MEMORANDUM FOR: General Shepard

SUBJECT: Designation of Units

1. Units have been re-designated following the general principles listed below:

a. Units organic to a division are numbered according to the American system.

b. Service units are numbered according to the following scheme:

*BK*

100-199	Quartermaster
200-299	Finance
300-399	Postal
400-499	Military Police
500-599	Engineer
600-699	Signal
700-799	Ordnance
750-799	Chemical
800-899	Medical
900-999	Transportation

2. This system has the following advantages:

a. It avoids the necessity of using the same numerical designation for different units except for certain allied units such as medical detachments.

b. It provides for a numerical distinction to be made between services.

c. It makes a numerical distinction between service units organic to a division and units from the service command.

d. It does not follow the American system.

e. In the event of future expansion of the JNPR the system will not have to be discarded but can be followed in the same manner for units added.

3. The revised designation is shown on the attached list, inclosure 1.

4. Recommend approval.

*Approved
