatory Commission
TOMIYASU Kenji

Regulations for Partial Amendments to the Radio Station Licensing Procedure Regulations

The Radio Station Licensing Procedure Regulations (Radio Regulatory Commission Regulations No. 15 of 1950) shall be partially amended as follows:

Article 2 shall be amended as follows:

(Unit of License)

Article 2. The application for the license of a radio station shall be made for each kind of radio station as mentioned below and for each place of installation of transmitting equipment (for each moving object for a land mobile station, and for each equipmept for portable equipment):

(1) 1) Broadcast station
2) Broadcast relaying station
(2) 1) Emergency station
2) Simple radio station
3) Meteorological aids station
4) Standard frequency station
5) Special service station
(3) 1) Aeronautical fixed station
2) Amateur station
3) Fixed station (only those not coming under 1) and 2))
(4) 1) Coast station
2) Base station
3) Aeronautical station
4) Land station (only those not coming under 1) to 3))
(5) 1) Ship station
2) Land mobile station
3) Aircraft station
4) Mobile station (only those not coming under 1) to 3))
(6) 1) Radio direction-finding station
2) Radiobeacon station
3) Radiolocation station (this station may be substituted for stations mentioned in 1) or 2))
(7) Experimental station

2 In the case of the preceding paragraph, for the station which is intended to conduct the development test for the services of the stations mentioned in every item of the same paragraph (item (7) excluded), the application for license shall be made as a development test station.

3 No application shall be made for the license for a single station intended for conducting concurrently services of stations of two or more kinds. However, this shall not apply to the cases mentioned below:

(1) Where the stations mentioned in paragraph 1 items (4) and (5) concurrently conduct the radiolocation services;
(2) Where the special services is conducted concurrently.

4 For the receiving equipment directly connected, in function, with the transmitting equipment prescribed in Article 5 of the Radio Law Enforcement Regulations, no application shall be made for the license of such receiving equipment only.

5 The application for the license of a broadcast station conducting the standard broadcasting shall, besides satisfying the provision of paragraph 1, be made for each kind of radio stations as mentioned below and for each number of frequencies desired:

(1) Full time broadcast station;
(2) Day-time broadcast station;
(3) Night-time broadcast station;
(4) Midnight broadcast station;
(5) Specified hour broadcast station.

Article 6 shall be amended as follows:

(Enterprises Plan of Broadcast Station)

Article 6. In the enterprise plan of a broadcast station mentioned in Article 6 paragraph 2 of the Law, the following matters shall be included:

(1) Management form;
(2) Amount of capital, amount of capital subscribed, or amount of finds;
(3) Method of raising funds;
(4) Principal subscribers and amount of individual subscription;
(5) Management policy (principal aim of the broadcasting, matters to be broadcast—typical pattern of program per week—, sphere of receivers aimed at, distinction of whether or not the broadcasting is the principal business or subsidiary one, future plan for the enterprise and other policies for management);
(6) Composition of controlling power over the management.

Article 7 shall be amended as follows:

(Service Area)

Article 7. The service area mentioned in Article 16 paragraph 2 item (4) of the Law shall be indicated in accordance with the division of To, Do, Fu, Ken, Shi, Gun, etc. and on the map; the total number of households and the anticipated number of households to receive the broadcasting in the area shall be stated.

2 For a broadcast station conducting the standard broadcasting, the following matters shall, in addition to those mentioned in the preceding paragraph, be stated in accordance with the method of indication as mentioned in the preceding paragraph:

(1) The blanket area of the station and the number of households included therein;
(2) The area in which the field intensity of the station is ten times stronger than those of other broadcast stations and which is included in the service area of other stations, and the number of households included therein;
(3) Part of the service area of the station included in the service area of other stations, and the number of households included therein.

Next to Article 10, shall be added the following Article as Article 10-2:

(Designation of Antenna Power)

Article 10-(2). The designation of antenna power mentioned in Article 8 paragraph 1 item (4) of the Law shall be done in the following classification:

(1) Broadcast station and radiobeacon station:
A single value of antenna power which the station must use at the time of transmission;

(2) Other radio stations:
Maximum value of antenna power available for the radio station at the time of transmission.

In Article 12, "mentioned in Article 9 paragraph 1 of the Law is to be applied for" shall be amended as "is to be applied for in accordance with the provision of Article 9 paragraph 1 or paragraph 2 of the same Article of the Law,"; "a written application" shall be amended as "a written application or notification"; and the following shall be added as paragraph 2:

2 The provisions of Article 8 paragraph 1 and paragraph 2 of the same Article shall apply mutatis mutandis to the notification mentioned in the preceding paragraph.

In Article 13, proviso shall be deleted.

Article 25 shall be amended as follows:

Article 25. The provision of Article 12 shall apply mutatis mutandis to the application for approval, or notification, of the alteration work of radio equipment made in accordance with the provisions of Article 17 paragraph 1 and paragraph 2 of the same Article of the Law, or to the application for change of the designation made in accordance with the provision of Article 19 of the Law.

2 The provision of Article 13 shall apply mutatis mutandis to the case where the inspection under the provision of Article 18 of the Law is received.

Article 26 shall be amended as follows:

Article 26. A person who applies for the license mentioned in Article 100 paragraph 1 of the Law shall, according to the classification mentioned in the following items, present to the Radio Regulatory Commission a written application and documents attached thereto in the forms as shown in Annex VII:

(1) Equipment mentioned in Article 100 paragraph 1 item (1) of the Law:
In accordance with the classification as mentioned in Article 44 paragraph 1 of the Radio Law Enforcement Regulations, and for each communication system;

(2) Equipment mentioned in Article 100 paragraph 1 item (2) of the Law:
In accordance with the classification mentioned in Article 45 of the Radio Law Enforcement Regulations, and for each place of installation of the equipment.

In Annex I, "Address" shall be amended as "Address (for a juridical person, location of its head or main office)"; "Name (or title)" as "Name (for a juridical person, trade name or title)."

In Annex II "1. Radio Station to be Established on Land (Broadcast Station excluded)" "(10) Other information," 2) shall be made 4); and next to 1) shall be added the following:

2) In case the effective term of licence under the provision of Article 9 of the Radio Law Enforcement Regulations is desired, such term shall be stated;

3) For frequency measuring equipment not required to be provided under the provision of Article 14 item (3) of the Radio Law Enforcement Regulations, the name and call sign of the station by which the operating frequencies are to be measured shall be stated;

In Annex II "1. Radio Station to be Established on Land (Broadcast Station excluded)" "(10) Other information," Note 2 shall be amended as follows:

2. For a land mobile station, the kind (An automobile, locomotive, portable, etc.), name and number, and extent of movable area of the moving object shall be mentioned together with the place of custody. However, if it is difficult to specify the name and number of the moving object, the mention thereof may be omitted.

In Annex II "2. Ship Station" "(3) Person with whom to communicate and matters for communication," 2) shall be amended as follows:

2) Matters for communication:
(Contents of communication, such as communication relative to navigation, communication relative to the transportation of passengers, communication relative to the transportation of cargo, fishery communication, etc., shall be enumerated).

In Annex II "2. Ship Station" "(11) Other information," 3) shall be made 4); and next to 2) shall be added the following:

4) For frequency measuring equipment not required to be provided under the provision of Article 14 item (3) of the Radio Law Enforcement Regulations, the name and call sign of the station by which the operating frequencies are to measured shall be stated;

Annex II "3. Broadcast Station" shall be amended as follows:

Matters concerning Radio Station

(1) Purpose:
"For the purpose of conducting the standard broadcast service (full time) or standard broadcast service (day-time), standard broadcast service (night-time), standard broadcast service (midnight), standard broadcast service (specified hour), HF broadcast service, VHF broadcast service, television broadcast service, facsimile broadcast service or international broadcast service)":

(2) Reason for establishment:
(To be stated in detail as far as possible);

(3) Matters to be broadcast:
News matters (news, news comments, weather forecasts, meteorological information, missing persons, intelligence of employment, ration news, economical news, market reports, labor news, program announcement, etc.);
Social matters (lectures, debate, round-the-table talks, inquiries into social affairs, on-the-street recording, news editorials, campaign speeches, industrial hour, etc.)
Cultural matters (book reviews, language course, science course, cultural course, ladies' hour, etc.)
Educational matters (school broadcasting, teachers' hour, PTA's hour, baby's hour, students' hour, etc.)
Religions (religion news, religions comment, religions talk, buddhism hours, Christian hour, Shinto hour, etc.)
Musical matters (national music, foreign music, opera, etc.)
Plays and amusements (radio plays, stories, recitals, comic talks, story-telling, "naniwa-bushi," "rakugo," vaudeville-relaying, stage-relaying, quiz show, "igo" and "shogi" hour, etc.)
Sport matters (field event, sport news, physical culture hour, sport show, etc.)
Advertisements by spot announcement;

(4) Service area:
1) Broadcast station conducting standard broadcasting:
a) Service area, etc.:
Notes:
1. For the service area, if the service area covers the whole of one To, Fu, Ken or Shicho (the unit of service area for Hokkaido, Shicho shall be used), it shall be stated in such a manner as ".....Ken (To, Fu or Shicho)" taking To, Fu, Ken or Shicho as the unit; if the service area covers a part of one To, Fu, Ken or Shicho, it shall be stated in such a manner as ".....Gun, ...Shi, ...Ku or part of.....Gun" or ".....Shi, ...Ku, ...Gun or part of..... Gun excluded" taking Gun, Shi or Ku as the unit.
2. The service area and the areas mentioned in Article 7 paragraph 2 items (2) and (3) shall be indicated in a 1/200,000 scaled or more precise map.
3. The blanket area shall also be indicated in a 1/50,000 scaled or more precise map showing the position of transmitting antenna thereon.

b) Number of households in the area:
Note:
If the service area covers the whole of To, Fu, Ken or Shicho, the number of households shall be stated taking To, Fu, Ken or Shicho taken as the unit; if the service area covers a part of To, Fu, Ken or Shicho, it shall be stated taking Gun, Shi or Ku as the unit.
The number of households mentioned in every item of Article 7 paragraph 2 shall also be stated according to the above.

c) Anticipated number of households to receive the broadcasting in the service area:
Note:
The number of households within the service area shall be stated according to the note to b).

2) Other broadcast stations:
Note:
The service area and the total number of households and anticipated number of households to receive the broadcasting in the service area shall be stated in an appropriate form.

(5) Place of installation of radio equipment:
1) Transmitting station:
a) No....., ...-machi, ...-ken, ...-shi, ...-gun, ...-ken (To, Do or Fu)
(Japanese *Kana* to be attached)
b) Position of transmitting antenna (to be indicated in a 1/50,000 scaled or more precise map)
E degrees minutes seconds
N " " "

2) Studio:
No....., ...-machi, ...-ken, ...shi, ...-gun, ...-ken (To, Do or Fu)
(Japanese *Kana* to be attached)

3) Receiving station:
No....., ...-machi, ...-ken, ...shi, ...-gun, ...ken (To, Do or Fu)
(Japanese *Kana* to be attached)

(6) Type of emission and range of frequency desired and antenna power:
1) Type of emission (to be expressed in symbols such as A3, F3, etc. mentioned in Article 4 of the Radio Equipment Regulations):
2) Range of frequency desired:
3) Desired antenna power: .....W or KW

(7) Permitted operating hours desired:
1) Permitted operating hours:
From.....a.m. (p.m.) to.....a.m. (p.m.)

2) Broadcast hours:
From.....(month) to.....(month)
begins at.....a.m. (p.m.)
ends at.....a.m. (p.m.)
From.....(month) to.....(month)
begins at.....a.m. (p.m.)
ends at.....a.m. (p.m.)

Notes:
1. The permitted operating hours shall be stated only for a specified hour broadcast station conducting the standard broadcasting and a broadcast station conducting broadcasting other than standard broadcasting.
2. If the broadcast hours are not the safe throughout the year, such hours shall be stated seasonally or periodically.
3. If there are hours not used for broadcasting between the beginning and end of broadcasting, such hours shall be added.

(8) Expected date of completion of construction work of radio equipment (expected period for completion of construction work counted from the day of grant of construction permit shall also be added):
Date (.....months from the day of grant of construction permit)

(9) Method of disbursement of construction expenses for radio equipment and running expenses of radio station (broadcast station):

1) Construction expenses (inclusive of equipment expenses, material expenses, personnel expenses, etc.):

Total:	¥
Items:	
i Transmitting station expenses	¥
Land, buildings	¥
Antenna and earth system	¥
Transmitting equipment (transmitter, its appurtenances, vacuum tubes, etc.)	¥
Speech input equipment	¥
Power source epuipment	¥
Frequency monitor and measuring instruments	¥
Others	¥
ii Studio expenses:	¥
Land, buildings	¥
Studio equipment	¥
Speech input equipment	¥
Recording and reproduction equipment	¥
Others	¥
iii Receiving station expensed:	¥
Land, buildings	¥
Receiving equipment	¥
Others	¥

2) Running expenses:

Total:	¥
Items:	
i Broadcasting expenses:	¥
Personnel expenses	¥
Programming expenses	¥
Phonograph records and other materials expenses	¥
Sundry expenses	¥
ii Technical expenses:	¥
Personnel expenses	¥
Technical maintenance expenses	¥
Communication facilities rent	¥
Sundry expenses	¥
iii Business expenses	¥
Personnel expenses	¥
Commission for advertising broadcasting	¥
Sundry expenses	¥
iv Administrative expenses	¥
Personnel expenses	¥
Sundry expenses	¥
v Interests	¥
vi Less reserves for depreciation	¥
vii Others	¥

3) Method of disbursement: ¥

i Construction expenses	¥
Capital, capital subscribed or funds	¥
Bonds	¥
Loans	¥
Others	¥
ii Running expenses	¥
Broadcast enterprise revenues	¥
Collateral services income	¥
Others	¥

Note:
Method of disbursement of construction expenses for radio equipment and running expenses of a radio station (broadcast station) shall be prepared after the example of the above classification.

(10) Enterprise plan:

1) Management form (individual management, joint-stock company, juridical person for public interest, local public entity, etc.);

2) Amount of capital, amount of capital subscribed, or amount of funds;

Notes:
1. In the case of a joint-stock company, the total number of stocks, kind of stocks, number of stocks for each kind, face value and issue-price of stocks shall be stated and the total number of stocks to be under taken by the promoters shall be added.
2. In the case of a corporation other than joint-stock company, the kind and price of property which is the object of the capital or the subscription is formed shall be stated.
3. In the case of a juridical person for public interest, the amount per unit of subscription or contribution and the number of units shall be stated.

3) Method of raising funds (the method and prospects of raising the capital, capital subscribed or funds, bonds, loans, etc. shall be stated);

4) Principal subscribers and amount subscribed:

Name	Address	Amount	Kind	Remarks

Notes:
1. For "Name," the trade name or title for a juridical person, and for "Address," the location of the head or main office for a juridical person, shall be stated. (the same hereinafter in this paragraph.)
2. To the name and address Japanese *Kana* shall be attached. (hereinafter the same in this paragraph.)
3. For principal subscribers, persons who finance the sum not less than one-hundredth of the amount of capital, capital subscribed or funds shall be stated.
4. If the subscriber is a juridical person, the name of the person representing it shall also be added.
5. If the subscriber is not a Japanese national, his nationality shall be stated in the column "Remarks."
6. In the column "Kind," the kind of stock or the classification of subscription, contribution, etc. made by the membership, etc. shall be stated.

5) Management policy:
a) Principal aim of the broadcasting;
b) Matters to be broadcast (tipical pattern of program per week);
c) Sphere of receivers aimed at;
d) Distinction of whether the broadcasting is the principal business or subsidiary one;
e) Future plan for the enterprise and other policies for management;

6) Composition of controlling power over the management:
a) Officers:

Name	Department in his charge	Additional post	Pecuniary concern interested in	Remarks

Notes:
1. The officers, for a juridical person; prospective officers, or candidates for officer, for a juridical person under formation, shall be stated.
2. If the officer, prospective officer or candidate for officer holds an additional post of officer or personnel of other enterprise, the additional post and his pecuniary concern in with such enterprise shall be stated.

b) Persons who have votes:

Name	Address	Number of votes	Percentage to total votes	Remarks

Note: Those who have one-tenth or more of the total number of votes shall be stated.

103384

(11) Revenues and expenditures estimate of enterprise (with adequate explanation):

1) Revenues:

Business revenues
- Proceeds of sales of broadcast hours
- Programming charges
- Proceeds of sales of programs
- Other revenues

Other revenues

Collateral business revenues
- Publishing revenues
- Entertainments revenues
- Other revenues

2) Expenditures:

Operating expenditures
- Broadcasting expenses
- Technical expenses
- Business expenses
- Administrative expenses

Collateral business expenditures

Interests paid

Depreciation

Others

3) Profits:

Notes:

1. The revenues and expenditures estimate of enterprise shall be prepared after the above example.
2. The revenues and expenditures estimate for three years to come shall be stated for each year.
3. The sources of revenues shall be explained.

(12) Anticipated principal utilizer of commercial program:

Name	Address	Estimated sum of utilizing commercial program per year	Remarks

Notes:

1. If the anticipated utilizer is a juridical person, the name of the person representing it shall also be stated.
2. If the anticipated utilizer is or will be a stockholder, such fact shall be stated.

(13) Expected date of operation:
(Date)

(14) Other information:

1) It shall be clarified that the person does not come under Article 5 of the Radio Law;
2) If the applicant is a juridical person, the date of its establishment and the location of the head or main office shall be stated and the articles of corporation shall be attached separately;
3) If the person who applies for the license is a juridical person under formation, the names, addresses, permanent domiciles, occupations and brief past records of the applicant and promoters shall be stated;
4) If the applicant is an individual, his permanent domicile, date of birth, and whether or not he is a quasi-incompetent person, incompetent person or bankrupt shall be stated;
5) The radio code, if any, shall be attached separately;
6) The name of the person responsible for liaison with regard to the application and the address for communication (Japanese *Kana* to be attached) shall be stated.

Annex III shall be amended as follows:

Annex III (Refer to Article 5)

I. Scope of Construction Design of Radio Equipment

1. Transmitting equipment:

(1) General:
1) Type of emission and range of frequency, capable of transmitting;
2) Communication system;
3) Effective communication range.

(2) Transmitter:
1) Rated power output (per type of emission; in case of the ship station, per type of emission and per representing frequency);
2) Power supply equipment: Kind; A.C. or D.C.; quantity; capacity; voltage; current; number of phases; and frequency;
3) Oscillation system and frequency;
4) Modulation system (Keying system included) and maximum modulation degree (maximum modulation degree is required only for those of type of emission A2);
5) Antenna power decreasing device: System and decreasing percentage;
6) Rectifier: Rectifier tube or other rectifying apparatus (name and quantity);
7) Vacuum tube: Tubes used in oscillator, intermediate, modulator, stabilizer, and the last stage (name and quantity; in this case, for tubes in the last stage, plate power input and voltage included);
8) Adjustment device: Kind and quantity;
9) Cooling device: Kind and system.

(3) Transmitting antenna system:
1) Antenna:
a) Type, composition, length and frequency of antenna;
b) Kind, type and height of antenna pole.
2) Feeder:
a) Kind, kind of wire, length, and matching system, of feeder;
b) Kind and height of feeder pole.
3) Type of earth system, if any.

2. Receiving equipment:

(1) General:
1) Receivable range of frequency;
2) Receiving system.

(2) Receiving set:
1) Power supply equipment (only for emergency station and compulsory radiotelegraph station): Kind; A.C. or D.C.; quantity; capacity; voltage; and current;
2) Vacuum tubes for high frequency, intermediate frequency and audio frequency stages; rectifier tubes for rectifier unit (name and quantity);
3) If local oscillator is crystal-controlled, local oscillation frequency and intermediate frequency.

(3) Reciving antenna system: Same as transmitting antenna system.

3. Special equipment:

(1) Frequency measureing equipment: Type or name; type test number or accuracy;
(2) Radio direction-finder: Type or name; type test number;
(3) Automatic alarm receiver: Type or name; type test number;
(4) Radar:
1) Type or name, frequency band, centre frequency, power output, pulse width and repeating frequency;
2) Maximum and minimum measurable distance and accuracy of measured distance value;
3) Antenna revolution speed; angle width of main beam in horizontal phase; accuracy of measured direction value;
4) Vacuum tubes (name and quantity);
5) Antenna system: (Same as transmitting antenna);
6) Power supply equipment: Kind; A.C. or D.C., quantity; capacity; voltage; current; number of phases and frequency.

(5) Contact line: Sections, distances and transmission system.

4. Other matters prescribed in Chapter III (Radio Equipment) of the Radio Law.

II. Form of Construction Design of Radio Equipment

A. Form of construction design of radio equipment of other station than broadcast station (those in international broadcasting service excluded)

Construction Design

1. Transmitting equipment:

(1) General:

1) Type of emission and range of frequency, capoble of transmitting:

Type	Range of frequency	Remarks
(Symbol)	000 kc (Mc) to 000 kc (Mc)	

2) Communication system:

System	Remarks
(Example) Simplex system Duplex system One way telephone system Two way telephone system (Vodas system) Multiple channel communication system Simultaneous transmission system Others	

3) Effective communication range:

Distance (kilometre)	Remarks
(Example) (For coast station and ship station operating on frequency 500 kc, distance in day-time operated on frequency 500 kc; in such case, it shall be stated to that effect.)	

(2) Transmitter:

1) Rated power output of transmitter (per type of emission; in case of the ship station, per type of emission and per representing frequency to be denoted in KW in case the power is more than 1 KW);

2) Power supply equipment:

Item	AC or DC	Quantity	Capacity	Voltage	Current	Phase and Frequency	Used for	Remarks
(Example) Rower purchased Engine Generater Voltage regulator Main transformer Battery Charger Convertor, etc.			Contracted power					

Note:

In case power is used in common with other services than the service of radio station, the ratio of power used shall be stated in the Remarks.

3) Oscillation system and frequency:

System	Frequency	Remarks
(Example) Crystal oscillator, master oscillator, christron oscillator, etc.		

Note:

In case crystal oscillator is used, its type and multiplication method of the frequency shall be stated in the Remarks.

4) Modulation system and maximum modulation degree:

System	Maximum modulation degree	Remarks
(Example) Last stage plate (ripple), Last stage supressor grid, reactance tube, absorbing tube, etc.		

Notes:

1. Modulating frequency, for A2 emission; and maximum operating communication speed, for radiotelegraphy, shall be stated in the Remarks.
2. For multiplex radiotelephony, its maximum modulating frequency shall be stated.

5) Antenna power decreasing system and decreasing percentage:

System	Maximum decreasing percentage	Remarks
(Example) Transformer primary, transformer secondary, last stage tube, etc.		

6) Rectifier:

Rectifier tube		Other apparatus	Remarks
Name	Quantity		
		(Example) Selen rectifier, oxide-copper rectifier, etc.	

7) Vacuum tube:

	Vacuum tube		Remarks
	Name	Quantity	
(Example) Oscillator Intermediate Modulator Frequency stabilizer			

		Plate		Remarks
		Power input	Voltage	
Last stage				

Note:

Power input and voltage of the plate shall be stated in the designed values corresponding to the antenna power desired for each type of emission and frequency. However, in case the value at the desired antenna power is known, such value shall be stated.

8) Signal input adjusting equipment:

Kind	Quantity		Remarks
	In use	Spare	
(Example) Regulating device panel, vodas, directional characteristic monitoring device, etc.			

9) Cooling device:

Kind	System	Remarks
(Example) Water-cooling, forced air-cooling		

10) Name or title of manufacturer of transmitter and type or name of transmitter (to be left blank, if not decided).

(3) Transmitting antnna system:

1) Antenna:

Type	Composition	Length (m)	Frequency	Height (m)	No. of wires	Remarks

Notes:

1. For ship station to be operated on frequency 500 kc and station to be operated on frequency above 30 Mc, the height shall be denoted in height above the sea-level (for ship station, height above the maximum load line).
2. The length shall be stated for the horizontal, vertical (inclined) and load-in parts respectively.

2) Feeder:

Kind	Kind of wire	Length (m)	Matching system	Remarks

3) Antenna pole and feeder pole:

Item	Kind	Type	Height (m)	No. of poles	Remarks
Antenna pole	(Example) Iron tower, wooden pole, etc.	(Including method of fixing stays)			
Feeder pole					

Note:

The height shall be for the height from the ground level; the height from the ground level of the base shall be stated in the Remarks.

4) Earth system:

5) Dummy antenna:

Kind	Capacity	Quantity	Remarks

2. Receiving equipment:

(1) General:

1) Receivable range of frequency: From 000 kc (Mc) to 000 kc (Mc);

2) Receiving system: (Example) Autodyne system, superheterodyne system, etc.

(2) Receiving set:

1) Power supply equipment (shall be stated in the same manner as the transmitting equipment);

2) Vacuum tube (rectifier tube for rectifier unit):

Item	Name	Quantity	Remarks
(Example) High frequency stage Oscillator stage Intermediate frequency stage Audio frequency stage Rectifier stage, etc.			

3) Local oscillator frequency and intermediat frequency (kc).

(3) Receiving antenna system (same as transmitting antenna system).

3. Special equipment:

(1) Frequency measuring equipment:

Type or name	Type Test No.	Certified Date	Manufacturer Measurable range of frequency	Error (accuracy)	Quantity	Remarks

Note:

The type test number and certified date shall be those given in accordance with the Type Test Regulations. The same shall apply to the following (2).

(2) Radio direction-finder, automatic alarm receiver, etc.:

Type or name	Type Test No.	Certified Date	Manufacturer	Quantity	Remarks

Note:

The radio direction-finder not certified in accordance with the Type Test Regulations shall follow the form as specified for the receiving equipment.

(3) Radar:

1)

Type or name	Frequency band	Centre frequency	Rated power output	Pulse width	Repeating frequency	Manufacturer	Remarks

2) Maximum and minimum measurable distance, and accuracy of measured distance value;

3) Antenna revolution speed and angle width of main beam in horizontal phase; accuracy of measured direction value;

4) Vacuum tube shall be stated in the form as specified for transmitting equipment and receiving equipment);

5) Antenna system (to be stated in the form as specified for the transmitting antenna system);

6) Power supply equipment;

Item	A.C. or D.C.	Quantity	Capacity	Voltage	Current	Phase and Frequency	Remarks

(4) Contact line:

Section	Distance	No. of Circuits	Transmission System	Remarks

(5) Meters and spare parts (it shall be stated that the meters and spare parts prescribed in Articles 30 and 31 of the Radio Law Enforcement Regulations are provided; names and quantities of respective articles are not required);

(6) Emergency lamps mentioned in Article 33 paragraph 1 of the Radio Law: .....lamps .....condle-power (kind of light source shall be added);

(7) Contact equipment mentioned in Article 33 paragraph 2 of the Radio Law (classification of voice tube, telephone, etc. shall be stated).

4. For devices of radio equipment the passed the type test under the Radio Apparatus Type Test Regulations, in addition to those mentioned in paragraph 3, (1), (2) and (3), the following matters shall be stated for the devices; in this case, particulars of the construction design of the devices are not required.

Type or name	Type Test No.	Certified Date	Manufacturer	Remarks

5. As for other matters, it shall be stated that the construction design satisfies the conditions provided for in Chapter III (Radio Equipment) of the Radio Law.

6. Drawings to be attached:
(1) Plan of site (vicinity of antenna and building);
(2) Apparatus arrangement plan (ground-plan of building); for ship, plan and section of ship showing the positions of antenna, operating room, equipment room, battery room, etc.;
(3) Schematic diagram of power supply;
(4) Schematic diagram of transmitting equipment;
(5) Schematic diagram of receiving equipment;
(6) Drawing showing the shape and dimension of antenna;
(7) Perspective drawing (in case frequencies above 30,000 kc are used);
(8) Connection diagram of power supply;
(9) Connection diagram of transmitter;
(10) Connection diagram of receiving set;
(11) Connection diagram of radio direction-finder (those of the type that passed the type test under the Radio Apparatus Type Test Regulations may be omitted);
(12) List of constant value of circuit (those of the type that passed the type test under the Radio Apparatus Type Test Regulations may be omitted).

Notes:
1. Diagrams mentioned in (8) and its succeeding numbers may be presented during the period between the day of grant of construction permit and the day of inspection after the completion of construction work.
2. For a simple radio station, those listed in (3), (4), (8), (9), (10) and (12) of the attached drawings mentioned in 6 may be omitted.

B. Form of construction design of radio equipment of broadcast station (those in international broadcasting service excluded)

Construction Design

1. Transmitting equipment:
(1) Type of emission and range of frequency, capable of transmitting:
(2) Transmitter:
1) Rated power output of transmitter (same as Form A);
2) Power supply equipment (same as Form A);

Notes:
1. In case the power is purchased, number of power supply lines and the name of supplier shall be stated in addition.
2. Number of main transformers and voltage regulators regularly used and spares thereof shall be stated.

3) Oscillation system and frequency (same as Form A)

Note:
Number of oscillators (both in regular use and in reserve) shall be stated.

4) Modulation system (same as Form A);
5) Rectifier (same as Form A);

Noté:
For main plate rectifier, number of phases and number of sets (in regular use and in reserve) shall be stated; number of tubes (in regular use and in reserve) shall be stated.

6) Vacuum tube (same as Form A);
7) Speech input equipment:
a) Amplifier: Kind quantity (regular use and reserve);
b) Volume controller: quantity (regular use and reserve);
c) Volume indicator: quantity (regular use and reserve);

Notes:
1. Those for field broadcasting shall be excluded.
2. For broadcast station equipped with two or more studios, the number shall be mentioned for the main control room and sub-control room of each studio.

8) Cooling device (same as Form A).

(3) Transmitting antenna system (same as Form A):

Notes:
1. For those equipped with double feeder, the system thereof shall be stated.

2. For antenna poles, distance between them shall be added.
3. For earth system, length and number of wires, or area and number of units shall be added.

2. Receiving equipment (same as Form A):

3. Special equipment:
(1) Frequency measuring equipment (same as Form A):
(2) Relaying equipment:
1) Field broadcasting equipment:
Amplifier: Kind quantity;
2) Contact line (same as Form A):

Note:
Number of spare contact lines and number of contact lines for communication shall be added.

4. As for other matters, it shall be stated that the construction design satisfies the conditions provided for in Chapter III (Radio Equipment) of the Radio Law.

5. Drawings to be attached:
(1) Map showing the place of installation of apparatus (1/50,000);
(2) Sketch showing arrangement of facilities in the compound;
(3) Apparatus arrangement plan (ground-plan of building);
(4) Schematic diagram of power supply;
(5) Schematic diagram of transmitter;
(6) Diagram showing composition of antenna (including down-lead);
(7) Diagram showing construction of earth system;
(8) Connection diagram of power supply;
(9) Connection diagram of transmitter (circuit constant shall be stated);
(10) Connection diagram of speech input equipment.

Note:
Diagrams mentioned in (8) and its succeeding numbers may be presented during the period between the day of grant of construction permit and the day of inspection after the completion of construction work.

In Annex IV "I. Application Form," "Address" shall be amended as "Address (for a juridical person, location of its head or main office)"; "Name (or title)" shall be amended as "Name (for a juridical person, trade name of title)."

In Annex IV "II. Documents to be attached" "1. Radio station to be established on land (broadcast station excepted)," item (7) shall be made item (10); and the numbering of its succeeding items shall be moved down by one; and next to item (6) shall be added the following three items:

(7) Range of frequency desired;
(8) Antenna power desired;
(9) Permitted operating hours desired (in case the operation is not carried on continuously for the whole permitted operating hours, items for the hours to be used continuously shall be added).

In Annex IV "II. Documents to be attached," "2. Broadcast station" shall be amended as follows:

2. Broadcast station:
(1) Number of license;
(2) Date of license;
(3) Date of expiration of effective terms of license;
(4) Name of radio station;
(5) Kind of radio station (broadcast station conducting the standard broadcasting (full time), broadcast station conducting the standard broadcasting (night-time), broadcast station conducting the HF broadcasting, etc.);
(6) Reason for continued license (to be stated in detail as far as possible);
(7) Range of frequency desired;
(8) Antenna power desired;
(9) Permitted operating hours desired:
1) Permitted operating hours;
2) Broadcast hours.

(10) Operating expenses of radio station (broadcast station) and method of disbursement thereof;
(11) Service area;
(12) Enterprise plan:
1) Management form;
2) Amount of capital, amount of capital subscribed, or amount of funds;
3) Principal subscribers and amount subscribed;
4) Management policy:
a) Main objective of the broadcasting;
b) Matters to be broadcast—typical pattern of program per week;
c) Sphere of receivers aimed at;
d) Distinction of whether the broadcasting is the principal business or subsidiary one;
e) Future plan for the enterprise and other policies for management.
5) Composition of controlling power over the management.
(13) Revenue and expenditure estimate of enterprise (with adequate explanation);
(14) Outline of service rendered and that of income and expenditure during the effective term of license:
1) Justification shall be required that the programming satisfies Article 3 items (4) to (8) inclusive, or Article 4 items (1) to (3) inclusive of the Basic Standards for the Establishment of Broadcast Stations;
2) Following matters on a daily average concerning matters to be broadcast for six months before application (expressed in percentage):
a) Broadcast hours per broadcast matter;
b) Ratio of hours for commercial program and those for other programs;
c) Ratio of hours for relaying other broadcast stations and other broadcast hours;
d) Other outlined information concerning the enterprise.
3) Outline of revenues and expenditures (principal sponsors of commercial program shall be stated for information).

Note:
Details of the matters shall be stated referring to the provisions of "item (3) Broadcast station" of Annex II of these Regulations.

In Annex IV "II. Documents to be attached" "3. Ship station," item (7) shall be made item (10); and the numbering of its succeeding items shall be moved down by one; and next to item (6) shall be added the following three items:

(7) Range of frequency desired;
(3) Antenna power desired;
(9) Permitted operating hours desired:
From (time) to (time).

In the form "1. To be inssued to radio station to be established or land (broadcast station excluded)" of Annex V, the sub-column "Antenna power" shall be shifted next to the sub-column "Type of emission and frequency."

In the form "2. To be issued to broadcast station" of Annex V, the snb-column "Antenna power" shall be shifted next to the sub-column "Type of emission and frequency."

In the form "3. To be issued to ship station" of Annex V, "Main equipment shall be amended as "Main apparatus"; "Emergency equipment" shall be amended as "Emergency apparatus"; next to the column "Emergency equipment," the column "special equipment" shall be added with the same sub-columns as those of "Emergency equipment"; sub-column "principal port of mooring" shall be added in the column "place of installation of radio equipment"; sub-column "Compulsory operating hours" shall be added in the column "Permitted operating hours"; the sub-column "Antenna power" in the columns "Main equipment" and "Emergency equipment" shall be shifted next to sub-column "Type of emission and frequency," respectively.

Annex VI shall be amended as follows:

Annex VI. (Refer of Article 22)

No.	Radio Station License Proof		
Date and number of license			
Licensee			
Kind of radio station			
Place of installation of radio equipment			
Call sign		Call name	
SCAP registered number			

This to certify that the abovementioned radio station was granted the license in accordance with the provision of Article 12 of the Radio Law.

(Date)

Radio Regulatory Commission (Seal)

In Annex VII "I. Application form:", "Address" shall be amended as "Address (for a juridical person, location of its head or main office)"; "Name (or title)" shall be amended as "Name (for a juridical person, trade name or title)."

In Annex VII, "II. Documents to be attached" shall be amended as follows:

II. Documents to be attached:

1. In the case where the equipment mentiond in Article 100 paragraph 1 item (1) of the Radio Law is to be established:

(1) Purpose of establishment;

(2) Place of installation of equipment (for terminal station and relay station):

(Example)

Equipment No. 1 (Terminal station) (Administrative jurisdiction)
Equipment No. 2 (Relay station) (Administrative jurisdiction)
Equipment No. 3 (Terminal station) (Administrative jurisdiction)

(3) Power line carrying high frequency current:

1) Power line carrier:

Name of power line	Section	Kind of main wire	Frequency	Voltage	Length of circuit

2) Induction commuication equipment:

Section	Kind of main wire	Length of circuit	Height of circuit from ground level	Other uses

(4) Type of emission and frequency used and high frequency power output;

(5) Construction design (to be stated for each place of installation of equipment):

1) General:
a) Communication system;
b) High frequency power output of transmitter;
c) Length of circuit for effective transmission;
d) Range of frequency capable of transmitting and receiving.

2) Coupling:
a) Coupling system;
b) Earth system;
c) Safety device.

3) Power supply:
(in brief)

4) Transmitter:
(in brief)

5) Receiving equipment:
(in brief)

6) Others (high frequency bridge unit, high frequency choke coil unit, and speech input equipment included) outline of each unit and place of installation thereof shall be stated).

(6) Expected date of completion of construction;

(7) Expected date of operation;

(8) Drawings, etc. to be attached:

1) For power line carrier:
a) Sketch showing the layout of other power lines near the place of installation of terminal equipment (inside and outside the compound);
b) Schematic diagram of power line (all of branch lines shall be added; the portion carrying high frequency current shall be written in red);
c) Route of power line (shown in a 1/200,000 scaled or more precise map);
d) Circuit diagram of each apparatus.

2) For induction communication equipment:
a) Route of circuit carrying high frequency current;
b) In case there are other electric lines near the circuit carrying high frequency current, drawing showing the distance between them and relative position;
c) Sketch showing the layout of other power lines near the place of installation of the fixed equipment;
d) Circuit diagram of each apparatus.

2. In the case where the equipment mentioned in Article 100 paragraph 1 item (2) of the Radio Law is to be established:

(1) Purpose of establishment;

(2) Place of installation (place of custody for those which are movable);

(3) Type of emission and desired frequency and high frequency power output;

(4) Operating hours desired;

(5) Construction design:

1) High frequency generating unit:
a) High frequency power output;
b) Range of frequency capable of oscillating;

c) Circuit system;
d) Names and quantity of vacuum tubes used.

Note:
Name or title of manufacturer of high frequency generating equipment and type or name of the equipment.

2) Power source:
a) Kind (ordinary A.C. or others);
b) Primary voltage and maximum power consumption;
c) Type of high frequency filter.

3) Electrode (heating unit):
a) Feeding system;
b) Material, shape and dimension of electrode or coil (heating unit).

4) Shielding unit:

	Material	Shape	Dimension	Remarks
High frequency generating unit				
Feeder				
Electrode				
Others				

5) For apparatus of the equipment that passed the type test under the Radio Apparatus Type Test Regulations, the following matters shall be stated. In this case, the statement of contents of the construction design for the apparatus is not required:

Type or Name	Type Test No.	Certified Date	Manufacturer	Remarks

(6) Concerning object of equipment:
1) For medical equipment:
a) Outline of method of handling;
b) Time required for one operation.
2) For industrial heating equipment and miscellaneous equipment:
a) Kind;
b) Dielectric constant and conductivity;
c) Shape and dimention;
d) Quantity to be produced in one process; time required for one process.

(7) Expected date of completion of construction work (for the equipment mentioned in Supplementary Provision 11 of the Radio Law, date of completion of construction work);

(8) Expected date of operation (for the equipment mentioned in Supplementary Provision 11 of the Radio Law, the date when operation began);

(9) Matters for reference:
1) Kind of building where the equipment is to be installed (wooden, ferro-concrete, etc.);
2) Others.

(10) Drawings to be attached:
1) Circuit diagram and outside view of each part of equipment (high frequency generating unit, power supply, electrode and shielding) (those of the type that passed the type test under the Radio Apparatsus Type Test Regulations may be omitted);
2) Lead-in of power source and earth;
3) Characteristics of high frequency filter in power source;
4) Sketch of vicinity of place of installation of equipment (inside and outside compound).

Annex VIII shall be amended as follows:

Annex VIII (Refer of Article 27)

1. To be issued to the equipment mentioned in Article 100 paragraph 1 item (1):

No.	License Certificate of Equipment Utilizing High Frequency	
License		
Purpose of establishment		
Place of installation of equipment		
Circuit carrying high frequency current	Length	Carrier voltage or other uses
Type of emission and frequency		
Oscillation system		
High frequency power output of transmitter		
(Date)	Radio Regulatory Commission	(Seal)

2. To be issued to the equipment mentioned in Article 100 paragraph 1 item (2):

No.	License Certificate of Equipment Utilizing High Frequency	
License		
Purpose of establishment		
Kind of equipment		
Place of installation of equipment		
Type of emission and frequency		
Oscillation system		
Name of equipment		
High frequency power output of equipment		
(Date)	Radio Regulatory Commission	(Seal)

Supplementary Provision:

These Regulations shall come into force as from the day of its promulgation.

NOTIFICATIONS

Prime Minister's Office Notification No. 340

December 21, 1950

Mrs. Hide Tsuda and Mr. Saburo Sato have been ordered to restore the undermentioned property in their possession to Mr. O.D. Bixler (No. 5, 2-chome, Kanda Surugadai, Chiyoda-ku, Tokyo) by December 27, 1950, in accordance with the provision of Article 2 paragraph 1 of the Ordinance on Returning, etc. of Allied Nationals' Property (Imperial Ordinance No. 294 of 1946):

Prime Minister
YOSHIDA Shigeru

1. Property belonging to Mrs. Hide Tsuda (No. 2, Matano-cho, Totsuka-ku, Yokohama)

Sort	Quantity	Site
Land (House-lot)	38 *tsubo*	No. 2451-Ro, Aza Okagoe, Oaza Nagakura, Karuizawa-machi, Kitasaku-gun, Nagano Prefecture

2. Property belonging to Mr. Saburo Sato (No. 970, Aza Hosono, Otaniguchi, Urawa-shi)

Sort	Quantity	Site
Land (Forest)	3 *se* 10 *bu*	No. 2451-1, Aza Okagoe, Oaza Nagakura, Karuizawa-machi, Kitasaku-gun, Nagano Prefecture

Prime Minister's Office Notification No. 341

December 21, 1950

Alteration of Boundary of Town and Village

The notification has been made by the Governor of Fukushima Prefecture that in accordance with the provision of Article 7 paragraph 1 of the Local Autonomy Law, the boundary between Yanagawa-machi, Date-gun, Fukushima Prefecture and Sekimoto-mura of the same gun shall be altered as follows as from November 1, 1950:

Prime Minister
YOSHIDA Shigeru

Areas to be incorporated into Sekimoto-mura, Date-gun:

Aza Iriashidagi, Yanagawa-machi, Date-gun: Nos. I6-(2), 16-(6), 17.

Areas to be incorporated into Yanagawa-machi, Date-gun:

Aza Ashidagi, Oaza Ozeki, Sekimoto-mura, Date-gun: Nos. 15, 16-(1), 16-(2), 16-(3), 16-(4), 16-(5), 17, 19, 21-(1), 22, 23, 24, 25, 26, 27, 28-(a), 28-(b), 31-(a), 32-(a), 32-(b), 33, 34-(a), 34-(b), 35, 36, 37, 38; Aza Ashidagimae: Nos. 1-(a)-(b), 1-(b), 1-(1), 1-(4), 1-(5), 2-(1), 2-(2), 12-(2).

Prime Minister's Office Notification No. 342

December 21, 1950

Alteration of Boundary of Town and Village

The notification has been made by the Governor of Niigata Prefecture that in accordance with the provision of Article 7 paragraph 1 of the Local Autonomy Law, the boundary between Toka-machi, Nakauonuma-gun, Niigata Prefecture and Kawaji-mura of the same gun shall be altered as follows as from September 15, 1950:

Prime Minister
YOSHIDA Shigeru

Areas to be incorporated into Toka-machi, Nakauonuma-gun:

Aza Sumiyoshi, Oaza Takayama, Kawaji-mura, Nakauonuma-gun: Nos. Hei 2-(13), Hei 2-(14), Hei 2-(17), Hei 2-(18), Hei 2-(19), Hei 2-(20), Hei 2-(21), Hei 2-(22), Hei 4-(1), Hei 4-(2), Hei 4-(3); Aza Taniuchi: Nos. 32-(3), 32-(4), 32-(5), 32-(6), 32-(7), 32-(8), 33-(2), 33-(3), 34-(2), 35-(2), 53-(2), 53-(3), 54-(2), 54-(3), 55, 56-(4), 56-(5).

Areas to be incorporated into Kawaji-mura:

Aza Uchijima, Toka-machi: Nos. Ko-887, Ko-891, Ko-892, Ko-893, Ko-894-(1), Ko-894-(2), Ko-895, Ko-896, Ko-897-(1), Ko-897-(2), Ko-897-(3), Ko-898-(1), Ko-898-(2), Ko-898-(3), Ko-899, Ko-900, Ko-901, Ko-902, Ko-904-(ko).

Prime Minister's Office Notification No. 343

December 21, 1950

Alteration of Boundary of Villages

The notification has been made by the Governor of Shizuoka Prefecture that in accordance with the provision of Article 7 paragraph 1 of the Local Autonomy Law, the boundary between Inaba-mura, Shida-gun, Shizuoka Prefecture and Setoya-mura of the same gun shall be altered as follows as from November 1, 1950:

Prime Minister
YOSHIDA Shigeru

Areas to be incorporated into Setoya-mura, Shida-gun:

Aza Chibasawashima, Oaza Miyahara, Inaba-mura, Shida-gun: Nos. 596-(2), 595-(3)-(2)-(2), 598-(5), 598-(4), 599-(2), 601-(2), 602-(2), 606-(2), 607-(8), Roads located in No. 595-(3)-(2)-(2), Water-way located in No. 601-(2), Water-way located in No. 606-(2), Roads located in No. 607-(8).

Areas to be incorporated into Inaba-mura, Shida-gun:

Aza Nakayama, Oaza Takisawa, Setoya-mura, Shida-gun: Nos. 7-(2), 8-(4), 13-(3), 13-(4), 17-(4), 17-(5), 19-(15), 19-(33), 19-(34).

Prime Minister's Office Notification No. 344

December 21, 1950

Creation of Town

The notification has been made by the Governor of Kochi Prefecture that in accordance with the provision of Article 8 paragraph 3 of the Local Autonomy Law, Izuta-machi shall be newly established out of the area of Izuta-mura, Hata-gun, Kochi Prefecture as from November 3, 1950. Furthermore, the name of the said town was altered to Shimonokae-machi as from the said day.

Prime Minister
YOSHIDA Shigeru

Local Finance Commission Notification No. 33

December 21, 1950

The Local Finance Commission Notification No. 23 and No. 24 of September 15, 1950 shall be partially amended as follows, and shall apply as from September 15, 1950:

Chairman of Local Finance Commission
NOMURA Hideo

"Ten-yu-maru Kansai Steamship Co., Ltd." in "1. Vessels" in the Local Finance Commission Notification No. 23, and "Izushi Railway Co., Ltd.", "Mizushima Industrial Cities Development (Mizushima Kogyo Toshi Kaihatsu) Co., Ltd.", "San-yo Electric Tramway Co., Ltd." and "Nippon Hassoden Co., Ltd." in "2. Cars" in the same Notification and out of campanies listed in the local Finance Commission Notification No. 24, shall be deleted.

Local Finance Commission Notification No. 34

December 21, 1950

The following shall be designated as the fixed assets under Article 389 paragraph 1 item (2) of the Local Tax Law (Law No. 226 of 1950) and shall apply as from December 1, 1950:

Chairman of Local Finance Commission
NOMURA Hideo

Fixed assets (depreciable assets in so far as the fiscal year 1950-51) located in the following plants:

Showa Electro-Industrial (Showa Denko) Co., Ltd. Kanose Factory

Shin-Etsu Chemical Industial (Shin-Etsu Kagaku Kogyo) Co., Ltd. Naoetsu Factory

Yokohama Gum Manufacturing (Yokohama Gum Seizo) Co., Ltd. Mie Factory

Befu Chemical Industrial (Befu Kagaku Kogyo) Co., Ltd.

Toa Fuel (Toa Nenryo) Co., Ltd. Wakayama Factory

Toho Rayon Co., Ltd. Tokushima Factory

Local Finance Commission Notification No. 35

December 21, 1950

The Local Finance Commission Notification No. 28 of October 16, 1950 shall be partially amended as follows, and shall apply as from October 16, 1950:

Chairman of Local Finance Commission
NOMURA Hideo

The columns of title of plant and location shall be amended as follows:

Title of plant	Location
Fuji Iron-Manufacturing (Fuji Seitetsu) Co., Ltd. Wanishi Foundry	Muroran-shi
Matsuo Mining (Matsuo Kogyo) Co., Ltd. Matsuo Factory	Matsuo-mura, Iwate-gun, Iwate Prefecture
Dainippon Celluloid Co., Ltd. Arai Factory	Arai-machi, Naka-kubiki-gun, Niigata Prefecture
Showa Electro-Industrial (Showa Denko) Co., Ltd. Kanose Factory	Nishi-kanose-mura, Higashi-kambara-gun, Niigata Prefecture

Nippon Soda Co., Ltd. Nihongi Factory		Nakago-mura, Naka-kubiki-gun, Niigata Prefecture
Shin-Etsu Chemical Industrial (Shin-Etsu Kagaku Kogyo) Co., Ltd. Naoetsu Factory		Ofuke-mura, Naka-kubiki-gun, Niigata Prefecture
Nissan Chemical Industrial (Nissan Kagaku Kogyo) Co., Ltd., Toyama Factory		Nenaka-machi, Nehi-gun, Toyama Prefecture
Nippon Carbide Industrial (Nippon Carbide Kogyo) Co., Ltd. Uotsu Factory		Michijita-mura, Shimo-niikawa-gun, Toyama Prefecture
Nippon Light Metals (Nippon Kei-Kinzoku) Co., Ltd. Kambara Factory		Kambara-machi, Ibara-gun, Shizuoka Prefecture
Onoda Cement Manufacturing (Onoda Cement Seizo) Co., Ltd. Fujiwara Factory		Higashi-fujiwara-mura, Inabe-gun, Mie Prefecture
Yokohama Gum Manufacturing (Yokohama Gum Seizo) Co., Ltd. Mie Factory		Misono-mura, Watarai-gun, Mie Prefecture
Befu Chemical Industrial (Befu Kagaku Kogyo) Co., Ltd.		Ahe-mura, Kako-gun, Hyogo Prefecture
Toa Fuel (Toa Nenryo) Co., Ltd. Wakayama Factory		Hajikami-mura, Kaiso-gun, Wakayama Prefecture
Koa Petroleum (Koa Sekiyu) Co., Ltd. Marifu Oil Factory		Waki-mura, Kuga-gun, Yamaguchi Prefecture
Toho Rayon Co., Ltd. Tokushima Factory		Kitajima-cho, Itano-gun, Tokushima Prefecture
Yawata Iron Manufacturing (Yawata Seitetsu) Co., Ltd. Yawata Foundry		Yawata-shi
Nippon Transforming Industrial (Nippon Kasei Kogyo) Co,, Ltd. Kurosaki Factory		Yawata-shi
Yawata Iron Manufacturing (Yawata Seitetsu) Co., Ltd. Tobata Factory		Tobata-shi

---

Radio Regulatory Commission Notification No. 289

December 21, 1950

The points and the minimum distances required to be apart from those points under the provision of Article 6 paragraph 1 item (3) of the Basic Standards for the Establishment of Broadcast Stations (Radio Regulatory Commission Regulations No. 21 of 1950) shall be designated as follows:

Chairman of Radio Regulatory Commission
TOMIYASU Kenji

Name of To or Shi	Antenna power	Points designated (the following points as of December 1, 1950)	Distance designated (km)
Tokyo	100W to less than 1KW	Shinagawa, Shinjuku and Ueno Stations of Japanese National Railways, Tokyo-To	5
	1KW to less than 5KW		6
	5KW to less than 15KW		7
	15KW to less than 50KW		10

PUBLIC NOTICE

NATIONAL PERSONNEL AUTHORITY

Announcement of Entrance Examination for Taxation Employees (Subsidiary Taxation Employees and Trainees of the General Course of the Tax Training Institute)

December 21, 1950

Secretariat of National Personnel Authority
NPA Bldg., 2, 1-chome, Kasumigaseki, Chiyoda-ku, Tokyo-To

This is the entrance examination for subsidiary taxation employees and trainees of the General Course of the Tax Training Institute which will be administered by the Tax Administration Agency as an examining organ designated by the National Personnel Authority. Successful candidates of this examination will be registered on the respective entrance eligible lists and be certified in the order of their examination score upon requisition of the appointing officer.

1. Duties and responsibilities and number of persons expected to be appointed:

(1) Duties and responsibilities:

a. Subsidiary Taxation Employees:

The appointees will be assigned to Tax Administration Agency, various tax administration bureaus or tax offices to deal with transactions relating to the assessment and collection of internal tax, but at the start they will generally be engaged in the business of the subsidiary nature.

b. Trainees of the General Course of the Tax Training Institute:

After completing about one year's technical training on the tax administration at various branches of the Tax Training Institute, they will be engaged in the business relating to the assessment and collection of internal tax.

(2) Number of persons expected to be appointed:

a. Subsidiary taxation employees.....Approx. 1,600 persons

b. Trainees of the General Course of the Tax Training Institute.....Approx. 400 persons

However, some changes may be made in the abovementioned numbers according to the actual condition of vacancies in various taxation bureaus.

2. Qualification for Taking Examination:

Subsidiary Taxation Employees

(1) Scholarship co-ordinate to the graduates of a new system high school; no specific educational career required.

(2) Age:

Over full 18 years and under full 24 years of age on March 31, 1951.

(3) Sex:

No discrimination as to the sex.

Trainees of the General Course of the Tax Training Institute

(1) Any person with one of the following school careers or experiences:

a. Graduates of new system high school or any person who is expected to complete its full course by March 31, 1951;

b. Any person who has been qualified to enter a new system university by the Minister of Education;

c. Graduates of former middle schools who are serving in the Tax Administration Bureau (including its local branch offices and auxiliary organs) and Tax Bureau of the Finance Ministry (excluding the Customs Division) and whose service career will have elapsed not less than one year by March 31, 1951.

3. Any person comparable to one of those enumerated below will be disqualified for this examination:

(1) Any person who has no Japanese nationality;

(2) Any person who has been adjudicated incompetent or quasi-incompetent;

(3) Any person who has been sentenced to a penalty heavier than imprisonment without hard labor by the criminal court (Including corresponding penalties, sentenced by the military court of the Allied Forces) and of whom the execution of the sentence has not been completed or who has not yet ceased to be amenable to the execution of the sentence;

(4) Any person who, while in the national public service, was dismissed by disciplinary action and for whom a period of two years has not been expired since the date of dismissal;

(5) Any person who, on or after the date of enforcement of the Constitution of Japan, formed or belonged to a political party or other organization which advocated the overthrow by force of the Constitution of Japan or the Government existing thereunder;

(6) Any person who is designated as a person falling under the application of the memorandum pursuant to the "Imperial Ordinance concerning Removal and Exclusion from Public Office" (Imperial Ordinance No. 1 of 1947), or any person considered to have been designated as a person falling under the application of the memorandum according to the "Organization Control Order" (Cabinet Order No. 64 of 1949).

4. Date and Method of Examination and Announcement of the Result:

The examination consists of first and second examinations and also an identity investigation; the second examination will be given to the successful candidates of the first examination.

(1) First examination:

a. Date and place of examination:

January 23, 1951

The place will be notified when the application is filed.

b. Content:

Written examination for evaluation of quality and general culture necessary for subsidiary taxation employees and trainees of the General Course of the Tax Training Institute.

c. Announcement of the result of examination:

The result will be posted at each of the application centers listed in paragraph 6 around the latter part of February, 1951, and, at the same time, will be notified individually to each successful candidate.

(2) Second examinattion:

a. Date and place:

It will be conducted in the latter part of February, 1951. The date and place will be announced simultaneously with the announcement of the result of the First examination, successful candidates being notified individually.

b. Content:

i. Oral examination:

The examination by interview will be conducted primarily on character.

ii. Physical examination:

Primary stress will be laid on the examination of chest disease.

(3) Investigation of pervious careers:

This is to find out whether the applicant is duly qualified for taking the examination and to verify the authenticity of statement given in the application.

(4) Announcement of successful candidates:

It will be posted up at each of the application centers listed in paragraph 6 around the middle part of March, 1951, successful candidates being notified individually.

5, Examination Center:

Cities where prefectural government offices are located and the cities of Hakodata, Asahikawa and Kushiro.

6. How to make application:

(1) Application blank supplying centers:

Application blanks are obtainable at any of the application centers enumerated below as well as each local branch of the Tax Training Institute throughout the country and each Taxation Office. In case of applying for application blanks by mail, please enclose, without fail, a return envelope with the return address duly filled in and affixed with 8 *yen* postage stamp.

(2) Application centers:

Candidates are requested to fill in two copies of application blank A and one sheet of application blank B, and, on submitting them to one of the undermentioned competent offices having jurisdiction over the examination center concerned' receive the admission card. In case the application is forwarded by mail, the cover should bear the superscription "Subsidiary Taxation Employee Examination" or "Tax Trainee Examination" in red ink, as the case may be, enclosing, without fail, a return envelope with return address duly filled in and affixed with 8 *yen* postage stamp.

Any person intending to take both examinations for the subsidiary taxation employees and the trainees of the general course of the Tax Training Institute is required to submit two sets of applications (four copies of application blank A and one sheet of application blank B) simultaneously.

(Postage stamp is ¥16.)

Application Center	Jurisdictional Area	Address

From December 25, 1950 to January 19, 1951, 5.00 p.m. (during office hours)

In the case of mail application only those arriving at the office concerned not later than 5.00 p.m. of January 19, 1951 will be accepted.

The admission card, when submitted, should be pasted with a photograph (approximately 4 cm by 3 cm) recently taken. In the absence of the photograph the application will not be accepted.

7. Preparation of appointment eligible list, and process of appointment and compensation:

(1) Subsidiary Taxation Employee:

a. Successful candidates of this examination will be registered in one of the appointment eligible lists for Subsidiary Taxation Employees by "To," "Do," "Fu" and "Ken," in accordance with the place of work preferred by the candidate concerned, and will be certified for appointment, upon the requisition of the appointing officer concerned, by the regional office of the National Personnel Authority having jurisdiction over him in the order of their scores of examination. The appointment eligible list is effective for one year as a principle.

b. After the decision of appointment, the appointees will be made to serve in the position of the Tax Administration Agency, each Tax Administration Bureau or each Taxation Office. At this time some of the appointees will be given short-term training course.

c. Compensation, as a rule, will be the first step—the third step of the second pay grade of the salary schedule for Tax Collectors. In addition, employees with dependents will be entitled to family allowance, and also to area allowance amounting to a sum equivalent to the fixed percentage of the total of base pay and family allowance—all subject to income tax.

(2) Trainees of the General Course of the Tax Training Institute:

a. Successful candidates of this examination will be registered in one of the appointment eligible lists for trainees of the General Course of the Tax Training Institute by branch office of the Tax Training Institute, as shown hereunder, in accordance with their preference, and will be certified for appointment, upon the requisition of the appointing officer concerned, by the regional office of the National Personnel Authority having jurisdiction over him in the order of their scores of examination.

Sapporo Branch Office of Tax Training Institute	Higashi 4-chome, Kita Jugojo, Sapporo City
Sendai Branch Office of Tax Training Institute	3, Gekicho-dori, Sendai City
Tokyo Branch Office of Tax Training Institue	231-1, 5-chome, Nobuto-machi, Chiba City
Nagoya Branch Office of Tax Training Institute	6-1, Minami-sotobori-cho, Naka-ku, Nagoya City
Osaka Branch Office of Tax Training Institute	3,000, Nasutsukuri, Hirakata City
Hiroshima Branch Office of Tax Training Institute	In the Hiroshima Tax Administration Bureau, Kasumi-cho, Hiroshima City
Kumamoto Branch Office of Tax Training Institute	Oe, Oe-machi, Kumamoto City

b. After the decision of appointment, the appointees will be admitted to the general course of each branch office of Tax Training Institute for technical training of tax administration for approximately one year. And then they will be appointed to a position in the Tax Administration Agency, each Tax Administration Bureau or each Taxation Office following the preference of the appointee concerned.

c. Compensation, as a rule, will be the first step—the third step of the fourth pay grade of the general salary schedule. In addition, employees will be entitled to the family allowance and the area allowance in the same way as the subsidiary taxation employees and to the loaning of text books. Also, dormitories are provided for in the general course of each branch office of Tax Training Institute. The compensation for those who have completed the general course, as a rule, will be subject to the application of the salary schedule for tax collectors.

Note:

As the appointments of the subsidiary taxation employees and trainees of the Regular Course of the Tax Training Institute are effected from among the successful candidates of this examination, also the applicants for the entrance examination for national public employees of fourth grade (assistant clerks) are requested to take this examination.

Other details should be referred to the Personnel Section, General Affairs Division, Tax Administration Agency (in the annexe of the Ministry of Finance, Uchisaiwai-cho, Chiyoda-ku, Tokyo-To) or any of the application centers given in paragraph 6 above.
