VOL. 52

VICTORIA, B. C., SATURDAY, JULY 29, 1911

NO. 24

GRAIN GROWERS PLAN CAMPAIGN

WILL NOT PLACE CANDIDATES IN FIELD

Members Will Support Nominations Who Stand for Principles of Association

Brandon, Man., July 29.—Grain growers of western Canada decided at a meeting here that in the approaching election separate candidates will not be nominated for parliament to represent that powerful Agrarian society. Instead a resolution was adopted that members exert all their influence in the party with which they affiliate to have candidates named who will be favorable to the principles advocated by the Grain Growers' Association. This decision is expected to reverse the association in the three prairie provinces, though it is not necessarily binding.

The activity of this powerful organization of farmers politically threatened to seriously complicate the political situation in the west if they placed separate candidates in the field. This decision will be a relief to the old party leaders, for it means no third party men, at least for the present. An element in the meeting desired to create a third party.

The secretary and president of the organization left hurriedly for Ottawa in order to get the grain bill through before dissolution.

EIGHT KILLED IN RAILWAY WRECK

ABOUT SIXTY OTHERS SUSTAIN INJURIES

Excursion and Regular Trains Collide—Due to Misunderstanding of Orders

Grindstone, Maine, July 29.—Eight persons are dead and about sixty injured as a result of a head-on collision which occurred at the Bangor and Aroostook station here last night shortly after midnight. The train was a special of light coaches, containing 150 excursionists, and regular passenger express.

Five of the dead were passengers of the excursion train. The dead include two firemen and the engineer of the special.

The five passengers killed and all of the injured were in the smoking car directly behind the engine of the excursion.

Both trains were moving slowly at the time, one of them just pulling out of the station and the other slowing up for a siding where the trains were to have passed. The accident appears to have been due to a misunderstanding of orders.

NONE of the cars left the rails and the passengers on the regular escaped with a slight shaking up.

WILL END STRIKE

New York, July 29.—Officers of the International Association of Machinists were authorized for their statement today that the strike of machinists at the printing press plant of R. Hoe & Co. would be settled in the next 24 hours. The strike was for an eight-hour work day. After a long conference between representatives of the strikers and the firm, the original proposition of the firm to shorten gradually the work day by taking off a quarter of an hour at intervals until the eight-hour day is reached, probably will be accepted.

BOMB OUTRAGE

New York, July 29.—An east side policeman was stung and temporarily blinded by the bursting of a Black Hand bomb at 113th street early today. The policeman was passing a six-story tenement house owned by an Italian when the bomb exploded in the vestibule. The damage to the building was slight. The owner admits he had received several threatening letters.

REACH AGREEMENT

Ottawa, July 29.—The principal grievance existing between the maintenance of way employees of the Canadian Pacific and the company, which it was feared would end in a strike, has now been removed, the company voluntarily shortening its sections from the average length of nine miles to six miles.

MONTREAL'S NEW CITY HALL

Montreal, July 29.—A new city hall of a size and importance worthy of Greater Montreal, is contemplated. It will be one of the finest municipal edifices in America. Its cost is roughly estimated at \$10,000,000, and it will take ten to twenty years to complete.

ELEVEN LOST WHEN STEAMER FOUNDERS

SURVIVOR TELLS OF SINKING OF THE IRWIN

Cargo Shifted in Storm and Vessel Went Down Before Boats Could Be Launched

Halifax, July 29.—Eleven lives were lost when the steamer John Irwin, coal-laden, bound from Port Morion to Halifax, foundered. The only man saved is W. L. McLeod, the mate, who, on reaching Sherbrooke yesterday, told the following story of the loss of the steamer:

"The steamer John Irwin foundered at 5.15 o'clock six miles off Beaver Light. At the time the sea was running high, with a heavy off-shore gale. In the gale the cargo shifted badly, the ship listed and the water sweeping over everything, tore away the hatches and in a moment it was evident the ship was doomed. The captain ordered the boats cleared, but before the covers could be cut away the steamer plunged under head first, carrying all hands down with her. The second engineer, I believe, was still below and could not reach the deck."

Mate McLeod went on to say that when he (the mate) came to the surface he secured a cork fender. A moment later one of the hatches and part of a bulkhead appeared, out of which he constructed a raft. He picked up the cook and shared his raft with him. He saw the chief engineer on another of the hatches and spoke to him. He also saw Alex. McIntosh, one of the firemen, on some wreckage, but they soon disappeared.

The terrible battering of the storm soon told on the cook, and he lost heart and despite Mr. McLeod's repeated rescues he was unable to save the unfortunate cook, who died of exposure that evening.

Mr. McLeod drifted ashore at eastern Redford at the entrance to Liscombe harbor, between six and seven o'clock on Wednesday night, in a state of utter exhaustion. He slept under a tree all night and in the morning managed to make his way over the broken country to Abraham Fancie's, at Marjoseph, where he was cared for and on the arrival of the Dufferin he came to Sherbrooke.

Asked for further details McLeod replied that "it was all too sudden to leave much to tell; the cargo shifted and she went down within a minute."

McLeod did not know the names of all the members of the crew, who numbered eleven all told.

HARVESTERS FOR CANADIAN WEST

Ten Thousand Men Will Leave Ontario Early Next Month

Toronto, July 29.—The call for 50,000 farm laborers for the western harvest resulted in hundreds of applications to passenger agents for tickets on the first train which leaves August 3. It is expected that 10,000 will leave Ontario for the west on that date.

More Men Needed.

Minneapolis, Minn., July 29.—Canada wants 20,000 men from the United States to help harvest the crops of Saskatchewan. F. Hodley Auld, special labor commissioner of the province of Saskatchewan, appointed to secure the men, has arrived in Minneapolis.

"Saskatchewan will harvest 200,000,000 bushels of small grain this fall and summer, and we have not the men to help do the work," said Mr. Auld. "We want men from the United States, and a special inducement will be made by the railroad companies and immigration authorities to allow them to go to Canada. We can assure them of ten weeks' work, starting about August 10. Wages are from \$2.50 a day up."

TOWN THREATENED BY FOREST FIRES

Inhabitants Are Fighting to Keep Flames From Reaching Cartaine

St. Johns, Nfld., July 29.—The little town of Cartaine, on the northern side of Trinity Bay, with its population of 1,500 persons, is threatened with destruction by a forest fire, which has made considerable inroads into the outlying homes.

Every able-bodied inhabitant is fighting the flames, but there is no indication that they will control the fire within a short time.

A MATTER FOR THE POLICE

COAL OPERATORS OUTLINE STAND

WILLING TO ACCEPT FINDINGS OF BOARD

Ready to Negotiate with Miners—Will Insist on Absolute Open Shop

Ottawa, July 29.—The minister of labor has received a telegram from Lewis Stockett, president of the Western Coal Operators' Association, in which the operators announce their acceptance of the majority report of the board of conciliation and investigation, of which Dr. Gordon was president. The telegram is as follows:

"We feel that the majority report for the board is anything but a fair proposition, taking into account the financial standing and the large financial interests at stake. We also feel that acceptance of the same will involve which may take years to overcome. In this connection we might refer in passing to the fact that the report states that fact disclosed by the investigation of the board was that probably two-thirds of the mines in the association have operated during the past two years at a loss. We realize, however, that the public have to a very large extent been considered, and while, if we considered only the interests of the companies involved, we would be forced to decline to accept the findings of the board, we feel that rather than precipitate a coal famine and consequent hardship we should accept the same."

"In doing so we wish it to be understood that we are signifying our willingness to negotiate an agreement with the United Mine Workers of America along the general lines suggested by the board in the majority report. This we understand to mean an absolute open shop with a non-discrimination clause to be conceded to operators, that we retain absolutely the management of the mines and control all employees contracted with for the management and safety of the same. We also understand that increases in the days' wages are to be based on existing scale of days' wages as provided in the last agreement between the United Mine Workers of America, District No. 15, and Western Coal Operators' Association. Beyond this we absolutely refuse to go."

May Relieve Famine.

Winnipeg, July 29.—With the reduction to-day of \$2 per ton in freight tariffs on coal from Winnipeg west, and the acceptance by the operators of the majority of the arbitration board award, solution of the fuel famine is thought to be well under way. Large quantities of fuel are being rushed in to Alberta, Saskatchewan and British Columbia via the Spokane gateway at a cost of \$5-per ton. The duty has as yet not been suspended. With freight charges added, it is said fuel which has been sold in these provinces at \$5 a ton, will now cost \$12.

ARBITRATION TREATY WILL SOON BE SIGNED

Washington, D. C., July 29.—The general arbitration treaty between the United States and Great Britain and the United States and France will be signed in Washington next week.

An announcement to this effect was made to-day.

After the signing of the treaty there will be a formal exchange between the governments concerned.

Secretary of State Knox will sign the treaty for the United States.

ADMIRAL TOGO SAILS FOR NEW YORK

Japanese Naval Hero Given Popular Farewell in London

London, July 29.—Admiral Count Helmholtz Togo was given a popular farewell at the railway station to-day as he left for Liverpool to sail on the Lusitania for New York. In the great crowd gathered for a final glimpse of the naval hero was a large party of school boys and girls. The members of the Japanese embassy and representatives of the British Admiralty were there in their official capacities.

Admiral Togo will return home from the United States about the end of August, his engagements depending on the plans of the government, whose guest he will be.

Others sailing on the Lusitania were the Earl and Countess of Granard, Charles Haddon Chambers, the playwright, and Captain C. F. Sowerby, the British naval attaché at Washington.

NO-BLACK RUST IN SASKATCHEWAN

Little Damage to Grain From Any Cause Reported in Province

Regina, Sask., July 29.—To a Western Associated Press representative to-day A. E. Manley, deputy minister of agriculture, denied the report recently attributed to him to the effect that black rust had appeared in Saskatchewan. It was true, Mr. Manley stated, that he had stated a continuance of wet weather would be favorable to rust, but that was all. As a matter of fact no complaints of rust have so far been received by the department, and up to the present time remarkably little damage has been reported from rust, hail, frost or any other cause. The present fine weather is just what was required, and its continuance will ensure an exceptionally fine crop ready for harvest about the middle of September.

TAX RATE FOR 1911 TO BE 24 MILLS

COUNCIL STRUCK IT AT SITTING LAST NIGHT

Following Taxpayers Expressed Wish Improvements Are Exempt From Taxation

As was forecast in the Times yesterday the tax rate for the year has been struck by the city council at 24 mills on the dollar by the unanimous and almost tacit adoption of the tax by-law.

Coincident with this was the adoption of the single tax idea out of deference to the referendum vote taken at the annual election of last year. Therefore the general rates will be levied on land only, the total assessment of which has been set at \$13,491,780.

For general purposes the rate of 9.75 mills is levied, while 5.70 mills will be collected for the payment of interest and sinking fund on the city's debt. Board of health and hospital purposes call for one mill and school purposes for five mills, and three-quarters of a mill will be collected for interest and sinking fund on the school debt.

The by-law fixes September 15 next as the date on which all taxes will be come due and payable, and all who pay on or before October it will be entitled to the customary one-sixth reduction. A property owner who pays his taxes promptly will, therefore, be paying at the rate of twenty mills on the dollar.

The levy of five mills for school purposes is the limit fixed by the provincial act. The expenditure for schools has so increased that in addition to the five mills the council will have to provide out of general revenue an additional sum to the extent of 1.75 mills on the dollar, making in all an amount equal to 6.75 mills on the value of taxable land in the city for school purposes.

Immediately the by-law passed another measure to raise \$250,000 for current expenses was also given its preliminary readings.

DIES AFTER LONG ILLNESS

Montreal, July 29.—After an illness extending over nearly half a year, Stephen Seath, 27 years of age, youngest son of David Seath, secretary of the harbor commissioners, is dead in the Western hospital. For five years the young man had been in Vancouver, but four months ago was forced to give up a responsible government position and return home on account of his health.

PEDDLERS CALL OF STRIKE

Chicago, July 29.—The peddlers have voted to call off the strike against the city ordinance which prohibited them from crying out their wares. The vote was taken last night after the hundreds who had jammed the hall had listened to speeches counselling peace from Congressman A. J. Sabath and others.

The decision is approximately 2,500 peddlers.

PARLIAMENT HAS BEEN DISSOLVED

Nominations Have Been Fixed for September 14. Polling on September 21

Ottawa, July 29.—Parliament was prorogued to-day by proclamation, and immediately afterwards a proclamation was issued dissolving the house and fixing nominations for September 14, and polling on September 21.

When this morning's sittings of the cabinet council broke up, Sir Wilfrid Laurier authorized Mr. Fielding to announce the news.

The Minister of Finance promptly said: "Gentlemen, parliament has been dissolved and elections will take place on Thursday, September 21."

Rumors of dissolution were afloat all morning, but it was not believed that the announcement would come so soon and it caused the wildest excitement.

The members of the house will pack up and get away to their constituencies at once. Hon. W. Templeman expects to leave for the west about the middle of next week.

The Conservative members will get away without delay.

BODY RECOVERED.

Vancouver, July 29.—With arms folded across his breast, as if in the last moments of his life he had given up hope and calmly resigned himself to death, the body of Reginald Charles, the young Vancouver real estate man who was drowned off Jericho Beach on Wednesday afternoon, was recovered by Chief Simpson of the Police-Grey police. The point at which the body was found was about 150 yards nearer the Jericho Club than where the drowning occurred, in the deep channel on the inside of the bar.

NEW CANADIAN COINS.

Ottawa, July 29.—An extra Gazette proclaims the design for the new 50-cent and 10-cent coins. The obverse will have an effigy of King George, with the Imperial crown and the robe, and the inscription, "Georgius V. Rex of the United Kingdom, Canada, etc." and on the reverse, "50 cents" or "10 cents" as the case may be, the year, a wreath of maple and an Imperial crown.

FARMER KILLED.

Belleville, Ont., July 29.—Robert Eaton, a prominent farmer was killed in a run away to-day.

PROBING WHOLESALE LOOTING OF CARS

Seven Men Under Arrest at Winnipeg—Others Will Be Taken Into Custody

Winnipeg, July 29.—Ramifications of wholesale robbery of freight cars, covering a period of two years, attributed by the C. P. R. secret service to a number of grain weighers of the Dominion government, reached new proportions to-day, when Jake Moyano, the proprietor of a north side store, was arrested charged with receiving the loot.

Seven Dominion grain weighers are now under arrest and the detectives assert that a number of other men employed in a similar capacity are to be taken into custody, twenty in all.

WOMAN POISONED.

New York, July 29.—Mrs. Mary Little ate three pieces of colored candy which she found last night upon her kitchen table, thinking her daughters had made it, and died an hour afterward in terrible agony. The candy was rat poison handed to her son by the janitor to rid the apartment of mice.

CALGARY TO HAVE BIG PACKING PLANT

Morris & Co. Will Begin Work in Fall—Plans Call for Ex- penditure of \$3,000,000.

Calgary, July 29.—On his return from Chicago, Industrial Commissioner Muller announced that Morris & Co. had indicated their intention of starting work this fall on a \$3,000,000 packing plant which will employ 1,000 hands, increasing to 2,200 after the first year. The daily capacity of the plant will be 1,200 cattle, 5,000 hogs and 5,000 calves. The plant will be designed to serve the territory from Moose Junction east to Vancouver on the west; also Alaska and the Yukon territory. Branches will be established in every large city in this territory.

MONARCHISTS WILL BE DISPERSED

SPANISH GOVERNMENT TO AID PORTUGAL

Soldiers on Frontier Being Re- inforced—Minister Says Monarchy is Dead

Lisbon, July 29.—Spain is taking measures to break up the monarchist preparations in Galicia, Spain, which are being made against the Republic of Portugal and as the Portuguese government now believes will endeavor in good faith to disperse the monarchist recruits, concatenate their supplies of arms and prevent the organization of a raid upon Portugal.

Foreign Minister Machado stated to-day these assurances had been received from the Spanish government and added, "Madrid has for some time considered the Portuguese monarchists in Spain near the border an inoffensive phase, merely finding an asylum from the troubles in their own country. Now Spain is convinced that the refugees are planning hostilities against the republic, thus misusing the privileges of the asylum."

Whenever the Portuguese are found near the frontier they are ordered by the government to remove to the interior of Spain.

The civil government on the Galician boundary has been increased by about 1,000 men and is co-operating with the Portuguese troops against persons who cannot satisfactorily explain their reasons for crossing the line.

Replying to an inquiry as to why it was thought necessary to have 1,000 Portuguese troops on the northern boundary, while further reinforcements are being sent out, the minister said that the government was determined to cut off all irregular communication and separate completely the conspirators within the district. Asked how long the newspaper correspondents, who have gathered here from other countries, would have to wait for the projected invasion, Senor Machado replied with some feeling: "If you wait for that you will die here. The monarchists have no aspirations and do not represent their aspirations."

"The monarchy is dead and is kept in its coffin by the lively recollection to the people of its incapacities, corruption, squanderings and dull fulfillment. No Portugal has had enough of the select unit."

The minister said he was pleased that the United States has been the first power to give full recognition to the republic. No power, he added, has yet done this.

TWO DEAD.

Kingston, Ont., July 29.—Within fifteen minutes of each other Hazel and Maude, daughters of Mrs. W. J. Shannon, Newburg road, near Napanee, died on Thursday morning of septicaemia. The girls were 15 and 11 years of age respectively. The trouble was due to a defective septic.

FAMILIES DESTITUTE.

Nough Bay, Ont., July 29.—Late aid vices received from the townships of Hammer and Cargool north of Sudbury, reveal distressing conditions, twenty-nine families being destitute.

GETS FIFTEEN YEARS.

Georgetown, P. E. I., July 29.—Wm. Mollinsau, of Milltown Cross, tried for murdering his wife on May 4, and convicted of manslaughter last Wednesday in the Supreme court, was sentenced yesterday by Judge Hassard to 15 years in the penitentiary.

Hello There! Mr. Auto Man!
YOU CAN'T AFFORD TO BE WITHOUT

CAMPBELL'S AUTO LUSTRE

It's a Time Saver when cleaning your Machine. It will make an old machine new. You can shine your auto up in half the time and with a quarter of the trouble. You put it on with a spray in half a minute and wipe it off with cheese cloth, then look at the shine on your auto; it can also be used to polish Furniture, Piano, etc.

FURNISHED IN GALLON TINS, at \$3.50
 SPRAYS, each 75¢

PAVING COMPANY IS TURNED DOWN

Request for Change in Material for Binder Meets With Opposition of Council

The Canadian Mineral Rubbing Company which is at present carrying out the great paving scheme of the city of Victoria was much in evidence at the deliberations of the city council last night in the first instance they tabled a request to institute a change in the combination of materials for the asphalt binder, the change being that pea gravel be allowed to substitute crushed rock. As there was no valid reason for making the change the council decided to refuse the request. The old trouble regarding the teams was also discussed on the report of L. E. Gower, who was appointed to investigate the matter.

On the first question quite a debate resulted, and not a few unpleasant things were said. In fact Ald. Okell was called to order for making the pungent statement that some of the aldermen were apparently very anxious for the welfare of the Canadian Mineral Rubber Company. While refusing to withdraw what he had said, he denied that it need necessarily cast any aspersion upon any particular alderman, or for that matter upon the council as a whole.

Aldermen Humber, W. F. Fullerton and Ross opposed the granting of permission to make the change. The first named pointed out that there was no excuse for the company making such a request as there was plenty of rock on the city streets which they could have. Ald. Fullerton wanted to know what the company was going to make out of the deal, and Ald. Ross thought the company's need in the matter of rock was the city's opportunity.

Ald. Gleason again found himself in a position of splendid isolation. He was the only alderman present who thought the request should be granted, and his reason for taking that stand was simply because it had been pointed out by Warren Rodney, the asphalt expert, that the change need not work to the detriment of the contract. The alderman thought that the advice of their own experts should be followed.

Ald. Humber thereupon challenged Ald. Gleason to state that of his own knowledge pea gravel made a better binder than crushed rock. The idea was perfectly preposterous. Anyone who knew anything at all about the subject was aware of the superiority of crushed rock over pea gravel.

Mayor Morley indicated that as no definite reason had been given by the company for requesting the change there was no occasion for the council to depart from the original specifications.

In L. E. Gower's report upon the teams employed by the company, it was stated that there were 32 two-horse teams and seven single horses locally owned, while 22 two-horse teams and four-horse teams are claimed by the company as its own property. As to the teams claimed to be owned by the company Mr. Gower found they belonged to various individuals, and that one of these owners, a man named Harrison, recently brought 75 head of horses to the city under his name, the customs department's records showing this.

The report was referred to the city solicitor. The report regarding the labor employed by the company will be submitted shortly.

BIG SAWMILL BURNED.

Loss By Fire in Oregon is Estimated at \$300,000.

Springfield, Ore., July 28.—The plant of the Booth-Kelly Lumber Company, the largest inland sawmill in the state, was totally destroyed by fire of unknown origin late yesterday together with 2,000,000 feet of sawed lumber and 2,000 cords of fuel. The plant of the Oregon Power Company, which supplies all the larger towns of the upper Willamette Valley with electric power, was put out of commission through the loss of fuel supply and the burning down of a quarter of a mile of wires.

The loss to the Booth-Kelly Lumber Company will be \$300,000, with insurance of \$100,000.

The fire started in the main mill and its spread was exceedingly rapid. The watchman from the planer shed saw the smoke in the main building, but before he could cross the yards the whole mill was ablaze. Pumps for the protection of the mill were located in the mill proper, and were soon out of commission.

The Oregon Power Company had just installed a new pump to supply the city water system, but as soon as the full pressure was put on the pump broke, and from that moment there was practically nothing to do but watch the flames sweep from one end to the other of the yard, which covers ten acres.

Positively no rescue. Every colored suit has been grouped into three special prices, \$5.00, \$11.50, \$17.50. Safe ends to-night, so you must decide quickly if you want one. J. N. Harvey, Ltd., successors to B. Williams & Co., Yates street.

FAVORS RESTRICTION OF STUMP SPEAKING

That is Mayor's Attitude but Council Leaves It to the Chief of Police

Mayor Morley may have lost some prestige as the "workers' friend" last night when he introduced to the city council a resolution prohibiting public speaking on the street corners or elsewhere without a permit, and even then restricting it to certain localities. His original resolution, however, was largely following of Socialists, at whom it was directly aimed, and their comments upon his worship's attitude were more laudatory than encouraging.

After much wrangling, which occupied about an hour, it was decided that the Chief of Police have the discretion vested with him of regulating such meetings, their time of opening and closing, and the locality in which they would be held. Together with this amendment it was decided that the Socialists be accorded a specific privilege of using the corner of Langley and Yates street for their meetings. A similar privilege was accorded the Salvation Army.

After the resolution had been moved and seconded, Ald. W. F. Fullerton rose to object. He wanted to know the mayor's reasons for the proposed change in the regulation of the streets. He regarded the purport of the resolution as retrograde. It would be a slap in the face to Victoria to pass such a resolution. Victoria was known throughout the world as a peace-loving city where everyone had the right of free speech, but if such a resolution as this was passed people would begin to think all manner of "evil" things about the character of the residents on the assumption that it had been found necessary for the authorities to withdraw from them the common liberties of other places. The passing of such a resolution would give rise to the idea that Victoria was not a law abiding city, and he contended that she was not only a law abiding city but that they were all very proud of the fact.

In replying to this line of attack Mayor Morley stated that the object of the resolution was not to restrict free speech. He contended that it gave the opportunity for all free speech as well as exercised anywhere else in the world. It simply meant that as Victoria had narrow streets it would never do for them to have their streets blocked with meetings to the detriment and hindrance of traffic. Regulation did not necessarily mean restriction, and as a matter of fact he claimed that under the resolution the Socialists and other organizations who found it necessary to hold open air meetings would be greatly benefited by the legalizing of their meetings.

Ald. H. M. Fullerton did not believe in any kind of gathering on the public streets on account of the liability to cause strife. Furthermore, he was sure that the other aldermen were of the same opinion only they dared not say so in the presence of the Socialists.

Ald. Gleason did not like the idea. He thought it went too far. He saw himself being buttonholed at every street corner by interested parties craving him to have such a measure squashed. He seemed to get everybody's complaint to bear, and it was getting almost too much for him. He thought an aeroplane would be the only means of escaping from the wrath of his friends if this resolution were to pass.

One of the party of Socialists was then requested to express their views on the situation with a view to helping the aldermen to come to a decision, but the representative put up for the purpose of making a "fact" of the Sunday evening disturbances instead. At the end of a long harangue, in the course of which he stated that there never was a Socialistic disturbance the world over that was not started by the authorities, in reply to a question he made it clear that the resolution on the corner of Langley and Yates streets would be acceptable to them.

STAGE ROMANCE.

London July 28.—A pretty romance beginning last January at the stage door of the New Theatre in New York, culminated here in the marriage of William Pancost Clyde, Jr., son of the millionaire founder of the steamship line bearing his name, and Dora Jessie Ellen Taylor, the pretty daughter of a London tea merchant. The couple were married by special license and before the ceremony Clyde settled \$50,000 on his bride.

The wedding took place in Dulwich College chapel. Major-General Edgerton was best man and Frances Thorne, daughter of President Gilbert G. Thorne of the Park National Bank, New York, was maid of honor.

MAY BE GRANTED PAROLE.

Remaining Indictments Against J. R. Walsh, Convicted Banker, Have Been Quashed.

Washington, D. C., July 28.—The only obstacles that would prevent John R. Walsh, the former Chicago banker, from being released on parole from Leavenworth penitentiary in September, were removed yesterday when word came from Chicago that the remaining indictments against him had been quashed some time ago at the request of United States Attorney Sims. The federal parole board which considered Walsh's case did not know the indictments had been quashed, and was considering him ineligible for release under the rule which prohibits paroling a prisoner who is still under indictment.

Walsh's application for release, if he makes one, will be taken up by the board when it meets at Leavenworth on September 12. By that time he will have served one-third of his sentence of seven years. President Taft recently refused a par-

don or commutation of sentence to Walsh. At the same time he refused clemency to Charles W. Morse.

A meeting of the Ladies' Auxiliary of the Y. M. C. A. will be held at the home of Mrs. A. W. Gleason, 1482 Vining street, on Monday evening at eight o'clock. All members are urgently requested to be present.

Mrs. Evers has consented to extend her stay to Saturday, August 5, and will continue her interesting baking lessons at the Gas Co.'s Yates street store, giving talks at 10 a.m. and 2.30 p.m. daily. All ladies cordially invited.

Lever Brothers, Toronto, will send you a cake of their famous Pearlol toilet soap, if you mention this paper.

EXPERIENCE FROM SPEAKING

THE DOCTOR: "As I see, restless and feverish. Give him a Steedman's Powder and he will soon be all right."

COAL FAMINE
ON THE PRAIRIES

DEALERS LOOK TO
STATES FOR RELIEF

Even If Mines Were Reopened
Now, Shortage Would
Exist in Winter

Winnipeg, July 29.—The coal famine continues acute over Saskatchewan and Alberta. Even if the mines were opened to-morrow the famine could not be relieved by winter. Practically no coal in the past has gone into these provinces from any field outside of that in which the strike prevails. All of the railway officials agree that there are no adequate facilities for getting fuel in via the lakes. It is a physical impossibility.

Any relief must come from across the line, and this is only possible through the suspension of the tariff.

Situation in Saskatchewan.
Regina, Sask., July 29.—The government, from information secured from all the coal dealers in the province, has issued a report on the present situation. Reports of general scarcity of fuel are confirmed and it is found that with the exception of a little stubble which covers the Strath Line and from the Souris Valley, the only source from which coal is brought here is the district where the mines are now closed. The quantities of Pennsylvania coal shipped in are very small. The coal dealers have made many suggestions, but in general they involve demands of more or less drastic action on the part of the Dominion and Provincial governments. The suggestions contain little that is new and that not practical.

Offer From Montana.
Calgary, July 29.—W. Y. Brown, representing big coal interests in the vicinity of Billings, Montana, called at the office of City Commissioners yesterday, and made a proposition whereby he would agree to deliver to the city before October 1, any amount of coal up to 200,000 tons. Within a rough estimate he figured that fuel which is of high grade bituminous variety, would cost, laid down in Calgary, \$8 per ton exclusive of duty and about \$3.35 with duty paid.

The Montana coal man offered to sell the city three grades of coal, the first to cost about \$3 per ton, second grade to cost \$2 per ton and third \$1.50 at the mine. He stated that he could not enter into a contract to supply the city unless it provided for some of each grade. The coal, he promised, would be thoroughly cleaned. He further assured the committee that there would be no difficulty about cars, for the fuel would be loaded on the Great Northern, Burlington and Northern Pacific cars, which would bring it right through to Calgary. All that would be required would be locomotives to haul it over the Canadian Pacific lines. He thought that this advantage should enable the city to reach a special agreement in regard to reduce the freight rates over Canadian Pacific lines. The committee asked Brown to furnish definite figures.

"There is only one way that we could possibly get a supply of coal this winter, and that would be for the mine operators to open their mines and operate them according to the suggestions in the report of the conciliation board," said E. A. Bagge, vice-president of the board of trade, who represented that body at conference of boards of trade, mine operators and miners, at MacLeod recently.

The opinion is that it is very improbable that an amicable settlement will be reached immediately between miners and operators. He said that if mine operators would open their mines many of the miners would go back to work provided the terms in the conciliation board report were adhered to.

RETURNS CHEQUE TO
WISCONSIN SENATE

Retired Methodist Minister Will
Not Accept Money for Offering Up Prayer

Madison, Wis., July 29.—Rev. A. L. Tull, a retired Methodist minister, has just returned to the Wisconsin legislature and has returned a cheque for \$3, which he was paid for delivering a prayer in the senate, with a letter to the state treasurer reading as follows:

"I received your cheque for \$3 for delivering a prayer in the senate. I thank you and the senate for the courtesy, but return it. It would be purely commercialism to accept \$3 from the senate for asking the favor of the Lord. Really, it seems as if the \$22 paid for prayer during the session was not money, as the legislature did such 'rotten' business on all the temperance measures. It indicates that not a single prayer reached the Lord for the promotion of temperance, but that He favored the brewers and saloonkeepers."

"I have been in debt for sixteen weeks, and needed money worse than any of them, but not such money as this."

THINKING THEMES
BY DR. FRANK CRANE

If we look intently at any great movement of the human race, we will discover that it is taking place in conformity with some seed-idea. It is the multifarious and diverse working out of some simple, cardinal principle.

And it seems to me that the underlying seed-idea of all social development is the Family. All political changes that have taken place, particularly since the Reformation, have been toward the Family, whether such changes have been by bloody revolutions or by peaceful reforms.

The Family means co-operation instead of competition; it means paternalism for the benefit of all instead of paternalism for the benefit of the ruler; it means the substitution of altruistic for brute motives; it means the efficiency of perfect concentration in government and the justice of complete responsibility in government.

We are gravitating toward a better world—led on by "a power not of ourselves," call it God or call it Nature, toward the world-family. As the family was the first form of human government, so it will be the last. All evolution is from the small to the great family; first, the home, then the clan, tribe, feudality, nation, then the world.

The Family, this idea, like a tall, white angel, has been ever with us, shaping by its silent influence the course of destiny. Deep in the heart of man, in his home, in his nearest and dearest concerns, is this prophetic wilderness way, as a pillar of cloud by day and of fire by night, inducing him to apply, though unconsciously, the principles of his freeds to his city, his country, and at last to his brethren of the seven seas.

PRISONER SCORES
JUDGE AT TRIAL

Declares His Attorneys Are
Gagged by Rulings of
the Court

Denver, Colo., July 29.—Frank K. Henwood, convicted of murder in the second degree for the killing of George E. Copeland, while shooting at S. L. Von Phul, the St. Louis balloonist, who he also killed, in a hotel bar room here on the night of May 24 last, was sentenced to life imprisonment. Sentence followed the denial of an application for a new trial.

Immediately Attorney John T. Bottom, for the defence, announced that he would ask a supersedeas, and, failing in this, would take an appeal to the Supreme court.

Never in local tribunals have the presiding judge and prosecutor been subjected to such an exhortation as that pronounced by Henwood when asked what he had to say "why sentenced should not be pronounced."

"There was no reason in Kenwood's mind as he walked to the bench and began: "I come for sentence, but not for justice, from a jail where for two months I have been surrounded by prisoners, whose faces become blanched and who tremble with fear when they contemplate coming to this court for trial so long as Judge Whitford sits in this division."

He characterized his treatment by the court and prosecutor as a "persecution, not prosecution," declared that his attorney had been "bound and gagged by rulings of the court," and that his trial for the killing of George E. Copeland had, in reality, been turned into a preliminary hearing of the divorce case brought by John W. Springer against his wife.

"I am now ready for your, unjust sentence," he concluded.

Judge Whitford listened attentively to every word of the defendant. "I am not surprised," said the court, "at your state of mind, since you come from a jail where for two months you have been surrounded by all classes of prisoners, fourteen of whom I so recently sent there. I am of the opinion that the verdict of the jury in your case should have been first degree murder. I believe that you shot Von Phul because of jealousy over Mrs. Springer. But for some reason the jurors returned a finding of second degree murder. The law leaves the sentence to be imposed in the discretion of the court. It is the opinion of this court that you shall be imprisoned in the penitentiary at Canon City for life."

WILL TOUR WEST

Windsor, Ont., July 28.—About 200 members of the Buckeye Press Association start to-day on a 15-day trip through Western Canada at the expense of the Canadian government. They leave Detroit this afternoon via Grand Trunk Railway. The association includes all branches of the newspapers and job printing trade, reporters, editors, circulation and advertising men, and printers.

Notice to Contractors

Tenders are invited up to 12 o'clock noon of Tuesday, August 8th, 1911, for the construction and completion of a six story building to be erected on Douglas street, between Broughton and Courtney streets, Victoria, for Messrs. Bradshaw, Martin & Morgan. Plans and specifications may be seen at the office of the undersigned. The lowest or any tender not be necessarily accepted.

FRIENDS OF LABOR.

The opposition press of the western provinces is raising an alarmist cry respecting the alleged intention of the government to relax the immigration laws and permit aliens to enter Canada to participate in the gigantic enterprises of railway construction in British Columbia and grain harvesting on the prairies.

Mr. G. H. Barnard, M.P., in a recent address in Victoria told his audience that the immigration laws have been violated by corporations or contractors, who have brought aliens into Canada contrary to the provisions of the Alien Act.

and made the same statements, in the same guarded way, that he made in this city. When it was pointed out that any person could take action in case of infraction of the law, two or three Conservative members objected that private prosecutions are beyond the financial ability of ordinary people.

Such a course would appear to be a sincere and consistent way for Mr. Barnard to reach a benediction for the laborer, but it might also—accepting his statements as true—seriously embarrass Mr. Barnard's political friends.

They will go farther than this. They will ask Mr. Barnard why, if he is so solicitous for the interest and welfare of the white and English-speaking laborers, he does not employ these in preference to Chinese in his magnificent gardens.

It appears to be the settled policy of Conservative politicians to palm themselves off as friends of white labor while they give all their plums to Orientals.

These men can, apparently, promote as the friends of labor and at the same time save a few dollars to their already well-filled coffers by employing Orientals.

Nor are Messrs. Barnard and Cowan the only offenders. Other political speakers recently heard in Victoria on the Conservative platform are in exactly the same position.

places in the employ of many members of the government are held by Orientals to the exclusion of men and women of our own race and blood.

BRINGS DANGER HOME.

Another syndicate organized to purchase lands in the Peace River district by using names and power of attorney of Seattle irresponsibles has been formed.

When these citizens of the republic of Uncle Sam get comfortably settled in the many luxurious parts of British Columbia where they are acquiring land and, judged by the numbers apparently coming into the province, they will undoubtedly overwhelm all Canadian and British sentiment and demand the exclusion of British Columbia from the Dominion and its grafting into the United States.

It appears to be the settled policy of Conservative politicians to palm themselves off as friends of white labor while they give all their plums to Orientals.

TUBERCULOUS MILK.

In view of the prevalence of tubercular infection among bovines in various sections of the province, the investigation of which has recently resulted in the slaughter of many dairy cows, it may be profitable to reflect upon the report of the Royal Commission of Britain, a summary of which appeared in the Times of yesterday.

The commission has been ten years in preparing its report, but the time was necessary in order to make thorough investigation of all the cognate subjects included in its work.

David Spencer, Limited, August Furniture Sale Commences Tuesday

This sale, like our general departmental sale, has been one of great interest to the people of Victoria for many years past, but this year there is every indication that the interest and enthusiasm will be more intense than ever.

LAND ACT

HIGHLAND OR GOLDSTREAM LAND DISTRICT OF VICTORIA.

Take notice that Matilda Greenwood John, of Victoria, B. C., wife, intends to apply for permission to purchase the following described lands: Commencing at a post placed at high water mark on the western shore of Finlayson Arm and about forty chains (40 ch.) south of the northwest corner of section six (6), Goldstream Creek, thence east twenty chains (20 ch.) more or less to the shore line of Finlayson Arm, thence north along the shore line forty chains (40 ch.), thence west forty chains (40 ch.) more or less to the western shore line of Finlayson Arm, thence north along the shore line of Finlayson Arm forty chains (40 ch.) more or less to the place of commencement, and comprising eighty acres (80 ac.) more or less.
MATILDA GREENWOOD JOHN.
Date of location, 14th June, 1911.

W. J. Brandt, provincial exhibition commissioner, reports the keenest interest in the British Columbia exhibit at Winnipeg, where the display was crowded from opening until closing by a crowd that is eager for information regarding this garden province. British Columbia stock, too, is receiving as high a place as the province's fruit is. At Winnipeg the cattle from the provincial farm at Coquitlam Retreat for the famous won everything in the classes in which they were entered, the competition being against the best animals from Eastern and Western Canada and the middle states. Similar successes followed at the Regina fair.

WELL KNOWN ARCHITECT COMES TO VICTORIA

E. Stanley Mitton Opening Offices in the Board of Trade Building

There are many people in Victoria who take a lively interest in building, interior decoration, and architecture generally. These will receive the news that Mr. E. Stanley Mitton is opening studios here with a great deal of pleasure. Associated with Mr. Mitton in the local management of what is already a firmly established business with far-reaching ramifications, is Mr. Herbert T. Whitehead, who has had a very wide architectural training and a great deal of practical experience in handling all kinds of architectural and construction work both in the Old Country and Canada. Mr. Whitehead, with his family, is taking up his permanent residence in this city.

No firm in Canada is so fully qualified to deal with high-class residence work, office blocks, apartment houses, hotels, etc., and this fact is so well known that any further comment is unnecessary. Many of the most attractive and substantial structures in Vancouver, Westminster, and in many other cities, are permanent witnesses of the merit of its work.

Interesting photographs, plans and sketches are to be seen at the studios, where all interested in these everyday arts and necessities will be welcomed to view them. In this connection, it seems almost superfluous to point out that all designs are prepared under the personal supervision of both Mr. Mitton and Mr. Whitehead.

AT THE GORGE PARK.

Last night another large crowd witnessed the excellent series of moving pictures being shown at the Gorge park. After nightfall there is a general move towards the open space in front of the canvas and toward the dancing pavilion at the popular place of amusement. Included in the series of pictures being shown this week are several humorous ones. The Gorge orchestra plays nightly, and to-morrow afternoon will give a concert, a special programme having been arranged.

The Sunday school of the First Baptist church, with the Victoria West and Burnside missions, will picnic this afternoon at Macaulay Plains, foot of Lampton street. The sports and races are under the management of the men's Baraca class. Tea will be served about 6 o'clock.

To-morrow at 9:30 a. m., at the Friends' Hall, Courtney street, Mayor Morley is to address a mass meeting of young men. "The Problems of Civic Life" is the subject he will debate upon. The meeting is under the auspices of the Victoria First Adult school.

NOT YET TOO LATE TO BE COUNTED IN CENSUS

Persons Overlooked Should Notify Commissioners or Write to Ottawa

The following statement is issued by the census commissioner at Ottawa: "The newspapers have been reporting omissions on the part of enumerators of the census, especially in the large cities of the Dominion, and notwithstanding the care of the census office to ensure a performance of accurate and full work on the part of the enumerators it is possible that in some instances persons, and even families, have been passed over."

It is known at the office that many reports of omissions are without foundation, and that generally the enumeration has been well and fully made, although it is yet too early for a final decision. The fact is that the census of a district or enumeration area was often not completed when complaints were first publicly made. The census office earnestly desires that the name of every man, woman and child in the country, as well as all other information called for in the schedules, should be recorded, as the statute and the instructions require.

But least there should be an inadvertent omission on the part of any enumerator, the office respectfully invites the co-operation of the public for the completion of a full census. To this end persons who believe or suspect that they have not been taken are asked to notify the census office at Ottawa, giving their names, post office address, street and number if residing in this town or village, or concession and number of lot if residing in country places.

Letters containing information of this nature are post free, and if it is found that such persons have not been enumerated in the returns made to the census office, means will be taken to remedy the defects through the local officers of the census who were employed in the work, and who are responsible if any mistakes have been made in their respective enumeration areas.

Until August 1, Thomas J. W. Hick, commissioner for Victoria, or J. C. McIntosh, commissioner for Nanaimo (including Esquimalt and Oak Bay), will receive names of any one who may have been left out, but after that date their returns will be sent to Ottawa.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, July 29—5 a. m.—The high area still extends from Alaska southward down the Coast, while an extensive area of low pressure covers the whole region east of the Rockies to the Great Lakes. Fine, dry summer weather prevails throughout this whole Western country.

Forecasts.
For 24 hours ending 5 p. m. Sunday. Victoria and vicinity—Light to moderate winds, chiefly southerly, fair and warm to-day and Sunday.
Lower Mainland—Light to moderate winds, fair and warm to-day and Sunday.
Reports at 5 a. m.

Victoria—Barometer, 30.06; temperature, 59; minimum, 50; wind, 2 miles N. E.; weather, clear.

Vancouver—Barometer, 29.98; temperature, 59; minimum, 56; wind, 6 miles W.; weather, clear.

Kamloops—Barometer, 29.94; temperature, 61; minimum, 61; wind, 6 miles W.; weather, clear.

San Francisco—Barometer, 30.06; temperature, 59; minimum, 50; wind, 8 miles W.; weather, cloudy.

Prince Rupert—Barometer, 29.93; temperature, 52; minimum, 39; wind, calm; rain, .01; weather, cloudy.

Winnipeg—Barometer, 29.82; temperature, 60; minimum, 50; wind, 8 miles W.; weather, clear.

General state of weather, fair.

MIRA SINGH'S CASE.

At a public meeting held last night in the Friends' hall, Courtney street, regarding the deportation of Mrs. Mira Singh and her three-year-old daughter, it was decided to telegraph the authorities at Ottawa.

It was also resolved to approach the ministers to the local churches, the women's organizations in Canada and the various missionary societies for help in having the laws amended in such a way as to admit into Canada the wives and children of Hindus already here.

Mrs. Mira Singh's application for habeas corpus comes on at Vancouver on August 1. George McCrossan, barrister, appearing on her behalf.

THE GROCERS' PICNIC.

The annual picnic of Victoria's grocers will this year take place at Goldstream on Thursday, August 17, and every effort has been made by the managing committee to make the excursion equal any previous efforts of the association.

A full programme has been drawn up, including a ball game between the wholesalers and the retailers, in which there is the keenest interest, and all the events have been provided with handsome prizes for competition. The tombola will be held again this year and everyone who purchases a ticket has an opportunity of winning the prize. The day's festivities will be closed with a dance, which will be held in the open air pavilion.

It was decided at last night's meeting of the committee to engage a five-piece orchestra for the occasion. Mr. Miller of the Goldstream hotel is making the arrangements for the concert. A large number of Victorians who will attend the picnic. Every convenience has been made for picnickers and parties, who are taking their own baskets.

MEL SHEPPARD

THE PEERLESS ONE

PERSONALITY and Spectacular Career of the Record Breaking Runner—His Compeer Among the Professionals, Billy Queal.

Copyright, 1931, by the New York Herald Co. All rights reserved.
If a track athlete with a weak heart can win two world's championships and break one and equal another record on the same day, what can an athlete with a normal heart do?

That was the question asked of the physicians who three years ago declared Melvin Sheppard, the king of all middle distance runners, physically unfit to be a policeman in New York city, on the grounds that his heart was weak. Three weeks later the same man, representing America at the Olympic games in London, electrified the world by taking into camp Britain's best distance men and running eight hundred metres faster than this distance has ever been run. He is not "pounding" a beat now. That question has been settled long ago. He is now a valued member of the customs service of the port of New York by special appointment from President Roosevelt in recognition of his work at the Olympic meet.

With the exception of the great and only Lon Meyers, Sheppard is perhaps the greatest middle distance runner that America has ever produced. From the time he started running as a schoolboy at Brown "Prep" School, of Philadelphia, he was always in the public eye, and has remained there ever since. His life has been a most picturesque and eventful one. He has crowded into his twenty-eight years of existence experiences that would do credit to a man twice his age.

Even as a schoolboy his ability was recognized in a singular manner.

"You know," said "the Peerless One," as he is sometimes called, "over in Philadelphia they did me the honor of hiring private detectives to keep on my trail. As you are probably aware, the age limit in scholastic circles is twenty-one years. I was a rather husky looking youngster in those days, and while I was older than many of my competitors, I can honestly say that I never competed in a schoolboy meet when I was ineligible.

"My mother was the innocent cause of an uncleaned blot of notoriety, as she furnished the information which led up to an article in one of the Philadelphia papers concerning my age. One of the schools hired a couple of private detectives to find out all about me, as I regularly defeating all of the best men they could get out. It was thought that I might be a professional, and my whole record was put through a sieve without anything being dug up to disqualify me. Finally the plan was hit upon to have me declared ineligible on account of age.

"As I stated before, I was not exactly a youngster. I could not afford to go to school at the same time as the others and had to support myself almost entirely on my earnings. The detectives posed as census takers, and took the pedigree of the whole family, finally asking where I was born, and then it was easy to get my birth certificate.

"Finding out that I was eligible to compete, they waited until I was twenty-one years of age, when I was ready to drop interscholastic athletics. On the date of my twenty-first birthday I picked up an evening paper and, as usual, turned to the sporting page. To my amazement I read in flaring headlines the following announcement:

"Sheppard Is Now Eligible to Vote, But Is Ineligible to Run."

"The article then went on to explain that I was twenty-one years of age and that I could not compete in scholastics. It was undue notoriety, perhaps the most that has ever been heaped to a schoolboy athlete, but I fooled them all, because I didn't enter a meet after or three weeks before my twenty-first birthday."

Sheppard's experiences have been trying. When he joined the Irish-American A. C. he made his home in New York and found himself a job as a boss of street repairs with one of the large contracting firms in the city. He had a good chance to display his sprinting powers on more than one occasion, according to his own statement, for there were times when workmen, aggrieved over some fancied slight, would get after him with picks or shovels or some other equally pleasant implements of torture. He was always in shape in those days and did not have to go out to any athletic field to train. He had all of the running he wanted while at work.

His Schoolboy Records.

Sheppard was the first schoolboy who ever negotiated the mile route under 4m. 30s. He ran the distance in better time on several occasions and was practically in a class by himself at the middle distance events. In the last four years he has confined himself to the half mile and the thousand yard races, being until recently without a peer in the world in these events. In the last year Harry Glasling, a youngster who has had the benefit of advice by Sheppard and his coach, Bernie Webers, has come to the front and bids fair to take Sheppard's place as the best middle distance runner in the world.

Sheppard's possibilities as an athlete in his early schoolboy days were discovered by "Mike" Murphy, the famous trainer of the University of Pennsylvania; "Al" Copeland, who was then trainer of the New York Athletic Club track team, and "Ernie" Hjertholm, trainer of the Irish-American Athletic Club. Both of the big New York clubs tried to get the athlete. Copeland, who later discovered "Billy" Queal, the greatest professional distance runner in America, tried hard to get Sheppard, but the Winged Fleet club had bagged him and, of course, "Mel" stuck to his first choice.

Copeland was very much "hot up" over the affair. "That boy is a world beater," he said, and Copeland

MELVIN W. SHEPPARD

certainly knew what he was talking about. His greatest feat as a trainer is probably the discovery of "Billy" Queal, who, like Sheppard, has had a varied career, and is regarded among the professionals in the same manner that Sheppard is among the amateurs.

Their careers are almost parallel. Queal was making pictures and running a photography gallery in the summer at Alexandria Bay, N. Y., two years ago, and now he is one of the most talked of men in the athletic world. It took him just three months to establish himself in the professional running world by beating Alfred Shrubbs, Hans Holmer, Gustave Ljungstrom and all of the other good men in special races and making world's records.

Both Queal and Sheppard have been in some hard races where it required the utmost heart power and sheer grit to win. After his race against "Penny" Wilson in England, when he won the 1,600 meter championship, Sheppard said:

"I was practically beaten in that race, but I wouldn't believe it, and it was my will power more than my running ability toward the end that put me across the tape a winner.

Value of Confidence.

"The great thing in running is to keep your head about you and to be confident of success at all times. Never believe the reports of the vaunted prowess of an opponent until shown. I recall a race at the Madison Square Garden, New York, last winter, when Abel Kiviat, one of my teammates, who was entered in the event, called my attention to the entries, which included the best men in the country for the mile, and said to me, 'Mel, do you think I can get away with the race?' 'Why, of course you can,' I answered. 'You can beat them all.' Coach Robertson and I then instilled the necessary confidence, and when he toed the mark he was convinced that no one could beat him.

"He was pushed to the limit to win, but simply would not believe that he could be beaten, and when Hedlund, of Boston, ran him neck and neck, Kiviat made a superhuman effort and barely held his advantage at the tape. Confidence is half the battle, and a man must have a good supply to win."

Queal was not sure of himself when he ran against "Al" Shrubbs for the first time. He knew that he was fast, but was frightened a bit by the wonderful record of the Englishman. His coach and trainer, Copeland, impressed upon him the idea that he was the better man, and Queal ran the whole race like a scared rabbit, beating Shrubbs by a narrow margin, and making a world's record for twelve miles.

After that it was easy. He met Shrubbs three times and beat him on every occasion. It is doubtful if Shrubbs will ever be able to defeat Queal now, for after meeting with so many reverses at the hands of the American runner, the Englishman has probably lost confidence and will hardly feel sure of himself in a race at any distance with Copeland's protégé.

Queal was making a rather poor living at his trade in Alexandria Bay when "Al" Copeland appeared on the horizon. The trainer watched Queal win a half mile race at a set of picnic games and decided that there was a good opportunity to make a runner out of him. Queal followed Copeland's advice and trained as directed, and "Al" departed for Princeton to take charge of the Tiger athletes.

"I read the papers one day," says Queal, "and saw a notice about a team race in Brooklyn for professionals. I needed the money badly and I really thought that if I got a good team mate I could win. As I did not know any one my first thought was to

There Were Times When Workmen Would Get After Him with Picks and Shovels

find Mr. Copeland in New York if I could. As I did not have the time (or money) to wait for a regular train I departed for New York on the first freight train that came along, and after a number of enforced changes finally arrived in the big city.

"I found Copeland and got a chance to run. I'll never forget that race. It was a lay-out for me and I had to make good. I was fortunate in having a good partner, and we won. I tell you I thought that I had been running a year before that race was over, and I earned money for the first time as a runner. After that," he concluded with a smile, "it was easy."

The running game with Queal has been all pie. He has not been in it long enough to taste some of its disadvantageous dishes. Sheppard, on the other hand, has drunk full from the cup of happiness and has been forced to swallow many a bitter draught.

"Mel" has had many narrow escapes trying to keep his amateur status, and in the last few years has been hauled before the A. A. U. committee on various charges, which, he asserts, are the outcome of his success against the athletes of other clubs. The Irish-American A. C. has stood by him on every occasion and he has gone through with flying colors. Two years ago his career was almost wiped out when he was brought before the Military Athletic League on charges of taking too much expense money for coaching in Philadelphia at one of the stately wefts. This was at the time when the Military Athletic League was in the throes of a reform movement and Sheppard was said to have been picked out as the "goat." He came through O. K. after a blare of trumpets and a trial by the officers of his league.

Club, in one of the greatest finishes ever seen in the half mile race.

It was only his great will power and stamina that carried Sheppard through that race, for he had been greatly weakened by the heat. He said it was the hardest race he had ever run.

Sheppard regained his title of national half mile champion at Pittsburg on July 2, where he broke the American record for the distance. In this race he did not meet Glasling, who ran in England on the same day in the British championships at Shepherd's Bush, London, and was unplaced in his event. His defeat was surprising, considering the slow time of the race, but this was probably due to climatic conditions. He ought to do better in his other races. Sheppard showed his great finishing powers at Pittsburg in the race which finished his title for him by coming up from the rear and winning in the last stride.

His spur took the heart out of Edmundson, of Seattle, who collapsed two feet from the tape and could not finish. Those who witnessed the race say that it was the greatest ever run in this country. He is probably one of the most popular athletes that ever wore a spiked shoe. Last fall he was easily elected king of the Coney Island Mardi Gras. "Peerless One" certainly entertained in royal style when he wore the crown for a week at that famous resort.

"It just about cleaned me out, but I had a run for my money," he said, happily, "and what more does a fellow want?" Like most good athletes, Sheppard and Queal are hard workers. Of the two Queal is the sturdier and works harder. He follows Copeland's system, which has been proven the best. The trainer has had a varied experience with distance runners, and it is a peculiar fact that all of his men were world beaters when under his wing, but sank into oblivion when they left him. St. Yves, the Frenchman, cleaned up easily when he came here and trained with Copeland, as also did Swanson, the Swede, and Hans Holmer, who won the Powder Hill Marathon in Scotland. As soon as they left Copeland they did very little, and were easily beaten by the veteran trainer's new material.

Training for Races.

Speaking of training for the middle distance races, in general, Sheppard said that it is impossible to

one-fifth of a second of equalling the mark, when Emilio Longhi, the great Italian runner, broke the record in the Canadian championships, two years ago. This disheartened Sheppard, but he has taken a new lease of life now. He holds the English half mile and the world's 800-meter record.

Glasling, a former New York A. C. runner, is a youngster of great ability and also has a chance to break the half mile record. He is an athlete of great strength and will bear close watching. It would not be surprising if he did succeed in setting up new figures, although experts agree that 1m. 54s. is about the best he will ever do.

Sheppard did not get a chance to go over for the English championships, as he could not get a leave of absence before the meet. He will compete in the Scotch championships and the German title races at Berlin.

In relation to his previous English trip Sheppard tells a story which gives an idea of how some races are run in England. He was asked by one of the British amateurs before a certain race whether he was going to win. Sheppard was surprised at the question and said, "Of course I am going to win; that is, if no one else is better." The event was a quarter mile run, and the athlete calmly announced that he was going to run third in his heat.

"He kept his word," said Sheppard, "and while he could have easily won the heat, as he had a good handicap on me and I was trying very hard to win the British runner lolled behind and finished third. He explained to me afterward that his friends had placed a number of bets against him and of course he could not win out."

The man who confided this to Sheppard has since been found out, but in England these occurrences are common. For bookmakers' sake, as common as the places themselves, bets are laid, and naturally there is a tendency to do this sort of thing. Betting on races in this country among the amateurs is not allowed, although many a bet is placed by various supporters on their favorites.

In one race last winter at the Madison Square Garden, in which most of the best men in the world started, at least \$2,000 changed hands as a result, but none of the athletes had any share in it. The money was simply placed around by enthusiastic supporters. In the professional races, of course, betting on the result is in vogue. Queal and his admirers have

There Were Times When Workmen Would Get After Him with Picks and Shovels

made a good deal of money by the former's victories. He is always ready to back himself against any man with whom he competes, and thus far has never lost out. If the professional running game is good abroad next season Queal will make a trip to the other side and see what he can do against the European stars. According to Copeland there will be nothing to it but Queal.

In Sheppard and Queal America has probably the two best men in the world in their different branches. The contrast between these two is great. Sheppard is the graceful runner, with a nice long stride, and looks to be the perfect athlete. You can tell the class when you look at him, taking his workout. He appears to be the best in the field, and when he gets out in front in ninety-nine cases out of a hundred he stays there.

Queal's Choppy Stride.

Queal does not make a great impression. He is a medium sized, well built chap, and has an awkward, flatfooted manner of running that would deceive the layman at the first glance. He shows his culture at once, however, when he gets out after another man. His choppy, flatfooted stride carries him over the ground with a speed that is absolutely marvelous for a man who runs long distance races.

In one of his races with Shrubbs he ran his first mile well over 4:50 and was breathing along at the finish as fresh as a daisy. He is not particular about the distance he is asked to run. They all look alike to him and he is always there in front.

America has produced stars in the past and will keep on producing them in the future, but it will take some time before a new man of the calibre of Sheppard and Queal are turned out. Sheppard's days of running are not many. He probably will be good for a couple of years.

Queal has great possibilities. He is a gentleman in every sense of the word and has unified the professional end of the running game. With more bits let of his stripes in the game, professional running would be booming again in the United States, and the sport would be in a far better condition than it enjoys at present.

BURNED BARQUE ON WAY TO THIS PORT

Olive Bank Expected Here Second Week in August From Santa Rosalia for Repairs

Within two weeks' time the British barque Olive Bank, which was damaged by fire at Santa Rosalia several months ago, will arrive in the Royal Roads. She is now out over a week from the southern port, having left on July 21st and she is expected to report here some time during the middle week in August. She will avoid reports in the Roads as to her further destination.

Since the Olive Bank was gutted by fire she has been at Santa Rosalia and was ordered to come to the Sound only a short time ago. The barque was lying at the dock at the southern port ready to discharge her cargo of coal when the fire developed, destroying part of the cargo and damaging the ship extensively. Capt. W. H. Logan, of the London Salvage Co., went south from this city to examine the vessel. She was temporarily repaired while at Santa Rosalia.

WANT FISHING TIME EXTENDED SOMEWHAT

Fraser River Fishermen Having Poor Luck—Think Closed Season Should Be Opened

So small have been the catches of salmon on the Fraser river this season that the fishermen will approach Chief Inspector Cunningham, of the fisheries department, in an attempt to have the close season, which sets in on August 25 and lasts till September 15, raised so that fishing may go on during that time. The men who secure a livelihood through the salmon industry are making little money this year and in order to pick up a little they desire to have the fishing season extended somewhat.

The fishing season on the Fraser, as far as the sockeyes are concerned, is very dull, but the spring are running fairly well. The humpbacks are expected in the river about the time the traps to be placed, and if it is removed this would enable them to be caught, and all fish are ripe this year to the cannerymen's mill, be they sockeyes, spring, humpback or dog.

As is the case on the Fraser, the catches at the northern canneries will not reach any large figures this year. The sockeye season is about over on the Skeena and Neas, as the humpbacks have begun to appear and they generally are a sign that the sockeyes are done. The total catch for British Columbia this year will be many thousand tons smaller than last season.

START NEW DOCK SOON

Balfour, Guthrie & Co. Interested in Big Addition to Vancouver's Water Front

Vancouver, July 29.—Announcement was made this morning by T. W. B. London, manager for Balfour, Guthrie & Co., that a start would be made very shortly on their new dock which will be built in conjunction with the Canadian Northern railway and the Great Northern railway. The plans for this dock are now before the department at Ottawa awaiting approval and as soon as the official seal is set upon them, a start will be made in constructing this pier. The site of the dock is between the sugar refinery and Healey avenue, and the area will be 75,000 square feet. The dock will be 600 feet by 125 feet or 750 feet by 100 feet, and it will have extensive shed rooms. A feature of the sheds will be the absence of pillars, and a uniform 24 feet wide, which

will stretch from the shed to the edge of the wharf on each side. Balfour, Guthrie & Co. will operate the dock and have their name up there and the new direct Harrison liners will utilize the wharf. It is hoped to have the dock ready by November.

WEIR STEAMSHIP IS DUE FROM YOKOHAMA

Luceric Expected, To-morrow From Far East—Lonsdale Also Due From Mexico

None of the west coast wireless stations have yet been able to get into communication with the big Weir liner Luceric, which is due to dock here to-morrow from Yokohama, Hongkong and Manila. It is expected that the steamship would have reached here to-day as she is faster than the other boats of the fleet. She is reported to be bringing across the Pacific a full cargo of general merchandise and a fair passenger list, including nineteen first cabin.

Another liner expected in port to-morrow is the Canadian-Mexican steamer Lonsdale, Capt. Bates. She is due to arrive, but not having wireless it is impossible to get her present position. She is coming north from Salina Cruz with a large consignment of freight, including several hundred tons for Victoria. It consists of a varied assortment of odds and ends picked up along the coast and ends of the Tehuantepec railway, having been shipped there from various points in the Old Land and Eastern Canada. On Tuesday afternoon the Nippon Yusen Kaisha liner Inaba Maru will sail for the Orient, laden with one of the largest cargoes she has taken from the Sound for some time. She will also have a number of passengers outward bound. The Tamba Maru, of the same line, is due on Wednesday from the Far East and is bringing a full list of passengers, as well as considerable cargo. According to her schedule, the R. M. S. Empress of India, Capt. Beetman, will get away on Tuesday for the Orient, providing the eastern mails are not delayed. The Empress of Japan leaves Yokohama on Monday for the port and will get here on Aug. 12. She will bring a full report of the accident to the Empress of China, which struck a submerged rock off the Japanese coast a few days ago.

STEAMER STRIKES ROCKS IN FOG

Vessel Quickly Fills With Water—Crew Taken Off by Passing Steamer

Hoquiam, Wash., July 29.—The steamer San Jacinto, from Hoquiam for San Francisco with lumber, ran into the rocks on the south jetty while passing over the Grays Harbor bar yesterday afternoon during a fog and became waterlogged. No lives were lost. The San Jacinto's puffer was carried away, a big hole torn in her hull and her deck was swept away. The steamer Santa Monica, passing out at the same time, stood by and took off the crew. The Santa Jacinto filled so quickly that only time for one blast of her whistle was allowed. Last night the tug Printer took the waterlogged vessel to safe anchorage in the harbor channel.

SHIPPING INTELLIGENCE

July 28. San Francisco—Arrived: Steamers Thomas L. Ward, from Everett; Francis M. Leggett, towing log raft, from Columbia river; gunboat Yorktown, from Corinto. Sailed: Steamers Charles Nelson, for Seattle; George W. Elder, for Portland; Centurion, for Queenstown; Rashier, for Willapa Harbor; Elizabeth, for Bandon; Quinsult, for Willapa Harbor; schooner Glendale, for Siuslaw river. Seattle—Arrived: Steamers Mexican, from Honolulu, via San Francisco; Ramona, from Skagway. Sailed: Steamers President and Eureka, for San Francisco. Los Angeles—Arrived: Steamers State of California, from San Francisco; Norwood, from Grays Harbor; Jim Butler, from Everett; Helen P. Drew, from Greenwood; James S. Hill, from Fort Bragg; Carter, from Tacoma; Graywag, from Everett. Sailed: Rose City, for Portland; Helen P. Drew, for Greenwood.

ROBERT DOLLAR TO BE FIRST DUE HERE

New Steamer on Way to Frisco Will Inaugurate American-Chinese Service

When the American-Chinese shipping company now being organized in the Orient inaugurates its service to the Pacific Coast, the new steamer Robert Dollar, recently completed in Europe, will be the first vessel in the line. This, at least, is the report received yesterday from Liverpool. The Robert Dollar is owned by the Robert Dollar Company, which is said to be the moving factor in the organization of the new shipping company. She has just been completed and will leave Antwerp soon with cargo for Henry Lund & Co. to be delivered at San Diego and San Francisco. She is a big carrier of 2,400 net tons. The recent report that the foreign fleet owned by the Dollar company would be transferred to Chinese registers was the occasion of much interest in shipping circles. Both the Hazel Dollar and Besse Dollar are registered in Victoria, but now, it is said, they will be loaded lumber at Sound port on numerous occasions. The Hazel Dollar is at present in Everett reloading for China. She ran ashore about two months ago and has just completed extensive repairs at Seattle. Victoria is to be included in the route of the new line. The fact that the new line is to enter the trans-Pacific trade shows that the business between the Sound and Orient is rapidly increasing, and if it develops so fast in the next few years as it has done recently several other lines will no doubt also be operating out of this port.

BUILD LIGHTHOUSE ON GLACIER POINT

Marine Department Calling for Tenders—New Buoy Established Off Cape Mudge

Tenders are now being called for by the Marine and Fisheries department for the erection of a new concrete lighthouse at Glacier Point, Strait of Juan de Fuca, and will be received up to August 24. Some time ago C. H. Killen, district engineer, surveyed the site for the location of the new light and the department will construct the new aid to navigation immediately. The new lighthouse will carry a lantern of great power, having a radius of many miles, and will be of great use to all liners coming in to Victoria on going out and coasting steamers using the outside passage. Capt. George Robertson, local agent of the department, announces that a red conical buoy has been established by the steamer Quada the position of which is south 85 (magnetic) miles distant from the lighthouse two miles distant from the south grounds off Cape Mudge. The Quada is now at work in the northern part of the Gulf recharging all beacons and buoys.

The steamer Newington, Capt. Barnes, is preparing to leave port to recharge and fix up all the beacons and beacons in the Gulf south of Nanaimo. She will be away from port several weeks in carrying out the work, which has been assigned to her. It is expected that the steamer Leebro, Capt. Hunter, under charter to the department, will return to this port from the north in a short time. She has been away many weeks attending to the aids to navigation in northern waters.

WIRELESS REPORTS

July 29, 8 a. m. Point Grey—Clear; wind N. W.; calm; 59.02; 52; sea smooth. Passed in at 4:15 a. m., steamer Victoria. Cape Lazo—Clear; wind N. W.; strong; 59.99; 65; sea moderate. In, Princess Royal at 9 a. m.; out again, southbound, at 11 a. m.; in, Prince George at 8:10 a. m., Leebro at Casey Point. Dead Tree Point—Clear; wind N. W., light; sea smooth.

To-morrow morning the C. P. R. steamer Joan, Capt. Ritchie, will arrive in port from Nanaimo and Comox with a big cargo of general freight and many passengers.

OCEAN BOILING AND WATER QUITE MILKY

Officers of Steamship Mathilda Witness Strange Phenomenon in South

Seattle, Wash., July 29.—Bringing the news of a strange phenomenon which was witnessed at midnight on June 21 in 16 degrees latitude, the Norwegian steamer Mathilda, Captain Klorland, arrived on the Sound yesterday from the west coast of South America. To-day Klorland reports that for two hours the vessel steamed over an apparently boiling ocean, which emitted a light so strong at night that it was possible for the officers aboard the vessel to read their watches almost as clearly as in daylight. The water was milky white and the phenomenon was accompanied by great heat, Captain Klorland asserting that the water reached a temperature of 90 degrees. Some of the water was taken on deck by the officers and sailors, but it lost its milky appearance as soon as taken from the sea. Two bottles were saved and will be sent to the hydrographical office for examination. Captain Klorland can offer no explanation for the phenomenon, unless it was caused by a volcanic eruption in the depths of the ocean. He says that if this was the case his vessel was passing over the crater of the volcano. Captain Klorland says the feeling between Peru and Chile is very bitter. During a riot on the streets of Iquique recently a band of Chileans stoned the Peruvian club building, which is located near the offices of W. R. Grace & Co., who have the vessel under charter to load lumber for the West Coast.

CANDIDATE TAKING GRAIN

Harrison Liner Chartered to Load on Sound—Everett Griggs Comins

San Francisco, Cal., July 29.—The British barquentine Everett G. Griggs, which is now somewhere on the west coast of South America, has been chartered by Davies and Fehon to load lumber on the Sound for Sydney. She will come north in ballast.

The British steamer Waddon, which arrived at Honolulu Tuesday, has also been chartered by Davies and Fehon. She will load on the Sound for Australian ports at a rate of 35 1/2 per ton.

The Norwegian steamer Tri-color, of the W. R. Grace and Company line, has been chartered for one trip from Nanaimo to this port with coal for the Western Fuel Company. She will then return to the Sound to load lumber at Tacoma for the West Coast.

The British steamer Candidate, of the Harrison line, has been fixed for the same business. She is under charter to Balfour, Guthrie & Co. to load new crop grain for Europe. The Pacific Mail liner Shio Maru arrived Thursday from the Orient and the liner Jeru, of the same company, arrived from Panama. The steamer Stanley Dollar arrived from Gray's Harbor en route to Balboa with lumber for Bates and Chesney. The schooner Maple arrived from Honolulu and the schooners Camana, Mabel Gale and S.W. and Burgess and steamers Buchanan and Washnetan from the Sound.

WONDERFUL MIRAGE

Olympic Mountainer Mirrored in Heavens and Shine Like Aeroplanes

Tacoma, Wash., July 29.—Officers on board the British tug Bormuda, which arrived here yesterday from British Columbia, reported having witnessed a wonderful mirage while crossing the Straits of Fuca Wednesday afternoon. During the mysterious phenomenon, which lasted nearly two hours, the Olympic mountainer range was mirrored in the heavens, while several vessels that appeared in the picture seemed to float in the clouds like so many aeroplanes.

The horizon seemed scarcely a mile away, said one of the officers, "and the mountains seemed to hang from the clouds." The Olympies were apparently lifted a thousand feet in the air, while Smith Island appeared at intervals in the clouds. The vessels in the picture were inverted and seemed sailing in a sea of clouds.

The phenomenon was first noticed about noon and it lasted until about 2 o'clock. Such mirages are not infrequent in the north-Pacific and many travelers along the Alaskan coast have reported witnessing similar conditions in the far north.

The Bormuda brought a snow of one from the Texada mines to the Tacoma shelter.

SHIPPING GUIDE

ROMANCE OF A MIXED MARRIAGE

Troubles of a White Mother in Ontario Who Has Chinese Husband

The Hamilton police and Magistrate Jelfs have been confronted with a most peculiar and interesting case in which Oriental loyalty to home and tradition is pitted against Canadian mother love and determination, and the whole is complicated by a sinister criminal element which made the matter of police import.

Sam Sing, who during his 17 years' sojourn in Canada has accumulated a considerable fortune, conducts a laundry at 244 West King street, Hamilton, and is married to a Canadian woman. Sing and his white wife have lived together for 12 years, having been married in Canada. The couple have four beautiful children, James, John, Madeline and Daisy Sing. In all the children the contrasting qualities of Orient and Occident are blended, and, according to Chinese custom, the father considers the male offspring as of premier importance.

As James, the eldest boy, is nearing his teens, the father is anxious to take the boy to China and educate him there with all the advantages and privileges Sam Sing's Canadian-made money can purchase for him in that country. The father is also anxious to pay a visit himself to the home of his ancestors. This being the case, Sam Sing proposed to his wife that she and the children accompany him to China at once, but his white wife, who is educating the children in Hamilton, and has no particular sympathy with her husband's Oriental ideas, refused to go with him.

After giving the matter thought, Sing announced to his wife that he himself would go to China with the little lad, leaving the wife and other children provided for here. This announcement so aroused Mrs. Sing that she paid a visit to Magistrate Jelfs and asked him whether or not the laws of the land could be invoked to prevent

the husband and father carrying out such a determination. The magistrate told the woman that he knew of no way a father could prevent from maintaining jurisdiction over his children, and Mrs. Sing left the magisterial presence in great grief and perturbation. She dearly loves her eldest boy, who is a bright and manly little lad, and her lack of acquaintance with China and the mysterious and sinister idea of that country, which is inherent in the minds of most people of Caucasian blood, caused her great agitation.

She and her husband had many discussions over this matter, and during the process of these Sam Sing received an anonymous letter, the origin of which is as yet unknown. It was written poorly, and the spelling was defective, but its theme was that Sing had better get rid of his white wife or serious results would follow.

Mrs. Sing last week took this letter to the police and also saw Magistrate Jelfs, who recognized her as the woman who had been to him with her domestic troubles a day or two before. But as no name was signed to the letter, and it contained no material available for clues, the officials were unable to do anything for Mrs. Sing. Since the receipt of the communication, Mrs. Sing has taken such precautions as she can to protect herself and little ones.

A Herald reporter, accompanied by County Constable Pickard, paid a visit to Mrs. Sing and her family. Both she and her husband were very willing to talk, and she gave the reporter the newspaperman to copy. It was received by her July 13, and is dated July 12, its text being as follows, spelling included:

"Sam Sing: Now we will give you one week to get that thing you are living with out of the neighborhood, and if she isn't gone by that time she will be tarred and feathered and run on a rail, the dirty disgraceful thing she should be pulled out. Now remember you won't get any more warning now so it will pay you to get the dirty busy from their."

"One Who Means What They Say."

The letter is dated Hamilton and postmarked the same. It was mis-addressed to 44 West King street instead of 24. It is on an absolutely plain paper in a scrawly hand. The police looked the letter over carefully, as did Magistrate Jelfs, and when information of the matter reached the Herald a reporter secured the whole story of the Sing's peculiar domestic troubles. Mrs. Sing declares there is likely no

Cooling Comfort On Hot Days

You need Abbey's Salt just as much as you need ICE, in summer.

A pinch of Abbey's Salt, in a glass of cold water, is the most refreshing, satisfying of summer drinks.

It quenches thirst—cools the blood—and does NOT upset the stomach. Try it.

relevance between the letter and her disputes with her husband, but said her troubles were certainly coming thick and fast.

She stated with pleasure, however, that in her opinion the Oriental husband was practically won over to her way of thinking and that she did not expect he would fulfil his determination to return with his eldest son to the Celestial kingdom.

Sing exhibited with pride his array of children, saying of his daughter Madeline that he had been many times offered considerable sums of money for her by childless people who had been attracted by the youngster's strange beauty.

"But," said Sing, "I would not part with her for all the gold in the world. She is my blood," said the Celestial, striking his breast. "In my country blood and ancestors are first. I love my family and will always care for them, even if I have to beg from door to door."

"Yet we understand," said the reporter, "that you would leave your wife and three little ones here and return to China with James, your eldest boy?"

"That is true," said Sing. "I would like to do so. The eldest son is the head of the family when I die. He would find some of his race advantages as one of his race in China that he would not find here, but my wife says no. Therefore, I suppose I shall stay where my blood is."

Constable Pickard, who accompanied the newspaperman unofficially and with no desire to interfere with the local police handling the case, witnessed the interview and read the threatening letter.

To remind a man of a kindness conferred on him, and to talk of it, is little different from reproach.—Demosthenes.

VANCOUVER FATALITY.

Vancouver, July 28.—In spite of the fact that three men were within a short distance of Wilfrid Blake, the young boy who was drowned in False creek on Sunday, he was allowed to go down for the third time without a hand being held out to save him, and yet a few moments later one of them fished the drowned boy's hat out of the water.

At the inquest into young Blake's death one of the witnesses testified that he had seen the boy struggling in the water as he was going to Steveston on one of the B. C. Electric cars, and that three men had been seen standing on a float within a short distance of him. Apparently, according to the evidence submitted, the men had been absolutely unaware of the tragedy, although the deceased was struggling desperately to reach the float about eight feet away. The jury brought in a verdict of accidental drowning.

USED SCISSORS ON JAIL BARS.

Vancouver, July 28.—Rendered bold by the thought of a two years' term in the penitentiary before her, Mrs. Kate McDowell, convicted of stealing \$150 from a male companion, attempted to break out of the city jail.

With a pair of scissors, picked somehow from the supply of prison tonsorial utensils, she endeavored to saw the window bar, which would have admitted her to freedom. She had no chance. The scissors scratched the bar and that is about all. She was heard at work by the night guard, who interrupted her desperately attempting to saw her way to liberty. It is improbable that she will be prosecuted for attempting to break jail, as she is only about 18 years of age and already has a two-year term to serve.

MERRITT LIQUOR BY-LAW.

Merritt, July 28.—Ald. Boyd has given notice of motion to the effect that at the next regular meeting of the council he will introduce a by-law prescribing the days and hours during which liquor may be sold. It will say: Hotels must not sell between the hours of 11 p. m. and 7 a. m.; restaurant licensees, between the hours of midnight and 7 a. m. No liquor shall be sold by any licensee between 11 p. m. on Saturday and 7 a. m. on Mondays.

WALTER BAKER & CO. LIMITED

ESTABLISHED 1780 DORCHESTER, MASS.
Canadian Mills at 1000 ALBERT STREET, MONTREAL

ALPINE TRAGEDY RECALLED.

Buried in Glacier of Mont Blanc for Forty-one Years.

A broken alpenstock bearing the carved name, "Dr. J. Bean, Baltimore," has just been found by a Chamonix guide in the ice of the Glacier des Bossons, which "flows" down direct from the summit of Mont Blanc to the valley of Chamonix, and the find recalls the most terrible accident in Alpine history, when eleven climbers perished on the summit of the great white mountain in violent snowstorms which lasted a week.

In September, 1870, Rev. G. McCorkindale, of Glasgow, and two Americans, Dr. J. Bean, of Baltimore, and Mr. Randall (both elderly men, with little experience of the Alps), set out from

Chamonix with eight guides, and safely reached the summit in doubtful weather. Hardly had the descent commenced when the snowstorm started, and not one of the eleven climbers was seen again alive.

A strong force of guides some days later found the bodies of five victims, including the clergyman and Dr. Bean, but the other six were never found, having most probably fallen into crevasses. It is now thought, owing to the discovery of the broken alpenstock, that the bodies of the six climbers, who have been buried in the tomb of ice for the last forty-one years, have reached the end of the glacier, which travels at the rate of about 500 feet a year, and are not far from the surface of the ice at the lip of the Chamonix valley.

The longest period of time that a glacier, or ice river, has retained its

dead in Alpine records has been forty-one years, the victims being Dr. Hamel and his guides, who perished on Mont Blanc in 1820, and whose bodies were found in the Bossons glacier in 1961, as well preserved in the ice as on the day of their death. The guides at Chamonix are on the lookout for the six bodies.

Among the Churches

THE OUTLOOK

Fully forty tent and park meetings of a religious character will be conducted daily in New York city during the summer months by the different churches, with many more than that number on Sundays. This is a form of religious work that Canadian churches should do more of.

These very warm Sundays why not take the congregation out to lawn or grove for the evening service? A suitable place is available for many churches, and the experiment is well worth a trial. Some have tried it, and they say they are greatly encouraged by results. A church building is not absolutely necessary for the worship of God.

New Estimate of Western Life.—In an article from the pen of Rev. S. D. Chown, general superintendent of Methodist church of Canada, in which he gives his impressions of the west, after his visit to the annual conference of the various provinces, says: "It is thought in some quarters that materialism is eating the heart out of the west. There may be some truth in the thought, for it is to be expected, as we see such a rush of people to the west to better their conditions, but it is not true of the bulk of our church membership." Continuing, he says: "The west does not think much of a man for getting rich. That is too common. What the west admires is achievement in ways that benefit the community. This is the real interpretation of the spirit of the west and there is to be found a splendid note of healthy and improving democracy sounding through all the money-clamour which first besets the ear of the stranger."

Such an estimate is kinder than most of even our native reflections, but then Dr. Chown does not form his conclusions as he steps off the train. We believe Dr. Chown has not misinterpreted us and we believe this spirit of which he speaks is growing and ever long the "note" will be a "bar" and by-and-by the "full chorus."

Theological Conference.—The inter-denominational and international theological conference has provoked a deep interest amongst the people of Vancouver during the past week. Dr. Stalker of Aberdeen, and Dr. Garvie of New College, London, England, have been the chief figures, but they have been well supported by well-known preachers of the coast cities from both sides of the international boundary. The press has given all due prominence to the conference, reporting most of the addresses at length. Dr. Garvie expresses himself as not ready to run with much popular opinion which would hint that the Apostle Paul was the founder of the Christian Church rather than Jesus Christ. Paul was truly a saint and we all him just as when we call him "Apostle," but his own favorite designation suits him best, "the bondservant of Jesus Christ." The burden of his life was to manifest Jesus Christ, the chief cornerstone of the church.

Return of City Pastors.—Several of the city pastors have returned to their duties after having had profitable and enjoyable vacations at various points of our province and in the United States.

METHODIST.

Metropolitan.

Epworth League.—Last week's forecast of an exceedingly interesting time at the debate on reciprocity fell short one little bit when the event really happened. A crowded house gathered to witness the fray, and the debaters were in fine style, and any who may think reciprocity a talked out subject would have been undeceived last Monday evening if they could have witnessed the enthusiasm displayed by all parties. Messrs. Harrison and Wellwood brought out some strong points in favor of their contention that reciprocal trade relations with the United States would prove beneficial to Canada, but their opponents negated the resolution in a fine manner and succeeded in maintaining their arguments before the judges who awarded them the victory. The winning team was composed of Messrs. Otterwell and Wright.

Ladies' Guild.—On Tuesday evening last a very successful and enjoyable trolley ride under the auspices of the Ladies' Guild was indulged in by a goodly number of friends. Next the regular monthly meeting of the guild will be held at the Gorge park. A very special invitation is urged upon every lady of the Metropolitan congregation to be present.

Young People's Bible Class.—The members of this class were entertained to a musical and social evening last

WEDNESDAY EVENING AT THE "OSOBY" CAMP AT BURRILETH PARK.

Pastor's Absence.—Tomorrow the pastor, the Rev. T. E. Holling, will, in the capacity of chairman of the Victoria district of the Methodist church, officiate at the sacramental service at Shawinigan Lake Methodist church and will conduct Q. O. B. meeting during his visit.

Visit of Eminent Missionary.—Tomorrow in the absence of the pastor the pulpit will be occupied in the morning by Rev. A. J. Cornaby, who for 25 years has held a responsible missionary post under the Wesleyan Missionary Society in Hong Kow and Shanghai. At Shanghai Mr. Cornaby

REV. WM. C. DRAHN

Pastor of Grace Evangelical Lutheran Church, Victoria, and field secretary of the General Council of the Evangelical Lutheran Church, Pacific Synod.

has conducted very successfully the editorial control of a prominent magazine, and in addition to this is the author of several works in English. Mr. Cornaby is spending a brief visit to Victoria and will preach on Sunday morning at the usual time. In the evening Rev. W. Switzer, B.A., the newly-appointed pastor of the Wesley church in Vancouver, will preach. Mr. Switzer has just recently been transferred to the B. C. conference from Brandon, Man., where he made quite a name for himself by his work there. He has been spending a vacation along with his family in Victoria, and many will be glad of the opportunity of listening to Mr. Switzer tomorrow evening.

James Bay.

Epworth League.—A very spirited discussion arose last Monday evening when Mr. Davey had finished reading his paper on "Good Citizenship." In the course of his remarks Mr. Davey said that while the church had taken a good deal more interest in men and things than she had been given credit for, it was possible to give more definite and unmistakable evidence of that interest. There needed to be a good deal more of the personal touch, and collectively a closer acquaintanceship with affairs of civic life in order to an intelligent and wise handling of the same. The paper was the outcome of the series of interviews with various pastors of the city which appeared in the Times a little while ago. Such a keen interest and discussion was aroused as to make the meeting difficult of conclusion.

Boy Scouts.—The detachment of Boy Scouts which makes its headquarters at James Bay church are at present out at camp at Union Bay in vicinity of Sidney. Mr. Schroeder the scout master is in charge and is accompanied by Mr. Davey, Superintendent of the Sabbath School.

The Pastor.—Rev. A. E. Miller will preach at Sidney on Sunday and in his absence the James Bay pulpit will be occupied by Dr. Spencer, Supt. of Local Option League of B. C. in the morning and by Mr. Currie in the evening.

Ladies Aid.—The regular meeting of the Ladies Aid will meet on Tuesday at the home of Mrs. Clarke, Kings road. All members urged to be present.

Sunday School Contest.—The men and boys still hold the lead in this contest.

Victoria West

Epworth League.—The government of our Empire was the topic of last

week's meeting and it proved to be a good drawing card, a good company was present and a splendid discussion followed. Next week open air treatment will be followed and the meeting will be of a social nature on the parsonage lawn.

W. M. S.—The Women's Missionary Society met at the parsonage on Wednesday last and conducted its regular business. Tea and cake were served at close of charge of ten cents.

Sunday Services.—Dr. Spencer will occupy the pulpit on Sunday morning.

Centennial.

Trustees Meeting.—The trustees of this church met on Thursday evening and discussed the question of church renovation. As remarked last week the past year has been the banner year of the church and it was but a fitting climax that the trustees should endorse a scheme whereby the church would be entirely re-decorated and beautified.

Y. P. S. E. L.—A cordial invitation has been extended to the members of the Young Peoples Society by the campers at the Y. M. C. A. camp at the Gorge, for Monday evening 31st. Boating etc. will be offered the visiting body and it is hoped the League will turn out in full force.

Esquimalt.

Adult Bible Class Annual Meeting.—On Tuesday evening a splendid representation of the Bible class turned out for the annual business meeting at which the election of officers for ensuing year took place. Reports were read by those who had held office for the past year and in each department signs were not lacking of health and vigor. The president in making his survey of the year's work alluded to the secretary's report which stated that the class had lost 20 members but had more than made up loss by a recruiting force of 25 new members. He pointed out that while 20 names had been removed from roll, yet of these some were simply transferred to the teaching staff of the Sabbath School of our own church and two had been transferred to other schools. Some of the remaining ones could be accounted for in best possible manner, namely, they had commenced similar work, to that which the class was doing, in other districts where nothing of the kind existed. The teacher of the class, F. H. Wright, who is loved and esteemed by every member of the class, sought release from his task, but he was unable to convince the class that time for his retirement had come. The very suggestion of his retirement from office, was resented against as one of the most serious blows the class could receive and it was indeed an anxious time until a member of the class succeeded in persuading Mr. Wright to allow his name to be amongst the nominations. In the elections both he and his colleague the president in the person of Mr. A. H. Wilkinson were both sustained to the offices. Mr. Smallwood, chief armourer of H. M. C. S. Rainbow gained the honor of the vice-presidency while Mr. Jolliffe also of the H. M. C. S. Rainbow and Mrs. Keyworth wife of the pastor were appointed secretary and treasurer respectively. After the elections were over the pastor Rev. T. Keyworth performed a brief and appropriate installation service. A short programme, refreshments, and social chat brought a successful, harmonious, and delightful business session to a close.

PRESBYTERIAN.

First Church.

Pastor Home.—Rev. Dr. Campbell is home again, after a brief respite which has been spent and fully enjoyed in vicinity of Sooke, and will occupy his own pulpit on Sunday all day. Dr. Garvie, of London, Eng., and Professor Pidgeon, of Vancouver, have supplied the pulpit during pastor's vacation, much to the enjoyment of the congregation.

S. S. Convention.—John Meaton, who has held the post of superintendent of the Sunday school of First Church so long, has just returned from visit to the World's Sunday School Convention in San Francisco. Mr. Meaton has also visited several other large cities in the States and speaks in the highest terms of the work being carried on among young people in each of those cities. The convention was a wonderful thing says Mr. Meaton and a great inspiration to all who attended.

Knox Church.

Pastor's Return.—Rev. J. McCoy, pastor, has just returned after a month's visit to Portland, Oregon, and will preach on Sunday.

REFORMED EPISCOPAL.

Church of Our Lord.

Tomorrow's Service.—Tomorrow Mr. Gladstone will preach for the last time prior to leaving for his annual vacation. His morning's theme will be "How David ran through a troop and leaped over a wall," and in the evening the subject will be "Companions." The pastor's holiday.—While away Mr. Gladstone expects to visit Alaska and spend some time with his old friend William Duncan, the veteran missionary at Nun Metlakatla, Alaska. The pulpit will be supplied both Sundays of the pastor's absence by Rev. A. De B. Owen, of New Westminster.

St. Columba.

Ladies Aid.—The Ladies' Aid Society of St. Columba church will hold a garden party on Wednesday afternoon and evening, August 2, at Mrs. Nason's residence, 1655 Poul Bay road. A splendid programme has been arranged for the evening and a good time is assured all who attend.

ANGLICAN.

St. Barnabas.

Choir Boys' Camp.—The boys who have been enjoying camp life at Mayne Island for a week were the recipients of many kindnesses by the inhabitants of the Island. Picnics and entertainments were afforded them often and they enjoyed them to the full. They attended services at the Island church under charge of Canon Padmore and were a considerable help to the singing and service in general, drawing good congregations. While at camp the Dominion Highhouse tender Quadra came into port and the boys were invited aboard and were shown much kindness at hands of the crew. The wireless telegraph was fully explained and demonstrated for their in-

terest, a pleasure which was appreciated to the full.

St. Saviour's.

Anniversary.—Elaborate preparations are being made by Rev. Mr. Connel and his helpers for the fitting recognition of the 20th anniversary of the consecration of St. Saviour's church. On August the 3rd Semple's hall, Victoria West will see the commencement of the celebrations. A large meeting will be held, when speeches, music and refreshments will be the order of the evening and an enthusiastic time is anticipated. On Sunday week special services in connection with celebrations will be held, when Archbishop Spivens and Dean Doull are both expected to participate.

Local Assembly.—On Wednesday next a meeting will be held in the church schoolroom at 8 o'clock, under the auspices of the Local Assembly of the St. Andrew's Brotherhood, when arrangements will be made in connection with the coming convention of the brotherhood to be held at Seattle in the month of September.

ENGLISH LUTHERAN.

Grace Church.

Visit of Kunzman.—A wonderful man is an orator of first degree! A splendid preacher! Such were the remarks last Sunday of those who listened to Dr. Kunzman's eloquent and forceful sermons. So delighted were all who heard the doctor, that they would not leave the church as long as he had anything more to say. After the regular evening service a further meeting for the church members was held, but scarcely any of the congregation left, so charmed were they with their distinguished visitor. Dr. Kunzman expressed himself as charmed with the church so recently erected and with the state of the church work generally. The city also received many kind tributes to its beauty and situation. Tomorrow another eminent scholar and theologian will grace the pulpit of the church, Dr. F. W. Prick, formerly of the Chicago Theological Seminary and a prominent Lutheran divine and now of Milwaukee, is to be the preacher and should prove quite a draw.

BAPTIST.

First Church.

Tomorrow Evening.—"The City of the Greatest Event in History" will be Pastor Warnicker's subject tomorrow evening. This will be the concluding sermon in the series on "Famous Cities of the World."

Pastor's Vacation.—Pastor Warnicker will be on vacation during the month of August. The pulpit committee are in communication with a number of brethren who will be asked to preach during his absence.

Sunday School Picnic.—The Sunday school of First church and the mission schools of Burnside and Victoria West are holding a picnic this afternoon and evening at Macaulay Plats, foot of Lamson street. The sports and games of the afternoon are being conducted under the management of the men's Baraca class.

Emmanuel.

Sunday Services.—Despite the hot weather the services have hitherto been well sustained. On Sunday the pastor, Rev. W. Stevenson, will preach in the morning on "Two, More Than Twice One," and in the evening on "When in Rome You Must do as the Romans Do."

Valedictory.—At the close of the evening service public farewell will be taken of Rev. James Moyes and his bride-elect, Miss Todd, who expect to sail on Tuesday for China to take up mission work. Mr. Moyes formerly labored in Thibet and has been resting in B. C. for some time.

Open Air Service.—The open air service held at Wilson's Beach last Monday was well attended. The next meeting will be held at Foul Bay on Monday week.

ROMAN CATHOLIC.

St. Andrew's Cathedral.

Retreat for Clergy.—Rev. Father Grotto, S. J., who is conducting the retreat for the clergy, will occupy the pulpit of St. Andrew's cathedral at High Mass, 10.30 a. m., on Sunday.

SPIRITUALIST LECTURE.

B. F. Austin, D.D., will lecture on the philosophy of Spiritualism under the auspices of the Victoria Spiritualist Society tomorrow night at the K. of P. hall, Pandora and Douglas street, and the following four week nights at the Broad Street hall.

Mr. Austin was born at Brighton, Ont., September 21, 1856. He gave early promise of the strong intellectual powers that have led him so far afield and in 1871 he was ordained minister of the Methodist church, but continuing his collegiate studies graduated with the B.A. degree in 1877, B. D. in 1881, and receiving the degree D. D. from Victoria University in 1882. In 1881 he was appointed principal of Alma College, St. Thomas, which position he held for sixteen years, resigning in 1897, when he removed to Toronto. There, in conjunction with ministerial work, he began to publish books and magazines. Being attracted by the vast literature on psychic subjects he began to investigate and finally announced his belief in spiritualist phenomena in a sermon preached at Toronto in January, 1898, which led to his trial here. Since that time Mr. Austin has associated himself in the work of modern Spiritualism. He is always greeted with crowded houses, and he comes to Victoria with the very highest references from some of the most prominent men in the east, including Hon. G. P. Graham and Hon. Geo. E. Foster.

MONARCH KNIT

THEY can afford to beach their canoe and "spoon" on the shore—because they're clothed in "Monarch Knit." For evenings cool, on the water or the road, your money cannot buy natter or more comfortable garments. "Monarch Knit" coats and sweaters, as well as auto caps and toques, have fairly won and fairly hold a big international market—Because of select material, skilled craftsmanship and up-to-the-minute style and swagger knit into the garments and their very texture. Every modern merchant knows the fundamental reasons for the superiority of the famous "Monarch Knit" line. Your merchant will gladly tell you all about these stunning garments—not because of big immediate profits, but because of after effects. "Monarch Knit" coats and sweaters possess the marked individuality you like your garments to have. Comfort and style—the easy poise of the well-dressed lady or gentleman—the certainty that your lounging coat or sweater is a correct expression of fashion's latest decree—all that goes with "Monarch Knit." And then the price is reasonable—just what you expect to pay for garments that are worth while.

The Monarch Knitting Co. Ltd. Duaneville, Ont.

Try Peaches and Cream with Kellogg's TOASTED CORN FLAKES. A dainty dish fit for a Queen. 10c per pkg.

DISTINGUISHED VISITOR.
Rev. W. A. Cornaby, Shanghai, Will Preach in Metropolitan Church.
A distinguished missionary and author, Rev. W. A. Cornaby, of Shanghai, is paying an extended visit to this city along with Mrs. Cornaby and daughter. For twenty-five years Mr. Cornaby has been prominently identified with the literary and religious life of China. In 1885, after following the profession of analytical chemist and professor of chemistry in Clifton College, Bristol, Mr. Cornaby went out in connection with the Wesleyan Methodist Missionary Society, to Hankow, where he was engaged in preaching and pastoral work until 1898. In that year Mr. Cornaby became editor of the monthly Chinese Review—the one interdenominational review for native preachers of all Protestant missions in China. For twelve years he filled the editorial chair of that magazine. In January, 1904, he began to devote all his time to the work of the Christian Literature Society in Shanghai, founding and editing the Ta Tung Pao weekly magazine for Chinese officials and scholars, and supplying most of the material himself either as original articles or translating the articles that appear in the leading European magazines. It soon became a booklet of 38 pages. It deals with all subjects connected with the uplift and pacific progress of China. It has a considerable circulation amongst the Chinese of this province, particularly in Vancouver. In China itself it is read by the Prince Regent and other princes, the prime ministers, the viceroys of the provinces and other high officials, who subscribe for 2,500 copies weekly. It has wielded a vast influence in the Celestial Empire and has been the means of the passing of several remedial laws, notably the gradual but total abolition of girl slavery throughout China. Mr. Cornaby is the author of five books and three booklets in English and half a dozen works in the Chinese language. The former are: "A String of Chinese Peach-Stones," "China Under the Search-Light," "In Touch With Reality," "Let Us Pray," "The Call of Cathay." His lesser works are: "Life of David Hill," "Rambles in China," "China and Its People." Mr. Cornaby is also the author of articles on Chinese Religions in the recently published "Encyclopedia of Religion and Ethics," compiled by Hastings. He has been occasional correspondent to the London Times, Contemporary Review and London Quarterly. He is a very versatile man. In addition to his literary and scientific work already referred to, painting, poetry and music have been enriched by his numerous productions. He enjoys the acquaintance of a large circle of acquaintances in scientific and literary circles in Great Britain, many of whom have written in high terms of praise of his books.

Mr. Cornaby suffered a partial breakdown in health during the early part of the year, and has found the delightful climate of Victoria very beneficial. He arrived with his family in May and has been quietly resting at Cadboro Bay. Mr. Cornaby will proceed to England in October, where he is to give several addresses during the coming winter on the political, educational and religious outlook in China. Mr. Cornaby has consented to preach tomorrow morning in the Metropolitan church, when doubtless many will take the opportunity of hearing this distinguished visitor.

IMMIGRATION AGENT OF VERY BEST KIND

Rev. H. Haigh Has Preached British Columbia Since Here a Year Ago

The Wesleyan conference of England now in session in the city of Cardiff is being presided over by Rev. Henry Haigh, who, it will be remembered, was the fraternal delegate from that church to the General Conference of the Methodist church which met last August in this city.

On that occasion Mr. Haigh spoke with great power and eloquence on the religious life of Great Britain; he won all hearts by his sincerity and friendliness, and was also greatly impressed by his visit to this city. He wrote a number of very interesting articles to the Methodist Recorder which awakened much enquiry regarding British Columbia as an objective point for the intending emigrant. In fact Mr. Haigh has on several occasions delivered addresses on his visit to Canada which have brought many letters to representative men in Victoria, asking for further information.

In one of these letters the writer says: "I believe Mr. Haigh's lectures in the north of England have been the means of sending out many of the people, such as mechanics, farmers, etc. His word, of course, carries weight and influence."

In his series of letters above referred to, his remarks on the province of British Columbia in general and Victoria in particular will be read with interest. In one letter he says:

"It was a wet and misty morning as we embarked for the five hours' sail on the Princess Charlotte, the last lap of 15 days' unrelenting travel. Vancouver was blotted out for us, but after an hour the sun shone forth, and we moved among the islands and passed through the Juan de Fuca Straits in perfect weather, reaching Victoria about 5 o'clock on Saturday evening. We were a crowded boat. Most of the passengers had never been so far west before, and we all watched with curious interest as we entered the harbor, for the queen city to disclose itself. As I landed, and stood looking round, wondering who would christen me, I heard a man say, 'How are you, Mr. Haigh?' I wanted to be the first to bid you welcome and show you your way. I have heard you preach many a time, and your brother was my most loved pastor. When I knew you were coming, I felt that for his sake as well as your own, I must find you out at once."

"So I was well cared for by Mr. McQuillan, who took me forthwith to the beautiful home of Mr. Pendray, my host. He and Mrs. Pendray are old Cornish Methodists who have been long settled at Victoria. They came here when the only way to Vancouver Island and was by San Francisco, and when Victoria was nothing more than a village. They have seen it grow into a city, the seat of government for British Columbia, and they have grown with it into large possessions and worthy influence. I have found with them a charming Methodist home, and I have been happy in such fellow-guests as Judge Chesley, of Nova Scotia, and Dr. Scott, of Calgary."

"It was a bold resolution that fixed the Canadian General Conference to be held at Victoria. There are twelve annual conferences in Canada, and a due proportion of members from each must attend in order to constitute the great Quadrennial General Conference. Our minister in twelve is entitled to be present, and an equal number of laymen. The travelling expenses of all are provided, and hospitality is found, where desired, for laymen as well as ministers. My readers will think what it must have meant to fix the conference at the extreme west of the Dominion. Some of the delegates have come from Newfoundland and Nova Scotia and have had to travel continuously for a full week in order to be present. Travelling is not cheap. Sleeping accommodation is a necessity, and railway meals have to be paid for handsomely. It is calculated that the unavoidable expenses of holding this conference will scarcely be less than £7,000. At first one wondered if justification could be found for such an outlay. I think I understand it now. Canadians need to know their own country."

"I cannot attempt to speak of the at-

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pain in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound, and I restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."

Thousands of unolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs. Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letters as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

tractions of Victoria and Vancouver. They are both beautiful. Victoria has interested me because of its semi-Oriental character. At every turn one meets Japanese, Chinese and the turbaned peoples of India. The household servants are Chinese, but many of that nation have in other walks grown rich. The Easterns are not popular in British Columbia. Indeed, there has been some hostility shown them. But for the present, at any rate, they seem to be indispensable, and it is not unlikely that they will take their place as permanent elements in the life of this new nation. They certainly bring picturesque interest to a place."

In a recent issue of the Methodist Times, there is a lengthy biographical sketch of Mr. Haigh and also the following editorial comment: "The Wesleyan Methodist church throughout the world will welcome the accession of Rev. Henry Haigh to the presidency with the utmost confidence and enthusiasm. No more distinguished man has occupied the chair of the conference for many a long day. Mr. Haigh is a great missionary whose work in India is still bearing fruit, and will continue to do so, for he laid down lines of advance and planted institutions in the Mysore which will form the basis of all later developments there. His success in the home ministry, alike as preacher, pastor and administrator, has been equally striking. No man is more fully entitled to receive the remarkable loyalty which Methodists always show towards their president. As we have said elsewhere, it is most providential that Mr. Haigh should be in supreme command during a year when great plans of evangelical enterprise throughout the world must be taken in hand and harmonized. A sustained appeal will have to be made to all that is heroic and self-sacrificing in Methodism. No man is better fitted to make that appeal effective, by the help of God, than the courageous and devoted man who has shown the way for so many years, not only by word, but by sustained deeds. We bespeak for Mr. Haigh and for the conference over which he will preside the earnest and unceasing prayers of the whole church."

Mr. Haigh again visits Canada next October, when in his official capacity as president of the English Wesleyan Conference he will preach the official sermon in connection with the Ecumenical Conference, which is to be held in the city of Toronto, when world-

wide Methodism will be represented by the leading men, clerical and lay, from every country where any branch of Methodism is established. This conference meets once every decade. It is not legislative in its functions, but educative and inspirational. It is probable that something practical will be done at this conference in regard to Sir Robert W. Perks' scheme of a world-Methodist brotherhood, which seeks to bind Methodists the world over in a kind of church freemasonry of practical helpfulness.

BOOKS AND READERS.

Montreal Herald Compares Mental Food of English and Canadians.

An observer of human nature at the Toronto public library—it is unfortunate that Montrealers have to go three hundred miles to observe human nature at a library, but it is the case—has noted with some astonishment that the newly-arrived English population of Toronto, which is large and consists in the main of workmen of moderate skill at their trade, demand books of the most serious character to read in their leisure hours, taking home standard works of biography for preference, with a good deal of economics, history, social philosophy and travel to give variety. The same observer declares that the Torontoian of Canadian origin confines his reading to the lightest of light fiction unless he is seeking some textbook which will be of immediate advantage to him in the prosecution of his business. The Englishman does not read about his own trade, because he has had enough of it when the day's work is over and wants to get away from it and broaden his mind. It has long been evident that the reading habits of the less well-to-do population in England and Scotland are totally different from those of the same class here. A glance at the titles of the cheap reprints which form the vast proportion of the English popular bookdealer's stock is sufficient to demonstrate that. In London it is difficult to get away from the cheap bookstores, so universally prevalent for days; in New York you can walk for days and find nothing but the places where millions are supplied with morocco bindings by the yard of shelf-space. In England even the place where you buy your penny paper in the railway station is known as a book-stall, and justifies the title by its business; on this side of the Atlantic anybody who bought a book, barring the latest sensational novel, on a railway journey, would be looked at with suspicion, and the purveyor of reading matter is properly designated a news-agent.

There are points about this reading habit of the Englishman, when he is in Canada, which are worthy of the attention of every thoughtful Canadian. Canadians are apt to content themselves with no immediate effect upon their earning capacity. Your "chirper" may read all night upon the lives of the great and be no nearer to becoming foreman than he was when he came in the morning. It is by that test that we have judged the Englishman in Canada altogether too insistently. The value of a class of men to the nation does not altogether depend upon their earning capacity, nor is their influence wholly to be measured by the number of other men who work under their orders. In a new land with a vast amount of development work to be done such considerations are admittedly more important than in an ancient land which has more labor than it knows what to do with; but even here they are not everything. Some day Canada may wake up to find that it has in its midst a class of modest workmen, contented with comparatively small wages and limited responsibility so far as their labor is concerned, but intensely busy with the enlargement of their mental horizon, and able to take a careful, reasonable and instructed view of big questions, while too many of their fellows have atrophied their intellects by using them on one subject exclusively and are compelled to be helpless followers of another man's lead.

A writer on educational topics in the United States has claimed that the Germans who came to that country abandoned almost entirely the intellectual habits of their fatherland, and that the first Americanized generation knows no more of Kant or Marx than if its parents had never been born under their influence. We may have reason later on to be thankful that our English immigrants have not left their mental characteristics behind them, and we may discover that the habits and tendencies of mind which we now regard as impractical (because they may not show in the penny-bill) are really just as valuable as our own if not a little more so.

CHARACTER AND EMPIRE.

Whether it appears to belong to consanguinity, or whether we have regard to its unquestionable power over men of other races by virtue of the appeal of universal human appreciation of the liberty and equality before the law which are fundamental principles of our policy, we must equally recognize that an empire founded in a special and unique manner upon consent is an empire founded upon character. Says the London Times: "Not the exploits of soldiers, not the intrepidity of seamen, not the loud wrangling of party; not the fumbling of statesmen with secular movements which they understand only after the event, has built up the British Empire. Not any of these things alone, nor any of the material acquisitions they may have brought, can maintain the vitality of the Empire."

It is the product of the inner character of millions upon millions of undistinguished people who, generation after generation, have been content to do inconspicuously the duty that lay nearest them. It can be maintained only by conserving the fundamental integrity and earnestness of purpose which went to its building.

In the German Empire the number of temples exceeds that of the males by over 300,000.

To-night ends Victoria's greatest clothing sale. Every colored suit of B. Williams and Co.'s stock has been grouped into three special prices, \$2.00, \$11.50, \$17.50. Former prices up to \$35.00. J. N. Harvey, Ltd., 614 Yates St.

FIGHTING FOR TARIFF REVISION

Democrats and Progressive Republicans May Put Through Number of Bills

Washington, D. C., July 28.—The fight of the Democratic-Progressive Republican coalition for broader tariff revision gained ground yesterday, and it was confidently predicted in both Houses that a conference compromise wool bill, the farmers' free list bill, and possibly the cotton bill, with steel, sugar and other schedules, would be passed.

Meantime the indications are stronger than ever that President Taft will exercise his veto power on tariff legislation prior to the submission of the tariff board report in December. The cotton bill probably will pass the House next Thursday. Democratic leaders say that if the present programme is carried out there is nothing to prevent adjournment about the middle of August.

The plan contemplates a compromise wool bill on a basis of 30 per cent. ad valorem duty on raw wool. This measure will go to conference next Wednesday and Thursday. The free list bill, instead of being hand-leaved with the sugar, wool, steel and other schedules as riders, is to be changed only by the Bailey amendment, which strikes out the provision placing farm products on the free list. This amendment is necessary to insure the Republican insurgent vote. Democrats of both Houses expressed certainty that the free list bill would be put through the senate next Thursday by the same combination that put the wool bill through.

The intention of the free list bill as a whole, as the insurgent senators regard it, is to compensate the farmer for the loss supposed to have been inflicted upon him by the acceptance of Canadian reciprocity, and they will not consent to any extension to other countries of the free import provision on the products of the farm. Practically all the opposition to the bill on the Democratic side will be because of this amendment. The wool bill will be sent to conference Monday or Tuesday.

ECZEMA WAS SPREADING

TILL D. D. D. CURED IT. This is a translation of a letter written us in French, on April 14, 1910, by Mr. Dan Babin, Cap-Lumiere, N. B.

"I had been suffering with eczema for about 6 months, and had consulted several doctors who did not do me any good. The disease was spreading and I was most uncomfortable. I thought I would go crazy. All my friends were telling me I would lose my hands unless I found the right treatment."

"One day I read in the Messenger about your D. D. D. treatment and asked for a sample. It did me so much good that I immediately ordered two large bottles. It took eight bottles altogether to cure me of this terrible disease. I shall never be without a bottle of D. D. D. in my home."

Two records of ten years of complete cures of thousands of the most severe cases show that D. D. D. stands to-day as the absolutely reliable eczema cure.

Write to-day for free trial bottle to the D. D. D. Laboratories, Dept. V. T., 49 Colborne St., Toronto. It will give you instant relief.

D. E. Campbell, corner Fort and Douglas.

CHILD DROWNED.

Would-Be Rescuer Has Narrow Escape From Meeting Like Fate.

Olympia, Wash., July 28.—In an attempt to reach the position on a boom stuck held by her little eight-year-old uncle, Edna Mizner, one of the twin daughters of L. C. Mizner, slipped into the bay from the rowboat in which she had been sitting and was drowned. Mrs. J. F. Cline, unable to swim, would have drowned had it not been for her 15-year-old daughter, Gladys, who threw out a plank which her mother grasped.

The tragedy happened in plain view of a number of people, both on shore and in the water, about half way be-

Large, Cleared Lots in Our FORT ST. SUBDIVISION

From \$500 on Easy Terms. This is a waning opportunity for you to secure large clear garden lots on or close to the Fort street car line at the original prices. It stands to reason that with the increasing value of property surrounding this subdivision that these lots must increase in the same proportion. This means that these lots cannot remain long at these prices. It is, therefore, up to you as to whether you wish to buy now while prices are low or to buy later and pay the profits of the fellow who buys to-day. Better think this over and come in and get a plan and more particulars now. It will pay you.

Island Investment Co., Limited. Sayward Block Phone 1494

Ironing Without Perspiring. Electricity has taught us all many wonderful ways in which it can be used, but as far as the lady of the house is concerned it is certain that it has taught the man as well as the woman that the drudgery of housework can be easily cut in half by using the various electric domestic devices that are now in every day use.

SALVATIONISTS IN INDIA.
Successful Efforts to Revive Silk Industry Exhibited.

The Salvation Army exhibition which was held at Simla recently has served to call attention to the work which the army is doing in India. In the exhibition were to be found samples illustrative of this work, which is being carried on in 13 provinces of India, among 18 different nationalities speaking twelve different languages. The total number of villages actually affected being upwards of 2,500, while the staff consists of 190 European missionaries and 2,970 workers.

The work that is being undertaken by the Salvation Army in connection with the reformation of the criminal tribes has already been referred to in these columns; another interesting branch of the army's work is to be found in the efforts which are being made to re-associate village industries which have fallen on bad times.

Chief among these is the weaving industry, the next most important industry to agriculture. For some time past owing to the competition of mill-made and foreign goods, the condition of the weaving industry has steadily declined. Of late years, however, the army have succeeded in restoring hope and confidence, thanks to the invention by one of their officers of a very simple device which can work in the finest and coarsest counts, in silks, wool or cotton, at a rate almost equalling that of the power loom. About 800 such looms have already been manufactured and the demand for them is steadily increasing. Public recognition, moreover, has not been wanting, and the new loom has obtained prizes at many of the principal exhibitions held of late years, and sign, have been manufactured, and weaving schools have been established.

Mr. Booth Tucker is of opinion that the village weavers will be able to compete successfully with the mills for various reasons, amongst which the following may be mentioned:

1. They can count on the unpaid labor of their families.
2. They have skill acquired by generations of practice.
3. They can get the necessary capital through co-operative credit societies, which should be able to purchase their yarn for them in the cheapest market and sell their turnout in the dearest.

The army is also endeavoring to re-educate the decadent silk industry, which is such a source of wealth to China and Japan. For this work also the weaving community should be eminently suited.

Cuticura Ointment

For Skin Sufferers

If you, or someone dear to you, have undergone the itching, burning, sleep-destroying tortments of eczema or other cruel skin eruption and have suffered from its embarrassing, unsightly disfigurement; if you have tried all manner of treatment, no matter how harsh, to no avail, and have all but given up hope of cure, you can appreciate what it means to thousands of skin-tortured sufferers, from infancy to age, when the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment brings instant relief, permits rest and sleep, and proves the first step in a speedy and successful treatment.

NITRO FOR CATERPILLARS.

A Reading, Pa., newspaper prints the following from its Allentown correspondent, whose reputation for truth and accuracy is first class:

"Elihu Badford, a quarryman, living near Freiregville, claims to have solved the caterpillar question. The other day he happened to spill a small quantity of nitroglycerin over some bushes. Shortly afterward he heard a series of sharp explosions coming from that direction. Upon going to investigate he found that the caterpillars were devouring the foliage, that they would scarcely be more than taste it than they would drop to the ground and blow up with a loud report.

"Being an ingenious man, Mr. Badford immediately saw great possibilities in this great accidental discovery and began to experiment. He reasoned that pure nitroglycerin would be too expensive for the destruction of the caterpillar, but found, after several trials that a ounce of the explosive mixed with about four gallons of water would answer perfectly.

"Spraying a tree with this mixture costs only a few cents, kills it of caterpillars in a few minutes. Before the mixture is completed the caterpillars begin to drop and explode; and in a minute or two there is a continuous fusillade, sounding like volleys of miniature musketry.

"It is found, too, that the shock of the explosions effectively destroys all the other pests on the tree. Mr. Badford has applied for a patent, and is organizing a company to exploit his discovery."

LUMBER INSPECTION BUREAUS.
Portland, July 28.—Lumbermen from Puget Sound, Grays Harbor and Willamette and Columbia river points met in this city today and voted to incorporate the Pacific coast lumber inspection bureau and the Oregon and Washington lumber inspection bureau under the title of the former organization. The change will become effective August 1, and thereafter this bureau going aboard vessels, whether off shore

TELEPHONE COMPANY'S RIGHTS QUESTIONED

Alderman Wants Council to Withhold \$100,000 Until Better Terms Are Obtained

The relative positions of the city and the B. C. Telephone Company under the terms of their agreement were discussed last night in the city council on a communication protesting against the company being awarded absolute and perpetual rights over the parts of the buildings on which their apparatus were placed.

Alfred H. M. Fullerton, though the matter was one requiring the most strenuous action of the council, and he recommended that \$100,000 be withheld from the company until better terms were obtained. The question of title was involved and that represented a most serious matter if it was to be barred away without the owners of buildings concerned having an opportunity to protest.

Municipal Notice

The Municipal Council of the Corporation of the City of Victoria hereby determines that it is desirable:

- 1. To construct a permanent sidewalk on the east side of "A" street, from Topaz avenue to Market street.
2. To open up a lane through Block W, bounded by Blanshard street, Johnson street, Quadra street and Pandora street, from Quadra street to Blanshard street, and thence to appropriate a strip of land five feet in width on each side of the line, running in a westerly direction from Quadra street to Blanshard street and midway between Pandora street and Johnson street, in order to make said lane a uniform width of 10 feet.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement from such reports and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate.

WELL KNOWN AGENT DEAD. New York, July 28.—George F. Ade, well known in railway and steamship circles in all parts of the country and abroad as manager of the Thomas Cook & Son Company, is dead at his home here after an illness of several months. He was born in London in 1851, and at sea for some time in the service of the White Star line at Liverpool. In 1888 he came to this country as manager of Cook's business. He was a member of many clubs and societies.

MAY ACCEPT NOMINATION. Montreal, July 28.—In all probability the Liberal candidate to contest the seat in Jacques Cartier division against P. D. Monk will be Joseph McLaughlin, superintendent of construction in the Dominion Bridge Company.

WINNIPEG TRAGEDY. Winnipeg, July 28.—At 9 o'clock this morning, Frank Johnstone, a negro, manager of the Winnipeg Colored Club, was shot and killed by Charles "Chief" Reed, most Redmond fired five bullets into him at the club house. The latter is now in jail charged with murder. He was caught hiding in the C. P. R. yards.

HEALTH? No doctor has been able to make a living here. SCENIC BEAUTY? Incomparable. SOIL? Can't be beat on the island. SPORT? The very best. PRODUCTS? Seen the exhibits from Sooke and Otter Point at the Agricultural Show? DOLLARS? This is where they were made.

TOWN OFFICE. ROBT. WM. CLARK. 1112 Government St. Mishon Block, Victoria, B. C.

Autonobile Stage leaves Dixi Ross's, Government Street, 8.30 a. m. daily, except Saturdays.

"SMITH" FORESEES A BANKRUPT CITY

Laconic Epistle of Warning is Anonymously Sent to the Board of Aldermen

"Smith," the anonymous mystic and prophet, signed and sealed the fate of the city of Victoria in an interrogatory communication to the council last night. The communication was in the following laconic and portentous terms: "Has it occurred to you that our city will be bankrupt in two years?" A ripple of laughter greeted the reading of the document which, by the perceptive humor of the clerk, had been given first place on the file.

Humor in Meeting. There may be heat in the Yukon, there may be fevers in the Bosphorus, but humor in the call for a business meeting is surely the limit of dissimilarity in union. Yet here it is. It came without warning, justification or excuse, and therefore must stand or fall upon its merits. W. J. Hanna is the perpetrator and the Pandora Avenue squabble over the widening scheme has been made the butt. It takes the form of a notice to all and sundry who own property on Pandora Avenue. Here it is:

"The adjourned meeting of the Pandora street property owners will be held on Tuesday, the 1st day of August, at 8 p. m., at the city hall, and as we have committed some awful crimes in the past it is just possible we may become reckless and swoop down and take your whole lots at the next meeting, so be sure to come out and represent your family."

Further advertisement of the meeting was given in the city council last night, when no less than three petitions for delay were placed before the board for consideration along the same line. Needless to say, this being the only point upon which any unanimity has yet been reached the council very willingly delayed the matter as requested.

BAND CONCERT

By kind permission of Lt. Col. Currie and officers of the regiment the Fifth Regiment Band, under Bandmaster Rogers, will play the following programme at Beacon Hill park tomorrow afternoon at 4 o'clock: March—"The Morning Star"; Zickel; Overture—"Morrison Noon and Night"; Suppe; Cornet Solo—"The Holy City"; Adams; Soloist—J. Wilmore; Grand selection—"Romeo and Juliet"; A. Barakoff—"O Belle Nuit"; B. Coccaud—"Offenbach"; B. Coccaud—"Hermann"; B. Coccaud—"Grosses Des Perles"; Doring; Grand Selection—"Lucia Di Lamermoor" (request); Donizetti; Waltz de Concert—"The Spirit of Love"; O Canada; God Save the King.

"MACUSHLA." Irish feeling and Irish sentiment ran high in the Victoria theatre last evening when Chauncey Olcott appeared in that most charming, most delightful Irish little play, "Macushla." Redolent of the soil of the Emerald Isle, its irresistible charm went straight home to the hearts of the audience. Victorians are not usually enthusiastic, but last night they were carried away out of themselves, and Chauncey Olcott would scarcely have received a warmer reception in Old Ireland itself.

"Macushla," let it be understood, being interpreted into cold, brutal English, means "Pulse of My Heart." The real Macushla of the play is a race horse—reputed to be the finest jumper in County Kildare—but long before the play draws to its end Chauncey Olcott, as Sir Brian Fitzgerald—most lovable of Irishmen—has discovered that the title may also be appropriately applied to his charming little tomboy friend, Patricia Boyer, known throughout the play as Pat. The part of Pat is taken by Miss Gail Kane, whether herself an Irishwoman it might not be polite to say, but as charming and delightful a figure as ever appeared before a Victoria audience.

The play deals with the general state of Irish feeling in the "old world" estate, Duncannon, the famous race in which his horse carries off the blue ribbon, and his (Sir Brian's) final departure in the closing scene for America—whether Canada or the United States is not exactly specified—but one imagines the latter, the plot of the play being laid in 1824.

This is the bare outline of the play, for it is hard to do justice in cold print to the charm of the thing; the old feudal sense of loyalty that runs all through, the tender love story with its charming ending, and then the curtain falling in a double sense, on the "old world" to the "unforgettable" strains of "Come Back to Erin," as Sir Brian Fitzgerald goes away to seek his fortune in the land of promise. Chauncey Olcott as Sir Brian Fitzgerald had caught the Irish spirit of the play so perfectly that when, in his little speech, he referred to his school-days at Baffalo, the audience was aware of having received a shock. His songs were delightful, "Macushla," by Dermot MacMurrough, and "The Girl I'll Call My Sweetheart," by himself and D. J. Sullivan, being, perhaps, the best. They were warmly applauded and encored by the audience. Miss Gail Kane, as previously mentioned, was delightfully pretty and natural as Pat Boyer. Jennie Lamont did well as Mrs. Boyer; Robert V. Ferguson handled the amusing part of Sandy McNab very capably, and Charles Wellesly, which is an Irish enough name for anyone, was sufficiently villainous as Warren Fairchild to be liked by the audience in the most utterly early-Victoria manner. The lesser parts were all well sustained. The orchestra, which is attached to the company, played delightfully during the rather long intervals. Altogether a play well worth seeing.

DEATHS FROM HEAT

No Prospect of Relief in Germany. Where Many Fatalities Are Reported. Berlin, July 28.—There is no break in the heat wave. The weather bureau announces that the shade temperature through the interior yesterday averaged 95 degrees and that higher marks were reached to-day. There is no immediate prospect of relief. Many fatalities were reported throughout the country to-day due to the heat.

MARINE NOTES

Carrying a large number of passengers and a big cargo of freight, the C. P. R. steamer Princess May, Capt. McLeod, left this port last night for Skagway. Many of her passengers were bound for Prince Rupert, while a number are booked through for Skagway.

Returning from Rivers Inlet and other coast points, the C. P. R. steamer Queen City will dock here to-morrow morning. She is bringing much freight and several passengers to this city.

Get In the Game

GET IN TO WIN

There are many firms pegging away, kicking up a little dust occasionally by a bit of spasmodic advertising—getting more business than going back to the same old gait, and wondering why a progressive neighbor gets the trade.

Almost anything on earth is possible if you go after it in the right way.

If you feel you could no more business, get in the game with proper equipment; set the pace. The advertising media is the essential.

The Times is a true vehicle of publicity. It holds the confidence of its subscribers.

It reaches the people who have money to spend, the people whom you have to look to, Mr. Advertiser, for the maintenance and growth of your business.

If you're in the game to win, you need The Times' assistance.

WOMEN'S SQUABBLE ENDS IN THE COURT

Temperamental Incompatibility Brings Two Similar into the Limelight

Temperamental incompatibility is a physiological condition wherein two individuals, instead of being opposite to one another by instinct, art, education, are so absolutely similar as to find the common ground in their respective and impossible. Individuals who suffer from it stand in the same relation to one another as murder does to hanging. They are similar and they breed their kind.

An amusing proof of this interesting phase of human life was witnessed in the police court yesterday in the hearing of a perfectly trivial case. It involved two women. They were neighbors, so much so that they were compelled to smoke through the same chimney. Yet they could not get on and the inevitable result of their appalling similarity was their appearance in the police court, one charging the other with assault, and bearing the mark upon her hip as evidence beyond the subterfuge of the law's explanations. The one who suffered the assault to the effusion of blood had assaulted the nerves of the other by playing on them too, too finely, and the magistrate, recognizing the difficulties which the case presented, decided to let the prisoner go on suspended sentence.

And the prisoner did not seem to care a great deal either for as she received the admonitions of the judge she assured her late antagonist that if the circumstances recurred she would "throw her out by the scruff of the neck," which expressed intention, if it does not suggest anything particularly gruesome, at least has the element of indelicacy in it to a very large degree. Care was taken to see that in leaving the precincts of the court-house a wide margin was allowed to gape between the prisoner and her accuser.

SOCIALISTS RAID RANCHO IN MEXICO

Party Later Attacked by Maderista Troops, Who Have Asked for Reinforcements

El Paso, Texas, July 29.—A Sierra Blanca, Texas, special to the Herald says: Authentic telephone information received here to-day that fifty socialists raided the Cuervo rancho in Mexico, taking every one prisoner, including two Americans. The socialists were followed by 35 Maderista soldiers and fighting took place at the Carrizo rancho, but the result is unknown. The Maderistas have asked for reinforcements and Jose J. La Luzblanco has communicated with Madero by wire. The Cuervo rancho is situated 75 miles south of Sierra Blanca and is controlled by an American syndicate.

NO NEW CASES OF CHOLERA.

New York, July 28.—No new cases, no deaths, and the cholera patients improving, was the terse report from quarantine to-day on the cholera situation. The bacteriological examinations of the passengers of the Oceanic are nearly completed and the steamer may be released to-day. The Berlin and Verona are still in quarantine.

KILLED BY EXPLOSION.

Algona, La., July 28.—"If the boiler blows up, I'll go up with it." As these words left the lips of Leonard Hart, a traction engineer, living near here, this afternoon, the boiler of a threshing engine on which he was working, exploded, tearing his body to fragments, and fatally injuring Frank Meyers. Hart had just been warned that the high pressure would result in an explosion.

Vancouver Island's Experimental Farm

The Veitch farm, which has been purchased by the Dominion government as an experimental farm, is ideally situated for the purpose. It lies on Bazan Bay, being about two and a half miles south of Sidney, and something over a mile and a half north of Victoria. The middle portion of the farm is a low cliff, 20 feet or so above tide level, it rises by benches to a height of close on two hundred feet above the sea at the western end, and behind that the land still ascends forming a protection from westerly and northwesterly winds. The lower portion, lying between the shore and the V. & S. tracks, has been cleared and used as meadow land. The middle portion, from the railway to the highroad, is in pasture and wooded land, there being many delightful glades and woodlands. West of the land paths at the road, where the homestead is, the land has been in grain this year, and a heavy crop has just been harvested. There was also some grain grown immediately east of the railway. The soil is a splendid one all through the farm and those adjoining, neighboring farmers state, and the abundance of the crops they take off is the best testimony to that. There being so many different elevations it lends itself admirably to experimental uses. There is a plentiful supply of the purest spring water on the farm. Beside the homestead is a well fed creek runs north, and a creek runs south. A fine sandy beach lies along Bazan Bay below the farm, and for a long way on either side of it. The farm is within easy access of Victoria by road and by the V. & S. and will be traversed also by the Seaside extension of the B. C. electric railway.

As soon as the legal formalities of the purchase are all completed it is expected that work will begin on getting the farm into shape. **DIES SUDDENLY.** Bellingham, Wash., July 28.—The sudden death of H. H. Taylor, nephew of D. O. Mills, and president of the Bellingham Bay and British Columbia railway and allied interests, who succumbed to a heart ailment, has put a stop to extensive automobile tours of the state, which were planned many months ago by Mr. Taylor. Mr. Taylor was well known in Bellingham business interests and also other active interests in Alaska. Mr. Taylor was head of the Treadwell Mining Company.

the privilege of asking for the mill then he didn't get it.

President Bob Brown of the Vancouver club tried mightily hard to fix up a deal with the Victoria club for Ten Million, but Manager Wattlelet would not consent to any trade or even a sale. First Bob offered a cash consideration and a player for million, but this was turned down, and then he offered to give Inlander Lockwood, the University of Washington boy, who is with Moose Jaw, along with another player to Victoria for Million, but this was declined with thanks. An hour after Wattlelet refused to make the trade, President Brown received a letter from the Victoria club offering \$500 for Lockwood.

A New York baseball statistician who thinks he knows the valuation of star baseball players—estimates that the team that beat the Crovadians for the Joss benefit on Monday would bring the following prices if placed in the market: Ford, \$25,000; Johnson, \$20,000; Wood, \$8,000; Livingstone, \$5,000; Street, \$6,000; Chase, \$30,000; Collins, \$20,000; Baker, \$20,000; Wallace, \$8,000; Crawford, \$15,000; Specker, \$15,000; Cobb, \$35,000; and Milan, \$5,000. He adds, generously, that this team as a whole would win a world's championship in a walk.

SPORT NOTES

Richard Arnet, of New Zealand, the world's champion, defeated Harry Pearce, champion of Australia, in a race on the Parumatta River for the world's sculling championship today. The time 19:46 is a record for the course. The distance was 3 miles and 320 yards.

Announcement is made by the Northwest Club of America that the speed boat Vixen, owned by J. S. Blackton, has been selected as a challenger for the gold cup race which will be run on the St. Lawrence River under the auspices of the Frontenac Yacht Club, August 8-10. The vessel will be launched from the yards in Alexandria, N. Y., and will be one of the smallest "fast" craft in the race. She is 33 feet over all. Another challenger is the boat Mabel III, the fastest speed boat in the world. The cup will be defended by the Dixie IV which has been loaned to the yacht club by Commodore Melville. The annual Bermuda boat race for a prize of \$1,000 will be started from Huntington Bay, L. I., on Saturday September 9.

The idea of having a return race to New York for the motor boats which took part in the reciprocity race from New York to Halifax, N. S., has been abandoned. The boats will return to New York by easy stages, visiting various ports en route. The Cronel sailed to-day with members of the regatta committee on board.

Transfer License

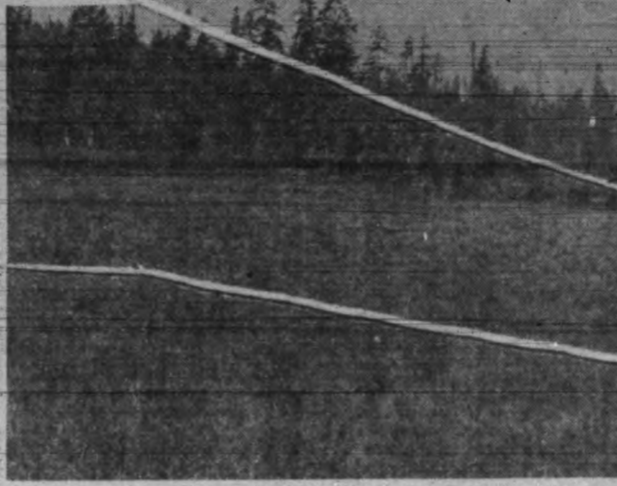

Notice is hereby given that the undersigned intend to apply to the Board of Licensing Commissioners for the City of Victoria, B. C., at the next meeting thereof, for a transfer of the Retail Liquor License now held by the "Manitoba Bar," situate at 514 Yates Street, Victoria, B. C., from the undersigned to Lyle Lelloy Mills and Thos. Pilling Phair.

Dated this 25th day of July, 1911.

OUR LETTER BOX

PANDORA AVENUE IMPROVEMENTS.

To the Editor—Many people wonder and enquire of me by telephone and otherwise regarding the extension and widening of Pandora avenue, and whether it is blocked—and when one reflects on the way our work has been criticised by the Times paper and the mayor's action in trying to kill it by getting up a hot air plan that would cost millions, one which he knows would never pass the council, yet he persists wasting the time of the city officials, making plans which will only go to the waste paper basket as Morley's million dollar mushroom, and when we are confronted with such foolery, it is no wonder the public are misled. As to what is really being done so to report progress I will just say that the extension part through to Oak Bay avenue has been passed and is now law, and the widening near Douglas street we are now working on, and when we get Pandora street widened to the E. & N. station, the market property will then almost face on Pandora street, and will be the most appropriate place to build a city hall, and there will be but a few scraps of land to expropriate to form the necessary square for ornamental purposes, and the public will be saved from any unnecessary taxation.

The Grandiscope

The Evening Chit-Chat

By Ruth Cameron

"But if we go over on the boat what will we do about the carriage we ordered to call for us?"—First girl.
"We'll come in anything just for the gas betwixt second and third."—Second girl.
"But he'll charge us just the same."—Third girl.
"How can he if we are gone?"—Second girl.

"Of course he can't. And he always sends a little boy up and those little boys might just as well be riding around as loading in the stable."—Third girl.
"That is a conversation among three young girls which I've heard the other day. Yes, actually, of course I haven't it word for word, but that is the substance.

No, they were not ignorant, conscienceless creatures of whom you might expect anything at all. On the contrary, they were well-bred, refined girls, college-educated and perfectly sensible in the habit of doing what they thought was right.

And yet only the decision not to go in the boat after all prevented them from cheerily carrying out the plan outlined in that conversation.

Isn't it extraordinary how often you will find similar examples of a complete lack of a sense of honor among well-bred and intelligent women?

The shampoo lady says that the nicest of her patrons seem to think nothing of cancelling an appointment so late that it is impossible for her to sell her time elsewhere.

Dressmakers tell me that they very often lose a day's work in this way. Everyone knows how women who do not want to buy and yet dislike to

poor shop-lifter who gets jailed for stealing twenty-five cents' worth of ribbon from a huge department store and there is the wealthy woman who isn't jailed for stealing one-sixth of her poor dressmaker's weekly income. Am I too harsh?
Perhaps so. Perhaps the sex that has known so little about business for so many centuries cannot be blamed for not having a keener sense of business honor.
And yet—well, surely our sex has not been barred from a study of the Golden Rule, and it seems to me that an understanding of "As ye would that men should do to you, and a sense of business honor are pretty closely related."

SOCIAL AND PERSONAL

Mr. and Mrs. Robert Kelly, Vancouver, are in town.

Mrs. Sills and her daughter are on a visit to this city.

Mrs. Robert Haddon is visiting friends in Vancouver.

J. W. S. Lombard, Quamichan Lake, left to-day for England.

Miss Wilona Troup is visiting Vancouver during tennis week.

Merton Merrill, Graham Island, is stopping at the Dominion.

Mr. and Mrs. C. French, Salt Spring Island, are at the Empress.

Mr. and Mrs. J. Finch, Vancouver, are guests at the King Edward.

Mr. and Mrs. H. B. Gordon, Montreal, are making a short visit to Victoria.

Mr. and Mrs. A. W. Seaman, Nelson, arrived at the Westholme Wednesday.

Miss K. Korkill has returned from Lytton, where she spent a pleasant vacation.

Mrs. Burton Stewart has arrived from London and is staying at the Empress.

A. H. DeLara, Calgary, is a visitor in the city and is staying at the Westholme.

Mr. and Mrs. W. Dawson, Vancouver, arrived in this city yesterday afternoon.

Rev. R. A. MacConnell has been spending the past few days on the mainland.

Capt. and Mrs. Seth Williams, Bremerton Navy Yard, Seattle, are visitors in this city.

Samuel Young left yesterday on his way to Ireland, via the Northern Pacific and the Mauritania.

Mr. and Mrs. C. M. Marpole and son arrived from Vancouver yesterday and are staying at the Empress.

Miss McMicking and Miss Elaine McMicking have returned from a pleasant holiday in Vancouver.

Mr. and Mrs. T. J. Little and family, Regina, Sask., who have been on a visit here, returned home to-day.

FOR THE BRIDE.
Tea gowns, dressing gowns, lounging robes and breakfast jackets are of absorbing interest to the prospective bride, and the extremely dainty negligee of pale blue china silk and Valenciennes lace illustrated may be easily copied by the clever girl. The upper portion of the lace, laid over blue silk, and the lower part is of accordion pleated silk, held by a Valenciennes and a deep frill of lace arranged in points. Sleeves are finished in pointed effect and edged with a lace frill. The ensemble effect is given by a girde of blue satin ribbon, tied high on the bust and having long sash ends.

The Green Room

The Williams Stock Company opens what is expected to be a lengthy engagement in the A. O. U. W. Hall on Monday evening. Manager Dave Williams brings his company here after some very long engagements in Washington cities, seven months in one case and thirteen months in another. He has gone to a great deal of expense in re-fitting and renovating the hall in order to comply with the fire regulations, and has in it now one of the most comfortable family theatres imaginable.

Mr. Williams has a company of twelve experienced players, most of whom have been with him for long terms. Miss "Pinky" Mullally, his leading woman, will be remembered here as a member of the old Redmond and Watson stock companies. W. J. Vandyke, his leading man, has just joined the company and opens with it here. The other members of the com-

pany are all capable people, Mr. Williams says, and he has no fear but that they will quickly gain the esteem of the Victoria theatre-going public.

The company will be seen in Milton Royle's "Friends."

Next week, and the week after in "Pat in Full." There will be a performance every week evening at 8:30, with matinees on Wednesday and Saturday at 2:30. The popular prices of ten, twenty, and thirty cents are to prevail. There will be specialties between the acts.

Henry W. Savage has engaged Frederick Ward to appear in the part of Nobody in the special "Everywoman" company, which will begin the regular season at the Auditorium Theatre, in Chicago, in October. Mr. Ward has played Shakespearean roles for twenty-five years.

In commenting on the recent engagement in vaudeville of Lillian Graham, a former Seattle girl, and Ethel

BYRON LOUCK

Harrison Grey Fiske has acquired the rights of Edward Knoblauch's play of "Kismet," which made a success at the Garrick Theatre in London. Those who have seen it abroad are curious to learn what American actor will be deemed equal to the part played by Oscar Ashe. Mr. Fiske, it is reported, has under consideration for this character both Tyrone Power and Wilton Lackaye. The curious feature of the success of "Kismet" and the eagerness of American managers to control its rights, now that it has been acted abroad, is that it was written by an American who gave several managers an opportunity to secure it before he took it over to London.

Despite the very hot weather "Kismet" has been drawing immense houses at the Garrick. The play has a true Eastern flavor, and is full of highly colored incidents and humorous episodes. It is essentially a love story, portraying the love of a powerful Caliph, an admirably good man, handsome, just and omnipotent, who selects for his wife a girl of lowly birth, innocent, charming, with rather strong character of an Eastern girl. The principal character is Hajji, the beggar, most vividly portrayed by Oscar Ashe. The period embraced by the play is from dawn to sunset. The production is admirable from every viewpoint. It is full of color without being overburdened with details. A fine and assured taste has guided the hand of the producer.

Sam Bernard who scored the greatest hit of his career last season in "He came From Milwaukee," is to visit the Pacific Coast next autumn for the first time and is booked for the Victoria theatre.

Mr. Bernard is probably the only leading American star who has never played in any of the coast cities. He has been such a great favorite in New York and the other large centers of the East and so constantly in demand that his tours have always been more or less abbreviated in the amount of territory covered. Mr. Bernard, in all his experience, has never been west of Omaha.

The demand from the Far West to see him has been growing with such force from year to year that the famous comedian has at last agreed to make the trip, and his initial trans-continental tour has already been "booked" under the management of the Messrs. Shubert.

FRANK HARTLEY
The English juggler and comedian, ranking in vaudeville as a top-notch artist and performing at the Empress next week.

MISS "PINKIE" MULLALLY
Leading woman with the Williams Stock Company, which opens a long engagement in the A. O. U. W. Hall on Monday evening. Miss Mullally has been seen in Victoria before, having been a member of the Redmond and other stock companies. The opening bill will be the popular comedy, "Friends," in which Miss Mullally has a part which is said to suit her admirably.

THE ADVANCE MAN

Empress Theatre.
Young Frank Hartley, an eminent English comedian of the latter day, headlines at the Empress vaudeville theatre on Monday in a comic juggling act that when seen by John W. Conside on his last European tour stamped the Englishman as worthy of headlining over the S. and C. circuit.

All modern progress in the juggling line has been set back by the irrepressible Hartley, notwithstanding his youth. He is among the latter day performers who have appeared by royal command before the King, and has done a most important variety of tours in the old world. He is gifted with an unquenchable humor, which he mingles liberally with his cunning dexterity and the combination makes good, so say all the critics, every minute he is before the lights.

ERNEST SHIPMAN MAKES PLANS

Ernest Shipman, whose name has long been identified with first-class theatrical undertakings, has about decided to devote the major portion of his future operations to the Western States.

Nine years of theatrical experience in New York, augmented by tours through Europe, Australia and the Orient has given him a wide range of ideas, and the undertakings of last season, particularly "The Barrier" tour, all turned out successfully. Mr. Shipman's plans for early fall openings embrace some of the most noted dramatic events to be witnessed upon the coast this season.

"The tour of Lawrence D'Orsay in 'The Earl of Pawtucket' opens at Toronto on September 25. This will be a most elaborate production, under the direction of John Cort, who has signed D'Orsay for a term of years. The original New York cast has been re-gaged, and the tour will be one of his events of the theatrical year, embracing an extended engagement in the theatres of Greater New York. This tour will be under Ernest Shipman's personal management.

An act that Manager Trumbull is going to feature next week is the Bell-Boy Trio, newly come to vaudeville and three of the liveliest gamins frolic round the circuit. They are unorthodox, filled with all that makes the laugh come readily and spontaneously, so it goes without saying more that the bell boys will be one of the favorite acts of the Empress.

Mary Ambrose, a Junoesque beauty from the Emerald Isle, was won to an American trip by J. W. C. and was sent immediately she signed her contract to sing in S. and C. houses on this side. She sings delightfully and plays the violin as one should after ten years' study with European teachers. She makes one of the educated vaudeville offerings singing Irish songs, and on this side has already created a lasting impression.

With two or three exceptions, the David Belasco successes have not been witnessed on tour. Frederick Belasco will launch a number of his brother's most noted plays during the coming season, and Ernest Shipman will act as his general manager. Each of these offerings will prove a significant dramatic event.

The attraction selected to inaugurate the coming season of the Savoy theatre, San Francisco, will be composed of Florence Roberts, Thurlow Bergen and Theodore Roberts, playing their original parts in the New York all-star cast of "Jim the Penman," which, in such deft hands, has proven to be one of the greatest detective plays ever staged.

Many will remember "The Substitute," with Max Figman, and those same will remember in that same best bet Charles. But Herbert has developed a new line, having for years studied female impersonations. He now brings it to an easy hour theatrical business, and features the art of quick change with a special stock of clothes made to show how the lightning changes are made. To demonstrate the art he makes the changes before the audience. The opening act next week is the Randow brothers, European eccentricities of exceptional class and profuse fun-making proclivities. Acrobatic and burlesque work gets them the hand, and farcical boxing has rung the curtain down to a storm of applause in other places.

The Grandioso and orchestral selections will be given as usual.

Like "The Earl of Pawtucket," this company will only hit the "high spots." The tour will be limited to fifteen weeks and closes early in December, at which time Mr. Shipman will launch this stellar trio afresh in a new play, or in one of the latest New York successes.

"The Barrier" opened on last New Year's day under Mr. Shipman's manipulation, and rolled up a trifle over \$5,000 profit before closing. The bookings ahead for two companies of "The Barrier" looks like a double repeat of last year's profits.

Helen Barham, who delighted everywhere with her talented and winsome interpretation of "Necia," in "The Barrier," will create the role of "Cherry Malotte" in "The Silver Horde," by Rex Beach, this coming season. If the new dramatization of "The Silver Horde" is not ready for fall staging, Miss Barham will fill the interim by playing the leading role in "The Chorus Lady." She is working under a five years' contract with Ernest Shipman, and Maurice Barham, her brother—who jointly with her has fallen heir to a considerable English legacy—is co-operating with Mr. Shipman in advancing his sister's professional career.

So pleased is Rex Beach with last season's returns in the way of royalties from "The Barrier" that in addition to "The Silver Horde" he has given Mr. Shipman the first refusal of the dramatic rights to his "N'er Do Well."

Mr. Shipman will launch "The Barrier" companies from Seattle, the Roberts-Bergen-Roberts Company from San Francisco, and will go to New York in September to take personal charge of the Lawrence D'Orsay tour.

Other productions will be made in the season, and although offices are essential in the eastern metropolis, yet the greatest volume of work will be executed in the west, with headquarters at Seattle and San Francisco.

CHARGE AGAINST LAWYER
Viterbo, Italy, July 29.—At the trial of the Casorinists yesterday Alessandro Loy, of counsel for the defence, again tried to prove that political influence was being exercised against the accused men. President Bianchi, however, cut short Loy's efforts and ordered him hereafter to keep within the limits permitted the defence.

Capt. Fabroni, of the Neapolitan carabinieri, was on the stand and was questioned concerning his actions during a famous lawsuit against the police. During that suit, he said, Loy had corrupted witnesses and caused them to withhold evidence from the charge.

Every housewife knows that newly made flour does not give so satisfactory results as flour that has been aged for some time. Why it does not is rather difficult to explain—but flour that has been aged just right will make a larger, better-flavoured loaf of bread than flour that has not been aged.

We are careful about SEAL OF ALBERTA. We watch this point. You can be absolutely certain that the flour you are getting is just right, if you insist on SEAL OF ALBERTA.

The essentials of successful bread-making are:—

- (1) Good bread flour—preferably SEAL OF ALBERTA—the Faultless Flour.
- (2) Good Yeast.
- (3) Dough of the right consistency.
- (4) Control of the temperature at all stages.
- (5) To remember that soft flours are intended for pastry, not for bread making. If you want a pastry flour ask for Dandy Pastry, but if a bread flour, "SEAL OF ALBERTA."
- (6) To avoid drying out of the surface at all stages, as this makes a dark streak through the baked loaf.

Remember the name—Seal of Alberta

DIPLOMAT CALLED HOME TO CHINA

Frontier Problems Suggest That China Seeks Alliance With United States

It is beginning to be known how shrewd "the old rogue" of Peking, as the censor, Kiang, put it, has been in giving the security of Manchuria wine and tobacco taxes to the Manchuria development part of the four-year loan of \$50,000,000. This practically introduces American, British, French and German "interests" into Manchuria finance and trade "rights."

In the same way Kiang Hu and Choh Kiang revenues are pledged as security for the Japanese loan of \$5,000,000. This gives Japan a right to interfere if any of the western powers "seize pledges" for anything in the Shanghai-Ninpo-Han-show region.

The new viceroy of Manchuria, Chao Erh-sun, had a humorous conversation with the Japanese minister, Hida, at Peking, on the subject. "The latter said: 'Your four-power loan is like attacking poison with poison.' The viceroy retorted: 'Yes, but your action in Manchuria is like a distant ally coming to the near attack.'"

The reason why Liang Tun-yen has been recalled from America by the charge of the Peking foreign office is because the Mongolia, Manchuria, Tibet and Burma frontier questions have so alarmed China that she is resolved to form an alliance with the United States. So says a Peking telegram of May 15 to the Shen-pao. China forgets that "war" support goes for nothing—even according to Confucius' saying—unless backed up by a display of power, and America's offensive power is next to nil in the Far East, whatever her prestige may be and her defensive power in the Philippines. The only weapon she possesses is finance.

Sheng Suan-hual is so angry with the provincial viceroys for objecting to his foreign loan policy that he endeavored to get the Archduke Tsai-tsun (finance) to telegraph to them all that they would be dealt with "for opposing an imperial decree." The archduke, fearing revolution, smoothed down Sheng's ruffled feelings, and—marked time. But there is a strong feeling in all the viceroys, governors and provincial parliaments against Sheng. Beginning with May 7, 25 decrees (first stamped by the regent) are now signed by the prime minister (Prince King) and the two assistant ministers (Nat'ung and Su Shichang). These three form the new responsible cabinet, or Neikoh; but if any decree concerns any particular board or department, the minister of that department also signs. The old cabinet was abolished on May 8. The presidents of all boards and departments are abolished, and they are all now kwoh-wu ta-chen, "ministers of state." Thus the Chinese department and ministers are all equally ta-chen, or secretaries of state, but Prince King is also "in charge" of the foreign office, over and concurrently with the foreign secretary, Liang Tun-yen. There are a great many other changes brought about by the revolutionary nineteen decrees of May 8 and 9, and the gazettes define the duties and powers of the new cabinet, new privy council, etc. Only one decree is honored by vermilion ink—that creating the cabinet, and practically placing Prince King over all viceroys and governors as well. Prince Yuh-lang is no longer in the cabinet; he is a minister of the presence.

Russia's Weak Position.
The book recently published by Mr. E. Harrison, "Peace or War East of Baku," explains largely the hopeless economic position of Russia in North Manchuria, which absolutely compelled her to adopt summary and temporary measures against China. What with Chinese smuggling in the forty-verst zone, Japanese and German nibblings, and her own economic incapacity in the hands of incompetent military governors, Russia in the Far East was like a plump cased rabbit, whose sustenance, and even whose very skin, was being gradually nibbled away through the bars by a pack of sagacious rats. Moreover, the retiring viceroy, Vilning (a Mongol), the minister of war, Yin-chang (a Manchu), and the two archdukes, Tsai-sun and Tsai-fao (brothers of the regent), have decided that China must be ready to fight, even if she perishes, for perish she must before long unless ready to fight for her life; and Russia suspected that "a certain power was investigating China, so as to create troubled waters."

The Peking Gazette contains a curious memorial recommending that a scholar who died at the age of 95 in A. D. 201 should be given a place in Confucius' memorial temple for having written the standard commentary on the philosopher Mencius. It is added that the reason he was not so given a place in or about A. D. 630 (when the images of such memorial scholars were first grouped) was "because at that date Mencius was not yet accepted as 'classic.'" On the same day a scholar of Kublai Khan's time (1260-1294) is granted a similar place among the Chinese "immortals." This sudden run on "Confucius" honors is probably a covert "assertion" against modern progress. However, this is nothing in belatedness as compared with Twanghieh, the pretended inventor of hieroglyphs in B. C. 2800, who was recommended in 1876 for divine honors by Wu Tachens, the same worthy who was in charge of the Chinese forces marching against Japan in 1894-1895.

The late empress-dowager used to allow Prince King 10,000 ounces a day (nearly \$5,000,000 a year) to farm out, contract for and supply all the wants of her court at the summer palace. Owing to the general rise in values the present dowager expects to receive 13,000 ounces a day.
At the instance of Chao Erh-feng, now acting viceroy of Szechwan, the Peking government has agreed to the building of a railway between Tsien-lu (Darjending) and Chamdo in Tibet, at once. His brother, Chao Erh-sun, has taken over Silian's post

A GRAND MEDICINE FOR OLD PEOPLE

"Fruit-a-tives" Restores the Health and Strength of Youth.

Grande Ligne, Que., Jan. 2, 1910.
"I heartily recommend 'Fruit-a-tives' to all who suffer from constipation and the painful consequences, Piles. I am now over 80 years of age and suffered for more than ten years with constipation and Piles. I tried all kinds of remedies, but nothing cured me."

"About four years ago I received a sample of 'Fruit-a-tives.' After taking a few doses I felt that 'Fruit-a-tives' were doing me good. As 'Fruit-a-tives' were not sold here then, I wrote to Ottawa for several boxes."

"After taking four boxes I felt well—my bowels were regular—and the Piles had disappeared."
"N. JOUBERT."

By taking one "Fruit-a-tives" tablet half an hour before meals—or one or two at night—old people can correct all Stomach, Liver and Kidney Troubles. "Fruit-a-tives," the famous fruit medicine, is mild and gentle in action—pleasant to the taste—yet no other remedy has been found to be so effective in keeping old folks in good health. "98c. a box, 6 for \$2.50, trial size, 25c." At all dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

as viceroy of the three Manchurias. When friends at Peking flocked in to congratulate him, he said: "Why congratulate me, Manchuria is the grave of viceregal reputations. You may sing the swan song of the River" (alluding to the man who went to assassinate the tyrant first emperor in B. C. 210), "for I scarcely hope to return alive." So convinced was he of this that he got a special week's leave to sweep his ancestral graves in Shan Tsung before he started.

An official Chinese surveyor, named Tsiao T'ien, has been caught selling a new Chinese map of Manchuria to Japan. He was at first sentenced by a military court to twenty years' imprisonment, but official inclination was so great that it was decided to apply full martial law. He was accordingly executed outside the north gate of Mukden. His body was placed in a glass jar of preserving liquid, and then despatched to Shanghai, to be exhibited as a warning in the Pailu-tai before the influence of his mansion and his person points to a lack of that wholesome prudence which was the saving grace in Li Lien-ying's character, and suggests the possibility of a tragic denouement. The wheel of fortune turns swiftly in the East.

THREE ALPINE FATALITIES.
Woman and Two Men Killed by Falling Over Precipices.
A Saxon tourist named Blehl and his nephew were overtaken by mist on a dangerous path while descending from Zindenspitze to Naefeta. They could neither go forward nor backward. Darkness fell, and the nephew descended a decline to get help on the understanding that Herr Blehl was to remain where he was till assistance arrived. The latter, however, lost his footing, fell and was killed. The younger man reached Naefeta in safety, and a party started at midnight and found Herr Blehl's body the following morning.

The body of a man named Henri von Allmen, aged forty-seven, and the father of four children, has been found among some rocks near Lauterbrunnen. Von Allmen left Obersteinberg in the evening for his home at Gimelwald, and must have lost his way in the darkness. He fell a distance of over 600 feet.
While climbing in the Adarnello district (Innsbruck), Fraulien Margarete Faral slipped on some frozen snow, fell over a precipice, and was killed.

Two James Bay Homes

\$8,200

The above cut represents a Government street home in James Bay which we are offering for sale at the above price. This house has been built about one year and, of course, is modern in every way. It consists of reception hall, den, parlor, dining room, breakfast room, kitchen, pantry, three bedrooms and bathroom downstairs and three bedrooms upstairs. Full sized basement; house built on cement foundation. The lot has 68 foot frontage. The adjoining vacant corner lot sold for \$4,000 and is listed in our office at \$4,500. This property is only one block from the car line and not two minutes' walk from the park. Two blocks, or about four minutes' walk, from the sea.

New California Bungalow, 9 Rooms

This house, which is described below, is situated just one block from the park and car line, and commands a magnificent view of the sea, mountains and western part of the city. The house was built less than six months ago, and is modern to the very last detail. It consists of a reception hall, opening from the wide veranda, parlor, den, dining room, kitchen and pantry, two bedrooms and bath room downstairs and three bedrooms upstairs. Basement the full size of house, 52 feet long, cement floor over half of it. Complete with furnace, as well as gas attachment for water heating; gas range in kitchen. The den is finished with panelled walls, beamed ceilings, platerails, built-in window seats, wood lift from basement, bookcases, fire-place, etc. Dining room finished with panelled walls, built-in side-board, etc. Dining room, parlor and den open into one another by sliding doors. Bedroom with fire-place, plate glass mirror in door, etc.

ADVERTISE IN THE TIMES

PEACE MOVEMENT VIEWED IN JAPAN

Count Okanna Speaks Most Diplomatically Before Tokio Peace Society

At the meeting of the Peace Society in the Unitarian Church, Tokio, on Sunday afternoon, June 18, Count Okanna made an address on modern tendencies. The following report appeared in the Japan Times:—

"Mr. Muko asked me to address the meeting to-day on the subject put up by him when I was present at the University yesterday to speak for the Economic Society there, so you must know that I stand here with no preparations made, but that I stand here with empty hands to grasp something beneficial and instructive for you to enter your co-operation in the movement in which I myself am a member."

Turning to the paper hanging from the wall, he read the topic on which he himself was announced to speak, and continued: "The tendency of the World! This is the problem I can hardly give any justice to, but I am firmly convinced of the fact that it is the tendency of the world that has brought so many people here just to listen to my humble statements. As a member of the Japan Peace Society, I should say peace will be realized in the near future, but I confess it is yet far to seek. One who is to dwell upon the tendency of the world must, first of all, mention the population of the world. Though I do not remember the exact number of the world's population, let me say that there are about 1,600,000,000, one-fourth of which are European and Americans, and the remaining two-thirds Asiatics. So, if discussed from the standpoint of number, it is sufficiently obvious the Asiatics are innately responsible for the immediate participation in the peace movement before Western friends advance in the march of the movement. But here a lamentable defect follows that we Asiatics are yet inferior to the Westerners in intellectual development and remain fast in the cradle stage of civilization. Why does not Japan stand up and enforce this enlightened movement of peace and human-happiness? Japan's activity in the movement would certainly result in the awakening of other nations of the Orient and encourage them to follow her example.

"The political difficulty that now perplexes the heads of European statesmen is along the coast of the Mediterranean sea, especially from Morocco to Alexandria. Morocco is the centre of this serious question. If the country is ever exposed to danger, it will have an effect upon the peace of the world. Centre our attention upon Turkey, since the foundation of Turkey by Ottoman, the constant struggle between the empire, Muhammadanism with the Christian countries of Europe, and few years passed without a quarrel raised among the countries. What they call 'Glory in heaven and peace on earth' is not yet realized after many centuries. I hastily proceed to the conditions of Egypt. Our intelligent friend Mr. Roosevelt, ex-President of United States, once gave a severe blow to the administration of Egypt with words quite unusual and striking for a prominent citizen of a republic. Any way, Egypt is not altogether well administered. As for India, if Mr. Roosevelt is again called to speak, he will criticize the country in a similar way. Mr. Bryan also severely criticized India, but Americans should be reminded of how they treated the American Indians. The United States includes every race of the world extensively scattered over forty-three States, with a population of more than 100,000,000. But the more the Latins have been introduced into the country, the harder has become the assimilative power of the Anglo-Saxon, hence the natural difficulty of the unification of their ideas. In not more than a century the population of the United States will be multiplied to 400,000,000. Then it will be another Europe from the standpoint of numbers. Europe has already reached the climax in wealth, but America's wealth is still growing, as fields and mountains are the source of abundant riches. So, naturally, many people will enter the United States and the country will be more and more complex. Prudent and sensible Americans are a peace-loving people. The spirit of Christianity is in conformity with that of love, humanity, and freedom, but regrettable enough to confess, such a spirit is not felt west of the Rocky Mountains. The Rocky Mountains are rocky indeed.

The short international peace is far to seek, judging from the present tendency of the world. But I am a constant believer in international peace. You say you are discouraged by my words? Don't say so. Cheer up! A great light is before us. It is nothing less than international arbitration. President Taft is going to secure peace by international arbitration. His efforts may soon convince the Kaiser of assisting this movement. I dare say if America, England, Germany and France would unite and seriously face this question in order to bring it to a happy solution, the peace of the world at least would be brought to light. Then how should Japan face this question? The Emperor himself being the great advocate of peace, his subjects one and all are urged to be peace-makers. Then this question is solved. But here is one obstacle which greatly impedes the peace movement—the world—that is, racial prejudice. My heartiest advice to people is to remove racial prejudice. This is my urgent entreaty, nay, it is that of the Japanese nation. But at the same time you must bear in mind that you ought to be circumspect about your conduct. Whatever religion you may believe in, you must try not to forget this advice of mine. Let me repeat again, the removal of racial prejudice is an important condition for ensuring the peace of the world."

APPEAL FOR PARDON.
Englishwoman From the Condemned Cell Implores Mercy.
Mrs. Froidlock, who was recently sentenced to death for shooting Mr. Steward,

622 Fort Street.

a mine manager, at Kuala Lumpur, in the Malay Peninsula, is now improving the Sultan of Selangor for a pardon.

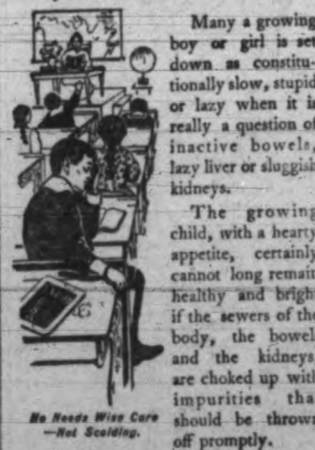

According to a telegram from Singapore she has written a letter reiterating her innocence of the terrible crime of wilful murder laid to her charge, and stating that she is unable to bear the horror and suspense of her present position or to face another trial.

She, therefore, withdraws the appeal against her sentence of which she had given notice, and asks the Sultan of Selangor to have pity on her sufferings.

Mrs. Proudlock's story was that Mr. Steward insulted her when she was alone in her house one night, and in an agony of fear she discharged all the chambers of a revolver into the darkness of the veranda in order to frighten him and to summon help.

Listless, Backward Children

Made Bright and Active by Dr. Morse's Indian Root Pills

Many a growing boy or girl is set down as constitutionally slow, stupid or lazy when it is really a question of inactive bowels, lazy liver or sluggish kidneys.

The growing child, with a hearty appetite, certainly cannot long remain healthy and bright if the sewers of the body, the bowels and the kidneys, are choked up with impurities that should be thrown off promptly.

The muddy complexion, dragging limbs and dislike for mental or physical effort show plainly that the child needs Dr. Morse's Indian Root Pills to stir up the liver and kidneys and regulate the bowels. Dr. Morse's Indian Root Pills do this most effectively, cleansing the whole system, purifying the blood, aiding the digestion and giving plenty of life and activity. As upon the education obtained may depend the success in life of your boy or girl—see to it that the general health of the child is such that study is pleasure and not a hardship.

Made from roots and herbs by W. H. Comstock Co., Ltd., at Brockville, sold by all dealers at 25c. a box.

Watch Your Neighbors

—gradually rising in the world, and then ascertain how they are doing it.

In nine cases out of ten you will find that they have purchased lots or homes on easy terms, while their less enterprising neighbor is still paying rent.

Our Burnside Road Lots ARE Money Makers

—and their present prices are only \$500 to \$700 per lot on easy terms. CONSIDER THIS: The water mains are now being laid on the four sides of our property, the B. C. E. Ry. Co. are establishing their car shops and terminals on property adjoining ours; yet, notwithstanding all these improvements our prices have not yet been increased.

HOME INTEREST IN CHURCH WORK HERE

BISHOP PERRIN TALKS ON VISIT TO ENGLAND

Will Leave Victoria This Autumn to Work in Diocese of London

That to a very large percentage of English people Canada is still the Land of Promise is the opinion of Right Rev. W. D. Perrin, Bishop of Columbia, who was interviewed this morning by the Times on his return from the Old Country. His Lordship, who appears to be in excellent health, had much that was interesting to say about his visit to the island of Great Britain for the purpose of his return from the Old Country. His Lordship, who appears to be in excellent health, had much that was interesting to say about his visit to the island of Great Britain for the purpose of his return from the Old Country.

Mr. Webb has a wide reputation, in the exclusive sense of the word, as a writer and lecturer on economic and social questions, and his wife enjoys the somewhat awesome but none the less notable reputation of being the foremost woman in England. Mrs. Webb, besides being keenly interested in all the works of her husband, has collaborated with him on the production of several noteworthy additions to the literature of economics—an enthusiastic suffragette, she has played a very important part in the educational campaign of the women of England.

This intellectual combination of mortals is in great demand in the country, not only by academic bodies but by the government of the country, on several of whose royal commissions they have occupied prominent seats.

Discharges Big Cargo of Freight at Outer Wharf—One Day Late.

One day behind her schedule, the Pacific Coast steamship City of Puebla, Capt. Hannah, arrived at the outer wharf early this morning from San Francisco and remained there for about eight hours while she discharged a large amount of freight. She had several hundred tons of cargo for this port and a large number of passengers.

Asked as to his own plans for the future the bishop replied that he had been offered episcopal work in the diocese of London, but he had as yet no definite statement to make on the matter.

Bishop Perrin was appointed to the see of Columbia eighteen years ago. The synod, which had the power of election, decided to delegate the choice to Archbishop Benson of Canterbury, and he chose Dr. Perrin, who was then working in the diocese of Southampton.

Here in his own cathedral city of Victoria, where he has worked for so long, general satisfaction will be felt that several months are expected to elapse before the bishop leaves the field of his labors, and also that the good work he has done for the church in the west has been so amply recognized by the authorities at home.

The bishop will preach at morning service in the cathedral to-morrow.

PERSONALS. Mrs. Patterson will not receive on Thursday at Government House.

Miss Macfarlane, lady superintendent of the Vancouver General hospital, is visiting Victoria.

Frank V. Hobbs and Miss Hobbs, of Mystic Springs, Cadboro Bay, started this morning for Alberni, the former on a short business trip and the latter on a summer visit to her friend, Miss Heath, of McCoy lake.

Hon. Richard McBride, Mrs. McBride, and Lawrence Macrae, the premier's private secretary, arrived at Quebec on the Allan liner Virginian last evening. They are expected to reach home about the end of next week.

Curry Daughtry, deputy supreme organizer of the Loyal Order of Lions, the Canadian headquarters of which are at Vancouver, is in the city to organize a lodge here, and is at the King Edward hotel.

The marriage of Mr. Lawrence V. Tickner and Miss Emily Helyer took place on Friday evening at 1110 Fort street, in the presence of a few of the immediate friends of the happy couple. Rev. T. E. Holling performed the ceremony. Miss Helyer arrived a few days ago from Portsmouth, England, which is also the native place of the groom. Mr. and Mrs. Tickner will take up their residence at 1117 Fort street.

Schwengera and McRae defeated Baird and Taylor by 6 to 2 and 6 to 2 in the men's double at Ottawa yesterday and then disposed of Dineen and Spence by 6 to 0 and 6 to 1.

Winnipeg, July 29.—Robert Little, 66, of the Masonic Grand Lodge of Manitoba, died last night after a long illness.

Winnipeg, July 29.—Robert Little, 66, of the Masonic Grand Lodge of Manitoba, died last night after a long illness.

INTELLECTUAL DUO CALL AT VICTORIA

Mr. and Mrs. Sidney Webb Call in at the Last West While Touring the Country

Yesterday brought two very distinguished though perfectly unobtrusive visitors to the city of Victoria in the persons of Mr. and Mrs. Sidney Webb, who are known throughout the length and breadth of Great Britain for their untiring energies upon the solution and betterment of social conditions. Generally speaking a man is distinguished on account of his wife's money or beauty, and a woman on account of her husband's brains or money; seldom is it that they are both persons whose individual right to distinction is indisputable and above the suggestion of reproach or coalition. Yet that is the type of distinction which marks these English visitors who yesterday called in Victoria for a short sojourn.

Mr. Webb has a wide reputation, in the exclusive sense of the word, as a writer and lecturer on economic and social questions, and his wife enjoys the somewhat awesome but none the less notable reputation of being the foremost woman in England.

Mrs. Webb, besides being keenly interested in all the works of her husband, has collaborated with him on the production of several noteworthy additions to the literature of economics—an enthusiastic suffragette, she has played a very important part in the educational campaign of the women of England.

This intellectual combination of mortals is in great demand in the country, not only by academic bodies but by the government of the country, on several of whose royal commissions they have occupied prominent seats.

Second inning: Seattle, 0; Victoria, 2. Third inning: Seattle, 1; Victoria, 0. Fourth inning: No run.

Batteries—Fullerton and Spencer; Thorsen and Devogt.

AMERICAN LEAGUE First Game.

St. Louis R. H. E. Boston 0 0 0

Batteries—Lake and Stevens; Wood and Carrigan.

At New York—First Game.

Chicago R. H. E. New York 16 12 2

Batteries—Walsh and Sullivan; Vaughn and Blair.

When the steamer Princess Adelaide, Capt. Hunter, was on her way from Vancouver to this port to-day, a deckhand aboard the vessel, whose name could not be learned, fell overboard and was drowned, three miles north of Point Grey.

For the second time within a very short period Alderman Gleason had to face Magistrate Jay in the police court and respond to a charge of violating the city's by-laws.

On the present occasion he was fined the moderate sum of \$10 for allowing a fire to be lit on his property without a permit.

It appeared from the evidence that the alderman was happily ignorant of the offence, he being away from home at the time of its commission.

He explained that his family were unaware of the by-law and that the fire in question, for the purpose of destroying some rubbish, had been set going in ignorance of its provisions.

NEW LANDMARKS AND TOPOGRAPHY
Story of Dominion Surveyors Opening Up Last West Told in Collier's

In a new country the surveyor is a great man: George Washington was a great man: George Washington was a great man: He surveyed his country first and became its father afterward. He knew all about it because he had looked it over.
The Dominion land surveyor is the true pathfinder of Canada's Last Great West. Without his work, well done, the settler might find it difficult to locate the fertile acres which mean to him hope and achievement. Giving all due credit to a vigorous immigration policy and good land laws, it remains a fact that neither would be of much practical use if the surveyor did not open up the promised land in advance, explore it, and actually demit the homesteads.

For the last 40 years these employees of the topographical survey branch of the interior department have been paving the way for the farmer, the rancher, the lumberman and the miner. If the immigrant was able to take up his land, not as a squatter, but with an absolutely secure title, it was because the Dominion land surveyor had done there before him, with transit and chain, marking out homestead and chain, marking out homestead and railway, lake and river.
At Confederation not an acre of Dominion lands had been officially surveyed. To-day a vast tract of over one hundred and fifty million of acres in Manitoba, Saskatchewan and Alberta, sufficient to provide nearly a million homesteads, has been defined by the surveyor's monuments. This surveyed tract is less than half the total area of these three provinces, but is twice as large as the British Isles, and larger than either Germany, France or Spain.

The system is simple and efficient. First, lines called initial meridians, starting from points on the international boundary, about 180 miles apart, are run directly north, cutting the country into strips. The first, or principal meridian, as it is generally called, runs through Winnipeg; a short distance to the west is the Yorkton; the third near Moose Jaw and Prince Albert; the fourth is the boundary line between Saskatchewan and Alberta, and is in the vicinity of Medicine Hat and Lloydminster; and the fifth is near Calgary and Edmonton.
The comparatively wide strips of country formed by the meridians are again divided into narrower ones about six miles wide, called ranges, which are numbered easterly from the principal meridian and westerly from each meridian as far as the next. Thus range seven, west of the fourth meridian, is a strip of land about 40 miles west of Lloydminster and extending from the international boundary as far north as the meridian can be surveyed. The ranges are then sliced into townships by lines running east and west about six miles apart. These townships are numbered northerly from the international boundary.

The designation of townships by numbers abundantly compensates for its lack of poetry in nomenclature by its remarkable simplicity and convenience. This method of numbering is of greater value in the geography of the west than the decimal system is in currency or the metric system in weights and measures. The name of the township at once indicates its location. Thus we know that township 53, range 25, west of the fourth meridian, or township 33-25-4 for short, is about 315 miles north of the international boundary and about 150 miles west of the fourth meridian; and any one familiar with the map of Western Canada will know that we speak of a township in the vicinity of Edmonton. Similarly, township 24-5-5 is recognized as being in the vicinity of Calgary, and township 49-27-2 as being in the Prince Albert district.

Before the land can be laid out into townships and the townships subdivided into sections, the initial meridians and the base lines (which run east and west about 24 miles apart) must be marked out. This is the work of the outline surveyor, and is the most trying and difficult of all survey work, as it is in practically unexplored territory. The difficulties of transportation are tremendous, and the successful surveyor must combine with the scientific knowledge of his profession a military genius for organization. Long distances from bases of supplies have to be covered by canoe or pack-horse in summer, and by dog train and toboggan in winter. Roads must be kept open for communication with the outfitting point, bridges must be built, caches or supply depots established, and a transport outfit must be kept on the trail. The outlines are now fairly well in advance of township subdivision. The trend of settlement, the construction of railways, the prospective development

of natural resources, all have their effect in deciding the localities in which outline work must be carried out in order to provide for the subdivision which will inevitably follow.

The unsubdivided tract northwest of Prince Albert and the country between Edmonton and McMurray and through out the Peace River and Fort Vermilion districts have already been covered by a preparatory network of bases and meridians. Much remains to be done, however, and the establishment of outlines through the territory north-east of Prince Albert and over the tract to be traversed by the projected rail-way to Hudson Bay has already been commenced, and will be carried on during the coming season.

During the year 1910 eight outline surveys were employed under the instructions of the surveyor-general of Dominion lands in pioneer work in the western provinces. One worked west of Lake Winnipeg and will continue during the winter on similar surveys in the vicinity of Cumberland house and the Pas. Another was engaged in establishing the base between the third and fourth meridians, about 150 miles northwest of Prince Albert. A third produced the fourth meridian northerly across the Peace river towards Lake Athabasca. The fourth and fifth together cleared the river towards Lake Athabasca. The fifth and sixth together cleared the river towards Lake Athabasca. The sixth and seventh together cleared the river towards Lake Athabasca. The seventh and eighth together cleared the river towards Lake Athabasca.

In addition to his daily hardships, the outline must be forever worrying about the accuracy of his results. Frequently there is no means of ascertaining the closing error or of determining the line will ultimately strike from the survey post on the next meridian until the entire distance between meridians has been crossed. It must be remembered that with an ordinary steel chain for measuring and a compass, a tiny light transit for the meridian direction of the line, extreme accuracy can not be aimed at, neither would the practical results justify any extraordinary expenditure of time and money. Yet conditions and difficulties considered, the work shows a remarkable degree of precision. The base line north of township 52, between the second and third meridians, was run a distance of 165 miles in temperatures ranging from 92 degrees above to 47 degrees below, through forest and muskeg, over hill and valley, across lake and river, and the measurement was found to be only 66 feet short of the calculated distance and the line struck only 192 feet south of the post.

Besides the outline surveyors, 34 other surveyors were employed on work of various kinds throughout Manitoba, Saskatchewan and Alberta, and in the Dominion lands of the railway belt of British Columbia. Some of these were engaged in restoring obliterated surveys. In completing work rendered necessary by the changes in topographical features, and in the laying out of lands required for settlement or for coal and timber. Two parties went down the Athabasca river, which forms the first link in the great waterway chain to the Arctic. One of these parties was employed at Fort Smith on the northern boundary of Alberta, and the other was engaged under H. W. Selby in adjusting and surveying settlers' claims at McMurray. Selby completed his survey and was on his return trip to Edmonton when he was accidentally drowned in the Athabasca river. It is a tribute to his devotion to duty and his careful supervision of work while in the field that his survey notes were kept in so clear and complete a manner that the department will probably be able to compile, with very little inconvenience, all necessary plans and records of his work.

One of the important activities of survey work is gathering topographical and scientific information. An explorer is attached to each of the parties. In all, 77 surveyors were employed under the surveyor-general's instructions during the year 1910. They are all well equipped with a small army of about 1,200 men, and the transport outfit required about an equal number of horses. About 25,000 miles of line were surveyed, sufficient to "put a circle round about the earth," and an acre of about seven millions of acres was made ready for the settlers. Thus the year's work means an addition to the survey area of 8 tracts of land five times as large as the province of Prince Edward Island.

The government landmarks, which are established over all the west-

SIDNEY and The ISLANDS
The G. S. "TULADI" will sail from Sidney under schedule as below from date, meeting trains at Sidney:
MONDAY—Pier Island, Fulford Harbor, Pt. Washington, Pender Island, Mayne Island, Ganges, Retreat Cove, Read Island.
TUESDAY—Thetis Island, Chemainus, Vesuvius, Crofton, Maple Bay, Burgoyne Bay, Musgrave, Cowichan, Pier Island.
WEDNESDAY—Moresby, Beaver Point, Cushman Cove, D. A. Beddis, Ganges, Mayne Island, Galiano, Pender Island (Mopu Bay), Saturna and South Pender.
THURSDAY and FRIDAY—Same as Monday and Tuesday, in reverse order.
SATURDAY—Same as Wednesday, in reverse order.
Information given on application to the agents.

A Fire-pot That Won't Crack
THE greatest strain falls midway between the top and bottom of a one-piece fire-pot, because the live coals are located at the centre of the fire. This continued strain overtaxes the expansion powers of a one-piece fire-pot and causes it to bulge out and crack at the centre, and through the cracks, dust and deadly coal gas escape and eventually pass through the registers. In self-defence, you have to buy a new fire-pot. Every
Oil Cement this joint is absolutely gas-proof, smoke-proof and dust-proof. The layer of cement acts as a "buffer" between the two sections and allows each section to expand or contract independently of the other. This feature prevents the Sunshine fire-pot from cracking. Less than 1 per cent. of Sunshine fire-pots have been replaced. This shows conclusively that the Sunshine two-piece fire-pot will save you money, and that's the kind of a fire-pot you want in the furnace you are going to have installed in your new house. Get the Sunshine—the economical, guaranteed furnace. It's the A1 furnace investment.
2 Piece fire Pot cup-joint
