To : Chief of Hiroshima Finance Bureau

From : Yasumaro Urabe
Chief of Fukuoka Coal Board

Subject : Application for the Exemption of Former Hikari Naval Arsenal Tracks from Designated Reparation.

Dear Sir:

Miike Colliery, who comes under our jurisdiction has submitted to you an application on the above subject as stated on the accompanying sheet.

Pertaining to the urgent demand of rails, it has been actually acknowledged by the present operating Coal Mine Special Investigation Party upon field investigation in Miike.

We too, feel greatly the need of a plan for urgent measures, but we are in a condition that we cannot hope for an immediate appropriation with the present coal mine department's limits. Therefore we ask of you for your very kind consideration upon this subject.

Yours respectfully,

Y. Urabe

1. Attached herewith application from Takeda Pharmaceutical Industries Ltd. for temporary use of a chimney located in Hikari Naval Arsenal, which is a reparations plant.

2. Takeda Pharmaceutical Industries Ltd. have permission to use portion of the land and buildings of Hikari Naval Arsenal, and at present are constructing a new factory for the manufacture of sulphathiazal.

3. The chimney required has not been inventoried for reparations, but has been marked as part of an integrated facility (open hearth melting furnace), and the approximate weight is 40 tons.

4. Due to the shortage of both cement and steel plates, it is almost impossible for this firm to build a new chimney, and the chimney at Hikari Naval Arsenal is only one in the area suitable for this factory.

5. In view of the above circumstances and the fact that sulphathiazal is an important drug required

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

in Japan, it is strongly recommended that this chimney be exempted from reparations.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

Hikari, Jan. 31, 1948.

To: Yamaguchi Military Government Team

From: Hikari Plant, Takeda Pharmaceutical Industries, Ltd.

Re; Petition for the temporary use of a part of integrated facility

We beg to petition your authority to kindly permit us the temporary use of a part of integrated facility located at Ex-Hikari Naval Arsenal as per the particulars undermentioned:

Integrated facility No:	:	45-4-7CI
Name and particulars	:	Steel Chimny, 50 meters in length, 2.3 meters in average diameter
Use for	:	For Sulzol(sulfathiazol) plant located at No.G area of Hikari Plant of Takeda Pharmaceutical Industries, Ltd., Hikari City

Hikari Plant,
Takeda Pharmaceutical Industries Ltd.

T. Nakamura

		plant located at No.6 area of Hikari plant of Takeda Pharmaceutical Industries, Ltd., Hikari City

Hikari Plant,
Takeda Pharmaceutical Industries Ltd.

(ICHIRO TSUKAMOTO)
Chief of Yamaguchi Finance Bureau

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

Additional remarks referring to the
chimney applied for temporary use

1. Location: At the Steel Shop in Ex-Hikari Naval Arsenal

2. Size & type Iron chimney, 2,060 mm. in dia. at the top, 50 meters in height
Approximate weight: 40 tons without fire brick.

3. Boilers to be connected with this chimney:
a. Type "Kewany" type, heating surface 183 m2 and 140 m2 each.
b. Quantity of coal 600 kgs/hour and and 450 kgs/hour each.

4. I more boiler will be added to the above in future.

5. Capacity of chimney suitable for the 3 boilers above mentioned:
1,600 mm. in dia. and 50 meters in height

6. As the quality of coal available nowady is inferior (4,000 to 3,500 calory), size of the chimney must be bigger than that of Item No.5.

7. Due to the reasons above mentioned, the size of this chimney is quite suitable for our use.

The reasons we want this chimney: Sulzol (sulfathiazole) is authorized by GHQPH and Welfare Ministry of Japanese Government as one of the most important medicines in Japan at present, and to meet with this requirement we are doing our best to speed up and complete the construction of the plant up to the end of April at least. Should we be forced to build the necessary chimney newly, ~~XXXXXXX~~ we must wait another 4 months to have the new chimney. Supposed we build the new chimney with cement, it is almost impossible to buy the cement necessary for the construction of chimney, and this is quite same in the case of iron chimney.

Hikari Plant,
Takeda Pharmaceuitcal Industries Ltd.
Hikari City.

Petition for Exemption from the Reparation List.

1. Location of the Reparation Object in question:

Installed in No.2 Transformer Substation in the premises of Hikari Plant, (Ex Hikari Naval Arsenal) Takeda Pharmaceutical Industries, Ltd., Mitsui, Hikari City, Yamaguchi Prefecture.

2. Specifications of the Reparation Object in question:

Registered list number:	45-4-589 and 45-4-3481
Name:	Three-phase transformer.
Capacity:	10,000 KV.A. each
Number:	2 sets.
Use:	Supply of electric power to plants and Hikari City.

3. Reasons for the Exemption:

a. Immediately upon receipt from you on the 20th May, 1946 of the written permission (copy of which is annexed hereto) for the utilization for peace work of a part of Ex Hikari Naval Arsenal, we went to work upon the conversion. From November operations were commenced one after the other and the Plant has since then contributed largely to the promotion of the public health in this country by carrying through the production of various biological preparations indispensable for the prevention of epidemics according to the directives of the Allied Forces and Public and Welfare authorities of the Japanese Government.

b. The electric powers required for the production in the Plant is being supplied by the Chugoku Power Distribution Co., Ltd. who are left by us in charge of the operation of No.2 Transformer Substation (inclusive of buildings and installations) in the premises of our plant. The power is being supplied from this substation to Hikari City, Hikari City Water Shed, Hikari Hospital and Hikari Plant of the Hiroshima Railway Bureau, Asahi Salt Co., Ltd. and others for all industrial and domestic purposes.

c. The current supplied from the substation runs up to the following (as of October, 1947).

Hikari City (for lighting 16,329 lamps in 8,045 houses)	218,780 kwh.
Hikari Plant of Takeda Pharmaceutical Industries, Ltd. (for production of various vaccines, sera, etc.)	90,600 "
Hikari plant of the Hiroshima Railway Bureau & Hikari City Water Shed:	64,765 "
Asahi Slat Co., Ltd.	84,610 "
Other plants and works.	1,425 "
Total:	460,380 "

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The livelihood of 40,000 citizens and production in all industrial establishment in Hikari City including our Hikari Plant are entirely dependent upon the current to be supplied by said substation.

d. We are informed that the Transformers installed in the Substation (registered No. 45-4-3481 and 45-4-589) have been designated as the object of reparation. We have not the least objection to the reparation designation for which the Japanese nationals have been placed under an obligation as a matter of course. However, the said Substation is the important establishment on which hangs the very fate of 40,000 citizens and said plants, and the withdrawal of the said transformer will become a serious menace to the livelihood of 40,000 citizens and productions by said plants, as the situation permits of no suitable substitute for it. This is why the case was laid before you by the interested parties some time ago.
It is earnestly hoped that the object in question will be exempted from the reparation list by virtue of your authority. You are respectfully asked to give our present awkward situation your kind consideration and use all your influence in having the said transformer exempted from the designation for reparation.

Yours respectfully,

Chobei Takeda

(Chobei Takeda)
President, Takeda Pharmaceutical
Industries, Ltd.,

SYM/th

KFL No. O-83 23 May 1950

To : Chugoku Civil Affairs Region
Attn. Economic Section

Subject: Report on Reparations Machines in Use by 77 Sqn, RAAF, Iwakuni

1. It was pointed out by Mr. Stradley of your office at his inspection of the former Hikari Naval Arsenal on 5 May 1950 that the present user of the following reparations Machines is not the same with that which is indicated in the authorization of SCAP dated 7 July 1947.

Engine lathe, code No. 45-4-1640

Drilling machine, upright, code No. 45-4-1736

Tool grinder, universal, code No. 45-4-1885

2. The Hiroshima Office of the Chugoku Finance Bureau reports in its letter Chu-Zai-Bai No. 73 dated 16 May 1950 that the original user of the three above indicated machines approved by SCAP letter dated 7 July 1947 is 81(F) Wing, RAAF, BCOF, Bofu but later change was made in accordance with a list of Yamaguchi Military Government Team dated 31 January 1949 into 77 Squadron BCAIR, Iwakuni, Yamaguchi Prefecture as using unit of the above machines of which the Hikari Reparations Branch was informed in a letter of Yamaguchi Prefectural Branch of the Finance Bureau dated 1 February 1949.

3. The above for your information.

29 November 1950

SUBJECT: Report of Field Trip, Hikari City, Yamaguchi Prefecture, 14 November 1950

TO : Chief
Economics Section

PREPARED BY: Robert P. Lord, Distribution and Industry Division.

MANUFACTURING AND INDUSTRY FILE 45-4 Dec. 1

1. REFERENCE:

Paragraph 3b, O.D. 11, 10 April 1950.

2. PURPOSE:

Inspection of reparations equipment at Hikari Naval Arsenal.

3. BACKGROUND:

Routine.

4. DISCUSSION:

Reparations equipment in use from this installation is as follows:

Hiroshima Railway Bureau	- 184	Auth. Use
" " "	- 53	Temporary Use(Applied for AU 6 Feb.50)
" " "	- 24	Temporary Use(Applied for AU 7 Feb.50)
Takeda Pharmaceutical Co.	- 55	Auth. Use
" "	- 20	Temporary Use(Applied for AU 1 Feb.50)
Asahi Salt Company	- 49	Auth. Use
" "	- 28	Temporary Use(Applied for AU 7 Feb.50)
Hikari Municipal Office	- 9	Temporary Use(Applied for AU 8 Feb.50)
Shimonoseki Railway Bu.	- 14	Auth. Use)
Kawasaki Heavy Industry	- 10	Auth. Use) Outside of Arsenal
Harima Shipbuilding Co.	- 2	Auth. Use)
Total No. in use	448	

There are 1028 items of reparations equipment which have been applied for scrapping. These items have been inspected by CPC.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

5. CONCLUSIONS:

Inspection of equipment in the arsenal revealed poor maintenance at Asahi Salt Company. Plant manager was told to apply needed maintenance to equipment in use. Equipment at Takeda Pharmaceutical Company appeared in good condition as did equipment at Railway Bureau.

6. RECOMMENDATIONS:

Action by Civil Affairs in regards to outstanding applications by Japanese requesting authorized use of temporary use equipment. Majority of these applications were submitted in January and February 1950 but no reply has been received by respective companies. Special report will be prepared in this section and forwarded to CAS/SCAP.

CCAR 319.1 (D-St) 14 October 1950

SUBJECT: Report of Field Trip, Hikari City, Yamaguchi Prefecture, 12 October 1950.

TO : Chief
Economics Section

PREPARED BY: E. Kawamura, Distribution & Industry Division.

1. REFERENCE:

O. D. 11.

2. PURPOSE:

A conference with Hikari Finance officials and inspection of Hikari Naval Arsenal (Mil Ars 45-4) for confirmation of the extent of typhoon damage and correctness of the report.

3. BACKGROUND:

An application had been submitted to this headquarters from Tokuyama Finance Office for the use of Reparations fund to repair the damage done by Kezia typhoon.

4. DISCUSSION:

Overall typhoon damage claimed by Hikari Finance Office:

Total area of roof damaged:	480 sq.m.	(54.45 tsubo)
Total area of siding damaged:	960 sq.m.	(290.4 ")
Total	1,440 sq.m.	(344.85 ")
No. of buildings damaged:	Large Blg.	1
	Small Blgs.	14
	(completely collapsed,	2)
	(Others	12)

NOTE: Two completely damged buildings are as follows:
