CITY SCHOOL FUND FOR NEXT TERM IS \$265,362

Outline of Finances Shows What Departments Will Receive in 1922-23

The Glendale city school system will have approximately \$265,362 to spend for current expenses during the coming school year, according to an announcement this morning by Superintendent Richardson D. White. Will this sum be sufficient, is the question which is confronting the grammar school board of trustees. "It will have to be," exclaimed Mr. White. "So far as I know there is no other way to get any more."

This sum, however, does not include the balance on hand of the \$260,000 bond issue voted last fall for the construction of new buildings. A large portion of this fund has been spent already and arrangements have been made to pay out the balance as soon as buildings now under construction have been officially approved by the school board. No portion of this fund can be spent for current expenses in the school district.

Various Expenses
The largest single item of expense for the maintenance of schools, according to Mr. White, is salaries. One hundred and eighteen teachers will be employed next term. The kindergarten teachers will receive \$12,500; other regular teachers will get \$147,330 and principals and supervisors will receive \$38,760. This makes a total of \$199,590 for teachers' salaries. To this must be added the wages of twelve janitors which amount to \$22,000.

The expense of administration for the district amounts to \$10,800.00. This sum includes the salaries of the superintendent of schools, the business agent for the district and three stenographers. It also includes a number of other expenses.

Mark Kasper, county superintendent of schools, has informed the city board of trustees that the county tax rate for school purposes will amount to 29 cents per \$100 besides the amount fixed by the county board of supervisors for the retirement of school bonds and the payment of interest upon them. To this must be added a (Continued on Page 16)

Turtle 'Arrested' Exceeding Speed Limit on Street

Who says turtles aren't intelligent? A turtle by the name of Pete has been located who knows enough to migrate from the ocean to the foothills. He was observed yesterday in the 500 block on North Central avenue—headed north. Officer Jock Seddon promptly arrested him for exceeding the speed limit. The local police department not having a suitable place to confine this speeder until the date of his trial, Pete has been taken to 205 West Acacia avenue by Lieut. Joe Griffin. It is understood that he is under no more than a turtle soup—unless it comes out of a can.

DOG AND CAT LAW PASSED BY CITY COUNCILMEN

Animals Must Be Kept at Home, Says Ordinance; Action Temporary

The ordinance regulating the keeping of dogs and cats within the corporate limits of the city of Glendale was unanimously passed by the city council last night, effective immediately. The law provides all dogs and cats must be kept on private property; if permitted to run at large they are liable to be shot and the owners prosecuted. Strict confinement on private property of dogs and cats, under restraint of leash, closed cage or fence was asked for by Dr. G. Kaemmerling, city health officer, following evidence that there are dogs in the city suffering from rabies and that several persons have been bitten. Citizens Protest

Passage of the ordinance was not accomplished without protest. When the city council met last night, Mayor Spencer Robinson read the ordinance and explained that he was a dog lover; that he wanted to protect his own dogs from those who might have rabies, and that the children of Glendale must be protected at any cost or inconvenience.

City Health Officer Kaemmerling told of the medical side of the matter and reiterated his statements already published in The Glendale Evening News. He concluded with: "We have to keep our dogs or children at home. If the city does not take charge of the situation, the state of California will—that is positive."

Later during the discussion the health officer declared that the ordinance would have to remain in effect thirty or sixty days—perhaps longer—also depending on the local situation. Hear Objections Mayor Robinson called upon people in the audience to express their views. Mrs. John S. Knox made a point in which a dog was made a world war hero, following which she strongly protested against the passage of the ordinance and read expressions from a number of medical men to prove some of her declarations. R. L. Dell urged that the ordinance be changed so that dog owners might take the animals on a leash for exercise. J. H. Murphy inquired if the ordinance would prevent a dog from being taken on the streets in an auto and was informed it would. "However, I don't think the police will take a dog out of an auto or remove it from a leash while the owner is exercising it on a side street," said Mayor Robinson.

The measure was passed on motion of Councilman Dwight W. Stephenson, seconded by Councilman Sam Davis. Members of the council while not expressing themselves last night—the mayor acting as spokesman—take the view that the life of one child is worth more than all the dogs in Glendale, so they have privately stated.

Old Settlers Meet In Picnic Saturday

Plans are now complete for the annual picnic tomorrow of the Old Settlers' Association, according to J. C. Sherer, the president, of whose home the affair is to be held. The old settlers will gather at Somerset Farm, 717 South Verdugo Road. All Glendale folk interested in the early history of the city have been urged to attend. The main feature of the day is to be the relating of experiences by the early settlers. A basket luncheon is to be a mid-day feature.

AUTOS IN COLLISION

A Ford driven by James S. Euseke of 632 West Lexington avenue and a truck driven by P. E. Maxwell of E. Maxwell & Co., Schoenauer Lumber company, 460 West Los Feliz road, collided yesterday near 1742 Gardena avenue.

COUNCILMAN SAM DAVIS TELLS OF REVOLVING FUND PROJECT FOR IMPROVEMENT OF STREETS

BOND ISSUE FOR LAUNCHING PLAN

Quick Action, Cheaper Costs to Come Through Proposed Change

"Better, cheaper and, more paved streets!" Such is the slogan of Councilman Sam Davis of 118 West Colorado street, who hopes that every citizen in Glendale before long will adopt this slogan, too. Councilman Davis believes that he has a plan whereby local street work can keep pace with the growth of Glendale without overburdening the pocketbooks of taxpayers. A revolving fund in the hands of the city administration would bring about this desirable result, according to Councilman Davis. He defines the term "revolving fund" as used in this connection as "capital for street work."

A bond issue of \$50,000 or \$100,000, whatever amount is adequate to take care of the situation, is involved. After the bonds have been sold, the proceeds would be deposited in a local bank with the rest of the city funds and would remain under the control of the city treasurer and city controller. How It's Done

When the residents of a certain street desired to have it improved, they would submit a petition to the city council as at present. If favorably acted upon the city administration would make plans to have the work done at once. The city engineer would draw upon the revolving fund for sufficient capital to buy the necessary materials in the open market and to pay the labor involved. The delay attendant in the preparation of absolutely legal specifications, the delay of advertising for bids, the delay of waiting for the successful bidder to file a suitable bond and the delay involved while the contractor finishes one job and transports his machinery half way across Southern California to Glendale would all be eliminated. As a result much time would be saved in street work. Councilman Davis estimates that street improvement (Continued on Page 13)

Urges Street Work

COUNCILMAN SAM DAVIS

Who states his views on revolving fund whereby street work can keep up with Glendale's growth. owners involved as at present. Their payments would be put back into the revolving fund at once. The entire amount of the revolving fund would always be represented in the city treasury—either in cash or in promissory notes presented by property owners. This system would eliminate considerable of the red tape now involved in street work. The delay attendant in the preparation of absolutely legal specifications, the delay of advertising for bids, the delay of waiting for the successful bidder to file a suitable bond and the delay involved while the contractor finishes one job and transports his machinery half way across Southern California to Glendale would all be eliminated. As a result much time would be saved in street work. Councilman Davis estimates that street improvement (Continued on Page 13)

ROTARY CLUB AIDS SALVATION ARMY IN DRIVE HERE

Rev. Clifford A. Cole Takes Charge of Campaign to Secure More Funds

"The Salvation Army—different from all other organizations doing similar work—came out of the war the superior of all," stated F. C. Chamberlain, before the Glendale Rotary club yesterday noon in presenting a drive to be conducted here soon. "It helps all human beings," he continued in describing how the men and women whose lives are consecrated in the work stoop into the gutters to lift the fallen. "In this community they are doing more than you are aware."

"The Salvation Army has a bigger draft on its treasury now than ever before," said Mr. Chamberlain, "and it is necessary to conduct these local campaigns to provide the funds for this great work."

Rev. Cole Chairman The Rev. Clifford A. Cole, who has been appointed local chairman, also spoke and told how in his boyhood days the Salvation Army workers were arrested in the streets of Wichita. "But their persistence and good deeds have impressed the world."

"It is a hard job, I know, but I feel these chairmanships to be a duty of service to fellow man and I am ready to take it if you give me your support," stated the pastor. Daniel Kelly will be on the general committee, it was announced, and will keep the Rotary club in touch with the drive. George U. Moyle, principal of Glendale Union high school, told of Rotoservice, the bulletin being issued by the local club, and asked that attendance be kept up in order that Glendale would be among the highest ten in Rotary International.

Offers Club Prize President Roy L. Kent stated that District Governor Jack Williams offers a prize to the club which makes the highest record during his incumbency. He also named George B. Karr, Daniel Kelly and William Hunter as a committee to work with the Kiwanis committee on a field day for the benefit of Verdugo Hills council, Boy Scouts. A. R. Eastman and David G. Croft were named a committee to (Continued on Page 16)

Today's World News in Brief

By International News Service Leased Wire

CHINESE CABINET QUILTS, IS REPORT FROM PEKIN LONDON, Sept. 15.—The Chinese cabinet has resigned, according to a Central News dispatch from Peking today. It is expected that Kang Chung Hui will be the next prime minister.

DIRIGIBLE RESUMES FLIGHT ACROSS COUNTRY AKRON, O., Sept. 15.—The army dirigible C-2 which left Langley field, Virginia, yesterday on a trans-continental flight, resumed its journey this morning at 9:35 o'clock. It arrived here at 11:20 a. m. Thursday.

LOS ANGELES HARBOR WELCOMES 20,000 SAILORS SAN PEDRO, Sept. 15.—Declaring a holiday, Los Angeles harbor officially welcomed 20,000 of Uncle Sam's sailors and naval officers today with one of the most elaborate home coming celebrations ever given by citizens of any single community.

MRS. DAVE GAUT BATTLES WAY INTO GOLF FINALS ST. LOUIS, Sept. 15.—Mrs. Dave Gaut of Memphis, Tenn., by steady, consistent playing, won her way into the finals for the western women's golf championship when she eliminated Miss Frances Hadfield of Milwaukee, six up, five to play.

TWO BIG PACKING COMPANIES CLOSE TO MERGER CHICAGO, Sept. 15.—The much discussed merger between the great meat interests of Armour & Company and Wilson & Company was again reported to be nearing a consummation today. The merger, if effected, would represent a combined valuation of \$417,000,000.

SENATE TAKES UP BONUS BILL FOR FINAL ACTION WASHINGTON, Sept. 15.—The senate early this afternoon took up the soldier bonus bill for final action before it is sent to the White House for presidential action. The last step was to adopt the report of senate and house conferees, who adjusted differences in the bill as it passed each branch.

FOUR SUFFOCATED IN HOLD OF JAPANESE LINER SAN FRANCISCO, Sept. 15.—Frank Gilbert, chief inspector of the United States quarantine service here, and three unidentified men were this afternoon suffocated in the hold of the Japanese liner Shinyo Maru at Pier 46 when the inspector was directing the work of fumigating the vessel.

KING KLEAGLE APPEALS TO AUTHORITIES FOR AID LOS ANGELES, Sept. 15.—Claiming that members of the San Pedro branch of the Ku Klux Klan have ordered him to leave the state, Gus W. Price, king kleagle of the so-called "invisible empire," has appealed to Chief Deputy District Attorney W. C. Doran and Under Sheriff Gene Biscailuz for protection, it was learned today.

YOUNG BANDIT, SHOT, IS IN CRITICAL CONDITION DETROIT, Sept. 15.—Sam Glassgo, 25, one of the three men who, led by a young woman, held up and robbed the Louis Meir jewelry store of \$5000 in diamonds shortly before noon today, is in a hospital in a critical condition with a bullet wound in his head. Glassgo was shot by Meir as he was leaving the store with his three companions.

HORNBSBY AND WILLIAMS TIE IN HOME RUN HITTING PHILADELPHIA, Sept. 15.—Rogers Hornsby, the St. Louis Cardinal second sacker, went into a tie with Ken Williams of the Browns, for major league home run hitting honors when he whacked out two homers in the game with Philadelphia this afternoon and brought his total for the season to thirty-seven. The first homer came in the third inning and the second in the fourth. Ring was the victim of both hits.

MINISTER WILL DIRECT HANGING OF WAR VETERAN FORT MADISON, Iowa, Sept. 15.—A veteran of the world war will stand on the scaffold at noon today and will be sent into eternity by another veteran of the same war—a minister, decorated for bravery on the battlefield. Eugene Weeks is the condemned man, convicted of the murder of George Fosdick, Des Moines grocer. The hangman is the Rev. W. F. Robb, sheriff of Polk county, and he will be the first American clergyman to spring a death trap and carry out the mandate of the law as an executioner.

MAKE REPORT ON PROGRESS TO ENTOMBED MINERS JACKSON, Sept. 15.—Careful re-check of the first reports of the twenty-four-hour progress underground in the Kennedy mine shows the 3600 level to have made but twenty feet, with twenty-four to go before the seventy-seven-foot rock barrier is reached that will let rescuers into the Argonaut and its entombed forty-seven men. The survey shows the 3900 level rock drilling crew to have made thirteen feet with a balance of seventy-nine feet. The 3600 drift is so tight that it has been found necessary to loosen the muck with a charge of powder.

MORE RAILROADS SEEKING TO SIGN PEACE PLAN CHICAGO, Sept. 15.—With thousands of shopmen on roads which made peace in the strike, already back at work, and with thousands of others preparing to take back their former jobs, a dozen or more railroads that have stood out against the Jewell-Willard plan of settlement were reported negotiating for peace today. Among new roads seeking peace are understood to be the Northern Pacific and the Great Northern. If these roads sign up, it was expected that other great western roads among the "die hards" would fall in line and also negotiate agreements. The Elgin, Joliet & Eastern railroad had completed plans to sign the agreement, it was announced today, while the Alabama & Vicksburg railroad, it was reported, had dropped out on the plan.

STARVATION THREATENS MANY THOUSANDS, CLAIM NEW YORK, Sept. 15.—Cablegrams say that 100,000 persons at Smyrna are threatened with death from starvation as a result of the huge concentration of Greek and Armenian refugees in that city. The Turks are reported to have begun to massacre Christians at Smyrna and 1300 were missing today. The city of Smyrna is on fire and threatened with destruction. It is alleged in advices from Athens that the Turks deliberately set fire to the American college for women at Smyrna. Some of the pupils are said to have been carried off by Turkish soldiers. The British cabinet met today and outlined its near east policy. It also considered the French note which was less sympathetic towards the Turks than was expected in view of the treaty between Paris and Angora. Great Britain, France and Italy are agreed upon unanimous action for the protection of the Turkish straits. The Turkish peace terms include abdication of the sultan because of his reported subservience to the allies. Mustafa Kemal Pasha, head of the Angora government, threatens to throw an army against Constantinople if the Turkish peace terms are not accepted. It is unlikely that the allies will consent to the intimidation of the Russian soviet government that it wishes to participate in the near east peace conference. This intimidation was contained in a note sent by Moscow to London protesting against allied occupation of the Turkish straits.

H. W. MYERS IS 90 YEARS OLD TODAY

Birthday Celebration to Be Big Event in Family; Sketch of Life

With the celebration today of his 90th birthday, H. W. Myers of 1203 South Central avenue qualifies as the newest member of The Evening News Sunset club and like all the other members he enjoys splendid health and maintains an active interest in affairs of his home and events of the day. In celebration of the fact that Mr. Myers was born September 16, 1832, in the village of Elizabethtown, Lancaster county, Pa., a "stag" dinner party will take place tonight at the Myers home, where twenty-one guests will be entertained. A birthday cake bearing ninety candles will be a feature, while the dinner table decoration will be a large vase of red carnations, and carnation boutonnieres will mark places for Mr. Myers, Dr. A. M. Duncan, John A. Logan, Daniel Webster, Harry Hague, J. A. Wilbur, J. R. Maxwell, Frank Ashton, W. R. Alexander, H. R. Moody, John T. Cate, J. C. Tobias, Robert Duner, H. E. Owen, S. E. Brown, Rev. O. P. Rider, E. J. Morgan of Glendale; H. W. Duncan and Arthur G. Duncan of Los Angeles; C. J. Hamot of Pasadena; Col. J. J. Steadman of Hollywood, and C. D. Heartwell of Huntington Beach.

Family Dinner Party Mr. Myers will be honored again Saturday night at a family dinner at the home of his brother-in-law, Dr. A. M. Duncan at 1607 South San Fernando road, where the guests will be Mr. and Mrs. H. W. Myers and Arthur G. Duncan of Los Angeles; Mr. and Mrs. J. T. Cate, H. W. Myers and Misses Ida D. and Harriet J. Myers, Miss Carl A. Duncan and Dr. A. M. Duncan of Glendale. In reminiscing today on the anniversary of his birth, Mr. Myers spoke of his first political baptism in 1840, when he shouted for "Tippecanoe and Tyler, too," the campaign known in American history as the "log cabin and hard cider campaign" and in closing his account of his political interests the old gentleman added, "and I've been a loyal Republican ever since."

When Mr. Myers was but 2 years old his parents moved from Elizabethtown, Pa., to Crawford county, Ohio, where they bought a home, and one of Mr. Myers' greatest pleasures is that the old (Continued on Page 13)

City Council Is Unable to Agree On Park's Name

The City Council last night refused to christen the municipality's new park in Verdugo Woodlands.

The councilmen wanted to give the park a name, but couldn't agree and so refused on a compromise. Therefore, the new park will be known as "Well, YOU name it." Some of the councilmen favored "Glendale Verdugo," the name selected by a Chamber of Commerce committee. Others were for "Oak Glen." The proposed compromise name was "Robinson Center." Meanwhile, what's in a name?

Building Total Is Now Over \$4,000,000

Only \$6,300 worth of building permits were issued yesterday at the total for the month up to the opening of business this morning up to \$193,145, and the total for the year to date up to \$4,300,646. Permits issued yesterday included the following: R. W. Altman, 4 rooms, and garage, 606 West Stocker street.....\$ 3,000 Barnett Foley, 4 rooms, 119 East Maple street..... 1,500 C. H. Jones, 4 rooms, 1432 Stanley ave..... 1,000 Mary Jane Murdin, addition, 423 S. Verdugo road..... 600 Gus Rosenberg, barn, 1420 1/2 S. Glendale..... 200

C. L. Jernegan and Wife Like Glendale

Mr. and Mrs. C. L. Jernegan of Hampton, Iowa, who have been in Glendale for the past four months visiting their sons, William E. and H. H. Jernegan, plumbers of 104 South Maryland avenue, left last night for their home in Iowa. Mr. Jernegan is high in his praises for this city and Southern California, and hopes to return here as soon as his business affairs in the east can be arranged. This was the first visit of Mr. and Mrs. Jernegan to Southern California and they enjoyed it very much. Like many others they describe Glendale as a coming town with a future that is wonderful. He says "everyone here is a booster and that is what makes things grow."

ADVENTIST SCHOOL REGISTRATION 218

Enrollment This Year Near Double That of Last; List of Teachers

With 218 pupils enrolled for work in the high school, elementary and primary grades work has begun in earnest at the Glendale Academy, maintained by the Seventh-day Adventists on Isabel street between Wilson and California avenues. Registration opened Wednesday and the faculty were busy today completing preliminaries in preparation for the carrying on of routine class work. Of the 218 pupils enrolled ninety are high school students, while 128 are included in the grades from one to eight. This year's enrollment shows an increase over last year, when 127 students were in attendance at the school, fifty-eight in the high school and sixty-nine in the grades.

Teaching Staff D. A. Ochs is principal of the school and his teaching staff includes Miss Sadie Baird, history and domestic science; Miss Lora Preston, English language; W. Byron Dayt, mathematics, science and woodwork; Miss Esther Johnson, first and second grades; Miss Mavis I. Smith, third and fourth grades; Miss Pearl Whitecock, fifth and sixth grades; Miss Mamie Meleen, seventh and eighth grades.

There are still two vacancies on the high school faculty, those of foreign language instructor and music and art instructor. The day's session for the high school begins at 8 o'clock each morning and closes at 1 o'clock each afternoon. In the grades the upper class students have a day's program from 9 o'clock in the morning till 4 o'clock in the afternoon, while the smaller children are dismissed at an earlier hour.

Quaker Picnic Is Postponed to Nov. 4

Owing to the absence from the city of several members of the executive committee of the Pennsylvania club at this time, it has been deemed best by those remaining to postpone the picnic which had been planned for September 16 until the date of the annual picnic on Saturday, November 4, according to Dr. F. M. Collier, president of the club. Notice of the annual picnic will be given later.

PREPARE PROGRAM FOR DEDICATION BY CATHOLICS

Impressive Ceremonies and Banquet to Be Held on September 24

Parishioners and friends of the Holy Family Catholic church are to participate Sunday afternoon, September 24, in the dedication of the church at Elk and Louise streets. Right Rev. John Joseph Cantwell, D. D., bishop of the diocese of Monterey and Los Angeles, will officiate, assisted by Rev. James S. O'Neill, parish priest and visiting clergymen from all parts of California. It will be Bishop Cantwell's first official visit to the Glendale parish. The church building was completed a year ago and has since been in use, but Bishop Cantwell deferred the dedication until the completion of the parish house, which is now ready for occupancy. Following the dedicatory services a banquet honoring Bishop Cantwell will be held in the Chamber of Commerce hall on Brand boulevard, with John Steven McGroarty as toastmaster, and Judge Paul J. McCormick of the superior court, and Hon. Joseph B. Scott, prominent attorney, both of Los Angeles, as honored guests and speakers.

Formal Invitations Harry Girard is arranging the music for both the dedication ceremonies and banquet program following. The formal invitations issued today by Father O'Neill read: "You are cordially invited to attend and assist in the formal dedication of our parish church on Sunday, September 24, ten-thirty-fourth, at four o'clock in the afternoon."

"Solemn vespers will be sung by the visiting clergy, closing with benediction by the Right Reverend John Joseph Cantwell, D. D., Bishop of the Diocese. Immediately following the dedication a banquet will be served in honor of our bishop, on his first official visit to our parish, to which the honor of your presence is especially requested. The banquet will be held in the auditorium of the Glendale Chamber of Commerce; and the speakers for this occasion will be the Hon. Paul J. McCormick and the Hon. Joseph Scott."

"Mr. John Steven McGroarty has (Continued on Page 16)

C. L. HILL, CITY ENGINEER, QUILTS

Ben F. Dupuy Chosen to Fill Vacancy; Now in Fullerton Position

The resignation of C. L. Hill of 320 Vine street, as city engineer, was accepted with regret last night by the city council. Mr. Hill has been with the city for some time and has watched Glendale grow from a village to a city. A number of inducements were offered to get him to remain on the job but he has decided, according to reports, to enter the contracting business.

Ben F. Dupuy will be Glendale's city engineer commencing Monday. He is now city engineer at Fullerton and formerly was city engineer at Long Beach. According to City Manager W. H. Reeves, Mr. Dupuy comes to Glendale with a world of valuable experience in civic engineering projects. He believes the new official will be considerable of an asset to the city administration.

Expresses Appreciation Members of the city council offered Mr. Hill an increase in salary if he would remain, but he stated that his prospects in private business were too good for him to accept the city's offer. When Mr. Hill's resignation was read to the council last night Mr. Reeves paid the engineer a glowing tribute and members of the council also expressed their appreciation of the engineer's services to the city.

Ohio Man Is Choir Director at Church

H. W. Carver, who arrived recently from Toledo, to reside in Glendale, has accepted the position of choir director at the First Baptist church. Mr. and Mrs. Carver took an active part in church affairs in Toledo and Mr. Carver served as director of one of the largest church choirs in the city, so that the Glendale Baptists are greatly gratified over securing his services for the coming year.

Mrs. Carver is the sister of Mrs. A. Van Wormer of 350 West California avenue and Tuesday evening Mr. and Mrs. Van Wormer entertained the members of the music committee of the Baptist church to meet the Carvers.

Mr. and Mrs. Carver are making their home at 373 West California avenue.

BUILDING PERMITS EXCEED \$11,000 IN ONE DAY

Autumn Boom Has Not Yet Started but Structures Continue Rising

Building in Eagle Rock continues at a steady gait. Although the autumn building boom has not begun, predictions are that within a fortnight will be seen the start of the greatest autumn business the building department at Eagle Rock city hall has ever experienced.

A five-room house and garage is to be erected for A. M. Maloney of 206 South Orange street, Glendale, by L. J. Hoover. The site for the structure is at 318 North Ellis avenue. Mr. Hoover is also the architect for the structures, which will represent an investment of about \$4000.

Snyder Builds House Another five-room house, with sleeping porch, is planned for Annie S. Snyder at 153 North Rowland avenue. A. T. Gray, Glendale contractor, is the builder. The structure will cost about \$4,450, according to estimates.

S. J. Ohlman of 115 South Acacia avenue is to build a five-room house at 334 Linden Way. He designed it and will superintend its construction. The cost is approximately \$2,000.

A two-room, fireplace, real estate office will be erected for John O. Adamson of 401 South College View avenue on the C. S. James tract, at an approximate cost of \$450.

Garages Are Popular George F. LeClerc has planned a garage which he himself will erect on property at 203 Rowland avenue. The cost will be \$200.

H. A. Edwards of 165 Extra street is also to build a garage. He will superintend the construction of the building, which will be erected at 169 Extra street at a cost of \$50.

PHONE DEMAND SIGN OF GROWTH

Company's Inspector Says Eagle Rock Expanding Faster Than Ever

"If the installation of telephones is any indication of growth, Eagle Rock must be growing by leaps and bounds," says F. J. McLeod, inspector of telephones for the Southern California Telephone company, who was in Eagle Rock on company business yesterday.

"Today there are three service cars of the telephone company in Eagle Rock, with four men to the car. It is rarely in Los Angeles that one finds so many men at work installing telephones in a territory of the same size as Eagle Rock."

Mr. McLeod states that the constant demand for Eagle Rock for more telephone installations is an indication that this city is growing faster than ever before since he has been connected with the work.

Eagle Rock Has Added Another Motorcycle 'Cop'

The lone rider is no more! Automobile drivers in Eagle Rock who are afflicted with a heavy accelerator foot are going to "catch it" in double doses hereafter, if the present personnel of the motorcycle division of the Eagle Rock police department is any indication.

No longer does Harry Williams, Eagle Rock's widely-known "speed cop" ride alone. With him is Ted McMahon, who has been installed as Eagle Rock's second motorcycle officer.

Whether or not Williams needed protection from irate motorists has not been announced, although some say that this is the cause of the addition of the new man. At any rate, reports from the city hall show that McMahon is proving himself efficient as a catcher of speeders.

GOVERNMENT AIDS WAR ON DISEASE AMONG CATTLE

Reports Progress In Killing Off Germs From Ranges In Many Counties

By H. K. REYNOLDS For International News Service. WASHINGTON, Sept. 15.—Efforts of many states to eradicate tuberculosis among cattle has gained such headway that officials of the department of agriculture regard the end of the fight against the great cattle plague as a practical possibility.

"Many counties are now raising large amounts of money for this purpose," the department states, "and the clean counties have set an example that stimulates others to follow. Progressive communities are beginning to realize that they cannot have diseased herds and expect to compete with farmers and breeders in localities that are entitled to advertise that all of their cattle are free of tuberculosis."

According to records of the department, a dozen states now have one or more counties in which all of the cattle have been tested one or more times.

Oregon Takes Lead Oregon now has seven counties in this class: Washington and Wisconsin, four each; Michigan and Mississippi, three each; Nebraska and Montana, two each; and Idaho, North Carolina, Utah, Virginia and West Virginia, one each.

Intensive work directed toward the eradication of tuberculosis is now being done by 28 counties in twenty-two states. In this list Missouri has eighteen counties; Nebraska, sixteen; North Carolina, fourteen; Maine, eleven; and New York, ten. Preliminary work is being done in 256 counties in thirty-three states. Iowa has thirty-one counties in this list; North Carolina, thirty; Idaho, twenty-six; Kentucky, twenty-eight; Oregon, twenty-three; New York, seventeen; and Nevada and Wisconsin, ten each. Forty communities in Georgia, thirty-one in South Carolina and a few in Louisiana and Vermont have started eradication work.

Michigan Appropriates Michigan seems to be leading in the amounts of money appropriated by county authorities to assist the federal government and the state in eradicating the disease.

To date the largest appropriation made by any county in the country is the \$15,000 fund voted by the county commissioners of Huron county, Michigan, according to available records. Other appropriations in Michigan are given as follows: Eaton county, \$8000; Calhoun county, \$9000; Oceana, \$4000; Clinton, \$8000; Muskegon, \$5000; and Monroe, \$5000. Hillsdale county, the first in the country to have all cattle tested, has made an additional appropriation of \$3500 to continue the work through the second year.

North Carolina Follows The board of supervisors in a number of counties in North Carolina have made appropriations to assist in fighting tuberculosis on the "area plan." Some Kentucky counties have used money for this purpose from the general tax levy. In Missouri, where a large number of counties are doing area work, the county courts appropriate money to assist in paying for animals slaughtered because of being infected with tuberculosis.

Nebraska is also making long strides in the area work. California was one of the last states to enter into co-operative work with the agriculture department, but the work is now being carried on actively in two counties.

AUTOMOBILE CRASH The top of Los Feliz hill was the scene of an automobile collision yesterday between machines driven by Van R. Rauch of 627 North Isabel street and R. E. Brown of 121 West Cypress street.

Fall Frocks at Webb's

Indescribably beautiful creations of Canton crepe and crepe-back satin—unmistakably new in cut—unexpectedly rich in texture, prices considered.

Several variations of the drape model suitable for the stout matron as well as the slender miss.

Some severely plain—but of that simplicity which is the height of good taste.

Some quite elaborately embroidered by hand.

Some profusely beaded.

Some with cut steel ornaments and deep silk fringe.

Navy, black, browns and henna—\$19.75 to \$65.

Wool Frocks \$19.75 to \$60

Obviously the work of master designers and careful tailors.

Distinctive models in Poiré Twills and Tricotines, either beaded, embroidered or braid trimmed—some embellished with gold or silver stitching. Rare values at \$19.75 to \$60

One-piece and coat dresses for stout women

"Cohn Stout Dresses"—sold in Glendale exclusively at Webb's—afford women of 44 to 52 bust measure an opportunity to dress as stylishly as their slender sisters.

Smartly cut garments of high-grade Poiré Twill, artistically braided or hand embroidered—\$50, \$55, \$57.50

New Coats For Fall Arriving Daily

Handsome garments of Velverette, DeLaines and Martello, durably lined and faultlessly tailored—\$25 to \$85.

OFFICIAL MINUTES OF COUNCIL

Following are the official minutes of the City Council which met in session at the city hall Thursday night.

Council assembled at 7:45 p. m. All members present. Minutes of September 7 and 11 read and approved.

Opening of Bids In accordance with call, bids were opened and publicly declared for the furnishing of induction feed regulators, from the following bidders: General Electric Co., Westinghouse Electric & Mfg. Co. Bids referred to superintendent of plant and production for checking and report.

Improvement of Pacific In accordance with call, public hearing was had at this time for the improvement of Pacific avenue, Broadway to San Fernando road. On motion of Councilman Stephenson all protests were denied.

Improvement of Kenneth In accordance with call, public hearing was had at this time for the improvement of Kenneth road. The matter was discussed and upon motion of Councilman Stephenson, hearing was continued for one week.

Improvement of Mountain In accordance with call, public hearing was had at this time for the improvement of Mountain street. The matter was discussed and on motion of Councilman Davis hearing continued for one week.

Everett Street Protest filed by property owners in district assessed for the improvement of Everett street, protesting assessment, was read, and on motion of Councilman Kimlin protest was denied.

Communication Filled Communication from P. S. McNutt regarding petition to call election in municipal improvement district No. 7 was presented, and on motion ordered filed.

Change Setback Communication from Haddock-Nibley company asking permission to locate a garage at Glendale Heights closer than twenty-five feet was received and on motion referred to city manager. The city manager recommended the granting of permission to the Haddock-Nibley company and on motion

cast at Lake street district election precinct, comprising the whole of said territory against said proposition was 37; and it appearing that a majority and more of all the voters of said territory voted for said proposition and in favor of the annexing of said territory to the city of Glendale, said proposition of annexation is hereby declared to have been carried at said election.

The city clerk is hereby directed to enter this resolution in full in the minutes of this council as and for a statement of the result of said election. Adopted and approved this 14th day of September, 1922.

Lake Street Election A communication signed by the chairman of committee in Lake street district expressing thanks to all city officials who participated in the election, was received and ordered filed. City clerk was directed to answer same.

Improvement Alameda On motion of Councilman Davis city attorney and engineer were instructed to draft necessary proceedings for the improvement of Alameda from Tenth street to Fourth street.

New Street Light Superintendent of plant and production reported that he had installed a street light at Alexander and Pacific avenues and would install a street light on Kenwood road at the wash.

Auditor's Report On motion of Councilman Stephenson auditor's report for fiscal year of 1921 and 1922 was accepted and ordered filed.

Transfer of Funds On motion of Councilman Stephenson the following transfer of funds was authorized: First—Demand on park and recreation budget fund payable to park bond fund in the sum of \$2991.82.

Second—The transfer of \$17,500 from general budget fund to park and recreation budget fund. Third—The transfer of liability on loan of \$17,500 from general budget fund to park and recreation budget fund.

Fourth—The transfer from general budget appropriation in the sum of \$17,500 for the purchase of new city park to the following: (a) Division of garbage collection, \$6,000.

(b) Division of rubbish collection, \$5,000. (c) Division of street lighting, \$2,500. (d) Division of street sweeping, \$4,000 by the following vote: Ayes—Davis, Lapham, Kimlin, Robbison, Stephenson. Noes—None. Absent—None.

On motion of Councilman Stephenson the sum of \$2,100 was ordered transferred from the public service budget fund to the library fund.

Demand On motion of Councilman Kimlin demand in amount of \$750 was allowed and ordered paid from the municipal improvement district bonds. Resignation C. L. Hill The resignation of C. L. Hill, city engineer, was read and on motion of Councilman Davis same was accepted to take effect on September 30, 1922.

On motion of Councilman Stephenson it was ordered that the council extend to Mr. Hill their appreciation of his efforts while holding office as city engineer and wish him success in any undertaking that he may assume in the future.

On motion of Councilman Kimlin C. L. Hill was granted two weeks' vacation with pay. On motion of Councilman Stephenson the appointment of Ben F. Dupuy as city engineer, to take effect October 1st, was confirmed.

School Property On motion of Councilman Kimlin city attorney was instructed to draft for the school board necessary advertisement calling for the sale of property to be used for street purposes at the corner of Doran and Columbus avenue.

Election Officers Paid On motion of Councilman Davis election officers in the Lake street district were ordered paid the sum of \$5 each for services and \$10 for the polling place.

Opening Ivy Street On motion of Councilman Kimlin the following resolution was adopted: Resolved, that this council hereby finds and declares that the protests filed against the opening, laying out and widening of Ivy street in the manner proposed by ordinance No. 604 passed by this council July 6, 1922, are not signed by the owners of a majority of the frontage of the

 J. L. McElhany, president, and B. M. Emerson, accompanied by Prof. W. W. Ruble of the Pacific Union conference, will leave Sunday for Kansas City, Mo., in the interests of the conference.
 Elly Christiansen, whose home is in Eagle Rock, will spend the winter with her aunt, Mrs. C. Smith, 229 East Acacia avenue, and will attend the Glendale avenue intermediate school.
 Mr. and Mrs. C. B. Dunham of 245 North Maryland avenue are leaving this week-end for Atlantic, Iowa, where they will visit relatives and friends in their old home town until the wintry days drive them back to balmy Southern California.
 Mrs. Lindrum of La Crescenta has rented a cottage at 222 1/2 East Maple avenue and will spend the winter here. Her daughter, Helen Marie, has registered at the Glendale avenue intermediate school. They plan to spend the week-ends at their home in La Crescenta.
 Mr. and Mrs. T. A. Morgan of 1123 East Broadway had as their overnight guest W. F. Lutz of Santa Cruz, who has recently returned from Casey, Iowa. Jake Mowry of Casey, Iowa, is also their house guest.
 J. Albrecht, for many years superintendent of parks of Pasadena, was in Glendale yesterday at the invitation of S. A. Warren, superintendent of the new Verdugo park, and inspected the city's new acquisition, making suggestions as to its development and usefulness.
 Mr. and Mrs. J. S. Stringham of Euroka, Ill., arrived in Glendale last night and are located at 360 Hawthorne street. They are planning to spend the winter here and may make their permanent residence in Glendale. Their daughter, Miss Fern Stringham, arrived a week ago and is employed at Pendroy's.
 Mrs. Marie M. Yeoman of 113 North Orange street, county president of the W. C. T. U., and Mrs. Ruby J. Smart of 119 Olive street, local president of the W. C. T. U., were in attendance yesterday at a state executive meeting at the Temperance chapel in Los Angeles. They assisted in planning a campaign for securing the Wright bill.
 W. E. Hewitt, who left his home at 319 Randolph street three weeks ago for a visit in Canada, writes that he is having a delightful trip and visit. He is now visiting his sister in Ontario. From Canada he will return to the States and visit relatives in Pennsylvania and Michigan before returning west.
 Mr. and Mrs. Will Peebles, who recently arrived in Glendale from their home in Paris, Canada, are visiting at the home of Mr. Peebles' brother and sister-in-law, Mr. and Mrs. Jack Peebles of 126 North Cedar street. The visitors have already fallen in love with this city and plan to locate here permanently within the next few weeks.
 Jack Brewer, son of Mr. and Mrs. C. T. Brewer, recently of Oklahoma City, and John Fleming, son of Mr. and Mrs. Roy Fleming, recent comers from Scottsdale, Nebraska, are new students at the Glendale avenue intermediate. John Fleming has been attending junior high school at his former home. Both families are located at 520 San Fernando road.
 Mr. and Mrs. E. D. Ryan of 204 1/2 South Orange street have returned from a two-weeks' automobile trip during which they visited the Mariposa Big Trees, Wawona, Yosemite valley. They also enjoyed several fishing trips, although not much success. On the return trip Mr. and Mrs. Ryan visited San Jose, Santa Cruz, Santa Maria, Paso Robles, San Luis Obispo, Santa Barbara and Ventura.

Glendale Personals
 Frank H. Olmstead of 1431 North Pacific avenue will leave tomorrow for San Francisco on a several days' business trip.
 Mrs. H. M. Butts of 123 West Arden avenue and guest, Mrs. M. C. Brayson, have returned from a two weeks' sojourn at Long Beach.
 Mrs. W. E. Cleveland and son and daughter, David and Charlotte, of 417 West Lomita avenue are spending the week-end at Balboa Beach.
 Mr. and Mrs. John Watson and son Louis of 520 North Central Ave. were dinner guests Wednesday night at the Nathan Rigdon home at 224 West Doran street.
 Mr. and Mrs. A. Carpenter of 925 North Louise street had as their guest for a week Goodwin Lee, who left Wednesday by automobile for his home in Salt Lake City.
 Mrs. C. E. Hutchinson of 246 North Orange street entertained the members of the women's auxiliary of the Congregational church at luncheon at her home yesterday. Plans were discussed regarding the Christmas bazaar.
 Mrs. H. C. Vandewater of 634 North Central avenue entertained as her luncheon guests yesterday Mr. Vandewater's sister, Mrs. J. D. Van Nortwick of Los Angeles, and Mrs. Fred L. Young of St. Louis.
 Mr. and Mrs. Herbert Reid and son of North Central avenue and Mrs. H. A. Halverson of Glendale returned Monday from a several days' sojourn at the mountain cabins of Fleming Grove in the Lake Arrowhead woods.
 Mrs. H. A. McKenzie and daughter, Elizabeth, of Chehalis, Wn., were guests Wednesday of Miss Josephine Cocks, 118 East Garfield avenue. Mrs. McKenzie and Miss Cocks were former school friends.
 Miss Eva Daniels of 324 West Colorado street has received word from her brother, Victor Daniels, at San Francisco, who is en route to Glendale from a two months' trip to Boston and other eastern cities. He expects to arrive in Glendale Sunday.
 Mr. and Mrs. Oliver O. Clark of 246 North Louise street and Mr. and Mrs. Lane have returned from a pleasant two weeks in the mountains. They motored as far as Independence and from there packed into the mountains.
 Miss Hilda Brockway, pianist, of 221 Highland avenue, played last night from the broadcasting station of a Los Angeles newspaper. Her numbers included "Carpenter" (Wachs), "Juba" (Dett), and "Nena" (Yon).
 The members of the Electrical association of Los Angeles will be entertained at a hi-jinks and barbecue on Saturday, September 23, at the grounds of the H. B. Woodhill residence at 1601 Opechee Way. Mr. Woodhill is a member of the association.
 Mr. and Mrs. Arthur Kase of 331 North Isabel street entertained as guests yesterday Mr. and Mrs. Morris Garrison, who have come from Omaha to locate permanently in southern California. After dinner Mr. and Mrs. Kase and their guests motored about Glendale, then to Hollywood and on to Venice.
 Miss Mae Cornwell was hostess yesterday afternoon at an informal meeting of twenty members of the Mothers' club of the Acacia street P. T. A. in the rest room of the new school building. The afternoon was spent in hanging draperies, curtains and arranging furniture. At the close of the afternoon refreshments were served.
 Mrs. H. C. Nicholas of 337 West Wilson avenue has as her guests her niece, Miss Eva Nicholas, and Miss Ella Olson of Chicago, who are spending their two weeks' vacation here. A motor trip and picnic party was enjoyed yesterday by Mrs. Nicholas and daughter, Margaret, accompanied by their guests Miss Eva Nicholas and Miss Ella Olson, Mrs. D. F. Hager and daughters, Elizabeth and Alice. The motored through Topanga canyon and the beach cities.

Autumn's Newest Things
 As we swing into cool autumn days, additions to the wardrobe are the thought of all fashionably clad women.
 Autumn is the gateway to the cooler and coldest seasons of the year and consequently brings with it new originations in warmer wear.
 Each day witnesses new arrivals. Even now the variety is broad enough to satisfy many of your individual requirements.

Stout Women's FALL DRESSES

6 1188B

Dresses for stout people require more care in designing than do dresses for the average figure. With this in mind, we invite you to compare these dresses for every detail of carefulness, but especially to the proper proportions, which give slender lines. New models in navy point twill at

\$25.00, \$39.50, \$45.00 and \$59.50 are particularly well liked. Sizes 42 1/2 to 48 1/2.

Read Advertisements?
 Of course you do. Do you act upon their advice? Well, yes, more or less. You sometimes get "taken in" or disappointed when following up someone's advertisement, too. However, this should not keep you from investigating at home before going to a neighboring town to buy. You'd rather leave your money at home, everything being equal, would you? Then much more would you rather do so if by doing you could save money.

VAN NUYS SHOWS SCHOOL INCREASE

Great Number of Families Settle With Children; Burbank Exposition

An increase of about fifteen per cent in school enrollment is reported in Van Nuys over last year's opening day. A total of 1071 pupils registered Monday—471 in the high school and 600 in the grammar school.

The big proportion of high school to grammar school pupils is accounted for by the great number of families with half-grown children which have moved into Van Nuys recently. Like most of the Southland, the valley city is fortunate in receiving its new population "ready made," so to speak.

A faculty of thirty-four at the high school and one of eighteen at the grammar school are necessary to take care of the education of this regiment of boys and girls.

Show by Merchants

Burbank is all pepped up over the Merchants' exposition to be staged in a big tent there next week. The big tent is being erected, and it is understood that practically all exhibit space is already taken.

The management of the show has made a hit by paying cash for their purchases instead of awaiting the finish of the exposition. Another diplomatic move was the awarding of free space to the various churches. The entire scheme is based on a "buy-at-home week" program.

Lycum Number Dates

The Chamber of Commerce of Burbank has made public the following Lycum course entertainment dates: October 13, Mary Hollingsworth, leading attraction; November 14, Chicago Concert Duo; December 18, Metropolitan Trio; January 22, 1923, Mozart Orchestra; February 20, F. L. Hanscomb.

The proceeds will go to the Chamber of Commerce treasury. The entertainments will be given in the Thomas A. Edison school building.

Holds Last Rite for War-Time Pal

Rev. and Mrs. C. R. Norton of 801 East Wilson avenue motored to Santa Ana Wednesday, where they attended the funeral services of William Patton, one of the Rev. Mr. Norton's life-long friends. Rev. Mr. Norton officiated at the services, which were attended by a large number of members of the G. A. R.

One of the coincidences which linked the lives of Mr. Patton and Mr. Norton was the fact that both men enlisted in the same town—Marietta, Ohio—at the outbreak of the Civil War.

WEST BROADWAY MEETINGS Property owners in the assessment district for the proposed street improvement at West Broadway and Central will meet tonight at 7:30 o'clock at P. A. Pollock's garage, 470 West Broadway. City Manager Reeves and City Engineer Hill are expected to be present and give figures regarding bonds.

New York city has 324 women dentists and 940 female real estate agents.

BEAUTIFUL GIRL TO LEAD PARADE

Elks' Picnic Plans Provide for Entertainment of Women and Kiddies

Miss Mary Margaret Salmacia, aged 2 years, will lead the children's parade that is to be a feature of the big Elk picnic at Glendale-Verdugo park Sunday.

Mary Margaret is the daughter of Mr. and Mrs. Frank Salmacia of 361 West California street, Glendale. Mr. Salmacia is one of the proprietors of the Glendale Music company.

The picturesque kiddies' parade, parents are promised, will not be exhausting to the youngsters. It will be within the picnic grounds at the park only. The officers of the Glendale Elks lodge will march in formation at the head of the parade.

Master of Ceremonies

Harry Girard has been chosen to act as master of ceremonies for the entire picnic Sunday. Each of the following-named officers of the lodge will find himself saddled with responsibilities in the way of entertaining the Elks—bucks, does and colts, or whatever the little Elks are called—who visit the picnic rightly expecting a good time. Arthur H. Dibern, E. R.; James Apfell, E. L. K.; Earl Patterson, E. L. K.; Gerald Dackery, E. L. K.; W. M. Kimball, secretary; James McBryde, Esq.; Jess Heady, I. G.; Walter Jones, O. G.; William Hunter, chaplain; Herman Nelson, treasurer; S. H. Oliver, Dan Kelly, trustees; Harry Goodwin, Herb Henning and Ed Albright, organizers.

AUTOS COME TOGETHER

Three spokes were broken in the automobile owned by William Cronin of 401 Milford street yesterday in a collision at San Fernando road and Brand boulevard. The opposing car was driven by Joseph Hofman of 444 West Windsor road. Postmaster D. Ripley Jackson was a witness.

BETTER RUBBISH SERVICE PROMISE

New Collection Schedule Effective; Divide City In Several Sections

Better service for the collection of rubbish is assured residents in the southern section of Glendale, according to a new schedule recently agreed upon between City Manager W. H. Reeves and the City Rubbish company.

All of the city south of Colorado street has been in one district until recently. This territory was too large for all of the rubbish to be collected one day. The new arrangement divides this territory into two subdivisions by the intersection of Brand boulevard. In the southeast section rubbish will be collected every first and third Thursday. In the southwest section rubbish will be collected every first and third Wednesday. Garbage will be collected in the whole district every Wednesday and Saturday as heretofore.

On the west route, which includes the section of the city west of the center of Brand boulevard and north of Colorado street, garbage is collected every Monday and Thursday and rubbish on the first and third Monday.

On the east route, which includes the section of the city east of the center of Brand boulevard and north of Colorado street, garbage is collected every Tuesday and Friday and rubbish on the first and third Tuesday.

Verdugo Canyon has its garbage collected every Friday and its rubbish between the first and fifth of every month.

Grand View has its garbage collected every Thursday and its rubbish from the eleventh to the fifteenth of each month.

FACT

Is o'er, our escutcheon is clean; Our flag waves on high, and the prices Wave somewhat above it. I ween.

HOW MUCH FOR YOUR EYESIGHT?

Did you ever figure out what proportion of your earning power depends on the efficiency of your eyesight? Can you afford to neglect your eyes? If nature is giving you warning through headache, nervousness or blurred vision that your eyesight is failing, have your eyes fitted NOW with glasses. You will not only get relief from these eye troubles, but you will also preserve your eyesight for a lifetime of use.

We also make a specialty of replacing broken lenses and all manner of optical and jewelry repair work.

Investigate Death Of Deputy Marshal

LOS ANGELES, Sept. 15.—United States Marshal Al Sittel today ordered a thorough investigation into the reported shooting to death of Deputy United States Marshal W. H. Middaugh at Barstow, shortly after midnight this morning by a man said to be Special Officer Thompson, a Santa Fe guard.

According to meager information of the shooting to reach Los Angeles, Thompson and Deputy United States Marshal Forbush went to the Harvey eating house at Barstow to see Middaugh, who they understood to have been the cause of some disturbance. When the officers asked Middaugh to accompany them he is said to have drawn his gun and pointed it at Thompson, who whipped out a pistol and fired, killing Middaugh immediately.

The shooting of Middaugh is the second shooting this week in San Bernardino county as the result of the rail strike.

Miss Grace Judd Has Farewell Party

Miss Grace Judd was pleasantly surprised last night when a group of her friends arrived unexpectedly at her home at 600 East Chestnut street for a farewell affair before she leaves to resume her duties at Leland Stanford University, September 28.

Music and bunco games were enjoyed and late in the evening refreshments were served. Those received at the Judd home were Misses Louise Wimmer, Beulah Warren, Myra Johns, Garnet Peters, Millicent Alvord, Lois and Edith Schuyler, and Roland Percy, Lloyd Culver, Robert Howlett, James Thompson, Jo Rhodes, Herbert Brown, Phillip Davis and Thurston Harshman.

Miss Judd's brother, John Judd, Jr., was also included in the company.

Nearly 12,000 persons were killed and 1,500,000 injured last year in automobile accidents that were caused by carelessness.

It tastes just as good when made in one as the other. It is the quality that counts.

Russia Military Record Now Saved

TOKIO—Individually responsible for the rescuing from destruction and the preservation of a 200,000-volume library, formerly the property of the Military Academy of the late Russian Czar's general staff, A. Andogsky, a former general, is in Japan endeavoring to obtain funds for the maintenance of this library until a stable Russian government has been established, and undertakes to be responsible for the books. The library has been kept on Russian Island, within sight of Vladivostok, since the revolution, when Andogsky performed the miracle of fleeing across the terror-ridden country from Petrograd to Vladivostok.

The books, Andogsky says, constitute a valuable military record, and if they are lost it will be a loss to the entire world. His few followers have been poverty stricken for years, but have stuck to their task; further work in preserving the library is impossible without help, however, as their personal funds and those of their friends are exhausted.

In ancient days a puppet show was called a "motion," and those in charge "motion-masters."

Tariff Bill Will Return to House

WASHINGTON, Sept. 15.—The tariff bill will come back to the house again today written this time to express the will of the house. Senate and house conferees ironed out their differences on the chemical dyes and potash schedule, the senate yielding to the house on both items. Chairman Fordney reported the bill with a compromise agreement from the conferees and house leaders are anxious to see it passed finally by the house before the close of today's session.

Attorney-General Case to Be Heard

WASHINGTON, D. C., Sept. 15.—Charges upon which Representative Oscar E. Keller, republican, Minnesota, based his impeachment proceedings against Attorney General Daugherty will be heard tomorrow by the house judiciary committee. It was announced today by Representative Volstead, republican, Minnesota, the committee chairman. Keller will appear before the committee to present evidence in support of his charge that Daugherty has violated the constitution.

A. D. McCoy at Home From Camping Trip

A four weeks' vacation motor trip has just been finished by Mr. and Mrs. A. D. McCoy, who arrived at their home at 1127 East Wilson avenue Wednesday night. They camped out during the entire trip and report splendid trout fishing in the various lakes and streams.

Sultan Abdication In Terms of Peace

LONDON, Sept. 15.—Abdication of the Sultan is one of the peace terms of Mustapha Kemal Pasha, according to an Angora dispatch to the Daily Mail today. The other conditions were outlined as follows: Return of Thrace, Constantinople and Adrianople; surrender of the Greek fleet and indemnity. The Turkish nationalist leader threatened to march on Constantinople if his terms were refused.

PUBLIC AUTO PARK ASKS STRUCTURES FORMALLY OPENS AT VAN NUYS FOR GOVERNMENT DEPARTMENTS

Old-Fashioned Picnic Part of Program; Few Doves In Valley, Report

The Van Nuys public auto park was lately opened with much eclat and celebrated with an old-fashioned picnic, under the auspices of the Chamber of Commerce. The public heeded the request to bring their lunches, friends, drinking cups and kiddies! Coffee was furnished free.

Carl McStay of the Automobile club of Southern California delivered an address on the value of auto tourists to a community, and the Van Nuys orchestra outdid itself in furnishing top-notch music. Saturday, touring motorists were already pitching their tents on the grounds, at Kester and Oxnard streets.

School Buses for Kiddies
 A new Moreland truck, made at Burbank, was added to the Crown wall bus line's rolling stock in Van Nuys, to care for the transportation of school children from outlying districts. The greatly increased school enrollment has caused three busses, in all, to be put on for the children's service. A new exclusive repair shop for the busses has been built to keep the cars always in good shape.

Few Doves in Valley
 Van Nuys hunters report a scarcity of doves in San Fernando valley. The season opened last Friday, and several Nimrods were early on the ground. The rapid advance of development into the by-ways of the valley has driven the game to more remote habitats.

Dam Pacoima Creek
 The pros and cons are still mercurially scrapping about the practicability of buying the Pacoima dam water for Van Nuys. It is proposed to build a dam in Pacoima creek for flood control and charge the costs to a municipal improvement district. Pacoima creek is a tributary of Owens river, therefore belongs to the city of Los Angeles insofar as water rights are concerned, it is stated.

New School Head
 With the opening of Van Nuys schools, Frank A. Clark took charge of the grammar and lower grades, succeeding R. L. Frasher. The enrollment has increased stupendously. Most of the teachers are newcomers this year. An addition to the school building provides for the new pupils, and additional teachers have been obtained. Nathan F. Smith still remains principal of the high school, with practically last year's teaching force.

Tax Rate Is Lower
 A city and county tax rate of \$3.66 in Van Nuys is now announced. This shows a county rate 12 cents higher than last year, but the combined city and county rate is 6 cents lower than previously.

Two Dollar Bills 'Jinks' for Boy

NEW YORK—Others may scoff at "jinxes," but 15-year-old Erick McDonald, a negro boy, living at No. 54 West Ninety-ninth street, Erick was taken to the Children's society after he had been arrested, according to the police, in the act of burglarizing the show cases in front of the Big Store at No. 308 Sixth avenue. The boy passed the store and noticed about a dozen \$2 bills pasted on the inside of a showcase to advertise a sale. The police say he returned and with a penknife cut the putty from a glass panel and with five of the \$2 bills on the glass started away. Patrolman Frank Nau saw him working at the show case.

England issued coins called "angels." West India had one nicknamed "dog" and the Scotch dubbed one "unicorn."

Senator Reed Smoot Asserts Nation Should Abandon 'Greek Temples'

By H. K. REYNOLDS
 For International News Service.
 WASHINGTON, Sept. 15.—Senator Reed Smoot of Utah is opposed to housing government departments in "Greek temples." As chairman of the public buildings committee he has submitted a report to the senate recommending the adoption of a building program which will result in establishing all federal departments in permanent fireproof structures, and condemning the erection of "Greek temples" as both "foolish and unnecessary."

"After three years' experience in dealing with the housing of the government departments in this city," Smoot's report declared, "This commission is unanimously of the opinion that at the earliest practicable date congress should adopt a building program which will lead to the housing of all government departments in permanent fireproof structures."

Should Not Be 'Tenant'
 "That the great government of the United States should be a tenant in its own capital city is certainly food for thought, to say the least. Probably no other large government in the world has given so little thought to an adequate housing of its activities as this."

Among the government's most urgent building needs at present, Senator Smoot suggested the following:

1. A building for the storage of archives and records of the government.
2. A new building for the department of agriculture.
3. A building for a general accounting office.
4. A building to serve as a headquarters for the bureau of internal revenue of the treasury department.

Discussing these projects, Senator Smoot says:

Record Building Needed
 "The erection of a building for the storage of records and archives is probably the most urgently needed building.

"Aside from the protection it would afford those records from fire, it would make available for office purposes many thousands of square feet of office, now being used for storage in the various public buildings.

"The department of agriculture is probably the worst housed institution in the city of Washington. It is now occupying twenty-five buildings scattered over the city, and many of them are poorly adapted for office purposes.

"The various divisions of the general accounting office should by all means be housed under one roof. They are compelled to occupy several rented buildings at this time in order to obtain fireproof space, which is very necessary in view of the character of their work.

"The construction of a building for the bureau of internal revenue and other outlying bureaus of the treasury department is a most urgent need."

Senator Smoot said the public buildings commission had effected an annual saving of \$590,024.28 in rental charges for the government in the District of Columbia, reducing the total of \$1,135,897.28 on May 22, 1919, to \$545,873. The annual rental charge is expected to be brought down to \$400,000 before the end of the present calendar year. Much of the saving has been effected by giving up rented buildings and moving bureaus and departments in buildings owned by the government.

Have You Fitted Out the Kiddies' for School?

If not, you will be able to find just what they need here, because our New York buyer has been fortunate in securing for us, dresses, hats and other necessities at remarkably low prices, of which we are going to give you the benefit. The items below will give you an idea of our prices:

Amnesia Blamed for Having Two Wives

DETROIT—While his first wife waits for his release from a charge of bigamy, Bernard Raymond, 26, repented in the county jail a bit of midsummer madness that caused him to marry Mamie Heikkile, 24, pretty young seamstress.

While kept away from home because of a board of health quarantine, Raymond met Miss Heikkile.

"I blame it on a bit of amnesia, brought on by the heat," Raymond says.

Foch Tells of Air Castles Years Ago

PARIS—Marshal Foch became reminiscent a few evenings ago at a small dinner party. He was asked what he wanted to be when he was a boy—soldier or merchant—or what?

"I can't reply very well to that," he answered, and his eyes twinkled. "But when I was a young officer I used to build air castles, I envisioned myself attaining the rank of colonel and retiring with the honor of the cross of an officer of the Legion of Honor."

Hear Hope Diamond on Market; Untrue

LONDON—Hatton Garden, the diamond market of London, had a thrill recently when it was reported that the famous Hope diamond, owned by Mrs. Edward B. McLean, of Washington, D. C., had been placed upon the market.

The rumor proved to be untrue, but it was disclosed that a large diamond resembling the Hope diamond had been placed in the hands of a Hatton Garden dealer for sale.

Didn't Like Books; Broke Out of Jail

BERLIN—Several "jaillbirds" of Brandenburg Prison, near Berlin, made a daring escape because they could no longer stand the spiritual food offered to them by the staff. After being recaptured and asked by the authorities why they escaped they stated that the books given them to read contained too much "highbrow" stuff and "morality."

SPORTS

SCHOOL ATHLETICS AMATEUR PLAYERS STARTING SEASON TO HAVE CHANCE WITH PROMISE AT BIG TIME

Gymnasium Classes at High Ready; Football Squad Is Out for Practice

Athletics are starting off with a bang at Glendale Union High school. "Things are starting off very good," remarked Coach Normal C. Hayhurst this morning. "Lockers have been assigned, the boys are now getting their gymnasium suits and by Monday all the gymnasium classes will be in full swing. Of course, we are going to be crowded, but things look pretty good."

Sixty or seventy more boys enrolled for "gym" work yesterday bringing the total in the department of boys' physical education up to about 650. All of them are ready for exercise.

The gymnasium in the basement of the main building, which was used by the girls' classes before the completion of their new gymnasium, has been pressed into service again. Two boys' classes are being held there and two girls' classes.

Plenty of Exercise

Altogether there are twelve boys' gymnasium classes. Ten of these meet in the boys' gymnasium. Some periods two classes are in session there at the same time. In fair weather they will alternate between the athletic field and the gym floor.

Lack of lockers made it necessary to give two boys the same locker. Although this arrangement is not satisfactory, Mr. Hayhurst is thankful that there are enough lockers available to make this possible. He does not see much hope of getting any more lockers installed in the near future.

Principal George U. Moyle feels that the boys' physical education department is in excellent condition. Both Mr. Hayhurst and Howard L. Butterfield were on the job last term. Eugene Wolfe, who will assist them in their work, is a graduate of U. S. C. where he made excellent records. He specialized in boxing and wrestling.

First Football Practice

The first football practice of the season occurred after school Wednesday afternoon, and, according to Coach Hayhurst, prospects are very promising for a victorious season.

A number of letter-men from last year's team are on the field. They include Fred Stoff, who will be captain of this year's team; Russell Effler, Richard Ryan, Stillman Chase, Ronald West, Clifton Clouse and Gordon Barlow. Good form is being shown also by Alton Marshall, Joe Maurer, Norman Nelson, Harold Majors, Cyril Walton, John Frakes, Paul Edmonds, M. Horri and Arden Gingers.

Central Athletic League officials will meet soon in South Pasadena to arrange the football schedule. Mr. Hayhurst is under the impression that only two league games will be arranged for the local gridiron. They will be with Alhambra and South Pasadena. Games with Monrovia, Covina and Citrus will be played away from home. An attempt will be made to have the game with Franklin High played here. Other games may be arranged outside the league with Pasadena, Hollywood, Burbank and San Fernando.

Lightweight Squad

The lightweight team, whose members must all weigh less than 130 pounds, is in the field also. William Roberts, captain of last year's team, is in the field with the following boys who played last term: Robert Burns, Neil Melver, Alfred Johnson, Laughlin Jeter, Marion Morrison and Glen Roberts.

Although Horatio Butts has not yet reported for practice, Coach Hayhurst is hopeful that he will do so. He complimented young Butts very highly for his playing last season as a half back.

New players, who show promise, are Elmer Muff, Johnny Lovel, Dante Le Franchi and "Bill" Goody.

Value of the country's crops this year is estimated at more than \$12,000,000,000.

Bill Essick Gives Address to Association; Glendale to Play Pirrone Colts

"The Southern California sandlotters are going to have a chance to try out for league ball in future," said Bill Essick, manager of the Vernon baseball club, now leading in the Pacific Coast League pennant race, addressing members of the Greater Southern California Baseball Association last night in Los Angeles.

John A. Cobb, manager of the Glendale Merchants' team, and several of his players attended the meeting last night, when Bill Essick spoke on sandlotters and their chances to "go up." A number of semi-professional and amateur players in southern California have risen to the leagues in the past few months, and Essick realizes the latent talent in this vicinity. He promises to give the youngsters a chance to prove their worth.

Discuss Leagues

Plans were discussed at the meeting for the formation of leagues among the members of the association, which numbers most of the high-class semi-pro teams of the Southland in its aggregation. The teams will probably be grouped in several different leagues, and Spalding's management in Los Angeles has promised to put up prizes, to be awarded to the winners of each league.

At the close of a season of this league playing, a "Southern California Series" is proposed to be played off by the winners in each of the Association leagues. Local fans predict that in this vicinity such a series would create as much excitement as the fall world series.

Games on Saturday

Saturday ball games are to be encouraged by the Association, according to opinions voiced last night. The Merchants tried their Saturday idea more than a month ago, but met with little success, as local fans did not seem disposed to patronize a Saturday contest. However, if the Saturday teams, it is probable that Cobb will make another attempt to draw a crowd on Saturday afternoons.

One of the feature games of the week, as announced by Joe Pirrone, secretary of the association, is the Glendale Merchants-Pirrone Colts matchup which is to be staged in the local baseball park Sunday afternoon. This is in reality a return game, the Merchants having played the Pirrones, and incidentally having beaten them, some weeks ago. Chevalier, who has been with Pirrone all season, and has built up a big reputation for himself in the association, will probably pitch for the visitors Sunday. Finley will catch. It is said that Pirrone expects to reverse the tables on Glendale, for he has added a bunch of brilliant youngsters to his team, and he expects them to come across with a winning game.

Cobb has picked Agerson to start the contest on the mound for the Merchants, with Harris held in reserve in case the unexpected happens. King, Glendale's skookum catcher, will occupy his steady position behind the plate. King, by the way, has been tentatively scheduled to umpire the high school games next spring. On account of his prowess in local baseball circles, King, the Glendale left fielder, in the million dollar batting eye, who was not among 'em last Sunday will be back at his garden position Sunday.

The Glendale-Pirrone game Sunday will be one of the two or three which will decide whether or not Cobb's aggregation of Arizona for a three-game series within the next few weeks. The Merchants are making a wonderful record in the Association, and the continuance of this high-grade play depends upon the support they receive.

Deer Season Opens Saturday, Sept. 16

To the "big game" hunters of Glendale there is an interesting announcement to be made. Here it is:

Deer season opens Saturday, September 16, in fish and game district No. 4, which includes Los Angeles, San Bernardino, Riverside and San Diego counties.

A rush is expected for licenses, although some of the local hunters have not as yet made application, according to Daniel Kelly, Jr., of Cornwell & Kelly, local sporting goods store.

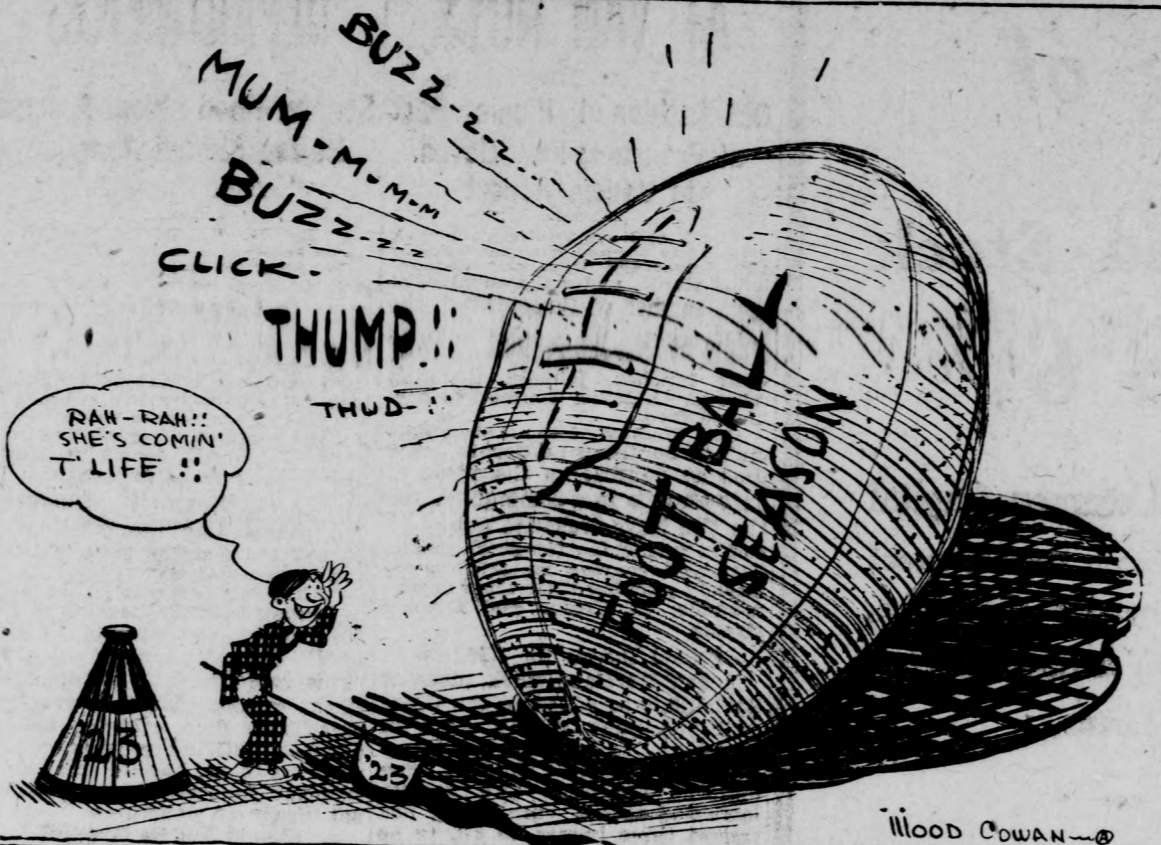

Tourists who have returned to the city have reported bright prospects for the coming season, it is announced.

Babe Ruth Smashes Thirty-Second Homer

CHICAGO, Sept. 15.—Babe Ruth, champion circuit slugger, hit his thirty-second homer of the season yesterday in the fourth inning of the game with the White Sox. No one was on base. Leverage was pitching.

THE DAY OF THE CHEER LEADER IS UPON US

By Wood Cowan

The Sport Crucible

By Davis J. Walsh
International News Service Sports Edition

PHILADELPHIA, Sept. 15.— Looking on while William T. Tilden knocked off Zeno Shimidzu with debonair ease in the fifth round of the national tennis championship the thought became a conviction that here was the 1922 champion of the United States. Tilden looked almost too good to be human.

That was early in the day. A bit later William M. Johnston wrecked out of the Manuel Alonzo of Spain. Immediately you almost forgot Tilden, in the contemplation of Johnston's amazing pace and subtlety. He was even better than the day he raced Gerald Patterson of Australia. But the latter, judged on what he is showing at the moment, may decline to be a party to the proceedings. It is one of those matches where anything can happen.

Subsequently, Patterson himself won with ease from Dick Williams. That performance edged with doubt the early conviction.

The World Over

By Franklin B. Morse
Pacific Sports Service

I have seen Jess Willard and watched him in action. There have been a lot of opinions as to whether or not he could get into shape for another bout with Jack Dempsey. There is nothing like seeing for yourself.

Jess Willard today is a stuffed club—a club of cloth stuffed with straw. His arms are as smooth and rounded as a woman's, his chest wobbles as he moves, and his mid-section protrudes over the belt he wears so that one could get a fist full of it just as he would get the skin at the scruff of a big dog's neck.

Jess tried to skip the rope for the shortest of three minutes. In that time he tangled himself up in it exactly five times and his exsiccated adipose tissue rocked and rolled on his frame as he jumped up and down.

He put on the gloves for three one-minute rounds with a sparring partner that looked as if he weighed a hundred pounds less. It was more slap stick stuff that went to show only one thing, that is that Willard hasn't any wind.

Those three minutes at the rope with his partner started him to blowing like a grampus. You could get a hundred feet away.

The writer has kept in close touch with sports for a matter of thirty years and he has had personal contact with hundreds of athletes in training, aside from a personal experience with training and conditioning methods when he was playing on the Princeton university football team. If a student of condition for more than a quarter of a century is entitled to an opinion, ours is that Jess Willard as he appears on the stage today is a tragic comedy. He has utterly no chance of getting himself into the condition which is demanded by such an event as a battle for the heavyweight boxing championship of the world.

Willard says he will not fight until he is assured he is in condition. There is no possibility of his ever achieving that condition. It is a physical impossibility for the reason that he has nothing to build on. He has passed his athletic prime, and once that is gone it is one of nature's decrees that it is never restored. Four months or four years' conditioning will be the same as Willard is concerned.

There was scarcely a man but what had a cynical sort of smile playing about his lips after watching the dismal antics of the one-time champion. We took pains to listen to the comments of other fans. We heard a score of them, and there was not one that did not express pity for Willard. To talk of Willard getting in the ring again is the sheerest nonsense.

Seemingly hypnotized by the Anzac's terrific service, Dick Williams dropped his match to Patterson in a steady succession of errors for one and service aces for the other, 6-3, 6-3 and 6-4. Williams gave a disheartening exhibition.

The Danish state railways will thoroughly test a locomotive equipped with crude oil motor similar to those used on motor ships.

TENNIS CHAMPS TO CLASH SATURDAY ON L. A. COURTS

Football Season Will Open Auspiciously for U. S. C. University Teams

Final matches in the Los Angeles county championship tennis tournament which was started last Saturday, are scheduled to take place tomorrow and Sunday afternoon on the courts of the Los Angeles Tennis Club. A large gallery is expected to be on hand for the play, as some of the classiest performers in the Southland are to be seen in action. The schedule is so arranged that all of the preliminary matches will be out of the way by Sunday, when just the semi-finals and finals are to be staged.

Starts Up Saturday

The stars left in the men's singles division who will participate in Saturday's matches are Dick Hinkle, Ralph Sindorf, Perry Jones, Clarence Barker, Paul Wolfe, Simpson Sinsbaugh, Paul Wickett, Eugene Warren and John Stopp. The players who will play for the men's doubles title are Browne and Barker, Sinsbaugh and Busch, DeMille and Alexander, Warren and Sindorf, Mace and Dickenson and Hornidge and Reinke. Play is to start at 1 p. m. and to continue until 5 p. m.

Start Gridiron Work

Coach Elmer "Gloomy Gus" Henderson, high football mogul of the University of Southern California, starts his official 1922 gridiron grind this afternoon on the Trojan campus. More than half a hundred candidates have already signified their intention of going out for the varsity squad, while it is expected that considerably more than that number will report for duty when the time comes. Suits will be issued and an actual workout is to be staged.

Flanks Weak Last Year

The Trojans' main fault last year was in the fact that they were outplayed on the flanks in practically every game of the season. This fall's squad gives promise of a big improvement on both ends, as both candidates who are scheduled to make the positions are sterling performers and their presence in the lineup should add considerable strength to the team. Pythian, the young giant who was the outstanding star of the 1921 Freshman eleven which defeated California's first year men, is slated for one of the jobs while Milton, who was ineligible for competition last season, will be on hand as Pythian's running mate.

Many Top-Notchers Available

Of the regulars from last year's squad who will again be seen in Cardinal and Gold uniforms this fall are Captain Leo Calland, center; Johnny Boyle, tackle; Lowell Lindley, guard; Hobe Kincaid, half, and Phil Tierna, full. This array of talent, all of whom are stars of the first water, should be some nucleus for Henderson to mould into a winner. Besides these he will have Norman and Otto Anderson and Dick Emmons, all of whom are now in the east with the Los Angeles Athletic Club's track and field team. "Chief" Newman, former Sherman Indian School star, and various other players from last year's second and Freshman teams.

COMMENT THAT'S ALL

Look at State Map
Grammar Schools Next
Physical Education
Playground Periods

By Gil A. Cowan

Do you ever stop to consider the map of California seriously? Maybe you haven't the topography in mind right now, but some day when there is nothing else to do but gaze away at a map of the state, see what you think of the crazy quilt effect the various counties present.

There are only about a half dozen of these lesser principalities which look the least bit reasonable to people who come from the prairie states of the midwest.

Riverside county, for instance, has every resemblance to the meat of a sandwich as it is crushed down from the north by the hulk and bulk of San Bernardino.

Los Angeles, with its metropolis in the toe of a boot, fits well under Kern where calves are raised. And the other counties along the coast are broken up seven ways from Sunday.

Automobile highways present a spider web effect on the printed map, running, as they do, from the centers of the valleys or the seaports, in a dozen different directions.

The geography of California ought to prove real interesting to the school children of Glendale.

Which leads up to the assured fact that grade and grammar schools will open next Monday.

By golly, there is going to be one swell raft of kiddies skittering hither and yon, to mix our language a little.

How a school system, with all of its complexities, accomplishes the results it does is almost beyond conception.

But they do seem to educate the youngsters in pretty short order and give them a smattering of knowledge which is quite passable in this day and age of enlightenment and sophistication.

It is to be noted with surprise that an organization in Santa Monica asks the abolishment of physical education in the city schools.

We will agree that physical education is not a necessity where the student gets it at home but how many homes of the 1920 variety do we have nowadays?

Also, where are the youngsters taught to work now and what other source of development of their bodies have they than that offered by the schools?

Certainly, this grand and glorious state does not want an aggregation of "Little Willies" wandering around with books and bouquets when basketball, baseball, tennis and a dozen other healthy sports can be enjoyed out in the open air.

Playground periods, competently directed, are a great improvement over the old days when "recess" was one "battle royal" with the big bullies battering up the younger ones and everybody doing anything they darned pleased.

Some eminent writers have openly declared that the imposition of age upon youth is the one deterrent to personal progress.

Many great men have had to overcome every sort of opposition on the part of the older advisers in order to show their true worth.

People in this state remember when Hiram Johnson's father campaigned against his son under the hallucination that his offspring was a crazy galoot who didn't know what he was doing.

So it is with all things. The new idea or invention is looked upon as dangerous until it is perfected.

It wasn't so many years ago that people would not ride in automobiles.

Comparatively few today will ride in airplanes.

Evolution must take a circuitous course, sometimes, but it gets there just the same, you bet!

It is too bad that some of the older people today did not learn to play when they were young.

"All work and no play makes Jack a dull boy," said the copy-book, and it becomes more apparent as the years roll by.

Some eminent writers have openly declared that the imposition of age upon youth is the one deterrent to personal progress.

Many great men have had to overcome every sort of opposition on the part of the older advisers in order to show their true worth.

STUDENTS CROWD VARIOUS CLASSES

Cannot Add New Teachers at High Because of the Lack of Room

"There was an old woman Who lived in a shoe. She had so many children She didn't know what to do."

Glendale Union High school is just about in the same fix this term, according to Principal George U. Moyses, who called attention to the general overcrowded conditions.

"We are crowded in every department," he remarked this morning. "The English, foreign language, mathematics, art, commercial and domestic science departments are all full. Forty-nine more pupils enrolled for English than we had planned to take care of. We had to make one new class and crowd all the other classes, too."

According to Mr. Moyses it is impossible for two classes to use the same room for a recitation at the same time. Otherwise, he thinks the solution of the problem might be quite simple. As it is, new teachers cannot be added to the faculty because there would be no room for their classes.

Earlier and Later A number of parents have been telephoning to the school and coming there in person in an effort to have their children excused from the last period of the day.

"In order to take care of the situation this year at all we had to lengthen the day," asserted Mr. Moyses. "School starts earlier in the morning and ends later in the afternoon. The first class starts at 7:45 and the last class isn't over until 4:15 o'clock."

According to Mr. Moyses, pupils who registered before Monday night have had the pick of classes. Late-comers have been obliged to take afternoon classes. Consequently, students cannot be excused from the last period of school unless the subject they have that period is to be dropped.

HIGH PERCENTAGE Here lies the body of Frederick Lefarge, His death is too sad for description. He was killed by the mob in a terrible charge, When he carelessly dropped his prescription.

SAN BERNARDINO LARGEST COUNTY

Los Angeles Is Eleventh In Population Figures

That Los Angeles is the second county in size in the state of California was the statement recently made at a public meeting. Los Angeles county is first in population and wealth in the state but in area she is eleventh.

San Bernardino is the largest county in the state and could contain within its boundaries the counties of San Francisco, Santa Cruz, San Mateo, Marin, Yuba, Sutter, Amador, Orange, Napa, Contra Costa, Alpine, Alameda, Solano, Sierra, Sacramento, Nevada, Yolo, San Benito, Lake, Kings, Glenn, Del Norte, Colusa and Calaveras.

The fifteen largest counties in the state are:

County	Square Miles
San Bernardino	20,157
Inyo	10,019
Kern	8,003
Riverside	7,240
Siskiyou	6,256
Fresno	5,950
Tulare	4,856
Lassen	4,531
San Diego	4,221
Imperial	4,089
Los Angeles	4,067
Shasta	3,858
Modoc	3,823
Humboldt	3,575
Mendocino	3,539

Smallest In State San Francisco is the smallest county in the state, containing forty-three square miles. The total area of the state is 155,652 square miles.

The seven counties having the greatest population are:

Los Angeles	936,438
San Francisco	506,676
Alameda	344,127
Fresno	128,779
San Diego	112,248
Santa Clara	100,588
Sacramento	90,978

Alpine county has a population of only 243 souls. Mono 960, Sierra 1,783, Trinity 2,551 and Del Norte 2,759.

The above figures are according to the 1920 census and it is certain that Los Angeles county has a much greater lead over any other county in population today than it had two years ago. The population of the state in 1920 was 3,426,536.

A. T. Jackson Here On Visit to Mother

A. T. Jackson of Nogales, Ariz., has been visiting the home of his mother, Mrs. J. T. Jackson, 363 West Broadway, Glendale, the early part of this week.

For two years past Mr. Jackson has had charge of the Nogales-Guaymas division train of the Southern Pacific railway of Mexico and has become widely known among the hundreds of American business men and investors of that section of Northwest Mexico.

A slight illness made it necessary for Mr. Jackson to take an extended vacation and accompanied by his wife he came over to Los Angeles, where the couple are temporarily residing at 538 South Fremont street.

German Church Is Naturalizing Self

ARIZONA FAMILY LOCATES IN CITY

F. L. Knornschild, Sells Meat Market in Douglas and Buys Residence Here

Among the recent new residents of Glendale is F. L. Knornschild, formerly of Douglas, Ariz., who is now residing at 238 Jackson street, where he and his family have established a permanent home.

Mr. Knornschild conducted one of the leading retail meat houses of the border city. He had long been considering making his home in southern California. When the recent Arizona business slump came along, he quietly disposed of his interests and obtained a lucrative position as salesman with the E. H. Duffey Company, Inc., ice-machine firm, of Los Angeles.

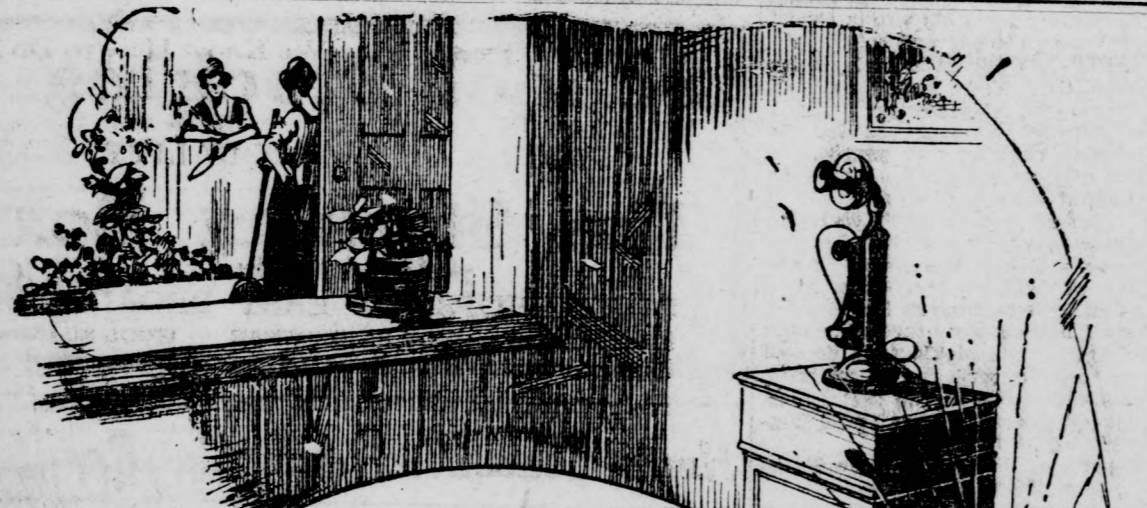

After a temporary stay at Pasadena and an inspection of the opportunities in suburban cities and their attractions, Mr. Knornschild chose Glendale for his residence.

"They Don't Answer"

When the telephone operator says, "They don't answer," it is after a sincere endeavor to get your party. She cannot compel an answer.

The party called may be unwilling to leave a particular household duty—may be in another part of the home beyond closed doors—may be chatting with a neighbor—may be marketing—may be slow in answering. Strange, but true, calls are sometimes designedly unanswered.

Telephone records show that the great majority of "don't answer" reports come from residence calls. In business, where it is a matter of dollars and cents, it is always the assigned duty of some one to be within sound of the telephone bell.

"They don't answer" is the statement of a situation absolutely beyond the control of the telephone operator.

The RIDDLE of the FROZEN FLAME

By M.E. & T.W. HANSHEW

"Hm! 'Dirty Jim,' otherwise Dobbs. And he was in the employment of this very extraordinary firm for the purpose of doing its 'dirty work.' Well, there seemed a good deal of employment for him, if that was the case. And Borkins was not Borkins in this part of the world.

Cleek stepped back to his work a little thoughtful, a little absent-minded, until the frown upon his forehead caused Dollops to lean over and whisper anxiously, "Nothin' the matter, is there, sir?"

CHAPTER XXIII

It was not until the evening was fairly far advanced that the opportunity of speaking to Dollops alone was afforded Cleek. He took it when the "Pig and Whistle" was filled to overflowing, and hardly a man who worked at the factory was not inside it or standing outside near the little quay, holding the usual evening's confab on the affairs of the day. Cleek caught hold of Dollops as he was making his way into the little bar.

"Come for a turn up the road, matey," he said loudly. "It's a fine evening" wot mykes yer 'ome-sock for a sight of yer own fire-side. 'Ave another drink later, maybe. Come on.

"Now, lad, let's hear all you've got to say!" he rapped out at length, as the distance grew be-

tween themselves and the crowded little pub, and they were safe out of earshot.

Dollops gulped with pent-up excitement. "Lor! sir, there's summink wrong, anyow; I've discovered that much!" he broke out enthusiastically. "Chummed up with ole Black Whiskers I did, and promised 'im a 'and t'ernight at 12 o'clock ter do some loadin' on ter the fishin' boats wot's on their way ter Belgium. 'You're a nice-seemint' sort or lad,' he tole me, after we'd bin chattin' fer ten minutes or so. 'Want ter make a bit of extra money by 'oldin' of your tongue?' I was on it like a knife. 'Ra-ther!' I ses. 'Orl right,' ses 'e. 'Come along ter the quayside t'ernight at 12 o'clock. There's a bit of loadin' up ter' he done, an' only a few uv the men are required. I don't choose none wot I don't cotton to.' 'You'll cotton ter me all right, matey,' I ses, with a sort uv a larf that seemed ter tickle 'im. 'I'm as close as the devil 'imself. Anythin' yer doesn't want me ter see, just tip me the wink.' 'I will that,' ses 'e, and then went off. An' so 'ere I am, sir, fixed up for a busy evenin' along uv ole Black Whiskers. An' if I don't learn summink this night, well, my name ain't Dollops!"

"Good lad!" said Cleek, giving the boy's arm a squeeze. "That's the way to do it, and that's all you've got to tell me? I've done a bit myself, and chummed up with a chap called Jenkins, the tall, thin man who works on the left of me, and he's let me into the secret of the fishing boat business. But he's a close-mouthed devil. Either doesn't know anything, or won't tell. I'm not quite sure which. But he wasted a good deal of valuable breath endeavoring to teach me to keep my mouth shut. Gad! I'd give something to have a few moments alone with your friend Black Whiskers! There's a ripped pillow case in my portmanteau which ought to interest him. And what else did you learn, Dollops?"

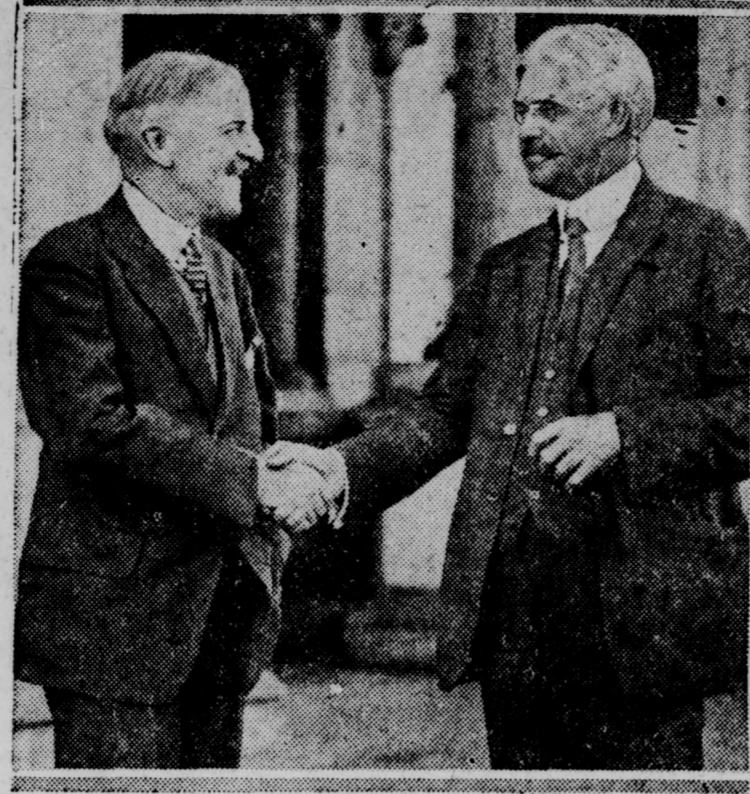

"Only that what they ships is electric tubin's ter perfect flexible electric wirin's wot is used for installations, sir," returned Dollops. "That's what most of the things were wot I set eyes on afore workin' hours, stocked up all ready ter be loaded on ter the boats. Long, thin things they were, an' ought ter be easy work, judgin' from their contents. But why make all this mystery about it, fair beats me!"

"And me into the bargain, Dollops," interposed Cleek, with a little sigh. "But there's an old saying, that there's no smoke with out fire, and ordinary people don't make such a devilish fuss about others knowing their business if they're on the straight. What all this has got to do with the 'Frozen Flame' business, I must confess somewhat puzzles me to discover. But that it has something to do with it is proved by that fishy character Borkins, and the amiable attempt of his friend to murder so humble a person as myself. Now it's up to me to find the missing link in the chain. Hello! here's a gap in the hedge here. Looks like it had been made on purpose. Let's go and investigate."

He whipped his little torch round and the circle of light flashing over the ground, revealed to their searching eyes something vastly unexpected in such a place and yet which, after all, seemed to fit into a place where so much mystery and secretiveness was in the air. They themselves, disguised as such rough characters, fitted into the strange picture, struck Cleek, even in spite of his many peculiar cases, as very much out of the ordinary.

(Continued Tomorrow)

FUEL DICTATOR SAYS 'THANKS'

William H. Woodin (left) thanking Governor Nathan I. Miller of New York for his appointment as state fuel administrator. Mr. Woodin is president of the American Car & Foundry Company, and director in a dozen large industrial corporations. He will serve as fuel administrator, without salary, during the coal shortage and will have practically dictatorial power to regulate and control the distribution and price within the state, of all fuel.

RADIO EXPLAINED

By LIEUT. JOHN R. IRWIN
INSTRUCTOR U. S. AIR SERVICE

In reply to inquiries regarding the best material for antenna the writer advises the use of the same material used by commercial companies. This is a stranded phosphor bronze or silicon bronze wire of a gauge either 7-19 or 7-22. To those unfamiliar with wire gauges this means seven strands of either a number 1 or number 22 wire.

APPARATUS AND DEVICES

By RALPH BROWN, RADIO ENGINEER

The recent demand for radio equipment has been productive of some very clever engineering. The illustration accompanying this article depicts an article that should fill the needs of those who build their own.

They Say That

The United States and the eastern republics of South America are joined by a new oceanic cable, which is in successful operation. Secretary of State Hughes, on voyage to Brazil to attend that country's great centennial exposition at Rio de Janeiro, exchanged congratulatory messages over this cable with the Brazilian foreign minister. Mr. Hughes expressed gratification that this cable affords increased facilities for the exchange of information between North and South America and brings the countries into "still closer acquaintance."

Uncle Wiggily Bedtime Stories

BY HOWARD R. GARIS

UNCLE WIGGILY AND THE PEANUTS

"Are you going to have much to carry when you come back, Uncle Wiggily?" asked Nurse Jane Fuzzy one day, as the bunny rabbit gentleman was about to hop away from his hollow stump bungalow.

"Well," slowly answered Mr. Longears, as he twinkled his pink nose a little to one side, to scare away a little fly who wanted to sit there, "you see, Nurse Jane, I'm going out after an adventure. And as I very seldom bring an adventure home with me, I'll have plenty of room to bring you anything you want. What is it you wish?"

"Just some peanuts," answered the muskrat lady. "I'm hungry for a few peanuts, hot and crisp from the roaster."

"Then you shall have them," promised the bunny rabbit uncle, "as fine peanuts as I can buy of the monkey doodle gentleman. And when I bring them home to you, and you are cracking the shells and eating the meats inside, I shall tell you of my adventure—that is, if I have one."

"Thank you, I'm sure you will," laughed Nurse Jane. Away hopped the bunny rabbit, over the fields and through the woods. His bright eyes looked first on this side of the path and then on the other side, seeking for an adventure.

"But I don't seem to find any," sighed Uncle Wiggily, after he had hopped a mile or more. "Adventures are very scarce today. Well, at least I can get Nurse Jane's peanuts."

The store of the monkey doodle gentleman, who sold peanuts to such of the animal folk as liked them, was not far away. Hopping there, Uncle Wiggily bought a quart, hot and fresh from the roaster.

"I hope Nurse Jane will like those," said the monkey doodle, turning the peanut roaster with one paw and putting peanuts in a bag with his other paw.

"Oh, I'm sure she will," said Uncle Wiggily. "I'll hurry back with them while they are crisp and hot."

So back hopped the bunny rabbit toward his hollow stump bungalow, and he had not gone very far before, all at once he stopped, gave his pink nose another twinkle, and said:

"There! I haven't had an adventure. eDar me. What shall I do? I shall have no story to tell Nurse Jane as she eats her peanuts. I wonder what I had better do?"

Uncle Wiggily sat down on a flat stump to think about this. It was very disappointing not to have an adventure.

"I wonder if I had better hop back through the woods for about a mile and see if I can't find an adventure?" asked Uncle Wiggily. Speaking out loud, as he often did, "Yes, I think that's what I'll do," he went on. "I'll go back and try to find an adventure."

"You don't need to do that!" suddenly growled a voice, seeming to come from under the stump.

"What's that?" cried the bunny, almost toppling off the stump in his excitement. The peanuts nearly fell from his paw. "Who are you and what did you say?" the bunny went on.

"I am the Weasel," was the answer, "and I said you needn't go back after an adventure, for you are going to have one right now!" With that a long, thin animal slunk out from under the stump and started for the bunny.

PREPARING A PLACE
A certain minister who had been asked by his congregation to turn in his resignation, selected as his text for his farewell sermon, the following:

"I go to prepare a place for you, that where I am there ye may be also."

A stranger, noting the disappointment with which the text was received by members of the congregation, turned an inquiring eye on the man sitting beside him. He received back this answer, delivered in a hoarse whisper:

"He's going to be the chaplain at the state penitentiary."

PERFECTLY NATURAL
"He wouldn't sacrifice his calling for a million dollars."
"What's his calling?"
"He's a profiteer."

AH, YES!
Here's to the chigger. The bug that's no bigger. Than the point of a good-sized pin. But the point that he raises itches like blazes, And that's where the rub comes in.

SHORT ANSWER
I asked my sister for some "Jack." The next mail brought a letter back. Its contents maddened me with pain
For all it said was "no" again.

QUALITY AND QUANTITY
Mr.—This home brew of mine seems to affect one.
Mrs.—The amount you've taken would affect two or three.

Side Talks by Ruth Cameron

"THERE OUGHT TO BE A LAW"

Of making of many laws there is no end.

If the world could be made right by passing laws how long ago the millennium would have come.

Yet men never seem to lose their faith in the omnipotence of law making to cure any social, moral, spiritual, industrial or aesthetic wrong—or anything they think is wrong.

How often one hears the phrase "There ought to be a law—"

A Blue House

"There ought to be a law to prevent people from painting houses that awful color," I heard myself saying yesterday when a ghastly bluish house affronted me in a heavenly landscape, where every prospect pleased and only man was vile.

To be sure I didn't exactly mean it, but it shows the way the mind instinctively turns.

Says the tenant: "There ought to be a law to prevent landlords from raising the rents so outrageously."

Says the landlord: "There ought to be a law that a landlord shall get back some decent kind of interest on his money."

Says the head of the family as he foots up the deadly total of his monthly bills and then goes over the column again because he cannot believe the total is so staggering: "There ought to be a law to keep people from charging so much for food that an ordinary man can't pay the bills for keeping his family fed and housed and clothed, to say nothing of saving a few cents."

To Keep Up Food Prices

Says the farmer: "There ought to be a law to keep up the price of products, so that a man will know in the spring what his crops are going to be worth in the fall."

Said the people who opposed the use of bath tubs as unhealthy, when bath tubs were first invented about seventy years ago: "There ought to be a law that people shouldn't take a bath from October until March," and in one city there very nearly was such a law.

Said the demagogues who wanted the votes of the poor people in the time of the Roman empire: "There ought to be a law limiting the price of bread."

How About This Law?

Said the people who thought the automobile a menace when it first appeared on the street: "There ought to be a law that no automobile can go faster than four miles an hour and that a man shall walk in front of it with a red flag." (And for a time there was such a law in England.)

And, in spite of all this, people bathe when they feel like it, millions of automobiles travel quite a bit faster than four miles an hour and no one walks in front of them (except the pedestrians who try to commit suicide), and the price of commodities is still controlled by the law of supply and demand.

Here's one more "there ought to be" which I respectfully submit. There ought to be a law against making foolish laws.

If I get it before the country, will you vote for it?

Tomorrow—"What We Marry."

(Copyright 1922 George Matthew Adams)

SPORTS HAT FOR EARLY FALL

Strips of gray felt with wool of the same tone combine to make an attractive sports hat for the early fall.

Diet and Health By Lulu Hunt Peters, M.D.

I, I, I; I, MYSELF; I THE HISTORY OF ME BY ME

CHAPTER XXVI

I Take to the Bottle

I don't think I exactly live to eat but I certainly look forward to my meal-time. As I have told you many times before, I have a very special milk made for me alone by my beautiful Mama herself for her own baby boy.

As she is very careful to eat the foods that supply all of the elements needed for my growth and development, naturally I am speeding along at a great rate; and, fortunately, the same foods that are good for me are good for my Mama also.

She watches my weight—and she watches hers, too! Our Doctor has emphasized the importance of her not getting overweight. Many times mamas, knowing that they have to eat to supply their babies also, do not watch their own weight and they become very fat and their health is liable to suffer, and then their milk is not so good. I have told you this before but I think it is worth repeating because it is so important.

My milk my Mama makes is the most delicious food I have ever tasted in all my life. You will laugh at this for you think I have never tasted anything else, but you are mistaken, my dear. I do know what baby calves' food tastes like now! And I don't like it. I don't like it a little bit.

Yes, since I wrote you last a big change has come into my life. The other day when my meal-time came and I saw my Muddie coming to get me, I wiggled all over with excitement and happiness, not simply because I was going to be fed—I am not such a gourmand as that, you understand—but I love that precious water more beyond all power of expression.

Well, Muddie took me up and was sat in our little rocker. I cuddled down to her breast, but it was not given to me. Wonderingly I looked up. I found her holding my bottle that I take water from sometimes, and in it was a whitish-looking fluid. "Take this, baby dear," Muddie said. I took it, thinking perhaps it was a new kind of nice water. But it wasn't. It was a nasty tasting stuff made of this calves' food and water mixed.

"Mother dear," I sputtered as I spat it out, "I can't take it, on my word I can't! What's the big idea?" "Take it, baby love," Mama repeated; "Doctor says you are old enough now to have one bottle a day and you will like it after a while, truly you will."

BEAUTY CHATS

FACE POWDERS

I once heard a discussion between two women concerning the habit of powdering the face. Both women had as nearly perfect complexions as I have ever seen, although neither of them was under 40.

The elder of the two was a pronounced blonde with a skin of fine texture and without a blemish. She was deploring the fact that the present generation of young women had the habit of powdering the skin. She believed that her own well preserved skin was a reward for never having used powder in her life. She argued against the use of powder as impeding the full action of the skin.

The other one smiled sweetly and replied that she had never known a day in her life when she had not either powdered or been powdered, since both her mother and grandmother had believed in the habit as a protection to the skin. "I would not feel clean without it," she emphasized.

"Well, I would not feel clean without it," she emphasized.

Both of these women had excellent health, and were interested in so many things that they had kept not only their bodies but their minds exercised; their good complexions were a result, and the powder or lack of it had nothing to do with the texture of their skin.

Unless there is a great deal of powder used. I do not think it could injure the skin, provided only a pure article is used. One of the nicest powders that I know is the plain unscented rice powder. This is pure and very cooling to the skin, and any perfume may be added. There are very few powders any more that would be harmful to the skin, except perhaps the powders put up in liquid form, and their injury results from a clogging up of the pores and a drying out of all the oils in the skin. The constant use of such powders would shrivel the skin and cause the face to line prematurely.

In any case, use only a little powder, a mere touch, over the nose, chin and cheeks, and only enough to soften and remove the shine from the skin. Any more than this is not in good taste.

Hopefully—There must be something in the cream that disagrees with your skin. I regret there is no space to print the cream formulas, but they will be mailed to you if you request them and send a stamped addressed envelope. If you feel that soap irritates the skin, try almond meal. Use this just as you would a soap sprinkler over a wet wash cloth.

Jane—A little girl of 14 years should not need either cold cream or face bleaches. All such blemishes you mention are really of no consequence, since they are due to some trifling disorder which is only a temporary condition.

Curly Locks—Before I cut the hair I should test on the style which was once so becoming. If you find that it makes you look more youthful, there would be no reason why you should not adopt it, as no one any longer thinks of a young woman of 31 as any more than a grown-up girl.

Tomorrow—Exercises for Pronunciation.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So, if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Practical Housekeeping by Florence Austin Chase

PACKING THE PICNIC BASKET

When we start out for a picnic we like to know that we have a lunch basket packed with eatables that will satisfy hunger and yet be palatable and dainty. Some times when we go a picnicking we cannot make a fire to cook coffee, because of danger of forest fires; or something of that kind, and then it is that we are fortunate if we have prepared the basis for a cool refreshing drink. And deviled eggs, they never seem quite so good as when they come out of a picnic basket! And we must not forget some sandwiches, for they are such a convenient way of serving bread and butter and "something else."

Menu for Picnic Lunch

Deviled Eggs
Molded Salmon Salad
Celery and Nut Sandwiches
Cheese and Olive Sandwiches
Nut Macaroons
Lemonade

Deviled Eggs—Cut four hard boiled eggs lengthwise; remove yolks. To yolks add one teaspoon vinegar, one-half teaspoon dry mustard, one-fourth teaspoon salt, one-eighth teaspoon paprika and one-fourth teaspoon white pepper and mash to a smooth paste. Fill whites with the mixture; place two filled halves together and wrap each egg in waxed paper.

Molded Salmon Salad—Make a cooked salad dressing by mixing one teaspoon salt, one-fourth teaspoon paprika, one and one-half tablespoons flour and one teaspoon dry mustard together; add to the beaten yolks of two eggs and mix thoroughly. Pour in gradually, while constantly stirring, one-half cup milk, one and one-half cup milk, one and one-half tablespoons melted butter and four tablespoons hot vinegar. Cook slowly to thicken, strain and cool. Carefully pick the bones and skin from one pint can of salmon; add four hard boiled eggs, chopped, and pour over the cold dressing; mix lightly together.

Cheese and Olive Sandwiches—Mash one-half cup cream cheese and add to it three tablespoons pickle, chopped fine, one-half cup stuffed olives, chopped fine, one-fourth teaspoon salt and two tablespoons salad dressing, or as much

It's a Fact

WORLD AUDUBON

What the Audubon societies have accomplished in protecting wild bird life in America an international committee just formed in London hopes to do for the world at large. It will spread propaganda and make a sustained effort to get adequate legislation in every country where none now exists. In Southern Europe the peasants every year kill great numbers of song birds for food.

OFFEND NATIVES

The Buddhist religion forbids those who believe in it to take life. Members of the Mount Everest expedition found the animals and birds of Tibet so tame that they gathered about the party, especially near the villages, and the naturalists of the expedition could not make large collections without seriously offending the native people, all of whom are Buddhists.

WATER STEAM ROLLER

The rail and road wheels of an English steam roller for road building are hollow steel tanks that can be filled with water to increase their weight.

Mexico City has two baseball leagues and ten first-class diamonds.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair; by morning the gray hair disappears, and, after another application or two, your hair becomes beautifully dark, glossy and attractive.—Advertisement.

TAILORS TO LADIES

Dear Ladies of Glendale: If I have never made Suits or Coats for you, now is a good time to begin. I know tailors are as plentiful as pie plant and politicians. Any of them can cut and make a suit for you, but I have an idea you will want something more than simply a suit that will cover your back. "Yes, I'd like to look over that fellow's new collection of woollens, but I know he will expect me to order a suit if I do." If that's the way you feel about it, we want you to disabuse your mind of the notion right now. You come and go here without the slightest obligation. The Suit, Coat or Cape you finally select are serious matters. You will expect to be closely associated with them throughout the winter, and it behooves you to be as careful in selecting the right material as you are in picking your friends. That is why we will welcome you any time you feel like inspecting our line, and assure you that we shall in no way undertake to bias your judgment while making the inspection. The selection of clothes is an intimate personal matter which only you and those nearest you can decide. Our part is simply to show the material, furnish samples for the home folks to see, if you wish, and let the designs speak for themselves. Once you've picked your favorite, then, and only then we get busy.

Yours very truly,

A. Gelmor

We are still remodeling and relining your old clothes.

CLYDE L. THEDAKER PRESENTS VISION ON DEPOT SITE

Local Agent for S. P. System Makes Suggestions About New Location

Glendale has one of the finest depot sites of any community this side in the United States.

Such is the opinion of Clyde L. Thedaker, local agent for the Southern Pacific Railroad company.

A handsome and ornamental passenger station and a commodious freight depot, both surrounded by a beautiful park—such is the vision of Mr. Thedaker.

To acquire the site to which he has reference would require no outlay of money on the part of either the railroad or the citizens of Glendale. It is already the property of the Southern Pacific Railroad company.

"I doubt if you could find a much better site in Glendale than the station is on now," remarked Mr. Thedaker, discussing the possibility of having the depot moved.

More Street Openings

Although Mr. Thedaker admits that the station is "somewhat inconvenient" of access at present, he does not believe that it would be any more convenient on San Fernando road, between Doran and Milford street. In fact, he does not believe that it would be as convenient to many people. He commented on the fact that the proposed site at present has no street car service within a mile, and that it would be necessary for passengers to go there either in private automobiles or a bus.

By having more streets opened through to the present station site, Mr. Thedaker believes that it would not be at all inconvenient of access. The fact that several streets in its vicinity are blocked is one reason in his opinion why the depot seems in such an out-of-the-way place.

Big Traffic Increase

However, the present station is far from adequate in size. During one month this year the passenger traffic increased 1824 per cent over the same month last year. Another month this year the freight business increased 150 per cent over the same month last year. As a result the combination passenger and freight station is badly crowded. The freight department is now holding in abeyance a request for enlargement of the freight house.

When the new station is built—as built it must be sooner or later—Mr. Thedaker believes that it should be located about 150 feet east of its present location. This would place it just a few hundred feet west of Brand boulevard, but still far enough from this highway so that trains stopping at the station would not block traffic on this boulevard.

The site suggested by Mr. Thedaker would be convenient to two street car lines—the Pacific Electric on Brand boulevard and the proposed extension of the Glendale & Montrose Railway on South Glendale avenue. It is also convenient to the bus lines on Los Feliz and San Fernando roads and would be close to the end of Central avenue, which is one of the main arteries of Glendale.

Owens Twelve Acres

The Southern Pacific Railroad company owns twelve acres surrounding its present station in Southern Glendale. This lies between Los Feliz road and Brand boulevard, a distance of approximately 850 feet. The total width of the strip is about 400 feet.

A beautiful park could easily be laid out on either side of the railroad tracks, according to Mr. Thedaker. This could be made so attractive that people passing on the train would never forget Glendale.

As to whether the railroad company would defray the cost of the necessary landscape gardening and its maintenance is a question about which Mr. Thedaker is somewhat doubtful. However, if arrangements could be made with the company for the city to take care of the parkway, he believes that the community could make no better investment.

The proposed West Glendale site would not be large enough for an adequate depot, in the opinion of Mr. Thedaker. He called attention to the fact that the present station is considerably over a hundred feet long. He also commented on the fact that the tracks in front of a new station would have to be separated by a distance of at least fifteen feet in order to allow a space for baggage trucks and passengers to stand between trains. When this width is subtracted from the size of the proposed site, very little property would be left for a station.

The erection of a station on an entirely new site would require about two years, in the opinion of Mr. Thedaker. Besides, the construction of the building itself, re-laying the roadbed and re-laying the tracks would consume considerable time.

In view of the fact that a new depot is under discussion, the views of Mr. Thedaker are presented, as given above, for consideration.

Divorce Not Legal Because of Lawyer

NEW YORK.—Although Samuel Totten, an attaché of the American consulate at Buenos Ayres, obtained what he believed to be a legal interdictory decree of divorce in the supreme court of White Plains in 1920 he finds the judgment was worthless because his attorney, Herbert F. Miller, known as "the divorce mill lawyer," had no right to practice in this state.

Convenient terms of payment may be arranged for any purchase you may wish to make. This allows you to enjoy your well furnished home while paying for it.

Fall Showing of Fine Furniture

The Opening of the Fall Season

Finds us with the greatest display of high-grade Furniture at moderate prices that we have ever been able to offer the home furnishers of Glendale and vicinity.

Cleverly designed pieces for every room in the house are to be seen here in a variety of woods and finishes. And the styles vary from the ultra-modern to the justly popular period designs.

Every Home Lover will Enjoy Seeing this Display

OPPORTUNITY On San Fernando Road

I believe in GLENDALE. I also believe in SAN FERNANDO ROAD. I have invested my money in building and vacant property on SAN FERNANDO ROAD, and I am willing to invest more. We need on SAN FERNANDO ROAD, in the vicinity of Park Avenue, businesses of various kinds.

I will build and lease for any term of years, any kind of building you want, from a bakery to a storage warehouse, up to \$50,000. Nothing but first-class buildings constructed. It is only a question of a few weeks until SAN FERNANDO ROAD, in this vicinity, will be one of the best lighted streets in SOUTHERN CALIFORNIA.

The Automobile Club of Southern California show that in 1921, that 19,400 vehicles passed this section daily.

If you contemplate investing in a business, investigate this section.

COUNTY GROUP TO MEET TOMORROW

Regional Conference Takes Place Under 'The Oaks,' Verdugo Woodlands

Tomorrow morning at 10 o'clock the Regional Planning Conference meets "under The Oaks" at Verdugo Woodlands, on the F. A. Newport property. Among the officials scheduled to be present are Mayor Spencer Robinson of Glendale and City Manager William H. Reeves, President V. M. Hollister and Secretary James M. Rhoades of the Chamber of Commerce, Hon. F. R. McClellan, C. Gordon Whitnall, and Cecil Wilcox of the planning conference.

The relation of Glendale and vicinity to the Regional Plan will be taken up first. At noon a real Spanish luncheon will be served at the Verdugo homestead, and at 2 o'clock the meeting will reopen at Glendale-Verdugo city park, where the complete specification of the much-talked-of Regional Plan will be made public.

Cincinnati Judge's Fish Story Is Bird

CINCINNATI — Judge Robert Le Blond has returned from his vacation in California with the prize fish story of the year. He reports that while deep sea fishing off Santa Monica, with five minutes, he and his party hooked five cormorants which dove for the bait and swallowed the hooks. One of the birds, he says, was landed and tied in a gunny sack, but threw itself against the starting lever of the boat's motor with the result that the moving machinery reversed the little craft, much to the astonishment of the fishermen, and ripped open the sack, liberating the cormorant. That's why, the judge declares, he could not bring back a picture of the bird to substantiate his story.

Nightwatchman Will Have School of Own

CINCINNATI, Ohio — Guardians should be taught how to guard, in the opinion of Captain J. J. Conway, superintendent of the Cincinnati Salvage Corps, who is now working out plans for a night watchman's school that will teach its pupils what to do in an emergency. Recently thousands of dollars' damage resulted needlessly, while a night watchman wasted valuable time in trying to get in touch with the store superintendent before calling for help. Conway proposes to hold a class once each month.

WHEELER'S LUNCH OPENS SATURDAY

Delicatessen Is Now Ready for Business Again at Its Old Stand

A satisfying shop for particular people is the reputation enjoyed by Wheeler's delicatessen and lunch shop, which is to reopen tomorrow at 247 North Brand boulevard, after being closed two weeks for remodeling and rearranging.

Mr. and Mrs. Ira D. Wheeler came to Glendale more than a year ago and, after considering various business propositions, they decided to open a delicatessen and lunch shop and selected the North Brand location. Their success may best be described by citing their many patrons and friends who know that when an article of food bears the Wheeler stamp it is the best.

Improvements Made

Since closing two weeks ago the Wheelers have had the shop walls tinted and stenciled most artistically. Two tables have been added for serving lunches and each table provided with brown stenciled luncheon cloth. In addition to these changes a new refrigerating system has been installed behind the delicatessen counter and in the front of the shop the window space has been

Free Blackberries Gift to City Folk

YOUNGSTOWN, Ohio.—The editor of a local newspaper is in receipt of the following communication from W. M. Woodworth, Cortland, Ohio:

"Dear Sir: Will you kindly inform the people of your city that blackberries are free for the picking on our farm? We are located between Cortland and Johnston, on what is known as the 'Woodworth farm'.

"My wife and I are too old to pick these berries, and we hate to see them go to waste when other people might enjoy them. There are over two hundred bushels of berries in the patch.

"Tell your readers to come out and make a day of it. We have a cool spring and some nice shade trees. Tell them to bring the kiddies, and we will put up a swing in the orchard for them. Also, they can get good apples if they like.

"Last year we gave away over two hundred bushels of berries."

MILEAGE PROVES VALUE OF TIRES

A. C. Fangman of Cut Rate Store Receives Shipment of 'Virginian' Make

Tire talk is always of interest to veteran car owners or prospective buyers and A. C. Fangman of the Cut Rate Tire store at 212 West Broadway has made a thorough study of his business.

"It's not the tire itself, but the mileage it yields, which determines real tire value," philosophizes Mr. Fangman. "That is probably the answer to why we have been selling so many of the 'Virginian' tires.

"Tire shoppers are looking for both quality and price. It is our intention to give the automobile tire users of Glendale and vicinity who heretofore could not afford 'long run economy' an opportunity to really buy more miles at one time for less money, and to give them efficient service and a square deal.

"On August 24 we received a large shipment of Virginian tires, the oldest of which was manufactured on July 24, which means that tire users of Glendale are receiving absolutely fresh stock."

The first comic opera known was composed by Adam de la Halle, a Trouvere, in the thirteenth century.

READJUSTMENT OF WATER RATES AT TUJUNGA PLAN

New Schedule Is Now Being Written by Commission; Festival Success

Water is the question of the day at Tujunga, where the rates are unsatisfactory to the people, agreeable to the water company, and highly satisfactory to the State Railroad Commission which established them, it is declared.

The Tujunga Realty Board and Chamber of Commerce have had active committees in constant touch with officials of the Haines Canyon Water Company in an effort to reach an agreement satisfactory to all.

The company appears willing to do its part, and H. B. Lynch and M. V. Harrington of the company went to San Francisco to confer with the commission.

At present the commission has before it in writing a new schedule which appears satisfactory to the company and civic interests.

Festival Is Success
American Legion Post No. 250 at Tujunga has extended a vote of thanks to volunteers who helped make the Festival of the Moon a success.

While no great amount of money was made, the Festival was a great community advertisement, not marred by a single accident or mishap, it is stated.

The Legion Post fostered and directed the festival, and some interests are inclined to believe the public should thank the young veterans for putting it on and ask them to "do it again" next year.

May Be Chosen As New U. S. Controller

Representative Louis T. McFadden of Pennsylvania, chairman of the banking and currency committee of the House, has been mentioned as a possibility for controller of the currency in case Controller Crissinger were named governor of the federal reserve board.

BURBANK BUILDING FOR AUGUST AT \$80,000 MARK

Neighboring City Continues Steady Progress; State to Set Lighting Rates

Burbank's building progress continues gratifying, with a total of practically \$80,000 for August. Of that amount \$10,000 was for an addition to the Victory theater, and the other \$70,000 was for homes.

Based upon the nation-wide average of \$500 per person for housing, it is evident that in the last month Burbank prepared for 140 new inhabitants. The month's record was lower than that of July, and not above the year's average, which indicates that Burbank is growing at the rate of about 1700 people a year. That's moving right along.

Want Rest Rooms
The Burbank Chamber of Commerce is quietly conducting a campaign to secure a lot to erect a Chamber of Commerce building upon. The proposal includes rest rooms and comfort stations for men and women.

With the present spirit of progress alive in that city, a Kiwanis club recently organized and a Rotary club under consideration, this project will probably get the backing it merits.

Trucks In Demand
Important in judging the business conditions of Burbank is the progress of its biggest factory—the Moreland Truck company. Officials of that concern have stated that last month was the best, both in production and delivery, that the concern has yet experienced.

With the arrival of school season, the company is busy delivering busses for the transportation of school children. Bakersfield, Lakeport and Burbank itself are included in the towns which have purchased busses for that purpose. Last week a street sprinkler truck was shipped to Guaymas in Sonora, Mexico.

Fire Limits Extended
It is expected that the Burbank city fire limits will be extended, and the city attorney has drawn up an amended ordinance to bridge the gap from San Jose to Myrtle avenue. More fire plugs are also planned to give the additional protection necessary because of the rapid upbuilding of some localities.

Light Rates Fixed
The State Railroad Commission will hereafter fix the lighting rates for Burbank instead of the city trustees, as heretofore. The board of trustees passed an ordinance to that effect, making the rates charged by the public service department of the city the same as those fixed by the railroad commission in that district. This obviates the necessity of formal action, advertising and other expenses by the city.

Tears of mourners at funerals in Persia are bottled and used as medicine for chronic diseases.

DEVELOPMENT OF HELIUM MAKES GOOD STORY

Government Now Maintaining Three Plants Where Gas Is Manufactured

By H. K. REYNOLDS
(For International News Service.)
WASHINGTON, Sept. 15.—The story of the development of helium gas, which, because of its non-inflammability, is eagerly sought for the operation of gigantic military dirigibles, is one of the romances of science, according to officials of the United States bureau of mines. Helium, which exists in the air we breathe in the proportion of one part by volume to 185,000, is one of the best examples of a discovery in pure science that has wide commercial application.

In 1868 an eclipse of the sun was visible in India. Several scientists of men who were making observations of the eclipse turned a spectroscope for the first time on the solar chromosphere—that part of the atmosphere of the sun which merges into the corona. A bright yellow line was observed and was thought at first to be due to sodium.

Line Found to Vary
Jansen showed, however, that this line was not just the same as either the D1 or D2 line of sodium, although it was extremely close to these lines. Hence he suggested that the new line have the designation D3. Frankland and Lockyer decided that D3 was due to an element in the sun not previously discovered on the earth and suggested for it the name of "Helium"—from the Greek word helios, meaning the sun.

For several years nothing more was done in connection with this element. In 1894 Sir Walter Ramsay, in connection with Lord Rayleigh, made his memorable discovery of argon in the atmosphere. After this discovery Ramsay looked for other sources of the element. He learned that Dr. W. F. Hillebrand, of the United States geological survey, had obtained an inert gas from certain uranium minerals, which gas he had decided was nitrogen. Ramsay believed part of it might be argon. He obtained from Hillebrand for experimental purposes a sample of the mineral—cleveite, one of the uranium minerals, and, after extracting gas from the mineral and purifying it, he ran it into a spectrum tube. The lines obtained, however, were different from those of argon. Among them was the bright yellow line noted by Jansen. This was terrestrial helium discovered.

Helium Taken from Air
Dr. R. B. Moore, chief chemist of the bureau of mines, says that from samples of air taken at an altitude of several miles the proportion of helium has proved to be about the same as at lower levels.

At extremely high altitudes, such as 100 miles or more, the proportion may be greatly increased, Dr. Moore says.

Before the World war the Germans had developed a type of dirigible called Zeppelin, after Count Zeppelin, its inventor. The French and British had no dirigibles at the beginning of the war, but later hastened to repair their deficiency. From experience gained in the defense of London it was recognized that the dirigible was vulnerable against a well-

British Actress Is Licensed Air Pilot

The Hon. Elsie Mackey, third daughter of Lord Incheape, one of England's leading ship owners, who is known on the British stage as Poppy Wyndham, has received a certificate as an air pilot, and is now flying her own plane, the DH 6. She is reported to have lately become reconciled with her father, who at one time disapproved of her marriage to an actor.

HEAD OF RAILWAY OUTLINES PLANS FOR NEW LINE

Official Says Cars Should Operate on Avenue by First of February

Street cars ought to be in operation on South Glendale avenue by the 1st of February.

This announcement is made by P. L. Hatch, superintendent and general manager of the Glendale & Montrose railway.

"We are already to go ahead as soon as pending contracts have been satisfactorily terminated," he stated, referring both to the collection of the bonus and to the contract now being negotiated by officials of the Glendale & Montrose railway and the Union Pacific railroad.

The estimated cost of the electrification of the three and a half mile strip of railroad track between Broadway and Glassel Park is \$125,000. As an evidence of their interest in the matter, it has been arranged that a bonus of \$25,000 shall be paid to the Glendale & Montrose railway.

Estimate of Traffic
Just how much traffic the new line will be called upon to carry is unknown. Mr. Hatch, however, is hopeful that the service will be profitable. He does not consider that it will do more than pay a reasonable return on the investment.

"I estimate that there is between four and five months' work, after the contracts have been signed, before the line will be in operation," asserted Mr. Hatch. "That means the installation of a substation to provide the power, installing and stringing the poles, bonding the rails and rebalancing the track in order that it may be suitable for passenger service, and the purchasing of equipment, all of which has to be bought in the East."

"We will start things going on all of these different plans just as soon as we know that we are going ahead. We will start putting up the poles and the trolley wire while the substation is being prepared."

Option on Locomotive
For freight service an option has been secured on a new fifty-ton electric locomotive, which was built for a French line and forfeited and is now in Pittsburgh. Delivery on this is promised in sixty days from the date the order is received. The locomotive is capable of pulling eight forty-five-ton cars up the two per cent grade which will be the maximum on the Glendale and Montrose system.

The location for the substation is definitely decided," remarked Mr. Hatch. "That can be located anywhere along Glendale avenue, between the cemetery and the Salt Lake yards. This is a matter that we have to work out with the Union Pacific. It is possible that it may be located on some of the right of way."

Plans for the new substation provide for a concrete building about 20 by 35 feet in size. This will house a 400 horsepower automatic 350 kilowatt motor generator set which will generate the usual 600-volt current for the trolley wire.

The present power station of this electric line is located at Montrose, where the electricity is received from the Southern California Edison company. This has a capacity of 300 horsepower. The old station will be retained in operation and the new substation will serve as an auxiliary for the new line.

To Try One-Man Cars
"We haven't definitely decided upon cars at this time," admitted Mr. Hatch. "The plans, which have been made, are first to try the thing out with our one-man cars. If the line proves very popular and traffic is heavy, it will mean that we will have to provide heavier cars. This problem is more or less of an unknown quantity. However, traffic will be taken care of. We are sure of that part of it."

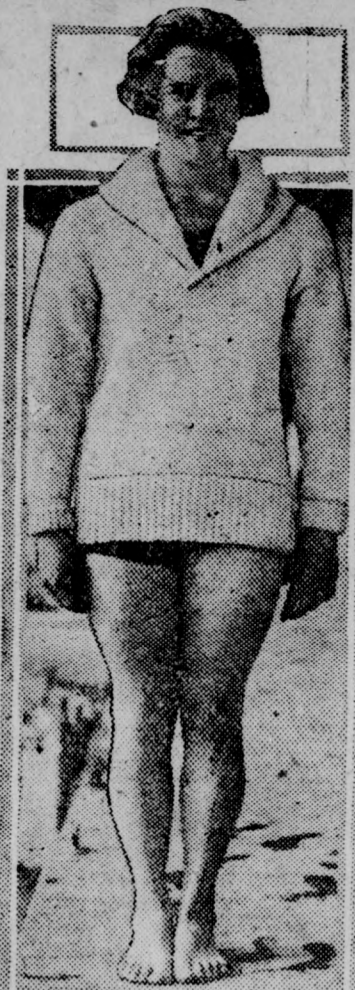

Two different types of poles will be used to support the trolley wire. One is a straight wooden pole about forty feet high. These poles will be placed on either side of Glendale avenue north of the southern city limits and wires to support the trolley will be suspended from them. Iron mast arm poles twenty-two feet high, will be installed south of the city limits on the Union Pacific right of way.

"Several companies up north sell them," said Mr. Hatch, referring to the wooden poles. "They can be gotten down here very quickly. We get quotations on them all the time. We can get the mast-arm poles right in Los Angeles."

Refugees Fleeing Before Turk Army

SMYRNA, Sept. 15. — More than 1,000 lives have been lost among the refugees who fled to this city in the path of the advance of the Turkish army, it was estimated today. The city is crammed with homeless Armenians and Greeks. The monetary losses among the fugitives is put at \$60,000,000.

15-Year-Old Girl Is Swimming Marvel

Gertrude Ederle, New York's 15-year-old swimming marvel, taken at the New Brunswick Boat Club just after she had clipped seventeen and two-fifths seconds from the National A. A. U. record for the 440-yard swim. Miss Ederle made the quarter mile in 6:00 1-5 minutes finishing with a lead of a good dozen yards over Miss Helen Wainwright, generally considered as America's all-around woman swimming champion; who in turn, led Hilda James, English girl champion of Europe, by at least ten yards.

SHIRLEY MASON WILL BE THERE

Famed Actress Will Appear at Glendale Theatre—'Very Truly Yours'

Another star at the Glendale theatre in person and in film! William Fox is presenting Shirley Mason in another of those dainty, powerfully appealing roles with which this star has become so closely identified. This time the photoplay is "Very Truly Yours." No. Miss Mason will not appear as a forlorn and pathetic figure in which so often she has gripped our hearts, but her character as a charming young hotel stenographer alone in the world, and the sequel of her matrimonial venture, are likely to enlist keenest sympathy just the same. The story, written by Helen Hawkins, is cleverly developed along lines that embrace both light comedy and serious moments.

Miss Mason will appear at the first performance tonight only. So be early!

U. S. Consulate Is Burned at Smyrna

ATHENS, Sept. 15.—The American consulate at Smyrna was reported today to have been burned. An American destroyer has arrived from the Asia-Minor coast bringing a number of American citizens from the Vilayet of Smyrna.

Jugo Slavs Discover Work Solves Problem

LUPTON A. WILKINSON who has just returned from a survey of conditions in Jugo Slavia.

Lupton A. Wilkinson who has just returned from a survey of conditions and events in Jugo-Slavia says that reconstruction is a fact and not a theory in that country, where to the once-poor kingdom of Serbia have been joined Montenegro, much of the wealth of Austria and fertile fields that were formerly under the domination of Bulgaria.

"Speaking a common tongue and sharing equitably the powers of the new government," he says, "the peoples of Serbia, Montenegro, and Austria are welding the wealth that was given them at Versailles into a powerful and prosperous unit."

Writing on the Jugo-Slav, Mr. Wilkinson says they have made the simple discovery that hard work and building, not clever analysis and intrigue, constitute the solution of European troubles.

Aloha! Rotarians to Enjoy Big Fete

A Hawaiian night will be enjoyed by members of the Glendale Rotary club soon at the home of President Roy L. Kent, it was announced at yesterday's noon luncheon.

Former President C. C. Cooper, who returned from Honolulu recently, will provide the decorations or adornments, whatever they call "them things," and Mr. and Mrs. Kent will throw open their home for a social evening.

H. W. MYERS IS 90 YEARS OLD TODAY

Birthday Celebration to Be Big Event in Family; Sketch of Life

(Continued) home place is still in possession of the family.

Oldest of Eleven
Mr. Myers was the oldest of eleven children, all of whom went to country schools and later attended the high school in Bucyrus, Ohio. After his high school course, Mr. Myers taught and just to offer an interesting comparison with the modern teaching profession, Mr. Myers tells of receiving sixteen dollars a month for the first school he taught. In addition to that meagre salary he was "boarded around" among the school patrons.

It was Mr. Myers' desire to have a college education and he finally entered Mt. Union college, Alliance, Ohio, hoping to finance his education by teaching and tutoring, and later graduating with the degree of B. A. Some years later his Alma Mater conferred on him the honorary degree of M. A.

His father's health failed and after an illness of several years his death occurred during the Civil War, leaving the burden of the large family with Mr. Myers. As the oldest of his family he had to provide for their support and was therefore unable to volunteer his services during the Civil War, however, his three younger brothers joined the Union forces and all three were killed on the battlefields.

Head of Schools
On June 7, 1864, Mr. Myers married Sarah Jane Duncan, daughter of a farmer of Scotch ancestry, living in Seneca county, Ohio. In 1866 they moved to Agency City, Ia., where Mr. Myers was principal of the schools seven years. Later, in 1873, he was elected superintendent of schools of Osceola, Ia., and some years later held the same position in Hastings, Neb., and in Creston, Ia., remaining in the latter place for ten years.

Some time after this he returned to Hastings, Neb., and occupied the chair of mathematics in Hastings college, from which his two daughters graduated.

Retiring from active educational work, Mr. Myers devoted his time and interests to his large farm near Hastings.

In the fall of 1904, Mr. Myers and his family came to spend the winter with relatives in Los Angeles, and they found southern California so delightful they decided to remain permanently and for seventeen years have resided in Glendale.

Golden Wedding
Mr. and Mrs. Myers celebrated their golden wedding anniversary June 7, 1914. Mrs. Myers died April 18, 1922, at the age of 85 years.

Mr. Myers makes his home with his two daughters, Misses Ida D. and Harriet J. Myers, both well known in Glendale. Miss Ida is an active member of the Tuesday Afternoon club and the D. A. R. chapter, while Miss Harriet is a member of the P. E. O. and was for several years connected with the postoffice in southern Glendale.

In telling of his childhood, Mr. Myers speaks with interest of the day when candles were the only means of light in his home and when there were no matches, but flint and punk were used to strike fire. He recalls with interest the great inventions made during his life time and reads with equal interest the news of the day. He is an enthusiastic gardener and spends much time in his garden, where he has many varieties of choice flowers and fruit.

BOND ISSUE FOR LAUNCHING PLAN

Quick Action, Cheaper Costs to Come Through Proposed Change

(Continued) improvements can be completed in less than half the time under the new system. He commented on the fact that street jobs which do not involve more than a month's actual work now consume more than six months' time in delay in the form of red tape.

Reduce Cost, Claim
The cost of street work under the new plan would be much reduced in the opinion of Councilman Davis. Since no contractor would be involved, no profit would have to be paid to any outside corporation. This fact alone should reduce the cost from 15 to 20 per cent at least, he says.

All materials used in street work would be purchased by the city. Owing to the volume of work of this kind done by the city each year, Councilman Davis anticipates that the city's purchasing agent should be able to get bottom quotations on all supplies. This would mean a further saving of cost which would be quite considerable at the end of a year.

The fact that the city would be able to pay cash for all supplies would be another point in its favor. This would enable the city administration to take advantage of every cash discount. It would also give the city a decided advantage in the commercial field over municipalities and corporations working upon a credit basis.

Next Year's Estimate
Exactly how much money would be saved to the taxpayers per year under the proposed plan the councilman is unprepared to state. He does believe, however, that it would reduce the cost 50 per cent on resurfacing jobs. On new street jobs where considerable material must be purchased, the economy would not be so large but he believes that it would be quite noticeable nevertheless. He estimates that Glendale should spend between \$600,000 and \$700,000 for street work next year.

In order to take care of all local street work it would be necessary for Glendale's street department to be considerably enlarged. However, the official sees no reason why this could not be done—when the funds are available to pay for the labor. It would be necessary for the city to invest in various types of road building machinery. Except in rainy weather this could be kept busy throughout most of the year. The street department would be transferred from one job to another in rotation.

Amendment to Charter
Before the necessary bonds could be voted for the establishment of the proposed revolving fund the city charter must be amended. It is the desire of Councilman Davis that an appropriate amendment should be presented to the voters of Glendale at the general election in November. After its approval the amended charter must then be sent to the state legislature for its approval. This means a delay of about six months before the scheme can possibly be put into operation.

Meanwhile, the councilman believes that the streets of Glendale are in a serious condition. He calls attention to the fact that street work is proceeding as rapidly as possible, but that the city administration is handicapped because of the red tape involved in the present procedure.

"If we are going to build up this town to a population of 50,000 or 75,000, we have got to have better streets," he remarked.

According to the official, constructive criticism is a most valuable asset to a community.

Shoyu sauce for chop suey, just arrived at Japan Art & Tea Co.—Advertisement.

MATERIAL EXHIBIT DRAWS VISITORS

Builders and Prospective Home Builders Attend Glendale Display

Glendale has another magnet for the attraction of home builders. The Glendale Building Material Exhibit at 111-A East Broadway is attracting many contractors, builders and prospective home owners from all parts of the San Fernando valley.

"A great many visitors come here every day," remarked Mrs. C. H. Brainard, who is in charge of the exhibit. "They come from Burbank, La Crescenta, Eagle Rock, and even from Los Angeles."

"This exhibit is for people who are in the building business and those who contemplate building. They may come here and have the different exhibits explained to them. There is no obligation for them to buy anything. As a matter of fact, there is nothing here for sale. People who visit this exhibit are perfectly free to purchase what they like and where they like. Of course, we are glad to give suggestions if people want them."

Mantel and Sink
A "Petriwood" mantel and sink are two of the latest exhibits. The mantel which is a sort of mahogany in color, compares very favorably with a real tile mantel from the Tropico Potteries which stands in an adjacent room. The sink is white and, according to Mrs. Brainard, the plaster-like mixture from which it is made is poured into moulds right on the job. These "Petriwood" products are made by A. T. Dobson of 809 Melrose street.

A rack containing thirty small slabs of silicate stucco is attracting a great deal of favorable attention. These show exactly how each tint to stucco will look when used in either the interior or the exterior of a home. Owing to the evenness of the color tints, Mrs. Brainard remarked that it is becoming very popular for interior walls.

Building Blocks
Samples of concrete building blocks from the Concrete Brick & Tile Company of Glendale are on display with blueprints showing how they can be fitted together. There are samples of concrete bricks, which are somewhat cheaper than the ordinary bricks, on display here, too. They are products of the Jencks Brick Company.

A concrete incinerator, which may easily be taken apart and assembled at another place, offers a solution to the rubbish problem. To show how different colors in paints and varnishes affect different kinds of wood, a cabinet full of wooden plaques illustrating this matter is on display.

A number of other exhibits have been found worth while visiting. They include a display of electric fixtures, plumbing appliances, labor-saving devices for the kitchen and bedroom, heating appliances, and garden furniture.

British and Turks Reported In Clash

BERLIN, Sept. 15.—A report was received here today that the Turkish and British troops have clashed near Constantinople. It is not officially confirmed.

The Turkish nationalist parliament has been summoned to meet at Angora to draw up peace terms.

MINOR OPERATION
A minor operation was performed at the Glendale Sanatorium and Hospital this morning on Mrs. E. Luce of Los Angeles.

 The Big Special Feature That Stood Them Up in L. A.

CITY SCHOOL FUND FOR NEXT TERM IS \$265,362

Outline of Finances Shows What Departments Will Receive In 1922-23

(Continued) combined district rate of 55 cents, making a total of 94 cents. The assessed valuation of the district has been set at \$21,910,730. The school district includes Casa Verdugo which is not yet incorporated within the city limits of Glendale.

State School Fund
 On this basis, it has been estimated that a 28-cent tax rate for the special fund will produce \$31,350. This fund can be used for any purpose outside of the construction of new school buildings. A 15-cent tax rate is expected to produce \$22,866 for the building fund. This money can be used only for this purpose. A 12-cent tax rate for kindergarten purposes will raise \$26,292.

The state fund for school purposes next year is estimated at \$74,475, while the county fund is estimated at \$1,092,851, a total for the two of \$1,167,326.

The balance on hand in the treasury of the local school system includes \$31.86 in the salary fund; \$951.26 in the county fund, and \$11,773.32 in the special fund, making a total of \$12,756.44.

Adding the state and county funds, special district fund and the balance on hand in the local treasury, gives a total of \$257,562 for current expenses. To this must be added an additional \$7,500 from the kindergarten fund, making a sum total of \$265,062.

Council Minutes

(Continued from Page 2) property fronting on streets or parts of streets within the assessment district for said improvement as described in said ordinance No. 604, and the 28th day of September, 1922, at 7 o'clock p. m., is hereby fixed as the time for hearing protests against said improvement and the city clerk is hereby directed to publish a notice of the time of such hearing to be published for 5 days in the Glendale Daily Press, the official newspaper of said city, same being a daily newspaper published in said city, and it appearing that by inadvertence no notice was given of a hearing held on said protest August 31, 1922, the order of this council made on said August 31, 1922, is hereby rescinded.

San Fernando Lights
 On motion of Councilman Stephenson, the following resolution was adopted: Resolved, that the city clerk is hereby authorized and directed to advertise for the purchase of all improvements bonds to be issued in the matter of ornamental street lighting district No. 10, for the lighting of San Fernando Road as contemplated in Resolution of Intention No. 1523, passed by the council of the city of Glendale June 1, 1922, said advertisement to be published three times in the Glendale Daily Press, the official newspaper of the city of Glendale and said bids to be received by said clerk up to 7 o'clock p. m. of September 21, 1922, and then opened by this council.

Gas Mains Contract
 On motion of Councilman Stephenson the following resolution was adopted by the council: It is hereby authorized and directed to execute in behalf of the city of Glendale a contract with Southern California Gas Company for the installation of gas mains, pipe lines, valves, fittings and appurtenances in the Municipal Improvement District No. 6 and the city clerk is hereby directed to attest said contract and affix the seal of the city thereto, and the bonds attached to said contract are hereby approved and this council hereby estimates that the expense to be incurred during the present fiscal year under said contract is the sum of \$48,750.00.

Bunko Club Stages Picturesque Party

The members of the Bunko club entertained with a farewell party recently at the home of Graham Tinning, 220 North Belmont street, in honor of Margaret and Harold Majors, who are leaving about the first of October for Kansas. Those present included Margaret Majors, Grace Yarbrough, Louise Holt, Mildred Sooy, Martha Eilers, Harold Majors, Harold Parker, Percy Jewell, Glen Todd and Graham Tinning.

Progressive bunko was enjoyed with prizes being awarded to Margaret Majors and Glenn Todd. Each of the guests were given favors of tiny suitcases. At the close of the evening refreshments of ice cream and cake were served.

Thimbles First Appeared in London about 200 Years Ago and Made a Fortune for the Inventor.

On motion of Councilman Stephenson the following ordinance was adopted as Ordinance No. 653: "An ordinance prohibiting the running at large of dogs and cats in the city of Glendale."

On motion of Councilman Davis the following ordinance was adopted as Ordinance No. 659: "An ordinance of the city of Glendale declaring the intention of the council of said city to call an election in that part of the city of Glendale contained within the boundaries of a proposed municipal improvement district to be known as Municipal Improvement District No. 7 of the city of Glendale, for the purpose of submitting to the qualified electors of said district the proposition of authorizing the issuance and sale of bonds of such district."

Fighting Rages In Nearly All Ireland

LONDON, Sept. 15.—Twenty persons were killed in battle in Dublin on Wednesday, according to delayed advices received here today.

Fighting is reported from the greater part of the Irish free state. There was a particularly heavy engagement in the region of Kenmare, which has been recaptured from the irregulars.

There was also violent fighting in the section of Clifden. The wireless station at Clifden was reported to be isolated.

President William T. Cosgrave of the Dail Eireann is planning a peace move for Ulster. The removal of armed guards from the Ulster frontier indicates that an agreement with Dublin and Belfast is near.

The postal strike situation is unchanged. There has been an increase in picketing, but the free state troops are keeping disorders down.

Union Official to Be Tried Oct. 23

CHARLESTOWN, W. Va., Sept. 15.—Judge J. M. Woods today set October 23 for opening the trial of C. Frank Keeney, president of District No. 17, United Mine Workers, who is charged with being an accessory to the murder of Deputy Sheriff John Gore of Logan county, on August 30, 1921. The Gore killing occurred during the West Virginia mine war.

EAT VENISON STEAKS

Venison steaks were enjoyed this noon at the Broadway Inn, 637 East Broadway, by the members of the Glendale Kiwanis club. Enough deer meat for the occasion was furnished by Lon Baird and Dr. T. C. Young who returned a few days ago from a hunting trip in northern California.

SURE SIGN
 Jack—Hello, Bert, who's the girl?
 Bert—What d'you mean?
 Jack—Well, you're not wearing a collar like that for fun, are you?

PREPARE PROGRAM FOR DEDICATION BY CATHOLICS

Impressive Ceremonies and Banquet to Be Held on September 24

(Continued) kindly consented to act as toastmaster. A splendid musical program has been arranged and will be submitted for your approval.

"With the sincere wish that you may find it convenient to be with us on this occasion, I am, respectfully and cordially yours,
 "JAMES S. O'NEILL,
 "Pastor."

Special Communication

In preparing his parishioners for the affair, Father O'Neill has issued to them a special communication bearing the following message:

"It is my desire that every individual member of the parish, from the youngest to the oldest communicant, shall have the opportunity and privilege of participating in this event. Also that each and every Catholic organization in the parish be properly represented and take their share of responsibility in making the dedication an event of which we can all be justly proud."

"So I have arranged the program as follows: Processional. The Sunday school children will gather at the sacristy door on Lomita avenue and form a double line, which will be continued by the officers and members of the Young Ladies' Institute, Ramona Institute No. 17, Y. L. I., the officers and members of the Altar society, the Holy Name society and the officers of Glendale Council No. 1920, Knights of Columbus. These should make a continuous double line from the sacristy door on Lomita avenue to the corner of Louise street; thence to the entrance of the church. The Processional hymn will be 'Onward, Christian Soldiers.'

Palms and Flowers

"On the appearance of the bishop and officiating clergy the children and parishioners will spread upon the ground before the procession, suitable palms and flowers and then will follow in the above named order to the church, where the formal dedication and solemn vesper will be celebrated. At the end there will be a grand recessional, and return to the sacristy, during which the congregation will sing, 'Holy God, We Praise Thy Name.'"

Name of New City Park

By Councilman Kimlin that the new city park be named Glendale Verdugo park. Vote as follows: Ayes, Kimlin, Robinson; noes, Lapham, Stephenson. Not voting, Davis. Motion lost.

Ordinances Adopted

On motion of Councilman Stephenson the following ordinance was adopted as Ordinance No. 653: "An ordinance prohibiting the running at large of dogs and cats in the city of Glendale."

On motion of Councilman Davis the following ordinance was adopted as Ordinance No. 659: "An ordinance of the city of Glendale declaring the intention of the council of said city to call an election in that part of the city of Glendale contained within the boundaries of a proposed municipal improvement district to be known as Municipal Improvement District No. 7 of the city of Glendale, for the purpose of submitting to the qualified electors of said district the proposition of authorizing the issuance and sale of bonds of such district."

On motion of Councilman Stephenson, the following ordinance was presented, read and laid over.

"An ordinance approving the annexation to the city of Glendale of certain territory known as 'Lake Street District.'"

On motion of Councilman Stephenson, the following ordinance was presented, read and laid over. "An ordinance amending sections 20 and 26 of ordinance No. 603, passed July 3, 1922, and entitled 'An ordinance of the council of the city of Glendale fixing the salaries of the officials of said city, authorizing employment of certain employes and fixing the compensation of rates of pay therefor, and repealing all ordinances conflicting therewith.'"

On motion of Councilman Davis, the following ordinance was presented, read and laid over.

"An ordinance amending ordinance No. 629, passed January 12, 1922, and entitled 'An ordinance of the city of Glendale establishing a residential district, an industrial district, and four commercial districts in said city, regulating and restricting the location and locations of and the maintenance and carrying on of industries, trades and businesses in said district map of said city; prescribing the penalty for the violation hereof; and repealing certain ordinances by adding thereto two new sections to be numbered 14 and 4g.'"

On motion of Councilman Stephenson, the following ordinance was presented, read, and laid over. "An ordinance declaring the intention of the council of the city of Glendale to order the opening and laying out of Dorothy drive in said city."

On motion of Councilman Lapham, the following ordinance was presented, read, and laid over.

"An ordinance of the council of the city of Glendale declaring its intention to order the opening, widening and laying out of Pacific avenue in said city."

ROTARY CLUB AIDS SALVATION ARMY IN DRIVE HERE

Rev. Clifford A. Cole Takes Charge of Campaign to Secure More Funds

(Continued) confer with the city school board on the education of cripples at the request of Superintendent R. D. White.

Attorney Owen C. Emery reported that he had received data from International headquarters for the boys' work campaign which brought forth a statement from Principal Myose that students between the ages of 16 and 18 years must attend school at least four 60-minute hours each week.

Tells Experiences

P. P. Duffy of Parsons, Kan., who, with his wife is visiting at the George Karr home, spoke humorously of his experience in boys' work and stated that each member of the club had taken a boy to raise. The one he drew went missing and on going to the parents' home he was informed the young fellow had kicked his father and left the country.

However, "Pete," as he is known in Parsons, told of better deeds on the part of other boys which was compensating. He also informed the Glendale club that the smaller the group the more interesting the meetings, his home club having had five 100 per cent meetings in July.

C. C. Cooper, home from Honolulu, talked about Hawaii, its Kilauea volcano and Rotary club, the latter to be host to the clubs of the orient in November. The steamship Alexandria will leave Los Angeles harbor on November 1 with 400 Rotarians aboard and reservations may be made now.

Other Speakers

H. S. Webb, home from the Del Monte golf tournament, told how Rotary had aided him in making several pleasant acquaintances; A. R. Eastman gave a brief sketch of his San Joaquin valley tour and the Rev. E. E. Ford explained what Rotary meant to him while making trains at Chicago. There the symbol of service saved him hours while accompanying his wife on a sad errand to Kalamazoo.

At a meeting of the Rotary club in the latter city the presiding officer presumed to be sarcastic by saying that Californians even boasted of making the mountains what they were.

The Rev. Mr. Ford politely told the Michigan men that the native sons, both born and adopted, could not make the majestic mountains, but they could make a pretty good bluff.

That held 'em.

Shoyn sauce for chop suey, just arrived at Japan Art & Tea Co.—Advertisement.
