'STOCKS OF LEAF TOBACCO OWNED BY MANUFACTURERS AND DEALERS

JULY 1, 1932.

Stocks of leaf tobacco in the United States owned by dealers and manufacturers amounted to 2,238,720,000 pounds on July 1, 1932 compared with 1,914,719,000 pounds on July 1, 1931. This represents an increase of 324,001,000 pounds over the stocks of a year ago. From April 1, 1932 to July 1, 1932 total stocks decreased 135,041,000 pounds, while during the same period of 1931 the decrease amounted to 236,059,000 pounds.

Stocks of flue-cured tobacco on hand July 1, 1932 were 745,207,000 pounds, compared with 676,752,000 pounds on July 1, 1931. This is an increase of 68,455,000 pounds. During the second quarter of 1932 flue-cured stocks decreased only 100,435,000 pounds, whereas the decrease during the same period of 1931 amounted to 154,595,000 pounds. Stocks of Types 11, 12 and 13 were higher than they were a year ago and stocks of Type 14 were slightly lower. The detailed report on flue-cured tobacco shows about the same proportion of tobacco in the various groups as on April 1, 1932.

Stocks of fire-cured tobacco are reported as 218,403,000 pounds on July 1, 1932, about 17 million pounds higher than on April 1, 1932 and about 25 million pounds higher than stocks a year ago July 1. Virginia Fire-cured, Type 21, reported as 36,243,000 pounds, shows an increase of about 3 million pounds over stocks of July 1, 1931. Kentucky and Tennessee Fire-cured, Types 22 and 23 combined, show total stocks on July 1, 1932 of 173,955,000 pounds compared with 155,546,000 pounds on July 1, 1931. Stocks of Henderson Stemming, Type 24, amounted to 8,205,000 pounds on July 1, 1932, compared with 4,212,000 pounds a year ago.

Burley stocks were about 151 million pounds higher on July 1 than they were a year ago. The July 1, 1932 report shows 651,166,000 pounds on hand compared with 500,042,000 pounds on hand July 1, 1931. The decrease in Burley stocks during the second quarter of 1932 was about 51 million pounds compared with a decrease of 68 million pounds in 1931 during the same period. The detailed report by groups of grades shows the bulk of the Burley stocks in the B, C and X groups with more than half of the total reported in the B group.

Maryland tobacco stocks were nearly double those of a year ago. The report shows stocks of this type to be 21,677,000 pounds. On July 1, 1931 they amounted to only 11,756,000 pounds. A correction in the April 1, 1932 report shows stocks of this type as 19,559,000 pounds on that date. The detailed report shows that the increase in stocks between April 1 and July 1 of this year is principally in the X group.

One-sucker stocks on July 1, 1932 amounted to 37,495,000 pounds or about $3\frac{1}{2}$ million pounds less than on July 1, 1931. Green River stocks reported as 36,952,000 pounds on July 1 were nearly 11 million pounds higher than stocks of a year ago. Virginia Sun-cured stocks were reported as 4,207,000 on July 1, 1932. Miscellaneous Domestic stocks were reported as 2,551,000 pounds and foreign grown cigarette tobacco stocks (Other than cigar leaf, Type 90) were reported as 80,597,000 pounds on July 1, 1932.

July 1 Cigar Leaf Tobacco Stocks

Stocks of American-grown cigar filler types, including Porto Rican, amounted to 201,869,000 pounds on July 1, 1932 compared with 167,936,000 pounds on July 1, 1931, an increase of 33,933,000 pounds over the holdings of the previous year. All filler types show an increase in stocks except Gebhardt and Porto Rican; Gebhardt shows about a million pound decrease and Porto Rican a decrease of about 1,500,000 pounds.

The cigar binder types show an increase in stocks on July 1 of about $22\frac{1}{2}$ million pounds over the stocks of a year ago July 1. The total stocks of binder types were reported as 210,423,000 pounds on July 1, 1932 and 187,841,000 pounds on July 1, 1931. Binder type stocks increased during the second quarter of 1932 about 3 million pounds, the same as the increase during the second quarter of 1931. The detailed report shows that of the total stocks reported 4,360,000 pounds are of Wrapper quality, 79,738,000 pounds are Binders, 9,675,000 pounds are Fillers, and 116,433,000 pounds are Stemming or X group tobacco.

Shade-grown wrapper stocks of Connecticut, Georgia and Florida, Types 61 and 62, were slightly lower on July 1, 1932 than on July 1, 1931. Total shade stocks were reported as 14,336,000 pounds. Of this total 8,516,000 pounds were reported in the A group as Wrappers, 5,179,000 pounds in the B group as Binders and the balance in the C, X and S groups. Foreign cigar leaf stocks reported as 13,837,000 pounds were about a million pounds lower than on July 1, 1931.
