CROWN FORCES AHEAD WITH PROSECUTION

ARCTIC PARTY OF U.S. STARTS LONG VOYAGE

D. B. MacMillan and Companions Sail From Boston to Wiscasset, Maine

From There They Will go North; Expect to Search For Amundsen Party

Boston, June 17.—The Arctic expedition of Lieut. Commander D. B. MacMillan sailed from the United States navy yard at Charlestown today after noon to-day in the steamer Peary, bound for Wiscasset, Maine.

From there the Peary and the schooner Bowdoin will sail on MacMillan's ninth voyage into the North.

The big guns on the navy craft anchored in the bay thundered farewell as the little steamer slipped away on the first leg of the trip beyond the Arctic circle.

MacMillan, in outlining the objects of his expedition, asserted that if Amundsen, Norwegian Arctic explorer, believed lost on his flight to the North Pole, had not been found when the United States expedition reached Etah, Greenland, by would undertake his rescue.

BIG ORE STRIKE GIVES MINES SUDDEN SPURT

News From Dunwell is Followed by Developments at Other Properties

Developments came fast in the northern mining situation to-day, following the news yesterday of the big strike on the Sunbeam claim of the Dunwell, which gives the property a much greater ore-body than had been anticipated. It is estimated that it trebles the quantities.

The Canadian Press dispatch last night about the strike on the Porter-Idaho was confirmed by the private reports which R. P. Clark & Company had wired down from Stewart. The Clark message said: "Porter-Idaho now in most phenomenal ore body ever opened in this camp, aside from Premier. Mr. Porter (who is directing operations at the mine) states that he will never need to sell any more stock to finance development. Forty-five tons of ore are already sorted for shipment. Continuous packing of ore-to-tidewater starts June 20."

On top of the foregoing, Mason and Dispector received a report by wire from the engineer of the Lakeview, C. R. Hill, who left Victoria last week for the mine. This report says that on arrival he finds that the crew has cut the full face of the argyle which has a northwesterly strike and a southerly dip. The engineer says he is going to drive further along the footwall until under No. 1 tunnel and then put through the up raise to the surface. This will give the mine the facilities to start shipping.

The announcement was also made that the famous Spider Mine on the Salmon River and the adjoining claims of the Webb group, have been bonded by K.C. Bonanza Mines Limited and the Fidelity Securities Corporation of Vancouver and will be worked. Title to the Spider property has been received from the Prudential Trust Company of Providence, R. I. J. K. Joe Green of Hyder, Alaska, concluded the negotiations and is leaving for the North at once to put a crew at work. The Spider mine was bonded for \$15,000 by the Alaskan Development Company of Belgium about seven years ago. About \$150,000 was spent on it before the decline of the franc forced a shutdown. The Belgians continued making payments on the bonds until a year ago, when they defaulted on the final payment.

GILLIS MURDER TRIAL
(Continued from page 1)

Constable William D. Hatcher told of meeting former Seattle detective John F. Majewski at Seattle and being accosted in this city by Majewski on September 7. The detective wanted to know the whereabouts of liquor caches on the West Coast. He was accompanied by Charles Morris and another man, who reported the circumstance to the police heads.

Edgar M. Chambers, boat builder of Oak Bay, told of replacing the pilot cabin of the Denman II by a new pilot house on September 17. The work took a month and he was paid by Stromking.

William Chambers Smith, employee of the Liquor Control Board at Vancouver engaged in testing-runs clearances said he knew Captain Gillis ever three years ago and saw him last on August 22 when the Beryl G. took on supplies at Vancouver and cleared with Gillis and the liquor board.

At that time the Beryl G. had two anchors, the 120-pound anchor now on the boat and a light sixty-five pound anchor. The lighter anchor, which was now missing, and which the Crown will allege was used to weight down the bodies.

The hearing adjourned at this point until 2.30 this afternoon.

WIDOW TO APPEAR

Mrs. Gillis, widow of the late Capt. W. J. Gillis, and Paul Carl Stromking are expected to take the stand this afternoon. Baker, it is intimated by his counsel, R. G. Lowe, will call evidence in his own behalf, including Mrs. Mary Baker, eighty years of age, his mother. The defence will turn, it is stated, on Stromking's story. It will be contended, is not the explanation of the circumstances which actually took place.

On the stand this morning Sgt. Owens stated Stromking when interviewed three or four times before his arrest admitted having any knowledge of the hi-jacking of the Beryl G. After arrest he made the statement which is now the basis of the Crown's story.

All the way through the trial to date, Mr. Lowe has attacked Crown witnesses as to the precise location of the search for the missing bodies.

Halliburton Island was the scene of the most exhaustive search, the story, it was stated, Mr. Lowe pressed to know what had been done at Sidney Cove. Very little search had been made there, he was told, and a dredger had been used to date R. D. Harvey, on behalf of Sowash, has said little, confining himself to a brief cross-examination of the various witnesses. Some six more witnesses are to be heard for the Crown, and its case will not close, it is expected, until some time to-morrow morning.

BLACK RUST SENDS WHEAT PRICES UP

Chicago, June 17.—Reports from Fargo, N.D., that black rust, threatening severe crop damage, had developed in the Red River Valley had much to do with an unusually sharp advance to-day in the price of wheat. The market here closed strong at an extreme gain of 4¢ a bushel, July 1925, to even higher prices for wheat were touched on a wave of buying just before the finish. The tip-top for the day was 184¢, July delivery, an overnight jump of 6 1/2¢ a bushel.

Saskatchewan Sells Bonds at Low Cost

Regina, June 17.—The sale of \$4,000,000 worth of Saskatchewan four and a half per cent, twenty-year debentures was made yesterday by Hon. Charles Dunning, provincial treasurer.

The tenders accepted were one for \$2,000,000 worth of bonds and the other for \$2,000,000 worth of bonds. The one tender accepted from a syndicate comprised of Wood, Gundy & Company, Toronto, the Ontario Securities Corporation, New York, was \$4,300,000, and the other was \$4,300,000 worth of Saskatchewan bonds payable in Canada, London or New York, the cost to the province being 4 1/2 per cent.

The other tender accepted from Noy & James, Regina, was \$4,300,000, payable in Canada only, the cost to the province being 4 1/2 per cent.

Would Halt Aid to Bank Depositors Until Final Report

Ottawa, June 17.—A sub-amendment to the amendment to give a six months' hold to the bill to reimburse the Home Bank depositors was moved in the Senate this afternoon by Senator J. D. KILLING OF WOLVES AFFECTS TRAPPING

Edmonton, June 17.—The old question of man's interference with nature has been raised anew over the persistence with which the wolves of the Far North are being hunted, as a result of the increase in the Government bounty from \$20 to \$30. Every trapper coming down from the North carries in his pack a few wolf pelts. For the past year the Government has had a party of four wolf-catchers at work, across the northern plains, trapping eastward from Great Slave Lake. This season, it is estimated, 200 or 300 wolf pelts will be surrendered to the Government from all sources, taken from the territory north of Edmonton. The trappers themselves have raised the question whether it is advisable for this trapping of wolves to continue. They are generally in agreement that it all depends upon the adjustments which nature sets up between the denizens of the wilds, and in the case of the wolf, the balance swings between the wolf, the caribou and the fox. The fox is the real standby of the trapper. The wolf preys on the caribou. The fox largely is dependent upon the caribou and after the wolf has had his fill, the fox, like a jackal, feeds on the remaining carcass. The trappers are beginning to realize that by the denigration of the wolves, they are gradually chasing away the foxes. It is reported, the trappers of the North are considering the feasibility of petitioning Ottawa for the withdrawal of the wolf bounty entirely, for a period at least.

Chinese Statement Made in Belgium

Charleroi, Belgium, June 17.—An association representing Chinese students here issued a manifesto yesterday assuring the Belgian public that the present uprisings in China were in no wise aimed against Belgium. The movement, it was stated, was only against the "Anglo-Saxons and the Japanese, because they impose unacceptable and inhuman conditions on the Chinese workmen." Berlin, June 17.—The Kuomintang, or Chinese People's Party, has established a publicity bureau here for the announced purpose of counter-acting United States and British news of happenings in China, which the bureau's representatives assert misleads the German people. It was said at the bureau that the purpose of present uprisings in China was to take the first decisive step on the road toward liberation of China from the bonds of English, Japanese and American domination.

Urge Dismissal of Bishop Bast

Copenhagen, June 17.—The Extrabladet says that at the Methodist conference at Silkeborg on July 1, to be held under the presidency of Bishop Edgar Blake, a demand will be made for the dismissal of Bishop Bast, the United States Methodist Episcopal Bishop of Scandinavia, who was retained last December because of alleged mismanagement of charity funds. The newspaper states the demand will be based upon information that became available during the recent investigation of the charges against Bishop Bast. It is also stated seventy per cent of the Methodist congregation support the demand for dismissal. The charges brought against Bishop Bast, relating to the disposal of charity funds, resulted in his arrest. He was held without bail, but finally released pending proceedings of investigation. He declared he would not return to his post until the charges against him were cleared. He declared his confidence in his board of financial missions declared its full confidence in his integrity.

French Ministry Was Upheld on Vote

Paris, June 17.—Premier Painleve, whose air trip to Morocco has further increased his rising popularity with the general public, showed his independence of the Chamber in an afternoon by declining to talk of the situation on the Riff front until he should find it expedient to do so. The Chamber approved his stand by voting confidence in the Government 436 to 341. Only half a dozen Socialists joined with the Communists in voting for an immediate discussion of the Communist interpellation on Morocco. The Premier declared the Moroccan question to be of national importance, and he was ready to give all desirable information to committees of the Chamber, but refused to accept debate until he had appeared before the committees on foreign affairs and the army.

VIEWS STATED ON MIXING OF WHEAT

Motherwell Tells Commons Committee He Opposes it.

Ottawa, June 17.—Hon. W. R. Motherwell, Minister of Agriculture, at a session of the Commons Committee on Agriculture yesterday, stated his complete opposition to the principle of mixing grain. The committee had under consideration extensive amendments to the Canada Grain Act. The Minister, though he declined to make a motion, favored a regulation which would make mixing illegal after August, 1927—that is, at the end of two crop seasons. Hon. T. A. Crerar opposed the Minister's suggestion. He briefly outlined the history of forty years of grain handling and defended mixing on the ground that it was, in principle, the practice of a free market. Mixing under the proper inspection was good for primary producers and the grain handler, he said. To prevent mixing in Canada would send mixing elevators to Buffalo and New York. Nine out of ten farmers on the prairies wanted their wheat sold by sample, said Mr. Crerar, and to achieve that, mixing must be permitted. Harry Leader, Progressive, Portage la Prairie, could not agree with Mr. Crerar. He was opposed to mixing. Dr. R. Magill, secretary of the Winnipeg Grain Exchange, defended the first wheat mixer, and the British miller was the last and finest, he said. The blending of the world's wheat was the secret of the British millers' strength. Dr. Magill ridiculed the suggestion that huge profits were made by mixing. Profits of elevators were made by buying and selling, he said. Mixing was only incidental to the trade. Every other country except Canada mixed wheat, and Australian wheat, for example, invariably commanded higher prices than Canadian, said Dr. Magill. The clause permitting mixing of grain into elevators was approved by the committee.

Senators Discussed Home Bank Vote

Ottawa, June 17.—Six months' hoist for the bill to aid the Home Bank depositors was moved in the Senate yesterday by Senator G. G. Foster, Conservative, Quebec Province, and seconded by Senator R. S. White, Conservative, Montreal. After some discussion, debate was adjourned until to-day. Senator F. B. Black, Sackville, N. B., Conservative, thought the bill should not pass. He could not, he said, find a single argument why the country should pay \$5,450,000 to the Home Bank depositors. Senator G. G. Foster said the Senate had not been created as a charitable organization, but to protect the public interests. There was no obligation on the country to the Home Bank depositors. Sir James Lougheed, Conservative, said there were precedents for the Government coming to the relief of the depositors. He felt it ever there was a moral responsibility on the part of the Government to relieve distress, it was in this case.

THREE KILLED IN AUTOMOBILE CRASH

Portland, Ore., June 17.—Two men and one woman were killed and another woman was seriously injured as a result of a collision between an automobile and a street car here yesterday morning. The dead: Ray Stockdale, twenty-six, 7th Infantry, Vancouver Barracks, Wash., driver of the car, instantly killed. Arthur Moore, twenty-two, 7th Infantry Band, Vancouver Barracks, Wash., died at 7.25 a.m. Mrs. Evelyn Stevens, twenty-six, waitress in the Orpheum Restaurant in Vancouver, instantly killed. The injured woman, Mrs. Christine Bowdin, twenty-three, Vancouver, Wash., is in a hospital suffering from cuts, broken bones and a possible skull fracture. The automobile, a heavy sedan, crashed head-on into a street car. According to accounts received by the police, it was traveling at a high rate of speed and swerved to the wrong side of the street without apparent reason, hitting the street car.

DUNCAN PLANS PURCHASE OF BULK POWER

B.C. Electric Company Will Extend Power Lines if Rate-payers Desire

Ladysmith and Nanaimo Included in Power Plan Duncan, June 17.—The Duncan City Council last night unanimously endorsed an agreement which Mayor Mutter and Alderman Evans, chairman of the electric light committee, have negotiated with the British Columbia Electric Company Limited, for extension of the Company's power lines to this city and purchase of power in bulk, for distribution by the city. The ratepayers will shortly vote upon a by-law endorsing the agreement. Provided that a similar measure is adopted by Ladysmith, and the Nanaimo Power and Light Company also contract for power from Jordan River, the extension will be in operation before November 15, construction starting as soon as the preliminary agreements are signed. The extension will be from Nanaimo, where great cement works are operated by electrical power, to Nanaimo, and is expected to be a factor in developing in the area traversed a number of important industries which have been dormant for lack of power. GRADUATED CHARGE The company offers to construct the necessary transmission lines, to install step-down transformers and meters in the city's power station on Front Street and to sell power in bulk, to the municipality at the following rates: For the first 20,000 k.w.h., 4 1/2 cents per k.w.h. For the next 20,000 k.w.h., 3 3/4 cents per k.w.h. For all above 60,000 k.w.h., 2 1/2 cents per k.w.h. The city to guarantee to purchase current to the extent of not less than \$12,000 per annum. GREAT SAVING Alderman Evans, chairman of the electric committee, in an exhaustive report strongly urged the acceptance of the company's offer. He pointed out that the city would save \$10,700 per year in the closing down of the present plant, made up of a saving of the wages of three employees in the power house, and the cost of fuel and lubricating oil. The report showed that the present plant was loaded to capacity, and unless the proposed agreement was now entered into, it would be necessary to install an additional Diesel unit at a cost of \$40,000, and the annual carrying charges for this loan would amount to another \$3,500. The company's present offer was better by \$15,000 per annum than that offered some months ago, when the proposal was to extend the transmission line to Duncan only. MAY SERVE COWICHAN Alderman Evans also recommended that the city extend its lines to the neighboring municipality of North Cowichan, provided a franchise could be secured to cover the territory served. The extension would increase the amount of current purchased by the city at the 2 1/2 cent rate. The cost to North Cowichan consumers would be greater than in the city owing to loss in transmission, and might be as much as 5 cents per k.w.h. more than to city consumers. Mayor Mutter is being congratulated upon the success which has crowned his efforts to bring about a satisfactory agreement between the company and the city. He has spent much time in carrying on negotiations with the company. The offer made to Ladysmith is similar to that made to Duncan, except that the company's charge for cents per k.w.h. instead of 4 1/2 cents. On the other hand, the guaranteed consumption by Ladysmith will be less, being \$10,000 per year instead of \$12,000 in the case of Duncan. This alteration is said to have been made at the request of the Ladysmith council. As the inclusion of Nanaimo in the power distribution scheme has been a factor in securing for Duncan the lower rates now offered, the recent settlement of the miners' strike, and of great interest to Duncan. This Ladysmith residents, making probable the conclusion of agreements with the Nanaimo Power and Light Company.

BANKERS SAY CANADA IS DOING NICELY

PEOPLE WHO COMPARE

the economic condition of Canada with the economic condition of the United States very seldom stop to think that our neighbor actually grew rich through the war while this country inherited a debt of nearly two billion dollars.

In spite of a Canadian debt of nearly two and one-half billions of dollars, however, in spite of a population which is still short of ten millions, the men who direct finance in this country have reached the conclusion that Canada is assuredly emerging from the natural period of depression which her economic burden imposed and is strengthening her financial and industrial position.

Here is an extract from the June bulletin of the Royal Bank of Canada:

With Canadian currency at par, with annual exports nearly three times as valuable as in 1914 and imports only a third larger than before the war, with a decidedly larger proportion of our imports coming through our own ports and only half as much coming through the ports of the United States, Canada's position in international trade and finance is now far stronger than most people realize.

Bankers are the most conservative people in this and all other countries. When they show confidence in the business outlook, it is time for the rest of the people to drop their talk of blue ruin.

THE WRONG PLACE

UPPER YATES STREET is not a proper location for an undertaking establishment. In the first place it is right in the heart of some of the best residential property in the city and the neighboring residents are unanimously against such an innovation.

Undertaking establishments are very essential institutions. Those which operate in Victoria are of an exceedingly high order and are expertly conducted. But there is surely no occasion to permit them to invade residential sections, thereby detracting from the value of that kind of property.

There is a good argument for reconsideration by the City Council and while the question is under discussion it might investigate the desirability of establishing a zoning system such as that which operates in many other communities.

TWO TORIES DISAGREE

BRITISH COLUMBIA

Conservative members at Ottawa are finding it difficult to agree on the railway rates question. Mr. H. H. Stevens of Vancouver would abolish the whole of the Crow's Nest Pass Agreement and give the Board of Railway Commissioners an absolutely free hand in their business of readjusting the freight structure on the basis of equalization.

On the other hand Mr. Lader considers the Government's direction to the Railway Board as a "political affront" to British Columbia. Instead of permitting the Commissioners to set about their task with a plain instruction as to what they are to do, in an atmosphere which is economic and not political, this Vancouver member would have Parliament enact a number of agreements, including one determining a westbound rate on grain and flour, and thus complicate the Government's instruction for equalization.

ROYAL ATHLETIC PARK I WAS A FOREGONE conclusion that the taxpayers would pass the Parshalle Estate by-law and thus permit the City of Victoria to acquire the Royal Athletic Park.

This particular recreation ground is one of the most central of our open spaces and, although its size will not permit it to be used for such important events as are staged within the excellent oval at the Wil-lows, there are occasions when it has to be pressed into service.

CIVIC ANNEXATION

VANCOUVER AND South Vancouver will decide next Saturday as to whether the two municipalities shall become one or do business henceforward as Vancouver, or whether each shall continue to go its separate civic way for a little longer.

There is in this development across the Gulf a distinct interest for the City of Victoria and neighboring municipalities. Vancouver proper for a long time past has recognized the important economic advantages which would accrue to it from many standpoints if its population figures could embrace some or all of the several civic divisions which compose Greater Vancouver.

THAT HALF-HOLIDAY

MANY SUGGESTIONS have been advanced as to the best way of keeping business moving in Victoria all day on every week day. Short of completely abolishing the Wednesday half-holiday, and continuing the present closing times, the plan which one of our correspondents has proffered seems to come nearer to a temporary solution than many others so far.

HEALTH AND DISEASE

CONSTIPATION

Constipation or constiveness is the retention of faeces in the large bowels. This may be due to many causes, as torpidity of the bowels, which may run in families, sedentary habits, certain diseases and drug habits, and a diet that leaves too little residue.

Of first importance, however, is the desirability of reaching some arrangement whereby this city shall not miss half a day's business in the middle of the week while the tourist season is at its height.

The Garden and the Porch

AMERICANS, and especially those who live on Main Street, are front porch people.

When you go into older countries, for instance into Spain and Italy, you find few front porches.

The garden is concealed from everything, but it is open to the sky. You get outdoors and also privacy—two things which usually do not go together.

BEDTIME STORY

Uncle Wiggily and the Rag Doll

(By Howard R. Garis)

Copyright, 1925, by McEure Newspaper Syndicate

Once upon a time, as Uncle Wiggily was hopping across the fields to look for an adventure...

"Oh, you poor creature!" cried the bunny gentleman.

The doll wore a ragged dress, but this was as it should be, for she was a rag creature.

"Oh, you poor creature!" cried the bunny gentleman, picking up the rag doll. "What happened to you?"

"Well, my dear friend," sighed the rag doll, "I used to be owned by one of your little rabbit friends."

"Doesn't Jingle like you any more?" asked Uncle Wiggily.

"I'm afraid not," sighed the doll. "She left me out in the rain, which washed away most of my painted nose and mouth."

"I'm going to make you a new nose and mouth," said Uncle Wiggily.

ST. PAUL'S GARDEN FETE ATTRACTED MANY VISITORS

Mrs. W. C. Nichol Opened Garden Party Yesterday; Netted \$200

Mrs. W. C. Nichol performed the opening ceremony at a garden party given at the home of Mrs. W. C. Nichol, yesterday afternoon, at the residence of Judge and Mrs. J. C. McIntosh, on Oak Bay.

The grounds, prettily decorated for the occasion, were filled with many guests in gay Summer attire, and the weather left nothing to be desired.

The children had a merry time trying their luck at the fishpond, which Mrs. Applebee and Mrs. Head kept full of desirable "catches," or indulging in pony rides in the care of Major J. P. Fiddlington.

The evening's most enjoyable dance and card party was given, music was provided by Jack Pullen, violin, Miss Cecily Pullen, piano, and Douglas McClelland, organ.

Practically every church in greater Victoria has promised co-operation in the Bunde Day arranged for June 22 by the joint committee of the Save the Children Fund and the Canadian Armenian Near East Relief.

Y.M.C.A. FUNDS ARE HELPED BY FETE

One of the notably successful events of the season was the garden party held at the home of Mrs. D. D. Smith, 125 Wellington Avenue, yesterday afternoon, under the auspices of the Ladies' Auxiliary to the Y.M.C.A.

The artists who contributed to the success of the musical programme were Miss Mason with vocal solos, whose happy selections, "Carmena" and "Homing," will be long remembered by those who were privileged to hear her, and cornetist, Mr. G. H. E. Green, whose rendition of the ever-popular "Rosary" and a charming composition of his own, set to Tennyson's "Break, Break, Break," were rare musical treats.

Mrs. F. H. McGregor and a corps of young girls served afternoon tea, and the little flower girls were the Misses Doreen McGregor, Ruth Witter and Margaret and Betty Mazure.

The prize for the tennis tournament played by Mr. and Mrs. Taylor of 35 Wellington Avenue, the hand-embroidered luncheon set, contributed by Mrs. E. O. Weston, who conducted the guessing contest, was won by Mrs. Anne Duggitt, 1421 Grant Street.

The beautiful big box of candy donated by Wiper's was won by Mrs. Trotter, 231 Howe Street, and the fancy box of Orson's biscuits was won by Mrs. Lovthian, Mrs. Tuck also generously donated the magnificent sweet-meat, from the sale of which the little girls raised a tidy sum.

The Ladies' Auxiliary desire to thank all who so generously contributed to the success of the occasion, by donations by their services, their presence at the various functions, and the aid of the Y.M.C.A., and to the press.

GENTENARIAN STILL FINDS LIFE GOOD

Mrs. Amelia Burrett of Winnipeg is 102 Years Old; Commends I.O.D.E.

Winnipeg, June 17.—In her chosen abode at the Home for the Aged and Infirm at Portage la Prairie, Iowa, Mrs. Amelia Burrett, 102 years of age, a woman who has lived through the reign of four sovereigns and is enjoying the best of health while her 97th ruler heads the British Empire.

She has seen the West develop from an extensive prairie to its present population, its cities, towns and hamlets that were once a wilderness.

She has witnessed the creep of civilization from the Atlantic to the Pacific, and has pioneered with vigor in the southern parts of Manitoba, Saskatchewan and Alberta.

Mrs. Burrett first came to Manitoba in 1880 and took up a claim near Morden, Man. It is thought she was the first woman to hold a claim in the province. Engaging in sheep-raising, the venture was a success.

One of the happiest moments of her life, she says, was the day when western men first went to the polls to record their votes.

She commended the work being carried on by present-day women's organizations, mentioning in particular the work of the Imperial Daughters of the Empire.

"Life is good... I never weary of life," Mrs. Burrett concluded.

The daily test
SUPPOSE you tested everything before buying... S held it under searching light, examined it, turned it critically over and over. Not then could you feel so sure of it as of advertised goods you have never seen.
Wares advertised have already been tested. They have proved their worth under publicity that would have illumined defects. Thousands of buyers have tried them before you—and been satisfied. Without this satisfaction, they couldn't continue to be advertised goods.
That thousand-fold testing goes on each day. Advertisers invite it. They believe in their wares, and prove their wares justify belief by advertising to you daily.
Read the advertisements to know of the best—to protect yourself against unwise buying.

AT THE THEATRES

AUTHOR OF PICTURE NOW AT CAPITOL IS OUTSTANDING WRITER

Joseph M. Schenck Productions announce that Hans Kraly, who wrote "Her Night of Romance," which is now playing at the Capitol Theatre, for Constance Talmadge, has just contracted to write four more stories for Norma and Constance Talmadge. All the Talmadge productions will be released through First National.

The author has had a long career as a stage and screen dramatist. Born in Hamburg in 1884, he spent ten years on the legitimate stage as a singer and actor.

Just before the war Herr Davidson, head of Universal Film Action Gesellschaft, "discovered" Kraly's dramatic talents and engaged him, together with Ernst Lubitsch, previous to his association with U. F. A. Kraly had been writing stage and screen plays for about five years.

In recent years Kraly and Lubitsch have made "Carmen," "Passion," "Deception," "The Loves of Pharaoh," "Arabian Nights" and "Montmartre." Since coming to this country he has done "Rosa" for Mary Pickford, "Three Women,"

AT THE THEATRES

 Columbia—"Another Man's Wife."

for Warner Brothers, and has just finished "Czarina," on which he also collaborated with Lubitsch.

Kraly has recently brought to Hollywood one of the largest dramatic libraries in existence. The German section of this library alone consists of 5,000 volumes and also consists of the largest collection of dramatic works on the drama written in seventeen languages.

HOW CHARMERS WORK THEIR WIVES TOLD AT COLUMBIA THIS WEEK

As long as human nature remains unchanged, men and women will fall victims to the wiles of the opposite sex. How the charmers of both sexes work their wiles to undo others is graphically depicted in "Another Man's Wife," which will be shown at the Columbia Theatre to-day at 8:30. The story is by Ernest Lubitsch. Directed by U. F. A. Kraly, who has written stage and screen plays for about five years.

FAMOUS REGIMENT OF BRITISH ARMY SEEN IN DOMINION FILM

The "Black Watch," the most famous regiment of the British army, appears in scenes in Marshall Neilan's "The Sporting Venus," now showing at the Dominion Theatre.

When Neilan and his company, which includes Blanche Sweet and Lew Cody, went to England to photograph scenes for the picture in their exact location, the famous Black Watch was on parade, and inasmuch as he needed a shot of soldiers marching, the director prevailed on the commanders of the regiment to let his men appear in the picture.

"The Sporting Venus" is a Metro-Goldwyn-Mayer production adapted from a story by Gerald Beaumont.

TENSE DRAMA ON LIFE OF MAILMAN IN FILM AT COLISEUM THEATRE

Tense drama, written around the most dramatic of all living beings, the man who delivers mail to hundreds of families every day in the year, is proving to be highly interesting entertainment at the Coliseum Theatre, where Emory Johnson's latest F. B. O. production, "The Mail Man," is playing to crowded houses. Ralph Lewis proves to be a prima favorite, both to the adults who appreciate his supreme artistry, and to the children, who love the genial actor for his beaming smile and kindly eye.

GREAT SPECTACLE "QUO VADIS" COMING TO CAPITOL MONDAY

One of the greatest fire spectacles ever filmed for the screen is said to be that of the burning of Rome in Rome, on the actual scene of Nero's tyrannies. Below the balustrade of the Palatine, whereon stands the cruel Caesar, strumming his lyre, stretches forth a vast panorama of an entire city aflame.

Thousands of men, women and children are seen fleeing from their blazing homes, with what few most treasured possessions they can carry in their arms. It is a maelstrom of panic-stricken humanity battling for safety, for refuge from the terrible flames.

"Quo Vadis" will be shown at the Capitol Theatre next week. Emil Jennings, famed for his characteristic roles in "Passion," "Deception" and others, has the role of Nero.

FRANK MORTON AND HIS CLEVER COMPANY SCORE GREAT SUCCESS

Frank Morton and his clever company again come to the front with another light musical comedy, this week called "Ship Ahoy." Sailor boys and sailor girls, love lorn swains and crafty lasses are all intermingled in a delightful plot that is not allowed to lag for a moment during the action. Frank Morton is excellent in a light comedy role, that, in the hands of another actor, could be easily overdone.

Roy Earl furnishes a large share of the comedy in an eccentric character role. The comedian makes sprightly traveling companion, with Dave Dumbleton, Hilda Cooke, Eileen Bennett, Gretta Macartney and Anita Holt appearing in principal roles, as well as contributing to the musical end of the programme. Stan Mackay's setting this week is an excellent replica of a ship at sea. The screen feature, "Omar the Tentmaker" is a massive production built on the takes of the "Rubblyat." Guy Bates Post is impressive as Omar Khayyam.

GAS IN THE STOMACH IS DANGEROUS

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastric ulcers. Food ferments and sour, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Disburated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and heat right out of the body, sweeten the stomach, neutralize the excess acid and prevent further fermentation and there is no sourness or pain. Disburated Magnesia (in powder or tablet form—never liquid) is the best and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion. (Adv.)

MAKING MUSIC POPULAR

When the mountain wouldn't come to Mohammed, Mohammed went to the mountain. And since the public won't go to symphony concerts, these women are bringing symphony concerts to the public. They are Mrs. Artie Mason Carter and her assistant, Miss Marion Bowen, and they conduct Summer concert series in the Hollywood bowl, near Los Angeles, which Victorians, recently in the South, have visited. Crowds average 10,000 each, and tickets sell at 25 cents.

SAKATOON MEETING STATED VIEWS ON NOVA SCOTIA STRIKE

Saskatoon, June 17.—This mass meeting of citizens denounces the action of the Federal Government in sending troops into the Nova Scotia mine area and demands that the Federal Government at once institute complete Federal relief for the strike miners, their wives and children, and further insists that the troops at once be withdrawn from Nova Scotia.

This resolution, passed by a gathering of between 1,000 and 1,500 persons who attended a mass meeting under the auspices of the Saskatoon Trades and Labor Council last night, was wired to Premier King.

They admitted plotting to kidnap Mary Pickford, held in the Los Angeles jail, Claude A. Holcomb, Adrian A. "Billy" Woods and C. Z. Stevens say they would have demanded \$200,000 ransom. If they had succeeded, they add, they would next have kidnaped Pola Negri, Jackie Coogan and the two grandchildren of E. L. Doheny, oil king.

REV. DR. PIDGEON NEW CHURCH HEAD

Elected First Moderator of General Council of United Church of Canada.

Toronto, June 17.—Rev. Dr. George Campbell Pidgeon of Toronto, ex-Moderator of the Presbyterian General Assembly last night, was elected first Moderator of the General Council of the United Church of Canada.

Dr. Pidgeon was elected Moderator of the Presbyterian General Assembly when it convened here two weeks ago, and as head of that body led the concuring Presbyterians into the union with the Methodist and Congregationalists.

Rev. Dr. S. D. Chown, who before union was for many years General Superintendent of the Methodist Church in Canada, and who led that church into the union, introduced the motion last night which made Dr. Pidgeon Moderator. This motion was enthusiastically carried, and the action of Dr. Chown was described as the "noblest act of self-effacement in the history of Christianity in Canada."

DRAMATIC MOMENT

The election of Dr. Pidgeon provided one of the most dramatic moments of the deliberations of the council had so far produced. Earlier in the day it had been agreed there was to be a ballot, but no nominations, each member balloting for his own choice for Moderator. When Rev. Dr. W. H. Warriner, chairman for the evening, proceeded to business, Dr. Chown, who was on the platform, asked that no ballots be cast for him.

"I have passed the three-score years and ten," he continued, "and I could not bear to have this great church suffer by reason of any shortcomings in the service I could render."

"I move," he concluded, "that a ballot be cast by the secretary for the election of George Campbell Pidgeon as Moderator."

There was a burst of applause as Dr. Chown finished, which was renewed when the chairman said his noble and self-effacing statement in his stead. The great Moderator of the spirit of true Methodism.

Rev. Dr. W. G. Wallace seconded the motion, which was carried by a standing vote, with Rev. Dr. W. T. Gunn casting a vote for the Congregationalists.

DR. PIDGEON SPOKE

Dr. Pidgeon, amid another enthusiastic demonstration, then mounted the platform.

"We have just witnessed one of the noblest acts of self-renunciation in the history of Canadian Christianity," said Dr. Pidgeon. "I never dreamed of anything of the kind happening and for years I have lived in the expectation that Dr. Chown would be the leader of the new church. I am staggered by what he has done."

"As a period of prayer and consecration for the United Church it was recommended at the meeting of the council that the two weeks from October 4 to 18, inclusive, should be set apart."

WILLIAM MONTGOMERY MCGOVERN

The Oxford don who, disguised as a Tibetan laborer of the lowest degree, ago and wrote of his adventures in a book called "To Lhasa in Disguise," has gone to South America to gather material for a new book, which will have in it much about the ancient Inca civilization. Mr. McGovern was born in Georgia and spent most of his boyhood and young years in the Far East studying Buddhism and became a sort of honorary Buddhist priest. He returns to the American continent on the trail of new knowledge.

BROUSSON'S "ANATOLE FRANCE AT HOME"

"Anatole France at Home" is having a remarkable sale in England and on the Continent. So far the book has not appeared on the Canadian market but if the Continental sale of 100,000 copies is any indication of what its Canadian popularity will be, it will probably be a "best seller." The book will be ready early in July.

THERE IS AN OLD SCOTS STORY

There is an old Scots story about a young hopeful with a very large head, of which his fond mother said, "It's a grand head to was in a pulpit." Whereupon the more cynical father observed, "Aye, and it would be a grand head for a goalkeeper." That is an interesting story to have in mind when we read that "Another France's brain has proved to be of less than normal weight. It weighed 400 grammes less than the average weight for a Frenchman of ordinary size—and Anatole France was a tall man. Shelley's head was also very small. Someone once remarked that it was no larger than a cricket ball. Thackeray's brain, on the other hand, was very much beyond the average weight, a quite abnormally large mass of grey matter. So it seems that the size of a man's head proves nothing—It is quality and texture of the stuff inside the men's a good deal more. It was observed in the case of Anatole France, as in that of Gambetta, that the convolutions of the brain were much more complicated than is usual."

PENTICTON CROP TO BE BIGGEST

Vernon, B.C., June 19.—Speaking here to-day of conditions in the Okanagan Valley with regard to the crop outlook throughout the entire district from Vernon to Keremeos, J. Chambers, president of the Associated Growers of British Columbia, estimated the season's output at approximately last year's figure, 2,250,000 packages, or a \$3,500,000 crop.

"This figure covers, of course, that portion of the output handled through this organization, which represents 75 per cent of the growers of the valley," Mr. Chambers explained. Generally speaking, the outlook is good. It is going to be what we call a "painty crop" excellent in some districts and poor in others.

"The Vernon district is suffering from the unusual weather conditions which prevailed early in the winter, but Penticton should reap the biggest fruit crop in her history. A well-organized publicity campaign from Winnipeg to Vancouver and the introduction of several new features in packing and shipping are expected to boost markets for the present year's crop."

A WOMAN RUSHED WILDLY INTO THE STATION

Her train was pulling in and she wined two tickets to Duluth. She ran up to the booking office and, very much out of breath, said, "Toodle do looth."

"The clerk looked at her and said, "Ta la la."

THREE MEN FROM THE HEART OF WALES

walked into a hotel and asked for three glasses of vintage port. After drinking the first one said: "Look you; that's the finest glass of port wine I've neffer tasted!" The second remarked: "So did I also!" The third capped it with: "Neither did I, fool!"

LITERARY NOTES

Dean Inge, that master of sarcasm, has recently given the Americans at fate of his powers. The farewell message of any English lecturer who has finished his tour of the States usually contains much flattery. Dean Inge's audience is as follows: "Some of the newspapers complained that I was not sufficiently sensible of the honor of so much journalistic attention. If a modest man of letters, traveling as a private gentleman, ought to be grateful for having his privacy invaded at every hour of the day, for being described by a silly nickname, and for having his academic lectures on theology epitomized by reporters who perhaps know something about baseball, I must plead guilty to the charge of ingratitude; but on the whole I prefer my experience of Italian mosquitoes." He wonders if the British Ambassador at Washington was pleased.

ADVERTISING IS THE CURE FOR THE WORLD'S ILLS

Advertising is the cure for the world's ills according to Sir Charles Higham in Advertising. He advocates the formation of a government department of publicity, which will devote its time to instilling honesty, vigour and appreciation of democratic government into the populace via the press and the signboards.

On the outskirts of Hanover, N.H., a week or two ago, according to the Boston Transcript, two Dartmouth students fought a duel, surrounded by their friends and onlookers. Several shots were exchanged, and the witnesses were quite taken in until the duellists and their retinue fell laughing. The reason for the duel is easily found. Some one in the party must surely have been reading Stephen McKenna's "An Affair of Honour," which two Oxford students had merely taken a dish in all sport and merely to arouse the curiosity of the neighborhood. Undoubtedly the Dartmouth men wished for a little more excitement than they received. However, they may consider themselves fortunate that they did not arouse the excitement accorded Rex Cavan and Tiny Winttingham of Oxford.

THE ASSEMBLY WENT ON RECORD

The temperance question by passing the same resolution as was passed by the Assembly last year. This resolution expressed confidence in prohibition as the proper policy for Canada.

Rev. Dr. R. Johnston, Calgary, moved that the Presbyterian Church express the desire to work in harmony with all other Christian churches, particularly the United Church.

The Moderator thought this should wait a while, and the motion did not go to a vote.

The next assembly, it was decided, shall consist of one or three ministers and one or three elders.

The book of praise was referred to a committee of Assembly which is to safeguard Presbyterian interests.

The Assembly passed a motion of thanks to the Anglican, Baptist and other communions for their kind assistance in giving building accommodation to so many Presbyterian ministers.

NARROW ESCAPE

Nelson, June 17.—Cracking of flames in an adjoining untenanted cottage woke the eldest son of John Ollitt early yesterday morning, enabling the family of seven to escape safely from a two-story frame house on Victoria Street owned by Ole Harstad. Both buildings were badly damaged. Mrs. A. D. Pappasian, owner of the cottage, lost a valuable collection of European curios, accumulation of a lifetime.

DOLES IN BRITAIN HAMPER MIGRATION
 Woodstock, June 17.—That the work of securing suitable young men and boys to come to Canada as farm laborers was seriously retarded, account of the employment doles paid in Great Britain was the statement made yesterday by Col. Hemenway, chief secretary for emigration of the Salvation Army, who was here from London, England.
 "As soon as boys leave school," he said, "they are seriously retarded, they are said to be doing. This year there are 36,000 young boys in Britain who are satisfied to get doles instead of employment."

ERA OF GOODWILL TO FOLLOW FREIGHT RATE READJUSTMENT

Graham Tells Commons Government Desires All Parts of Canada to be Satisfied

Hon. E. M. Macdonald, Robert Forke and Others Share in Debate

Ottawa, June 17.—The debate on railway freight rates opened in the House yesterday afternoon. The bill a Government measure, gives statutory authority to the Board of Railway Commissioners to proceed with the equalization of railway freight rates, limited only by the Crow's Nest eastbound rates on grain and flour. Second reading of the bill passed the House easily. At that stage, contrary to expectation, there was no debate. But in committee of the whole discussion was protracted, and the debate was adjourned until today.

CONDITIONS CHAOTIC

The result of varied decisions by the Railway Commission and the Supreme Court of Canada, said Mr. Graham, had created a chaotic condition, which was indescribable in some parts. "It was a situation which could not be tolerated. The present bill before the House was to provide for removal of discrimination and to empower the Board of Railway Commissioners to equalize rates as far as possible. Mr. Graham gave examples of the discrimination in rates which existed as a result of the last judgment of the Supreme Court to show how impossible the situation was. He said that while the rate on agricultural implements from Hamilton to Saskatoon was \$1.59 per 100 pounds, the rate from Brandon to a point an equal distance in the West was \$1.39 per 100 pounds. The rate on binder twine from Hamilton to Winnipeg was 7 1/2 cents per 100 pounds, while from Welland to Winnipeg it was \$1.14.

REDUCTION ON GRAIN

Hon. H. H. Stevens, Conservative, Vancouver Centre, asked why, if the scope of the Crow's Nest Agreement could be extended so as to make it applicable to territory northward of the original C.P.R. lines, it could not be extended westward so as to include British Columbia. Mr. Graham replied that the Crow's Nest Agreement in its application to the prairie provinces dealt only with eastbound traffic. This principle was being carried out in the legislation. The Crow's Nest Agreement provided for a reduction of three cents a hundred pounds in the rates on grain and flour shipped from the prairie provinces eastward to Fort William or farther Eastern points. Under the new bill, this principle was maintained.

Right Hon. Arthur Meighen said that under the new bill, while the three-cent reduction went into effect on shipments to Fort William, it was possible for the rates Eastward from Fort William to be so raised as to nullify the effect of the decrease. Mr. Graham declared that in this respect there was no change from the former bill. The three-cent reduction on grain and flour shipments from the prairies to Fort William and Eastward was maintained.

GOODWILL DESIRED

The Government was endeavoring to get as far as possible from the making of rates in Parliament, he said. What was needed was a compromise attitude in order to get rid of some of the complications out of the rate situation. When the Railway Commission undertook to revise the rate structure it would take into consideration the new transportation condition between the prairies and the Pacific coast and the claims of the Maritime Provinces, based on the Confederation pact for access to the markets of Central Canada. The government had only in view better feeling in all parts of Canada on the freight rate question. It was hoped that under the legislation before the House, the Railway Commission would create better freight conditions and a feeling throughout Canada that all parts had been given a fair show in the making of rates. J. T. Shaw, independent, West Calgary, said that ordinarily he

would agree that the fixation of freight rates was primarily a matter for a trained body of men such as the Railway Commission. Was there anything in the present situation which placed it in an extraordinary class? He thought there was, and that was the relation of the Crow's Nest Pass Agreement to the Canadian freight structure. The Crow's Nest Pass Agreement had been entered into because Parliament wished to give the West relief from excessive freight rates.

FOR WHOLE OF CANADA

Hon. E. M. Macdonald, Minister of National Defence, declared it was imperative that the Government take action in the form of legislation which it had introduced. The legislation proposed was in the interests of the West and the whole of Canada. Mr. Macdonald disagreed that any amendments to the bill introduced a few days ago would act to the detriment of British Columbia.

J. A. CLARK'S VIEW

Brig.-General J. A. Clark, Conservative, Burrard, said the Conservatives would agree that wheat and flour were entitled to special treatment in the matter of freight rates. But what was the reason in making discrimination between grain going east and grain going west? He asked. "The legislation favored the ports of Buffalo and New York as against Vancouver, he said.

L. J. LADNER SPOKE

L. J. Ladner, Conservative, Vancouver South, said one thing was definitely set out in the legislation. The Crow's Nest rates on grain and flour moving eastward were retained. It was clear there would be no similar rates on grain and flour moving westward from the prairies. This he regarded as a "political affront" to the people of British Columbia. On what principle was the privilege of low rates granted to grain moving eastward and withheld from grain moving westward?

NOT AFFECTED ADVERSELY

Hon. G. F. Graham replied that the Crow's Nest Pass Agreement was being permitted to remain on the statute books insofar as grain and flour were concerned. The Crow's Nest Pass Agreement had never affected British Columbia. British Columbia was not affected adversely when the adjustment of rates was made.

Mr. Ladner contended that the Crow's Nest Agreement vitally affected British Columbia. With the Panama Canal open, there was a tendency for export products of the prairies to move west as well as east. The Government was not retaining the Crow's Nest Agreement; it was cancelling the rates on eleven articles mentioned in the agreement. If this could be done, why was it not possible to give British Columbia the same grain rates as the East? They were the same commodities moving over the same roads, but in different directions, Mr. Ladner said.

FORKE'S ATTITUDE

Robert Forke, Progressive leader, said many hundreds of thousands of people had gone into the prairie provinces with the belief that the Crow's Nest Agreement was a permanent thing.

In answer to L. J. Ladner, Mr. Forke said he would like to see the Crow's Nest rates established on grain moving west just as on grain moving east.

"I am willing to give the British Columbia members exactly the same treatment on grain hauled West as East," he declared.

He quoted rates illustrating that on certain commodities, such as binder twine and agricultural implements, the western rates were higher between certain points than the eastern rates between other points approximately the same distance away.

He pointed out that in connection with the rate agreement between the Government of Manitoba and the Canadian Northern Railway, the Province of Manitoba would have nothing to do but pay the costs of the litigation which it had entered into in respect to this agreement. The bill before the House scrapped the old Manitoba agreement.

TO END DISCRIMINATION

Neither the railways nor the Government could allow the present discrimination to continue, said Mr. Forke.

"The West wants rates fixed by agreement," said Mr. Forke. "We have had a contract for twenty-seven years, and now we are asked to give it up. We are asked to trust to the Railway Commission, which would have wiped out the agreement had it had the power to do so. I am inclined to stand solidly behind the agreement until we know what we are going to get."

NO HOSTILITY

In seeking the advantages which the West did under the Crow's Nest Pass Agreement, stated Mr. Forke, the prairie provinces were not animated by any feelings of hostility towards other parts of Canada or the railway companies. The railways and the people of Canada were inseparably bound up in the future of the country. The solution of the railway problem was linked up with the question of the development of Western Canada.

In the prairies there was room for expansion and the prosperity of that part of the country was vital to the rest of Canada.

The West, declared Mr. Forke, was paying its full share of rates at the present time, in his opinion, and no other part of Canada was being sacrificed through Crow's Nest Agreement rates being in force.

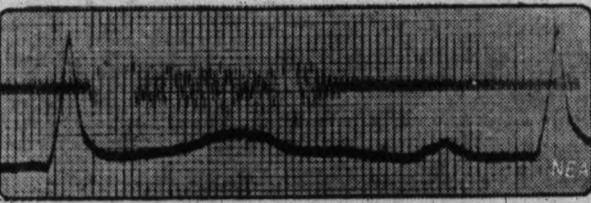

HUDSON BAY PORT

In the not far distant future it was hoped the prairie provinces would have a port to the north of them which would be of great assistance to them.

It was vital at the present time that the prairies should have the best rates possible east and west.

STEVENS SPOKE

Hon. H. H. Stevens, Conservative, said no one would agree the bill before the house either solved or offered a compromise on the freight rate problem. In fact, it would accentuate the feeling of discrimination in some parts of Canada. Freight rates should be dealt with by the Railway Commission. If the Government had stuck strictly to that principle, he said, it would have been

HEARTS BEATS BY WIRE.—Dr. H. S. Williams, at a medical convention in Atlantic City, made this chart of a patient's heart beats and telegraphed it to Chicago, where Dr. J. R. Greer had it seven minutes later. That night Dr. Greer called him by long distance phone and made a complete diagnosis.

satisfactory, but instead an extract from the old Crow's Nest Agreement had been perpetuated, when the entire statute should have been repealed.

Mr. Stevens favored the supreme control of the freight rates making power by the Board of Railway Commissioners, and the complete abrogation of the Crow's Nest Pass Agreement. The board was not being given a free hand, he said. Its hands

were tied in respect to the rates on wheat and flour. If the Government argued that it was bound by part of the Crow's Nest Pass Agreement, then, Mr. Stevens argued, it was bound by the whole agreement. It felt justified in scrapping part of it, then it should feel justified in scrapping all of it.

B.C.'s CASE

Mr. Stevens asked that the province of British Columbia be af-

forded an opportunity to plead its cause upon a fair basis. As the situation now stood, it was being deprived of the possibility of doing so, he said. Under the bill as introduced by the Minister of Railways, the whole aspiration of the province of British Columbia and its hopes for equitable treatment were "destroyed and proved to be a dream and a snare."

Mr. Stevens declared the Railway Board should be "free and unhampered" and that the Crow's Nest Pass Agreement had in his opinion, outlived its usefulness.

REDUCTIONS COMPARED

F. N. McCrea, Liberal, Sherbrooke, Quebec, did not consider it was fair for the prairie provinces to have the benefit under the Crow's Nest Agreement of a reduction of thirty-five per cent on basic commodities, and the other parts of Canada have only a six-per cent reduction. He considered it advisable to pass the proper legislation to place the fixing of all freight rates in the hands of the Board of Railway Commissioners.

He quoted statistics which he said showed Quebec and Ontario were paying 7 1/2 per cent "of the total cash contributions to this country."

WHEAT NOW STAGES A LITTLE COMEBACK

Winnipeg, June 17—After recording a recession of twenty-two cents a bushel from the high point of last week, the market started out this morning to regain lost ground.

The high for the day was 167 1/2¢ for July and 139 1/2¢ for October.

The almost drastically bearish sentiment which the market displayed during recent sessions was reversed to-day and a much better bit tone was in evidence.

The coarse grains followed the trend of wheat, and prices advanced from one cent to four cents.

Mr. Graham stated he had received a telegram saying only one line had increased its rate on cattle and that that increase had been withdrawn immediately.

CROWN TELLS AMAZING STORY OF RUM-RUNNING IN BAKER-SOWASH CASE

Smuggled Liquor by the Bottle, Sack and Carload Was Run Into Seattle at Will Say Crown Witnesses. Fourteen Witnesses Heard for the Prosecution and Seven More to be Called. Grand Jury Indicts Five Accused and Frees One.

In an all-day session yesterday the trial of Rex vs. Baker and Sowash, jointly charged with the murder of Captain W. J. Gillis, was advanced to a stage where two-thirds of the Crown witnesses had been heard before the court adjourned until to-day. Fourteen witnesses took the stand for the Crown, and seven more have to be heard before the defence will open. Paul Carl Stromkins, chief witness for the Crown, has yet to be heard.

The evidence adduced for the Crown was an amazing story of the steadiness of the flow of imported liquors into Seattle and generally across the border line. Boats capable of high rates of speed kept up almost scheduled sailings across the border with hatches full, the court was told. Crown witnesses pointed Baker out as the man who wanted liquor caches salvaged in the Gulf Islands, and associated Sowash with that accused in the same venture.

BAKER IS WATCHFUL

Tactful and watchful Owen Baker presents an emotionless front to the Court and takes notes on a pad of paper with the same calm, unshaken deliberation that characterized his bearing at the preliminary hearing.

Sowash has confined himself to fragmentary answers when addressed in the course of the trial and appears to be somewhat embarrassed by being the centre of many eyes in such grim, unjesting surroundings.

Both men give evidence of strain their incarceration has had upon them. While in the dock, they are surrounded by a cordon of police officers and are guarded on all sides. Baker, on such occasions, shows an impatient desire to get out of range of waiting cameras and usually draws his guard hurriedly after him into the police cars.

SALVAGED LIQUOR

Albert Clausen proved the most keenly contested witness of the afternoon. R. C. Lowe cross-examined him at length. Clausen said he knew Baker over a term of three years, starting in 1922. Employed at a garage of his own and later at the M and S Machine Shop, Seattle, witness said Baker called on him on September 16 or the day following and asked him to use his boat, the Dolphin, to recover liquor caches in the Gulf Islands. Clausen was offered "his cut" for this work, and came to terms on the understanding that the cut would be one-third of the proceeds of the salvaged liquor when sold.

Clausen took Baker and others to the Gulf Islands and recovered "sack" after sack of the liquor from the water. Some sacks were broken up and the bottles had to be re-packed. Sowash joined in this work. Several caches were made and a part of the cargo was jettisoned when the Dolphin was chased by the U. S. Cutter Arcata. Witness was fined \$15 for running without lights, but as he had "ditched" the cargo nothing more serious happened. The Dolphin called at Sidney Island, Moreby Island, Gouch Island and South Pender Island.

Sowash, said Clausen, was left at South Pender Island with Thorsten Paulson to re-sack and re-mark some of the liquor. The Dolphin, with Baker and Clausen on board, ran twenty-two sacks to Linnim Island, fifty-seven sacks to Cyprus Island and more to Anacortes. Part of the last named cache was sold to a man named Earl Whitcomb at Anacortes. Clausen admitted frankly he had been identified three years in the rum-running business.

He identified a can of green paint said by the Crown to have been used by Sowash in marking the new sacks, and said he saw Sowash applying the paint with a stick. "It" was marked for "Teacher's Highland Cream," and other initials for other brands. While staying the night with Baker at the New Wilson Hotel at Anacortes witness said Baker bought a paper in which he, Clausen, read an account of the Beryl G hijacking. Baker did not comment on the story, but Clausen asked Baker where he got the liquor they were going to run, and what he had done with the old man and his son.

WERE "MAROONED"

He was given by Baker to understand that Captain Gillis and the boy had been marooned on an uninhabited island. The way Baker had put it was that they had been "put off there," and witness did not worry about that circumstance as he thought they would be rescued by the first passing boat. Under cross-examination by R. C. Lowe, Clausen stated that he had obtained load after load of beer from Paul Stromkins during three months prior to this incident. Clausen said he had secured cargoes of beer from Stromkins at Discovery Island, Barry Island and Sidney Island, but had never seen Stromkins deal in whisky. For three or four months Clausen said he had been Strom-

paid actually \$45, whereas he should have received \$80. Howard Chapman, testifying to a photograph taken of the hull of the Beryl G, was dismissed without questioning.

WANTED GOLD BUTTONS

Harold P. Kerigan, clothing salesman for the Wilcox Company, Seattle, identified Baker as the man who called at the store on August 22, 1924, and asked for a naval cap. Witness had asked, "What line?" and Baker had replied, "Line, Hell! No line. I am running rum down from Seattle," and added that he wanted gold buttons as he wished to give the Federal agents "something flashy to look at at night." Witness remembered the incident the better as he let the customer go without remembering to charge for the white cap cover.

THE DOCTOR'S CASE

Earl F. Whitcomb, resident of Anacortes, said he bought \$300 worth of liquor from Baker and took delivery of five cases at Seventh and R Streets, Anacortes. He described the sacks delivered and each sack was marked with a large green letter denoting the brand. It was a sack marked "T," for Teacher's whisky, that witness identified as one he had sold to Dr. Frost, an Anacortes physician. Witness said Baker \$120 down and gave the balance to "one of his gang."

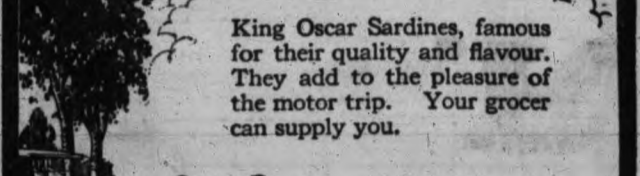

Running the liquor in one and two-cube lots into Seattle in a closed coupe, witness said he reaped the benefit of this enterprise and got his money back. Sixty dollars a case was the price he paid Baker for the lot. A man named Vivian and another man named Olsen, both of

FIVE ARE INDICTED

Returning late yesterday afternoon, the Grand Jury found true bills in five cases and a no bill in one, thus completing their investigation into the criminal side of their duties. In Rex vs. George Paine, no bill was returned, and that accused was freed. In Rex vs. Frank R. Brooks, arson; Rex vs. Harvey McAdam, statutory offence; Rex vs. Annie Clausen, perjury; Rex vs. Ibrahim Singh, procuring, and Rex vs. Joe Bailey, receiving stolen goods, true bills were returned.
