LATEST PROM EUROPE.

The packet ship New-York, Capt Bennett, which arrived Just exe has brought Losdon supers as the evening of the 17th est, and Liverpool to the 18th.

WAREN THE EASTS

Our Liverpool correspondent, under date of Materilay evening, Oct. 18th, forwards the following intelligence:

"The Journal du Commerce received 2500 by themail, brings accounts from Prank 9860 fost to the 9th inst., stating that, side 2000 though no official account had been pub-1346 lished for several days gost, private letters have been received from Berlin, saying that, the second army tader com mand of Count Wittgenstein was dis-2760 persed. Whate regiments of cavalry do 4416 were disthoduted. The want of water do 24242 was so great that three roubles were given for a bottle of water. It was reported on the Change at Frankfort, that the siege of Varia raised and that the Russian army was inffull renges to the Danube."

> We take the following from the Lan don Journals :---

It is confidently stated to the Sun of 17th that two couriers had attivid to government. By the French mail just arrived, two reports prevailed one that the Bussians and been again different near Schules the other that an ar tice had taken place.

The German papers remain elent res-nerting the position of the Ressian and 500 Ottoman armies. This may be easily to have consensed so a conference accounted for a the incursions in Typks have made from the heights of Schunda into the plains of Bulgaria nust have intercented the direct communication between the Russian army and Wallachin.

However, Vienna letters, of the 5th October, styte, that on that very day despatches had arrived at the Roreign perate attempt to make themselves mas office from the theatre of war. After ters of the place by storm; yet five the arrival of the courier who brought them, a report was circulated in the capital of Austria, that the army of Field Whether the retreat of their army from Marshal Count Wittgrastein continued Shumis bus deterred them, is a queshis retreat, and has arrived at Karase- tion which we are not able to answer, the lists are deposited. sou. 30 leagues (90 English-miles) dis-being in possession only of the fact tant from Schumla. The condition of that admy is deplotable; it is followed by a large number of sick and find been compelled to abandon on the road a part of its materiel. It had been appounced to the Russian troops that such of the cavaley regiments as had lost their holds should proceed to the Ukrain to be remounted.

The letters we mention remain silent respecting the Russian corps d'armér which forms the siege of Varua. It is not known whether that corps continues its operations, or whether it has trioined the army of Count Wittgenstein at Bezardisk.

The Morning Herald of the 17th has these paragraphs:-

The despatches received by Lord Meytesbury confirm the previous accounts relative to the deplorable condition of the Russian Army before Varna. According to these despatches, which are down to the 22d Sept., Varna had associate judge, I shall expose for sale not only not fallen, but no assault had on Thursday the 18th inst. at 4 o'clock, been attempted by the Russians. We a number of small Magnifying Glasses, learn, also, from other sources, that off 25 Lamps, 1 Chandelier, some old Ce- Russians are suffering all sorts of privations, and that one of their greatest miseries is the wast of water. After all, however. Varea may be obliged to surrender; but, if it should, the victory will cost him much more than it is worth, and there is in the doubt that he will be nevertheless forwig to retreat This Turkish war the truth war to have the truth and the sample of a recommendation of the truth and the sample of the themselves may be extirpated, yet they

The German papers, in speaking of the Russian levy, give a reason for it. Ls. Daunor, marchal, the obstinacy of the Ottoman Portonia not accepting the offered proposals for

The following appears in the Gazette de France, of Simday last, (Oct. 12.) Paris, Oct. 1 10-We have received letters from Odessa of the 25th of Sept. No doubt was entertained of the taking of Varna; but it was known that the sand pieces of eight for the apprehen-Russian army was in a distressed condition, and that the Emperor desires peace. If we may believe the letters from Bucharest, the Turks have assumed she offensive. The corps of Gen. Roth has been almost entirely destroyed, the siege of Schumla raised, and the Russians abandoning thirty pieces of cannon, have retreated towards Bazard. lik\_nursued by Hussein Bey, at the head of 70,000 men, who flattered himself that he should destroy them, fall on the Brig Columbia, Jameson, Charlesto

paign by compelling the whole of the

Dutch papers received on Monday Steamboat Paul Jones, Vary from Smithling, with cetton—passengers, the Ross E. Livingston, last poptain the following:---

Berlin, Oct. 6 .- On the 26th of Sept. a manifesto was issued at St. Pinera burgh, ordering a levy of four men of every 5000 of the population. This festo is in the following terms:—'Not-withstanting the suffice of our arms in the war against the Ottoman Porto, and our sincers wish to put an end to keeti lities, the enemy, by his refusal to listen to our proposals for peace, and by his obstinacy, obligate us to take new measures for prosessing this war, and we consider & successivy to finke our army complete. (Letimating the population liable to the levy now ordered, at 10,000 000, the number of recruits will be \$60,0 000 mep.")

From the N. Y. Jour. Com. RUSSIA AND TURKEY.

The following artists from the Linedon Gourier of the 17th Oct. for which we are indebted to Cape. Champlished the Hudson, exhibits what may be ponsidered a concise and probable view of the state of affairs at the seat of war in

the east at the lagest lightees :--Varna, as we stated vasterday, from Load Heyecsbury's descinches, had not surrendered, nor had any attempt beef made to take it by assault on the 21st ult. This intelligence justifies the opinion we expressed last Saturday, upon the authority of the last Russian Bulletin; which brought down the opperations hefore Varna, to the 17th. The breachbatteries had sot been sompleted. and the setthern part of the place had been previous little damaged by the fire of the haningers. The Governor, the Captain Pacha, had not made any offer to corrender, though the Russians had sumilined him, and some conferences had taken place on board of Admiral Greig's ship. But the Pacha appearfor the process of complex time, and of making the best the of the short suspension of hospitales. The bessians, knowing the value of activity, would not lose a mount in the erection of the basteries," subich were to enable them to take a practicable breach for the purpose of trying the last and most des days after the date of their last bulletin they had not made any such attempt. nounced by Lord Heytesbury, that Varna hadinot been tiken, nor any assault mad upon it, on the 21st of last month. It may be that the Rossians entertain doubts whether even if Varna should be taken by storm after being reduced to a beap of ruins, it would be tenable, in the event of the main Russian army being forced to retreat, and the Russian fleet being forced of the coast during the stormy weather so frequent in the Black Sea during October and the winter months.—At any rate the possession of Varna now will not be of the same advantage as at an estlier part of the campaign. The Paris Papers of the 44th and 15th, and the German papers, attribute the delay in the arrival of intelligenc to the circumstance of the direct communication having been cut off between the Russian army and Wallachia, by the Turks; yet. the Varna letters of the 5th, announce the arrival on that day of a courier from Wittgenstein, having continued its re-

deal of helly artillery, the materiel, had been ab indonned on the road. FROM ST. THOMAS. The ship Jupiter arrived yesterday in a short passage from St. Thomas, bringwhich contain the painful intelligence suit. that suspicion had fixed upon Mesers. C- & Co. one of the largest Ameri can houses, as concerned in the faratical vessel Las Damas Argentinas, the crew of which have lately sufficient the punishment of death, for the capture of the British brig Caraboo. Both the martners had absconded and the Goverfor had offered a reward of see thousion of either of them.
