MEMO FOR RECORD:

9 Jan 50 GD SP ALD:elh

1. By C/N 1 thru Hq Comdt to G-4, 23 Dec 49, GHQ O Club has requested one hand operated computing machine and five calendar pads for use in the GHQ Officers' Club. By C/N 2 to G-4, 28 Dec 49, Hq Comdt has requested auth to issue the requested items.

2. QM (Capt Baccus) advised on 4 Jan 50 that some machines of this type are avail but that they are on the critical item list and prior to determination as to whether the items should be issued, the QM requested that he be permitted to review the problem. Therefore, by C/N 3 to QM, G-4 fwded the basic request for comment and/or recm.

3. C/N 4, QM to G-4, 6 Jan 50, recommended approval of issue of 1 computing machine and 1 executive type 1950 calendar instead of 5 as requested. QM states that since a limited quantity of executive type calendars were received and limited distribution is being made, recommendation was made that four ordinary type calendars be substituted for the executive type.

4. Release of requested items to the GHQ O' Club is within policy established by ltr, GHQ, FEC, AG 331.2 (31 Mar 49) GD, subj: GHQ Officers' Club, 31 Mar 49. Since QM recommended approval of request made by GHQ Officers' Club, necessary G-4 action is to fwd corres to Hq Comdt authorizing issue. This is accomplished by C/N 5 to Hq Comdt.

5. No further G-4 action required. Action complete on G-4 Journal No. 228.

MEMO FOR RECORD:

SUBJECT: Contract of Maintenance of Nat'l Control Machines  
Located in RYCOM

1. Basic was ltr from Hq, Ryukyus Command to CINCFE, 9 Dec 49, requesting permission to discontinue the contract with Erlanger Galinger Inc, Manila, PI, for maintenance of Nat'l Control Machines. In lieu thereof they requested that a contract be made in Japan to handle this operation. This request was predicated on faster service to be obtained due to frequency of flights between Japan and Okinawa. Air Sect, GHQ (Major Wilwerding) states that there are two scheduled round trip flights between Okinawa and Manila per week. Information obtained from QM (Major McAlhany) is that:

a. Service to be obtained in Japan at present is not satisfactory due to an inadequate stock of parts.

b. Maintenance is not satisfactory due to the fact that experienced repairmen on this type of machine are not available.

2. In view of the difficulties experienced in Japan, G-4 feels that frequency of flight is not an important factor. Inasmuch as RYCOM is receiving an equal degree of efficiency in servicing their machines as that of Japan, it is felt that the present contract should be continued.

3. QM and Comp have indicated their concurrence in the above.

4. Recommend G-4 concurrence be indicated by initialing the routing slip.

5. Within established policy.

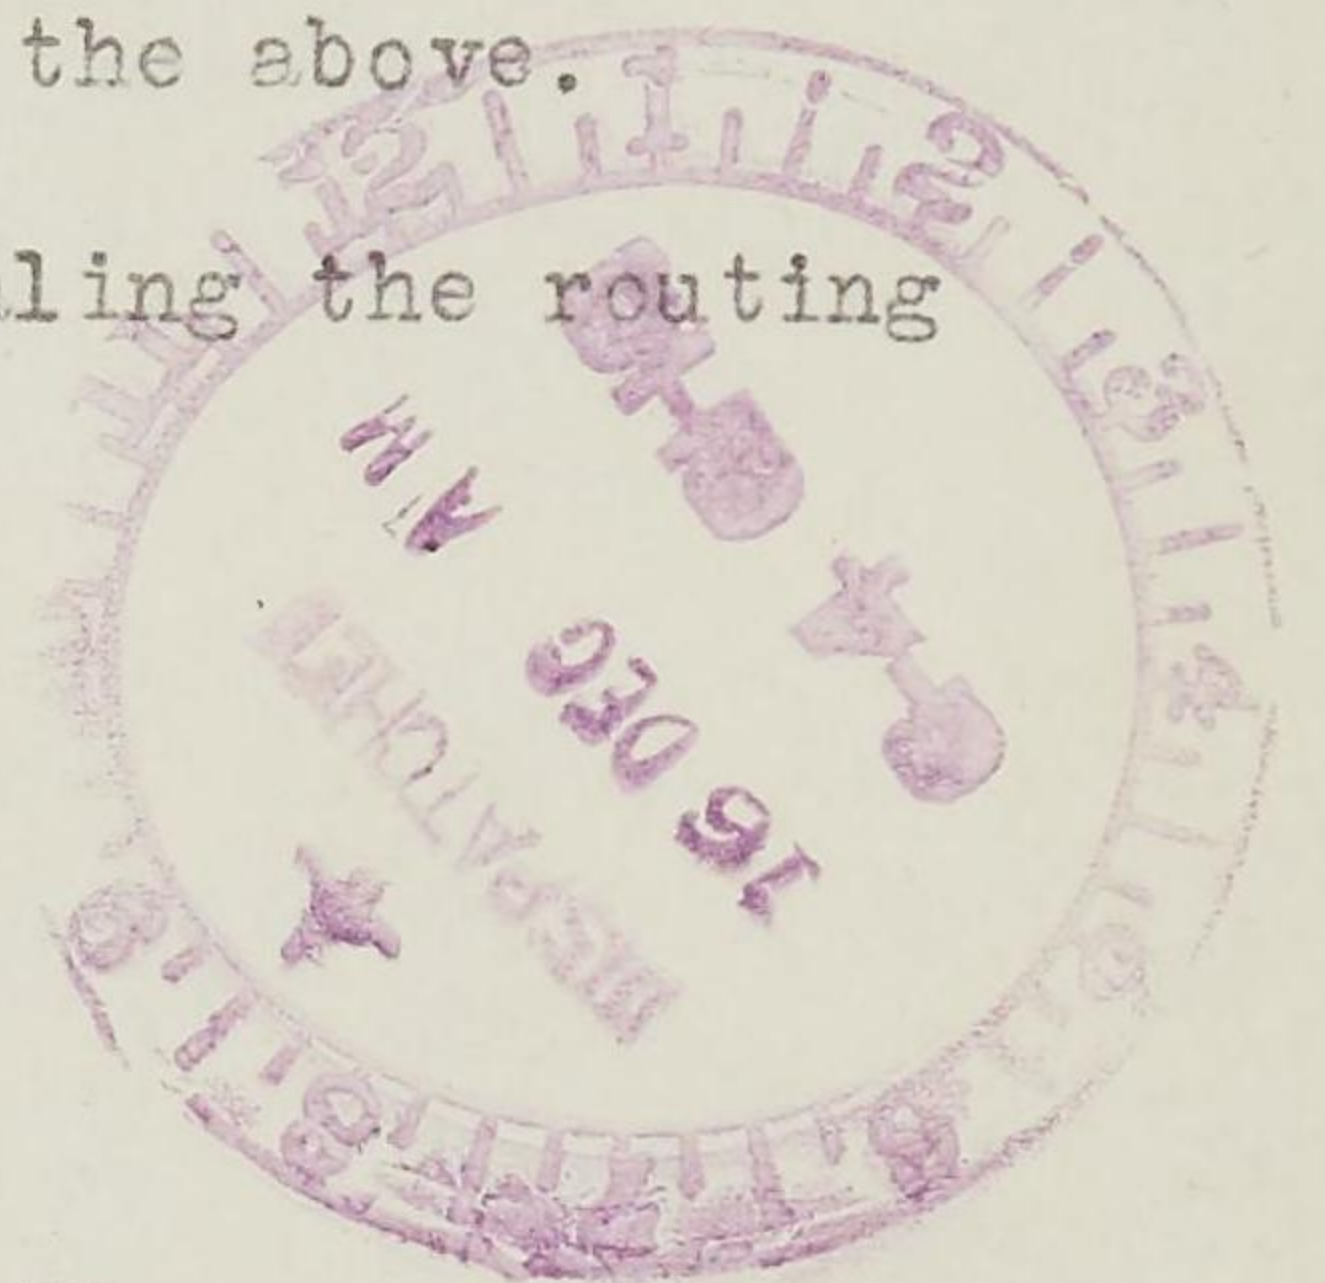

6. Interests of RYCOM considered.

7. Completes action on G-4 Journal No. 93775.

1. Request contained in basic communication is not favorably  
considered. Considerable difficulty is being experienced in properly  
maintaining these machines in Japan due to the inability of the  
Japanese Contractor to obtain spare parts.

2. Based on the above it is felt that the present contractor can  
repair and service these machines more satisfactorily and expeditiously  
than if they were shipped to Japan.

M/R: 1. Ltr, RYCOM, subj as above, AIQMC 413.51, 9 Dec 49 requests discontinuance of the contract with Erlanger and Galinger, Inc., Manila PI and that a contract be made in Japan to handle this operation. Reason for request is because of more frequent flights between Japan and Okinawa.

2. Mr. Roskelly, Class I Ser, 8th A (3-2436) stated that minor repairs on these machines in Japan were made by the Nippon National Cash Register Co. This service is not satisfactory due to the fact that the Nippon National Cash Register Co is unable to obtain an adequate stock of parts. As a result major repairs are made by the TQM Depot office machine shop. Here again, maintenance is not satisfactory due to the fact that repairmen are not specially trained to service this machine.

3. The present RYCOM contract is with Erlanger and Galinger who are authorized agents of the National Cash Register Co.

4. This ind is for the purpose of notifying RYCOM that their request for termination of present contract is not favorably considered and that this contract would be more satisfactory than one made in Japan.

HEADQUARTERS  
ADJUTANT GENERAL RECORDS DEPOSITORY  
PHILIPPINES COMMAND (AIR FORCE) AND THIRTEENTH AIR FORCE

AGRD-A 400

APO 900  
25 November 1949

SUBJECT: Photo-Copy Paper

THROUGH: Commanding General, Philippines Command (AF) and  
Thirteenth Air Force, Clark Air Force Base, APO 74

TO: Commander-in-Chief, Far East Command, APO 500

1. Reference is made to:

- a. Letter, Hq Thirteenth Air Force, Clark Air Force Base, APO 74, Subject: Photo-Copy Paper, file AG 400, dated 7 October 1949, together with 2 inclosures (copy attached).
- b. WD AGO Form 445, dated 10 October 1949 (copy attached).

2. Eight boxes (80 rolls) of photo copy paper were received by this headquarters on 23 November 1949 from the 24th Air Depot Wing on requisition as partial issue of one hundred (100) rolls to be supplied by Eighth Army, Yokohama, as per instructions contained in references outlined in paragraph 1, above. This is the urgent shipment requested by Adjutant General Records Depository as a stop gap, pending receipt of paper procured from the zone of interior.

3. The eighty rolls received bear an expiration date of 1 August 1945. Physical examination and test of the paper show it to be badly deteriorated, wet through collection of moisture inside the waterproof wrapping, and thus in unusable condition.

4. In view of the fact that photocopy paper procured in the United States is not expected to arrive at Clark Air Force Base (24th Air Depot Wing) until 1 February 1950, and in consideration of the urgent need in AGRD for good quality paper, it is recommended that immediate steps be taken to authorize local purchase procurement, if necessary, to replace the bad paper on hand. Presently, AGRD is forced to use paper with an expiration date of May 1946 which produces poor to fair results.

5. It is further recommended that the eighty (80) rolls of unusable paper recently received from Eighth Army not be charged against AGRD's Stateside procurement due to arrive in this theater in February 1950.
