AL THEIR WORK IS GUARANTEED. The Best Vehicles for the Money on the Pacific Coast. Their new Illustrated Catalogue and Price List mailed free on application.

ADDRESS MAXON & ACKLEY, 911 and 913 Second Street, Sacramento, Cal.

## A COMPARISON.

Further layout here among the trees. With the... A knowing... Than to the... To that in the city.

## EXPERIENCE OF PEOPLE.

Throwing Light on the Problem, How Long Should One Know Folks Before Making Friends of Them?

## SHE WAS BUSINESS.

Danger of Trifling with Young Affections. There was a big excursion from Canada yesterday, and the Third Street depot was jammed full of the foreigners all day.

## AN ARCTIC LUNCH.

Taking Food When the Thermometer is below Forty Degrees F. About noon, or a little later, it is time to take a lunch, and that rest is consequently a little longer than usual.

## ARTIFICIAL RESPIRATION.

The Preservation of Life in Certain Cases. A simple method of respiration artificially produced, proposed by a London physician, and which is claimed to possess all the advantages of the Marshall, Hall, Sylvester, Howard and other methods, without any of their disadvantages, is thus explained:

## INNKEEPER'S REVENGE.

Getting the Better of a Great Statesman. John Randolph, being at an inn in Virginia, was about to leave, when the master of the house inquired which way he was traveling.

## FALSE NOSES IN THE PURJAB.

Restoring the Facial Promontory—An Ingenuously Operation. A correspondent of the Allahabad Pioneer gives an account of the Kangra's people who have long enjoyed a reputation as nose-makers.

## A LUMINOUS TREE.

It Gives Light enough To Read by. A most remarkable tree or shrub said to grow in a small gulch near some springs about twelve miles north of Tascara, is about six or seven feet in height, with a trunk which, at its base, is three times the size of a man's wrist.

## AN ELECTRIC FISH TRAP.

The Promise of Deep-Sea Fishing without the Necessity of Boat. It has long been known that fish, like birds and insects, are attracted by and will swarm around any source of illumination. Birds are killed in thousands by flying against the thick glass which protects lighthouse lanterns, and various insects are caught with the help of a light.

## HE WROTE HIS PRAYERS.

There is a story illustrating the Rev. Simon Peter Richardson's brightness of mind. On one occasion the venerable preacher was in company with several other divines, among them the Rev. Sam Jones, Uncle Simon Peter was on the programme for a prayer, and, preparing to leave the group, said: "You must excuse me, I have got to go and write my prayer."

## EXPENSE OF PEOPLE.

There was an ominous pause after this effusive statement. It was not pleasant to express less generous sentiments, but the countenance of the audience showed that they could not agree with him.

"You will find that you cannot go on that rule here," said one who has lived longer in this city, "I used to fast just that way and acted accordingly, but now I make it a rule never to invite an acquaintance to call until I have known him favorably at least three months."

"I am introduced to a stranger and like his appearance, I try to be cordial to him during that time. Not hearing anything against him, or seeing anything wrong about him, I then give him an invitation."

"I was awfully taken in once by one of the most charming fellows in the world. He looked like a prince and talked like an angel, but he is in Canada now and a bank down town mourns for him and several of the best doctors which he stole. Since then I have not been hasty in making friends."

"One of the nicest and daintiest of little women moved into the flat next to ours soon after brother was called here, and I told him I meant to call on her. I didn't go just then because I had to go home and take care of mother during a sickness."

"One day after I had got back I happened to pass her door while she was saying good-bye to a friend, and I heard more slang-words in one minute than in all my life before. You can guess that I decided not to make her acquaintance."

"You were perfectly right in saying that a year is not too long," said another lady, picking up the conversational thread. "When we first met on a street we had for near neighbors as nice a looking couple as ever were seen. The man went to his business every morning, and the woman was singing over her work all day long. My husband thought they were nice, and so did I, but we learned better before long."

"One night they had a supper party that began at 10 o'clock and ended at day-break. Everyone must have been drunk, for they sang and shouted so that nobody else in the house could get a wink of sleep. After that we heard them scolding each other every night, and at last something exploded like cannon crackers between them. Day commenced divorce proceedings and the wife was turned out of the house because she couldn't pay her rent and the husband would not."

"No doubt all of you are right from the point of view of personal interest," said the unsophisticated New Englander, who has not yet realized that personal interest tries the best of us in an inordinate measure. "You have had bad luck, but most people are good and well disposed. Now, I've just made some new friends in a very queer way, and I mean to stick by them until I find they are not all right."

"Last night when I was going up the stairs of my boarding house, in my usual underheaded, absent minded style, I turned into the room below mine by mistake."

"Thinking, of course, that I was in my own room I was dumfounded at its appearance, with trunks piled up in the corner and ladies' dresses hanging in the open street. A low, sweet female voice struck on my ear as I stood there amazed."

"Excuse me," she said, "is papa, and before I could turn, her arms were about my neck. Then she saw what had happened and accepted my apology, though not very graciously at first."

"We are good friends now, I am glad to say, and laughed over the accident this morning."—New York Press.

Two Ways of Looking at It. "When you ask for my daughter, young man," said the young lady's father, "do you know you are asking a great sacrifice of me?"

"Not necessarily, sir," responded Mr. Rankin, somewhat embarrassed, "I am anxious to reassure the old man. Marie says she doesn't care for an expensive wedding."

There was a story illustrating the Rev. Simon Peter Richardson's brightness of mind. On one occasion the venerable preacher was in company with several other divines, among them the Rev. Sam Jones, Uncle Simon Peter was on the programme for a prayer, and, preparing to leave the group, said: "You must excuse me, I have got to go and write my prayer."

## FALSE NOSES IN THE PURJAB.

Restoring the Facial Promontory—An Ingenuously Operation. A correspondent of the Allahabad Pioneer gives an account of the Kangra's people who have long enjoyed a reputation as nose-makers.

Even's come to them from the remotest parts of the Punjab, and even Atchankotan, actuated by the sole desire of having their facial promontory repaired or renewed. Their art is one especially granted to them by the great Dajreshiv Dev of the place. They therefore perform the operation with the greatest skill.

"It was only with great difficulty that I procured the following information respecting the means employed of this plastic operation for restoring the nose from an old ball and habitual opium eater. The old ball was a kind of a family doctor or professor of medicine to one of the nose-makers, and in this capacity had more than once witnessed the operation of nose restoration. He therefore considered himself in possession of the secret, if secret it is. His narrative runs thus:

"After drugging their patient with some narcotic, the Kangra's forthwith proceed to paint the forehead with a medicated lotion as a preliminary step. On asking the composition of this lotion, the only answer, somewhat was a groans shake of the head."

"The next step is to cut a piece of leather to the shape and size of the required nose. This being done, it is placed on the forehead and used to mark out the lines of incision. Then they beat the forehead with an old slipper until the part marked out becomes swollen and prominent."

"Zinc tubes, with a plate between them to serve the purpose of septum nasi, are then lodged in the nostrils. The next proceeding is to dissect a flap of the swollen flesh with a razor, leaving the lower part attached to the forehead. In doing this they take a vein with the flap, the name and position of which is a profound secret, known only to himself and the nose-makers. The success of the operation depends entirely on the preservation and careful dissection of this secret vein."

"The next step was to turn up the flap with the secret vein a particular way over the tubes."

"This being accomplished, the other parts of the nose are pared and fastened to it with silk ligature, and the whole thing is brought to an end by the application of a special ointment. For several days, until the wound is healed, the patient must keep a recumbent position."

"On union taking place the piece which was left attached to the forehead is severed, and the patient comes forth with a new-born nose. I ought to have mentioned that the removal of the skin tube is effected as soon as convenient."

## A LUMINOUS TREE.

It Gives Light enough To Read by. A most remarkable tree or shrub said to grow in a small gulch near some springs about twelve miles north of Tascara, is about six or seven feet in height, with a trunk which, at its base, is three times the size of a man's wrist.

It has innumerable branches and twigs, and resembles somewhat the bamboo tree. Its foliage at certain seasons of the year is so luminous that it can be plainly distinguished in the darkest night for a distance of more than a mile, while in its immediate vicinity it emits sufficient light to enable a person to read the finest print. Its foliage is extremely rank, and its leaves resemble somewhat the bamboo tree of California.

The luminous property is evidently narcotic, and consists of a sort of gummy substance, which, upon being transferred by rubbing to a person's hand, imparts to it the same apparently phosphorescent light, while that on the leaf entirely disappears.

## AN ELECTRIC FISH TRAP.

The Promise of Deep-Sea Fishing without the Necessity of Boat. It has long been known that fish, like birds and insects, are attracted by and will swarm around any source of illumination. Birds are killed in thousands by flying against the thick glass which protects lighthouse lanterns, and various insects are caught with the help of a light.

The difficulty of maintaining a subaqueous light has hitherto prevented the application of this simple principle to fishing. But now that we have at command an electric illuminant which is quite independent of oxygen, and which will therefore give light in a closed chamber, the difficulty is at an end.

With lamps arranged for the purpose, the United States steamship Albatross has been catching multitudes of the fishy tribes, the lamps being inclosed in fine netting to obviate risks of breakage. It is curious to note that if this method of fishing is found to be advantageous enough to become common, it will have arisen bearing upon the disputes which have arisen between the American and Canadian fisher folk, for the former will have no longer any need of troubling the latter for bait.—Chambers's Journal.

## HE WROTE HIS PRAYERS.

There is a story illustrating the Rev. Simon Peter Richardson's brightness of mind. On one occasion the venerable preacher was in company with several other divines, among them the Rev. Sam Jones, Uncle Simon Peter was on the programme for a prayer, and, preparing to leave the group, said: "You must excuse me, I have got to go and write my prayer."

CHRONICLE-UNION

BRIDGEPORT, SEPTEMBER 17, 1888.

Entered at the Bridgeport Postoffice as Second-Class Matter.

SAN FRANCISCO AGENTS.

E. C. DALL, 65 Merchants' Exchange. L. P. FISHER, 21 Merchants' Exchange. G. H. KEMLOD, 330 Pine street.

REPUBLICAN NATIONAL TICKET.

For President:

BENJAMIN HARRISON, Of Indiana.

For Vice President:

LEVI P. MORTON, Of New York.

ELECTORS.

JOHN F. SWIFT, W. E. L. BARNES, T. S. CAROTHERS, G. W. SCHELL, L. B. MINNER, S. M. SHORTBRIDGE, GEORGE A. KNIGHT, H. H. STREETER.

CONGRESS.

First District—J. J. DE HAVEN. Second District—J. A. EAGON. Third District—JOSEPH MCKENNA. Fourth District—W. W. MORROW. Fifth District—T. G. PHELPS. Sixth District—WILLIAM VANDEVER.

CHIEF JUSTICE.

WILLIAM H. BEATTY, Of Sacramento.

ASSOCIATE JUSTICE.

J. D. WORKS, Of San Diego.

"Were it possible for every voter of the Republic to see for himself the condition and recompense of labor in Europe, the party of free-trade in the United States would not receive the support of one wage-worker between the two oceans."—JAMES G. BLAIR.

The Indianians will doubtless be glad when the 6th of November is passed. It is said the Democrats have 2500 speakers engaged to stump Indiana, and the Republican 1500. "The people of Indiana deserve the prayers of the congregation in this hour of distress. It is fearful to contemplate that they will have to listen to 4000 stump speakers during the next month and a half."

What's the matter with Maine? Maine is all right! The Republican plurality at the election on Monday was 18,505, and they have a majority over all of 4,554.—The Democrats elected but two county officers in the whole State, and not one State Senator. The Legislature stands: Senate, all Republicans; House, 123 Republicans, 38 Democrats.

The California display at the Columbus, Ohio, Exposition is said to be very fine. A large map of California is shown, in which have been placed the New England States, New York, New Jersey, Delaware and Ohio, and yet California holds all these and has 490 square miles left. Let's "smile."

The Amador Dispatch, at Jackson, Amador county, has changed hands. W. M. Perry, who has published it for twenty-six years, having sold the paper to Wm. J. McGee and G. W. Daugherty. We wish the old and new proprietors every success in their new undertaking.

At a meeting of the Wool-Growers Association at Sacramento, on Thursday, a Committee was appointed to ask the Legislature for protection against the sheep lice.

On Thursday the Supreme Court refused to issue a mandate to compel Judge Coffey to summon a jury in the Goldenopol infancy case, and the young scoundrel was undoubtedly hanged yesterday.

Judge James Greer has declined the nomination of the American Party for the Vice Presidency. Give it to Frank Pixley, or Wigginton. Neither will decline.

The American Party of San Francisco has nominated Frank M. Pixley for Congress from the Fourth District in opposition to W. W. Morrow, and to assist in electing the Democratic candidate.

Congressman W. L. Scott, of the Erie, Penn., District, declines a nomination for re-election. He evidently hears defeat in the air.

Ben. Morgan, of Alameda, has the Democratic nomination for Congress against McKenna.

A cyclone struck Vera Cruz, Mexico, on the 5th, doing much damage. Several large vessels were driven ashore.

Prof. Richard A. Proctor, the Astronomer, died in New York of yellow fever, on Wednesday.

Governor Hill has been nominated for re-election in New York.

A heavy earthquake shock occurred at the City of Mexico on the night of the 6th.

The President has approved the Naval Appropriation bill.

Chauncey M. Depew has returned home.

THE ASSEMBLY HUBBLE.

"This Assembly District is composed of the counties of Alpine, Inyo and Mono. For several years Inyo and Mono have alternated the Republican nominees and Alpine has assisted in their election. Last time Hon. A. J. Gould, of this county, was the successful man, and his course was so satisfactory that many of our people would like to see him returned. Mono claims the Republican nominee under the existing rule. In that county our party will nominate by the Crawford County Plan, and as there are six candidates for the nomination we very much fear that whoever wins will prove unpopular in the election. Meanwhile the Republicans of Alpine, who cannot and should not be ignored, have nominated Hon. Cyrus Coleman for the Assembly, and ask the other counties of the District to endorse him. Fairness would dictate that Alpine should have the nominee."—Inyo Index, September 5th.

The above smacks of a revolt in Inyo in favor of the claims of Alpine to have the nomination of the Assemblyman this year from this District. The American Party of Inyo have their Convention on the 2d of October, and it may endorse Cyrus Coleman, which will stir the middle more, and it now remains to be seen what the Inyo Republican Convention will do in regard to Alpine's claim. The situation in this county does not seem to be ominous of a "walk over" for the Republican candidate, as there are many here who are inclined to favor Alpine's claim.

Cleveland and Harrison have given their letters of acceptance to the public. That of Cleveland's is an exhaustive effort in defense of his free-trade message and the Mills bill. Harrison comes out squarely for Protection to American industries; in opposition to the admission of Chinese, and also the admission of criminals and paupers from Europe; opposes the importation of laborers under contract; favors using the "surplus" to purchase Government bonds and stop the payment of interest; believes that every elector is entitled to a free ballot and an honest count; believes that all Territories, when they contain the requisite population, and without regard to politics, he is opposed to Trusts; favors pensioning those who fought for the Union; indorses Civil Service reform, and believes in upholding the honor of the country at home and abroad. In reference to the tariff, Harrison says: "Our workmen have the settlement of the question in their own hands. They now obtain higher wages and live more comfortably than those of any other country. They will make their choice between the substantial advantages they have in hand and the defective promises and forebodings of those who are urging reform. They will decide for themselves and for the country whether the protective system shall be continued or destroyed."

On the continent of Europe tariff wars are raging between all the protectionist countries, with effects admittedly injurious. In the United States President Cleveland's Message carries with it the promise of such measures of tariff reform as may, in the course of a few years, make something like a revolution in international trade.—Report of the Cobden Club.

And so Grover Cleveland stands up as the great champion of free trade, whose work, if successful in the United States, will effect a great "revolution" in international trade. The report of the Cobden Club points out that if protection can be broken down in the United States the task will be easier in the "rest of the world." Nothing in recent years has given such an impetus to free trade in England as the message and letters of Grover Cleveland.—Ex.

TRUMAN'S CREAK LABOR.—In 1879, while speaking on the Chinese question, Allen G. Truman, the "Old Roman" of the Democracy, showed his love, and interest in the welfare of the laboring men of this country, when he said: "Free immigration would be advantageous as furnishing a set of cheap and efficient laborers."

A newly established paper in New York, called the Democrat, and started for the dissemination of genuine democratic doctrine, says in its opening political article: "Fellow Democrats, let us assert the faith that is in us. Why not tell the real truth, and declare that we not only favor tariff revision, but that we consider it only a step toward the abolition of the entire system?"

Startling Discovery.—The discovery by the inhabitants of a locality hitherto unvisited by the pestilential scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Subsequently, when it is ascertained, as in the case of some who have been benefited and cured, that Hostetter's Stomach Bitters is a thoroughly efficacious eradicator of the malarial poison, and the means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all the diseases impairing the organs of digestion and assimilation.

NEW TO-DAY. Hostetter's Stomach Bitters is a truly remarkable medicine. It is a thoroughly efficacious eradicator of the malarial poison, and the means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all the diseases impairing the organs of digestion and assimilation.

It is a thoroughly efficacious eradicator of the malarial poison, and the means of fortifying the system against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides the febrile forms of malarial disease, dumb ague and ague are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, liver complaint, debility, kidney troubles, and all the diseases impairing the organs of digestion and assimilation.

Cuba has been visited by a terrible cyclone, much damage being done.

MINING NOTICES.

Notice to Co-Owners.

YOU ARE HEREBY NOTIFIED THAT I have expended the sum of Three hundred dollars in labor and improvements upon the Discovery Mining Claim or Lode, and the Patterson Mining Claim or Lode, being One hundred and twenty acres of land, situated on the north side of the State of California, in order to hold said premises under the provisions of Section 2324 of the Revised Statutes of the United States, and if within ninety days from the expiration of the publication of this notice (said notice to be published ninety days from the date of its first publication) you fail or refuse to contribute your proportion of such expenditures, as co-owner, to wit: the sum of Sixty (\$60) dollars, interest in said claims will become the property of the subscriber under said Section 2324.

HENRY WILLIAMS. Clinton, July 24th, 1888. First publication July 23, 1888. 1529-90d.

No. 281.

APPLICATION FOR A PATENT.

U. S. LAND OFFICE INDEPENDENCE, CAL., August 4th, 1888. NOTICE IS HEREBY GIVEN THAT THE MONTE CRISTO CONSOLIDATED MINING COMPANY, a corporation organized under the laws of California, has this day filed its application for a patent for a Magistrate variation 16 1/2' East, containing 20.63 acres, situated in the Township of Fryling Pan, Range 25 East of Mount Diablo Base and Meridian, said Lot No. 43 being described as follows, to wit:

GENERAL GRANT. Beginning—Commencing at N. E. corner of 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 1, N. E. corner of 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 2, N. E. corner of 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 3, N. CHRONICLE-UNION.

BRIDGEPORT, SEPTEMBER 15, 1896.

Republican Central Committee.

Henry E. Wright, Chairman, Albert E. Wilkinson, Secretary, Nathaniel W. Boyd, Treasurer, John Tucker, James G. Watson, George H. Hump, Isaac S. Burnside, Wilson Butler, Augustus Pettibone, Robert M. Folger, N. B. Hunewell, Robert A. Cameron, E. Gray G. Montrose, James G. Thompson.

LOCAL INTELLIGENCE.

THE REPUBLICAN PRIMARY ELECTION.—The Republican primary election took place in this county on Saturday last under the Crawford plan and agreeably with the provisions of the State law regulating primary elections. A pretty full vote was brought out, there having been much interest taken in the nomination of Assemblyman, Superior Judge and Sheriff. There were 556 votes polled. The contest over the Assemblyman narrowed down to a close fight between Harvey Boone and Wilson Butler, Boone receiving three votes over Butler, a considerable vote having been scattered among four other candidates, who were "snowed" under from one to four feet deep. The vote for Superior Judge was: J. E. Goodall 211; H. M. Eddy 142. For Sheriff, Wat Morgan, our present Sheriff, received 198; R. G. Montrose 150. The Central Committee will probably re-count the Assembly ticket. Aside from the Assembly, the Republican County ticket will be as follows: Superior Judge, J. E. Goodall; Sheriff, Wat Morgan; Clerk, Auditor and Recorder, O. H. Kister; District Attorney, Frank Hanson; Treasurer, Joe A. Brown; Coroner and Public Administrator, D. M. Walters. The Central Committee will canvass the returns this evening.

A BUSY DAY.—Wednesday was a gala and busy day for Bridgeport. About 9 o'clock the Bodie Democratic delegation arrived, accompanied by the Bodie Brass Band, which favored our citizens with some excellent music soon after their arrival at the Allen House. Many delegates arrived the night before, and our streets were graced with groups of delegates and candidates, button-holding being indulged in to a very great extent, the Republican Assembly muddle in Alpine encouraging the Democracy to think that they might wedge a Democrat into the Assembly from this District this year. A number of ladies accompanied the Bodie delegation, and they added much to the pleasures of the day.

THE BODIE BAND.—The Bodie delegation to the late Democratic Convention brought with them the Bodie Brass Band to add to the interest of their Convention. The Band is composed of some of the best young men of our sister town, and belongs to both political parties, the Republicans wearing for the occasion the Democratic regulation but and yielding with their Democratic friends in making the occasion of their visit as pleasant as possible. They played finely and were not loth to show our people that they could make good music, and we may say that it is the best interior band we have heard in many days. Their performances were a treat to our people, and fully appreciated.

THE CONVENTION.—The Democratic County Convention, which met here on Wednesday, was composed of a good looking set of delegates, all leaders and wheel horses of the party. They made a good ticket and everything passed harmoniously, although there was a little "kick" about the Assemblyman. The talking delegates were excusable for indulging in the usual Democratic brag about "carrying a county" that has 150 Republican majority in a small vote. The ticket is not one that should draw Republicans from their own ticket, which is a good one, having no weaker spot on it than the Democrats have on theirs.

MINER KILLED.—On Sunday morning last while James Kennedy was coming up the Lunt shaft on the cage with others for lunch, he was heard to groan, and loosened his hold on a brother miner, and fell to the bottom of the shaft, some 600 feet. His body was quickly brought to the surface and carried to the Undertaker's and afterwards to Miners Union Hall, from which they were shipped to San Francisco the same night for interment. The deceased was well liked, was 27 years old, and leaves a wife and one child in San Francisco.

HALE BROS. & CO.—We call attention to the new advertisement of Hale Bros. & Co., of Sacramento, the great dry goods house. Those who have dealt with this firm can testify to their fair dealing with all who favor them with their business. Send for their new catalogue.

ADMITTED TO PRACTICE.—On Tuesday, Judge Hakes admitted Frank P. Willard, of Bodie, to practice in the Superior Court. Mr. Willard underwent a severe and critical examination and acquitted himself creditably.

THANKS.—For a complimentary ticket to the Second Annual Fair of the Eastern Slope Agricultural Society which was held at Bishop Creek this week. Had it been later in the season we would have attended both Fairs held in Inyo.

SHOWERS.—Last night we had several fine showers, which laid the dust, and will make traveling much pleasanter.

As we go to press the wind is blowing big guns.

DEMOCRATIC COUNTY CONVENTION.

The Democratic County Convention assembled in the Superior Court room on Wednesday afternoon. The jury seats were occupied by ladies, many of whom were from Bodie. Previous to the meeting of the Convention the Bodie Band, stationed at the entrance of the Court House, played several beautiful airs, which were greatly appreciated by our people.

At 1:30 E. Fitzgerald, Secretary of the Democratic Central Committee, called the Convention to order, the Chairman of the Committee not being present, and called the roll of delegates, after which C. A. Schuman moved that W. O. Parker, of Bridgeport, act as Temporary Chairman, which was adopted, and, on motion, John Dolan, of Mono, and C. A. Schuman were appointed a Committee to escort Mr. Parker to the Chair.

On taking the Chair Mr. Parker briefly thanked the Convention for the honor and called for the nomination of a Secretary. Orlando E. Jones was appointed Secretary. A. M. Phlegar, M. Ryan and Geo. Kinney escorted him to his desk. Thus Flynn and Fred Stewart were appointed Sergeant-at-Arms. C. A. Schuman moved that Oscar Morgan be appointed Page. The motion was adopted amid great applause.

On motion of I. McKean it was ordered that a Committee on Credentials, consisting of five, be appointed. On motion of C. A. Schuman, the Chair was requested to appoint a Committee of seven on Permanent Organization and Order of Business. A. M. Phlegar moved that a Committee of seven be appointed to report a Platform and Resolutions, which was adopted. The Chair then ordered a recess for 15 minutes to enable the Chair to appoint the several Committees.

Convention reassembled at 2 o'clock and the Chair named the following Committee: Credentials—I. McKean, M. L. Virden, John Sheehan, Frank Owens and Geo. C. Kinney. Permanent Organization and Order of Business—C. A. Schuman, M. T. Chappell, S. Frost, A. Cordes, H. Barnett, Thos. Edwards and John Dolan. Platform and Resolutions—A. M. Phlegar, O. E. Jones, M. P. Hays, A. J. Severe, P. Geelhood, R. S. Miner and M. J. Kelly.

On motion of C. A. Schuman the Convention then took a recess till 3:30 to allow the Committees time to prepare their reports. Roll call at 3:30 o'clock. C. A. Schuman submitted Report of Committee on Permanent Organization and Order of Business, as follows: We recommend that the Temporary officers of this Convention be made its permanent officers.

ORDER OF BUSINESS 1.—Report of Committee on Credentials. 2.—Adoption of Platform. 3.—Appointing of Central Committee, to be apportioned as follows: Antelope, 1; Benton, 1; Bodie, 9; Bridgeport, 2; Clinton, 1; Lundy, 1; Mono Mills, 1; Mammoth, 1; Vernon, 1. 4.—Nominations for Superior Judge. 5.—Nominations for Sheriff. 6.—Nominations for County Clerk, Auditor and Recorder. 7.—Nominations for Treasurer. 8.—Nominations for District Attorney. 9.—Nominations for Coroner and Public Administrator. 10.—Nominations for Joint Assemblyman for the 72d District. 11.—Nominations for Township Officers by the different Townships.

We further recommend that all candidates, except Supervisors and Township officers, before this Convention be assessed \$10 each, to be paid to the Secretary at the time each candidate is placed in nomination, said assessment to be used for the purpose of defraying the expenses of the Convention. The report was adopted. Mr. Parker thanked the Convention for the honor conferred on him, and made a short Democratic speech, which was duly applauded. The Committee on Credentials reported the following as entitled to seats in the Convention: Bodie—W. Roush, A. M. Phlegar, proxy; C. A. Schuman; O. E. Jones, proxy; M. T. Chappell, A. A. Carion, M. Marks, P. Fahy, P. Walheim, R. McGinnis, M. J. Kelly, proxy; Thos. Colligan, M. J. Kelly, R. S. Miner, proxy; A. M. Phlegar, Dan. Buckley, proxy; Richard Noonan, H. Colligan, proxy; I. N. McKean, James Glenn, John Dolan, M. L. Virden. Benton—Peter Geelhood, John Kremkow, P. Geelhood, proxy; Thos. Edwards. Antelope—Homer Barnett, Sheldon Frost and Frank Owens. Vernon—A. Thompson, C. A. Schuman, proxy; A. Gardella, N. Dondoro. Lundy—A. Cordes, —, Barrett, A. Cordes, proxy. Clinton—M. Ryan, John H. Sheehan. Mono Mills—Geo. C. Kinney, W. H. Vance, Geo. C. Kinney, proxy. Bridgeport—David Hays, M. P. Hays, proxy; W. O. Parker, F. M. Richardson, A. J. Severe, James E. Stewart. On motion of Schuman the report was adopted.

That we still fear the great evil of Chinese immigration, and, in our humble way, demand immediate and final legislation on this overpowering evil by our Senators and Representatives in Congress assembled, regardless of party feeling or spirit in any shape whatever, and that we suggest total exclusion as the only remedy for the evil.

That the people of that county are entitled to equal representation with those of Mono and Inyo. That the gentleman who may be nominated for Joint Assemblyman by this Convention shall pledge himself to at once study up the wants, interests and needs of the people of Alpine county, to the end that he may secure to them all the wants they ask, in so far as may lay in his power, in case he is elected.

On motion of Schuman the Resolutions were adopted by a rising vote. Schuman moved that in appointing the Central Committee, that delegates appoint the members for their precincts, to be approved by the Convention. The following Central Committee was then appointed: Antelope—Fred Hardy, Benton—W. D. Mitchell, Bodie—O. E. Jones, C. A. Schuman, A. M. Phlegar, A. A. Carion, John Dolan, M. T. Chappell, M. Marks, M. J. Kelly and A. L. Lazard. Bridgeport—A. J. Severe and F. M. Richardson. Clinton—John H. Sheehan. Lundy—R. T. Pierce. Mono Mills—Geo. C. Kinney. Mammoth—Thomas Price. Vernon—John Mattley.

On motion of Cordes the Convention approved the appointments. Nominations for Superior Judge being in order, Dan. Buckley nominated the incumbent, Judge O. E. Hakes. The Judge took the stand, paid his \$10 entrance fee, and assured the Convention that if nominated and elected he would perform the duties of the office with equity to none, and impartially, giving equal and exact justice to all; that his future acts as a Judge must be judged from his past record. The Judge was nominated by acclamation. For Sheriff, M. J. Cody, of Bodie, was placed in nomination by A. J. Severe. Mr. Cody paid his \$10 and said he had a hard fight on his hands, but would try to get elected. He, also, was nominated by acclamation.

For County Clerk, Auditor and Recorder, Mr. Parker called Mr. Schuman to the Chair, and with a few eulogistic remarks placed in nomination Eugene Fitzgerald, of Bodie, who was nominated by acclamation after paying his \$10 and indorsing the resolutions. For Treasurer, C. A. Schuman placed in nomination one whom he said was as well known as Castle Peak is—Z. B. Tinkum, the present Treasurer. Mr. Tinkum paid his "Irish dividend" of \$10 and said he would draw his salary regularly and try to earn it if re-elected. For District Attorney, Geo. C. Kinney placed in nomination F. P. Willard, of Bodie. R. S. Miner seconded the nomination, and spoke highly of Mr. Willard. O. E. Jones placed in nomination C. L. Hays, of Bodie.

The nominations were closed and the Chair appointed M. Ryan and G. C. Kinney Tellers. Both candidates paid the \$10 fee and made good Democratic speeches. The ballot resulted as follows: Hays—24. Willard—12. Mr. Willard moved that the nomination of Mr. Hays be made unanimous, which was carried. On motion of Schuman the Convention adjourned till 7 P. M. At 7:30 the Convention was called to order, and roll called. For Coroner and Public Administrator, M. Ryan placed in nomination W. L. Thayer, of Bridgeport, who was unanimously nominated.

For Assemblyman, Dan. Buckley placed in nomination B. S. Miner, and it was seconded by Geelhood, of Benton. O. E. Jones nominated Pat. Curtis, of Bodie. Mr. Miner took the stand, paid his \$10, and made a very good address, counseled harmony, and did not wish the nomination if the harmony of the party was to be impaired. He indorsed the resolutions, Cleveland and Thurman, and everything Democratic. Mr. Curtis then followed. He was surprised that there should be an opposing candidate; he did not know Mr. Miner was a candidate until he reached Bridgeport, and was told that Mr. Miner did not want the office, but he (Curtis) did, and he "waited it out," and had worked hard for it for the past two months. He wanted the Convention to adjourn till next morning, but the Convention voted against an adjournment, so he paid his \$10, indorsed the resolutions and said he was "not sore." Phlegar and Marks were appointed Tellers, and balloting proceeded, with the following result: Miner—26. Curtis—10.

Ryan moved that the nomination of Mr. Miner be made unanimous. Carried. Schuman moved that the several delegations meet and nominate Supervisors and Township officers and report the names to the Secretary of the Central Committee before Saturday, the 23d. Adopted. The usual resolution of thanks to the officers was adopted. The Convention then voted \$10 each to the Secretary and Sergeant-at-Arms, and \$5 to the Page, and adjourned with three cheers for the entire Democratic ticket.

The following is the full county ticket: Joint Assemblyman, R. S. Miner; Superior Judge, O. E. Hakes; Sheriff, M. J. Cody; Clerk, E. Fitzgerald; District Attorney, C. L. Hays; Treasurer, Z. B. Tinkum; Coroner and Public Administrator, W. L. Thayer.

THEY MUST INTERFERE.—There are Democrats in this county who cannot help interfering in the Republican Primaries or Conventions, and they had to have a hand in the Republican Primary of last Saturday, notwithstanding the election was under the State law, which makes it a misdemeanor for a member of the opposite party to vote at or interfere in such elections. Some ten or twelve Democrats voted at Lundy, and it is said that four voted at Bodie, and one at Bridgeport.

DECEASED.—Rev. Warren Nims, died in Amador county, August 30th, of cancer in the face, at the age of nearly 68 years. The deceased was an earnest Christian, and a hard worker in the Lord's Vineyard. While stationed in this vicinity Mr. Nims worked hard in the cause, and laid with his own hands the foundation for a church building on Main street, just above Bryant's Hall. None of his successors have attempted to carry on the work so nobly begun by him. His widow is a sister of William Hickey, of Antelope Valley, father of T. B. Hickey.

WILL MEET.—The Republican Central Committee will meet at Bodie this evening to canvass the returns of the Primary election.

FOR SUPERVISOR.—The Democrats have nominated John Mattley, of Mono Lake, for Supervisor of this, the Fourth, District. The Convention ball on Wednesday night was largely attended and very enjoyable.

INVO ITEMS.—We gather the following from the Inyo Register, of the 6th: Geo. F. Willis, formerly of Antelope Valley, is to teach the primary department of the Bishop school. Rev. T. E. Sison has gone to Mason Valley—his new station. Ben. J. Bangs and Hugh Wilson, from Bridgeport, are at Bishop with some Bridgeport horses, among which are Allen's "Queen." "J. I. C.," the young Bridgeport horse which Andy Allen trotted here last year, has been sold to E. W. Clark, of Hawthorne, to match "Jim," sold from here by Ben. Williams. Inyo has seven Republican candidates for Sheriff, four for Clerk and two for Treasurer.

A. J. Davis reports the finding of some new mystery in the metal line, in the mountains near Independence. It appears it resembles lead. Assays and tests, however, prove it to be something else. Mr. Davis informs us that nitric acid does not effect it in the least. It has been assayed for nickel and other metals, but as yet does not show what it is. There is a four-foot ledge of the stuff.—Inyo Register. The above is probably a brother mine to the mysterious mine of Antelope Valley.

R. E. Monegan, a prominent lawyer of Pennsylvania, and who was talked of as a Democratic candidate for Governor of that State, is out in an open letter in which he "burns the bridges between himself and Cleveland and his tariff views," and says he will support Harrison and Morton.

LOG CABIN SONG BOOK.—A. H. Smythe, of Columbus, Ohio, has issued the Log Cabin Song Book of 1840 revised for the campaign of 1896. It is a book of 64 pages, and contains all the famous campaign songs of '40 with the music. Send ten cents and get one.

MUST GO, CAR'S HELP IT.—Selling goods at cost. Salisbury will give all a fair show.

LADIES, when you go to Bodie, call on Salisbury and get your dress goods at cost.

BOUND TO GO.—Salisbury has a choice lot of shoes for sale at cost.

MISCELLANEOUS. ROYAL BAKING POWDER Absolutely Pure. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the imitations of low cost, short weight, alum or phosphate powder. Beware of cheap imitations. ROYAL BAKING POWDER CO., 108 Wall St., N. Y.

BRIDGEPORT Livery and Sale Stables Corner of Main and Sinclair Streets, BRIDGEPORT, MONO COUNTY, CAL. HAY AND GRAIN FOR SALE. Horses boarded by the day, week and month saddle horses and buggy teams to let. 2215-11 P. E. VAN LOAN.

IT IS READY.

We are pleased to announce that the FALL AND WINTER edition of our CATALOGUE is now ready for distribution. It is a large-sized, handsomely printed volume, containing 128 pages and over 1,500 illustrations. It is full of facts and figures that set forth information both valuable and interesting, moreover

IT TELLS YUU HOW

To effect a saving of from 10 to 40 per cent. on over a hundred lines of merchandise. In short, on nearly all household supplies. No risk incurred by the customers. All goods not as represented can be returned at our expense. Orders are filled from the largest stock of merchandise on the coast. Goods of every description, not carried by us, will be purchased outside, and extra expense is thereby saved customers.

A POSTAL CARD REQUEST

will bring you the CATALOGUE by return mail. We believe it to be the best SHOPPING GUIDE issued west of the Mississippi.

HALE BROS. & CO., HEAVIEST IMPORTERS,

On the Coast, of DRY GOODS, CLOAKS and WRAPS, BOOTS and SHOES, CLOTHING, FANCY GOODS, TRUNKS, ETC.

CHRONICLE-UNION.

SEPTEMBER 15, 1888.

A WEDDING TOUR IN TOWN.

A Young Man from the Country Who Did Not Care When He Got Home.

Two men were standing on the bridge in the public garden, looking over the pond as the gayly gliding gondolas moved to and fro over the water.

"Ain't them pretty, anyhow?" asked one.

"Them boats?"

"Yes, the hull thing. What takes my eye is the heads of them bein' made like geese."

"Them gans," corrected the other.

"Well, you're then. I've seen geese look about as well, though."

"I've seen 'em, but I've seen 'em in the pond as they come along. They must be careful spoons on each other, no mistake."

"As the boat nearest, the man in it looked up and called out:

"Hello, Jake! By gosh, I thought some 'bress you all the time, but wasn't sure till I got close up. How'd ye? When'd ye get home?"

"Well, I be gosh durned 'taint' Bobb Jones 'n his wife," cried he on the bridge.

"Well, I knowed you was on a wedding tower somewhere, but I didn't know you was hangin' out here 'bout this time. Ha, ha, ha!"

"I was just 'savin' to Lem, them two people in 'at boat must be geese. Well, now, you 'low that was a pretty neat guess for a fellow that never been here himself."

"That's so, by gosh, you deserve gettin' there, Jake."

"Say, when're ye coming home, o folks want to know."

"Don't know myself. I'm a leavin' such a darned good time soon, the night I don't much care so I fit there 'fore the crops'll be in."

THE RETORT COURTEOUS.

Don't Give Away Your Wedding Presents.

When the sister of the governor of a neighboring State was married a few years ago, she received a quantity of valuable presents, and among them several many pieces of plate and silverware of all sorts.

After the wedding, and when they had returned from the honeymoon, the bride found that she had no immediate use for her mother's house, so she considered some of it to be carried to her town.

The first spoon she carried to the town. A few months later she received an invitation to attend a wedding of a school-ma'am in a neighboring town.

She knew she would have to go to New York to buy a suitable present, and she didn't care about taking the journey just then.

All at once the idea came into her head that she had a great quantity of spoons. Why should she not send some of them to her school-ma'am in a present?

There seemed to be no objection, so she sent the latter down to the bank with the spoons, and she was very glad to see the school-ma'am so pleased with them.

It is not wise to give away your wedding presents.

JUST AS RIDICULOUS.

A Prophecy with regard to Women's Attire as it Now Is.

We laugh at the immense height, the small bonnets and pinched waists of thirty years ago, and yet our present fashions will appear as ridiculous to our grand-children.

Regarded from a dispassionate point of view, could anything be more absurd than the women of the day with their immense bustles, like the hump on the backs of the mules, rising abruptly from waists like those of stunted dwarfs, and shoulders distorted by the compression of the corset?

Ridicule is of no avail, appeals to common sense are just as useless, and unless the woman of the future is a very different being from the woman of the past, the present, ridiculous, monstrous, and injurious fashions will remain with us as long as we have ever done.

We are so swathed in the garments of conventionality that our faces, compressed and distorted out of all semblance of symmetry, appear to us as beautiful as the free and natural lines of the Greeks and Romans.

Each woman should be independent enough to assert her own individuality, and attire herself in garments that are at the same time graceful and becoming.

When the age of reason in dress has been attained, then, indeed, will women be in the sunlight of the golden age of a neat, healthy and healthful, and revel in the delicate and limber unfettered with heavy, clinging draperies and forms un-compressed by stiff, ungainly stays.

The Orator's Voice.

There is no doubt that one of the most useful qualifications of an orator is a good voice. Burke failed in the House through lack of it, while William Pitt, through the possession of it, was a ruler there at the age of 21.

Mr. Locky says that O'Connell's voice, rising with an easy and melodious swell, filled the largest building and triumphed over the wildest tumult, while at the same time it conveyed every inflection of feeling with the most delicate flexibility.

MINING NOTICES.

No. 279. APPLICATION FOR A PATENT.

U. S. LAND OFFICE INDEPENDENCE, CALIF., August 4th, 1888.

NOTICE IS HEREBY GIVEN THAT THE MONTE CRISTO CONSOLIDATED MINING COMPANY, A. KILPATRICK, Agent, whose Post Office address is Cameron, Mono County, State of California, has this day filed its application for a patent for fifteen hundred (1500) linear feet of the Monte Cristo Quartz Mine or vein bearing gold and silver, with surface ground six hundred (600) feet in width, situated in Patterson Mining District, Mono County, State of California, and designated by the field notes and official plat on file in this office as Lot No. 11, Township 7 North, Range 3 East of Mount Diablo Base and Meridian, said Lot No. 11 being described as follows, to-wit:

Beginning—Commencing at the N. E. corner of a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked with India ink and brush, Post No. 1, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 1, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 2, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 2, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 3, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 3, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 4, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 4, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 5, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 5, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 6, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 6, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 7, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 7, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 8, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 8, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 9, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 9, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 10, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 10, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 11, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 11, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 12, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 12, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 13, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 13, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 14, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 14, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 15, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 15, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 16, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 16, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 17, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 17, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 18, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 18, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 19, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 19, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 20, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 20, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 21, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 21, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 22, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 22, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 23, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 23, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 24, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 24, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 25, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 25, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 26, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner of Section 31, and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 11° 28' E., 16.00 chains, distant, running thence Magnetic Variation 15° 15' E.

Course No. 26, N. 75° 57' W., alongside hill on level, 2.00 chains, ascend slope of 28° 1/2 Mils, 200 feet, encounter 4x4 pine post, 4 feet long, set in mound of rock and marked with India ink and brush, Post No. 27, N. E. corner, 200 feet from the N. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 3 E., M. 2 S., bears S. 49° 34' E., 82.45 chains, as called from traverse. This corner being common to S. 1/2 corner of P. & C. U. S. Survey, W. corner, and Livingston N. W. corner, from which the entrance to Tunnel No. 1 bears S. 49° 34' E., 3.88 chains, distant 100 feet from the N. E. corner
