WORKERS DIG IN SMOKING DEBRIS IN KANSAS CITY TO FIND TRACES OF VICTIMS

Explosion and Fire Wrecked Theatre and Dozen Stores; 100 People Were Watching Motion Picture When Disaster Came; Police Have Name of One Missing Person; Not Known How Greatly Deathlist Will be Extended.

Kansas City, June 26-Firemen and an army of workers from the street department here to-day began searching the smoulder ing ruins of the Gillis theatre for bodies of persons believed to have lost their lives when a fire and an explosion wrecked the theatre and more than a dozen stores here last night.

Several hours after the search of the debris started no bodies been recovered. The only known death to result from the catastrophe was that of John Hodan, a fireman, who was killed while en route to the scene when a fire truck overturned.

NOVA SCOTIA

Alex. Henderson, fire chief, after a survey of the situation, said he believed not more than six or eight bodies would be found.

A cook in a restaurant adjoining the theatre, which was entirely demolished, is the only one police know to be unaccounted for.

Scores were injured.

Scores were injured. The theatre was a burlesque hou

viewing a motion picture.

A fireman, John Hogan, was killed on his way to the scene when a fire truck overturned. Two other firemen were injured.

FLOORS FELL IN

BALCONY COLLAPSED

The midnight picture show had just started when the blast rocked the building bringing down the balcony as the floor gave way, according to survivors. Only a few members of the burlesque company were in the theatre, the rest being in near-leader of the Conservatives and a former Speaker of the Federal House cony as the floor gave way, according to survivors. Only a few members of the burlesque company were in the theatre, the rest being in nearby restaurants.

When the entire section of the building collapsed, it sent bricks and debris into surrounding streets and broke windows in buildings nearly a block away.

PEARL NECKLACE FOUND IN PARIS HANDED TO POLICE

Paris, June 26.—A necklace of 134 pearls, valued by experts at 800,000 francs (about \$35,000), was found-in the street last night and promptly handed in to the police by the finder. There has been no report of its loss.

French law provides that the finder in such cases becomes the legal owner if the object is unclaimed for a year and a day.

VANCOUVER BOY KILLED IN STREET

Vancouver, June 26—Lawrence Cousineau, aged 15, was instantly killed, his father, Cyril Cousineau, was seriously injured, and a brother, Den Cousineau, was slightly hurt, when the automobile in which the three were driving to work this morning collided with a fire truck answering an alarm. A fourth man, riding a bicycle and hanging to the automobile, was also slightly injured.

The crew of the fire truck escaped injury.

With the exception of Quebec, Nova Scotia is the only province in Canada operating under a bi-cameral system of government. Yesterday the regular issue of The Royal Gazette announced four appointments to the Legislative Council, bringing the membership of the Upper House up to eighteen in a House of twenty-one. Of the present incumbents, only one, William H. Owen, is a survivor of the last Conservative (Holmes-Thompson) administration.

In the event of Premier Armstrong failing to fill the three remaining vacancies—and it is not anticipated he will make any further appointments to the Council—this means that the new Government will face an adverse majority of thirteen in the Legislative Council. Whether of not this will have the effect of tieing the hands of the new administration remains to be seen, but for years there has been a popular demand in Nova Scotia, officially-backed by both parties; for abolition of the Legislative Council.

CANADA MUST REFORM SENATE. MANSON DECLARES, ATTACKING REJECTION OF BOOTLEG LAW

Curtailment of Powers of Non-elective Body Necessary, Actorney-General States, Following Third Defeat of B.C.'s Amendment to Canada Temperance Act.

Rejection by the Canadian Senate last night of new legislation designed to put British Columbia liquor export warehouses out of business shows that democracy in Canada is "a theory and not a fact," and that the Upper Chamber must be reformed before the Canadian people will have control of their own affairs. With this assault on the Senate, Attorney-General A. M. Manson to-day voiced the opinion of the British Columbia Government on the collapse of anti-bootleg legislation for the third time in Parliament after its passage by the House of Commons.

In a written statement given out after he had learned that fifteen Senators had rejected this legislation against a vote of ten Mr. Manson said:

"The defeat of the British Colum bia Amendment to the Canada Tem-perance Act for the third time in the Senate—this time by fifteen Senators Senate—this time by fifteen Schators on a vote of fifteen to ten—is most regrettable. That a non-elective body can three times in succession defy the almost unanimous voice of the House of Commons, which is directly responsible to the people, and ignore the request of the Legislature of this Province, as expressed by resolution of the House, rather opninness one that it is about time for a modification of our Federal parliamentary system of government. vinces one that it is about time for a modification of our Federal parliamentary system of governmert. Democracy in so far Canada is concerned is a theory and not a fact. In saying so I would also say that I am not one of those who advocates the abolition of the Senate, but that its powers are in need of curtailment and modification is amply evident not only by reason of the Senate's defiance of the House of Commons in the matter of the Canada Temperance Act, but by reason of its conduct in defying the Commons on several other important matters, it was necessary to reform the House of Lords a few yars ago in the Mother Country. It is necessary to reform the Senate in this country. "The suggestions by one or two lawyers in the House of Commons that the export situation can be exprected by this Province of course is just a bit of political camonflage and is not to be taken seriously. Lest my opinion in this connection might be deemed to have political bias I. (Concluded on page 2)

West Coast Village Swept By Fire; Many Rendered Homeless

Special Dispatch to The Victoria Times

Tofino, June 26-Fire on Meares Island late yesterday swept nost of the dwellings of the village and rendered a large part of the population homeless.

The fire, as far as can be found, started from a smoke house on the Opitsat Reservation, which is opposite Tofino. The fact that this village is so conspicuous on entering Clayoquot Sound that visitors mistake it for Clayoquot, is responsible for the report which got out that Clayoquot itself was consumed by the

flames.

A fresh southeast wind came up and the flames rapidly spread from house to house. Nothing could be done by the panic-stricken population to check the fire's progress. Twenty-three houses, including the Roman Catholio Church and the church house were burned.

Helpers from Tofino and Clayoquot and Christie's school rushed to the village to join in the fight against the conflagration. With no fire-fighting equipment at their disposal, a bucked line was organized by E. Frost, Indian agent, and Sergenti-Paton of the Royal Canadian-Mounted Police. This bucket line stretched up from the sea to a house where it was decided to make a fight. The roof of this house was broken and the walls of the adjoining buildings kept soaked with water. This saved the group of houses on the waterfront.

The house of George D. Simon, which is the terminal of the Government telephone line, caught fire, but because it was to the windward of the conflagration it was possible for the fire-fighters to extinguish the blaze in it.

The fire was reported under control without any serious injuries

Mrs. L. H. Hardie, provincial presidut, gave a very interesting and at times most amusing report of the Dominion convention, which she attended. This was the eleventh triennial convention of the King's Daughters, and was held in Montreal, where there has not been one for many years. No doubt this has given a wonderful impetus to the work there Mrs. Eardie thought. She spoke of the opening ceremony at which over fifty King's Daughters took Holy Communion together.

NOVA SCOTIA TURNOVER

THE RESULT OF THE election in Nova Scotia rday suggests the fate of the pitcher that went too often to the well. After forty-three years in the Liberals were almost tely obliterated, only three Government supporters surviving the wreck. In the Provincial Election of 1920 only three Conservatives were returned, and this little remnant had been reduced to two before the end of the Legislative Session last Spring, so it is quite apparent that the electors of Nova tia have handed out a surprise no less startling to the victors than it is to the losers.

BRITAIN PAYS

AT YESTERDAY'S SES sion of the National For-eign Trade Council of the United States, now conducting its business in Seattle, Mr. James A. Farrell, president of the United States Steel Corporation, referred to the com munistic experiment in Russia and declared it to be slowly working out its disastrous course. With nomic picture, however, with the possible further "exception of Great Britain, where unemployment con-tinues to be a serious problem, the improvement" in the Old World "is marked." Mr. Farrell had information to show that in Italy, France, Belgium, e and Germany "unem-ployment is practically negligible."

There is nothing very extraordin-ary in the result of a comparison of economic conditions in Britain and the general state of af-fairs elsewhere. Britain's outstanding accounts against at present total \$10,914,-405,000. Of this amount, to quote just two nations which Mr. Farrell says are not confronted with an unemployment situation, France owes Britain and is not attempting to pay \$3,116,395,000, while Italy owes and is not attempting to pay \$2.766,500,000. On the other hand Britain borrowed about \$5,000,000,000 from the United States, largely to lend to her own and the United States's allies, and has already repaid substantial sums. She could do a lot towards alleviating unemployment if she turned her back upon her debts of honor. But that is not her conception of

COMPLETE DEFIANCE OF PEOPLE'S WISH

FOR THE THIRD TIME the Senate of Canada has letely ignored the wishes of people of British Columbia. For the third time it has thrown out a measure designed to give the Government of this Province the sole right to import liquor for beverage purposes. For the third time it has presented the bootlegger and For the third time the hi-jacker with new opportuni-

ties for illicit business. All law-abiding citizens of this country will denounce this new gesture of defiance from the Upper Chamber. They will ask themselves why this body should consider itself to be in possession of a mandate which authorizes it to snap its fingers in the face of popular will whenever it fancies the whim. More especially will they want to know why the votes of fifteen senators should be sufficient to prevent the Parliament of Canada from striking an effective blow at a traffic which has been responsible for a series of crimes that have stirred voted against the measure which the elected representatives of the people of this country have approved on three occasions. Ten measure. Nearly three-quarters of the members of this institution were apparently unable to summe enough interest to put in an appearance and cast a vote. And then we are told that this is the Chamber in which the rights of the people are protected and upheld! It had been hoped by the people

of this Province at least that the Senate would approve this measure after what has taken place in the criminal world since it unceremoniously rejected it for purely political reasons on the second occasion. Fresh in their minds are the recent sioner and the various departments of the Dominion Government in London which hitherto have been detection of which is costing them detection of which is costing them sums of money which could be very considerably reduced if the export warehouse were closed and private importation prohibited. They are also more familiar than the gentlemen of the Upper Chamber with the many irritating breaches of the law that will remain a more or less

for the bootlegger and hi-jacker and a complete disregard for their own wishes. It confirms a condition which shocks every decent citizen. All because fifteen senators, just five more in number than the City Council of Victoria, would rather play politics than do their duty-to put the most favorable interpretation on their action.

Embattled bootleggers, liquor smugglers, hi-jackers and gun-sling-ers will resist to the very last drop of red-eye any attempt to reform the Senate at Ottawa.

At the next annual convention of the bootleggers' association of the United States the most popular resolution will be one thanking the Conservative majority of the Senate at Ottawa for throwing out the liquor importation bill.

Nova Scotia was one of the four provinces which formed the Cana-dian confederation in 1867. In all that time the Tories have been in office but once. Won't they feel strange on the treasury benches next

Our morning contemporary says the result of the election in Nova Scotia is an indication of the turning of the tide of public opinion against the "fatuous and extrava-gent-policies" of Mackenzie King. Does this imply also that the result of the recent election in Saskatchewan in which de Tories were vir tually wiped off the map indicates a tide of public opinion against the fatuous, blue-ruin policies of Mr.

DR. FRANK CRANE GAS

IN AN address at Geneva the

IN AN address at Geneva the other day Theodore Burton of the United States suggested that the nations unite in abolishing poisonous gases as they are a barbarity of modern warfare.

All warfare is barbarous. When men commonly used swords and spears they thought that Greek fire and gunpowder were barbarous. Now that gunpowder has become common, tradition has accepted its use in honorable warfare, but is protesting against gas. It should not be forgotten that the business of warfare is to kill people. That is the sole object of war, and that which kills the most people with the least suffering is the best instrument of warfare.

Proponents for the use of gas point out that its effects are not so had as the effects of explosives. More people recover from gas injuries than recover from gas injuries than recover from gun shot wounds.

wounds.
"The Chevalier Bayard." says
Dr. J. B. S. Haldane, "was regarded by his contemporary soldiers as
sans peur et sans reproche. To
captured knights he was the soul
of courtesy, but to musketeers and
other users of gunpowder the penality was death."

of courtesy, but to musketeers and other users of gunpowder the penalty was death."

The attachment of the professional soldier to cruel and obsolete killing machines is remarkable.

Gas is merely a modern method of killing people. It is contended that its use in war on the largest possible scale would render it less expensive of life and property and more dependent on brains rather than numbers. It is denied that it is more barbarous and indecisive and leads to the wiping out of the population of whole cities.

Since the use of gas is a enodern and efficient way of putting people out of business the makers of war will in vain endeavor to keep a mation from the employment of it.

THE ARENA FESTIVAL CONCER

To the Editor-I am asked write on the forthcoming festival Sunday afternoon in connection w attempt of the musical people pre nises to be an event of outstanding nusical importance. The per-ormance of Mendelssohn's "Hymn of Praise," with a large body of voices and the indispensable orchestra is unique and unprecedented in the annals of the musical history of Victoria. For many years past this city can beast of many praiseworthy rendition of the most celebrated oratorios. Under the leadeship and with untiring efforts of the veteran canductors, J. G. Brown, Gideon Hicks, Jackson Hanby and others, we have enjoyed frequent performance of the "Messiah," "Ellijah," "The Creation," "Judas Maccabaeus," and "Samson." So Victoria in the musical past has always been associated with good oratorio productions under capable leadership. A few years before the Great War, Victorians were privileged to enjoy the three days festival, given here, by the famous Sheffield choir, who were touring the world under that peer of conductors. Henry Coward, Mus, Doc. He stands as a conductor pre-eminent in producing from his superbly trained choir the different tonal qualities and characdifferent tonal qualities and characterization of tone necessary to exemplify the whole samut of dramatic emotion. His broad effects of rich tone, the prominence and subordination of parts, artistic contrasts, rear planissimos, thrilling climaxen of rousing fortissimos, and still further aforsandos upon fortissimos, will not be forgotten by those who heard them. The accompanist who toured the world with Doctor Coward at that time, was Doctor Hodgson who will be the conductor at the Arena concert next Sunday afternoon. The intial performances of two of the greatest musical works, The "Messiah" and the "Hymn of Praise" were performed for two strangely different purposes; that of the "Messiah" for the henefit of a Dablin prison.

Praise." were performed for two strangely different purposes; that of the "Messiah" for the henefit of a Dublin prison.

While that of the "Hymn of Praise" was for the anniversary of the invention of printing. It's first performance took place in that old historic church of St. Thomas in the city of Leipzig; immortalized by the great Johann Sebastian Bach. Mendelssohn directed and conducted its first performance with 500 performers. It is eath that the effect produced by its internal and external working up, had the most enthusiastic and utrilling effect, and Mendelssohn was honored the following evening by a torch light procession. The work is not long, and opens with a symphony which clearly indicates the spirit of the great work, and is followed by the chorus, "All That Has Life and Breath." The best known selection from the "Hymn of Praise" are the exquisite duets for soprano and alto, "I Waited for the Lord," and that for soprano and tenor. "My Song, Shall be Thy Mercy", while the choruses, "The Night is Departing" forms the climax of the work, and is beautifully constructed, taking fugal, form on the words, "Therefore Let Us Cast off the Works of Darkness." The final chorus, "Ye Nations Offer to the Lord," is stately and impressive, closing with a fortissims delivery of the splendid choral motive. "All That Has Life and Breath, Praise Ye the Lord." It is to be hoped that the untiring efforts of all concerned in its production, will be rewarded next Sunday afternoon by seeing the largest audience assembled in the Arena, which is certainly what such a glorious work deserves.

ALL ANXIOUS TO MEET HENRY FORD

It is probable Henry Ford will disappoint a number of Victoria people. He was expected to visit this city to-morrow with the 1,000 U.S. Foreign Trade Council delegates who come at the close of the convention. In the response to the appeal for cars many automobile owners asked that they be listed to take the Ford magnate as their guest. Insurance men, inventors and automobile men were keen to see him but the latest advices say that he will not make the trip to Victoria.

HEALTH DISEASE LEPROSY IN CANADA Article 2

Leprosy in Canada is not a seri-

ous question as compared with other diseases since it is estimated there are not more than twenty-five altogether. But a rational understanding of its manner of spreading should be obtained.

It is, of course, an infectious disease in that it is contracted from someone who has it. But it is the least infectious of all the diseases commonly so called. Prolonged intimate contact, such as living in the same house and even sleeping in the same bed seems necessary. Ordinary good personal hygiene is sufficient protection.

All the attendants need is ordinary operating room care to protect themselves. Sir Leonard Rogers of the Indian Medical Service has shown that leprosy spreads in those localities where an excessive rainfall is coupled with poor hygiene and housing in a hot climate, all of which favors intimate contact in the native dwellings.

In countries where it is prevalent, such as India and China, it is a very serious problem. The attempt there is to establish colonies fortheir care, somthing on the lines of our Bentinck Island colonly, only much more extensive. The patients voluntarily apply for admittance to get the treatment. The value of treatment has advanced very much during recent years. It is now thought possible to cure early cases and to check the disease in advanced ones and make the patient comfortable,

National's film version of the Sienkiewicz classic, "Quo Vadis."

Jannings, while born in America, has spent the greater part of his life in Germany. From comedy roles on the European stage, he entered motion pictures some years ago and under the direction of Ernest Lubitsch quickly ascended to stellar heights on the European screen.

When Lubitsch came to this country to direct Pola Negri it was fully expected that Jannings would follow. However, he has elected to remain on the scenes of his initial work in Europe.

In "Quo Vadis." he has the role of Nero, and is declared to have eclipsed anything he has yet achieved in his characterization of the varin and inhumanly cruel Roman tyrant.

The picture was filmed in Rome on the actual site of Nero's tyrannies, in fact, the ruins of the ancient Palatine Arena and other relics of Rome's former pagan splendors were rehabilitated and used as settings for the milestone in the sure and the proper composition of Crane Wilbur's stage success, produced by Roland West Productions, Inc., and distributed by Metro-Goldwyn. "The Monster" makes you grasp the edge of your seat as you sit through breathless moments of astounding incidents, as you watch a thrilling story unfold in the weird, chilling reception room of a haunted sanitarium.

SNAPPY COMEDY ' IS PRODUCED BY **OLD SCHOOL TEAM**

"The old team is back again in double harness and pulling strong."

This statement was frequently heard around the Paramount Hollywood studio lot when Clarence Budger started production on Paramount? "Paths to Paradise," featuring Raymond Griffith and Betty Compson. For Badger and Griffith made a highly successful picture five years agoand have not been together again since up to the time Paramount teamed them.

This week, "Mutt and Jeff," one of the standard cartoons of the day, is being presented as a musical comedy at the Playhouse, and the well known characters are proving as big a hit on the stage as they have in the pages of the newspapers. Frank Morton and Jess Le Roy assume the two celebrated roles in a manner that leaves little to be desired. "The Are of Desire," with Mary Philbin, Myrtle Stedman and William Collier, is the screen feature. There will be the usual matinee to morrow.

MAE MURRAY DOES BEST WORK OF CAREER IN "CIRCE"

The combined efforts of Mae Murray, Vincente Blasco Ibanez and Robert Z. Leonard have produced a remarkable motion picture in "Circe the Enchantress," showing this week at the Collseum Theatre. Mae Murray is the star of "Circe the Enchantress" and she-does some of the best work of her career in this production. Ibanez, who is the author of "Circe the Enchantress," has written a highly dramatic and yet romantic story, which provides Miss Murray with one of the best vehicles she has had. Robert Z. Leonard is the director and he has shown rare skill in his handling of the picture.

Mae Murray enacts a triple role. The mythical Circe, the artless sweet Convent girl, the tempestuous, pleasure-seeking coquette; Miss Murray plays them all with the feeling only known to the great artists of the drama.

Miss Murray's suporting cast includes James Kirkwood. William Hangdon. The picture was made by Tiffany productions of which Robert Z. Leonard is director-general and M. H. Hoffman is general manager. It is a Metro-Goldwyn plecture.

A. W. Neill Urged Returned Soldiers be Barred From Election Privileges

Commons Rejected His Amendment by Forty to Eighteen

Ottawa, June 26—Reduction in the time between nomination day and polling day in Federal elections met with considerable opposition in the House yesterday.

On a standing vote the section of the Elections Bill reducing the time between nomination and-polling from fourteen to seven days, carried by sixty to forty-eight.

A. W. Neill, Independent, Comox-Alberni, moved an amendment which would have excluded Oriental returned soldiers from participating in Federal elections. The province of British Columbia, he said, had placed itself on record as being opposed to Orientals voting in elections.

Mr. Neill declared the amendment proposed by him would not lead to only friction with Japan, while on the other hand, if Oriental returned soldiers were permitted to vote in Federal elections it would probably lead to trouble in British-Columbia. White men could not vote for the most trivial office in Japan; and the change proposed would simply put the Orientals on the same plane in Canada as white men in Japan.

Development of some hobby or diversion of the mind from their immediate troubles often had the effect of relieving the patient.

Christian Science, Dr. Hunter asserted, had helped many persons suffering from diseases which to medical practitioners had defied diagnosis. This he attributed to the "peace of mind" which medical men too often falled to impart as the result of not looking at the cases from a psychic angle.

Christian Science, furthermore, had brought relief to individuals who were victims of some organic disorder, proving psychotherapy was not solely confined to functional diseases.

ST. MARY'S CHURCH Miss Patricia Washington and Final Court of Season to Take Harold Davenport United

At St. Mary's Church. Oak Bay which was beautifully decorated with orange blossoms and sweet pear, a pretty wedding took place Thursday afternoon at 2 o'clock, when Miss Patricia Washington, youngest daughter of Mr. and Mrs. Washington, youngest daughter of Mr. and Mrs. Washington, of Gorge Road West, became the bride of Mr. Harold Davenport, eldest son of Mr. and Mrs. Wm Davenport, 1174 Mitchell Street.

The bride, who was given away by her father, looked charming in her traveling dress of navy blue and modish hat. She was attended only by her sister Frances. The groom was supported by his brother Wilfred. Rev. Aftred Holmes of Vancouver officiated.

After the ceramony a reception was held at the bride's home, which was prettily decorated with sweet peas, sprea and clarkia. The many lovely gifts reflected the popularity of the young couple. CANADIAN ARTICLES COME IN FOR CRITICISM BY WOMEN

Institute Conference Here Replies to Questionnaire on Subject; Provincial W. I. Report Shows Progress Made; Conveners Chosen.

Some of the reasons given by members for not patronizing Canadian-made articles evoked much amusement at the national conference of Women's Institutes at yesterday afternoon's ssion, when Mrs. Henderson quoted some of the replies she had received to a questionnaire circulated among the institute members in an endeavor to discover why se many women purchased goods made elsewhere than in Canada.

One woman in her reply declared that Canadian-made dresses were a year or more behind the fashions. Another declared that Canadian-made union suits had no semblance of fit but "slipped

Another replied that "B.C. vinegar was poor and her dyes unreliable." Preference was also given for the following imported goods declared to be made better elsewhere than in Canada: Leather goods, woolens, tweeds, shoes, tooth paste, pork and beans, sardines and sugar.

her report as national convener of the standing committee on Canadian, industries, dealt with agriculture as the principal industry, and comparison was made with other industries of the Dominion. Much work had been done along the lines of encouraging local industrial effort by supporting "Buy At Home" campaigns, as had been successfully carried out in this Province. From the Provincial standpoint, Mrs. Henderson deprecated the continued, purchase of goods from the United States which might be secured from local sources and of local manufacture.

ORIENTAL BOYCOTT

In the discussion which arose Mrs.
J. D. Gordon pointed out that the recent Oriental boycott on foreignmade goods reflected the reaction of the British Columbia attitude on the Oriental question. Mrs. W. D. Todd gave figures showing the increase in this Prevince since the inauguration of the Buy in B. C. campaign two years ago.

18c The encouragement given to Canadian agriculture by the various institutes was ably demonstrated in the excellent report presented by Miss Beardmore, national convener. Marketing of farm products was emphasized in the report given by Mrs. E.

18c H. Tomer. Provincial convener of agriculture. She spoke in favor of the organization of the farmers for co-operative marketing, a practice which would redound to the benefit of the consumer as well as to the producer, she averred. Reference was made to the Vancouver curb market in which Mrs. Tomer had taken considerable interest.

18c The suggestion was made that the Government provide demonstration agents who would assist the farmers along the lines of co-operative production and marketing.

Mrs. MacLachian presented the annual report of the Women's Insti-tutes of British Columbia. "The year 1924 has been somewhat inusual in several respects. First "The year 1924 has been somewhat unusual in several respects. First the idea of a central institute, which was discussed by the first Advisory Board in 1911, actually materialized in April of this year. Second, the Women's Institute Exhibit at the Canadian National Exhibition in Toronto at which many of the Provinces were represented. Third, and perhaps the most important of all the wonderful progress we have made in our treatment for the crippled children of British Columbia."

WOMEN'S INSTITUTE SCHOOLS
"The idea of Women's Institute Schools, known as lessons in Civics and Citizenship, were carried on in three points last year—Lake Hill, South Saanich and Langford. This branch of work marks an era in the Women's Institute organization, continued the report.

South Saanicul above the women's Institute organization," continued the report.

Six new Institutes were formed in British Clumbia last year, Patricia and Squamish on the Lower Mainland, Luxton and Happy Valley, Cedar, and Shirley, and Wistaria in Central B. C.

The ten comitteees are functioning not only successfully but are beginning to make their power felt. The work under each is extending and particularly in the Immigration Committee it is being realized the use that our Institutes can be in settling and Canadianizing desirable citizens.

DISTRICT CONFERENCE

There are three distinct conferences held during the year—the Okanagan district considered it was unnecessary to hold a conference. The Lower Mainland, Kootenays and Vancouver Island, however, held district conferences and the Institutes financed the expenses of the delegates.

After detailing the work of the various committees and the "Buy in B. C." campaign, the report continued:

"The principal work of the Institutes is in the committee on community betterment. The great bulk of the money raised by the Institutes is spent for community betterment. Halls, parks, roadsides, cemetries and other community projects of immediate and vital interests to the neighborhood all receive the support of the Women's Institutes. Some of the outstanding activities are the caterpillar contests and the queen wasp contests, organized among the school, children."

Stapleton and Carter Building Partially Gutted by Fire Yesterday

The new plant of Stapleton and Carter, electricians, situated on the Industrial Reserve, was gutted by fire which broke out at 5.46 p.m., yesterday. Fire engines and crews from the city worked for two hours before the flames were under control. In that time the roof of the building dropped into the gutted interior, but the walls stood.

Valuable machinery lodged in the beliding was saved in part, though the loss is tentatively placed at \$20,000. A check-up of the actual damage proceeds to-day. The cause of the outbreak is not yet ascertained but it occurred during one of the bettest periods in the history of the city.

the hottest periods in the history of the city.

Two lines of hose were laid in-fighting the fire, one having to be brought from a hydrant at a dis-tance of 1.300 feet.

Forest fires at Sooke and on the Saanich Peninsula gave trouble, at the same time, the underbrush be-ing in a dangerously dry state from the continued hot weather.

Town Saved by Heroic Work of Firefighters

Quesnel, B.C., June 26—Two men lost their lives and two others were slightly injured last night in a fire which originated in the upper part of the Good Eats Cafe on Front Street here, presumably from an overturned lamp in the hands of a roomer. The blaze spread so rapidly that within an hour and a half the whole block was in rulns. The loss is estimated at \$100,000.

The dead men are John Erickson and Jack Simister. Erickson was a trapper about thirty years old, who had come to Quesnel from Black-water the previous day to take out his naturalization papers before Judge Calder. His charred remains were discovered among the ruins of the restaurant when the fire died down about 3 o'clock this morning.

Jack Simister was an old-time telegraph operator, a trader and in later years cook, who came to the Cariboo ta 1838. The blaze spread so rapidly that within an hour and a half

DYNAMITE USED

Trapped in the restaurant with Erickson, he made a rush for an exit, but before he reached the opening in a back lane his clothes had been burned completely off. Found later sitting on a doorstep some distance from the scene, almost nude and in a dazed condition, he was rushed to the hospital, where he died a few hours later. Constable Harold Clarke was badly cut with flying glass and Leonard Wood was burned on the face and arm in fighting the fire. With the aid of the forestry fire fighting pump and by the heroic efforts of the volunteer fire fighters, who formed bucket lines from the Fraser River, he rest of the town was saved from destruction. Dynamite was used on two buildings in an effort to save some of the block, but without success. Behind a canket screen, upon which men darted in to pour buckets of water to keep them from being burned, two men, George Lutz and Steve Hillborn kept a stream of water playing on the buildings across the street and thus saved the adjoining block.

Blaze Threatens Valuable Timber of Highland District

A large gang of firefighters yesterday afternoon labored desperately to save residences at Prospect Lake from destruction, and steadily lost ground to the flames until their efforts were reinforced by a change of wind, when the fire was scorching the paint off the Beaumont residence from a distance of less than six feet from the walls of the house. Several times recently families near the fire hazard have been compelled to move their household goods on to the disused Interurban railway tracks, and last night the Wigmore, Fracey and other households were encamped on the track.

RAIL MERGER PLAN INTERESTS NEW YORK

Proposal For Canadian Lines Attracts Attention of U.S. Financial Men

New York, June 26.—The proposal of a Canadian Senate committee to combine the Canadian National and Canadian Pacific Railwy systems, announced in Ottawa, aroused great interest in the financial district here. Bankers conversant with the railroad situation in Canada expressed the belief that both of the Canadian systems were in a frame of mind favorable to a consolidation, because of their peculiar operating conditions. The Canadian Pacific, it was said, faced severe competition because of the Government's unlimited resources for railroad development, while the Canadian National lines were certain economies could be effected by tieing up with their rival system.

ANTI-PROHIBITION MEETING IN PARIS

Paris, June 26.—Prohibition in the United States was portrayed as a great dry dragon, much as the drys used to describe the liquor evil, at the sixth congress of International Anti-prohibition Organizations, which closed here last evening.

Delegates from the United States condemned Uncle Sam's dry law experiment as a farce and asserted it was costing the United States \$1,000,000 annually.

The French Minister of Commerce, M. Chaumet, Joined the other speakers at the closing banquet in picturing the wets as defending their rights against dry assaults. He predicted a wet victory.

Chauncey Hackett, general counsel of the association, said prohibition did not function in the United States. It had changed social customs, but not lessened social drinking.

"Officials themselves do not obey if. Even the present Secretary of the Treasury, charged with enforcement, is obliged, in order to serve wine at his table, to violate the law, which he has done either personally or through agents," said Mr. Hackett.

THE SOLE SURVIVOR?

Chinese pigtails disappeared on Imperial edict years ago. From that day to this a pig-tailed Chinaman was as scarce as a blue moon. To-day, modestly occupying his place in the dock beside twenty-three fellow seamen accused of striking, was an elderly Chinaman who clung to his pig-tail despite all the edicts in the world. Safely tucked inside his coat, but plainly in view where it crossed the nape of his neck, the precious-link with the past was blandly on view. Just what will happen now to the pigtail is not certain for its owner was sentenced in company with his shipmates to serve six weeks at hard labor.

Seattle, June 26.—Depletion of the supply of Southern pine, together with the building boom in Florida, has created a rapidly increasing demand for Pacific Coast timber on the Gulf of Mexico, Neal M. Leach of New Orleans, here attending the foreign trade convention, said yesterday.

"In Florida, in all the states bordering on the Mississippi River and along the Gulf of Mexico, a steadily increasing demand for the timbers of the Pacific Coast is an outstanding feature of the trade possibilities between these two sections of our country." Leach said.

"In return we notice a steadily increasing demand for manufactured products originating in Mississippi Valley points, even as far north as Chicago, and the Great Lakes section."

BARNES WINS BRITISH OPEN GOLF CHAMPIONSHIP

Lean Cornishman Scores Even 300 For Four Rounds

After Years of Striving "Long Jim" Finally Reaches Goal of His Ambition

Arthur Compston of England Was Tie With Barnes at End of Third Round

Prestwick, June 26 - Jim Barnes, with 300 for the 72 holes of play won the British open golf championship here to-day. Barnes had 70, 77, 79 and 74 for the four rounds.

Prestwick, June 26-Arthur Compston of North Manchester, with a 75, had the best score of round. This had put him even with Barnes in the aggregate score for three rounds, both then having 226.

Macdonald Smith continued to lead the field, however, with an aggregate of 221. He played this morning's round in 76. Joe Kirkwood, the third entrant from the United States, also had a 76, but his aggregate score was 238. the early finishers in the third

had a 76, but his aggregate score was 238.

Barnes led the pack away from the first tee at eight o'clock and was followed by Compston. At the turn Compston evened matters, Barnes taking 40 for the first nine to Compston's 36. On the homeward journey it was a ding-dong battle at a distance of several husdred yards, Several times Barnes dropped into bunkers or other tertifying hazards, but for the most part he made good recoveries, Compston kept rather strictly to the orthodox path, his golf being sounder than that of Barnes.

Prestwick, Scotland, June 26—Two Americans, MacDonald Smith and Jim Barnes, were in the lead for the British open gold championship last night with half of the seventy-two hole struggle behind them.

Both set new records for the famous Prestwick course vesterday, Barnes bringing it down two strokes with a chartering reused of \$2\$ in the norming.

pressuing it down two strokes with a stirring round of 70 in the morning and Smith reducing it still further with a dazzling 69 in the afternoon. Having done his forenoon round in 76, Smith ended the day with a lotal of 145. Barnes followed up his 70 with 77 for a total of 147, which put him in second place.
Only a dozen of the British go fors who set out yesterday morning with the hope of winning their own chartpionship back from the Americans who have held it for three years out of the last four, were within striking distance of Smith and Barnes last night.

ENGLISHMEN BEHIND

Half a dozen strokes, however, separate Smith from even the first of his British rivals, Arthur Compston, with an aggregate of 151. (me more stroke down the line, Ton Fernie S. Wingate and W. H. Davies are tied for fourth place with 152. Those who took 153 for the thirty-six holes are J. H. Taylor, Abe Mitchetl, Ted Ray and George Murdock of Troon.

Teo Ray
Troon.
George Duncan finished his day's
labors eleven strokes behind Smitt.
Except for the remarkable rounds
made by Smith and Barnes, the day's
solf preduced little that was brilliant
and a vast amount of bad golf, considering the reputation of the con-

sidering the reputation of the competitors.

Troon, Scotland, June 26. Most of the qualified golfers in the British open championship tournament celebrated a bushman's holiday on Wednesday, devoting the recess hit the tournament to a diving contest. Direction and distance were the objects. Some of them got, lots of direction but no boastworthy distance, and others achieved long flights but with poor control.

Cyril Toiley, the big amateur, won the competition with a long straight drive that carried 280 yards 10 inches. This broke the record for the local course, over which all the world's mightiest golfers have played.

A great game is looked for to-mor-park supposed on the local course, over which all the world's mightiest golfers have played.

The Australians were met by officials of the Victoria Tennis Club when the Niagara docked at the Outer Wharf last night. Capt. Patterson, stated that they would be unable to stop off for exhibition matches either here or Vancouver, and regretted very much that they would be unable to play in the Canadian championships at Vancouver in July as was their previous intention. New York.

IN SPLENDID SHAPE

Both Patterson and Hawkes appeared to be in perfect physical condition. Patterson is a bit heavier than he was on his last appearance in Victoria, and Hawkes is certainly much heavier and bigger. Practically all the training for their first round match against Canada will be done in Boston. Both players are very keen to get down to consistent practice and work into their best form, as they have had only three or four sames during the last three months. If their present plans are stuck to they will only play in one or perhaps two American tourneys! They have come from Australia solely in quest of the Davis Cup and Jack Hawkes said they intended to do the very best they possibly could.

They will leave the United States for home about the middle of September and will sail from Victoria on the Aorangi. Both players said if it was at all possible they would be delighted to play exhibition matches here during the latter part of September.

Stallings Replaces Huggins as Yankees' Boss, Reports State

New York, June 26.—A Boston dispatch to The Evening World said it is reported that Miller Huggins, manager of The New York Americans, will be replaced by George Stallings, former manager of the Boston Beaves, and now head of the Rochester club in the International League. It is reported he may buy a share in the Yankee club.

Athletics Clean up Series With Boston; Detroit Wins **Another Close Game**

New York, June 26-Bucky Harris, youthful pilot of the world champion Senators, has once more triumphed in a battle of wits in surrounding himself with seasoned players while other managers are chasing young recruits.

young recruits.

Believing that the veteran spitballer, Stanley Coveleskie was nearly finished as far as his major league ball was concerned. Tris Speaker traded him at the close of last season to the Washington team. To day the Indiana' manager has ample opportunity for postmortem regrets. "Covey" yesterday marked up his eighth victory out of nine starts this season allowing the Yankees but four hits while the Senators were winning one to nothing. Detroit finally broke into the first division in the American League by gaining a 3 to 2 verdict over the Browns, Manager Cobb leading the attack by a home-run in the first finning.

The Red Sox faitered and the Athletics cleaned up the three-game starts of the suppopulation of the first energies.

The Red Sox faltered and the Athletics cleaned up the three-game series. Rain postponed the first engagement beftween the White Sox and the Indians, but the last half of the double-header was finished, Chicago winning 7-2. Rain in Boston and New York forced the postponement of National League games, and the only other scheduled game was the Pirate-St. Louis, which the Pirates won 4 to 3.

Delicious Raspherry Jam

The day of hard work over a hot stove and the guess-work, with its worry—and often with its loss of sugar and fruit—in jam and jelly making, is past and gone. A nationally-known jelly maker has found the way to extract pectin—that substance in fruit which makes the juice "jell" or set when boiled with sugar—and then to refine and concentrate it for house-wives. So wonderful is this product-called Certo (Surgiell) that over three million women have

centrate it for housewives. So wonderful is this product called Certo (Surejell) that over three million women have adopted its use within three years. With it anybody who will follow a simple recipe can now make jam or jelly with any kind of fruit, without failure, in a few minutes.

The Certo method is as simple and accurate as "two and two make four." With Certo you boil only one minute, not the indefinite period of the old method. This one minute's boiling saves your precious time, and it also saves the juice, the flavor and the color of the fruit, which was formerly boiled away. Extra sugar is required to transform this juice and flavor into jam and jelly, with the result that you get one-half more from the same amount of fruit at less cost per glass. Actually you have the same amount of sugar in a glass of jam or jelly, whether made with Certo or by the old, wasteful method, but with Certo, from 2 pounds of berries, you now make 5 pounds of jam, against only 3 pounds by the old, wasteful method, but with Certo, from 2 pounds of home more than the control of the first pounds of jam, against only 3 pounds by the old method. This one-minute boiling also preserves the real color and flavor.

Crush thoroughly about 2 quarts ripe berries. Measure 4 level cup. crushed berries into a large kettle, add 6½ level cups (2½ lbe.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Bring to a full, rolling boil and boil hard for 1 minute, remove from fire and stir in ½ bottle (scant ½ cup) Certo. Skim and stir repeatedly for just 5 minutes after taking from fire, to cool slightly. Then pour quickly and seal hot.

The Certo Recipe Booklet with every bottle contains 73 recipes for making the most delicious Jams and Jellies.

Colorful Costuming Shows Remarkable Effects at Dress Rehearsal

With smoothness and confidence of veteran artists, three hundred Victorians last night at the Arena held a full dress rehearsal of the great Pageant from Ivanhoe, "The Return of Richard Coeur de Lion," nearly half the great hippodrome being required to accommodate the seried ranks of performers, as

Last Minute News on Stocks

New York, June 26 (By R. P. Clark and Company Limited).—To-day's market was strong from the beginning, but best prices of the day were recorded the last hour. American Can led the advance in the industrial section, it being evident that a rather large short interest was built up in this issue a while ago and efforts to retire commitments found little stock for sale.

It is rumored on the street that a splitting-up of the shares of the company will be ordered some time this year. The motor stocks were again prominently strong, and talk is around that an extra cash dividend may be made by the General Motors Company on the common stock at the next meeting. Public utility stocks were also active on the up side and cils showed a little more spring in the late trading.

Sentiment, which was very much mixed and in many quarters bearish during the fore part of the week seems to be gradually shifting again to the constructive side of values. stock market edition this afternoon says:

Although call money continued relatively strong, renewing at 4½ percent and advancing to 5 per cent, stocks gave the most impressive exhibition of the technical strength seen in several weeks.

Operators who had taken short positions in the belief that the recent action of the market suggested that a sharp break was imminent were forced to make costly revision of their trading ideas.

Few offering were available for covering purposes and the concellation of bear contracts was accomplished only by active bidding for stocks acquired. This retreat of the shorts was forced by buying of the most influential character in many standard stocks, particularly General Motors and American Can. Any thought that the leading financial interests had abandoned the constructive side of the market was dispelled by the large scale buying orders which were executed in these issues.

which reached the best levels of the present movement at 68.

Report of special Railway Commission of Canada favoring merger of Canadian National and Canadian Pacific and a guaranty of dividend to stockholders was responsible for an advance of almost four points. With the 7 per cent. dividend guaranteed and with the additional three per cent. from land holdings Canadain Pacific should be selling on a six per cent. basis, in which event the stock should sell at 185 when and if such an agreement is reached.

With crude rubber at 85 cents a pound the prospect of a third tire price advance early in July is receiving considerable attention. Demand for tires is the best in several years and economy pragrammes has resulted in material saving in the industry.

CHICAGO GRAIN

Chicago, June 26 ((by R. P. Clark & Co. Ltd.)—Wheat: Eleventh hour longidation ran its course on the darp break of early, and the defelopment of renewed aggressive ulying effected a brisk recovery. The market was nervous much of the day, and the swings were rapid, but displayed a greatly improved echnical condition which gave the mpression that it would respond cadily to further bullish news.

Weather conditions of Northwest re quite favorable, but the crops in hat part of the country are still in he early stages of growth, and much teponds on future weather. Harvesting of Winter wheat is well under vay, and farmers in many instances are credited with storing more than hey are marketing. This is strictly weather market, and no doubt hoppy swings are to be expected, but we have had quite a setback he last few days on weather condition, which incidentally change unlekly, and the next change will read to the country of the co

Corporation's Direct Pit Wire)—
Wheat: Liquidation was resumed in wheat early to-day resulting in another sharp break and the uncovering of stop loss orders, but on the decline, a good class of buying was in evidence, and a raily of over three cents from the low points was made. Northwest continued to send rust reports, although weather there was somewhat unfavorable to its development. Sentiment more favorable to the buil side than any time this week. Fair demand for eash wheat together with an improved export situation. Liverpool cables again come better than due. Still favor the purchase of wheat on the breaks.

Corn: Showed independent strength

breaks.

Corn: Showed independent strength on free buying by houses with Eastern connections. Large local operator reported as buying corn last two sessions. Weather conditions over belt generally favorable for the new crop. Sales made on the hard spots we believe, will prove profitable.

Oats: Followed corn and railied after an early break.

GRAIN HAS SPILL

Winnipeg, June 26-Light offerings and increased demand from exporters and millers had a distinct influence on sentiment in the wheat pit here to-day, resulting in fractional closing advances, with July at 164% and October at 13834. The sentiment, following an early decline, was less bearish. While there was an increased inquiry trade volume was not large and shorts were reported covering up for over the week-end.

The coarse grain markets all held steady.

Winnipeg, June 26 (By R. P. Clark and Company Limited)—Wheat: The market to-day was fairly quiet but firm. Prices ruled above the previous close and final-figures were about a cent higher. A little buying by exporters and millers took the slack from the market later and offerings were very light. There was a little short covering and nobody wanted to take the short side, preferring to awalt developments over the week end.

TIMES CROSS-WORD PUZZLE

HOW TO SOLVE THE CROSS-WORD PUZZLE

Every number in the form represents the beginning of a word, reading either horizontally or vertically. If there is a black square to the left of the number, the word is horizontal; if above it, the word is vertical. The same number may of course begin both as a horizontal and a vertical. The definitions for the correct words to fill the form are found below, with numbers corresponding to the correct words to fill the form are found below, with numbers corresponding to the correct words in the form. Run through the definition, one letter for each white square The will number and the proper place on the words linking with it at right angles. Continue in this manner till the form is completely filled. If you have solved the puzzle correctly it should read both horizontally and vertically with words corresponding to the definitions. The correct solution of to-day's puzzle will be printed in the next issue of The Times.

CATTLE KILLED

Huff raced to his home and took his wife and daughter to a point of safety and then returned to save as many of his belongings as possible. Most of those he saved by working throughout the night. Huff said many of his cattle were killed and two ranches above his were wiped out and the ranger station nearby will be submerged by the rising waters. His home, which was in the bed of the suddenly formed reservoir, now is under many feet of water.

voir, now is under many feet of water.

Despite the fear that has been expressed that another avalanche will deseend upon the valley, tourists and residents are rushing to the scene of the occurrence.

Ranchers, forest rangers and others who live near the fallen mountain, however, regard the possibility more seriously, declaring other parts of the mountain have been undermined by seepage from melted snow and that it may give way again because of the looseness of the earth in that place. Earth tremors have been felt twice in the last week.

Ottawa, June 26. "Your committee is of the opinion that unless energetic means are adopted to reduce our national debt and the income tax, as is rapidly being done in the United States, we shall be unsale to command the foreign capital absolutely necessary for the development of our national resources." This is a statement in the report of the committee of the Senate, which recommends merging of the Canadian National and Canadian Pacific Railway systems for purposes of administration and operation. Petersen Funeral In Old Country

London, June 26 (Canadian Presa Cable)—The steamship Melita, conveying the remains of Sir William a Petersen, shipping magnate, who died suddenly in Ottawa on June 12, arrived at Southampton yesterday with flags at half-mast. The casket containing the body was placed on deck, draped with the Union Jack. The body was taken charge of on its arrival by Lucen Pacaud, secretary of the Canadian High Commissioner, who arranged transportation to Waterloo Station, where the flags were at half-mast. The report says:
