

PREFACE

A preliminary edition of Subclass KF, *Law of the United States*, developed by Werner Ellinger and John Fischer, was published in 1969. A 1999 edition cumulated all changes that had been made to the schedule since the 1969 edition was published. The 2004, 2005, and 2008 editions cumulated additions and changes made since the publication of the previous editions. A 2012 edition cumulated changes made since the 2008 edition. Annual editions were issued beginning in 2015. This 2021 edition cumulates changes from the 2020 edition.

Classification numbers or spans of numbers that appear in parentheses are formerly valid numbers that are now obsolete. Numbers or spans that appear in angle brackets are optional numbers that have never been used at the Library of Congress but are provided for other libraries that wish to use them. In most cases, a parenthesized or angle-bracketed number is accompanied by a "see" reference directing the user to the actual number that the Library of Congress currently uses, or a note explaining Library of Congress practice.

Access to the online version of the full Library of Congress Classification is available on the World Wide Web by subscription to Classification Web. Details about ordering and pricing may be obtained from the Cataloging Distribution Service at:

<<http://www.loc.gov/cds/>>

New or revised numbers and captions are added to the LC Classification schedules as a result of development proposals made by the cataloging staff of the Library of Congress and cooperating institutions. Upon approval of these proposals by the editorial meeting of the Policy, Training & Cooperative Programs Division, new classification records are created or existing records are revised in the master classification database. Lists of newly approved or revised classification numbers and captions are posted on the World Wide Web at:

<<http://www.loc.gov/aba/cataloging/classification/weeklylists/>>

Jolande Goldberg, law classification specialist in the Policy, Training & Cooperative Programs Division and Libby Dechman, senior cataloging policy specialist in the Policy, Training & Cooperative Programs Division, are responsible for coordinating the overall intellectual and editorial content of class K and its various subclasses. Kent Griffiths, assistant editor of classification schedules, is responsible for creating new classification records, maintaining the master database, and creating index terms for the captions.
