RUSSIA TO TEST ENEMY'S STRENGTH

JAPAN'S ONLY COURSE WAS TO AID BRITAIN

Baron Kato Explains Action of Support in Statement to Diet

GERMANY'S POSSESSION AN ORIENTAL MENACE

Premier Okuma Believes That World Understands Reasons That Led to War

Tokio, Sept. 5.—At the opening of the diet to-day Premier Okuma, speaking briefly, said regarding the war with Germany, that he believed the world thoroughly understood the reasons leading thereto. He asked the support of the house and said the army and navy were doing their full duty. The government is submitting an extraordinary budget and has asked the houses for their approval and support.

A statement by Foreign Minister Baron Kato made to the diet to-day on the matter is as follows:

"Early in August the British government asked the imperial government for assistance under the terms of the Anglo-Japanese alliance.

"Therefore, inasmuch as she was asked by her ally for assistance at a time when the commerce of Eastern Asia, which Japan and Great Britain regarded alike when one of their special interests was subjected to constant menace, Japan, which regards the alliance as the guiding principle of her foreign policy, could not but comply with the request to do her part."

"Germany's possession of a base for activities in one corner of the far east was not only a serious obstacle to the maintenance of the permanent peace, but it also conflicted with the immediate interests of the Japanese empire.

"After imperial sanction had been obtained a resolution was communicated to the British government and a full exchange of views between the two governments followed. It was finally agreed between them to take such action as was necessary to protect the general interests as contemplated by the agreement of their alliance. Japan had no desire or inclination to become involved in the present conflict, only believing that she owed it to herself to be faithful to her alliance and strengthen its foundation by insuring permanent peace in the east and protecting the special interests of the two allied powers.

"Desiring, however, to solve the situation by pacific means, the imperial government on August 15 gave the following advice to the German government: (here Baron Kato read the text of the ultimatum communicated to Germany on that date).

"Until the last moment of the time allowed on August 23, the imperial government received no answer and thus the imperial rescript declaring war was issued the next day.

"When relations between Japan and Germany reached the point of rupture, the imperial government asked the American government if the case demanded, would she be good enough to undertake the protection of Japanese subjects and their interests in Germany.

"This request the American government promptly complied with, and subsequently on the rupture of diplomatic relations between Japan and Austro-Hungary, the imperial government again appealed to the American government for the protection of Japanese subjects and interests in Austro-Hungary. The American government gave the same willing consent. I desire to avail myself of this opportunity to give expression of sincere appreciation on the part of the imperial government of the courtesy so kindly extended by the American government."

ARTILLERY IS GUIDED BY ROCKET AT NIGHT

Paris, Sept. 5.—An infantryman on his way to the hospital at Nice told the correspondent of the Matin that the German aviators fly over the camps at night and when they can sight a bivouac they left fall a rocket that leaves a long line of sparks behind, thus enabling their artillery to get the range. Ten minutes after this rocket falls, shells begin to burst around the spot.

JAPANESE CAPTURED

London, Sept. 5.—A dispatch to the Central News from Copenhagen says: "Information has reached here that 500 Japanese students from Germany's universities have been captured on the Dutch-German frontier and imprisoned."

LACK OF NEWS BRINGS PROTEST PREMIER ASQUITH IS CRITICISED

More Information From Petrograd Than War Office, Say, London Times.

London, Sept. 5.—The Times, speaking editorially of the lack of official war news, says: "Premier Asquith said on Monday that the government felt that the public was entitled to prompt and authentic information of what happened at the front and that the government was making arrangements to that end. We wish we could see any sign that these arrangements were coming into force.

"The country has now been at war for a month and during that period the public has been furnished with only one adequate official statement regarding the land operations of the most powerful army Great Britain ever sent to the continent. During the remainder of this week no further important information has been vouchsafed.

"In time of an unprecedented crisis the press has a great patriotic duty to perform. It has to stimulate and sharpen the public interest in this struggle, which is bound to last a long time, and on which the fate of the empire depends.

"Germany is well aware of the potent influence of the press and uses it to the uttermost.

"We commend to attention the facsimile we publish to-day of a communication purporting to emanate from a member of the Times staff, a person who has never existed. This unscrupulous communication has been published in hundreds of newspapers in western America.

"We could quote innumerable examples of the kind. One reason why Turkey is on the verge of war is that Constantinople is swamped by German fabrications about alleged British and

ALLIES WANT TO GET ENEMY ON OPEN GROUND

Germans in Hurry Advance Regardless of Risks and Sacrifices.

London, Sept. 5.—The correspondent of the Reuter Telegram company at Ferrieres, near Paris, sends the following: "Our men, though cheerful, are angry at the continued retreat. They do not understand the necessity for it. They are all amazed at the undying numbers of the Germans. They say, 'The more you kill the more there are of them, but if we ever get them in the open it's good-night.'"

"The fighting along the line of the German advance has been incessant and desperate.

"The war is hard on horses. Our horses are all right, but the people whom we pity are the thousands of fugitives who have been swept up and blown away by the marching armies like chaff before the wind. The country through which the armies have passed is devastated. Dynamited bridges and tunnels mark the retreat of the allies and blazing villages mark the advance of the Germans.

"That the Germans are in a great hurry is evident. They advance regardless of risks and sacrifices, crushing down resistance by weight of numbers, hoping to strike a mortal blow at the western forces before the eastern army is at the gates of Berlin.

"The speed at which they advance is the cause of constant wonder to people who know the country and distances.

"At a village which was full of troops a few days ago no attempt was made to halt them. The allied troops fell back and had recourse to rear guard actions. The Germans seemingly marched from La Fere to the lines of Paris unopposed."

FINANCIERS NAMED TO ARRANGE PAYMENT

Copenhagen, Sept. 5.—The Berliner Tageblatt announces that Dr. Karl Helsenferich, director of the Deutsche bank, and Dr. Paul von Schwabache, head of the Bleichroeder firm, serving as reserve officers in a cuirassier regiment, have been appointed to attend to the arrangement for the payment of Belgian war contributions. It is recalled that Bismarck in 1871 employed the then head of the Bleichroeder firm as financial expert in connection with the French war indemnity.

BRUSSELS QUIET

London, Sept. 5.—A dispatch to Reuter's Telegram company from Ostend says: "Information from Brussels represents that city as extremely quiet since most of the German army of occupation has been sent to the vicinity of Termonde, where fighting is going

PREMIER ASQUITH

French reverses. Another example we quote shows that the German and Dutch press is now being mobilized for efforts to detach France from the entente.

"Germany has even approached the Times and other British newspapers, offering for publication the reports of her general staff on military operations.

"Our government has done nothing to counteract these activities. In a month we have had only one statement of any value. We have received from Petrograd infinitely more information than from our own war office."

BERLIN FIGHTING AGAINST CHOLERA WITHOUT DOCTORS

London, Sept. 5.—A Copenhagen dispatch to the Mail dated Friday says: "Private letters show that owing to the fact that many German doctors are at the front, Berlin is finding it difficult to cope with an outbreak of typhoid and cholera there.

"Enormous numbers of wounded are arriving at Vienna, where owing to the meat famine, the people have been compelled to become vegetarians."

GERMANS CHANGE TIME OF ALL BELGIAN CLOCKS

London, Sept. 5.—A dispatch to the Central News from Amsterdam reports that the Germans have changed the time of the Belgian clocks, altering them one hour to synchronize them with the German clocks. When Belgian citizens protested, General von de Goltz replied: "In Germany there should be only one time."

KING ALBERT WAS SLIGHTLY INJURED

London, Sept. 5.—A dispatch to the Central News Agency from Amsterdam says that King Albert of Belgium was slightly injured by a shrapnel splinter while he was heading the retreat of Belgian troops to Antwerp.

A shell exploded against the rear wheel of the automobile in which King Albert was seated and his car was badly damaged.

Earlier advices reported what was probably the same incident, but it has not before been stated that the king was wounded.

SERVIANS AT JADAR WHIPPED AUSTRIANS

Hundred Cannon, 37,000 Rifles and Large Camp Equipment Were Taken

ENEMY'S LOSS OF LIFE WAS THIRTY THOUSAND

Defeat by Russians at Lemberg Much Greater Than at First Appeared

Nish, Serbia, Sept. 4.—According to the official organ, Srpski Novine, the following spoils were captured by the Servians in the battle of Jadar: One hundred cannon, of which 92 were field guns and eight siege guns; 2,500 horses, three hospitals of 3,000 beds, 37 mitrailleurs, 37,000 Mauser rifles, 114 full caissons containing 500 shells for each cannon, ammunition and 6,400 prisoners, including a large number of officers and one military band with its conductor. Three regimental cash boxes full of money and one aeroplane also were taken.

The Austrian dead are estimated to number between 30,000 and 32,000.

General Yovanovitch reports that he alone had 10,000 of the enemy's bodies buried. Other Servian generals' reports of their successes have not yet been received.

Rome, Sept. 5.—Sergius Sazonoff, the Russian foreign minister, has telegraphed the Russian embassy here that the Austrian defeat near Lemberg was much greater than at first appeared. The Austrians, in escaping, left on the battlefield, besides 25,000 men, nearly 200 cannon, flags, ammunition carriages and thousands of horses.

The Russian foreign minister adds that the Russians have also invaded Austria from Tomascow.

As a whole the Austrian division was practically annihilated. Among the killed were the general-in-chief and his staff. A large number of prisoners were taken, including several officers.

London, Sept. 5.—The Petrograd correspondent of the Post, describing the Russian advance on Lemberg, says: "The Austrians were concentrating two more army corps toward the east of their position to face the Russian Kiev district army, but the Russians attacked before the concentration was completed.

"On Wednesday morning the Russians were established all around the northern, eastern and half of the southern faces of the capital. Lemberg stands high above the surrounding country, its obsolete defences being supplemented by modern entrenchments.

"It would seem that the rout of the Austrian army, whose double duty it was to cover Lemberg and also the right flank of the Austrian forces in Poland, was so absolute that the Russians must have entered Lemberg at the heels of the runaways, for at 11 o'clock Thursday morning Lemberg was entirely in Russian possession.

"The capture of Halicz, protected by thirty small forts, entailed a harder task, as the Russians were determined to capture all the forts and the Austrians made desperate resistance. The Russians had been fighting continuously for eight days after a previous week or ten days of marching. The fighting and marching troops of the Russian left wing covered nearly a hundred and fifty miles in seventeen days, capturing Halicz on the seventeenth after two days of hard fighting.

"All towns in Russia, with a German form of name, were changed to the Slav form. This is not due to the fact that Russia is at war with Germany, but is Russia's appeal to the inexorable tribunal of history against the savage ferocity the unsoldierly nation consistently displays towards helpless refugees.

"A considerable sensation was caused here by the discovery aboard the German cruiser Magdeburg, recently blown up, of a number of cat-o-nine-tails, found in every officer's cabin, all bearing signs of long and hard usage."

THREE NATIONS TO STAND TOGETHER ON PEACE CONDITIONS

London, Sept. 5.—Russia, Great Britain and France signed to-day an agreement that none of the three would make peace without the consent of all three nations.

Following is the text of the protocol: "The undersigned duly authorized thereto by their respective governments, hereby declare as follows:

"The British, French and Russian governments mutually engage not to conclude peace separately during the present war. The three governments agree that when the terms of peace come to be discussed no one of the allies will demand conditions of peace without the previous agreement of each of the other allies.

"In faith whereof the undersigned have signed this declaration and have affixed their seals.

"Done at London in triplicate this fifth day of September, 1914.

ENTENTE GUARANTEES INTEGRITY OF TURKEY DEMANDING NEUTRALITY

London, Sept. 5.—A belated message from Constantinople dated August 31 says the ambassadors to Turkey of the powers of the entente, Great Britain, Russia and France, yesterday renewed in a more formal manner the communication made to the grand vizier, August 17, guaranteeing the independence and integrity of the Ottoman empire against all comers, should Turkey observe strict neutrality in the European war. The ambassadors left with the grand vizier a written statement on the subject.

The ambassadors of these three powers are continuing their efforts with the porte to obtain the repatriation of the German cruisers Goeben and Breslau, which are still in Turkish waters.

BULLETINS

TWO SPIES EXECUTED

London, Sept. 5.—The Havre correspondent of the Express says: "Two German spies, one dressed as a clergyman, have been captured there and executed in the customs house."

MONTENEGRINS BUSY

Rome, Sept. 5.—A telegram from San Giovanni, in Albania, says Montenegro troops, led by General Martinovich and Bucotich have occupied the Dalmatian coast between Antivari and Cattaro.

FISHING BOATS SUNK

London, Sept. 5.—The official information bureau announced to-day a German squadron had sunk fifteen British fishing boats in the North sea.

NOT TO CARRY GUNS

Washington, Sept. 5.—British authorities have directed that no British passenger ships plying between Great Britain and the United States carry guns. Orders to that effect have been received at the embassy.

PARIS SCHOOLS CLOSED

Paris, Sept. 5.—All the public schools of Paris have been ordered closed until further notice. The reason for this is the occupation of school buildings by the military, chiefly for hospitals. The school teachers will remain in the service of the state.

ITALIAN MOBILIZATION

Paris, Sept. 5.—A dispatch to the Midi from Rome says: "The order for a general mobilization of Italy's forces was still unsigned at the moment of telegraphing, but it is expected to-day. The mobilization by individual summons is less active."

KAISER'S NAME REMOVED

London, Sept. 5.—A dispatch to the Express from Stockholm says that the name of the German emperor has been stricken from the list of nominations for the next Nobel prize.

FRENCH OFFICERS CALLED

Paris, Sept. 5.—The war office has issued a call to the time-expired non-commissioned officers of the army. These men have been required to return to the colors for the duration of the war.

TWENTY ARMY CORPS OF RUSSIA READY TO FIGHT GERMAN FORCE

Troops of Kaiser Withdrawn From Belgium and France to Meet Oncoming Hosts of Czar's Dominion — Germans Marching Southeast of Paris

London, Sept. 5, 6.20 p.m.—The Rome correspondent of the Evening Star telegraphs a dispatch from Vienna saying that the Russians have surrounded the Austrians at Lublin, Russian Poland. The Germans who were rushed from Belgium to reinforce the Austrians arrived too late.

London, Sept. 5.—A dispatch to the Exchange Telegraph Company from Rome contains a message from Petrograd in which a high Russian military official is quoted as follows: "When the war began Austria was our most serious enemy, because, except for four army corps sent against Serbia, the entire army was directed against us."

"Now that Serbia has annihilated four Austrian corps and we have defeated 200,000 men between the Vistula and the Dneister, ten Russian army corps are sufficient to hold the Austrians in check, leaving us twenty corps of 40,000 men each free to launch against Germany."

London, Sept. 5.—A dispatch to the Daily News from Copenhagen dated Friday says: "Berlin dispatches indicate the Germans are throwing troops back eastward to meet the Russian advance."

Five German Army Corps Moving.

Paris, Sept. 5.—Five German army corps have arrived at the Vistula river, according to the Rome correspondent of the Paris Matin. These corps are mostly from Belgium and the north of France, the correspondent says, and were brought up to oppose the advance of the Russians.

An official announcement in regard to the German army in France says: "The enemy is pursuing his wide movement. He continues to leave the entrenched camp of Paris on his right and to march in a southeast direction."

Allies Stop Flanking Movement.

London, Sept. 5.—The first official communication received here from the new capital of France at Bordeaux indicates the failure of a German flanking movement, evidently intended to cut the left wing of the allies.

British Fight Odds Five to One.

Sir Philip Chetwood, commanding the British cavalry brigade which routed the Prussians at Cambrai, Landrecies and Lechateau, August 28, writes: "We have been fighting without cessation for ten days. We have had no rest and have been fighting with odds of five to one against us. We have been through the Uhlands like brown paper, but we must have men."

Belgian Troops Ready Again for War.

London, Sept. 5.—Military experts believe the Germans are preparing for a grand assault on Paris in the hope of battering down the defences of the capital. This is because the investment of Paris, while the huge mobile army of the allies is outside the city, would not appear to be a logical part of the swift German campaign.

News from northern Belgium indicates that the Belgian troops are recovering from the gruelling punishment inflicted on them by the German invaders and are resuming their activities. In some quarters the belief prevailed that the German plans of campaign may be radically changed by the Austrian disasters but in spite of this move observers are of the opinion that Germany must continue her remorseless advance in the west without considering the misfortunes of her ally.

Capture of Paris Not an Advantage.

If Paris falls the effect already has been more or less discounted in London, as the war office has managed to convey the impression to the public that the capture of the French capital means only the prolongation of the war. This phase of the situation brought home to the British public has unquestionably stimulated recruiting.

There is no indication that the allies in the west intend to assume the aggressive. On the other hand, the indications are that if the Germans capture Paris every effort will be made to render it a barren triumph by leading Germans from position to position in a series of rearguard actions until the invaders are exhausted.

BELFAST VOLUNTEERS ENROLL FOR SERVICE

Germany Mistaken in Thinking Ireland Would Not Unite Against Menace

Belfast, Sept. 4.—Within an hour after the opening to-day of the recruiting office for Ulster Volunteers, 700 of the North Belfast regiment had enrolled for foreign service.

Sir Edward Carson, leader of the Ulster Unionists, addressed a battalion of volunteers, assuring the men that sufficient volunteers will remain in Ulster to protect it from invasion.

"They were formed to keep our place in the empire," said Sir Edward, "but if the empire goes, the very groundwork of our ideals would be shattered. We have got to win, and we will win, and knowing that the very basis of our political faith is believed in the greatness of our empire I say without hesitation, 'Go and help save the Empire.'"

"I have some times seen it stated that the Germans thought they had hit an opportune moment, through our domestic difficulties, to make their bullying demand against our country. They little understood for what we were fighting. We were not fighting to get away from England but stay with England," concluded Sir Edward, amidst loud applause.

PEACE OF EUROPE IS TASK FOR NEW POPE

Benedict XV. Says Peace is Among Combatants Not Preaching Peace From Distance.

Rome, Sept. 5.—It was related here to-day that in conversations before his election, Pope Benedict XV. repeatedly expressed his belief in the necessity that the pontiff should intervene with an appeal for peace, not in a purely evangelical form, but in precise diplomatic action.

"The pope," he is quoted as saying, "must place himself amidst the combatants instead of keeping away and preaching peace and concord from a distance." It is asserted that he expressed these ideas in the conclave with Genesis tenacity, but at the same time showing such absolute neutrality toward the belligerents that it brought about his election as pope.

Paris, Sept. 5.—A Rome dispatch to the Havas Agency quotes the Bologna La Tribuna as saying that Benedict XV, the new pope, in a letter August 20 wrote as follows regarding the war: "I would regret that any cure should show preference for one or the other of the belligerent nations. My idea is to have it understood that they would ask God for a cessation of the scourge of war without indicating the means."

EFFORT TO INFLUENCE THOSE STILL NEUTRAL

Germans Wooing United States; Suggested That Britain Get in the Game.

London, Sept. 5.—A proposal that Britain send an official mission to the United States to give her side of the case in the present war is discussed to-day by the Times, which quotes an unnamed prominent American in support of this proposal, as follows:

"While I feel Americans are tremendously strong in Britain's favor, it must be borne in mind that the Germans are assiduously trying to get the Americans' verdict in their favor."

"Many Americans, like others, may be influenced and perhaps flattered by a little attention showing the desire of Great Britain to win their approval and moral support."

"Americans now returning from London are advocates of Britain, but the mission might serve objects which they are unable to achieve."

The Times concludes with this comment: "As a set-off to the wooing of the United States by Germany, many Americans are recalling some of the well-known incidents connected with the Spanish-American war."

ALLIES' LOSS IS 40,000 GERMAN DEATHS 200,000

Weight of Numbers Only Advantage of Enemy; Not Superior With Artillery.

London, Sept. 5.—The Daily Mail's correspondent at Geores, a French town near Beauvais, estimates the total losses of the allies at 40,000 and the losses of the Germans at 200,000. He says a moderate estimate of the German losses places them at 20 per cent. at least.

Sheer weight of numbers has pushed the Germans forward at the amazing rate of 25 miles a day, the correspondent adds. The Germans have shown no superiority in artillery or transport. The rapidity of their advance has been due largely to their use of the automobile in transportation.

TWO POINT TWO ADDED TO AUGUST FOOD COST

By Diligent Buying Department Says Public Can Check Upward Price More

Ottawa, Sept. 5.—A statement indicating how a month of war has affected prices is issued by the department of labor. Since the outbreak of war the department has been keeping in touch with retail prices in every locality having ten thousand inhabitants or over. As a result of this the index number of wholesale prices based on 272 articles moved up from 135.5 in July to 137.7 in the closing week of August, a rise of 2.2.

It is pointed out that though great this increase is by no means unprecedented. Variations from two or three points within a few weeks have happened on a number of occasions. The most notable instance of the kind occurred in the close of 1911, when the department index jumped four points in a single month. During the business boom of the fall of 1912 the number went up over two points for a couple of months in succession.

The department finds that although extraordinary features have developed in certain lines where the war has produced acute conditions affecting supplies, the general situation is not abnormal. From the householder's standpoint advances in flour, bread and oatmeal must be judged as against comparatively low levels during the past two years.

In sugar, the present level was paralleled in 1911, when there was a failure of the European beet crop. The situation is one that calls for alertness on the part of the consumer, but not alarm. By the exercise of care in ascertaining prices when buying, the public can offer a substantial check to any attempted undue enhancement. Any rush to stock up on the part of households, it is pointed out, will not improve prices, but have a reverse effect.

The most important price advances during August have been those in flour and sugar. In practically every city flour has advanced from two-fifths to three-fifths of a cent per pound, while sugar has moved up from one to two cents, and in some cases more. Yellow sugar has moved up as fast as granulated, although the wholesale price of the former has been greater.

Bread has gone up in thirteen cities. Hamilton and Ottawa have now practically moved up to the Toronto level, and all three are lower than Montreal bread prices. There has been a general stiffening in retail prices of butter. Cheese has gone up a cent a pound in a few localities, but has been steady for the most part. Milk has gone up in only one locality. The tendency to economize is lessening the demand in some localities. Eggs are up, but this is usual at this time of the year. Beef-steak is dearer in fifteen localities and cheap roasting beef in twenty-two, while bacon has risen in twenty-six and fresh pork in twenty-two. The rise in tea is general and amounts to about five cents per pound.

Some of the increases are due to the war, others to unusual conditions. An increase of three cents in butter is announced, due to an increased export demand from England and western Canada which was considerably increased with the interruption of ocean communication. The flour advance has averaged seventy cents a barrel. Millers attribute the rise to the wheat movement, stock having been low and the trade dull during June and July.

The increases were also due to a sudden demand by householders and dealers on the outbreak of war. The sugar advance is due to the loss of the European beet crop, which supplies about one-half the world's demands.

COMPARISON IS MADE OF CENSORSHIP METHODS

London, Sept. 5.—The Times in an editorial article compares the prompt manner in which the German authorities treat the dispatches filed by Italian correspondents on the progress of war with the delays amounting from twenty-four to forty-eight hours which the British censorship imposes on Dutch, Italian and American newspaper correspondents in Great Britain.

As a result, so-called German news, the Times declares, gets a long start throughout the world and to the United States over news reciting the operations of the allies.

"No time is to be lost if this regrettable and indeed dangerous situation is to be remedied," the Times says.

"The war may last long and it may affect the very existence of the empires and the countries involved in it. It is not too much to ask that our government should spare neither pains nor money to insure that neutral countries whose attitude may at critical moments be of vital importance shall not be left without authentic information of the progress of the war and of the fortunes of the allied armies."

NEUTRALITY OF HOLLAND PRESERVED BY BRITAIN

GERMANS' PLANS FOR MORE FOREIGN TRADE

Sir Edward Grey Makes Public Report From Berlin Received in February

London, Sept. 4.—The foreign office has made public a dispatch dated Berlin, February 27 last, from Sir Edward Grey, formerly British ambassador to Berlin to Sir Edward Grey, secretary of foreign affairs, telling of a secret meeting in Berlin a short time previously to discuss plans for the improvement of German trade abroad. Sir Edward said: "A short time ago a meeting, of which the secret was well kept, convened at the ministry of foreign affairs. The foreign secretary was present and the meeting was attended by members of the leading industrial concerns of this country, such as the North German Lloyds, the Hamburg-American S. S. company, the Deutsche Bank, the Slomens and Halske and Schukert works, the Krupp and Gruson works and the Algemeins Electricitats Gesellschaft.

"This meeting formed a private company for the purpose of furthering German industrial prestige abroad, which is a conveniently vague purpose. The company will be financed by private subscriptions. The government will first grant a sum which was suggested as the necessary revenue.

"The company has entered into an agreement with the Agence Havas by which the latter will in the future only publish news concerning Germany, to be supplied by the Wolffs' Telegraphic bureau. The latter will receive its German news exclusively from the new company.

"The company intends to make a similar arrangement with Reuters for those foreign countries in which Reuters controls telegraphic communication. If Reuters declines, the Deutsches Kabelgesellschaft, a smaller German news agency, is to be financed by the new company, which is to run a service in competition with Reuters."

"The dispatch further stated that the firms concerned in the Berlin meeting agreed to pay into a pool amounts equal to those they had been accustomed to spend abroad for advertising in foreign papers.

"The total of this item, alone, the dispatch added, is estimated to be not less than \$125,000 per annum. The dispatch concluded with the statement that the new system was to be immediately inaugurated in South American countries.

FIVE MONTHS REVENUE ELEVEN MILLIONS OFF

August, 1914, Drops Back Being Short on Last Year \$351,749.

Ottawa, Sept. 5.—The financial statement of the Dominion for the month of August gives the total revenue for August at \$14,196,104, being a decrease of \$351,749, as compared with August of last year. Customs revenue for the month was \$8,245,118, a decrease of \$1,600,573, but there were increases in post office and other sources of revenue. The real effect of the war on the customs revenue will, however, hardly be shown until next month, since many cargoes were on the ocean when war broke out.

"The revenue for the first five months of the fiscal year totalled \$69,378,118, a decrease of \$11,250,239, as compared with the corresponding period of last year. The net debt of the Dominion at the end of the month was \$332,051,933, an increase of only \$188,118 during the month, but an increase of \$1,311,038, as compared with August 31 last year.

"The statement shows government temporary loans outstanding amounting to \$2,273,233, representing advances from Canadian banks.

NOT ALLOWED TO PRAY FOR BRITISH SUCCESS

Amount of War Demands by Germany From Brussels Not Yet Fixed.

London, Sept. 5.—A dispatch to the Central News from Amsterdam says that messages from Berlin declare that all statements concerning the war contributions demanded by Germany from Brussels and Liege are premature, as the amounts have not as yet been definitely fixed.

It is stated that service in English is still permitted at the British churches in Dresden, but Saxon policemen who understand English are present, and no prayers for the success of British arms are allowed.

WHAT BRITONS CANNOT DO DURING WAR TIME

While Soldiers Have Wide Powers Citizens' Privileges Are Curtailed

London, Aug. 29.—The proud boast "An Englishman's house is his castle," does not operate during the present war. Here are some of the things naval and military authorities may do under the Defence of the Realm act, passed by parliament in a few minutes:

Take possession of any land, buildings, gas, electricity, waterworks or sources of supply, horses, automobiles, or any other means of transport.

Causing any building, statues or any property to be moved or destroyed.

Require all vehicles, boats or other vessels to be removed from any area in a specified time.

Order the inhabitants to remain in any given area if necessary for naval and military purposes.

Close saloons entirely or during specified hours.

Enter by force if need be, any house or ship which is suspected of being used to the prejudice of the state.

Arrest, or order the arrest, without warrant of any suspected person.

Order lights visible from the outside of any house near a defended harbor to be extinguished, or order inhabitants of a defended port to remain within doors during specified hours.

Here are some of the things a free-born Briton at present may not do: Loiter near a railway bridge. Give or sell liquor to a soldier or sailor on duty.

Spread reports by word of mouth or writing, near a defended area, likely to create alarm among the troops or civilian population.

Light fires or display lights of any description on hilltops or other high ground or buildings, without permission.

Tamper with, or loiter near telegraph and telephone lines.

Civilians ignoring a military command to halt may be shot down without a second challenge. Courts-martial shall deal with offences against the military laws, and the tribunal shall have power to inflict sentences of imprisonment for life in case of infringements.

WAR REPORTS AT BERLIN NO LONGER SATISFYING

High Commissioner's Secretary Hears That British Subjects Are Being Well Treated.

London, Sept. 5.—W. H. Griffith, secretary to the high commissioner, made reassuring statements regarding the position of Canadians and other British subjects now in Berlin. "I had a most interesting interview this morning," said Mr. Griffith, "with an American gentleman of standing who had just returned from Berlin, and in reply to my enquiries he was able to assure me that so far as Berlin was concerned Britishers had, he was convinced, been generally well-treated and that there was no cause for undue anxiety on the part of relatives. Referring to general talk regarding conditions in Germany, my American informant said the Germans throughout had been very 'cocky,' and that there was tremendous elation caused by the official reports of the war served up by the German government. That was the state of things, he said, until a few days ago, when the rude awakening followed with the arrival of trainloads of wounded and refugees. This new turn of events has had the most sobering effect upon the general public, who are beginning to question the exaggerated German reports. Life in Berlin, said my American friend, is proceeding much as usual and tariffs at restaurants are normal."

Mr. Griffith stated that C. F. Just, the Canadian commissioner at Hamburg, is still there, but is expected in London shortly.

H. L. SALMON IS NOW VISITING IN LONDON

Agent General Unable to Communicate With Mrs. Hickman-Tye of Victoria.

London, Sept. 5.—The British Columbia agent-general is vainly trying to communicate with Mrs. Hickman-Tye, of Victoria, who was at Bad Nauheim before the war broke out. Mr. and Mrs. J. M. Nault, of Sherbrooke, have returned to London from Switzerland. Mr. and Mrs. McMurray and Mrs. Mara, of Toronto, have arrived in London from Engadine.

Visitors here include H. L. Salmon, of Victoria, B. C.

BULGARIA IS NEUTRAL AND WILL REMAIN SO

Paris, Sept. 5.—A Havas Agency dispatch from Athens says that the Bulgarian minister to Greece has assured the government that Bulgaria has decided to maintain the strictest neutrality until the end of the war.

FOOD PRICE INDICTMENTS.

Washington, Sept. 4.—Thirty-two indictments were returned here to-day by a federal grand jury after investigation to determine whether food prices had been artificially increased here on pretext of having been caused by the European war.

GERMAN STAFF MOVED.

THE WAR.

Fragmentary scraps of official information indicate that the Germans are persisting in their efforts to envelop the allies' flanks before they endeavor to invest Paris. The attempt so far has been frustrated and there is no prospect of its succeeding, because fresh accessions of strength are reaching the defending forces daily. It is reported that eighty thousand Russians have been landed in France by British transports. This contingent, if on the scene, will immensely strengthen the allies' defence where it may be weak, for in defensive fighting the Russian soldier is very formidable. The Indian contingent also must have reached France, adding another splendid arm to the legions battling for the allies' cause.

The allies are now sparring for time and the longer they maintain those tactics the worse Germany's position becomes. The Kaiser's only hope of a successful war rests in the ability of the Germans to deal France an irreparable blow before Russia can become formidable. That blow has been delayed, even though the invaders are close to Paris, and Russia has become so formidable that Austria as a serious factor in the east has ceased to exist. But in spite of Russia's successes over the Austrian armies we do not believe Germany will withdraw many of her effective forces from France. The lure of Paris has enthralled the Kaiser and his junker brigade, and they will continue their campaign in France with all the resources at their command. The policy of the allies obviously is to keep the flower of the German army in France, while avoiding a decisive battle. It is precisely the same policy as that which Barclay de Tolly and his Russians ruined Napoleon when the lure of Moscow ensnared him.

Although the right wing of the German army has advanced with tremendous onslaughts upon the allies' left, we do not think it is from the north that the Germans are aiming their heaviest blow. The bulk of the army with the Crown Prince—some reports say the Kaiser—at the head is massed somewhere between Reims and Verdun, where heavy fighting is said to have taken place during the week.

Meanwhile the Russian army authorities are convinced that the smashing blows received by Austria in Galicia and Serbia have eliminated her as a serious factor as far as aid to Germany is concerned. Ten army corps with reserves are considered sufficient to meet the Austrian operations, while the bulk of the Russian forces, consisting of twenty army corps of first-line fighting strength, will engage in the real business, the invasion of Germany. The conditions for a swift move in that direction are most propitious. The greater part of the German army is wrestling in France and will be detained there a considerable time. Never has a nation had so favorable an opportunity to strike a mortal blow at an enemy as that which is now open to the colossal armies of the Czar, and never was a nation so unitedly anxious to strike that blow as Russia is to-day.

We notice that Junior war lord von der Goltz announces that Belgium is a part of Germany. Apparently he and his fellow-germanoids who are directing the Prussian policy believe that the war is hastening to a triumphal conclusion with arrogant, brutal militarism in the ascendant. Mr. Asquith's speech yesterday was an answer to the flamboyant pretensions of the Bismarckian breed. Not only was it a clarion call for the greatest empire in history to spring to arms, but it was a sentence of death pronounced upon Prussianism. It is followed to-day by the announcement that Great Britain, France and Russia have signed an agreement providing that none should

cease hostilities without the consent of the others. This means war to the end. Already Austria is tottering. Soon Germany alone must face the triple entente in its full strength. Germany may take Paris, but she cannot crush France. Her madmen have led her to certain destruction.

PURCHASING GERMAN SHIPS.

We do not anticipate any friction between the British and United States governments over the prospective purchase of German ships. Under the terms of the legislation in Congress by which this bargain will be carried out the United States government will hold a majority of the stock in the company formed to acquire the vessels. This means that there will be no transfer of the ships back to their original owners after the war is over and that President Wilson will be in a position to maintain the strictest neutrality.

The main purpose of the legislation to which we have referred is to build up American shipping and to capture the South American markets. Much of the trade that thus will be diverted to the United States is German, for Great Britain, being in command of the seas, will be able to hold her own there. Germany apparently has reconciled herself to the loss of her overseas commerce as well as her colonial empire, hoping to recoup herself by annexing Belgium, possibly Holland, and consolidating the German and Austrian empires under Prussian hegemony.

A portion of Austria may fall to her lot, but Russia will have Galicia, East Prussia and possibly German Poland. But no territorial expansion on the continent of Europe will square the account which records the fact that not one German ship is on the high seas.

SUFFERS THE LEAST.

Of all the great powers engaged in the war Great Britain is suffering the least in an economic sense. At the outset a partial paralysis of business was inevitable, but the people have begun to adapt themselves to the new conditions just as their forefathers accommodated themselves to the world-quaking strife a hundred years ago. During that struggle British trade and shipping increased with enormous strides in the face of Napoleon's attempt to boycott it. A writer thus describes what happened:

"During all the operations of war and finance, the gains of our enterprising people were beyond all calculation, however the unproductive classes may have suffered from the depreciation of money and the inequalities of taxation. Our commerce had become more than double its greatest extent during the happiest years of peace."

This statement is borne out by statistics. In 1792, in peace time, the imports and exports of Great Britain amounted to \$216,500,000. In 1796, after three or four years of war, they stood at \$261,000,000. In 1800, they had risen to \$358,000,000. Throughout the Napoleonic struggle the trade of the United Kingdom steadily increased.

During that war extending over two decades there was constant conflict on the high seas. France, holding a coast line many times more extensive than that from which Germany can operate, made desperate efforts to prey upon British commerce. She possessed extraordinary privateering facilities and in view of the fact that her bases threatened a large proportion of the British trade which moved through the English Channel she was an incomparably greater menace than Germany is to-day. And what followed? French commerce disappeared. According to the Hamilton Times, in the year ending September 20, 1800, the whole of the direct trade between France and the three continents of Asia, America and Africa amounted to only some \$350,000; while that of Great Britain was \$350,000,000. For another thing, with all the activity of French warships and privateers, the losses of British shipping were not more than 2 1/2 per cent a year, and probably were under 2 per cent. Where careful and skilful arrangements were made, the losses were lower yet; in one very perilous region in the Far East a particular able officer took certain precautions, and the losses from capture fell to a lower figure than those from the ordinary perils of navigation.

As we have pointed out, Germany enjoys no such advantages in a war upon British commerce as France had at that time. Her fleet is locked up at the mouth of the Kiel canal, while France had a number of fleets operating not only from bases on the Channel, the Bay of Biscay and the Mediterranean, but also from the French and Spanish islands in the West Indies. But while it took Britain many years to destroy France's overseas trade it has taken her less than a month to ruin the commerce of Germany. Her merchants are now engaged in catering to the markets which patient German industry had developed and much of them will be captured. As the war progresses Britain will be able to counteract the losses she has sustained in consequence of the closing of the German market, by increases in other directions.

DECEIVING THEIR PEOPLE.

Newspapers from Britain contain extracts from articles published in German newspapers which show how the German people are being deceived by the war maniacs in regard to the causes of the struggle and its progress. First they were told that there was a fiendish Slav plot to wipe out the Teutonic race, an onslaught of barbarian hordes against the "high civilization" of central Europe. Great Britain's intervention and the reason for it were concealed until concealment was no longer possible, and then the Germans were told that Britain was envious of Germany's progress and was determined to put her out of the way. Even the Berlin official record of the negotiations which preceded the war was hopelessly distorted. It omitted to recount the propositions Sir Edward Grey made to the German foreign office in the interest of peace, particularly the British offer to use its utmost influence at Paris and Petrograd in behalf of any sincere suggestion Germany might make for an amicable settlement of the trouble. Through it all Germany is set forth as the innocent victim of a hideous conspiracy; the abused heroine of the piece, with Great Britain, France and Russia as the arch-villains. The outrage upon the Belgian people is glossed over.

The same policy of deception has been adopted in regard to the progress of the war. There have been no German reverses, according to inspired newspaper announcements, except a "trivial mishap" to a "few small boats off Heligoland." Every retirement of the French is set down as an overwhelming German victory, while the Russians are being driven back with terrible losses. The other day it was announced in Berlin and telegraphed all over the world that the Germans captured seventy thousand Russian prisoners in East Prussia. Now we are informed by the Berlin Tageblatt that the total number of Russian prisoners taken by the Germans in the war to date is 10,000, while 15,000 French have been captured. This admission strikes us with special force in view of the fact that the German official bureau never claims a victory in which at least ten thousand prisoners are not captured.

The more the German people are deceived by their officials the more bitter will be their disillusionment when the tide rolls against them. Some day they will be compelled to compensate Belgium and France to the utmost cent for the material damage their uninformed brutes have inflicted upon the people of those nations. Already the Czar has announced that for every cent indemnity levied by the Germans on Belgium he will exact a similar amount with interest from East Prussia and Galicia. When the time of reckoning comes it will be for the German people to deal with the lying, crime-stained bureaucracy which has made their country leathery throughout the world and the very word German synonymous with evil.

TO-DAY'S SUMMARY.

Conflicting news, dispatches and vague official statements leave the fortunes of the immense armies struggling before Paris to-day a matter of conjecture.

All accounts agree, however, that the moment is approaching swiftly when the French capital must have resort to its own defences.

Despite occasional successes by the allies, their lines appear to be slowly giving ground before the German advance. The Germans, in a semi-circle, seem to have reached points east and west of Paris, the left wing touching Le Pere Sous Jouare, in the department of Seine et Marne.

The exact position of the German right wing is not revealed, but so far as is known it has not succeeded in getting around the allies' left, formed by British troops.

Rome dispatches say that five German corps have arrived at the Vistula river to support the defence against the Russian invaders of East Prussia. The Russian general staff claims that its victorious army in Galicia is sweeping the Austrians before it.

Further fighting is reported at Terno, suggesting that the Belgian forces from Antwerp again have entered the fray.

There is no additional news regarding the Russian troops as having landed at Ostend from British transports.

The Servians claim that the Austrians left 30,000 dead after the battle of Jadar, and that the Servians captured 4,600 prisoners.

An official statement issued at Paris this afternoon says that the Germans continue to leave Paris on their right and to march in southeasterly direction.

Our correspondent who writes on protection seems to suggest that it is Germany's high tariff which has made her so formidable. In the end it will be found that the protective policy, like other oppressive exactions, has proved Germany's undoing. Our correspondent is at variance with the Kaiser in regard to Germany's ad-

ancement in war and peace. The Emperor attributes it, not to a fiscal policy, but to the fact that he is the exclusively favored child of Providence.

For the purpose of awakening and stimulating interest in the wild flowers of the province amongst the children a very interesting and instructive little booklet has been prepared by Mrs. J. T. Higgins of this city. This modest but valuable work, we understand, will be introduced generally into the public schools of British Columbia. It has been very beautifully illustrated by the author and should prove of great assistance to students of nature.

Until the war broke out we really did not understand the wealth of imagination possessed by our erstwhile friends the Germans. The army and navy of the Kaiser have been achieving victories that fade away when subjected to investigation. The idea is to impress the world with the alleged invincibility of the Teuton upon land and sea. But victories to be of enduring value must be achieved in fact as well as upon paper.

English-speaking people in Dresden, Germany, are permitted to worship in their native tongue, but German officers familiar with our language stand by to see that no prayers for the success of British arms are offered up. The Kaiser wants to feel confident that nobody but himself has the ear of Providence. Still it is possible for the Dresden worshippers to circumvent the guard. They can indulge in silent prayer.

The Kaiser and the Emperor of Teutonia have not been exchanging felicitations over triumphs of late nor giving thanks to Providence for them.

THE GORDONS AT DARGAI.

By Henry Newbolt.

Who's for the Gathering, who's for the Fair?
(Gay goes the Gordon to a fight.)
The bravest of the brave are at deadlock there.
(Highlanders! march! by the right!)
There are bullets by the hundred buzzing in the air.
There are bonny lads lying on the hill-side bare;
But the Gordons know what the Gordons dare
When they hear the pipers playing:
The happiest British heart to-day
(Gay goes the Gordon to a fight.)
Is the heart of the Colonel, hide it how he may.
(Steady, there! Steady on the right!)
He sees his work and he sees his way,
He knows his time and the word to say,
And he's thinking of the tune the Gordons play
When he sets the pipers playing.
Rising, roaring, rushing like the tide,
(Gay goes the Gordon to a fight.)
They're up through the fire-zone, not to be denied.
(Bayonet! and charge by the right!)
Thirty bullets straight where the rest went wide,
And thirty lads are lying on the bare hillside;
But they passed in the hour of the Gordons' pride,
To the skirl of the pipers' playing.

TWO MEANINGS.
Youth's Companion.

The different meanings that a simple turn of expression can give a word are often curious and sometimes amusing. An anecdote of Charles Lamb, the famous English author, illustrates this very pleasantly.

On a wet, miserable, foggy day in London, he was accosted by a beggar with: "Please, sir, bestow a little charity upon a poor, destitute woman. Believe me, sir, I have seen better days."

"So have I," said Lamb, handing the poor creature a shilling, "so have I. It's a miserable day, even for London."

A similar illustration is of the man who saw some mischievous boys carrying off fruit from his orchard.

"What are you about?" he called justly. "About going," called one of them, as the marauders disappeared over the fence.

TWENTY-FIVE YEARS AGO TO-DAY

At the city council meeting yesterday a letter was received from the Hon. John Robson in reference to the granting of a 60-foot strip off the school reserve for street purposes, and stating that the government will be willing to make the grant. The premier will be informed that the council will extend Yates street through to Fort street, and that the proposition is accepted.

The clerk of the city council was also instructed yesterday to jog the memory of the Dominion government with reference to the powder magazine at Beacon Hill. His worship mentioned that the government had promised several months ago to take action and should be willing to obey the law in these matters.

Rev. Mr. Dowle has completed his labors in Victoria and will at once go to Seattle.

Deputation Waits on Reeve McGregor Urging Reduction of Municipal Staff.

Urging economy in the municipal administration of Saanich, a deputation waited on the Reeve yesterday and suggested the laying-off of some of the employees. The Reeve was able to show that the departments are working with a minimum staff, and that all surplus in staff has been reduced. The engineering department, in which a number of men were carried when the waterworks scheme was being planned and data collected, has been reduced now to Engineer D. W. Johnson and one assistant. The Reeve pointed out to the deputation that he did not think the municipality would be able to open up again soon road work, which had been practically suspended on account of the financial situation. It is hoped there will be sufficient funds in hand by the end of next month to keep road work going through the winter.

There is little business for the meeting of the council on Tuesday, except some routine questions which will be settled. Most of the business has been cleared up at meetings of the council in the past week.

ROTARY CLUB PAID VISIT TO BAMBERTON

Sixty Members Made Inspection of Cement Plant as Guests of Management

The members of the Rotary club were entertained to a "T" party yesterday when E. Tomlin, W. S. Terry, F. F. Trotter, W. B. Thornhill and H. D. Tilly were the hosts at a highly educational and thoroughly enjoyable excursion to the Bamberton Cement Works on Saanich Arm. Mr. Tomlin is secretary of the Associated Cement Company (Canada), Limited, and with H. Anderson, the works manager, showed fully 60 of the club members through the entire plant.

A private car chartered from the B. C. Electric railway conveyed the members to Brentwood, starting at 1.30 p. m., and from Brentwood the smart little tug Bamberton ferried them across the Arm, the whole trip proving most enjoyable.

An excellent view of the plant in which the company completed the expenditure of \$1,500,000 just a little over a year ago was obtained from the water, showing how the huge hillside on which it was constructed assisted in creating an economic gravity system for carrying materials from one stage to another.

The plant and village present an imposing array of large and small buildings ascending from the waterfront about 500 or 600 feet up the side of Malahat Mountain. Near the top is the lime-stone quarry and about six miles down the Arm is the supply of shale which is towed up in barges by the tug Bamberton.

The huge furnaces and rollers used for firing and pulverizing the cement respectively are in buildings one above the other. A view in the mighty revolving furnace through blue glasses aroused the universal comment that nothing could picture more vividly one's imagination of a fiery hell.

Mr. Tomlin and Mr. Anderson explained that the whole purpose of the various processes was to reduce the cement to as fine a state as possible upon the fineness depending the quality of the cement. All the hundreds of thousands of dollars expended on the plant had been with this in view.

The plant has a producing capacity of 2200 barrels a day and four automatic loading machines can fill one sack each every six seconds and drop it on a belt which conveys it directly to the boat without rehandling. Owing to the absence of building just at present the plant has stored up its capacity of cement and is compelled to shut down.

The club members were shown through the plant from one end to the other and when the trip had been completed they gathered in the employees' large dining-room and enjoyed the refreshments brought along by the entertaining committee of "Ts." Here Mr. Tomlin explained that a water supply adequate for all purposes was obtained from a natural reservoir 1600 feet up the mountain. The pressure was so great that three balancing tanks were necessary to break the fall.

An enthusiastic vote of thanks was responded to by Mr. Tomlin by referring his pleasure at having the club attend. President Higgins said the trip was important to the club in giving it further material in support of its campaign to spread the principle of using goods made in British Columbia. Mr. Anderson, the works manager of the plant, was unanimously elected an honorary member of the club in return for his painstaking courtesy in explaining the works to the club members.

The party arrived in the city on returning at 5.30 o'clock.

SERIES OF DANCES ON LABOR DAY

It is proposed to hold these dances weekly through the coming Fall and Winter. The large ball room has been especially decorated for this first occasion. A charge of \$1.00 will be made for these dances. They should be very popular. A certain portion of the proceeds of each dance will be given to the fund to look after the families of the boys who are off to the war.

ORGANIZING CHORUS.

Leading Works of Great Composers Will be Studied in Classes Being Formed Here.

An excellent opportunity will be given this season to all music-lovers of this city to get acquainted with the best works of classic and modern choral music. Oscar Goldschmidt, nephew of the great Jenny Lind, well-known in the city as a teacher and conductor of music, whose work during the last season was highly appreciated, will resume his choral practices at an early date on a much larger scale than hitherto.

He is now inviting the music-loving public of the city to join his new chorus, at which the choral works of various great composers will be studied, part of the weekly practices to be devoted to the actual teaching of voice production, the proper method of breathing, etc., without which a perfect rendering of ensemble work is impossible.

The conditions under which Mr. Goldschmidt is rendering his services are most laudable, and all those to whom this branch of musical art appeals will benefit by availing themselves of this opportunity. The "People's Chorus" is to be the name.

ARTS EXHIBITION.

Annual Event of Island Arts and Crafts Club to Be Held November 19, 20 and 21; the Rules.

The Island Arts and Crafts club has decided on holding its annual exhibition on November 19, 20 and 21 at the Alexandra club.

The rules call for original work, paintings, drawings, designs, architectural and otherwise, and crafts. Members will be limited to eight works in each class; non-members to four in each class. Exhibits must be sent in not later than Monday, November 16, and delivered unpacked, at the exhibitors' expense, between the hours of 9 a. m. and 9 p. m. at the Alexandra club. Two labels must be provided with each exhibit, one pasted on the back and the other loosely attached to the exhibit, and each label is to contain the name and address of the artist, the title of the exhibit, and whether for sale or not. The work will be subject to the approval of a committee of selection. All pictures must be framed. Exhibits must be the work of the exhibitor except in the case of craft work, when the design need not be original. No work that has been exhibited at a previous exhibition of the club will be accepted.

FOR DUMB ANIMALS.

Women's Auxiliary of S. P. C. A. Holds Need of Suffering Creatures Ought to Be Remembered

At the meeting yesterday of the Women's Auxiliary of the Society for the Prevention of Cruelty to Animals, Mrs. Dennis Cox in the chair, it was decided to postpone indefinitely the entertainment which had been planned in aid of the society's funds. While deeply regretting the need of this decision, the committee felt it advisable under present conditions. At the same time it was felt that subscribers ought to remember that the society's needs are very urgent and that not all the fees for 1914 have been paid. Those who could not become members in the usual way, by the payment of \$1 a year, could greatly help by sending small donations so that the organization's good work might continue. Though the committee did not desire to press its claims unduly at this troublous time, it held that the sufferings of animals must be brought home very vividly to everyone in time of war. It was felt that there were many kind-hearted persons in Victoria who, though they had contributed generously to the needs of suffering humanity, would still be able to spare a mite for the animals. Those wishing to send subscriptions should forward them to Miss Pooley, honorary treasurer of the Women's Auxiliary of the S. P. C. A.

Rev. John Robson officiated at a quiet home wedding which took place on Wednesday evening at 2027 Fifth street, when Nellie, youngest daughter of Hugh MacDonald, of Viewfield road, Esquimalt, and Percy Walter Wilson, youngest son of Mr. and Mrs. Henry Wilson, of Springfield avenue, were united in marriage, the ceremony taking place at the residence of the bride's sister and brother-in-law, Mr. and Mrs. G. Harris. The service was held in the drawing-room, the bride and bridegroom standing beneath an arch from which depended a bell of chrysanthemums. The young bride looked very girlish, gowned in white duchesse satin with pearl-embroidered tulle of Chantilly lace and veil of embroidered tulle held in place by a chaplet of orange blossoms. A shower bouquet of bridal roses and lilies-of-the-valley was carried by her, the bridesmaid, Miss Gladys Davis, carrying a sheaf of pink carnations, and looking very pretty in a frock of pale blue crepe de chine with touches of

Little Lorna Evans, in a frock of pink silk, acted as flower girl, and Archie Wilson ably fulfilled the part of best man. Following the ceremony, which was concluded with the playing of the Mendelssohn Wedding March by Mrs. Henry Driver, Mr. and Mrs. Wilson left for a tour of the Sound cities, the bride wearing a smartly tailored suit of navy blue with white plumed hat. The young couple, who will make their home on Viewfield road on their return to the city, are both well known in Victoria, as was testified in the large selections of handsome presents which they received. The groom's gift to the bride was a silver card-case; to the bridesmaid a gold brooch set with pearls; to the flower girl a gold bracelet; and to the best man a pearl stick-pin.

The girl of the period has returned from school, and the girl of the period is shocking her fathers and mothers and uncles and aunts, and even, just a little, her brothers, says the Manchester Guardian. Her language gets more and more wonderful as each term comes to an end. Here is a specimen. Two sixteen-year-old girls just back from a boarding school board a car. "Bailly rotten journey up to town. Never saw such a lot of mouly whumps as there were in the carriage." "My godmother, yes. Weren't they the limit?" "Never mind, here we are. Isn't it spiff? Where are you going for the hols?" "I don't know; some mouly seaside place. I suppose. Can't go yet, though; my minor's got the mullygrubs or something. Little rotter." And so on till the car reached the destination. "So long; be good; I hop it here." And she hopped.

My modest advice is: Please don't be suffragettes, be reformers.—Mme. Yvette Guillbert.

AT THE THEATRES

ORPHEUM VAUDEVILLE.

For the third series of Orpheum performances at the Royal Victoria theatre, on Monday and Tuesday afternoons and evenings, there will be a bill of equally fine character with the two which have preceded.

With a wonderful aggregation of wheel machines, Charles Ahearn and his company of comedians and expert cyclists will have the place of honor on the programme. Charlie Ahearn is the sworn enemy of gloom. The burlesque race which closes the act is one of the funniest things on the stage. Wilbur Mack, who enjoys international fame as a dramatic and musical comedy actor, as well as an author and

playwright, assisted by Nella Walker, will provide a delightful singing, dancing and talking act. Mr. Mack is unquestionably a great artist and Miss Walker is a dainty dream of beautiful femininity. Stan Stanley and his company are mirth-provokers pure and simple. They introduce a variety of humorous conceptions that are so distinctly original that they are very hard to classify. Stanley and his "relatives" always capture their audiences. A most artistic novelty is Egredette's Act Beautiful, which consists of a series of magnificently posed Old Country hunting scenes, in which a splendidly trained horse and a pack of hounds are used. Joe and Lew Cooper do a very attractive pantomime and singing number. Katherine Durkin is a delightful impersonator who introduces a number of original ideas and makes some amazing changes of beau-

"THE CANDY SHOP."

A rapid fire succession of clever musical-comedy and vaudeville specialties will be offered in the season's fun and song show hit, "The Candy Shop," which comes to the Royal Victoria theatre for Friday and Saturday, Sept. 10-11. In the first act, William Rock and Maude Fulton, who head the list of entertainers and who are universally recognized as the cleverest and greatest of American travesty stars, present their nationally famous burlesque on "breaking into vaudeville" and later on in the cabaret scene that concludes the second and last act, their crowning triumph is a burlesque on Mme. Sarah Bernhardt, the celebrated French tragedienne. Miss Fulton's impersonation of the "Divine Sarah" is credited with being a positive masterpiece of mimicry and her team-mate shows his great versatility by ludicrously burlesquing Bernhardt's leading man, Mons. Lou Tellegin. Nearly every one of the principals offers either a singing, dancing or instrumental specialty in turn, including an applause-winning imitation of the well known English singing and dancing comedian, Laddie Cliff, by the

energetic and talented little comedienne, John L. Golden and Russell M. Tarbox, a young and successful composer, are responsible for the melodies; George Hobart, the nationally famous librettist, and Arthur Gillespie, have written a new book and accompanying lyrics.

"EARL OF PAWTUCKET."

"The Earl of Pawtucket," which comes to the Royal Victoria theatre on Wednesday, Sept. 9, with the distinguished English comedian Lawrance D'Orsay in his original role of Lord Cardington, was written expressly for him by the well known playwright, Augustus Thomas, and he has appeared in it with tremendous success on both sides of the Atlantic.

Mr. D'Orsay has reached his position of stardom in the theatrical world by hard work, though perhaps aided in his delineation of the aristocratic old country gentleman by the fact that he was to the manner born. He was destined for the bar, but gravitated to the stage of which he has become a bright particular ornament, having appeared in London under such managers as Sir John Hare, Sir George Alexander and Beerbohm Tree, excelling particularly in his delineation of the "heavy swell." He also served an apprenticeship with George Edwardes at Daly's theatre in Lon-

don, in musical comedy, appearing first in "The Gaiety Girl," and afterwards in "The Artist's Model" in this latter piece making his first appearance in New York. It was there that he made the acquaintance of the playwright Augustus Thomas. Mr. D'Orsay, a comedian of the first rank.

"STOP THIEF."

The off-pring of the Allen Players at the Princess theatre next week will be "Stop Thief," one of the greatest comedy successes put on in New York for years. To the preparation of this piece the members of the company have lent their best efforts.

It is interesting to take a glimpse behind the scenes when the company is busy making ready to produce a new offering, such as "Stop Thief." As one steps on the stage, he sees the scenic artist with his plans before him, designing his special sets while his assistants prepare the canvasses; the carpenter building the frameworks and the property man hard at work on his "props." If it be near the hour of rehearsal the spectator sees the actors strolling about with their parts—some of them of fifty or sixty "sides" (half pages of type-written foolscap)—in their hands, rehearsing some bit of "business" as they whisper to themselves the lines of some intricate scene. But despite the busy nature of the occasion, the utmost spirit of congeniality prevades all, for the members of the company are never too busy to let their great friendship for each other show.

Tenant—"You've called for the poor rate, have you? What is the poor rate, may I ask?" Collector—"It's for the benefit of people without means, sir." Tenant—"Ah, then, you mean you've called with it, not for it."

Shipping News from Day to Day

"SEA-WOLF" McLEAN MAKES LAST PORT

One of Best Known Mariners Along North Pacific Coast; Adventurous Career

For the last thirty years Captain Alex. McLean was one of the best-known men in shipping circles on the north Pacific, and the news of his death by misadventure in Vancouver, where he has made his home for a number of years, was learned here with great regret.

At the age of twenty-one, in 1880, Captain McLean came to the Pacific coast as second officer on the clipper ship Santa Clara, and on leaving her he was for a considerable time first officer of the famous old Hudson's Bay steamer Sir James Douglas and for a short time master of the more famous old Beaver, the pioneer steamer on this coast.

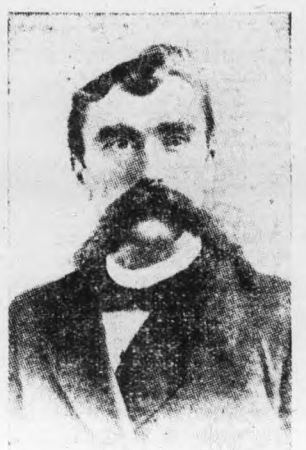

In 1883 Captain McLean entered the sealing industry, in which his greatest fame was gained, and in which he had some hair-raising escapes. As Captain Charles Spring told the sealing commission recently, the trip of Captain McLean from San Francisco in the schooner San Diego was the first undertaken from an American port with white hunters, all previous sealers from the south having hunted with Indian crews.

In 1885 the latter carried out a plan which his father had intended to experiment with if he had lived, sending Capt. Alex. McLean out with Indian hunters and Capt. Dan McLean with white hunters. The final result showed little difference, but the dead sealers' Indian crew was the first of that race to operate successfully in the Behring Sea.

Both the McLean brothers got into serious trouble in 1891 off Copper Island. Capt. Dan was in the Edward E. Webster and made a raid on the island, in which he was surprised by a party of Russians which opened fire on them, wounding McLean. The others were unhurt and all got away to the schooner and to sea, with the exception of one sailor who was drowned by falling overboard in his fright.

Capt. Alex was not so fortunate when he and his crew in the J. Hamilton Lewis, happening to be in the same vicinity, although not at the time engaged in a raid, were overhauled by the Russian man-of-war Aleut

MAKES HIS LAST PORT

CAPTAIN ALEX. McLEAN Who for the past thirty-four years has been sailing the North Pacific, for many seasons in the sealing industry, and who met his death by accident in Vancouver this week.

and ordered to leave to. McLean all through his life was an absolute stranger to fear. He shouted back that he would do nothing of the kind, being in neutral water, where neither the Russians nor anyone else had any right to interfere with him.

The Aleut sheered off, firing a few shots with the intention of frightening the sealer, but naturally McLean paid no attention to the bombardment. The Aleut thereupon steamed down across the bows of the Lewis, carrying away her fore-rigging, and as she swung alongside a boarding party took possession of the schooner. For a considerable time the captain and some of his crew were confined on board the Aleut, which first towed the prize to Petropavlovsk and later to Vladivostok. In the latter place they were imprisoned, although allowed the freedom of the town each day until 8 o'clock in the evening.

The following season Captain McLean went north with the schooner Rose Sparks, and his next trip was in the nature of an experiment with the steam sealer, Alexander, the largest on the Pacific coast. Finding that this was too expensive a method of catching seals, he went back to sailing schooners, and in 1894 he took the Bonanza out, coming back with 2,184 skins. He remained in the industry until the last years of it on this coast, with varying success. He then went into the towing business in Vancouver, in which he was engaged up to the time of his death.

The character of Wolf Larsen in Jack London's book "The Sea Wolf," was drawn from McLean, but it is well known that the alleged prototype was never pleased with the portrait drawn. As a matter of fact, he was, while courteous and a disciplinarian as a master, a thoroughly humane man and by no means the wolfish individual that London's ship-master was. He was very popular in every port and an every-visitor to his city, and it is not more than a coincidence that he was here last. A widow and a daughter are left, the former very ill in hospital at present.

PRESIDENT UNDAAGED SAILS FOR THE SOUTH

The President, Capt. Zeh, of the Pacific Coast Steamship company, was ashore on the mud-flats two miles south of Anacortes for twenty-four hours on Thursday before she got off with the assistance of the second tide after she went on.

It was due to the dense fog hanging over the Gulf waters that the steamer grounded. She stuck fast on the flats in spite of all her engines could do, and the receding tide left her hard on. An examination at Seattle showed that she had not sustained any serious damage as a result.

Late this afternoon the President will sail from the outer wharf for San Francisco and San Diego, taking a number of passengers from here. There is a good cargo and several passengers from the Sound ports.

CLOSE SEASON RESCINDED.

By an order-in-council passed by the governor-general-in-council the close season for salmon in the Fraser river, from August 25 to September 15 in each year, which was established by federal order-in-council on March 12, 1910, is rescinded for this year only.

This is done on account of the representations made by the canners that the season might be extended this year by cutting out this close season without injury to the fish, and would be of assistance to the canners in an off year.

TAKING GRAIN FOR FORCES.

Five steamships of the Andrew Weir lines are being chartered by the war office to carry grain across the Atlantic for the use of the field forces. The first to leave Baltimore with a cargo of oats will be the Roseric, to be followed by the Satsuma, the Tugela, the Velore and the Thistledhu.

KARLUK CASTAWAYS MAY BE TAKEN OFF

Four Vessels Now Engaged in Search for Marooned Men on Bleak Coast

Nome, Sept. 5.—The United States revenue cutter Bear will leave for Wrangell island to-day to attempt to rescue 22 people who took refuge on the island last March after the Stefansson exploring ship Karluk had been crushed by the ice north of Herald island.

The Russian steamer Talmyr and the gasoline schooner King and Winge are already in the Arctic trying to take off the castaways. A fourth boat, the former revenue cutter Corwin, will leave Nome to-day to aid in the rescue.

Jafet Lindeberg, the mining man, advanced the money to provision and coal the Corwin. Capt. Dick Healy is in command, and the crew is of picked men. The Corwin has taken Eskimo dogs, sledges and skinboats, and the crew is well prepared for a trip over any sort of ice. Wrangell island is surrounded at all times by grounded icebergs and a landing is difficult even in midsummer.

Capt. Robert F. Bartlett, late master of the Karluk, who is on the Bear, is greatly worried over the long delay in reaching his shipmates. He says they have no way of knowing that he reached Siberia and is seeking to take them off the island. If they know that four steamers were trying to reach them their conditions would be much more comfortable. As for food supplies, Bartlett says there are plenty of birds' eggs and seals on the island.

NEW DEPARTURE FOR PACIFIC COAST S. S. Co.

Seattle, Wash., Sept. 5.—For the first time in the history of the Pacific Coast Steamship Company, that corporation is preparing to send a steamship with a full cargo of coal to a foreign country, other than British Columbia.

The steamship Eureka has moved to the Pacific coast coal bunkers and began taking on 2,500 tons for Guaymas, Mexico.

The voyage of the Eureka is a direct outcome of the war, and is the first evidence of any advantage this port may gain as a result of the great conflict.

Mexico formerly bought coal from Japan and Australia, but the necessities of war has made it difficult for these countries to supply the necessary fuel, and the Eureka has been ordered south with a full cargo. Capt. J. E. Gupitill will be in command.

SCHOONER MELROSE NEARLY HITS DUNTZE

Port Townsend, Sept. 5.—With four Japanese stowaways on board the schooner Melrose, Capt. Trainor arrived from Hilo, The Japanese had a passport from the emperor permitting them to visit the Hawaiian islands, but not the mainland of the United States. They were taken in charge by immigration officers and will be deported to Hawaii.

The Melrose had a narrow escape from going on the rocks in entering the straits. Capt. Trainor had not been advised of the change in the fog signal at Tatoosh island. When within a short distance of the rocks he discovered his dangerous position in time to put his vessel about.

The Melrose will shift to Seattle to drydock, and then will go to Port Angeles to load.

'LONGSHOREMAN LIBELS CUZCO.

The Grace liner Cuzco, Captain Miller, is having lots of trouble on this voyage to the coast. On arrival at Seattle after being aground on Marstonstone Point the vessel has been libelled by Henry Gorin, acting as guardian for Joseph O'Brien. While the ship was lying in port on October 10, 1912, discharging cargo, O'Brien was severely injured by falling down a hatchway. He has entered suit in the United States federal court at Seattle for damages against the owners of the vessel.

WILL APPEAL TO LADIES.

A change has been made by the Grand Trunk and Grand Trunk Pacific railways in the construction of their passenger coaches that will appeal to ladies especially, but will be welcomed by all travelers. This is in addition another step to the cars, making a four-track entrance step, with the bottom fourteen inches from the rail. In the ordinary case the bottom step of a railway coach is anywhere from twenty-two to thirty inches from the ground, and it is an athletic feat to climb up to the car.

BRINGING CURACOA SOUTH.

Arrivals from Alaska bring word that the Curacoa, which sunk near Warm Chuck, Alaska, over a year ago, and has just been floated, is to be brought south under her own steam for permanent repairs. The vessel was raised by a crew working under Captain Bissett, of the Vancouver Dredging & Salvage company, and it is understood that the vessel will be repaired in that port.

MIRACULOUS CURE OF ASTHMA

Suffered Terribly for 15 Years Until He Tried 'Fruit-a-tives'

U. A. WHITE, Esq. "21 Wallace Ave., Toronto, Dec. 22, 1913.

"Having been a great sufferer from Asthma for a period of fifteen years (sometimes having to sit up at night for weeks at a time) I began the use of 'Fruit-a-tives.' These wonderful tablets relieved me of indigestion, and through the continued use of same, I am no longer distressed with that terrible disease, Asthma, thanks to 'Fruit-a-tives,' which are worth their weight in gold to anyone suffering as I did. I would heartily recommend them to all sufferers from Asthma, which I believe is caused or aggravated by indigestion. D. A. WHITE."

WAYFARER TO SAIL FOR PACIFIC COAST

Largest Steamship of Harrison Direct Line to Leave United Kingdom Via Canal

The Harrison Direct line has notified Harold Cove, Victoria representative of the agents, Balfour, Guthrie & Company, that for the present the liners will sail for this coast when loaded, irrespective of the sailing dates announced. The particular vessels which will sail it is impossible to state in advance.

In common with all other shipping this line suffered from the uncertainty existing in the first few days of the war, especially in regard to insurance. With the government war risk insurance scheme in force and the safety of the seas assured by the fleets of the allies, shippers are getting back to normal, and all the freight-carriers are getting full cargoes.

The Harrison Direct line has taken advantage of the war risk insurance and shippers by their steamships are enabled to secure insurance for any cargo against king's enemy risk. The Crown of Seville, which is scheduled to arrive to-day, will be here early next week, having had to call at Portland to discharge freight for that port.

Historian is the only other vessel of the line now on the way, and will be the last to come by the long route around by Magellan Straits. She is due here about the end of the month. Balfour, Guthrie & Co. have been advised from London that the liner Wayfarer, the largest of the Harrison fleet, is being loaded in the United Kingdom to sail almost immediately for British Columbia ports. This fine freighter has been in the London-Calcutta trade and will make her first voyage to these waters. She is of immense capacity, having room for fifteen thousand tons of cargo in her holds.

PRaise FOR THE RAILWAY.

Praise for the handling of a recent party taken to Berlin, Ont., by a number of men interested in the rubber industry has been given to the management of the Grand Trunk railway. The party was organized by and was under the guidance of R. W. Ashcroft, advertising manager of the Canadian Consolidated Rubber company, who is a traveler of considerable note and who, as a member of the circumnavigator's club, accompanied Mark Twain on several overseas jaunts. Mr. Ashcroft writes to the company to say that the service in every department, on its trains was excellent and the delegates enjoyed a most comfortable trip. This is but one of the very many excursions over the lines of the company this year.

TAKE AMERICAN REGISTRY.

Three vessels which have been under British registry have been placed under the American flag as a result of the passing of the new ship registry act by congress. The steamship Robert Dollar is now at Rio de Janeiro on her way from Victoria with five million feet of lumber consigned to Toronto. The steamship Moldegaard is loading at New York for Brazil. The barque Windrush is at Buenos Aires loading for Boston.

MOTOR MEET FOR THE HOLIDAY VANCOUVER RIDERS TO COMPETE

B. C. Horse Events and Novelty Races Add Interest to Lengthy Card; List of Entries

Final preparations have been completed for Monday's motor meet at the Willows, and one of the finest racing cards ever offered the local public has been prepared. The arrival of a squad of Vancouver motorcycle riders to-day completes the "quota" which will face starting H. M. Pashley at the Willows Monday. There is little doubt but that new records will be set up. The track has been thoroughly "laid" during the past week, and as the riders have been practising on the circuit every evening, they have become pretty well accustomed to the dangerous spots and can let their machines out on high for most of the distance. The entry of several of the up-Island riders and Rayners, of Victoria, and Wild Cat Bell, Earl Godfrey, Bennett and Ross, of Vancouver, gives a provincial aspect to the races. The open events will be for the Vancouver Island championships, and there will also be races for novices and Victoria riders.

One of the novel features of the meet will be the Pursuit race in which one of the Victoria motorcycle officers will endeavor to overtake Tozer Cameron, who will drive his little Saxon car. The contestants will get away to a flying start. The promoters of the meet have offered a prize of \$25 to the policeman who can catch Cameron in a two-mile chase. The "bullet" races will also prove highly interesting, no less than seven cars having entered. The entries follow: Mitchell, Saxon; Red Lustig, Hudson; H. Palmer, Buick; A. White, Buick; J. Smith, Ford; W. Anderson,

INTER-CITY GAME MONDAY AFTERNOON

While Victoria's soccer season opened this afternoon with a number of practice matches, and there is an international match booked for Monday between the Seattle National and a Victoria eleven, the old county clubs are being seriously affected by the war. Many of the finest players in the British Isles have responded to the call for volunteers, while there are hundreds who are army reservists and are now at the front.

The following list includes but a few of those who are now fighting for the empire:

Nottingham Forest—Firth, Bell and Kiske, Bristol City—Ware, Hull—J. C. Brain, A. Moore, P. Bolton, J. McIntosh and J. Lyon, Sheffield Wednesday—James Campbell, Ashton Villa—Smart, West Bromwich Albion—Harry Keys, Walsall—Benny Chance, Reading—J. Dickenson and Millership, Rochdale Hornets—J. Twigg, Oldham Rugby—George Cook and Blige, Hornsea—W. J. Roman and J. E. Robinson, Bramley—J. McManus, Croydon Commons—Nash, Palace and Peart, Heart of Midlothian—Geo. Sinclair, Morland.

In Scotland many players are affected. Ferguson and Galway have both been called upon to serve the colors. A young back on trial at Cathkin has also been called away. Kilmarnock is affected. Dickie and Fulton, the Turgie Park halfbacks, being among the territorialists. King's Park has a couple of players in the territorialists. Alloa Athletic has four at least. Three Vale of Leven players, Wilson, McGilland and Wylie, have been called up by the military authorities. Templeman, the Ardrieonians' crack outside right, has also gone to the front. Ronald Boulton Palmer, England's Rugby captain, is among the territorialists called at Reading.

Judges for motor events—J. Gorman, T. D. Lamont, H. Hanover, Timekeepers—J. W. Duncan, W. J. Shortt, Official starter—H. M. Pashley.

Judges for B. C. Horse events—Major W. Bapty, Lieut. E. B. Irving, Lieut. N. T. Rant, Lieut. J. Dunsmuir, Capt. W. W. Foster, Clerk of the course, Sergt. A. James, Handicapper and starter—H. D. Smith, Timekeeper—S. M. R. A. Meakin.

FINAL WEEK FOR LOCAL BALL TEAM

Bees Will Wind Up the Season at Vancouver; Gipe's Queer Record

If, when they meet the Vancouver club next week, the Bees can show some of the fighting spirit that they gave evidence of possessing this week at Spokane, they will have a fine chance of beating the Tacoma club out of fourth place. There is only another week of baseball but the locals can improve prospects for next year by landing once more in fourth place. Tacoma will be opposed to the Ballard team and the latter has been going much better than the Tigers of late.

The Bees will find themselves against Ben Hunt and Dutch Reuther in four of the six games that they will be called upon to play, but with eight right-handed hitters in his lineup, Manager Delmas should be able to overcome the hoodoo that the terminal sluggers have had over the Bees this year. At any rate a good finish will help the fans to forget a lot of bad baseball which the locals have been guilty of this year.

Of the players who have gone to the major leagues from the Northwest in the past two years, comparatively few have come back. Eddie Mensor is still catching fly-balls hit from the delivery of Pittsburgh pitchers; Bill James, Leslie Mann and Catcher Bert Whaling all are with the pennant-mad Boston Braves; Pete Schneider is sitting on the Cincinnati bench and winning a game for the Reds occasionally; with him is Phil Douglass, drafted from the Spokane club of 1913; Charley Schmutz is with the Brooklyn Nationals; Kauthehner is with the Pirates. A number of Northwestern league players not quite fast enough for the National and American leagues are doing service with clubs of the international league. Carl Mays and Jack Fitzsimmons, who were in this league last season, are two. Willard Meikle, drafted by Boston from the Seattle club of 1913, is with the Jersey City club of the international league. Ed. Kippert is still playing good ball for the Montreal Royals, and Thompson, from the 1912 Seattle club, is with Jersey City, drawing cheers signed by the same man. Arlie Bues, 1911 hero, draws his from twice a month. Rawlings has joined the Feds, and Barham is with Frisco.

It was claimed Al Gipe twirled a no-hit game against Ballard. Yet the Seattle Times' running story of the game contains the following: Second inning—Ballard—Guigni safe on an infield hit; McKune hit one too hot for Huhn to handle, but Huhn recovered the ball in time to get Guigni at second; Murray fanned; McKune went to third on Cadman's error; Williams fanned. No runs, two hits, one error.

A large crowd is expected to be on hand when the Victoria Rotary club meets the Vancouver Rotary club in a baseball game at the Royal Athletic park on Monday afternoon. The Vancouver members have promised to bring along over one hundred to cheer their players on to victory, so the visitors will be well supported. The Victoria club will put an all-star team in the field. The financial returns of the game are to be divided between the patriotic fund of the Daughters of the Empire and the Household League. Because of the women's interest in the game it was decided to obtain a woman umpire and this morning Miss Yerna Felton, leading woman of the Allen players, consented to handle the umpiring. Miss Felton is one of the keenest fans in Victoria, and is thoroughly competent to meet any of the contingencies that arise in a baseball game.

On account of the destination of the gate receipts and the wide personal acquaintance of the players, Lester Patrick, Jesse Warren, J. H. Kelly, H. Brown, James Adams, L. Hoer, W. H. P. Sweeney, K. T. Hughes, P. C. Abell, W. H. Murphy and L. Brown, a very large attendance is expected. The grounds have been donated free by Joshua Kingham, and the members of the club with motors will meet the Vancouver crowd at the boat. The game begins at 4 o'clock and will be followed by a club dinner at the Westholme grill.

Prince Patterson will lead his triumphant C. P. R. troop against an all-star junior league team on Monday at 10 o'clock. To date the railway employees have met with but two reverses and they have a long list of scalps. Zalelli, the southpaw, is said to be ripe for professional leagues. He has a world of speed and a sharp breaking curve. The twirler for the opposition party, Paul Slater, is also a star. He has been pitching fine ball of late and his supporters are confident he will set down the C. P. R. batters in order.

"Hay" Jackson, Beacon Hill's first-sacker, will play the initial bag for the stars. Dan Slater, brother to the phenomenal Paul, will cover second, and Leon McClusky, whose services are sought by a number of intermediate clubs, will play short. Roy Copas, Beacon Hill's rangy third-sacker, will complete the all-star infield. Milne, of the Messengers; Hughie Burnett, of the Senators, and Horace Curtis, of the Curtis, Jim Milne and Stewart Plows will fill in vacancies should any of the above fail to put in an appearance.

On Sunday morning the Victoria all-star baseball team will make a second trip to Nanaimo to clash with the Coal City team for the Island championship. Two games will take place, the first on Sunday afternoon and the second on Monday. The locals met the up-Island-

Sturdier Tires

In These Four Ways Excelling All the Rest

The tires which rule in Tiredom now are Goodyear tires—by long odds. After men have used four millions of them, they lead in prestige and in sales. The only reason is that motorists—hundreds of thousands of them—have proved these the sturdiest tires. They use them and tell other men to use them.

Where They Excel

Back of that super-service lie four exclusive features. They are these:

Our No-Rim-Cut feature. Time has proved it the only satisfactory way to completely wipe out rim-cutting.

Our "On-Air" cure. This exclusive process costs us heavily, but it ends the chief cause of blow-outs.

Our rubber rivets. By a patent method, hundreds of these are formed in each tire to combat tread separation. They reduce this risk sixty per cent.

All-Weather treads—the matchless anti-skids. They are tough, double-thick and enduring. Resilient on wet roads with their deep, sharp grips; yet flat and smooth, so they run like a plain tread.

FINAL LACROSSE MATCH ON MONDAY

Westminster Refuses to Guarantee Nationals \$2,500 for Cup Series

Victoria's lacrosse season will be brought to a close on Monday morning at the Royal Athletic Park when the Westminster amateurs play the locals, the match starting at 10:30 a. m. This will be the final of the P. C. A. L. A. schedule for the year.

The Victoria players expect to win by a couple of goals. They have dropped all three games to the Westminster club this year, and Manager Poulin is determined that his proteges shall close their season with a victory. Counter attractions compel the calling of the game in the morning. The teams will line up as follows:

Victoria Westminster
Medridge goal Stoddart
Clegg point Patchell
Sweeney cover Gregory
Taylor 1st defence Atkinson
O'Neill 2nd defence McDonald
Johnson 3rd defence Batson
McGregor centre Huff
Petticrew 3rd home Nelson
C. Baker 2nd home Pentland
J. Mitchell 1st home Feeney
M. Carter outside Storme
J. Carter inside Murray

Little hope is held out in the east that the Nationals and Rosedale will ever come together to decide the championship of Eastern Canada. First the Rosedale club offered a proposition, and then the Nationals refused to play without the consent of their league. The upshot of the whole matter may be the formation of a new lacrosse league composed of six clubs, with the amalgamation of the N. L. U and Big Four as the ultimate settlement of all trouble. This is the only possible solution of the trouble in the east. Toronto cannot support three professional lacrosse clubs, while Montreal is utterly unable to hold up four professional teams.

The interest in lacrosse has not

TOZER WINS SECOND CONTEST OF WEEK

Bees Could Not Hit Indian Twirler; Tacoma and Ballard Also Beaten

Spokane, Sept. 5.—Ole Hanson could not keep the ball out of the groove at Spokane yesterday, with the result that the Indians beat Victoria's hopefuls, the final score being 6 to 1. Spokane gathered ten clean bingles off the delivery of the Bees' youthful Swede, while Tozer held the Bees to six widely scattered blows. It was the second win of the week for Tozer, who has been one of Mike Lynch's standbys since he left the Frisco club.

The Indians apparently were driven to despair by the manner in which the Bees have been abusing their pet twirlers and they took revenge upon the Victoria recruit. Victoria put in a couple of errors that did not help Tozer, while the clogging of the Bees' run-getting also helped the enemy to take the game which evened up the series. Victoria will play at Spokane Sunday, with two games on Monday, opening the final series at Vancouver on Tuesday. There is a chance that the Bees will play the final game of the season with Vancouver at Bellingham, the latter town being anxious to have the Canadian clubs wind up at that town next Sunday.

Vancouver and Seattle continued to win at the expense of the Ballard and Tacoma clubs, so that the Bees are still safe in fourth position.

REMARKED ON THE SIDE

Will Eastern Clubs Challenge For Minto Cup?

There has been a veil thrown over the plans of the National and Rosedale lacrosse clubs for the past few days. Apparently they have disagreed over the proposal to play a charity series for the championship of the east and it is said that the Rosedale team will not come west for the Minto cup. Nationals are now said to be thinking of making the trip. One of the plans of the Big Four champions would be to keep their intentions dark until the last minute and then ask the trustees for dates against Westminster. Nationals made a sorry showing when they came west three years ago, but they have a greatly improved club now, and if they could catch the Royals unprepared, might make a big bid for the trophy now that Doughty Spring, Johnny Howard and Len Turnbull are missing from the Royals.

Nationals Doing Their Best to Break Into Hockey.

Not only have the Nationals of Montreal gone ahead with the signing up of players, but they are also after clubs to make up a new league should the National Hockey association refuse them admission. Joe Cattarinich, the well known National lacrosse star, paid a visit to Ottawa last week for the purpose of sounding the hockey moguls of the capital on the matter of a new league. It is well known that the capital city magnates have no love for Lichtenhein, Kennedy and Quinn, and it is even rumored that should the opportunity occur, they will not hesitate to jump to another body. Nationals made an effort to secure entry into the N. H. A. two years ago, but they were turned down. They are now after such a franchise and declare that they will spend thousands to secure recognition as a major hockey club.

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adria, Mich.—"I suffered terribly with rheumatism and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said "Saved from the Grave," and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, "Why don't you try it?" So I did, and after I had taken two bottles I felt better and I said to my husband, "I don't need any more," and he said "You had better take it a little longer anyway." So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adria, Mich.

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family on meagre wages. Whether in house, office, factory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

How to Look Less Than Your Age. There are three golden rules that every woman who would ward off signs of advancing age should abide by: 1. Cultivate cheerfulness. Those who understand the physiological effect of worrying, know this advice should be taken more seriously than it usually is. 2. Whenever the complexion begins to look worn or withered, use ordinary medicolized wax for a week or two. Apply nightly like cold cream, erasing it in morning with warm water. This gradually absorbs the thin film of surface skin, revealing the fresher and younger skin underneath. An ounce of the wax, obtainable at any drug store, is enough to rejuvenate any complexion. 3. When the tell-tale wrinkles appear, or cheek and chin muscles begin to sag, bathe the face once a day for a while in a solution of powdered azoxite, 1 oz., dissolved in 4 pt. of witch hazel. This has a remarkable effect in "firming up" and smoothing out the skin.

IN THE LODGE ROOM I. O. O. F.

Meetings Next Week. Tuesday—Colfax—Rebekah Lodge No. 1. Wednesday—Columbia Lodge No. 2. General Relief Committee. Thursday—Dominion Lodge No. 4. Friday—Canton Victoria No. 2.

At the regular meeting of the lodge on Monday evening last a committee was appointed to consider the best means of creating an emergency or patriotic fund to provide for any contingency that may arise through the patriotic conduct of some of its members who have volunteered or who may volunteer to serve the Empire in the war. It was thought that entering such a fund might be got up at the same time create an interest in lodge work amongst the members. Next Monday being a statutory holiday the meeting of the lodge that evening will be omitted. Colfax Rebekah Lodge No. 1. The regular meeting of this lodge will be held on Tuesday evening next, when a number of candidates will be initiated. Vancouver Encampment No. 1. Bro. F. Shaver has been appointed team captain of the encampment, and is busily engaged with practice work whenever possible. At the conclusion of the degree work last Tuesday evening a team practice was held which proved very satisfactory. The second degree was conferred on several candidates in a very satisfactory manner last Wednesday evening. There will be a team practice next Wednesday evening at the conclusion of the lodge business. General Relief Committee. The general relief committee will meet on Wednesday evening next at 7:30 o'clock on account of Monday being a holiday. The president will be much pleased to have all members present, as much business has accumulated during the past three weeks. Dominion Lodge No. 4. There was a very happy company at Dominion lodge on Thursday evening. For the first time this season there was no degree work and the team enjoyed a well-earned rest. After a short business session the card tables were got out and the members divided into parties for whist and five hundred and the degree team thoroughly enjoyed the evening off. Next week the second degree will be conferred on a number of candidates. The committee expects to have something interesting for the members if time will permit. Visiting brothers are always welcome at number four on Thursday evenings. Canton Victoria No. 2. The regular meeting of the canton will be held on Friday evening next. Although no business of importance will come up for discussion, the officers hope there will be a good attendance. Agent For Relief Association. Bro. F. W. Dempster, deputy grand master of the province of British Columbia, has been appointed agent for the I. O. O. F. Relief Association, and the members will be able to find him at his shop, Dupplin road, at any time during the day, or on Wednesday evening at the hall.

SONS OF SCOTLAND BENEVOLENT ASSOCIATION. The regular meeting of Allisa Craig Camp No. 71 was held last Friday. There was a large attendance of the members present. It was decided to continue the membership competition till next meeting, when it is expected the charter will be closed. The plans for the picnic were fully discussed and arrangements made for a very successful outing. All those intending to be at the picnic will meet at the B. C. Electric railway depot on Monday morning at 8:45, as the train will get away at 9 o'clock. Any member having unsold tickets is to return them to Brother Mackenzie to-night. The brother will be at 634 View Street from 7 to 8 for this purpose. The next

meeting will be held on Friday, September 11, at 8 p. m. COURT VANCOUVER, A. O. F. Court Vancouver No. 5755, A. O. F., will hold its regular semi-monthly meeting on Monday evening. The usual business will be discussed. It is expected that a report of the court delegates to the annual A. O. F. meeting, which was this year held at Albert, will be forthcoming.

OUR LETTER BOX

Letters for publication in Daily Times must be received at the Times Office not later than the day before the day of publication. When received later they will be held over until the following day.

WORK OF W. C. T. U. To the Editor,—Owing to the present depression in trade, and also to the fact that many who have at other times contributed to our work are now unable to do so, because of said depression, we find ourselves in difficulties in carrying on our work through lack of funds. We have had between 20 and 30 men here all the summer, and many of these have been unable to find work for more than a few hours at a time. These are men who are desirous of getting work. They do not want charity, and would be glad of any kind of work they could get. Ten of our men have enlisted lately, four of them having gone to the front. I mention this that it may be known that these men deserve help and encouragement.

We would welcome subscriptions to our work either in money or clothes or provisions. Citizens who have need of anyone to work at odd jobs for a few hours or days could help us if they would phone us up and give these men a chance. Our phone is 1124. We do not encourage lazy or drunken men. If men come to us without money we make it a rule to set them to work to earn their bed and meals. They saw wood and split and sack kindlings. These we are open to sell to any one who will phone to the above number. The indications are that work will be scarce this winter. We have 54 beds; we try never to turn away a deserving case. If we are to do the work that we might and ought to do this coming winter, it will be necessary, those of our citizens who are able, to loose their purse strings and give liberally. Our desire is to help those men to help themselves that they may be the better for having been in contact with us. THE STAFF OF THE W.C.T.U. Sept. 4.

GERMANY'S AIM. To the Editor:—I hope everybody noticed the story of the refugee from Wiesbaden that the Germans were writing upon the walls there, "William, Emperor of Europe and America." That shows what many have supposed (though hitherto there was little or no proof) that the Germans had in their minds the idea not only of dominating Europe, but also of mastering the United States. This was the climax of the scheme proposed by List in 1830 for German development; all the other steps have been achieved or seriously attempted, and it seemed unlikely that Germany, which had followed the rest of his plan so tenaciously, would forget the crown of all. The history of Friedrich List is quite curious. In 1816, the year after Waterloo, aged 27, he was a secretary in the government of Wurtemberg, and soon became professor of political economy

Why Riders Like These Tires

Bicycle riders are coming in multitudes to Goodyear Bicycle Tires. They know that these are genuine Goodyear tires made under highest Goodyear standards. Men cannot make better. Money cannot buy more. Yet these tires cost no more than tires that do not have their Goodyear advantages.

These tires have the famous Goodyear All-Weather tread—deep, sharp diamond blocks that grip all roads, wet or dry. They are of beautiful white rubber that enhances their appearance and that of the bicycle itself. They are made at the Goodyear Bowmanville, Ontario plant where every standard is a Goodyear standard, and where quality-leadership is the prime consideration. in a university there. He had noticed that Germany was free trade before and after the Napoleonic wars; that she was compelled by Napoleon to protect herself against England, but that he gave free trade to France, and he observed that industries thrived more in protection than either before or after under free trade. He concluded that protection was good for a country and that the Wurtemberg free trade government was wrong. Further, he said so, and naturally he got himself disliked and was sentenced to ten months imprisonment. He escaped by flight, but was so fond of Germany he came back and pleaded for clemency, but they put him in prison and he only got out by promising to renounce his nationality and emigrate to the United States. He is now recognized as one of the founders of modern Germany. He laid out his scheme in a book, which tells of the formation of the Zollverein (Zoll, custom, tax; Verein, union, club) in 1819 and 1830, when Germany's many small states united to put a customs barrier all round them, to have free trade with one another, to protect themselves, and so to keep the foreigner at a distance. List was in a way a prophet. Some hundred years ago he told the Germans they should have commercial agents on the staff of their embassies, that they needed colonies to provide their factories with enough raw material, and that subsidized German ships should carry the trade of these colonies. All these things, you see, have been realized. So also has his proposed continental union against the

my when provoked, lose his temper occasionally—which has caused him to be regarded as irascible—he is warm-hearted and generous, and never forgets a friend.

General on being asked on one occasion why he should be known as Smith-Dorrien and his brother as Dorrien-Smith, explained that the family was not quite sure in which order the names came, and so rang the changes on them, that at least one branch of the house might be correct.

Smith-Dorrien was largely responsible for the defeat of General Cronje during the Boer war. When Cronje was cornered at Modder River it was Smith-Dorrien's Canadians and Gordons who in a night attack won a position which enabled them on the following morning to enfilade a vitally important stretch of Boer defences.

Some twenty years previously he was likewise recommended for the Victoria Cross. It was in the Zulul war, one day while out studying the lay of the land he was suddenly set upon by a body of Zulus. He put spurs to his horse and was galloping away, with the enemy after him, when he came upon a fellow officer on foot, who asked him to let him hang on to his stirrup, so as to help him along.

Whereas Sir Horace Smith-Dorrien is an infantryman, General Sir Douglas Haig, who commands the other British army corps in France, is a cavalryman from the crown of his head to the soles of his feet, and spent several years in India, as Inspector general of cavalry. He was also chief of staff there to the commander-in-chief, distinguished himself as chief of staff to Field Marshal Sir John French in the Boer war, and went through all the Soudan campaign, including the final battle of Omdurman, under Kitchener.

Russo-Japanese War Ended at Portsmouth 9 Years Ago To-day.

That quondam enemies, now quasi friends, Russia and Japan, settled their differences and put an end to one of the most destructive wars in history just nine years ago to-day, September 3, 1905, when a treaty between the two nations was signed at Portsmouth, N. H.

In the preceding June President Roosevelt opened diplomatic correspondence with the warring powers, seeking to bring peace out of the chaos of conflict. Two days later, Russia and Japan, both exhausted by the terrible strain of modern warfare, agreed to a peace parley. At the invitation of President Roosevelt, they agreed to send peace commissioners to America to consider ways and means of ending the struggle.

In the quaint and quiet little city of Portsmouth the great battle of wits between the diplomats of Russia and Japan was fought to a conclusion. The negotiations were eventually taken out of the hands of the commissioners, and the parley was carried on between St. Petersburg and Tokio, with Washington acting as intermediary.

The close of the long struggle between the two governments and their envoys at Portsmouth came with startling suddenness, when Japan, in the interests of peace and humanity, made her unexpected concessions in the matters of Saghalien and indemnity. The Japanese offer to sell to Russia half of the island for \$200,000,000, Nippon's estimated war expenses, was definitely refused by Russia.

GEORGE JAY SCHOOL OPENING EXERCISES

Certificates Presented to Successful Candidates; Prizes Awarded

The opening exercises of the George Jay school were held yesterday afternoon, a delightful programme of songs and recitations being given. One of the features of the occasion was the presentation of certificates to the thirty-five successful candidates at the entrance examination. This part of the proceedings fell to George Jay, chairman of the board of trustees, who preceded the presentation by a brief address of congratulation and a reminder of the serious character of the work on which the students were entering. The graduates were heartily applauded as they took their awards. Mr. Jay giving each of the successful students a hearty handshake as he handed him his certificate.

The household science certificates were presented by Mrs. Jenkins, who expressed her keen interest in this branch of the school work, which she said, would help to make for happier homes and better citizens. Home nursing, home management, laundry work and cooking were essential to good housewifery. At the close of her address she was presented with a bouquet of wine-colored dahlias, Laura McLean, on behalf of the class, offering the gift.

A set of Dickens' works and a volume of Shakespeare, Mr. Jay's special award to the two pupils gaining the highest marks in the entrance examination, were presented to Agnes Stevenson and Edith Eilers respectively.

The sports prizes consisted of a silver hockey cup, presented by Inspector Paul to the captain of the winning team; and medals, presented to the winners of the May sports by Mr. Gibson, who recalled his own excitement many years ago on obtaining, while ploughing, his own entrance examination certificate.

Certificates in manual training were presented by Mrs. Justin Gilbert, who referred to the practical value of the knowledge gained in this department of the school studies. Mrs. Gilbert was also the recipient of a bouquet of dahlias, H. B. MacLean, the principal, explaining that the flowers were grown in the children's gardens.

Other speakers during the afternoon included Rev. William Stevenson, and the long programme, which had opened with the singing by the whole school of "O Canada" concluded with the following:

SCHOOL ATTENDANCE SHOWS AN INCREASE

Growth at High School Has Counterbalanced Decline in Graded Schools

Contrary to expectation, based on the number of permits issued at the beginning of the fall term, the attendance at the schools of the city has increased, or rather the increase in the attendance at the High school has more than counterbalanced any falling off in the graded schools from last term. This is disclosed by the figures in the hands of the school board, which show the total attendance in schools under the city board's control as 4,827, an increase of 49 on the attendance in June last and of 359 on the figures for August, 1913.

The statistics by schools are as follows:

High school	573
Boys' Central	437
Sir James Douglas	404
Girls' Central	415
George Jay	383
North Ward	365
Victoria West	359
South Park	314
Oaklands	263
Burnside	202
Kingston street	172
Quadra street	133
Bank street	140
Spring Ridge	125
King's road	131
Beacon Hill	103
Margaret Jenkins	66
Rock Bay	55
Pisgah (Chinese)	51
Fernwood	55
Orphanage	42
Pembroke (Children's Aid)	18
Total	4,827

It will be noticed that the McGill classes at the High school do not appear. The classes do not open till next month.

There is little business for the meeting of the school board on Wednesday next, the principal matter being to receive a report from the special committee appointed to take under advisement the suggestions of Inspector Kyle with regard to the night schools, which will be probably started early next month. The situation with regard to the payment of salaries of men with the military forces has straightened itself out. From the opinion expressed by Inspector Paul to-day it appears that the men enrolled in the militia are having the assistance of their officers to enable them to attend to business as much as possible, so that the teaching and janitorial services are not interrupted greatly now. All members of the staff who are members of the forces are attached to units doing service in and about Victoria.

ADD TO FUND

Victoria Policemen and Firemen Will Contribute One Day's Pay Per Month While War Lasts.

The members of both the police and the fire departments of this city have answered the call for funds for the relief of soldiers' families by the members of each pledging one day's pay per month to the fund. This course was decided on yesterday afternoon at meetings held almost simultaneously at the headquarters of each department, when it was unanimously decided that hereafter until the end of the war each member would add one day's pay to the general fund.

As a result of this generous action the men in blue will pay \$224.45 monthly into the fund, while the firemen will contribute \$260.

COUNCIL OF WOMEN WILL OPEN STORE

Depot for Home-Made Pickles, Sauces, Etc., on Fort Street; Jam Factory Idea Abandoned

The principal outcome of the general meeting held yesterday under the auspices of the Local Council of Women for the purpose of further considering the question of the employment of women was the decision, on motion of Mrs. William Grant, seconded by Mrs. Gordon Grant, to accept the store on Fort street offered free of rent to the Council for any use it might choose to make of it. Mrs. Grant, in seconding the resolution suggested that the store should be called "Made-in-Victoria."

The idea of a jam factory was discussed at some length during the meeting, but, on the motion being put to the meeting by Miss Crease, was abandoned owing to several obstacles which stood in the way of the practical working of the scheme. Mrs. J. D. Gordon, however, suggested that it would be quite feasible for women to make in their own homes such things as pickles, catsups, preserves and other articles which they could sell through the suggested headquarters. The reminder was given that anything that the Council undertook to sell would be made of the very best materials and in the best way possible.

Another practical suggestion brought up at the meeting was that introduced by Mrs. G. M. Turner, who proposed that a register should be opened where women willing to work at washing or other employment could register their names free of cost, in order to enable those unable to go out of their homes to work to take in laundry, mending, etc., for private families. Miss Crease called attention to the fact that the proposed store would make an excellent headquarters for such a registry office as well as for a depot for the home-made catsups, pickles, and preserves which might be brought for sale.

Mrs. Frank Andrews suggested that one form of employment might be found for women if those ladies who about Christmas time each year purchased quantities of sheeting would obtain this unhemmed. The hemming would be simple and profitable work which nearly any woman could do in her own home.

In connection with the question of unemployed women Dennis Cox pointed out, in an interesting address on the subject of Chinese versus steam laundries, how the women of Victoria could assist in the solution of the matter by supporting the latter, where large numbers of white women were employed, rather than the former, where Chinamen were employed under the indenture system. The whole subject of laundries was concisely dealt with, the insanitary and unwholesome conditions of Chinese-operated laundries; where scant rinsings and cold water failed either to disinfect or effectively clean the clothes, being compared with the thorough and cleansing process to which clothes were subjected in the steam laundries. The moral drawn from the comparison was that, with the added incentive of helping unemployed women in the city, it would be more than worth while to pay any difference in the price of steam and Chinese laundered clothes, considering the strict sanitary methods under which the former, as opposed to the latter, were conducted.

The speaker was warmly applauded at the close of his instructive talk, Miss Crease, on behalf of the meeting thanking Mr. Cox for the enlightenment which he had given on the subject and for the suggestion offered.

The sub-committee of the Local Council of Women is dealing further with the question of unemployed women, and will report at a subsequent meeting of the organization.

CHARGED WITH SAYING SEDITIOUS WORDS

Thomas Gillins Was Committed for Trial by Magistrate This Morning

On the charge of having used seditious words "outside the newspaper offices on Broad street, Thomas Gillins was this morning committed by the magistrate for trial at the next assizes, J. P. Walls defended.

The words attributed to the accused by Detective Edens, which form the basis of the charge, and which are alleged to have been said in the presence of a large number of men, are as follows:

"The recruits of Great Britain are recruiting for the sake of meal tickets and not for love of country."

"All the crowned heads of Europe are parasites. They will soon be cast into the melting pot."

"The king is a figure-head anyhow."

In addition to these he is stated to have said to H. W. Davies, whose son has gone to the front with the Canadian contingent:

"You have sent your son to be killed by the Germans."

Later, in an argument about the Defence act, Gillins is alleged to have remarked:

"Any time there was an invasion of Canada, I'd watch myself fighting for my country." And also:

"This war is a war of commerce and trade jealousy with Germany."

The accused was arrested by Detectives Heather and Edens, and after a charge of vagrancy had been withdrawn the new charge was preferred against him. Both detectives agreed that the tenor of his remarks to the crowd was directed towards preventing enlistment, and that the accused had for over a week made a practice of going from group to group in front of the bulletins with remarks of the

sort stated. Detective Edens overheard an auditor remark, on the occasion on which the above words were spoken:

"Man, you are talking treason."

Other witnesses brought by the prosecution were H. W. Davies and Alfred Gilson.

Gillins refused to say anything on his own behalf and was committed for trial.

LOWER RANGE IN BIDS AND OFFERS LOCALLY

Industrial Corporations Not Pessimistic; Owners of Stocks Not Selling

Victoria, Sept. 5.—Prices showed a lower range on the exchange here this morning both in offerings and bids. The different corporations are not pessimistically inclined in most instances, judging from periodical reports received. The president of the B. C. Packers states that their company has already had a good year's business, prices for their output being so much higher than a year ago; in some cases an increase of 60 per cent. was realized.

EASIER MARKET FOR WHEAT AT WINNIPEG

Winnipeg, Sept. 5.—Liverpool cables were not as strong as expected and this caused an easier feeling on the home market. Prices opened 1/2 lower to 1/4 higher, and further declines occurred later on some weak and realizing accounts. Oats opened unchanged to 1/2 lower, and flax 1/2 lower for December. The weather has been mostly fair, with scattered showers in all the prairie provinces. In the last thirty minutes an extra demand for spot grain of all grades sprung up for delivery next week. Wheat closed 3/4 to 3/8 lower. Cash grain closed: Wheat, 3/4 to 3/8 lower; oats, 1/2 lower; flax, 1/2 lower; and barley, 1/2 to 1/4 higher.

SET LATER DATE

Tenders for Jail Will Not Close Till Sept. 14; Council Meets Tuesday Evening.

Tenders for the new jail will not close until September 14. They were to have closed on Tuesday and to have been opened by the city council at its meeting on that evening, but the time has been extended.

There is not much business for the city council on Tuesday evening. On Wednesday afternoon in the city hall there will be a meeting of the Rockland avenue owners, at the invitation of the aldermen to settle the long standing difficulty with regard to the repair of the macadam paving on that street. If the owners will undertake to pay their assessments, the city will put in hand work which is estimated to cost \$3,000, and will give an efficient job, settling up a long-standing grievance.

Public Library Closed.—The Victoria public library will remain closed the whole of Monday, Labor day.

PROFITS SECURED IN VIEW OF LABOR DAY

Less Urgency in Foreign Demand for Wheat and Flour

(By F. W. Stevenson & Co.) Chicago, Sept. 5.—There was a natural turn in all grain prices to-day, which was quite a relief to the trade and the public after the excited buying of wheat with over 10 cents advance the past few days. There are a number of modifying features in the situation following the remarkable upturn in prices for the week. Foreign demand was not by any means as urgent as noted yesterday either for wheat or flour. Big cash concerns in this trade bought a lot of western wheat over night. Northwest messages indicate that the country has at last started in to sell the new spring crop freely. Local buyers for the week were eager to take profits because of the Labor Day holiday on Monday. The reaction was overdue and the trade is all the better for it. Naturally the trade expect a fresh bull influence to appear if the war is prolonged in Europe. At present there is a disposition to work for a normal decline due to the more liberal country selling of wheat west and north-west and the vast amount of profit-taking which seems due.

Net decline in corn futures to-day was so limited in the late months so as to be out of all proportion to the advance for the week. December sold off to 70 1/2 and closed 70 1/2. May off to 78 1/2, closed 78 1/2. There was a display of heaviness in September, which covered a range from 82 1/2 to 81 1/2, closing at low point. The fifty thousand bushels reported sold to Mexico was too small to be a market feature.

A QUIET HOLIDAY

Fine Weather Predicted for Monday; Rotary Club Entertains Vancouver Members.

What promises to be the quietest holiday celebrated in Victoria in years will take place on Monday, Labor day. No big excursions or public gatherings are scheduled outside of the various sporting events, motorcycle racing, lacrosse, international football, baseball and shooting. Inasmuch as Napoleon Denison, the local meteorological expert, predicts no sudden change in the present fine weather, these various events should prove successful if weather can make them so. The shooting season for certain kinds of game is open now and many small parties will probably go out over the week-end in search of birds.

One of the few organized events of the day will be the Rotary club's entertainment of about thirty members of the Vancouver Rotary club and their ladies. The visitors will arrive at 3 o'clock Monday afternoon and will be met by the members with motors. They will be driven to the Royal Athletic park, where the representative athletes of the two clubs will clash in a baseball game arbitrated by the charming Verna Felton, leading lady of the Allen Players.

Refreshments will be served to the players and their lady friends (cricket fashion) by the Daughters of the Empire and the Household league, which include the wives of many Rotary club members. These two organizations will receive the proceeds of the fete, and it is hoped that this will be no inconsiderable sum on account of the worthy objects to which the money will be put. Following the baseball game, which will begin at 4 o'clock, the members of both clubs and their lady friends will attend the first performance at Pantages theatre and will later go to the Westholme grill for a characteristic Rotary club luncheon. The programme promises to be a most attractive and entertaining one.

Sunday Band Concert.—The 8th Fusiliers' band will play a programme at Beacon Hill park to-morrow afternoon, starting at 8.

MEN FROM RANKS GET COMMISSIONS

Training Class to Open Soon; Use of Rifle Being Taught Recruits

A number of non-commissioned officers possessing more than ordinary training, in both educational and military senses, have been selected by the officers' messes of the various regiments and offered commissions. Three will enter the officers' mess of the 88th regiment to-night and assume provisional rank at once. Colonel Roy is making a canvass of the officers at his disposal with a view to finding what instructional material he has for opening a training class for officers at an early date in order that these men may qualify. The step has been rendered necessary by the depletion of the officers' ranks by the departure of volunteers for Valcartier.

Following Earl Kitchener's call for men who can shoot, the regiments are now turning their attention more directly to training men in the use of rifles than in drill. Range finding, aiming and other work has been the order of the day for the men of the 88th until yesterday, when the first party went to the ranges at Clover Point to shoot. From now there will be a party of Fusiliers at the ranges almost every day right along.

The Highlanders' recruiting office at 1295 Broad street is now manned by an officer every day, and numbers of men are coming in. The 5th regiment needs only a few more men, and it will be able to close its recruiting office until the next detachment is sent away. Men from the United States keep coming into the 88th recruiting office. One from Central Idaho and another from Southern Oregon enrolled this morning. All the consulates in the northwest of the United States have been asked by the Fusiliers to send to that regiment any British subjects desirous of seeing service. The 88th has shown itself exceedingly enterprising in the matter of advertising for recruits.

TO FORM FEDERATION

Vancouver Island Volunteer Fire Departments Will Hold Competitions in Alberni on Wednesday. Now that the professional fire chiefs have left for their homes, chief interest centres in the gathering at Alberni next week at which it is proposed to establish a federation of volunteer fire departments on Vancouver Island.

Alberni having won the trophy for the island championship last year in the competition in this city, its department won the right to entertain the challengers this year. These challengers include Sidney, Sooke, Cumberland and Ladysmith, as well as the department of the neighboring town of Port Alberni. Nanaimo is a partly paid department and will not be in the competition. After the arrival of the visitors including Chief Davis, R. W. Douglas, A. G. McGregor, trustees of the cup, and J. L. Noble, secretary of the Vancouver Island Fire Underwriters' association at Alberni on Tuesday a meeting will be held at which the proposed federation will be discussed. Any volunteer department, is to be eligible for membership.

Next day the competition for the Canadian Pipe Company's trophy will take place. There are four events in the hose reel races, one ladder-climbing contest, foot races, and tug-of-war. Needless to say the competition will be keen.

TOWN NEAR GHENT IS HASTILY DESTROYED

London, Sept. 5.—A dispatch to the Central News from Amsterdam reports that Termonde, sixteen miles east by south of Ghent, has been hastily destroyed and that railway communication is interrupted.

Half the Rubbing taken out of Scrubbing Old Dutch Cleanser

The Rev. G. H. Andrews, of St. Mary's, Oak Bay, who has been visiting in the British Isles for the past three months, is sailing for Canada to-day, and is expected back in Victoria in about a fortnight's time. At "Breadalbane" yesterday afternoon Rev. Dr. Campbell celebrated the marriage of John Heyman Ellis and Ellen Vaudin, both of Lake Hill. The bride looked handsome in a traveling suit of great cloth, and the bridesmaids were the Misses Nancy J. Valentine Vaudin, J. D. McCreight acted as best man. After the honeymoon Mr. and Mrs. Ellis will reside at Lake Hill.

A very pretty wedding took place yesterday at 459 Superior street, the residence of Mr. and Mrs. John King, when their daughter Katie was united in matrimony to Harry Armstrong, of this city. Rev. Dr. Leslie Clay performed the ceremony in the presence of several intimate friends of the young couple. The bride was beautifully gowned in broadened ivory silk, hand-embroidered, with which was worn a veil of Limerick lace arranged in mob-cap style and fastened in soft folds by a spray of orange blossoms. Her bouquet was of roses and lilies-of-the-valley. One bridesmaid, Miss Jessie Mackay, attended her, wearing a pretty frock of pink satin with overture hat. Her bouquet was of gladioli. The bride's mother, Mrs. King, wore a handsome dress of grey charmeuse. Immediately after the service Mr. and Mrs. Armstrong left for a tour embracing Portland and the Sound cities, the bride wearing a chic traveling suit of cadet-blue cloth with hat to match. Among the many beautiful presents received by the happy pair was a clock given by the St. Andrew's Presbyterian church choir, of which the bride was a member. On their return to Victoria Mr. and Mrs. Armstrong will take up their residence on Cook street.

Fined for Speeding.—In the Saanich police court yesterday, Percy Lehman was fined \$20 for driving his car at more than 20 miles an hour along the West Saanich road. Acting Chief Little, of Saanich, prosecuted.

Coming in Well.—The first few days since the tax notices have gone out have produced a most satisfactory response. City Treasurer Smith says that a considerable sum has already been received.

Farewell Banquet.—On next Wednesday evening at 6:30 the congregation of the First Congregational church is to tender a farewell banquet to Rev. Hermon Carson, who is retiring from his pastorate to take a charge in eastern Canada. The banquet is to be followed by a reception.

Early Closing by-law.—On Monday week the early closing by-law becomes operative and general familiarity with the provisions will be desirable. While it does not make any radical change in the administration of the law, some of the stores will find it necessary to fall into line.

Charges Withdrawn.—In the case of Rex V. Dr. Gilbert, H. A. McLean, K. C., announced in the police court this morning that on receiving an undertaking that the convictions recorded last Saturday would not be appealed, he would withdraw further charges. This undertaking was given by the lawyers for the defence.

Committed for Trial.—Ah Wong, a Chinaman arrested by Detectives Murray and Macdonald on a charge of theft, pleaded not guilty this morning and elected for trial in a higher court. Aaronson and the two detectives, the magistrate committed him for trial. R. C. Lowe defended.

Returning From East.—With the return of Alderman McNeill early in the week, it is expected some information will be had direct from the Dominion Securities corporation as to the possibility of selling some more Sooke waterworks debentures in order to complete the concrete flow line. The alderman conferred with officials of the company when in Toronto early in the week.

To Lay Corner Stone.—Hon. Dr. Young will perform the ceremony of laying the new foundation stone of the First Presbyterian church, corner of Quadra and Fisgard streets, on Monday, September 7, at 10 o'clock. The ceremony will be of unique interest owing to the fact that Alex. Wilson, who laid the stone of the original First Presbyterian church over fifty years ago will re-lay the corner stone of the old church at the same time.

Last Case.—The next city arbitration which will take place will be about September 15. It will involve the Warwick property on Stanley avenue, required for the extension of Pandora avenue. Hugh Kennedy is arbitrator for the city. B. S. Oddy for the owner, and R. E. Brett is umpire. Thornton Fell, K. C. is acting for the owner of the property. This will be perhaps the last case in clearing up land damages in connection with Pandora avenue.

WILL TRY ONCE MORE TO REVIVE MARKET

Aldermen Appoint Sub-Committee to Arrange for Trial Sept. 18; the Proposals

The plan of resuscitating the Victoria public market has been a favorite proposal with aldermen in recent years, but the latest move in this direction is the outcome of the necessity for finding a method of marketing the produce which will be raised when the land development scheme of the Victoria and Island Development association has been brought into being.

At the meeting of the streets committee of the city council yesterday afternoon the whole subject was canvassed at length on the submission of a resolution by Alderman Todd. This resolution provided that the city council should appoint a committee to co-operate with the Development association in holding an experimental market day on September 18, and should allow the use of some of the vacant lots in the section bounded by Fisgard street, Douglas street Humboldt street and the waterfront.

The aldermen opposed the limitation of the experimental effort to a single day, most of them taking the view that to announce that it would be held once would be fatal to its continuance. They also opposed the plan of scattering the market area, believing that the activities must be concentrated if they were to achieve any success.

While Alderman Todd was not so insistent on limitation to a single day, he did not want the committee to allow three or four central places to be used for retailing goods direct to the consumer and interesting auctioneers in a stock sale. He held that the scattering of the locations for the sale of goods would prevent the jealousy which must inevitably arise from concentrating at a single section of the city. It would be impossible to revive the market if the aldermen tried to limit its location to the present market property, which was most unsatisfactory.

A sub-committee composed of Alderman Sargent, Dilworth, McCandless and Bell was then struck to assist in arranging for the market day on September 18. If that experiment succeeds more permanent arrangements will be made for the future.

The directions to the sub-committee left it an open question where the market should be located and whether some of the vacant property off Government street near the Grand Trunk Pacific wharf should be used for an open-air market.

FIRE-FIGHTING DISPLAY

Visiting Chiefs and Citizens Greatly Pleased With Demonstration Yesterday Afternoon.

In honor of the visit of the Pacific Coast Fire Chiefs' association, Fire Chief Davis staged an inspection of equipment and an exhibition on the Spencer building yesterday afternoon, which, as are all displays of the fire department in this city, were witnessed by a large gathering of citizens.

The inspection took place on Yates street after Chief Murphy, of San Francisco, had addressed the men at the headquarters hall and congratulated them on their appearance and the efficiency of the department. All the apparatus dashed past the reviewing stand at the Dominion hotel, headed by the motor equipment, but the greatest applause came from the crowd for the fine appearance of the horses employed at the district halls. The new hose wagon made its first appearance in public, although not formally accepted from the manufacturers yet.

At a quarter to three o'clock the exhibition run was made, and a dense crowd on Broad street watched the firemen in their expeditious work on the Spencer building. Three ladders, including the aerial truck, were raised and five lines of hose were taken into the building. Great enthusiasm marked the running up of the Union Jack and the United States flag on the life line. By means of this line several firemen gave exhibitions of life-saving work, and were heartily cheered. The whole demonstration won the approval of the visiting chiefs.

After the close of the business session last evening, the department gave an illuminated run, which proved very popular, the crowds downtown cheering the smart turnout.

That British Columbia will give one million two hundred thousand pounds of salmon to the imperial government was the announcement made yesterday by Sir Richard McBride, following an executive meeting. At the close of the following telegram was sent to Sir Robert Borden, premier of Canada. "On behalf of the people of the province, the government requests that you will be good enough to offer to his majesty's government as a gift to the mother country, 25,000 cases of British Columbia tinned salmon."

(Sgd.) "RICHARD M'BRIDE"

The gift typifies one of British Columbia's greatest assets and is in line with the actions of all the other provinces in giving probably what, best represents their natural resources. Thus a wide diversity of offerings has gone forth from Canada in the Empire's time of need.

FINAL SESSION OF CONVENTION IS HELD

Fire Chiefs Conclude Victoria Gathering; Presentations and Valedictory Speeches

A brief session of the Pacific Coast Fire Chiefs' association last evening sufficed to wind up the business before the convention. Many of the chiefs had left before the meeting, but most of the leaders remained to close up the business.

The satisfactory nature of the convention was the subject of remarks of chairman making particular reference to the matter. Chief Wood, in returning thanks, said he hoped to be in a position, with the assistance of his brother chiefs, to make the San Francisco gathering the best in the 22 years' history of the association.

As secretary, Fire Marshal Bringham, of Seattle, gave his report on the work of the association during the past year. This report was adopted.

The auditing committee's report indicated that there had been a balance in hand of \$304.28. There has been receipt of \$47.05, and \$489.99 had been expended, leaving \$251.34 in hand.

It was proposed to raise the honorarium given to the secretary from \$125 to \$200. However, it was shown that the funds would not enable this to be done, and as the secretary said the constitution prevented it, the original figure of \$125 was allowed to stand.

On the motion of the resolutions committee, a resolution was adopted thanking Chief Davis, the members of the Victoria city council, the press and those who had assisted in the entertainment of the visitors. Chief Davis, in replying, alluded to the services of Deputy Chief Stewart and the members of the department, who had been loyally behind him.

A vote of thanks was tendered Commodore J. Arbutnot for the use of his yacht, lent to the party earlier in the day.

Alderman Fullerton expressed the thanks of the council of Victoria for the chiefs' visit.

A brief speech from the president, Chief Wood, ended the proceedings.

To Chief Davis there was presented a china cabinet, Chiefs Murphy and J. L. Phillips making the presentation. Mrs. Davis received a cut glass decanter and glasses. The method of presenting the former was a distinct innovation, the cabinet being handed to the chief in view street during the afternoon.

An at home was given during the afternoon to the lady members of the party at the residence of Mrs. Davis, Queen's avenue, at which vocal numbers were rendered by Misses Palmer and Chambers.

Immortal—Said he—"My name will never die. Mankind will always honor me." "What have you done so great?" asked I. "Invented noiseless soup," said he.

TO PAVE DUCHESS ST. AS ALTERNATIVE PLAN

Davie St. Owners Object to Work Proceeding; Grievance at Oaklands Remedied

The majority of owners having petitioned against the paving of Davie street, the streets committee of the city council yesterday afternoon approved a recommendation from the city engineer that Duchess street, adjacent, which in his opinion would serve the same neighborhood, be paved. The by-law has been passed and nearly all the underground work is completed. There will be no delay on the work. The approximate cost of the work will be \$9,300.

The committee authorized the spending of about \$500 for repairs to the north side and \$100 for repairs to the south side of Oak Bay avenue. This decision was made owing to the failure to complete the permanent paving this year.

The committee adopted a report from the city engineer that a section in the northeast portion of the city be drained. He reported in part:

"The surface water from a very large portion of Saanich, and a small portion of this municipality, has collected in a low section of land within the district of Saanich, and during the wet weather a considerable amount of water accumulates. The natural flow for this water is towards the water course that runs through the Oakland district, and ultimately finds its way by the Bowker creek into the sea at Oak Bay. Many years ago, I understand, the government constructed a box drain to take care of this water, but this has collapsed, and the result is that an accumulation of water takes place, and no doubt is detrimental to the property of some of the owners who brought this matter before your committee. If the city is liable the remedy is to continue the water course through the Saanich district so as to connect with the water course above referred to; to lay a 36-inch pipe from the end of this open ditch to the creek at the intersection of Ruby road, at an approximate cost of \$3,000. As this is, I think, more than the city is warranted in spending at the present time, I would recommend that an open ditch be dug along Cedar Hill road to connect with this creek, which would cost approximately \$600."

It was resolved further to clean the ditch of weeds and brush.

The engineer also stated that following the complaint made that the area of the water course had been reduced owing to the city constructing water mains at two or three points, instructions had been issued to have these mains lowered below the bed of the water course.

Chauffeur—"Did you say you wanted to stop in this village, sir?" Owner (holding on to his hat)—"No; go ahead now; you've hit the man I intended to see."
