Present indebtedness of the Town,	-	-	\$13,937 86

NOTE:—In examining the annual report of this year, it should be remembered, that, at our last March meeting, it was voted that future Annual Meetings be held on the *third* Monday in March, and that the Annual Report be made up to March 1., as many bills, especially School bills, cannot be reported in full until about that time. We would, therefore, call your attention to the fact that we have paid the expenses of *thirteen* months with an appropriation for only *twelve*. As the month of March occurs *twice*, it may not be out of place for us to state that we generally draw more orders in March than in any other month of the year.

Your attention is also called to the present Liabilities or Indebtedness of the Town, as this is, to many, the most interesting part of the report. It may, at first, be surprising to you that the indebtedness is not *less* than last year. We account for and explain this in this way: for Rail-Road Street we have paid five hundred and forty-one dollars and eighty-four cents, (\$541.84) and for out-standing bills of and previous to 1878,—as shown by Recapitulation, on pages ten and eleven, to which attention is called,—one thousand nine hundred and forty-five dollars and twenty-two cents, (\$1,945.22). These two items, in connection with the bills of the *thirteenth* month, amount to about three thousand eight hundred dollars, (\$3,800.00), for which there was no appropriation made.

Trusting that the above explanation will be sufficient, we respectfully submit our report.

A. F. JONES,	} Selectmen	
ALBERT BUTLER,		of
JESSE CHASE,		Douglas.

C. A. HUNT, Auditor.

ANNUAL REPORT
OF THE
OVERSEERS OF THE POOR.

FOR 13 MONTHS ENDING MARCH 1, 1880.

GENERAL REMARKS.

HIGH SCHOOL.

The success of the high school, for the past year, has proved the wisdom of the course pursued by the Committee in continuing the school under the same teacher, as for the two previous years. The popularity of Mr. Bowles among our townspeople, as a teacher, and his diligence and efficiency in the school room have not been in the least diminished by his continuing with us another year. The work done in the school room has been thorough and effective, and the results accomplished have been very satisfactory. The average percentage of attendance has been $93\frac{1}{3}$ per cent., a little less than last year. The course of study, adopted last year, has been followed and has proved satisfactory. It may be found necessary hereafter to vary it, in some instances. We continue this year the Roll of Honor,—commenced last year,—embracing only the names of pupils in the High School who have been *neither absent nor tardy* for the term, and whose general deportment and scholarship have been commendable for the year.

ROLL OF HONOR.

DISTRICT SCHOOLS.

Allowing the School Committee, who have made *one hundred and thirty one* visits to the schools of the town, during the year, —and who have visited the schools, more or less for more than thirty years,—to be as good judges of the progress and standing of our schools, as those who have not visited any of them during the year, we should say our schools never stood as well as they stand to-day. We have labored to attain a higher standard of scholarship, a more thorough drill on the fundamental

principles of the various branches taught, and more individuality on the part of the scholars, that they should learn to think and reason for themselves, instead of being simply *parrots*, to *repeat* words and phrases committed to memory. We have required more and better work on the part of teachers, and the results accomplished have, in the main, been satisfactory. Failures there have been, on the part of some of the teachers, but they have been the exception rather than the rule. No teachers should be employed in our schools who have not a natural tact for teaching, coupled with a thorough preparation for the work and a love for the employment. This class of teachers are the ones who have been successful during the past year, and the only ones who are ever successful as school teachers. We believe none others competent to instruct our schools. There always has been, and probably always will be, *croakers* and *sore-heads* crying out in newspaper articles and elsewhere that the former times were better than the present; and that everything *they* cannot control is continually going from bad to worse: that any and *every deviation* from the course pursued by their venerable grandfathers is *an innovation not to be tolerated*; and, because their narrow vision cannot see the light before them, they vainly argue themselves into the belief "No possible light *can* exist."

We have purchased, for the use of our Primary Schools, three sets of Munroe's Primary Reading Charts, which have been a great help to the teachers, and of much benefit to the schools. We also placed on the desk of every teacher copies of Swinton's Language Lessons and lessons in Grammar, which have already produced beneficial results. The Committee have also,—with the assistance of two of the teachers, but without expense to the town or scholars,—introduced into two of our schools, (No. 10), text books of different authors, but of the same series, from which the scholars have been required, a portion of the time, to read at sight; without having seen the lessons before they came out to read. This course was adopted as an experiment. The teachers, entering enthusiastically into the work and fully carrying out the wishes of the committee in regard to it, have made it a perfect success. We recommend that this course be adopted for the other schools, and that another class

of reading matter, outside of the old, stereotyped text-books, that have so long been in our schools, be introduced for our children to read occasionally—some juvenile books and papers full of the live issues and facts of the day.

INDUSTRIAL DRAWING

has been successfully taught in some of our schools, where the teachers have been competent to give instruction therein, with the very best results.

Our School Houses and School Districts remain *in statu quo*. What we said in regard to them last year will apply equally well now. The school house in Dist. No. 3, very much needs to be altered or enlarged. All the school houses, out of the village, need more or less repair; a small outlay on some of them is all that is necessary. The schools have been *kept on equal length of time*, (32 weeks), in all the districts, at an expense *within* the appropriation; and about seventy-two dollars, (\$72.00) *less* than last year. The

TRUANT LAWS,

adopted by the town, May 5, 1879, and approved by Hon. Adin Thayer, Judge of the Probate Court, and printed with this report, were made operative at the commencement of the Fall Term of our schools, by the appointment of C. Emmons and J. E. Cummings as Truant Officers. So far as the law has been in operation, it has been a decided success. There has been a less number of truants on the street, most of whom have been returned to the school, and, in several instances, their parents have been seen by the truant officers, with beneficial results.

There have been no complaints entered and no arrests made under our truant laws, and the duties performed by the officers, have been rendered free of charge. There is no suitable place provided within the County, where we can send our truant scholars if we should find it necessary to arrest them, and we recommend to the town to unite with other towns in the County in requesting the County Commissioners to provide a suitable place for the confinement and instruction of truant children.

A. F. BROWN, }
A. M. HILL, } Superintending Committee.

TRUANT LAWS.

COMMONWEALTH OF MASSACHUSETTS.

WORCESTER, ss. —

Town of Douglas in the County of Worcester, A. D. 1879.

PROVISIONS AND BY-LAWS CONCERNING TRUANT CHILDREN AND ABSENTEES FROM SCHOOL.

Be it enacted by the legal voters of the town of Douglas, in Town Meeting legally assembled, and by authority granted by the Statutes of this Commonwealth, in manner following: to wit:—

The town of Douglas hereby avails itself of the several provisions of the statutes of this Commonwealth, now in force relating to habitual truants and absentees from school; and, in pursuance of authority conferred thereby, adopts the following By-Laws:—

SECT. 1. It shall be the duty of the School Committee of Douglas, immediately after the adoption of these By-Laws by the town, and their approval by one of the Justices of the Superior Court, or the Judge of Probate for the County of Worcester, at a meeting held for that purpose, to appoint and fix the compensation of at least two, and not more than three, suitable persons who shall be designated Truant Officers; who shall hold their offices until the Annual Meeting of the School Committee in March, 1880. And at each and every Annual Meeting of the School Committee thereafter, they shall appoint and fix the compensation of at least two, and not to exceed three suitable persons who shall be designated Truant Officers.

- SECT. 2. The Truant Officers appointed under these By-Laws, shall, before making any complaint, or proceeding to act under such appointment, be sworn to the faithful discharge of their duties before some Justice of the Peace of this Commonwealth: and they shall then under the direction of the School Committee, enquire into all cases arising under these By-Laws, and shall alone be authorized, in case of a violation thereof to make complaint, and carry into execution the judgment thereon.
- SECT. 3. It shall be the duty of the Truant Officer, prior to making any complaint under these By-Laws, to notify the truant or absentee from school, and also his (or her) parents or guardian, of the offence committed, and of the penalty therefor; and, if the Truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may forbear to prosecute so long as such pledges are faithfully kept.
- SECT. 4. It shall be the duty of the Truant officers to keep a full record of all their official acts, and make an annual report thereof, in writing, to the School Committee, on or before the twentieth day of February of each year, who shall publish the same with their report.
- SECT. 5. The Truant School, established in the city of Worcester, is hereby assigned and provided as a suitable place for confinement, discipline and instruction for all cases arising under these By-laws, *provided* suitable accommodations may be obtained there for that purpose. And if said Institution cannot be obtained for that purpose, then, with the assent of the Board of State Charities, we assign the State*Primary School at Monson, as the place of confinement, discipline and instruction of the persons convicted under the provisions of this act. And it shall be the duty of the Truant officers to make all necessary arrangements in regard to a place of confinement and discipline for persons who may be convicted under these By laws.
- SECT. 6. Any child, between the ages of seven (7) and fifteen (15) years, whose parents or guardians reside in the town of Douglas, convicted under these By-laws of being an habitual truant, or of wandering about the streets or public places of said town, having no lawful occupation or business, not attending school and growing up in ignorance, shall, on conviction thereof, be committed to the Institution of Instruction, mentioned and established in Section *five* of these By-laws, for such time, not exceeding *two* years, or *fine* not exceeding twenty dollars (\$20.), as the Justice or Court having

jurisdiction, may determine. Any person so committed, may, upon proof of amendment, or for other sufficient cause shown, upon a hearing of the case, be discharged by such Justice or Court.

SECT. 7. All children confined in said Institution of Instruction, under the provisions of these By-laws, shall be, during such confinement, suitably instructed in morals, good behavior, arithmetic, reading, writing, and orthography of the English language, geography and the History of the United States, and the School Committee of said town, or said Truant officers, shall make all needful arrangements and provisions therefor.

SECT. 8. It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the Truant officers as far as possible in the discharge of their duty.

SECT. 9. Nothing in these By-Laws shall be so construed, as to alter or impair the obligation and duty of teachers, to enforce punctuality and regularity in attendance, and to preserve good order and discipline.

SECT. 10. All cases of truancy within the meaning of these By-laws, may be prosecuted before any Magistrate, or Court, of the County, having jurisdiction of criminal offences committed within said town, but all prosecutions shall be commenced within six months from the time of the violation of these By-laws and not afterwards.

SECT. 11. These By-laws shall go into effect immediately after the same shall have been approved by a Justice of the Superior Court, or Judge of Probate for said County.

At a legal meeting of the inhabitants of the Town of Douglas qualified to vote in elections and in Town affairs, holden the fifth day of May, A. D. 1879, it was voted to accept and adopt the within mentioned provisions, arrangements and By-laws of the Town of Douglas concerning Truants and absentees from school.

T. H. MEEK, Town Clerk.

WORCESTER, MAY 15, 1879.

I hereby approve of the above By-laws of the Town of Douglas.

ADIN THAYER, Judge of Probate Court.
