- the suggestions on page 3 may help you

JOSEPH F. ARTIN PERENNIAL NURSERIES

Painesville, Ohio

One-half Mile South of Randell Tavern Chestnut Street

A Word to Our Friends ~~

N describing the items herein, we have tried to consider them as you do from your own point of view as to their usefulness and value in your business. In most cases their blooming season is mentioned, too. If we have

failed, it is due to lack of accurate knowledge of your business. You must believe that we are interested in your success. That interest is not entirely unselfish, either, because your success tempers ours materially.

We are proud of this Wholesale Price List for Spring, 1928. A few proven new developments give variety to the larger list of staple sorts—all of them money-makers for florists, nurserymen, seed stores and landscape architects. Yet for every variety listed many have been discarded as unworthy.

We Sell Only Thrifty Field-Grown Plants

Variety of soil and good climate assure us healthy, hardy plants well matured. The actual field views shown herein give you an idea of the extent of our propagation. Adequate storehouses and packing room help us to fill your orders promptly and accurately.

Special Prices on Large Quantities Write for Quotation Stating Your Needs

We want to thank our customers for their patronage in the past. On the basis of service and satisfaction we solicit your orders, large and small.

JOSEPH F. MARTIN NURSERIES.

SELL HARDY PLANTS, TOO

A profitable sideline for a floral shop or seed store is the sale of Hardy Plants for home plantings. Many people would appreciate the service you can render by helping them to plan and plant their home gardens. The sale of hardy plants is in its infancy because relatively few people realize the beautiful effects to be had with them.

JOSEPH F. MARTIN

Greetings

To Our Friends and Those We Would Like to Make Our Friends ~

A T the age of twelve years I started to work in one of the largest departmental nurseries, getting my practical education the same as many who start in the nursery trade. As I advanced to maturity I held several responsible positions from time to time and my reputation as a practical nurseryman was well known in the trade.

In 1920 I started in to grow perennials on a small plot of ground. This business has now grown to over 100 acres and today I am supplying many of the catalog houses with their supplies of hardy plants as well as having a large mailing list of my own; shipping my products into every state in the Union. My specialties are Peonies, Japanese Iris, Astilbes, Forcing Roses and a general assortment of perennials.

My equipment and facilities for handling your orders entrusted to me are the best. This enables me to make shipments in a reasonably short time, when weather permits digging. As far as possible we ship our orders to the different parts of the U.S. at the proper time for planting in your particular climate.

I wish to thank my customers for their kind patronage in the past and to assure them that in the future I will again do my best to furnish them with the best quality stock that I am able to produce and on the basis of service and satisfaction I am looking forward to your orders in the future.

Sincerely yours,

Joseph & Martins

Use Hardy Flowers for Summer Floral Pieces

HEY cover a dull season with a great variety of showy blooms at less cost than cuts and fillers that are grown under glass

 T^{HE} basket of flowers illustrated on the opposite page was made up entirely of field-grown perennials which bloom at a time of year when greenhouse cuts and fillers are scarce.

Perennials also work up beautifully into sprays, wreaths, and bouquets, effectively replacing expensive greenhouse flowers.

About the middle of July the writer visited the wholesale houses in Cleveland, Ohio, our neighboring city, and to his disappointment found them almost empty, the greenhouse stock being cleaned out at that time. In other words, there was a scant selection for retail florists to choose from. Seeing the class of stock being offered for sale, he at once realized that by acquainting florists with what can be done with an assortment of the cut flower varieties of perennials, they need not worry much about how they are going to take proper care of their customers when the regular run of greenhouse stock is off the market.

As soon as he arrived home he walked thru the nursery, cutting a flower here and there. He soon had in his arms a large assortment. Looking deeply into the variety in his arms, he at once pictured in his mind the different high class pieces which this class of stock would fill to the taste of the most critical. He

then engaged one of our small town florists and ordered him to make up a basket of the flowers.

Upon completion of the basket illustrated on page two it was shown to many of our leading citizens who unanimously pronounced it one of the most beautiful makeups they had ever seen.

The main flowers in this basket are Lily Regale. The balance are a general run of flowers such as Achillea, Gypsophilla, Delphinium, Daisies, etc. It is possible to get equally good results by using Glads or almost any outstanding flowers for the main flowers.

The illustration shown here will prove to you beyond all doubt that you can make anything with Perennials that can be made with any other flowers, and at the end of the month your account with your wholesale house will be much less, thus you will realize a larger saving in your income.

All during the outdoor growing season there are beautiful hardy flowers to be had — striking and showy for floral work. A careful choice of varieties for even a small plot of ground will furnish an abundance of flowers for a thriving business, thruout a long growing season when you are preparing the greenhouse for another heavy run.

Your customers will appreciate the fact that the pieces you make of these outdoor flowers last longer than the more delicate cuts from the greenhouse. And you will apprecible perennials because they come up each year and bloom without much care.

The descriptions in this price list attempt in a limited way to give the floral use and blooming season of each variety.

It will pay you well to glance it thru with a view to planning an outdoor planting as well as choosing stock for forcing.

Joseph & Martin

PRICE LIST

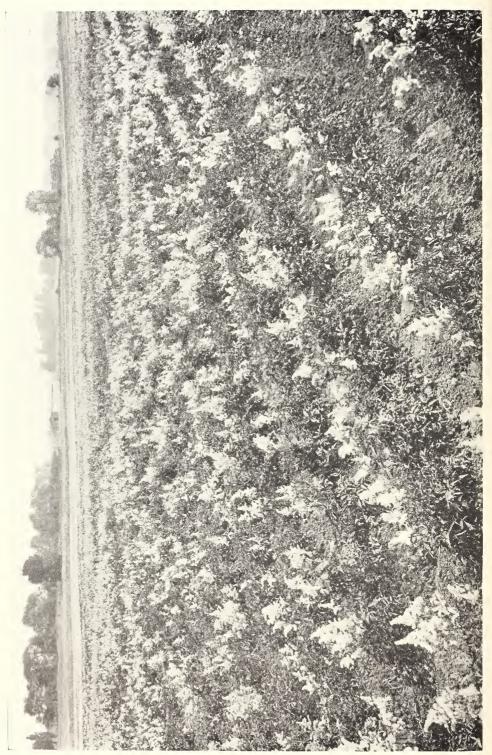

THE following list represents extensive field displays of healthy, hardy plants that will give you results in your business. We grow every item of stock we list and can fill orders immediately, subject of course to prior sales. The plants we offer are established varieties.

Per 10 Per 100

ACHILLEA Boule de Neige (Ball of Snow). An improvement on the Pearl. Wonderful for cut flowers or garden. Flow- ers in June. A good filler\$	1.00 \$	7.00
Filipendulina. (A Eupatorium.) This fine plant from the shores of the Caspian Sea grows 2 to 3 feet high; flowers bright vellow, in flat heads, and with lace-like foliage. June to September. Nice to plant among shrubbery, ever- greens, or for back border, also a good flower for basket work.	1.00	7.00
Millefolium Roseum (Rosy Milefoil) Finely cut deep green foliage; pink flowers in dense heads and found all summer. Suitable for general use	1.00	7.00
Perry's White. 1 to 2 feet. June to September. A choice new variety; pure white flowers; broad, overlapping petals. Nothing better for cutting. An excellent filler	1.00	7.00
Tomentosa. A very charming yellow-fiowered plant blooming in June. It will do in the rockery or in any part of the border. While it grows naturally on dry, rocky soil, it has done well on lower and more moist levels. 6 to 12 inches	1.50	10.00
ACONITUM (Monkshood, Helmet Flower). Aconites form bushy clumps, and are invaluable for planting under trees or in shady or semi-shady positions. Also classed as an outstanding cut flower.		
Fischeri. .A dwarf variety growing 30 inches high, with very large pale blue flowers in September and October	1.50	10.00
Spark's Variety. July-August. Darkest blue of all. Plants .	2.00	15.00
Uncenatum. A climbing variety well branched. Light blue flowers in July	1.50	10.00
Volubile. A very tall, slender-growing, semi-climbing variety, with dark blue flowers. July	1.50	10.00
ACONTHUS LATIFOLIUS. A handsome decorative plant pro- ducing rose color flowers August and September. 3 ft high A distinct garden plant.	2.00	15.00

P	er 10 F	er 100
ACANTHUS, mollis. Purple flowers. Classed as above	2.00	15.00
ANCHUSA (Alkanet) Italica, var. Dropmore. 4-5ft. June. Tall, branched growth. A large biennial having coarse leaves, and gentian-blue flowers	1.00	7.00
AQUILEGIAS or COLUMBINES. Columbines are one of the most beautiful of all hardy plants and make themselves at home in any hardy border. Their period of flowering covers the late spring and early summer months. Taken as a whole they are the most important part of the hardy garden and should be grown in quantity by every lover of old- fashioned garden flowers. The following varieties are all suitable for cutting and are attractive when used with other flowers.		
Alpina. Grows about a foot high, having blue or some- times paler flowers	1.50	10.00
California Hybrids. Beautiful hybrids running mostly to orange and orange red.	1.50	10.00
Chrysantha. Bright yellow, long spurred	1.50	10.00
Crysantha Alba. A white variety of the above	1.50	10.00
Chrysantha Fl. Pl. Double golden yellow flowers	1.50	10.00
Clematiquilla, Spurless Columbine. An odd form; those we have seen in bloom were a deep wine red in color and absolutely spurless.	1.50	10.00
Coerulea. Sepals blue, petals white, a dainty effect	1.50	10.00
Farquhar Pinks. A beautiful strain of nothing but clear pink colors	1.50	10.00
Flabellata. A fine Japanese species with pale or nearly white flowers. 12 to 18 inches	1.50	10.00
Long-Spurred Pink Hybrids. A beautiful and reliable strain comprising a large percentage of pink and rose shades. Long spurs.	1.50	10.00
Mrs. Scott Elliott's Long Spurred Hybrids. Fine run of col- ors and distinct shape.	1.50	10.00
Nivea Grandiflora. Large, pure white	1.50	10.00
Siberica. Flowers in May; mostly purple. 2 ft	1.50	10.00
Silver Queen. Beautiful rose flowers, long spurred.	1.50	10.00
Rose Queen. Deep pink.	1.50	10.00
ARABIS (White Rockcress)		
Alpina. 6-8 in. Pure white flowers, densely cover this plant in April and May. A striking rock garden plant	1.50	10.00
ARMERIA. Sea Pink or Thrift. The following varieties are used extensively in rock garden planting.		
Formosa. 6 to 8 inches. Light pink	1.50	10.00
Formosa Alba. White 6-8"	1.50	10.00
Laucheana. Deep pink 6-8"	1.50	10.00
Maritima. Lavender 6-8"	1.50	10.00

	r 10 Pe	er 100
ARTEMISIA Lactiflora. Producing elegant spikes of pure white flowers on stout stems the whole plant has the appearance of a highly ornamental shrub. August	1.50	10.00
Asperula Hexaphylla (Misty Woodruff.) 1-2 feet. Leaves in whorls of six, the plant strongly resembling asparagus plumosus; the small white flowers in recumbent open pan- icles. The growth is normally equal height and breadth.	1.50	10.00
ASPHODELUS (King's Spear.) Luteus. Tall spikes of bright yellow, lily-like flowers; very fragrant; sword-like fol- iage; fine for borders.	1.50	10.00
ASTERS Hardy (Michaelmas Daisies). These are among the showiest of our late flowering hardy plants giving a wealthy bloom during September and October. Very showy in garden plantings. Also used extensively for decorative purposes. The following assortments are the choice of a long list of varieties.		
Abendrothe. Deep rose. 5 ft	1.00	7.00
Amellus Elegans. Grows 12 to 15 inches high and produces large showy flowers of a rich bluish-violet during July and August	1.50	10.00
Acris. Feathery foliage, light blue. Flowers in August and		
September.	1.50	10.00
Anita Ballard Double flowers of a clear petunia violet	1.50	10.00
Belgian Queen. Attractive bluish lilac	1.50	10.00
Blue Gem. Double flowers of rich blue.	1.50	10.00
Climax. One of the best and showiest, with large pyramidal spikes of large light lavender-blue flowers. Very free. 5 feet.	1.50	10.0 0
Emilie Thoury. Light ageratum blue	1.50	10.00
Feltham Blue. A pretty aniline-blue; very free	1.50	10.00
Mons. Distinct reddish violet; a very showy type of refined character, useful in autumn hampers, and in general bouquets	1.50	1.00
Japonica Double White. Double flowers in large clusters. A fine variety for cutting. Grows 3 ft. high	1.50	10.00
Mauve Cushion. Very dwarf. Delicate mauve	1.50	10.00
Mrs. Raynor. The deepest red of all Asters.	1.50	10.00
Novae Angeliae. Bright purple violet. 4 ft	1.00	7.00
Novae-Angeliae Rosea. Deep reddish violet. Height 4 ft	1.50	10.00
St. Egwin. One of the finest, covered with beautiful pink flowers.	1.00	7.00
Tartarica. Large bluish-lilac. 6 ft	1.00	7.00
White Climax. Like Climax, except in color, which is pure white.	1.00	7.00

ASTILBES

HROUGHOUT the growing season we are visited by many people from all parts of the United States and from leading nursery centers of Europe. In 1922 a representative of one of the largest Astilbe growers in Holland visited us. In showing him through our nursery he pointed out to us a tract of land which he thought would grow Astilbes of the finest quality and he urged us to give these plants a trial on this particular ground.

Giving his advice our careful consideration we decided to import a good supply of the forcing and some of best garden varieties for a trial as to the size of clump we could develop and also to the quality of the forcing eyes. After being satisfied that we were growing an exceptionally good sized clump, we distributed some of the plants to florists for forcing purposes, having in mind to offer our customers stock that would please and give good returns for their investments.

These florists have pronounced our stock of superior quality. With all this assurance we decided to propagate Astilbes on a large scale. The illustration on the opposite page shows you something of the extent of our plantings. About 50,000 strong 2-year clumps is our annual propagation.

LANDSCAPE AND GARDEN ORDERS

The increasing popularity of Astibles for decorative effects in landscaping has produced a great demand for them. We hope you will not overlook them in your plans for spring business.

FALL FORCING STOCK A SPECIALTY

Our florist customers have come to appreciate our prompt fall shipment of Astilbes because it gives them an early start toward producing large flowers for early winter sales. However, in 1927 some varieties were sold out early. It is decidedly to your advantage to let usbook your orders now for the varieties you want. We will accept these subject to market prices at shipping time, as we are unable to foresee what the season will bring forth.

ASTILBES— Pe	er 10 P	er 100
America. Deep pink; excellent forcing variety; fine for early forcing.	3.50	30.00
Gladstone . A fine variety. Immense trusses of flowers are as white as snow, borne on erect, strong stocks; best white for forcing	3.50	30.00
Peachblossom . A beautiful peachblossom pink. Compact grower. Prolific bloomer. One of the best for forcing.	3.50	30.00
Aruncus. A fine variety growing from 3 to 5 feet high, with long, feathery flowers in June and July	3.50	30.00
Betsy Cuperius. Splendid new variety, growing 5 feet high. The fine drooping flower spikes 2 feet long, show in sum- mer during June a great number of white flowers with pink center. A nice garden variety.	3.50	30.00
Chinensis. Large heads of silvery pink flowers. Garden variety.	2.50	25.00

		Per 100
Gruno. This new Astilbe grows 4 feet high and produces light and graceful spikes of spreading habit and has a splendid salmon-pink color. Award of Merit R. H. S. of Holland. Garden variety.		30.00
Marguerite Van Rechteren. This plant grows about 5 feet high. The flower stem itself has a length of over 3 feet. The very fine fringed flowers are bright red tinged with dark lilac. Garden variety.		30.00
Metta Immink. Dense plumes of pink flowers; 3 feet; garden variety	3.50	30.00
Pink Pearl. Delicate pink, 3 feet; forcing variety	3.50	30.00
Queen of Holland. Blush-white; forcing or garden	3.00	25.00
Queen Alexandra . Flowers are bright pink, extra large trusses—one of the best forcing varieties	3.50	30.00
Salland . A vigorous growing variety with bronzy red stems and crimson-red flowers; 6 feet; garden variety	3.50	30.00
Vesta. Lilac-rose $2\frac{1}{2}$ to $3\frac{1}{2}$ feet, forcing or garden variety	3.00	25.00
BAPTISIA Australis. (False Indigo). A strong growing plant about 3 ft. high, suitable either for the border or wild garden with dark green deeply cut foliage and spikes of dark blue, lupine-like flowers; 2 yr. good for cutting		8.00
BOCCONIA Cordata (Plume Poppy). 6-8 ft. Big, feathery heads of creamy white flowers. Tall, upright habit. Fine for back grounds, also makes a nice filler in basket work.		7.00
BOLTONIA Asteroides. Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom during the summer and autumn months with its thousands of flowers open at one time producing a very striking effect. Pure white, very effective. 5-7 feet. Good for cutting.		7.00
Latisquama. Lavender-pink. 4-5 ft.; good for cutting	1.50	8.00
BUPHTHALMUM salicifolium. (Willow-leaf Oxeye.) Yellow flowers, neat bushy habit. Two feet. A distinct garden plant.	2.00	15.00
CAMPANULA (Bellflower). A large and varied family of the greatest value for general garden decorations. They are of the easiest culture, thriving in any ordinary garden soil.		
Aelliariaefolia. One to 2 feet, branching at the top; leaves heart shaped; flowers white, about 2 inches long, borne in racemes. Native to Asia Minor. Suitable for garden or rockery.	2.00	15.00
Carpatica (Carpathian Harebell). A pretty species growing in compact tufts, not exceeding 8 inches high; flowers clear blue; held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for a hardy border or for the real erect is unsummared. Also white		10.00
border or for the rockery it is unsurpassed. Alba white		10.00
Carpatica. Blue	1.50	10.00

CAMPANULA Continued	Per 10 P	er 100
Medium Calcycanthema (Cup and Saucer). Blue, White and Rose. Colors separate. Classed among the showiest gar- den plants also one of the most desirable cut flowers	1.00	7.00
Media. The well known "Canterbury Bells"; its numerous branches crowded with deep bells, the edges softly rolled back and fluted. In July; height 2 to 3 feet. Blue, rose or white. Very showy for garden; valuable for cutting.	1.00	7.00
Latifolia Macracantha. 3 feet. June and Ju'y. Very hand- some, enormous drooping bells of fine satiny lilac and deep purplish shades. Nice for rockery.	l	10.00
Latifolia Macracantha Alba. White	2.00	15.00
 Persicifolia, Blue and Alba Separate. used mostly for garden planting. Trachelium (Coventry Bells). A good border plant 2 to 3 fect high with large racemes of light purple bell shaped 	1.50	10.00
somewhat drooping flowers.	2.00	15.00
CARNATION. (The Truest Hardy Outdoor Carnation.) No Florist Should be Without Them. A beautiful strain of hardy pink, which resembles most of all the indoor Car nation, blooming in great abundance all summer, in the most magic colors, flowers being semi to full double. Ex cellent for cutting and very hardy.	f - e	
Giant Pink	1.50	10.00
Giant Red	1.50	10.00

Hybridum Grand. Larger heads of light blue thistles. Gar- den or cutting	1.50	10.00
Planum. The true blue Thistle, with amethyst stems and bracts. Garden or cutting.		7.00
EUPHORBIA Corollata (Flowering Spurge). A brancy low- growing plant with fine stems and foliage, literally covered from June to August with loose umbels of pretty white flowers. Good for cutting in long sprays; and one of the most charming mist-flowers to mix with bouquets of Lark- spur.	l	7.00
EUPATORIUM Ageratoides. Fine cut-flower; fall bloomer.		7.00
Coelestinum. Simply covered with blue. Ageratum-like flowers in August and September. 2 feet. Fine for cutting	1.50	8.00
Eulalia Japonica Variegata. Very ornamental; long, nar- row leaves, striped green, white, and often pink or yel- low. Very attractive planted around ponds or back- ground for perennial plantings.		10.00
FUNKIA Undulata Variegata (Day Lily). Graceful green leaves having fluted white edge. Very conspicuous plant for border. They are also beautiful when used as a fol- iage pot plant for Easter sales	5	10.00
Undulata. Robust grower. Extra large green foliage with 3 ft. flower stems of light blue flowers helps to make up the variety in the hardy border.		7.00
Lanceolata. Valuable by reason of its late flowering, lilac flowers in September; 2 feet. A good landscape variety.	1.00	7.00
GAILLARDIA Grandiflora. (Blanket Flower)—This is consid- ered one of the most beautiful and desirable plants in cultivation, beginning to bloom in June they continue one mass the entire season. Base of petals are scarlet crim- son, bordered golden yellow. A most beautiful combi- nation. Fine for cutting		7.00
Grandiflora Copper-Red. A striking color	1.00	7.00
GYPSOPHILLA Paniculata. (Baby's Breath)—A beautifut old-fashioned plant possessing a grace not found in any other perennial and attracting the eye of everyone. Dense spreading bush, numerous tiny flowers in light feathery panicles, delicate foliage, fine for cutting, excellent for border or large rock gardens. July and August. Strong		
roots	1.00	7.00
Repens. A beautiful trailing plant for the rockery, with clouds of small, white and pink flowers in July and Aug.		7.00
GALLIUM Borialis. Flowers resemble the Gypsophila. June and July. Good for cutting.		10.00
1 5		

Peter HEMEROCALLIS. Well known family resembling Lilies in character and bloom, usually sweet scented and bearing a great quantity of yellow flowers during long periods of summer varying with the variety. Are very showy in the garden. They run in height from 2 to 4 feet.	r 10 P	er 100
 Thunbergi. Much like Flava, but flowers in July, a month later, and 6 to 10 inches of the upper portion of the flower scapes are thickened and flattened. Minor. Dwarf lemon yellow. First of June. 	$1.50 \\ 1.00$	$8.00 \\ 7.00$
Flava. Lemon Daylily. Fragrant yellow flowers in June. Grows 2 feet high with flowers on long stems for cutting	1.50	10.00
HELENIUM. (Helen Flower). This magnificent perennial during its blooming season from early August until the middle of September, literally produces hundreds of beau- tiful from yellow to bronze-colored flowers. The flowers on one and the same plant vary in colors according to their growth and different stages of development. Beau- tiful for the garden. Fine for cutting.		
 Autumnale Superbum. Broad, spreading heads, deep, golden yellow flowers. One of the most striking flowers. 5 to 6 feet Autumnale Rubrum. Similar to superbum, but has bright to superburn, but has bright down and the superburne of the molecular makers. 	1.50	10.00
terra cotta red flowers; makes a wonderful display dur- ing the month of September. 5 to 6 feet	1.50	10.00
Riverton Gem. Old gold, changing to wall flower red. August and September. 4 feet	1.50	10.00
HESPERIS Matronalis. (Sweet Rocket). Purple Matronalis Alba. White	$\begin{array}{c} 1.00\\ 1.00\end{array}$	7.00 7.00
LAEVIS. Single yellow flowers, 2 feet	1.00	7.00
 HIBISCUS. (Mallow). Crimson Eye. Of quick, shrubby growth to 5 feet, bearing quantities of large open flowers like single Hollyhocks; white with prominent crimson throat. Mallow Marvels. A giant race derived from the common native Hibiscus, which has elevated this type almost to the dignity of shrubs. Massed in great groups or generously interspersed with shrubs, these "Marvels" grow very rap- 	1.00	7.00
idly, sometimes getting up to 8 or 10 feet in height; with plenty of broad foliage to furnish a rich setting for the mammoth flowers.	1.00	7.00
HELIANTHUS , (Hardy Sunflower). The perennial Sunflower should always be planted in masses, where they may have plenty of room, against backgrounds of shrubbery, or naturalized in wild gardens or woodlands. They produce a grand effect impossible to describe. In combination with hardy Asters, where broad color effects are wanted in late Summer, they have few equals. They are profuse bloomers, producing an unlimited supply of flowers for decoration.		
Multiflorus Fl. Pl. (Double Hardy Sunflower). Large,		

double Dahlia-like golden-yellow flowers in great profusion during July and August; 4 feet. Good for cutting. 1.50 10.00

16

	: 10]	Per 100
HEUGHERA sanguinea. Alumroot; Coralbells; Crimson-		
bells. One of the best plants for the hardy border		
keeping up a succession of bloom during July and Aug-		
ust. Its delicate spikes of coral-red bells are most charm-		-
ing, especially in a large bed or a mass. Nice for table		
or other decoration.	2.00	15.00
	2.00	10.00
HOLLYHOCKS. We have this season a fine lot of strong,		
clean, healthy, vigorous one year old flowering plants of		
the finest strains under Double Pink, Double Red, Double		
White, Double Yellow, Double Maroon	1.00	7.00

New Allegheny. Immense semi-double flowers, with fring-		
	1.00	7.00
cu cuges.	1.00	1.00
IBERIS, Sempervirens. Hardy Candytuft. Flowers white.		
10 in, April, May. Fine for borders	1.50	10.00

A WORD TO OUR LANDSCAPE ARCHITECT FRIENDS

WE STATED in this trade list that about 75% of our business is done among the florists in the U. S.

For some unaccountable reason we have never made a very strong effort to solicit the landscape architect, except in the last few years. In this special line of business we find a wonderful growth. Our landscape customers are increasing very rapidly. This prompted us to give this special trade our careful attention.

We are now equipping our nursery with landscape varieties of hardy plants such as rockery, mass plantings, and all kinds of border plants. We wish to inform our landscape customers that their business with us as well as the florists, is very highly appreciated and any orders entrusted to us for your particular jobs of planting will be taken care of to the best of our ability and nothing but quality plants furnished. We are very anxious to work up a good business with the landscape architects and we are asking you in earnest to give us a trial order and let us prove to you that the plants we grow are of good quality as well as showing you that we are doing our best to give you proper service.

Field view of oue of our annual plantings of Japanese Iris. Inset at left is Gekko-no-nami; right, Uchiu. Sturdiness of root and plant are necessary to produce flowers of exceptional quality. You want the best, don't you?

IRIS KAEMPFERI, Japanese Iris

FOR YEARS back we have been accumulating the Japan Iris we are now offering to the trade. Testing out hundreds of varieties, adding, and discarding varieties which did not come up to our satisfaction, we feel at this time that the varieties we are offering are by some special merit the best in their particular class considering the nature of growth, type and distinction of flower.

We believe that we have a sufficient supply of all the varieties listed with which we can take care of your wants, in large or small quantities, at a reasonable price.

The illustration on opposite page is a proof in itself of the high quality of our stock. The exceptional quality of the flowers shown is the result of developing sturdy roots and healthy robust plants.

		er 100
Aspasie, single, soft mauve blue	2.00	15.00
Astarte, double beautiful dark violet	2.50	20.00
Circe, double dark violet blue, finely lined with white	2.00	15.00
Eumee, single dark violet	2.00	15.00
Gekka-no-nami. Earliest to bloom, and the choicest white; very free. Glistening white with creamy white stigmas.	2.00	15.00
Gold Bound. A fine double, pure white, enriched by a creamy glow from the gold banded center.	2.00	15.00
Helene. Double blue ground, slightly veined darker blue	2.00	15.00
Hercule. Double, clear lilac, blue	2.00	15.00
Iphigenie. Double, beautiful coloring, deep Chinese lilac	2.50	20.00
Iso-no-nami. Double soft blue, silvery veins	2.50	20.00
Kumo-No-Obi. Bright, clear purple, with distinct rays of white surrounding the golden throat, the pure white standards tipped purple.	2.50	20.00
Mahogany. Large double flowers, the latest to bloom. Purpled mahogany-red. The erect petals prettily crested.	2.50	20.00

toned kinds. White, with a heavy azure blue zone		2.00	15.00
IRIS Siberica. The flowers resembling the Spanish and English Iris. These make a bright show in the garden and	id		

are excellent	for cutting. They can be cut when in bud		
and will fully	develop in water, blooming from latter part		
of May until	end of June, purplish-blue flowers. 3 ft	1.00	7.00
Sibirica alba.	Pure white. 3 ft	1.00	7.00

IRIS GERMANICA, Novelties

The following varieties in our judgment are the choice of recent introductions:

Each Per 10

IRIS GERMANICA

Ambassadeur. A strong growing late variety with very large flowers. Standards reddish-violet falls deep velvety brown beard and style arms yellow. Of exceptional merit and superior to many varieties of a similar color. Three		
and one-half feet.	.50	4.00
Ballerine. Early "S" light violet blue; "F" deeper. Very fragrant. Single blooms often five inches long. Wide		
rounded standards waved at the edges	1.00	9.00
Lent A. Williamson. Early. Rated in 1922 by the American Iris Society as the finest Iris in the world. Campanula violet and velvety royal purple. Brilliant gold beard.		
Massive in growth and flower	.40	3.50
Lord of June. "S" flappy lavender-blue; "F" rich violet blue. An exceedingly handsome Iris. Very bold and vig-		
orous habit	.50	4.00
Mother of Pearl. Standards and falls pale bluish lavender with a faint creamy undertone. Large flowers of excep- tional substance and perfect form on well branched stems. Vigorous in growth and producing its wonder- ful flowers freely. It is a self color with all the soft iridescent colors of Mother of Pearl. Has been called		
"the perfect Iris."	.75	7.00

IRIS GERMANICA, Continued Queen Caterina. Pale lavender-violet with orange beard		Per 10
white haft, veined with bronze. A strong grower		3.50
Shekinah. 36 inches. Clear, soft yellow, shaded throug the center. One of the finest yellow Irises and the firs	'h st	
of Pallida growth. Midseason.		3.50
Ea Cecil Minturn. 24 inches. "S" and "F". A uniform soft	Per ch 10	Per 100
shade of cattleya-rose. A beautiful flower, dome shaped with broad ruffled petals	0 2.50	20.00
Mme. Chobaut. 36 inches. "S" white shot with pal chalcedony yellow, shading into wine red. "E" white edged with lilac. A very pleasing con- trast of colors		20.00
Pallida Dalmatica Princess Beatrice. This is the true type of pallida Dalmatica and still one of the most attractive and satisfactory all around varieties, with flowers of large size; both standard and falls of a clear lavender blue shading to a pale silvery blue at the base and sweetly scented. It is of strong, vigorous growth, over three feet high with unusually	5 2.00	

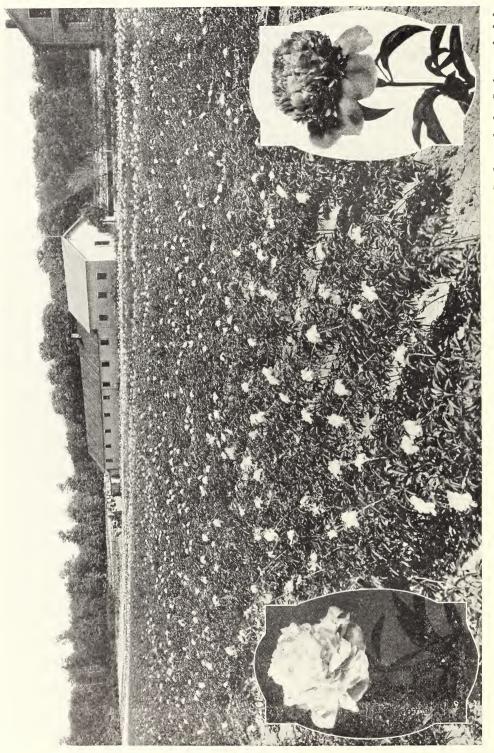

IRIS GERMANICA, Standard Varieties

17.0

Pe	er IVF	'er 100
GERMAN IRIS. Alcazar. Very large, broad petals. Stan- dards, pale lilac blue with golden bronze throat; falls rich violet purple.	1.50	10 .00
Candelabra. Large and striking. Standards light mauve dusted with violet; scapes silvery white. Falls perfectly limp with sharply defined veins converging to a solid blotch of almost black violet at the ends	1.00	6.00
Dorothea. Milk white, clouded with porcelain blue, brown reticulations at base of all petals.	.85	5.0 0
Iris King. Old gold rich crimson bordered with gold; a very desirable variety; tall, with large flowers.	1.50	10.00
LILIES Canadense (Canadian Lily). Grows from 2 to 4 feet high and bears on slender stems terminal clusters of drooping flowers, orange, spotted with brown	1.50	10 00
Superbum (Swamp Lily). Graceful stems. 5-6 feet, ter- minating in a pyramid of bright orange-crimson flowers.	1.50	10.00

Pe	r 10 P	er 100
LILIUM Regale, or Myriophyllum (The Regal Lily). It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the fu- ture and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow at the center, and ex- tending part way up the trumpet. It is delightfully perfumed, reminding one of the Jasmine, and lacking the heavy, oppressive odor of most lilies. Blooms out-of- doors early in July. The Lilies shown in basket on page Two were cut from this stock. Strong bulbs. Flower- ing size, 3 to 5 inch circ.	2.50	20.00
LILY-OF-THE-VALLEY. Few flowers are as well known and as much appreciated as the Lily-of-theValley. After once being planted in a suitable place they will increase in number and will produce their graceful and sweetly scent- ed blooms every spring for an almost indefinite time. We offer strong, field-grown clumps of this ever-popular old favorite which are sure to bloom.	2.00	15 .00
LATHYRUS. (Hardy Everlasting Pea)—One of the best and most desirable flowering hardy climbing plants, attractive both in flowers and foliage, growing to a height of 8 to 10 feet, and producing clusters of large flowers the en- tire Summer; fine for cutting; lasting well		
Alba—Pure white	1.00	7.00
Latifolius—Deep rosy-red	1.00	7.00
Rosea—Pink	1.00	7.00
LIATRIS PACHNOSTACHIA. A pefectly hardy perennial of luxuriant growth, doing well in any kind of soil, poor or rich, moist or dry, producing richly colored purple flow- ers on stout stalks 6 feet high in graceful spikes one foot long. In bloom during July and August. First rate cut flower.	1.50	10.00
Scariosa . This is a much showier form than is usually sent out for this plant. It has large, showy, purple heads and flowers much later than the others. A very imposing form. September. Four to five feet	1.50	10.00
LINUM (Flax) Perenne Blue. May-August. Pearly blue		
flowers. A graceful, hardy perennial	1.00	7.00
Alba. Milk white flowers, very decorative LOBELIA Cardinalis (Cardinal Flower). Rich, fiery cardi- nal flowers. Strong plants, often producing ten to eigh-	1.00	7.00
teen spikes. 24 to 30 inches long	1.50	10.00
Syphilitica. Blue. 3 feet. August-September	1.50	10.00
LUPINUS (Lupine). Effective plants producing large spikes		
of flowers, blooming in May and June. Polyphyllus. Blue, Rose and White separate	2.00	15.00
LYCHNIS Viscaria Splendens. Spikes of handsome flow-		
ers on stems one foot high, blooms in June. A very at- tractive plant in the border	1.50	10.00
June. 12 inches	1.50	10.00
an inch wide. Plant about 6 inches high. A pretty plant for the rock garden. A native of the Alps. May	1.50	10.00

	Per 10 P	er 100
Chalcedonic. Maltese Cross; Jerusalem Cross; Scarlet Lightning. Two to 3 feet high, with white or scarlet flowers in good-sized corymbose heads. Give it a rich soil and it will bloom all summer. June. A showy plant		
for the garden and a striking cut flower	1.00	7.00
LYTHRUM Roseum Superbum. Shrubby perennial 2 to 5 feet, at its best in cool and moist location although quite successful in the average border and among shrubs. Bright rose-colored flowers are borne freely in long term-		
inal racemes from June intermitently to Sept MALVA (Dwarf Mallow). Moschata. 1 ¹ / ₂ to 2 feet. July to	1.50	10.00
September. Fragrant flowers in clusters, of a rosy tint. Moschata alba. Exceptionally attractive; white, fragrant	1.00	7.00
flowers	1.00	7.00
MONARDA Cambridge Scarlet (Bergamot). Brilliant crim- son scarlet, showy plants growing from 2-3 feet high, succeeding in any soil or position, with aromatic foliage and producing their bright flowers during July and		
 August Salmanica. A salmon pink variety, flowers June to July. Myosotis Palustris. The true "Forget-me-Not," appealing in its modest, azure beauty and cherished for its sentiment. Bushes up to 18 inches high and blooms profusely 	$\begin{array}{c} 1.00\\ 1.00\end{array}$	$\begin{array}{c} 7.00 \\ 7.00 \end{array}$
during early summer.	1.00	7.00
NEPETA (Ground Ivy; Catnip; Catmint). Mussini. An ex- cellent plant for any position, but especially useful in the rock garden. Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender. 1 to 1½ feet.	1.50	10.00
OENOTHERA . Evening-Primrose. Fraserie. Erect hab-	1.00	10.00
it, fine deep golden flowers	1.50	10.00
PACHYSANDRA Terminalis—One of the best ground cover- ing plants, averaging 6 to 8 inches in height and branch- ing freely into a dense mat. Its shapely indented foliage is practically evergreen; thick, rubbery, lustrous dark green. It bears small spikes of light colored flowers dur- ing May and June	1.50	10.00
PAPAVER Orientale.	1.50	10.00
Bracteatum. Rich blood-red.	1.50	10.00
POTENTILLA. (Cinquefoil.) Formosa. Strawberry-like foliage, with cherry rose-colored flowers in summer, 1-2 ft.	1.50	10.00
Rupestris. 20 in. Flower white in June.	1.50	10.00
PENTSTEMON Barbatus Torreyi. (Beard Tongue)—Slender	1.00	10:00
spikes of bright scarlet flowers. 4 feet. June-August	1.00	7.00
Pentstemon acuminatus. Lilac or violet flowers in July. Stems erect, about a foot high. A very attractive flower		
and nice for cutting	1.00	7.00
showy, lilac or purple flowers	1.00	7.00
give it plenty of lime to bring out the color of the flowers.	1.50	10.00

Field view of one of our Peony Plantings. Inset at left, Baroness Schroeder, right, Felix Crousse. Good supply for Spring and glad to reserve stock for your Fall, 1928 needs.

PEONIES

Having propagated Peonies for the past seven years, we are now listing them in sufficient quantities to take care of your orders large or small. The divisions of varieties listed are of 3 to 5 eyes from 2 year clumps, with balanced roots, free from disease and guaranteed true to name. They are grown strictly for root production hence they are better.

Striking as they are in appearance, Peonies smile forth sweetly year after year in a lawn or landscape planting and require a minimum of care and attention.

We have a good supply for this spring and will also be glad to make reservations for you for Fall, 1928.

Per 10 Per 100

Albatre. A magnificent flower which opens like a rose. Pure white with a few pencilings of carmine on the edge	01 10 4	
of center petals. Fragrant; crown type; late midseason.		
An old variety, but one that will stand comparison with anything there is.	4.00	35.00
Alexandriana. Very large deep pink.	3.50	
Baroness Schroeder. Rose type; late. White with shadings	0.00	00.00
of flesh. This is one of the finest Peonies. Its im-		
mense flowers of great substance with high chalice-	•	
shaped center are freely produced, lasting a long time.	_	
Very fragrant.	7.00	60.00
Charles McKellip(Brand, 1907.) Crown type; midseas-		
on. Open rose-shaped and develops into crown type. The irregular rich crimson petals of the center are ming-		
led with gold stamens and surrounded by rows of broad		
silky guard petals. It has a charm peculiarly its own	15.00	140.00
Duchess de Namours. White tinged with yellow, fragrant	3.00	25.00
Felix Crousse. Medium, bright red, fragrant.	4.50	40.00

let. AugSept.	2.00	
TUNICA Saxifraga. Alpine Pink	1.00	7.00

Viola Jersey Gem. The persistent beauty of this variety makes it ideal for striking effects in a well planned low landscape planting. Ours are propagated from divisions of original stock and not from seed.

VIOLAS

THE plants we offer are strong field-grown clumps like those shown in the illustration, suitable for immediate results in the best landscape effects. Per 10 Per 100

VIOLAS, or Tufted Pansies. The improved forms of Viola		
Cornuta are rapidly growing in favor. They flower contin-		
uously for nearly eight months in the year; and while		
their flowers are not so large as those of the Pansy, their		
bright colors and floriferousness make them welcome		
additions to any garden.		
Admiration. Rosy purple	1.00	7.00
Blue Perfection. Deep purplish blue	1.00	7.00
G. Wermig. Alba. White	1.50	10.00
Cornuta, G. Wermig. Blue	1.50	10.00
Cornuta Lutea Splendens. Golden yellow.	1.00	7.00
Jersey Gem. (New) Possesses the dwarf habit and continu- ity of blooming of the true horned Viola (V. cornuta), and the vigorous, bushy growth and roundish foliage of the finest English bedding varieties. Color is pure, rich violet, and slightly perfumed. It is one of the best intro- ductions in the list of the hardy plants in recent years.		
See Illustration above	2.00	15.00

FORCING ROSES

FORCING Roses are another specialty with us. Many of our florist-customers have urged us to grow roses so they may order them along with Astilbes, Delphiniums, Lupines, Canterbury Bells and other items for forcing Roses do fill out our line nicely. Our customers appreciate the "one order to one concern" plan of buying and as about 75 per cent of our perennials are sold to florists we like to make it easy and pleasant for them to deal with us.

We propagate about 30,000 Roses for forcing each year. Our fall trade list will show a full count and description of our varieties. If you are in the market at that time we shall be pleased to serve you. Or if you wish, we will gladly book your order now and assure you that they will be priced right.

The most popular varieties we raise are Baby Rambler, Ellen Paulson, Edith Cavel, Erna Tischendorf, Eugene Jacquette, Ideal, Lafayette, Magna Charta, Orleans, Red Orleans and Verdun, in number one and two grades.

JOSEPH F. MARTIN

TRADE CUSTOMS

IMPORTANT. Please advise, when ordering, if you wish goods shipped by express or freight, giving best route for quick delivery. Write us on business stationery showing you are in the trade, and hence entitled to wholesale prices. It greatly facilitates selection and reservation of stock and shipment if orders are received early. All orders subject to prior sale.

PRICES. The prices in this catalogue are net, subject to change without notice, and f. o. b. Painesville, Ohio. Packing is charged at cost. This price list cancels all sales conditions and prices quoted in previous lists.

TERMS. Cash or satisfactory trade references must accompany all orders from purchasers unknown to us. To customers whose responsibility is known to us all bills are due net 30 days from date of invoice. On 60 day accounts and older 6% interest will be charged. 2% discount if paid by 10th of month following invoice.

OUR RESPONSIBILITY. While we exercise the greatest care to have our nursery products all genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that prove untrue, we do not give any warranty, expressed or implied. or guarantee them to live and grow or give specific results. In case of any error on our part, it is understood that we shall at no time be held responsible for a greater amount than the original price of the goods.

ADJUSTMENT OF COMPLAINTS. Complaints for adjusting must be mailed upon arrival of stock, direct to our office in writing.

TRANSPORTATION. When we deliver stock to a transportation company our responsibility for its safety ceases. Your claims for damage should be made promptly to the agent of the transportation company at the point of delivery.

INQUIRIES. It is part of our service to you to answer your inquiries promptly. We solicit your correspondence. It will help us, however, if you will make your inquiry as brief and clear as possible.

SHIPPING FACILITIES. Northern Ohio is so centrally located that freight and express shipments to all parts of the country is prompt and convenient. The main line of the New York Central and Nickel Flate railroads with a switch near our nurseries, and Cleveland terminals only 30 miles away make for fast freight service. The American Express Company maintains a Painesville office.

LOCATION. To find our nurseries, go west from Painesville to Randell Tavern and turn south on Chestnut street one-half mile. Visitors are always welcome.
