Fierce Encounter Between Lithuanian And Polish Armies

Desperate Battle Staged Near Vilna With Heavy Losses On Both Sides; New Bolshevik Offensive Against Poles Indicated From Riga.

Riga, Oct. 9.—(Associated Press)—The Lithuanians and Poles engaged in a heavy battle lasting all of yesterday and last night, sixteen versts (ten and a half miles) south of Vilna, the Lithuanian capital, with heavy losses to both sides, says a Lithuanian official statement dated Vilna to-day. "The fight will be to a finish," the statement adds.

Bolshevik Offensive.

London, Oct. 9.—Bolshevik reports at Riga indicate a new offensive against the Poles by the Bolsheviks, says The Daily Mail's correspondent in that city. The Soviet military officials claim to have retaken Minsk and to be advancing on the Galician front.

Armistice Efforts.

Riga, Oct. 9.—(Associated Press)—Delegates of Poland and Soviet Russia who held a long session last night in an effort to reach an agreement for an armistice resumed their attempts to-day.

The Poles insist that there must be an interval of six days after signature before the armistice becomes effective. They declare it will be impossible to reach scattered cavalry organizations along the Lithuanian front in less time. The Bolsheviks desire but four days of grace.

Communications Cut.

Warsaw, Oct. 8.—(Associated Press)—To-night's statement from the Polish War Office reports the capture by the Poles of Oshmyan and the railway station of Soly, cutting communication between Vilny and Molochechno, northwest of Minsk.

Warsaw, Oct. 8.—(Associated Press)—A new insurrection against the Russian Soviet Government has broken out in the district of Nizhni Novgorod, 265 miles northwest of Moscow, according to information reaching this city. The insurrection which was inaugurated by the Socialist Revolutionary Party, embraces great masses of peasants and is reported to be spreading.

The insurgents, the advices state, have proclaimed a new government, the members of which were Marlow, Petrovski and Chernov, and Mile, Maria Spiridonov, the latter a noted woman revolutionary leader, for years active in the movement against the imperial regime.

The insurgents are declared to be acting independently of any other counter revolutionary movements.

ORDER TO EXPEDITE DELIVERY OF COAL

Railway Board Empowers Fuel Administrators to Seize Unloaded Cars

Ottawa, Oct. 9.—(Canadian Press)—With the object of expediting transportation performance of the coal carrying equipment of the Canadian railways, the Board of Railway Commissioners has issued an order empowering fuel administrators to seize the contents of cars containing coal of coke and summarily offer the same for sale to municipalities or dealers within the municipalities when such cars have remained unloaded at their destination or elsewhere on any railway in Canada for a longer period than eight days after arrival.

This action has been taken after a conference between representatives of the railways and the Board, at which plans for speeding up the delivery of coal supplies were considered. At the present time the Board is securing information from all parts of Canada on the coal movement and it is believed that under provisions of this new and drastic order there will be a great improvement in the situation, as it has been reported that coal cars have stood on sidings for two weeks before being unloaded.

FIRST AERIAL RACE STAGED IN CANADA

Four Curtiss Biplanes Compete For Trophy in Quebec

Montreal, Oct. 9.—Four Curtiss biplanes are competing this afternoon in the first aerial race ever staged in Canada, from the new aviation field at the Old Polo Grounds, St. Laurent, in flights to St. Lambert and back, a distance of sixteen miles each way. The race will be a handicap event open to all flying machines of the land type for pilots holding Air Board certificates. For the race the Montreal branch of the Aerial League of the British Empire is offering a handsome silver competition cup. There are four contestants, all Montreal men and the race will be run in two heats and a final.

PLANE CONTINUES WESTWARD FLIGHT

Flying Boat F-3 Expected to Reach Sault Ste. Marie This Evening

Slight Engine Trouble Delayed Departure of Machine From Ottawa

Ottawa, Oct. 9.—(Canadian Press)—Delayed by engine trouble which necessitated the changing of spark plugs and other minor repairs being made to one of the big Rolls-Royce engines, the big F-3 flying boat of the Air Board continued her flight westward at 8.30 this morning. Two attempts to start yesterday were unsuccessful and mechanics were working on the machine all night to get the engines into condition. Then it was found that the trouble was only slight and the machine was tuned up for the third attempt this morning.

She rose from the Ottawa River at 8.30 and after circling over the city headed up the river on the westward journey. At 10 o'clock a long distance telephone message informed the Air Board officials that the seaplane was passing over Pembroke and appeared to be making fast time.

For Emergency. Colonel Robert Leckie and Major Basil Hobbs are flying the F-3 on the westward journey and hope to continue with her to Winnipeg although Captain McEwen is standing by at North Bay with a relief plane if that should be found necessary.

Extra fuel was taken aboard here and it is thought the aviators may fly through to Sault Ste. Marie without stopping. Then they will refuel and fly through to Kenora and perhaps to Winnipeg without stopping. Emergency landing places and refueling stations have been arranged along the entire route, however, so that should trouble arise anywhere on the journey the pilots flying that part of the trip will be assured of speedy relief.

If all goes well the F-3 is expected to land at Sault Ste. Marie about 6 o'clock this evening. The mileage from Halifax to Ottawa is 825 miles and Halifax to Sault Ste. Marie 1,317 miles.

REGISTERING VOTES IN NEW BRUNSWICK

Women of Eastern Province Are Factor in Elections To-day

Fredericton, N.B., Oct. 9.—(Canadian Press)—Polling is taking place to-day in New Brunswick for the election of a new provincial parliament. At an early hour reports from different constituencies indicated that the women, voting for the first time in the province, were turning out in large numbers. The women voters have been very systematically canvassed by the temperance alliance which has secured pledges of the introduction of "bonny" legislation from a number of the candidates. The farmers and labor parties each have a good organization in operation to get out their vote, while the Liberal (Government) and (Opposition) Conservative machines were working, it was reported, very smoothly. Altogether 105 candidates have been nominated for the 48 seats in the Legislature. The government's majority in the last House was seven.

TURKS PLANNING AN ATTACK UPON BATUM

Constantinople, Oct. 9.—The Turks are reported to be attacking the Armenians at the Axartes waters of the Araxes River, west of Erzerum. They appear to be planning an attack upon Batum, which is occupied by the Georgians.

Few Slept. Few of the people of Cork slept last night. Firing was heard in various parts of the city intermittently throughout the night, beginning shortly after 11 o'clock. The people still are in a state of terror.

The only eyewitness of the explosions said the first blast occurred at 3.37 o'clock and another at 4.05, after which the flames burst forth. An unexploded bomb was found in the City Hall this morning.

DISASTROUS FIRE OCCURS AT BASRA IN ASIATIC TURKEY

London, Oct. 9.—A fire on Wednesday which burned three theatres, one hundred shops and several large khans at Basra, Asiatic Turkey, is reported in a dispatch from Basra to The London Times. Property, estimated at £150,000 was destroyed.

Grand Trunk Board In Victoria Sunday For Two Hours' Stay

Sir Walter Cassels, Ex-President Taft and Sir Thomas White, M.P., Will Be Here For Short Time To-morrow En Route to Seattle.

Sir Walter Cassels, Chief Justice of the Exchequer Court of Canada, chairman; Sir Thomas White, M.P., representing the Government, and the Hon. W. H. Taft, ex-President of the United States, representing the Grand Trunk Railway, form the Grand Trunk Arbitration Board which is trying to find out the value of the preference and common stock of the railway properties, which are being taken over by the Canadian Government. They will arrive here on the Grand Trunk steamer to-morrow morning and proceed to Seattle. This board is examining all the properties held by the railway companies from coast to coast and placing a valuation on them.

BOMBS WRECKED CORK CITY HALL

Theory of Authorities; Part of the Building Was Destroyed

Cork, Oct. 9.—(Associated Press)—Part of the city hall here was destroyed by bombs at about four o'clock this morning. Six explosions were heard and were followed by considerable rifle fire. So far as known there were no casualties.

The damage was chiefly confined to the room in the west end of the building. One office, which was used by the water department, was burned out by fire following the explosions, and the department's books and records for fifty years were destroyed.

The fire was prevented from spreading by the stone partition walls. The adjoining rooms, occupied by the department of public health were damaged by the explosions, the theory being that bombs were thrown into them through the windows.

Metal in Debris. Large pieces of cast iron, like shell casings and bits of metal similar to shrapnel, were found in the debris.

The offices of the engineering department, above the wrecked rooms, were not damaged, but many windows in front of the building were pierced by bullets. A bullet was fired through the window of the room occupied by the night watchman, who telephoned for the fire brigade when the first explosion occurred.

Although the curfew limit had expired an hour previous to the attack the fire brigade was halted by parades at Parnell Bridge leading to the Albert Quay upon which the City Hall is situated.

The firemen after some delay were permitted to proceed. They succeeded in quenching the flames and saving the remainder of the building. It has not yet been decided whether the fire was caused by an incendiary bomb or from the ignition of gas.

The reports on the occurrence say that from four to six explosions took place. Two explosions reported from the vicinity of the Court House in another part of the city, may be accounted for by the fact that an armored car caught fire there from an explosion of a gasometer.

Explosions in the City Hall a newswire bringing newspapers from the station said he had been fired on as he was crossing the bridge, but was not hit.

Barrack Street, the scene of yesterday's attack on a military lorry, was quiet throughout the night. On this street thousands of working people live, most of them fearing reprisals, spent the night with relatives and friends in the suburbs.

Few Slept. Few of the people of Cork slept last night. Firing was heard in various parts of the city intermittently throughout the night, beginning shortly after 11 o'clock. The people still are in a state of terror.

BANK TO DOUBLE OFFICE SPACE HERE

Canadian Bank of Commerce Head Branch to Be Rebuilt

The Canadian Bank of Commerce is to double the building accommodation of its head Victoria branch at Fort and Government Streets. The present grey stone building will not be torn down but modernized, enlarged and reconstructed.

This work is being undertaken because the present banking room is not large enough to accommodate the public. At busy times of the day, the increase in the number of the staff of the institution and provide fast and modern banking facilities for the public. At week-ends and before holidays there are line-ups that extend to the outdoors of customers waiting to transact business.

Plans for the work were completed to-day by William T. Gardner, the bank's architect, of Vancouver, and J. L. Spence, the bank's builder. The plans will go to the head office at Toronto for approval.

Foreseeing the necessity for extension, the bank some time ago bought the thirty-foot on Government Street adjacent to the building. This strip runs through to Langley Street. The extension of the main banking room will cover part of this property, although the front part of it now occupied by a women's wear store, may not be disturbed just yet.

The two upper floors of the main building are to be torn out and remodelled. The whole structure will be used only for banking purposes. No space at all will be available for tenants, as has been the case in the past. Victoria clearing house will have its headquarters upstairs.

(Concluded on page 15.)

Tariff Policy Was Outlined by Liberal Leader at Camrose

Camrose, Alta., Oct. 9.—A clear and definite declaration of the tariff policy of the Liberal party in Canada, was made by the party leader, Hon. W. L. Mackenzie King, Liberal leader, at Camrose, Alberta, to-day.

The National Liberal convention expressed the same in Toronto and the East as in Camrose and the West and the same by which the Liberal party was prepared to stand or fall, was delivered to the electors of the Camrose district several hundred strong.

Mr. King, accompanied by Hon. W. L. Mackenzie King, Liberal leader, and other members of the party who addressed the gatherings.

Highland Fling Was Danced by Mayors of Vancouver and Nelson

Nelson, Oct. 9.—Mayor B. H. Gale, of Vancouver, and Mayor J. A. McDonald, of Nelson, danced the Highland Fling to the tune of the kiltie pipes at the station last night in the presence of the mayor and municipal delegates and citizens, to cement the friendship between coast and interior.

J. W. de B. Farris, wife of the Attorney-General, in a meeting here expressed the belief that prohibition would be sustained by a plebiscite. Mr. and Mrs. Farris left with the municipal party.

Premier Oliver arrived yesterday from Kaslo, where he addressed a meeting Thursday night. He leaves for the coast to-night.

BOGUS REVENUE MEN MAKE WHISKEY HAUL

New York, Oct. 9.—Eight armed men representing themselves to be revenue agents, early to-day held up two men in a garage in West 22nd Street, and drove off with two auto trucks containing four hundred cases of whiskey.

The robbers escaped after they had locked their captives in the garage. It was an hour before the imprisoned men could notify the police.

Murderous Gang Now Tyrannizing Ireland Must Be Broken Up

Order Must Be Restored, Even By Sternest Methods, Declares Premier Lloyd George, Dealing With Irish Situation at Carnarvon.

Carnarvon, Wales, Oct. 9.—Premier Lloyd George, in a speech here to-day concerning the situation in Ireland, referred to reprisals. He argued that the police in Ireland do not bomb houses and shoot men without provocation. The Premier said that 238 policemen had been shot, of whom 109 had been killed, and the patience of the police had given way, with the result that they hit back.

Mr. Lloyd George declared that if, as was contended, there was war in Ireland, then the war must be waged on both sides. But when policemen were shot in the back by Sinn Feiners, the Premier said, it was not war, but murder.

Mr. Lloyd George asked whether, under the system of terrorism which made it impossible to obtain evidence, it was any wonder the police shot the murderers.

"We must, however, restore order in Ireland, even by stern methods," the Premier asserted, "because we cannot permit the country to fall into complete anarchy."

The Premier said the murderous gang which now tyrannizes Ireland must be broken up and the Government must proceed with sternness for complete self-government of the country.

Murder of Policemen. Referring to the killing of policemen the Premier said: "While these murders were going on I never read a word of protest from the Sinn Fein in Ireland. Arthur Griffith (founder of the Sinn Fein), a very able and distinguished Irishman, commended to the press of the United States and I believe to the English press and in an interview the other day, in which he showed great concern about the prospect of what he thought was going to be an attack upon his own life, I do not believe there is any attack being concocted against his life, but I never saw a word from Arthur Griffith displaying any indignation at the killing of policemen."

The Premier said that if there was a state of war in Ireland it would give the soldiers and policemen a fair chance and they would give a good account of themselves. He demanded to know whether the police were to be shot down like dogs without any attempt to defend themselves, and which was more than human nature could tolerate.

Mr. Lloyd George said he could understand any sympathy with the idea that self-government should be given because it would bring good will, but not because "a gang of assassins had bullied the Government into it."

It was all very well," the Premier said, "to talk about a Dominion form of Government, but Ireland demanded an absolutely independent republic and even that would not satisfy the Irish."

He declared Ulster would not have an Irish republic. "We do not want to negotiate peace with civil war at our very door."

The Premier said that if Ireland were given complete Dominion home rule it would mean she could have conscription and then England with her army of a hundred thousand men, might be confronted with an Irish army.

Meant Conscription. He contended that Dominion home rule for Ireland meant conscription for England.

The Premier charged that Ireland had assisted Germany during the war. Mrs. Lloyd George asserted that in 1917 and in 1918 the Irish were conspiring in connection with German submarine operations and that there were documents discovered in the pockets of men arrested in 1918, showing that they were prepared within two months of the German offensive of which they knew to raise a huge force in Ireland, "to assist the German invasion."

Application for further statement of claim in the action has been made to the Supreme Court in Vancouver.

Proposals Submitted by Italian Workmen Drastic

Milan, Oct. 9.—The Socialist-Bateaglio Syndical to-day made public the programme decided upon by the Commission of Workmen appointed to present to the Government concrete proposals concerning participation of the workmen in the technical, financial and disciplinary management of the industrial establishments. The fundamental points of the programme are:

1. The workmen's council must control the purchase of raw materials.

2. The workmen's council must supervise the sale of finished products.

3. The workmen's council must fix the price of finished products.

4. The workmen's council must control the general expenses of the establishments and especially limit the expenses of the present proprietors and directors, who will participate in the profits.

5. The workmen's council must decide when new machinery is necessary.

(Concluded on page 4.)

Captain de Romane's French Aviator, Sets New Speed Record

Buc. France, Oct. 9.—Captain De Romane, noted French aviator, established a new world's aeroplane speed record at the aviation meet to-day. He flew a kilometre in 12.3 seconds, which is at the rate of 292.82 kilometres, or about 181.95 miles an hour.

Le Coite, winner of the recent James Gordon Bennett Cup race, was second to De Romane in the competition, flying a kilometre in 12.5 seconds. Both have been beat the record of Jean Casale, which was at the rate of 282.24 kilometres an hour.

REPORT OF CABINET CHANGES NOT CREDITED AT FEDERAL CAPITAL

Ottawa, Oct. 9.—(Canadian Press)—A report that the presence of H. H. Stevens, M.P., for Vancouver in the capital indicates the possibility of Cabinet changes at an early date is not generally credited here. In conversation with a representative of the Canadian Press since his arrival, Mr. Stevens asserted that his presence in Ottawa was for the purpose of only attending to departmental business affecting his constituency. Mr. Stevens is also interesting himself in the Prime Minister's approaching tour of the west, more particularly the British Columbia end of it. He will accompany the Prime Minister and speak at several meetings to be held in that province. Mr. Stevens was optimistic as to the prospects of the Government candidate in Yale-Cariboo and made the prediction that Mr. McKelvie, the choice of the National Conservative-Liberal Convention, would be elected by a good margin over the Farmer-Soldier and Labor candidate. Mr. Stevens leaves Ottawa for the west on Saturday evening.

SOVIET SUBMARINES ARE REPORTED OFF ESTHONIAN COAST

Washington, Oct. 9.—Bolshevik submarines, supposed to be bent on intercepting munitions shipments to Poland, have been reported off the Esthonian coast, presumably bound for Danzig, according to an announcement last night by the State Department. The information came to the Navy Department, and also to the State Department from agents along the Baltic.

Instructions have been sent by the Navy Department, the announcement says, to Vice-Admiral Huse, commanding the American naval forces now in the Baltic, that the United States is not at war with Russia, and that the submarines in question are not to be treated as hostile vessels.

Since the signing of the armistice between the Soviet forces and Poland hostilities have supposedly ceased, but it was apparent that the reports received here left no doubt that the mission of the undersea craft was a hostile one.

TRADE COMMISSIONER FROM ENGLAND IS COMING TO COAST

Montreal, Oct. 9.—The British senior trade commissioner, Capt. E. J. Edwards, is about to make a tour of the western provinces with the intention of becoming acquainted with that part of his area of activities, and also in the interests of Imperial trade. One of the points to be considered is the desirability, or otherwise, of establishing a British trade commissioner in Vancouver. Capt. Edwards is to go into that matter and submit a report to the home Government.

BRITISH PLAN FOR INDEPENDENCE OF EGYPT ACCEPTED

Paris, Oct. 9.—Leaders of the Egyptian Nationalist party in Paris have decided to accept, with one important reservation, the British plan for Egyptian independence which was announced in England last July. This was learned yesterday by the Associated Press from a member of the Egyptian committee of four which carried the British plan to the Egyptian people and arrived in Paris on its way to London.

The leaders have framed a number of suggestions and counter-proposals which will probably be submitted to a high official of the British Government, who is expected to arrive in Paris within the present week. It was intimated that this official might be Earl Curzon, British Foreign Secretary.

The chief reservation consists of a demand that all references to the British protectorate over Egypt be eliminated from the treaty of Versailles, and all other existing treaties. The Egyptians have agreed to permit a certain number of British troops to remain in Egypt, said the committee members, and to pay indemnities to all British and other foreign subjects in Egypt who may suffer through the advent of independence.

Maher Bey, one of the committee of four, declared: "If the situation continues to be as bright as it is at present, Egypt will have her complete independence within a reasonably short time."

PREMIER MEIGHEN'S WESTERN ITINERARY

Ottawa, Oct. 9.—A portion of the Prime Minister's Western itinerary was given out last night. As was previously announced, Premier Meighen will open his tour with a speech at Winnipeg on October 13. From that city he will travel West, speaking in Moose Jaw October 19. From there he will jump to Vancouver, where he will address a meeting on October 22. The other British Columbia dates are as follows: Victoria, Saturday 23; Chilliwack, Monday afternoon 25; Grand Forks, Tuesday 26; Penticton, Wednesday 27; Kelowna, Thursday afternoon 28; Vernon, Thursday evening 28; Kamloops, Friday 29.

He will speak at Calgary on Tuesday, November 2.

It will be noted that four of the meetings which will be addressed by the Prime Minister take place in the constituency of Yale, where a by-election, necessitated by the resignation of Hon. Martin Burrell, takes place shortly. These meetings will be held at Grand Forks, Penticton, Kelowna and Vernon.

Sickly Women Given Strength, Vigor, Spirits

Many of the woes of womanhood are due to kidney weakness. At first the back aches. Then pains gather around the hips and lodge right in the small of the back. To stoop or bend seems impossible. Headaches are constant. Unhappy existence. No pleasure in life when the body is overloaded with poisons that the sick kidneys can't filter out.

Bright's disease is the next stage, but it can be prevented by using Dr. Hamilton's Pills of Mandrake and Butternut. They cure sick kidneys and cure them permanently.

When the kidneys work properly pure blood is formed. This means nourishment and strength for the whole body. Back-aches and dragging pains are forgotten. Irregularities disappear, vital energy is restored, and happy, robust health is once more established.

Dr. Hamilton's Pills for women's ills is the slogan of thousands to-day.

Enormous benefit in many ways follow their use, and no woman or girl can use them without doing their general health more good.

For the sake of your kidneys, for the sake of your liver, for the advancement of your general well-being, you can't improve on Dr. Hamilton's Pills, 25c. per box.

ALASKA AEROPLANES ARRIVE AT EDMONTON

Edmonton, Oct. 9.—Making a flight from Prince George, B. C., to Edmonton, with a stop-over at Jasper for fuel and oil only, the three American army aeroplanes which made the New York-Nome flight arrived here yesterday afternoon on their return trip to New York.

Planes Nos. 2 and 3 were the first to arrive, about 3:30 o'clock this afternoon, the former with Lieut. Nutt and Lieut. Nelson, and the latter with Lieut. Crummin and Sergeant Long. No. 1 plane, with Captain Street and Captain Douglas, alighted at 5:30 o'clock, having made a longer stay at Jasper to complete previous flight arrangements.

The three planes are expected to leave Edmonton for Saskatoon to-day.

SKELTON IN WELL

Regina, Oct. 9.—The skeleton of a human body believed to be that of a young farmer who disappeared two years ago was dug from a 90-foot well seven miles from Lumsden on Thursday by the provincial police.

ACQUITTED BY JURY

Prince Rupert, Oct. 9.—A Brunich, charged with attempting to murder Father Allard in Atlin was acquitted yesterday by a jury at the sessions. Mr. Justice Murphy presiding.

ANOTHER LETTER BY VISCOUNT GREY ON IRISH QUESTION

London, Oct. 9.—Viscount Grey of Falton yesterday published in The Westminster Gazette another letter concerning his idea for the solution of the Irish situation.

"The best I can suggest," says Viscount Grey, "is to make it clear that the very starting point of our policy is our conviction of the incapacity of the British Parliament to manage purely Irish affairs and our determination to put an end to this tragic failure. I want to see it made clear beyond power of misconception that, within certain limits, frankly and honestly stated by us, Irishmen are not only free to arrange their own government, but must do so."

He further says that he hopes to get the Nationalists and the Unionists to realize that they must take account of each other's point of view and make concessions to each other. "Continuance of the present state of things may render the present situation hopeless, and we shall be disgraced if we let the present state of things continue."

EXECUTIVE OFFICERS OF HOSPITAL ASSOCIATION

Montreal, Oct. 9.—The sessions of the American Hospital Association, which has been in convention here this week were concluded Friday.

The new slate of executive officers brought in by the nominating committee included the following: President, Dr. G. O'Hara, Bellevue Hospital, New York; first vice-president, Dr. MacEachern, Vancouver, General Hospital.

VANCOUVER ISLAND NEWS

Sentenced For Theft.
Nanaimo—Edward Marshall who, up to a week ago, was honorary secretary-treasurer of the Nanaimo branch of the Navy League, was sentenced by Judge Barker this morning to six months in jail for the theft of \$100 from the funds of the league, and the accused being sentenced to six months each on two charges, the sentences to run concurrently.

Marshall, who was committed for trial yesterday by Magistrate C. H. Beaver Potts, pleaded guilty to two charges, one of raising a cheque for \$2 to \$100, the other of forging a cheque for \$250, both having taken place September 27 in Victoria. The third charge, of raising a \$4 cheque to \$400, was not pressed by the Crown Prosecutor, Arthur Leighton. The judge said that on account of imprisonment making it difficult for any man occupying a position of trust again to obtain employment and also on account of restitution having been made, and also other circumstances in the case, he would impose the light sentence of six months.

BUYS BOOTS CHEAPER

New Store Here Claims to Have Acquired Stock Since Drop in Wholesale Quotations in East.

Stocks for the new Popular Shoe Store at 522 Yates Street have been bought at the reduced prices which have come into effect since the big break in leather prices, according to the management. These stocks are now on their way here, and will be ready for the grand opening of the store, next Thursday. It was announced to-day that these stocks will be sold at new low prices warranted by the low buying prices.

"We have carefully selected our stock of men's, women's and children's shoes," said the manager to-day. "Everything will be ready for the grand opening Thursday, when we will give Victoria cheaper boots and shoes, so that this city will be able to take advantage of the break in prices."

"What is your missis kicking about?" asked the housemaid next door.

"This is her sight out, but I told her I had an engagement myself."

AVOID MEDDLING IS ADVICE GIVEN

Martin Littleton, Former Congressman, Suggests Nations Mind Own Business

New York, Oct. 9.—Anglo-American feeling can be kept cordial if the people of both countries "attend strictly to their own business and not meddle with those discussions in which each may at any moment become involved," declared Martin W. Littleton, former member of Congress, at a luncheon tendered to representatives of the Association of British Chambers of Commerce here yesterday by the Merchants' Association.

Mr. Littleton told the British business men who came here after attending the Imperial Congress of Chambers of Commerce in Toronto, that "our treatment of the Philippines or of the Cubans or of the Porto Ricans should no more justify the obtrusion of English opinion than shall England's treatment of Ireland justify the obtrusion of American opinion."

"The United States cannot propose the dismemberment of the British Empire in the name of Irish freedom," he said. "Self-determination cannot make the wedge which splits apart that union necessary to all liberty. It cannot be perverted into self-determination."

"In welcoming the Britishers, William F. Morgan, president of the Association, declared that whatever the United States verdict as to entering the League of Nations, "we must and shall find a way to abolish war."

CANADIAN FLEET IS PREPARING TO CROSS ATLANTIC

Ottawa, Oct. 9.—While advices are still lacking as to the exact date on which the fleet which has been presented to Canada by the British Admiralty will leave for this side of the Atlantic, "the hope" is expressed that the departure of the vessels will not be delayed beyond the first week in November.

Should the warships start for Canada early in November, it will still be possible to carry out the plan to have them come up the St. Lawrence River as far as Montreal before the close of navigation. In addition to the cruiser Aurora and the destroyers Patrician and Patriot, the little flotilla will include two modern submarines.

GREAT EVENTS ARE RIPENING IN RUSSIA

Says Boris Sokoloff, Socialist Writer, Increasing Discontent Apparent

London, Oct. 9.—Emma Goldman and Alexander Berkman both want to return to the United States, according to Boris Sokoloff, former professor of biology in Petrograd University, and well known as a Socialist writer, who has just arrived in England.

"There are 240 of the passengers of the Soviet Ark Buford who were sent away from the United States last December, in Petrograd, and 239 of them want to return," was part of Berkman's comment on present life conditions in Soviet Russia when I talked with him in Petrograd a few weeks ago," M. Sokoloff told the Associated Press.

"Within a month I am going to New York, where I have been invited to report to the American workers my observations," said Sokoloff. "I did not want to leave Russia, because great events are ripening there, and discontent with the Soviet government is growing more and more."

"The workers and peasant masses have completely withdrawn from the Bolsheviks, and serious trouble is expected in Moscow and Petrograd. One need not mention that there is no communism or socialism in Russia. My opinion is that the process of the crystallization of the middle class is nearly finished, and that Russia will soon follow the example of France by overthrowing its tyrants."

Labor Conditions.
"The economic and commercial position of the workers is very bad. The average wage of the Petrograd workman, rations premium included, equals one-fifteenth part of his earnings in 1917. He receives about one-eighth the normal quantity of food. In other words, he is in a chronic state of semi-starvation. Because there are no goods available for export, and owing to the disruption of transport, the process of commerce with the outside world will be impossible for two years."

Emma Goldman and Berkman and the other persons deported from the United States are living comfortably without working, according to M. Sokoloff.

Sokoloff returned to Russia nine months ago as a Socialist investigator. Since then he has spent three months in a Moscow prison. On his release he went to Petrograd, where he was elected a workers' member of the Petrograd Soviet. Under the Kerensky regime Sokoloff was Minister of Domestic Affairs. He was a member of the National Assembly in 1917.

EQUALITY OF SERVICE DESIRE OF NATIONS

Washington, Oct. 9.—Equality of service and unrestricted access to all parts of the world were set forth as the object to be sought in international communications by the Assistant Secretary Davis yesterday in welcoming the delegates of the five Allied and Associated powers to the first preliminary session of the International Communications Conference, questions of strategy and selfish interest would not be supported by public opinion, he said, in the co-operative effort to increase communication facilities for every country.

Delegates from France, Great Britain, Italy, Japan and the United States were present, it being the first conference in which the United States has participated formally with the Allied powers since the conclusion of the Versailles treaty. It was called by President Wilson some months ago, with the approval of Congress, as a result of the decision of the council of five in Paris in 1919 to leave allocation of the German cables and questions affecting international communications to such a body.

Aside from agreeing upon the allocation of the cables owned by Germany, which is one of the primary questions to be settled at this conference, Assistant Secretary Davis declared, "It is believed this conference will also be able to arrive at a common understanding relative to more important aspects of the problem; namely, increased efficiency in existing cables and unhampered facilities for the establishment and maintenance of additional cable and radio service throughout the world."

SAGE TEA BEAUTIFIES AND DARKENS HAIR

Don't Stay Gray! It Darkens So Naturally that No-body Can Tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful. This is the age of youth. Gray-haired, unattractive folks arably wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Our Entire Stock of Suits, Coats and Dresses—Specially Priced for This Great Event

WE expect this news to be greeted enthusiastically by those who have already profited in one way or another by this store's special offerings. But the women who have the greater part of their Fall apparel buying yet to do will probably be the most delighted. So whether it is to be a new suit, coat, dress or all three—you may expect to find our special "garment week" offerings to always reflect unusual value, high quality and extensive assortments.

Six Groups of Women's Coats—Presenting Very Unusual Values

At \$32.50, \$50, \$62.50, \$75, \$95 and \$125

NOW is the time to purchase your new Winter coat, everything points indisputably to this fact—new styles, variety and quality, and the amazing low pricings which "Garment Week" makes possible. Every coat in our entire stock, including plain and fur-trimmed models, has received a special marking, and at the prices mentioned above, you will be sure to find values that are indeed quite out of the ordinary.

Stunning New Winter Suits at the Following "Garment Week" Pricings

\$42.50, \$45, \$60, \$75 and \$95

A STROLL through the suit section during "Garment Week" and a glance at the price tickets will be all that is necessary to demonstrate the importance of selecting your new Winter suit from our well assorted stock this week. Every suit bears a "Garment Week" pricing, and with so many alluring fabrics and so many different and original styles, choosing will be made an easy matter. Choice of fur-trimmed or plainer types.

New Dresses for Street Wear, Afternoon and Evening All Attractively Priced for "Garment Week"

At \$25, \$32.50, \$45 and \$57.50

A REVIEW of our displays during "Garment Week" will reveal such an assortment of intriguing dress modes—each one striking, new, different—the reasonableness of the markings, cut to please the thrifty minded. Included are dresses of serge for street and business wear; charming afternoon and dance frocks are at once the delight and desire of every woman who sees them.

For Women Interested in Saving These "Garment Week" Offerings Present a Genuine Opportunity

HERE are four of the very latest dance numbers and two of the newest and most popular vocal successes just released on three special

ANOTHER VIEWPOINT.

The fog which has been raised by the campaign preliminary to the referendum to be held this month may have obscured from a large part of the public the fact that while the importation of liquor in the Province is not to be voted on on this particular occasion, nevertheless it is indirectly involved in the issue.

THE PUBLIC VOICE.

Public opinion in Great Britain always will respond to the test of a by-election and accept its verdict at its relative value. Here lies the usefulness of Ilford's choice. It has supplied the evidence the country required by returning the Government's candidate with such a majority over the Laborites as to remove any doubt about the way the wind of popular sentiment is blowing at the present time.

A BOARD BUILDING.

Every Victorian who has the interests of the city at heart will support any proposal which has for its object better and more central quarters for the offices of the Board of Trade. At the present time the premises on Bastion Street are regarded as suitable for housing the secretary of the organization and for the holding of the regular meetings of the Board.

one is seized upon entering the old building. To combine the drive for membership with a hunt for a more central location is an excellent idea, and we are still of the opinion that once this city has established its central council of progress there will be a real driving force incapable of generating a single unit of duplicated effort or sectional disagreement.

MR. GRAINGER RETIRES.

On the retirement of Mr. M. A. Grainger from the post of Chief Forester for British Columbia, the Provincial Service will lose an expert in his particular calling and an official who has served the Province with outstanding ability for many years. In addition to a keen personal interest in the important duties with which he was entrusted Mr. Grainger's vast fund of technical experience and knowledge of British Columbia's forest wealth placed him in the position of a valuable adviser to the Government on its policies and methods best calculated to conserve and protect one of the most valuable assets this Province possesses.

NOT SO BAD.

There appears to be a belief in many quarters that the wages and working conditions of the British miner have failed to keep step with the advancing cost of commodities and the various industrial troubles enforced by the war and related to the welfare of the coal getter. This is not the case. The miners had a very real grievance in 1912 and public sentiment at that time—determined as now to combat any policy of dictatorship—was very largely in favor of an impartial inquiry into the case of the men.

NOTE AND COMMENT.

The Kelowna Branch of the Great War Veterans' Association has repudiated the attack made by a former member of the organization upon Premier Oliver at his Apple City meeting the other day. Like Revelstoke, Kelowna Great War Veterans' Association is without grievances; all it had for the Premier was a bouquet.

Bolshevism is delectable only to Emma and Alex when a few thousand miles separate it and their precious hides. But their return to the parlor variety may not be permitted by Uncle Sam.

WHERE IT STARTED.

FENCING. (Copyright, 1920, By The Wheeler Syndicate, Inc.) Fencing as the art of attack and defence with a sword or other weapon dates from the middle of the sixteenth century. Before this there had, of course, been a certain science in battle, but it was not until the date above mentioned that the art was taken up seriously. The first work on the subject is a treatise by an Italian, di Grassi, published in 1574.

WHY.

Do New Shoes Squeak? (Copyright, 1920, By The Wheeler Syndicate, Inc.) The high-pitched squeaking note which is often to be found in a new pair of shoes is caused by the friction of the various layers of leather against each other, the hard, glazed surface giving off a succession of noises which usually grow less distinct as the shoes become more worn. The warmth of the foot causes the layers of leather to cling more closely together and thus obviates, in a greater or less degree, the squeaky noise which was formerly characteristic of new shoes.

BANK TO DOUBLE OFFICE SPACE HERE.

On the upper floor there are to be introduced all the modern forms of accommodation for clerks that are now common in the big banks in large cities of the East. There will be a lunch room and dining room, dressing rooms and recreation parlors. The bank plans a complete new building for Port and Government Streets when materials and labor become less costly.

PROPOSALS SUBMITTED BY ITALIAN WORKMEN DASTIC.

10—The workmen's council must supervise hygienic and sanitary conditions in industrial establishments. 11—The workmen's council must insist that the proprietors furnish necessary amenities. 12—The employers must not resort to artificial industrial crises. 13—The employers must prevent "dumping."

EMBARGO TO REMAIN ON CANADIAN CATTLE, SAYS BRITISH MINISTER.

London, Oct. 9.—(Canadian Associated Press.) Lord Lee, Minister of Agriculture, has reiterated to a deputation of Scottish farmers and Meat Traders that the Government is with unable to raise the embargo on Canadian store cattle. He admitted that Canadian cattle are among the cleanest in the whole world, but that it was impossible to support from any quarter of the world without incurring risk.

FRANCE REPLIES ON REPARATION ISSUE.

Paris, Oct. 9.—France, replying to the "request" recently made by Earl Curzon, British Foreign Secretary, for a conference on the reparations question, agrees in general with the British note, but contends that the agreement reached at Spa last Summer for a Conference at Geneva on this subject contemplated only the gathering of a commission of experts, according to the Foreign Office to-day. It is agreed by France, that the Germans may be heard at the proposed conference.

FRATERNAL ORDER TO MEET IN CITY. Grand Council of Royal Arcanum to Hold Sessions Here Next Week.

The Grand Council of the Royal Arcanum, including some sixty delegates from all parts of British Columbia and Washington State, will hold its nineteenth annual session in Victoria next Thursday and Friday. It was announced by heads of the Order to-day. The sessions will be held in the K. of C. Hall. A special meeting of the Majestic Council of Victoria will take place on Thursday evening.

SCHOOL CONTRACT TO BE LET SOON.

Hope to Accept Tender for King's Road School Next Wednesday. A contract for the construction of the new King's Road School will be let at a meeting of the City School Board next Wednesday evening. It was stated at the City School Board offices this morning.

NAVY LEAGUE CHAPTER.

Splendid Reports at Yesterday's Meeting; To Close Meetings With Social Half Hour. The monthly meeting of the Navy League Chapter, I. O. D. E. took place Friday afternoon. Mrs. Weston, the regent, presiding. Reports of standing committees were received from Mrs. Thomson, Educational Secretary; Mrs. Gordon, Smith, Schoes Secretary; and Mrs. Plumb, the chapter's representative of the Local Council of Women.

EMBARGO TO REMAIN ON CANADIAN CATTLE, SAYS BRITISH MINISTER.

London, Oct. 9.—(Canadian Associated Press.) Lord Lee, Minister of Agriculture, has reiterated to a deputation of Scottish farmers and Meat Traders that the Government is with unable to raise the embargo on Canadian store cattle. He admitted that Canadian cattle are among the cleanest in the whole world, but that it was impossible to support from any quarter of the world without incurring risk.

FRANCE REPLIES ON REPARATION ISSUE.

Paris, Oct. 9.—France, replying to the "request" recently made by Earl Curzon, British Foreign Secretary, for a conference on the reparations question, agrees in general with the British note, but contends that the agreement reached at Spa last Summer for a Conference at Geneva on this subject contemplated only the gathering of a commission of experts, according to the Foreign Office to-day. It is agreed by France, that the Germans may be heard at the proposed conference.

TEACHERS' STRIKE OVER. Charlottetown, P.E.I., Oct. 9.—(Canadian Press.)—The teachers' strike which has held up the studies of 240 students at Prince of Wales College, has been settled and the faculty, headed by Dr. Robertson, will return to work on Tuesday next, under the terms of an agreement to be announced this afternoon. The teachers' struck for a minimum wage of \$30 a week.

One Variety of Our... 69. Try "Hoe Maid" No. 8 Brazil Crisp, a rich butter and cream toffee with Brazil nuts—the most delicious nut obtainable—sprinkled abundantly through it. Per pound... \$1.50. Stevenson's CHOCOLATES & CANDIES. 725 & 727 B. STREET. DOUGLAS STREET.

BANK OF CUBA HAS SUSPENDED PAYMENTS. Havana, Oct. 9.—The International Bank of Cuba provisionally suspended payments this morning. Rumors late yesterday caused runs this morning on several of the banks. The Havana Exchange has suspended operations during the crisis.

BRAINS vs. HANDS. Almost anyone can build a cabinet, equip it with a motor and a few other things common to all talking machines and make all sorts of superlative claims for the product of their hands; but it takes the brain of Thomas A. Edison to build and equip the "Phonograph With a Soul," which actually RE-CREATES music so naturally that when submitting his New Edison tone tests, critics cannot distinguish the voice of the living artist from that reproduced by the New Edison—the latter made with hands but backed by brains. We Can Mail You a Booklet All About Tone Tests if You Would ASK FOR ONE SOLD ONLY AT KENT'S EDISON STORE. 1004 Government Street Phone 3449.

**PROHIBITIONISTS
TO BE ACTIVE**

Heavy Schedule of Meetings For To-morrow and Next Week

Prohibitionists throughout the city and district are speeding up their campaign in preparation for October 20. Among their plans for the coming week is a great mass meeting to be held in the First Presbyterian Church on Monday evening, when Mrs. Nellie McClung, known throughout the West as a writer and speaker, will be present and deliver an address on Prohibition against Government Sale. Meetings during the coming week will also be held in different sections of the city and district. On Tuesday evening the secretary of the Association will give a lantern lecture at the Oaklands Church. Dooler Hall and Mrs. Mitchell are also billed to speak at the Temperance Hall in Saanich on Monday evening.

Sunday is to be Field Day, when all the churches have been asked to meet specially with the present issue. In addition to the local clergy, many of whom will occupy their own pulpits, will be the following: Rev. J. C. Switzer, of New Westminster, in the Metropolitan Church; Mrs. Jean Mackin, of Vancouver, in the Centennial Church, Sunday evening; Dr. Ernest Hall, Wesley Church, Sunday morning; Mrs. Spofford, the Fairfield Methodist Church, Sunday evening, and H. A. Beckwith, First Presbyterian Church, Sunday evening.

On Sunday afternoon a mass meeting for women is being held in the St. Andrew's Presbyterian Church, when Mrs. Jean Mackin, of Vancouver, and Mrs. Spofford, of Victoria, will be speakers. Mrs. Margaret Jenkins will preside and Mrs. W. A. Jamieson will sing.

Saanich is being organized under the direction of R. T. Chave. Equalization is getting into shape. Reports from the mainland and upper country to prohibition headquarters so far indicate a sweeping victory for prohibition, and the local committee is working hard in order to poll as big a vote proportionately as the mainland.

The Central Committee rooms have been opened at 554 Yates street.

WILL START BRIDGE EARLY IN DECEMBER

Work on the new Johnson Street bridge should commence early in December, City Engineer F. M. Preston reiterated in a report on his Eastern trip submitted to the Streets Committee of the City Council yesterday afternoon.

In order to complete the contract plans, it is necessary to take further soundings, and these are being proceeded with as quickly as possible, wrote Mr. Preston. These soundings were not taken before, for the reason that if the C. P. R. has not approved of the location of the piers, the money would have been wasted.

Unless unforeseen difficulties arise, these soundings and the necessary plans should be completed by about October 25, and then tenders could be immediately called for, and the work commenced early in December. This would give about a month's time for the preparation of tenders.

The specifications are practically completed, and the only point to be settled with regard to them is the conditions covering labor to be employed, and I should be glad to know your wishes on this subject.

The committee, after a short discussion of the matter, asked the Engineer to report further on the labor question.

Be Young in Body, Mind and Looks Despite Your Years

Many a man, even in his middle forties, has a vague feeling that he is "getting old" — and right at a time when he should be at his very best physically.

And he is growing old, not in the sense that the years are pressing heavily upon him — but in the sense that his vital forces are wasting away faster than Nature replaces the worn out tissues.

Thousands — yes millions — of people find themselves in this condition early in life. And there is no excuse for it. You can check that tendency to grow old. You can carry your youth with its joys and enthusiasm into your 70's and 80's. But you must give Nature all the help you can. The best assistance you can find — assistance of a sound, constructive character — is in the use of

PHOSPHONOL
THE GREAT GENERAL TONIC

It enriches the blood — gently stimulates heart, liver and kidneys to normal activity — brings back your pep, punch and mental vigor — cleanses away that tired, worn-out feeling and replaces it with a spirit of buoyancy.

Phosphonol is a distinctive preparation, scientifically correct in its combination of medicinal ingredients, and there's nothing more invigorating, more strengthening or more rebuilding. Specially beneficial for invalids, convalescents and run-down people of all conditions. Get a box from your druggist to-day — to-morrow you will feel better for it.

Price, \$3.00 a box, or 2 for \$5.00. The Scofield Drug Co., Montreal.

In Albania the women are treated with the utmost consideration. To such an extent, indeed, is this respect for women carried out by the Albanians that it is contrary to their sense of propriety ever to make women the subject of jokes of humorous stories.

Glacier ice for the Alps is delivered to consumers in Lyons and several other cities in Europe. This ice is blasted and mined in the same manner as stone is quarried and is preferred to other ice because of its hardness and lasting qualities.

MISS M'BRIDE WED AT SIMPLE CEREMONY

Became Bride of Capt. Marshall Beck, of Vancouver, This Morning

Interesting Address by Miss Winn Before Next-of-Kin Association

Conditions contributing to mental deficiency and methods of dealing with sub-normal children were described in the course of an interesting address by Miss Winn, child psychologist in the local schools, before an interested audience of the Next-of-Kin Association yesterday afternoon. Mrs. R. S. Day, the president, was in the chair.

Sensible Amusement

Miss Winn stated that in the majority of cases mental deficiency could be traced back to lack of care in infancy, poor conditions in the home and even the pre-natal condition of the mother.

You cannot begin too early to give some sensible amusement, something which the child can handle, which will develop its sense of touch, color, etc," said Miss Winn, who claimed, as a teacher, that there was not sufficient color-work in school. Nothing developed a child so quickly as music. The evils arising from the use of "pacifiers" were mentioned. These included malformation of the mouth and teeth, adenoids, enlarged tonsils and other complaints.

Frighs Bad

Referring to some of the foolish and unwise methods in educating children she urged that no steps be taken to force the backward child by cramming; such a measure only worked harm. Cases of St. Vitus dance could be traced to fright, but while frighs were bad they seldom permanently arrested the nervous system.

At the conclusion of her address Miss Winn asked numerous questions, the trend of which indicated the keen interest taken by the mothers in child welfare. The early part of the meeting was occupied with business matters, including the nomination of officers for the annual election in two weeks' time.

Press Women Honor Col. George Ham

Delegates to Conventions Express Appreciation to G. P. R.; Officers Elected

Quebec, Oct. 9.—(Canadian Press)—Quebec opened yesterday her portals yesterday to the delegates to the Women's Press Club convention, who made a day of sightseeing the ancient capital.

They were the guests of the Canadian Pacific Railway at a dinner at the Chateau Frontenac last night. The dinner was presided over by Colonel George Ham, of the C. P. R. publicity department. At the conclusion of the dinner, Miss Saunders, on behalf of the ladies, expressed their appreciation to the C. P. R. and Colonel Ham, and presented the latter with a splendid traveling bag.

Mrs. Isabel Ecclestone Mackay, of Vancouver, was made an honorary member of the Canadian Women's Press Club at Thursday's session of the conference. Others honored in this way were Miss Marjorie MacMurchie, Miss Jean Elwitt, Mrs. J. W. Garvin and Col. George Ham.

Officers Elected

Officers elected yesterday were: Honorable president, Mrs. Arthur Murphy; president, Miss Lucy Boyle; Toronto, vice-presidents, Alberta, Mrs. Green-Edin; British Columbia, Mrs. C. Bruce; Manitoba, Miss Kenneth Haig; Ontario, Miss MacMurchie; Quebec, Mrs. Archibald; corresponding secretary, Miss Whitford; treasurer, Miss Burkholder; of Hamilton; auditor, Mrs. Ann Anderson Perry, of Winnipeg.

Discussion on the advantages and disadvantages of unions for journalists occupied considerable time on Thursday and as a result a committee, headed by Mrs. A. P. Perry, of Winnipeg, was appointed to look into the matter and report back to the branches.

Col. Ham was one of the speakers yesterday.

Women members of the League of Ireland were refused a hearing at the conference, and distributed Sinn Fein literature to the delegates as they left the building.

WOMEN'S CANADIAN CLUB ANNUAL MEETING

The Women's Canadian Club will hold its annual meeting at the Empress Hotel on Wednesday, October 13, commencing at 2.30. The election of officers, and the hearing of reports will be the main business.

Members are reminded that under the club's constitution only those who have paid their dues for 1921 will be eligible to vote in the election of officers. For the benefit of those who have not yet paid, the secretary will be on hand at the hotel from 1.30 o'clock to receive dues.

The first woman's labor union in China has been organized by the native women employed in the hosier factories in Shanghai.

In the Philippines a woman does not drive a horse or automobile, or ride a bicycle.

Who has Telephone No. 1? Look on the Last Page.

Social Personal

A very pretty wedding was solemnized on Wednesday at the home of Mr. and Mrs. Alcock, Forty-seventh Avenue east, Vancouver, when their sister, Miss Eva Kathleen Copper, who is blind, was united in marriage to William G. H. Todd, who is also blind. The ceremony was performed by Rev. W. Leitch. The bride wore a lovely gown of blue silk poplin and a wreath of orange blossoms. She carried a bouquet of white roses and carnations. The bridesmaid was attended by Miss Turle, who was attired in pink and white organdie. The groom was attended by Mr. Wright, who is also blind. Mrs. Kopp provided the wedding music. After the ceremony a reception was held, the rooms being artistically decorated with autumn leaves and flowers.

The Kingston Street Lawn Tennis Club marked the closing of their successful season with a delightful dance last evening at the Alexandra ballroom. A charming decorative scheme enhanced the gaiety of the scene, while Heaton's Orchestra furnished the excellent programme of music for the dancing, which continued from 9 till 1 o'clock. A perfection of arrangements paid tribute to the work of the committee comprising Mrs. Foster, chairman, and Mesdames O'Halloran, Gardner, Webb, Miss Severs, Miss Edwards, Messrs A. W. Webb, C. H. O'Halloran, R. E. Lamb, W. W. Parkes and H. G. Gardner. A delicious supper was served in the downstairs cafe during the evening.

Miss Dorothy Gardner entertained at a most enjoyable bridge-party last evening at her home, Fairfield Road, in aid of the funds of the "J" Unit, Chapter 10, D. E., of which she is secretary. She was assisted in receiving her guests by Mrs. North, regent of the chapter. Twelve tables were engaged in play, the drawing-room, den and music room being thrown open for the event. Lovely decorations of autumn-blossoms and foliage were used throughout the house with charming effect. At the close of the game delicious refreshments were served, Mrs. Gardner being in charge of this feature, and the pleasant evening wound up with an informal dance.

On October 8 at Bishop's Palace by Rev. Father Letourneau, the wedding took place of Miss Mabel Small, daughter of Mrs. Small and the late Philip Small, 731 View Street, to Harry W. Johnson, Island representative of W. J. Jeffrey & Co., Vancouver, wholesale automobile supplies, son of Mr. and Mrs. Johnson, Heaton Road. The groom served three years overseas in the mechanical transport service. The bride was assisted by Miss Polly Sullivan, the groom was assisted by Charles Wrightworth. Mr. and Mrs. Johnson left for Seattle and Tacoma, where the honeymoon will be spent.

Mrs. J. H. Staveley of Gordon Head has been awarded a silver medal for her splendid exhibition of taxidermy shown in the Women's Section at the recent fair at the Willows. Mrs. Staveley, who makes a hobby of taxidermy, obtains all her specimens herself, and achieved much success in shooting game in the East during her long residence there.

SEND CARS TO STATES

Canadian Factory Ships Big Consignment Across the Border.

Toronto, Oct. 9.—The condition of the automobile industry in Canada is indicated by the fact that the Gray Dorr Company recently sent six hundred cars to be sold on the American market.

GAMBLING FRENZY AT FRENCH RESORT

Millions of Francs Change Hands at Deauville; High Stakes

Paris, Oct. 9.—Millions of francs were won and lost across the baccarat tables and the roulette wheels in a frenzy of gambling for stakes hitherto unknown in France during the season which is drawing to a close at Deauville.

STREET CAR MEN ACCEPT COMPANY'S LATEST WAGE OFFER

Vancouver, Oct. 9.—The offer of increased wages made by the B. C. Electric Railway Company to its employees was accepted by the men on Friday.

FILM DEPICTED WHAT MIGHT HAVE HAPPENED

London, Oct. 9.—The British public has just learned from the report of a Government committee that a moving picture film prepared by direction of the War Office at a cost of £1,000,000 was destroyed after the armistice by Government order.

DUKE OF YORK STAKES

London, Oct. 9.—(Canadian Associated Press)—Orpheus, 100 to 1, won the Duke of York Stakes to-day.

OIL FLOWS FREELY IN ALASKA NOW

Stories Rivaling Romance of Klondike Rush Come From North

Oil is reviving the epic glory of Alaska. Soon the stark hills of the north-land will resound to the thump of the oil derrick where, twenty years ago, the sourdough's pick rang in the quest for gold.

By Money in Claims

Now, with the passing of the land-claiming bill, he is safe. He has filed his claim and settled down to await the coming of the agents of the corporation.

DUKE OF YORK STAKES

London, Oct. 9.—(Canadian Associated Press)—Orpheus, 100 to 1, won the Duke of York Stakes to-day.

COLONIAL "A"

This, without sacrifice of accuracy—At all good jewelers. Price Waltham models from \$25.00 upwards.

When buying a watch think first of quality

THE first cost of an inferior watch is a long way from being its last cost. Instances are by no means uncommon where the cost of repairing such a watch exceeds its original price.

Watchmakers nowadays receive high wages. Their bills are apt to be very large for time spent in trying to repair low grade watches.

It is far better to buy a Waltham.

This gives you a high grade watch at a reasonable price consistent with quality. Apart from accidents and the general overhauling every second year which good watch mechanism deserves, the good service you get from your Waltham means a real cash saving over the low grade watch.

Waltham Grandfather Hall Clocks and Mantel Clocks for homes of refinement. Ask your jeweler.

More About Victory Bonds And Their Price Fixing

From The Toronto Financial Post.

On the plea of patriotism the Government is asking holders of bonds of the third War Loan, maturing in 1937, to accept less for their interest coupons than they are legally entitled to.

Who wish to sell other war bonds at the present market must suffer. Sir Henry Drayton's latest action is in line with the policy that has been pursued by the Government.

These actions have had a very marked effect on the Canadian bond market, with the result that the Canadian and Provincial Governments, municipalities and other institutions have been able to borrow money much cheaper than similar incorporated bodies in Great Britain and the United States.

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written.

TAXATION IN SAANICH.

To the Editor.—As a Saanich property-owner, I am glad to see there is at least one sane councillor on the Saanich Council.

PROHIBITION.

To the Editor.—I have read with interest the letters that have appeared in the Times regarding the liquor question.

abstinence than they have to do with Taxation Reform.

Total abstinence does not mean prohibition. Under prohibition, or under Government control, we shall each of us decide for ourselves whether we will be total abstainers or otherwise.

ALCOHOL AND THE HOME.

To the Editor.—The liquor business shifts pictures upon the canvas of human nature that the members of the Moderation League would not admit to a local exhibition, and remains sootier than the soot.

Wretchedness OF Constipation

BRIEF LOCALS

First Unitarian.—At the First Unitarian Church on Sunday morning, Walter W. Baer will speak on the subject "What must I do to be saved."

To Form Central Body.—A meeting of delegates from each of the Parent-Teachers' Associations in Saanich, with a view to forming a central organization, will take place at the Craigflower School on October 22. Two delegates will attend from each of the Associations.

Womens' Institute Meeting.—The West Saanich Women's Institute will hold their regular meeting on Tuesday afternoon, October 12, at their rooms, Suggart Station, J. Forsyth, Provincial Librarian will address the meeting. A military 500 drive will be held under the auspices of the Institute at their rooms, Wednesday evening next.

Sons of England Dance.—Over one hundred were in attendance at the weekly dance of the Sons of England held in the K. of E. Hall last evening. The lodge's orchestra supplied the very excellent music to the enjoyment of the dancers. Last night's dance was the first of a series to be held weekly throughout the winter.

Fine Church Pageant To-morrow.—To hear a special sermon to be delivered by Canon Hinchliffe to-morrow night at St. John's Church, Quadra Street, at 7:30 p. m., the Veterans will turn out in a body, attended by the pipe band of the Comrades. All members of the G. W. V. A. and other organizations are kindly requested to attend.

Considering Judgment.—Judge Lammman yesterday afternoon reserved judgment in the suit of E. W. W. Foster against Jeeves & Lamb for charging nearly double what he claimed was the contract price at them for packing and shipping furniture from his Belmont Avenue home here to Vancouver.

Change of Polling Place.—The Returning Officer for Victoria City Electoral District, Capt. Carew Martin, announces that the polling place for Ward IV on Wednesday week at the prohibition plebiscite has been moved from 1117 Fort Street to the garage at the rear of the Bell block, corner of Mears and Cook Streets.

Primrose Lodge Entertained.—The whist drive held under the auspices of the Daughters of England, Primrose Lodge, at the K. of P. Hall on Thursday evening, proved a great success. The winners were as follows: Ladies list, Mrs. Cunningham, 2nd, Mrs. Stafford; booby, Mrs. Backley; gent's list, Mr. Hawkes; 2nd, Mr. O'Connor; and booby prize, Mr. Griffin. The special prize was won by Mrs. Blackwood. Mrs. Stafford, who proved a capable M. C., announced that the Lodge intends holding a five hundred tournament on Thursday, November 6.

Saanich Social and Dance.—A combined card party, social and dance will be held in the West Road Hotel, Saanich, on Friday, October 9. Progressive five hundred will be played from 8 p. m. sharp until 9:30 p. m., when refreshments will be served. A short concert will then be held until 10:30 p. m. The remainder of the evening will be given over to the dancers. A splendid programme of local city talent has been provided for the concert, and the dance music will be furnished by a good three-piece orchestra led by J. Haggart.

Winter Work Discussed.—The Young People's Society of St. Andrew's Presbyterian Church held a supper and entertainment last night in the church schoolroom, with addresses on phases of the coming winter programme alternating with musical numbers. The speakers were Miss Jean Burridge, Miss Phyllis Khanman, Miss Gertrude Scott and J. B. Clearhue, Hugh Jackson, Wallace Goforth, C. R. MacGillivray, M.A., B.D., and Rev. Dr. Clay, the latter closing the programme, and the other addresses touching on aspects of the work of each division. The musical portion of the programme was mainly composed of songs and choruses led in by all present.

Underwriters to Meet.—The regular monthly meeting of the Victoria Life Underwriters' Association will be held at the Dominion Hotel on Monday next at 12:15. Following the programme mapped out by the executive committee, the following are the prominent speakers from other professions address the association, the speaker on Monday next will be C. W. Bradshaw, who will speak on the subject of "The Law As It Relates to Beneficiaries." J. B. Warnicker, the vice-president of the local association, will also speak briefly on the "Value of Public Service in the Life of the Insurance Salesman." C. H. Dennis is also on the programme for a musical number.

CUTTER BEAR HAS ENGINES CRIPPLED

Now in Behring Sea Awaiting Assistance From Nearest Patrol Vessel

Advises received yesterday state that the United States cutter Bear, which was on duty in the Arctic Ocean and came out recently, broke down owing to engine room trouble, while off St. Lawrence Island. The boilers of the Bear have been crippled, and the cutter lies useless for the moment, until the trouble be remedied. It is understood here that the U. S. cutter Algonquin has proceeded from her regular patrol at Unalaska to the assistance of the Bear.

The cutter Bear is usually the last to leave the Behring Sea, and remains behind until all commercial craft have cleared from the northern waters, but this year she will be superseded by the Algonquin, and come south to Seattle for overhaul. During her Arctic cruise this summer the cutter Bear reached Point Barrow, the extreme north point of the North American continent.

GARDEN CITY INSTITUTE.

The monthly meeting of the Garden City Women's Institute was held on Thursday at the home of Mrs. Spurr, Jasmine Avenue. There was a good turnout of the members. A little business was gone over including the collection of monies for the Navy League. It was decided that the "Girls' club members and other children of the district should see Mrs. Jones Evans give an enjoyable demonstration upon salads, which those present much appreciated. Tea was served by the hostess, assisted by Mrs. Peets and Mrs. Fryatt.

"A Mass of Sores—No Sleep—Unhappy Days"

writes Mrs. Orange Harvey of Danville, Quebec. "I declare with the doctor until the first of May. Then I got a bottle of D. D. D. and used half a bottle only and have been entirely well ever since."

Why not see if half a bottle will relieve your skin disease, too—our guarantee that the first bottle will show results or your money back! (Holding strings on the instant, \$1.50 a bottle. Try D. D. D. Soap too.)

D. D. D.

THE Lotion for Skin Disease

For sale by C. H. Bow, a. Druggists, Corner of View and Government Streets.

To Preach To-morrow.—At the First Congregational Church to-morrow evening the address will be given by the Rev. G. Henry Sandwell, of London, England, who is visiting the city in the course of a holiday. Rev. Mr. Sandwell was formerly pastor of the First Congregational Church of Toronto.

Motorists to Re-organize.—Officers of the Island Automobile Association have decided to call a general meeting of all members of the association next Thursday to re-organize the club.

American Visitors Here.—Lieut. J. H. Lawrence, wife and daughter, of the U. S. Army, and Sgt. J. F. Morton, wife and daughter, of the Coast Defense at Fort Casey, are visiting relatives and friends in Victoria and are staying with Mrs. C. Schmelz at 2924 Chambers Street.

Wants Men on Voters' List.—E. S. Woodward appeared before the City Council yesterday afternoon and urged that the 2,400 men who have paid road tax this year be placed on the civic voters' list. Chairman Mayor H. J. Sangster replied that the same opportunity to get on the voters' list would prevail this year as last year.

G. W. V. A. Smoker To-night.—The regular Saturday night smoker will take place at the G. W. V. A. clubrooms, 1117 Fort Street, to-night at 8 o'clock. An unusually fine programme has been compiled by Comrade Neary, which should excel even the successful staging of last week. Principal among the items are: Fririe Impett, vaudeville star; Comrade Dumbleton, comedian; Comrade Potter, baritone; Comrade Chairman, solo; Comrade Aston, series of harmonious songs; Comrade Heineke, the popular tenor. All ex-service men are cordially invited.

Explains Waterfrontage Charges.—At a well attended meeting of ratepayers of Cadboro Bay district held last night in the Cadboro Bay Hotel, Councillor Clark gave an explicit statement of the methods adopted in Saanich for the calculation of waterfrontage rates with special reference to the district chairman. Goldby expressed the thanks of the gathering to Councillor Clark. There is every likelihood that, as a result of the meeting, the Cadboro Bay Ratepayers' Association will take a renewed lease of life, after being dormant for some time.

To Act on Bowker Creek Question.—The city health authorities are about to take action on the Bowker Creek question. Alderman Aldion Johns, Chairman of the Civic Health Committee, informed the City Council yesterday afternoon. It is intended, Alderman Johns stated, to take action against property owners along the creek, and force them to clean up the stream bed.

CUTTER BEAR HAS ENGINES CRIPPLED

Now in Behring Sea Awaiting Assistance From Nearest Patrol Vessel

Advises received yesterday state that the United States cutter Bear, which was on duty in the Arctic Ocean and came out recently, broke down owing to engine room trouble, while off St. Lawrence Island. The boilers of the Bear have been crippled, and the cutter lies useless for the moment, until the trouble be remedied. It is understood here that the U. S. cutter Algonquin has proceeded from her regular patrol at Unalaska to the assistance of the Bear.

The cutter Bear is usually the last to leave the Behring Sea, and remains behind until all commercial craft have cleared from the northern waters, but this year she will be superseded by the Algonquin, and come south to Seattle for overhaul. During her Arctic cruise this summer the cutter Bear reached Point Barrow, the extreme north point of the North American continent.

CIGARETTE BUTTS FIRE MENACE HERE

People who throw lighted cigarette butts out of upstairs windows may start a serious fire one of these days, officials of the City Fire Department asserted this morning, following the destruction by flames of a building at 4115 Government Street yesterday afternoon. This was the fifth evening which has been set on fire this year by cigarette butts dropped from windows in storeys above.

GARDEN CITY INSTITUTE.

The monthly meeting of the Garden City Women's Institute was held on Thursday at the home of Mrs. Spurr, Jasmine Avenue. There was a good turnout of the members. A little business was gone over including the collection of monies for the Navy League. It was decided that the "Girls' club members and other children of the district should see Mrs. Jones Evans give an enjoyable demonstration upon salads, which those present much appreciated. Tea was served by the hostess, assisted by Mrs. Peets and Mrs. Fryatt.

To Welcome Dominion Convention Here Next Week: Brigadier-General R. P. Clark

The Victoria unit of the Army and Navy Veterans' Association, which will be hosts to the Dominion Convention here next week was founded in January, 1916, and quarters were opened in Langley Street. Vice-Admiral W. O. Storey was elected president, and the unit was indeed fortunate in obtaining such a distinguished officer as their first president. The first vice-president was Colonel A. C. P. Huggard, D.S.O., whose name is well-known in both military and literary circles. After the retirement of Captain A. E. Craddock, who was the first secretary, H. J. Young of the Royal Canadian Horse Artillery was selected and under his direction the club has grown to large proportions in the city of Victoria.

The president to-day is Brigadier-General R. P. Clark, a man who is well-known both in business and military circles in Victoria. A reference should be made to the valuable services rendered by Colonel E. G. Prior, the Lieutenant-Governor of the Province, by H. J. Ketchen, Canon Hinchliffe and Captain, the Rev. J. Campbell.

MORE DELEGATES FOR CONVENTION

Army and Navy Veterans Promise to Hold Record Gathering Here

The convention of the Dominion Command of the Army and Navy Veterans' Association officially will open with the advent of the Vancouver boat to-morrow. Some delegates are already in town, ahead of time; some may be a few hours late. The local executive have gone into details and under the direction of the convention week's business, supplemented by a further list of delegates who will be in Victoria for the convention.

Delegates:

M. J. Crehan, A. Daykin, E. W. Esson, J. Maxwell, Brig.-Gen. V. O'Hum, H. E. Beck, Comrades Stegwart, Thorn, Ryan, Kelly, Hooper, Ward, Vernon, O'Neill, Mrs. Crawford, Mrs. Kemp, Mrs. King, Mrs. Law, Mrs. Pope, Mrs. Slater, of Vancouver.

W. H. Welch, Editor of the "Khaki Call," and Mrs. Welch, Toronto.
Major and Mrs. F. G. Taylor, Fort George, in Prairie.

Programme of Convention.

Monday, October 11—10:30 a. m., formal opening by President V. J. Tupper, K.C.; 10:45 a. m., Victoria unit welcome by the local president; 11 a. m., address of welcome by Premier Oliver will return from his Kootenay trip on Tuesday.

Tuesday, October 12—10:30 a. m., session; 12:30 p. m., adjournment for lunch; 2:30 p. m., session; 6 p. m., adjournment; 8 p. m., banquet Caledonia Hall, Chairman W. J. Tupper, K.C.

Wednesday, October 13—10:30 a. m., session; 12:30 p. m., adjournment for lunch; 1 p. m., official photograph; 2:30 p. m., session; 4:45 p. m., adjournment; 5 p. m., beach party at the residence of the local president.

Thursday, October 14—10:30 a. m., session; 12:30 p. m., adjournment for lunch; 2:30 p. m., session; 6 p. m., adjournment; 8 p. m., dance at Caledonia Hall.

Friday, October 15—10:30 a. m., session; 12:30 p. m., adjournment for lunch; 2:30 p. m., session; 6 p. m., adjournment; 7:30 p. m., visit to Saanich Observatory; 9 p. m., impromptu concert in the club rooms.

Saturday, October 16—10:30 a. m., session; 1 p. m., adjournment.

6:04-Save the King.

DEBATE UPON PROHIBITION AND GOVERNMENT SALE

A debate on "Prohibition Versus Government Sale" was held at the Wilkinson Road Church last evening. It created a lively interest. The prohibition side was well supported by two returned soldiers, Lieut. Hall, principal of the George Jay School, and Private Beaumont. The government side was also well supported by Mrs. Loat and Mr. Rodwell. The judges had great difficulty in arriving at a decision. They finally awarded the victory to the prohibition side.

The Brotherhood, under which the debate was held, hope to hold a series of debates through the winter season.

WEST-SAANICH ROAD OPENED TO TRAFFIC

The Saanich Works Department this afternoon opened to general traffic the extension of the West Road paving. The road has for some weeks been closed for resurfacing operations. The wet weather prevailing for the past few weeks has prevented the laying of the surfacing materials, and traffic has been greatly inconvenienced, especially with regard to access to the Dominion Observatory on Saanich Hill.

Commencing on Monday morning the portion of the Burnside Road lying between Washington Avenue and Harriet Road will be closed to traffic while reconstruction of the short stretch of highway is in hand.

Musical Instruments Reduced 25%

MORE EXHAUSTED.

London, Oct. 9.—Terence Macswiney, Lord Mayor of Cork, passed a fairly good night at Brixton prison, where this morning he began the fifty-eighth day of his hunger strike, said a bulletin issued this morning by the Irish Self-Determination League. However, he was in a very weak and exhausted condition this morning, the bulletin declared.

The afternoon bulletin of the Irish Self-Determination League said that King Albert of Belgium is an experienced motorist.

Coveleskie Again Trims Brooklyn

Cleveland Pitching Ace Kept Dodgers Helpless

Second Win For Spitball Artists in Series; Indians Recovered Their Batting Eye and Pounded Four Brooklyn Pitchers; Cleveland Used Numerous Players; Score, 5-1.

Cleveland, Oct. 9.—Stanley Coveleskie won his second game in the world series to-day by pitching Cleveland to a 5-1 victory over Brooklyn. Coveleskie's spitters were once again too wicked for the Robins, who only collected five hits off his delivery.

Manager Robinson pinned his faith upon Cadore, a right-hander. Cadore, however, found the Indians had recovered their batting eye from the slump they fell into at Brooklyn and before the first inning had passed he had been touched up for two runs.

Wambagans drew a pass and Speaker slapped a single to centre. The ball was fielded quickly by Meyers and Wambagans was held at second. Wambagans reached the plate on Smith's wicked cut to centre. Speaker going to third. Smith reached second when the play was made to cut off Speaker at third. Gardner hoisted a long fly to centre and Speaker beat the throw to the plate.

Cadore Got His. In the second inning the Indians again looked dangerous and Uncle Robbie beckoned Cadore to the bench and sent Mammaux, another right-hander, to go the way with two men on bases and none out. Mammaux settled to his task. He struck out Coveleskie and the side was retired on the Indians' clubs.

Indians Slug Again. Cleveland—Wambagans up. Wambagans got a single into right field, hitting the first pitched ball. Speaker got a long single into centre field, and on the throw to third which failed to get Wambagans, Speaker ran to second, getting there with a fine book slide. Mammaux was taken from the box and Marquard went in to pitch. Burns batted for Smith. Wambagans and Speaker scored on Burns' single to left. When Wheat fumbled the ball for an error Burns went to second. Gardner up. Gardner struck out. Wood batted for Marquard. Lamar walked. Myers up. Myers walked. Ketchy up. Ketchy struck out. Olson up. Olson flied out to Speaker. J. Johnston up. Johnston got a line single into left field. It was Brooklyn's first hit.

Back to Right-handers. Cleveland rushed over another run in the sixth. Marquard gave way to Lamar, a pinch-hitter, and Pfeiffer, another right-hander, was sent in to work for the dodgers. Three hits and a wild pitch gave the Indians a score.

Cleveland Gets Away. First inning, Brooklyn—Olson up. The game was momentarily delayed when Marquard, Speaker and Robinson went into the right field to discuss ground rules. Olson went out. Gardner to Johnston. Johnston up. Well threw out Johnston at first. Griffith up. Griffith popped to Gardner. No runs, no hits, no errors.

Cleveland—Jamison up. Jamison lined out to Cadore. Wambagans up. Wambagans walked. Cadore's curves broke wide. Speaker up. Speaker singled into centre field. Wambagans scored. Second inning, Cleveland—Smith's single to centre. Speaker going to third. On the throw to catch Speaker. Smith went to second. Gardner up. Gardner flied to Myers and Speaker scored after the catch. Smith held second. Johnston up. Johnston struck out. Two runs, two hits, no errors.

Cadore Yanked. Brooklyn—Wheat up. Wheat sent a fly to Jamison. Myers up. Myers flied out to Smith. Ketchy up. Ketchy went out by the Wambagans-Johnston route. No runs, no hits, no errors.

Cleveland—Sewell up. Sewell was given a great cheer when he came up to the plate. Sewell sent the ball to the screen and the ball bounded into Griffith's hands, and it counted for a single. O'Neill up. O'Neill singled through Johnston. Sewell going to second. Cadore was taken from the box and Mammaux took up the pitching burden for Brooklyn. Coveleskie up. Coveleskie struck out on three pitched balls. Jamieson up. Jamieson sent a fly to Myers and Sewell was doubled at second. Myers to Olson to Kilduff. No runs, two hits, no errors.

Third inning, Brooklyn—Kilduff up. Coveleskie flied Kilduff spitballs and struck him out. Miller up. Miller went out. Coveleskie to Johnston. Mammaux up. Mammaux struck out. No runs, no hits, no errors.

Indians Slug Again. Cleveland—Wambagans up. Wambagans got a single into right field, hitting the first pitched ball. Speaker got a long single into centre field, and on the throw to third which failed to get Wambagans, Speaker ran to second, getting there with a fine book slide. Mammaux was taken from the box and Marquard went in to pitch. Burns batted for Smith. Wambagans and Speaker scored on Burns' single to left. When Wheat fumbled the ball for an error Burns went to second. Gardner up. Gardner struck out. Wood batted for Marquard. Lamar walked. Myers up. Myers walked. Ketchy up. Ketchy struck out. Olson up. Olson flied out to Speaker. J. Johnston up. Johnston got a line single into left field. It was Brooklyn's first hit.

Back to Right-handers. Cleveland rushed over another run in the sixth. Marquard gave way to Lamar, a pinch-hitter, and Pfeiffer, another right-hander, was sent in to work for the dodgers. Three hits and a wild pitch gave the Indians a score.

Cleveland Gets Away. First inning, Brooklyn—Olson up. The game was momentarily delayed when Marquard, Speaker and Robinson went into the right field to discuss ground rules. Olson went out. Gardner to Johnston. Johnston up. Well threw out Johnston at first. Griffith up. Griffith popped to Gardner. No runs, no hits, no errors.

Cleveland—Jamison up. Jamison lined out to Cadore. Wambagans up. Wambagans walked. Cadore's curves broke wide. Speaker up. Speaker singled into centre field. Wambagans scored. Second inning, Cleveland—Smith's single to centre. Speaker going to third. On the throw to catch Speaker. Smith went to second. Gardner up. Gardner flied to Myers and Speaker scored after the catch. Smith held second. Johnston up. Johnston struck out. Two runs, two hits, no errors.

Cadore Yanked. Brooklyn—Wheat up. Wheat sent a fly to Jamison. Myers up. Myers flied out to Smith. Ketchy up. Ketchy went out by the Wambagans-Johnston route. No runs, no hits, no errors.

Cleveland—Sewell up. Sewell was given a great cheer when he came up to the plate. Sewell sent the ball to the screen and the ball bounded into Griffith's hands, and it counted for a single. O'Neill up. O'Neill singled through Johnston. Sewell going to second. Cadore was taken from the box and Mammaux took up the pitching burden for Brooklyn. Coveleskie up. Coveleskie struck out on three pitched balls. Jamieson up. Jamieson sent a fly to Myers and Sewell was doubled at second. Myers to Olson to Kilduff. No runs, two hits, no errors.

Interest in International Horse Duel at Fever Pitch

Windsor, Ont., Oct. 9.—Man o'War raced yesterday but will be breezed to-day for the benefit of the race fans. Since his arrival here he has merely been given a short walk on the track, the rest of the time being spent in his special quarters.

Want New Amateur Regime in Western Part of Canada

A new central body should be formed in this city to promote amateur sport and that each branch of sport should control its players was the gist of a discussion held in the Douglas Hotel last evening by several local sportsmen, who are anxious to prevent a repetition of the recent action of the B.C.A.A.U. for suspending a band of amateurs for violation of rules.

After a lengthy discussion W. H. Davies moved a motion to have the new body formed, and that the delegates report back to their own associations the desire of the meeting and receive further instruction. J. C. Ackland seconded the motion.

Mowat as Chairman. Ten local sportsmen and W. H. Davies, of Regina, a hockey enthusiast, attended the meeting. John Mowat was elected chairman, and Harry Boyd, secretary. The other representatives were F. C. Payne, W. H. Davies, Vic. Gravin, Bob McInnes, Al. Hinson, Bill Day, E. H. Pendray and Ackland.

The chairman explained that the meeting was to have been a private one, which drew considerable discussion, as it was advertised as a public meeting. Following the discussion one of those in attendance left.

Views were candidly expressed on the amateur problem. General dissatisfaction was pronounced on the way the B. C. A. A. U. had been governing sport in this province. The suspension of the cricketers who played in the fun-provoking game with the professional ball players was considered out of place.

Mr. Betchen stated that the local board had acted within its powers when it suspended the players, but thought it was the first time that such steps had been taken in the history of the A. A. U. He favored every branch of sport controlling itself.

Another meeting is to be called in the near future to hear the verdicts of the various associations through their delegates.

According to the belief of some the meeting was an evening was but a start of a movement which will set up a new amateur regime in Western Canada. The supporters intend to have a good try at setting up the new form of government.

Marquard Held For Ticket "Scalping". Famous Brooklyn Pitcher Was Arrested in Cleveland To-day.

Cleveland, Oct. 9.—Marquard was arrested in the lobby of a downtown hotel on a warrant issued by assistant prosecutor Edward C. Stanton. He was charged with offering for sale eight world series box seats, the original cost of which was \$5.80, for \$350. He was released on his own recognizance to appear before Municipal Judge Silberg Monday.

Two other arrests were made. Fred Hoopes, of Somerset, Ohio, was arrested at the ball park trying to sell a \$5 ticket to John K. O'Farrell, of Salt Lake City for \$4.50.

Even Once More. Brooklyn, Oct. 9.—The official box score of to-day's game follows: Brooklyn, A. B. R. H. P. O. A. E. Olson, s. 4 1 1 1 0 0 0 0 0 0. J. Johnston, 3b. 4 1 2 1 0 0 0 0 0 0. Riflemen to Meet. A meeting of the Canadian Scottish Rifle Association will be held at 1205 Broad Street at 8 p. m. Tuesday, October 12, to discuss arrangements for a prize shoot on Thanksgiving Day. All members are requested to be present.

Fourteen Local Players Back in Amateur Circle

Provincial Body of B. C. A. A. U. Decide to Reinstate All Suspended Athletes Immediately; Officials Favored Censures to Managers Who Conducted Games After Warnings.

Fourteen Victoria and a dozen Vancouver athletes who came under the pruning knife of the B. C. A. A. U. and were suspended for certain breaches of amateurism were patted on the back last night and advised to be good boys in future. The provincial body of the union gathered in Vancouver, and after hearing the facts surrounding the suspension of the players decided to reinstate them immediately. As a result some of the afflicted athletes have been allowed to appear on the soccer fields to-day and have greatly strengthened their clubs.

This morning President Arthur Manson of the Provincial Board and George Warren, of the Local Board, returned from the mainland with the authorization to issue new amateur cards to the suspended players. They report some of the representatives had favored punishment being meted out to teach the players a lesson, but the meeting refused to take this action in view of the circumstances surrounding the suspensions. It was decided, however, that at the annual meeting to be held in Victoria at the end of this month that those responsible for staging the games should be severely censured.

Players Re-instated. The Victoria players who were re-instated were as follows: S. J. Charman, E. McManis, Jack Mason, Doug Fletcher, Doc Balcom, Art Mungis, Bob McMillon, Ross Oatman, Russell Oatman, Bob Whyte, W. A. McAdam, "Giddy" Howard, Ben Davis and Clair McConnel. The Vancouver re-instatements included eleven members of the Arnold and Quigley ball team which played here against the Elks.

The Vancouver local board of the union convened a meeting and both Presidents Manson and Warren attended and outlined action leading to the suspension of the players. Mr. Warren stated that he had warned the managers of both baseball clubs and those in charge of the cricketers' game with the pro ball players. He, however, did not wish to hold the players responsible as his statement may not have been passed on.

Joe Dilworth, secretary of the B.C. Amateur Baseball League, admitted that he had misinterpreted the rule which provided for an amateur to play against a professional in the cricket or indoor bowling. Captain Pakke of the Quigley team, also backed up this contention and stated that he had no intention of violating the rules. They agreed that the union had taken the only action open to it.

Endorse Re-instatement. After hearing the evidence the Vancouver local board decided to commend the re-instatement of the suspended players. A meeting of the provincial board convened later in the evening at which representatives from New Westminster, the board of governors, Victoria, Vancouver, B.C. Amateur Baseball League, Canadian Amateur Swimming Association and the B.C. Amateur Hockey Association were present. The meeting decided to act on the recommendations of the local boards and re-instate all players who had applied.

Helps Along Controversy. The re-instatement of these players helps to a settlement of the controversy, which has been raging for some time. Vancouver amateurs are now almost intact as a result of the re-instatement. Victoria still has a few outlaws.

Within the Ropes. New York, Oct. 9.—Tommy Noble, of England, won a decision over Johnny Murray, of New York, in a 15-round bout at Madison Square Garden last night. Noble outfigured his opponent throughout. The winner's weight was announced at 125 1/2 pounds and Murray's 125 1/2.

Neither man scored a knockdown. "Panama" Joe Gans received the judges' decision over George Robinson, of Boston, in a 12-round bout. They are colored light middleweights. Danny Frush, of Baltimore, 125 1/2 pounds, defeated Artie O'Leary, of New York, 127 1/2 pounds, in a 10-round go.

Paterson, N. J., Oct. 9.—Benny Leonard, lightweight champion of the world, yesterday scored a technical knockout over Johnny Sheppard, of England. The bout, which was scheduled to go twelve rounds, was stopped by the referee in the third. Leonard completely outfigured his opponent in the first two rounds and was about to finish him in the third when the contest was stopped. Leonard weighed 137 pounds and his opponent seven pounds less.

Ray McCormick, champion lightweight of Ireland, had the better of every round of the ten in his contest with "Dummy" Martin of Brooklyn.

Toledo, Oct. 9.—Jack Britton, welterweight champion boxer, was held to a draw by Jack Perry, of Pittsburg, in a fast 12-round bout here last night, according to the majority newspaper opinion.

Winnipeg, Oct. 9.—Clonie Tait, formerly of Edmonton, retained the Canadian lightweight boxing championship when he outboxed Otto Waldsee, of Milwaukee, in a bout here last night. Tait scored the most points through a fast right, but Wallace did most of the fighting.

Strong Declaration BY Anglican Bishops Roman Catholic Prelate The Presbyterian Synod

ARCHBISHOP DU VERNET—Metropolitan of British Columbia, in his recent charge to the Provincial Synod, said: "On the church rests largely the responsibility of creating and keeping vigorously alive a right public sentiment. If PROHIBITION HAS PROVED, AND WE BELIEVE IT HAS, A BLESSING, to many in this Province, why should it be discredited because of a lack of sufficient public opinion behind it."

VEN. ARCHDEACON LLOYD SAYS:—"Vote to hold on to the Act you have now, for the issue is clear: shall the nation develop without the liquor traffic or shall our children be menaced for another generation by the alcohol habit."

THE GREAT LAMBETH CONFERENCE of All Anglican Bishops Takes a similar stand, and urges members of the church to support such legislation and adopt such personal habits as will lead to the speedy reduction in the use of liquor.

THE REV. R. CONNELL, of St. Saviour's Church—"The issue before the electors at the coming plebiscite is not a real one at all. One of the choices is a mere phrase—Government control and sale. Precisely what this is intended to convey no one knows."

ROMAN CATHOLIC PRELATE—Cardinal Mercier says: "I am only discharging my duty as a Catholic, as a priest and a bishop in coming to co-operate with you in the struggle against Alcoholism. To convert a drunkard will always be difficult, prevention is better than correction."

THE PRESBYTERIAN SYNOD OF B. C.—"The Committee believe that Government control and sale would result in a very much greater use of intoxicants and would be a grave hindrance to the home and to the good morals of the community."

VOTE FOR PROHIBITION—DON'T BE FOOLED WHICH DO YOU PREFER? 1. The present "Prohibition Act" 2. An Act to provide for Government Control and Sale in Sealed Packages of Spirituous and Malt Liquors?

Trade Follows the Merchant Flag of Canada

By willingness and ability to provide ships Canada this year has drawn the West Indies closer to herself and to the Empire. She can make preferential trade agreements with other peoples under the British flag without arousing international complications.

The trade of 45,000,000 people in British Tropical Africa is waiting for us to-day. But we must have ships and a sea-conscious spirit in the people and in the Government.

The West India Trade Agreement

Would not have been worth the paper it is written on had it not been for Canadian ships, and the vision of Canadians who realize those facts.

The Navy League of Canada.

WILL INVESTIGATE CAUSE OF EXPLOSION

Five Killed and Score Were Wounded in an Explosion

New York, Oct. 9.—Investigation to determine whether any culpable negligence caused the explosion in the British tanker G. R. Crowe, which killed five and injured more than a score of workmen, has been started.

The three missing men whom it was believed had been killed by the explosion were located alive yesterday.

MARINE NOTES

The N. Y. K. liner Fushimi Maru is due at daylight on Monday at William Head, according to advices received to-day.

The Harrison liner Orator left San Francisco on Thursday evening last at 8 o'clock, and should be up here on Sunday evening at the Outer Dock.

The new office of the Chicago, Milwaukee & St. Paul road is nearing completion at 902 Government Street, and the local agent, F. O. Finn, is getting ready to take possession.

The B. C. Coast service Maquinna arrived here last night and will put out to-morrow night on her regular run up the West Coast.

There will be no Sunday night boat to Vancouver, the number of people moving across the Gulf having fallen off to normal proportions after a busy summer season.

The G. T. P. steamer Prince George will make port to-morrow early, and leave at 11 a. m. as usual for Seattle, Vancouver and the north.

According to Col. Wilby, superintendent of the Department of Marine, the work of rebuilding the Carmania light will not be undertaken this year. The Department has not yet received any official notification in connection with the suggested removal of Ripple Rock, Seymour Narrows, that is being urged by the Prince Rupert Board of Trade as a measure necessary to the safety of navigation in those waters.

Captain H. C. Hansen has been appointed Managing Director of the Victoria Shipowners, Ltd., at a meeting of the directors of that organization yesterday. Captain Hansen, who has been on this coast since 1918, is too well known to require introduction to the shipping men of this port. He has been intimately connected with sailing craft for two or more Norwegian companies operating sailing craft. One of his recent activities on this coast was the purchase of the schooner Coma, which with Seattle associates, she is a sister ship to the Rolph, operated by Hind Rolph Co. of San Francisco, and will be used in lumber trade.

The S. S. President will get away to-day for the South, arriving here at 4 o'clock, and clearing again south-bound at 5 in the evening. On her last run here the President made the trip from the South in forty-seven hours and thirty minutes, which though not a record, is the best time made for that journey in some years.

The buoy in Tempair Channel, Clayoquot Sound, is reported out of position to the Marine Department, but is to be replaced as soon as possible. Mariners are asked to take note.

Ships at a Glance

Table with columns: TO ARRIVE, TO DEPART, and TIDE TABLE. Lists ship names, dates, and times.

No Passengers on Maiden Voyage From Europe

Launched August 17, this year, the Empress of Canada, which is said to be the last word in luxurious appointments, was to have made a voyage to this coast with round-the-world passengers, while on her initial run. Considerable disappointment is caused by the announcement that this arrangement has been cancelled, owing to labor conditions affecting the movements of travellers.

PORT AUTHORITIES MEET AT SEATTLE

Prominent Gathering of Pacific Coast Men to Confer on Freights

Seattle, Oct. 9.—Seattle during the last three days of the coming week is to be the center of discussion of problems confronting the various Pacific Coast ports of the United States, for the Pacific Coast Association of Port Authorities is to convene here, commencing next Thursday morning.

T. S. Lippy, president of the local port commission, as president of the Coast body will call the port authorities to order in convention at the Bell Street auditorium next Thursday morning at 10 o'clock.

George F. Nicholson, port engineer; Matt H. Gormley, port auditor; and Port Commissioner W. T. Christensen, who is due to return from the Chicago convention of nationwide port authorities to-day, have the details of the local convention in charge, and yesterday the following tentative programme was announced:

The C. P. O. S. Empress of Asia is due Monday from the Orient, while the N. Y. K. liner Fushimi Maru is also expected to make port about the same time.

INTERNATIONAL CABLE CONFERENCE IN U. S.

Washington, Oct. 9.—Delegates from five of the Allied and associated powers met to-day at the State Department in the first preliminary session of the International Communications Conference. Representatives of France, Great Britain, Italy, Japan, and the United States were present.

The programme of the main conference and the place and date of meeting also are to be determined at the preliminary sessions, which are expected to continue for at least a month.

The American delegates are known to be interested in the final disposition of German cables in the Pacific as well as the island of Yap, which with Guam occupies a strategic position in the Pacific for cable communication.

QUEBEC DOCKS FOUR ATLANTIC SHIPS TO-DAY

Montreal, Oct. 9.—The arrival to-day at Quebec of four out of the five incoming liners will make a difficult task for the immigration officials at that port. The first to arrive will be the Minnedosa, followed by the Megantic, the Sicilliana, and the Gramplan. The Cassandra is due to arrive on Sunday.

STEEL IN DEMAND FOR SHIPBUILDING

New York, Oct. 9.—The monthly tonnage report of the United States Steel Corporation made public to-day showed 10,374,504 tons of finished orders on hand September 30. This is a decrease of 430,224 tons from last month's unfilled orders, which totalled 10,804,728 tons.

SUNRISE AND SUNSET

Table showing sunrise and sunset times for the month of October 1920. Columns include Date, Sunrise, and Sunset.

ACTIVITY INDICATED IN SHIPPING LIST

Several Liners and Freighters to Touch Here in Next Two Days

According to advices received by the B. C. Pilotage, the week-end will be fairly busy for shipping men, with several freighters and passenger liners touching this port during the week-end. The Margaret Coughlin arrived in the Royal Roads last night and went to drydock at Esquimaux at 8 a. m. to-day.

The Canadian-Australasian freighter Walrus arrived at the quarantine station at noon to-day, after a fair run from the Antipodes. She will pass up to Comox without touching here.

The power schooner Lovjoy cleared this morning, passing out from Chemaluis to Sound ports with a lumber cargo on board.

The Harrison Direct liner freighter Orator is expected on Sunday sometime in the forenoon, though the exact time of her docking here is not yet known. She carries some freight for this port and a considerable consignment for Vancouver, the latter including an F-3 seaplane for the Government air station at Jericho Beach.

The C. P. O. S. Empress of Asia is due Monday from the Orient, while the N. Y. K. liner Fushimi Maru is also expected to make port about the same time.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones on equal basis with Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes.

For example, the geologist continued, Mount Etna rises out of post-Pliocene strata, while the volcanoes of the Andes mountains in South America arise from granitic rocks. Therefore the nature of the Apuan mountains did not exclude the possibility of a volcano appearing on Mount Pisanino.

COMMISSION LIKELY TO ENFORCE DRY LAW IN QUEBEC PROVINCE

Montreal, Oct. 9.—The appointment of D. R. Murphy, K. C., as general administrator of the prohibition law of the province of Quebec, announced Thursday, may be followed very shortly with the announcement of other appointments in the province. San Francisco was chosen for the 1921 Congress on an unanimous vote.

ANTHRACITE COAL BELIEVED LOCATED IN ONTARIO DISTRICT

Toronto, Oct. 9.—A dispatch from Shelburne, Ont., a village in Dufferin County, 65 miles from Toronto, reports great excitement over a reported discovery of anthracite coal in the immediate vicinity. G. F. Lyons, a farmer, while boring a well, struck at a depth of 100 feet a 25-foot seam of a hard black substance, pronounced by those who have seen the specimen brought to the surface to be true coal and probably a good grade of anthracite.

SUGAR REFINERS SEEKING RELIEF

Ottawa, Oct. 9.—A deputation representing the Canadian sugar refiners waited on the Government yesterday asking relief on the grounds that on the rising market their profits were being held down by the fixed price of sugar and that therefore on the falling market they would be protected. The Government will consider the request.

SCIENTISTS DOUBT NEW CRATER FORMED

Italian Earthquakes Caused Displacements of Subterranean Strata

Rome, Oct. 9.—Scientists say they do not believe that a new volcano was created on Mount Pisanino, near Spezia, during the earthquakes which began September 7 and continued until September 9, causing the loss of 500 lives.

Tongues of flame and smoke or dust were seen to be emitted from what is popularly supposed to have been a new crater opened near the mountain top.

Frank A. Perrett, the American volcanologist for the Carnegie Institution, who occupies a station at Mt. Vesuvius to observe its operations, has expressed to the Association the opinion that no new volcano has been formed but that the earthquakes caused displacements of subterranean strata causing a fissure in the earth's crust and that gas escaping therefrom was mistaken by onlookers as the opening of a new crater.

This view is shared by Senator Capellini, a leading geologist, who has been interviewed by The Messenger and who says there may have been an eruption of gas through a fissure on Mount Pisanino and the supposed column of smoke above the mountain may have been caused by clouds of dust from falling earth.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones on equal basis with Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes.

For example, the geologist continued, Mount Etna rises out of post-Pliocene strata, while the volcanoes of the Andes mountains in South America arise from granitic rocks. Therefore the nature of the Apuan mountains did not exclude the possibility of a volcano appearing on Mount Pisanino.

BE WELL advertisement featuring a woman's face and text: 'I am a woman who helps women to be well. I tell women how to be free of headaches, back aches, nervous spells, crying spells, tired, listless feeling, constipation, fretful, sleeplessness. Simply write me and I will send you postpaid, ten days' free trial treatment, with names of people in Canada who owe their present health and strength to my treatment.'

NAVY LEAGUE IS PROVING POPULAR Capt. Kerr, Director of Trafalgar Week Drive, Speaks of Public Support

Confidence that Canada would strongly support Trafalgar Week, to be held from October 15 to 22, was expressed yesterday by Captain Kerr, chief organizer for the Navy League drive, when he was in the city in the course of a quick trip of inspection and advice through the Dominion.

Local Sentiment Strong. Captain Kerr declared that the work of the Navy League was receiving strong support in this province, but no more than was to be expected under the circumstances of the long coast line and the visible results to be noted as accruing to a strongly entrenched maritime tradition.

What was surprising was the strength of interior provinces, a sentiment for a strong mercantile marine under the Canadian flag. It is this feature of public opinion which, in his mind, would prove the backbone of the success of the Trafalgar Week drive for funds for the continuation of the Navy League's executive work.

FISHING CRAFT HOLD YACHTING EVENT

Halifax, Oct. 8.—The fishing schooner Ocean Race for a purse of \$5,000, which was to have been sailed off the harbor here to-day, was postponed because of a falling committee when a flat calm greeted the vessels at the starting line this morning.

LOGGING CONGRESS ELECTS OFFICERS

San Francisco Chosen As Venue of Next Year's Conference

Vancouver, Oct. 9.—Election of officers for the ensuing year and adoption of resolutions marked the closing stages of the eleventh annual congress of the Pacific Loggers yesterday. George W. Johnson, of Seattle, was elected president by acclamation, as also were the following officers of the Congress:

LEAKS ARE LITTLE THINGS, BUT THEY CAUSE BIG LOSS

Examination of Car Will Show Need of Attention

Neglect of little things add a great deal to the cost of running a car. The petty losses amount to a great deal in the course of a season, and are all worth preventing. One source of loss is the leaky intake manifold. This may be at the carburetor, where it will affect all cylinders, or at the cylinder block, where it affects one or more cylinders. A loose gasket will suck in air on the intake stroke of the engine, thus destroying the mixture which the carburetor has made, and one or more of the cylinders will not fire properly. And if enough air is admitted in this way it may cause backfiring, which would be naturally blamed on a lean mixture and cause an adjustment of the carburetor to supply more gas, which, being unnecessary, is an item of waste.

If the engine has been running properly and begins to backfire, and you are getting gas into the carburetor, do not commence to adjust the carburetor. Look for a leak somewhere. Tighten up the gaskets and see if that does not remedy the trouble. Do not adjust the carburetor while there is a possibility of anything else being wrong. It may be necessary to put in new gaskets, for if these are used too long, or dent-ed, or get out of shape, they are almost sure to leak a little.

Leaks Cause Loss.
 Another thief is the leaky gas pipe, either where the pipe is connected on the tank or where it is connected to the carburetor or vacuum tank at the strainer, or possibly where the pipe has been bent and has cracked. A slow leak, a drop at a time, may seem like a mighty small loss, but when it is kept up for twenty-four hours a day it amounts to much in the course of a month. Besides, the leak may endanger the car by making a high fire risk. Gas pipe lines should be inspected occasionally. Usually they will need taking off once in a while to blow out the sediment which gathers in spite of every precaution.

Another leak which is expensive is of lubricating oil. Nearly every one has seen puddles of oil on a pavement after a car has moved away, or noticed a drip from a passing auto. Oil is high priced, and no one can afford to waste it. The oil comes either from the crank case, the transmission gear case or the differential case.

They are not intended to leak; it may be because the drain cock is not properly closed or the gasket may not be bolted down tight, or there may be a crack which gives a slow drip. Whatever it is, it should be remedied. There may be other causes of leakage in the oil system, but whatever it may be this little thief should be arrested.

Carbon Forms Lumps.
 There is another leak of a different nature which sometimes comes at the valves. Bits of carbon sometimes lodge on the valve or valve seat, and quickly are hammered down into a little lump, which prevents the valve from seating properly, and therefore it leaks. Some engines require valve grinding only at long intervals and others seem to need it often. The exhaust valves should be examined regularly and ground in when necessary. Intake valves require much less attention, but should be examined several times a year.

Another valve leak is about the stems. They should fit snugly in the guide. But with many motors there is a tendency for the valve guides to wear. This may sometimes be detected by a hissing sound when the engine is turned over by hand or when running slowly. Where this occurs it is necessary to ream out the valve guide, put in a bushing and possibly install new valves which fit properly. Of course, the leaky valve stem would have the same effect as a leaky intake manifold, admitting air which would thin the mixture, or spoiling the suction, so that a proper mixture would not be drawn into the combustion chamber.

Piston Ring Troubles.
 Piston rings are responsible for another leak sometimes. If not pinned in the piston they may work around until all the slots are in line.

The Best Cough Syrup is Home-made.

Here's an easy way to save \$2, and yet have the best cough remedy.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for \$2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Specially for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound essence of Norway pine extract, and has been used for generations for throat and chest ailments. To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

Licenses Tell Tale of Decrease in Car Sales

Illustrating the comparative stagnation which has marked the automobile industry during recent months in all parts of North America, are figures of new licenses taken out in Victoria and vicinity during the past two months, as compared with the new cars registered for the same period last year.

The August-September registrations of 1919 were 143 new cars while during the corresponding two months of this year the License Department of the Provincial Police only issued permits for 57 cars.

The comparative figures are as follows: August 1919, 91; August 1920, 31; September 1919, 52; September 1920, 26.

375,000 Canadian Car Owners Can Save \$30,000,000 Annually

If each of the 375,000 motor vehicles in the Dominion of Canada wasted half a gallon of gasoline a day the total amount of fuel wasted would be 68,437,500 gallons annually, or figuring at an average rate of 45 cents per gallon, \$30,796,875 would be thrown away yearly.

These figures convey some idea of what it means to waste half a gallon a day, and with the supply outstripping the demand gasoline conservation is imperative, so that the demands of legitimate motor transportation may be met.

If drivers of all passenger cars and motor trucks are careful to coast their car when approaching a stop, and on down grades, to have the carburetors properly adjusted, not race their engines when starting and not let it run when standing idle, more than 50,000,000 gallons of gasoline could be saved annually. The total saving in money would be enough to build 750 miles of improved roads each year.

giving a straight chute for the gas and ruing all hope of compression or suction. These slots are supposed to be staggered to prevent this. Now it is also necessary to keep the rings free from carbon and pummed out, otherwise they will stick in the grooves and will not function. A worn cylinder will produce the same kind of a leak.

Although caution has been advised against attempting to adjust the carburetor until it is found to be absolutely necessary, the novice should learn the make-up of his carburetor and be able to make an adjustment if it is necessary. It may be taken for granted that the adjustment once made will remain unless somebody's fingers change it. But it is possible for water or dirt to get in the carburetor and interfere with its proper working. The adjustment should be to give as lean a mixture as will fire readily without backfiring and to have the most motor power.

Look at the exhaust when the engine is running and see if any black smoke can be detected. Hold a white cloth behind the exhaust for a moment and see if there is a black deposit on it. Be sure that black smoke means that you are burning up money, that is, more gas than is needed by the carburetor to its most efficient service may not always be indicated by black smoke.

Motor Ignition Trouble.

(By William H. Stewart, Jr.)

The best way to locate any electrical trouble is to begin at one end of the ignition system and make a series of tests in regular order. Begin with the spark plugs under suspicion.

Moisture on the exposed part of the porcelain will often cause the engine to misfire, but this trouble can be remedied by cleaning the porcelain with vaseline. Including defective porcelain, other frequent causes of spark plug trouble may be traced to oil or particles of carbon which have been blown into and sooting of the porcelain. Points of adjustment or burned away. Ordinarily the spark plug gap should be adjusted to about the thickness of an old worn dime, depending upon the ignition system, carburetor adjustment and design of the engine.

After eliminating the spark plugs, examine all wiring and terminal connections, making sure that all wires are tight and that the insulator is not worn off at any place, thus causing short circuits. Next, open a distributor case and see if there is any dirt or carbon dust in the trouble, is there it can be eliminated by wiping with a clean rag. But if it is yet undiscovered, perhaps the misfiring is caused by the contact points being pitted. These should be cleaned and adjusted very accurately, according to instructions of the manufacturer. Also make sure that the tappet spring has not weakened or been broken. Remember that this spring is under a constant strain and it will wear watching.

Moisture or grease on the surface of the distributor housing will sometimes cause serious trouble, because the high tension current skips across the surface of this foreign matter instead of going through its regular channels.

The remedy is to wipe off the surface. The presence of moisture may be explained by the fact that it is drawn in with the air through the radiator or may condense on the surface of a damp day. The grease often collects from the oil spray thrown out by the engine.

The ignition system is a delicate assemblage and must be constantly watched. Give attention like this, and will give a smooth running engine and save expensive repairs.

Remember that the setting of the spark plug points is an important factor of attention. The result is that other parts of the electrical system are blamed when they are not at fault. Do not guess at the space, but form the habit of using a gauge.

The first woman to drive an automobile in India is Mrs. Deep Narayan Singh, of Calcutta.

Who has Telephone No. 1? Look on the Last Page.

For Gasoline and Oil See W. NICOLL

At Masters Motor Co. Yates Street Always on the Job With Quick Service.

mission and differential also, but never have any doubt about his engine having sufficient oil. Bear in mind that a good truck driver does not trust the oil gauge on the dash, which shows only oil pressure, but tries the gauge cock on the crank case, just as a locomotive engineer never trusts his water glass, but constantly tries his gauge cocks to make sure his boiler has enough water.

Examine the water supply in your radiator at least once a day—when starting out in the morning is the best time. You know it is generally easy to find water along the road, but if it is discovered that the radiator is almost empty and there is no water within several miles, then what? Better to use your lead when starting out in the morning than to use your feet away out on some road. It is a good plan to carry a pail with which to fill the radiator. A canvas one, not rubber, is the best and takes up little room.

To make money a motor truck must be kept moving; therefore, the driver should try in every way to avoid delays. Delays for which he is responsible will cost his boss money and may cost the driver his job.

INVENTORS CLAIM NEW CAR WILL BEAT GASOLINE COST

Remarkable Predictions Made For New Car to Come Out Soon

New York, Oct. 9.—Forty-five miles on a gallon of gasoline!

That is the claim made by its inventors for the "Coty" automobile—the latest product soon to be placed on the market.

What will accomplish this record of high mileage, say its sponsors, is its four-cylinder air-cooled motor, combined with light construction throughout the car.

The Coty is the result of the combined effort of three men who sought to counteract the rising cost of gasoline and the threatened decline in its production, by making a machine that would go farther on the same amount of fuel.

Two of the men got their knowledge of engines from airplanes. Captain Frank T. Coffin was one of the first fliers in the country. He is one of the three surviving members of the old "Wright team."

James B. Taylor, Jr. served for two years as a test pilot for naval planes. Everett S. Cameron has had 20 years' experience in building air-cool motors.

Have Big Orders.
 "It is the air-cooled motor and the consequent cheapness of our car that will enable it to make the enormous mileage we claim for it," Captain Coffin said today.

"So great has been the response in automobile circles to our announcement that we already have orders on hand for 250,000 cars, or as many as we can make in the next five years. The car will have a 4-cylinder motor and will be made both in two and four-passenger models. Both are listed at \$1,298.

"Of course, other cars have air-cooled motors and these cars have shown greater fuel economy than those with heavy, cumbersome water-cooled systems. But we claim that at least we have a perfect air-cooled motor, one that will function 100 per cent under all conditions and that by its lightness and strength will make a possible enormous savings in gasoline.

Light Weight.
 Besides emphasizing the car's cheapness, Coffin points out that it will weigh only 900 pounds. Part of this lightness is due to the body, which will be of laminated wood, or wood in thin sheets, such as are used in airplanes. And also due to this lightness, the tires will last 15,000 miles!

"The car has a tread of only 48 inches," Coffin explained. "This is eight inches narrower than the standard width. The machine will be built low and will be well fitted to work its way in and out of traffic."

"It is a daring car. It has challenged traditions; it has dared established custom human body. For one thing it is self-lubricating during its life. The breaker strip is its backbone. Piles of fabric are the ribs, and the rubber between them, like the fabric carcass gives strength muscles, holds all parts together, and shape. Friction gum is the lubricant.

Like the human body the tire may look good on the outside, but be "shot" inside. Its greatest enemy is underinflation. Abusive treatment causes so much bending, flexing and chafing that the carcass, in spite of

What the Experts Say

Why does the motorist never oil his tires? Road wear, chafing and constant flexing would seem to demand oiling. Automobile bearings and all working parts of a car are oiled against friction. Why no oil for a tire.

The fabric carcass of the tire is much like the human body. For one thing it is self-lubricating during its life. The breaker strip is its backbone. Piles of fabric are the ribs, and the rubber between them, like the fabric carcass gives strength muscles, holds all parts together, and shape. Friction gum is the lubricant.

Like the human body the tire may look good on the outside, but be "shot" inside. Its greatest enemy is underinflation. Abusive treatment causes so much bending, flexing and chafing that the carcass, in spite of

its enormous strength, is unable eventually to bear up, and is broken and torn.

In the fabric tire the carcass is constructed of interwoven strands of cotton. Fabric is built up layer upon layer, each thoroughly impregnated with rubber. The number of these plies, each of which is cushioned, depends upon the size of the casing.

The cord carcass is constructed of layers of cords, which run parallel in each ply and are not interwoven. The number of plies, each of which is run at right angles to the other, varies with the size of the tire. So strong are the carcasses that they are able to stand loads that mount well up into the tons.

When the motorist takes care of his tire he is keeping the carcass to perform its duties properly. The tread will give him maximum wear; the side walls will protect from the elements; the beads anchor the carcass to the rim, and the breaker strip will break the force of blows.

The side wall of an automobile casing is not simply an advertising billboard for the manufacturer, nor is its main use to specify size and type of tire. Though it carries practically all the markings on the casing, it is a much more important mission in life. Like the skin on the body, its duty is to protect the carcass underneath.

It forms a seal against water seepage. It prevents chafing between the rim and the inner fabric, and serves

(Continued from page 1.)

In International Politics.

In 1900 he resigned his judgeship to become the president of the commission appointed by President McKinley to institute civil government in the Philippine Islands. His administration there gained international fame. In 1902 Mr. Taft visited Rome to negotiate with the Pope Leo XIII. terms for the purchase of the friars' lands, having succeeded, Congress appropriated \$7,258,000 for this purchase. The government then sold the lands to the tenants and the inhabitants on easy terms.

He twice declined appointments from President Roosevelt as associate justice of the Supreme Court of the United States.

Eggers Cabinet.

In 1904 he succeeded Elihu Root as Secretary of War in President Roosevelt's Cabinet. He represented the administration in many important trips in the United States and in foreign states. In 1906 he was temporarily the civil governor of

SIR THOMAS WHITE, M. P.

Cuba after the intervention of the United States in that year. In 1907 he visited the Panama Canal zone in order to familiarize himself with the problems and conditions there. In 1907 also he visited the Philippines. He then proceeded to Japan to confer with that government relative to the problem of the Japanese in the United States. He continued his tour to China, and then to Russia.

His election to the presidency came in 1908, and for the next four years his career is part of the history of the United States, and to a lesser extent of the world.

Political Activity.

The President's term of office was largely occupied with questions of tariff, railroad law, including creation of commerce court, separate statehood for Arizona and New Mexico, postal savings banks, unlimited withdrawal of lands for conservation, publicity of campaign contributions, bureau of mines, cessation of efforts to complete reclamation projects, suppression of "White Slave" traffic, entry on surface of coal lands, commission to consider economies in Federal Government, new tariff system for Philippines, and practical prohibition in Hawaii.

His championship of reciprocity with Canada, the natural consequence of which was the Taft-Peaking agreement, brought his name before the public largely in 1911 throughout Canada. The defeat at the Canadian polls in September anticipated his own reelection next year with the breach between the President and his predecessor causing the advent of the Democrats to power. He was defeated, and in 1913 on retirement was appointed Kent Professor of Law at Yale University.

As Peace Maker.

Mr. Taft has been regarded as especially the public man of the United States who has been the interpreter of American opinion to Canadians, and for that reason was selected to deliver a course of lectures in Toronto some years ago. He has spoken before the various Bar Associations. Of late years his chief political associations have been with regard to efforts to establish a permanent international peace, and he has conducted several tours in the movement, though when last in the Pacific Northwest he was unable to come to Victoria.

Mr. Taft is the author of a number of books of value dealing with various subjects. He holds numerous academic degrees.

The Chairman.

The Honorable Sir Walter Gibson Cassels, chief judge of the Exchequer Court, is the chairman of the Grand Trunk Arbitration Board. Born at Quebec City in August, 1847, the chairman graduated at Toronto University, and was called to the Ontario Bar in 1872. In 1883 he was created a K.C., and became a partner in Blake, Ask & Cassels, Toronto. During that time Judge Cassels held a number of briefs for the Canadian Pacific Railway in the Ouderdonk arbitration case and other noted cases. He was appointed to the Exchequer bench in March, 1904. He was commissioner in the inquiry held into the affairs of the Department of Marine and Fisheries in 1908, following the reflections cast

Announcement of Prize Winners of First Picture in the Big WHITESWAN Coloring Competition

After careful consideration of every eligible entry for the first of this series of pictures published in this paper on September 11th, Mr. John Innes, whose word is final in the judging of the entries, has awarded the prizes as follows:

- 1st Prize (\$5.00)—Mary Nelson, Age 13, 2852 Shelbourne Street, Victoria, B.C.
- 2nd Prize (\$3.50)—Freda Blyth, Age 11, 504 Beach Drive, Victoria, B.C.
- 3rd Prize (\$3.00)—Edna Daniell, Age 10, 925 Green Street, Victoria, B.C.
- 4th Prize (\$1.50)—Donald McLaurin, Age 11, 1632 Belmont Avenue, Victoria, B.C.
- 5th Prize (\$1.00)—Kenneth Bostock, Age 12, 638 Battery Street, Victoria, B.C.
- 6th Prize (\$1.00)—Thelma Laurence, Age 12, 79 Wellington Avenue, Victoria, B.C.

Prizes Will Be Awarded Every Week During Competition

In judging these first pictures, Mr. Innes tells us that it was very hard work making fair and impartial awards owing to the general excellence of the entries. In some cases the award hung on a little softer finish here, or a cleaner handling of color on an edge there. Boys and girls who are striving for these worth-while prizes every week, should put the very best that's in them into their pictures. Use as much originality as you can to make the picture express what YOU see in it. Hundreds of Boys and Girls are trying for these prizes, but as age is taken into consideration, as well as excellence of coloring, every competitor has an equal chance of winning.

The same number of prizes will be given for Picture No. 2, 3, 4, 5 and so on. Next week the awards will be made on Picture No. 2. There is still time to get copies of the papers containing Pictures No. 3 and 4. Try them, too, if you haven't already sent them in. Read the rules and conditions. Don't forget anything that might disqualify your entry.

IF YOU DIDN'T WIN THIS TIME, YOUR PICTURE NO. 2 MAY, IF YOU HAVEN'T SENT IN A PICTURE YET, START WITH NOS. 3, 4 OR 5

(5) THE TALE OF THE SEVEN WHITE SWANS (Continued from last Saturday.)

As the swans bore her away, Elsie saw far below the beautiful cloud-palace of the fairy Morgana, and beyond it the fair country of her brothers' adoption. Soon they alighted at the mouth of a flower-bedecked cave that was to be Elsie's home.

That night she prayed that she might learn how to break the enchantment that had turned the princess to swans, and, as though in answer to her unselfish wish, the fairy Morgana appeared to her as she slept and told her that if she gathered nettles with her bare hands and crushed them with her bare feet, she could make yarn with which to weave seven shirts to throw over the wild swans and change them into princesses again. She further warned her that while she was working she must not speak or the spell would fall.

So when Elsie's brothers returned next night they found her with swollen hands and feet, weaving yarn from the nettles. When they spoke she would not reply, and they knew that the pain and sacrifice was being endured for them.

(Continued next Saturday.)

W. J. PENDRAY & SONS, LIMITED, VICTORIA, B. C.

FIFTH PICTURE HERE Be Sure to Color It, Too

This is the fifth picture in a series of thirteen. There will be eight more, one each week, and Twenty-five Dollars will be contributed each week in prizes. From the date of each picture, as it appears, a period of three weeks will be allowed for the entries. The judging of this picture, therefore, will take place at the beginning of the fourth week from to-day, and that week the prizes will be distributed and the winners' names announced in this newspaper. All entries for the second picture must be received by October 11, and the prizes for that picture will be awarded and announced next week. Make a start—ENTER AT ONCE.

NOTE—Read the simple rules of this competition carefully, and see that you comply with them when sending in your colored picture. Last week several boys and girls failed to send with their colored picture the end of a White Swan Soap or Washing Powder Package, and their entries, of course, were disqualified.

THE COMPETITION AND ITS RULES

Using Water Color Paints, not oil paints nor crayons, color this picture to the best of your ability. THEN SECURE A PACKAGE OF WHITE SWAN SOAP OR WHITE SWAN WASHING POWDER which Mother doubtless has in the kitchen, or can get—out at the end of either package, and mail the cut-out portion along with your colored picture to

W. J. Pendray & Sons, Limited, VICTORIA, B. C.

That is all you have to do, but don't stop at coloring just this picture; watch for the picture in this paper next Saturday, and each succeeding Saturday, color them, too, and send in with the package end, your chances of winning will be multiplied. Write your name, age, address and name of school clearly under the picture.

This competition is open to all British Columbia School Children under the age of sixteen. The coloring of each picture must be done without aid. The judging of the pictures will be conducted by Mr. John Innes, the noted British Columbia artist, and his award, in every case, will be final. Not more than two capital and two second prizes will be awarded to the same child during the competition.

DON'T FAIL TO ENTER

on certain officials of the department. He is well known as a roving sportsman, and the Toronto club presented his portrait to Lady Cassels in recognition of his services as president. Lady Cassels is a daughter of the late Robert Hamilton, D.C.L., chancellor of Bishop's College, Lennoxville, Province of Quebec.

Sir Thomas White.

Hon. Sir Thomas White, M. P., who retired last year from the portfolio of Minister of Finance, has been in the forefront of Canadian politics since 1911, when his strong line on reciprocity had a large share to do with his selection for office.

Sir Thomas was born November 21, 1846, near Bronte, Halton County, Ontario, his parents being of Irish extraction. He was educated at the public schools at Oakville, and Brampton High schools, and at the University of Toronto. He is a member of the Ontario Bar but has not practised. On September 29, 1866, he married Annie Isabel, daughter of Eliza Solvethorne, of Jarvis, Ontario. In early life he was associated with The Toronto Telegram, and after a term in the Toronto City Hall he became general manager of the National Trust Company, and was vice-president of that company when he resigned to enter Dominion politics.

He has been a governor of the University of Toronto and a trustee of the Toronto General Hospital. He was sworn of the Privy Council on the formation of Sir Robert Borden's cabinet, October 10, 1911, and was later elected for Leeds, Ontario, the seat for which he still sits. He received a Knighthood on New Year's Day, 1917. He has on several occasions been acting prime minister during the absence from Canada of Sir Robert Borden.

President Kelley.

President Howard G. Kelley, who was one of the foremost railway engineers in Canada before he transferred to the executive management, has been in the railway service since 1881. In 1907 he became chief engineer of the Grand Trunk Railway system, and since that time his rise has been progressive to the presidency.

A. W. Atwater, K. C.

Albert William Atwater, K. C. of Montreal, has been a barrister since 1884. He graduated at McGill University, Montreal. He has been an alderman of Montreal, and represented the St. Lawrence Division of Montreal in the Quebec Legislature for two terms, being Provincial Treasurer 1896-97. He was one of the Commissioners to revise and prepare the new charter for Montreal in 1887.

Dr. Hutchinson.

Dr. James Alexander Hutchinson, Professor of Surgery and Clinical Surgery at McGill University, has been for a number of years chief medical officer of the Grand Trunk Railway. He is an officer of several medical associations, and has contributed valuable surgical works to Canadian and American surgical papers.

STILL HUNGRY.

The Girl—"Yes, indeed. Very nice and very little"—Boston Transcript

Merger Makes Canadian National World's Biggest Railway System

Absorption of Grand Trunk Pacific Gives Government Road 22,000 Miles of Lines and 70,000 Employees; It Will Have 2,000 Locomotives, 1,800 Passenger Cars and 70,000 Freight Cars.

The People of Canada will own and operate the largest railway system in the world when the amalgamation of the Canadian National and the Grand Trunk Pacific Railways, now in progress of consummation, is completed.

Other nations own their railways, notably Germany, France, Austria, Hungary and India, and private corporations operate tremendous systems; for example, the Canadian Pacific, with 13,358 miles of road, and the Santa Fe, in the United States, with 11,484; but no other nation of corporation has control of so many miles of railway, none employs so many persons, and none has so much equipment.

The amalgamated Canadian National Railway will control 22,000 miles of railway lines. It will employ 70,000 persons, it will operate 2,000 modern locomotives, 1,800 passenger cars, which can accommodate 70,000 persons, and 70,000 freight cars of all descriptions, with a normal carrying capacity of 600,000 tons.

Stretching from Sydney, N. S., to Victoria, B. C.—a distance of 4,029 miles by rail—the Canadian National will operate 1,928 miles in Nova Scotia, 273 miles in Prince Edward Island, 1,107 miles in New Brunswick, 2,496 in Quebec, 6,252 in Ontario, 2,329 in Manitoba, 3,575 in Saskatchewan, 2,990 in Alberta, 1,227 in British Columbia and 1,881 in the United States.

Also a Big Fleet of Ships.

But the transportation system does not stop with the land equipment. The merger involves thirty-two ships sailing from Atlantic and Pacific ports. The Government programme calls for the construction of thirty freighters, which will bring up the total tonnage to 369,990 dead-weight tons. Sixteen ships will call out of Vancouver to India, China, Japan, Hawaiian Islands, West India and Australasian ports, and the remainder to European, East Indies and South American ports, out of Quebec, Montreal and Halifax.

The amalgamation in Eastern Canada is almost complete. A board of five directors, with Howard G. Kelly, President of the Grand Trunk Pacific, at its head, has merged most of the departments. From Port Arthur, Ont., to Victoria, B. C., the work of merging the two systems is nearly completed.

One of the features of the amalgamation is that it is being accomplished without discharging any men, even those in the highest positions of the two railroads, and without the scrapping of any equipment. A larger executive staff will be required for the combined roads than has been needed by either corporation, this fact, and the fact that there are many officials in high positions who are at or near the age of retirement and have signified their willingness

Who has Telephone No. 1? Look on the Last Page.

staff for the one amalgamated system.

The economies that will result from the amalgamation will put the Government railway in a position where it will be able to show a profit for the first time since the people of Canada owned a mile of railroad. Mr. Reid says: Out of two transcontinental systems, which have been losing millions of dollars annually ever since they were built, the Government hopes to make one great system—the greatest single-railway system in the world—that will show an annual balance on the credit side of the public's ledger.

The largest room without columns is said to be in a solid-concrete building of the mosque in Lucknow, India. It is 162 feet long, 54 feet wide, and 53 feet high. The timber mould was left a year for the concrete to set, and the building, 125 years old, is still unimpaired.

Contains more flesh forming matter than beef.

Baker's Cocoa is for robust men

and all who must have a great deal of tissue building material to repair the waste caused by physical and mental labor. It is delicious, pure and wholesome, and is made by a perfect, mechanical process, without the use of chemicals, so preserving the exquisite flavor, aroma and color of the high grade cocoa beans.

HE KNOWS When Something's Good!

LOOK at that piece of cake he's got! Oh my, but it's good! You should see Sonny's firm, white teeth meet in that big piece of scrumptious cake. His face is one broad smile! Mother made that cake herself. From SHELLY'S 4X BREAD. She just took one of the recipes Marion Harris Neil tells about in '65 DELICIOUS DISHES' made from Bread. And what a treat it was! Not only delicious—but so satisfying. Bread, you know, is the most sustaining food we have. Best for the child at school. Full of energy fuel for the little engines which run so fast—fuel to go on, fuel to grow on. It can be used in all sorts of inexpensive combinations. Let Marion Harris Neil tell you how.

SPECIAL ADVERTISING SECTION FOR WOMEN AND THE HOME

Putting Things in Place

Order, Cornerstone of Efficiency.

Have you ever when shopping in a hurry been irritated by the clerks' deliberate method of always folding up and putting away in its place the material that has not matched your sample or pleased your taste before taking out another piece to show you? Haven't it seemed to you that they might wait to fold up and put away after your commission was finished?

Taking Time to Save Time.

If you have been vexed then you are one of the people who do not understand that if this course were not pursued by the sales people shops would lose their inviting appearance, would be in sad disorder, goods would be cramped and soiled, and it would be impossible for clerks to lay hands promptly upon what customers asked for. What has seemed to you exasperating deliberation is the very corner-stone of efficiency in prompt, satisfactory service. You are waited upon all the more quickly because of it. Without it, dire confusion would reign. The sales clerk has to be trained into the trick. Instinctively he lets things pile up about him in his anxiety to serve the customer quickly. He has to learn that this is not the right way to serve most effectively, and if he cannot grasp the reason for it and persists in violating the wise rule he loses his position.

If this law of the shops were followed in the running of homes many a home would be a brighter, happier one. There are few factors that work so potently for getting happiness and satisfaction out of life as order. Order simply cannot exist without this method rigorously insisted upon in the shops of putting back neatly into their places all articles that have been taken from their places for temporary purpose. If one set of people can acquire the habit every one can. You and I can exercise in the young woman at the ribbon counter. Once she the wonderful reasonableness in the method and you simply cannot with reason fail to take a little of it in hand and make the habit yours.

The General Way.

It conserves time, saves fatigue and "nerves". It preserves order; it makes for general well-being. Put the telephone back where it belongs right after using it, in spite of your urgent hurry to get at the cake you must bake for supper, and you have done something for community welfare. You are treating fairly the member of the family who will next use the telephone, perhaps come to it in just as urgent a hurry as you were in to get at your cake. The law of order is a thing that is not playing with it entitled to find the book in its place and not be forced to search about for it or fill the house with calls for it just because you lacked the skill to get the book back where it belonged in your haste to do something else? But the cake was so important, you explain, if you will make yourself form the habit of putting things right back into their places you will be simply amazed to find that it is rarely, if ever, necessary to neglect the duty because of another duty.

The fact is that this "putting back" is in and of itself in practically every instance a light affair. The weight in it is a figure of your own mental attitude toward it. It is irksome, uninteresting—and so you make a burden of it. Watch a child when it is asked to put away its blocks after it has been playing with them and you will see reflection of

Treating Your Floors

Constant care is the price of a neat and shining floor. However, if this care is regular, need not be laborious. First you must know your floor; to treat all floors alike would be as foolish as to paper a frescoed wall. New hardwood floors need several processes in their finishing. They need, as it were, a foundation for the final finish, so as to show the full value of their finished condition. In the case of such open-grained hardwoods as oak, ash, walnut and birch, "filling" must be used—after that, the floor has been already scraped and sand-papered. The filler then serves to fill up the clay fillings. A liquid filler is good only for standing work, never for floors. Staining other than that of the filler must be done before the filler is applied and should be done with a good oil of pure of the wood and makes it a complete, smooth surface. A good stain paste filler is far better than the cheap stain.

Buy the proper paste filler by the pound, in the color desired, antique oak, golden oak, mahogany, natural, or stain. It should be dissolved in zinc or turpentine, ten or twelve pounds to a gallon of the liquid. Brush this on the floor and allow to dry long enough to be chalky to the touch, this will not take long, so do not brush too much space at a time, as the paste becomes inconveniently gummy after trying long. Now rub it with a cloth across the grain of the wood.

Finishing Processes. Leave the floor for twenty-four hours, then sandpaper it lightly and apply a coat of good floor varnish. Let this have forty-eight hours to dry, sandpaper it again. If the floor is to be finished with a special varnish, coat of the varnish. This finish it has now attained will stand hard wear. With a hard floor, the varnish or other such close-grained wood varnish can be applied without preparation. In the case of the open-grained wood of no value at all on a varnished floor. The varnish laid over shellac does not last so long and scratches more easily. A wax finish is often desirable, both for its valuable protection to the floor and its fine appearance. In the case of waxed floors, the wax should be applied over the floor, then one or two coats of wax, polishing with a weighted floor brush.

Painted-Not Practical. Painted floors, while not quite so durable as the oil and shellac finished hardwood floors, are not so objectionable, and in fact, are suitable only for bedroom floors. In painting a floor with oil paint, the floor should be filled with shellac, cracks filled and the whole made as smooth as possible. Two coats of oil paint should be applied, the first finished or followed by a coat of varnish according to the effect desired. The floor is comparatively easy to whip up a delectable dainty that will "top it off" without adding undue heartiness. "Pisa" varna, when the meal has been comparatively light, one a heavy pudding may be required to give it balance. Try one or all of these that are here appended.

Indian Pudding. One quart milk (boiled), stir in seven tablespoons of corn and half a cup sugar, let boil a few minutes, take from the fire, then add one tablespoon of brown sugar, two-thirds cup of molasses, one tablespoon of salt, one teaspoon of cold milk. Bake one-half hour.

Apple Pudding. One cup of water, one cup of sugar, butter, nutmeg, biscuit dough. Pare, core and slice about two quarts of apples into pudding dish, add water, sugar, a little piece of butter, nutmeg, and a pinch of salt; cover with dough rolled one-half inch thick; make an opening in centre of dough to let steam escape, cover dish and bake in oven till apples are soft. Serve with cream or sauce.

Chocolate Pudding. One cup flour, one-half cup sugar, one-half cup milk, one teaspoonful baking powder, one egg, two squares chocolate melted with one tablespoonful cream, can be equipped with doors that at least look as if they led somewhere, and although subtleties are not desirable, in this case they are excusable.

WORTH KNOWING. To set delicate colors, soak in alum water, two ounces to a tub, and to set dark colors, use strong salt water. To prevent dinner candles from running down the sides, paint with water colors or varnish with plain silica.

MUSIC A NECESSITY. If it is at all possible, every home should be provided with some sort of musical instrument. Where there are children it is doubly a necessity. The instrument which is preferred to those which are played mechanically. In this way the ability of the child will be demonstrated early and whether it is advisable to take the study up seriously will be apparent. A mechanical instrument is much better than none at all.

AUTUMN STYLES. Dresses of stiff scarlet velvet are fashionable. The drop shoulder line is featured in coats. Monkey fur or jet is used on black chignon gowns. Printed metal cloth seems to be a French favorite.

BUSINESS GARMENTS. That certain style of outfit called the business garment has become a necessity, as well as an economy to women who have entered the business world. The hat for the street or business wear should neither be an outing nor an evening hat, but a sort of happy medium, being of good wearing material and inconspicuous. Embroideries in color or line, or very plain in color or line.

For materials, cotton in Summer is good, because it washes so easily. Tolen is the best cloth for protection against cold silk for beauty and ornament. Both linen and cotton are good for heavy wear. Only plain standard colors should be worn by the woman who cannot afford many clothes. Plain dark blue, tan and gray, also various greens and browns are colors always in style for outer wear.

Junior Red Cross Exhibit at Willows Fair

Mrs. Harold Fleming, provincial organizer of the Junior Red Cross, opened her campaign in Victoria with a striking booth at the recent fair at the Willows. Specimens of the handwork fashioned by junior members of other provinces were shown, while Muggins in life-like attitude added his mute appeal to the kiddies to join this splendid organization. Three thousand leaflets, describing the aims and objects were distributed from this booth. Mrs. Fleming is working to secure the co-operation of the school authorities in this campaign, it having been proved in other countries that by organizing the school children greater results were accomplished.

Some Favorite Puddings

Pie is the pudding's only rival as the national dessert—if it were not for that its claim would be undisputed. And it is a dessert that deserves its popularity—its admirers are many and its preparation is comparatively easy to whip up a delectable dainty that will "top it off" without adding undue heartiness. "Pisa" varna, when the meal has been comparatively light, one a heavy pudding may be required to give it balance. Try one or all of these that are here appended.

The "SUNDAY BEST" APPEARS DAILY

There was a day, not so very ago, when it was considered proper to make one's toilet on Sunday much more elaborate than on the other days of the week. This custom, like many another quite as foolish, is rapidly taking its place among the obsolete. Here and there in the country we still find the "Sunday best" idea prevailing, but in the city it is a thing of the past. Wise women are coming to feel that no costume is appropriate for church that is too elaborate for street wear, and indeed, there is no good reason why one should make a point of dressing differently for the seventh day than for any of the other six—the occasions, of course, being equal.

Why, for example, should madame keep a lavishly trimmed hat covered up in a box on Monday and Tuesday, and bring it forth only in the light of the Sabbath? It is, as a matter of fact, decidedly out of place in church costume for men and in gowns as appropriate when worn on the afternoon of any day of the week. And vice versa, there is absolutely no reason why the ordinary business suit should not be worn on a Sunday morning. To be sure, if the man is to officiate at a morning wedding, he wears the conventional costume of afternoon.

In one of the largest churches of the country, a church which would you enter as a stranger you might be sitting next to the wife of the wealthiest or most celebrated in the land, yet you would not know it by her dress. She would carry as simply as yourself—and, it may well be, more so. Finery and ostentation are there conspicuous by their absence. Jewelry, be-plumed hats, expensive flowers, fancy frocks—when they are considered and condemned as poor taste.

SOUPS, SEASONED AND SEASONABLE

Aside from being most nutritious, soups help to lend variety to the menu. Nothing is more to be appreciated than a steaming soup, flavored just to the taste, while it would be impossible to conceive of anything more unpalatable than a soup lukewarm and lacking its savor. A pinch of salt in the whites of eggs will make them heat stiff more quickly. Celery chopped fine and mixed with cream cheese makes a good sandwich. Mould tuna fish in ring form and fill the centre with a vegetable salad. Stockings will be as smooth as though ironed if shaken while damp. Have cucumbers lengthwise, boil until tender, and fill with creamed fish.

FADS AND FANCIES. Sleeve lengths vary greatly. Tricoline suits are being developed in. Even trains are being developed in. Tailored velvet dresses will be popular. The low waist line is much in evidence. Fashion still smiles upon pleated frills. Fall millinery is distinctly feathered. Tassels are featured on street costumes. Paris uses gay and novel fabrics for wraps. The three-piece costume will be a favorite. Tricoline suits are made on semi-sports lines. Collars are high and often close at the throat. Waxed silk voile is one of fashion's whims. Swager English short coats show leather trappings. A favorite. Dresses for general wear sponsor the straight silhouette. Narrow self belts are used on the three-piece costume. Evening dresses have elaborate skirts and simple bodies. There is renewed revival of the Princess style of dress. Copper tones are fall favorites. Silk tassels fall from waist to hem. Chemise dresses are belted at the hips. Crepe jersey is used for underwear. Link buttons are used on the suit coat. Dresses have deep, square openings. Wrappy coats are cut on dolman lines. A new fall shade is couture brown. Fur garments have wraplike effects. The cape collar will be extremely popular.

HOUSEHOLD HELPS. Diced pairs and cut cherries, with their juice poured over them, make a delicious cocktail for a warm day. Waiters should always purchase sufficient yarn for a garment, as no two lots are exactly the same shade. Mix leftover mashed potatoes with pimientos and a little pickle; make into balls to accompany tomato salad. Equal parts of talcum powder and cream of tartar mixed make a good cleaning powder for white kid gloves. Grusse new iron gem pans and dry out slowly before using. The fat from 2 eggs well beaten and beat until stiff, whip cream, sweetened, and pour over all. Two tablespoonful of white sugar, 1 teaspoonful of raspberry jam, whites of 2 eggs, juice of 1 lemon. Beat for half an hour. Serve up sprinkled with fancy biscuits. Boiled Bread Pudding. Four cups of bread crumbs, 1/2 cup of molasses, 1 cup of raisins, 1/2 cup of melted butter, 1 teaspoonful of soda, spice to taste, pour milk over bread crumbs with 2 eggs, 3 tablespoonful of flour. Boil in buttered pan. Boil 3 hours. Eaten with cold sauce. Pare, core and quarter 4 apples, put in saucepan or double boiler with 1/2 cup of well washed rice, 1 teaspoon salt and 4 cups water. Cook until rice and apples are well done, then add 1/2 cup sugar, a little grated

The fat from 2 eggs well beaten and beat until stiff, whip cream, sweetened, and pour over all. Two tablespoonful of white sugar, 1 teaspoonful of raspberry jam, whites of 2 eggs, juice of 1 lemon. Beat for half an hour. Serve up sprinkled with fancy biscuits. Boiled Bread Pudding. Four cups of bread crumbs, 1/2 cup of molasses, 1 cup of raisins, 1/2 cup of melted butter, 1 teaspoonful of soda, spice to taste, pour milk over bread crumbs with 2 eggs, 3 tablespoonful of flour. Boil in buttered pan. Boil 3 hours. Eaten with cold sauce. Pare, core and quarter 4 apples, put in saucepan or double boiler with 1/2 cup of well washed rice, 1 teaspoon salt and 4 cups water. Cook until rice and apples are well done, then add 1/2 cup sugar, a little grated

HOUSEHOLD HELPS. Diced pairs and cut cherries, with their juice poured over them, make a delicious cocktail for a warm day. Waiters should always purchase sufficient yarn for a garment, as no two lots are exactly the same shade. Mix leftover mashed potatoes with pimientos and a little pickle; make into balls to accompany tomato salad. Equal parts of talcum powder and cream of tartar mixed make a good cleaning powder for white kid gloves. Grusse new iron gem pans and dry out slowly before using. The fat from 2 eggs well beaten and beat until stiff, whip cream, sweetened, and pour over all. Two tablespoonful of white sugar, 1 teaspoonful of raspberry jam, whites of 2 eggs, juice of 1 lemon. Exactness Obedience

Obedience is a necessary demand to make of children, not as a matter of deference to parents as such, but because life will demand of them a measuring of their will with the will of other people and an adjusting of themselves to others, and for this they should be prepared.

But there is no value in a blind, perfunctory, obligatory obedience; it may be a convenience to parents, but it will not contribute to future self-direction on the part of the child. It is an obedience that is intelligent, willing, acquiescent that is desirable on the part of children, a falling in line with a wish and intention of parents, a making of their will identical with that of the parents. A secretly rebellious or openly reluctant and unhappy obedience on the part of the child should seldom be insisted upon; if the child feels so strongly opposed, the matter had generally better be dropped until he can be persuaded to see the reason, but it will contribute to future self-direction on the part of the child.

MUSIC A NECESSITY. If it is at all possible, every home should be provided with some sort of musical instrument. Where there are children it is doubly a necessity. The instrument which is preferred to those which are played mechanically. In this way the ability of the child will be demonstrated early and whether it is advisable to take the study up seriously will be apparent. A mechanical instrument is much better than none at all.

AUTUMN STYLES. Dresses of stiff scarlet velvet are fashionable. The drop shoulder line is featured in coats. Monkey fur or jet is used on black chignon gowns. Printed metal cloth seems to be a French favorite.

BUSINESS GARMENTS. That certain style of outfit called the business garment has become a necessity, as well as an economy to women who have entered the business world. The hat for the street or business wear should neither be an outing nor an evening hat, but a sort of happy medium, being of good wearing material and inconspicuous. Embroideries in color or line, or very plain in color or line.

For materials, cotton in Summer is good, because it washes so easily. Tolen is the best cloth for protection against cold silk for beauty and ornament. Both linen and cotton are good for heavy wear. Only plain standard colors should be worn by the woman who cannot afford many clothes. Plain dark blue, tan and gray, also various greens and browns are colors always in style for outer wear.

THE COLONIAL DAMES OF AMERICA have the distinction of being the oldest patriotic society for women in the United States.

MOCK CHERRY pie can be made with cranberries. Hot food should not be put into the refrigerator.

City, Suburban and Country Real Estate, Houses, Lots and Acreage for Sale and Wanted

CASCARETS
"They Work while you Sleep"

Do you feel all "unstrung"?—61-63, constipated, headachy, nervous, ball of cold? Cascarets tonight for sure have and bowels will have you up and bright tomorrow. You will wake up feeling fine, with your head clear, stomach right, breath sweet, and skin rosy. No griping—no inconvenience. Children love Cascarets too. 19, 25, 50 cents

ARTS COLLEGE IS FORMALLY INAUGURATED

Leading Educationists Confident Institution Will Be Splendid Success

UNIVERSITY HEADS ADDRESS STUDENTS

Victoria Arts College, newest and highest educational institution in the city, was formally opened last night with ceremonies in the High School Auditorium where over five hundred people interested in education, as well as the college students, gathered to hear addresses delivered by some of the leading educationists of the Province. The speeches of the evening all reflected confidence that the new college would be a success from the beginning and, moreover, would create in Victoria an interest in higher education, which would be of the utmost value to the parent institution, the University of British Columbia.

Those present. Major Peter Riddell, Chairman of the School Board presided, and there were on the platform with him, S. J. Willis, Superintendent of Education; President Klinck, of the B.C. University, and Dean Coleman of the same institution; Trustees Mrs. Spofford, Mrs. Andrews, Mrs. Coady-Johnson and J. L. Beckwith representing the School Board; Dr. Fraser of the University Board of Governors, and Dr. Clay, of the University Senate; and Principal E. B. Paul, Associate Professor Russell Elliott and Janette Cann, and Madame Sanderson, of the Arts College.

In a few brief sentences Major Riddell traced the negotiations which led up to the re-establishment of university work in the city and compared the number of students who attended Victoria college in affiliation with McGill University with those in attendance now. "While Rome is not built in a day, it is not too much to say that in a few short years this Arts College will rival even the fair fame of the parent institution," declared Colonel W. N. Winaby, Municipal Inspector of Schools, who impressed upon the students the splendid opportunity presented to them. Their success at the Arts College, he emphasized, not only would be a personal achievement, but would serve to enhance the reputation of the Arts College.

Principal Paul referred with satisfaction to the large attendance at the college and declared that the new affiliation with British Columbia's own home university was a keen delight to the staff and the students. "We are proud of that affiliation," he said, "and the students are happy to be connected with our own provincial institution."

Mr. Paul expressed his thanks and the thanks of the public at large for the assistance rendered in the establishment of the College by the University Senate, Hon. J. D. Maclean, Minister of Education, President Klinck, Mr. Willis, the School Board, and the press. He declared that the university spirit which the Arts College would create would produce for the university many students who otherwise would be lost to it.

There were now close on to seventy students at the College, he said. Fifty-six of these were in the first year—an increase of sixty per cent, over the number which attended the Senior Matriculation Class last year.

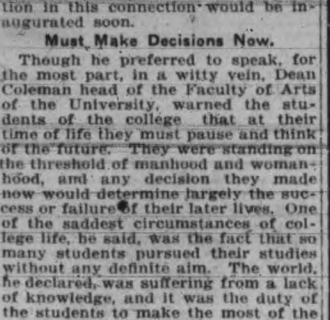

Collar Comfort
Depends on just two things, each as important as the other. First, the collar that fits your neck, and second, intelligent laundering. The first may be had from an intelligent haberdasher. The second—well, we do them fine and dandy.

TORTURED BY TERRIBLE ECZEMA

Suffered Three Years Until She Tried "FRUIT-A-TIVES"

DAME PETER LAMARRE

Pointe St. Pierre, P. Q.
"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good. Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-tives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvellous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Sootha-Salva' and 'Fruit-a-tives'.

"Fruit-a-tives' cooled the blood and removed the cause of the disease, and 'Sootha-Salva' completed the cure."

DAME PETER LAMARRE (Mrs.)—59c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa, Ont.

SAYS SUPERVISOR NEEDED IN SAANICH

Craigflower Parent-Teachers Told New Official Required

Over forty members of the Craigflower Parent-Teachers' Association last night attended a special meeting held in the school, to hear an address by Mrs. P. McNaughton, of Gordon Head, on the value of the special courses in manual training, and household science. Mrs. McNaughton stated that the manual training courses had proved the only satisfactory way of teaching the use of figures to many children, the practical application of calculations having made more impression than months of study with books and blackboards.

Supervisor Wanted.
Household science was of great value in teaching girls the reasons why cleanliness was necessary and had greatly aided in the widening of many family bills of fare, through the preparation of many new dishes from ordinary materials. Mrs. McNaughton said.

School Gardens Supervisor H. E. Hallwright outlined the conditions which will govern the seed growing contest which will be held in Saanich next year, stating that medals and cash prizes will be awarded for the best examples. He announced that young plants for biennials such as beets and carrots, technically termed "stockings," will be freely supplied to contestants by the Sidney Experimental Farm, and also stated that the competition will not be confined to school children, but will be open to all Saanich residents under 18 years of age.

Two Frenchmen recently played a billiard match in Paris lasting twenty-four hours without any interval. It is estimated that during the game the contestants walked nearly thirty miles.

More than fifty per cent of the property of the world, and especially of real estate, is in the possession of women.

Divine Healing

In First Church on Sunday night Mr. Inkster will lecture on Divine Healing. The aspect of the subject which he will deal with will be "What the Devil Says"

The Devil is never more dangerous than when he appears as a healer.
